under) sectors can since the Act of the
C.-Q.-L - coll.

There is a new development here &
I have heard that people who can't
be identified, see the names of their
representatives long ago in Canada
they told a detective on the
face here so it was known

My son and I were on April 21st
at 4:40 P.M. and saw from about
both like - It is like a small
Pilot-less plane - very bright metal
no - motor noise will look like
picture of the German Pilot-less
plane. The engine was still stopped
and very bright metal. It flew
along the Credit River out of sight.
Gone from the Terra -

Later at 5:10 P.M. - saw
second one same about similar
direction and fell - all well

the metal wings were small & the
windmill broke & it fell on the ladder
like sheet of metal dropping at the end

It could be clearly seen & I was
very clear day - we occupied the hall
floor of an apartment here. The hall
window is direct view of the Ocean.
We had a full count of three men &
a light - there is a slight consideration
of possibly using a net account I think
it would be a good idea to have a
large boat & a boat to go along with
it with present circumstances.

Told Mrs. Peacock we reported
one major fault near a far distance
from the - in a dense foggy
weather so further up north for us
decided no further up north for us
otherwise in view of Colossal changes
with the weather & the difficulties
in full T. E. - plus difficulties
respect to the return to M. about

On account

SUBJECT: Flying Discs

TO: Commanding General, Air Materiel Command, Wright-Patterson Air Force Base, Dayton, Ohio
ATTN: MCI

MRS.

1. The attached correspondence from Miss ██████████, of Wildwood, New Jersey, pertaining to Flying Discs, is forwarded for your information.

2. Attached herewith is copy of this Headquarters' direct reply to her letter of 23 April.

BY COMMAND OF THE CHIEF OF STAFF:

2 Incis.

1 - cy of ltr to ██████████ dtd 6 May
2 - ltr fm ██████████ dtd 23 Apr. w/incls.

GEORGE D. GARRETT, JR.
Lieutenant Colonel, USAF
Acting Chief, Collection Branch
Air Intelligence Requirements Division
Directorate of Intelligence

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS UNITED STATES AIR FORCE
WASHINGTON

12 May 1948

Mrs. [REDACTED]

Wildwood, New Jersey

Dear Mrs. [REDACTED]

Your letter of April 23rd to Mr. [REDACTED] with its inclosures, has been referred to this office during his temporary absence and we wish to thank you very much for your patriotic interest.

We assure you, Mrs. [REDACTED], that rather than being treated lightly, your reports of information concerning unusual aerial phenomena have in every case been studied by those persons concerned with such matters.

We sincerely hope that you will continue to send any further reports of these sightings, should they occur, to the Air Materiel Command, Wright-Patterson Air Force Base, Dayton, Ohio.

Very truly yours,

To Col McCoy

From:

Wildwood, N. J.

JOEL E. MALLORY
Colonel, USAF
Acting Chief, Air Intel Req. Div.
Directorate of Intelligence

July 17th/48

This is to inform you that there is activity in Wildwood again and after several week's absence - the saucers have been appearing since July 1st, the enclosed from a recent "Life" gives almost a perfect reproduction of what we see here. The color is the same as a gaslight. It would be advisable to watch over Wildwood.

/s/ Sincerely

NOTES This longhand note was sent on USAF ltr to McCoy

SUBJECT: Unidentified Aerial Objects

NOV 4 1948

TO: Commanding Officer
Langley Air Force Base
Langley Field, Virginia
ATTN: Base Intelligence Officer

1. This Headquarters has received numerous reports of sightings of unidentified aerial phenomena alleged to have been seen in the area between Wildwood, New Jersey and the vicinity of Norfolk, Virginia, during October 1948.

2. It is requested your office be alerted in order that an immediate investigation may be made of any future sightings reported from this area.

3. As an aid to the investigating officer, we are inclosing two (2) copies of our Essential Elements of Information forms to be used as a guide when securing the desired data.

ATTENTION: AC/AS-2
Lt. Col. George Garrett

1. The specimens of the alleged "Flying Saucers" brought to this Command by Col. McCoy, as apparently furnished by the FBI and given to Lt. Col. Garrett, were examined to determine their connection, if any, with the so-called "Flying Saucers". The specimens were carefully examined by both technicians of the Analysis Division and Electronics Sub-division of Engineering Division. The latter organization stated that these specimens definitely had no connection whatsoever with the "Mogul" project nor with any other research and development project of this Command.

2. It is also the opinion of this Command that these specimens have no connection with the so-called "Flying Saucer" or "Discs". These specimens, therefore, are considered as part of a hoax that could be perpetrated by most anyone seeking publicity or for any other reasons.

XXXXXXXXXXXXXXXXXXXX

3. The specimens shown in the attached photographs include fragments of an undeterminable shape made from plaster of Paris or similar ceramics and containing some electrical resistance wire for measurements purposes. The condition of the ceramic indicates that the resistance wire was heated electrically at one time or another. The other articles at the top of the photograph reading from left to right are identified as follows:

a. An outmoded type of magnetic spektra diagram made of aluminum alloy, manufactured by The Nathaniel Baldwin Co., of Salt Lake City, Utah, which was patented May 1, 1910 and cannot be connected with any AAF project.

UNCLASSIFIED

b. The second and third articles are bakelite coil forms wrapped with ordinary thin enamel copper wire. These coils indicate that they were skillfully made at one time but were crudely ~~wire~~ rewired by one not familiar with the art of making a coil. These coils also have no connection with any AMC project.

c. The fourth article is a metallic box which is the remains of an electronic filter condenser made by the Polymet Manufacturing Co. of New York, N. Y. This article also has no connection with any AMC project.

d. The fifth article is the remains of a metallic magnetic ring that could not be identified as any part of any device used at this Command.

4. This information and attached photograph may be transmitted to the FBI to inform various agencies throughout the United States as to what action they deem necessary to take in the event of other similar specimens brought to their attention.

Incident #33 -- Hackensack, New Jersey -- 3 August 1947

It seems clear that no astronomical interpretation can be given to this incident.

Information is so meager that little else can be said. If the object observed was only 200 yards away, it would seem that witnesses could have furnished much more detailed information.

Mrs. ██████████
██████████
Wildwood, New Jersey

Dear Mrs. ██████████

With reference to your letter of 27 March 1943, this is to advise you that Major M. W. Faulk left suddenly on leave due to pending transfer orders. No information or film has been received since the departure of Major Faulk who had been receiving all correspondence in connection with the Wildwood sightings. Only one roll of film has been received; the other two rolls mentioned, as well as additional information, may possibly have been forwarded to Major Faulk at his leave address and not as yet returned to this headquarters. The one roll of film received was processed in the Photographic Laboratory with negative results.

For security reasons, it is impossible to keep you informed of the official action being taken by this headquarters. However, an investigation has been initiated on the Wildwood, N. J. incidents.

This Command is making considerable effort to acknowledge receipt of all information. Your cooperation, as well as the cooperation of all individuals sufficiently interested in the security of their country, is urgently required. It is hoped that you will continue to inform this headquarters, as well as the FBI, of any new developments near Wildwood. The official address for such correspondence is as follows:

Commanding General
Air Materiel Command
Wright-Patterson Air Force Base
Dayton, Ohio
ATTN: MCIA

Sincerely yours,

R. R. GINGERMAN
Colonel, USAF
Chief, Tech Intelligence Div

Commanding General

Gen Materiel General

Wright-Patterson Air Force Base

Dayton, Ohio -

Attention: MCIA

I am a 2nd Lie det C Opel from
Colonel W.A. Clingenman received a letter
from you I wish to start that the letter
was well written and came in
very quickly receive a copy
as requested when after sending a facsimile
film back to Major Bulk the last was
given to me him - so I do not know
any information - However I did talk
F.B.I. Philadelphia to Major Bulk
about the civilian who came to the base

Let me add that I have been
told on many occasions that Major Bulk
was the best Major I have ever seen
as a retired Coast Guard Officer
Washington was a quiet place

We know - He went to prison &
he's been there - He had a folder of
photographs of what appeared to be
his letter - We collected it and
this was all also clearly, bestelling with
the date of 10 May 1944. It was
written from New Bedford, Massachusetts
and said that he had been trying to
see me - That he had been trying
to see me all week and could not
get off a Cape May phone because
he left a Cape May phone call
at 3:30 PM and they would not
call him back until 8:30 AM the
next morning.

- Having been all week I was
talking about the greatest job could
be called in - He q. t. very left
in mind for me - phone is called on me
individually - I got the money in the
ormer day before he had my car
magazine - He said he used to get
one and I told him that he
had known me - He said he
