FULTON WHISKEY

Products of a Great Kentucky Distillery

1817—TO—1903

Responsible Consumers.

We offer to ship to you a box of Fulton Whiskey, entirely free from advertisement, prepaid Express charges, bill on terms of 30 days, and elect you to judge its merits before incurring any outlay. If not satisfactory, return it at our expense. No less justly than does Fulton Whiskey's quality and price deserve. Money accompanying orders will be promptly refunded if goods are returned.

When you buy Fulton you get purity and wholesomeness. You cannot buy for twice its price a whiskey as rich and mellow, and for no money any that is purer.

GOLD MEDALS:
Paris, 1900. Pan-American, 1901.

Thorburn's Seeds

for over a hundred years have been universally recognized as the standard of excellence. They received the GOLD MEDAL (the highest award) both at the Paris Exposition of 1900 and at the Pan-American, 1901.

Our Catalogue

—the 102d successive annual edition—contains a more complete assortment and fuller cultural directions than any other seed annual published. It is beautifully illustrated, not with highly colored exaggerations, but with the finest half-tones from life photographs. It contains 128 large size pages, and in addition 16 full page half-tone plates, and is in every respect and without exception the most complete, most reliable, and most beautiful of American Garden Annuals. We will mail it free on receipt of 10 cents in stamps, which amount may be deducted from your first seed order.

Market Gardeners

are invited to send for our special price-list of high-class vegetable seeds for truckers and large market growers. It contains all sorts of approved merit.

The Best Little Camera Made. Does All the Work of a Big One. Price Postpaid (including complete outfit), **\$1.00**.

It is an easy matter to make up a cheap Camera. The point is to make up a Camera that is both cheap and meritorious. It has been our aim to produce a Camera for a dollar that will actually do the work of a high-priced one. That we have succeeded in our effort is best attested by the enormous number we put out each month, and the satisfaction of all who have used them. We use only the finest materials in the construction of this Camera. The selection and inspection of our lenses is a detail of the business that is conducted with painstaking care. We guarantee perfect lenses in every Camera. The plates we use are made especially for us, and are just right for the rendering of correct color value. This is the biggest value ever offered in a little Camera that will do the same work as a big one. A complete outfit goes with every Camera.

Agents wanted everywhere. Special inducements to the trade.

A Barrel of Whiskey

FOR \$3.00

DELIVERED BY EXPRESS PREPAID.

Guaranteed
SEVEN
YEARS
OLD.

Shipped
Direct from
Distillery to
Consumer.

On receipt of \$3.00 we will deliver direct to you, free of any other cost, a little oak barrel, containing one gallon of FRIEDENWALD'S PURE RYE WHISKEY, or Kentucky Bourbon, if preferred. FRIEDENWALD'S PURE MARYLAND RYE WHISKEY is guaranteed seven years old, and equals any \$6.00 whiskey on the market.

Its perfect purity makes it especially valuable for medicinal use. We ship this whiskey just as we receive it from our distillery, in small barrels, holding one gallon each. These barrels are made from original oak staves of old whiskey barrels. Each has a small brass spigot: thus, the consumer continues to age the whiskey in wood after purchasing, a decided advantage over bottled whiskey. As every one knows, whiskey cannot be aged in glass, and this offer means PURE WHISKEY IN GALLON LOTS IN WOOD AT BARREL PRICES. We ship this barrel in perfectly plain package, no marks to indicate the nature of the contents, all securely packed and impossible for breakage. At this special low price, the consumer buys direct from a distiller at wholesale prices. Or we will ship four full quart bottles instead of a Baby Barrel.

Any one purchasing a Baby Barrel, and after receiving same it is not satisfactory, can return it to us at our expense and we will refund your money. We also ship in our celebrated Baby Barrels thirty-five other kinds of wines and liquors.

Write for full list of goods put up in our Baby Barrels.

When ordering, state whether you wish a Baby Barrel or four full quart bottles.

Oil-Gas Fuel Burner

A QUICK GAS FIRE This cut shows our Burner complete and in operation in a coal range or cook stove. Note carefully how the blaze goes over, down, and under the oven.

Natural Gas in your own home, made from kerosene oil, at a cost of about 1 cent per hour.

OUR BURNER is positively the only one on the market to-day which will properly generate gas from oil without the use of a wick so as to produce the much desired flame, and which will work perfectly in any old stove, range, or heater you may now have.

OUR GUARANTEE to any one purchasing a set of our burners: If after receiving them they do not work and we cannot make them work, we will refund the amount less express charges.

Send for circular and mention World Almanac.

THE ECONOMIST TRAINING SCHOOL

fits a young man for a self-supporting position in from three to four months. It is a **COMMERCIAL TRAINING SCHOOL**, but in no way like the so-called business colleges. This school teaches Window Trimming, Advertisement Writing, Card-Sign Painting, and Up-to-Date Retailing Methods.

When a man completes his course of study and work here he is just the sort of man that thousands of merchants all over the country are looking for.

This is not a school of book study and theory, but a literal training school, equipped with store fixtures of all kinds, numerous show windows, show cases, and all kinds of merchandise. A man or boy gets actual experience here and of the very best kind. There's not another institution in the world like it. It is indorsed by the largest and best wholesale and retail concerns in the country, and merchants from everywhere are sending here for help. A young man can get more valuable knowledge here, and get it for less money and in less time, than at any other commercial school in the country. Write for full particulars,

Instruction by mail for those unable to attend the school in person.

YOU CAN'T EXPECT

TO LEARN ALL ABOUT

ACETYLENE GAS

IN A SINGLE PAGE ADVERTISEMENT.

YOU CAN GET FULL INFORMATION as to why it is better and cheaper than ordinary gas or electricity, and how it can be installed anywhere—in the country home as well as the city mansion.

DON'T MAKE THE MISTAKE so many have made in purchasing a gas generator without previous investigation.

Davis Carbide *Feed Generators*

Feed Lump Carbide, which yields from 10 to 25 per cent more and better gas than quarter-inch carbide. Our **AUTOMATIC WATER FEED AND RESIDUUM DISCHARGE** plants are unequalled for Factory, Hotel, and Town Lighting. If you wish to know all about Acetylene and why DAVIS GENERATORS are **the best**, write for catalogue.

AT LAST! WHAT? WHY, LIGHT!

WHAT KIND OF LIGHT? WHY, ACETYLENE.

FOR ALL PURPOSES, BOTH IN AND OUTDOOR

Did it ever occur to you that improvements could be made over a gasoline torch, kerosene lamp, or a tallow candle while in camp, when at your summer cottage, or when fishing at night?

Home convenience can be had at a small additional cost by including a Portable Acetylene Generator in your camp equipment at

your next outing, and enjoy the evenings by having a good light, one you can read or write by as well as by daylight, or have a good light for a night cruise on your yacht; one you can use for a searchlight.

The Pathfinder has no gas holder, and will withstand all rolling, jolting, and jarring motion, and is non-explosive. In short, it is

FOOL PROOF.

PATHFINDER PORTABLE GENERATORS

ARE PRACTICAL FOR THE FOLLOWING PURPOSES:

Locomotive Headlights, Yachts, Launches, Stereopticons, Street Car Lighting, Station Markers, Tents, Street Fairs, Army and Navy Officers' Headquarters, Lunch Wagons, Prospecting Parties, Summer Cottages, Dentists' Lights, Camping Parties, Lawn Parties, Country Post-Offices, Small Hospitals, Table Lamps, Laboratories, Railway Coaches, Boats, Steam Yachts, Circuses, Night Work for Dredges, Night Work for Construction, Wrecking Trains, Automobiles, and in fact wherever a good light is needed.

MADE IN FIVE SIZES.

No. 1—	1 light, 6 in. diam., 7 in. high,	\$7.00
No. 2—	2 to 3 light, 9 in. diam., 10 in. high,	12.00
No. 3—	3 to 5 light, 12 in. diam., 13 in. high,	20.00
No. 4—	5 to 8 light, 15 in. diam., 16 in. high,	35.00
No. 5—	8 to 12 light, 18 in. diam., 19 in. high,	40.00

*"The Brightest Member
of the Light Family"*

"DORAN LIGHTS"

LOOK LIKE ELECTRIC ARC LIGHTS, BUT GIVE
MORE LIGHT,
WHITER LIGHT,
STEADIER LIGHT, AND MAKE
YOUR LIGHT BILLS LIGHTER.

These are reasons why they are being everywhere adopted for lighting Stores, Factories, Workshops, Churches, Halls, and other public places.

DON'T PAY BIG GAS AND ELECTRIC LIGHT BILLS!

The following is only one from hundreds of similar indorsements received from representative business men in all parts of the United States and Canada:

GENTLEMEN: We have used six of your lights in our store for the past year, and cannot speak too highly of them. Our store is 50 feet by 157 feet, and these six lights make it bright as day at an expense of about an eighth that of gas or electricity, and they give a much better light. Yours truly,
BARRETT HARDWARE CO., Joliet, Ill.

As many lights as desired can be operated in one System, and "DORAN LIGHTS" may be used anywhere. Gasoline fed under air pressure, through a fine wire tubing. You own your own lighting plant. Complete descriptive catalogue, testimonials, etc., mailed free.

## The Only Double Track Road between Chicago And the Missouri River

The Chicago & North-Western Railway announces the completion of its new double track between Chicago and the Missouri River at Council Bluffs.

Three fast trains each way daily between San Francisco and Chicago, and two per day between Portland and Chicago, provide for passenger traffic between the Pacific Coast and the East over this transcontinental highway. These through trains are operated on fast and convenient schedules. They are drawn by powerful locomotives and carry an equipment of Sleeping Cars, Reclining Chair Cars, Observation, Dining, Parlor, Library and Buffet Cars of the most approved type.

The perfectly ballasted roadbed of heavy steel is maintained in the highest state of efficiency, equipped with automatic block signals, interlocking switches at railway crossings, and all devices for the safety and comfort of passengers known to modern railway management.

The 8,903 miles of railway embraced in the North-Western System penetrate to every point of importance in Wisconsin, Iowa, Nebraska, Northern Illinois, Northern Michigan and Southern Minnesota, with eastern terminals at Chicago, Peoria and Milwaukee.

The Overland Limited, daily between San Francisco and Chicago, via the Southern Pacific, Union Pacific and Chicago & North-Western railways, is the most luxurious train in the world. It possesses the most complete arrangements for the comfort of passengers and is operated on fast and convenient schedules,—less than three days en route between the Coast and Chicago.

## THE BIJOU FLUID

Is a Wonderful Chemical Preparation Possessing  
Wonderful Merit that Can Be Used and Adapted  
to Almost Every Use.

**AS A PREVENTATIVE** to rust or corrosion in metals it is invaluable, and will stand years of exposure indoors or out. Applied to the sides of a vessel it forms an anti-fouling, smooth, impervious coating which no action of the sea can in any way penetrate, outlasting any preparation ever used for like purposes. It prolongs and improves the usefulness and appearance of bronzes, brass and iron beds, chandeliers, furniture, etc.

**AS A CEMENT** it is better than any known cement or glue. It is invaluable around machine shops for the cementing and preservation of belting exposed to oil, water, etc.

**FOR CEMENTING AND WATER-PROOFING LEATHER** in the shoe manufacture it will make the soles and uppers water-proof, preventing the inner sole from rotting, as the result of the perspiration of the feet, protecting the foot from damp, etc.

**IT IS A PERFECT INSULATOR,** and has been successfully used for exterior applications. Wire treated with "**BIJOU FLUID**" will always check the leakage of the electric current.

**AS AN ENAMEL** in manicuring the nails it has no equal, leaving a water-proof enamel which will last an indefinite period. It forms a perfect liquid plaster, drying instantly, when applied to flesh with a soft brush.

**AS AN ADHESIVE** it will mend punctured bicycles and automobile tires, china, glass, wood, etc., and prepared as an adhesive it will outlast and outstick anything known in this particular line.

The uses to which this article, in its various combinations, can be applied are so various and almost universal that they cannot be stated in the limits of a reasonable prospectus. It has been subjected to the most critical tests. We shall be glad to give demonstrations of the value and uses of the "**BIJOU FLUID**" at any time, and invite you and your friends to call and see what this fluid will do. Write for circulars. Mail orders promptly filled.

# A Remarkable Book About INCUBATORS

The man who perfected the Racine Incubator is the oldest man in the business. He has spent 21 years on nothing but incubators. Since 1881 he has been constantly testing ideas of his own and others. He has conducted a hatchery, and has made hundreds of tests with different incubators in actual use there.

In this way he has learned more than any other man knows about incubators; and he has now put all the facts in a bright, readable, interesting book. It tells the secrets of success in a fascinating, convincing way. To the man who seeks an incubator, it is by far the best book of the year.

And it tells, too, how the Racine Incubators and Brooders have been developed by a lifetime of patient study. It shows the Racines as they are to-day. You will want this man's machine when you read his book.

The book is free—write to-day for it.

## THE ONLY PERFECT RAZOR STROP, the famous W. & W. SELF-HONING.

It has no competitors. No other strop combines the qualities of a perfect strop and hone.

The "W. & W. Self-Honing" Strop was invented by a practical barber and chemist after 20 years of experimenting. It needs no "breaking-in." Becomes better the longer it is used. Lasts a life-time. Acts instantly upon the razor. It is an all-leather, double-swing strop. Self-shaving becomes a positive pleasure.

Each strop is thoroughly treated with a material, scientifically prepared, which is not affected by time nor use, contains no grit, and instantly produces a keen, fine edge.

Unsolicited testimonials are the highest ever written for any razor strop:

PRINCETON, N. J.

Cows will give 15 to 20 per cent more milk if protected from the annoyance of flies with **Childs' So-Bos-So Kilfly**. It is a thorough fly and insect killer, and it absolutely destroys all bacterial germs. It allays nervousness in horses as well as cows and keeps both in better general condition by the comfort it gives. For scours in calves, hog cholera, and foul in calves' feet it has no equal.

It is perfectly harmless to man and beast, and may be rapidly applied with **Childs' Electric Sprayer**.

It is a true antiseptic and it will keep stables, cow sheds, chicken houses, and pig pens in a perfectly sanitary condition. **Convenient. Cheap. Practical.**

Mr. Jacob Steibel, Supt. to the Hon. John E. Parsons, Lenox, Mass., says: "I have used **So-Bos-So Kilfly** with good results. It is a comfort to both man and beast at milking time."

*Ask your dealer for SO-BOS-SO or send \$2.00 for 1 gallon can and sprayer complete. Express paid to any point east of Mississippi River.*

THE GREATEST CURATIVE FORCE IN THE WORLD.

# THOMAS A. EDISON, JR.'S, MAGNO-ELECTRIC VITALIZER

The MAGNO-ELECTRIC VITALIZER, which is the invention of Thomas A. Edison, Jr., is a small but very powerful appliance, consisting of a spinal anode and a secondary unit. The spinal anode, when applied to the spine, generates a current, or vitalizing force, acting directly upon the spinal cord, thereby stimulating and strengthening the entire nervous system. By applying the secondary unit of the Vitalizer to any desired point, this healing and life-giving current can be guided positively to any given organ or part to remove diseased conditions.

In the MAGNO-ELECTRIC VITALIZER there exists the power of restoring to weakened and diseased nerves the health that they have lost. The Vitalizer cures Rheumatism by stimulating the circulation and purging the blood of its acid impurities; it cures Catarrh by restoring the functions of the diseased tissues and nerves; it cures Asthma by restoring the bronchial nerves and glands; it acts as a remedy in obstinate cases of Locomotor Ataxia and Paralysis by toning up the spinal cord; Consumption yields to the Vitalizer because its current possesses the power of destroying the microbes which cause the disease. There is, in fact, no disorder of the human body that cannot be reached and remedied by the curative current of the Vitalizer. Mr. Edison's great invention is not vaunted as a 'quack,' or universal 'cure-all.' It is a reliable, rational remedy—the discovery of one of the foremost scientists in this country—and as such it is offered to the sick and suffering of every land.

The MAGNO-ELECTRIC VITALIZER is being distributed solely through Mr. Edison's own company, The Thomas A. Edison, Jr., Chemical Company, at No. 14 Stone Street, New York. Mr. Edison has prepared an illustrated booklet explaining the merits and powers of the Vitalizer, which will be sent free to any interested person who will write for it.

# Sixty Years the Leader

The Mutual Life Insurance Company of New York, founded 1843, is the oldest active life insurance company in the United States, and the largest in the world.

## THE LARGEST

Claim ever paid by any company, \$1,000,000 on a single life, was paid the heirs of Frank Hutchinson Peavey, by The Mutual Life Insurance Company of New York, January 10, 1902. This policy was written at no greater proportionate risk than that assumed on a policy of \$1,000.

## THE LARGEST

Premium ever received on a single life was \$349,621.78, paid in September, 1902, to The Mutual Life Insurance Company of New York, by Eben Smith, of Denver, Col.

## THE LARGEST

Amount of assets held by any life insurance company in the world is held by The Mutual Life Insurance Company of New York, and exceeds **Three Hundred and Eighty Millions of Dollars**. This sum exceeds the assets of the next largest American company by over Twenty Million Dollars. The Mutual Life Insurance Company of New York has also made

## THE LARGEST

Sum total of disbursements to policy-holders in the history of life insurance has been made by The Mutual Life Insurance Company of New York, it having paid out over **Five Hundred and Ninety Millions of Dollars**. Unbroken fidelity to the interests of policy-holders whose funds are held in trust has won for the Company world-wide distinction for enlightened and conservative administration. The Board of Trustees has at all periods represented the best in the business and social life of the community.

## Soldiers' Homes.

LOCATIONS OF HOMES FOR DISABLED UNITED STATES SOLDIERS AND SAILORS, AND REGULATIONS  
FOR ADMISSION TO THEM.

### NATIONAL HOME FOR DISABLED VOLUNTEER SOLDIERS.

*President of the Board of Managers*.....General Martin T. McMahon, New York City, N. Y.

*Secretary*.....Colonel George W. Steele, Marion, Ind.

*General Treasurer*.....Major Moses Harris, New York City, N. Y.

There are branches of the National Home at Dayton, O.; Milwaukee, Wis.; Togus, Me.; Hampton, Va.; Leavenworth, Kan.; Santa Monica, Cal.; Marion, Ind., and Danville, Ill. The aggregate number of members cared for is about 29,000.

#### REQUIREMENTS FOR ADMISSION.

1. An honorable discharge from the United States service.
2. Disability which prevents the applicant from earning his living by labor.
3. Applicants for admission will be required to stipulate and agree to abide by all the rules and regulations made by the Board of Managers, or by its order; to perform all duties required of them, and to obey all the lawful orders of the officers of the Home. Attention is called to the fact that by the law establishing the Home the members are made subject to the Rules and Articles of War, and will be governed thereby in the same manner as if they were in the Army of the United States.
4. A soldier or sailor must forward with his application for admission his Discharge Paper, and when he is a pensioner, his Pension Certificate, and if he has been a member of a State Home, his discharge from that Home, before his application will be considered; which papers will be retained at the branch to which the applicant is admitted, to be kept there for him, and returned to him when he is discharged. This rule is adopted to prevent the loss of such papers and certificates, and to hinder fraudulent practices; and no application will be considered unless these papers are sent with it. If the original discharge does not exist, a copy of discharge, certified by the War or Navy Department, or by the Adjutant-General of the State, must accompany the application.

Soldiers or sailors whose pensions exceed \$16 a month are not eligible to the Home unless the reasons are peculiar, and are explained to the manager and are satisfactory to him. Those who have been members of State Homes must have been discharged from those Homes at least six months before they can be admitted to a branch of the National Home, except by a vote of the Board of Managers. Applicants are requested to conform strictly to the above requirements.

There are State Homes for disabled volunteer soldiers provided by the States of California, Colorado, Connecticut, Idaho, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Vermont, Washington, Wisconsin, and Wyoming.

### UNITED STATES HOME FOR REGULAR ARMY SOLDIERS.

The United States Soldiers' Home in the District of Columbia receives and maintains discharged soldiers of the regular army. All soldiers who have served twenty years as enlisted men in the army (including volunteer service, if any), and all soldiers of less than twenty years' service who have incurred such disability, by wounds, disease, or injuries *in the line of duty while in the regular army*, as unfit them for further service, are entitled to the benefits of the Home.

A pensioner who enters the Home may assign his pension, or any part of it, to his child, wife, or parent, by filing written notice with the agent who pays him. If not so assigned, it is drawn by the treasurer of the Home and held in trust for the pensioner, to whom it is paid in such sums as the commissioners deem proper while he is an inmate of the Home, the balance being paid in full when he takes his discharge and leaves the Home.

Inmates are subject to the Rules and Articles of War, the same as soldiers in the army. They are comfortably lodged, fed, and clothed, and receive medical attendance and medicine, all without cost to them. There are 1,250 men now receiving the benefits of the Home.

The Board of Commissioners consists of "the General-in-Chief commanding the army, the Surgeon-General, the Commissary-General, the Adjutant-General, the Quartermaster-General, the Judge-Advocate-General, and the Governor of the Home."

Applications for admission to the Home may be addressed to the "Board of Commissioners, Soldiers' Home, War Department, (Washington City, D. C.," and must give date of enlistment and date of discharge, with letter of company and number of regiment for each and every term of service, and rate of pension, if any, and must be accompanied by a medical certificate showing nature and degree of disability if any exists.

At what age does one become "old"? Five centuries ago a man was old at fifty. But the hale and hearty gentleman of to-day who has just turned sixty would probably protest against being classed among old people, even if famous. That his susceptibilities may not be wounded, therefore, a separating dash has been discreetly introduced after age sixty-five.

## The World.

JOSEPH PULITZER.

THE WORLD begins 1903, near the end of its twentieth year under its present proprietorship, more determined than ever to persevere in its efforts for public service and publicity, and more thoroughly equipped than ever for the task.

### THE MCAULIFFE MYSTERY.

No public service ever performed by a newspaper met with such generous and general approval as that of THE WORLD in the McAuliffe case. James McAuliffe was "the principal witness," according to the prosecution, on whose testimony the notorious Wardman Glennon was convicted. At 9.30 Sunday morning, February 16, James McAuliffe stumbled and fell forward on his face in the street before several witnesses, and died in the hospital. Two days later THE WORLD discovered that McAuliffe had been in the hands of the West Forty-seventh Street police all the night previous. No report of this fact had been made by the police. This was in the same precinct where he fell. The hospital authorities said McAuliffe could not have received the fracture of the skull from which he died in that fall on his face. He was to be a strong witness against five other indicted police officers. One of them was attached to the Forty-seventh Street Station. THE WORLD charged that McAuliffe had been foully murdered by "the System," and set out to ferret out the assassins of this witness. Two weeks later a coroner's jury decided McAuliffe had been "murdered by some power or persons unknown." THE WORLD called upon the authorities to "Find McAuliffe's Murderer." They refused, and single handed and opposed by those whose official duty it was performing, THE WORLD conducted the most remarkable campaign for justice ever waged by a newspaper. That it was not crowned by such success as to land the assassins of this witness against "the System" in the electric chair is due to the opposition of the criminal authorities. THE WORLD offered \$2,000 reward for the apprehension of the murderers, saying "In offering this reward THE WORLD hopes to perform a public service which otherwise seems likely to go by unperformed." Public-spirited citizens, including Judges, lawyers, and two former District-Attorneys, swelled this to nearly \$4,000. THE WORLD found a cloud of witnesses who saw or heard every step in the terrible crime against public policy, except the actual killing, and these witnesses were subjected to the most unspeakable persecution by public officials who seemed bent on aiding "the System." Six witnesses, one of whom knew McAuliffe, saw him bundled into a cab or thrust out of it a few minutes before his death fall.

THE WORLD's course was indorsed by several resolutions in the Board of Aldermen, the Citizens' Union and by eight of its district organizations; the Knights of Labor, National League of Granite Cutters, National Association of Engineers, and other public bodies.

The Police Department was forced to make an investigation, and the District-Attorney to perform what he called a "John Doe" inquiry. Police Commissioner Partridge admitted THE WORLD had proved enough for the Grand Jury to act upon, and Justice Mayer, before whom the John Doe inquiry was made, upheld the main contentions of THE WORLD, viz.: That James McAuliffe was not suffering from the injury which caused his death when he was arrested Saturday night. That that injury was not received when he fell on his face, half an hour after he had been liberated by the police Sunday morning. That this fatal injury was inflicted after his arrest. But the Justice said that "with the evidence before me" it was impossible for him to determine who inflicted it.

The public service performed by THE WORLD in this outrage upon the community may be left to the contemporary press quoted below:

BROOKLYN EAGLE—The New York World is doing a public service when it keeps hammering away at its investigation of the murder of McAuliffe, the witness who convicted Devery's man Glennon. Commissioner Partridge allowed his subordinates to drop the case on the theory that the man was killed by a trolley car or a fall. District-Attorney Jerome was asleep or running an open-Sunday crusade and accepted the same theory. Then a coroner's jury found, what seemed clear enough from the circumstances, that the man was murdered. The motives for a murder were abundant and powerful and they all pointed to a connivance of the police in the station where McAuliffe was confined. Glennon, who had been convicted as a criminal, had many friends on the force and in that station-house. Then there was an officer under indictment against whom McAuliffe would be an important witness, and that officer was attached to the very station-house where McAuliffe was locked up over Saturday night.

These things were brought out in the newspapers, but by the time the verdict of murder was rendered the police, supposing they had an agency in the matter, had had plenty of time to cover their tracks, and investigation, which would have been easy for Colonel Partridge in the first place, had been made difficult. Then the New York World offered rewards for information which would establish

the fact that the man who was arraigned under the name of McAuliffe in the police court was not the man found dying in the street or that would lead to the conviction of the murderer. Under the circumstances the conviction of this assailant is more important to good government in the city than is the punishment of the perpetrator of any other crime. THE WORLD has now found a witness who claims to have seen a man battered up as McAuliffe was battered up—that is, with a club—put out upon Sixth Avenue from a cab at the time when a man whom the police claim was McAuliffe was being arraigned in the police court. This battered man was thrown into the street near where McAuliffe was found a few minutes later. It is not the sort of investigation which ought to be left to newspapers at all, but when the officials upon whom the law lays that duty neglect it, the newspaper which takes it up earns the thanks of the community.

**EVENING TELEGRAM**—It now appears that District-Attorney Jerome is awakening to a realization that there is more in the coroner's verdict that McAuliffe was murdered than in his own view heretofore that the death was accidental. This is due to evidence brought to light by a newspaper—THE WORLD. The mystery is yet to be solved, but if it is cleared up and the solution is found in assassination, and leads to the uncovering of the perpetrators, it will be because journalistic enterprise has been more persistent and successful than official activity.

**BROOKLYN TIMES**—There is a settled conviction in the minds of the people of this city that McAuliffe was deliberately murdered by police officers in the West Forty-seventh Street Station-House, because he had testified against one police officer and was expected to testify against others. It may be said that the New York WORLD is entitled to the thanks of the community for the pertinacity with which it has kept this matter to the front, and for the persistent efforts it has made to throw light on the subject.

**STAATS-ZEITUNG**—The police and the District-Attorney were successful, but THE WORLD succeeded, through continued public discussion, in finding important witnesses—the most important ones. It established the fact that shortly before McAuliffe was found he was taken in a cab while seriously injured near to the scene where he was found and there left to his fate. A word about the McAuliffe case. THE WORLD is entitled to the thanks of the community because it keeps this matter before the public, notwithstanding the fact that the Police Commissioner and the District-Attorney have done their best to clear the police of all blame.

The behavior of the Police Commissioner and his assistant, Mr. Thurston, is inexcusable. Thurston is deserving of especial condemnation because he declared that if McAuliffe was murdered, then it was the duty of THE WORLD to prove it.

**THE FOURTH ESTATE**—THE WORLD has furnished conclusive proof that McAuliffe, in a battered condition, was taken from the West Forty-seventh Street Police Station, thrust into a cab by two men in plain clothes, and that he was afterward thrown out of the vehicle some blocks away.

**THE NEW YORKER**—The entire community is in warm and human sympathy with THE WORLD in its effort to probe to the bottom the mystery of the McAuliffe murder. The suggestion that the police and the criminal classes are banded in atrocious conspiracy for plunder and self-protection and will not stop at murder to save suspected members from punishment is horrible—it is terrifying.

**UTICA OBSERVER**—The New York WORLD seems to be following a hot trail in the McAuliffe case. The manner in which the authorities have sought to bury this outrage is a disgrace and shame.

**EVENING TIMES, Buffalo**—District-Attorney Jerome does not seem eager to accept the evidence produced by the New York WORLD connecting the police force so closely with the death of McAuliffe. But THE WORLD is not to be dissuaded from bringing the assailant to justice.

**ELMIRA EVENING STAR**—The New York WORLD is slowly, and apparently surely, weaving the net around the murderers of McAuliffe.

**NEW YORKER**—To the New York WORLD belongs the credit of keeping the McAuliffe case before the public and of unearthing a lot of evidence in the case. Evidence shows that McAuliffe was ill-treated in the station-house. THE WORLD has positively proved that on that Sunday morning a man unable to take care of himself was taken away from the station-house in a cab (in which station-house McAuliffe had been confined), and that this man was later on dumped out on the street.

**UTICA HERALD-DISPATCH**—The New York WORLD is rendering a great investigation of the death of James McAuliffe in New York. A coroner's jury has said that McAuliffe was murdered.

**BUFFALO TIMES**—One of the best pieces of newspaper work that has been accomplished in many a day is the ferreting out of the McAuliffe murder mystery by the New York WORLD.

**NEWARK (N. J.) SUNDAY CALL**—The New York WORLD publishes a cartoon representing District-Attorney Jerome tilting at the windmill of Sunday laws, while the body of the murdered McAuliffe lies neglected. It touches truth in the raw.

**UTICA OBSERVER**—Persistent publicity will accomplish wonders, and we rejoice exceedingly at the battle which the New York WORLD is making for the discovery and punishment of the police murderers of James McAuliffe, on whose testimony Wardman Glennon was convicted. THE WORLD has been making this fight alone

### "PUBLICITY, PUBLICITY, PUBLICITY."

THE WORLD doctrine—"Publicity is the greatest moral force in the universe"—long advocated in its columns, has received several distinguished converts in the past year.

President Roosevelt, after a careful study of the problem of how to control the trust monopolies, recommends in his annual message "publicity of the transactions of the great combinations is the true remedy for trust evils." The new Atlantic Rubber Shoe Company, a \$10,000,000 trust, has included a publicity clause in its charter.

Mayor Low illustrated his belief in the doctrine of publicity by frequent "talks," in which he reported on the work of his administration.

Police Commissioner Partridge indorsed it when he issued orders that the station-house blotters should be always open to the newspaper reporters.

Ex-Mayor Abram S. Hewitt, on his eightieth birthday, declared that "Publicity, inspection, and discussion are the great safeguards which the public can apply in order to correct abuses."

A single flashlight of publicity killed by revealing it the plot to secure by bribery a Tammany control of the Fusion Board of Aldermen.

Publicity was the force which exposed and stopped the revolting cruelties in the Philippines. Jacob Preiss, the seventeen-year-old boy who, with thirty-one others, was shainghaed to Pitston to take the place of striking miners, thanked THE WORLD for securing his freedom by publicity.

Publicity in the form of a portrait and description of Young, the Mormon murderer, printed in THE WORLD, resulted in his quick capture in a little Connecticut village.

The Birmingham AGE-HERALD remarks that "Publicity" is ripening into an issue very fast.

#### A NOTABLE "WORLD" EXCLUSIVE.

THE WORLD'S exclusive from ex-President Cleveland giving his views on "The Future of Democracy" was the subject of comment by every newspaper in the land, some of which reprinted the ringing message to Democracy from the only Democratic President in forty-two years. A few comments are appended:

**NEW YORK TRIBUNE**—No fair-minded reader of Mr. Cleveland's letter to the New York WORLD, printed on Sunday in that journal and reproduced in our own columns yesterday, will deny that it is creditable to the ex-President and of general interest.

It is an earnest appeal to his party to make itself worthy of public respect in order that it may command public confidence and regain control of public affairs.

**BALTIMORE NEWS**—Mr. Cleveland has made a statement in the New York WORLD concerning the prospects and policy of the Democratic party which is one of the most explicit and outspoken that he has given to the public since his retirement from the Presidency.

**PHILADELPHIA NORTH AMERICAN**—The gist of ex-President Cleveland's advice to the Democracy is to quit fooling with dead issues and to go in for tariff reform and trust-smashing, with incidental whacks at imperialism when it needs exercise.

**NEW YORK STAATS-ZEITUNG**—In a letter to THE WORLD, former President Cleveland points out the path the Democratic party must follow if it wants to regain supremacy for itself and for the principles it represents.

**NEW YORK SUN**—The programme of Democratic rejuvenation which the Hon. Grover Cleveland laid down yesterday in a remarkable communication to the New York WORLD is of interest to citizens of all factions of all parties.

**BROOKLYN CITIZEN**—Mr. Cleveland's views of the political situation, as given to THE WORLD, are simply a reiteration of similar views expressed by him during the recent campaign.

**COMMERCIAL ADVERTISER**—Grover Cleveland's appeal for a better Democratic party is not a new one, but it is greatly to be hoped that it will meet with a larger response than previous ones of the same kind from him have commanded.

**ATLANTA NEWS**—The letter of Grover Cleveland to the New York WORLD, brief and simple as it was, continues to be the political sensation of the day.

#### FIRST NEWS IN "THE WORLD."

THE WORLD has been first in presenting the news in its columns so many times during the year that it is difficult to select the best examples from the long list of WORLD exclusives.

Simultaneously with the hurried and frightened withdrawal of Gertrude Potter Daniel's book, "Eshek the Oppressor," because it was feared that this Chicago daughter of wealth and luxury's dramatic pictures of the misery and sorrow forced upon one class of people by the sordid greediness of another were too dangerous to set loose in a country of mingled trust holdings and trust hatings, THE WORLD gave the book a larger circulation among readers than it could have been hoped to get between covers, by publishing a whole page of its contents—a "beat" which is still an "exclusive" to THE WORLD.

The reproduction of lost correspondence of the John Brown raiders, found after a search of forty years, was given exclusively by THE WORLD.

The first authentic view of the interior of the Kaiser's yacht Meteor.

Photographs of Christ in His Winding Sheet aroused world-wide interest among scientists, the only reproductions in this country of the original pictures first printed from negatives made expressly for THE WORLD.

First interview with Mrs. Florence Maybrick, the American woman thirteen years in an English prison, convicted of killing her husband.

Under the headline "Six Months of Reform," THE WORLD presented to its readers on June 30, in exclusive authorized statements from the heads of the most important city departments, a summary of the results accomplished by Mayor Low and his coöperators.

The news of the great calamity in the New York Central tunnel January 8, 1902, when one train plunged into the rear of another, killing twelve persons outright, and mangleing and maiming fifty others, was first given to the public in THE WORLD.

The publication by THE WORLD of three pages of photographs from St. Pierre, showing, as no verbal description could do, the extent of the havoc caused by the eruption of Mount Pelee, was a notable journalistic feat, fitly crowning a succession of news-gathering triumphs.

It was THE WORLD that first landed a staff correspondent in Fort de France; which first gave the warning that the work of relief was in danger of being overdone, a warning now confirmed by President Roosevelt's notification that collections should cease; and which, in coöperation with Governor Hunt, of Porto Rico, first reached the stricken island with a sufficient quantity of supplies adapted for its people's urgent needs.

It was **THE WORLD** which first discovered and published the fact that William S. Devery, who had earned \$58,909, was the real purchaser of \$377,800 worth of real estate, of which a young man named Byrne was the ostensible buyer, and Devery paid the \$37,780 deposit in cash off a fat roll of legal tenders. And it was **THE WORLD** that first revealed that Devery had transferred to Kate Amos, notorious as Kittie Clifton, two houses she "sold" several years before when the public prosecutors were after her for alleged violations of law.

**THE WORLD** was the first to discover the identity of Rose Barclay, the person who, as "Ella Hathorne," put the famous oil paintings from the Hoffman House Café in storage after the death of Edward S. Stokes.

A **WORLD** reporter sent the first news from the Azores of the mishap to the Etruria in midocean last Spring.

The charge of conspiracy brought against Bishop Ethelbert Talbot by Rev. Dr. Irving was first published in **THE WORLD**.

**THE WORLD** was the only paper to print the full terms of settlement of the coal strike on the day they were agreed upon.

#### VICTORY FOR ARBITRATION.

The return of the striking coal miners to the anthracite mines after five months of bitter warfare, to patiently await the adjustment of their difficulties with the operators by the commission appointed by the President, ended the coal famine which menaced the people of the East and gave **THE WORLD** a signal victory for its long-cherished and persistently advocated principle of arbitration. It was the apotheosis of "that common sense which alone was necessary," as Gladstone said of the Venezuela dispute which seemed about to plunge the two great English-speaking nations into bloody war, when **THE WORLD** intervened and performed the greatest public service of the nineteenth century by restoring peace and sending the controversy to arbitration.

In the work of bringing about the renaissance of right thinking on the part of obstinate coal-barons and the stubborn strikers **THE WORLD** enlisted eleven Governors of States and thirty-six Mayors of cities, representing a total population of twelve million people; the clergy, lawyers, doctors, and scientists were arrayed behind **THE WORLD**.

**THE WORLD** said "Arbitration is the sensible, the just, the American way of settling such differences." It demanded arbitration in the name of millions of consumers of coal who were the party of chief and paramount interest in the coal question.

President Roosevelt called the contending operators and miners to a friendly conference at the White House. One by one the barriers were broken down, and at last the whole question was turned over to a commission for arbitration, and the men returned to work to abide the decision of these arbitrators.

#### THE SCHOOLS BELONG TO THE PEOPLE.

One by one the suggestions advanced and advocated by **THE WORLD** in furtherance of its general proposition that "the schools belong to the people, and should be the social and educational centre of the neighborhood," have been adopted, and in every instance the experiment has proven so successful that it has promptly become a permanent institution.

The first of all was "THE WORLD'S Free Lectures for the People." The free lecture system has now been in operation fourteen years. It has surpassed in its development even the hopes and expectations of its originators. Then there were school-house lecture rooms, and thirty lectures the first year. Now it is extended to all boroughs of the city, and the attendance at these lectures during the last season reached the magnificent total of 928,251.

The roof-garden and playground were next, and Mr. Snyder, the indefatigable architect of the city's schools, arranged a roof playground on every new school now.

**THE WORLD** advocated a "circulating library and a gymnasium in every school," and ex-President Miles M. O'Brien espoused the cause, with the result that there is no new school-house without provision for these two adjuncts, and such libraries and gymnasiums are scattered all over the city.

The vacation schools and the open playgrounds and roofs during vacation time are a part of the system first suggested and persistently advocated by **THE WORLD**.

The baths in the schools had their first advocate in **THE WORLD**.

The boys' clubs and the girls' societies in the schools are a part of the scheme, and **THE WORLD** advocates the opening of the school-houses on Sundays for the use of the neighborhood as places of social gathering, for lectures, and concerts.

The roof-gardens are now opened in the Summer evenings for the use of the neighborhood, and band concerts given there.

When **THE WORLD** learned that 75,000 children were forced to get along with half-time classes because of lack of room in the schools it suggested that the recreation piers, another institution "invented" by **THE WORLD** in its system of relief for the tenement dwellers, be utilized as schools during the Winter, and this is being done with entirely satisfactory results.

#### MINOR SERVICES.

It was in response to a petition signed by the crippled children of New York and sent to him by **THE WORLD** that Adolph Lorenz, the great surgeon of Vienna, said he would come to New York and exercise his skill to cure them.

Frieda Schwartz, a fourteen-year-old girl, who disappeared from her home near Garfield, N. J., was found after six weeks' absence through a photograph in **THE WORLD**.

Through a photograph in **THE WORLD** James Rogers, sixteen, who ran away from his home, No. 324 Nineteenth Street, Brooklyn, was found.

Through **THE WORLD** J. L. Vaughn, who had hunted the world for his sister, who had fallen heiress to a \$12,000 legacy, was found in Buenos Ayres.

**THE WORLD**'s long and persistent advocacy was rewarded by the passage of the law forbidding trap shooting of pigeons.

**THE WORLD** was the gatherer of subscriptions for the memorial to Mrs. Rebecca Salome Foster, the "Tombs Angel," who lost her life in the Park Avenue Hotel fire.

The anti-flat-car-wheel ordinance was secured through THE WORLD.

When Dock Commissioner Hawkes announced that the bands on the Recreation Piers, secured by law passed by THE WORLD, would play only classical music, THE WORLD started the crusade which resulted in the rescinding of the order. The people of the tenements preferred "rag-time."

George Frank, better known as "Frenchy," the friendless Algerian, who was sent to prison for life on conviction of the murder of the woman known as "Old Shakespeare" in a Cherry Street dive, was pardoned on evidence secured by THE WORLD absolutely proving his innocence.

The exposure of the five-cent extortionists among the free-bath attendants was followed by their quick dismissal.

THE WORLD expose of the honeycomb of corruption in the Immigration Bureau was the cause of the upheaval there, and the complete reorganization of the Bureau along the lines of honesty and decency.

Each one of the drinking fountains scattered about the city for dogs and other small animals is a monument to one of THE WORLD's services to humanity. Mrs. Minnie Maddern Fiske contributed \$100 to THE WORLD's work, and there were several other helpers. Enough was raised to erect seventy of these drinking troughs.

With the opening of the new Children's Court by Justice Olmsted in September the consummatum on was reached in THE WORLD's philanthropic and reformatory movement of seven years' duration.

Comptroller Grant, adopting THE WORLD's suggestion of a popular loan, offered city bonds at \$10 each, instead of offering them in the usual fashion "all or none" to Wall Street. The public snapped up the bonds, and 117 bidders took them at prices which produced \$22,470 more for \$3,000,000 worth than at a previous sale.

#### FAMOUS CONTRIBUTORS.

Many of the world's famous men and women, leading thinkers, instructors, and entertainers have added to the delights served to the daily readers of THE WORLD by characteristic contributions to its columns.

Among the distinguished contributors have been Grover Cleveland, Rear-Admiral Schley, Mrs. Frances Hodgson Burnett Townsend, Mark Twain, George Francis Train, Joseph Jefferson, James A. Bailey, the great showman; Prof. Maurice Maeterlinck, United States Senators William A. Clark and Marcus A. Hanna, Hallie Erminie Rives, Lord Kelvin, Dean of Modern Science; George H. Primrose, last of the old-time minstrels; Rev. Minot J. Savage, Dr. Allan McLane Hamilton, the famous alienist; John Mitchell, leader of the great anthracite strike; Mary Elizabeth Lease and Marconi. A few of the contributions of famous people are given at random.

How a hitherto-unheard-of actress charmed her audience by one performance, while under the influence of hypnotism, a veritable "Triby" in real life, and the most remarkable case on record of transmitted animal magnetism, was related by Dr. John D. Quackenbush, the most famous disciple of hypnotism in America.

Rev. T. De Witt Talmage wrote a Christmas story on "The Birthplace of Christ" and "The Flight Into Egypt."

Sir Robert Ball, the greatest living astronomer, on "What the Shepherds Saw on Christmas Night."

Robert Barr, the late Frank R. Stockton, Clara Morris, the late Bret Harte, Francis Willing Wharton, and Owen Kildare, the "Bowery Kipling," are contributors of good things in fiction.

Henry Fournier, the famous French chauffeur, wrote a startling history of the great "White Ghost" automobile.

Rear-Admiral Winfield Scott Schley, "An American Girl Christmas-Day Queen on a Man-o'-War."

Prof. Michael I. Pupin, of Columbia, inventor of the ocean telephone, described for the lay mind the wireless telegraph inventions of Marconi.

Harry De Windt, "Overland from Paris to New York," a series of articles detailing the adventures of that unparalleled journey.

John Philip Sousa, the march king, "The Fifth String," a weird love tragedy.

John D. Crimmins, a thrilling description of "A Ride in the Waters of Palm Beach Behind a Powerful Sea-cow."

Nelson M. Willard, strongest man in Columbia University, on "How to Keep Strong."

William Emery, the famous animal trainer, on "Elephants as I Have Known Them."

Buffalo Bill, "Recollections of Cherokee Sal," Bret Harte's famous heroine.

Richard Lynch Garner, the student of the language of monkeys, "Talking with Monkeys in the Jungle."

Ernest Ingersoll, the noted naturalist, contributed several instructive articles on animal, bird, and insect life.

Harry Lehr entered "A Plea for Fair Play for Society Folks."

Charles D. Mosher, inventor of the Arrow, fastest ship in the world, wrote of the probability of three-day ships to Europe.

William P. Hazen, formerly Chief of the United States Secret Service, contributed several articles on that branch of the government service.

Stanley Spencer related "How I Flew Over London."

John Philip Sousa told the story of how he played "The Star-Spangled Banner" for King Edward.

Santos-Dumont, the airship man, wrote a remarkable article on "Fear."

Herbert L. Bridgeman, of the Peary party, "Hunting the Walrus in the Frozen North."

George J. Gould, in a two-column article, urged the appropriation of not less than half a million dollars by the Legislature for the State's representation at the Louisiana Purchase Centennial Exposition to be held in St. Louis this year.

#### SPECIAL NUMBERS.

The "Ivory City" edition of THE WORLD had for its special features a comprehensive illustrated description of the city of Charleston and the great exposition there.

"Religion the Basis of Society," an Easter sermon written for THE WORLD by His Eminence James Cardinal Gibbons, was the most conspicuous feature of THE WORLD'S Easter number. There

were also reproductions of Easter gowns from Paris, photographed on Paris models for THE WORLD, secured by James Derry, one of the best authorities in the world on women's dress.

Rochambeau, on the occasion of the visit of the distinguished Frenchmen and unveiling of the statue of Connt Rochambeau, with an historical sketch of the soldier of France and patriot of all the American Revolution, by M. Jules Cambon, late French Ambassador.

On the 92d birthday of Pope Leo XIII., with the latest photograph of the Pope loaned to THE WORLD by the late Archbishop Corrigan, THE WORLD presented "An Estimation of Leo XIII. by the late Michael Augustine, Archbishop of New York," and "The Pope as I Saw Him," by Theobald Chartrand, the great artist, who painted the best portrait of His Holiness.

The coronation of King Edward VII., August 9, was the occasion of a remarkable special number of THE WORLD, which constituted one of the greatest achievements of the year in special numbers. Illustrated by splendid pictures made expressly for THE WORLD, the description of the ceremonies and of the surroundings was graphically drawn by specially engaged correspondents who were "to the manner born."

The King's own brother-in-law, the Duke of Argyll, who, as the Marquis of Lorne, was Governor-General of Canada, described the preliminaries of the coronation and the state dinner at Buckingham Palace. The coronation scene was severally described by Max Pemberton, the novelist; Sir Henry Irving, the actor; David Christie Murray, and J. Kier-Hardie, labor Member of Parliament. The great military parade of the King's troops was described by A. Conan Doyle. The Bishop of Ripon described the solemn religious ceremony in Westminster Abbey, and the Duke of Cambridge, oldest royal survivor of the coronation of Queen Victoria, a comparison of the two ceremonies.

John Wanamaker, who was in Rome on the occasion of the venerable Pope's jubilee, cabled to THE WORLD a full and graphic description of the memorable celebration, with sobbing throng of 100,000 devotees.

Hall Caine, the famous author of "The Eternal City," contributed a critical, unbiased story of the great Pontiff, written after a year's study of him.

The Christmas number of THE WORLD was the most notable of the special numbers. It was full of good spirit in text, pictures, song, and story. Archbishop Ireland set the note for the season's rejoicings with a humorous, helpful, hopeful article upon the day. F. Marion Crawford described "Christmas in Rome," old Rome and the Rome of to-day. Mrs. Gen. U. S. Grant described a Christmas spent in China in 1874, on their journey around the world, and Mrs. Jefferson Davis told of the Old South—"Christmas Week on a Louisiana Plantation in 1830."

Fire Chief Croker and ex-Chief Thomas Byrnes contributed a Fireman's and a Policeman's Christmas story. Major-General Adna R. Chaffee told how the soldier boys spent Christmas in Manila, and John R. Spears, Historian of the Navy, told of "An Old Salt's Strange Christmas at Sea." Cy. Warman told a love story and Clara Morris a story of "How the Cows Keep Christmas." Caroline Duer, Joel Chandler Harris, and Alfred Henry Lewis told good stories. John Mitchell told a pathetic tale of "A Mine Boy's Christmas," his own experience at twelve. The story of the childhood of Pope Leo, of Santa Claus' town, where his workshops are, were the best in four different fields. There was a fairy land for the children, fun for the jolly, and the news from every quarter of the globe for those readers who must know what is doing, even on Christmas.

#### A MEDIUM TO REACH THE PEOPLE.

THE WORLD has long been recognized as the foremost and fairest American newspaper, open for both sides of every controversy, and the surest medium through which to communicate with the American people.

President Castro, of Venezuela, at the outset of the trouble with England and Germany, cabled his first public utterance to THE WORLD as follows:

"To the Editor of The World:

"CARACAS, Dec. 13, 1902.

"The President directs me to express through your newspaper to the people of the United States his gratitude for the sympathy that the just cause of Venezuela has awakened in them, as they seem to understand that the principal object of Germany and England is to establish here a government dependent upon those nations, for which it is generally believed that the claim made upon Venezuela is simply a pretext.

"The President believes this to be impossible of realization, because of the justice of our cause and the feeling of the Venezuelan people, who support the Government, and because it is contrary to the Monroe doctrine.

"TORRES CARDENAS, Private Secretary to President Castro."

When the scattered and demoralized hosts of Democracy, apparently arrived at the turning point, cast about for a leader and guidance, and Grover Cleveland, that sturdy leader to victory in the past, recognizing that the time had come for him to break the silence of six years, chose THE WORLD as the medium through which to address his penitent party on "The Future of Democracy." He knew that through it he could most surely reach the masses, and delivered the summons to Democrats to return again to Democratic principles, which carried courage to every Democrat in the country.

Mr. Addicks, the man who at an expense of \$20,000 a year has kept Delaware without representation in the United States Senate because of his ambition to be a Senator, and the corruption of the Legislature, "expressed his grief" through THE WORLD because of the bad reputation the newspapers have given him in the land. He knew he could make his "grief" known to everybody through THE WORLD.

Andrew Carnegie told the people of America through THE WORLD that he had offered to President McKinley to pay \$20,000,000 for the Philippine Islands, and set the "little brown men free." Said he to the people last May, "I would gladly pay twenty millions to-day to restore our Republic to its first principles."

Upon his inauguration as President of the Republic of Cuba, Señor T. Estrada Palma outlined his policy in THE WORLD for the information of the American people.

Like an appeal was the message sent to the American people through THE WORLD by the venerable Danish Senator Thygeson, who, at ninety-seven years of age, was making his last fight against parting with the Danish Indies to the United States: "Tell the people of America the United States is grand big enough without those small islands, but Denmark is small, and cannot afford to get any smaller."

Prince Henry greeted the American people through THE WORLD; and the Kaiser, through THE WORLD, thanked the American people for their welcome to his brother.

When every newspaper in the land had published General Wheaton's criticism of President Schurman's Philippine speech, saying "Men have been sent to prison in the Philippines for talking like that," Dr. Schurman chose THE WORLD as the medium through which to address the American people in reply.

Nicholas, Czar of all the Russias, thanked America for kindly interest through THE WORLD.

Queen Wilhelmina cabled to THE WORLD her thanks to America for interest in her illness.

John C. Dimsdale, Lord Mayor of London, sent a message to America through THE WORLD regarding the King's illness.

General Bothé cabled to THE WORLD a final statement of the position and policy of the Boers.

Major Low as chief head of department of the Reform Administration made his first report to the people through THE WORLD of the work of his department for the first six months. Comptroller Grout had given an exclusive report to THE WORLD earlier.

It was through the columns of THE WORLD that Governor-General Leonard Wood presented his report of his stewardship on the eve of his surrendering the Government of Cuba to President Palma, of the new Republic.

### IN THE REALM OF DISCUSSION.

The human mind is perpetually in discussion of some unsettled or unsolved problem of life, and when a pregnant mind gives forth the result of its discussion of any problem of human interest it breeds a more or less general discussion, and that is the way the germ idea is developed into a reality.

Prof. Jacques Loeb believed his mental discussion of the secret of life had solved the problem, and that electricity gives life to the nerves of all living things. A double-page feature of THE WORLD was a discussion popular, scientific, and informing by men eminent in the domain of inquiry, invention, and discovery, including Edison, Weissman, Smith, and Prof. Loeb himself.

Harriet Hubbard Ayer's dialogue with Mrs. Robert Osborn and Mrs. Charles Russel Howe on fashions, Mrs. George Fitz George London's famous beauty expert, on the preservation of beauty, and other famous women on topics peculiarly feminine, were among the delightful features for women readers.

"What Is the Limit of Modesty," in low-cut gowns, was the subject of animated discussion, in which Mrs. William Tod Helmuth, Rev. Dr. MacArthur, and Mrs. Patrick Campbell took part.

"Should Children Be Spanked," by Mrs. Pach, Treasurer, and Mrs. Harry Hastings, President, of the Mothers' Club.

J. Pierpont Morgan, on an ocean steamer, corrected Sir Edward C. Colebrook, who had spoken of "draw poker" as the American National game. He said: "It never was; it never will be. It is a bad game. It is based upon a lie. The man who labelled it our National game ought to be shot."

THE WORLD telephoned inquiries to every capital and queried many New York men on the subject. The unanimous opinion of James Wakely, "Bat" Masterson, "Honest John" Kelly, and George Considine, "Col. Bob" Wood and Charles Walters, of Chicago; Bernard Layton, "Col. Ike" Hill and "Cole" Martin, of Washington; Chester A. Brown, "Poker" Brown, of Butte; Edward J. Graves, of Lexington, Ky., and many others, was that Mr. Morgan was in error, and that draw poker is, was, and ever shall be the American National game.

### REPORTING BY SPECIALISTS.

Following its long-established custom of employing specialists as its reporters of any event involving special knowledge, THE WORLD had Charles Chadwick for its reporter of the great battles on the football gridirons between the giant university teams.

John R. Spear "did" the yacht races and described the "points" in Sir Thomas Lipton's third challenger, Shamrock III.

Recognizing that the eighteenth Horse Show was a social event and a bazaar of fashion, as well as an exhibition of horses, THE WORLD had Mrs. Robert Osborn and Mrs. Donald McLean, President of the Daughters of the American Revolution, report it as a society gathering, while Redfern described the ten handsomest gowns worn each night; Madame Louise, the ten finest hats, while Chauncey M. Depew, William C. Whitney, and James T. Hyde "covered" it as a horse show.

The opera is generally acknowledged to be a society rather than a musical event, and Mrs. Robert Osborn reported it as such for THE WORLD, while J. Paul Dupuy, the distinguished French visitor, furnished some comparison of the Metropolitan Opera with the Opera in Paris, and Philip Burne-Jones, the painter of "The Vampire," presented his pictorial impressions of the opera.

### THE BURSTING OF MOUNT PELEE.

On May 10 THE WORLD gave to the public the first account of the destruction of St. Pierre, on the island of Martinique, by the eruption of Mount Pelee, the supreme catastrophe of the age, rivalling in sudden, swift, and wholesale annihilation of man and his works the greatest tragedies in history, the burial of Pompeii, the swallowing up of Lisbon by an earthquake, and the cremation of Catania. In the twinkling of an eye 30,000 people passed from life to death. Their bodies were found afterward, just as they had fallen, unmarked. They had been asphyxiated by the deadly gases of the lava-dust which had fallen like a rain-storm upon the land.

Simultaneously with the publication of the news THE WORLD appealed to the public for funds and supplies for the relief of the survivors of the calamity, and at the same time cabled to Governor Hunt, of Porto Rico, to charter a ship and send relief to Martinique in its name, and THE WORLD steamer Longfellow, on May 17, arrived at the island with the first relief supplies. It carried also fifty tons of supplies from the Government.

A WORLD correspondent at Fort de France was the first to reach the scene of the catastrophe. Two days later he gave the first complete survey of the situation, and told the saddening news that the survivors of the calamity were so very few that the supplies already received were ample for all probable needs. From the first, THE WORLD easily led in the completeness and comprehensiveness of its accounts, illustrated by photographs.

W. P. Lough, a New York merchant on a steamer, cabled a graphic description of the eruption and the burning of Mount Pelee, and Roul Sartout, the prisoner of St. Pierre, who was the sole survivor in the destruction of the city, told the story of its horrors in THE WORLD, while E. J. Dora, born in the shadow of Mount Pelee, but now living in New York, presented a history and description of the island.

Governor Llewellyn, of the Windward Islands, cabled the thanks of the sufferers to THE WORLD for provisions sent to St. Vincent by United States ship Dixie, where La Soufriere had belched forth in sympathy, destroying 1,600 lives.

#### KEEPING THE BENCH OUT OF POLITICS.

Governor Odell's acquiescence in the refusal of Senator Platt to permit the renomination of Judge Gray for the Court of Appeals bench was characterized by THE WORLD as a judicial blunder, the true principle of non-partisanship in the election of judges plainly requiring the retention of this upright Democratic Judge on the bench. And again, when by the Governor's partisan intermeddling by the forcing of the nomination of Attorney-General John C. Davies for the bench on his party in the Fifth District against the protest of the bar, THE WORLD demanded the defeat of both the Republican candidates as a rebuke to partisan intermeddling, and warned Governor Odell that these acts put his own election in jeopardy.

Both candidates were defeated by emphatic majorities. Judge Gray and Mr. Rogers are independent in politics, being elected, while Odell escaped defeat by the narrow margin of 8,500 in a vote of nearly a million and a half.

#### FRANCHISE TAX LAW UPHELD.

In response to public opinion, led by THE WORLD, the State Legislature passed the law which provided for the just taxation of the franchises granted by the people for monopolies of public patronage for public conveniences, like street cars, telephones, and gas. For three years the collection of this tax had been held up by suits brought by the corporations. They now owe \$12,000,000 arrears under the law, and they have been beaten at every stage of the fight from the lowest to the highest State courts. They contemplate carrying the fight to the United States Supreme Court, but THE WORLD expresses confidence of ultimate victory for this just measure.

#### CONEY ISLAND SEASIDE PARK.

The establishment of New York's first ocean park on July 1 was the result of a long, hard fight. THE WORLD, with the privileges of a successful advocate of the popular cause, had reason to congratulate the people on their acquisition for pleasure and health. It cost only \$50,000, and is the best \$50,000 worth in the boundaries of Greater New York.

## Ember and Rogation Days.

EMBER and Rogation Days are certain periods of the year devoted to prayer and fasting. Ember Days (twelve annually) are the Wednesday, Friday, and Saturday after the first Sunday in Lent, after the feast of Pentecost (Whit Sunday), after the festival of the Holy Cross (September 14), and after the festival of St. Lucia (December 13). Ember Weeks are the weeks in which the Ember Days appear.

Rogation Days are the three days immediately preceding Holy Thursday or Ascension Day.

## Church Fasts.

THE Roman Catholic Days of fasting are the forty days of Lent, the Ember Days, the Wednesdays and Thursdays of the four weeks in Advent, and certain vigils or evenings prior to the greater feasts. In the American Episcopal Church the days of fasting or abstinence to be observed, according to the Book of Common Prayer, are the forty days of Lent, the Ember Days, the three Rogation Days, and all the Fridays of the year except Christmas Day. In the Greek Church the four principal fasts are those in Lent, the week succeeding Whitsuntide, the fortnight before the Assumption, and forty days before Christmas.

## Divisions of Time.

THE interval between two consecutive transits of a fixed star over any meridian or the interval during which the earth makes one absolute revolution on its axis is called a *Sidereal Day*, and is invariable, while the interval between two consecutive transits of the Sun over any meridian is called an *Apparent Solar Day*, and its length varies from day to day by reason of the variable motion of the earth in its orbit, and the inclination of this orbit to the equator on which time is measured.

A *Mean Solar Day* is the average or mean of all the apparent solar days in a year. *Mean Solar Time* is that shown by a well-regulated clock or watch, while *Apparent Solar Time* is that shown by a well-constructed sun-dial; the difference between the two at any time is the *Equation of Time*, and may amount to 16 minutes and 21 seconds. The Astronomical Day begins at noon and the Civil Day at the preceding midnight. The Sidereal and Mean Solar Days are both invariable, but one day of the latter is equal to 1 day, 3 minutes, and 56.555 seconds of the former.

The interval during which the earth makes one absolute revolution round the Sun is called a *Sidereal Year*, and consists of 365 days, 6 hours, 9 minutes, and 9.6 seconds, which is invariable.

The *Tropical Year* is the interval between two consecutive returns of the Sun to the Vernal Equinox. If this were a fixed point, the Sidereal and Tropical Years would be identical; but in consequence of the disturbing influence of the moon and planets on the spheroidal figure of the earth, the Equinox has a slow, retrograde mean motion of 50'' 26' annually, so that the Sun returns to the Equinox sooner every year than he otherwise would by 20 minutes 23.6 seconds; the *Tropical Year*, therefore, consists of 365 days, 5 hours, 48 minutes, and 46 seconds. The *Tropical Year* is not of uniform length; it is now slowly decreasing at the rate of .595 second per century, but this variation will not always continue.

Julius Cæsar, in B. C. 45, was the first to reform the calendar by ordering that every year whose date number is exactly divisible by 4 contain 366 days, and all other years 365 days. The intercalary day was introduced by counting the *sixth* day before the Kalends of March *twice*; hence the name bissextile, from bis, twice, and sex, six. He also changed the beginning of the year from 1st of March to the 1st of January, and also changed the name of the fifth month (Quintilis) to July, after himself. The average length of the Julian year is therefore 365 $\frac{1}{4}$  days, which, however, is too long by 11 minutes and 14 seconds, and this would accumulate in 400 years to about three days. The Julian Calendar continued in use until A. D. 1582, when the date of the beginning of the seasons occurred 10 days later than in B. C. 45, when this mode of reckoning time was introduced.

The Gregorian Calendar was introduced by Pope Gregory XIII. with the view of keeping the Equinox to the same day of the month. It consists of 365 days, but every year exactly divisible by 4 and the centennial years which are exactly divisible by 400 contain 366 days; and if in addition to this arbitrary arrangement the centennial years exactly divisible by 4,000 contain 366 days, the error in the Gregorian system will amount to only one day in about 20 centuries. If, however, 31 leap years were intercalated in 128 years, instead of 32 as at present, the calendar would be practically exact and the error would not amount to more than a day in 100,000 years. The length of the mean Gregorian Year may therefore be set down at 365 days, 5 hours, 49 minutes, 12 seconds. The Gregorian Calendar was introduced into England and her colonies in 1752, at which time the Equinox had retrograded 11 days since the Council of Nice in A. D. 325, when the festival of Easter was established and the Equinox occurred on March 21; hence September 3, 1752, was called September 14, and at the same time the commencement of the legal year was changed from March 25 to January 1, so that the year 1751 lost the months of January and February and the first 24 days of March. The difference between the Julian and Gregorian Calendars is now 13 days. Russia and the Greek Church still employ the Julian Calendar for civil and ecclesiastical purposes.

## Standard Time.

PRIMARILY, for the convenience of the railroads, a standard of time was established by mutual agreement in 1883, by which trains are run and local time regulated. According to this system, the United States, extending from 65° to 125° west longitude, is divided into four time sections, each of 15° of longitude, exactly equivalent to one hour, commencing with the 75th meridian. The first (eastern) section includes all territory between the Atlantic coast and an irregular line drawn from Detroit to Charleston, S. C., the latter being its most southern point. The second (central) section includes all the territory between the last-named line and an irregular line from Bismarck, N. D., to the mouth of the Rio Grande. The third (mountain) section includes all territory between the last-named line and nearly the western borders of Idaho, Utah, and Arizona. The fourth (Pacific) section covers the rest of the country to the Pacific coast. Standard time is uniform inside each of these sections, and the time of each section differs from that next to it by exactly one hour. Thus at 12 noon in New York City (eastern time), the time at Chicago (central time) is 11 o'clock A. M.; at Denver (mountain time), 10 o'clock A. M., and at San Francisco (Pacific time), 9 o'clock A. M. Standard time is 16 minutes slower at Boston than true local time, 4 minutes slower at New York, 8 minutes faster at Washington, 19 minutes faster at Charleston, 28 minutes slower at Detroit, 13 minutes faster at Kansas City, 10 minutes slower at Chicago, 1 minute faster at St. Louis, 28 minutes faster at Salt Lake City, and 10 minutes faster at San Francisco.

Table of Days Between Two Dates.

A TABLE OF THE NUMBER OF DAYS BETWEEN ANY TWO DAYS WITHIN TWO YEARS.

Table with 24 columns (Day Mo., Jan., Feb., Mar., April, May, June, July, Aug., Sept., Oct., Nov., Dec.) and 24 rows (Day Mo., Jan., Feb., Mar., April, May, June, July, Aug., Sept., Oct., Nov., Dec.).

The above table applies to ordinary years only. For leap year, one day must be added to each number of days after February 28.

EXAMPLE.—To find the number of days between June 3, 1900, and February 16, 1901: The figures opposite the third day in the first June column are 154; those opposite the sixteenth day in the second February column are 412. Subtract the first from the second product—i. e., 154 from 412, and the result is 258, the number of days between the two dates.

Easter Sunday.

A TABLE SHOWING THE DATE OF EASTER SUNDAY IN EACH YEAR OF THE NINETEENTH AND TWENTIETH CENTURIES.

Table with 6 columns showing the date of Easter Sunday for each year from 1801 to 2000.

## Facts About the Earth.

ACCORDING to Clark, the equatorial semi-diameter is 20,926,202 feet—3963,206 miles, and the polar semi-diameter is 20,854,895 feet—3950,738 miles. One degree of latitude at the pole=69,407 miles. One degree of latitude at the equator=68,704 miles.

The above estimate was made by Ernest George Ravenstein, F. R. G. S., the geographer and statistician, and is for 1890. The population of North America, 1900, had increased to over 100,000,000.

An estimate of population of the earth, made by Drs. Wagner and Supan, editors of "Bevölkerung der Erde" (Perthes, Gotha, 1891), is as follows: Europe, 357,379,000; Asia, 825,954,000; Africa, 163,953,000; America, 121,713,000; Australia, 3,230,000; Oceanic Islands, 7,420,000; polar regions, 80,400. Total, 1,479,729,400. The estimate of area of the continents and islands by the same authorities is 52,821,684.

Ravenstein's estimate of the earth's fertile region, in square miles, is 28,269,200; steppe, 13,901,000; desert, 4,180,000; polar regions, 4,888,800.

The population of the earth at the death of the Emperor Augustus, estimated by Bodio, was 54,000,000. The population of Europe hardly exceeded 50,000,000 before the fifteenth century.—*Mulhall*.

The area and cubic contents of the earth, according to the data of Clark, given above, are: Surface, 196,971,984 square miles; cubic contents, 259,944,035,515 cubic miles.

Murray (Challenger expedition) states the greatest depth of the Atlantic Ocean at 27,366 feet; Pacific Ocean, 30,000 feet; Indian Ocean, 18,582 feet; Southern Ocean, 25,200 feet; Arctic Ocean, 9,000 feet. The Atlantic Ocean has an area, in square miles, of 24,536,000; Pacific Ocean, 50,309,000; Indian Ocean, 17,084,000; Arctic Ocean, 4,781,000; Southern Ocean, 30,592,000. The highest mountain is believed to be Deodhunga, one of the Himalayas, 29,002 feet.

For population of the earth according to creed, see RELIGIOUS STATISTICS.

### POPULATION OF THE EARTH ACCORDING TO RACE. (Estimated by John Bartholomew, F. R. G. S., Edinburgh.)

The human family is subject to forty-seven principal governments. As to their form they may be classified as follows: *Absolute monarchies*, Abyssinia, Afghanistan, China, Korea, Morocco, Persia, Russia, Siam, Turkey; *Limited monarchies*, Austria-Hungary, Belgium, British Empire, Denmark, Germany, Greece, Italy, Japan, Montenegro, Netherlands, Portugal, Roumania, Servia, Sweden and Norway, Spain; *Republics*, Argentine Republic, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Ecuador, France, Guatemala, Hayti, Honduras, Liberia, Mexico, Nicaragua, Paraguay, Peru, Salvador, San Domingo, Switzerland, United States of America, Uruguay, Venezuela. Besides these are the undefined despotisms of Central Africa, and a few insignificant independent States.

The average duration of human life is about 33 years. One-quarter of the people on the earth die before age 6, one-half before age 16, and only about 1 person of each 100 born lives to age 65. The deaths are calculated at 67 per minute, 97,790 per day, and 35,639,835 per year; the births at 70 per minute, 100,800 per day, and 36,792,000 per year.

These estimates by Mulhall (1891) exhibit the superior growth of the English language in the last ninety years. Another authority (see "English-Speaking Religious Communities") estimates the number using the English language in 1895 at over 124,180,000. English is fast becoming the polite tongue of Europe.

**NOVEMBER — GENERAL ELECTION DAY:** In Arizona, California, Colorado, Idaho, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Minnesota, Missouri, Montana, Nevada, New

Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Oregon (vote for Presidential elections only), Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, West Virginia, Washington, Wisconsin, and Wyoming, in the years when elections are held therein. In 1903 in States holding such elections the date is November 3.

**NOVEMBER — 1903. THANKSGIVING DAY (usually the fourth Thursday in November):** Is observed in all the States, and in the District of Columbia, Arizona, and New Mexico, though in some States it is not a statutory holiday.

**DECEMBER 25. CHRISTMAS DAY:** In all the States, and in the District of Columbia, Arizona, New Mexico, and Oklahoma.

Sundays and Fast Days are legal holidays in all the States which designate them as such.

There are no statutory holidays in Mississippi, but by common consent the Fourth of July, Thanksgiving, and Christmas are observed as holidays. In Kansas Decoration Day, Labor Day, and Washington's Birthday are the only legal holidays by legislative enactment; other legal holidays are so only by common consent. In New Mexico, Washington's Birthday, Decoration Day, Labor Day, Flag Day (June 14), and Arbor Day are holidays when so designated by the Governor.

**ARBOR DAY** is a legal holiday in Arizona, Maine, Minnesota, New Mexico, North Dakota, Wisconsin, and Wyoming, the day being set by the Governor; in Texas, February 22; Nebraska, April 22; Utah, April 15; Rhode Island, May 11; Montana, second Tuesday in May; Florida, first Friday in February; Georgia, first Friday in December; Colorado (school holiday only), third Friday in April.

Every Saturday after 12 o'clock noon is a legal holiday in New York, New Jersey, Pennsylvania, Maryland, Tennessee, Virginia, and the city of New Orleans, and in Newcastle County, Del., except in St. George's Hundred; in Louisiana and Missouri in cities of 100,000 or more inhabitants; in Ohio in cities of 50,000 or more inhabitants; and June 1 to August 31 in Denver, Col. In the District of Columbia for all purposes respecting the presentation for payment or acceptance or the protesting of all commercial paper whatsoever. In Connecticut, Maine, and West Virginia banks close at 12 noon on Saturdays.

There is no national holiday, not even the Fourth of July. Congress has at various times appointed special holidays. In the second session of the Fifty-third Congress it passed an act making Labor Day a public holiday in the District of Columbia, and it has recognized the existence of certain days as holidays for commercial purposes, but, with the exception named, there is no general statute on the subject. The proclamation of the President designating a day of Thanksgiving only makes it a legal holiday in the District of Columbia and the Territories, and in those States which provide by law for it.

## Old English Holidays.

THESE holidays, with their names, had their origin in mediæval England when the State religion was that of the Church of Rome, and they are still observed generally or in some parts of England, Scotland, and Ireland.

**JANUARY 6. TWELFTH DAY,** or Twelfth-tide, sometimes called Old Christmas Day, the same as Epiphany. The previous evening is Twelfth Night, with which many social rites have long been connected.

**FEBRUARY 2. CANDLEMAS:** Festival of the Purification of the Virgin. Consecration of the lighted candles to be used in the church during the year.

**FEBRUARY 14. OLD CANDLEMAS:** St. Valentine's Day.

**MARCH 25. LADY DAY:** Annunciation of the Virgin. April 6 is old Lady Day.

**JUNE 24. MIDSUMMER DAY:** Feast of the Nativity of John the Baptist. July 7 is old Midsommer Day.

**JULY 15. ST. SWITHUN'S DAY:** There was an old superstition that if rain fell on this day it would continue forty days.

**AUGUST 1. LAMMAS DAY:** Originally in England the festival of the wheat harvest. In the Church the festival of St. Peter's miraculous deliverance from prison. Old Lammas Day is August 13.

**SEPTEMBER 29. MICHAELMAS:** Feast of St. Michael, the Archangel. Old Michaelmas is October 11.

**NOVEMBER 1. ALLHALLOWMAS:** All-hallows, or All Saints' Day. The previous evening is All-hallow-e'en, observed by home gatherings and old-time festive rites.

**NOVEMBER 2. ALL SOULS' DAY:** Day of prayer for the souls of the dead.

**NOVEMBER 11. MARTINMAS:** Feast of St. Martin. Old Martinmas is November 23.

**DECEMBER 25. CHILDRENAS:** Holy Innocents Day.

**Lady Day, Midsommer Day, Michaelmas, and Christmas** are quarter (rent) days in England, and Whitsunday, Martinmas, Candlemas, and Lammas Day in Scotland.

Shrove Tuesday, the day before Ash Wednesday, and Mandy Thursday, the day before Good Friday, are observed by the Church. Mothering Sunday is Mid-Lent Sunday, in which the old rural custom obtains of visiting one's parents and making them presents.

## The French Revolutionary Era.

In September, 1793, the convention decreed that the common era should be abolished in all civil affairs, and that the new French era should begin on September 22, 1792, the day of the true autumnal equinox, and that each succeeding year should begin at the midnight of the day on which the true autumnal equinox falls. The year was divided into twelve months of thirty days each. In ordinary years there were five extra days, from the 17th to the 21st of our September, and was continued every fourth year was a sixth complimentary day. This reckoning was first used on November 22, 1793, and was discontinued until December 31, 1805, when it was discontinued, and the Gregorian calendar, used throughout the rest of Europe, was resumed. The following were the dates for the year 1804, the last complete year of this style of reckoning:

Vendemiaire (Vintage), September 23 to October 22.  
 Brumaire (Foggy), October 23 to November 22.  
 Frimaire (Sleety), November 23 to December 21.  
 Nivose (Snowy), December 22 to January 21.  
 Pluiose (Rainy), January 21 to February 20.  
 Ventose (Windy), February 20 to March 19.

Germinal (Budding), March 22 to April 21.  
 Floreal (Flowery), April 21 to May 20.  
 Prairial (Pasture), May 21 to June 20.  
 Messidor (Harvest), June 20 to July 19.  
 Thermidor (Hot), July 20 to August 19.  
 Fructidor (Fruit), August 19 to September 18.

The months were divided into three decades of ten days each, but to make up the 365 five were added at the end of September: Primiidi, dedicated to Virtue; Duodi, to Geni; Tridi, to Labor; Quartidi, to Opinion, and Quintidi, to Rewards. To Leap Year, called Olympe, a sixth day, September 22 or 23, Sextidi, "the day of the Revolution," was added.

To each tenth day, thirty-six in all, were assigned thirty-six "Fetes Decadaires," decreed by the National Convention on the eighteenth Prairial, in honor of the Supreme Being and Nature, the Human Race, the French People, Benefactors of Humanity, Martyrs for Liberty, Liberty and Equality, the Republic, Liberty of the World, Love of Country, Hatred of Tyrants, Truth, Justice, Modesty, Glory and Immortality, Friendship, Frugality, Courage, Good Faith, Heroism, Disinterestedness, Stoficism, Love, Conjugal Fidelity, Paternal Love, Maternal Tenderness, Filial Piety, Infancy, Childhood, Manhood, Old Age, Sickness, Agriculture, Industry, Our Ancestors, Our Posterity, Goodness.

DIRECTIONS.—1. In the Table of Centuries find the first two figures of the year desired, and in the Table of Years find the last two figures of that year. The letter at the intersection of the columns of the two tables is the *Year Letter*. 2. Under the Year Letter in the Table of Months find the *Key Figure* opposite the month desired. 3. The day of the week desired can then be found in the Table of Days at the intersection of the columns of the Key Figure and the day of the month.\*

\*EXAMPLE.—To find the day of the week on which July 4, 1902, falls: Find 19 in the Table of Centuries and 02 in the Table of Years. The Year Letter at the intersection of their columns is E. In the Table of Months the key figure at the intersection of the B and July columns is 3. In the Table of Days the day of the week at the intersection of the key figure (3) and day of the month (4th) columns is Friday, which gives the information desired.

LEAP YEARS.—For Leap Years use January and February at the top of the Table of Months opposite the words "Leap Year." In the Table of Years leap years are underlined. Years ending in 00 in Old Style dates are leap years; in New Style dates only when the Year Letter is F.

NOTE.—The letters in the list of "Years from 1753 to 1952," refer to the table headed with the Months, the figures in which refer to the same figures at the head of the table of Days. For example: To know on what day July 4, 1903 will fall look for 1903 in the table of Years. The letter "a" is attached. Look for the same letter in the table of Months and in a parallel line under July is the figure 3, which directs to column 3 in the table of Days below, in which it will be seen that July 4 falls on Saturday.

The number of asteroids discovered up to present date is about 450. A number of these small planets have not been observed since their discovery, and are practically lost. Consequently it is now sometimes a matter of doubt, until the elements have been computed, whether the supposed new planet is really new, or only an old one rediscovered.

## Our Moon.

OF all the secondary planets the earth's satellite is by far the most interesting and important. The moon completes her circuit around the earth in a period whose mean or average length is 27 days 7 hours 43 2 minutes; but in consequence of her motion in common with the earth around the sun, the mean duration of the lunar month, that is, the time from new moon to new moon, is 29 days 12 hours 44.05 minutes, which is called the moon's synodical period. If the earth were motionless in space the moon's orbit would be nearly an ellipse, having the earth in one of the foci; hence her distance from the earth varies during the course of a lunar month. Her mean distance from the earth is 238,850 miles. Her maximum distance, however, may reach 252,830 miles, and the least distance to which she can approach the earth is 221,520 miles. Her diameter is 2,162 miles, and if we deduct from her distance from the earth the sum of the two radii of the earth and moon, viz., 3,962 and 1,081 miles respectively, we shall have for the nearest approach of the surfaces of the two bodies 216,477 miles. Her orbit is a very intricate one, because the earth in moving around the sun carries the moon along with it; hence the latter is sometimes within and sometimes without the earth's orbit. Its form is that of a serpentine curve, always *concave* toward the sun, and inclined to the plane of the earth's orbit at an angle of  $5^{\circ} 9'$ , in consequence of which our satellite appears sometimes above and sometimes below the plane of the earth's orbit, through which she passes twice in a revolution. These points or positions are called nodes, and no two consecutive nodes occupy positions diametrically opposite on the lunar orbit. The nodes have a retrograde motion, which causes them to make an entire revolution in 18 years 218 days 21 hours 22 minutes and 46 seconds. This motion was well known to the ancients, who called it the Saros, and was made use of by them in roughly predicting eclipses.

The moon always presents the same face to us, as is evident from the permanency of the various markings on its surface. This circumstance proves that with respect to the earth she revolves on an axis, and the time of rotation is exactly equal to the time of revolution around the earth, viz., 27.32166 days. The moon's axis is not perpendicular to the plane of her orbit, but deviates therefrom by an angle of about  $6^{\circ} 41'$ . In consequence of this fact, and of the inclination of the lunar orbit to that of the ecliptic, the poles of the moon lean alternately to and from the earth. When the north pole leans toward the earth we see somewhat more of the region surrounding it, and somewhat less when it leans the contrary way. This displacement is known by the name of libration in latitude.

The moon's motion on her axis is uniform, but her angular velocity in her orbit is subject to slight variations by reason of the form of her orbit; hence it happens that we sometimes see a little more of the eastern or western edge at one time than at another. This phenomenon is known as libration in longitude.

The moon's surface contains about 14,685,000 square miles, or nearly four times the area of Europe. Her volume is 1.49 and her mass 1.81 that of the earth, and hence her density is about 3.5 that of the earth, or about 3 2.5 that of water. At the lunar surface gravity is only 3.20 of what it is at the earth, and therefore a body which weighs 20 pounds here would weigh only 3 pounds there.

The centre of gravity of the earth and moon, or the point about which they both actually revolve in their course around the sun, lies *within* the earth; it is 1,063 miles below the surface.

The attractive force of the moon acting on the water of our oceans is mainly instrumental in raising them into protuberances or tides in such a manner as to give the total mass a spheroidal figure whose principal axis would continually coincide with the line joining the centres of the earth and moon, but in consequence of the resistance which this movement of the water encounters from continents and islands, as well as from the liquid molecules themselves, the tidal wave can never arrive at any place until about one hour after the moon has crossed the meridian of the place.

The moon has no atmosphere and no water. The suddenness with which stars are occulted by the moon is regarded as a conclusive proof that a lunar atmosphere does not exist, and the spectroscopic furnishes negative evidence of the same character.

In remote ages the lunar surface was the theatre of violent volcanic action, being elevated into cones and ridges exceeding 20,000 feet high, and at other places rent into furrows or depressions of corresponding depth. The lunar volcanoes are now extinct. A profound silence reigns over the desolate and rugged surface. It is a dead world, utterly unfit to support animal or vegetable life.

## THE EARTH'S ATMOSPHERE.

THE earth's sensible atmosphere is generally supposed to extend some forty miles in height, probably farther, but becoming at only a few miles from the surface of too great a tenuity to support life. The condition and motions of this aerial ocean play a most important part in the determination of climate, modifying, by absorbing, the otherwise intense heat of the sun, and, when laden with clouds, hindering the earth from radiating its acquired heat into space. — *Whitaker*.

| ☿ | Mercury.   | ♄ | Saturn.  | ♁ | Opposition.      |
| ♃ | Venus.     | ♅ | Uranus.  | ♁ | Ascending Node.  |
| ♁ | The Earth. | ♆ | Neptune. | ♁ | Descending Node. |

Two heavenly bodies are in "conjunction" (♁) when they have the same *Right Ascension*, or are on the *same meridian*, i. e., when one is due north or south of the other; if the bodies are near each other as seen from the earth, they will rise and set at the same time: they are in "opposition" (♁) when in opposite quarters of the heavens, or when one rises just as the other is setting. "Quadrature" is half way between conjunction and opposition. By "greatest elongation" is meant the greatest apparent *angular* distance from the sun; the planet is then generally most favorably situated for observation. Mercury can only be seen with the naked eye at this time. When a planet is in its "ascending" (♁) or "descending" (♁) node it is crossing the plane of the earth's orbit. The term "Perihelion" means nearest, and "Aphelion" farthest, from the sun. An "occultation" of a planet or star is an eclipse of it by some other body, usually the moon.

### I.—ECLIPSES.

In the year 1903 there will be four Eclipses, two of the Sun and two of the Moon, as follows:

1. An annular Eclipse of the Sun, March 28, invisible in America, except Alaska, British Columbia, and the northwest corner of Washington. The path of the central and annular Eclipse lies in Northern China and Eastern Siberia. The Eclipse will be partial in the Philippine Islands.
2. A partial Eclipse of the Moon April 11, partly visible in the United States as follows:

| PLACE.           | Moon Enters Shadow. |               | Middle of the Eclipse. |       | Moon Leaves Shadow. |       |

\* Before moon rises.

Magnitude of the Eclipse .973, the Moon's diameter = 1.

3. A total Eclipse of the Sun September 20-21, invisible in America. The path of the total Eclipse lies wholly in the southern portion of the Indian Ocean. Visible as a partial Eclipse on the eastern portion of South Africa, Madagascar, Tasmania, the southern coast of Australia, and the southern portion of New Zealand.
4. A partial eclipse of the Moon October 6, invisible in America.

The conjunctions of the moon with the planets when viewed from the earth's surface may differ from the above dates as much as  $\pm 20$  minutes or even more by reason of the moon's parallax in right ascension. For the mere purpose of observation the above dates are sufficiently accurate for all places.

Table of Magnetic Declinations,

OR VARIATIONS OF THE COMPASS FOR THE EPOCH JANUARY, 1903—WITH THE ANNUAL CHANGE FROM 1900 TO 1995 FOR THE PRINCIPAL PLACES IN THE UNITED STATES.

A plus (+) sign denotes West Declination; a minus (—) sign East Declination. For the annual change a plus sign denotes increasing West or decreasing East declination, and a minus sign the reverse.

(Specially prepared for THE WORLD ALMANAC from reports of the United States Coast and Geodetic Survey.)

**Weather Flags****OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.**

THE Weather Bureau furnishes, when practicable, for the benefit of all interests dependent upon weather conditions, the "Forecasts" which are prepared daily at the Central Office in Washington, D. C., and certain designated stations. These forecasts are telegraphed to stations of the Weather Bureau, railway officials, postmasters, and many others, to be communicated to the public by means of flags or steam whistles. The flags adopted for this purpose are five in number, and of the forms and colors indicated below:

**EXPLANATION OF WEATHER FLAGS.**

|-----------------------|----------------------|--------------------------------|----------------------------------|---------------------------------------------------------|

Clear or fair weather.    Rain or snow.    Local rain or snow.    Temperature.    Cold wave.

When number 4 is placed above number 1, 2, or 3, it indicates warmer; when below, colder; when not displayed, the temperature is expected to remain about stationary. During the late Spring and early Fall the cold-wave flag is also used to indicate anticipated frosts.

**WHISTLE SIGNALS.**

A warning blast of from fifteen to twenty seconds duration is sounded to attract attention. After this warning the longer blasts (of from four to six seconds duration) refer to weather, and shorter blasts (of from one to three seconds duration) refer to temperature; those for weather are sounded first.

|                 |                     |                  |                     |
|-----------------|---------------------|------------------|---------------------|
| Blasts.         | Indicate.           | Blasts.          | Indicate.           |
| One long.....   | Fair weather.       | One short.....   | Lower temperature.  |
| Two long.....   | Rain or snow.       | Two short.....   | Higher temperature. |
| Three long..... | Local rain or snow. | Three short..... | Cold wave.          |

By repeating each combination a few times, with intervals of ten seconds, liability to error in reading the signals may be avoided.

As far as practicable the forecast messages will be telegraphed at the expense of the Weather Bureau; but if this is impracticable, they will be furnished at the regular commercial rates and sent "collect." In no case will the forecasts be sent to a second address in any place, except at the expense of the applicant.

Persons desiring to display the flags or sound the whistle signals for the benefit of the public should communicate with the Weather Bureau officials in charge of the climate and crop service of their respective States, the central stations of which are as follows:

**The Ancient and Modern Year.**

THE Athenians began the year in June, the Macedonians in September, the Romans first in March and afterward in January, the Persians on August 11, the ancient Mexicans on February 23, the Mohammedans in July. The Chinese year, which begins early in February, is similar to the Mohammedan in having 12 months of 29 and 30 days alternately; but in every nineteen years there are seven years which have 13 months. This is not quite correct, and the Chinese have therefore formed a cycle of 60 years, in which period 22 intercalary months occur.

**Storm and Hurricane Warnings**

OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.  
STORM WARNINGS.

Northeasterly winds, Southeasterly winds, Northwesterly winds, Southwesterly winds, Red, black centre.

**Storm Warnings.**—A red flag with a black centre indicates that a storm of marked violence is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from northeast to south); white, westerly (from southwest to north). The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from the southerly quadrants. By night a red light indicates easterly winds, and a white light above a red light westerly winds.

**Hurricane Warning.**—Two red flags with black centres, displayed one above the other, indicate the expected approach of a tropical hurricane, and also one of those extremely severe and dangerous storms which occasionally move across the Lakes and Northern Atlantic coast.

**Velocity of Winds in the United States.**

AVERAGE hourly velocity of the wind at selected stations of the United States Weather Bureau, also the highest velocity ever reported for a period of five minutes. (Prepared by W. L. Moore, Chief of the Weather Bureau, and revised to October 1, 1902, for THE WORLD ALMANAC.)

## Meteorites.

EVERY one has seen on almost any clear night, and especially in August and November, starlike bodies shoot swiftly across a portion of the sky and then suddenly disappear. They are popularly called "shooting stars" and technically meteors or meteorites, and from an examination of many of them which have fallen, they are found to consist of mineral masses, chiefly iron, nickel, manganese, etc., and vary in size from mere dust particles to bodies weighing thousands of pounds.

From careful observation it is found that they chiefly move in groups or swarms around the sun just as planets do. In fact two of the groups are undoubtedly the debris of disintegrated comets which have long ceased to be visible. The following is a list of meteorites which were actually seen to fall, and fragments of them are to-day to be found in the great museums of London, Paris, and Vienna in Europe, and in those of Harvard, Yale, Amherst, and other colleges and in the Smithsonian Institution in this country:

1. A large stone weighing 260 pounds at Ensisheim, Germany, 1492, November 7; fragments of which are in the British Museum and in the Jardin des Plantes, Paris.
2. About 1,200 stones, one of which weighed 120 pounds, at Padua, Italy, in 1510.
3. A mass of iron at Jahliadu, Punjab, India, in 1620. The Emperor Jehangis had a sword forged from it.
4. A stone 59 pounds at Mont Vasier, Provence, France, 1627, November 27, witnessed by the Astronomer Gassendi.
5. A mass of iron at Agram, Bohemia, 1751.
6. A shower of stones at Plaun, Bohemia, 1753, July 3.
7. Two stones of 20 pounds each at Lipoos, France, 1753, September.
8. Two stones 200 and 300 pounds at Verona, Italy, in 1762.
9. A stone of 56 pounds at Wald Cottage, Yorkshire, England, 1795, December 13.
10. A stone about 20 pounds near Sales, Ville Franche, 1798, March 12.
11. A shower of stones at Benares, India, 1798, March 17.
12. Several stones (8½ pounds), near L'Aigle, Normandy, France, 1803, April 16.
13. A shower of stones at Weston, Ct., 1807, December 14.
14. A mass of iron in Dickson County, Tenn., 1835.
15. A mass of iron at Brannau, Bohemia, 1847.
16. Several large stones at Dhurmsala, India, in 1860. They were coated with ice when dug out.
17. A shower of stones at Orguel, France, 1864, May 15.
18. A mass of iron at Nejed, Arabia, in 1865.
19. A tremendous fall of stones weighing over 600 pounds at Kuyahinya, Hungary, in 1866, July 9.
20. A mass of iron at Nedagollah, India, in 1870.
21. A mass of iron near Maysville, Cal., in 1873.
22. A mass of iron (8 pounds) at Rowton, England, in 1876. This was red hot when dug up.
23. Several small fragments of meteoric iron in Emmet County, Ia., in 1879.
24. A large piece of meteoric iron at Mazakil, Mex., 1885, November 27.
25. A shower of meteorites in Johnson County, Ark., in 1886.

To this list may be added those which fell at Bishopville, S. C., in 1843; at Cabarrus, N. C., in 1849; New Concord, O., in 1860, and at Amana, Ia., in 1875.

A meteorite weighing over a hundred pounds, and having a hole burned through it, is to be seen at the Smithsonian Institution, Washington, D. C. Large masses of meteoric iron weighing several tons have been found in Greenland and Mexico. The so-called meteoric iron differs both in chemical composition and molecular structure from that of terrestrial origin, and is therefore easily recognized. Since these bodies are nothing more nor less than small planets moving around the sun in independent orbits, they have planetary velocities, and by reason of the great resistance they encounter on entering our atmosphere, a portion of their kinetic energy is transformed into heat, which may be so intense as to completely or partially volatilize them, and therefore comparatively few of them ever reach the ground.

## The Galaxy or Milky Way.

DURING any clear night when the moon is absent a faint white band, somewhat irregular in breadth and intensity, can be seen extending obliquely across the sky. This girdling belt or band is commonly known as the Galaxy or Milky Way, from its whitish or milky appearance, and has been an object of study by astronomers from the remotest antiquity.

Disregarding slight deviations in its brightness, breadth, and direction, its course is that of a great circle inclined at an angle of about  $63^{\circ}$  to the celestial equator and cutting this circle in points whose right ascension are 6h. 47m. and 18h. 47m., and therefore its poles are situated in right ascension 12h. 47m. and declination  $27^{\circ}$  N., and right ascension 0h. 47m. and declination  $27^{\circ}$  S. At the point of nearest approach to the south pole, and where it is brightest, there is seen a dark, vacant space about  $8^{\circ}$  long by  $5^{\circ}$  broad, so conspicuous as to attract the notice of the most superficial observer; it is called by navigators the "Coal Sack." In it only one solitary star is visible to the naked eye, but it is by no means devoid of telescopic stars. Its striking blackness is probably due in part to the effect of contrast with the brilliant star-ground by which it is surrounded.

The brightness of the Milky Way in this neighborhood is very striking compared with that in its most northern course, and conveys the idea of greater proximity. This circumstance has led astronomers to believe that the visible heavens is in the form of a flat ring like a discus or quail, of immense and irregular breadth and thickness, within which we are eccentrically situated, nearer to the southern than to the northern portion.

It is absolutely impossible to give even a faint idea of the number of stars crowded together in this wonderful band.

More than 120,000 have passed across the field of view of a telescope in fifteen minutes. The total number is absolutely incalculable. Although composed of a vast assemblage of stars, there are about fifty vacant spaces wholly devoid of stars so far as we are at present able to determine. One of the most remarkable of these is situated in the constellation Sagittarius, in right ascension 17h. 57m. and declination  $27^{\circ} 51' S.$ , and therefore visible in our latitude.

Not even an approximate estimate can be made of the distance of the telescopic stars in the Milky Way. Their light has doubtless been many thousand, perhaps millions, of years travelling to us at the rate of 186,000 miles per second. Their distance is incalculable. If the universe of visible stars, to which our solar system belongs, and of which the Milky Way forms the outer edge or boundary, is of such prodigious dimensions, what must be the size and distance of the gaseous nebule—those island universes—which our large telescopes have revealed far beyond the confines of the Milky Way? The question cannot be answered; it is beyond human comprehension.

NOTE.—The above table was prepared for THE WORLD ALMANAC by the Geographic Branch of the United States Geological Survey. It should be stated in connection with this table that it presents only points whose heights are matters of record, and that in several cases in the high mountain region of the far West and the Pacific Slope it is well known that there are higher points within the State or Territory whose heights are not yet known with accuracy, and consequently cannot be given.

This table was revised by the United States Geological Survey to November 1, 1902.

The weight of a cubic foot of distilled water at a temperature of 60° F. is 1,000 ounces Avoirdupois, very nearly, therefore the weight (in ounces, Avoirdupois) of a cubic foot of any of the substances in the above table is found by multiplying the specific gravities by 10, thus:—one cubic foot of oak weighs 1,170 ounces; one cubic foot of marble 2,700 ounces, and so on.

### DOMESTIC RATES OF POSTAGE.

ALL mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations. (Domestic rates apply to Canada, Mexico, Cuba, Tutuila, Porto Rico, Guam, Hawaii, and the Philippines.)

**First-Class Matter.**—This class includes letters, postal cards, "post cards," and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, *two cents per ounce or fraction thereof.*

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on **postal cards**, one cent (double or "reply" cards, two cents). Nothing must be added or attached to a postal card, except that a printed address slip not larger than 2 inches by  $\frac{3}{4}$  of an inch may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any threat, offensive dun, or any scurrilous or indecent communication will not be forwarded. Words on a postal card indicating the occupation of the addressee, used to better identify him, are regarded as a part of the address; anything more—as the repetition of the words on a postal card, etc., business or the several capacities in which the addressee serves, the various kinds of goods dealt in, and similar attempts at advertising—on the address side of the postal card is not regarded as a "proper description of the person," and will subject the postal card to the letter rate. Cards that have been spoiled in printing or otherwise will be redeemed from the original purchasers at 75 per cent of their face value, if unutilized.

"PRIVATE MAILING CARDS," "Post Cards," bearing written messages may be transmitted in the domestic mails at the rate of a cent apiece, stamps to be affixed by the sender; such cards to be sent openly in the mails.

1. To be entitled to the privileges of this act, the cards must conform to the following conditions:

(a) Each card must be an unfolded piece of cardboard, not exceeding the size fixed by the Convention of the Universal Postal Union (9 x 14 centimetres, which is approximately 3 9-16 by 5 9-16 inches) nor less than the minimum size of domestic postal cards (2 15-16 by 5 1/2 inches).

(b) The form of card and the quality and weight of paper used in its manufacture must be substantially that of the Government postal card of like size.

(c) They may be of any color which does not interfere with the legibility of the address and postmark.

(d) Each card must bear the words "Post Card" at the top of the address side, unobstructed by any other matter; said words to be placed thereon in conspicuous letters and in such manner as not to interfere with a perfectly distinct address and postmark.

(e) The address may be in writing, printing, or by means of a hand-stamp, or adhesive label of not more than  $\frac{3}{8}$  of an inch by 2 inches in size, and the sender may, in the same manner, place his name and address on the back or the face of the card. The message may be in writing or in print.

2. Cards conforming to the foregoing conditions are transmissible in the domestic mails (including the island possessions), and to places in Cuba, Canada, and Mexico, at the postage rate of one cent each, and in the mails of the Postal Union at the postage rate of two cents each, prepaid by stamps affixed.

3. Any card of foreign origin which, from its title in any language, appears to be a "Post Card" and conforms to the requirements of this order as to size, form, quality, and weight, shall be admissible to the mails (domestic or international) when prepaid in United States postage stamps.

4. When post cards are prepared by printers and stationers for sale, they should, in addition to conformity with the requirements of this order, also bear in the upper right-hand corner of the face an oblong diagram containing the words "Place postage stamp here," and across the bottom the words "This side for the address."

5. Advertisements and illustrations in any color may be printed upon either or both sides of a post card, provided they do not, when placed upon the face thereof, interfere with a perfectly distinct address and postmark.

6. The words "Post Card" are authorized only on cards which conform to the conditions prescribed by this order; other cards bearing these words or otherwise purporting to be issued under authority of the act of May 19, 1898, are unmailable as "post cards," and, whether the message be written or printed, are subject to postage at the letter rate.

7. The privilege given by the act is not intended to work a discontinuance of the Government postal cards. These will be issued and sold the same as heretofore; and in all correspondence will be designated "postal cards," to distinguish them from "post cards," provided for in this order.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at post-offices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post-office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more, they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a post-office, the addressee will be notified to remit postage; and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at post-office windows in the minimum number of twenty identical copies separately addressed.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter fully prepaid.

Prepaid letters will be reforwarded from one post-office to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

**Second-Class Matter.**—This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient

newspapers and publications of this character mailed by persons other than publishers. Publications having the characteristics of books and such as are not subscribed for on account of their literary merits, but because of other inducements, are not eligible to second-class privileges. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published at stated intervals not less than four times a year, and that they be printed on and be bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, *one cent a pound or fractional part thereof*, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Second-class publications must possess legitimate subscription lists approximating 50 per cent of the number of copies regularly issued and circulated by mail or *otherwise*. Unless they do pound-rate privileges are revoked or withheld.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of advertisers or other persons, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons—the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such "Christmas," "New Year's," and other special issues, including "Almanacs," as are excluded from second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, *one cent for each four ounces or fraction thereof*. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. This rate applies only when a complete copy is mailed. Parts of second-class publications or partial or incomplete copies are *third-class matter*. Second-class matter will be entitled to special delivery when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

**Third-Class Matter.**—Mail matter of the third class includes printed books, pamphlets, engravings, circulars in print (or by the hectograph, electric-pen, or similar process when at least twenty identical copies, separately addressed, are mailed at post-office windows at one time), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is *one cent for each two ounces or fraction thereof*.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation, and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text, and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

**Fourth-Class Matter.**—Fourth-class matter is all mailable matter not included in the three preceding classes which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, *one cent for each ounce or fraction thereof* (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is *one cent for each two ounces or fraction thereof*). This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous, or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine), may be admitted to the mails for transportation within the United States. Samples of altar or communion wine are mailable. When in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be inclosed in a metal, wooden, or papier-mache block or tube, not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be impervious to liquids, including oils, and closed by a tightly fitting lid or cover, so adjusted as to make the block or tube water tight and to prevent the leakage of the contents in case of breaking of the glass. When inclosed in a tin cylinder, metal case, or tube, such cylinder, case, or tube should have a lid or cover so secured as to make the case or tube water tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. Manufacturers or dealers intending to transmit articles or samples in considerable quantities should submit a sample package, showing their mode of packing, to the postmaster at the mailing office, who will see that the conditions of this section are carefully observed. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also any marks, numbers, names, or letters for the purpose of description, such as prices, quantity, etc., may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to notify the sender in case the package is not delivered.

**Registration.**—All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all post-offices in the United States.

An indemnity—not to exceed \$25 for any one registered piece, or the actual value of the piece, if it is less than \$25—shall be paid for the loss of first-class registered matter.

**Domestic Money Orders.**—Domestic money orders are issued by money-order post-offices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50 to \$5, 5 cents; over \$5 to \$10, 8 cents; over \$10 to \$20, 10 cents; over \$20 to \$30, 12 cents; over \$30 to \$40, 15 cents; over \$40 to \$50, 18 cents; over \$50 to \$60, 20 cents; over \$60 to \$75, 25 cents; over \$75 to \$100, 30 cents.

**Stamped Envelopes.**—Embossed stamped envelopes and newspaper wrappers of several denominations, sizes, and colors are kept on sale at post-offices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails.

Applications for the establishment of post-offices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz.:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by Members of Congress, or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any Member of Congress, procured from that Department.

3. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the Copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

4. The Vice-President, Members and Members-elect and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers and to Members of Congress are required to be prepaid by stamps.

**Suggestions to the Public** (From the United States Official Postal Guide).—Mail all letters, etc., as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars.

All mail matter at large post-offices is necessarily handled in great haste and should therefore in all cases be so PLAINLY addressed as to leave NO ROOM FOR DOUBT AND NO EXCUSE FOR ERROR on the part of postal employees. Names of States should be written in full (or their abbreviations very distinctly written) in order to prevent errors which arise from the similarity of such abbreviations as Cal., Col.; Pa., Va., Vt.; Me., Mo., Md.; Ioa., Ind.; N. H., N. M., N. Y., N. J., N. C., D. C.; Miss., Minn., Mass.; Nev., Neb.; Penn., Tenn., etc., when hastily or carelessly written. This is especially necessary in addressing mail matter to places of which the names are borne by several post-offices in different States.

Avoid as much as possible using envelopes made of flimsy paper, especially where more than one sheet of paper, or any other article than paper, is inclosed. Being often handled, and even in the mail-bags subject to pressure, such envelopes not infrequently split open, giving cause of complaint.

Never send money or any other article of value through the mail except either by means of a money order or in a registered letter. Any person who sends money or jewelry in an unregistered letter not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to ruin.

See that every letter or package bears the full name and post-office address of the writer, in order to secure the return of the letter, if the person to whom it is directed cannot be found. A much larger portion of the undelivered letters could be returned if the names and addresses of the senders were

always fully and plainly written or printed inside or on the envelopes. Persons who have large correspondence find it most convenient to use "special request envelopes;" but those who only mail an occasional letter can avoid much trouble by writing a request to "return if not delivered," etc., on the envelope.

When dropping a letter, newspaper, etc., into a street mailing-box, or into the receptacle at a post-office, always see that the packet falls into the box and does not stick in its passage; observe, also, particularly, whether the postage stamps remain securely in their places.

Postage stamps should be placed on the upper right-hand corner of the address side of all mail matter.

The street and number (or box number) should form a part of the address of all mail matter directed to cities. In most cities there are many persons, and even firms, bearing the same name. Before depositing any package or other article for mailing, the sender should assure himself that it is wrapped and packed in the manner prescribed by postal regulations; that it does not contain *unmailable* matter nor exceed the limit of size and weight as fixed by law; and that it is fully prepaid and properly addressed. The postage stamps on all mail matter are necessarily cancelled at once, and the value of those affixed to packages that are afterward discovered to be short-paid or otherwise unmailable is therefore liable to be lost to the senders.

It is unlawful to send an ordinary letter by express or otherwise outside of the mails unless it be inclosed in a Government-stamped envelope. It is also unlawful to inclose a letter in an express package unless it pertains wholly to the contents of the package.

It is forbidden by the regulations of the Post-Office Department for postmasters to give to any person information concerning the mail matter of another, or to disclose the name of a box-holder at a post-office.

Letters addressed to persons temporarily sojourning in a city where the Free Delivery System is in operation should be marked "Transient" or "General Delivery," if not addressed to a street and number or some other designated place of delivery.

Foreign books, etc., infringing United States copyright are *undeliverable* if received in foreign mails, or mailed here.

The foregoing rates, rules, and suggestions apply to postal matters in the United States.

### MEXICO.

Letters, newspapers, and printed matter are now carried between the United States and Mexico at same rates as in the United States. Samples, 2 cents for first 4 ounces, and 1 cent for each additional 2 ounces; limit of weight, 12 ounces. Merchandise other than samples may only be sent by Parcels Post. No sealed packages other than letters in their usual and ordinary form may be sent by mail to Mexico, nor any package over 4 pounds 6 ounces in weight.

## FOREIGN MAILS—Continued.

## SAMPLES.

Packets of samples of merchandise are admissible up to 12 ounces in weight, and the following dimensions apply to all Postal Union countries: 12 inches in length, 8 inches in width, and 4 inches in depth, or if they are in the form of a roll, 12 inches in length and 6 inches in diameter. Merchandise of salable value and goods not in execution of orders, or as gifts, must be paid at full letter rate.

## PARCELS POST.

Unsealed packages of mailable merchandise may be sent by Parcels Post to Jamaica (including Turk's Island), Barbadoes, the Bahamas, British Honduras, Mexico, the Leeward Islands, the Republic of Colombia, Costa Rica, Salvador, British Guiana, Danish West Indies (St. Thomas, St. Croix, and St. John) and the Windward Islands (St. Lucia, St. Vincent, Grenada, and the Grenadines), Trinidad, including Tobago, Venezuela, Bolivia, and Chile (20 cents per pound), Newfoundland, Honduras (Republic of), Germany, New Zealand, Nicaragua, Bolivia, and Guatemala, at the following postage rate: For a parcel not exceeding one pound in weight, 12 cents; for each additional pound or fraction thereof, 12 cents. The maximum weight allowed is eleven pounds—the extreme dimensions allowed for Mexico, Costa Rica, and Colombia being two feet length by four feet girth, and for the other countries not more than three feet six inches in length, nor more than six feet in length and girth combined. Parcels must be wrapped so as to permit their contents to be easily examined by postmasters. Poisonous, explosive, and inflammable substances are excluded. Parcels may be registered for 8 cents each to any of the above places, except Barbadoes.

A Customs declaration (furnished on application at any post-office) must be attached to any Parcels-Post package. Parcels for Salvador must have two declarations, and parcels for Venezuela three declarations attached.

*Rates and conditions to countries not in the Universal Postal Union are now the same as those to Universal Postal Union countries.*

## GENERAL REGULATIONS RESPECTING FOREIGN MAILS.

Postage can be prepaid upon articles only by means of the postage stamps of the country in which the articles are mailed. Hence articles mailed in one country addressed to another country which bear postage stamps of the country to which they are addressed are treated as if they had no postage stamps attached to them.

Unpaid letters received from the Postal Union are chargeable with 10 cents per 15 grams ( $\frac{3}{8}$  ounce). Insufficiently prepaid correspondence of all kinds is chargeable with double the amount of the deficient postage.

Matter to be sent in the mails at less than letter rates must be so wrapped that it can be readily examined at the office of delivery, as well as the mailing office, without destroying the wrapper.

Newspapers and periodicals sent in the mails to foreign countries other than those of the Postal Union should be wrapped singly. Those sent by publishers to regular subscribers in Canada, Cuba, and Mexico are transmissible as in domestic mails, except that packages addressed to Mexico must not exceed 4 pounds 6 ounces in weight.

The United States two-cent postal card should be used for card correspondence with foreign countries (except Canada, Cuba, and Mexico, to which countries the one-cent card is transmissible), but where these cards cannot be obtained, it is allowable to use for this purpose the United States one-cent postal card with a one-cent United States adhesive postage stamp attached thereto. Private cards can now be used if conforming in size, etc., to government cards, and bearing words "Postal Card—Carte Postale."

Mail matter of all kinds received from any country of the Postal Union is required to be reforwarded at the request of the addressee, from one post-office to another, or to any foreign country embraced in the Postal Union, without additional charge for postage.

All articles prohibited from domestic mails are also excluded from circulation in the mails to and from foreign countries. Postal cards or letters addressed to go around the world will not be forwarded, being prohibited.

The act of March 3, 1883, imposes a duty of 25 per cent ad valorem on all printed matter not therein otherwise provided for, without regard to mode of importation. Under said act all printed matter, *except newspapers and periodicals*, and except printed matter other than books imported in the mails for personal use, is subject to the regular duty of 25 per cent ad valorem.

## FOREIGN (INTERNATIONAL) MONEY ORDERS.

There are now in operation postal conventions for the exchange of money orders between the United States and the following countries, viz.: Switzerland, Great Britain and Ireland, Germany, France, Italy, Canada and Newfoundland, Jamaica, New South Wales, Victoria, New Zealand, Queensland, the Cape Colony, the Windward Islands, the Leeward Islands, Belgium, Portugal, Tasmania, Sweden, Norway, Japan, Denmark, Netherlands, Dutch East Indies, the Bahamas, Trinidad and Tobago, British Guiana, Republic of Honduras, Austria, Hungary, Hong Kong, Salvador, Bermuda, Luxembourg, South Australia, Cuba, Chile, British Honduras, Egypt, Finland, Korea, Greece, Bolivia, Mexico, and Russia.

Upon receiving an international money order from the issuing postmaster the remitter must send it, at his own cost, to the payee, if the latter resides in Canada, Great Britain and Ireland, Queensland, Cape Colony, France and Algeria, New Zealand, New South Wales, Victoria, Tasmania, Jamaica, Leeward and Windward Islands and Constantinople, Bahamas, Trinidad and Tobago, British Guiana, Hong Kong, Bermuda, South Australia, Cuba, and British Honduras.

But the order should be retained by the remitter if the intended beneficiary live in any of the following named countries: Germany, Switzerland, Austria, Hungary, Italy, Belgium, Portugal, Sweden, Norway, Denmark, British India, Egypt, Japan, Salvador, Luxembourg, Chile, Finland, and Korea, in which case it is of no value except as evidence of deposit of the sum therein mentioned. Another and different form of order will be forwarded to the payee by the exchange office in the country of payment.

The rates of commission or fees charged for the issue of all international money orders are as follows: For sums not exceeding \$10, 10 cents; over \$10 and not exceeding \$20, 20 cents; over \$20 and not exceeding \$30, 30 cents; over \$30 and not exceeding \$40, 40 cents; over \$40 and not exceeding \$50, 50 cents; over \$50 and not exceeding \$60, 60 cents; over \$60 and not exceeding \$70, 70 cents; over \$70 and not exceeding \$80, 80 cents; over \$80 and not exceeding \$90, 90 cents; over \$90 and not exceeding \$100, \$1.

*Domestic rates and regulations apply to money orders for Cuba, Hawaii, Porto Rico, and the Philippine Islands.*

## Metric System of Weights and Measures.

THE METRIC SYSTEM has been adopted by Mexico, Brazil, Chile, Peru, etc., and except Russia and Great Britain, where it is permissive, by all European nations. Various names of the preceding systems are, however, frequently used: In Germany,  $\frac{1}{2}$  kilogram = 1 pound; in Switzerland, 3-10 of a metre = 1 foot, etc. If the first letters of the prefixes *deka*, *hecto*, *kilo*, *myria*, from the Greek, and *deci*, *centi*, *milli*, from the Latin, are used in preference to our plain English, 10, 100, etc., it is best to employ capital letters for the multiples and small letters for the subdivisions, to avoid ambiguities in abbreviations: 1 dekametre or 10 metres = 1 Dm.; 1 decimetre or 1-10 of a metre = 1 dm.

The METRE, unit of length, is nearly the ten-millionth part of a quadrant of a meridian, of the distance between Equator and Pole. The International Standard Metre is, practically, nothing else but a length defined by the distance between two lines on a platinum-iridium bar at 0° Centigrade, deposited at the International Bureau of Weights and Measures, Paris, France.

The LITRE, unit of capacity, is derived from the weight of one kilogram pure water at greatest density, a cube whose edge is one-tenth of a metre and, therefore, the one-thousandth part of a metric ton.

The GRAM, unit of weight, is a cube of pure water at greatest density, whose edge is one-hundredth of a metre, and, therefore, the one-thousandth part of a kilogram, and the one-millionth part of a metric ton.

One silver dollar weighs 25 grams, 1 dime =  $2\frac{1}{2}$  grams, 1 five-cent nickel = 5 grams.

The Metric System was legalized in the United States on July 28, 1866, when Congress enacted as follows:

"The tables in the schedule hereto annexed shall be recognized in the construction of contracts, and in all legal proceedings, as establishing, in terms of the weights and measures now in use in the United States, the equivalents of the weights and measures expressed therein in terms of the metric system, and the tables may lawfully be used for computing, determining, and expressing in customary weights and measures the weights and measures of the metric system."

The following are the tables annexed to the above:

### MEASURES OF LENGTH.

| Metric Denominations and Values. | Equivalents in Denominations in Use.   |
|----------------------------------|----------------------------------------|
| Myriametre.....                  | 10,000 metres.                         |
| Kilometre.....                   | 1,000 metres.                          |
| Hectometre.....                  | 100 metres.                            |
| Dekametre.....                   | 10 metres.                             |
| Metre.....                       | 1 metre.                               |

THE METRIC SYSTEM SIMPLIFIED.

The following tables of the metric system of weights and measures have been simplified as much as possible for THE WORLD ALMANAC by omitting such denominations as are not in practical, everyday use in the countries where the system is used exclusively.

TABLES OF THE SYSTEM.

**Length.**—The denominations in practical use are millimetres (mm.), centimetres (cm.), metres (m.), and kilometres (km.).

10 mm. = 1 cm.; 100 cm. = 1 m.; 1,000 m. = 1 km. NOTE.—A decimetre is 10 cm.

**Weight.**—The denominations in use are grams (g.), kilos\* (kg.), and tons (metric tons).

1,000 g. = 1 kg.; 1,000 kg. = 1 metric ton.

**Capacity.**—The denominations in use are cubic centimetres (c. c.) and litres (l.).

1,000 c. c. = 1 l. NOTE.—A hectolitre is 100 l. (seldom used).

Relation of capacity and weight to length: A cubic decimetre is a litre, and a litre of water weighs a kilo.

APPROXIMATE EQUIVALENTS.

A metre is about a yard; a kilo is about 2 pounds; a litre is about a quart; a centimetre is about  $\frac{1}{2}$  inch; a metric ton is about same as a ton; a kilometre is about  $\frac{1}{2}$  mile; a cubic centimetre is about a thimbleful; a nickel weighs about 5 grams.

SALT.—Weight per bushel as adopted by different States ranges from 50 to 80 pounds. Coarse salt in Pennsylvania is reckoned at 80 pounds, and in Illinois at 50 pounds per bushel. Fine salt in Pennsylvania is reckoned at 62 pounds, in Kentucky and Illinois at 55 pounds per bushel.

## Measures and Weights of Great Britain.

The measures of length and the weights are nearly, practically, the same as those in use in the United States. The English ton is 2,240 lbs, avoirdupois, the same as the long ton, or shipping ton of the United States. The English hundredweight is 112 lbs, avoirdupois, the same as the long hundredweight of the United States. The metre has been legalized at 39,37079 inches, but the length of 39,370432 inches, as adopted by France, Germany, Belgium, and Russia, is frequently used.

The Imperial gallon, the basis of the system of capacity, involves an error of about 1 part in 1,836: 10 lbs. of water = 277.123 cubic inches.

A cubic foot of pure gold weighs 1,210 pounds; pure silver, 655 pounds; cast iron, 450 pounds; copper, 550 pounds; lead, 710 pounds; pure platinum, 1,220 pounds; tin, 456 pounds; aluminum, 163 pounds.

## Domestic Weights and Measures.

**Apothecaries' Weight:** 20 grains = 1 scruple; 3 scruples = 1 dram; 8 drams = 1 ounce; 12 ounces = 1 pound.

**Avoirdupois Weight (short ton):** 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 25 pounds = 1 quarter; 4 quarters = 1 cwt.; 20 cwt. = 1 ton.

**Avoirdupois Weight (long ton):** 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 112 pounds = 1 cwt.; 20 cwt. = 1 ton.

**Troy Weight:** 24 grains = 1 pennyweight; 20 pennyweights = 1 ounce; 12 ounces = 1 pound.  
**Circular Measure:** 60 seconds = 1 minute; 60 minutes = 1 degree; 30 degrees = 1 sign; 12 signs = 1 circle or circumference.

**Cubic Measure:** 1,728 cubic inches = 1 cubic foot; 27 cubic feet = 1 cubic yard.  
**Dry Measure:** 2 pints = 1 quart; 8 quarts = 1 peck; 4 pecks = 1 bushel.

**Liquid Measure:** 4 gills = 1 pint; 2 pints = 1 quart; 4 quarts = 1 gallon; 31½ gallons = 1 barrel; 2 barrels = 1 hogshead.

**Long Measure:** 12 inches = 1 foot; 3 feet = 1 yard; 5½ yards = 1 rod or pole; 40 rods = 1 furlong; 8 furlongs = 1 statute mile; 3 miles = 1 league.

**Mariner's Measure:** 6 feet = 1 fathom; 120 fathoms = 1 cable length; 7½ cable lengths = 1 mile; 5,280 feet = 1 statute mile; 6,085 feet = 1 nautical mile.

**Square Measure:** 144 square inches = 1 square foot; 9 square feet = 1 square yard; 30¼ square yards = 1 square rod or perch; 40 square rods = 1 rood; 4 roods = 1 acre; 6.0 acres = 1 square mile; 36 square miles (6 miles square) = 1 township.

**Time Measure:** 60 seconds = 1 minute; 60 minutes = 1 hour; 24 hours = 1 day; 7 days = 1 week; 365 days = 1 year; 366 days = 1 leap year.

| 3,612,800  | square varas (square of 1,900.8 | varas) = 1 section            | = 640      | acres. |
| 1,806,400  | square varas (square of 1,344   | varas) = ¼ section            | = 320      | acres. |
| 903,200    | square varas (square of 950.44  | varas) = ⅓ section            | = 160      | acres. |
| 451,600    | square varas (square of 672     | varas) = ¼ section            | = 80       | acres. |
| 225,800    | square varas (square of 475     | varas) = 1-16 section         | = 40       | acres. |
| 5,645,376  | square varas (square of 75,137  | varas) = 4,840 square yards   | = 1        | acre.  |
|            |                                 | 43,560 square feet            | = 1        | acre.  |

To find the number of acres in any number of square varas, multiply the latter by 177 (or to be more exact, by 177½), and cut off six decimals.

1 vara = 33¼ inches.

1,900.8 varas = 1 mile.

Constitution of the United States.

Preamble.

WE, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquillity, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this CONSTITUTION for the United States of America.

ARTICLE I.

Legislative powers. House of Representatives.

SECTION I. All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

Qualifications of Representatives.

SECTION II. 1. The House of Representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature.

Apportionment of Representatives.

2. No person shall be a Representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.  
3. Representatives and direct taxes shall be apportioned among the several States which may be included within this Union according to their respective numbers, which shall be determined by adding to the whole number of all free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all free persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each State shall have at least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose Representatives; and Rhode Island and Providence Plantations, 1; Connecticut, 5; New York, 6; New Jersey, 4; 3; Massachusetts, 8; Rhode Island and Providence Plantations, 1; Connecticut, 5; New York, 6; New Jersey, 4; 3; Pennsylvania, 3; Delaware, 1; Maryland, 6; Virginia, 10; North Carolina, 5; South Carolina, 5; and Georgia, 3.\*

Vacancies, how filled. Officers, how appointed. Senate.

4. When vacancies happen in the representation from any State, the Executive Authority thereof shall issue writs of election to fill such vacancies.  
5. The House of Representatives shall choose their Speaker and other officers, and shall have the sole power of impeachment.

Classification of Senators.

SECTION III. 1. The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six years; and each Senator shall have one vote.

Qualifications of Senators.

2. Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation, or otherwise, during the recess of the Legislature of any State, the Executive thereof may make temporary appointments until the next meeting of the Legislature, which shall then fill such vacancies.

President of the Senate.

3. No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

Senate a court for trial of impeachments. Judgment in case of conviction.

4. The Vice-President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.  
5. The Senate shall choose their other officers, and also a President pro tempore, in the absence of the Vice-President, or when he shall exercise the office of President of the United States.

Elections of Senators and Representatives.

6. The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

Meeting of Congress.

7. Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust, or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment, and punishment, according to law.

Organization of Congress.

SECTION IV. 1. The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to places of choosing Senators.

Rule of proceedings. Journals of each House.

2. The Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

Adjournment of Congress.

SECTION V. 1. Each House shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members in such manner and under such penalties as each House may provide.

Pay and privileges of members.

2. Each House may determine the rules of its proceedings, punish its members for disorderly behavior, and with the concurrence of two-thirds expel a member.

Other offices prohibited.

3. Each House shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either House on any question shall, at the desire of one-fifth of those present, be entered on the journal.

Revenue bills. How bills become laws.

4. Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.

SECTION VI. 1. The Senators and Representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the Treasury of the United States. They shall in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective Houses, and in going to and returning from the same; and for any speech or debate in either House they shall not be questioned in any other place.

2. No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either House during his continuance in office.

SECTION VII. 1. All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments, as on other bills.

2. Every bill which shall have passed the House of Representatives and the Senate shall, before it become a law, be presented to the President of the United States; if he approve, he shall sign it, but if not, he shall return it, with his objections, to that House in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House, by which it shall likewise be reconsidered; and if approved by two-thirds of that House it shall become a law. But in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each House respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress by their adjournment prevent its return; in which case it shall not be a law.

15. To provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and repel invasions.
16. To provide for organizing, arming, and disciplining the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States respectively the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress.
17. To exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular States and the acceptance of Congress, become the seat of Government of the United States, and to exercise like authority over places purchased by the consent of the Legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dry-docks, and other needful buildings.
18. To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the Government of the United States, or in any department or officer thereof.
- SECTION IX. 1. The migration or importation of such persons as any of the States now existing shall think proper to admit shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.
2. The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.
3. No bill of attainder or ex post facto law shall be passed.
4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.
5. No tax or duty shall be laid on articles exported from any State.
6. No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another, nor shall vessels bound to or from one State be obliged to enter, clear, or pay duties in another.
7. No money shall be drawn from the Treasury but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.
8. No title of nobility shall be granted by the United States. And no person holding any office of profit or trust under them shall, without the consent of the Congress, accept of any present, emolument, office, or title of any kind whatever from any king, prince, or foreign state.
- SECTION X. 1. No State shall enter into any treaty, alliance, or confederation, grant letters of marque and reprisal, coin money, emit bills of credit, make anything but gold and silver coin a tender in payment of debts, pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.
2. No State shall, without the consent of the Congress, lay any impost or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws, and the net produce of all duties and imposts, shall be subject to the revision and control of the Congress.
3. No State shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

## ARTICLE II.

- SECTION I. 1. The Executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and, together with the Vice-President, chosen for the same term, be elected as follows:
2. Each State shall appoint, in such manner as the Legislature thereof may direct, a number of electors, equal to the whole number of Senators and Representatives to which the State may be entitled in the Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be appointed an elector.
3. [The electors shall meet in their respective States and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each, which list they shall sign and certify and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed, and if there be more than one who have such majority, and have an equal number of votes, then the House of Representatives shall immediately choose by ballot one of them for President; and if no person have a majority, then from the five highest on the list the said House shall in like manner choose State having one vote. A quorum, for this purpose, shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors shall be the Vice-President. But if there should remain two or more who have equal votes, the Senate shall choose from them by ballot the Vice-President.]
4. The Congress may determine the time of choosing the electors and the day on which they shall give their votes, which day shall be the same throughout the United States.

\* This clause is superseded by Article XII., Amendments.

- Qualifications of the President.** 5. No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years and been fourteen years a resident within the United States.
- Provision in case of his disability.** 6. In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President, and the Congress may by law provide for the case of removal, death, resignation, or inability, both of the President and Vice-President, declaring what officer shall then act as President, and such officer shall act accordingly until the disability be removed or a President shall be elected.
- Salary of the President.** 7. The President shall, at stated times, receive for his services a compensation, which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.
- Oath of the President.** 8. Before he enter on the execution of his office, he shall take the following oath or affirmation: "I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, protect, and defend the Constitution of the United States."
- Duties of the President.** SECTION II. 1. The President shall be Commander-in-Chief of the Army and Navy of the United States, and of the militia of the several States when called into the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments upon any subject relating to the duties of their respective offices, and he shall have power to grant reprieves and pardons for offences against the United States except in cases of impeachment.
- May make treaties, appoint ambassadors, judges, etc.** 2. He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur; and he shall nominate, and by and with the advice and consent of the Senate shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law; but the Congress may by law vest the appointment of such inferior officers as they think proper in the President alone, in the courts of law, or in the heads of departments.
- May fill vacancies.** 3. The President shall have power to fill up all vacancies that may happen during the recess of the Senate by granting commissions, which shall expire at the end of their next session.
- May make recommendations to and convene Congress.** SECTION III. He shall from time to time give to the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient; he may, on extraordinary occasions, convene both Houses, or either of them, and in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.
- How officers may be removed.** SECTION IV. The President, Vice-President, and all civil officers of the United States shall be removed from office on impeachment for and conviction of treason, bribery, or other high crimes and misdemeanors.

ARTICLE III.

- Judicial power, how invested.** SECTION I. The judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish. The judges, both of the Supreme and inferior courts, shall hold their offices during good behavior, and shall at stated times receive for their services a compensation, which shall not be diminished during their continuance in office.
- To what cases it extends.** SECTION II. 1. The judicial power shall extend to all cases in law and equity arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers, and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States, between a State and citizens of another State, between citizens of different States, between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign States, citizens, or subjects.
- Jurisdiction of the Supreme Court.** 2. In all cases affecting ambassadors, other public ministers, and consuls, and those in which a State shall be a party, the Supreme Court shall have original jurisdiction. In all the other cases before-mentioned the Supreme Court shall have appellate jurisdiction both as to law and fact, with such exceptions and under such regulations as the Congress shall make.
- Rules respecting trials.** 3. The trial of all crimes, except in cases of impeachment, shall be by jury, and such trial shall be held in the State where the said crimes shall have been committed; but when not committed within any State the trial shall be at such place or places as the Congress may by law have directed.
- Treason defined.** SECTION III. 1. Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.
- How punished.** 2. The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood or forfeiture except during the life of the person attained.

ARTICLE IV.

- Rights of States and records.** SECTION I. Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State. And the Congress may by general laws prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.
- Privileges of citizens.** SECTION II. 1. The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States.
- Executive requisitions.** 2. A person charged in any State with treason, felony, or other crime, who shall flee from justice, and be found in another State, shall, on demand of the Executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.
- Laws regulating service or labor.** 3. No person held to service or labor in one State, under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.
- New States, how formed and admitted.** SECTION III. 1. New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States, or parts of States, without the consent of the Legislatures of the States concerned, as well as of the Congress.
- Power of Congress over public lands.** 2. The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.
- Republican government guaranteed.** SECTION IV. The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion, and, on application of the Legislature, or of the Executive (when the Legislature cannot be convened), against domestic violence.

ARTICLE V.

- Constitution, how amended.** The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the Ninth Section of the First Article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

ARTICLE VI.

- Validity of debts recognized.** 1. All debts contracted and engagements entered into before the adoption of this Constitution shall be as valid against the United States under this Constitution as under the Confederation.

Supreme law of the land defined. 2. This Constitution and the laws of the United States which shall be made in pursuance thereof and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land, and the judges in every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

Oath; of whom required and for what. 3. The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

#### ARTICLE VII.

Ratification of the Constitution. The ratification of the Conventions of nine States shall be sufficient for the establishment of this Constitution between the States so ratifying the same.

### AMENDMENTS TO THE CONSTITUTION.

#### ARTICLE I.

Religion and free speech. Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof, or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

#### ARTICLE II.

Right to bear arms. A well-regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.

#### ARTICLE III.

Soldiers in time of peace. No soldier shall, in time of peace, be quartered in any house without the consent of the owner, nor in time of war but in a manner to be prescribed by law.

#### ARTICLE IV.

Right of search. The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

#### ARTICLE V.

Capital crimes and arrest therefor. No person shall be held to answer for a capital or other infamous crime unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service, in time of war or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation.

#### ARTICLE VI.

Right to speedy trial. In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the district and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defence.

#### ARTICLE VII.

Trial by jury. In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the United States than according to the rules of the common law.

#### ARTICLE VIII.

Excessive bail. Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

#### ARTICLE IX.

Enumeration of rights. The enumeration in the Constitution of certain rights shall not be construed to deny or disparage others retained by the people.

#### ARTICLE X.

Reserved rights of States. The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

#### ARTICLE XI.

Judicial power. The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States, by citizens of another State, or by citizens or subjects of any foreign State.

#### ARTICLE XII.

Electors in Presidential elections. The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom at least shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which list they shall sign and certify, and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate; the President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be the President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

#### ARTICLE XIII.

Slavery prohibited. 1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.  
2. Congress shall have power to enforce this article by appropriate legislation.

## CONSTITUTION OF THE UNITED STATES—Continued.

## ARTICLE XIV.

- Protection for all citizens.** 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.
- Apportionment of Representatives.** 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male members of such State, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.
- Rebellion against the United States.** 3. No person shall be a Senator or Representative in Congress, or elector of President and Vice-President, or holding any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid and comfort to the enemies thereof. But Congress may, by a vote of two-thirds of each House, remove such disability.
- The public debt.** 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection and rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations, and claims shall be held illegal and void.
5. The Congress shall have power to enforce by appropriate legislation the provisions of this article.

## ARTICLE XV.

- Right of suffrage.** 1. The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.
2. The Congress shall have power to enforce the provisions of this article by appropriate legislation.

## RATIFICATION OF THE CONSTITUTION.

The Constitution was ratified by the thirteen original States in the following order:

Delaware, December 7, 1787, unanimously.  
 Pennsylvania, December 12, 1787, vote 46 to 23.  
 New Jersey, December 18, 1787, unanimously.  
 Georgia, January 2, 1788, unanimously.  
 Connecticut, January 9, 1788, vote 128 to 40.  
 Massachusetts, February 6, 1788, vote 187 to 167.  
 Maryland, April 28, 1788, vote 63 to 12.

## RATIFICATION OF THE AMENDMENTS.

I. to X. inclusive were declared in force December 15, 1791.

XI. was declared in force January 9, 1798.

XII., regulating elections, was ratified by all the States except Connecticut, Delaware, Massachusetts, and New Hampshire, which rejected it. It was declared in force September 28, 1804.

XIII. The emancipation amendment was ratified by 31 of the 36 States; rejected by Delaware and Kentucky, not acted on by Texas; conditionally ratified by Alabama and Mississippi. Proclaimed December 18, 1865.

XIV. Reconstruction amendment was ratified by 23 Northern States; rejected by Delaware, Kentucky, Maryland, and 10 Southern States, and not acted on by California. The 10 Southern States subsequently ratified under pressure. Proclaimed July 28, 1868.

XV. Negro citizenship amendment was not acted on by Tennessee, rejected by California, Delaware, Kentucky, Maryland, New Jersey, and Oregon; ratified by the remaining 30 States. New York rescinded its ratification January 5, 1870. Proclaimed March 30, 1870.

## The Capitol at Washington.

THE Capitol is situated in latitude  $38^{\circ} 53' 20''$ .4 north and longitude  $77^{\circ} 00' 35''$ .7 west from Greenwich. It fronts east, and stands on a plateau eighty-eight feet above the level of the Potomac. The rotunda is ninety-five feet six inches in diameter, and its height from the floor to the top of the canopy is one hundred and eighty feet three inches.

The Senate Chamber is one hundred and thirteen feet three inches in length, by eighty feet three inches in width, and thirty-six feet in height. The galleries will accommodate one thousand persons.

The Representatives' Hall is one hundred and thirty-nine feet in length, by ninety-three feet in width, and thirty-six feet in height.

The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

## The Yellowstone National Park.

THE reservation known as the Yellowstone National Park, set apart for public uses by an act of Congress passed in 1872, covers a tract of about sixty-five miles in length, from north to south, and about fifty-five miles in width, from east to west, lying chiefly in Northwestern Wyoming, and overlapping, to a small extent, the boundaries of Montana, on the north, and Idaho, on the west. This gives an area of 3,312 square miles, a tract that is nearly the area of the States of Rhode Island and Delaware combined, and nearly half as large as the State of Massachusetts. The Rocky Mountain chain crosses the southwestern portion in an irregular line, leaving by far the greater expanse on the eastern side. The least elevation of any of the narrow valleys is 6,000 feet, and some of them are from 1,000 to 2,000 feet higher. The mountain ranges which hem in these valleys are from 10,000 to upward of 11,000 feet in height, Electric Peak (in the northwest corner of the park, not far back of Mammoth Hot Springs) having an elevation of 11,155 feet, and Mount Langford and Turret Mountain (both in the Yellowstone Range) reaching the height of 11,155 and 11,142 feet respectively.

## Passport Regulations.

RULES governing the granting and issuing of passports in the United States:

1. **BY WHOM ISSUED.**—No one but the Secretary of State may grant and issue passports in the United States.—Revised Statutes, secs. 4075, 4078.

A person who is entitled to receive a passport if temporarily abroad should apply to the diplomatic representative of the United States in the country where he happens to be; or, in the absence of a diplomatic representative, to the consul-general of the United States; or, in the absence of both, to the consul of the United States. The necessary statement may be made before the nearest consular officer of the United States.

Application for a passport by a person in one of the insular possessions of the United States should be made to the Chief Executive of such possession.

2. **TO WHOM ISSUED.**—The law forbids the granting of a passport to any person who does not owe allegiance to the United States.

A person who has only made the declaration of intention to become a citizen of the United States cannot receive a passport.

3. **APPLICATIONS.**—A person who is entitled to receive a passport, if within the United States, must make a written application, in the form of an affidavit, to the Secretary of State.

The affidavit must be attested by an officer authorized to administer oaths, and if he has an official seal it must be affixed. If he has no seal, his official character must be authenticated by certificate of the proper legal officer.

If the applicant signs by mark, two attesting witnesses to his signature are required.

The applicant is required to state the date and place of his birth, his occupation, and the place of his permanent residence, and to declare that he goes abroad for temporary sojourn and intends to return to the United States with the purpose of residing and performing the duties of citizenship therein.

The applicant must take the oath of allegiance to the Government of the United States.

The application must be accompanied by a description of the person applying, and should state the following particulars, viz.: Age, — years; stature, — feet — inches (English measure); forehead, —; eyes, —; nose, —; mouth, —; chin, —; hair, —; complexion, —; face, —.

The application must be accompanied by a certificate from at least one credible witness that the applicant is the person he represents himself to be, and that the facts stated in the affidavit are true to the best of the witness's knowledge and belief.

4. **NATIVE CITIZENS.**—An application containing the information indicated by rule 3 will be sufficient evidence in the case of native citizens.

5. **A PERSON BORN ABROAD WHOSE FATHER WAS A NATIVE CITIZEN OF THE UNITED STATES.**—In addition to the statements required by rule 3, his application must show that his father was born in the United States, resided therein, and was a citizen at the time of the applicant's birth. The Department may require that this affidavit be supported by that of one other citizen acquainted with the facts.

6. **NATURALIZED CITIZENS.**—In addition to the statements required by rule 3, a naturalized citizen must transmit his certificate of naturalization, or a duly certified copy of the court record thereof, with his application. It will be returned to him after inspection. He must state in his affidavit when and from what port he emigrated to this country, what ship he sailed in, where he has lived since his arrival in the United States, when and before what court he was naturalized, and that he is the identical person described in the certificate of naturalization. The signature to the application should conform in orthography to the applicant's name as written in his certificate of naturalization.

7. **WOMAN'S APPLICATION.**—If she is unmarried, in addition to the statements required by rule 3, she should state that she has never been married. If she is the wife of a native citizen of the United States the fact should be made to appear in her application. If she is the wife or widow of a naturalized citizen, in addition to the statements required by rule 3, she must transmit for inspection her husband's certificate of naturalization, must state that she is the wife (or widow) of the person described therein, and must set forth the facts of his emigration, naturalization, and residence, as required in the rule governing the application of a naturalized citizen.

8. **THE CHILD OF A NATURALIZED CITIZEN CLAIMING CITIZENSHIP THROUGH THE NATURALIZATION OF THE PARENT.**—In addition to the statements required by rule 3, the applicant must state that he or she is the son or daughter, as the case may be, of the person described in the certificate of naturalization, which must be submitted for inspection, and must set forth the facts of emigration, naturalization, and residence, as required in the rule governing the application of a naturalized citizen.

9. **A RESIDENT OF AN INSULAR POSSESSION OF THE UNITED STATES WHO OWES ALLEGIANCE TO THE UNITED STATES.**—In addition to the statements required by rule 3, he must state that he owes allegiance to the United States and that he does not acknowledge allegiance to any other government; and must submit an affidavit from at least two credible witnesses having good means of knowledge in substantiation of his statements of birth, residence, and loyalty.

10. **EXPIRATION OF PASSPORT.**—A passport expires two years from the date of its issuance. A new one will be issued upon a new application, and if the applicant be a naturalized citizen, the old passport will be accepted in lieu of a certificate of naturalization, if the application upon which it was issued is found to contain sufficient information as to the naturalization of the applicant.

11. **WIFE, MINOR CHILDREN, AND SERVANTS.**—When the applicant is accompanied by his wife, minor children, or servant who would be entitled to receive a passport, it will be sufficient to state the fact, giving the respective ages of the children and the allegiance of the servant, when one passport will suffice for all. For any other person in the party a separate passport will be required. A woman's passport may include her minor children and servant under the above-named conditions.

12. **PROFESSIONAL TITLES.**—They will not be inserted in passports.

13. **FEE.**—By act of Congress approved March 23, 1888, a fee of one dollar is required to be collected for every citizen's passport. That amount in currency or postal money order should accompany each application made by a citizen of the United States. Orders should be made payable to the Disbursing Clerk of the Department of State. Drafts or checks will not be accepted.

14. **VISAS OF PASSPORTS.**—They will not be procured by the Department of State from the representatives of foreign governments.

15. **BLANK FORMS OF APPLICATION.**—They will be furnished by the Department to persons who desire to apply for passports, but are not furnished, except as samples, to those who make a business of procuring passports.

16. **ADDRESSES.**—Communications should be addressed to the Department of State, Passport Bureau, and each communication should give the post-office address of the person to whom the answer is to be directed.

17. **REJECTION OF APPLICATION.**—The Secretary of State may refuse to issue a passport to any one who, he has reason to believe, desires it for an unlawful or improper purpose, or who is unable or unwilling to comply with the rules.

**Declaration of Independence.**

IN CONGRESS JULY 4, 1776.

THE unanimous declaration of the thirteen United States of America. When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitles them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good. He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislature. He has affected to render the Military independent of and superior to the Civil power.

He has combined with others to subject us to a Jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us;  
For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States;

For cutting off our Trade with all parts of the world;  
For imposing Taxes on us without our Consent;

For depriving us in many cases, of the benefits of Trial by jury;  
For transporting us beyond Seas to be tried for pretended offences;

For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments;

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow-Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic Insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have ap-

pealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

WE, THEREFORE, the REPRESENTATIVES of the UNITED STATES OF AMERICA, IN GENERAL CONGRESS, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by authority of the good People of these Colonies, solemnly PUBLISH and DECLARE, That these United Colonies are, and of Right ought to be FREE and INDEPENDENT States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as FREE and INDEPENDENT STATES, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which INDEPENDENT STATES may of right do. And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, We mutually pledge to each other our Lives, our Fortunes, and our sacred Honor.

### The Life-Saving Service.

THE ocean and lake coasts of the United States are picketed with the stations of the Life-Saving Service attached to the United States Treasury Department. Sumner I. Kimball is general superintendent, with headquarters at Washington, and there is a corps of inspectors, superintendents, station keepers, and crews, extending over the entire coast line, together with a Board on Life-Saving Appliances, composed of experts selected from the Revenue Marine Service, the Army, the Life-Saving Service, and civilians.

At the close of the last fiscal year the life-saving establishment embraced 272 stations, 195 being on the Atlantic coast, 60 on the lakes, 16 on the Pacific coast, and 1 at the falls of the Ohio, Louisville, Ky. In the following table are the statistics of the service:

In addition to the foregoing there were 361 casualties to smaller craft, such as sailboats, row-boats, etc., on which there were 796 persons, of whom 979 were saved and 61 lost. The cost of the maintenance of the service during the year was \$1,654,392.96.

### United States Steamboat Inspection Service.

THE Supervising Inspector-General of the Steamboat Inspection Service, James A. Dumont, reported to the Secretary of the Treasury for the fiscal year ended June 30, 1902: Number of annual certificates of inspection issued to domestic steam, motor, sail vessels, and barges, 8,894; number of certificates issued to foreign passenger steamers, 367; total number of annual certificates of inspection issued, domestic and foreign, 9,261. Increase in number of certificates to domestic vessels over previous year, 62; increase in number of certificates to foreign steamers, 26; total increase in number of certificates issued to domestic and foreign vessels, 88. Gross tonnage of domestic vessels inspected, 3,706,450; gross tonnage of foreign steam vessels inspected, 1,587,076. Number of officers' licenses issued, 20,108; increase over previous year, 15,012; which increase occurs through renewal of five-year licenses issued during the last half of the fiscal year ended June 30, 1897. It is assumed a corresponding increase will be shown for the first half of the fiscal year ending June 30, 1903. Under this assumption it may be safely estimated that the total number of persons now holding licenses is about 40,000. Steamboat accidents year ended June 30, 1902, as follows:

## Naturalization Laws of the United States.

THE conditions under and the manner in which an alien may be admitted to become a citizen of the United States are prescribed by Sections 2,165-74 of the Revised Statutes of the United States.

### DECLARATION OF INTENTIONS.

The alien must declare upon oath before a circuit or district court of the United States or a district or supreme court of the Territories, or a court of record of any of the States having common law jurisdiction and a seal and clerk, two years at least prior to his admission, that it is, *bona fide*, his intention to become a citizen of the United States, and to renounce forever all allegiance and fidelity to any foreign prince or State, and particularly to the one of which he may be at the time a citizen or subject.

### OATH ON APPLICATION FOR ADMISSION.

He must at the time of his application to be admitted declare on oath, before some one of the courts above specified, "that he will support the Constitution of the United States, and that he absolutely and entirely renounces and abjures all allegiance and fidelity to every foreign prince, potentate, State, or sovereignty, and particularly, by name, to the prince, potentate, State, or sovereignty of which he was before a citizen or subject," which proceedings must be recorded by the clerk of the court.

### CONDITIONS FOR CITIZENSHIP.

If it shall appear to the satisfaction of the court to which the alien has applied that he has made a declaration to become a citizen two years before applying for final papers, and has resided continuously within the United States for at least five years, and within the State or Territory where such court is at the time held one year at least; and that during that time "he has behaved as a man of good moral character, attached to the principles of the Constitution of the United States, and well disposed to the good order and happiness of the same," he will be admitted to citizenship. If the applicant has borne any hereditary title or order of nobility he must make an express renunciation of the same at the time of his application.

### SOLDIERS.

Any alien of the age of twenty-one years and upward who has been in the armies of the United States, and has been honorably discharged therefrom, may become a citizen on his petition, without any previous declaration of intention, provided that he has resided in the United States at least one year previous to his application, and is of good moral character. (It is judicially decided that residence of one year in a particular State is not requisite.)

### MINORS.

Any alien under the age of twenty-one years who has resided in the United States three years next preceding his arriving at that age, and who has continued to reside therein to the time he may make application to be admitted a citizen thereof, may, after he arrives at the age of twenty-one years, and after he has resided five years within the United States, including the three years of his minority, be admitted a citizen; but he must make a declaration on oath and prove to the satisfaction of the court that for two years next preceding it has been his *bona fide* intention to become a citizen.

### CHILDREN OF NATURALIZED CITIZENS.

The children of persons who have been duly naturalized, being under the age of twenty-one years at the time of the naturalization of their parents, shall, if dwelling in the United States, be considered as citizens thereof.

### CITIZENS' CHILDREN WHO ARE BORN ABROAD.

The children of persons who now are or have been citizens of the United States are, though born out of the limits and jurisdiction of the United States, considered as citizens thereof.

### CHINESE.

The naturalization of Chinamen is expressly prohibited by Section 14, Chapter 126, Laws of 1882.

### PROTECTION ABROAD TO NATURALIZED CITIZENS.

Section 2,000 of the Revised Statutes of the United States declares that "all naturalized citizens of the United States while in foreign countries are entitled to and shall receive from this Government the same protection of persons and property which is accorded to native-born citizens."

### THE RIGHT OF SUFFRAGE.

The right to vote comes from the State, and is a State gift. Naturalization is a Federal right and is a gift of the Union, not of any one State. In nearly one-half of the Union aliens (who have declared intentions) vote and have the right to vote equally with naturalized or native-born citizens. In the other half only actual citizens may vote. (See Table of Qualifications for Voting in each State, on another page.) The Federal naturalization laws apply to the whole Union alike, and provide that no alien may be naturalized until after five years' residence. Even after five years' residence and due naturalization he is not entitled to vote unless the laws of the State confer the privilege upon him, and he may vote in several States six months after landing, if he has declared his intention, under United States law, to become a citizen.

### INHABITANTS OF THE NEW INSULAR POSSESSIONS.

The inhabitants of Hawaii were declared to be citizens of the United States under the act of 1900 creating Hawaii a Territory. Under the United States Supreme Court decision in the insular cases, in May, 1901, the inhabitants of the Philippines and Porto Rico are entitled to full protection under the Constitution, but not to the privileges of United States citizenship until Congress so decrees, by admitting the countries as States or organizing them as Territories.

## Patent Office Procedure.

THE following statement has been revised by the Patent Office for THE WORLD ALMANAC for 1903:

Patents are issued in the name of the United States, and under the seal of the Patent Office, to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter or any new and useful improvement thereof, not known or used by others in this country before his invention or discovery thereof and not patented or described in any printed publication in this or any foreign country, before his invention or discovery thereof or more than two years prior to his application, and not in public use or on sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned; and by any person who, by his own industry, genius, efforts, and expense, has invented and produced any new and original design for a manufacture, bust, statue, alto-relievo, or bas-relief; any new and original design for the printing of woollen, silk, cotton, or other fabrics; any new and original impression, ornament, pattern, print, or picture to be printed, painted, cast, or otherwise placed on or worked into any article of manufacture; or any new, useful, and original shape or configuration of any article of manufacture, the same not having been known nor used by others before his invention or production thereof, nor patented nor described in any printed publication, upon payment of the fees required by law and other due proceedings had.

Every patent contains a grant to the patentee, his heirs or assigns, for the term of seventeen years, except in the case of design patents, of the exclusive right to make, use, and vend the invention or discovery throughout the United States and the Territories, referring to the specification for the particulars thereof.

If it appear that the inventor, at the time of making his application, believed himself to be the first inventor or discoverer, a patent will not be refused on account of the invention or discovery, or any part thereof, having been known or used in any foreign country before his invention or discovery thereof, if it had not been before patented or described in any printed publication.

Joint inventors are entitled to a joint patent; neither can claim one separately. Independent inventors of distinct and independent improvements in the same machine cannot obtain a joint patent for their separate inventions; nor does the fact that one furnishes the capital and another makes the invention entitle them to make application as joint inventors; but in such case they may become joint patentees.

No person otherwise entitled thereto will be debarred from receiving a patent for his invention or discovery, by reason of its having been first patented or caused to be patented by the inventor or his legal representatives or assigns in a foreign country, unless the application for said foreign patent was filed more than seven months prior to the filing of the application in this country, in which case no patent shall be granted in this country.

### APPLICATIONS.

Applications for a patent must be made in writing to the Commissioner of Patents. The applicant must also file in the Patent Office a written description of the invention or discovery, and of the manner and process of making, constructing, compounding, and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to which it appertains, or with which it is most nearly connected, to make, construct, compound, and use the same; and in case of a machine, he must explain the principle thereof, and the best mode in which he has contemplated applying that principle, so as to distinguish it from other inventions, and particularly point out and distinctly claim the part, improvement, or combination which he claims as his invention or discovery. The specification and claim must be signed by the inventor and attested by two witnesses.

When the nature of the case admits of drawings, the applicant must furnish a drawing of the required size, signed by the inventor or his attorney in fact, and attested by two witnesses. In all cases which admit of representation by model, the applicant, if required by the Patent Office, shall furnish a model of convenient size to exhibit advantageously the several parts of his invention or discovery.

The applicant shall make oath that he verily believes himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition, or improvement for which he solicits a patent; that he does not know and does not believe that the same was ever before known or used, and shall state of what country he is a citizen and where he resides. In every original application the applicant must distinctly state under oath that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more than seven months prior to his application in this country. If any application for patent has been filed in any foreign country by the applicant in this country or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned; that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States nor described in any printed publication or patent in this or any foreign country for more than two years prior to his application in this country. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any minister, chargé d'affaires, consul, or commercial agent holding commission under the Government of the United States, or before any notary public of the foreign country in which the applicant may be, provided such notary is authorized by the laws of his country to administer oaths.

On the filing of such application and the payment of the fees required by law, if, on examination, it appears that the applicant is justly entitled to a patent under the law, and that the same is sufficiently useful and important, the Commissioner will issue a patent therefor.

Every patent or any interest therein shall be assignable in law by an instrument in writing; and the patentee or his assigns or legal representatives may, in like manner, grant and convey an exclusive right under his patent to the whole or any specified part of the United States.

### REISSUES.

A reissue is granted to the original patentee, his legal representatives, or the assignees of the entire interest when, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his invention or discovery more than he had a right to claim as new, the original patent is impervious or invalid, provided the error has arisen from inadvertence, accident, or mistake, and without any fraudulent or deceptive intention. Reissue applications must be made and the specifications sworn to by the inventors, if they be living.

### CAVEATS.

A caveat, under the patent law, is a notice given to the office of the caveator's claim as inventor, in order to prevent the grant of a patent to another for the same alleged invention upon an application filed during the life of a caveat without notice to the caveator.

PATENT OFFICE PROCEDURE—Continued.

Any citizen of the United States who has made a new invention or discovery, and desires further time to mature the same, may, on payment of a fee of ten dollars, file in the Patent Office a caveat setting forth the object and the distinguishing characteristics of the invention, and praying protection of his right until he shall have matured his invention. Such caveat shall be filed in the confidential archives of the office and preserved in secrecy, and shall be operative for the term of one year from the filing thereof. The caveat may be renewed, on request in writing, by the payment of a second fee of ten dollars, and it will continue in force for one year from the payment of such second fee.

The caveat must comprise a specification, oath, and, when the nature of the case admits of it, a drawing, and, like the application, must be limited to a single invention or improvement.

**FEEES.**

Fees must be paid in advance, and are as follows: On filing each original application for a patent, \$15. On issuing each original patent, \$20. In design cases: For three years and six months, \$10; for seven years, \$15; for fourteen years, \$30. On filing each caveat, \$10. On every application for the reissue of a patent, \$30. On filing each disclaimer, \$10. For certified copies of patents and other papers in manuscript, ten cents per hundred words and twenty-five cents for the certificate; for certified copies of printed patents, eighty cents. For uncertified printed copies of specifications and drawings of patents, for single copies, or any number of unclassified copies, five cents each; for copies by subclasses, three cents each; by classes, two cents each, and for the entire set of patents issued, in one order, one cent each. For recording every assignment, agreement, power of attorney, or other paper, of three hundred words or under, \$1; of over three hundred and under one thousand words, \$2; of over one thousand words, \$3. For copies of drawings, the reasonable cost of making them. The Patent Office is prepared to furnish positive photographic copies of any drawing, foreign or domestic, in the possession of the office, in sizes and at rates as follows: Large size, 10x15 inches, twenty-five cents; medium size, 7x11 inches, fifteen cents. Fee for examining and registering trade mark, \$25, which includes certificate. Stamp cannot be accepted by the Patent Office in payment of fees. Stamps and stamped envelopes should not be sent to the office for replies to letters, as stamps are not required on mail matter emanating from the Patent Office.

**PATENT OFFICE STATISTICS.**

The receipts of the Patent Office during the year ending December 31, 1901, were \$1,449,398.16, and expenditures, \$1,297,385.64. Receipts over expenditures, \$152,012.52.

The following is a statement of the business of the office for the year ending December 31, 1901:

The United States Light-House Establishment.

The following are the members of the Light-House Board:

- Leslie M. Shaw, Secretary of the Treasury and *ex officio* President of the Board.
- Rear-Admiral George C. Remey, U. S. Navy, Chairman, Washington, D. C.
- Colonel Walter S. Franklin, Baltimore, Md.
- Dr. Henry S. Pritchett, Institute of Technology, Boston, Mass.
- Colonel Peter C. Hains, Corps of Engineers, U. S. Army, Baltimore, Md.
- Captain Benjamin P. Lambertson, U. S. Navy, Washington, D. C.
- Colonel A. Mackenzie, Corps of Engineers, U. S. Army, Washington, D. C.
- Captain Washburn Maynard, U. S. Navy, Naval Secretary, Washington, D. C.
- Major Daniel W. Lockwood, Corps of Engineers, U. S. Army, Engineer Secretary, Washington, D. C.

At the close of the fiscal year 1902 there were under the control of the Light-House Establishment: Light-houses and lighted beacons, 1,332; light-vessels in position, 45; light-vessels for relief, 9; electric and gas buoys in position, 113; fog-signals operated by steam or hot air, 188; fog-signals operated by clock-work, 231; post-lights on Western rivers, 1,830; day or unlighted beacons, 859; whistling-buoys in position, 84; bell-buoys in position, 127.

The establishment is divided into sixteen districts, each in charge of an inspector and engineer, the former being navy and the latter army officers. The Board has supervision of all administrative duties relating to the construction and maintenance of light-houses, light-vessels, beacons, fog-signals, buoys, and their appendages, and has charge of all records and property appertaining to the establishment.

## United States Executive Civil Service.

(Revised for this issue of THE WORLD ALMANAC by the Secretary of the Civil Service Commission.)

THE purpose of the Civil Service act, as declared in its title, is "to regulate and improve the Civil Service of the United States." It provides for the appointment of three Commissioners, a chief Examiner, a Secretary, and other employes, and makes it the duty of the Commissioners to aid the President as he may request in preparing suitable rules for carrying the act into effect; to make regulations to govern all examinations held under the provisions of the act, and to make investigations and report upon all matters touching the enforcement and effect of the rules and regulations. The address of the Commission is Washington, D. C.

### EXTENT OF THE SERVICE.

It is estimated that the number of positions in the Executive Civil Service is now 235,001, of which 108,967 are classified competitive positions, 113,878 unclassified, and 12,156 are classified but not subject to competitive examination; 20,076 of the official force are employed in Washington, D. C. Most of the unclassified positions are held by fourth-class postmasters, of whom there are more than 72,000.

### DIVISIONS OF THE SERVICE.

The rules require that all that part of the Executive Civil Service of the United States which has been or may hereafter be classified under the Civil Service act shall be arranged in branches as follows: The Departmental Service, the Customs Service, the Postal Service, the Government Printing Service, and the Internal Revenue Service.

The Departmental Service includes all officers and employes not included in the other four branches who on the one hand are not appointed subject to the consent of the Senate, and on the other hand are above the grade of laborer, and who are serving in or on detail from the Departments, Commissions, and Offices in the District of Columbia, the Railway Mail Service, the Indian Service, the Pension Agencies, the Steamboat Inspection Service, the Marine Hospital Service, the Light-House Service, the Life-Saving Service, the Revenue Cutter Service, the Mints and Assay offices, the Sub-Treasuries, the Engineer Department at large, the Ordnance Department at large, the Land Office Service, and the force employed under Custodians of Public Buildings, and in the U. S. Penitentiaries. In addition to these are included all other employes (except laborers and persons whose appointments are subject to the consent of the Senate) whose duties are clerical or medical, or who serve as watchmen, messengers, draughtsmen, engineers, firemen, computers, or as superintendents of construction, superintendents of repairs, or foremen under the Supervising Architect of the Treasury, or who are in any branch of the Treasury Department not enumerated above. The Customs Service includes all officers and employes between the extremes before mentioned who are serving in any customs district. The Postal Service includes all similar offices and employes at free-delivery post-offices. The Government Printing Service and the Internal Revenue Service cover all like positions in the branches indicated by their designations.

### APPLICATIONS.

Persons seeking to be examined must file an application blank. The blank for the Departmental Service at Washington, Railway Mail Service, the Indian School Service, and the Government Printing Service should be requested directly of the Civil Service Commission at Washington. The blank for the Customs, Postal, or Internal Revenue Service must be requested in writing of the Civil Service Board of Examiners at the office where service is sought. These papers should be returned to the officers from whom they emanated.

Applicants for examination must be citizens of the United States, and of the proper age. No person using intoxicating liquors to excess may be appointed. No discrimination is made on account of sex, color, or political or religious opinions. The limitations of age vary with the different services, but do not apply to any person honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds or sickness incurred in the line of duty.

### EXAMINATIONS.

The applicants to enter the services designated are examined as to their relative capacity and fitness. For ordinary clerical places in the Departmental, Customs, and Internal Revenue Services the examination is confined to orthography, penmanship, copying, letter-writing, and simple arithmetic. Patent examiners are examined in physics and technics, mathematics, chemistry, and mechanical drawing. Meat inspectors are examined in letter-writing, veterinary anatomy and physiology, veterinary pathology, and meat inspection. One of the tests for post-office and railway mail clerks is an exercise in reading manuscript addresses. Specimen sets of questions will be furnished by the Commission upon request. Examinations are held twice a year in every State and Territory at fixed times and places. All examinations relate as near as possible to the duties to be performed, and, wherever practicable, include experience and practical tests. No applicant is admitted to an examination in any one of the different recognized trades unless he has served at such trade for such period as the Commission has prescribed. In the Government Printing Office five years' experience are required, one year of which must have been as a journeyman. This information is obtained by personal questions relating to the applicant's experience at his trade and the certificates of persons who have employed him. No one is certified for appointment whose standing in any examination is less than 70 per centum of complete proficiency, except applicants whose claims for military or naval preference under Section 1,754 R. S. have been admitted. These need obtain but 65. The law also prescribes competitive examinations for promotion in the service. A certificate is given to each person examined, stating whether he passed or failed to pass. For positions in the classified service where technical qualifications are needed special examinations are held. In the Departmental Service they are held for the State Department, the Pension, Patent, and Weather Bureaus, Geological and Coast Surveys, Engineer Department at large, Ordnance Department at large, etc. For places which do not require technical qualifications the number of applicants is usually excessive, and only those who attain high grades have a good chance for appointment. There is always a good demand for male stenographers.

### EXCEPTED PLACES.

Among the places excepted from examination or subject only to non-competitive examination are the following: Two private secretaries or confidential clerks to the President and each of the heads of departments; one for each head of bureau appointed by the President and confirmed by the Senate, if authorized by law; all persons appointed solely by the President; attorneys, assistant attorneys, and special assistant attorneys. The excepted positions throughout the departments were increased in

number by the President's order of May 29, 1899, but are too diverse to summarize and too numerous to mention here specifically.

**APPOINTMENTS.**

Upon the occurrence of a vacancy, the appointment to fill it, if not made by promotion, reduction, transfer, or reinstatement (for all of which provision is made by the Civil Service rules), must be made by selection from the eligibles of highest grade on the appropriate register. In the Executive Departments at Washington and in the Government Printing Office appointments are apportioned among the States and Territories on the basis of population. Every appointment is made for a probationary period of six months. Whenever there are no names of eligibles upon a register for any position in which a vacancy exists, and the public interest requires that it be filled before eligibles can be provided by the Commission, such vacancy may, subject to the approval of the Commission, be filled by appointment without examination and certification until an eligible can be provided by the Commission. The number of women applying for clerical places is greatly in excess of the calls of appointing officers. The positions to which the largest numbers of them are appointed are those of assistant microscopist in the branch offices of the Bureau of Animal Industry at the various stockyards throughout the country, and teachers, matrons, seamstresses, etc., in the Indian Service. A few receive appointments as stenographers and typewriters in the Departmental Service, and a few are appointed to technical and professional places.

**PREFERENCE CLAIMANTS.**

Persons who served in the military or naval service of the United States, and were discharged by reason of disabilities resulting from wounds or sickness incurred in the line of duty, are, under the Civil Service rules, given certain preferences. They are released from all maximum age limitations, are eligible for appointment at a grade of 65, while all others are obliged to obtain a grade of 70, and are certified to appointing officers before all others. Subject to the other conditions of the rules, a veteran of the rebellion or of the war with Spain, or the widow of any such person, or any army nurse of either war, may be reinstated without regard to the length of time he or she has been separated from the service.

**PROVISIONS CONCERNING POLITICAL DISCRIMINATION, ASSESSMENTS, ETC.**

The Civil Service rules provide that no person in the Executive Civil Service shall dismiss, or cause to be dismissed, or make any attempt to procure the dismissal of or in any manner change the official rank or compensation of any other person therein, because of his political or religious opinions or affiliations; that no removal shall be made from any position subject to competitive examination except for just cause and upon written charges filed with the head of the department or other appointing officer, and of which the accused shall have full notice and an opportunity to make defence; and that no person in the Executive Civil Service shall use his official authority or official influence for the purpose of interfering with an election or controlling the result thereof. Such rules also provide that any person in the Executive Civil Service who shall wilfully violate any provision of the Civil Service act or rules shall be dismissed from office.

The Civil Service act contains provisions forbidding any person in the service of the United States from levying upon or collecting from persons in the Executive Civil Service contributions to be devoted to political objects, the collection of such contributions by any person in any public building of the United States, or discrimination against persons who do not make such contributions or render political service. A violation of any of the provisions concerning political assessments, or their collection in a public building of the United States, is declared to be a misdemeanor, punishable by a fine not exceeding five thousand dollars, or by imprisonment for a term not exceeding three years, or by such fine and imprisonment both in the discretion of the court. The act also declares that when rules to carry its provisions into effect shall have been promulgated, "it shall be the duty of all officers of the United States in the departments and offices to which any such rules may relate, to aid, in all proper ways, in carrying said rules, and any modifications thereof, into effect."

**THE UNCLASSIFIED EXECUTIVE CIVIL SERVICE.**

The portion of the Executive Civil Service which is not classified embraces the following: All officers nominated by the President and confirmed by the Senate, including members of the Cabinet, assistant secretaries, certain chiefs of bureaus, etc., in the Executive Departments at Washington, collectors, naval officers, surveyors, and appraisers in the Customs Service, collectors in the Internal Revenue Service, and first, second, and third class postmasters. Other unclassified positions are fourth-class postmasters, the employes of the District of Columbia, the employes of the Library of Congress, clerks in post-offices not having free delivery, mere laborers and workmen, certain positions having a compensation of less than \$300 a year, and the Consular Service. Examinations for positions in the service last named are non-competitive, and conducted by a board of the Department of State.

A considerable number of positions were excluded from classification by the President's order of May 29, 1899, principally in the Departments of the Interior, War, and Navy outside of Washington.

**THE PHILIPPINE CIVIL SERVICE.**

On September 19, 1900, the United States Philippine Commission passed an act: "An act for the establishment and maintenance of an efficient and honest civil service in the Philippine Islands." The act provides for a Civil Service Board of three persons which is to prepare rules for appointments and promotions according to merit, and by competitive examinations so far as practicable; for the selection of laborers according to the priority of their applications, by such non-competitive examinations as may be practicable. Competitive examinations for appointment and promotion are to be held at Manila, Iloilo, and Cebu, and also in the United States, under the auspices of the United States Civil Service Commission, for original appointment. Provision is made for transfer from one branch to another, and from the Federal classified civil service; for reinstatements, for examining American applicants in Spanish and native applicants in English, in cases where the Board deems knowledge of both languages essential; for a physical examination of applicants in the United States; for an age limitation, 18 to 40 years, for entrance to the lowest class; for temporary appointments, and a few exceptions from examination.

## 92 Civil Service Rules in the City of New York.

SYNOPSIS of regulations governing the admission of persons into the civil service of the City of New York. Information may also be had by applying to the Secretary of the Civil Service Commission, 61 Elm Street, corner of Leonard, New York City.

Under the White Civil Service law, Chapter 370, Laws of 1899, April 19, the rules apply to all positions in the service of the City of New York except officers elected by the people, all legislative officers and employes, heads of any department, or superintendents, principals, or teachers in a public school, academy, or college. This requires "examinations, wherever practicable, to ascertain the fitness of applicants for appointment to the civil service of said city." The Constitution requires that these examinations shall be competitive, "so far as practicable."

### APPLICATIONS.

Applications of competitors for positions included in Schedules B, C, D, and E must be addressed to the "Secretary of the Municipal Civil Service Commission, New York City," and for all positions except firemen and park policemen, must be accompanied with the following papers:

First—The affidavit of the applicant, showing that he is not less than eighteen years of age and a citizen of the United States, giving his place of residence, with the street and number thereof, if any; the place, nature, and extent of his education, and of his business training and experience, and stating whether he has ever been in the civil service of the City of New York, or in the military or naval service of the United States, and if so, when and where.

Second—A statement whether such application is limited to any particular office or offices in the service.

Third—The certificate of four reputable persons of the City of New York, that they have been personally acquainted with the applicant for at least one year, and believe him to be of good moral character, of temperate and industrious habits, and in all respects fit for the service he wishes to enter, and that each of them is willing that such certificate should be published for public information, and will upon request give such further information concerning the applicant as he may possess.

The requirements as to citizenship and certificates of character, in case of persons applying for positions under Schedule E, and the requirements as to citizenship in case of persons applying for positions under Schedule D, may be modified or dispensed with in the discretion of the Civil Service Commission. All applications for examination shall be filed in the office of the Secretary, and all application and other blanks shall be kept at his office, and shall be procurable there only.

Applicants for the following positions must, before being admitted to examination, present satisfactory evidence as to the following facts:

First—If the position to be filled be that of physician, surgeon, medical officer, inspector of vaccination, or sanitary inspector, that the applicant is duly authorized by the laws of the State of New York to practise medicine and surgery.

Second—If the position to be filled be that of chemist or analyzer, that the applicant has received the degree of Bachelor of Sciences, or its equivalent, from some institution duly authorized by law to confer such degree.

In positions where the duties are professional, technical, or expert, the candidates will be required to show what preliminary training or technical education they have undergone to qualify them for such situations before they can be admitted to examination.

In all examinations for professional positions, or positions requiring technical knowledge, no person shall be placed on the eligible list who obtains a rating in technical knowledge of less than 75.

Applications for positions included in Schedule G must be addressed to the "Labor Clerk, etc." For the boroughs of Manhattan, Bronx, and Richmond address "New York." For the boroughs of Brooklyn and Queens address "Brooklyn."

### CONDUCT OF EXAMINATIONS.

Applicants shall be admitted to examination upon the production of the official notification to appear for that purpose. Each applicant shall receive a number, which shall be indorsed upon his notification when produced, and the notifications so indorsed shall be sealed in an envelope. Each applicant shall sign his examination papers with his number, omitting his name, and the envelope shall not be opened until all the examination papers have been received and the markings and gradings made.

All paper upon which examinations are to be written shall be furnished to the applicants by the examining board and shall bear some suitable official indorsement, stamp, or mark, for the purpose of identifying the same.

All examinations shall be in writing, except such as refer to expertness or physical qualities, and except as herein otherwise provided.

The sheets of questions shall be numbered and shall be given out in the order of their numbers, each, after the first, being given only when the competitor has returned to the examiners the last sheet given to him. In general, no examination shall extend beyond five hours without intermission; and no questions given out at any session, to any candidate, shall be allowed to be answered at another session. Each applicant must complete his examination on the obligatory subjects before taking up any of the optional subjects.

Examiners of persons named for promotion shall personally question them concerning their office work and its purposes, in order to ascertain if they have a general and intelligent knowledge of the business in the department in which they are employed, and may require the persons examined to give a written description of the work done by them and its relation to the duties of others.

Each examiner shall exercise all due diligence to secure fairness and prevent all collusion and fraud in the examinations.

The time allowed for completing the examination shall be announced before the first paper is given out. For the obligatory subjects the examination shall be confined to a single day.

The following municipal departments and offices come under the jurisdiction of the Civil Service rules:

## Regents' Examinations in New York State in 1903.

REGENTS' examinations under the control of the University of the State of New York (office, Albany, N. Y.) will be held in 1903 at the following times and places: January 25-30 inclusive, at New York, and about 550 academies and high schools; 76 subjects. March 25-27 inclusive, at New York, and about 525 academies and high schools; 27 subjects. June 15-19 inclusive, at New York, and about 575 academies and high schools; all (76) subjects. Sept. 29-Oct. 1, inclusive, at New York, Albany, Syracuse, Buffalo; 24 subjects. Sept. examinations are for professional and technical students only. Morning session begins 9.15 a. m. Afternoon session begins 1.15 p. m.

UNIVERSITY CREDENTIALS, Passed.—Any study. Preliminary (preacademic) certificate—Reading, writing, spelling, elementary English, arithmetic, geography. MEDICAL STUDENT CERTIFICATE—For matriculates prior to May 9, 1893, for any 20 counts, allowing 10 for the preliminaries, not including reading and writing; for matriculates prior to May 13, 1895, for arithmetic, elementary English, geography, spelling, United States history, English composition, and physics, or any 50 counts, allowing 14 for the preliminaries; for matriculates prior to January 1, 1896, for any 12 academic counts; for matriculates prior to January 1, 1897, for any 24 academic counts. But all matriculates after January 1, 1897, must secure 48 academic counts.

LAW STUDENT CERTIFICATE—Advanced English, English composition, first year Latin, arithmetic, algebra, plane geometry, English history, United States history, civics, economics, or any 36 academic counts. The foregoing rule took effect January 1, 1895. All students who had begun their law course or clerkship before January 1, 1895, as shown by the law school or Court of Appeals records may secure a certificate under the 1892 requirements, viz.: English composition, first year Latin, arithmetic, geometry, English and United States history, and civics, or any 30 counts including preliminaries.

DENTAL STUDENT CERTIFICATE—Any 36 academic counts or their equivalents (for matriculates before January 1, 1905).

VETERINARY STUDENT CERTIFICATE—Any 24 academic counts or their equivalents (for matriculates before January 1, 1905).

ACADEMIC CERTIFICATES—All preliminaries and any 24, 36, 48, 60, etc., counts, if one-sixth of the first 24, 36, and 48 counts are in English or language substitute. First Year Certificate—No certificate is issued for 12 counts unless it includes the preliminaries and first year English (or English composition and 2 other English counts). The first year in any foreign language may be substituted for first year English in the first year certificate.

There is no limit of time, but all credentials issued by the University are good till cancelled for cause. Studies necessary to obtain any credential may be passed at different examinations. Seventy-five per cent of correct answers is required in all subjects. Answer papers will be reviewed in the regents' office, and all papers below standard will be returned to the candidates. For those accepted, passbooks will be issued.

Candidates not attending schools in which regents' examinations are held should send notice at least 10 days in advance, stating at what time and in what studies they wish to be examined, that required desk room may be provided at the most convenient place. Candidates who fail to send this advance notice can be admitted only so far as there are unoccupied seats.

Professional Certificates Without Examinations—Candidates having credentials which can be accepted in place of examinations should send them to the high school department.

### MEDICAL EXAMINATIONS.

The regents shall admit to any examination any candidate who pays a fee of \$25 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State; 4. Has studied medicine not less than four full school years at least nine months each, including four satisfactory courses of at least six months each in four different calendar years in a medical college registered as maintaining at the time a satisfactory standard. This requirement took effect January 1, 1898, and does not apply to students matriculated before that date who receive their degree before January 1, 1902; 5. Evidence that applicant has received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full rights to practise medicine in some foreign country (original credentials).

Examinations for license to practise medicine in this State will be held as follows: January 27-30, May 19-22, June 23-26, September 29-October 2, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

### DENTAL EXAMINATIONS.

The regents shall admit to examination any candidate who pays a fee of \$25 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required preliminary to receiving the degree of doctor of dental surgery in this State. Matriculates in a registered dental school before January 1, 1896, are exempt from the preliminary education requirement for degrees and for admission to the licensing examinations; 4. Subsequently to receiving any preliminary education either has been graduated in course with a dental degree from a registered dental school, or else, having been graduated in course from a registered medical school with a degree of doctor of medicine, has pursued thereafter a course of special study of dentistry for at least two years in a registered dental school, and received therefrom its degree of doctor of dental surgery, or else holds a diploma or license conferring full right to practise dentistry in some foreign country and granted by some registered authority.

Dates of dental examinations: January 27-31, May 19-23, June 23-27, and September 29-October 3, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

### VETERINARY EXAMINATIONS.

The regents shall admit to examination any candidate who pays a fee of \$10 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required in all cases after July 1, 1897, preliminary to receiving a degree in veterinary medicine. Matriculates in a registered veterinary medical school prior to January 1, 1896, are exempt from the preliminary education requirement; 4. Has studied veterinary medicine not less than three full years, including three satisfactory courses, in three different academic years, in a veterinary medical school registered as maintaining at the time a satisfactory standard; 5. Has received a degree as veterinarian from some registered veterinary medical school.

Dates of examinations: Jan. 27-30, May 19-22, June 23-26, Sept. 29-Oct. 2, at New York, Albany, Syracuse, and Buffalo.

### CERTIFIED PUBLIC ACCOUNTANTS.

1. The full C. P. A. certificate is to be granted only to those who are thirty-five years of age who have had three years' satisfactory experience in the study or practice of accounting, one of which shall have been in the office of an expert public accountant. 2. Candidates having the required preliminary education and passing the required examinations, but lacking the age or the three years' experience required for the full C. P. A. certificate, may be certified as junior accountants under the same conditions as to residence and character. 3. Two examinations, in January and in June, are held annually. There are to be four sessions as follows: 1. Theory of accounts; 2. Practical accounting; 3. Auditing; 4. Commercial law. 4. Candidates must complete all subjects at a single examination as required in medicine. 5. Candidates for either the C. P. A. or the junior accountant certificate must be more than twenty-one years of age, and of good moral character. They must pay a fee of \$25, and must have the regents' academic diploma or its equivalent as prescribed for other professional examinations. Dates of examinations, January 27-28 and June 23-24.

## Law Examinations in New York State in 1903.

To entitle an applicant to an examination as an attorney and counselor he shall pay to the examiners a fee of \$10, and he must prove (15 days in advance) to the satisfaction of the State Board of Law Examiners: 1. That he is a citizen of the State, twenty-one years of age, and that his residence for six months prior to examination is actual and not constructive, which proof must be made by his own affidavit. 2. That he has studied law in the manner and according to the conditions prescribed for a period of three years, except that if the applicant is a graduate of any college or university his period of study may be two years instead of three; and except also that persons who have been admitted as attorneys in the highest court of original jurisdiction of another State or country, and have remained therein as practicing attorneys for at least one year, may be admitted to such examination after a period of law study of one year within this State. 3. That the applicant has passed the regents' examination or its equivalent must be proved by the production of a certified copy of the regents' certificate filed in the office of the Clerk of the Court of Appeals. The examinations of all persons applying to be admitted to practice as attorneys and counselors in the Courts of Record of the State of New York will be held as follows:

1st and 2d Depts.—In Manhattan Boro', at Grand Central Palace, Lexington Avenue, 43d and 44th Streets, at 8.45 a. m., January 14, April 14, June 9, and October 20. 3d Dept.—In Albany, at Court-House, City Hall, January 14 and June 9, at 9 a. m., 4th Dept.—In Rochester, at Court-House, January 14 and June 9, at 9 a. m. 3d and 4th Depts.—In Syracuse, at Court-House, October 20, at 9 a. m.

Address communications concerning law examinations to F. M. Dansher, Secretary, Albany, N. Y.

## Qualifications for Voting in Each State of the Union.

(Communicated to THE WORLD ALMANAC and corrected to date by the Attorneys-General of the respective States.)

In all the States except Colorado, Idaho, Utah, and Wyoming the right to vote at general elections is restricted to males of 21 years of age and upward. (See also "New York," next page.) Women are entitled to vote at school elections in several States. They are entitled by law to full suffrage in the States of Colorado, Idaho, Utah, and Wyoming. (See article entitled "Woman Suffrage.")

Residents of the District of Columbia never had the right to vote therein for national officers, or on other matters of national concern, after the territory embraced in it was ceded to the United States and became the seat of the general government.

## Requirements Regarding Registration of Voters.

(Continuation of "Qualifications for Voting," on preceding pages.)

The registration of voters is required in the States of Alabama, California, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi (four months before election), Montana, Nevada, New Jersey, North Carolina, Oregon, South Carolina, Tennessee, Utah, Virginia, and the Territories of Arizona and New Mexico.

In New York it is required generally except as respects town and village elections held at a different time than the general election. Personal appearance not required in towns or villages of less than 5,000 inhabitants.

In Pennsylvania voters are registered by the assessors. If any voter is missed by assessors and not registered he can swear in his vote.

In Vermont must take freemen's oath before voting first time, no registration required.

In Illinois registration of voters is required by law, and in Cook County, where Chicago is located, persons not registered are not entitled to vote; but outside of Cook County generally they can vote if not registered by swearing in their votes, and producing two witnesses as to their qualifications as an elector.

In Iowa in cities having 3,500 inhabitants. In Nebraska in cities of over 7,000 inhabitants.

In Kentucky in cities and towns having a population of 3,000 or more, in Kansas in cities of the first and second class, and in the Counties of Sumner and Montgomery; in North Dakota in cities and villages of 800 inhabitants and over, in Ohio in cities of the first and second class, in Maine in all cities and in towns having 500 or more voters.

In Missouri it is required in cities of 100,000 inhabitants and over, and in Wisconsin in cities or towns of 3,000 inhabitants or more.

In Rhode Island non-taxpayers are required to register yearly before December 31. In Texas in cities of 10,000 inhabitants or over. South Dakota has a registration law, but if voter is not registered he may prove qualifications when he offers to vote.

In the State of Washington all voters in all cities and towns and all voting precincts having a voting population of 250 or more must be registered.

The registration of voters is not required in Indiana, New Hampshire, or Oklahoma. It is prohibited in Arkansas and West Virginia by constitutional provision.

In Wyoming no person can vote without registering. If sick or absent at time of registration, can make proof of fact by two witnesses, and be registered on election day.

## Woman Suffrage.

In 1902, Massachusetts, March 5.—A woman suffrage amendment was defeated in the House by a vote of 49 yeas, 37 yeas. Iowa, March 13.—A joint resolution for the submission of an amendment to the people providing for woman suffrage was defeated in the House by a vote of 56 yeas, 38 yeas. Connecticut, April 13.—The Constitutional Convention recorded three votes in favor of woman suffrage. Kentucky, March 11.—The Governor signed the bill passed by the Legislature taking away school suffrage from women in the second-class cities. London, England, September 5.—The Trades-Union Congress rejected a resolution introduced for the purpose of giving the franchise to women on the same terms as men.

In 1901 the New York Legislature passed a law providing that "a woman who possesses the qualifications to vote for village or for town officers, except the qualification of sex, who is the owner of property in the village assessed upon the last preceding assessment roll thereof, is entitled to vote upon a proposition to raise money by tax or assessment."

Woman suffrage amendments to the Constitution were defeated by the people in the State elections of 1898 in South Dakota and Washington, and in Oregon in June, 1900.

In Colorado, Idaho, Utah, and Wyoming women have full suffrage and vote for all officers, including Presidential electors. The Woman Suffrage law was adopted in Wyoming in 1870, and in Colorado in 1893, and woman suffrage is a constitutional provision in Utah and Wyoming.

In Indiana women may hold any office under the school laws, but cannot vote for any such officer.

In Kansas women exercise the suffrage largely in municipal elections.

In some form, mainly as to taxation or the selection of school officers, woman suffrage exists in a limited way in Arizona, Connecticut, Delaware, Illinois, Iowa, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, Texas, Vermont, Washington, and Wisconsin.

In Great Britain women vote for some local officers, but not for members of Parliament.

In many European countries, in Australia and New Zealand, in Cape Colony, in Canada, and in parts of India women vote on various terms for municipal or school officers.

The New York State Association Opposed to the Extension of the Suffrage to Women has its Central Association in New York City. Its officers are as follows: Mrs. Francis M. Scott, President; Mrs. Arthur M. Dodge, First Vice-President; Mrs. Elihu Root, Second Vice-President; Mrs. Richard Watson Gilder, Third Vice-President; Mrs. George Waddington, Treasurer; Mrs. George Phillips, Secretary, 789 Park Avenue. There are also societies in Massachusetts, Illinois, Oregon, Iowa, and Washington, and others are being organized. These associations are founded with the object of testifying to legislative committees and the public press that the opposition to woman suffrage is based upon what is claimed to be "the intelligent conviction of representative women in all lines of social, industrial, and domestic progress."

The National American Woman's Suffrage Association—Mrs. C. Chapman Catt, President; Honorary Presidents, Elizabeth Cady Stanton and Susan B. Anthony; Vice-President-at-Large, Rev. Anna H. Shaw, Philadelphia, Pa.; Corresponding Secretary, Kate M. Gordon, New York; Recording Secretary, Alice Stone Blackwell, Boston, Mass.; Treasurer, Harriet Taylor Upton, Warren, O.; Laura Clay, Lexington, Ky., and Mary T. Coggeshall, Des Moines, Ia., Auditors. National Headquarters, 2008 American Tract Society Building, New York.

## Party Platforms on National Issues in 1902.

### RESOLUTIONS ADOPTED BY POLITICAL STATE CONVENTIONS LAST YEAR DEFINING THEIR POSITION ON NATIONAL ISSUES GROUPED BY TOPICS.

A NUMBER of State conventions of both of the great political parties confined their platforms to local issues, alluding to national questions only in general terms of re-affirmation of their last national platforms. No account is taken here of the resolutions of the minor parties, as their conventions were held in a few States only and were, as a rule, scantily attended.

#### ANARCHISM.

##### DEMOCRATIC CONVENTION.

**Illinois.**—We express our horror and deep regret at the monstrous crime which removed from the nation its much loved, mourned President William McKinley. The tenets of anarchy have no place in free American institutions. Ours is a government of law administered by the people's representatives, and we condemn all resort to violence for redress of grievances, real or fancied.

##### REPUBLICAN CONVENTIONS.

**Indiana.**—We favor the most stringent national and State legislation to suppress anarchy.  
**Ohio.**—In a government like ours there is no place for anarchy, and we demand that Congress enact stringent laws against attempts on the life of the Chief Magistrate, or of any person in the line of succession. A murderous attack on the President is a blow struck at the Government itself, and should be punished as treason is punished. Our laws guarantee liberty of speech and of the press, but afford no license for the teachings or practice of anarchy. We also denounce lynching and all forms of mob violence.

**Pennsylvania.**—We place ourselves on record as favoring the passage of wise immigration laws to the end that anarchy may be forever driven from this country and that the American workman shall be protected against unfair labor from abroad.

#### CUBA AND RECIPROCITY.

##### DEMOCRATIC CONVENTIONS.

**Connecticut.**—We favor an immediate and substantial reduction of the tariff on Cuban imports, by reciprocity treaty or otherwise, in order that the tariff relations between the United States and Cuba may be made mutually profitable, and that our obligations to assist the young republic to a permanent place among the sisterhood of nations may be fully recognized and promptly met.

**Massachusetts.**—The refusal of the present Republican Congress under the dictation of selfish, special interests, to give Cuba, through proper tariff concessions, a living chance of establishing a stable and efficient government, under her own flag, was a shameful betrayal of our national honor. While she is entitled, whenever it is her own desire, to enjoy the advantages of a full political union with this country, and consequently of freedom of trade with us, such a union should never be forced upon her by bankruptcy deliberately created by our actions. We denounce the small measure of relief which some Republicans were willing to grant, as utterly inadequate to meet the situation in which their representatives left Cuba. We favor any honest policy of reciprocity with other nations, and we particularly demand the passage of a liberal measure of reciprocity with Canada.

**Minnesota.**—We would correct the imbecile and unbusinesslike policy that throttles our trade with Canada and Cuba at the behest of special interest.

**New Hampshire.**—We demand an immediate and substantial reduction of the tariff on Cuban imports, by reciprocity treaty or otherwise, to the end that our moral obligations to Cuba may be fully and promptly met.

**New York.**—Democrats demand justice for Cuba in the reduction of tariff upon her principal products, not a mere paltry reduction of 20 per cent of existing duties which a Republican President professed a willingness to grant, and to which even his own party in Congress does not assent, but the full measure of justice involved in the reduction of the tariff to a strictly revenue basis. The refusal of the present Republican Congress, under the dictation of special selfish interests, to give Cuba, through proper tariff concessions, a living chance of establishing a stable and efficient government under her flag, was a shameful betrayal of national honor. We call the attention of the people to the equivocal character of the Republican platform in this State, which only favors that relief to Cuba "proposed by the Republicans in Congress," while some of the Republicans in Congress proposed one thing and some another, and nothing whatever was accomplished.

**South Carolina.**—The Democratic party of South Carolina, in convention assembled, felicitates the patriots of Cuba upon the happy conclusion of their long and heroic struggle for independence, and, greeting the Republic with hearty wishes for its prosperity, declares the gratification with which this State would welcome Cuba should she hereafter of her own free will seek membership in the American Union. Until that time shall come we hold that the Government of the United States, moved by considerations of duty, honor, and expediency, should maintain with the Republic of Cuba a policy of liberal commercial reciprocity.

##### REPUBLICAN CONVENTIONS.

**Connecticut.**—We believe, with William McKinley and Theodore Roosevelt, in the policy of trade reciprocity as the natural supplement of tariff protection, and the key with which to unlock the world's markets for the surplus products of American fields and American mills. Especially we commend the President's efforts to perform a plain duty and obtain for this country a lucrative commerce by arranging a judicious reciprocity treaty with Cuba.

**Indiana.**—We favor just and liberal reciprocal relations between the United States and the Republic of Cuba, which, by the valor of American arms and the wisdom of American statesmanship, is added to the family of nations.

**Iowa.**—We indorse his (President Roosevelt's) recommendation as to reciprocity with Cuba, and believe that this policy is necessary to preserve and complete the beneficent work we have done in that island, and that it will be mutually beneficent to the people of Cuba and the United States.

**Kansas.**—We indorse the recommendations of President Roosevelt that the United States should

enter into just and liberal reciprocal trade relations with the Republic of Cuba, and we look to a Republican Congress to establish these relations on such terms that the benefits arising therefrom will go to the people of Cuba and to the people of the United States, thus resulting in mutual advantage and good will.

**Massachusetts.**—Reciprocity with Cuba is demanded alike by honor and by interest. We have assumed a responsibility in regard to Cuba which we cannot abandon. Relying on our promises the Cuban Republic has placed in its constitution provisions required by us, and intended to guard both their interests and our own. These obligations we are, as a nation, bound in honor to fulfil. President Roosevelt has, in his policy of reciprocity with Cuba, the entire and hearty support of the Republicans of Massachusetts.

**Minnesota.**—We heartily favor the wider extension of our markets for the sale of American products. To this end we indorse the policy of reciprocity as defined by President Roosevelt. We favor reciprocity with Cuba, as urged by President Roosevelt.

**Missouri.**—We indorse the legislation so wisely enacted by Congress which made Cuba a free and independent republic. We approve the policy of President Roosevelt respecting our trade relations with Cuba.

**Nebraska.**—We heartily indorse the Administration of President Theodore Roosevelt. We especially commend the justice and wisdom of his reciprocity policy with Cuba, as embodied in his message to Congress.

**New York.**—We favor the reciprocity with that new republic proposed by the Republicans in Congress, giving effective relief to Cuba and substantial benefits to our own people without harm to any American industry.

**Ohio.**—We congratulate the new Republic of Cuba upon the final fruition of the hopes and struggles of her people for freedom and independence. Furthermore, we believe it is due alike to Cuba and to ourselves that, in accordance with the Republican principle of reciprocity, proper and reasonable trade concessions shall be made by our Government to Cuba, in return for her concessions upon American products, so as to benefit the trade of both countries, and to fully and generously carry out every obligation of our national honor, whether expressed or implied.

**Pennsylvania.**—To the end that our past contributions to the cause of Cuba may not be imperilled, but that prosperity and independence may go hand in hand, we indorse the recommendation of President Roosevelt that the United States should enter into reciprocal trade relations with the Republic of Cuba that shall be mutually advantageous to it and to the United States, and all efforts to that end of our representatives in both Houses of Congress we cordially indorse.

**Vermont.**—We hereby approve reciprocity as recommended by President Roosevelt. By the conditions upon which we impose independence we make her in no small sense our ward, and are therefore bound in honor to give her opportunity to develop her natural resources, by which alone she can maintain her separate independence.

## ELECTION OF UNITED STATES SENATORS BY THE PEOPLE.

### DEMOCRATIC CONVENTIONS.

**Connecticut.**—We favor the election of United States Senators by popular vote.

**Indiana.**—We favor the election of United States Senators by popular vote.

**New York.**—We favor the election of United States Senators by the people of the respective States.

**Ohio.**—Until United States Senators are required by amendment to the Federal Constitution to be elected by popular vote, nominations of candidates for United States Senator should be made by State Conventions. And we hereby direct that in the official call for the next Democratic State Convention of Ohio there be embodied a clause providing for the nomination at that convention of the Democratic candidate for United States Senator, and a clause providing for action by said convention upon all amendments to the State Constitution then pending before the people.

## KANSAS CITY PLATFORM OF 1900.

### DEMOCRATIC CONVENTIONS.

**Minnesota.**—We declare our allegiance to the principles of democracy, as set forth in our national Declaration of Independence; as especially taught by that great exponent of democracy, Thomas Jefferson, and as reaffirmed in the latest national convention of the Democratic party. We further express our admiration for and grateful appreciation of the great ability, singular disinterestedness, and untiring zeal in the service of humanity of that great leader of the Democracy and most fearless and eloquent champion of the rights of man, William J. Bryan.

**Ohio.**—We, the Democrats of Ohio, hereby acknowledge and declare our continued allegiance to the Democratic party of the nation and on national issues reaffirm and indorse the principles laid down in its last national platform adopted at Kansas City and faithfully and ably represented in the Presidential campaign of 1900 by William Jennings Bryan. Regarding these principles as opposed to imperialism and colonialism, as opposed to government by injunction, as opposed to trusts and trust-fostering tariffs, as opposed to financial monopoly, and as opposed to all other legalized monopolies and privileges, we condemn every effort to repudiate or ignore them.

**Texas.**—The Democrats of Texas in convention assembled declare their faith in the principles of the party as set forth in the Kansas City platform, and we believe that with Democratic success in 1904 the dangers of imperialism, centralization, trusts, monopolies, mergers, and other combines hurtful to our people, unjust taxation, and kindred evils would no longer confront our country.

## NATIONAL OWNERSHIP OF COAL PROPERTIES.

### DEMOCRATIC CONVENTION.

**New York.**—We advocate the national ownership and operation of the anthracite coal mines by the right of eminent domain with just compensation to owners. Ninety per cent of the anthracite coal deposits of the world being in the State of Pennsylvania, national ownership can but be in the interests of the whole people. Fuel, like water, being a public necessity, we advocate national ownership and operation of the mines as a solution of the problem which will relieve the country from the sufferings which follow differences between labor and capital in the anthracite mines. This course will insure peace in the mining regions and remove the cause for differences leading not only to suffering, but ofttimes to bloodshed and insurrection. It will relieve the consumers of coal, not only in this State, but throughout the whole country; insure steady employment and ample compensation

to labor; transfer children from the mines to the schools; insure, strengthen, and preserve the stability of the business interests and popular institutions of our country. Whatever differences of opinion may exist over other propositions of public ownership, the propriety of that policy as applied to anthracite coal mines must be apparent to every citizen.

### PHILIPPINE POLICY.

#### DEMOCRATIC CONVENTIONS.

**Delaware.**—We look with anxiety and apprehension upon the present management of affairs in the Philippine Islands. We believe that these Islands, now in our undisputed possession, should be so managed as to give the inhabitants speedy control of their own local affairs and an established form of republican government.

**Illinois.**—We believe that the American Government should at once announce to the Filipinos that it is not our policy to permanently retain their country, but as soon as hostilities shall cease and a stable government be established the United States will recognize the independence of the Philippine Islands, as was done in the case of Cuba.

**Indiana.**—We condemn and denounce the Philippine policy of the present Administration. It has embroiled the United States, previously known and applauded throughout the world as the champion of freedom, in the false and un-American position of crushing with military force the efforts of our former allies to achieve liberty and self-government. The Filipinos cannot be citizens without endangering our civilization; they cannot be subjects without imperiling our form of government; and as we are not willing to surrender our civilization or to convert the Republic into an empire, we favor an immediate declaration of the nation's purpose to assist the Filipinos to establish for themselves an independent government, protecting them from outside interference, and securing to this country such commercial and naval rights and advantages as would be just and fair and fully protect American interests.

**Maine.**—We favor an immediate declaration of the intention of the United States to give to the Filipinos at an early date complete home rule and entire independence.

**Massachusetts.**—We reaffirm our opposition to colonial imperialism in every form, and again demand that our Government shall declare its purpose to give to the people of the Philippine Islands at the earliest possible date their independence under the protection of this country.

**Minnesota.**—We indorse and commend our Democratic Congressmen for the position taken by them on the Philippine question, and demand that our Government declare its intentions and purposes in regard to the Filipino people and grant to them their independence.

**New Hampshire.**—We demand an immediate declaration of the purpose of the United States to give to the Filipinos at an early date complete home rule and entire independence.

**New York.**—We condemn the Philippine policy of the present Administration. The Filipinos cannot become citizens without endangering our civilization; they cannot be subjects without imperiling our form of government. The national policy toward them should not remain uncertain and vacillating, but the purpose of the nation as to the ultimate government or disposition of those islands should be in harmony with our traditions and should be explicitly declared.

**South Carolina.**—We condemn and denounce the Philippine policy of the present Administration. We are not opposed to territorial expansion when it takes in desirable territory, which can be erected into States in the Union, and whose people are willing and offer to become American citizens.

#### REPUBLICAN CONVENTIONS.

**Indiana.**—We approve the course of the Administration in establishing peace and civil government in the Philippine Islands. We favor the establishment of absolute peace in the Philippines and the erection of civil government therein. We insist that the people of the islands shall be given increased participation in the administration of their domestic affairs as they shall demonstrate intelligence and capacity for self-government.

**Iowa.**—We rejoice that the firm but enlightened policy pursued in the Philippines has secured peace in the islands, and that the work of education, civilization, upbuilding, and development is begun. We urge that contention over our policy in the Philippines should now cease, and the beneficent plans of the civil government be given the united and cordial support of all our people.

**Kansas.**—By the terms of the treaty with Spain the Philippine Islands became the territory of the United States, and this nation is bound by every consideration of honor and good faith as well as of self-interest to assume the responsibility which such ownership entails. We heartily approve the Administration in the action it has taken to suppress insurrection and establish the national authority in the islands, as well as the policy it has pursued in instituting civil government therein as rapidly as possible and with as large a participation on the part of the people as can at this time be safely and consistently permitted.

**Massachusetts.**—The war with Spain has brought to us the possession of the Philippine Islands. Our withdrawal from these islands would have been the signal for anarchy and ruin, and they would have passed thence into the hands of some other power. President McKinley believed that we were able to solve this great problem, and that no other nation could do so much as we to give liberty and prosperity to the Filipino people. His policy was, first, to restore peace; second, to establish civil government; and third, to give the people of the Philippine Islands as rapidly as safety would permit the largest practicable measure of self-government. His policy, firmly pursued by his successor, has been successful. Peace has been restored, civil rule has been established, and provision has been made for a representative assembly on the completion of the census now being taken.

**Michigan.**—We denounce all unwarranted and disgraceful attacks upon the defenders and upholders of our flag in the Philippines, and we pledge faithful support to the Government in the efforts to establish good government and personal liberty in those islands.

**Minnesota.**—We indorse the course of the Administration in the establishment of peace and order and of civil government in the Philippine Islands.

**Missouri.**—We heartily indorse the pending Congressional legislation which will enable the people of our new possessions to achieve the largest measure of self-government consistent with our sovereignty, thereby insuring their material development and prosperity.

**New York.**—We commend the Executive for laying the foundation of social order, education, and local government in the Philippine Islands. We commend the action of Congress in securing to the peoples of those islands their fundamental, civil, and personal rights, in terms borrowed from the Constitution of the United States, for the selection of a legislative assembly elected by the Filipinos.

On this record of peace, orderly government, liberty, and home rule, in ever increasing measure, for the Filipinos, the Republican party takes its stand and confidently appeals for indorsement to all American citizens irrespective of party.

**Ohio.**—We congratulate the President and the army on the satisfactory progress made in the Philippines in suppressing insurrection and establishing order, and we unqualifiedly indorse the policy of our Government in those islands. The war with Spain was forced on us against our will, and the Philippines came to us as one of the results of that conflict. We are responsible for peace and order in the islands and our sovereignty must be as absolute as our responsibility. Our title to the islands is as perfect as was that of Spain after nearly four hundred years of undisputed possession. We will give their people better government, better schools, more civil and political rights, and a higher civilization and broader freedom than is possible for them in any other way. Our flag is in the Philippines and there it will remain.

**Oregon.**—The events of the late war with Spain carried us into the Philippine Islands. We hold it to be consistent with the principles of liberty and of our national life that the sovereignty of the United States should be maintained in the islands, under such local self-government as the people may be, or may become, fitted to participate in. We therefore declare against all proposals looking to the retirement of the United States from the Philippine Islands.

**Pennsylvania.**—In the Philippine Islands under American rule, despite protracted guerrilla warfare now brought to an end, schools have been established; justice administered by courts has for the first time become prompt and certain; the habeas corpus has been made a writ of right; provincial and municipal governments chosen by vote have been established and the Filipino people have been started upon the road of self-government. No nation has ever achieved so much in so short a time in dealing with an Asiatic people broken into many tribes, and we heartily approve and commend the policy of our Government which has produced such results.

## PROTECTION—REVISION OF THE TARIFF.

### DEMOCRATIC CONVENTIONS.

**Connecticut.**—We demand the immediate repeal of all tariffs upon trust-produced articles, so as to prevent monopoly under the plea of protection.

**Indiana.**—We denounce the Dingley tariff law as the breeder of trusts, and demand that tariff duties shall be levied for the purposes of revenue only and limited by the needs of the Government honestly and economically administered.

**Illinois.**—We denounce the Republican tariff as a prolific mother of trusts. We demand a thorough revision of the tariff and the abolition of all special privileges, and as the first most obvious and most effective means of eliminating special privileges from our laws and of restoring to American citizenship the equality which is its birthright, that every product of a tariff-protected, competition-destroying trust be placed on the free list.

**Maine.**—We favor the immediate abolition of all tariffs upon trust-made articles. We favor free trade with the insular territories which the Republican party is attempting to govern as colonial provinces.

**Massachusetts.**—Exorbitant tariff duties are producing a surplus which is to-day locking up in the Treasury money which our business needs urgently require; these should be reduced to a reasonable revenue basis. Free raw material is the only sound foundation for the manufacturing supremacy which this country is seeking; we again demand that the duties upon such material, so injurious and unfair to the industrial development of this Commonwealth, shall be wholly removed. We demand particularly free coal, free iron ore, free wool, and free hides, and we condemn the Republican policy of sacrificing great New England interests to its political exigencies.

**New Hampshire.**—We demand the immediate abolition of all tariffs upon trust-made articles. We demand lower duties upon the necessities of life, free trade with the insular territories which we are now attempting to govern as colonial provinces, and a gradual reduction in all tariffs until the revenue is reduced to the needs of an economical administration of the Government.

**New York.**—When tariffs are not needed for revenue they should be eliminated, and thereby extend and promote our market abroad. The policy of reciprocal trade is the traditional Democratic policy, and is in harmony with the spirit of the times. The period of exclusiveness is past. The expansion of our trade and commerce is the pressing problem. The immediate revision of the tariff is the supreme duty of the hour.

**South Carolina.**—Tariff laws should be amended by putting the products of trusts upon the free list to prevent monopoly under the plea of protection. We condemn the Dingley tariff law as a trust-breeding measure, skillfully devised to give the few favors which they do not deserve, and to place upon the many burdens which they should not bear. We reaffirm our belief in a tariff for revenue only, and that taxation should be so regulated as to meet the demands of an honest and economical government.

### REPUBLICAN CONVENTIONS.

**Connecticut.**—We believe, with Lincoln, Garfield, Blaine, McKinley, and Roosevelt, in a protective tariff that wisely fosters American industries and safeguards American wages. We oppose a general revision of the tariff at this time as both inopportune and unnecessary. If, in any schedule, import duties are found that have been notoriously perverted from their true purpose to the inordinate enrichment of corporations monopolistic in fact or in tendency, we look to a Republican Congress to apply, in its wisdom, the needed corrective without impairing the principle of protection.

**Idaho.**—We favor a revision of the tariff without unreasonable delay which will place upon the free list every article and product controlled by any monopoly and such other articles and products as are beyond the need of protection.

**Indiana.**—We adhere to the policy of protection. Under it our industries have developed and the hopes of labor have been increased and wages maintained at a higher rate than would have been otherwise possible. We favor the extension of our markets through carefully guarded reciprocity arrangements with other countries wherever it can be done without "interrupting our home production." While we favor such modifications of tariff schedules as from time to time are required by changing conditions, we insist that such changes shall be made in line with the fundamental principle of protection.

**Iowa.**—We stand by the historic policy of the Republican party in giving protection to home industries, and point for its ample vindication to the extraordinary rapidity with which our national resources have been developed and our industrial and financial independence secured. We favor such changes in the tariff from time to time as may become advisable through the progress of our industries and their changing relations to the commerce of the world.

**Kansas.**—The Republican principle of a protective tariff was never more firmly fixed in our

national policy than it is now. It has developed our industries, preserved our domestic trade, extended our foreign markets, and contributed more than any one policy to our present unparalleled prosperity. Reciprocity has been well described as the handmaid of protection, and under wise Republican administration, reciprocal arrangements can be negotiated with other nations which will result in opening new markets for American products without in any degree interfering with the prosperity of our home industries. We therefore reaffirm our adherence to these two cardinal tenets of the Republican faith.

**Massachusetts.**—To the application of the policy of protection, as embodied in the Dingley tariff, is due the high wages and constant employment of labor, and, in large measure, our phenomenal national prosperity for the last five years. This policy should be adhered to, but changes which the world's progress and the interests of the American people may suggest should and will be made by the Republican party whenever they are of sufficient importance to justify the check to business which inevitably attends any revision of the tariff. Such changes can only be made successfully, and with the least possible injury to business, by the Republican party, and in accordance with the principles of protection.

**Michigan.**—We continue our abiding faith in the protective tariff, and are opposed to all efforts to destroy it or emasculate it or weaken its beneficent operation.

**Minnesota.**—We adhere to the policy of protection; under this doctrine we favor such modification of our tariff schedules as is now or may from time to time be required by changing conditions to remove any burden from our people and to hold and extend our trade among the nations.

**New York.**—The integrity of the protective principle must be preserved. That principle is required to maintain the highest scale of American wages and the supremacy of the American workshop.

**Ohio.**—Democratic success would threaten the destruction of the protective system under which our splendid prosperity has come, and the mere shadow of impending free trade would destroy confidence, unsettle business, alarm industrial interests, and immediately check the demand for labor.

**Oregon.**—We reaffirm our allegiance to the principles of protection in necessary cases of industries still in their infancy or unable to compete with foreign productions.

**Pennsylvania.**—We demand that this policy in so far as it protects and tends to develop the industries and interests of the American people shall be firmly adhered to.

**Rhode Island.**—We reaffirm our belief in the wisdom of the American protective system. While insisting upon this stability of policy we do not fail to recognize the fact that new or changed industrial conditions may naturally lead from time to time to a readjustment of tariff rates. All questions as to the time when a new adjustment of rates will be necessary and as to the character of the revision demanded by the public interests can be safely left to the judgment of a Republican Congress.

## RENOMINATION OF PRESIDENT ROOSEVELT.

### REPUBLICAN CONVENTIONS.

**Alabama.**—We express our faith in his thoroughly American and patriotic ideas, and we believe that his leadership establishes confidence both in the success of Republican principles and the continued prosperity and progress of the country, and we therefore favor his renomination to the great office he fills with patriotism and ability.

**Arkansas.**—We indorse the Administration of President Roosevelt and pledge him support in the continuance of our national prosperity and the maintenance at home and abroad of the nation's honor. Should he be the Republican standard bearer in 1904, we pledge an increased Republican vote from Arkansas.

**Connecticut.**—We heartily approve and applaud President Roosevelt's vigilant care of the country's interests, domestic and foreign, and we favor his nomination for the Presidency by the National Republican Convention of 1904.

**Iowa.**—Approving his purposes and assured that he has the confidence of the people, we look forward to his election to the Presidency in 1904 as to a foreshadowed event demanded by the popular will, and one that will maintain and promote the national prosperity and conserve every national interest.

**Kansas.**—Kansas looks forward with joy to the coming time, but two years distant, when again her delegation, representing a united Republican party, will march under the banners bearing the inscription "For President, Theodore Roosevelt."

**Massachusetts.**—We approve what he has done already, and what he has declared that he intends to do hereafter. Massachusetts sustains and supports his present Administration and intends to sustain and support him in another.

**Missouri.**—The Republican party of Missouri unreservedly indorses Theodore Roosevelt and his Administration. His every official act, whether having reference to our policy at home or abroad, has been inspired by the highest sense of duty and with the desire to advance and promote the best interests of our common country, and we believe that in his character and in his career Theodore Roosevelt has proved himself to be the ideal and logical candidate of our party for President in 1904.

**Minnesota.**—We cordially indorse the able and patriotic Administration of President Roosevelt. We are proud of his manly courage, his purity, and his devotion to the interests of the entire country, and pledge him the earnest support of the Republicans of Minnesota in all his efforts to continue and advance the prosperity of the people at home and the glory of the Republic abroad. It is, therefore, the sense of this convention that President Roosevelt succeed himself as President of the United States.

**New York.**—We give to President Roosevelt and his Administration our heartiest approval and most cordial support. We recognize the fidelity with which he has carried out the policies of his lamented predecessor and the rare capacity he has shown in meeting the new responsibilities of his great office. We look forward with confidence to his election to the Presidency in 1904, and so far as this convention has the power we pledge thereto the earnest efforts of the Republican party of this State.

**Pennsylvania.**—To President Roosevelt and his Administration we give our heartiest approval and support. We pledge ourselves to his renomination to the great office which he has filled with such ability and patriotism.

**Rhode Island.**—We honor his consistent efforts to secure and perpetuate a high standard of public service, and declare here our conviction that his record as the nation's executive merits for him the nomination for President by the National Republican Convention of 1904.

**Texas.**—President Roosevelt is the unanimous choice of Texas Republicans for President in 1904.

**Utah.**—It is the sense of this convention that President Roosevelt be nominated in 1904 as his own successor.

**Washington.**—The Republicans of the State of Washington are in sympathy with you in your brave stand for the common people of the United States, and pledge to Theodore Roosevelt their support and votes for 1904.

## TRUSTS—COMBINATIONS IN RESTRAINT OF TRADE.

### DEMOCRATIC CONVENTIONS.

**Connecticut.**—We demand the most stringent enforcement of all existing laws against trusts, and the passage of such new laws as are required to supplement and give potency to existing statutes. We demand publicity as to the affairs of corporations engaged in interstate commerce, and the enactment of laws requiring all such corporations, before doing business outside the State of their origin, to show that they have no water in their stock and that they are not designed to monopolize any branch of business or the production of any articles of merchandise.

**Illinois.**—Private monopolies destroy competition and control the price of material, labor, and the finished product, thereby thus robbing both producer and consumer; we therefore insist upon a rigid enforcement of the present anti-trust laws, and favor such further legislation, both Federal and State, as may be necessary to prevent such combinations.

**Indiana.**—We denounce the Republican party for its surrender to an alliance with the trusts, and we favor such legislation as will suppress and destroy all trusts or combinations to control the production and the price of commodities.

**Maine.**—We, the Democratic party, favor the immediate abolition of all tariffs upon trust-made articles, the most stringent enforcement of all existing laws against trusts, railroad pools, and unlawful combinations, and the passage of new laws to supplement existing statutes of this nature.

**Massachusetts.**—The present tariff is protecting great trusts in making exorbitant profits upon the necessities of our people, while selling their products to foreign markets at much lower prices than the prices exacted here. We demand the repeal of all tariff duties on articles whose production is controlled by trusts. This is the one simple, practical, and immediate remedy which will at least limit the exactions of monopoly.

**Minnesota.**—The power of the modern trusts is an appalling evil and a monstrous menace. We would revoke the tariff benefits they enjoy; we would refuse the subsidy they seek; we would pass appropriate legislation for the control of their affairs and to secure publicity, and we would enforce the laws against them, sparing none.

**New Hampshire.**—We demand the most stringent enforcement of all existing laws against trusts, monopolies, illegal railroad pools, and combinations; the passage of new and effective laws to supplement existing statutes of this nature and especially prohibiting corporations and trusts, other than banks and insurance companies, from holding stock in other corporations.

**New York.**—The Democratic party is opposed to those gigantic corporate combinations commonly known as trusts, which practically establish monopolies, destroy competition, control the raw material, and increase the price of finished product, thus injuriously affecting both producer and consumer; they lessen the employment of labor, arbitrarily fix the terms and conditions thereof, and deprive individual energy and small capital of their opportunity for betterment. They effectually appropriate the fruits of industry to the benefit of a few thousands at the expense of the many millions of the people, thus concentrating wealth in certain limited classes rather than in the masses of our citizenship. We especially condemn the Beef and Coal Trusts, which have unreasonably raised the price of meat and coal to an extent which threatens the impoverishment and lives of the people. These trust evils are the legitimate product of the Republican policies; they are fostered by Republican laws and excused, apologized for, defended, and protected by Republican Administrations in return for campaign subscriptions and political support.

**South Carolina.**—Existing laws against trusts must be enforced and more stringent ones must be enacted, providing for publicity as to affairs of corporations engaged in interstate commerce, and requiring all corporations to show, before doing business outside of the State of their origin, that they have no water in their stock and that they have not attempted and are not attempting to monopolize any branch of business or the production of any article of merchandise, and the whole constitutional power of Congress over interstate commerce, the mails, and all modes of interstate commerce, shall be exercised by the enactment of comprehensive laws upon the subject of trusts.

**Texas.**—We declare our opposition to trusts, mergers, and other combines for the restriction of trade, and demand that the next Legislature shall pass a law or amend our present laws so that it will be impossible for such corporations to do business in Texas.

### REPUBLICAN CONVENTIONS.

**Connecticut.**—We believe that great aggregations of capital, commonly called "trusts," while necessary for the economic conduct of large business and commercial enterprises, should be subject to such supervision, State or national, as will safeguard public and private interests.

**Iaho.**—The formation of enormous overcapitalized corporations, commonly called trusts, for the purpose of concentrating all of the industries and products of the country in the hands of a few men, stifling competition and enabling them to dictate the wages of labor and the price of commodities to both the producer and the consumer in the interest of their own aggrandizement, is a great and growing evil, the plain remedy for which should be laws regulating the capitalization of corporations within reasonable and moderate limits. We recognize the fact that under the Constitution of the United States, as it now stands, no adequate restrictions can be put upon the organization of such corporations; therefore we favor such amendment to the Constitution as will enable Congress to effectually regulate and suppress all trusts and injurious combinations of aggregated capital.

**India a.**—We are opposed to all trusts or combinations of capital whose purpose or effort is to restrict business or control prices. And we especially denounce those whose tendency it is to increase the cost of living and the necessities of life. We favor legislation to prevent such abuses.

**Iowa.**—We assert the sovereignty of the people over all corporations and aggregations of capital and the right residing in the people to enforce such regulations, restrictions, or prohibitions upon corporate management as will protect the individual and society from abuse of the power which great combinations of capital wield. We cordially indorse the position of President Roosevelt in appealing to the courts to secure regulations that will control great combinations of capital which prevent competition and control the industries of the people without legal sanction or public approval.

**Kansas.**—We cordially indorse the energetic efforts that are being made by the Attorney-General of the United States, under direction of the President, to enforce the provisions of the Sherman anti-trust law enacted by a Republican Congress. The record of our party in its opposition to combinations of capital having for their purpose the restraint of trade, the crushing out of competition, or the arbitrary and unwarranted advancement of prices, is clear and consistent. And if it should become apparent that existing laws are inadequate to properly regulate these combinations, the

Republican party may be relied upon to enact such for their legislation as will fully protect the interests of the people.

**Massachusetts.**—Nearly everything which has been achieved for the benefit of humanity, especially under free governments, has been achieved through cooperation and combination. We recognize the right and the necessity of such cooperation. Labor has the right to combine for its own defence and protection, to secure good wages, reasonable hours for work, and the health and safety of the workmen. Capital has the right to combine to accomplish results too great for individual effort, to promote economy in administration and in manufacture, and to enable it to encounter successfully like combinations in foreign countries for the possession of foreign markets. These combinations of labor and capital, by whatever name they are called, are the natural results of modern economic development, and are entitled to the due protection of the law so long as they are innocent and law-abiding. They must also obey the law, and submit to legal restraint if they become pernicious, dangerous to the public safety, or tyrannical, or if they undertake to interfere with individual liberty. Neither men nor money can be above the law, or be permitted to violate it. No so-called trust must be permitted to use its power to crush out lawful competition, or to defraud unwary investors by fictitious or fraudulent issues of stock, not representing real value. Publicity, honest accounting, issuing stock only for its true value, the prohibition of improper devices to break down competition, and severe penalties for corrupt interference with elections or with legislation by the use of money or offers of employment, will protect the public against injury from large combinations of capital.

**Michigan.**—We realize that large combinations of capital may be necessary, but we desire to express our condemnation of all conspiracies and combinations to restrict business, to create monopolies, to limit production or control prices, and we favor such legislation as will effectually restrain and prevent all such abuses.

**Missouri.**—We are unalterably opposed to all trusts and combinations in restraint of trade, or having for their purpose, in the remotest degree, stifling of competition, and we demand such legislation, both national and State, as will effectually protect the public from these evils. And if such legislation cannot be had under present constitutional powers, we demand such amendment to the Constitution of the United States as will suppress such combinations.

**Nebraska.**—We commend the bold stand that President Roosevelt has taken against the formation or perpetuation of unlawful combinations in restraint of trade.

**New York.**—While we would encourage business enterprises which have for their object the extension of trade and the upbuilding of our State, we condemn all combinations and monopolies in whatever form having for their purpose the destruction of competition in legitimate enterprise, the limitation of production in any field of labor, or the increase of cost to the consumer of the necessities of life, and we pledge the party to the support of such legislation as will suppress and prevent the organization of such illegal combinations.

**Ohio.**—We recognize the necessity of cooperation in order to meet new conditions in the industrial world, and to compete successfully for the world's markets, but all combinations that stifle competition, control prices, limit production, or unduly increase profits or values, and especially when they raise the prices of the necessities of life, are opposed to public policy and should be repressed with a strong hand. The Republican party is the only one that has dealt courageously and honestly with the trust question.

**Pennsylvania.**—We heartily approve the action of the President of the United States through his Attorney-General in instituting proceedings to check the growth of unlawful combinations intended to raise the price of commodities at the expense of the consumer, and we recommend that similar action be taken in all cases where the people are oppressed by trusts or combinations through the illegal manipulation of fuel or food supplies.

**Rhode Island.**—We recognize the tendency, in this age of increased competition, to the formation of consolidated corporations of large capital commonly but erroneously called "trusts," and in so far as they result in the prosecution of business at lessened expense, with cheaper prices to the people, they should not be condemned. The evils growing out of such aggregations of capital should be summarily dealt with by legislative action. The only Congressional enactment looking to the control of such corporations was drawn by a Republican, enacted by a Congress Republican in both branches, and under it prosecutions of the so-called "Beef Trust," and others equally objectionable, are now being made by the Republican Administration.

## OTHER CONVENTIONS SUMMARIZED.

### DEMOCRATIC CONVENTIONS.

**California.**—The convention adopted a platform denouncing a protective tariff and the trusts as inimical to the best interests of the people; favoring the complete exclusion from all American territory of Chinese; demanding the enactment of laws, State and Federal, prohibiting the issuance of injunctions in labor disputes, infringing upon the rights of free speech, free assemblages, and freedom to organize. The platform indorsed the construction of the Isthmian Canal, and favored legislation looking to its early completion; favored an eight-hour day for all Government employes, and the construction of Government vessels in navy yards.

**Colorado.**—The platform indorsed the Kansas City platform of 1900, and the cause of bimetallism, favored the initiative and referendum.

**Georgia.**—We cordially commend our United States Senators and members of the House of Representatives in Congress for their able and patriotic services, and we especially approve their course in opposition to trusts, in opposition to a colonial policy, and in opposition to the ship subsidy bill. We urge that every article of commerce controlled by a trust shall be placed on the free list and all tariff duties shall be removed therefrom.

**Iowa.**—The majority report ignoring free silver was adopted by a vote of 384 to 344. The platform declared in favor of tariff reduction and condemned the Philippine War.

**Missouri.**—The resolutions reaffirmed the Kansas City platform, especial stress being placed on the free silver plank. The Government's Philippine policy was denounced. Drastic legislation was proposed prohibiting all trusts and combinations that have a tendency to destroy competition.

**North Carolina.**—"We reaffirm our allegiance to the Democratic party and its principles as enunciated in its Kansas City platform." The platform declared its opposition to trusts, monopolies, and the protective tariff, and favored the establishment of the Appalachian forest reserves by the Government.

**Rhode Island.**—The Democratic party is opposed to government by injunction and favors the election of Senators of the United States by the people. It pledges itself to stand in the future for every law which will ameliorate the condition of the working classes, especially those laws which relate to shortening the hours of labor.

## PARTY PLATFORMS ON NATIONAL ISSUES IN 1902—Continued.

**South Dakota.**—The platform reaffirmed the principles of the Kansas City platform, favored government control of railroads and public facilities and the election of United States Senators by the direct vote of the people.

**Tennessee.**—The Kansas City platform and the position of Democratic members of Congress were indorsed; then followed a declaration denouncing trusts; a plank favoring tariff for revenue only; a denunciation of the ship subsidy bill and the Republican position on the Philippines; a plank favoring the speedy restoration of peace in the East, and giving the Filipinos independence. The platform declared against the increased standing army, denounced Republican extravagance, favored the construction of the Nicaragua Canal, expressed sympathy for the Boers, and favored liberal commercial relations with Cuba.

**Washington.**—The platform indorsed the Kansas City platform and opposed imperialism and colonialism, government by injunction, trusts, and "trust-fostering tariffs." It condemned "special privileges given for grazing sheep on Government forest reserves," demanded complete exclusion from all American territory of all Chinese, and denounced the Republican majority in Congress for "passing the present weak and inadequate law."

**Wisconsin.**—The platform attacked the present tariff system as fostering trusts and enabling combinations to "rob American consumers." War was declared upon combinations of capital "which shall violate the law by unlawfully destroying competition." The complete separation of Church and State and a welcome to private and parochial schools as valuable auxiliaries to the public school system were favored.

## REPUBLICAN CONVENTIONS.

**Alabama.**—The platform favored "the organization of labor for its legitimate protection and the enactment of laws for the peaceable and fair settlement by arbitration of disagreements as they may arise between organized capital and labor," favored child law legislation relating to work in cotton mills, condemned "the spirit which seeks to arouse the prejudice of the people against the railroads," and advocated the "enactment of laws so regulating the railroads as to adequately protect the interests of the people, but was opposed to any drastic measures;" indorsed "the wisdom of the Dingley tariff law," and urged a continuance of that policy. Republican legislation to build an interoceanic canal was approved. The "bravery and heroism of our soldiers and sailors in the Philippines" were applauded, and the attacks of the Democratic party on them condemned. The nomination of President Roosevelt was favored.

**Arkansas.**—The platform indorsed the Cuban reciprocity views of President Roosevelt, favored the immediate building of an interoceanic canal, and indorsed the efforts of the National Administration to enforce the provisions of the Sherman anti-trust law.

**Idaho.**—The platform favored a revision of the tariff to the extent of placing on the free list products controlled by monopolies; declared as a "great and growing evil" the trusts formed for the purpose of stifling competition, and demanded laws to regulate them; favored the opening of forest reservation, and opposed the railway merger.

**Maine.**—The platform praised President Roosevelt, expressed faith in the protective tariff, congratulated Cuba on independence, and approved of the policy in the Philippines.

**Montana.**—The platform declared for Roosevelt for President in 1904, favored a duty on woollen products, demanded protection for American industries with limited revision of the tariff as proposed by Mr. Roosevelt, indorsed the Administration's trust policy, favored a reasonable civil government for the island possessions, and commended the action of the President in enforcing the law against fencing public domain.

**New Hampshire.**—The platform indorsed the present Administration on all points, and favored the nomination of President Roosevelt. Illegal combinations were condemned.

**South Dakota.**—The platform favored the settlement of disputes between capital and labor by arbitration, rejoiced over the pacification of the Philippine Islands, and denounced partisan attacks upon the behavior of the United States soldiers.

**Tennessee.**—The platform favored legal restraint of monopolies, denounced attacks on the American soldiers in the Philippines, and thanked Senator Lodge for defending them in the Senate.

## United States Senators Elected in 1902.

The terms of the following United States Senators expire March 4, 1903:

## Socialist Labor National Committee.

Henry Kuhn, National Secretary, 2-6 New Reade Street, New York City. The National Executive Committee is composed of: Julius Hammer, Recording Secretary; Eber Forbes, Treasurer; and John J. Kinneally, Adolph Klein, August Gillhaus, Rudolph Katz.

The party is organized in local organizations known as "sections," such sections existing in thirty-two States. Any ten persons in any city or town of the United States may form a section, providing they acknowledge the platform and constitution of the Socialist Labor party and do not belong to any other political party. In places where no section exists, or where none can be formed, any person complying with the aforesaid provisions may become a member-at-large upon application to the National Executive Committee. Sections are not permitted to charge initiation fees. All questions of importance arising within the party are decided by general vote. At each meeting of the section a chairman is elected, and the same rule holds good with all standing committees.

## Socialist Party National Committee.

Leon Greenbaum, National Secretary, rooms 426-427 Emille Building, St. Louis, Mo. This organization, which in the last Presidential canvass bore the name of the Social Democratic party, changed it subsequently to the Socialist party. In several States, however, the old name is still used to conform to the election laws in reference to filing nominations. The National Committee is composed of one representative from each organized State, of which there are twenty-five at this time.

## National Association of Democratic Clubs.

President—William R. Hearst, New York. Secretary—Max F. Ihmsen, 1370 Broadway, New York.

## National Republican League of the United States.

THE National Republican League of the United States was organized in Chickering Hall, New York City, December 15-17, 1887, by delegates from about 350 Republican clubs of the United States, assembled in national convention, pursuant to a call issued by the Republican Club of New York City. It is composed of the Republican clubs of the United States, organized by States and united in a national organization. Its purpose is "Organization and Education." It aims to enlist recruits for the Republican party, particularly the younger men and the "first voters." National conventions have since been held at Baltimore, 1899; Nashville, 1890; Cincinnati, 1891; Buffalo, 1892; Louisville, 1893; Denver, 1894; Cleveland, 1895; Milwaukee, 1896; Detroit, 1897; Omaha, 1898 (biennial sessions afterward); St. Paul, 1900; Chicago, 1902. Officers—President, J. Hampton Moore, Philadelphia; Vice-President, James J. Sheridan, Chicago; Secretary, Elbert W. Weeks, Guthrie Centre, Ia.; Treasurer, Sid. B. Redding, Little Rock, Ark. Headquarters—227 South Broad Street, Philadelphia.

## The Presidential Election of 1904.

THE next Presidential election will take place on Tuesday, November 8, 1904.

The President and Vice-President of the United States are chosen by officials termed "Electors" in each State, who are, under existing State laws, chosen by the qualified voters thereof by ballot, on the first Tuesday after the first Monday of November in every fourth year preceding the year in which the Presidential term expires.

The Constitution of the United States prescribes that each State shall "appoint," in such manner as the Legislature thereof may direct, a number of electors equal to the whole number of Senators and Representatives to which the State may be entitled in Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be an elector. The Constitution requires that the day when electors are chosen shall be the same throughout the United States. At the beginning of our Government most of the electors were chosen by the Legislatures of their respective States, the people having no direct participation in their choice; and one State, South Carolina, continued that practice down to the breaking out of the Civil War. But in all the States now the electors are, under the direction of State laws, chosen by the people on a general State ticket.

The manner in which the chosen electors meet and ballot for a President and Vice-President of the United States is provided for in Article XII. of the Constitution, and is as follows:

The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit, sealed, to the seat of government of the United States, directed to the President of the Senate.

The same article then prescribes the mode in which the Congress shall count the ballots of the electors, and announce the result thereof, which is as follows:

The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the great at number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed; and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice.

The procedure of the two houses, in case the returns of the election of electors from any State are disputed, is provided in the "Electoral Count" act, passed by the Forty-ninth Congress. The act directs that the Presidential electors shall meet and give their votes on the second Monday in January next following their election. It fixes the time when Congress shall be in session to count the ballots as the second Wednesday in February succeeding the meeting of the electors.

The Constitution also defines who is eligible for President of the United States, as follows:

No person except a natural-born citizen or a citizen of the United States at the time of the adoption of this Constitution shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years.

The qualifications for Vice-President are the same.

Presidential Elections

FROM 1789 TO 1900.

AGGREGATE POPULAR VOTE AND ELECTORAL VOTE FOR CANDIDATES FOR PRESIDENT AND VICE-PRESIDENT AT EACH ELECTION.

NOTE.—There is, properly speaking, no popular vote for President and Vice-President; the people vote for electors, and those chosen in each State meet therein and vote for the candidates for President and Vice-President. The record of any popular vote for electors prior to 1824 is so meagre and imperfect that a compilation would be useless. In most of the States, for more than a quarter century following the establishment of the Government, the State Legislatures "appointed" the Presidential electors, and the people therefore voted only indirectly for them, their choice being expressed by their votes for members of the Legislature. In this tabulation only the aggregate electoral votes for candidates for President and Vice-President in the first nine quadrennial elections appear.

ELECTORAL VOTES.

1789. Previous to 1804, each elector voted for two candidates for President. The one who received the largest number of votes was declared President, and the one who received the next largest number of votes was declared Vice-President. The electoral votes for the first President of the United States were: George Washington, 69; John Adams, of Massachusetts, 34; John Jay, of New York, 9; R. H. Harrison, of Maryland, 6; John Rutledge, of South Carolina, 6; John Hancock, of Massachusetts, 4; George Clinton, of New York, 3; Samuel Huntington, of Connecticut, 2; John Milton, of Georgia, 2; James Armstrong, of Georgia; Benjamin Lincoln, of Massachusetts, and Edward Telfair, of Georgia, 1 vote each. Vacancies (votes not cast), 4. George Washington was chosen President and John Adams Vice-President.

1792. George Washington, Federalist, received 132 votes; John Adams, Federalist, 77; George Clinton, of New York, Republican (a), 50; Thomas Jefferson, of Virginia, Republican, 4; Aaron Burr, of New York, Republican, 1 vote. Vacancies, 3. George Washington was chosen President and John Adams Vice-President.

1796. John Adams, Federalist, 71; Thomas Jefferson, Republican, 68; Thomas Pinckney, of South Carolina, Federalist, 59; Aaron Burr, of New York, Republican, 30; Samuel Adams, of Massachusetts, Republican, 15; Oliver Ellsworth, of Connecticut, Independent, 11; George Clinton, of New York, Republican, 7; John Jay, of New York, Federalist, 5; James Iredell, of North Carolina, Federalist, 3; George Washington, of Virginia; John Henry, of Maryland, and S. Johnson, of North Carolina, all Federalists, 2 votes each; Charles Cotesworth Pinckney of South Carolina, Federalist, 1 vote. John Adams was chosen President and Thomas Jefferson Vice-President.

1800. Thomas Jefferson, Republican, 73; Aaron Burr, Republican, 73; John Adams, Federalist, 65; Charles C. Pinckney, Federalist, 64; John Jay, Federalist, 1 vote. There being a tie vote for Jefferson and Burr, the choice devolved upon the House of Representatives. Jefferson received the votes of ten States, which, being the largest vote cast for a candidate, elected him President. Burr received the votes of four States, which, being the next largest vote, elected him Vice-President. There were 2 blank votes.

1804. The Constitution of the United States having been amended, the electors at this election voted for a President and a Vice-President, instead of for two candidates for President. The result was as follows: For President, Thomas Jefferson, Republican, 162; Charles C. Pinckney, Federalist, 14. For Vice-President, George Clinton, Republican, 162; Rufus King, of New York, Federalist, 14. Jefferson was chosen President and Clinton Vice-President.

1808. For President, James Madison, of Virginia, Republican, 122; Charles C. Pinckney, of South Carolina, Federalist, 47; George Clinton, of New York, Republican, 6. For Vice-President, George Clinton, Republican, 113; Rufus King, of New York, Federalist, 47; John Langdon, of New Hampshire, 9; James Madison, 3; James Monroe, 3. Vacancy, 1. Madison was chosen President and Clinton Vice-President.

1812. For President, James Madison, Republican, 128; De Witt Clinton, of New York, Federalist, 89. For Vice-President, Elbridge Gerry, of Massachusetts, 131; Jared Ingersoll, of Pennsylvania, Federalist, 86. Vacancy, 1. Madison was chosen President and Gerry Vice-President.

1816. For President, James Monroe, of Virginia, Republican, 183; Rufus King, of New York, Federalist, 34. For Vice-President, Daniel D. Tompkins, of New York, Republican, 183; John Edgar Howard, of Maryland, Federalist, 22; James Ross, of Pennsylvania, 5; John Marshall, of Virginia, 4; Robert G. Harper, of Maryland, 3. Vacancies, 4. Monroe was chosen President and Tompkins Vice-President.

1820. For President, James Monroe, of Virginia, Republican, 231; John Q. Adams, of Massachusetts, Republican, 1. For Vice-President, Daniel D. Tompkins, Republican, 218; Richard Stockton, of New Jersey, 8; Daniel Rodney, of Delaware, 4; Robert G. Harper, of Maryland, and Richard Rush, of Pennsylvania, 1 vote each. Vacancies, 3. James Monroe was chosen President and Daniel D. Tompkins Vice-President.

\* Jackson called himself a South Carolinian and his biographer, Kendall, recorded his birthplace in Lancaster County, S. C., but Parton has published documentary evidence to show that Jackson was born in Union County, N. C., less than a quarter mile from the South Carolina line. † The Democratic party of to-day claims lineal descent from the first Republican party and President Jefferson as its founder. ‡ Political parties were disorganized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his Administration took the name of Democrats and elected Jackson President.

More details of the lives of the Presidents were given in THE WORLD ALMANAC for 1902, pages 118 and 119.

The Presidential Succession.

THE Presidential succession is fixed by chapter 4 of the acts of the Forty-ninth Congress, first session. In case of the removal, death, resignation, or inability of both the President and Vice-President, then the Secretary of State shall act as President until the disability of the President or Vice-President is removed or a President is elected. If there be no Secretary of State, then the Secretary of the Treasury will act; and the remainder of the order of succession is as follows: The Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy, and the Secretary of the Interior. The acting President must, upon taking office, convene Congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This act applies only to such Cabinet officers as shall have been appointed by the advice and consent of the Senate, and are eligible under the Constitution to the Presidency.

The National Flag.

THE official flag of the United States bears forty-five stars in a blue field, arranged in six rows—the first, third, and fifth rows having eight stars each, and the others having seven stars each. The garrison flag of the Army is made of bunting, thirty-six feet fly and twenty feet hoist; thirteen stripes, and in the upper quarter, next the staff, is the field or "union" of stars, equal to the number of States, on blue field, over one-third length of the flag, extending to the lower edge of the fourth row stripes from the top. The storm flag is twenty feet by ten feet, and the recruiting flag nine feet nine inches by four feet four inches. The "American Jack" is the "union" or blue field of the flag. The Revenue Marine Service flag, authorized by act of Congress, March 2, 1799, was originally prescribed to consist of sixteen perpendicular stripes, alternate red and white, the union of the ensign bearing the arms of the United States in dark blue on a white field. The sixteen stripes represented the number of States which had been admitted to the Union at that time, and no change has been made since. Prior to 1871 it bore an eagle in the union of the pennant, which was then substituted by thirteen blue stars in a white field, but the eagle and stars are still retained in the flag. June 14, the anniversary of the adoption of the National flag, is celebrated as Flag Day in the public schools, and by the display of the emblem on public buildings and private houses in a large part of the Union.

Reciprocity treaties or agreements were also negotiated and signed under authority of section 4 of the act of 1897, and now await action by the United States Senate, with the following governments: United Kingdom, for Jamaica, Turks and Caicos Islands, Barbados, Bermuda, and British Guiana; Denmark, for the Danish West Indies; Dominican Republic; Nicaragua; Ecuador; Argentina; France. The treaties or agreements named above as awaiting ratification are those from which the injunction of secrecy has been removed. Other treaties which have been negotiated have not yet been made public.

The reciprocal agreements now in existence between the United States and France, Portugal, Germany, and Italy, respectively, framed under the Dingley Tariff of 1897, may be summarized as follows:

**France:** The United States reduce the rate of duty on crude tartar from France to 5 per cent ad valorem; on brandies or other spirits to \$1.75 per gallon; also a reduction on still wines and vermouth, and on paintings to 15 per cent ad valorem; while the French Government gives its minimum tariff rates on canned meats, table fruits, dried fruits, lard, manufactured and prepared pork meats, hops, paving blocks, staves and logs, and sawed or squared timber and lumber from the United States.

**Germany:** The United States gives the same tariff rates as those named in the treaty with France on tartar, brandies, still wines, and paintings, and the German Government gives to the United States the same tariff rates as those given to Belgium, Italy, Austria-Hungary, Roumania, Russia, and Switzerland during the existence of the present tariff treaties with them, and annuls its regulations regarding dried fruits from the United States, providing in their stead a system of inspection on account of the San José scale.

**Portugal:** The reductions on crude tartar, brandies, wines, and paintings accorded to Germany and France are given by the United States to Portugal, and the Portuguese Government gives to the United States as low rates of duty as those accorded to any other country, except Spain and Brazil, on breadstuffs, lard, mineral oils, agricultural implements, and certain machinery for manufacturing.

**Italy:** The above-named rates with reference to tartar, brandies, still wines, and paintings are given by the United States, and a reduction is made by the Italian Government on imports of cottonseed oil, fish, machinery, scientific instruments, fertilizers, and skins.

## The Pan-American Conference of 1901.

THE various American Republics constituting the International Union held a second conference in 1901, meeting October 22 in the City of Mexico. The republics of Brazil, Mexico, Venezuela, the Argentine, Bolivia, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Hayti, Nicaragua, Paraguay, Peru, Salvador, Uruguay, and the United States were represented by delegates, those of the United States being ex-Senator Henry G. Davis, of West Virginia; William I. Buchanan, of Iowa; Volney W. Foster, of Illinois; John Barrett, of Oregon; Charles M. Pepper, of the District of Columbia. The sessions were held under the presidency of Señor Genaro Raigosa, of Mexico, and lasted until February, 1902. The principal business transacted was the adoption of a protocol declaring that the principles established at the three different Hague Conventions should be considered as American public law; the present American signatories, the United States and Mexico, being requested to negotiate with other parties to The Hague Convention for the admission into it of other American nations when they ask the privilege. Measures for sanitary protection, a Pan-American Scientific Museum, and the proposed Inter-Continental Railroad were favorably reported. The conference adopted the declaration that "the international law of America is founded on peace, which, in turn, depends on respect for the sovereignty, independence, and territorial integrity of all the nations of the Continent."

The Bureau of the American Republics at Washington was established under the recommendation of the International American Conference in 1890 for the prompt collection and distribution of commercial information concerning the American Republics. It publishes translations of the tariffs of the countries of Latin America reduced to the United States equivalents; also handbooks of these countries, a monthly bulletin containing the latest information respecting their resources, commerce, and general features, and *The Commercial Directory*, an international publication. The Bureau is sustained by contributions from the several American Republics in proportion to their population.

It will be seen that it is possible that the widow of a Revolutionary soldier may be drawing a pension in the year 1916. For a similar reason the widow of a veteran of the late Civil War may be living in 2002, and of the war with Spain in 2050. Daniel F. Bakeman, the last survivor of the War of the Revolution, died in Freedom, Cattaraugus County, N. Y., April 5, 1869, aged 109 years.

Mrs. U. S. Grant and Mrs. J. A. Garfield receive pensions of \$5,000 a year; Mrs. Phil. Sheridan has \$2,500; eight, including Mrs. John C. Fremont, Mrs. Logan, and Mrs. George B. McClellan, receive \$2,000 a year, and forty-five receive \$1,200 a year. Among these are the widows of Generals Gresham, Custer, Doubleday, Hartranft, Robert Anderson, Casey, Gibbon, Kilpatrick, Mower, Paul Ricketts, Warren, and Rousseau, and Admiral Wilkes. Among the notable pensioners who receive pensions of \$100 a month are ex-Senator John M. Thayer, of Lincoln, Neb., and John C. Black, of Chicago.

The following are the ratings per month for disabilities incurred in the service:

**Army.**—Lieutenant-colonel and all officers of higher rank, \$30; major, surgeon, and paymaster, \$25; captain and chaplain, \$20; first lieutenant and assistant surgeon, \$17; second lieutenant and enrolling officer, \$15; enlisted men, \$8.

## United States Forestry Statistics.

(Corrected for THE WORLD ALMANAC by Gifford Pinchot, Chief of the Bureau of Forestry, U. S. Department of Agriculture.)

### FOREST AREA.

The total woodland area in the United States is estimated at 1,094,514 square miles, or about 699,500,000 acres, which is 36½ per cent of the total land area. Alaska not included. — *Gannett*.

The lumber industry of the United States, taken as a whole, was in 1900 the fourth among the great manufacturing industries of the country. According to the figures of the Census of 1900 there were 33,035 establishments, with a total capital of \$611,611,524. They employed, exclusive of the administrative and clerical force, 283,260 wage-earners, an average of 8.6 employes per establishment, and paid in wages \$104,640,591. The average wages per wage-earner was \$:70, and per establishment, \$3,171. The amount of lumber produced by the mills was 35,084,166,000 feet B. M. The cost of materials used was \$317,923,548, and the value of products was \$566,832,984. The product per establishment was \$17,177, and per employé, \$2,003. The average product per mill was a little over a million feet. The value of lumber products is estimated to have increased 29 per cent during the past decade.

At the present rate of cutting the forest land of the United States cannot long meet the enormous demand made upon it. By far the greater part of the white pine has been cut, and vast inroads have been made into the supply of other valuable timbers. In many sections of the country more timber falls by fire than by the axe. The average annual loss from fire is not less than \$20,000,000.

### FOREST PRESERVATION.

For the preservation of the forests the State of New York first instituted a Forest Commission in 1855. Several radical changes have been made in the law, which now provides for a "Forest, Fish, and Game Commission," to which is delegated the enforcement of the fish and game laws, the care of the Adirondack Park, and the State Forest Preserve. The Legislature of 1897 authorized the purchase of lands in the Adirondacks as an addition to the Park and Forest Reserve to the amount of \$1,000,000, to which \$500,000 in 1898 and \$300,000 in 1899 have since been added. A State College of Forestry was established in connection with Cornell University in 1898, and an experimental tract of 30,000 acres has been purchased for the use of this school. Similar schools were subsequently established at Yale and at Ellimore, N. C.

Better methods of handling forest lands have been introduced on 372,463 acres of forests, under the direction of the Bureau of Forestry, U. S. Department of Agriculture.

The Pennsylvania Legislature of 1897, in order to conserve the water supply, provided for the purchase of three forest reserves of not less than 40,000 acres each, at the heads of the three principal river systems of the State, and in accordance with this and other acts this State has of late been actively acquiring land, until at present it possesses about 400,000 acres. Pennsylvania also, in its legislation of 1897, vigorously grappled with the problem of forest fires. Minnesota long took the lead in the excellence of a forest fire law, having a Chief Fire Warden charged with the law's execution. New York also, among changes made in its forest, fish, and game law of 1901, authorized the appointment of a Chief Fire Warden. Maine and New Hampshire are other States possessing progressive fire laws. Michigan, in 1899, appointed a commission to study the forest question and select land for a State forest reserve, and in 1901 certain lands were accordingly withdrawn. Wisconsin has also taken the initiatory steps toward the adoption of an advanced forest policy. The States having offices for forest work are Connecticut, Indiana, Kansas, Maine, Maryland, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oregon, Pennsylvania, West Virginia, and Wisconsin.

A national organization known as the American Forestry Association, composed of delegates from the States, meets annually. F. H. Newell, Washington, D. C., is Corresponding Secretary. Local or State Associations have been formed in California, Connecticut, Colorado, Iowa, New York, Pennsylvania, Massachusetts, North Carolina, Tennessee, Washington, Minnesota, Utah, and North Dakota.

By the act of March 3, 1891, the President is authorized to make public forest reserves. Fifteen such reserves, comprising 13,457,080 acres, were established under President Harrison in Colorado, Wyoming, New Mexico, Oregon, California, Alaska, Washington, and Arizona. In September, 1893, President Cleveland established two more forest reserves in Oregon, amounting to 4,443,000 acres. On February 22, 1897, he proclaimed thirteen additional reserves in Oregon, California, Idaho, Montana, Washington, South Dakota, Wyoming, and Utah, with an aggregate area of 21,448,200 acres, making the total area of forest reserves created during his administration 25,891,200 acres.

These reservations were made upon the recommendation of a committee of the National Academy of Sciences after thoroughly investigating the subject at the request of the Secretary of the Interior. The Sundry Civil bill which passed Congress June 4, 1897, temporarily suspended the reservations of February 22, until the act of March 1, 1898, ordered their survey by the Director of the Geological Survey, and appropriated \$150,000 therefor. The bill provides that lands more suitable for agriculture than for forestry shall be permanently restored to the public domain. It also authorizes the Secretary of the Interior to formulate such rules and regulations for the care and management of the forest reservations as may in his judgment be necessary. Since its passage extensive additional areas have been reserved, and the attitude of the West toward the reserves has radically changed for the better. Forest reserves were created by President McKinley in California, Oregon, Arizona, New Mexico, South Dakota, Wyoming, Utah, Montana, Washington, and Oklahoma, during the period from March, 1898, to August, 1901, with a total area of 7,050,989 acres. President Roosevelt, from October, 1901, to September, 1902, proclaimed reserves in Colorado, California, Arizona, Nebraska, Wyoming, Oregon, New Mexico, Montana, and Alaska, amounting to 9,257,916 acres. The total area of the forest reserves was, on September 4, 1902, 60,162,525 acres.

The national parks were created during the period from 1872 to 1899. They have a total area of 3,494,836 acres. The more important ones are the Yellowstone National Park in Montana and Wyoming, Sequoia National Park, General Grant National Park, and Yosemite National Park in California, and the Mt. Rainier National Park in Washington.

### ARBOR DAY.

The individual States have striven to encourage tree-planting by appointing a certain day in the year, to be known as Arbor Day, for the voluntary planting of trees by the people. All the States and Territories except Delaware and the Indian Territory have since then, by legislative enactment or otherwise, established an annual Arbor Day. (See "Legal Holidays.")

## The United States Census.

THE Twelfth Census of the United States was taken under the act of Congress approved March 3, 1899.

The statistics gathered are now in course of preparation for publication by the Census Office at Washington. Reports upon population, manufactures, agriculture, and vital statistics have already been made public, and summaries of their contents will be found on other pages of THE WORLD ALMANAC.

The subjects covered by the Twelfth Census were not as numerous as those undertaken by the Eleventh Census. The census proper was limited to four general subjects, namely, population, agriculture, vital statistics, and manufactures. The act provided that the reports of these subjects shall be designated as and constitute the "Census Reports," and required that such reports shall be published not later than the 1st of July, 1902.

After the work on the four general subjects above referred to should be completed the Director of the Census was authorized to collect statistics relating to special classes, including the insane, feeble-minded, deaf, dumb, and blind; to crime, pauperism, and benevolence, including prisoners, paupers, juvenile delinquents, and inmates of benevolent and reformatory institutions; to deaths and births in registration areas; to social statistics of cities; to public indebtedness, valuation, taxation, and expenditures; to religious bodies; to electric light and power, telephone, and telegraph business; to transportation by water, express business, and street railways; to mines, mining, and minerals. The reports on these subjects shall be designated as "Special Reports of the Census Office."

The following general officers superintended the taking of the census: William R. Merriam, of St. Paul, Minn., Director; Dr. F. H. Wines, of Illinois, Assistant Director; W. C. Hunt, of the District of Columbia, Chief Statistician in charge of the Population Division; L. G. Powell, of Minnesota, Chief Statistician in charge of the Agricultural Division; S. N. D. North, of Massachusetts, Chief Statistician in charge of Manufactures; W. A. King, of the District of Columbia, Chief Statistician in charge of Vital Statistics; Prof. W. A. Wilcox, of Cornell University, Chief Statistician in charge of Methods and Results; Edward McCauley, District of Columbia, Disbursing Clerk; A. F. Childs, District of Columbia, Chief Clerk, and Henry Gannett, District of Columbia, Geographer.

Congress by act approved March 3, 1902, made the Census Office a permanent establishment. The act provided that the work pertaining to the Twelfth Census should be carried on under the existing organization until July 1, 1902, when the permanent census office herein provided for should be organized by the Director of the Census. The permanent office shall be in charge of the Director of the Census, appointed by the President, with the consent of the Senate. His annual salary shall be \$6,000. The office force shall consist of four chief statisticians and a corps of clerks, and special agents may be employed. All the provisions of the former act of 1899 not inconsistent with this act shall remain in full force for the taking of the Thirteenth and subsequent censuses. The statistics of special classes, and of crime, pauperism, and benevolence, shall be restricted to institutions containing such classes, and the Director of the Census is authorized and directed to collect statistics relating to all of the deaf, dumb, and blind, notwithstanding the restrictions and limitations contained in the act of 1899; provided that in taking the census of said classes the inquiries shall be confined to the following four questions, namely: Name, age, sex, and post-office address. Provisions are made for the annual collection of statistics of births and deaths in the registration areas, the collection of statistics of manufactures in 1905 and decennially thereafter, and the annual collection of statistics of the cotton production of the country as returned by the ginners. Bulletins giving the results of the latter collection shall be issued weekly from September 1 of each year until February 1 following. The census printing office is abolished and the work turned over to the Public Printer.

## The American Indian.

THE annual reports of the agents of the United States Bureau of Indian Affairs in 1900 showed that the Indian population was 270,544, distributed in the several States as follows:

THE WORLD ALMANAC is indebted to Commissioner Wright, of the U. S. Department of Labor, for the summary of eight hours, anti-boycotting, and anti-blacklisting laws, revised to date.

### EIGHT-HOUR LAWS.

**Arkansas.**—Eight hours of labor constitute a day's work on public roads, highways, and bridges.

**California.**—Eight hours of labor constitute a day's work, unless it is otherwise expressly stipulated by the parties to a contract. The time of service of all laborers, workmen, and mechanics employed upon any public works of, or work done for, the State, or for any political sub-division thereof, whether the work is to be done by contract or otherwise, is limited and restricted to eight hours in any one calendar day, and a stipulation that no workman, laborer, or mechanic in the employ of the contractor or sub-contractor shall be required or permitted to work more than eight hours in any one calendar day, except in cases of extraordinary emergency, shall be contained in every contract to which the State or any political sub-division thereof is a party. In the case of drivers, conductors, and gripmen of street-cars for the carriage of passengers, a day's work consists of twelve hours. Employment of minors under the age of eighteen in any place of labor for more than nine hours in any one day prohibited, except when necessary to make repairs to prevent the interruption of the ordinary running of the machinery, or when a different apportionment of the hours of labor is made for the sole purpose of making a shorter day's work for one day of the week; and in no case must the hours of labor for such minors exceed fifty-four hours in a week. This does not apply to those engaged in vinicultural or horticultural pursuits, or in domestic or household occupations.

**Colorado.**—Eight hours constitute a day's work for all workmen employed by the State, or any county, township, school district, municipality, or incorporated town.

**Connecticut.**—Eight hours of labor constitute a lawful day's work unless otherwise agreed.

**District of Columbia.**—Eight hours constitute a day's work for all laborers or mechanics employed by or on behalf of the District of Columbia.

**Idaho.**—Eight hours' actual work constitute a lawful day's work on all State, county, and municipal works.

**Illinois.**—Eight hours are a legal day's work in all mechanical employments, except on farms, and when otherwise agreed; does not apply to service by the day, week, or month, or prevent contracts for longer hours.

**Indiana.**—Eight hours of labor constitute a legal day's work for all classes of mechanics, workmen, and laborers, excepting those engaged in agricultural and domestic labor. Overwork by agreement and for extra compensation is permitted. The employment of persons under fourteen years of age for more than eight hours per day is absolutely prohibited.

**Kansas.**—Eight hours constitute a day's work for all laborers, mechanics, or other persons employed by or on behalf of the State or any county, city, township, or other municipality.

**Maryland.**—No mechanic or laborer employed by or on behalf of the city of Baltimore shall be required to work more than eight hours as a day's labor.

**Massachusetts.**—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics employed by or on behalf of any city or town in the Commonwealth upon acceptance of the statute by a majority of voters present and voting upon the same at any general election. Employment of minors under eighteen years of age and women in mercantile establishments for more than fifty-eight hours in any one week is prohibited. This does not apply during the month of December in each year to persons employed in shops for the sale of goods at retail.

**Minnesota.**—Eight hours constitute a day's labor for all laborers, workmen, and mechanics employed by or on behalf of the State, whether the work is done by contract or otherwise.

**Missouri.**—Eight hours constitute a legal day's work. The law does not prevent an agreement to work for a longer or a shorter time and does not apply to laborers and farm hands in the service of farmers or others engaged in agriculture.

**Montana.**—Eight hours constitute a legal day's work for persons engaged to operate or handle any first-motion or direct-acting hoisting engine, or any geared or indirect-acting hoisting engine at any mine employing fifteen or more men underground when the duties of fireman are performed by the person so engaged; also for any stationary engineer operating a stationary engine developing fifty or more horse-power when such engineer has charge or control of a boiler or boilers in addition to his other duties. The law applies only to such steam plants as are in continuous operation or are operated twenty or more hours in each twenty-four hours, and does not apply to persons running any engine more than eight hours in each twenty-four for the purpose of relieving another employé in case of sickness or other unforeseen cause. Eight hours constitute a day's labor upon roads and highways.

**Nebraska.**—Eight hours constitute a legal day's work for all classes of mechanics, servants, and laborers, except those engaged in farm or domestic labor.

**New Jersey.**—Eight hours constitute a day's labor on any day whereon any general or municipal election shall be held.

**New Mexico.**—Eight hours are required as a day's labor on public roads and highways.

**New York.**—Eight hours constitute a day's work for all classes of employés, except in farm or domestic labor. Overwork for extra pay is permitted, except upon work by or for the State or a municipal corporation, or by contractors or sub-contractors therewith. The law applies to those employed by the State or municipality, or by persons contracting for State work, and each contract to which the

## LABOR LEGISLATION—Continued.

State or a municipal corporation is a party shall contain a stipulation that no workman, laborer, or mechanic in the employ of the contractor, sub-contractor, etc., shall be permitted or required to work more than eight hours in any one calendar day, except in cases of extraordinary emergency.

**Ohio.**—Eight hours shall constitute a day's work in all engagements to labor in any mechanical, manufacturing, or mining business, unless otherwise expressly stipulated in the contract. But in case of conductors, engineers, firemen, or trainmen of railroads, a day's work consists of ten hours. The service of all laborers, workmen, and mechanics employed upon any public work of, or work done for the State, or for any political subdivision thereof, is limited and restricted to eight hours in any one calendar day.

**Pennsylvania.**—Eight hours of labor shall be deemed and held to be a legal day's work in all cases of labor and service by the day where there is no agreement or contract to the contrary. This does not apply to farm or agricultural labor by the year, month, or week, to labor in factories, laundries, and renovating establishments, or to labor on street railroads.

Eight hours out of the twenty-four shall make and constitute a day's labor in penitentiaries and reformatory institutions receiving support from the State, also for all mechanics, workmen, and laborers in the employ of the State, or of any municipal corporation therein, or otherwise engaged on public works; this shall be deemed to apply to mechanics, workmen, or laborers in the employ of persons contracting with the State or any municipal corporation therein, for the performance of public work.

**Tennessee.**—Eight hours shall be a day's work upon the highways, whether performed by convicts or free road hands.

**Utah.**—Eight hours constitute a day's work upon all public works and in all underground mines or workings, smelters, and all other institutions for the reduction or refining of ores.

**Washington.**—Eight hours in any calendar day shall constitute a day's work on any work done for the State, county, or municipality. In cases of extraordinary emergency overtime may be worked for extra pay.

**West Virginia.**—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics who may be employed by or on behalf of the State.

**Wisconsin.**—In all engagements to labor in any manufacturing or mechanical business, where there is no express contract to the contrary, a day's work shall consist of eight hours; but the law does not apply to contracts for labor by the week, month, or year. In all manufactories, workshops, or other places used for mechanical or manufacturing purposes, the time of labor of women employed therein shall not exceed eight hours in the day. No person under the age of sixteen years shall be employed, required, permitted, or suffered to work for wages at any gainful occupation longer than ten hours in any one day.

**Wyoming.**—Eight hours' actual work constitute a legal day's work in all mines and public works.

**United States.**—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics who may be employed by or on behalf of the United States.

The Anthracite Coal Strike of 1902.

On May 12, 1902, the miners in the anthracite coal region of Pennsylvania, members of the United Mine Workers of America, went on a strike to secure from the mine operators an advance in wages, a reduction in the hours of labor, and recognition of their union. The strike lasted five months, involving 147,000 workmen, practically closing the mines and creating a coal famine throughout the country. After various attempts to settle the trouble had failed, President Roosevelt interposed and appealed to both parties to submit their differences to arbitration.

October 13 the mine operators submitted the following proposition to the President:

"We suggest a commission be appointed by the President of the United States (if he is willing to perform that public service), to whom shall be referred all questions at issue between the respective companies and their own employes, whether they belong to a union or not, and the decision of that commission shall be accepted by us.

"The Commission to be constituted as follows:

1. An officer in the Engineer Corps of either the military or naval service of the United States.
2. An expert mining engineer, experienced in the mining of coal and other minerals, and not in any way connected with coal-mining properties, either anthracite or bituminous.
3. One of the judges of the United States courts of the Eastern District of Pennsylvania.
4. A man of prominence, eminent as a sociologist.
5. A man who, by active participation in mining and selling coal, is familiar with the physical and commercial features of the business.

"It being the understanding that immediately upon the constitution of such commission, in order that idleness and non-production may cease instantly, the miners will return to work and cease all interference with and persecution of any non-union men who are working or shall hereafter work. The findings of this Commission shall fix the date when the same shall be effective and shall govern the conditions of employment between the respective companies and their own employes for a term of at least three years."

While objecting to the form of this proposition, John Mitchell, President of the Mine Workers, finally gave it his adhesion, and his action was ratified by the Union October 21. The miners returned to work October 24. The Commission appointed by the President was as follows: 1, Brigadier-General John M. Wilson, U. S. A.; 2, Edward W. Parker, mining engineer; 3, Judge George Gray, of the U. S. Circuit Court; 4, Edgar E. Clark, sociologist; 5, Thomas H. Watkins, of Scranton, Pa. To these the President added Bishop John L. Spalding, of Peoria, Ill., and Carroll D. Wright, Commissioner of Labor. The Commission met at Washington October 24, elected Judge Gray chairman, and began its sessions and was taking evidence when this edition went to press.

\* Trust, as popularly understood, means a consolidation, combine, pool, or agreement of two or more naturally competing concerns, which establishes a limited monopoly with power to fix prices or rates in any industry or group of industries.

† These 213 industrial combinations, or trusts, with a total capital of \$3,958,697,518, are selected (with 3 or 4 exceptions) from over 4,000 of the corporations described in "Moody's Manual of Corporation Securities." Mr. Moody says there are about 850 trusts or industrial combinations, with a total of \$9,000,000,000, and that the railroad consolidations would exceed this to \$15,000,000,000 of outstanding capital.

‡ The amount of stock issued is taken when known; when not known the amount authorized is given.

§ The rates of dividend given on preferred stocks are usually the rates to which these stocks are entitled. The rates actually paid are often less, especially when no dividend is paid on the common stock.

¶ Besides the securities of the 10 companies' own outright (all of which are deposited with the United States Trust Company, New York, and are a first lien to secure the \$303,450,000 of collateral trust bonds, though voted by the corporation), the United States Steel Corporation has harmonious relations with numerous other companies, the full details of which are given in the Democratic campaign book, as prepared by Mr. John Moody, who makes the following summary:

|                                                                                                  | Capital Authorized. | Capital Outstanding. |

| Securities of 32 of larger competitors of United States Steel Corporation.....                   | 452,164,600         | 385,740,100          |

At present many of the large companies in the above list of 32 competitive companies are working in harmony with the Steel Corporation as to prices, etc. Thus, according to capitalization (outstanding), about 77 per cent of the iron and steel industry of the United States is owned or controlled by the great Steel Corporation.

The net earnings of the Steel Corporation for ten months, ending October 31, 1902, were \$113,533,004.

Besides the incorporated industrial trusts there are innumerable price and rate-fixing agreements, profit-sharing pools, selling or buying agencies, product-resisting agreements, etc. They exist in nearly every industry and in nearly every State and city. They are often very effective for longer or shorter periods. Thus, much of the profits of the steel-rail makers during the last five years is due to the Steel-Rail Manufacturers' Association. Pools or agreements control the prices of steel beams, steel billets, armor plate, and, in fact, with intermittent relapses, the prices of most important steel and hardware products. The price for iron ores in the Great Lakes districts is fixed yearly by the Bessemer and open-hearth associations. The Anthracite Coal Trust was never more than an agreement by the principal carrying railroads as to production, freight rates, and prices.

Wholesale and retail grocers and druggists are more or less effective in controlling prices in most States and cities. Lumber dealers and chemical manufacturers have many price and selling agreements or pools.

Natural monopolies, such as railroads, street railways, gas, electric light, and water companies, are not classed as trusts because they are not composed of naturally competing concerns. Consolidations and price and rate-fixing agreements in these industries exist in nearly every city in the country.

Many of the combinations in these lines are very important. Our greatest railroads have rate-fixing agreements or "community of interest" understandings for controlling rates and the distribution of freights. Besides, they are rapidly coming together, through absorption into larger companies, so that competition no longer exists in most sections of the country. The New Northern Securities Company is expected to unite railroads whose stocks and bonds are worth more than \$1,000,000,000.

Seven great "groups" of railroads have a total mileage of 141,583 out of a total mileage of 197,000. They are the Pennsylvania, 17,697; Vanderbilt, 19,804; Morgan, 56,607; Gould-Rockefeller, 19,133; Harriman-Kuhn, Loeb, 22,521; Moore, 2,000; Pierce, 4,301.

The Metropolitan Street Railway Company of New York City now owns or controls the entire surface roads of the boroughs of Manhattan and the Bronx. Its capital is \$52,000,000. Its bonded indebtedness about \$1,000,000. Besides, it has guaranteed dividends on about \$70,000,000 of stock of the subsidiary companies. Its underground rapid transit system of New York, even before it is completed, is less than the Interborough Rapid Transit Co., which has also absorbed the Manhattan ( Elevated) Railway Co. The capital of the new company is \$35,000,000, of its independent companies about \$20,000,000. The Consolidated Gas Company of New York owns or controls all of the lighting and heating plants in Manhattan and the Bronx. Its outstanding capital is \$11,530,500. Its bonded debt is \$2,204,264. The bonds of its constituent companies amount to \$9,688,957. The street railway and gas companies of New York City are duplicated, on a smaller scale, in most important cities.

## The Monroe Doctrine.

"THE Monroe doctrine" was enunciated in the following words in President Monroe's message to Congress December 2, 1823:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been deemed proper for asserting, as a principle in which rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European power. We owe it, therefore, to candor and to the amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence and maintain it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power in any other light than as the manifestation of an unfriendly disposition toward the United States."

## State Legislation in 1902.

THE following summary of the more important legislation effected by State Legislatures in 1902 is compiled by permission from the address of U. M. Rose, Esq., of Little Rock, Ark., President of the American Bar Association, to the association at the annual meeting at Saratoga Springs, N. Y., held in August, 1902:

**Corporations.**—In South Carolina corporations may be dissolved by a resolution adopted by a majority of the stockholders. In the same State a statute was passed providing "That any corporation of this State, organized for the purpose of doing a general banking, shipbuilding, and trust company business, or trust company business alone, may, by a resolution adopted at the meeting of its subscribers for organization, or its by-laws adopted after such organization, provide for the election of two classes of directors, to wit: active and advisory, and may prescribe distinct duties to be devolved upon each of said classes; and may elect such number of directors for each of said classes as may be deemed advisable; and that it may, from time to time, alter its by-laws with reference thereto."

In New York any stock corporation, except moneyed corporations, may buy and sell stocks, bonds, or other evidence of indebtedness of any other corporation, giving its own stock, etc., in exchange, if authorized in its certificate of incorporation, or by any amendatory certificate, or if the stock so bought or sold is that of a corporation engaged in a similar business with that of the buyer. Any corporation may, upon unanimous vote of its stockholders, guarantee the bonds of any other domestic corporation engaged in the same general line of business; and any corporation owning the entire stock of any other domestic corporation may, on a two-thirds vote of its stockholders, guarantee the bonds of such other corporation. Another statute of New York provided that when a corporation owns all of the stock of another corporation engaged in similar business it may merge the latter, and may thus acquire all of its property, rights, privileges, and franchises.

In Kentucky an amendment to a former act released the double liability of stockholders, except stockholders of banks, trust companies, guarantee companies, investment companies, and insurance companies.

**Municipal Corporations.**—South Carolina passed an act providing for an extension of municipal charters by a majority vote of the freeholders. The object is to extend the term of expiring charters without the necessity of special legislation. This is followed by an act providing for the incorporation of towns with populations running from 1,000 to 5,000 by a majority vote of resident freeholders, and by an act making municipal charters perpetual.

Iowa appoints a non-partisan board of police and fire commissioners for cities of the first class. Policemen are to be selected under civil service rules.

**Criminal Law.**—South Carolina passed an act providing that no one shall carry a pistol, whether concealed or not, less than twenty inches long and three pounds in weight; and all persons are forbidden to manufacture, sell, or offer to sell any pistol of less length or weight, under heavy penalties. It would be difficult to conceal a pistol of the size and weight mentioned; and its discomfort will probably have a wholesome and deterring effect.

In the same State any common carrier converting to its own use property consigned to it for transportation was made liable in punitive damages not exceeding three times its value.

Maryland punished druggists and chemists who incorrectly compound prescriptions. Intent is not mentioned as an ingredient of the offense.

Massachusetts greatly relaxed the sabbatarian laws that formerly existed in that State. An act provided as follows: "Section 3. The provisions of the preceding section shall not be held to prohibit the manufacture and distribution of steam, gas, or electricity for illuminating purposes, heat, or motive power, nor the distribution of water for fire or domestic purposes, nor the use of the telegraph or the telephone, nor the retail sale of drugs and medicines, nor articles ordered by the prescription of a physician or mechanical appliances used by physicians or surgeons, nor the retail sale of tobacco in any of its forms by licensed holders, common victuallers, druggists, and newdealers whose stores are open for the sale of newspapers every day in the week, nor the retail sale of ice cream, soda water, and confectionery by licensed innholders and druggists, and by such licensed common victuallers as are not also licensed to sell intoxicating liquors, and who are authorized to keep open their places of business on the Lord's day; nor the letting of horses and carriages or of yachts and boats, nor the running of steam ferryboats on established routes, nor the running of street railway cars, nor the preparation, printing, and publication of newspapers, nor the sale and delivery of newspapers, nor the wholesale or retail sale and delivery of milk, nor the transportation of milk, nor the making of butter and cheese, nor the keeping open of public bath-houses, nor the making or selling by bakers or their employes, before 10 o'clock in the morning and between the hours of 4 o'clock and 6.30 o'clock in the evening, of bread or other food usually dealt in by them, nor the carrying on of the business of boot-blacks before 11 o'clock in the forenoon."

In Iowa it was provided that whoever shall advise, counsel, encourage, advocate, or incite to the unlawful killing of any human being, where no such killing takes place, shall be imprisoned in the penitentiary for not less than twenty years.

Ohio passed an act declaring that if any person shall attempt to take the life of the President of the United States, or of any Cabinet officer in the line of succession to the Presidency, or of the Governor of that State, or of any State, Territory, or possession of the United States, he shall be punished, if the attempt results in the death of the intended victim, with death; otherwise with imprisonment for life.

New York passed an act defining and punishing criminal anarchy. "Criminal anarchy is the doctrine that organized government should be overthrown by force or violence, or by assassination of the executive head, or of any of the executive officials of government, by any unlawful means. The advocacy of such doctrine either by word of mouth or writing is a felony. 1. Any person that advises or teaches the duty, necessity, or propriety of overturning organized government by force or violence, or by assassination of any issues, or knowingly circulates, sells, distributes, or publicly displays any written or printed matter advocating, advising, or teaching the doctrine that organized government should be overthrown by force, violence, or any unlawful means; or 2. Prints, publishes, edits, issues, or knowingly circulates, sells, distributes, or publicly displays any written or printed matter advocating, advising, or teaching the doctrine that organized government should be overthrown by force, violence, or any unlawful means; or 3. Openly, wilfully, and deliberately justifies orally, or in writing, the assassination or unlawful killing or assaulting of any officer of the United States, or of any State, or of any civilized nation having an organized government, because of his official character, or any other crime, with intent to teach, spread, or advocate the propriety of the doctrines of criminal anarchy; or 4. Organizes, or helps to organize, or becomes a member of, or voluntarily assembles with any society, group, or assembly of persons formed to teach or advocate

such doctrine, is guilty of a felony, and punished by imprisonment for not more than ten years, or by a fine of not more than \$5,000, or both. Every editor or proprietor of a book, newspaper, or serial, and every manager of a partnership or corporation by which it is issued, is chargeable with the matter thus published; but the defendant may show that the matter complained of was published without his knowledge or fault, and against his wishes, by another, without his authority, and that his act was disavowed by him as soon as known. Where two or more persons assemble for the purpose of advocating or teaching the doctrine of criminal anarchy, or participates therein by his presence, aid, or instigation, he shall be guilty of a felony and shall be punished as above. All owners, agents, or occupants of any place, building, or room who knowingly and wilfully permit therein any assemblage thus forbidden shall be guilty of a misdemeanor, and shall be punished by imprisonment for not more than two years, and by a fine of not more than \$2,000."

New Jersey has passed a somewhat similar act.

In New York it was enacted that if any officer of a bank or any banker shall receive a deposit, knowing the bank to be insolvent, he is guilty of a misdemeanor; and if the amount deposited exceeds \$25 he is guilty of a felony, and is punishable by fine and imprisonment.

New York made it a misdemeanor for any one to advertise in newspapers, by letters or otherwise, that he will aid in procuring divorces or decrees of annulment of marriage.

In South Carolina it was provided that kidnapping of children shall be punished by imprisonment for life. In Iowa it is punishable by confinement in the penitentiary for not less than ten years.

In South Carolina train robbing and conspiring to rob trains were made felonies.

In Mississippi it was provided that statutory changes affecting crimes and their punishment shall not apply to offences previously committed; but if punishment of milder type is provided by later statute it may be substituted for punishment previously prescribed.

Massachusetts passed the following act: "Section 1. It shall be unlawful for any person to advertise in a newspaper circulated in this Commonwealth, or by any other means, to perform or to procure the performance of the marriage ceremony." This act was probably not intended to prevent gentle solicitations and courtship as practised among all nations; though the language might bear that construction.

**Insurance.**—In New York it was enacted that where a policy was given on the life of a minor who is not under fifteen years of age, for the benefit of his father, mother, husband, wife, brother, or sister, the insured shall not, by reason of infancy alone, be deemed incompetent to contract for the insurance, for its surrender, or the discharge of any money or benefit accruing from it.

In New Jersey it was enacted that when a life policy has lapsed for non-payment of premiums, the insured may within three months apply for a new policy on the conditions contained in the forfeited policy, or a new paid-up policy for the amount of premiums actually paid, to be computed as provided in the act. After payment of premiums for two years life policies shall be incontestable, except that they may be readjusted for misstatement of age.

In Iowa it was provided that where promissory notes are given for payment of premiums on any policy issued to insure against losses by fire, lightning, hail, or storm, they shall be considered as full payment, and shall continue the policy in force, whether the notes are paid at maturity or not, for the period named. The act does not apply to premiums and assessments of purely mutual insurance companies fixed by by-laws or contract and overdue for sixty days.

Proof of loss of personal property may be made within sixty days of the date of loss by affidavit, stating how it occurred, as far as may be within the knowledge of the insured, and its extent, any agreement to the contrary notwithstanding.

**Bills of Lading.**—In Maryland it was enacted that all carriers must issue on demand bills of lading to the consignor "or order," and such instruments shall be negotiable in the same sense as bills of exchange and promissory notes.

**Public Libraries.**—New York authorized local taxation for the support and maintenance of public libraries. Various other States have passed similar acts.

**Lis Pendens.**—In New Jersey it was enacted that no *lis pendens* is established until notice of the pendency of the suit is filed in the office of the Register of Deeds; and a suitor may discharge the *lis pendens* by giving such security as the court may direct.

**Railways.**—In New York it was enacted that baggage checked must be delivered to the owner at point of destination, or at any intermediate point, on thirty minutes' notice to the baggage master; and uncrated bicycles shall be checked as baggage.

In Iowa it was provided that railway companies shall file with each County Auditor plats showing all lands in the county occupied by them. They are to file annually for purposes of taxation reports showing gross earnings separately on State and interstate traffic. Taxes on the latter are to be computed upon the length of carriage within the State as compared with the length of carriage elsewhere. Provision was made for taxation of equipment companies having cars running on lines of railway lying within the State according to the same ratio; and they are required to file annual reports. Any domestic railway company may lease, buy, or control any connecting extension of its roads (not parallel or competing with its own lines) lying elsewhere in the United States; and to that end may buy the stock and securities of such other railways.

**Game Laws.**—Ohio enacted that no person shall catch, kill, or injure, or pursue with such intent, any skunk, except between the first day of November and the first day of February next ensuing. The act does not apply to persons who have farms for raising these animals, and who kill them within their own inclosures.

**Public Health.**—Massachusetts enforced compulsory vaccination.

In South Carolina it was provided that peddlers of medicine must take out a license; and the formula of any medicine sold by them must be printed or written on it, and must have been approved by some physician.

New Jersey appropriated \$10,000 to the Agricultural Experiment Station to investigate and report upon the mosquitoes occurring within the State, their habits, life history, breeding places, relation to malarial and other diseases, the injury caused by them to the agricultural, sanitary, and other interests of the State, their natural enemies and the best methods of lessening, controlling, or otherwise diminishing their numbers, injury, or detrimental effect upon such agricultural, sanitary, and other interests.

Maryland created a tuberculosis commission, to which appropriate powers are granted. Many statutes have been passed for sanitation, for the protection of public health, and for the regulation of the sale of poisons. Several States have taken measures for establishing hospitals for consumptives.

Though forbidden as an article of consumption by the Mosaic Law, the Legislature of Minnesota deems that the use of lard should be encouraged and protected. An act provided that no person within the State shall manufacture for sale, or have within his possession with intent to sell, or offer to ex-

pose for sale, or sell as lard, any substance not the legitimate and exclusive product of the fat of the hog. All lard is adulterated if any substitute is mixed with it so as to lessen or depreciate its quality, strength, or purity, or if any valuable ingredient has been wholly or in part abstracted from it. Packages for any substitute for lard or hog's fat must have branded or printed on them in letters not less than an inch long the words "Lard Substitute," with the names and proportions of the constituents of the compound. If the article is intended as an imitation of lard, or substitute for it, it must in like manner be branded or labelled "Adulterated Lard," with the additional formula; and any one selling any such substitute or imitation must, at the time of sale, give to the purchaser a printed card conveying the same information. The act further provides that any one who manufactures for sale, or offers or exposes for sale, or sells, or serves to guests as keeper of a hotel, restaurant, dining-room, or in any other capacity any of such substitutes, adulterations, or imitations as thus defined, shall, at the time of sale, furnish to the purchaser a card upon which is distinctly and legibly printed the words "This food is prepared with lard substitute (or adulterated lard);" or, in case no bill of fare is provided, there shall be kept constantly posted upon each of the sides of the dining-room, in a conspicuous position, cards upon the face of which is distinctly and legibly printed in the English language, and in letters of sufficient size to be visible from all parts of the room, the words "Lard substitute (or adulterated lard) is used in the preparation of the food served here." Possession of the forbidden articles is deemed *prima facie* evidence of intent to sell. The Dairy and Food Commissioner and his assistants, experts, chemists, and agents are to see to the enforcement of the act; and they are to have access to all places where the forbidden articles are manufactured or sold; and may break open any package or vessel containing such articles, inspect them and take samples. All clerks, bookkeepers, express agents, railroad officials, employés, and common carriers shall, when called on, render all assistance in their power in tracing, finding, or discovering the prohibited articles, under penalty of not less than twenty-five nor more than fifty dollars. Dealers and others violating the act are to be punished by a fine of not less than twenty-five and not more than seventy-five dollars for each offence, or by imprisonment for not less than thirty nor more than sixty days.

New York provided for admission of free patients into the hospital in the Adirondacks for treatment of tuberculosis where such patients are unable to pay for same.

**Infancy.**—In Massachusetts it was enacted that a married woman under twenty-one years may convey lands as if she was of full age.

**Laborers.**—Massachusetts directed the Labor Commission to endeavor to promote uniformity of legislation, making eight hours a legal day's labor throughout the United States.

In New York it was provided in the construction of public works by the State or municipality only citizens of the United States shall be employed.

**Reformation of Inebriates and Others.**—In Iowa it was enacted that dipsomaniacs, inebriates, and persons addicted to the use of morphine and other narcotics may be temporarily committed to hospitals for the insane for not less than one year nor more than three years for the first commitment, and not less than two nor more than five years for a second commitment; but the Governor, on a proper showing and on a pledge of abstinence on the part of the patient, may grant paroles, to be forfeited in case conditions are broken. No one is permitted to sell cocaine except on the written prescription of a regular physician.

**Automobiles.**—Massachusetts regulated the speed of these machines, and prescribed their management, so as to prevent the frightening of horses and other accidents.

**Elevators.**—In Massachusetts it was provided that elevators running more than one hundred feet a minute must be in charge of persons not less than eighteen years of age, and no other elevator shall be run by a person less than sixteen years old.

**Neglected Children.**—Virginia passed a law for the care and custody of neglected children.

Iowa passed an excellent law on this subject.

**Evidence.**—Virginia passed a law permitting husbands and wives to testify for and against each other except as to communications, made by the one to the other. Neither shall testify as to charges of fraud in gifts or sales made by the other. In criminal cases neither shall be compelled to testify for or against the other without his or her consent.

**Taxation.**—In Massachusetts it was provided that the succession tax shall be assessed on the value of the succession at the time that the right of possession accrues; and the value of existing life estates and estates for years shall be deducted.

Minnesota provided for a tax on inheritance, devises, legacies, and gifts of more than \$10,000 in value.

In Maryland it was enacted that all mortgagees must swear that the mortgagee has not required the mortgagor to pay any tax on the interest covenanted to be paid, and that he will not require him to pay it.

**Divorce.**—In New York it was enacted that no judgment for divorce or annulling a marriage shall be entered until after three months from the date of filing the decision of the court or the report of the referee.

New Jersey passed a general divorce law. In regard to residence the act is so stringent as to greatly limit the facility of obtaining divorces sometimes allowed in other States.

**Jurors.**—In New York the Legislature devised a method of compelling citizens to do the State some service as voters. Two boxes for the names of jurors are to be provided, one for those of "non-voters" and the other for those of "voters;" and, until exhausted, all names are to be drawn from the box containing the names of the "non-voters."

**Fraudulent Sales.**—In New York it was provided that all sales of merchandise out of the ordinary course of trade, or of an entire stock of merchandise in bulk, shall be fraudulent and void as against creditors, unless the buyer shall, at least five days before the sale, make explicit inquiry of the seller as to the residence or place of business of every creditor of the seller, and the amount of each debt, terms of the proposed sale, and of the stated cost price of such merchandise, and of the agreed price; all of which must be notified to the creditors personally or by registered letter, so far as can be done by the exercise of reasonable diligence.

Ohio passed a similar act.

**Married Women.**—In New York it was provided that a married woman may sue, in her own and separate right, for all wages, salary, profits, or compensation for which she may render services or which she may derive from any business or occupation; and her husband shall have no right of action therefor.

In New Jersey it was enacted that any woman having a dower interest in lands, or an interest for life or years devised in lieu of dower, and marrying again, may execute a release of such interest without the joinder of her husband in such release. Any married woman in New Jersey may insure

her husband's life for her sole use, and, in case she survives her husband, the insurance shall be paid to her, or for her use, free from the claims of the representatives of her husband or of his creditors. She may assign the policy during his life with his consent.

**Mortgages.**—In New Jersey a law was passed providing that no mortgage of household goods and furniture shall be valid unless executed both by husband and wife, and duly recorded; but when the mortgage is given to secure purchase money the joinder of the wife is unnecessary.

**Elections.**—In New Jersey the use of voting machines was permitted; and so in other States.

**Conveyances.**—In New Jersey it was provided that all deeds containing no exceptions shall pass all the interest of the grantor; and the word "heir" shall not be necessary to convey a fee-simple title.

**Personal Injuries to Employes.**—Ohio passed this act: "An employer shall be responsible in damages for personal injury caused to an employe, who is himself in the exercise of due care and diligence at the time, by reason of any defect in the condition of the machinery or appliances connected with or used in the business of the employer, which arose from or had not been discovered or remedied owing to the negligence of the employer or of any person in the service of the employer, intrusted by him with the duty of inspection, repair, or of seeing that the machinery or appliances were in proper condition."

Virginia passed an act still more stringent—one that goes far to make railways guarantors against all injuries suffered by employes.

In New York the employer was made liable for personal injuries or death sustained by his employe by reason of any defect in ways, works, or machinery used in the business of the employer which arose from or had not been discovered or remedied owing to his negligence or that of any person in his service intrusted by him with the duty of seeing that such ways, works, or machinery were in good condition; or by reason of the negligence of any person in the service of the employer intrusted with the superintendence, whose sole or principal duty is that of superintendence, or, in the absence of such superintendent, the negligence of any person acting as superintendent with the authority or consent of such employer. Notice of the time, place, and cause of the injury must be given within one hundred and twenty days, and suit must be brought within one year from the date of the injury or death of the employe. An employe entering or continuing in the service of the employer is presumed to have assented to the necessary risks of the employment, and to no others; but only to those inherent in the nature of the business remaining after the employer has exercised due care in providing for the safety of his employes, and has complied with the laws in respect thereof.

**Police Regulations.**—Many statutes were passed for the safety, health, and comfort of miners and laborers in factories, and for fire escapes in high buildings of every kind; all animated by the same benevolent spirit, but varying greatly in terms. So provision was made for examination and license of dentists, osteopaths, veterinary surgeons, barbers, and persons of other callings.

**Cemeteries.**—Iowa provided for a trustee for each cemetery. His duties are prescribed, and he may receive all donations for cemetery purposes. All property committed to him is free from taxation.

**Woman's Rights.**—Maryland validated all acts done by women as notaries public, and authorized the appointment of women as such notaries. That State also passed a law for the admission of women to the bar.

By an act of Kentucky the right of women to vote in cities and towns of the first and second class for members of boards of education was taken away, though they may be elected as members of such boards.

**Wages.**—In Georgia it was provided that if an employe of a corporation dies, wages due him not exceeding \$100 may be paid to his widow or minor children without administration on his estate.

**Education.**—Maryland and Iowa passed laws for compulsory education.

**Registration.**—Iowa required that copies of wills devising lands shall be registered in all counties wherein the lands lie.

**Trusts.**—South Carolina passed two acts on this subject. The first act forbids all persons, natural and artificial, to form pools, trusts, or combinations for the purpose of regulating or fixing the price of any article of trade or merchandise, or to limit the quantity of any article of manufacture or commodity, or of any repair, or the premium of any insurance. An exhaustive definition of monopoly is given; and the practices of underselling with a view to stifle competition and boycotting are denounced. Heavy fines are prescribed for any violation of the act; and, in addition, any domestic corporation infringing its provisions shall forfeit its charter, and any foreign corporation so offending shall forfeit its right to do business within the State.

The second act relates to procedure. The Attorney-General may make an application to a Judge of the Supreme or Circuit Court for the examination of any suspected person, which shall be had before the Judge himself or before a referee; the Judge having power to issue preliminary injunctions to prevent violations pending the investigation. The person charged may be compelled to produce all books and other documents relating to the subject of the examination. No witness shall be excused from testifying on the ground that his testimony may tend to incriminate him; but no witness shall be punished on account of any transaction concerning which he may testify.

**Codification.**—Maryland provided for the appointment of three members of the bar to revise the laws relating to corporations, to provide a general system for their formation, defining their duties, powers, and obligations, with details regulating the general method of conducting their operations, remedies for abuse, measure and increase of their powers, methods of dissolving them; for the service of legal process on them and embodying all provisions proper for a complete system of incorporation law. As the act includes corporations of "all lawful descriptions," it seems to embrace municipal corporations.

Massachusetts directed the Governor to appoint a committee of three persons to examine and consider the State laws in relation to the formation, taxation, and conduct of all corporations, foreign and domestic, except municipal, banking, and public service corporations, and to determine what legislation, if any, is necessary to make the relations existing between the Commonwealth and corporations more advantageous to it and to the public interest.

New Jersey adopted a code of proceedings for the Chancery Court. It contains one novel provision, as follows: "The Court of Chancery may send any matter of law to the Supreme Court for its opinion to be certified thereon." Appeals are allowed from any order of decree.

New York adopted a complete code of procedure for the Municipal Court of the City of New York, composed of 366 sections.

In New Jersey the committee appointed to revise and codify the general laws was directed to report to the Legislature such further bills as may be prepared by them.

## The South African War.

## THE TERMS OF PEACE.

NEGOTIATIONS between the Boer leaders and the British Government for peace began on March 23, 1902, when Acting President Schalkburger, Mr. Reitz, former Secretary of State of the South African Republic, and Commandant Lucas Meyer applied to Lord Kitchener at Pretoria for a safe conduct to the Orange River Colony with the view of discussing terms of peace with the Boer generals in the field. On April 9 Mr. Steyn and Generals Delarey and De Wet entered Klerksdorp with a flag of truce and met Mr. Schalkburger and his party and General Louis Botha, commander-in-chief of the Boer forces, in addition. After a conference, in which it was determined to submit the question of a cessation of hostilities to the burghers in the field, negotiations were formally opened with the British Government through Lord Kitchener. The majority of the fighting Boers was for peace.

On June 2 Mr. A. J. Balfour, First Lord of the Treasury and Government leader, made the following announcement of the terms of peace in the House of Commons:

## TEXT OF THE AGREEMENT.

His Excellency Lord Milner, in behalf of the British Government; His Excellency Mr. Steyn, General Bremner, General C. R. De Wet, and Judge Hertzog, acting in behalf of the Orange Free State, and General Schalkburger, General Reitz, General Louis Botha, and General Delarey, acting in behalf of their respective burghers, desiring to terminate the present hostilities, agree to the following terms:

First—The burgher forces in the field will forthwith lay down their arms and hand over all guns, rifles, and ammunition of war in their possession, or under their control, and desist from further resistance, and acknowledge King Edward VII. as their lawful sovereign. The manner and details of this surrender will be arranged between Lord Kitchener and Commandant General Botha, assisted by General Delarey and Chief Commandant De Wet.

Second—All burghers outside the limits of the Transvaal and Orange River Colony, and all prisoners of war at present outside South Africa, who are burghers, will, on duly declaring their acceptance of the position of subjects of His Majesty, be brought back to their homes so soon as means of transport can be provided and means of subsistence assured.

Third—The burghers so returning will not be deprived of their personal liberty or property. Fourth—No proceeding, civil or criminal, will be taken against burghers surrendering or so returning for any acts in connection with the prosecution of the war. The benefits of this clause do not extend to certain acts contrary to the usages of war, which had been notified by the Commander-in-Chief to the Boer generals, and which shall be tried by court-martial after the close of hostilities.

Fifth—The Dutch language will be taught in the public schools of the Transvaal and Orange River Colony where the parents desire it, and will be allowed in the courts of law for the better and more effectual administration of justice.

Sixth—Possession of rifles will be allowed in the Transvaal and Orange River Colony to persons requiring them for their protection, on taking out a license according to law.

Seventh—The military administration of the Transvaal and Orange River Colony will, at the earliest possible date, be succeeded by a civil government, and, so soon as circumstances permit, representative institutions leading up to self-government will be introduced.

Eighth—The question of granting the franchise to natives will not be decided until after the introduction of self-government.

Ninth—No special tax will be imposed on landed property in the Transvaal or Orange River Colony to defray the expenses of the war.

Tenth—So soon as the conditions permit it, a commission, on which the local inhabitants will be represented, will be appointed in each district of the Transvaal and Orange River Colony, under the presidency of a magistrate or other official, for the purpose of assisting in the restoration of the people to their homes, and supplying those who, owing to war losses, are unable to provide for themselves, with food and shelter and the necessary amount of seed, stock, and implements, etc., indispensable to the resumption of their normal occupations. His Majesty's Government will place at the disposal of these commissions the sum of £3,000,000 (\$15,000,000), and will allow all the notes issued under the law of 1900 of the South African Republic and all receipts given up to officers in the field of the late republics, or under their orders, to be presented to a judicial commission, which will be appointed by the Government, and if such notes and receipts are found by this commission to have been duly issued in return for valuable considerations they will be received by the first named commissions as evidence of war losses suffered by the persons to which they were originally given.

In addition to the above-named free grant of £3,000,000, His Majesty's Government will be prepared to make advances, on loan, for the same purposes, free of interest for two years, and afterward repayable over a period of years, with 3 per cent interest. No foreigner or rebel will be entitled to benefit under this clause.

After he had concluded reading the peace agreement, Mr. Balfour proceeded:

There are certain important points not dealt with in this document. I read a despatch from Lord Kitchener dated May 30, as follows:

"After handing the Boer delegates a copy of the draft of the agreement, I read them a statement, and gave them a copy of it as follows:

"His Majesty's Government must place on record that the treatment of the Cape and Natal colonists, who have been in rebellion and who now surrender, will, if they return to their colonies, be determined by the colonial courts and in accordance with the laws of the colonies, and any British subjects who have joined the enemy will be liable to trial under the law of that part of the British Empire to which they belong.

"His Majesty's Government is informed by the Cape Government that their views regarding the terms to be granted to British subjects in Cape Colony, now in the field or who have surrendered or been captured since April 12, 1901, are as follows: 'With regard to the rank and file, they should all, after surrender and giving up their arms, sign a document, before the resident magistrate of the district in which they surrender, acknowledging themselves guilty of high treason, and the punishment to be accorded them, provided they are not guilty of murder or acts contrary to the usages of civilized warfare, shall be that they are not entitled, for life, to be registered as voters, or vote in any parliamentary or provincial council or municipal election. With reference to justices of the peace, field cornets, and all others who held official positions under the government of Cape Colony, or who have been occupying a position of authority, or who have held commands in the rebel or burgher forces, they shall be tried for high treason before the ordinary courts of the country, or such special courts as may hereafter be constituted, their punishment to be left to the discretion of such court, with the proviso that in no case shall the penalty of death be inflicted.'

"These arrangements," concluded Mr. Balfour, "the Government has approved."

**Insular Possessions of the United States.****THE PHILIPPINES.**

FOR an account of the Philippine Islands see page 152.

**PORTO RICO.**

The island of Porto Rico, over which the flag of the United States was raised in token of formal possession on October 13, 1898, is the most eastern of the Greater Antilles in the West Indies and is separated on the east from the Danish island of St. Thomas by a distance of about fifty miles, and from Hayti on the west by the Mona passage, seventy miles wide. Distances from San Juan, the capital, to important points are as follows: New York, 1,411 miles; Charleston, S. C., 1,200 miles; Key West, Fla., 1,050 miles; Havana, 1,000 miles.

The island is a parallelogram in general outline, 108 miles from the east to the west, and from 37 to 43 miles across, the area being about 3,600 square miles, or somewhat less than half that of the State of New Jersey (Delaware has 2,050 square miles and Connecticut 4,990 square miles). The population according to an enumeration made in 1887 was 798,565, of whom 474,933 were whites, 246,647 mulattoes, and 76,905 negroes. An enumeration taken by the United States Government in 1900 showed a population of 953,243. The density was 264 to the square mile; 83.2 per cent of the population cannot read.

Porto Rico is unusually fertile, and its dominant industries are agriculture and lumbering. In elevated regions the vegetation of the temperate zone is not unknown. There are more than 500 varieties of trees found in the forests, and the plains are full of palm, orange, and other trees. The principal crops are sugar, coffee, tobacco, cotton, and maize, but bananas, rice, pineapples, and many other fruits are important products. The largest article of export from Porto Rico is coffee, which is over 63 per cent of the whole. The next largest is sugar, 28 per cent. The other exports in order of amount are tobacco, honey, molasses, cattle, timber, and hides.

The principal minerals found in Porto Rico are gold, carbonates, and sulphides of copper and magnetite oxide of iron in large quantities. Lignite is found at Utuado and Moca, and also yellow amber. A large variety of marbles, limestones, and other building stones are deposited on the island, but these resources are very undeveloped. There are salt works at Guanica and Salinao on the south coast, and at Cape Rojo on the west, and these constitute the principal mineral industry in Porto Rico.

There are 159 miles of railway, with 170 miles under construction, and 470 miles of telegraph lines. These connect the capital with the principal ports south and west. Submarine cables run from San Juan to St. Thomas and Jamaica. The principal cities are Mayaguez with 15,187, Ponce, 27,952 inhabitants; and San Juan, the capital, with 32,048.

An act providing for a civil government for Porto Rico was passed by the Fifty-sixth Congress and received the assent of the President April 12, 1900. A statement of its provisions was printed in *THE WORLD ALMANAC* for 1901, pages 92 and 93.

Under this act a civil government was established, which went into effect May 1, 1900. There are two legislative chambers, the Executive Council, or "Upper House," composed of the Government Secretary, Attorney-General, Treasurer, Auditor, Commissioner of the Interior, and Commissioner of Education, and five citizens appointed by the President, and the House of Delegates, or "Lower House," consisting of 35 members, elected by the people.

The Governor of Porto Rico is W. H. Hunt (salary \$8,000), who was appointed by the President, July 23, 1900, to succeed Charles H. Allen.

**GUAM.**

The island of Guam, the largest of the Marianne or Ladrone Archipelago, was ceded by Spain to the United States by Article 2 of the Treaty of Peace, concluded at Paris December 10, 1898. It lies in a direct line from San Francisco to the southern part of the Philippines, and is 5,200 miles from San Francisco and 900 miles from Manila. It is about 32 miles long and 100 miles in circumference, and has a population of about 8,661, of whom 5,249 are in Agana, the capital. The inhabitants are mostly immigrants or descendants of immigrants from the Philippines, the original race of the Ladrone Islands being extinct. The prevailing language is Spanish. Nine-tenths of the islanders can read and write. The island is thickly wooded, well watered, and fertile, and possesses an excellent harbor. The productions are tropical fruits, cacao, rice, corn, tobacco, and sugar cane.

Commander Taussig, of the United States gunboat Bennington, took possession of the island and raised the United States flag over Fort Santa Cruz on February 1, 1899.

**TUTUILA.**

Tutuila, the Samoan island which, with its attendant islets of Tau, Olesinga, and Ofu, became a possession of the United States by virtue of the tripartite treaty with Great Britain and Germany in 1899, covers, according to the Bureau of Statistics of the Treasury Department, fifty-four square miles, and has 5,800 inhabitants. It possesses the most valuable island harbor, Pago-Pago, in the South Pacific, and perhaps in the entire Pacific Ocean. Commercially the island is unimportant at present, but is extremely valuable in its relations to the commerce of any nation desiring to cultivate transpacific commerce.

Ex-Chief Justice Chambers, of Samoa, says of Pago-Pago that "the harbor could hold the entire naval force of the United States, and is so perfectly arranged that only two vessels can enter at the same time. The coaling station, being surrounded by high bluffs, cannot be reached by shells from outside." The Government is increasing the capacity to 10,000 tons.

The Samoan Islands, in the South Pacific, are fourteen in number, and lie in a direct line drawn from San Francisco to Auckland, New Zealand. They are 4,000 miles from San Francisco, 2,200 miles from Hawaii, 1,900 miles from Auckland, 2,000 miles from Sydney, and 4,200 miles from Manila. Germany governs all the group except the part owned by the United States. The inhabitants are native Polynesians and Christians of different denominations.

**WAKE AND OTHER ISLANDS.**

The United States flag was hoisted over Wake Island in January, 1899, by Commander Taussig, of the Bennington, while proceeding to Guam. It is a small island in the direct route from Hawaii to Hong Kong, about 2,000 miles from the first and 3,000 miles from the second.

The United States possesses a number of scattered small islands in the Pacific Ocean, some hardly

more than rocks or coral reefs, over which the flag has been hoisted from time to time. They are of little present value and mostly uninhabited. The largest are Christmas, Gallego, Starbuck, Penrhyn, Phoenix, Palmyra, Howland, Baker, Johnston, Gardner, Midway, Morell, and Marcus Islands. The Santa Barbara group is a part of California and the Aleutian chain, extending from the peninsula of Kamchatka in Asiatic Russia to the promontory in North America which separates Behring Sea from the North Pacific, a part of Alaska.

HAWAII.

Hawaii was annexed to the United States by joint resolution of Congress July 6, 1898. A bill to create Hawaii a Territory of the United States was passed by Congress and approved April 30, 1900. The area of the several islands of the Hawaiian group is as follows: Hawaii, 4,210 square miles; Maui, 1,760; Oahu, 600; Kauai, 590; Molokai, 270; Lanai, 150; Niihau, 97; Kahoolawe, 63. Total, 6,740 square miles.

At the time of the discovery of the islands by Captain Cook in 1778 the native population was about 200,000. This has steadily decreased, so that at the last census the natives numbered but 31,019, which was less than that of the Japanese and Chinese immigrants settled in the islands. A census taken early in 1897 revealed a total population of 109,020, distributed according to race as follows:

|                     | Males. | Females. | Total. |                 | Males. | Females. | Total. |

The remainder were Germans, French, Norwegians, South Sea Islanders, and representatives of other nationalities. The American population was 2.73 per cent of the whole. The American population has increased since annexation.

The first United States census of the islands was taken in 1900 with the following result: Hawaii Island, 46,843; Kauai Island, 20,562; Niihau Island, 172; Maui Island, 25,416; Molokai Island and Lanai Island, 2,504; Oahu Island, 58,504. Total of the Territory, 154,001. The population of the city of Honolulu is 39,306.

Nearly all the natives are Christians. In 1896 there were 23,773 Protestants, 26,362 Roman Catholics, 4,886 Mormons, 44,306 Buddhists, etc., and 10,192 not described.

There are 71 miles of railroad and about 250 miles of telegraph in the islands. Honolulu, the capital, with a population of 28,061, is lighted by electricity, and has most of the local features of an enterprising American city. The bulk of the business is done by Americans and Europeans.

Of sugar, of which it is said the Hawaiian Islands are much more productive in a given area than those of the West Indies, the exportation was 545,370,537 pounds in 1899. Of coffee, the exportation was 337,158 pounds in 1897; of rice, the exportation was 5,499,499 pounds in 1897. In the matter of imports, nearly all of the necessities of life, aside from sugar, fruits, and vegetables, are imported, the products of the United States being given the preference in nearly all cases. The exports from Hawaii to the United States in the twelve months ending June 30, 1902, were valued at \$24,700,429, of which the item of sugar figured at \$23,920,113. The imports into Hawaii from the United States for the same period were valued at \$19,000,000.

The new Territorial Government was inaugurated at Honolulu June 14, 1900, and the first Territorial Legislature began its sessions at Honolulu, February 20, 1901. The Legislature is composed of two houses—the Senate of fifteen members, holding office four years, and the House of Representatives of thirty members, holding office two years. The Legislature meets biennially, and sessions are limited to sixty days.

The Executive power is lodged in a Governor, a Secretary, both appointed by the President, and hold office four years, and the following officials appointed by the Governor, by and with the consent of the Senate of Hawaii: An Attorney-General, Treasurer, Commissioner of Public Lands, Commissioner of Agriculture and Forestry, Superintendent of Public Works, Superintendent of Public Instruction, Auditor and Deputy, Surveyor, High Sheriff, and members of the Boards of Health, Public Instruction, Prison Inspectors, etc. They hold office for four years, and must be citizens of Hawaii.

The Judiciary of the Territory is composed of the Supreme Court, with three Judges, the Circuit Court, and such inferior courts as the Legislature may establish. The Judges are appointed by the President. The Territory is a Federal Judicial District, with a District Judge, District Attorney, and Marshal, all appointed by the President. The District Judge has all the powers of a Circuit Judge.

The Territory is represented in Congress by a Delegate, who is elected biennially by the people. Provision is made in the act creating the Territory for the residence of Chinese in the Territory, and prohibition as laborers to enter the United States as follows:

Sec. 101. That Chinese in the Hawaiian Islands when this act takes effect may within one year thereafter obtain certificates of residence as required by "An act to prohibit the coming of Chinese persons into the United States," approved May 5, 1892, as amended by an act approved November 3, 1893, entitled "An act to amend an act entitled 'An act to prohibit the coming of Chinese persons into the United States,' approved May 5, 1892," and until the expiration of said year shall not be deemed to be unlawfully in the United States if found therein without such certificates: Provided, however, That no Chinese laborer, whether he shall hold such certificate or not, shall be allowed to enter any State, Territory, or district of the United States from the Hawaiian Islands.

Danish West India Islands.

A TREATY for the cession to the United States of the three islands belonging to Denmark, lying to the east of Porto Rico, in latitude 18° North and longitude 64° West, was signed by Minister Brun, of Denmark, and Secretary of State Hay at Washington, January 24, 1902. The purchase price was \$5,000,000. The treaty was ratified by the Senate of the United States, but was rejected by the Danish Landsting (Upper House) October 22, 1902, the vote on ratification being a tie—32 to 32. The result, however, is not regarded as a final disposition of the question. These islands were ceded to the United States by Denmark in 1867 for \$7,500,000, but the United States Senate refused to ratify the treaty. The islands are: St. Thomas, area, 27 square miles; population in 1890, 12,019; capital, Charlotte Amalia. It is 38 miles east of Porto Rico. St. Croix, or Santa Cruz, area, 94 square miles; population, 19,783; capital, Christianstadt; St. John, area, 16 square miles; population, 984; capital, Christiansburg. The principal products of the islands are sugar and rum.

## The Philippine Islands.

THE Philippine group, lying off the southern coast of Asia, between longitude 120 and 130 and latitude 5 and 20 approximately, number about 2,000 islands, great and small, in a land and sea area of 1,200 miles of latitude and 2,400 miles of longitude. The actual land area is about 140,000 miles. The six New England States, New York, and New Jersey have about an equivalent area. The island of Luzon, on which the capital city (Manila) is situated, is the largest member of the group, being about the size of the State of New York. Mindanao is nearly as large, but its population is very much smaller. The latest estimates of areas of the largest islands are as follows: Luzon, 44,400; Mindanao, 34,000; Samar, 4,800; Panay, 4,700; Mindoro, 4,000; Leyte, 3,800; Negros, 3,300; Cebu, 2,400.

The estimates of population vary, but a conservative estimate by the United States Census Bureau is 6,961,333 souls. The late Spanish masters had never caused a census to be taken, and, indeed, some parts of the islands are yet unexplored and inhabited by tribes nearly savage. Racially the inhabitants are principally Malays. The country had been in the possession of Spain since 1565, and the religion introduced by the proprietors has long been that of the natives. The church has been a strong ruling power and the priesthood numerous. There are thirty different races, all speaking a different dialect.

### CLIMATE.

The climate is one of the best known in the tropics. The islands extend from 5° to 21° north latitude, and Manila is in 14° 35'. The thermometer during July and August rarely goes below 79° or above 85°. The extreme ranges in a year are said to be 61° and 97°, and the annual mean 81°. There are three well-marked seasons, temperate and dry from November to February, hot and dry from March to May, and temperate and wet from June to October. The rainy season reaches its maximum in July and August, when the rains are constant and very heavy. The total rainfall has been as high as 114 inches in one year.

Yellow fever appears to be unknown. The diseases most fatal among the natives are cholera and small-pox, both of which are brought from China. Low malarial fever is brought on by sleeping on the ground or being chilled by remaining without exercise in wet clothes; and diarrhoea is produced by drinking bad water or eating excessive quantities of fruit. Almost all of these diseases are preventable by proper precautions even by troops in campaign. The sickness in our troops was very small, much less than in the cold fogs at camp in San Francisco.

### MINERAL WEALTH.

Very little is known concerning the mineral wealth of the islands. It is stated that there are deposits of coal, petroleum, iron, lead, sulphur, copper, and gold in the various islands, but little or nothing has been done to develop them. A few concessions have been granted for working mines, but the output is not large. The gold is reported on Luzon, coal and petroleum on Cebu and Iloilo, and sulphur on Leyte.

### AGRICULTURE.

Although agriculture is the chief occupation of the Filipinos, yet only one-ninth of the surface is under cultivation. The soil is very fertile, and even after deducting the mountainous areas it is probable that the area of cultivation can be very largely extended and that the islands can support population equal to that of Japan (42,000,000).

The chief products are rice, corn, hemp, sugar, tobacco, coconuts, and cacao. Coffee and cotton were formerly produced in large quantities—the former for export and the latter for home consumption; but the coffee plant has been almost exterminated by insects and the home-made cotton cloths have been driven out by the competition of those imported from England. The rice and corn are principally produced in Luzon and Mindoro and are consumed in the islands. The rice crop is about 765,000 tons. It is insufficient for the demand, and 45,000 tons of rice were imported in 1894, the greater portion from Saigon and the rest from Hong Kong and Singapore; also 8,669 tons (say 60,000 barrels) of flour, of which more than two-thirds came from China and less than one-third from the United States. The cacao is raised in the southern islands, the best quality of it at Mindanao. The sugar cane is raised in the Visayas. The crop yielded in 1894 about 235,000 tons of raw sugar, of which one-tenth was consumed in the islands, and the balance, or 210,000 tons, valued at \$11,000,000, was exported, the greater part to China, Great Britain, and Australia. The hemp is produced in Southern Luzon, Mindoro, the Visayas, and Mindanao. It is nearly all exported in bales. In 1894 the amount was 96,000 tons, valued at \$12,000,000. Tobacco is raised in all the islands, but the best quality and greatest amount in Luzon. A large amount is consumed in the islands, smoking being universal among women as well as the men, but the best quality is exported. The amount in 1894 was 7,000 tons of leaf tobacco, valued at \$1,750,000. Coconuts are grown in Southern Luzon and are used in various ways.

### IMPORTS AND EXPORTS.

The exports from Great Britain to the Philippines in the year ending June 30, 1901, were \$10,704,741, and the imports from Great Britain were \$6,956,145. The trade with all the other countries, except the United States, was small.

In the fiscal year ending June 30, 1902, the exports from the United States to the Philippines were \$5,251,867, and the total imports for the same period were \$6,612,700.

### CIVIL GOVERNMENT FOR THE PHILIPPINES.

In March, 1900, the President appointed a Civil Commission composed of William H. Taft, of Ohio, President; Prof. Dean C. Worcester, of Michigan; Luke E. Wright, of Tennessee; Henry C. Ide, of Vermont, and Prof. Bernard Moses, of California, to "continue and perfect the work of organization and establishing civil government already commenced by the military authorities, subject in all respects to any laws which Congress may hereafter enact." The Commissioners proceeded to the Philippines and reached Manila in April following. Prof. Moses resigned January 1, 1903, and James F. Smith was appointed by the President to succeed him. With the American members of the commission are associated the following Filipinos: Trinidad H. Pardo de Tavera, Benito Legarda, and José Luzuriaga.

On July 1, 1902, Congress passed (chapter 1369) "An act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands and for other purposes." Under this act complete civil government was established in the Archipelago and the office of Military Governor with military rule was terminated.

On July 3, 1902, the President issued the following proclamation:

### BY THE PRESIDENT OF THE UNITED STATES.

#### A PROCLAMATION.

Whereas, many of the inhabitants of the Philippine Archipelago were in insurrection against the

authority and sovereignty of the Kingdom of Spain at divers times from August, 1896, until the cession of the Archipelago by that kingdom to the United States of America, and since such cession many of the persons so engaged in insurrection have until recently resisted the authority and sovereignty of the United States; and

Whereas, the insurrection against the authority and sovereignty of the United States is now at an end, and peace has been established in all parts of the Archipelago, except the country inhabited by the Moro tribes, to which this proclamation does not apply; and,

Whereas, during the course of the insurrection against the Kingdom of Spain and against the Government of the United States persons engaged therein, or those in sympathy with and abetting them, committed many acts in violation of the laws of civilized warfare, but it is believed that such acts were generally committed in ignorance of those laws and under orders issued by the civil or military insurrectionary leaders; and,

Whereas, it is deemed to be wise and humane, in accordance with the beneficent purposes of the Government of the United States toward the Filipino people, and conducive to peace, order, and loyalty among them, that the doers of such acts who have not already suffered punishment shall not be held criminally responsible, but shall be relieved from punishment for participation in these insurrections and for unlawful acts committed during the course thereof by a general amnesty and pardon;

Now, therefore, be it known that I, Theodore Roosevelt, President of the United States of America, by virtue of the power and authority vested in me by the Constitution, do hereby proclaim and declare, without reservation or condition, except as hereinafter provided, a full and complete pardon and amnesty to all persons in the Philippine Archipelago who have participated in the insurrections aforesaid, or who have given aid and comfort to persons participating in said insurrections, for the offences of treason or sedition and for all offences political in their character committed in the course of such insurrections pursuant to orders issued by the civil or military insurrectionary authorities, or which grew out of internal political feuds or dissensions between Filipinos and Spaniards or the Spanish authorities, or which resulted from internal political feuds or dissensions among the Filipinos themselves during either of said insurrections.

Provided, however, that the pardon and amnesty hereby granted shall not include such persons committing crimes since May 1, 1902, in any province of the Archipelago in which at the time civil government was established, nor shall it include such persons as have been heretofore finally convicted of the crimes of murder, rape, arson, or robbery by any military or civil tribunal organized under the authority of Spain or of the United States of America, but for which special application may be made to the proper authority for pardon by any person belonging to the exempted classes, and such clemency as is consistent with humanity and justice will be liberally extended; and, further,

Provided, that this amnesty and pardon shall not affect the title or right of the Government of the United States or that of the Philippine Islands to any property or property rights heretofore used or appropriated by the military or civil authorities of the Government of the United States or that of the Philippine Islands organized under authority of the United States by way of confiscation or otherwise; and,

Provided, further, that every person who shall seek to avail himself of this proclamation shall take and subscribe the following oath before any authority in the Philippine Archipelago authorized to administer oaths, namely:

"I, \_\_\_\_\_, solemnly swear (or affirm) that I recognize and accept the supreme authority of the United States of America in the Philippine Islands, and will maintain true faith and allegiance thereto; that I impose upon myself this obligation voluntarily without mental reservation or purpose of evasion, so help me God."

Given under my hand at the City of Washington, this fourth day of July, in the year of our Lord one thousand nine hundred and two, and in the one hundred and twenty-seventh year of the independence of the United States.

THEODORE ROOSEVELT.

By the President.

ELIHU ROOT, Secretary of War.

## STATISTICS OF THE PHILIPPINE WAR.

The Adjutant-General's office has compiled the following statistics regarding the insurrection in the Philippines: There were 2,561 engagements with the enemy, more or less serious, between February 4, 1899, the date of the battle of Manila, and April 30, 1902, fixed as the virtual end of the insurrection. The larger proportion of these fights were attacks from ambush on the American troops or skirmishes in which only small detachments took part.

In almost no case in these engagements did American troops surrender or have to retreat or have to leave their dead and wounded in the possession of the enemy, notwithstanding that in many cases the percentage of loss was high.

The number of troops transported to the Philippines and arrived there up to July 16, 1902, was 4,135 officers and 123,803 men. The average strength, taken from monthly returns for the period of the insurrection, was approximately 40,000.

The casualties of the American army were as follows:

Killed or died of wounds, 69 officers and 936 enlisted men; deaths from disease, 47 officers and 2,535 enlisted men; deaths from accidents, 6 officers and 125 enlisted men; drowned, 6 officers and 257 enlisted men; suicide, 10 officers and 72 enlisted men; murdered, 1 officer and 91 enlisted men. Total deaths, 139 officers and 4,016 enlisted men. Wounded, 190 officers and 2,707 enlisted men, a total of 2,897. Killed and wounded and deaths other than by disease, 282 officers and 4,188 enlisted men; total, 4,470.

A large proportion of the deaths by drowning occurred in action or in active operations against the enemy. The percentage of killed and wounded to the strength of the army was 9.7.

In response to a Senate resolution requesting information as to the cost of the war in the Philippines, the Secretary of War reported, June 19, as follows: For railroad transportation of troops and supplies to and from the Philippines since the Peace Treaty was ratified the cost was \$4,803,448. Reports from the various bureau officers were submitted, including outstanding obligations, showing that the total cost of the war up to date was \$170,326,586. The expenditures by years were as follows: Expended, fiscal year 1898 (two months, May and June), \$2,686,850; fiscal year 1899, \$26,230,673; fiscal year 1900, \$50,869,543; fiscal year 1901, \$55,567,422; liabilities, \$12; fiscal year 1902 (ten months, July to April, inclusive), \$34,499,022; liabilities, \$473,060. Total expended, \$169,853,512; total liabilities, \$473,072.

## Cuba.

THE Republic of Cuba was inaugurated May 20, 1902, the transfer of the authority of the United States to the Government of the Republic having been made at noon on that day, the flag of the United States being hauled down at the Government Palace, Havana, and that of Cuba replacing it.

The official announcement of the act of transfer of authority was made by General Leonard Wood, Military Governor, in the following terms:

Headquarters Department of Cuba,  
Havana, May 20, 1902.

To the President and Congress of the Republic of Cuba:

Sirs—Under the direction of the President of the United States I now transfer to you as the duly elected representatives of the people of Cuba the government and control of the island, to be held and exercised by you, under the provisions of the Constitution of the Republic of Cuba, heretofore adopted by the Constitutional Convention, and this day promulgated; and I hereby declare the occupation of Cuba by the United States and the military government of the island to be ended.

This transfer of the government and control is upon the express condition, and the Government of the United States will understand that, by the acceptance thereof, you do now, pursuant to the provisions of the said Constitution, assume and undertake all and several the obligations assumed by the United States with respect to Cuba by the treaty between the United States of America and Her Majesty the Queen Regent of Spain, signed at Paris on the 10th day of December, 1898.

All money obligations of the military government down to this date have been paid as far as practicable. The public civil funds derived from the revenues of Cuba transferred to you this day, amounting to ———, are transferred subject to such claims and obligations, properly payable out of the revenues of the island, as may remain. The sum of \$100,000 has been reserved from the transfer of funds to defray anticipated expenses of accounting, reporting, and winding up the affairs of the military government, after which any unexpended balance of said sum will be paid into the treasury of the island.

The plans already devised for the sanitation of the cities of the island and to prevent a recurrence of epidemic and infectious diseases, to which the Government of the United States understands that the provision of the Constitution contained in the fifth article of the appendix applies, are as follows:

First.—A plan for the paving and sewerage of the city of Havana, for which a contract has been awarded by the municipality of that city to McGivney, Rockeby & Co.

Second.—A plan for waterworks to supply the city of Santiago de Cuba, prepared by Captain S. E. Reckenbach, in charge of the district of Santiago, and approved by the Military Governor, providing for taking water from the wells of the San Juan Canyon, and pumping the same to reservoirs located on the heights to the east of the city.

Third.—A plan for the sewerage of the city of Santiago de Cuba, a contract for which was awarded to Michael J. Dady & Co. by the Military Governor of Cuba, and now under construction.

Fourth.—The rules and regulations established by the President of the United States on January 17, 1899, for the maintenance of quarantine against epidemic diseases at the ports of Havana, Matanzas, Cienfuegos, and Santiago de Cuba, and thereafter at the other ports of the island, as extended and amended and made applicable to future conditions by the order of the Military Governor dated ———, the day of April, 1902.

Fifth.—The sanitary rules and regulations in force in the city of Havana (and in any other city having official rules, etc.).

It is understood by the United States that the present government of the Isle of Pines will continue as a de facto government, pending the settlement of the title to said island by treaty pursuant to the Cuban Constitution and the act of Congress of the United States approved March 2, 1901.

I am further charged by the President of the United States to deliver to you the letter which I now hand you.

LEONARD WOOD, Military Governor.

The Secretary of State issued the following official notification to the Ambassadors and Ministers of the United States accredited to foreign governments:

Department of State,  
Washington, May 20, 1902.

Sir—I am directed by the President to inform you that the military occupation of the island of Cuba by the United States has this day ceased, and that an independent government, republican in form, has been inaugurated there, under the Presidency of His Excellency Señor Don Tomas Estrada Palma.

You are instructed to convey this information through the appropriate channel to the government to which you are accredited.

I am, sir, your obedient servant,

JOHN HAY, Secretary.

## Territorial Expansion of the United States.

THERE have been twelve additions to the original territory of the Union, including Alaska, the Hawaiian, Philippine, and Samoan Islands and Guam, in the Pacific, and Porto Rico and Pine Islands, in the West Indies; and the total area of the United States, including the noncontiguous territory, is now fully five times that of the original thirteen colonies.

The additions to the territory of the United States subsequent to the peace treaty with Great Britain of 1783 are shown by the following table, prepared by the General Land Office of the Interior Department:

## Chinese Exclusion Act of 1902.

CONGRESS by act approved April 29, 1902, passed the following regulations concerning Chinese immigration into the United States and its dependencies:

CHAPTER 641—AN act to prohibit the coming into and to regulate the residence within the United States, its Territories, and all territory under its jurisdiction, and the District of Columbia, of Chinese and persons of Chinese descent, was passed by Congress and approved April 29, 1902. The following is the full text:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That all laws now in force prohibiting and regulating the coming of Chinese persons, and persons of Chinese descent, into the United States, and the residence of such persons therein, including sections five, six, seven, eight, nine, ten, eleven, thirteen, and fourteen of the act entitled "An act to prohibit the coming of Chinese laborers into the United States," approved September 13, 1888, be, and the same are hereby, re-enacted, extended, and continued so far as the same are not inconsistent with treaty obligations, until otherwise provided by law, and said law shall also apply to the island territory under the jurisdiction of the United States, and prohibit the immigration of Chinese laborers, not citizens of the United States, from such island territory to the mainland territory of the United States, whether in such island territory at the time of cession or not, and from one portion of the island territory of the United States to another portion of said island territory: Provided, however, That said laws shall not apply to the transit of Chinese laborers from one island to another island of the same group; and any islands within the jurisdiction of any State or the District of Alaska shall be considered a part of the mainland under this section.

Sec. 2. That the Secretary of the Treasury is hereby authorized and empowered to make and prescribe, and from time to time to change, such rules and regulations not inconsistent with the laws of the land as he may deem necessary and proper to execute the provisions of this act and of the acts hereby extended and continued and of the treaty of December 8, 1894, between the United States and China, and with the approval of the President to appoint such agents as he may deem necessary for the efficient execution of said treaty and said acts.

Sec. 3. That nothing in the provisions of this act or any other act shall be construed to prevent, hinder, or restrict any foreign exhibitor, representative, or citizen of any foreign nation, or exposition authorized by act of Congress from bringing into the United States, under contract, such or any of them may deem necessary for the purpose of making preparation for installing or conducting their exhibits or of preparing for installing or conducting any business authorized or permitted under or by virtue of or pertaining to any concession or privilege which may have been or may be granted by any said fair or exposition in connection with such exposition, under such rules and regulations as the Secretary of the Treasury may prescribe, both as to the admission and return of such person or persons.

Sec. 4. That it shall be the duty of every Chinese laborer, other than a citizen, rightfully in and entitled to remain in any of the insular territory of the United States (Hawaii excepted) at the time of the passage of this act, to obtain within one year thereafter a certificate of residence in the insular territory wherein he resides, which certificate shall entitle him to residence therein, and upon failure to obtain such certificate as herein provided he shall be deported from such insular territory; and the Philippine Commission is authorized and required to make all regulations and provisions necessary for the enforcement of this section in the Philippine Islands, including the form and substance of the certificate of residence so that the same shall clearly and sufficiently identify the holder thereof and enable officials to prevent fraud in the transfer of the same: Provided, however, That if said Philippine Commission shall find that it is impossible to complete the registration herein provided for within one year from the passage of this act, said commission is hereby authorized and empowered to extend the time for such registration for a further period not exceeding one year.

**The Isthmian Canal Act.**

PASSED AT THE FIRST SESSION OF THE FIFTY-SEVENTH CONGRESS AND  
APPROVED JUNE 28, 1902.

CHAPTER 1302—An act to provide for the construction of a canal connecting the waters of the Atlantic and Pacific oceans.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States is hereby authorized to acquire, for and on behalf of the United States, at a cost not exceeding forty millions of dollars, the rights, privileges, franchises, concessions, grants of land, right of way, unfinished work, plants, and other property, real, personal, and mixed, of every name and nature, owned by the New Panama Canal Company, of France, on the Isthmus of Panama, and all its maps, plans, drawings, records on the Isthmus of Panama and in Paris, including all the capital stock, not less, however, than sixty-eight thousand eight hundred and sixty-three shares of the Panama Railroad Company, owned by or held for the use of said canal company, provided a satisfactory title to all of said property can be obtained.

**RIGHT OF WAY FROM COLOMBIA.**

Sec. 2. That the President is hereby authorized to acquire from the Republic of Colombia, for and on behalf of the United States, upon such terms as he may deem reasonable, perpetual control of a strip of land, the territory of the Republic of Colombia, not less than six miles in width, extending from the Caribbean Sea to the Pacific Ocean, and the right to use and dispose of the waters thereon, and to excavate, construct, and to perpetually maintain, operate, and protect thereon a canal, of such depth and capacity as will afford convenient passage of ships of the greatest tonnage and draught now in use, from the Caribbean Sea to the Pacific Ocean, which control shall include the right to perpetually maintain and operate the Panama Railroad, if the ownership thereof, or a controlling interest therein, shall have been acquired by the United States, and also jurisdiction over said strip and the ports at the ends thereof to make such police and sanitary rules and regulations as shall be necessary to preserve order and preserve the public health thereon, and to establish such judicial tribunals as may be agreed upon thereon as may be necessary to enforce such rules and regulations.

The President may acquire such additional territory and rights from Colombia as in his judgment will facilitate the general purpose hereof.

**PAYMENT OF FORTY MILLION DOLLARS.**

Sec. 3. That when the President shall have arranged to secure a satisfactory title to the property of the New Panama Canal Company, as provided in section one hereof, and shall have obtained by treaty control of the necessary territory from the Republic of Colombia, as provided in section two hereof, he is authorized to pay for the property of the New Panama Canal Company forty millions of dollars and to the Republic of Colombia such sum as shall have been agreed upon, and a sum sufficient for both said purposes is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to be paid on warrant or warrants drawn by the President.

**CONSTRUCTION.**

The President shall then through the Isthmian Canal Commission hereinafter authorized cause to be excavated, constructed, and completed, utilizing to that end as far as practicable the work heretofore done by the New Panama Canal Company, of France, and its predecessor company, a ship canal from the Caribbean Sea to the Pacific Ocean. Such canal shall be of sufficient capacity and depth as shall afford convenient passage for vessels of the largest tonnage and greatest draught now in use, and such as may be reasonably anticipated, and shall be supplied with all necessary locks and other appliances to meet the necessities of vessels passing through the same from ocean to ocean; and he shall also cause to be constructed such safe and commodious harbors at the termini of said canal, and make such provisions for defence as may be necessary for the safety and protection of said canal and harbors. That the President is authorized for the purposes aforesaid to employ such persons as he may deem necessary, and to fix their compensation.

**NICARAGUA ROUTE.**

Sec. 4. That should the President be unable to obtain for the United States a satisfactory title to the property of the New Panama Canal Company and the control of the necessary territory of the Republic of Colombia and the rights mentioned in sections one and two of this act, within a reasonable time and upon reasonable terms, then the President, having first obtained for the United States perpetual control by treaty of the necessary territory from Costa Rica and Nicaragua, upon terms which he may consider reasonable, for the construction, perpetual maintenance, operation, and protection of a canal connecting the Caribbean Sea with the Pacific Ocean by what is commonly known as the Nicaragua route, shall through the said Isthmian Canal Commission cause to be excavated and constructed a ship canal and waterway from a point on the shore of the Caribbean Sea near Greytown, by way of Lake Nicaragua, to a point near Brito on the Pacific Ocean. Said canal shall be of sufficient capacity and depth to afford convenient passage for vessels of the largest tonnage and greatest draught now in use, and such as may be reasonably anticipated, and shall be supplied with all necessary locks and other appliances to meet the necessities of vessels passing through the same from ocean to ocean; and he shall also construct such safe and commodious harbors at the termini of said canal as shall be necessary for the safe and convenient use thereof, and shall make such provisions for defence as may be necessary for the safety and protection of said harbors and canal; and such sum or sums of money as may be agreed upon by such treaty as compensation to be paid to Nicaragua and Costa Rica for the concessions and rights hereunder provided to be acquired by the United States, are hereby appropriated, out of any money in the Treasury not otherwise appropriated, to be paid on warrant or warrants drawn by the President.

The President shall cause the said Isthmian Canal Commission to make such surveys as may be necessary for said canal and harbors to be made, and in making such surveys and in the construction of said canal may employ such persons as he may deem necessary, and may fix their compensation. In the excavation and construction of said canal the San Juan River and Lake Nicaragua, or such parts of each as may be made available, shall be used.

THE ISTHMIAN CANAL ACT—*Continued.*

## PRELIMINARY APPROPRIATION.

Sec. 5. That the sum of ten million dollars is hereby appropriated out of any money in the Treasury not otherwise appropriated toward the project herein contemplated by either route so selected. And the President is hereby authorized to cause to be entered into such contract or contracts as may be deemed necessary for the proper excavation, construction, completion, and defence of said canal harbors, and defences, by the route finally determined upon under the provisions of this act. Appropriations therefor shall from time to time be hereafter made, not to exceed in the aggregate the additional sum of one hundred and thirty-five millions of dollars should the Panama route be adopted, or one hundred and eighty millions of dollars should the Nicaragua route be adopted.

Sec. 6. That in any agreement with the Republic of Colombia, or with the States of Nicaragua and Costa Rica, the President is authorized to guarantee to said Republic or to said States the use of said canal and harbors, upon such terms as may be agreed upon, for all vessels owned by said States or by citizens thereof.

## ISTHMIAN CANAL COMMISSION CREATED.

Sec. 7. That to enable the President to construct the canal and works appurtenant thereto as provided in this act, there is hereby created the Isthmian Canal Commission, the same to be composed of seven members, who shall be nominated and appointed by the President, by and with the advice and consent of the Senate, and who shall serve until the completion of said canal unless sooner removed by the President, and one of whom shall be named as the chairman of said Commission.

Of the seven members of said Commission at least four of them shall be persons learned and skilled in the science of engineering, and of the four at least one shall be an officer of the United States army, and at least one other shall be an officer of the United States navy, the said officers respectively being either upon the active or the retired list of the army or of the navy. Said commissioners shall each receive such compensation as the President shall prescribe until the same shall have been otherwise fixed by the Congress.

In addition to the members of said Isthmian Canal Commission, the President is hereby authorized through said Commission to employ in said service any of the engineers of the United States army at his discretion, and likewise to employ any engineers in civil life at his discretion, and any other persons necessary for the proper and expeditious prosecution of said work. The compensation of all such engineers and other persons employed under this act shall be fixed by said Commission, subject to the approval of the President. The official salary of any officer appointed or employed under this act shall be deducted from the amount of salary or compensation provided by or which shall be fixed under the terms of this act.

Said Commission shall in all matters be subject to the direction and control of the President, and shall make to the President annually and at such other periods as may be required, either by law or by the order of the President, full and complete reports of all their actings and doings and of all moneys received and expended in the construction of said work and in the performance of their duties in connection therewith, which said reports shall be by the President transmitted to Congress. And the said Commission shall furthermore give to Congress, and to either House of Congress, such information as may at any time be required either by act of Congress or by the order of either House of Congress. The President shall cause to be provided and assigned for the use of the Commission such offices as may, with the suitable equipment of the same, be necessary and proper, in his discretion, for the proper discharge of the duties thereof.

## BOND ISSUE TO DEFRAY EXPENSES.

Sec. 8. That the Secretary of the Treasury is hereby authorized to borrow on the credit of the United States from time to time, as the proceeds may be required to defray expenditures authorized by this act (such proceeds when received to be used only for the purpose of meeting such expenditures), the sum of one hundred and thirty million dollars, or so much thereof as may be necessary, and to prepare and issue therefor coupon or registered bonds of the United States in such form as he may prescribe, and in denominations of twenty dollars or some multiple of that sum, redeemable in gold coin at the pleasure of the United States after ten years from the date of their issue, and payable thirty years from such date, and bearing interest payable quarterly in gold coin at the rate of two per centum per annum; and the bonds herein authorized shall be exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal, or local authority.

Provided, That said bonds may be disposed of by the Secretary of the Treasury at not less than par, under such regulations as he may prescribe, giving to all citizens of the United States an equal opportunity to subscribe therefor, but no commissions shall be allowed or paid thereon; and a sum not exceeding one-tenth of one per centum of the amount of the bonds herein authorized is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to pay the expense of preparing, advertising, and issuing the same.

## TITLE TO THE CANAL VALID.

The Attorney-General of the United States on October 26, 1902, submitted to the President an opinion upon the validity of the title which the new Panama Canal Company proposed to convey to the United States. Attorney-General Knox said that an exhaustive investigation had been made by himself and Special Attorney Charles W. Russell in Paris. The objections which had been made to the purchase of the title by the United States had resolved themselves into the following proposition:

1. That the new Panama Canal Company has not power to sell the canal and railway property.
2. That the liquidator of the old Panama Canal Company has not power to consent to such sale.
3. That the French courts have not power to authorize the liquidator or the new company, or either of them, to enter into the sale.

4. That, at all events, the United States would take the property as a trust fund subject to the total obligations to the stockholders, the bondholders, and the other creditors of both companies.

The Attorney-General considered in turn each of these contentions, finding none of them tenable, and concluded his opinion thus: "For the reasons I have given, I am of the opinion that the United States would receive a good, valid, and unencumbered title."

The United States was engaged in negotiating a treaty with Colombia for perpetual ownership of the canal strip of territory when the ALMANAC went to press,

The production since 1900, however, has largely increased. The output of American factories in 1901 was probably 10,000 vehicles, valued at \$10,000,000. The New York *Sun* collected statistics for 1902, and reported that during the first eight months 19,000 vehicles were manufactured, valued at \$20,000,000. There are 300 automobile manufacturers actually engaged in building complete vehicles in the United States, and about 2,000 manufacturers who, in addition to their other business, make component parts and accessories for automobiles. The figures for eighty-six principal manufacturers were as follows:

Fifty firms made 10,040 gasoline automobiles which sold for \$10,431,250. This would make an average price slightly above \$1,000 apiece, but if the one firm which turned out nearly one-half of the total number at a much lower price is left out of the figuring, there remain 5,040 gasoline vehicles costing \$7,181,250, or an average of about \$1,400.

Twenty-seven manufacturers of steam vehicles produced 6,180 carriages, valued at \$6,525,000, an average of slightly more than \$1,000.

Thirteen makers of electric vehicles produced 1,835 trucks and carriages, sold for \$2,262,500, the trucks bringing the average up to between \$1,200 and \$1,300 a vehicle.

It is estimated that there were 40,000 vehicles in the United States at the close of 1902, including foreign imported vehicles. It is expected that the output will be greatly increased in 1903.

The London *Daily Mail Year-Book* for 1902 gives the number of motor cars in use in Britain as 40,000. Extensive manufacturing is in progress, in France and Germany. Statistical information about automobiles is as yet in a crude state, and only approximate figures can be given.

**The United States Revenue Cutter Service.**

THE United States Revenue Cutter Service is an arm of the Treasury Department, and is under the direction and control of the Secretary of the Treasury, and its purpose is, among other things, to enforce the revenue laws. It is by law under the immediate supervision of a captain of the service, detailed by the Secretary of the Treasury as "Chief of Division of Revenue Cutter Service." Treasury Department, Washington, D.C. Capt. C. F. Shoemaker, R. C. S., is at present the chief of said service.

The computation of the savings deposits of the world shows that they amount to the enormous sum of over seven billions of dollars. The depositors in the savings banks of the world, therefore, would now be capable of advancing the amount of the war indemnity which France paid to Germany after 1870 seven times over. The depositors of the United States alone could cover the amount nearly twice over, and those of France, Prussia, and Great Britain could almost cover it from the deposits of either country alone. The Empire of Austria-Hungary ranks third in the amount of savings deposits and fourth in the amount per capita. These figures cover the deposits of all savings banks in the countries named—the private and stock savings banks as well as the government banks—but they do not include the great deposits in the commercial banks. The figures are made up by the Bureau of Statistics from material taken from the reports of the Comptroller of the Currency.—*Journal of Commerce*.

"Lawful money" includes gold coin, silver dollars, United States notes, and Treasury notes. United States notes are by regulation receiveable for customs so long as they continue redeemable in coin. There are still in use small amount of \$1 and \$2 United States and national bank notes; also \$500 and \$1,000 silver certificates. Treasury notes were issued for purchases of silver bullion, which is being coined into dollars wherewith the notes are being redeemed as rapidly as practicable. The issue of national bank notes is practically dependent upon the market price of United States bonds; when the premium is high it is not profitable to issue notes.

The above table was prepared for THE WORLD ALMANAC by Maurice L. Muhleman, former Deputy Assistant United States Treasurer, New York.

The Bankruptcy Law.

EXTRACTS FROM THE UNITED STATES BANKRUPTCY ACT OF JULY 1, 1898.

SEC. 4. WHO MAY BECOME BANKRUPTS.—(a) Any person who owes debts, except a corporation, shall be entitled to the benefits of this act as a voluntary bankrupt.

(b) Any natural person (except a wage-earner or a person engaged chiefly in farming or the tillage of the soil), any unincorporated company, and any corporation engaged principally in manufacturing, trading, printing, publishing, or mercantile pursuits, owing debts to the amount of one thousand dollars or over, may be adjudged an involuntary bankrupt upon default or an impartial trial, and shall be subject to the provisions and entitled to the benefits of this act. Private bankers, but not national banks or banks incorporated under State or Territorial laws, may be adjudged involuntary bankrupts.

SEC. 7. DUTIES OF BANKRUPTS.—(a) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or a judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries; (6) immediately inform his trustee of any attempt, by his creditors or other persons, to evade the provisions of this act, coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee; (8) prepare, make oath to, and file in court within ten days, unless further time is granted, after the adjudication if an involuntary bankrupt, and with the petition if a voluntary bankrupt, a schedule of his property, showing the amount and kind of property, the location thereof, its money value in detail, and a list of his creditors, showing their residences, if known (if unknown that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any, and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee, and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind, and whereabouts of his property, and, in addition, all matters which may affect the administration and settlement of his estate; but no testimony given by him shall be offered in evidence against him in any criminal proceedings.

Provided, however, that he shall not be required to attend a meeting of his creditors, or at or for an examination at a place more than one hundred and fifty miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town, or village of his residence.

Production of Coal.

AREA OF THE WORLD'S COAL-FIELDS, IN SQUARE MILES.

CHINA and Japan, 200,000; United States, 194,000; India, 35,000; Russia, 27,000; Great Britain, 9,000; Germany, 3,600; France, 1,800; Belgium, Spain, and other countries, 1,400. Total, 471,800.

The coal-fields of China, Japan, Great Britain, Germany, Russia, and India contain apparently 303,000,000,000 tons, which is enough for 450 years at present rate of consumption. If to the above be added the coal-fields in the United States, Canada, and other countries, the supply will be found ample for 1,000 years. Improved machinery has greatly increased the yield per miner, and thus produced a fall in price to the advantage of all industries.

The production of the principal countries in 1899-1900 in metric tons was: United States, 243,414,163; United Kingdom, 225,181,300; Germany, 103,271,700; Austria-Hungary, 38,738,372; France, 32,862,712; Belgium, 22,072,068; Russia (e), 12,800,000; Japan, 6,721,798; Australasia (c), 6,700,000; India, 5,016,055; Canada, 4,142,242; Spain, 2,600,279; Mexico, 409,125; Sweden, 239,344; Italy, 388,534; all other countries (e), 2,500,000. Total, partly estimated, 723,057,692. (c) Estimated.

\* Annual statements of the fire insurance companies are rendered to the insurance departments during the month of January; therefore the statistics of condition January 1, 1903, were not ready when this publication went to press.

† The New York law requires a deposit of \$200,000 from foreign companies with the insurance department. This is treated by the department as "deposit capital," and the surplus stated in the next column is "surplus beyond deposit capital" and other liabilities.
