

## Municipal Christmas Tree Will Be Given December 22

### A CHRISTMAS TREE NEXT ATTRACTION

ALL ENLISTED MEN TO BE REMEMBERED.

DECEMBER 22ND THE TIME

All Schools Will Close Today, and Stores Saturday; Present For Each Child Attending.

Final arrangements are being developed rapidly for the big Municipal Christmas Tree, to be given one week from next Saturday evening, December 22nd, at 7:30.

As announced last week, the chief attraction of the event will be the calling of the names and addresses of all the brave boys who have enlisted in the great war to make the world safe for democracy. While most of the names and addresses of the men have been obtained, there are still several missing, and it is hoped that some friend or relative will feel interested enough to help complete the list before the time arrives. This is necessary, as the committee making the purchases must know in advance how many packages to prepare to be forwarded to the various cantonments and elsewhere.

Arrangements have been made with the Japanese and Mexicans to participate in the program. Clyde Bishop of Santa Ana will be the speaker for the occasion.

R. L. Obarr and Santa Claus visited the Springdale, Westminster, Ocean View and Talbert schools this morning and informed the children that Old Saint Nicholas will be in Huntington Beach at the appointed time with a present for each of them.

Invitations have been mailed to every family in the country contributory to Huntington Beach. In this city the invitations will be delivered by carrier.

The big fir tree, being donated by the E. K. Wood Lumber Co., is expected to arrive on the Tamalpais, due at San Pedro Sunday. It was expected Wednesday, and Raymond Grey, manager of the E. K. Wood Lumber Co., and E. E. French made a trip to San Pedro, but were disappointed.

### A FINE COLLECTION OF OLD "SHIN PLASTERS."

If you are old enough to remember the fractional paper currency that was circulated during the Civil War and afterwards, prior to the resumption of specie payments, January 1st, 1879, you will be interested in the collection now on display in the Main street window of the First National Bank, belonging to J. R. Barrett. This is one of the best displays of this wartime money seen in a long time, and is attracting considerable attention.

This currency was known at the time as "shin plasters," and was issued in denominations of 5, 10, 25 and 50 cents. Besides that put in circulation by the Federal Government, some was put out by banks, private concerns and municipalities.

### WANT TO GIVE US CHILDREN'S HOME

MATTER WAS DISCUSSED SATURDAY.

NO DEFINITE ACTION TAKEN

Committee of Chamber of Commerce and Representatives of the Home Met in the Library Building.

The directors of the Pacific Seaside Home for Children, located at 925 Crest avenue in this city, would like to turn the Home over to the charitably inclined citizens of this vicinity. This desire was voiced at a meeting of a committee representing the Huntington Beach Chamber of Commerce and the Home, in the public library in this city, Saturday afternoon.

The Home was represented by Miss Augusta Lamb, president of the Pacific Seaside Home for Children, Mrs. Marks and General Donovan, legal advisor, all of Los Angeles. The meeting was called to consider a letter written to the Huntington Beach Chamber of Commerce, stating that the Home had not received the aid from this community that the directors felt it was entitled to, and that there had been offers made from other localities to move the Home from this city.

General Donovan stated that the resources of those in charge of the Home were about exhausted, and it was doubtful if it could be kept open very much longer. Since the building on the beach, between Huntington Beach and Newport Beach, was destroyed by the flood, and the price of necessities had advanced so much, Gen. Donovan said it had been hard work for the good women who had charge of the work to keep the institution open. He said suit had been filed against the Newbert Protection District, and he was certain that damages would be recovered for the loss of the property, but it would probably be some time before the case was finally disposed of in court. Gen. Donovan said that the directors of the Home would like to be relieved of the work, and thought probably the churches of the city and the Chamber of Commerce and other citizens might take charge of it and continue the good work.

Miss Lamb said that no state aid could be secured because the Home could not meet the state requirements, as the house being occupied was not large enough; and, anyway, the state only allowed \$6.50 for each child, which was only about one-half enough for support. Miss Lamb said this Home was a real home for the children and not an institution, such as those supported by the state and county government. She said that she had been complimented by all of the state and county officials and others who had visited the Home, and she did not think there was any better one for the care of children to be found anywhere.

Mrs. Marks said the attendance at the Home at this time was 14, and that larger quarters were required. She had visited the Jewish Home in Los Angeles, one of the best, and the children were no better cared for than are those in the Pacific Seaside Home for Children.

It developed that the county of Los Angeles is appropriating enough money to care for most of the children in the Home, and that the Home is paying \$12 per month rent.

Judge Warner stated that in the event the Home was taken over by citizens of this community the supervisors of Orange county could not allow any money for its support, as it would not be legal. The county maintained an institution for such work, he said.

Gen. Donovan said it might not be legal, but the sending of a child to the poor farm placed a stigma upon its name that could never be removed, and he did not think it should be done.

Mrs. Nelson asked about the offers to move the Home to some other locality, and Miss Lamb stated that while they had had a good offer to move to Hermosa Beach, they did not

like to leave Huntington Beach, as the children were in school here and liked their teachers, and also attended the churches here. She said the children all loved Miss Christensen, the matron of the Home.

Mrs. Alex. P. Nelson and Judge C. W. Warner were the only members of the Chamber of Commerce committee present, as Dr. F. E. Wilson was called away and did not return in time to attend. Mrs. Nelson is chairman of the committee.

### NO SHOW NEXT TUESDAY EVENING.

"Flirting With Death" Saturday Evening.

"A LITTLE SPECK IN GARNERED FRUIT" SUNDAY.

Mrs. Nelson wishes to announce that, beginning with next Tuesday evening, the Princess Theatre will be dark on Tuesday nights. Saturday and Sunday will be the only nights on which pictures will be shown.

All the universe has been invaded and used as a background for moving pictures, and the Bluebird has invaded the air and centered a picture about an aeroplane and an aviator. "Flirting With Death," the Bluebird which will hold the screen on Saturday night, is such a picture, and sensation and excitement will pave the way to the happy ending of a most romantic adventure into aeronautics. "Sky-High" Wardwell (Herbert Rawlinson) loves the daughter of an inventor, who has found a safe and easy way to drop from an airship to earth. "Sky-High" has tried everything, from circus life to running a newspaper, with doubtful success, and so he is not at all afraid to tackle the sale of the new invention. He not only promotes the invention, but he promotes, and most successfully, his suit against the inventor's lovely daughter. It is an unusual story, but natural and logical throughout, and, like all Bluebirds, is as near perfect as the photographer's art can make it in a photographic way. The acting has been entrusted to the best of Bluebird stars, so the success of the picture as an entertaining feature is assured.

The taste of the motion picture patrons is drawing away from slapstick comedy and coming more and more into the line of good, straight legitimate comedy drama. Probably the most successful comedy dramas that have thus far been filmed are the series of stories written by O. Henry, who acquired such fame as a short story writer. His stories are all told with a quaint humor, but with a wealth of human nature in them, and, while they are comedy, there is always a thread running through them of strong heart appeal. The feature on Sunday night will be one of these stories, the first of a series to be shown Sunday nights. All who enjoy good, clean comedy, well pictured and well acted, should see this series of pictures. All of the O. Henry pictures have met with great success in all the better class city theatres, and we predict a good future for them in Huntington Beach. A jungle picture and a Ham & Bud comedy will finish the program.

### DO YOU WANT TO HELP FINANCE THE BIG TREE?

EVERYBODY INVITED TO DONATE SOME CASH.

Believing that there are a large number of citizens who would be pleased to assist in financing the big municipal Christmas tree, the committee in charge of the financial part of the entertainment has decided to give everybody an opportunity to do so.

The Boy Scouts will probably canvass the city, and those desiring to assist may do so at that time. It is estimated that the expense will approximate \$200, and about one-half of that sum will be required for the packages for the soldier and sailor boys, and most of the balance will go for the packages for the children. Therefore, it is believed that, under the circumstances, almost everyone who can conveniently do so will be glad to donate a small amount to the good cause.

### CITY TRUSTEES MEET ON THE SIDEWALK.

ADJOURNMENT TAKEN AFTER A SHORT SESSION.

Probably for the first time in the history of Huntington Beach, or any other city in Southern California or elsewhere, a session of the city trustees was held on the sidewalk Monday evening.

This all occurred because the city officials were unable to gain admission to the council chamber. City Clerk Chas. R. Nutt accompanied the band to Anaheim; City Manager Geo. W. Spencer resides in Long Beach, and City Marshal John Tinsley could not be found just at that time, and President of the Board of Trustees Will Tarbox announced that a short session of the Board would be held on the sidewalk, as it was essential that the resolution relative to Newport harbor be passed.

Trustee Huston acted as city clerk pro tem, and, while the resolution referred to was in the safe in the city clerk's office, Mr. Huston read what he could remember of it, and a motion to adopt prevailed.

Deputy Clerk Huston did not have any paper with him, so he wrote the minutes of the session on the wall of the city building.

Trustee Huston will probably tell you that the story about his writing the minutes of the meeting on the front wall of the building is about as near correct as the one told by Doc Cook about his picking up the north pole one frosty morning in the solitudes of the frigid zone—and perhaps he is correct.

Adjournment was taken until next Monday evening.

**WEEKLY GREETING.**

Are not all true men that live, or that ever lived, soldiers of the same army, enlisted under Heaven's captaincy, to do battle against the same enemy—the empire of Darkness and Wrong?—Carlyle.

**GOV. STEPHENS IS A "LAME DUCK."**

According to press reports, Governor William D. Stephens of the State of California is an unpatriotic citizen. The reports state that the governor declined to obey the Hoover food regulations being enforced at the Beverley Hills Hotel.

This is a regrettable circumstance, if true, as the first citizen of the state should certainly be patriotic enough to obey the food requirements of the Federal Government, if he desires that a patriotic spirit prevail in the commonwealth over which he has the honor of presiding.

It has been generally conceded that there was little chance of Gov. Stephens being successful at the August, next, primary, and the Beverley Hills incident destroys any vestige of a chance he may have had to succeed himself at Sacramento. Gov. Stephens might be termed one of California's political "lame ducks." His career as governor might be compared to that of President Taft, who was unfortunate enough to cause an estrangement with most of the friends to whom he was indebted for his success, and made few new ones by the use of the reverse lever on his political machine.

It is unfortunate for Gov. Stephens that he did not remain in Congress, where little executive ability is required to hold the job.

**ALL RULES SHOULD BE OBEYED.**

There is now a splendid opportunity for every citizen, whether of military age or not, to be patriotic. There has been considerable honest difference of opinion about drafting men for the trenches in Europe. The question is one of the gravest ever considered since the Declaration of Independence, and it therefore follows that there naturally would be a marked divergence of thought by the citizens of a free republic upon this subject.

The American public is gradually recovering from the tremendous shock rendered by the adoption of the selective draft law, and apparently a large majority now realize that it is too late to argue the question, and are supporting the administration's war policy in every possible way.

There are many ways in which every citizen can assist in making the world safe for democracy. The government has designated certain days when no meat or wheat products must be used, in order that greater quantities of these necessities may be transported to the European battlefields. The meatless and wheatless days, of course, are merely requests made by the Federal government, and their enforcement would be extremely difficult, as there is nothing to prevent those who desire to disobey the law from making sufficient purchases in advance to tide them over the forbidden days. Therefore, these days are occasions when the honor of the citizenship of the country is on trial, and everyone has a fine chance to obey the mandates of President Wilson and assist in the war of freedom. However, those who disobey the food regulations are subject to prosecution, and there will no doubt be some arrests for violations.

There is little doubt but what about 99 per cent of the population of the United States are opposed to war, under ordinary circumstances, but now that a state of war exists, the government is entitled to the co-operation of every citizen. There is no other safe course to pursue.

An official survey disclosed the fact that there are in the City of New York 2,650 printing plants employing 63,450 people receiving salaries and wages of \$76,955,000 per year and turning out a product valued at \$215,570,954. From these figures it is found that one-twelfth of the printing of the world is produced in the City of New York, and that only one other industry in that city, the manufacturing of clothing, excels printing.

Doing is as devout as praying. Religion consists not in praying a prayer but in being a prayer.—William A. Quayle.

Red and white will be the graduating colors. The officers elected were: Donald Hawes, president; Mary Bundschuh, vice-president; Gertrude Skinner, secretary; Bennie Page, treasurer.

Ocean View basketball boys were given a hard drubbing by Central last Tuesday, at Wintersburg. The final score stood 18 to 9 in favor of the locals. Both teams played hard and fast. Weight was in favor of Central, but their plucky little opponents kept them going. A return game may be played today on one of the High school courts.

## MAKING IMPROVEMENTS.

One thousand new steel coal cars with collapsible floors for quick dumping, are being delivered to the Los Angeles and Salt Lake Railroad at a cost of \$2,000 each. This expenditure of two million dollars is part of a general plan to expedite transportation of fuel and help relieve the coal shortage occurring frequently in various localities.

A modern concrete coal terminal costing \$250,000 and operated by electricity, is being completed at Provo, Utah, by the Salt Lake Route. Coal from the mines will there be swiftly transferred to through cars. The terminal includes storehouse, roundhouse, shop, water tanks, big chutes and a trestle. An engine coaling station with a capacity of 200 tons and costing \$20,000 has been established at Caliente, Nevada, on the main line to California.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

**THE NEW YEAR DRAWS NIGH.**

Not having saved a dollar this last year, I propose to start the New Year right. By putting away \$1.50 the first month and adding to this amount 25c each month, I can, in four and one-half years, own two fine lots, well located, and which will give me a good and permanent investment.

To accomplish this, means that I will have to save five cents a day the first month, and a fraction of a cent more each day in succeeding months. Instead of having nothing at the end of another year, I will have something to show for a little effort.

**Does this mean YOU?**
