(o) RESULTS: (For all hits claimed on ship targets and for land targets of special interest, draw diagram, top or side view or both, as appropriate, showing type and location of hits. For all targets give location and effect of hits, and identify by numbers above. Use additional sheets if necessary).

Impossible to observe specific results since the attack was simply area bombing.

This attack was similar to the other Special Support Missions in that the planes orbitted at a point until told by the Support Leader to attack a specified area.

All equipment functioned perfectly
