Q12 - In 2021, what were the THREE BEST POINTS in relation to the organisation of the contest?

In 2021, what were the THREE BEST POINTS in relation to the organisation of the contest?

- Possibilité de participer à plusieurs - Bon suivi et disponibilité de l'organisation

The support from Team The documentation on Wiki The support to submit grants

N/A

Convivial, autonome, motivation

Le choix du thème La communication sur les réseaux sociaux La qualité des prix

In this contest they will help and increase Wikipedia articles

I loved getting to know you guys more by correspondence and during the LIVE interview. That is strong venue to hold on to. I would personally be open to do more (if the time allows) than only participating in a contest, but am not sure yet exactly how :)

Workshops Availability of data during workshops Transportation

Quality pictures Skills oriented

Thematic, good organization, nice winners

Post the contest on the best social media Make videos to explain how to register for the competition Paying attention to the local competition and solving the funding problem for some countries because it is the basis of the global competition

La coordination

1) I learned how to upload photos on Wikipedia 2) I also learned that from my contributions I might have international openings. 3) I also learned how to serve the community more in a better way.

Le thème Les webinaires La communication sur les réseaux sociaux en anglais

1. Clear to understand. The theme was clear and straightforward 2. It focuses on things going on in our house, homes and country. 3. Inclusive from all corners.

Q13 - In 2021, what were the THREE POINTS TO IMPROVE in relation to the organisation of the contest ?

In 2021, what were the THREE POINTS TO IMPROVE in relation to the organisation of the contest ?

Avant le concours, la formation en elle-même était longue et était entrecoupée dans le temps. Ce qui ne garantissait pas toujours la disponibilité de tout le monde. Il aurait été plus évident de miser beaucoup plus sur des séances en ligne pour des questions théoriques et programmer des séances en présentiel pour des questions pratiques.

Explaining the theme

N/A

Communication, participation, rigueur

Meilleure communication par les groupes locaux, usergroup des pays Il faudrait intégrer une formation et information des wikimédiens sur comment contribuer à l'amélioration des images téléversées (ajout de catégories, metadonnées), pendant ou après le concours.

In this contest they will develop Wikimedia Commons

Wiki loves Africa in general and the contest specifically is not very well known in Senegal / West-Africa in my knowledge. I got introduced to it by a colleague, but hardly hear 'other photographers/creatives' talk about the platform nor the contest. So I think on the publicity side (online and offline) a lot can be gained.

Communication Organisation Sensitization and motivation

Allowance for participants

I don't know

More motivation for local organisers Increasing the number of incentive prizes Display the winning photos on Jameel's social media more

La durée courte

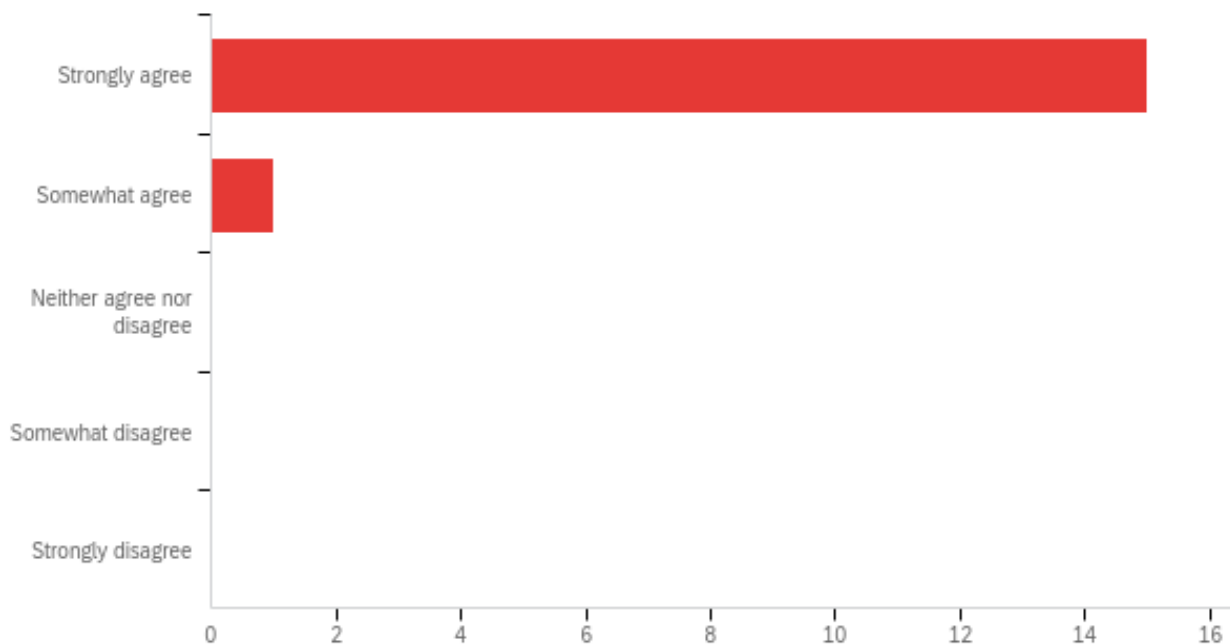

1) The organization wasn't the best, on a 100% they have 40%. 2) The level of motivation was low and as well as the tools needed to carry out the project. 3) Level of communication was low as well.

Pas assez de communication sur les réseaux sociaux en français

1. The disassociation of other user groups within a country in promoting it on their social media platforms. 2. Local organizers given relevant related awards 3. Rewards not taking too much a time to be released to winners
