NURSERIES AT CAMBRIDGE, TWO MILES FROM THE CITY.

DESCRIPTIVE

CATALOGUE OF PEARS

EMBRACING MANY NEW AND CHOICE VARIETIES.

For the Fall of 1853 and Spring of 1854.

PRESS OF J. L. HALLWORTH, NO. 37 WASHINGTON STREET, BOSTON.

CATALOGUE.

PEARS.

TREES, 50 TO 75 CENTS EACH. NEW AND RARE KINDS, \$1 TO \$2 EACH.

TREES OF EXTRA SIZE, ON THE QUINCE, WITH NUMEROUS FRUIT-BUDS, \$1 TO \$3 EACH.

No pains or expense have been spared to make our collection of Pears one of the most complete in the country. The nurseries of England, Scotland and France have been visited, personally, for the express purpose of selecting all the desirable varieties; and a correspondence with all the principal pomologists in Europe, has enabled us to add every variety worthy of cultivation. Of American seedlings, particular exertions have been made to form a complete collection, and upwards of *eighty* varieties have been obtained, some of which are not surpassed by any foreign kinds. These, it will be seen, we have arranged in a section by themselves, which we hope will be found more acceptable than if intermixed with foreign varieties.

To enable us to become perfectly acquainted with all the numerous varieties, upwards of Two THOUSAND SPECIMEN TREES have been planted out upon the borders of the walks, which are now in full bearing, affording an opportunity for ascertaining their relative qualities, and of ensuring correctness in their nomenclature. We particularly invite our friends and all pomologists to inspect our trees.

In a collection so extensive, it is impossible to keep a stock of all the varieties; but when trees cannot be furnished scions can be substituted in their place.

Those marked (Q.) may be had upon the quince stock.

1. AMERICAN VARIETIES.

NAME.	Size.	Qua.	Text.	Season.	REMARKS.
1. Andrews,*	1	1	melt.	Septem.	A delicious pear.
2. Adams,*	1	1	melt.	Septem.	New, beautiful and delicious.

339. Zepherine Gregoire, . .	2	1	melt.	Novem.	New and fine.

ADDITIONAL PEARS.

WE have in our collection upwards of THREE HUNDRED VARIETIES of Pears, besides those above enumerated, whose qualities have not been fully proved. Many of them will probably prove synonymous with the above, while others will, without doubt, be new and highly valuable additions to any collection. They have been received from various sources, both abroad and at home. Specimen trees of all of them are planted out, and as fast as they are proved their qualities will be made known. Trees of many of them will be for sale in the autumn of 1854.

For a description of our entire collection of Fruit Trees, purchasers are referred to our General Catalogue, which may be obtained on application.

The Nurseries are situated on the Cambridge road to Mount Auburn, half a mile east of Harvard Colleges, and about two miles from Boston. A large Conservatory, three extensive Green-houses, and a Hot-house, have been erected, which are filled with choice collections of Camellias, Roses, Pelargoniums, Ericas, Azaleas, and Miscellaneous Plants. All amateurs and lovers of plants are invited to visit the Nurseries.

A liberal discount will be made to the Trade, and to individuals purchasing large quantities of trees.

PARTICULAR NOTICE.—EXTRA SIZED trees, of the most popular kinds, full of FRUIT BUDS, can always be supplied.

☞ **All orders should be directed to "HOVEY & CO., BOSTON."**

CATALOGUES of *Garden and Flower Seeds*,—*Dahlias*,—*Bulbous Roots*,—*Fruit Trees*,—*Ornamental Trees and Shrubs*,—*Roses*,—*Green-house Plants*. &c. may be had separately, and will be forwarded to all applicants, enclosing a postage stamp.
