SUBJECT: Rayon Fabrics Exported to Hong Kong

1. Attention is invited to the attached copy of radio message from Hong Kong. It is directed that an investigation be made to determine if fabrics were shipped to Hong Kong which were in a damaged condition prior to shipment, as the radio from Hong Kong indicates. The investigation will also determine what agency or agencies are at fault and a complete report of the findings will be submitted to General Headquarters, Supreme Commander for the Allied Powers, Attention: Economic and Scientific Section, Foreign Trade Division.

2. It is further directed that the Board of Trade establish corrective measures to insure that damaged goods will not be exported in the future. A report of these measures, in detail, will be supplied.

MEMORANDUM FOR: The Board of Trade, (Boeki Cho)
Ministry of Commerce and Industry, Tokyo

SUBJECT: Provisional Production Schedule (Additional)
for Export -2nd Quarter 1947.

1. Pursuant to paragraph 6 of Memorandum from General Headquarters, Supreme Commander for the Allied Powers,, AG334 (3 Apr 46) ESS/IE. (SCAPIN 854), dated 3 April 1946, subject: Board of Trade (Boeki Cho), the Board of Trade is directed to arrange for the manufacture of cotton yarns from 371 bales of cotton described below by the Minsei Boseki Company to which this cotton is authorized to be released for export production.

a. Particulars on Released Cotton: spinning mill-Minsei Boseki Co. Cotton arrived aboard S/S "Thos. U. Walter" Production Period -2nd Quarter, 1947. Use - Export Fabrics

Grade	Staple	Quantity (500# b/s)

SGO	7/ 8"	25
SM Spot	13/16"	13
SLM	13/16"	85
		Total 371 b/s

2. The release of these 371 bales is in addition to the 177,793 bales released by Memorandum BT 47-191 dated 22 March 1947 for the Export Provisional Production Schedule. Need for these additional 371 bales has arisen from the fact that the Textile Bureau had not been able to determine whether Minsei Boseki was to be engaged in production for domestic or export use at the time the original provisional export production was drawn up. It was subsequently decided by the Textile Bureau that Minsei Boseki would be engaged in the production of yarns for export; hence, the need for this additional release.

BASIC: Memorandum to Board of Trade (Boeki Cho) 423 (25 Apr 47) ESS/FT, (BT 47-275), Subject: Provisional Production Schedule (Additional) for Export - 2nd Quarter 1947.

3. All controls, regulations and limitations contained in Memorandum BT 47-191 dated 22 March 1947 are to apply to this additional release.

MEMORANDUM FOR: The Board of Trade (Boeki Cho),
Ministry of Commerce and Industry, Tokyo

SUBJECT: Release of Additional Raw Cotton for Domestic Consumption in the 4th Quarter 1946.

1. Pursuant to paragraph 6 Memorandum from General Headquarters, Supreme Commander for the Allied Powers, AG 334 (3 Apr 46) ESS/IE, (SCAPIN 854), dated 3 April 1946, subject: Board of Trade (Boeki Cho), the Board of Trade is directed to transfer title by sale of 176 bales to companies appearing below and to transfer 25 bales of cotton previously released for the 3rd quarter 1946 domestic production plan for use under the 4th quarter 1946 production plan.

a. Transfer title by sale the following cotton:

Mill	Quantity	Vessel
Dai Nippon	48 bales	SS Arthur Riggs
Toyobo	40 "	"
Shikishima	41 "	"
Fuji	7 "	"
Nisshin	30 "	"
Total	176 bales	

b. Transfer from 3rd quarter 1946 domestic production schedule to 4th quarter 1946 production schedule the following:

Mill	Quantity	Vessel
Dai Nippon	4 bales	SS Arthur Riggs
Toyobo	8 "	"
Shikishima	4 "	"
Fuji	6 "	"
Nisshin	3 "	"
Total	25 bales	

2. Notice is to be taken that the 176 bales released under

BASIC: Memorandum for the Board of Trade (Booki Cho), 423 (17 Apr 47) (BT- 47-260), dated 17 April 1947, subject: Release of Additional Raw Cotton for Domestic Consumption in the 4th Quarter 1946.

paragraph 1.a represents hitherto unreleased cotton, whereas the 25 bales cited in paragraph 1.b merely represents a transfer of cotton previously released under BT-27, dated 31 July 1946. All cotton mentioned in this Memorandum is to be used in the domestic program previously submitted by the Japan Textile Bureau and approved by Memorandum dated 30 January 1947, BT 47-58.

3. Need for the increased release and transfer of cotton is due to the low out-turn of yarn of high counts produced from SXP cotton. The original production plan envisaged spinning of 50's, 60's, and 66's count yarn from SXP cotton without requiring a combing process. However, combing was found necessary, thus requiring a larger amount of cotton than the original estimates.

4. All restrictions and regulations governing the disposition of CCC Group I cotton as mentioned in Memorandum BT 47-58, dated 30 January 1946, remain in effect.

SUBJECT: Release of Raw Cotton for 1st Quarter 1947 Domestic Consumption

1. Pursuant to paragraph 6 of Memorandum from General Headquarters, Supreme Commander for the Allied Powers, AG 334 (3 Apr 46) ESS/IE, (SCAPIN 854), dated 3 April 1946, subject: Board of Trade (Boeki Cho), the Board of Trade is directed to arrange for the manufacture of the specified products for use within Japan provided for in this proposal based on the distribution of raw cotton shown in Tables 1, 2 and 3 attached. The releases and transfers authorized by this Memorandum are to be effective as of 28 March 1947.

2. Schedule D-8, covering additional raw cotton for domestic consumption during the 1947 1st Quarter, has been prepared by the Textile Bureau of the Ministry of Commerce and Industry and submitted through the Board of Trade to Supreme Commander for the Allied Powers as required by paragraph 2.e (1) of Raw Cotton Regulations, issued by the Economic and Scientific Section (15 Jun 46, BT-2). This schedule provides for the allocation of 18,815 bales of cotton, of which 18,597 bales constitutes hitherto unreleased cotton. The balance of 218 bales consists of 3 bales previously released for domestic consumption during the 4th Quarter of 1946 and which is to be transferred to the 1st Quarter of 1947, Domestic Program, and 215 bales of cotton released on a previous export production program covering bed sheets.

3. This release is specifically confined to cover the above mentioned 18,597 bales of previously unreleased cotton and the transfer of 3 bales from the 4th Quarter 1946 program to the 1st Quarter 1947 Domestic Program. The request to transfer 215 bales of cotton from an export program to domestic consumption is denied. The above lot of 215 bales comprises but a portion of the cotton previously released for export and eventually to be transferred to domestic use. The Board of Trade was instructed in paragraph 3 of Memorandum dated 30 January 1947 (BT-47-58) to prepare a production schedule incorporating all cotton previously released for export production of bed sheets and pillow cases and which remain in raw cotton form due to a change in previous production plans. Upon receipt and approval of such a program covering all cotton presently held under the cancelled bed sheets and pillow cases program, the Board of Trade will be instructed to proceed with the disposal of this cotton. The 18,597 bales of newly released

BASIC: Memorandum for the Board of Trade (Boeki Cho) 423 (16 Apr 47) ESS/FT, (BT - 47-251), dated 16 April 1947, subject: Release of Raw Cotton for 1st Quarter 1947 Domestic Consumption

cotton and the three (3) transferred bales are to be used as follows:

a. 16,701 bales for yarns and fabrics,

b. 1,899 bales for absorbent cotton

18,600 bales - total (of which 18,597 bales are newly released cotton)

4. Pursuant to the authority cited in paragraph 1, the Board of Trade is directed to transfer title by sale of 18,597 bales of cotton to the companies named in the reference schedule. Particulars regarding the allocation and uses of this cotton are contained in tables 1, 2, and 3 attached.

5. The CCC Group I cotton covered by this release will be manufactured in accordance with Schedule D-8 during the 1st Quarter of 1947. The various grades and staples of this raw cotton approved for manufacture into products for domestic use may be mixed or combined for the purpose of obtaining the most practical and effective manufacturing operation of spinning mills. In no event, however, may any quantity of this cotton be blended, mixed or combined in any way with the raw cotton to which title is held by the Board of Trade and which is included in an approved export manufacturing schedule.

6. All cotton waste produced from this raw cotton and not reintroduced into the manufacturing process, as well as the bagging and ties around the cotton bales, are considered the property of the manufacturers purchasing the cotton from the Board of Trade and may be disposed of by them in accordance with regulations of the Textile Bureau.

7. Control over the distribution of the manufactured cotton textiles and other products containing cotton to be made for domestic use from this imported CCC Group I cotton will be exercised by the Textile Bureau, in accordance with allocation plans attached to the schedules submitted.

8. Separate records as to inventories and processing of this purchased cotton will be maintained by all spinning, weaving and processing plants receiving allocations of CCC Group I raw cotton or cotton yarn intended for domestic use. Weekly reports on Forms ESS 23 and 24 are required from all spinning and weaving mills
