

## Founding

Our community was established in 2019 for the purpose of working together with Turkic-speaking users in Wikimedia projects.

## Turkic Marathon

With Turkic Marathon, we developed and produced Wikipedia articles about Turkic culture and countries. We also completed the missing articles in the Turkic language versions of Wikipedia.

## Collaborations

By contacting institutions and organizations related to the Turkic world, we work on various cultural cooperation projects, especially the diversification of freely licensed content.

## Events

We have been organizing various national and international events, especially the Wikidata conference, in Istanbul since 2022. Recently, we held the Turkic Wikimedia Conference in Istanbul, Türkiye between 20-22 October 2023.

## MCDC Ambassador Program

As a community, we participated in the MCDC Ambassador Program in 2023. We held various workshops on Movement Strategy and activities such as translating pages into Turkic languages.

**As of April 2024, we are a huge family with over 100 members from over 10 countries. Together, we will continue to pass on our cultural heritage to future generations in a freely licensed manner.**
