1 ANNOUNCER: Uncle Sam's Forest Rangers!

2 MUSIC: THEME

3 ANNOUNCER: Once again, great floods have ravaged heavily populated
4 sections of our country, have destroyed lives and
5 property, and have caused untold suffering and human
6 distress...Contrary to popular belief, floods are not
7 in themselves an act of God alone. Disasters such as we
8 have just experienced along the Mississippi have their
9 beginning in the headwater areas, in the little streams
10 where the waters congregate before they unite to form
11 the big rivers. And the way man treats those headwater
12 areas has a lot to do with how much and how rapidly
13 the water runs off. Foresters have for years maintained
14 that forests have a mighty important part in flood control.
15 Foresters contend that in the control of floods, measures
16 on land are as important as measures in the river, and that
17 through proper land use, through good forest practices,
18 and through close integration of forestry and engineering,
19 the severity of floods can be greatly lessened and, under
20 many conditions, floods may largely be prevented...Now to
21 the Pine Cone National Forest where we find Ranger Jim
22 Robbins and his assistant, Jerry Quick, on the way to
23 Winding Creek where they've been invited to attend a
24 special meeting of the Town Council. Here they are:
25 FADE IN SOUND OF RAIN, MOTOR, SQUEAK OF WINDSHIELD WIPER, SUSTAIN

1 JIM: Easy does it, Jerry. We're not in that big a rush...
2 Slow down.

3 JERRY: If this blasted rain would only stop. A feller can't make
4 any time driving in soup like this...But we were talking
5 about this meeting, Jim.

6 JIM: Yeah. I guess it's gonna have something to do with forestry
7 seein' as how Andy Goodman sent us those special invitations
8 to be on hand.

9 JERRY: You think maybe it's got something to do with the town
10 forest - the Winding Creek Watershed?

11 JIM: Could be. We've helped 'em right along with their
12 planning and the selective cutting of the big timber up
13 there, you know. I don't see, though, what more needs to
14 be done about the watershed right now.

15 JERRY: Well, I've heard a crazy rumor that's being nosed around,
16 that some of the Council members are all for clear-cutting
17 the town forest, Jim.

18 JIM: Huh? What's that?

19 JERRY: Yeah. There's been some talk about selling off all the
20 timber in the watershed...you know, while the demand's way
21 up and prices are good.

22 JIM: Jerry, you serious?

23 JERRY: I'm just telling you what I heard, Jim.

24 JIM: Well, I'll be doggonned. So that's it, h.h? Of all the
25 cock-eyed notions I've ever heard...Step on it, Jerry.
Get 'er clear up to thirty-five if you can. Rain or not,
I don't want to miss a minute (FADE) of that meeting.

1 PAUSE

2 FADE IN CROWD NOISE, THEN DOWN AND OUT, OCCASIONAL PEEL OF THUNDER OFF

3 ANDY: Well, that's about the size of it, gentlemen. All of us
4 men here on the Town Council have got sons or brothers,
5 and some of us have daughters too, in the armed forces.
6 We're hankering to pitch in with 'em even more than we've
7 done so far. We figure "going all out in the war job"
8 means a lot more than increasin' our savings through War
9 Bonds, and growing Victory Gardens, and doin' air-raid
10 warden jobs and the like. Uncle Same says the boys and
11 girls need more timber. Well, we've got timber - good
12 timber - up there in our town forest. We've been selling
13 some of the big trees outa the forest, but now we figure
14 that at a time like this we oughta be sending every last
15 stick of it to war...Now, we kinda thought it'd be nice to
16 have Ranger Jim Robbins and Jerry Quick down here today
17 to.....

18 MATT: Hold on a minute, Andy...You might as well give Jim Robbins
19 the whole picture. It don't hurt to point out that selling
20 off our timber is goin' to help build up the town funds,
21 too. Speakin' as Town Treasurer, I'd say that was kinda
22 important. We can get a good price for that timber right
23 now, don't forget.

24 MURMUR OF VOICES:

25

The first part of the document is a letter from the
 Secretary of the State to the President of the
 Senate, dated the 15th day of January, 1877.
 The letter is addressed to the President of the
 Senate, and is signed by the Secretary of the
 State. The letter contains the following text:
 "I have the honor to acknowledge the receipt
 of your letter of the 14th inst., and in reply
 to inform you that the same has been
 forwarded to the proper authorities for their
 consideration. I am, Sir, very respectfully,
 your obedient servant,
 J. B. [Name]
 Secretary of the State"

J. B. [Name]

Secretary of the State

1 ANDY: (CHUCKLES) Whenever you pipe up, Matt Singlefield, I
2 can't figure whether you're speakin' more as the town
3 treasurer or the town banker...But anyhow, you've got a
4 good point there, and Jim, we'd like to...well...we'd like
5 to get your reaction to this whole business. You and
6 Jerry are both welcome to speak up.

7 JIM: All this kinda puts Jerry and me on the spot, Andy. Looks
8 to me like you fellers have about made up your minds to
9 clear-out that timber, and anything we might say won't
10 matter much.

11 ANDY: Aw, now, Jim, we don't want you to look at it that way.
12 Shucks, you've been a big help all along with those woods
13 of ours, and we'll be glad to listen to anything you wanta
14 say...I take it our plans don't rest very well with you,
15 huh?

16 JIM: No, Andy, frankly they don't. I appreciate you feeling of
17 patriotism of course, and that practical money angle Matt
18 mentioned too. But what you fellers are planning to do,
19 seein' as how you asked my opinion, what you fellers have
20 in mind is a mighty short-sighted thing.

21 MATT: I told you he'd be against it, Andy. I wondered if it was
22 a good thing to have these forestry fellers here.

23 NOISE UP

24 POUNDING OF GAVEL
25
26

1 ANDY: That'll be enough of that, Matt. Jim's our guest today,
2 don't forget.

3 MATT: Shucks, I didn't mean any personal offense.

4 JIM: That's all right. I don't mind Matt...I'm not thinking
5 about myself, fellers. I'm thinking about a lot of fine,
6 young growing trees that ought not to be cut before they
7 mature. And about you men, and your wives, and your
8 children who enjoy the pure, clean water from the stream
9 those trees help to keep clear and pure. I want to
10 remind you gentlemen that that town forest is a watershed
11 forest. It protects most of the watershed from which
12 Winding Creek gets its water supply.

13 ANDY: We've been all through that, Jim. Maybe cutting off that
14 timber is gonna muddy up our water a little bit, if that's
15 what you mean. But I reckon it ain't gonna hurt us too
16 much. Some of our boys have to drink worse sometimes.

17 MATT: Another thing, Jim. You didn't have no objections about
18 cutting in those woods to begin with. How come you're
19 objecting so strenuously now?
20
21
22
23
24
25

1 JERRY: Let me answer that, Jim. I helped in that town sale...
2 Look, Mr. Singlefield. We went along with you in cutting
3 the big, overmature timber up in the watershed on a
4 highly selective basis. The timber we marked for cutting
5 was ready for cutting, see? And it could be taken out and
6 still leave a good stand of younger trees that'll grow
7 more timber and at the same time protect the watershed. Now
8 that's altogether different from what you propose to do now.

9 MATT: Yeah, yeah. I know about all that. I'm not arguin' against
10 the importance of things agrowin' on a watershed. But aren't
11 you forestry fellers worryin' more about that than need be?
12 I reckon someday we can plant some more trees up there if
13 we need to.

14 ANDY: Yeah, Jim, why couldn't we plant it all up again after the
15 war's over?

16 JIM: There's plenty of cut-over land in this country needing
17 planting already, Andy, without laying waste any more of
18 it..No, fellas, I can't help but feel that if you let all
19 that timber be cut you'll be upsetting the natural balance
20 so much there's no telling what'll happen in a time like
21 this of steady rain, or during a cloudburst like we get
22 here sometimes.

23 (SOUND OF THUNDER, OFF)

24 ANDY: It sure has been a-rainin' here today...almost like a
25 cloudburst right now.

1 JERRY: That's right, Mr. Goodman. I've seen what a cloudburst
2 can do where the natural cover of the land is all shot.
3 In the case I'm thinking about in southern California -
4 it was forest fires that did what clear cutting here
5 might do...took off the land all the material that helps
6 to hold the water, see? Well, there in Los Angeles County
7 back in 1933, they had one of the most tragic and destructive
8 single floods they'd ever had...34 people were swept to death,
9 more than 400 homes destroyed and all. Twelve inches of
10 rain fell in 56 hours. It rained like that all over the
11 mountain, but it was out of the watershed canyon that had
12 burned over a few months before that the big flood came.

13 MATT: Yeah, but that was in Southern California, not here in
14 Winding Creek County...Besides, are we going to stay behind
15 Willow Glenn in this business? They cut all their timber
16 last year and they've been talking mighty proud about it
17 ever since. And it hasn't bothered their water supply any
18 that I've heard about, either. I'm surprised you fellers
19 don't drag in this Mississippi flood they've just been
20 having in the midwest. I guess that was plenty bad, but,
21 shucks, that can't happen here.

22 ANDY: What about that, Jim? I mean about Willow Glenn? They
23 haven't had any trouble since they sold off all their
24 timber.
25

1 JIM: They cut off their timber down there around Willow Glenn
2 before I even knew about it. If I'd had the chance I'd
3 have protested as much as I'm protesting here today. What
4 you fellers don't seem to realize that it's because of
5 misuse of land in places like this - yeah, here in the
6 Winding Creek watershed and around Willow Glenn - that
7 rivers like the Mississippi get much of their awful
8 power to go on their terrible rampages. As for Willow
9 Glenn, well, I'm not so sure trouble won't catch up with
10 them yet. I say it's been building up all the time...it
11 won't take many storms like this one (THUNDER) we're
12 havin' today to slide part of the mountain of theirs down
13 on their heads or to bring their river above flood stage
14I know the silt is piling up fast in their reservoir.
15 I've seen it.

16 MATT: Don't you Councilmen let Jim Robbins scare you with that
17 talk like that. We've got our patriotic duty to do here,
18 besides our duty to the town treasury, and we ought to get
19 on with the voting to make it all official, Mr. Chairman.

20 ANDY: I guess Matt's right, Jim. I'm sorry you won't go along
21 with us in this matter, but if there's nothing else you wanta
22 say I reckon we better go ahead and vote on it...
23
24
25

1 JIM: Only one thing more I gotta say, Andy. Seems to me I
2 recollect you men bought up all that watershed land and
3 timber years ago to safeguard this town's water supply.
4 With the right kind of forestry management you can keep
5 that watershed protected, and at the same time realize a
6 small but steady return year after year from the sale of
7 mature timber. If you strip off all the timber now, you
8 sacrifice future returns for a little more money now,
9 and you jeopardize our future water supply. That's something
10 to think about, men, when you vote to clear-out your watershed.
11 I guess that's all. I reckon we better go, Jerry. This
12 is one voting session I don't want to sit in on....

13 ANDY: I understand, Jim. We appreciate your coming down here just
14 the same, and....

15 SOUND FIRE GONG OFF, REPEAT URGENTLY THROUGH JIMMY'S ENTRANCE, THEN OUT

16 JERRY: Say, that's the town alarm...something's wrong....

17 JIM: Yeah, must be a fire somewhere in town....

18 MATT: (CHUCKLING) I'm surprised Jim Robbins here didn't say a
19 flood...Missed a good chance there.

20 ANDY: I don't think that's funny, Matt. We getter go find out
21 what the trouble is...

22 JERRY: Wait...Somebody's coming...Running up the hall...(SOUND OF
23 RUNNING FEET) It's Jimmy...Little Jimmy Calhoun.

24 JIMMY: (COMING ON, BREATHELESS) Mr. Goodman...Mr. Goodman..

25

1 ANDY: Here I am, Jimmy. Take it easy, Son! Go on, breathe
2 deep now, and tell us what's wrong.

3 JIMMY: (TAKES DEEP BREATH) Well, they told me down at the
4 telephone office I'd find you here...They just got a call
5 for help from Willow Glenn and...and they want you and all
6 the men here to get right on down there...

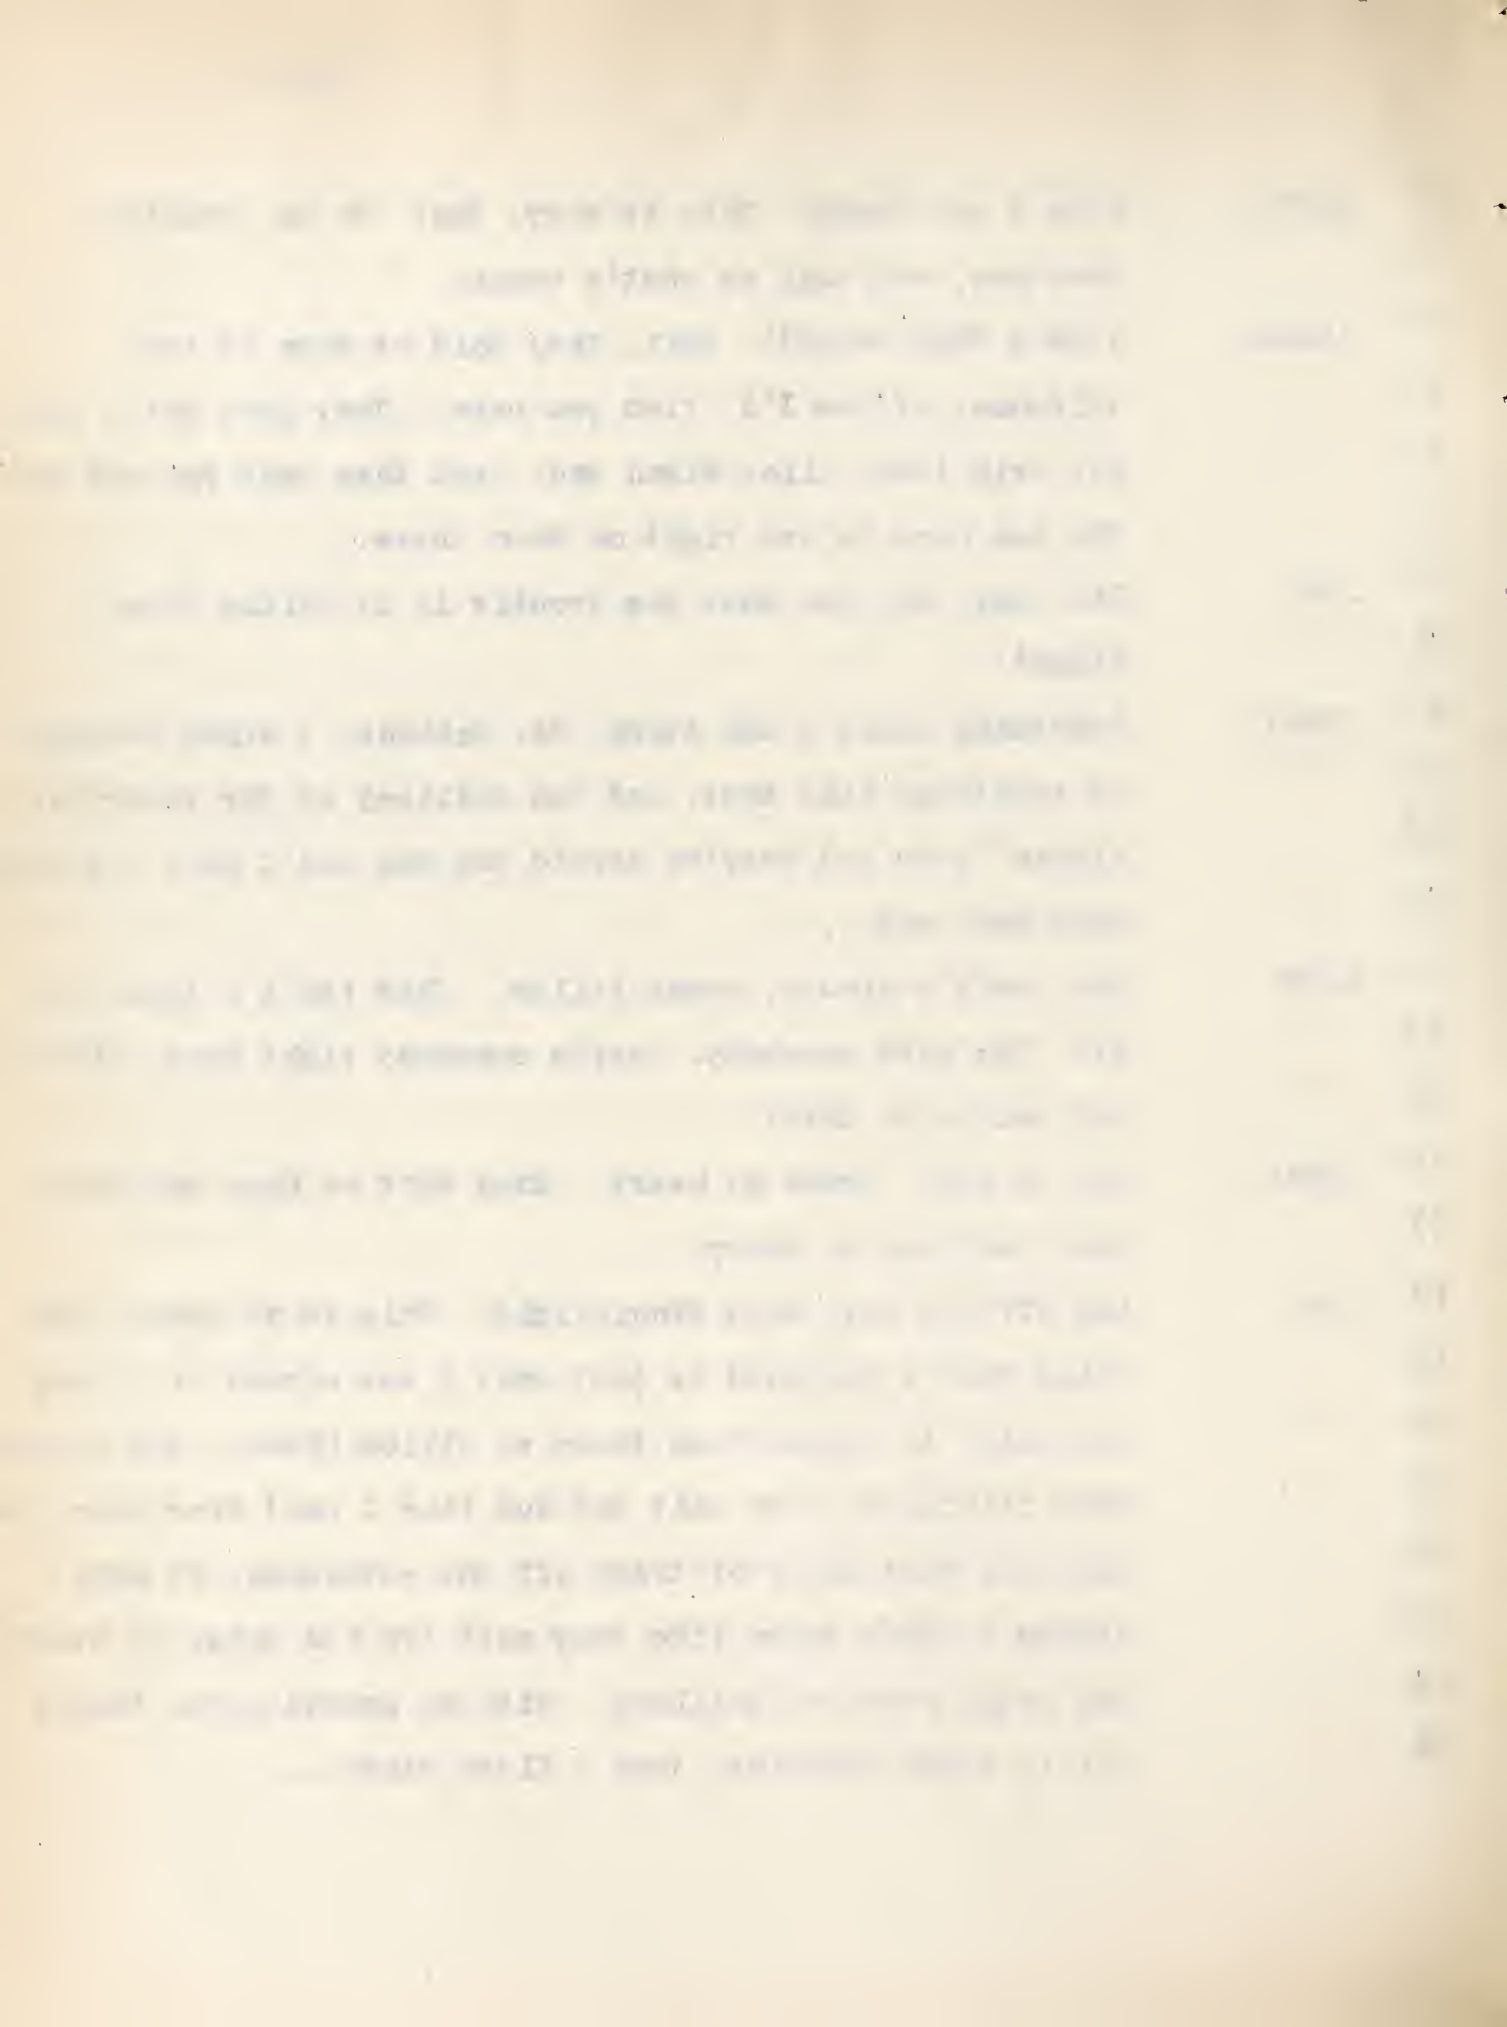

7 JIM: Did they tell you what the trouble is at Willow Glenn,
8 Jimmy?

9 JIMMY: Something about a bad storm, Mr. Robbins, a cloud busting
10 or something like that, and the spillway at the reservoir
11 flowin' over and they're afraid the dam won't hold and they
12 need help and....

13 MATT: Now, wait a minute, young feller. This isn't a joke, is
14 it? You sure somebody...maybe somebody right here, didn't
15 put you up to this?

16 JIMMY: Oh, no sir! Cross my heart...they sent me here and..and
17 they want you to hurry.

18 JIM: Lay off the boy, Matt Singlefield. This is no joke!..The
19 thing that's happened is just what I was afraid all along
20 was goin' to happen down there at Willow Glenn...The reservoir
21 been filling up with silt and mud like I said ever since they
22 took all that cover of trees off the watershed..It only
23 needed a heavy storm like they must 've had today to start
24 the water over the spillway. With no ground cover that's
25 all it takes sometime, just a flash storm.....

1 JERRY: Yeah, and if that dam goes out it's gonna flood the town.
2 We better get going, Jim, if we're going to be any help
3 to those Willow Glen folks...

4 ANDY: Wait a minute, Jerry, You too, Jim...

5 MATT: Golly, I wouldn't a believed it. No sir, not in a million
6 years. I'm sorry, Jim dadblamed sorry I've been baiting
7 you like I have.

8 ANDY: Jim, I reckon all you got to do is look at the faces of
9 these men here to know we're all sorry...

10 JIM: We better hustle along, like Jerry says, if we're going to
11 help out at Willow Glen, Andy...

12 ANDY: We're all a-goin'...But just let me get this off my chest
13 first, Jim...

14 JIM: I'm listenin'...

15 ANDY: It's a funny thing about folks, Jim. They read and hear
16 about the awful things that are happening all over the
17 world but until the same thing touches 'em directly or
18 comes mighty close...like this Willow Glen trouble now -
19 it don't mean very much, does it?

20 JIM: Sure, that's right as rain, Andy, but still....

21 ANDY: Let me finish, Jim...Jim, there isn't a man here right
22 now who doesn't realize that what's happening down there
23 in Willow Glen could just as easy happen here...We can see
24 that now.

25 MATT: Yes, that's right, Jim.

1 ANDY: It took something like this - happening close by - to
2 prove it. You were right, Jim. And we were wrong, dead
3 wrong... (AGREEMENT FROM CROWD) So I reckon we can settle
4 this town watershed business right now. You needn't
5 worry, Jim. The Winding Creek Watershed won't be clear-cut
6 Not a tree will come down up there unless it can be cut
7 without hurtin' the rest of the stand, and without hurtin'
8 the watershed. Are we Agreed on that gentlemen?

9 AGREEMENT FROM CROWD

10 JIM: That's fine, Andy. And I think you'll find in the long
11 run that your wives and youngsters will be kinda proud of
12 you men on the Town Council for making that decision...
13 Now, seein' as how that's settled, we ought to be on our
14 way to Willow Glen, huh?

15 ANDY: Yes sir.... (POUNDING GAVEL) Gentlemen, all business bein'
16 transacted favorable to everybody (YEAS FROM ALL) I call
17 this special meeting of the Town Council to a close....

18 VOICES UP AND FADE OUT

19 MUSICAL FINALE

20 ANNOUNCER: Uncle Sam's Forest Rangers comes to you each week during
21 the National Farm and Home Hour with the cooperation of
22 the Forest Service, United States Department of
23 Agriculture.....
