Kruger at Rotterdam—Horses for
Africa to Be Shipped From
Montreal

Kenhardt, Cape Colony, June 26.—
The German authorities of Damaraland
have arrested a number of male Boers
who emigrated thither after the recent
fight at Nareegas.

Rotterdam, June 26.—Mr. Kruger was
welcomed at the railroad station on his
arrival here to-day by the burgomaster,
deputations from numerous societies and
many ladies.

Kingston, Jamaica, June 26.—The
chamber of commerce has passed a reso-
lution asking the governor of Jamaica,
Sir Augustus Hennings, to request the
Imperial authorities to send 3,000 Boer
prisoners to the island, Jamaica offering
many and great advantages for farm-
ing.

Montreal, June 26.—The steamers
Hembrandt and Indlan have been char-
tered by the Imperial government to load
horses here for South Africa. The ships
will sail in July and take eight hundred
each.

Missing Passengers of Wrecked Steamer
Lusitania Laid Safely.

St. John's, Nfld., June 26.—Latest re-
ports here show that no lives were lost
in the wreck of the Lusitania. The pas-
sengers escaped, though several of them
were injured. A boat load of passengers
at first reported missing has landed safely.
The ship has been badly forced on
the rocks, has fitted to one side, and is
half full of water.

Shooting On The Trail
Terrible Story of Revenge in the
Klondike Wherein Two
Were Wounded.

Dick Beales Overtaken by Woman
He Had Deceived and
Wronged.

A story of romance and revenge is
told in the Dawson News of June 7th.
It is the story of a husband who for
three years tirelessly searched the high-
ways and byways of the continent, look-
ing for the man who had robbed him of
his wife. A chance clue led him over
the ice and snow into the Klondike last
winter.

The tale as it has been narrated is as
follows:
Near Dawson Herndon found his wife,
deserted and suffering. She had been per-
suaded, as the story goes, by Dick
Beales, that Herndon was dead. By
false proofs he convinced the woman of
this. Only then did she consent to
marry him.

The discovery of how his wife had
been deceived turned Herndon's thoughts
with redoubled fury to the man who
had wrecked both their lives. It was
not the meeting he had planned. He
was thinking that his wife had deliberately
proved false to her marriage vows, had
finally determined that both should pay
the penalty of dishonor with death.

From all sides Herndon heard stories
of Beales' brutality and shameless pro-
digality. Long before Beales had
reached the Klondike he had been
known as a man of no account. He
was said to have resorted to all sorts of
fendish devices to torture her. She stood
it all until one day, when crazed with
hatred, Beales told her that if she
was not dead, and that his own marriage
to her, planned so carefully, had been
a mere joke, a sham, a mockery.

Installation And Banquet

Annual Gathering of United Service Lodge A.F. and A.M. Last Night.

The Pleasant Event Marked by Speech, Song and Story—The New Officers.

The annual installation of the officers-elect of United Service Lodge, No. 24, A. F. & A. M., last night, was celebrated in the customary way—a banquet being given at the close of the interesting ceremonies. The event took place in the Masonic temple, Esquimalt, the headquarters of the lodge, which is in the upper part of the building. The interesting ceremony was conducted under the direction of R. Wor. Bro. T. N. Woodgate, D.D.G.M. of district No. 1, assisted by members of the Grand Lodge, those appointed to control the destinies of the craft during the ensuing term being as follows: I. P. M., Bro. F. J. Bailey; W. M., Bro. C. Enser Sharp; S. W., W. T. Phillips; J. W., R. F. Hankin; treasurer, G. Phillips; sec., C. J. Hazen; S. D., E. Massey; J. D., W. A. Higgett; dir. of cer., A. E. Stanford; asst. dir. of cer., H. C. Warwick; organist, G. G. Bonney; L. G., C. J. Finemore; tyler, C. Hammond.

The installation was followed by the presentation of a jewel to Bro. Bailey, the immediate past master, after which an adjournment was taken to the banquet hall, where a goodly number of visitors sat down with the brethren to a hearty and artistically spread tables. The beauty of the dining hall and decorations gave evidence of the presence and factors of the sons of the sea. Under a canopy of huge flags, which skirted the ceiling and hung in graceful folds down the walls, the richly laden tables combined with the varied uniforms and regalia, completed a very pleasing picture, which was made more brilliant by the pretty electrical effects.

A splendid menu was provided. Rev. C. Enser Sharp, who for the second year is filling the position of worshipful master, proposed the first toast of the evening to the M. W. Grand Lodge, to the King and Craft. Glasses were filled, the National Anthem and "For They Are Jolly Good Fellows," sung, and in response to the toast District Deputy Grand Master Woodgate spoke interestingly of the Grand Lodge meeting at Nelson, and of the good work there accomplished.

His remarks were followed by Grand Junior Deacon Maxwell Muir. After a couple of songs by Bro. Phillips, Bro. Bailey proposed a toast to the "United Service Lodge and Officers, Past and Present," in which he made a touching reference to the loss of Bro. Muir. The worshipful master, Bro. Bainbridge, past senior warden; Bro. W. T. Phillips, senior warden; Bro. R. F. Rankin, junior warden; Bro. J. W. Jones, senior steward; Senior Deacon Massey and Junior Deacon Higgett, all replied to the toast. Songs by Bro. Tranter and Bro. Lambert Band followed.

Bro. T. N. Woodgate, D.D.G.M., proposed the toast to the "Sister Lodges," to which several of the visiting brethren responded. Then followed a recitation by Bro. Finemore, a song by Bro. W. T. Goodwin, a toast to the "Visiting Brethren," proposed by Bro. W. T. Phillips, which was responded to by several visiting brethren, including United States Consul Smith, who delivered a stirring speech; a song by Bro. T. W. Jones, and the tyler's toast, "To all worthy distressed brethren wherever dispersed around the world."

The party broke up early this morning, those coming into the city being accompanied by a special car kept waiting at the Esquimalt terminus for them.

Successful Pound Party

Large Number of Presents Given Children of Orphans' Home Yesterday.

Building Was Thronged With Visitors During Afternoon—List of Donors.

The Protestant Orphans' Home presented a very animated appearance yesterday afternoon, when the annual "Pound Party" of that institution was held. The home was thronged with people from early in the afternoon, and the overladen condition of the tables in the dining room attested the generosity of the visitors. Guests commenced arriving at 2 o'clock, and all carried something that would add to the comfort or in other way help the orphans. The home was inspected by visitors from top to bottom, and all who attended gained an idea of how the orphan children are cared for. The dining rooms were prettily decorated, but what perhaps was the most delightful sight in the eyes of the children were the tables, which were covered with eatables and other necessities.

The Cecilia orchestra, supplied music, and five little girls sang. The members of the ladies' committee were very successful in entertaining the visitors, and a most pleasant afternoon was spent. The list of donors follows:

Loan of piano, Mrs. J. D. Pemberton; tuning of piano, Mr. W. Parsell; cartage of piano, Mr. Alexander; music, the Cecilia Orchestra and the Misses Blackwood, Goings and McElhinny; Mrs. H. C. Brett, 2 lbs. tea; Mrs. Jackson, sack potatoes and green onions; Mrs. W. E. Higgins, sack flour and cakes; Mrs. Murgid, cake and cash \$1; Mrs. Gordon Hunter, 2 boxes sodas and 1 lb. tea; Mrs. Nelson, sack oatmeal; Mrs. Johnston, salt fish; Albert Johnson, sugar; Nell Grant, sugar; Roy Butler, cakes; Willie Horn, 2 packages washing powder; Reggie Wilson, 6 lbs. Chas. Flewin, 8 lbs. sweet potatoes; Mr. W. J. Pennington, box of white Swan soap; Lieut. Col. Gregory, sack Japan rice; Mrs. Lewis Marks, sack flour; Mrs. Capt. Newby, ham; Mrs. S. Doncaster, can of marmalade and two bars Castile soap; Mrs. C. Smith, tapioca and sago; McKee, Wall & Co., box tea; Miss Chase Going, jam; Miss Edythe McElhinny, jam; Miss Elizabeth McElhinny, jam; Mrs. Dr. Miller, 2 sacks flour; Mrs. E. C. Killey, 1 sack flour; Mrs. Becker, box sodas; Mrs. J. W. Devlin, 12 lbs. strawberries; Mr. and Mrs. W. H. Bone, sack of flour; 2 friends, tea, coffee and 4 lbs. butter; Mrs. Geo. Jay, corn starch, tea and cocoa; Mr. A. Jack, 2 pies, doughnuts, tarts, scones, cakes, vegetables and dipping; Deaville, Sons & Co., three lbs. tea; Mrs. T. Earle, sack of flour; Mrs. E. B. Jones, sack of rolled oats; Mrs. F. W. Volleau, sugar; Mrs. H. A. S. Morley, box tea and sweeter; Mrs. H. Stadhagen, boxes caps; Mrs. McMartin, 2 lbs. butter; Mrs. Durham, sack flour; Mrs. R. Croft, 1 lb. coffee, 1 lb. arrowroot; Mrs. W. J. Dowler, roll of fabric; Mrs. W. Hamley, sack of flour; Mrs. C. F. Todd, cash, \$5; Mrs. H. Thayer, 3 boxes biscuits; Mrs. E. C. Redfern, box tea; Miss Colquhoun, tea and coffee; A. Friend, bread and pickles; Miss A. L. Johnson, crackers and rice; Mrs. A. H. Hartley, rice; Mr. Hanson, sugar; T. N. Hibben, sates; Mrs. McTavish, jam; Miss Sorby, jams; Mrs. Sorby, sugar and balls; Mrs. Rithet, linen towels and 2 doz. handkerchiefs.

In the House of Lords last night, the Duke of Bedford and Lord Dunsarville criticized the Army Reorganization bill. They urged that more pay and better rations were necessary to attract recruits. Lord Hagan, the under-secretary for war, defended the bill. He said recruiting was proceeding satisfactorily.

FAMILY FOOD. Crisp, Teethsome and Requires No Cooking. A little boy down in N. C. asked his mother to write an account of how Grape-Nuts Food had helped their family. She says Grape-Nuts was first brought to her attention on a visit to Charlotte, where she visited the Mayor of that city who was using the Food by the advice of his physician. She says: "They derive so much benefit from it that they never pass a day without using it. While I was there I used the Food regularly. I gained about 15 pounds and felt so well that when I returned home I began using Grape-Nuts in the family regularly. My little 18 months old baby shortly after being weaned was very ill with dyspepsia and teething. She was sick nine weeks and we tried everything. She became so emaciated that I thought it would be hard to get her up. We thought we were going to lose her. One day a happy thought urged me to try Grape-Nuts soaked in a little warm milk. Well, it worked like a charm, and she began taking it regularly and improvement set in at once. She is now getting well and round and fat as fast as possible and is happy as a pig in a trough. Some time ago a number of the family were stricken with La Grippe at the same time, and during the worst stages we could not relish anything in the shape of food but Grape-Nuts and oranges, everything else nauseated us. We all appreciate what your famous food has done for our family."

Rates Again Advance

Another Increase of Four and Five Dollars on Skagway Tickets.

Kinshiu Maru in Collision With an N. Y. K. Steamer at Nagasaki.

Rates to Alaska have again advanced, and there appears to be a general disposition on the part of the transportation companies to get back in part what they must have lost a month or two ago when tickets to Skagway were selling for as low as \$5. The new cut was made at a general meeting of the different companies held in Seattle a few days ago, and was announced in telegrams to the local agents received yesterday afternoon. According to these, after July 1st new rates go into effect, so that the Islander sailing on that date will not come under the new schedule. The advance which has been made provides for an increase of \$5 on first class and \$4 on second class tickets. The rates to Ketchikan, \$22 and \$14, and to Skagway \$30 and \$20. Freight and excursion rates were not disturbed. The action taken, it is said, met with no opposition, although all the cases of the Skagway business were thoroughly discussed. Local agents state that a further advance is not at all likely, and that they think that the limit has now been reached. All competing companies in the Northern business are now working in harmony, the C. P. N. company and the Pacific Coast Steamship company being now left entirely to the Canadian fleet. The latter is now operating the Queen, Alki and City of Topeka on the Skagway run, and will shortly add the State of California to the fleet. The California has just returned from Nome after completing the round trip in 21 days, the fastest time on record, and in a few days is to be placed in the Alaska service.

What the Danube of the C. P. N. fleet is to do next has not been announced. The ship is now due from the North.

NOTICES TO MARINERS. Capt. J. T. Walbran, D. G. S. Quadra, reports his discovery on May 7th, 1901, of a rock with a depth of six feet on it at extreme low water, with a deep bay opening into the fairway at the entrance from the westward to Port Canaveral, Principe channel. The rock, which will be known as "Ethel" rock, is marked by kelp, and is in line with the centre of Stephen rock and west end of rock-shoof of Stephen rock. It also lies in line with the north end of Globe rock, and the southwest tangent of Dixon Island.

Capt. Walbran also reports that Stephen rock is covered at high water, and at that state of the tide cannot be used as a guide in connection with Dixon Island. The light on Stephen rock, and the light on the north end of Globe rock, and the southwest tangent of Dixon Island.

The same officer has recently made an examination of Skidegate Inlet, Queen Charlotte Islands, and reports as follows: "The two conspicuous, large, white, dead tree trunks, mentioned in part XI of Canadian notice to mariners No. 24 of 1891, have disappeared, and Bar rock channel, off Dead Tree point, is thoroughly navigable by several vessels using this channel, instead of the deep and safe one near Lawa point, have struck heavily. The boulder at Lawa point, shown on admiralty charts Nos. 48 and 1,925 a, is 52 feet in length and 35 feet in height. A patch of ice, 2 feet square on the flat, seaward face has been painted white, and the boulder can now be readily distinguished at a distance of five miles. It indicates the entrance of the deep water channel into the inlet." The shoal on which the steamer Horla, drawing 22 feet 4 inches, was returning from a trial trip, all round on the 15th Mar. last, has been marked by a small buoy temporarily moored in five fathoms of water on the eastern end of the ridge, close to the three-fathom patch.

MARINE NOTES. Steamer Tessa sails for northern ports tonight. Regimental headquarters booked to sail on the steamer are: Mr. Chapman, E. L. Tait, D. S. Tait, W. Williscroft, J. Parker, Miss Cullison, Geo. Menzies, R. Hayward, E. Hunt and S. and A. Spencer.

Steamer Champion arrived in from the Fraser, yesterday afternoon. The steamer Victoria arrived at Seattle from Nome yesterday.

REGIMENTAL ORDER. Reminders of Parade for Friday and Saturday—Other Notices. The following regimental order has been issued by Lieut.-Col. Gregory: Victoria, B. C., 26th June, 1901. Orderly officer for Thursday, June 27th, 2nd Lieut. Currie. Next for duty, 2nd Lieut. Grahame. Regimental order No. 74, dated 26th June 1901, cancelled. All ranks are reminded that the parades for practice on Friday and Saturday, June 28th and 29th, are compulsory for Companies Nos. 1 and 2 on Friday afternoon, and for Companies Nos. 3, 4, 5 and 6 on Friday evening (for fort manning, and Saturday morning practice). The following district order, No. 29, 25th June, 1901, is published for information: "The Clover Point rifle range will be closed for practice on Friday afternoon, the 28th instant, from and after 2 o'clock p. m."

SUGAR GOES UP. By order, (Sgt.) ALEXIS MARTIN, Capt., Actg. Regt. Adjutant. New York, June 26.—The American Sugar Refining Company advanced all grades of refined sugar five points today.

What the Doctor Does. The first thing the doctor does when he is called to see a fretting, worrying, crying baby is to give it a medicine to move the bowels and sweeten the stomach. The doctor knows that nine-tenths of the troubles affecting babies and young children are due to irritation of the stomach or bowels, and that when the cause is removed the child is well and happy. Baby's Own Tablets, (REGISTERED) are a ready-at-hand doctor. They gently move the bowels, sweeten the stomach, promote digestion, cure colic, check diarrhoea, break up colds, prevent croup, reduce fevers, expel worms and promote healthy sleep. Baby's Own Tablets are mothers' friend and an ever-ready help for little ones. Guaranteed to contain no opiate or poisonous "sleepy" stuff. Good for children of all ages. Try them for your children. The genuine package looks just like this: Sold by druggists or sent post paid on receipt of price (25 cents a box) by addressing THE DR. WILLIAMS MEDICINE CO., BROCKVILLE, ONT.

MALCOLM ISLAND SCHEME. Deputation of Finlanders Wants Upon Chief Commissioner of Lands and Works With Proposals. The chief commissioner of lands and works—Horn—W. G. Wells, has been waiting upon by a deputation representing the Finlanders in the matter of having Malcolm Island set apart for purposes of settlement by them.

The deputation laid the conditions of their scheme before the chief commissioner. They propose to lease the island and set apart for the exclusive use of themselves. They are to be charged only the duties imposed by the Lands Act. The Finns propose upon their part to conduct the colony as a joint stock company, the annual dividend upon the stock not to exceed 5 per cent. The remainder of the profits they propose to devote to two purposes, the general use of the colony and as an additional bonus to the regular wages of the workmen. They will employ only their own employees a certain part of the land at the lowest rental possible.

The promoters fear only the rush which would follow the scheme being put into operation. The Finns, they say, are anxious to escape the tyranny of British and Scotch landlords, and are desirous to take up their residence away from such and under British protection. A majority of the 2,000,000 Finns were ready for immigrating. They urge that the Finns are good farmers and fishermen, and are accustomed to forest work.

The subject of the difficulty in connection with the setting apart of Malcolm Island for purposes of obtaining pulp timber was brought up. The chief commissioner urged that there was nothing to fear in this connection, as the use of the timber for pulp manufacture would give employment to the Finns on the island and also give them a profitable way of disposing of this timber, which would otherwise have to be burnt. He promised also to take steps towards varying the base of the pulp company or make such arrangements as would prove satisfactory to the prospective colonists.

NEW MINING COMPANY. Cherry Creek Copper King Mines, Limited, Issue an Attractive Prospectus. The prospects of the Cherry Creek Copper King Mines, Limited, has been issued. The company is capitalized at \$500,000, divided into 500,000 shares of \$1.00 each, and is organized to work the Copper King, Copper Jack and Edward VII. (fractional) mineral claims, which are situated on Cherry creek, about three-quarters of a mile from the city of Kamloops.

Considerable development work has been done, particularly on the Copper King, and from a shipment of 22,800 lbs. of ore made in April, 1901, to the Trail smelter, net return after paying freight and treatment charges, of \$55 per ton was made. The British Columbia Exploring Syndicate are said to be contemplating erecting a large copper smelting plant in close proximity to the claims, which would enable the company to handle their low grade ores as well as reap a greater profit on the high grade ores.

The headquarters of the company are at Kamloops, N. J. Hopkins, of that city, being president, and Frederick H. Young, secretary. J. A. Mara, of Victoria, is one of the board of provincial directors. Have you seen our new line of Art Decors for covering furniture, dado work, etc. If you live out of town write to Weller Bros. for samples.

DELTA'S REPRESENTATIVE. He Interviews the Chief Commissioner in Regard to His District's Needs. John Oliver, M.P.P. for Delta, came down from the Mainland last evening for the purpose of seeing the Chief Commissioner of Lands and Works in reference to a number of public works in his constituency. Of these, a new road through the Salmon River flats, near Langley, was provided for in the estimates last year by an appropriation of \$2,000. The road is to replace one washed away by the river, and as it will have to be constructed through a marsh will be done by a dredger. Mr. Oliver received satisfactory assurances from the Chief Commissioner that the sum appropriated would be expended shortly.

Mr. Oliver has recently completed a tour through the Boundary and Kootenay districts, where he found the sentiment as strong as on the Fraser for an independent railway line from the Coast to Kootenay. The greatest mining activity met with was in the neighborhood of Kamloops, where the operations of the Crow's Nest Coal Company and the projected Crow's Nest Southern Railway Company combined to give a healthy tone to business. The reopening of the mines on Morrisey creek has also assisted in creating a hopeful sentiment.

Mr. Oliver returns to the Mainland to-night. **CASTORIA** For Infants and Children. The name is on the wrapper. **BICYCLE** Select Your Wheel. We want you to be careful about the wheel you select. TARIFF WARS.

In imitation of his friends in the United States, one Russian diplomat has doffed his coat and is doing business in his shirt sleeves. The relations between M. de Witte, who is as aggressive as the gentleman of a somewhat similar name in South Africa, and Secretary Gage are a trifle strained at the present time. The trouble is not entirely about sugar. A new cause of offence has been given the Russians through the imposition by the United States of discriminating duties on oil, and their Minister of Finance has countered as before with his right and left. He has adopted a two to one policy. For every blow struck by his antagonist he delivers two and calmly waits for another opening. When Mr. Gage endeavors to explain that the aggressor is laboring under a misapprehension as to the cause of the quarrel, he is early informed that being a cabinet minister it is the duty of Russians to treat him with respect, but that it he were merely an ordinary man he might be accused of either trying to mislead the people or not being familiar with the laws he has been entrusted with the administration of. This is so much after the blistering style the Americans are in the habit of adopting towards others that we confess we hope it will have a healthy effect. If the reply of Secretary Gage be concluded in the same terms we may look for the prolongation of this very interesting tariff war. But it is not likely. For once the tone of the United States press is distinctly apologetic and conciliatory and there are indications that the coin will come down from his perch. In such an event the world will know that there is a way of bringing even the greatest of nations and the most bigoted and selfish of protectionists to time. Probably because of the industry with which it was attending to its legitimate business of reporting upon the decoration of New York policemen and other matters of great international concern, the Associated Press failed to supply Western newspapers with the facts in regard to this second dispute between the United States and Russia. The trouble arose over duties imposed upon Russian naphtha refined in Great Britain. Probably the Standard Oil Company was the promoter of Gage in this case, as the Sugar trust precipitated action by Russia against American steel. This time it is American resin and bicycles that are to be excluded by the Russian retaliatory policy. Our protectionist Republican contemporaries on the other side are busy explaining that de Witte has been precipitate and ill-advised and that his ukase must be recalled, as it is illegal. The independent papers take a different view. The Philadelphia Times thinks "Russia has given us a warning of what we must expect. Our chief export is tariff laws, and these we are sending all over the world. They are chickens that will come home to roost. If we expect the economic supremacy we are claiming, we must be a liberal nation. When our

own tariff tricks are turned against us, we shall have not only our manufacturers but our farmers also to reckon with. If we expect to trade with other nations, we must at least show our willingness to let them trade with us." The New York Times admits that the interests of the country are being sacrificed for the benefit of a small class and that it would be better for the country as a whole if the tariff walls were levelled down. The ultra-protectionist press of Canada claim Russia's has proved that there are weak spots in the armor which Americans have long thought to be invulnerable and that we should join with Europe in an effort to bring the giant to his knees. They are scarcely consistent in this position, however, as for many years they have been in the habit of asserting most dogmatically that the adoption of the policy of the United States was the one thing necessary to make Canada prosperous. The reduction of the tariff by the Liberals and the increased activity in all industrial lines have proved that they were wrong. The prosperity of a country depends upon the enterprise and thrift of its people. We are doing so well now, we hear so little of poverty and discontent and so much of good crops and large dividends, that we cannot afford to enter upon tariff experiments. If a combined Europe takes heart of grace because of the effects of Russia's policy and undertakes to enter upon a tariff war with the object of bringing our neighbors to time, we shall merely be very much interested spectators of the great conflict.

SCHOOL MATTERS AGAIN.

As the public have been asked to dig down very deep to supply the funds for the maintenance of educational institutions in Victoria, it has a right to demand that these moneys shall be expended to the best advantage, and that the results shall be in some degree commensurate with the sacrifices made to secure them. Demands must necessarily be made from time to time as the city progresses for more funds for school buildings, and if the ratepayers be not satisfied with the work which is being done by teachers and officials they will vent their dissatisfaction upon the system generally. Anyone will admit that that would be a most unfortunate state of affairs for Victoria. In the interests of all concerned, therefore, the Times does not propose to be deterred by the remarks of Trustee Jay about irregularities in the High School which were never hinted at, nor the rhetoric of Chairman Hall in regard to pupils "occupying enviable positions in many walks of life," and "misleading and mischievous statements unsupported by indisputable evidence," from expressing its own sentiments and those of the majority of the people of Victoria in regard to the necessity of reform in our chief educational institution. There is nothing to investigate, if the superintendent believes that the work done by the High School is all that it ought to be and all that the ratepayers have a right to expect let him say so and set the people who are of a contrary opinion right and their minds at rest. If he considers a necessity for reform exists, we take it to be part of his duty to recommend the measures necessary to effect such a reform. The public is also entitled to more information about the reinstatement of the principal of the South Park School than the mere statement that the "whole trouble has been smoothed over." Miss Cameron was publicly suspended, and she should be reinstated in the same manner. If she was rightfully punished or reprimanded and has become convinced that she was in error she will be candid enough to acknowledge it. School boards and other public bodies are a trifle too prone to forget sometimes that they are responsible to the people for their acts. In this instance the public is deeply interested because it is convinced that injustice has been done to some one and it would like to know who the injured party is.

The Finns are just the class of people we want as settlers in British Columbia, and it is to be hoped Mr. Wells will be able to make such arrangements as will induce them to take up their abode with us. Industrious, frugal, moral, intellectual, in the forefront in all that makes for progress in human affairs, a people who have achieved success in bleak and uninviting Finland should make a most acceptable addition to our population. Accustomed to rule themselves, they naturally resent the arbitrary manner in which it is proposed by the Russians to "assimilate" them into the Muscovite system. Language, customs and institutions are all to be swept away; conscription, from which they had long been free and were exempt by treaty, is to be enforced and their educational system revolutionized. No wonder they have decided to emigrate in a body and seek for the freedom which has been denied them in their fatherland. They will find it here in abundant measure. The great racing machines are all flung and in their right element again. Shamrock II. will soon be prepared for her hazardous trip across the deep, and Constitution is being reduced to harmony by the process which has come to be known as "tuning up." Independence has profited by the mishaps which overtook her sisters, and cut her mast in two, losing the smaller section of it. Both the American boats are the speediest afloat, but Lipton is obstinate enough to

stick to his programme. The British yachting authorities have not much confidence in their representative. She has not proved conclusively that she is superior to the old boat of the same name, and the consequence is that little interest is being taken in the coming race in the Old Country. The Britishers take considerable satisfaction from the fact that the Nevada, the craft built on the Clyde from designs by Herreshoff, the builder of the Constitution, is not in the same class as a native ship of the same size. The Tuttle is more than half an hour faster over a twenty-mile course. It is obvious, therefore, that the result of the America Cup races is no true indication of the abilities of the two competing peoples as yacht designers and builders.

Now that educational matters are receiving a good deal of attention, does it not seem a curious thing that no part of the public domain in British Columbia has been set apart for educational purposes? There are school lands in Manitoba and there were "clergy reserves" in Ontario, the proceeds of which are or were set aside for the benefit of the rising generation. In the early days of Ontario and Manitoba, and of the other provinces, too, no doubt, provision was made for universities. We are still in the "early days" in British Columbia, but we have not yet heard of any movement for the benefit of the generations to come. We shall hear plenty about the cost of education here compared with other portions of the country, but little of the causes thereof. Unless some millionaire philanthropist comes along and endows a university British Columbians will be compelled for all time to send their children out of the province in search of educational advantages which should be obtainable at home. Yet there is not on all the continent a more desirable place for an educational institution of the highest class than Victoria.

We have noted with pain the repeated efforts of the editor of the Vancouver Province to persuade himself that the Terminal City is a pleasant place to live in. He has often pleaded with some one gifted with a brain or something like that to "raise up on his hind legs and twang the lyre" in praise of the beauties of the city "upon a summer's day." Those who have been driven to thoughts of suicide by reason of the depressing influence of the summer days abroad naturally suspect that the Province man desires a tune to be raised which will carry his own drooping spirits up with it. His news columns and those of his contemporary betray him. Tuesday's News-Advertiser says: "Our weather, just now, at a time when the calendar calls misadventure, is something like the American's description of the weather in England—all samples. And our latest sample may be two inches of cold rain in two days, with the temperature of late October—unpleasant in the extreme." There is one advantage in living in Vancouver. That such as trouble in Victoria from March to November seldom "raises its head" there. It also has Maxwell and the assy office without the mint.

Om Paul still believes that the Lord will deliver his people from the hand of the oppressor. In the meantime his faith is not strong enough to impel him to trust his own person and purse in a place where there is a chance of their falling into the hands of the enemy. He also leaves it to the British to feed and protect his workmen when he knows that the Bible says "he who fails to provide for his own household is worse than an infidel." But Kruger does not read such portions of the Holy Book as deal with the tender side of human life. He prefers to pour over the chapters devoted to descriptions of the fate which overtook the heathen nations which disputed the right of the Chosen People to the Promised Land.

The Times begs to inform the Colonist that it is not making a great deal of fuss over the neglect of some one to forward a copy of the acts passed at the last session of the Legislature to Ottawa. We called attention in the first place to the omission and our contemporary said the Times was wrong; that the rule had been complied with as usual. We could not rest under the imputation of being in the wrong even for once—and we proved that we were right. As a result of our efforts the error has been corrected.

TRUST. The Christian Register. I'm standing by the dark and silent sea, A vacant shell, a stretch of shifting sand, Are all I now with dimmed eyes can see; Behind me lies the green and living land. I faintly hear the voices of my kind— A murmur low, of joy perhaps, or pain— All those are scattered in my path behind, Nor gladly would I turn to them again.

Not far beyond the billow rises fast, Which soon shall sweep me from this narrow verge; I joy to know I've reached the goal at last, And fond regret may chafe for me the dirge. No freighted ships sail on this voiceless sea, No lights reflected from its unknown deep; All gone before and all who follow me Its hidden secret faithfully shall keep. Life's burdens, all, too heavy now to bear, The waves of rest are rising round my feet; To unknown depths shall drop each heavy care, And fate's reward, or bitter falls, or sweet. I do not know, no soul returns to tell What fate shall follow off this narrow strand; But heaven's joy, or grief and pain of hell, All, all, are in the hollow of God's hand.

THE SECRET IS OUT. Springfield Craftsman. An Illinois boy was asked to write an epigram on Masons, and here is what he wrote: "King Solomon was a man who lived so many years in the country that he was the whole push. He was an awfully wise man, and one day two women came to him, each holding a log of a white oak, and each saying 'two, and each claiming it.' And King Solomon wasn't feeling right good and he said: 'Why couldn't the best have been twins and stop this bother?' And he called for his machete and was going to Weyerize the poor innocent little lady, and give each woman a piece of it, when the real mother of the baby said: 'Stop, Solomon, stay thy hand. Let the old lady have it. If I can't have a whole baby I won't have any.' Then Solomon told her to take the baby and go home and wash its face, for he knew it was hers. He told the other woman to go home and herself, King Solomon built Solomon's Temple and was the father of Masons. He had seven hundred wives and three hundred lady friends, and that's why there are so many Masons in the world. My papa says King Solomon was a warm member, and I think he was hot stuff, too. That is all I know about King Solomon."

TELEGRAPH IN BRITAIN. Immense Development of Business in Past Twenty Years.

Speaking at the dinner of the Newspaper Society in London, Lord Londonderry said the development of newspaper enterprise was very remarkable, and it was partly due to the taking over by the state in 1870 of the telegraphic companies. Under the telegraphic companies only certain newspapers having contracts with the companies were allowed to receive newspaper messages at a reduction in the rates. Newspaper messages were sent, except under extraordinary circumstances, at the ordinary rates by telegraph, and there were many other grievous restrictions. After the acquisition of the telegraphs by the state the reduced rates for the transmission of press telegrams soon brought about a great increase in the number of such telegrams. In 1871 the number of words handed in for transmission amounted to about 22,000,000. In the following year the number increased to 26,000,000, and in 1873, to 38,000,000. During the past year the number of words exceeded 85,000,000. As an instance of the extent to which the press recognized and made use of the special telegraphic facilities afforded to them in connection with such events as important football matches, he might mention that, on the occasion of the England vs. Scotland Association match, played at the Crystal Palace this year, no fewer than 61,103 words of press matter were handed in at the temporary office on the ground. A great quantity of this work was telegraphed direct from the Crystal Palace to the principal towns in the United Kingdom. The increase of telegraphic business at race meetings was instanced by the fact that at the Epsom spring meeting in 1901, nearly 18,000 telegrams, including 568 press telegrams, containing 51,947 words, were dealt with, whereas on the corresponding occasion in 1871 the total number of telegrams of all kinds was only 1,951. He thought that, as representing a great department, it was his duty to point out for them what was done to conduce to the convenience of the press. He ventured to say that the press of this country enjoyed greater advantages with regard to telegrams than that of any other country.

land and Wales 334 newspapers, the number in 1900 being 1,994; in London in the former year the number was 85, in the latter year 456; in Scotland the numbers were respectively 64 and 235, and in Ireland, 84 and 181. He believed that this multiplication of newspapers was exceedingly useful as a means of educating the people, and it was for this reason that he was anxious to promote as far as he could the welfare and prosperity of the press.

KNOCKED HIS HAT OFF. Halifax, June 26.—Bishop Courtney, of the Anglican diocese of Nova Scotia, made a scene at an entertainment in this city last night. A London showman came here, producing an exhibition of moving pictures, representing the British navy and everyday life of His Majesty's sailors. After the performance a piece of King Edward was thrown on and the band played "God Save the King." A man apparently in a great hurry to leave the hall started to go with his hat on.

As the man came down the aisle he had to pass Bishop Courtney. His Lordship looked at him with flashing eyes, and as he came alongside, the Bishop rose, and with indignation struck off the hat, saying as he did so, "You ought to be ashamed of yourself." The man stooped to the ground and picked up his hat, looking very sheepish, but made no remonstrance. Such of the crowd as saw the incident gave Bishop Courtney a cheer.

"EXCELSIOR." Mrs. Florence Howe Hall, the daughter of Julia Ward Howe, and the playmate of the Longfellow children in childhood, tells many stories of the contents of a letter which she relates to her father, Dr. Samuel G. Howe, telling how "Excelsior" came to be written.

It was a cold winter night, and the poet had gone to bed when the idea of him, who popped into his mind. He tried to put it aside, but the idea kept haunting him until he arose and jotted down the verses as they came quickly to him. "The result," he added, "is that I have a severe cold and an attack of rheumatism, but my best friends find less in the poem to criticize than usual." In the early days of his Longfellow's name and fame were national, he went into a bank to get a cheque cashed. The teller looked at the name and said: "Henry Longfellow? I never heard of such a person." Then turning it over, and seeing the endorsement by Charles Sumner on the back, he paid it with no further protest. It is likely that among the collectors of this age the endorsement by Longfellow and Sumner would bring considerably more than called for by the face of the cheque.—Youth's Companion.

In the report of the police court proceedings yesterday reference was made to evidence given by Mr. Aaronson, the pawn broker. This is incorrect, the Aaronson referred to being another of the same name as the proprietor of the establishment on the corner of Johnson and Broad streets. The witness yesterday conducted a junk shop on Store street.

Last evening at the residence of J. A. Jessop, 102 Bay street, Rev. W. H. Barracough united in marriage Rev. W. C. Pfeilicher, of Duncan, and Miss Jennie Connor, of Belleville, Ontario. The mother of the bride, and the father and mother of the bridegroom, were among those present. Rev. Mr. and Mrs. Pfeilicher will spend their honeymoon in the city, returning to Duncan in about a week.

Last Monday and Tuesday evenings a baseball match was contested between the Boys' Brigade and the North Ward teams. The first portion of the match was played on Monday evening, when the Brigade came off victors by a score of 9-3. The game on the second evening was not so one-sided, the score at the finish being 15-13, still, however, in favor of the Boys' Brigade.

The following telegram from the Hon. Mr. Justice Martin, one of the vice-presidents, was overlooked, and therefore not read at the opening meeting of the British Columbia branch of the Navy League on Tuesday evening last.

Vancouver, B. C., June 25, 1901.
My dear Mr. Justice Martin:
Much regret unable to attend meeting to-night. Please pledge my hearty support to its objects.
ABRAHAM MARTIN.

In order to give Victorians an opportunity of attending the Dominion Day festivities at Vancouver, the C. P. N. Company will inaugurate a special service between here and the Mainland, with excursion rates. The Yosemite will leave Victoria on Sunday at 8 o'clock a.m. and returning leave Vancouver at midnight on Monday. The round trip fare will be \$2. Tickets will also be good on the Charming on Saturday and Sunday nights, and on the Islander on Monday at 8 a.m., and will be available returning until July 3rd. The Islander will make a special fast trip to Vancouver in order that her excursion passengers will reach the Terminal City in time for the afternoon sports of the celebration.

The following is the special committee appointed to make arrangements for the reception of the Duke and Duchess of York: Mayor Hayward, Aldermen Kinsman, Williams, Cameron, Brydon, Peckwith, Stewart, Yates, Cooley and Hon. TO REMOVE EYEBROW
Conference Between Council Committee and Property Owners Regarding Objectionable Sidewalk.

It is altogether probable that coincidentally with the inauguration of improvements in this city, there will be undertaken a work which will afford the greatest satisfaction in all quarters. This is the removal of the unsightly high sidewalk on the east side of Government street, between Courtenay and Humboldt streets.

For years past there has been no little agitation in the city council for the removal of this sidewalk, but no definite action was taken. Besides marring the general appearance of that part of the street, the walk in question was a source of danger to life and limb, and several persons have been injured by falling down the steps at the Humboldt street end.

This morning a special committee of the city council, consisting of Aldermen Cameron, Williams and Brydon, met representatives of the owners of property along the walk, and a satisfactory understanding was arrived at. The property owners Messrs. Loewen and Erb, were represented by Mr. Loewen, and Messrs. Elberts and Earle by Mr. Earle.

The particulars of the conference will be contained in a report to be submitted to the council. Should the present negotiations materialize, the walk will be raised, and after the necessary grading a permanent sidewalk will be laid there.

Provincial News

NEW WESTMINSTER. Capt. A. T. Murchison, aged 37, died on Sunday from paralysis. Deceased was well known on the river as captain of the steamer Bella and several other tugs.

NELSON. A fancy dress ball on a barge towed into the lake is to be a feature of the Dominion Day celebration here. The collections towards the cost of the festivities amount to \$3,400, with a number of special prizes in addition.

After an interesting discussion, in which speakers as a rule avoided declarations in favor of extremely rigid Sabatarianism, the Kootenay Diocesan Synod passed the following broad resolution in regard to Sunday observance: "That we, the members of this synod of Kootenay, would very strongly urge upon our people the importance of the religious observance of the Lord's Day which should never be lost sight of in the search for recreation. We would also express our sincerest sympathy with all who are endeavoring to secure to the world's toiling population the one day of rest in seven."

TRAIL. The announcement is made that Rev. William Clarke will not return to Trail, as he expected when he left for England, and the pastorate is therefore open for appointment. Rev. W. H. Hedley is filling it ad interim, and may succeed permanently.

On Wednesday morning, at the residence of Thos. McDonnell, Jas. Kerr and Miss Carrie Zant were married by Rev. R. P. Murray of Midway. After the ceremony a wedding breakfast was served by Mrs. McDonnell. Only relatives and intimate friends of the contracting parties were present at the ceremony.

W. H. Asquith, painter, of Greenwood, was the unfortunate victim of an accident last Friday evening, which resulted rather seriously to him. He was employed at the residence of L. Robert Jacobs, manager of the Green Clear company, Greenwood, driving by, asked him for a ride down the hill. A few minutes later the driver lost control of his horses and in endeavoring to pass a four-horse team just out of Phoenix the rig was capsized and Asquith had a collar bone and a rib broken besides being much bruised and otherwise hurt. Mr. Jacobs had one foot injured and a hand cut.

KAMLOOPS. As briefly announced yesterday, James McIntosh died on Sunday from the effects of a paralytic stroke, which he suffered some little time since. He was 58 years of age and leaves a widow and two children, the latter in their teens. He was identified with all the early public improvements of the town. He also installed and owned the water works plant when Kamloops was but a small village. He was also police magistrate for several years. Mr. McIntosh came to British Columbia in days before the railway and reached Kamloops in construction trains, when he became interested in contracting.

The directors of the Royal Inland hospital were recently handed the sum of \$400 by the Ladies' Benevolent Society which they desired would be held by them to form the nucleus of a fund for the installing of a much desired heating system in the hospital. It may be also stated that the Ladies' Auxiliary have also donated \$100 towards the same object besides assisting other good works. Whilst the Hon. J. D. Prentice was in town recently he promised that for every dollar subscribed towards the same object the government would give a similar amount up to \$1,000. So far \$500 have been donated, so that now \$1,000 are guaranteed.

NEW WESTMINSTER. A panic occurred in Henderson's hall, Chilliwack, on Monday night. While a crowded meeting was being addressed by Evangelist Smith some one accidentally upset a lamp. Fortunately no damage was done and no one was hurt.

The examinations are in full swing at the public schools. In fact, are followed by drawing and painting exercises at the end of the week. Forty-nine boys and girls, thirteen of whom are from points in the district, have been writing for the High School entrance examination, which commenced on Tuesday.

Among the interesting news on Tuesday's east-bound Imperial Limited, was Rev. Father Morgan, O. M. L., for several years parish priest in New Westminster, but who is now en route for England, and, as far as is present known, is not likely to return here. Father Morgan has been a resident of New Westminster for about fifteen years. During his stay here he completed his studies and was ordained as a priest, subsequently becoming parish priest, a position he held for several years, until last fall, when he was transferred to Vancouver.

Labor Commissioner Brenner appeared before the grand lodge of the Fishermen's Union yesterday in session at Westminister, and was asked by the lodge to act as intermediary between the fishermen and the cannery. It is understood that in accepting the offer of the lodge, Mr. Brenner promised to do what he could in affecting a settlement. The white fishermen packed the city hall to the doors last night to listen to the following speakers on the salmon cannery deadlock: Capt. Anderson, Wilgress, Cartwright, E. McPherson, Abi, Baxter and President Rogers of the Vancouver Fishermen's Union; Indian Chief Harry and W. Zeidler. The fishermen were advised by the speakers to stick together, and all of them expressed their opinion that the demands of the fishermen were fair and their belief that the cannery can afford to meet what the fishermen asked. No resolution was passed, a

resolution to ask the cannery to arbitrate the question being withdrawn on the statement being made that the grand lodge had asked the cannery to arbitrate, and the cannery had declined.

VANCOUVER. The wholesale grocers of British Columbia have decided to appoint a committee to wait upon the C. P. R. with the object of inducing them to discontinue an alleged preferential freight rate to eastern shippers to the Klondike, which gives eastern shippers preference over British Columbia shippers.

The magistrate was faced with crowded benches in the police court on Monday, there being about 21 cases on the docket, of which 15 were represented in court, and the others forfeited bail for non-appearance. Most of the cases were of minor importance. George Campbell, charged with robbery and having stolen goods in his possession, changed his plea from not guilty to guilty in connection with four of the charges against him, and City Solicitor Hamersley, who appeared for the prosecution, consented to withdraw the others. The magistrate imposed a sentence of twelve months with hard labor in the case of the stolen bicycle, and six months' imprisonment for each of the three other charges, the terms to follow each other, making, in all, two years and six months' imprisonment.

A party of English journalists and financial men, bent upon a trip of observation, principally in Canada, with a view of noting the possibilities which it offers for the investment of capital, have been visiting this city. The party consisted of George Hughes, of the London Daily Express; Ernest Tabernacle, of the London Advertiser; R. C. Curphey, of the Isle of Man Times; R. C. Curphey, accompanied by H. S. Congdon, of Halifax, N. S., well known there as a newspaper man, possessing an abiding faith in the natural endowments of Canada, and who believes that the future has great things in store for it. The visitors left New York several weeks ago, where Mr. Congdon joined them, and stopped off at Montreal, Winnipeg, Brandon and Banff, spending several days in each place. The visitors left yesterday for California, where they will inspect some of the mineral deposits of that region. On the homeward journey a trip will be made through the Kootenay country, and the mineral deposits of that great country studied.

C. Peters, chief steward of the steamer Hating, was taken to the city hospital on Tuesday evening, suffering from the effects of a sprained ankle, caused through falling on board ship. The accident is not a serious one, but he was not in a position to sail with his vessel on its next voyage. Port Steward J. S. Byron will probably make the round trip on the vessel in the place of Mr. Peters.

The marriage of Mr. Henry Davidson and Miss Ellen Alberta Toole was solemnized on Tuesday morning by Rev. Dr. Grant at the home of the bride's father, Mr. Jacob H. Toole, 208 Tenth avenue.

A number of buildings are being inspected for the new government assay office. This far no suitable building with vaults can be secured. Finding a suitable, available strong room for the storage of the Klondike gold will be the only cause for possible delay in getting the assay office open next month.

Provincial Immigration Agent McCallie stated yesterday that there were 250 Japanese inspected by him from the Seattle steamer since the first of June. Nearly all of them had naturalization papers. He had received instructions from his department to hand in the names and addresses of all Japanese arrivals to Fisheries Inspector Sward, who has expressed his determination to prevent those Japanese, who winter in Seattle, securing fishing licenses for the salmon season, no matter whether they are naturalized or not, on the grounds that only bona fide residents of Canada are entitled to fishing licenses. It is stated, however, that the Japanese referred to are getting around this clause in the act in the most simple manner, by taking out licenses as boat pullers only and going into partnership with resident Japs entitled to the licenses. If there are 1,000 resident Japanese who have secured licenses, these Japanese will require 1,000 boat pullers, who can easily be supplied from the Seattle Japanese, who will reap the benefits of the fishing as much as the licensed Japanese.

An important meeting of the Dominion Day celebration committee was held on Tuesday night. The appropriations thus far are as follows: Blunquation committee, \$500; Vancouver gun club, \$100; Sports committee, \$200; Jockey club, \$600; procession committee, \$400. The following is a rough draft of the programme: July 1st, morning—Gymnastic baseball game at Brockton Point. Afternoon—Baseball game, Powell street grounds; lacrosse at the Point between Vancouver and Westminister; races at Hastings; Vancouver gun club at Mt. Pleasant butts all day. July 2nd, morning—Regatta on Inlet. Afternoon—Bicycle races, naval sports, band concert, horse races at Hastings. A military concert will be held in the opera house on the evening of the 1st, when a company of young ladies will go through drill, and a ball will take place on the evening of the second at the Hotel Vancouver.

Mr. Munden's boat shed, containing \$200 worth of tools and two fishing boats, was destroyed by fire on Tuesday night. Mr. Munden declares that his shed was set on fire by some unknown person.

Krupp guns cost \$170 per ton.
