Agents for the Celebrated and Popular "White" Sewing Machine.

Read a few of its superior advantages.

It is so simple in construction that little or no instruction is required to become proficient in its use. A child can use it. It has a self-setting needle. Its upper tension is easily controlled, and after being once regulated, is automatic, requiring no change for any kind of ordinary family work. It is the lightest running machine made, and is nearly noiseless—features which no lady can afford to overlook in the selection of a sewing machine. It is adapted to any kind of sewing, from the lightest muslin and silk to the heaviest woolen or cotton goods, and guaranteed to execute any kind of work ever wanted in a family. It has the best treadle ever attached to a sewing machine, it being so constructed as to operate with perfect ease, and without fatigue to the most delicate lady. Its working parts are case-hardened Iron or Steel, and so constructed that the "lost motion" in all the wearing parts from long and constant use can be taken up by the simple turning of a screw. Its shuttle is comparatively self-threading, made of solid steel, and carries a larger bobbin than almost any other family sewing machine.

The tension can be changed without removing it from the machine. It has more room under the arm than most other machines, making it very desirable for dress-makers, seamstresses, tailors, and others, who often wish to carry the fabric under the arm without crushing it. It has a device by which the bobbins can be filled without running the entire machine, thereby relieving it from wear for this purpose, as also relieving the operator of the necessity of removing the work or attachments, as is the case in nearly all other machines. It has a double steel feed, or a feed on both sides of the needle, which enables the operator to carry the fabric through either side of the needle, as may be desired. This feature is found in no other machine, and is an advantage which should not be overlooked. The result of this combination is the "WHITE," the best Family Sewing Machine in the world.

200 manufactured daily the past two years. Warranted for five years.

# PREFACE.

THREE years having passed since our last issue, we here- with present No. 5 of the regular series of the WALTHAM AND WATERTOWN DIRECTORY to our patrons, with the confidence of its welcome reception by them, as well as by the public generally.

As cities grow in importance and population, the direc- tory increases in value, as a book of reference, until large cities could not possibly get along without their annual publication. A good directory is a great benefit to a place, not only to the citizens, but to strangers and visitors, who are constantly referring to its pages for information of some kind. We also often receive orders from distant parts of the country for our directories, which shows that their circulation is not necessarily limited to the cities they represent.

We wish especially to call the attention of persons using the directory, to the importance of knowing the precise spelling of a name, before looking for it, as names, pro- nounced the same, but spelled in various ways, will appear on different pages, and at quite a distance from each other.

	1877	1880	Increase.
Names in Waltham,	3,259	4,346	1,087
Names in Watertown,	1,714	2,084	370
	<u>4,973</u>	<u>6,430</u>	<u>1,457</u>

Our agents have received the usual courteous attention from all with whom they have come in contact, while ob- taining the information for this number, and with many thanks for the same,

We remain, very respectfully,

W. A. GREENOUGH & CO.,

September, 1880.

# BRETT'S EUREKA SALVE! PURELY VEGETABLE.

This remarkable cleansing and healing agent having been used by the discoverer and his family, employes, friends, and neighbors for many years, in numberless cases, with the most satisfactory results, we feel the utmost confidence in offering it to the public, (which we do by the earnest solicitations of those who have used it), for the immediate **Relief and Permanent Cure** of **BURNS, SCALDS, BRUISES, CUTS, CATARRH, FROST BITES, CORNS, CHILBLAINS, OLD SORES, SORE THROATS, DIPHTHERIA, PNEUMONIA, SCARLET FEVER, HAY FEVER, PILES, BAD COLDS IN THE HEAD, RHEUMATIC AND NEURALGIC PAINS**; also, **PAINS IN THE THROAT AND LUNGS, BACK, SIDE, AND BREAST, NUMBNESS OF LIMBS, COLD FEET, CHAPPED HANDS, SORE EYES, VARICOSE VEINS, SORE LIPS, BOWEL COMPLAINT, DYSPEPSIA, FELONS, AND ULCERS.** It produces circulation, and prevents and removes inflammation, and stagnation of fluids, and maturation in sores, which is the cause of pain and soreness; and also prevents mortification from setting in, if applied in season, used freely, and renewed often.

 See Directions for use with Box.

# New England Conservatory of Music,

MUSIC HALL, . . BOSTON, MASS.

**E. TOURJEE, . . Director.**

The attention of persons not acquainted with Conservatory instruction, is called to the following TWENTY-FOUR REASONS in favor of its system :

- 1 Economy, cost of tuition only \$15.
- 2 300 years established in Europe ; 25 years' successful experience in America.
- 3 Mind matched with mind sharpens intellect.
- 4 Diffidence overcome by public performance in class and in Conservatory and Music Halls.
- 5 Each pupil has the benefit of whole-hour lessons.
- 6 125 hours' musical instruction in a single term.
- 7 The lesson a recitation ; no waste of time.
- 8 Laudable ambition to excel.
- 9 Pupils carefully graded, and promoted according to proficiency.
- 10 The ablest instructors are employed.
- 11 *Mendelssohn* says, " It has advantages over private instruction ; it produces industry, spurs on to emulation, and perseveres against one-sidedness of education and taste."
- 12 Musical atmosphere of the Conservatory conducive to broader culture.
- 13 The best instructors educated in Europe are graduates of conservatories.
- 14 A finished musical education attainable from the first rudiments to final graduation.
- 15 Its graduates rank high and fill the best positions.
- 16 Frequent recitals by eminent artists.
- 17 Beginners are received.
- 18 Evening classes are formed each term.
- 19 Private lessons if preferred, at teachers' regular rates, with over 100 hours of other musical instruction without charge.
- 20 All branches in music, languages, and elocution are taught.
- 21 The class system in the Conservatory is the same as in our colleges and best schools.
- 22 Access is given to a fine musical library.
- 23 The *London Choir* says of its organ department: "The New England Conservatory of Music is far in advance of our own Academy, and indeed of every English institution."
- 24 *Harper's Monthly* characterizes it as the "Model Music School of the age."

Those who complete the required course of study, in any department, are awarded a diploma.

Send for Circular. Pupils received at any time. The public are cordially invited to call upon the Director and further investigate its advantages.

# EMERSON PIANO-FORTES.

## THE EMERSON PIANO COMPANY

Are desirous that their instruments shall be subjected to the strictest tests. By care in selecting materials, and by rigorously insisting upon perfect work, they procure instruments that are **ABSOLUTELY UNSURPASSED**. The mechanism of the Piano-Forte is simple and easily understood. There is no secret or mystery about it, as some shrewd advertisers would have the public believe. The solidity of the frame and case, the well-chosen, well-seasoned and well-wrought wood of the sounding-board, the perfection of the hammers, dampers and strings; the unyielding firmness of the pins, the scientific voicing and tuning—these are the elements necessary to form **Perfect and Satisfactory Tone**.

More than twenty-two thousand of these Pianos have been made and sold, and the Standard of Excellence was never so high as now. Superior Upright Pianos to Rent. Every Piano Warranted for Seven Years.

To persons of musical taste, willing to trust their own ears, the Company submits its instruments, confident that in sonority, evenness, crisp action, sustaining power and durability, they are not anywhere excelled.
