The Wayside Gardens Co.
 MENTOR, OHIO

General List of Herbaceous and Alpine Plants

Plants preceded by one star are rock plants but large enough to be grown on the margin of the hardy border, as well as in the rock garden.

Plants preceded by two stars should be grown in the rock garden only.

Achillea - Milfoil or Yarrow

	Doz.	100
Eupatorium (syn. filipendula). 3 to 4 feet. Flat heads of brilliant yellow flowers; finely cut foliage. Blooms last dried all winter	\$1.00	\$7.00
Millefolium roseum (Rosy Milfoil). July to October. Rosy pink flowers in dense heads, on stems 18 inches high. Effective on edge of shrubbery or in border.....	1.00	7.00
Ptarmica, Perry's White. 1 to 2 feet. June to September. Large pure white flowers; broad, overlapping petals. Nothing better for cutting.....	1.25	8.00
Ptarmica, The Pearl. Pure white, double flowers all summer. Prized for cutting.....	1.00	7.00
Ptarmica, Boule de Neige. New. An improvement on "The Pearl," with fuller and more perfect flowers. Best for borders; neat plant.....	1.00	7.00
*Tomentosa. 6 to 8 inches. July to September. Bright yellow flowers. Excellent for rockeries; plant 4 inches apart...	1.25	8.00

Aconitum - Monkshood

Autumnalis. 3 to 4 feet. September-October. Large, dark blue flowers in a raceme	3.50	25.00
Fischeri. A dwarf variety with dark blue flowers. September and October. 2 to 3 feet. This is the hardiest and most useful of all the Aconites.....	1.50	10.00
Napellus. Upright, single spike reaching a height of about 3 to 4 feet. The straight spike is covered during July and August with dark blue flowers	3.50	25.00
Napellus bicolor. The same habit and flowering time as Napellus, listed above. The flowers are blue and white. Looks very fine in clumps of six or more	3.50	25.00
Sparks' Variety. July- and August-flowering; tall branched spikes, 4 to 5 feet high, covered with deep blue, Monkshood flowers	3.00	20.00
Wilsoni. The true variety which we are herewith offering is the late autumn-flowering kind, producing 6- to 7-foot spikes covered with beautiful mauve colored flowers. It is a very rare and lovely variety	4.00	30.00

Adenophora - Gland Bellflower

Potanini. A plant resembling campanula, but more shrubby in habit. Flower spikes are from 2 to 3 feet long, flowers 1 1/4 inches across and light blue during July and August. The best variety for average American gardens	2.50	18.00
--	------	-------

Aethionema - Persian Candytuft

Grandiflorum. A lovely little plant about 12 inches high. Blue-green foliage which remains handsome all summer. During June the plant is covered with long spires of clear rose colored flowers.....	2.00	15.00
*Persicum. Strong, twiggy bushes covered with long, slender spikes of rosy pink flowers. One of our best rock plants. 9 inches. June-July flowering.....	1.50	10.00

WE SHALL be very glad to send you our illustrated retail catalog upon request. This book contains 100 pages of cultural as well as descriptive matter on hardy plants, rock plants, bulbs and lilies, and over 250 illustrations. It is beyond any doubt the finest and most complete catalog on hardy plants and bulbs published in this country.

Wayside Gardens

Agapanthus - Blue Lily of the Nile or Blue African Lily

	Doz.	100
Umbellatus Mooreanus. Grows about 18 inches high, leaves rather short and upright; flowers are large and dark blue, as large as of Umbellatus itself. A lovely small plant for the rockery or near a small pool or stream. This novelty is introduced by Wayside Gardens for the first time in this country. June, July and August	\$4.00	\$30.00

Agrostemma - Rose Campion or Joy of Love

	Doz.	100
Coronaria (Mullein Pink). Bright rosy crimson. 2 1/2 to 3 feet high. Best variety for average American gardens	\$1.00	\$6.00

Ajuga - Bugle

	Doz.	100
*Genevensis. Grows 6 to 8 inches high; dense spikes of blue flowers in May and June.....	\$1.50	\$10.00
*Reptans rubra. Grows 3 to 4 inches high, with deep purplish blue flowers in May and June.....	1.25	8.00

Allium

*Tibetica. Four years ago this variety was introduced from Tibet for the first time in England. Height 6 to 8 inches. Flowers on short stems in clusters are a lilac-mauve. Blooms during June and July. Excellent for rock garden.....	1.75	12.00
---	------	-------

Alyssum - Madwort; Basket of Gold

*Argenteum. Dense growth. Leaves silvery beneath, flowers yellow in clustered heads, all summer. About 15 inches....	1.00	7.00
*Citrinum. Similar to Saxatile, but flowers are pale citron-yellow. 1 foot.....	1.25	8.00
*Rostratum (Wierzbicki). Prostrate, almost shrubby variety, hoary grey all over. Flowers pale yellow, in unbranched heads. May to July. 1 foot.....	1.25	8.00
*Saxatile compactum. Broad masses of bright yellow flowers in early spring. An excellent plant for the rockery or front of borders. 1 foot.....	1.00	6.00
*Serpillifolium (Alpestre). Very dwarf. 4 to 5 inches high, with racemes of pale yellow flowers and rough, hoary leaves. Charming for the rock garden. Flowers just after Saxatile is out of bloom	1.50	10.00
**Spinulosum roseum. A rare plant with handsome silvery gray foliage; a neat, small-leaved species remaining longer in beauty than any of the others. For wall or rock garden. 10 inches.....	2.00	15.00

Amsonia

Tabernaemontana. Flowers late May and early June, producing numerous flowers of light blue in panicles, on 2- to 3-foot stems; fine for the hardy border or planted among shrubbery	1.50	10.00
---	------	-------

Anchusa - Alkanet

Dropmore. Tall spikes of beautiful blue flowers in June and intermittently all summer. 4 to 5 feet	1.00	7.00
Opal. Very beautiful variety, with large, pale blue flowers in June and intermittently all summer. 3 to 4 feet.....	1.25	8.00
*Myosotidiflora. A distinct, dwarf perennial from Russia, with clusters of charming blue flowers resembling Forget-me-nots. An effective rock plant for shady or sunny places. Flowering in May and June. 12 inches high.....	1.50	10.00

Androsace - Rock Jasmine

**Lanuginosa Leichtlini. Rosettes of silky foliage and heads of rose-pink blossoms on stems about 8 inches high. June and July flowering	4.00	30.00
**Sarmentosa (Chumbuiji). One of the easiest and best. Rosettes of silky foliage and heads of verbena-like blossoms of pink on stems about 6 inches high. From the Himalayas. June and July flowering	4.00	30.00

Anemone - Windflower**ANEMONE JAPONICA** (Japanese Windflower)

	Doz.	100
Alba. Purest single white, with yellow center.....	\$1.35	\$9.00
Alice. Large flowers of rose-pink, lilac center; excellent new variety. The best and strongest grower of all pink sorts ..	1.35	9.00
Buhler Kind. Early double white.....	2.50	18.00
Kriemhilde. Double, rich pink; of excellent form.....	1.35	9.00
Max Vogel. Double rose-pink; free flowering.....	1.50	10.00
Prince Henry. Double red flowers; dwarf, but early.....	1.50	10.00
Queen Charlotte. Abundant semi-double flowers, broad and perfectly formed; "La France" pink.....	1.35	9.00
Richard Ahrends. Large, single shell-pink flowers with lilac hue	1.50	10.00
Rubra. Beautiful rosy red; stamens bright yellow.....	2.50	18.00
Rubra Flora Plena. Double-flowered form of the above.....	1.50	10.00
Whirlwind. Excellent double white flowers.....	1.35	9.00

ANEMONE (Species)

* <i>Hepatica coerulea</i> (Wood Anemone). A pretty native, spring-flowering plant, with blue flowers; prefers shade, but will do fairly well in any open situation in moist, rich loam. We offer large clumps, each consisting of 6 to 12 flowering crowns	1.55	10.00
* <i>Hupehensis</i> (Early Anemone). The plant grows from 12 to 14 inches high and from early in August until late in the autumn produces an abundance of flowers about 1½ inches in diameter, of a pleasing mauve-rose.....	1.35	9.00
* <i>Pulsatilla</i> (Pasque Flower). Grows from 9 to 12 inches high and produces violet or purple flowers during April and May. An interesting plant for the rockery or well drained border.....	1.50	10.00
* <i>Pulsatilla rubra</i> . Of dwarf habit with reddish purple flowers..	1.75	12.00
* <i>Pulsatilla alba</i> . Same habit as the <i>Pulsatilla</i> with beautiful white flowers. Very rare.....	2.00	15.00
* <i>Sylvestris</i> . Fine for cool, moist corner of rock garden or border. Large, white blossoms on nodding stems of about 12 inches, blooming freely in May and June. Lovely cut flower	1.25	8.00
** <i>Vernalis</i> (Lady of the Snow). A rare and exquisite alpine. Large, open flowers of pure white, flushed violet outside, on short stems. Blooms very early. Easily grown in rich vegetable soil in full sun. Plant 4 to 6 inches apart	4.00	30.00

Anthemis - Chamomile

<i>Tinctoria</i> (Kelway's Variety). Handsome, finely cut foliage, and large golden yellow flowers produced all summer. Succeeds in the poorest soil; excellent cut flowers.....	1.00	6.00
--	------	------

Anthericum - St. Bernard's or St. Bruno's Lily

<i>Lilium majus</i> . Lovely spikes of white flowers 1½ feet high in May and June. A choice border plant.....	\$2.50	\$18.00
---	--------	---------

Aquilegia - Columbine

<i>Canadensis</i> (Common American Columbine). The native bright red and yellow variety, and one of the brightest ..	1.00	6.00
<i>Chrysantha</i> . Beautiful golden yellow flowers; blooms for two months	1.00	6.00
<i>Chrysantha alba</i> . White form of above	1.00	6.00
* <i>Coerulea</i> (Rocky Mountain Blue Columbine). Lovely blue flowers with long spurs	1.50	10.00
Dobbie's Imperial Hybrids. These new long-spurred Columbines are unequalled for their range of colors and sturdiness. They have received a great deal of attention abroad and are considered in England the best mixture offered today.....	1.50	10.00
* <i>Flabellata nana alba</i> . A delightfully dwarf variety for the rock garden, perfect foliage and ivory-white flowers. The whole plant not over 8 to 10 inches high. A quaint Japanese species	1.50	10.00
<i>Nivea grandiflora</i> . A fine white, robust variety; profuse bloomer	1.35	9.00

AQUILEGIA—Continued.

	Doz.	100
Scott Elliott Long-Spurred Hybrids. Wonderful colors with very long-spurred flowers. Our stock is from seed from this choice breeder, absolutely true strain	\$1.25	\$8.00
Skinneri. Excellent in shady places where its greenish yellow and scarlet flowers show off to great advantage. In full bloom during May and June.....	1.25	8.00
Wayside Pink. A beautiful strain of clear pink colors, with long spurs. We do not think that they can be surpassed... ..	1.35	9.00

Arabis - White Rock-Cress

* <i>Alpina</i> . Pure white flowers produced in dense masses, splendid for border and rockery work, and last quite some time when cut	1.00	7.00
* <i>Alpina rosea</i> . Similar in habit to the above. The flowers are a delicate pale pink.....	1.70	12.00
* <i>Alpina flore pleno</i> . Same as above but with double white flowers; very fine rock plant.....	1.70	12.00
* <i>Procurens</i> . A prostrate, creeping plant with glossy evergreen leaves which form a dense carpet on the ground. The flowers are white on upright, slender stems in April and May..	2.00	15.00

Arenaria - Sandwort

** <i>Balearica</i> . An emerald mantle for shady rocks. Myriads of white, fairy, starlike flowers in May, one-half inch high....	2.00	15.00
* <i>Grandiflora</i> . From the Pyrenees Mountains. Covers itself with pure, snow-white, star-like flowers. One of the best of all rock plants. May flowering.....	1.25	8.00
* <i>Montana</i> . Close tufts, profusely covered with small, silvery white flowers quite early in the season. Excellent as an edging plant in formal gardens and for rockeries in sunny places. The flowers in May resemble small, white, upturned morning glories	1.50	10.00
** <i>Verna</i> . A prostrate growing plant creeping low over the ground and between cracks in stones. Excellent for the rock garden and between flagstones.....	1.50	10.00

Armeria - Thrift or Sea-Pink

* <i>Cephalotes rubra</i> . 8 to 10 inches; deep pink flowers freely produced from a neat cushion-like plant.....	1.70	12.00
* <i>Lauchiana</i> . Bright rosy red. 3 to 6 inches. May-June. Very free flowering.....	1.35	9.00
* <i>Maritima</i> . 3 to 6 inches. May and June. Valuable for edging; flowers pale pink; foliage grasslike, evergreen.....	1.25	8.00
* <i>Maritima alba</i> . 3 to 6 inches. May and June. Tufts of deep green foliage; white flowers.....	1.25	8.00
Mixed Seedlings. 18 to 24 inches. June to October. Large flowers of delightful white, rose and pink shades. Very useful for edging and cutting.....	1.25	8.00

Arnica - Mountain Tobacco

<i>Montana</i> (Mountain Tobacco). An attractive border plant. Stems about a foot high with clusters of yellow daisy-like flowers in June and July	4.00	30.00
--	------	-------

Artemisia - Southernwood; Sage Brush

* <i>Abrotanum</i> . Dwarf plant with silvery gray, highly aromatic foliage; yellow flowers in July; good for margins of the border or bold groups in the rockery	1.50	10.00
<i>Lactiflora</i> . A tall-growing plant of fine foliage and beads of small, white flowers in August and September, which fill the garden with fragrance. A splendid and graceful cut flower..	1.00	6.00
Silver King. A striking white-leaved contrast plant. A beautiful "mist" for setting off bouquets and floral combinations. The entire color effect bright frosted silver. Three feet high. Sprays may be cut to mix with winter bouquets.....	1.00	7.00

Asclepias - Butterfly Weed

<i>Tuberosa</i> . Attractive plants, flowering during July and August, and growing about 1½ feet high. Produces umbels of bright orange-colored flowers which are lovely to cut and last a long time.....	1.00	6.00
---	------	------

Asperula - Woodruff

	Doz.	100
* <i>Odorata</i> . 6 to 8 inches high. Increases rapidly and is used for carpeting shady places and in the rock garden. Heads of snowy white flowers appear just above the foliage in May. A fine scented herb reminding one of new mown hay.....	\$1.75	\$12.00

Asphodelus - Asphodel

<i>Luteus</i> . Tall spikes of bright yellow flowers; very fragrant; swordlike foliage; fine for borders; plant in groups of three or more for best effect.....	1.50	10.00
---	------	-------

ASTILBE (See Spiraea).

Aster - Starwort or Michaelmas Daisy

<i>Artis</i> . Double flowers of clear Petunia-violet completely cover the plant in early autumn. About 3 feet high.....	1.25	8.00
<i>Blue Gem</i> . Double flowers of rich blue; the best blue in cultivation	1.50	10.00
<i>Charm</i> . Very double violet-blue flowers.....	1.25	8.00
<i>Climax</i> . One of the best and showiest, with large, pyramidal spikes of large, light lavender-blue flowers; very free. 5 feet. Excellent as a cut flower.....	1.50	10.00
<i>Erica</i> . A beautiful clear pink; large, semi-double flowers.....	1.25	8.00
<i>Elta</i> . Semi-double flowers of pale lilac. Handsome shape; free flowering	1.25	8.00
<i>Feltham Blue</i> . A pretty aniline blue; very free.....	1.25	8.00
<i>Glory of Colwell</i> . Good sized, almost double; <i>Ageratum</i> -blue flowers	1.25	8.00
<i>Grey Lady</i> . Exquisite shade of opal, with semi-double flowers.	1.25	8.00
<i>Joan Vaughan</i> . Large, semi-double flowers of deepest blue... ..	1.25	8.00
<i>Lady Lloyd</i> . A very fine, clear rose-pink. Lasts exceedingly well	1.25	8.00
<i>Mauve Queen</i> . Very large, semi-double flowers of clear mauve.	1.25	8.00
<i>Mrs. Raynor</i> . The nearest red of all Asters; good form.....	1.50	10.00
<i>Novae-angliae roseum superbum</i> . Almost red and a profuse bloomer	1.50	10.00
<i>Peggy Ballard</i> . Large, pyramidal sprays of double, rosy mauve flowers. About 3 feet high.....	1.25	8.00
<i>Robert Parker</i> . Pale heliotrope. 4 feet.....	1.25	8.00
<i>Robinson V. C.</i> A pretty bluish mauve, double flowers borne in long sprays.....	1.25	8.00
<i>Sam Benham</i> . Early flowering, semi-double white. The best of all white Michaelmas Daisies; produces large flowers; fine for cutting.....	1.50	10.00
<i>St. Egwin</i> . A pleasing, rosy pink; very free blooming; dwarf habit	1.25	8.00

Aster Species

* <i>Alpinus albus</i> . Fine dwarf white Aster, bearing large, single white flowers on stems 6 to 8 inches high. May and June. Excellent for rock gardens.....	1.25	8.00
* <i>Alpinus, Goliath</i> . Indispensable for the rockery or edge of hardy borders; 6 to 10 inches high, and bears large, showy, bluish purple flowers in May and June.....	1.50	10.00
* <i>Alpinus rubra</i> . Also good for the rock garden or as an edging plant, producing rose-purple flowers; 6 to 10 inches high. May and June.....	1.50	10.00
<i>Amellus elegans</i> . Long, graceful sprays of soft lavender. Good for the border; flowers in August.....	1.75	12.00
<i>Amelloides</i> . A graceful variety for cutting.....	1.75	12.00
* <i>Diplostiphoides</i> (Dubia). A very fine dwarf Aster for the rock garden, producing early in the season, pale blue flowers. 2 to 3 inches across.....	1.75	12.00
* <i>Farreri, Big Bear</i> . With beautiful flowers of the richest violet, orange center, for rock garden or border	1.75	12.00

ASTER SPECIES—Continued.

Doz. 100

- *Mauve Cushion. Distinct species. It forms a circular cushion-like plant 1½ feet across, rarely exceeding 9 inches in height, the flowers of delicate, soft mauve, with silvery white reflections, measure over 1¼ inches in diameter, and are produced in such lavish profusion as to completely cover the plant; the blooms begin to expand early in October, but are not at their best until November\$1.00 \$7.00
- *Porteri. One of the very few Asters suitable for the wall garden. In fact, the only one worth while. Also good for the rockery 1.75 12.00
- Tataricus. Distinct, large bluish violet; very late. 6 feet.... 1.00 7.00

Aubrietia - Purple Rock-Cress

- *Eyri. Rosy lilac; best of all..... 1.50 10.00

Baptisia - False-Indigo

- Australis. Dark blue, pea-shaped flowers in June, are produced on top of spikes 2 feet high; suitable for the hardy border or wild garden. Very attractive foliage all summer.. 1.25 8.00

BELAMCANDA (See Pardonthus Chinensis).

Bellis Perennis - English Daisy

- Perennis, Snowball. Mammoth white 1.00 6.00
- Perennis, Longfellow. Mammoth pink 1.00 6.00

BERGAMOT (See Monarda).

BLEEDING HEART (See Dicentra).

Bellium - Alpine Daisy

- *Bellidoeides. A dainty little miniature of the Bellis perennis, except that it throws out numerous runners and so forms a wide mat, covered in summer with small, white daisies. Fine for rockery 2.00 15.00

Betonica - Betony

- Grandiflora. Close tufty foliage with bright rose-purple flowers on long stems about 2 to 3 feet tall produced during June, July and August. A lovely plant for a hot, dry place in the border 1.75 12.00

Bocconia - Tree-Celandine or Plume Poppy

Doz. 100

- Cordata. A noble hardy perennial, beautiful in foliage and flower, and adapted for planting in the shrubby borders, and in bold groups in any position, attaining 6 to 8 feet in height. Flowers creamy white in terminal panicles.....\$1.00 \$7.00

Boltonia - Bolton's Starwort

- Asteroides. White. 5 to 6 feet high..... 1.00 6.00
- Latisquama. Pink, slightly tinged with lavender. 4 to 6 feet. Really the best of all varieties offered..... 1.00 6.00

Buphthalmum - Ox-eye

- Salicifolium. Bears large, rich, golden yellow flowers through the summer. 2 feet high. Is a very fine plant for the sunny hardy borders..... 1.50 10.00

Calamintha - Calamint

- *Alpina. A very graceful little rock plant, growing 6 inches high, with rich purple flowers..... 1.50 10.00

Calandrinia

- *Umbellata. Prostrate plant, 4 to 6 inches, with brilliant crimson, saucer-shaped flowers; good for hot place in rock garden 2.50 18.00

Callirhoe - Poppy Mallow

Doz. 100

- *Involverata. Trailing plant, with finely divided foliage and large, saucer-shaped flowers of bright rosy crimson, with white centers, which are produced all summer and fall....\$1.00 \$7.00

Caltha - Marsh-Marigold

- Palustris. Flowers bright yellow in spring, on stems 12 to 18 inches high. A very showy plant in wet places, both in sun and shade. Its foliage is always clean and attractive 1.75 12.00

Campanula Medium - Canterbury Bells

CALYCANTHEMA (Cup and Saucer).

- Tall, erect growing plants completely covered with large cup and saucer-shaped flowers during late May and June. One of the loveliest of biennials and a perfect plant for the old-fashioned, hardy garden. Flowers last a week or more when cut.
- Calycanthemum Blue. Covered with blue flowers..... 1.00 6.00
- Calycanthemum Pink. Same as above with lovely pink flowers.. 1.00 6.00
- Calycanthemum White. Same as above with pure white flowers.. 1.00 6.00

MEDIUM (Single Canterbury Bells).

- These have the same habit of growth and are just as lovely as the Calycanthemum, the flowers, however, do not have the so-called "saucer," but are bell-shaped.
- Medium Blue. Plants are completely covered with blue bells. 1.00 6.00
- Medium Pink. Same as above with lovely pink bells..... 1.00 6.00
- Medium White. Same as above with pure white bells..... 1.00 6.00

Campanula - Bellflower

- Alliariaefolia. A grand border plant with tall spikes of long, pendent bells. 3 feet high..... 1.50 10.00
- *Barbata. Silvery blue bearded or hairy bells on stalks about 6 to 9 inches long and are produced in June and July. It is a very unusual and outstanding plant for the rockery or border 2.50 18.00
- Bononiensis. Small, blue flowers borne profusely on slender stems. June. 2½ feet..... 1.00 7.00
- *Carpatica (Carpathian Harebell). A pretty species growing in compact tufts not exceeding 8 inches high; flowers clear blue held erect on wiry stems. It begins blooming in June continuing until October. As an edging for hardy border or for the rockery it is unsurpassed 1.25 8.00
- *Carpatica alba. A pure white form of the preceding 1.25 8.00
- *Cullinmore. A lovely hybrid form of Carpatica and other dwarf-growing species. Much more prolific than Carpatica. Its flowers of various shades of blue are produced all summer. Very nice edging plant or for the rock garden..... 2.50 18.00
- Elegans. Fine Campanula for borders and rockeries. Height 18 inches. Blooms all summer..... 1.50 10.00
- **Garganica. A gem for the rock garden. Forms a low spreading tuft which in June is covered with starry light blue flowers having a white eye. Exquisite hanging over a rock.. 2.00 15.00
- *Glomerata var. dahurica. A Campanula that should be in every garden. It is about 18 inches high. In June and July has large, close heads of deep blue flowers which are strikingly effective. An old European garden favorite..... 1.50 10.00
- Lactiflora alba. A beautiful variety from the Imperial Gardens of Petrograd producing spikes 2 feet high bearing large, white flowers 1.50 10.00
- Lactiflora coerulea. Pale blue flowers during July and August on stems 2 to 3 feet high; does well in light shade..... 1.50 10.00
- Latifolia macrantha. Very handsome, enormous drooping bells of fine satiny lilac and deep purplish shades on stems 3 to 4 feet high; does well in light shade or full sun..... 1.50 10.00
- Latifolia macrantha alba. A white-flowered form of the above. 1.75 12.00
- **Muralis. Very dwarf plant covered with blue-purple flowers in June. Fine for wall or rock garden. The most popular wall plant or rock plant of the entire Campanula group.... 3.00 20.00
- Persicifolia grandiflora alba. One of the finest Campanulas, with large, handsome, white, bell-shaped flowers. A great acquisition. Height 2 feet..... 1.35 9.00

CAMPANULA—Continued

Doz. 100

- Persicifolia grandiflora coerulea. An excellent companion to the white variety, the large bright blue flowers making an effective contrast. Height 2 feet.....\$1.35 \$9.00
- Pyramidalis. Produces spikes from 4 to 6 feet long covered with blue, star-shaped flowers during the entire summer; excellent plant with Delphinium in background in the hardy border 1.35 9.00
- Pyramidalis White. Similar to the above, producing white flowers 1.35 9.00
- *Raineri Hybrids. A very rare and beautiful species of dwarf and spreading habit. Plants are covered in June and July with flowers in various shades of lavender-blue..... 3.00 20.00
- Rapunculoides. Strong, 3-foot stems with slightly nodding bright blue bells. Very common in Siberia and a fine border plant for the cold parts of this country. Grows quite freely 3.00 20.00
- *Rotundifolia (Blue Bells of Scotland or Harebells). 1 foot. June to August. In the wild it is more slender and taller than in the garden; clear blue flowers. Especially suited for crevices in the rock garden or deep slopes, best planted so as to show pendent habit. Does well also in light shade..... 1.25 8.00
- *Sarmatica. A low-growing, much branched variety. Each plant with 8 to 10 stems not over 16 inches high. Covered with pale blue, bell-like flowers. Foliage a silvery gray. Splendid variety for rockery or border..... 2.00 15.00
- Trachelium (Coventry Bells). 2 to 3 feet. July and August. Sturdy, hairy plant, with light purple, somewhat drooping flowers 1.35 9.00

Carlina - Charlemagne's Thistle

- *Acaulis. An Alpine Thistle with an immense, stemless flower head. Leaves are intensely spiny and very silvery, making a handsome subject for the rockery. Rare and unusual plant.. 2.00 15.00

Carnations - Hardy Border

- Scarlet and Red Shades. Dozens of double and single red and scarlet flowers on long stems. Lovely for cutting, are produced during June and July..... 1.00 7.00
- White Shades. The same as above but with single and double white flowers..... 1.00 7.00
- Mixed Shades. A riot of color and flowers in great abundance in June and July, are the result from just a few plants. Cut back all flower stems when through blooming..... 1.00 7.00

Cassia - Indian Senna

- Marilandica. Handsome pinnate foliage and numerous racemes of showy yellow flowers during July, August and September. An extremely desirable plant of the easiest culture 1.25 8.00

Catananche - Blue Cupidone, or Love-Plant

Doz. 100

- *Caerulea. Heads of pretty deep blue flowers on long stems. Profuse and excellent cut flowers in great quantities on 18-inch stems during July, August and September.....\$1.50 \$10.00

Centaurea - Knapweed

- Dealbata. Large and striking rose-pink flowers. June-July. 2 feet high..... 1.25 8.00
- Macrocephala. Large, thistle-like, golden yellow flowers; useful for cutting and showy in borders. July and August. 3½ feet high..... 1.25 8.00
- Montana (Perennial Cornflower). Grows 2 feet high, bearing large, violet-blue flowers from July to September..... 1.00 7.00
- Montana alba. White form of the above 1.00 7.00
- Ruthenica. This handsome plant grows about 5 feet high and bears from July to September, lovely lemon-yellow flowers. Fine for the background of the hardy border..... 1.75 12.00

CENTRANTHUS (See Valeriana).

Cephalaria - Giant Scabious

	Doz.	100
Tatarica. Flat heads of showy cream-white flowers on stems 6 feet high, during July and August. Suited for rear of borders, where tall effects are desired.....	\$1.35	\$9.00

Cerastium - Chickweed

*Tomentosum (Snow-in-Summer). A low-growing plant having silvery white foliage and producing an abundance of snow-white flowers in May. Especially suitable for rock or border purposes.....	1.35	9.00
--	------	------

CERATOSTIGMA (See Plumbago Larpentae).

Cheiranthus - Siberian Wallflower

*Allioni. A beautiful rock plant. Dazzling fiery orange flowers, on stems about a foot high. Best used as a biennial as it frequently blooms itself to death.....	1.00	7.00
---	------	------

Chelone - Turtle-head or Shell-Flower

Glabra alba. Terminal spikes of creamy white flowers.....	1.25	8.00
Lyoni. Heads of showy purplish red flowers.....	1.25	8.00

Chrysanthemums**HARDY GARDEN VARIETIES**

Aladdin. The new perpetual summer and early autumn flowering Chrysanthemum. Blooms from 5 to 6 weeks ahead of any other outdoor Chrysanthemum. Its color resembles that of the famous Talisman Rose. Flowers which appear in late July and early August are borne on stiff stems in an endless procession until frost. This "Mum" received eight awards and gold medals this summer alone and is considered the finest plant introduced for 1932. Supply is limited. \$2.50 per 3; \$10.00 per doz.; \$75.00 per 100.		
Adironda. The small compact flowers completely cover the plant when in bloom. The flowers are a rich bronze with coppery gold center. Very early and very hardy.		
Angelo. A lovely, very early, free-flowering pink variety. The large blooms resist the effects of bad weather to a remarkable degree and are therefore always good.		
Argenteuillais. Well shaped scarlet bronzy flowers tipped with gold are produced in great quantities. Exceptionally hardy variety of medium height.		
Boston. The beautiful bronzy orange flowers are produced in great abundance in well-branched heads on tall, erect stems. Also noted for its unusual hardiness.		
Bronze Button. Late, free flowering, of medium height, producing large heads of tiny button-like, bronze-colored flowers. Very hardy and a great bloomer.		
Brune Poitevine. An outstanding and fine variety of medium height. The flowers are fairly large, loose in structure and produced in great abundance. The deep velvety reddish bronze flower petals have a golden reverse, greatly adding to the general beauty of the plant. Flowers very early and the plant is exceptionally hardy.		
Capt. R. H. Cook. A most popular pompon-flowered variety. The clear deep rose-colored petals are tipped golden bronze, creating a most unique appearance. Tall grower; hardy.		
Carrie. As early as Glory of Seven Oaks and of practically the same habit, but the flowers are a clean, clear pale yellow.		
Comoleta. Very tall growing sort. Late-flowering. Very large and double yellow flowers with reddish orange shadings.		
Daybreak. Virtually a duplicate of the lovely and popular Seashell. Daybreak will flower with us about October 10th, two weeks before Seashell, and can be depended on for a fine display each season. The flower is of single type, almost 3 inches across, soft shell-pink in color, and has a noticeable sweet fragrance. Splendid variety for cutting or garden display. Strong and free growing.		
Excelsior. In habit much the same as white Doty but with most brilliant golden yellow flowers. It is perhaps more prolific, certainly an easily grown and most satisfactory variety.		
Frances Whittlesey. A very decided improvement in this particular color. Habit is stocky and dwarf, averaging 18 inches in height. Color, rich bronze and garnet—just right for the fall garden. It commences to flower in late September and makes a gorgeous showing through October, having the ability to resist considerable frost in the open flowers.		
Firelight. Tall, midseason, large flowering. Very showy spikes covered with heads of red flowers tipped with copper. Very hardy.		

CHRYSANTHEMUMS—Continued.

Gypsy Girl. A garden variety of the single type, crimson in color, shading to chestnut-crimson. It commences blooming in early October, resisting early frosts, and it flowers well into November.		
Glory of Seven Oaks. This is the first outdoor Chrysanthemum to bloom, commencing to do so in August; its soft but clear masses of bloom have made it a great favorite. Medium height and fine for a planting in front of taller varieties.		
Harvest Home. Beautiful midseason-flowering variety. Medium height and covered with large golden yellow flowers about 3 inches across.		
Idolph. About 18 to 24 inches high. Midseason; flowering very profusely. Produces light rose-pink, very double flowers with yellow center.		
Jean Cumming. Introduced in 1931, this new variety is regarded as a very great improvement on older white varieties. Large flowers of purest white, with the softest yellow and bluish shading at the center of the buds. Growth erect and wiry, height medium. Commences flowering about September 15th, and having exceptional keeping qualities, is undoubtedly the best white variety to date.		
Marie Antoinette. A late, sure blooming sort, bushy and very free-flowering. Excellent deep pink flowers.		
Marion Hatton. For mass color-effect in the garden, we know of no variety comparable to this new yellow. The flower is of the Decorative Pompon type, not large or impressive in itself, but in addition to exceptional freedom in blooming, it is one of the earliest to flower, and certainly the brightest canary-yellow flower available, flowering from late September on. It is remarkably resistant to frost.		
Mitzi. A delightfully free-flowering variety. Rather late but the small, brilliant clear yellow flowers light up the garden. The best and hardiest yellow button variety.		
Mrs. F. H. Bergen. A lovely pale pink variety, the center of the flowers a creamy white. The whole plant is of medium height and noted for its good foliage as well as hardiness.		
Mrs. H. Craig. Very early-flowering sort, rather dwarf in growth. Large, shaggy yellow flowers overlaid with orange-crimson.		
Mrs. H. Harrison. Medium height. Plant produces large clusters of fine, full double pink flowers with cream-pink center. Excellent pompon.		
Mrs. Phillips. The large Daisy-like, single pink flowers with a clear golden center are often 3 to 4 inches across. It is an outstanding single variety noted for freedom of bloom and hardiness.		
Nellie Blake. A fine Aster-flowered type. Midseason. Flowers a rich reddish copper, long lasting.		
Nellie Kleris. Midseason, of medium height with splendid clear pink blossoms. Petals are decidedly incurved, and compact. Two inches across.		
Oconto. The largest white 'mum for outdoor growing, flowers often 4 to 5 inches across on good strong stems, therefore excellent for cutting.		
October Dawn. Lovely shade of soft daybreak-pink, entirely free from contrasting tints. This variety will greatly appeal to those who appreciate the more delicate color-effects. The flowers are of good size, full-petaled, and of nice decorative type. It is of medium height, but well branched, bushy and very free and effective in the garden or as a cut-flower. Commences flowering about October 5th.		
October Gold. This variety is noted for its large flowers, which are freely produced on a plant of medium height. The loose flowers open coppery orange and change gradually to golden yellow, the center of the bloom a clear yellow with lovely pink sheen.		
Ouray. A lovely pompon variety, in fact, it is considered one of the most brilliant of Chrysanthemums. The masses of blooms are a rich bronze with coppery glow. Very early flowering and of medium height, noted also for its hardiness.		
Petite Louise. One of Totry's splendid introductions. Very early flowering and of medium height. Plants completely hidden by pale pink, shaggy flowers about 3 inches across. A very free-flowering sort and a great favorite.		
Provence. Early and dwarf, very free-flowering sort. Pale pink flowers fading to white with yellow center. Excellent cut flower and hardy.		
Ruth Cumming. This variety is considered by some authorities to be the best all-round garden Chrysanthemum. Flowering about October 10th, it has proved consistently good, regardless of the season, and has never failed to make a fine showing. Rich reddish bronze in color, with terra-cotta shades, aging to an even, soft bronze tone and one that immediately attracts attention.		
Snowdrop. Midseason and of medium height, plant rather loosely formed. The best pure white button known; is very hardy.		
Tints of Gold. Early flowering, of medium height. Flowers are large, of rich golden yellow suffused with red near the base of petals. Very striking variety.		

Vivid. A very striking and effective variety, the color of which very closely approaches that of the American Beauty rose—a rosy crimson or amaranth shade new to the earlier flowering Chrysanthemums. Flowering about October 1st, it is extremely vigorous and very free.

White Doty. The tall, straight upright flower stalks, never needing any support, carry large heads of pure white pompon flowers. Excellent for cutting or in the background of other varieties.

Zelia. Midseason and rather tall with old-fashioned large orange flowers produced in quantity. A splendid outdoor variety.

The price of the above named sorts (except Aladdin), is \$1.25 per doz.; \$8.00 per 100.

Chrysanthemum Maximum - Shasta Daisy

	Doz.	100
Alaska. Handsome plant, with large, glistening white blossoms in June and July	\$1.00	\$6.00
Etoile d'Or. Another of the large-flowered English type, producing the largest and best flowers of any we have. July to September	2.00	15.00
Glory of Wayside. Abundant small flowers and blooms early in May; excellent for front of the hardy border.....	1.35	9.00
Mayfield Giant. A lovely, strong growing and free-flowering Shasta Daisy of recent introduction. If old flowers are removed when faded this variety will bloom throughout the summer	2.00	15.00
Mrs. C. Lothian Bell. Very large, perfectly formed flowers. Continuous bloomer. One of the largest. June to August.....	1.25	8.00
Sutton's May Queen. Not one of the largest but one of the earliest; similar to the Hartje & Elder Daisy but with a better stem. Flowering for Decoration Day, it is one of our most valuable cut flower varieties	1.25	8.00

Chrysanthemum Species

*Arcticum (The Arctic Daisy). Among fall-flowering perennials this is a perfect gem. It forms an attractive rosette-like clump of pretty dark green foliage, and in September multitudes of flower stems appear, terminated by pure white flowers 2 to 2½ inches in diameter. These begin to develop during the last week in September, and continue in good condition throughout October, and frequently into November	1.00	7.00
Coreanum (Korean Chrysanthemum). A remarkable new perennial from Korea of iron-clad hardiness. White flowers with golden center. Flowers often turn to a light pink; 2 to 4 feet high, in bloom from October to December.....	1.35	9.00
Leucanthemum flore pleno (Double White Daisy). Flowers double, pure white, of medium size, excellent for cutting; each plant produces from 30 to 50 flowers; perfectly hardy. May and June flowering.....	1.25	8.00
Uliginosum (Syn. Pyrethrum). Giant Daisy. Grows 3 to 4 feet high, covered with large, white, Daisy-like flowers from June to September.....	1.50	10.00
Zawadsky. A dwarf growing midsummer flowering Daisy with pale pink flowers. Good for front of border	2.00	15.00

Cimicifuga - Snakeroot

Racemosa. Handsome shade-loving plant, bearing in July and August spikes of pure white flowers, 4 to 6 feet high; well suited for planting at the back of border, or for naturalizing at the edge of the woods.....	1.25	8.00
---	------	------

Cistus

*Formosus. Fine, shrublike plant for rockery, with yellow flowers with dark spots. Fine plants for the South and hot southern exposures. Great favorites in the European rock garden.....	2.00	15.00
*Radiatus. Similar to above with orange blossoms.....	2.00	15.00

Clematis, Dwarf - Shrubby Clematis

Davidiana. A most desirable variety, with fresh, bright green foliage and tubular, bell-shaped flowers of deep lavender-blue during August and September; deliciously fragrant. 2½ feet high.....	1.75	12.00
Integrifolia coerulea. A good border plant, growing from 18 to 24 inches high, producing its interesting porcelain-blue flowers from June to August.....	2.00	15.00
Recta. Grows from 2 to 3 feet high, and produces fragrant, pure white flowers in very large, showy clusters during June and July.....	2.00	15.00

Codonopsis - Bellwort

	Doz.	100
*Ovata. Twining in habit; 10 to 12 inches high; pale blue flowers are produced on delicate stems, in all a very lovely little rock plant	\$3.00	\$20.00

Convallaria - Lily-of-the-Valley

Majalis. This popular and fragrant subject repays for being well treated. Grand for massing near shrubs or along shaded borders. Imported Pips (Fortin strain).....	.75	4.00
Clumps. (In fall only). Our clumps are grown from the finest type of imported Fortin stock and are far superior to the common native sort.....	4.00	30.00
	100	250
	1000	
*Berlin Pips. The earliest, largest and best for forcing. Extra strong pips with long roots producing flowers with 15 to 20 bells and fine foliage. Ready in December for indoor forcing.....	\$6.00	\$12.50
	\$50.00	

Coreopsis - Tickseed

	Doz.	100
Grandiflora. An improved variety with large bright yellow flowers; one of the best hardy plants. Excellent for cut flowers all summer.....	\$1.00	\$6.00
(The pink form sometimes offered is useless).		

Coronilla - Crown Vetch

*Cappadocia (Iberica). A first rate and brilliant rock plant. Trailing habit. Glaucous leaves and large, rich, long golden flower heads in June and July. Three inches high. Called in England "Lady Fingers"	3.50	25.00
*Varia. A strong creeper; good for covering rough banks; showy heads of pink and white, pea-shaped flowers on 1' to 2-ft. stems. From June to August.....	1.75	12.00

Corydalis - Fumitory

*Cheilanthisfolia. Handsome variety with fernlike foliage and long spikes of yellow blossoms, 10 to 12 inches in height. Prefers rich, well drained, stony soil. Perfectly hardy, lovely little rock plant; does very well in shade.....	2.00	15.00
--	------	-------

Crucianella - Crosswort

*Stylosa. Early flowering, hardy perennial, suitable for rock work; bright purple, ball-shaped flowers. Height 6 inches..	1.00	7.00
---	------	------

Cypripedium - Lady's Slipper

*Acaule (Lady's Slipper; Moccasin Flower). This is often called the Red Lady's Slipper, but the flower is rose-purple in color.....	3.00	20.00
*Pubescens (Large Yellow Lady's Slipper). Very much like Parviflorum, only the flowers are larger. This should be planted in a rich bed in which leaf-mold should be a part, in some moist, yet well drained, shady spot.....	3.00	20.00
*Spectabile (Showy Lady's Slipper). The finest and most showy of all our orchids. It grows about 2 feet high, bearing along the stalk several rather large, roundish leaves, and on top 1 or 2 quite large, rose-purple or nearly white flowers.	3.75	27.50

Delphinium - Larkspur

English Delphiniums

Wayside Gardens Hybrids. Here offered are the newest, the best and the finest to be secured anywhere. The range of colors varies from the palest shade of blue to the deepest indigo blue and royal purple with many intermediary pastel tones of mauve, pink and lavender blendings. Among these new hybrids are flowers of huge size in both single and double forms. This strain has been raised from seed saved from the finest named kinds in creation. Visitors at our nursery proclaim them the best they have ever seen. Those who wish to perfect their already much prized borders cannot afford to overlook these wonderful hybrids. Doz., \$2.50; 100 for \$18.00.

DELPHINIUM—Continued.

	Doz.	100
Gold Medal Hybrids. They are made up from the following strains: Blackmore & Langdon's, Watkins', Samuell's, Kellway's, and Vanderbilt's. All familiar with Delphiniums know that these firms are careful growers and well known specialists.		
Strong, 1-year-old plants	\$1.35	\$9.00
Strong, 2-year-old plants	1.75	12.00

Delphinium Belladonna

Belladonna. Light sky-blue.		
1-year-old plants90	5.00
2-year-old plants	1.00	7.00
Bella-nosa. A dark blue form of Belladonna. Like the latter and of strong growth.		
1-year-old plants	1.00	6.00
2-year-old plants	1.25	8.00

Delphinium Chinense - Chinese Delphinium

	Doz.	100
Chinense. A very pretty variety, with fine, feathery foliage and intense gentian-blue flowers in open panicles.....	\$1.25	\$8.00
Chinense album. A pure white form of the above.....	1.25	8.00

Desmodium

Penduliflorum. Half-shrubs, the long canes of each season's growth usually winter-killed. The stools become stronger, throwing up more shoots and forming a thick shrub 2 to 5 feet high in showy late summer bloom. Arched branches and long, close, drooping racemes of liquid purple flowers. 2-yr. plants	2.50	18.00
--	------	-------

Dianthus - Pinks

Beatrice. This everblooming cluster Pink is a very valuable plant for the garden, constantly in bloom from June until September. Its color is a lovely pure pink	2.50	18.00
Essex Witch. Delicate pink; finely fringed.....	1.50	10.00
Furth Bismarck. Similar to the Beatrice in habit and freedom of bloom, its flowers are, however, several shades darker, more like the color of the Paul Neyron rose	2.50	18.00
Gladys Cranfield. Single, flowers bright rose, with velvet crimson eye, very fragrant	2.50	18.00
Her Majesty. Very large; purest white.....	1.75	12.00
Manning's Pink. A very free-flowering variety, producing perfectly formed deep pink flowers; sweet scented.....	2.00	15.00
Margaret Martin. Full double mahogany-crimson flowers in great profusion	2.50	18.00
White Reserve. Continuous flowering; pure white.....	1.75	12.00

Dianthus Plumarius OLD-FASHIONED PINKS

*Semperflorens flore pleno. Double and single blooms. Blooms throughout the summer.....	1.00	6.00
---	------	------

Dianthus Heddewigi JAPANESE PINKS

Mixed Varieties	1.35	9.00
-----------------------	------	------

Dianthus Barbatus - Sweet William

Atrococcineus flore pleno (Double Sweet William). Intense deep scarlet double flowers; very brilliant in the garden and a fine cut flower.....	1.25	8.00
Sutton's Fairy. Charming variety of recent introduction, with delicately tinted salmon-pink flowers.....	1.00	6.00
Sutton's Giant White. Enormous trusses which might well be mistaken for perennial Phlox.....	1.00	6.00
Sutton's Pink Beauty. We have succeeded in fixing the shade of this beautiful salmon-pink variety, which should be grown in every garden.....	1.00	6.00
Sutton's Rich Crimson. The richest Sweet William known; although very dark, it is a bright color	1.00	6.00
Sutton's Scarlet. A remarkable color. The flowers are of intense scarlet	1.00	6.00
Sutton's Mixed Shades. Include all the various tints, which give a most pleasing and harmonious effect.....	.90	5.00

Dianthus Species

	Doz.	100
Alpinus Allwoodi. This is one of the loveliest of all rockery Pinks, with glossy leaves and large flowers of various shades of rose and pink on 4-inch stems, produced during July and August. It thrives best in loam with some lime added. A gem for the rock garden	\$1.35	\$9.00
* Arenarius (Sand-Loving Pink). This Pink delights in a sandy soil and sun. Flowers white with carmine ring, on 5-inch stems, deeply fringed and fragrant. Excellent for dry, hot places	1.25	8.00
* Caesius grandiflorus (Cheddar Pink). It is very compact in growth and makes a cushion of glaucous leaves from which in May, spring the sweet smelling, rose-colored flowers. It varies as much as from 4 inches to 10 inches in height. It is easily grown and very fine for the rock garden.....	1.25	8.00
* Cruentus. Dense heads of flowers on long stems. Deep red. Fine border plant.....	1.25	8.00
* Deltoides (Maiden Pink). A beautiful little prostrate plant with narrow leaves, and bearing a profusion of small, crimson flowers during June and July. Easily grown on rockery.	1.00	7.00
* Deltoides album. A charming white form of the above variety.	1.00	7.00
* Deltoides "Brilliant." Glowing crimson-red; a most striking rock plant.....	1.25	8.00
* Knappi. A dainty species producing slender stems which bear clusters of small, yellow blossoms. This is a unique Dianthus as it is the only species which produces yellow flowers. Place it high in the rock garden as it loves a dry sunny place	2.00	15.00
* Liboschitzianus. A lovely species, pure white flowers in great profusion during July. Very lovely plant for rockery or border. About 20 inches high.....	1.75	12.00
* Neglectus var. Roysi. Dianthus Neglectus is also known under the name of Glacialis. The variety Roysi is one of the lovely English garden varieties. It grows about 4 inches high, completely covered with carmine-pink flowers. In Europe it is considered one of the choicest Pinks for the rock garden. Introduced for the first time in this country.....	1.75	12.00
* Speciosus. A free-flowering, lavender-pink variety; flowers are finely cut, giving a lacy effect; wonderfully sweet scented, growing anywhere like all other varieties under this heading; the hotter and drier the spot the more they are at home	1.25	8.00
* Sylvestris (Wood Pink). Bluish foliage and salmon-pink flowers on stems about a foot high. Likes an open, sunny place in stony loam and a slight covering of stone chips upon the surrounding soil is beneficial.....	1.75	12.00

Dicentra - Bleeding Heart

* Eximia (Plumy Bleeding Heart). A dwarf-growing sort, with beautiful, finely cut foliage and showy racemes of pretty pink flowers throughout the season. Too much cannot be said for this fine border plant as it is equally at home in full shade or sun and perfectly hardy anywhere.....	1.75	12.00
Spectabilis (Bleeding Heart or Seal Flower). An old-fashioned favorite; its long racemes of graceful heart-shaped pink flowers are always attractive; it is used also for forcing in the house, and is perfectly at home in any part of the hardy border, and especially valuable for planting in clumps.	2.50	18.00

Dictamnus - Gas Plant or Fraxinella

Fraxinella alba.	2.50	18.00
Fraxinella rubra caucasicus. Is the better of the two, with rose-pink flower spike.....	2.00	15.00

Digitalis - Foxglove

Amhigua or grandiflora. 2' to 3-foot spikes in June and July. A hardy plant, with yellowish flowers, marked with brown. Effective in groups in wild garden. This is a good perennial species	1.35	9.00
Giant Shirley Hybrids. The flower heads are over 3 feet long, crowded with big, bell-shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted crimson or chocolate.....	1.25	8.00
Gloxiniaeflora. 3 to 4 feet. June and July. A popular variety, deep purple. Robust habit.....	1.00	7.00

DIGITALIS—Continued.

	Doz.	100
<i>Gloxiniaeflora alba</i> . 2 feet. June and July. The white-flowered Foxglove.....	\$1.00	\$7.00
<i>Gloxiniaeflora rosea</i> . 3 to 4 feet. June and July; tall spikes of rose-pink flowers.....	1.00	7.00
<i>Isabellina</i> . A lovely cream-yellow sort of medium height, producing 3 to 4 flower spikes to 1 plant. It is beyond doubt the nicest of all the Foxgloves.....	1.35	9.00
<i>Laevigata</i> . A dignified and handsome perennial Foxglove. Bronzy yellow flowers with whitish lip.....	2.00	15.00

Dodecatheon - American Cowslip

* <i>Meadia</i> (Shooting Star). A pretty perennial, with rose-colored or sometimes white flowers in May or June, on 8- to 10-inch stems. This is sometimes called "American Cyclamen." It thrives in rich, moist woods, in the open border or rock garden.....	1.25	8.00
---	------	------

Doronicum - Leopardbane

<i>Caucasicum</i> . Large, bright yellow flowers, one of the most effective early spring-flowering perennials. Effective in a hardy border. It is a splendid flower for cutting, as it carries well and stands a long time in water.....	2.00	15.00
--	------	-------

Draba - Whitlow Grass

<i>Fladnizensis</i> (Androsacca). A very hardy species from the Arctic regions. Produces a profusion of yellow flowers from March to May. Fine for rock garden.....	3.00	20.00
<i>Olympica</i> (Bruniaefolia). A lovely dwarf variety about 4 inches high with golden flowers in large quantities in June. It is a native of Greece. Plants quite often vary in habit and form.....	3.00	20.00

Dracocephalum - Dragonhead

* <i>Ruyschianum japonicum</i> . Flowers blue; central lobe of corolla with a blue border and white spots, might be called a blue <i>Physostegia</i> . 2 feet. July and August.....	1.75	12.00
---	------	-------

Dryas - Mountain Avens

** <i>Octopetala</i> . Very choice plant for the Alpine garden. Forms flat carpets of deep green foliage, and when well established bears immense white anemone-like blossoms. Very choice....	2.50	18.00
--	------	-------

Echinops - Globe Thistle

<i>Ritro</i> . Interesting and showy thistle-like plants with globular heads of deep metallic blue flowers during July and August, which can be dried and remain attractive for a long time. 2 to 3 feet high.....	1.25	8.00
--	------	------

Edraianthus - Wahlenbergia

<i>Dalmaticus</i> . Low border or rock plant about 3 to 4 inches high, producing blue flowers not unlike the <i>Platycodon</i> ; this plant is very rare.....	1.75	12.00
---	------	-------

Epigaea - Trailing Arbutus

* <i>Repens</i> (Mayflower). Likes acid soil, therefore plant in some place where lime will not hurt it. Very difficult to transplant. Sent only at your risk. Strong plants.....	3.50	25.00
---	------	-------

Epilobium - Willow-herb or Rose-bay

<i>Angustifolium</i> . Blush-white flowers; very showy among shrubby. 3 to 4 feet high. Flowering from June to August.....	1.75	12.00
--	------	-------

Epimedium - Barrenwort

* <i>Sulphureum</i> . A dwarf-growing plant suitable for shady position in the rock garden or edge of border, with leathery, bronzy foliage and panicles of small, sulphur-yellow flowers in May.....	4.00	30.00
* <i>Violaceum</i> . Similar to the above, with reddish violet flowers in May.....	4.00	30.00

Erigeron - Fleabane

	Doz.	100
* <i>Alpinus</i> . A dwarf species suitable only for rock gardens. Plant bears an attractive head of purplish flowers throughout the summer.....	\$2.00	\$15.00
<i>Elatior</i> . A medium sized plant, rather of airy growth. Completely covered with small, Daisy-like, purple flowers in July. Lovely in border or good tall plant for rockery. About 2 feet in height.....	2.00	15.00
<i>Macranthus</i> . A fine hardy perennial with violet flowers, effectively used in mass plantings in borders together with Hardy Asters, <i>Bocconia</i> or other tall plants for backgrounds.....	2.00	15.00
<i>Speciosus</i> . Large, handsome blue flowers, violet tinted and yellow centers during June and July; fine for cutting.....	1.50	10.00

Erinus

** <i>Alpinus roseus</i> . Pretty rosettes of foliage and racemes of rosy purple flowers. A first rate rock plant and also invaluable for establishing on old walls or between steps. 4 inches. May and June.....	2.00	15.00
** <i>Alpinus albus</i> . White form of the above.....	2.00	15.00

Eryngium - Sea-Holly

<i>Amethystinum</i> (syn. <i>Oliverianum</i>). The true blue Thistle, with amethyst stems and bracts. 2 feet high. At its best in July and August.....	1.50	10.00
<i>Giganteum</i> . A very fine giant variety. The plant is very strong, entirely blue-green. When cut and dried, it makes one of the finest specimens for winter decorations. 2 feet high; lovely in August.....	1.75	12.00
<i>Planum</i> . Branching heads of steel-blue flowers; stems and bracts of a glistening metallic sheen; about 30 inches high. At its best in July and August.....	1.25	8.00

Erysimum - Rock Wallflower or Hedge-Mustard

	Doz.	100
* <i>Pulchellum</i> (Fairy Wallflower). Dwarf plant with sulphur-yellow flowers. Six inches high; good rock plant.....	\$1.25	\$8.00

Eupatorium - Hemp Agrimony; Hardy Ageratum

	Doz.	100
<i>Ageratoides</i> (Thoroughwort). A useful border plant of strong, free growth, 3 to 3½ feet high, with minute white flowers in dense heads; splendid for cutting in August and September.....	\$1.25	\$8.00
<i>Coelestinum</i> . A pretty, hardy plant, with light purple flowers similar to the <i>ageratum</i> ; in flower from August until frost. 12 to 24 inches. Good cut flower.....	1.25	8.00

Euphorbia - Spurge, Milkwort

<i>Corollata</i> (Flowering Spurge). Showy and useful plant growing about 24 inches high, and bearing from June till August umbels of pure white flowers much like the <i>Baby's Breath</i> and excellent for cutting.....	1.25	8.00
* <i>Myrsinites</i> . A pretty prostrate species, bluish foliage, with crowded heads of yellow flowers.....	1.50	10.00
* <i>Polychroma</i> (<i>Epithymoides</i>). A beautiful formal plant growing 1 foot high, forming a hemispherical clump covered with yellow flowers in May and June. Excellent border or rock plant.....	3.50	25.00

Ferns**HARDY VARIETIES**

<i>Adiantum pedatum</i> (Hardy Maidenhair Fern). Most attractive of our native Ferns; black stems with delicate green fronds; does well in moist spots.....	1.50	10.00
* <i>Aspidium acrostichoides</i> (Wood Fern). (<i>Polystichum</i>). An evergreen species with deep green, divided fronds. Should be planted in a shady position. 12 inches.....	1.50	10.00
<i>Aspidium spinulosum</i> (<i>Dryopteris spinulosa</i>). (<i>Spinulosa</i> Wood Fern). An evergreen variety that requires rich, well drained soil. 18 to 24 inches.....	1.50	10.00

FERNS—Continued.

	Doz.	100
<i>Asplenium filix-foemina</i> (Lady Fern). Grows in shade or sun. Large and handsome. 3 feet.....	\$2.00	\$15.00
<i>Cystopteris bulbifera</i> (Bladder Fern). Light green fronds which attain a length of nearly 3 feet, make it useful for massing on moist banks or for lining walks where a low carpet effect is desired. Plant the crowns just at the surface and 8 inches apart.....	1.50	10.00
<i>Dicksonia punctilobula</i> (<i>Dennstaedtia punctilobula</i>) (Hayscented or Gossamer Fern). Grows well in either sun or shade. 18 to 24 inches. Very erect with broad fronds, of a soft, woolly texture.....	1.50	10.00
* <i>Onoclea sensibilis</i> (Sensitive Fern). Requires wet places either in sun or shade. 12 inches.....	1.75	12.00
<i>Osmunda cinnamomea</i> (Cinnamon Fern). Erect fronds, drooping at tips, with bright cinnamon-colored spores at ends of fronds; a very conspicuous variety.....	2.00	15.00
<i>Osmunda Claytoniana</i> (<i>Interrupta</i>). A distinct and very beautiful native species; foliage velvety green, with prominent brown spores in middle of fronds.....	2.00	15.00
<i>Osmunda regalis</i> (The Royal Fern). Wonderful in damp, marshy places, where its rich yellowish green foliage and golden stems make very striking subjects.....	2.00	15.00
* <i>Polypodium vulgare</i> (Common Polypody). One of the best evergreen species for rockwork. Grows 4 to 10 inches high, forming dense mats. Plant about 4 to 6 inches apart for quick results and cover the new bulbs slightly.....	1.50	10.00
<i>Struthiopteris germanica</i> (The Ostrich Fern). A very graceful species with finely cut pinnales, growing 2 to 3 feet high..	1.75	12.00
* <i>Woodsia obtusa</i> . Large rosettes of curious hoary foliage. Fronds 1 foot in length; very free flowering.....	2.00	15.00

Funkia - Plantain-lily or Japanese Day-lily

<i>Coerulea lanceolata</i> . Broad green leaves; blue flowers from July to August.....	1.25	8.00
* <i>Lancifolia</i> . Long, narrow leaves, dull green, produced in abundance; lilac-blue flowers during July and August; excellent plant for shade and edging.....	1.00	7.00
<i>Subcordata grandiflora</i> . Very large, pure white, lily-shape, fragrant flowers in August and September.....	2.00	15.00
<i>Variegata</i> . Variegated foliage; blue flowers. Beautiful edging plant.....	1.50	10.00

Galega - Goat's Rue

<i>Officinalis nana rosea flore pleno</i> . Very fine double pink variety; rather rare.....	1.50	10.00
---	------	-------

Gaillardia - Blanket Flower

Improved English Strain Giant Hybrids. In lovely shades of orange, yellow, and red all summer and fall.....	1.00	6.00
---	------	------

Galium - Ladies' Bedstraw

* <i>Atropurpureum</i> . Erect, thin stems, topped with many attractive, small, purple flowers used to lighten the effect of heavier flowers. It is also good in rockeries and on banks. The general effect is that of the <i>Gypsophila</i> . It is because of the legend that one of these plants was in the hay on which the Mother of Christ rested that it received the name of Ladies' Bedstraw.....	1.75	12.00
--	------	-------

Genista - Dyers-Greenweed

* <i>Juncea</i> . A very fine little spring shrub about 2 feet high with silky, small leaves; the flowers are freely produced in drooping heads. It is the hardiest of the <i>Genistas</i>	2.50	18.00
* <i>Sagittalis</i> (Dwarf Prostrate Broom). The stems are curiously winged like an arrow, pealike flowers in clustered heads in June. Plant in warm, sheltered part of rock garden. Plant is about 6 inches high.....	2.50	18.00

Gentiana - Gentian

	Doz.	100
*Andrewsi. One of the most fascinating native plants. The flowers, which are tightly closed, are borne at the top of a stem from 6 to 8 inches long, and are an intense deep blue. Blooms best in moist places. July and October	\$1.75	\$12.00
*Lagodechiana. Easily grown and resembles the Septemfida. It is, however, prostrate. Not over 2 to 3 inches high, flowering July.....	3.00	20.00
Lutea. A noble perennial for the border. Prefers light shade and loamy soil. 3 to 5 feet high, stems with umbels of yellow flowers in June.....	3.50	25.00
*Purdomi. A new species introduced by Purdom, and a fine addition to the list of Gentians. Lovely blue flowers in July and August	3.50	25.00
*Septemfida. A very easily grown variety about 9 to 12 inches high with clustered heads of sapphire-blue in midsummer...	3.00	20.00
Sceptum. An erect-growing plant from 2 to 4 feet high, with dark blue, bell-shaped flowers during August and September. Lovely in open woods in half-shade; loves a peaty soil....	3.50	25.00
Tihetica. Very hardy variety; creamy white; dwarf in habit; has excellent foliage.....	2.00	15.00

Geranium - Crane's-bill

Pratense. Large blue flowers in pairs on stems 2½ feet high. Very handsome plant for border.....	1.75	12.00
Pratense album. Very handsome white variety of the Meadow Crane's-Bill	1.75	12.00
*Sanguineum. Attractive foliage and bright crimson flowers all summer. 18 inches.....	2.00	15.00
*Sanguineum album. Fine rock plant; white form of the above.	2.00	15.00

Gerbera - Transvaal Daisy

Jamesoni Giant Hybrids. A lovely mixture of brilliant orange, pink, and yellow shadings; in pots, available in spring only..	3.00	20.00
--	------	-------

Geum - Avens

Coccineum, Mrs. Bradshaw (Chiloense). A splendid variety, with large, double flowers of a fiery orange-red, blooming nearly all summer.....	1.25	8.00
Lady Stratheden. A new introduction of great merit. Rich golden yellow blossoms, counterpart of Mrs. Bradshaw....	1.25	8.00

Gillenia - Indian Physic-plant

Trifoliata. A lovely plant for a shady place in rockery or border	1.75	12.00
---	------	-------

Globularia - Globe Daisy

*Trichosanthe (Globe Daisy). A dwarf, tufted little plant with beautiful lavender flower heads. Does well in front of a well drained border and is a brilliant picture in the rock garden.	1.50	10.00
--	------	-------

Grasses, Hardy Ornamental

Elymus glaucus (Blue Lime Grass). Handsome Grass with narrow, glaucous silvery foliage. Well adapted for the border or edge of beds with taller sorts. About 18 inches high.	1.25	8.00
Erianthus ravennae (Plume Grass or Pampas). 10 to 12 feet high, frequently throwing up 30 to 50 flower spikes topped with silvery plumes.....	3.00	20.00
Eulalia gracillima univittata (Japan Rush). Graceful habit, with very narrow foliage, of a bright color, with a silvery midrib; 6 to 7 feet, with fine plumes	1.25	8.00
Eulalia japonica. Long, narrow, graceful green foliage, and when in flower the attractive silvery grey plumes are 6 to 7 feet high.....	1.25	8.00
Eulalia japonica variegata. Very ornamental; long, narrow leaves, striped green, white, and often pink or yellow.....	1.25	8.00
Eulalia japonica zebrina (Zebra Grass). The long blades of this variety are marked with broad, yellow bands across the leaf. It makes a very attractive specimen plant for the lawn, 6 to 10 feet high and silvery plumes.....	1.75	12.00

GRASSES—Continued.

	Doz.	100
Festuca glauca (Blue Fescue Grass). 12 to 15 inches. Ornamental Grass. Grown for dense tufts of very narrow, bluish leaves. Used for edgings or for contrast with darker foliage. \$1.25	\$3.00	
Pennisetum japonicum (Fountain Grass). A beautiful Grass whose flower heads are produced in the greatest profusion. Color rich mahogany, conspicuously tipped with white.....	1.25	8.00
Phalaris arundinacea variegata (Variegated Ribbon Grass). Leaves longitudinally striped with white; very ornamental; sometimes runs wild about old places. 18 inches.....	1.25	8.00

Gypsophila - Chalk-Plant; Baby's Breath

	Doz.	100
Bristol Fairy. A wonderful new introduction. Bristol Fairy produces large panicles of double, white flowers, in which the individual blossom is larger, and of the purest white. It also flowers continuously throughout the summer.....	\$3.00	\$20.00

	Doz.	100
Paniculata compacta. When in bloom in August and September it forms a symmetrical mass 2 to 3 feet in height and as much through, of minute white flowers having a beautiful gauzelike appearance.....	\$1.00	\$6.00
Paniculata flore pleno. A light and graceful cut flower, compatible with all others, no matter of what shape or color; masses of minute double white flowers. (Plants offered are grafted, and we guarantee all plants to be double).....	3.50	25.00
*Repens. A beautiful trailing plant for the rockery, with clouds of small, white and pink flowers in July and August.	1.00	7.00
*Repens rosea. A pale pink-flowered form of the above variety; both lovely in the rock garden or in the dry wall....	1.25	8.00
Rozejeka (Acutifolia). Blush white "Baby's Breath." Tall grower, and a good cut flower.....	1.50	10.00

Helenium - Sneezewort

Autumnale superbum. Broad heads of deep golden yellow flowers in late summer. Grows 5 to 6 feet high	1.75	12.00
Autumnale rubrum. A splendid variety; deep bronze-red, changing to terra cotta, 5 to 6 feet. September.....	3.00	20.00
Bigelovi. Quick growing, branching plants. 3 to 4 feet high; quite showy during August with terminal clusters of deep yellow flowers; brown centered.....	1.75	12.00
Riverton Beauty. Pure lemon-yellow, with large disc of purplish black. 3 to 4 feet high; early fall.....	1.75	12.00
Riverton Gem. Old gold suffused with bright terra cotta, changing to wallflower-red, 3 to 4 feet high. From August to October	3.00	20.00

Helianthemum - Sun Rose or Rock Rose

*Album plenum. Double white.....	2.00	15.00
*Bride. Single white, silvery foliage.....	2.00	15.00
*Buttercup. Golden yellow; single.....	2.00	15.00
*Clara Middleton. Single; rich orange.....	2.00	15.00
*Fireball. Bright scarlet; double.....	2.00	15.00
*Macrantha. Single; white.....	2.00	15.00
*Mrs. Earle. Single; scarlet.....	2.00	15.00
*Praecox. Single; yellow, silvery foliage.....	2.00	15.00
*Rhodanthe carneum. Large, pink flowers, silvery foliage....	2.00	15.00
*Rose Queen. Large, single pink flowers.....	2.00	15.00
*Sudbury Gem. Single, crimson-bronze.....	2.00	15.00
*Choice Mixed Varieties.....	1.75	12.00

We offer 3-inch pot plants ready to bloom, which establish without any difficulty

Helianthus - Perennial Sunflower

Maximiliani. The latest of all. Golden yellow flowers in graceful sprays 6 feet long, in October. Fine for cutting....	1.25	8.00
Mollis. An improved variety of tall growth and having large flowers. A decided improvement and most beautiful sort..	1.25	8.00

HELIANTHUS—Continued.

	Doz.	100
Multiflorus fl. pl. Clear yellow; closely resembling a small Dahlia in shape and finish. 4 feet high	\$1.50	\$10.00
Sparcifolius. The best of the summer-blooming varieties of hardy Sunflowers. Flowers 3 inches in diameter and freely produced. Plant grows 3 to 4 feet high, and spreads rapidly. Fine for the border, and for planting among shrubs.....	1.25	8.00

Helichrysum - Strawflower

*Bracteatum. While this is commonly understood to be annual, the perennial form was sent to us from England. Growing about 1½ to 2 feet tall with many golden yellow strawlike flowers. Is profuse in flowering and a fine border plant....	2.50	18.00
---	------	-------

Heliopsis - Orange Sunflower

Pitcheriana. A desirable variety. The flowers are of a beautiful deep golden yellow, about 2 inches in diameter, very thick texture and a useful cut flower. Stems 3 feet high, from July to August.....	1.00	7.00
Scabra excelsa. Chrome-yellow flowers, turning to a bright yellow as they mature. These are almost double. The plant is about 3 feet high, and from mid-July to the end of September makes an effective display.....	1.75	12.00

Helipterum - Australian Everlasting

*Anthemoides. Grows about 18 inches high, somewhat spreading in habit. The white flowers are profusely produced....	1.50	10.00
---	------	-------

Helleborus - Christmas Rose or Lenten Rose

	Doz.
Niger. Very large, white solitary flower, sometimes flushed with purple. Excellent in shady places. Leaves evergreen. 1 foot. Blooming period, February-March	\$9.00

Hemerocallis - Day Lilies

	Doz.	100
Aurantiaca. A strong growing and free flowering variety, producing rich orange-yellow flowers in early summer. 2 feet..	\$1.75	\$12.00
Dr. Regel. Handsome, rich orange-yellow flowers in May. Very fragrant. Fine for cutting. 1½ feet.....	1.50	10.00
Flava (Lemon Lily). Sweet scented, clear full yellow. 2½ feet. Flowers in June.....	1.75	12.00
Florham. A strong grower, 3 to 3½ feet high, large, trumpet-shaped flowers; rich golden yellow, with Indian yellow markings. June and July.....	1.75	12.00
Fulva (Brown Day Lily) Coppery orange, shaded crimson. 3 feet. July.....	1.00	7.00
Kwanso. Large, double-flowered variety with rich golden bronze flowers in July and August.....	1.50	10.00
Middendorff major. A very striking variety, with huge, rich, orange-yellow flowers in summer.....	1.50	10.00
Thunbergi. Much like Flava, but flowers in July, a month later. Spikes 2 to 3 feet tall, and pale yellow blossoms....	1.25	8.00

Below we are offering six new Hybrid Hemerocallis of great merit. There is no doubt in our minds that when they become a little cheaper they will replace the old sorts. We suggest you start a collection of these lovely Lemon Lilies; enjoy them now.

	Each
Bay State. Brilliant and glistening deep yellow flowers on 4-foot stems. In full bloom about June 28th. Free blooming and robust in growth.	\$1.00
Gypsy. Brilliant deep orange flowers on 3-foot slender stem. In full bloom July 5th. Stems are slender and plant of medium size. A showy plant for the small border	1.00
J. A. Crawford. Rich apricot-yellow shaded light cadmium. Many flowers on 4-foot stems; at their best about June 25th. A lovely plant which looks well in light shade	1.00
Lemona. Delicate and pale lemon-yellow flowers on 4½-foot stems. Blooms are at their best July 1st. One of the finest large blooms, much like a large Japanese iris in form	1.00
Mrs. W. H. Wyman. Lovely light pale lemon-yellow flowers on 4-foot stems. In full bloom August 1st. Very free-flowering and lasts a long time. Latest to bloom of all Hemerocallis	1.00
The Gem. Rich, deep orange-yellow flowers on 3½ to 4-foot stems. In full bloom June 20th. Very finely formed bloom, equal to the best Lilies; truly a gem	1.00

HEPATICA (Wood Anemone). (See Anemone, page 2).

Herniaria - Rupture-wort

**Glabra. Prostrate creeper; excellent for planting between stones in terrace or between stepping stones; foliage moss-like, green shading to bronze in winter. Doz. 1.75 12.00

Hesperis - Sweet Rocket or Dame's Violet

Matronalis. Fragrant, purple flowers in showy spikes. 2 to 3 feet. June and July. Desirable for wild garden, shrubby or mixed border. 1.00 7.00
 Matronalis alba. A white-flowered form of the above named sort. Also sweet scented and fine in the border. 1.00 7.00

Heuchera - Alum Root; Coralbells

*Brizoides. Has more robust foliage and better habit than Heuchera sanguinea; the flowers are pale pink and produced profusely in May. 2.00 15.00
 *Rosamundi. We have carefully tested several varieties of Heuchera in all the pink shades during the past few years, and we find that this is the most desirable of the coral-pink sorts. 3.00 20.00
 *Perry's White. Pure white flowers which go well with the red and pink varieties, flowering from June to September. 3.00 20.00
 *Sanguinea. Flowers bright crimson, on 12- to 18-inch stems in June and September; very free flowering. Nice for cutting. Excellent for rock garden. 2.00 15.00
 *Sanguinea alba. Similar to the above, with white flowers. 3.00 20.00
 *Wayside Gardens Hybrids. Especially noted for their luxuriant foliage and robust growth. Therefore used principally as an edging to beds or walks. The rich green foliage is tinted with bronze or reddish brown veins and attractive throughout the entire season. 1.35 9.00

Hibiscus - Mallow

Hibiscus, New Giant-Flowering. A wonderfully improved form of our greatly admired native Marshmallow or Rose-mallow. 1.50 10.00
 Hibiscus, Red, Pink or White. Strong, 3-year-old. 1.25 8.00
 Hibiscus, Red, Pink or White. Strong, 2-year-old. 1.00 6.00
 Hibiscus, Mixed Colors. 2-year-old. 1.00 6.00

Hollyhocks - Althea Rosea

DOUBLE. Separate colors as follows: Bright Rose, Maroon, Newport Pink, Red, White, Yellow, Prince of Orange, and Mixed. Price, all colors. 1.00 6.00
 New Allegheny. Immense semi-double flowers, with fringed edges. 1.00 6.00
 SINGLE, Mixed. 1.00 6.00
 It is best not to transplant too heavy and big roots; finest results are obtained from young plants that have not yet flowered. All orders are filled with this vigorous young stock.

Houstonia - Bluet or Lady's Cushion

*Coerulea. A lovely little plant for the rock garden, where it will self-seed and establish itself freely. Plant in fall or very early spring. 1.75 12.00

Hypericum - St. John's Wort or Rose of Sharon

Ascyron (Pyramidatum). Upright growing perennial about 3 to 4 feet high. Clusters of flowers in July. Each flower about 2 inches in diameter. Good for background in the border. 2.00 15.00
 *Calycinum. Similar to Moserianum, except that it makes underground runners, which, when they come up, produce a beautiful carpet of green covered with large, yellow blossoms. Really a ground cover; hardiest of all; excellent dwarf shrub. 2.00 15.00

HYPERICUM—Continued.

*Coris. A very pretty, erect growing little perennial plant about 3 inches high. Graceful foliage and large, yellow flowers in summer. Doz. 2.00 15.00
 Henryi. The same as Moserianum, though slightly more upright in growth. A lovely little shrub. 2.00 15.00
 *Moserianum. A most desirable border shrub about 20 inches high, of free and graceful habit, producing long, slender stems, drooping, apparently from the weight of the flowers and buds, although the flowers face so none of their beauty is lost. Color a rich golden yellow, and bloom continuously the entire season. 1.75 12.00
 *Reptans. Distinct, prostrate, trailing species from the Himalayas. Very large, soft yellow flowers, tinged reddish in July and August. Good rock plant. 2.00 15.00

Iberis - Candytuft

*Little Gem. Dwarf, pure white flowers in June. Its uniform, neat habit makes it one of our best rock or edging plants; perfectly hardy. 1.75 12.00
 *Sempervirens. Covered with a sheet of white flowers in spring, completely covering its rich dark green foliage; a particularly fine rock plant. 1.25 8.00

Incarvillea - Trumpet Flower

Delavayi. Rose-pink flowers produced in large trusses on stiff, 18-inch stems. 2.00 15.00
 *Grandiflora brevipes. This is the best sort for rock gardens, about 8 inches high with large crimson-purple flowers. A splendid rock plant, easily grown. 2.00 15.00

Inula - Fleabane

Hirta. Stems 12 to 15 inches high with brilliant flowers in July and August. A splendid plant for in front of the hardy border. 1.75 12.00
 Royleana. A new introduction from the Himalayan wilds. The flowers are 5 to 6 inches in diameter, rich golden yellow, resembling sunflowers except that the petals are fine and graceful. Not over 18 to 24 inches high. One of our finest new border perennials and most unusual. 1.75 12.00

Iris Germanica - German or Flag Iris

Archeveque. S. purple-violet; F. velvety violet. 24 inches. 1.00 5.00
 Alcazar. S. light bluish violet; F. deep purple. 1.00 5.00
 Ambassadeur. S. smoky velvety purple; F. velvety purple. 1.50 10.00
 Asia. One of the highest rated and finest Irises in cultivation. 4.00 30.00
 Ballerine. S. light blue-violet; F. a deeper shade. 4.00 30.00
 Brooksiana. Charming flowers, self-colored; rose-lilac. 1.00 5.00
 Candlelight. Pinkish lavender. 2.00 15.00
 Caprice. S. rosy red; F. deeper rosy red. 24 inches. 1.00 5.00
 Cecil Minturn. Soft Cattleya rose. A beautiful flower. 1.50 10.00
 Crusader. One of the finest lavender-blue varieties. 3.00 20.00
 Dominion. Perhaps the most famous of all Iris. S. Dauphin's blue or light bluish violet, large, erectly held, well developed. F. of exceptional substance, deep rich indigo-purple. Very velvety texture. Each, \$1.75.
 Fairy. White, delicately bordered and suffused pale blue. 1.75 12.00
 Germain Perthus. Violet-purple. 2.00 15.00
 Gold Imperial. The greatest golden yellow Iris known. 3.00 20.00
 Helge. Lemon-yellow with pearl shading. Huge flower. 1.00 5.00
 Ioline. S. pinkish buff; F. Chinese violet with russet tints. 1.50 10.00
 Jeanne d'Arc. S. large and ruffled; F. white edged lilac at base. .90 6.00
 King of Iris. S. clear lemon-yellow; F. rich maroon. 1.25 8.00
 Lent A. Williamson. S. campanula-blue-violet; F. royal purple. 1.25 8.00
 Lord of June. S. lavender-blue; F. rich violet-purple. 1.75 12.00
 Magnifica. F. superb dark reddish purple; S. light violet-blue. 3.00 20.00
 Midnight. A rich, deep purple; the finest in this color. 1.25 8.00
 Monsignor. S. violet; F. heavily veined purple; late. 1.00 5.00
 Mother of Pearl. Standards and falls pale bluish lavender. 1.75 12.00
 Mme. Chobaut. Prussian-red with light brownish veins. 1.25 8.00
 Mrs. Alan Gray. Delicate lavender-pink; pinker in the shadow. 1.00 5.00
 Nibelungen. S. fawn and yellow; F. violet-purple on bronze. 1.00 5.00

IRIS GERMANICA—Continued.

Opera. S. bright rich pansy-violet; F. rich velvety violet-purple. 2.00 15.00
 Oriflamme. S. light blue; F. rich violet-purple. 1.50 10.00
 Pallida Dalmatica, Princess Beatrice. True type. 3 ft. high. 1.50 10.00
 Pallida Dalmatica, foliis variegatis. Lavender-blue. Each, 30c.
 Perfection. Rich violet-blue flowers freely produced. 1.00 5.00
 Primrose. Lovely yellow. 2.00 15.00
 Princess Victoria Louise. S. sulphur-yellow; F. rich plum. 1.00 5.00
 Prosper Laugier. S. light bronze-red; F. velvety ruby-purple. 1.10 6.00
 Prospero. A gorgeous flower of large size and fine form. 1.75 12.00
 Queen Caterina. Orchid-purple veined with brilliant gold. 1.50 10.00
 Rhein Nixe. S. white; F. violet-blue with white edge. 1.00 5.00
 Shekinah. Pale yellow shading to amber in the throat. 1.75 12.00
 Snow White. Fine pure white. 2.00 15.00
 Souvenir de Mme. Gaudichau. A rich, deep velvety purple Iris. 2.00 15.00
 Sherwin-Wright. Color a rich golden yellow without markings. 1.00 5.00

Iris Pumila - Miniature Flag

These beautiful little Irises do not grow over 4 inches high and bloom in April and May. They are fine for bordering flower beds or planting in the rock garden.
 *Sambo. Dark violet-blue. 1.50 10.00
 *Excelsa. A splendid pale lemon-yellow. 2.00 15.00
 *Fairy. Pale blue; very dwarf. 1.75 12.00
 *Schneecuppe. A large, showy, pure white. 2.00 15.00

Iris Kaempferi - Japanese Iris

Catherine Parry. Double. Blue, overlaid rosy red. 2.00 15.00
 Columbia. Double blue with pure white veins, yellow center. 2.00 15.00
 Dominator. Single. Rich indigo-blue with narrow white stripes. 2.50 18.00
 Dream. Large, single, white flowers delicately veined. 2.50 18.00
 Eleanor Parry. Double. Claret-red, flamed white and blue. 2.00 15.00
 Fascination. Double. Blue, lightly veined white, pink tinge. 2.00 15.00
 Gold Bound. A fine double, pure white; gold-banded center. 1.75 12.00
 Indo. Single. Broad, wavy petals of great size; dark rich blue. 2.00 15.00
 Koko-No-Iro. Six large, royal purple petals with yellow center. 2.00 15.00
 Mahogany. Large, double flowers; purple-mahogany-red. 2.50 18.00
 Marjorie Parry. Double. Delicate light mauve. Extra fine. 2.50 18.00
 Mount Hood. Double. Light blue shaded darker; orange center. 2.50 18.00
 Mystery. Large, single, light lilac flower; yellow center. 2.50 18.00
 Nagano. Rich violet-purple, shaded with blue. Six petals. 2.50 18.00
 Olympia. Large, single white flowers beautifully veined blue. 2.50 18.00
 President Harding. Double or six-petaled; thick-petaled flowers. 2.50 18.00
 Purple and Gold. Double; early, free-blooming. 1.75 12.00
 Pyramid. Double. Violet-purple veined white in each petal. 2.00 15.00
 Queen of the Blues. Pale delft blue veined white. 2.50 18.00
 Red Riding Hood. A fine single amaranth, veined white. 2.50 18.00
 Royal Purple. Dark purple, overlaid with dark blue. 2.00 15.00
 Shadow. Single. Self color, reddish purple. 2.50 18.00
 Templeton. Double light violet mottled reddish pink and white. 2.00 15.00
 Toro-Odori (Dancing Tiger). Vinous purple. Six petals. 2.50 18.00
 T. S. Ware. Reddish violet, veined white. Center white. 2.00 15.00
 Mixed Colors. Both single and double. Choicest varieties. 1.25 8.00

Iris Species

*Cristata (Evansia). A dainty native creeping species, only 3 inches in height; flowers rich amethyst-blue in May; a gem for a shady spot in the rock garden or an excellent ground cover under trees when it will form a solid carpet covered with flowers which are very lovely to behold. 1.75 12.00
 Ochroleuca gigantea. Forms large clumps succeeding in almost any position, producing late in May numerous 3 feet high stems with an abundance of very distinct creamy yellow flowers. 2.50 18.00
 Orientalis White. Similar to the Sibirica varieties but not so tall. Produces masses of lovely small white flowers; a fine plant for border or waterside; about 30 inches high. 1.50 10.00
 Sibirica, Emperor. Very large, clear blue flowers on stout, stiff stems. Vigorous free grower and very free-flowering; fine for cutting. 3.00 20.00

IRIS SPECIES—Continued.

	Doz.	100
Sibirica, Snow Queen. An exquisite hardy Iris; the flowers are of a snowy whiteness, large and well formed, produced in great abundance; foliage light and graceful. A gem for flower border or waterside. 3 feet high.....	\$1.50	\$10.00
Sibirica superba. Large, violet-blue flowers; handsome foliage. Fine border plant and grand subject for planting near water, where it blooms profusely. 3 feet high.....	1.50	10.00
*Tectorum. A beautiful species from the Orient with delicately crested blue flowers. 12 inches high in June. This is the Roof Iris of Japan where it is grown on the thatched roofs of the cottages. Lovely in the rock garden.....	2.00	15.00

Jasione - Sheep's Scabious

*Perennis. Like a very dainty lavender-blue Scabiosa, about 6 inches high, flowering in June and July.....	1.75	12.00
--	------	-------

Lactuca - Blue Lettuce

*Perennis. A charming low-growing plant suitable for the border or rock garden; light blue flowers freely produced. 14 inches high, in early summer.....	1.75	12.00
--	------	-------

Lathyrus - Perennial or Everlasting Pea

Latifolius, Pink Beauty. Large racemes of pleasing deep rose flowers.....	1.00	7.00
Latifolius, Red. The well known red Everlasting Pea.....	1.00	7.00
Latifolius, White Pearl. A great improvement on the older white variety, the stems giving from 12 to 15 flowers each..	1.00	7.00

Lavandula - Lavender

*Nana. Is a very fine new dwarf English introduction. Good for edging and planting between roses.....	2.00	15.00
Vera. This is the true Sweet Lavender; grows about 18 inches high; delightfully fragrant blue flowers in July and August..	1.35	9.00

Leontopodium - Edelweiss

**Alpinum. A well known Alpine with pretty silvery white leaves; starlike heads clothed with a dense white, woolly substance. A splendid plant for the rock garden, 4 to 5 inches high, easily grown and always of great interest, as this is one of the most famous of rock plants from the European Alps.	1.75	12.00
---	------	-------

Liatriis - Blazing Star or Gay-feather

Pycnostachya. The popular name of this plant is Kansas Gay Feather. Nothing can be planted that will attract more attention on account of its unusual appearance; but it is beautiful as well as odd. It blooms in midsummer and throws up long, narrow spikes of rich purple flowers, 4 feet high, which last a long time.....	1.00	6.00
Scariosa. Spikes about 3 feet in height, of a good clear purple. Flowers before Pycnostachya and is the next most desirable.	1.25	8.00
Spicata. Similar to Pycnostachya, somewhat earlier in bloom and not quite so tall.....	1.50	10.00

Linaria - Toad Flax

**Cymbalaria (Kenilworth Ivy, or Mother of Thousands). Lavender and purple flowers. A charming, neat, hardy perennial trailing plant, suitable for rock work and wall gardens....	1.75	12.00
---	------	-------

Linum - Flax

*Alpinum. A rare species from the Dauphine, of prostrate growth with showers of pale blue blossoms throughout the summer.....	1.50	10.00
*Flavum. Fine variety with transparent, yellow blossoms....	1.00	7.00
*Narbonnense. Forms a spreading clump of attractive foliage with a profusion of azure-blue flowers with white eye. Very handsome for the rockery.....	1.00	7.00
*Perenne. Very attractive, both in foliage and bloom. Flowers beautiful pale blue on slender, graceful stems.....	1.00	6.00
*Perenne alba. White form of the above.....	1.00	6.00

Lobelia - Indian Paintbrush

	Doz.	100
Cardinalis (Cardinal Flower). Rich, fiery cardinal flowers, often producing 4 to 6 spikes. 24 to 30 inches long.....	\$1.25	\$ 8.00
Syphilitica (Great Blue Lobelia). Similar in growth to Cardinalis, but the flowers are blue, streaked with white. Plant in a moist place. Desirable for border of brook or lake....	1.50	10.00

Lupinus - Lupine

Wayside Gardens Sweet-Scented Hybrids. A wonderful new strain that may be classed among the most beautiful of all hardy flowers. Colors are both rich and delicate shades of blue, mauve, pink, etc., and the flowers are borne on long spikes that for size and beauty rival giant Snapdragons. The added novelty of being sweet scented makes these one of the best garden plants we have ever distributed.....	1.50	10.00
Polyphyllus (Hardy Lupine). Clear blue spikes, 3 to 4 feet high, during June.....	1.50	10.00
Polyphyllus albus. A white variety of the above.....	1.50	10.00
Polyphyllus roseus. Flowers of beautifully shaded rose.....	1.50	10.00
Polyphyllus, Moerheimi. Pink.....	3.00	20.00
Polyphyllus, Tunic. Deep pink.....	3.00	20.00
Polyphyllus, May Princess. Deep violet-blue spikes.....	3.00	20.00

Lychnis - Campion or Catchfly

*Alpina. Dwarf, rose-pink. A charming little plant for the rock garden, about 4 inches high.....	1.50	10.00
Chalcedonica. Heads of vivid scarlet flowers, blooming a long time. One of the brightest plants in the hardy border. 3 feet; all summer.....	1.00	6.00
*Haageana. 1 foot. June to August. Very showy, producing orange-red, scarlet or crimson flowers nearly 2 inches across. Should be planted in light shade.....	1.25	8.00
*Viscaria flore pleno. A fine double variety; fine for cutting..	2.00	15.00
Viscaria splendens alba. Flowering profusely in June and July; it is one of the best white flowers at that time of the year. 8 to 10 inches high; fine border plant.....	1.25	8.00
Viscaria splendens. Pink form of the above.....	1.25	8.00

Lysimachia - Yellow and White Loosestrife

Clethroides. Long, recurved spikes, 2 feet long, of pure white flowers, from June to September. A desirable variety.....	1.25	8.00
Nummularia (Creeping Jenny or Money-wort). Valuable for planting in wet places in shade or sun.....	1.00	7.00

Lythrum - Purple Loosestrife

Superhum roseum. Very showy rosy purple spikes about 2 or 3 feet high, produced in profusion all summer. Splendid for banks of streams and ponds.....	1.25	8.00
---	------	------

Matricaria - Double Mayweed; Feverfew

Little Gem. A most useful border plant and valuable summer cut flower, with large, double, white flowers. June until October. 18 to 24 inches.....	1.50	10.00
Golden Ball. Dwarf yellow form of above.....	1.50	10.00

Mazus

**Reptans (Previously offered under the name of Rugosus, which was an error, as the true Rugosus is a tender annual). A dwarf and interesting Alpine plant, covered in early spring with dainty lilac flowers with a small, white lip, borne just above the foliage.....	2.00	15.00
--	------	-------

Mertensia - Virginia Cowslip; Blue Bells

	Doz.	100
Virginica. An early spring-flowering plant, growing about 1 to 1½ feet high with blue flowers fading to pink; one of the most interesting of our native spring flowers.....	\$1.25	\$ 8.00

Mimulus - Musk or Monkey-Flower

*Luteus. A splendid plant for shady, moist places. Produces during the entire summer large snapdragon-like, yellow flowers. Also does well in full sun. About 1 foot high; somewhat spreading habit.....	3.00	20.00
--	------	-------

Mitchella - Partridgeberry

*Repens. A little trailing evergreen. It forms fine mats under trees, and when once established is sure to please.....	2.50	18.00
--	------	-------

Mitella - Bishop's Cap

*Diphylla. A gem for the shady position. Feathery spikes of creamy white flowers. 12 to 18 inches, in May and June..	1.50	10.00
--	------	-------

Monarda - Bee-balm; Bergamot; Oswego Tea; Haremint

	Doz.	100
Didyma, Cambridge Scarlet. Brilliant crimson-scarlet flowers are produced freely from June until August. A good plant for wild garden as well as border or garden in the city where other flowers don't grow well.....	\$1.00	\$ 6.00
Didyma rosea. A variety of the preceding, with rose-colored flowers.....	1.00	6.00
Didyma violacea superba. Deep amaranth-red flowers.....	1.00	6.00

Myosotis - Forget-me-not

*Palustris semperflorens. Large, rich blue flowers with yellow eye; a charming plant for damp places and a more profuse bloomer than the alpestris, which also is inclined to be biennial in habit.....	1.00	7.00
*Palustris, Pink Beauty. Pink-flowered form of above; very fine Forget-me-not.....	1.50	10.00

Nepeta - Ground Ivy; Catmint

*Mussini. An excellent plant for any position but especially useful in the rock garden. Of dwarf, compact habit, producing masses of bloom of a beautiful shade of lavender all spring and intermittently during the summer; it is one of the most used rock plants or edging plants in Europe. A garden in which the paths are edged with Nepeta Mussini should be fairly large, as it is quite strong in growth; it may be clipped back at any time. Very lovely plant.....	1.25	8.00
---	------	------

Nierembergia - Trailing Cup-flower

*Rivularis. A charming dwarf creeping Alpine plant, bearing large, creamy white cup-shaped flowers from June till September; most desirable plants for the rockery.....	1.75	12.00
---	------	-------

Oenothera - Evening Primrose

*Fraseri. Pale yellow flowers on 12-inch stems from June until October.....	1.25	8.00
Fruticosa major. A strong growing plant, forming a dense, bushlike specimen; flowers deep yellow, in profusion, on 24-inch stems from June until September.....	1.25	8.00
*Missouriensis. A low species with prostrate, ascending branches; profuse bloomer. Solitary flowers, often 4 inches across. Good for rock garden or border; in bloom from June until August.....	1.00	7.00
*Speciosa. Pure white flowers 3 inches across, in great quantities on 18-inch stems all summer.....	1.50	10.00
Youngi. A strong, stocky, large-leaved plant with firm, shiny foliage, numerous bright lemon-yellow flowers on stems about 24 inches tall from June to August.....	1.25	8.00

Orchis - Hardy Orchids

	Doz.	100
*Spectabilis (Showy Orchid). This lovely hardy orchid produces a raceme of delicate lavender and deliciously fragrant flowers, 6 to 8 inches high in May. Plant in shade and water copiously when dry.....	\$3.00	\$20.00

Papaver Orientale - Oriental Poppy

Orientele (Oriental Poppy). Tremendous cup-shaped blooms of brightest crimson-scarlet, with large, purplish black blotches at base of petals, creating a wonderful contrast when bloom is fully open. Clumps of these throughout the border add a brilliancy that no other flower can provide....	1.00	7.00
Orientele, Beauty of Livermore. The finest dark crimson with black blotch; fine flowers freely produced.....	1.50	10.00
Orientele, May Sadler. Salmon-pink with black markings. We believe it one of the finest of the pink sorts because of its large flowers and robust growth.....	2.00	15.00
Orientele, Mrs. Perry. Orange-apricot, and a very fine variety, the best of all the "Pink Poppies".....	1.50	10.00
Orientele, Olympia. The flowers, when fully developed, are about 4 inches in diameter; when first opening full double, but show a bunch of stamens as they mature. It is a brilliant rich flame scarlet overlaid with glistening golden salmon.....	2.00	15.00
Orientele, Perry's White. The flowers are a fine satiny white with a crimson-maroon blotch at the base of each petal....	3.00	20.00

Papaver Nudicaule - Iceland Poppy

*Baker's Sunbeam Mixture. These plants are of neat habit, forming a tuft of bright green, fernlike foliage, from which spring throughout the entire season, a profusion of slender, leafless stems, 1 foot high, each graced with charming cup-shaped, yellow, orange, white or pink flowers.....	1.35	9.00
**Papaver alpinum. Like a small and more delicate Iceland Poppy having flowers of white, pink, orange or yellow, and often delicately fringed. Not over 4 inches high.....	1.50	10.00
*Papaver Tibetica. Very attractive Alpine with showy orange flowers produced in great quantities; the whole plant not unlike a dwarf orange papaver nudicaule, but giving twice as many flowers and more readily transplanted; excellent for the rock garden.....	1.50	10.00

Pachysandra - Japanese Spurge

	100	1000
Terminalis. Trailing plants 6 to 8 inches high, forming broad mats of bright glossy green foliage. A ground cover, which will grow in all shady situations. Some of its main uses are: Under all evergreen plantings, under all shrub plantings, for areaway copings, for shrub plantings, for bordering walks and drives, for steep terraces in sun or shade, under any kind of trees. 1-yr., field grown.....	\$5.00	\$45.00
2-yr., field grown.....	7.00	65.00
3-inch pot plants, heavy grade.....	9.00	80.00

Paeonia Sinensis - Peonies

	Doz.	100
Albert Crousse. 8.6. Very fresh salmon-pink, delicate color. Large, compact bomb shape; fragrant; erect; medium height. Late.....	\$3.00	\$20.00
Baroness Schroeder. 9.0. Rose type; late. White with shadings of flesh. This is one of the finest Peonies. Its immense flowers of great substance with high chalice-shaped center are freely produced, lasting a long time. Very fragrant....	4.00	30.00
Chestine Gowdy. 8.4. Late midseason. Crown type. The broad outer petals are silvery pink. These enclose a zone of fine, irregularly shaped petals of deep rich cream, which in turn surround a prominent cone of broad pink petals, splashed and tipped with crimson. Very fragrant.....	10.00	75.00
Couronne d'Or. 8.1. White with yellow tints arising from a few stamens showing amidst the petals. Center petals tipped with carmine. Large, rather full flower of superb form. Strong grower and very free bloomer. Good keeper. Late.....	2.50	18.00

PAEONIA SINENSIS—Continued.

	Doz.	100
Duchesse de Nemours. 8.1. Guard petals white, center lemon-yellow, cup-shaped; at first it develops into a large bloom, gradually fading to white; fragrant; strong grower and free bloomer. Extra good commercial variety. Follows 2 or 3 days later than Festiva Maxima.....	\$2.50	\$18.00
Eduilis Superba. 7.6. Dark pink, even color; large, loose, flat crown when fully open. Very fragrant; upright growth; early bloomer. One of the best commercial Peonies. There is much confusion over this variety, being sold under twenty or more different names.....	2.50	18.00
Eugenie Verdier. 8.6. Late. Very large, compact blooms of pale hydrangea-pink, with outer guard petals lilac-white; fragrant; extra strong stems.....	2.50	18.00
Felix Crousse. 8.4. Very brilliant red. Medium to large, globular, typical bomb shape; fragrant; strong growth. Stems rather weak. Midseason.....	3.00	20.00
Festiva Maxima. 9.3. Paper white, crimson markings in center. Large, full rose type; tall, strong growth. Early.....	2.50	18.00
Frances Willard. Tall, strong grower, producing creamy white flowers of large size, yet delicate texture. Late midseason. We consider this one of the best varieties.....	8.00	60.00
Judge Berry. 8.6. Early. Very large, flat bloom of delicate flesh-pink; petals narrow, long and fringed, with some stamens intermingled; fragrant. Very profuse bloomer.....	6.00	50.00
Karl Rosenfield. 8.8. Very large flower; globular, semi-rose type. Extremely vigorous grower, tall, and free-flowering. As an early red it has no equal.....	3.25	25.00
Lady Alexandra Duff. 9.1. Pink. One of the largest Peonies. An immense, loosely built flower with great broad, rounded petals so exquisitely arranged as to make a flower of most ravishing beauty. Looks white but when closely scrutinized it shows the white tinted with the most delicate pink; sweet scented; exceedingly free flowering and very showy.....	4.00	50.00
La France. 9.0. Enormous, rather flat flowers on strong stems. Soft pink, with lavender lights at base of petals. Late. A very fine variety.....	11.00	100.00
Le Cygne. 9.9. Very large, perfectly formed flower, freely produced; cream-white with a touch of green at the heart. The finest white. Received the highest rating of any Peony.....	17.00	160.00
Longfellow. Brilliant cherry-red flower of large size. Good reds are hard to find and this is a very satisfactory one.....	8.00	60.00
Madame Ducl. 7.9. Large, globular, typical bomb. Light mauve-rose, with silvery reflex. Fragrant. Strong grower, medium height, very free. Extra.....	3.50	25.00
Madame Emile Lemoine. Large, full blooms of soft flesh-white. Petals have a rather translucent effect, tall, strong stems. Midseason.....	3.00	20.00
Marguerite Gerard. 8.4. Very pale salmon-pink, fading to almost white. Large, compact, rose type; very strong growth. Late.....	3.00	20.00
Martha Bulloch. Mammoth cup-shaped blossoms often 9 to 12 inches across. The largest of the good Peonies. Deep rose-pink in the center, shading to silvery shell-pink in the outer petals. Stalks strong and erect.....	11.00	100.00
Mme. Emile Galle. 8.5. Very soft pink changing to milk-white in center. Very large, compact, flat rose type; tall, strong, fragrant. Late.....	3.00	20.00
Model de Perfection. Rose type; late. Enormous, perfectly compact, double flower of pronounced pyramidal shape; very distinct in this respect and was well named Model of Perfection; guard and collar light violet-rose with shades of flesh-pink, marbled and veined with bright rose, silver tipped, deepening in the center; profuse bloomer.....	3.25	25.00
Mons. Jules Elie. 9.2. The peerless pure pink. Broad reflexing guards with a high pyramidal body of semi-quilled petals converging to an apex. One of the largest, handsomest and most lasting cutting sorts in existence.....	4.00	30.00
Mons. Martin Cahuzac. 8.8. Medium size, globular, semi-rose type. Dark purple-garnet with black reflex. The darkest Peony known. Strong, vigorous grower, free bloomer, mid-season.....	8.00	60.00

PAEONIA SINENSIS—Continued.

	Doz.	100
Officialis Rubra fl. pl. Rich deep crimson; the great Decoration Day Peony.....	\$5.00	\$40.00
Raoul Dessert. Large blooms with broad petals of shell-pink with deeper gleams. Distinct and fresh coloring. Late midseason.....	11.00	100.00
Rubra Superba. 7.2. Deep carmine-crimson. Large, fragrant, rose type; medium height. Very late.....	3.00	20.00
Ruth Brand. 7.9. This variety is one of the good early Pinks. The flower is very large, bomb type. The guard petals are prominent and enclose a grand ball of compact center petals. The color is uniform soft lavender-pink splashed with a deeper lavender. This is a splendid variety to cut. It has a delicate and pleasing fragrance.....	4.00	30.00
Richard Carvel. One of the best early reds which we have. Large, bomb-shaped blooms of the same style as Felix Crousse but better in color.....	10.00	75.00
Sarah Bernhardt. 9.0. Late. Flat, compact, semi-rose type. Uniform mauve-rose, silver tip. Erect, tall, free.....	4.00	30.00
Solange. 9.7. Flower very large, compact; rose type; outer petals delicate waxy white, deepening toward the center with shades of orange and golden brown. One of the most beautiful Peonies in existence; a strong grower and a late, free bloomer.....	10.00	75.00
Therese. 9.8. A most desirable variety of a charming shade of violet-rose, changing to lilac-white. Develops a high crown; strong grower and very free bloomer. A splendid addition to the midseason sorts of which it is one of the best.....	10.00	75.00
Venus. 8.3. Exquisite, pointed buds, opening into large, compact flowers of delicate shell-pink with a collar of flesh-white. Extra good both as a garden flower and as a cut flower. One of the best in our collection. Midseason.....	3.25	25.00
Walter Faxon. 9.3. Semi-rose type; midseason. A very distinct, delicate rose colored flower. Tall, free bloomer. Those who know this variety consider it one of the best pinks. Scarce.....	12.00	90.00

Single Japanese Peonies

	Strong 1-year plants—Each
Dai-o-Kuhan. A wonderful Japanese Peony of good habit and growth and a lovely thing in the garden.....	\$1.25
Emma. Lilac dark pink. Two rows of perfectly shaped, round petals. Very large flower.....	3.00
Eva. Bright, light lilac-crimson. Very lively shade. Large round petals. Free bloomer. Short stem. Unsurpassed for landscape....	2.50
Francoise. Bright rose. Two rows of petals. Center composed of petaloids which when the flower opens, are of a yellowish white shade, edged yellow. While the flower develops, the petaloids take on the same shade as the guard petals. An excellent variety.....	1.75
Jacqueline. Glittering pure white. A most lovely and desirable variety.	1.75
Kasane-Jisui. Very light pink when opening, then changing to pure white. Petaloids are white with a yellow edge. One row of petals..	1.25
Oitnatsu. Opens very light pink and changes to pure white. Two rows of petals of which the inner row is somewhat shorter than the outside row. The petaloids are yellowish white with little pink tips.	1.50
Ruigegno. Clear red. Two rows of petals. Golden petaloids. A variety of great substance and very beautiful.....	2.50
Yeso. Pure white. Two rows of petals which stand out straight. The petaloids lie straight, are narrow at the base and become wider towards the end. The tips of these are tinted salmon. Very unusual.....	1.75

Single Chinese Peonies

Camille. Clear violet-red, a lovely kind.....	1.00
Clairrette. Pure white, very large and strong grower, giving many blooms.....	2.00
La Fraicheur. Rosy white. Splendid for cutting and garden use....	1.25
L'Etincelante. Bright, light red. Flower of wonderful keeping qualities.	1.00
Lucienne. Pure white with purple reflex. Most striking garden sort..	1.25
Nagasaki. Light pink, dark foliage and robust growth. Excellent in the border.....	1.50
Nymphe. Bright, flesh-pink. Large flowers. Golden stamens. A very fine variety.....	1.25

SINGLE CHINESE PEONIES—Continued.

	Strong 1-year plants—Each	
Shi-Pen-Kue. Round petals, with thick golden petals. This is the nearest to blue in Peonies	\$1.25	
Taikon. Blood-red. Most striking against a dark background.....	2.00	

Chinese Tree Peonies

Banksi. Semi-double; pale lilac-rose. A very free flowering variety and easily grown. Each, \$4.00. 8-year-old specimens, each, \$13.00.		
Moutan. The wild Tree Peony of Tibet. Large, red-purple flowers of tremendous size with golden center, borne in great profusion. Each, \$4.50. 18- to 24-inch specimens, \$6.00 each.		
Mixed Tree Peonies. Including all sorts and types. No warranty as to color or type. Each, \$4.50.		

Pardanthus - Belamcanda; Blackberry Lily

	Doz.	100
Chinensis. Flowers orange colored, spotted black on 24-inch stems. A lovely old-fashioned flower for the hardy border..	\$1.75	\$12.00

Pentstemon - Beard Tongue

Barbatus Torreyi. Spikes 2 feet long of bright scarlet flowers from June till August. A very effective plant for the border	1.25	8.00
Barbatus, Pink Beauty. Color is a lovely clean shell-pink. A charming cut flower; one of the outstanding new and good plants; makes a delightful companion to Gypsophila.....	2.50	18.00
Diffusus alba. Long flowers of pure white on spikes about 2 feet long. Fine border variety.....	2.00	15.00
*Digitalis. White Foxglove-like spikes produced in great quantities all summer. Plant is about 20 inches high, excellently suited for the garden as well as naturalizing in the grass. It self seeds very freely.....	1.00	7.00
*Fruticosa. Lilac-purple flowers with pink base about 1 foot high. A beautiful rock or border variety.....	2.00	15.00
Heterophyllus. Lovely metallic-blue flowers from June until September, on 3-foot spikes. Excellent for the sunny border; good cut flower.....	2.00	15.00
Ovatus. A strong growing variety from the Rocky Mountains. Rich purplish blue flowers on stems over 3 feet tall. Good cut flower and excellent in the sunny border.....	1.50	10.00
*Procerus. A very reliable and satisfactory garden sort. Flowers are rich blue-purple; early summer.....	1.50	10.00
Pubescens (Hirsutus). Stems 24 inches high, covered with violet flowers shading to a flesh-pink; excellent for hot dry place in the border; is also a very fine wall or rock plant. It enjoys hot, dry exposures.....	1.50	10.00
Roezli. Excellent variety for late bloom in the rock garden. About 14 inches high with bluish purple spiky blooms in August. Likes a dry, sunny location.....	2.00	15.00
Unilateralis. A very fine June-flowering variety producing 6 to 10 erect spikes, 24 to 30 inches long, covered from top to bottom with opalescent blue flowers. A beautiful border plant and splendid cut flower, lasting for several days in water	1.50	10.00

Perovskia - Russian Sage

Atriplicifolia. Produces whorls of blue flowers very late in the season. A lovely plant for the hardy border	3.00	20.00
--	------	-------

Phlox Subulata {Setacea} - Moss or Mountain Pinks

	Doz.	100
*Alba. Pure white flowers completely covering the neat compact plant in May; a lovely thing for the rock garden	\$1.00	\$ 6.00
*Fairy. Pale blue with dark purple eye; a beautiful little rock plant. Same habit as Vivid. Slow growing, neat in habit, with compact foliage, not spreading like Lilacina.....	1.35	9.00
*Lilacina. A strong growing, creeping variety suitable for bold masses in the rockery; completely covered with pale blue flowers in May; the foliage is lovely in winter.....	1.00	7.00

PHLOX SUBULATA—Continued.

	Doz.	100
*Rosea. Rose-pink. Fine for covering banks; thrives in hot, dry situations, and blooms profusely	\$1.00	\$6.00
*Vivid. Bright pink with dark pink eye. We would say that this is the choicest and loveliest dwarf Phlox in existence..	3.00	20.00

Various Phlox Species

*Amoena. This is one of the best varieties for carpeting the ground, the rockery or the border. It grows but 4 inches high, and in the spring is a sheet of rich bright pink flowers	1.50	10.00
*Arendsii, Louise. Phlox Arendsii are a result from crossing Phlox Divaricata and Phlox Paniculata. The most remarkable result is that they flower from early spring until late in the autumn. There are several varieties all more or less alike. Louise, offered here, is a bright lilac with lilac-carmine eye. About 20 inches high, suited for front of the border in light shade or sun	3.75	27.50
*Divaricata canadensis. One of our native species, which is worthy of extensive planting, commencing to bloom early in April, and continuing through May, with large, fragrant, lavender flowers on stems 10 inches high. In spring this plant is sold in pots to insure best results; in fall field-grown plants are best to use	1.25	8.00
Maculata. Very early and free-flowering; good for poor, sandy soil. The rosy red blooms are produced in late May and during June and July.....	1.50	10.00
*Ovata (Carolina). Bright rosy red flowers in great quantities on 12-inch stems during June and July; good for the rockery	1.75	12.00

Phlox Decussata - Hardy Phlox

Africa. Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large florets. Good strong stem and not subject to mildew if properly taken care of. One of the best new dark red varieties grown.....	1.25	8.00
Antonin Mercier. A delicate lilac-blue; free-flowering variety of medium height, and fairly free from red spider.....	1.25	8.00
B. Comte. Tall growing variety producing large heads of rich satiny amaranth flowers. Very brilliant.	1.00	7.00
Beacon. Brilliant cherry-red. Grows 36 inches high. The flower heads are carried on straight, strong stems. An excellent variety and one of the best of this color.....	1.00	7.00
Commander (Von Hindenburg). The color is a brilliant deep crimson-red with slightly darker eye. Grows about 24 to 30 inches high and produces a great many spikes, creating a wonderful display of color.....	1.50	10.00
Count Zeppelin (Graf Zeppelin). Pure white flowers with vermilion-red eye. A striking, clean looking Phlox. There is no fading or suffusing of color. Considered the best of the so-called calico types. Very free-flowering.....	1.00	7.00
Elizabeth Campbell. Light salmon-pink with lighter shadings toward the center of flower. Decidedly the finest Phlox of this color, but unfortunately, a weak variety and slow grower.	2.00	15.00
Enchantress. Bright salmon-pink with dark eye, resembling Elizabeth Campbell in color, but of much stronger growth and rich green, glossy foliage.....	1.75	12.00
Ethel Pritchard. A delightfully French-mauve colored Phlox, which, if seen on a cloudy day, looks almost as pale blue as our native Phlox Divaricata.....	1.75	12.00
Europa. White changing to a pale blush white toward center with a red eye. This variety is similar to Count Zeppelin but has a light pinkish cast to it. Produces large heads freely and is a good, strong grower.....	1.00	7.00
Evelyn. A new variety of excellent habit. Flower heads are full and large. Color is a rich salmon-rose; about 3 feet high	1.50	10.00
Fuerhrand (Fireglow). Brilliant orange-scarlet. Sometimes almost vermilion. Flowers very freely and blooms are produced in quantity throughout the entire season. Of medium height, and one of the most brilliant Phlox known.....	1.75	12.00
Lord Raleigh. Dark mauve with decidedly purplish tint. A very unusual variety. Free flowering and rather tall. Excellent with yellow and white.....	1.00	7.00
Maid Marion. Good lilac flower heads. Not a new variety but an excellent kind that will be with us a long time. The color and habit are very similar to that of Antonin Mercier.	1.50	10.00

PHLOX DECUSSATA—Continued.

	Doz.	100
Mia Ruys. Rather dwarf in habit, but produces enormous and much branched trusses of the purest white flowers possible. The habit is very free, with splendid dark green foliage	\$1.75	\$12.00
Miss Lingard. The distinguishing marks are that it flowers a month earlier than the Decussata sorts. Has beautiful, long, shiny green foliage, and is absolutely free from any disease. It flowers from early July until October with large heads of white flowers with faint pink shadings in center.....	1.00	7.00
Mrs. Jenkins (Independence). Pure white, late flowering, grows very fast and is of medium height. A splendid sort for planting in masses. Few varieties equal its free-flowering habit	1.00	6.00
Mrs. Milly Van Hohoken. An excellent new variety. Very large florets combined in rather loose, large heads. Color bright pink with a slight and delicate mauve suffusion. Strong grower and free-flowering. The general color effect, at a distance, is a fine bright pink.....	1.25	8.00
Mrs. Scholten, New. Dark salmon-pink flowers in enormous pyramidal spikes. A splendid sort of great value. Mid-season flowering and of medium height	1.50	10.00
Rheinlander. A splendid old-time variety of good growing quality, and excellent habit. Flower heads are large and on good strong stems. The color is a beautiful salmon-pink.	1.00	7.00
Rijnstroom. A good strong grower producing an abundance of stems, each one topped with heavy trusses of flowers of a lively rose-pink, much like the color of the Paul Neyron rose	1.00	7.00
Thor. Not a new sort but becoming more and more popular because of its splendid free-flowering qualities. Color a beautiful shade of deep salmon-pink, overlaid with a scarlet glow; small aniline red eye.....	1.00	7.00
Von Lassburg. A splendid midseason, tall, white variety. Trusses large and stems good, very free flowering. Rather tall, fine for the back of the border.....	1.00	6.00

Phygellus - Cape Figwort

*Capensis (Cape Fuchsia). This is a hardy Fuchsia. It endures hot, dry weather well. The plants are perfectly hardy as far north as Philadelphia, but require protection further north where they will act much the same as Buddleia, producing new shoots each summer which bear purple flowers all summer until frost. A splendid plant for the South or hot, dry states	2.00	15.00
--	------	-------

Physalis - Winter-Cherry or Chinese Lanterns

	Doz.	100
Francheti. An ornamental variety of the Winter Cherry, forming dense bushes about 2 feet high, producing freely its bright orange-scarlet, lantern-like fruits, which, when cut, will last all winter.....	\$1.00	\$6.00

Physostegia - False Dragonhead

Virginica. Forms large clumps 3 to 4 feet high, bearing long spikes of delicate pink flowers in July and August.....	1.00	6.00
Virginica alba. Pure white.....	1.00	6.00
Virginica, Vivid. This is a new dwarf variety about 20 inches high, and a great improvement over the first two mentioned. It blooms 3 weeks later than the others, the flowers are a deeper pink; much larger and better, lasting a long time when cut.....	1.00	7.00

PINKS (Hardy Garden, see Dianthus).

Platycodon - Chinese Bellflower

Grandiflora. Large, showy, deep blue flowers on 20-inch spikes are produced all summer. A splendid plant for the hardy border.....	1.00	6.00
Grandiflora alba. White-flowered form of the above.....	1.00	6.00
*Mariesi. A beautiful dwarf species, with broad, thick foliage and large, deep violet-blue flowers on 12-inch stems in great profusion throughout the entire summer. Plant in front of the border or in the rock garden.....	1.00	7.00
*Mariesi alba. White-flowered form of the above.....	1.00	7.00

Plumbago - Leadwort

*Larpentae. One of the most desirable border and rock plants. It is of dwarf, spreading habit, growing 6 to 8 inches high, covered with deep blue flowers during late summer and fall. \$1.25 Doz. 300 \$3.00

Polemonium - Jacob's Ladder or Greek Valerian

Richardsoni album. A white variety of coeruleum \$1.75 Doz. 100 \$12.00
 Richardsoni coeruleum. Erect stems of sky-blue flowers. 1 to 1 1/2 feet in June and July. A very fine plant in the sunny border 1.25 Doz. 300 8.00
 *Reptans. Dwarf, bushy plant of graceful growth. Showy blue flowers, 6 inches high in early spring. Should be used in the rock garden and border, in shady places; foliage good all summer. 1.75 Doz. 100 12.00

Polygonatum - Solomon's Seal

Multiflorum major. Pendent sprays of white flowers borne on long, 2-foot stems in May, followed in autumn with black or purple berries. A grand plant for a shady position, where it has plenty of room to show its pendulous sprays of bells 1.75 Doz. 100 12.00

Potentilla - Cinquefoil

*Nepalensis, Miss Willmott. This is the improved salmon-pink "formosa." Very free flowering. A good border plant for midsummer bloom. 1.75 Doz. 100 12.00
 *Mixed Colors of Double Varieties. This mixture contains various shades of orange and coppery red; they are especially suited for in front of sunny borders or for bold masses in the rock wall or rock garden. 1.50 Doz. 300 10.00
 Warrensi. A lovely new plant for the sunny hardy border, offered for the first time. Reaches a height of about 2 feet and is covered with large, pure yellow blossoms all summer long. Suitable for cutting. 1.75 Doz. 100 12.00

Primula - Primrose

*Auricula Alpina, Giant Hybrids. One of the treasures of the rock garden. The growth is very attractive, forming rosettes of thick leaves, sometimes farinose or mealy. The flower stalks rise to a height of 6 or 8 inches, bearing heads of bloom of various colors; exceedingly fragrant. 2.00 Doz. 150 15.00
 *Bulleyana. A splendid variety for a boggy place, growing about 18 inches high. The strong, stiff stems have about 4 to 8 tiers of rich apricot flowers in June. A very valuable sort 3.00 Doz. 200 20.00
 *Cashmeriana. Large, globular heads of a pleasing purplish blue shade, prefers a moist, shaded or sunny situation. 3.00 Doz. 200 20.00
 *Cashmeriana alba. A white-flowered form of the above. Very rare but as easily grown as the purple variety. 4.00 Doz. 300 30.00
 *Cortusoides. A distinct Siberian species, with soft, wrinkled, heart-shaped leaves. Flowers in early summer, deep rose; prefers light, rich, well drained soil in a sunny position, in border or rockery; 10 inches high. 3.00 Doz. 200 20.00
 *Moerheim Hybrids. A new strain of Hardy Primulas with the constitution of P. japonica, resulting from crossing of several. The lovely pastel colors range from cream to many shades of yellow, orange, purple, lilac, pink and crimson. They are very hardy and prefer a half-shaded position that is fairly moist; very unusual. 3.50 Doz. 250 25.00
 *Pulverulenta. Rich crimson flowers in whorls, on stems 3 feet high. One of the finest varieties. 3.50 Doz. 250 25.00
 *Vulgaris. The true old English Primrose with pale yellow flowers 3.50 Doz. 250 25.00

Polyanthus - Bunch Primrose

*Munstead, Exhibition Yellow. A beautiful strain of large-flowered, yellow shaded, bunch Primroses; most desired by those who love the Primrose. 3.50 Doz. 250 25.00
 *Munstead, Exhibition Cream. Very fine, large-flowered, cream-white shaded bunches of bloom, with striking yellow eye. 3.00 Doz. 200 20.00

POLYANTHUS—Continued.

*Munstead's Red Giant. Rich mahogany-red flowers often gold laced in great masses. Lovely as edging to beds or garden paths in shade or contrast color with the yellow primroses. \$3.00 Doz. 100 \$20.00
 *Munstead Strain Mixed. In all shades of yellow, cream, dark orange, some pink and dark rose. 3.00 Doz. 200 20.00
 *Veris Hybrids. This strain includes various shades of lilac, purple and violet, as well as a wide range of buff, orange, salmon and rich reds of vigorous growth. 1.75 Doz. 120 12.00

Prunella - Self-heal; Heal-all

*Grandiflora. Violet or purple flowers all summer. Fine for the rockery or slightly shaded parts of the bardy border. Succeeds in any soil not excessively dry. 1.25 Doz. 800 8.00

Pulmonaria - Lungwort

*Sacharata maculata. A lovely early spring flower not unlike Mertensia, with pink flowers and when through blooming the plant has beautiful silvery spotted foliage. 12 to 14 inches high 3.00 Doz. 200 20.00

Pyrethrum - Painted Daisy

Finest Mixed English Varieties. This mixture contains double- and single-flowered sorts in many shades of pink, rose and white. Strong, 2-year clumps that will give immediate results 1.00 Doz. 700 7.00
 Uliginosum. See Chrysanthemum, page 4.

Ranunculus - Buttercups

Acris flore pleno. A double yellow, upright growing Buttercup-like plant. Good for border in wet places; good cut flower 1.50 Doz. 1000 10.00
 Repens fl. pl. A pretty, double-flowering bright golden yellow Buttercup of creeping habit; flowers in May and June. 1.00 Doz. 600 6.00

Rudbeckia - Coneflower

Golden Glow. A popular hardy plant, grows 6 feet high, producing masses of large, double, golden yellow flowers shaped like a Dahlia, in late summer. 1.00 Doz. 600 6.00
 Maxima. A rare and attractive variety, growing 5 feet high, with large, glaucous green leaves and bright yellow flowers 5 to 6 inches across, with a cone 2 inches high; flowers continuously from June to September. 1.25 Doz. 800 8.00
 Newmanni. The perennial form of the "Black-Eyed Susan." Deep orange-yellow flowers with a dark purple cone; long, wiry stems 3 feet high; blooms all summer. 1.00 Doz. 700 7.00
 Purpurea (Giant Purple Coneflower). Most attractive purple flowers, with a very large, brown, cone-shaped center. Blooms from July to October. 3 feet high. A splendid plant for the border. 1.00 Doz. 700 7.00

Salvia - Meadow Sage or Clary

Azurea. A Rocky Mountain species. Grows 3 to 4 feet high, producing, during August and September, pretty sky-blue flowers in the greatest profusion. 1.00 Doz. 700 7.00
 Farinacea. Beautiful pale blue flowers all summer on neat plants about 2 feet high; splendid for the border. 1.25 Doz. 800 8.00
 Pitcheri. Similar to Azurea, but of more branching habit; large flowers of a rich gentian-blue color, and one of the most admired plants by the many visitors to our nurseries during the early autumn. 3 to 4 feet. 1.35 Doz. 900 9.00
 Pratensis. Lilac-blue flowers from June to September; grows about 2 feet high. Good border plant. 1.00 Doz. 700 7.00
 Turkestanica. Extremely decorative sweet scented, silvery foliage and showy whorls of white flowers surrounded by pale pink, all summer. 1.25 Doz. 800 8.00
 Virgata nemorosa alba. Distinct and effective foliage with showy whorls of white flowers. 1.50 Doz. 1000 10.00

Saxifraga - Rock-foil; Megasea

**Caespitosa. A robust grower about 2 to 6 inches high with dense foliage. Small white flowers from June to August. Loves a rich, well drained but moist soil and very light shade \$3.00 Doz. 100 \$20.00
 **Decipiens (Crimson Moss). Dwarf mossy plants bearing white flowers in May and June. The green foliage turns a bronzy crimson in winter. 4 inches high. Splendid rock plant; prefers light shade. 2.00 Doz. 150 15.00
 **McNabiana. This plant is a splendid sort for wall garden or in crevices in the rock garden. Foliage is gray-green in form of a rosette and quite stiff; from the center comes a flower spike about 12 inches long covered with small, white blossoms speckled with pink. 3.00 Doz. 200 20.00
 *Megasea cordifolia. These will thrive in ordinary soil in any position. Grow about 1 foot high, and are admirable for the front of the border or shrubbery, forming masses of handsome, broad, deep green foliage, which alone renders them useful; flowers appear very early in the spring 2.00 Doz. 150 15.00
 *Megasea crassifolia. 12 to 15 inches. April to June. Showy and spreading. Drooping masses of pink flowers high above the large, clustered leaves. A fine rock plant. 2.00 Doz. 150 15.00
 *Megasea Hybrids. Handsome plants in fine mixture of all shades of rose or pink. Excellent foliage. Good for the rock garden or border. Does well in shade or sun. 1.75 Doz. 120 12.00

Sanguinaria - Bloodroot

*Canadensis (Bloodroot). Native. A low perennial, about 6 inches high, with pure white flowers an inch in diameter, in early spring. The large, leathery leaves appear later. Plant in shady places in the rock garden or open woods. 1.50 Doz. 100 10.00

Santolina - Lavender Cotton; Ground Cypress

*Chamaecyparissus (Incana). A sweet-smelling, dwarf, ever-green perennial, with delicate, silver-white foliage, useful as rock or border plants; also largely used for edgings to flower beds or walks. 1 foot \$1.25 Doz. 800 \$ 8.00

Saponaria - Soapwort

*Ocymoides splendens. Pretty prostrate border and rockery plant; flowers rosy pink, produced in great quantities just above the foliage in late May and early June. 1.00 Doz. 700 7.00
 *Ocymoides alba. A pure white form of the above. 1.00 Doz. 700 7.00

Scabiosa - Scabious or Pin-cushion Flower

Caucasica (Blue Bonnet). Their lovely flowers are a soft and charming shade of lavender; commences to bloom in June, throwing stems 18 to 24 inches high until September. \$1.50 Doz. 100 \$10.00
 Caucasica alba (White Bonnet). The white form of the preceding 1.50 Doz. 100 10.00
 Japonica. Lavender-blue flowers from July to September. 2 feet. This is a biennial variety, but very valuable for its great quantity of blue flowers produced throughout the summer 1.25 Doz. 800 8.00
 Pennsylvanica (Cephalaria tatarica). Large golden yellow flowers, similar to the true Scabiosa in form, but 5 feet tall; excellent plant for back in the border or in front of the shrubs. 1.25 Doz. 800 8.00

Scutellaria - Skullcap

*Baicalensis coelestina. Short, wiry stems, 1 foot high, clothed with clear blue Snapdragon-shaped flowers during July and August; a very good plant for the rockery or in front of the border 1.50 Doz. 100 10.00

Sedum - Stonecrop

DWARF VARIETIES

*Acre (Golden Moss). Much used for covering graves; foliage green; flowers bright yellow; prostrate and slowly spreading. 1.00 Doz. 600 6.00
 *Aizoon. Bright yellow flowers. 1 foot. July and August. 1.50 Doz. 100 10.00

SEDUM—Continued.

Doz. 100

- ***Album.** Dwarf and spreading; thick, waxy round foliage, white flowers; good rock plant \$1.00 \$ 6.00
- ***Eversi.** A very nice variety of sub-trailing habit. Foliage is glaucous gray. In October the plant is covered with rose-colored flowers..... 1.75 12.00
- ***Glaucum.** Excellent dwarf variety for rockeries or border edgings; prostrate and of slow growth..... 1.50 10.00
- ***Kamtschaticum.** Orange-yellow flower, with prostrate, green foliage, turning golden in autumn..... 1.25 8.00
- ***Kamtschaticum Variegated.** One of the best, because of its handsome dull golden variegated foliage which blends marvelously with the orange-yellow flowers, which are profusely produced in midsummer at a time when color in the rock garden is at a premium. Good strong grower but not rampant 1.75 12.00
- ***Lydium.** Very fine rock plant; blue-green foliage and of prostrate habit 1.25 8.00
- ***Obtusatum.** Golden yellow flowers, with emerald-green foliage, shaded bronze. 3 inches..... 3.00 20.00
- ***Pruniatum Forsterianum.** Pretty glaucous, bluish green leaves of trailing habit with golden yellow flowers; 3 inches high.. 1.50 10.00
- ***Sarmentosum.** Excellent dwarf variety for rockeries or border edgings. The best Sedum for filling seams between rocks in wall garden; rapid grower..... 1.00 6.00
- ***Sexangulare.** Very dwarf green foliage; yellow flowers; habit much like Acre..... 1.00 6.00
- ***Siboldi.** Round, succulent, glaucous foliage; bright pink flowers in September. The loveliest of all Sedums..... 1.75 12.00
- ***Spurium coccineum.** A beautiful rosy crimson-flowered form; July and August. 6 inches. Very fast spreading variety; good for covering sandy banks..... 1.00 6.00
- ***Stoloniferum.** Most desirable; evergreen leaves; flowers purplish pink. July and August. Excellent for rock garden. 6 inches 1.25 8.00
- ***Ternatum.** The most satisfactory variety for planting in the shade; for ground carpeting under trees or anywhere it is difficult to make plants grow. Spreads rapidly and does well on all sorts of soil..... 1.50 10.00

ERECT-GROWING VARIETIES

- Spectabile.** One of the prettiest erect-growing species, attaining a height of 18 inches, with broad, light green foliage and immense heads of handsome, showy, rose-colored flowers, indispensable as a late fall-blooming plant..... 1.00 7.00
- Spectabile "Brilliant."** A richly colored form of the preceding, being a bright amaranth-red..... 1.35 9.00
- Spatulatum purpureum.** Reddish leaves with gray in center of the rosette. Dark yellow flowers, contrasting beautifully with the foliage..... 2.00 15.00

Sempervivum - House Leek

- Arachnoideum fimbriatum.** A fine cobweb rosette from which radiate ten or more runners about one inch long at the end of which appear the young plants, giving a lovely star-like effect 1.50 10.00
- Arachnoideum Lageri.** Similar in growth to minus except that the rosettes are twice as large and produced in greater abundance. A fine cobweb variety..... 1.50 10.00
- ***Arachnoideum minus (Small Cobweb House Leek).** Tips of leaves in rosettes usually connected by silvery threads, from whence its common name; flowers bright red, in few-flowered panicles. 4 inches..... 1.25 8.00
- ***Atrovioleaceum.** The largest of the entire collection. Forms a beautiful rosette, almost 4 inches in diameter when fully grown, of deep reddish purple leaves. Should be in every rockery. 8 inches.....Each, 75c.
- ***Brauni.** A very attractive rosette-like plant. Color of leaves is bronze, almost a dull red at tip of leaves. At the base a dull green. 6 inches..... 1.00 5.00
- ***Doellianum.** Small, hairy rosettes of pale green leaves, tinted red at the tips. The panicles of bright red flowers are 4 to 6 inches high. Effective when grown in large masses..... 1.00 5.00
- ***Faucouette.** Very similar to Brauni. The general makeup of the plant, however, is a little finer and more delicate. 6 inches..... 1.00 5.00
- ***Funcki.** Green tipped brownish rosettes produced rapidly in great numbers. A very fine sort to use where a brownish color is desired. 6 inches..... 1.00 5.00

SEMPERVIVUM—Continued.

Doz. 100

- ****Globiferum.** Flattened rosettes, 2 to 3 inches in diameter, of grey-green leaves, lightly tipped brown. Pale yellow flowers, three-fourths to one inch in diameter, in densely hairy panicles 1 foot high \$1.00 \$5.00
 - ***Tectorum.** Broad rosettes, the leaves having reddish brown tips; flowers pale red. 1 foot. This is the common House Leek of our grandmother's garden..... 1.00 5.00
- All Sempervivums are quoted for single plants or rosettes. If clumps are required for immediate effect, we shall be glad to furnish them at three times the price listed in the catalog.

Senecio - Ragwort; Groundsel

Doz. 100

- Clivorum.** Forms a neat tuft of foliage, from which spring up from July to October a succession of 3-foot stems, with clusters of orange-yellow flowers. One of the few plants that flower profusely in shade \$1.50 \$10.00
- SHASTA DAISY (See Chrysanthemum Maximum, page 4).

Shortia

- ***Galacifolia.** A rare and beautiful species, from the mountains of North Carolina. The leaves are evergreen and the petals, five in number, are pure white, and scalloped or notched on the edges. Flowers about an inch across in early summer. Plant in a shady place 3.50 25.00

Sidalcea - Greek-Mallow

- Rosy Gem.** Erect growing, more or less branching plants, 2 to 3 feet in height, producing their showy bright rose-colored flowers during June and July. They will succeed in any garden soil in a sunny position..... 1.25 8.00

Silene - Catchfly or Campion

- ****Acaulis.** A typical high Alpine. Close, green cushions and tiny, stemless, rosy flowers in May and June..... 3.75 27.50
- ****Alpestris.** Dwarf rock plant, dainty, pure white flowers in May and June..... 1.35 9.00
- ***Saxifraga.** A choice Alpine of mossy growth. Flowers white, in great profusion all summer..... 1.50 10.00
- ***Schafta (Autumn Catchfly).** A charming border or rock plant, growing from 4 to 6 inches high, with masses of bright pink flowers from July to October..... 1.25 8.00

Sisyrinchium - Rush-lily or Satin-Flower; Blue-eyed Grass

Doz. 100

- ***Bermudianum.** A handsome dwarf, grasslike little plant for sunny place in the rock garden. Produces on top of the 6-inch leaves, dainty violet-blue flowers in June and July ... \$1.75 \$12.00

Spiraea - Goat's Beard; Meadow Sweet

- Aruncus.** Produces long, feathery panicles of white flowers, forming graceful plumes 4 feet tall in June..... 3.00 20.00
- Filipendula (Dropwort).** Numerous corymbs of white flowers on stems 15 inches high during June and July; pretty fern-like foliage..... 1.25 8.00
- ***Filipendula flore pleno.** Double white flowers on 12-inch stems; lovely fernlike foliage..... 1.75 12.00
- Palmata elegans.** Graceful plumes of lovely light pink flowers in June, on stems 3 feet high. Fine for waterside plantings. 2.00 15.00
- Ulmaria fl. pl.** The well known double "Meadow Sweet." Creamy white flowers produced in abundance in early summer on stems about 3 feet high..... 1.50 10.00
- Venusta (Martha Washington Plume).** A noble plant growing about 4 feet high, producing in July and August handsome, rosy carmine flowers which are delightfully fragrant. The handsome foliage makes this Spiraea a desirable subject for the border or along a small brook..... 3.00 20.00

Spiraea - Astilbe Hybrids

The hybrid varieties should not be forced but planted in the shady, moist border where they will be one of the outstanding lovely plants. All flower in June.

SPIRAEA - ASTILBE HYBRIDS—Continued.

VARIETIES FOR GARDEN USE ONLY

Doz. 100

- Betsy Cuperus.** The fine drooping flower spikes, 2 feet long, show in summer during some weeks a great number of white flowers with pink center..... \$4.00 \$30.00
- Grandis rosea magnifica.** The drooping spikes of flowers have a length of over 2 feet, and are a beautiful creamy white, with pink centers..... 4.00 30.00
- Marguerite Van Rechteren.** The flower stem itself has a length of over 3 feet. The very fine fringed flowers are bright red tinged with dark blue..... 4.00 30.00
- Meta Immink.** Splendid new cross having dense flower spikes of a delightful pink color. Very recommendable..... 4.00 30.00
- Prof. V. D. Weilen.** With long stems and side stems, showing fine small, pure white flowers in profusion..... 4.00 30.00
- Vesta.** Tall, lilac-rose spikes; beautiful garden variety..... 4.00 30.00

Spiraea - Astilbe—FOR GREENHOUSE AND GARDEN USE

The following varieties are of dwarf growth and will do very well in the garden but they are mostly used for forcing. The spikes produced in the garden are about 18 inches high in all shades of pink, rose and white. They are very lovely on the edge of a small pool where the larger growing sorts are out of scale. All flower in June.

Doz. 100

- Deuchland.** A lovely pure white variety and a great improvement over Gladstone, of strong growth and very free flowering \$4.00 \$30.00
- Gloria.** Conspicuously beautiful with dense, feathery plumes of brilliant dark pink, shaded lilac..... 4.00 30.00
- Granat.** Striking novelty with long, well formed spikes and splendid crimson flowers, shaded salmon..... 4.00 30.00
- Rhineland.** The compact spikes are bright crimson colored with salmon 4.00 30.00

Stachys - Woundwort

- ***Lanata.** Fine, old-fashioned cottage garden plant for edging; useful in rock garden; dwarf; soft silvery foliage; flowers useless. 4 inches 1.25 8.00

Statice - Great Sea-Lavender

- ***Latifolia.** A valuable plant either for the border or rockery, immense heads, frequently 1½ feet high and 2 feet across, of purplish blue, minute flowers during July and August. These, if cut and dried, last in perfect condition for months. 1.25 8.00

Stellaria - Star Flower or Golden Stitchwort

Doz. 100

- ***Graminea aurea.** A slender-stemmed bardy rock plant not over 6 inches high. Creeping and spreading in habit. Well adapted for sandy banks where grass does not do well or for dry places in the rockery \$1.50 \$10.00

Stokesia - Cornflower Aster; Stokes' Aster

Doz. 100

- Cyanea coerulea.** Beautiful light blue flowers are produced profusely in late summer and early autumn on 18-inch stems; lovely for cutting or in front of the border. Stokesias are one of our best late summer-flowering hardy plants \$1.25 \$8.00
- Cyanea coerulea alba.** White-flowered form of the above..... 1.25 8.00

SWEET WILLIAM (See Dianthus Barbatus).

Sweet Wivelsfield

- Mixed Shades 1.50 10.00

Teucrium - Germander

- ***Chamaedrys.** Glossy green foliage resembling dwarf boxwood; may be used in place of boxwood where the latter is not hardy; can be clipped to suit any height up to 12 inches... 2.00 15.00
- ***Orientalis.** Dwarf, graceful plants, producing an abundance of blue flowers in August; good for rock garden or border.... 1.50 10.00

Thermopsis

- Caroliniana.** A lovely Lupine-like plant with rich green foliage growing about 2 feet high. In June and July, yellow, pealike flowers are produced in racemes, 6 to 12 inches long. The general appearance is that of a yellow Lupine..... 3.00 20.00

Thalictrum - Meadow-Rue

	Doz.	100
*Adiantifolium. A beautiful variety, with foliage like the Maidenhair Fern and miniature white flowers in June; grows about 2 feet high	\$1.50	\$10.00
Aquilegifolium. Graceful foliage like that of Columbine, and rosy purple flowers from June to July on 2 to 3 ft. tall spikes; lovely planted together with Poppy Wm. Perry	1.75	12.00
Aquilegifolium album. White form of the above	1.50	10.00
Dipterocarpum. Flowers a charming shade of lilac-mauve, which is brightened by a bunch of lemon-yellow stamens and anthers. The plant is of strong growth, about 4 feet high. The dainty flowers are produced in graceful sprays during August and September	1.75	12.00
Glaucum. Similar in habit to the Aquilegifolium; blue-gray leaves rather finely cut, with beads of Chinese yellow, fragrant flowers. 3 to 4 feet July	1.50	10.00

Thymus - Thyme

*Citriodorus. The well known "Lemon Thyme"	1.50	10.00
*Lanuginosus (Woolly-Leaved Thyme). Woolly foliage with bright pink flowers	1.50	10.00
*Serpillum. Growing about 10 inches high and spreading rapidly. This is one of the good varieties for naturalizing. When established it may be mowed with lawnmower. Foliage is very fragrant when walked upon	1.50	10.00
*Serpillum album (White Mountain Thyme). Forms dense mats of dark green foliage and clouds of white flowers	1.50	10.00
*Serpillum coccineum. Plants become completely covered with brilliant crimson-scarlet flowers	1.50	10.00
*Serpillum splendens. A rapid, dwarf-growing variety; very hardy and excellent to cover bare spots, also good for the edge of walks or in the rock garden	1.50	10.00

Tiarella - Foam-flower or False Mitrewort

*Cordifolia. An attractive little plant with fine foliage and small, creamy white, star-shaped flowers. Prefers partial shade; not over 12 inches in height; flowering in May	1.50	10.00
---	------	-------

Tradescantia - Spiderwort or Flower-of-a-Day

	Doz.	100
Virginica. Produces a succession of blue flowers all summer, on fleshy, blue-green stems about 18 inches high. A very fine plant for places where it is difficult to grow more delicate subjects; does well in shade and at the base of house or porch, where nothing else will grow. Good for the city garden	\$1.00	\$7.00
Virginica alba. A white-flowered form	1.00	7.00

Trillium - American Wood-lily or Wake Robin

	100	1000
Grandiflorum. Excellent plants for shady positions in the hardy border, or in a sub-aquatic position. Large, pure white flowers in early spring. 12 to 18 inches high	\$7.00	\$60.00

Tritoma - Torch Lily; Foam Flower; Red Hot Poker

	Doz.	100
Pfitzeri. Hardy if given protection. In bloom from August to October, with spikes 3 to 4 feet high, and heads of bloom of a rich orange-scarlet	\$1.50	\$10.00
Perry's Hardy Hybrids. These are seedlings of various colors, ranging from pale yellow to deep orange and are very showy; perfectly hardy	1.50	10.00
Quartiniiana. A strong growing variety, blooming late in May. Orange-red at first, but yellow on bottom half as bloom matures. Perfectly hardy here; does not need protection	1.75	12.00
Uvaria grandiflora. 3 to 4 feet. The old-fashioned, late-flowering sort, with flowers rich red changing to salmon-pink. Needs slight protection	1.50	10.00

Trollius - Globe-flower

	Doz.	100
Europaeus superbus. Same habit as Orange Globe with pale yellow blossoms	\$4.50	\$35.00
Europaeus, Lemon Queen. Free flowering strong growing plant. Flowers pale yellow, produced in abundance on stems about 2 feet high	4.50	35.00
Mixed Choice Varieties. Colors range from pale yellow to deep orange; on strong stems 2 feet high. Wonderful as cut flowers, and good in moist locations	1.75	12.00

Tunica - Coat Flower

*Saxifraga. A pretty tufted plant with light pink flowers, produced all summer, about 6 inches high; for the rockery or border	1.00	6.00
*Saxifraga rosea flore pleno. Is a lovely double, pink variety. The rose-pink flowers are produced all spring and summer in great quantities which makes it a most valuable plant for the rock garden. We have a limited number of strong plants in pots ready to bloom at	3.00	20.00

Valeriana - Centranthus; Garden Heliotrope

	Doz.	100
*Coccinea. Showy heads of old rose flowers in umbels on 12-inch stems just above the rich green foliage, are produced from June until October. A splendid plant for bold effects in the wall or rock garden; plants, if too large, may be severely cut back without damage. Total height about 2 feet	\$1.25	\$ 8.00
*Coccinea alba. White form of the above	1.25	8.00
Officialis (Hardy Garden Heliotrope). Produces showy heads of rose-tinted white flowers during June and July, with delicious, strong heliotrope odor. 3 to 4 feet high; loves a moist spot	1.50	10.00

Verbascum - Mullein

Olympicum (Greek Mullein). The showiest of the entire family of more than thirty varieties. The foliage is silvery white, with leaves often 3 feet long. Flowers yellow, produced in quantity for about 3 weeks in midsummer. Succeeds best in a dry situation. 3 to 5 feet	1.50	10.00
*Phoenixium, Wayside Gardens Hybrids. An excellent strain produced from a very superior grade of English Hybrids. Colors are most interesting, ranging from white, pink, rose, purple and bronze to brown; they grow about 18 inches high	1.50	10.00

Verbena

*Venosa. A creeping plant in bloom all summer. The flowers are purplish blue and always plentiful. Good for rock garden in warm, sunny place	2.00	15.00
--	------	-------

Veronica - Speedwell

*Amethystina "Royal Blue." Beautiful spikes of rich Gentian-blue flowers. 10 to 15 inches. June and July flowering	1.50	10.00
*Erica. A heather-like Speedwell with delicate pink flowers. June-July. 8 to 12 inches	1.75	12.00
*Gentianoides. Beautiful variety with spikes of large flowers, palest blue edged deep blue, in June and July. 1 foot	1.50	10.00
*Incana (candida). 1 foot. July and August. A white, woolly plant; flowers numerous; blue. Has good appearance, both in and out of bloom. Useful in rockery or for edging paths and flower beds	1.00	7.00
Longifolia subsessilis. 2 feet. July to September. One of the handsomest blue-flowering plants. Perfectly hardy and increases in strength and beauty each year. Spikes completely studded with beautiful blue flowers; fine for cutting and one of the best plants for the hardy border	1.75	12.00
Orchidea. Very handsome variety from the Balkans. Grows 2 to 3 feet in height and produces a profusion of clear blue flowers	2.00	15.00
*Repens. 1 to 2 inches. May and June. A useful rock or carpeting plant with light blue flowers. Not very hardy, we recommend Rupestris in its place	1.35	9.00
*Rupestris. A fine rock plant growing 3 to 4 inches high; thickly matted, deep green foliage, hidden in early June under a cloud of bright blue flowers. Does well in light shade and is also a good ground cover for shrub borders	1.35	9.00

VERONICA—Continued.

	Doz.	100
*Rupestris alba. A splendid prostrate variety for the rock garden and also well adapted for planting at the base of shrubbery in light shade. It is a fine ground cover, flowering in late May and June and completely covered with blossoms	\$2.50	\$18.00
*Rupestris flexuosa. Prostrate creeping plant forming a solid carpet of green which in late April and early May is covered with pale blue flowers 1 inch high. A No. 1 rock plant	1.75	12.00
*Rupestris, Heavenly Blue. The same habit as Rupestris or Rupestris alba; prostrate; does well in full sun or light shade. Lovely in the rockery or at base of shrubbery. Completely covered with heavenly blue flowers in late May or early June	2.50	18.00
*Rupestris nana. Prostrate and creeping, and flowers at the same time as Rupestris, forming a dark green carpet of shiny foliage which is covered with deep Gentian-blue flowers in late April and early May. 1 inch high. One of the best early blue rock plants known	2.50	18.00
*Rupestris nana rosea. Has same habit and flowers at same time as Rupestris nana. The flowers, however, are mauve-pink	2.50	18.00
Spicata. Long spikes of violet-blue flowers all summer; a very fine variety for the middle of the hardy border. For best results lift and divide every 3 years, and fertilize well with bone meal. Plant grows about 24 inches tall	1.25	8.00
Spicata alba. Long spikes of snowy white flowers	1.25	8.00
Spicata rosea. Much branched variety with pink flowers	1.50	10.00
*Teucroium. Dwarf; spreading, of a dense growth; flowers blue. 6 to 12 inches. May and June	1.50	10.00
*True Blue. Literally covers itself with blossoms of intense blue. 12 inches. June-July flowering	1.50	10.00

Vinca - Periwinkle or Trailing Myrtle

	100	1000
*Minor. A trailing evergreen plant, used extensively for carpeting the ground under shrubs or trees or on graves, where it is too shady for grass or other plants. Strong, nursery grown clumps	\$10.00	\$95.00
3-inch pot plants of Vinca minor may be obtained any time of the year. They are potted plants with about 8 to 12 runners. Good for quick results	10.00	90.00

Viola Cornuta - Tufted Pansies

	Doz.	100
Admiration. Deep violet flowers in great profusion all summer	\$1.00	\$7.00
*Floraire. A gem, producing profusely all summer through, small blossoms of pale blue. Famous in and around Geneva, Switzerland, a product of Monsieur Correvon. Fine for rockery	1.25	8.00
*G. Wermig. A variety of Tufted Pansy, forming clumps which are covered with rich violet-blue flowers the entire season; fine for rock garden	1.25	8.00
Golden Yellow. A very free-flowering sort producing its golden yellow flowers all summer	1.00	7.00
*Gracilis. A tufted species producing a mass of rich purple, small, starry flowers, in bloom all summer. An ideal variety for the rock garden	1.25	8.00
Jersey Gem. Possesses the dwarf habit and continuity of blooming of the true horned Viola (V. cornuta), and vigorous, bushy growth and roundish foliage of the finest English bedding varieties. Pure, rich violet, slightly perfumed	1.25	8.00
Perfection. Light blue flowers in abundance all summer; a very lovely variety planted with the yellow sort	1.00	7.00
Sutton's Apricot. Beautiful rich apricot shade, tinged orange toward the center	1.75	12.00
Sutton's Gem. A very pretty mixture of tufted Violas, mostly of rose shades, but also showing some clear pinkish mauves	1.25	8.00
White Perfection. Pure white blooms in great profusion all summer	1.00	7.00
Mixed. Many shades and markings	1.00	6.00

Viola Odorata - Sweet Violet

	Doz.	100
*Prince of Wales. Rich, deep purple	\$1.50	\$10.00
*Double Russian. Perfectly hardy anywhere, producing double, sweet scented flowers in abundance. A splendid variety for that troublesome shady place.....	4.00	30.00

WALLFLOWER (See Cheiranthus).

Yucca - Adam's Needle

*Filamentosa. Among hardy plants there is nothing more effective and striking for isolated positions on the lawn. It is also indispensable for the large rockery. Its broad, sword-like, evergreen foliage and immense branching spikes of drooping, creamy white flowers, rising to a height of 6 feet, render it a bold and handsome subject wherever placed.

3-year-old plants	1.25	8.00
4-year-old plants	1.50	10.00

Climbing Plants and Vines

Ampelopsis - Boston Ivy

	Doz.	100
Veitchi (Boston Ivy or Japan Ivy). The most popular climbing plant for covering brick walls, stone or wooden walls, trees, etc. When it becomes established it is of very rapid growth and clings to the smoothest surface with the tenacity of Ivy. Strong, 3-year-old field-grown plants.....	\$2.50	\$18.00
Lowi. A splendid variation from the popular Boston or Japan Ivy, possessing all the merits of the parent, being perfectly hardy, clinging to the smoothest surface without support, and with much smaller foliage, which is deeply cut, giving it an elegance entirely distinct from the old type.....	3.50	25.00
Quinquefolia (Virginia Creeper or American Ivy). This well known climber is one of the best and quickest growing varieties for covering trees, trellises, old stumps, etc. Its large, deep green foliage assumes brilliant shades of yellow, crimson and scarlet in the fall. Strong plants.....	2.50	18.00

Aristolochia - Dutchman's Pipe

Sipho. A vigorous and rapid growing climber. Its flowers are of no value compared to its light leaves, which are of very large size, and retain their color from early spring to late fall. Large, field-grown plants.....

	6.00	50.00
--	------	-------

Asparagus

Verticillatus. A vine with asparagus-like foliage climbing to a height of 10 or 12 feet. Its fine foliage is very graceful mixed with flowers.....

	2.50	18.00
--	------	-------

Bignonia - Trumpet Vine

Radicans. Dark orange flowers all summer and fall; free blooming and very hardy vine.....

	2.50	20.00
--	------	-------

Celastrus - Bittersweet or Wax Work

Scandens. Attractive light green foliage and yellow flowers in June, which are followed in autumn with bright orange fruits, which usually remain on the plant all winter.....

	3.50	25.00
--	------	-------

Clematis - Virgin's Bower

Coccinea	3.50	25.00
Montana perfecta (Anemone Clematis). A strong, vigorous, extremely hardy variety, thriving under most adverse conditions. Its large, white flowers expand in April and May, and it is the best of our spring climbers.....	3.50	25.00
Montana rubens. Flowers rosy pink, with beautiful green foliage, shaded bronze.....	3.50	25.00
Paniculata. This hardy climber is one of the choicest and most satisfactory climbing, flowering plants. Of strong, rapid growth, with small, dense, cheerful green foliage and pure white, deliciously fragrant flowers, in greatest profusion in August and September. 2-year plants.....	1.50	10.00

CLEMATIS—Continued.

LARGE-FLOWERING VARIETIES

	Each	Doz.
Henryi. Lovely, large creamy white flowers in great quantities all summer	\$0.50	\$5.50
Jackmani. The popular purple variety with large, purple-blue flowers; one of the loveliest vines we have.....	.50	5.50
Mme. Villard. Bright carmine blossoms in great quantities; looks very well on a white background.....	.50	5.50
Ramona. Single, pale blue flowers completely cover this plant; it is a very lovely vine not used nearly enough.....	.50	5.50

English Ivy - Hedera

	Doz.	100
Helix (English Ivy). 30 inches high, strong plants	\$3.50	\$25.00
Helix gracilis. Identical in habit with the English Ivy, but with dark green foliage not as large and more cut; a most graceful vine; perfectly hardy and a splendid evergreen vine for shady places or on walls with north and west exposures. Strong plants, about 30 inches high.....	3.50	25.00

Euonymus - Evergreen Bittersweet

Acuta. A splendid variety, sending its long, prostrate runners over the ground, partly covering it. Excellent variety to plant under shrubs or in the rock garden where its runners will help out greatly in creating a very natural effect.....	4.00	30.00
Carrieri (Carrier's Evergreen Bittersweet). A stronger grower than Euonymus radicans, with larger, ovate, green leaves. Half hush and half vine in habit of growth. If given support, it makes a very fine covering for a building or a wall; very rugged and a rapid grower, and may be used for evergreen hedges, as it can be sheared into any shape.		
12 to 18 in. high, heavy, bushy plants	4.00	30.00
24 to 30 in. high, heavy, bushy plants	7.00	50.00
Colorata. A strong growing variety with long, narrow, dark green leaves; excellent as a ground cover between tall shrubs. Foliage turns a beautiful reddish bronze in autumn. 18 to 24-in. runners, heavy, bushy plants.....	4.00	30.00
Kewensis. A variety with very small, dark green foliage. Everyone who has seen this appreciates its value as a rock plant. It grows close to the ground, and is a most valuable plant for a shady place in the rock garden where a delicate evergreen is needed.....	3.00	20.00
Radicans variegata. A beautiful small-leaved green and white variegated form of the same habit as the type.		
12 to 18 in. high, heavy, hushy plants	4.00	30.00
24 to 30 in. high, heavy, hushy plants	7.00	50.00
Radicans vegetus (Evergreen Bittersweet). A strong growing variety, with larger leaves than the type, and producing bright orange-red berries, which remain on the plant the greater part of the winter. As an evergreen, absolutely hardy wall cover, this plant is unequaled. 15 to 18 inches high, heavy, bushy plants.....	4.00	30.00

Lonicera - Honeysuckle

Halliana. Color an intermingling of white and yellow. Extremely fragrant and most satisfactory.....	2.00	15.00
Sempervirens magnifica. A magnificent new Honeysuckle with coral colored hoods of large size and beautiful blue-gray-green foliage. The brilliant and cheerful flowers freely produced; a worth while novelty.....	Each, 65c.	

Polygonum - Silver Lace Vine

Auberti. A splendid hardy climber of strong, vigorous growth, attaining a height of 25 or more feet, producing during summer and fall great foamy sprays of white flowers, and a well balanced plant during its long period of flowering is a great mass of bloom.....

	2.00	15.00
--	------	-------

Thunbergiana (Jack-and-the-Bean-Stalk). Small, pea-shaped, rosy purple flowers, heart-shaped leaves. It will grow anywhere

	1.50	10.00
--	------	-------

Schizophragma Hydrangeoides - Japanese Hydrangea Vine or Climbing Hydrangea

One of the finest and most artistic vines in existence and extremely rare. Foliage large and hold, held fast to walls or other support. Flowers in large, flat clusters, studded with large, flaky, steric blooms which are very showy and fragrant. Pot plants.....

Wisteria

Woody vines with tightly clinging habit, for pergolas, arhors, trellises, etc., especially ornamental in early summer when they are resplendent with their large, drooping clusters of fragrant blossoms.

	Doz.	100
Sinensis (Chinese Wisteria). Bunches of pale lilac deliciously scented blossoms in great profusion all over the vine. Strong, grafted plants	\$5.00	\$40.00
Sinensis alba. A white-flowered form of the type. Strong, grafted plants.....	5.00	40.00
Sinensis multijuga. With deep lavender blossoms often 18 to 24 inches long. Old specimen plants for.....	Each, \$3.00..	

Hedge Plants

Berberis - Barberry

Thunbergi (Japan Barberry). Where a dwarf deciduous hedge is wanted, nothing equals this beautiful Barberry. Requires but little pruning to keep its shape. The leaves are small, light green, and towards fall assume rich, brilliant colors, the fruit or berries becoming scarlet. Absolutely hardy. Plant 12 to 15 inches apart.

	Doz.	100	1000
Extra strong, 3-year-old plants.			
24 to 30 inches high	\$2.50	\$20.00	\$175.00
Strong, husby, 3-year-old plants.			
18 to 24 inches high	2.00	15.00	125.00

Box Barberry

The new dwarf or minature Berberis used for low edging around beds in formal gardens or for dwarf, small edges along garden paths. Requires little pruning and is the best dwarf edging to be used in localities where Boxwood is not hardy and is less expensive.

Box Berberis. Bushy plants.

	Doz.	100	1000
10 to 12 inches	\$2.00	\$15.00	\$125.00
12 to 15 inches	2.50	20.00	175.00

Euonymus

While these plants are grown as vines, several may also be clipped and sheared and grown for hedges or edgings to gardens or walks. For a tall hedge 2 to 3 feet in height, we recommend Carrieri and Vegetus, while Radicans and Radicans Variegata may be grown in place of Boxwood as low edging to rose beds or walks. For prices see center column.

Ibota Privet

A very hardy variety of strong and dense growth. Can be used for both formal or informal hedges. A most satisfactory sort where a cheap and hardy hedge is required. Does well in shade.

	Doz.	100
3 to 4 feet, 3 times transplanted, hushy shrubs	\$3.00	\$20.00
4 to 5 feet, 3 times transplanted, hushy shrubs	4.00	30.00

18-22 inches, well-formed plants	1.50	15.00

Unusual Shrubs for Rock Garden or Hardy Border

Azalea - Hardy Varieties

	Each	Doz.
* <i>Amoena</i> (Japanese Evergreen Azalea). A dwarf shrub with double purplish red flowers in May; is especially adapted for borders and rock gardens; needs some protection in northern latitudes. Should be planted in sheltered positions and will abundantly repay for any care given. 10-12 in.	\$0.80	\$ 8.00
<i>Calendulacea</i> (Flame Azalea). Probably the most gorgeous of the native Azaleas. From early May until well into the month of June, the plants are literally covered with orange-yellow or flame-red blooms which in size are often 2 inches across. The well-known Ghent Azaleas rarely equal in brilliancy this native species. Foliage remains good until late fall and breaks in the spring just before the blooms appear. 10-12 in. selected clumps, balled and burlapped, nursery grown60	6.00
* <i>Kaempferi</i> (Torch Azalea). One of the most popular, hardiest, and most satisfactory of all; a vigorous grower, never failing to produce its brick-red flowers in May; excellent as a point of emphasis in the mixed shrubbery border.		
15-18 inches	1.50	15.00
18-24 inches	2.00	20.00
<i>Macrantha</i> . Large, single, salmon-red. Resembles <i>Hinodegiri</i> ; very late. A very compact, flat, quick grower with dark green, glossy foliage. One of the hardiest of all. 12 to 15-in. diameter	1.25	12.50
* <i>Mollis</i> (Chinese Azalea). Without exception the most colorful of all low-growing hardy shrubs; in innumerable shades of orange-flame, and yellow; bushy plants offered in mixed colors only.		
12-15 inches90	9.00
15-18 inches	1.25	12.50
<i>Mollis, Louisa Hunnewell</i> . Derived from a cross between <i>Azalea Mollis</i> and <i>Azalea Japonica</i> , this new variety is harder than either parent and is more beautiful and floriferous. The huge clusters of brilliant, salmon-red flowers completely cover the plants while they are in bloom. One of the showiest. Plants 12 to 15 inches	1.30	13.00
<i>Nudiflora</i> (Pinxter Bloom). An extremely beautiful Azalea. Rosy pink or whitish blooms, after or before the foliage develops, of strong, sweet fragrance, and borne in great profusion at about the same time as <i>A. Canescens</i> . Fall foliage assumes attractive shades of orange and bronze. Fine for dry, open places. 10-12 in. selected clumps, balled and burlapped, nursery grown60	6.00
<i>Pontica</i> (Hardy Ghent Azalea). These are also called the Hardy Ghent Azaleas; they have always been popular. The orange, pink, copper, salmon and yellow shades of their blooms, you must see to appreciate their wonderful beauty. The lustrous leaves when young are covered with silky hair, and in autumn turn to dull red and brown. In association with <i>Rhododendron</i> they make a fine effect. We have a unique and rare mixture of specimen plants in many colors. 12-15 in. . .	1.50	15.00
<i>Schlippenbachi</i> (Royal Azalea). A vigorous plant 3 to 5 feet high, with very large, showy flowers of pale rose-pink, the upper petals lightly spotted with brown. 10-12 in. selected clumps, balled and burlapped, nursery grown60	6.00
<i>Vaseyi</i> (Southern Azalea). A tall, slim grower, bearing rosy white flowers in April before the leaves appear. Foliage colors dark crimson in the fall. Profuse bloomer. Very decorative; deserving a place in every planting. 10-12 in. selected clumps, balled and burlapped, nursery grown60	6.00
* <i>Yodogawa</i> . Large, semi-double, lavender-pink flowers; the earliest to bloom. Bushy specimen plants. 18-24 inches high..	2.00	20.00

Buddleia

Ile de France. (New). A great improvement over all other varieties. It blooms prolifically and the flowers are larger; the color is deeper, almost a deep purple. All together a fine plant for the flower garden or shrubbery border or as a single specimen for the lawn

.50

BUDDLEIA—Continued.

Variabilis magnifica. This is really a shrub but the top usually freezes back, and new growth starts from the root like other perennials. Plants grow 3 to 4 feet and are covered with long racemes of Lilac-like flowers all summer

Three Doz. 100

\$.085 \$2.50 \$18.00

Cotoneaster - Rock Spray

**Horizontalis* (Prostrate or Rock Cotoneaster). A low-growing shrub with almost horizontal branches covered with shiny dark green leaves. The flowers are pinkish but the fruit, which hangs on until spring, is bright red, giving the plant a wonderful appearance in the fall and winter. It is a most desirable plant for rock garden and in front of shrubbery. A splendid low shrub for entrance to gardens or at the base of steps near the front door. The safest way to transplant this shrub is from pots. We offer plants about 15 to 18 inches spread.

Doz. 100

5-inch pots

12-15 inch spread from 5-inch pots

\$6.00 \$45.00

4.00 30.00

Daphne - Garland Flower

**Cneorum*. These shrubs are of spreading habit and do not grow over 8 to 12 inches high; producing delicately perfumed rose-pink blossoms. The flowers completely cover the plant not only in spring but again in early autumn. As an edging plant in front of evergreens or shrubs, it is unequalled. It also forms a splendid low hedge along garden walks and around flower beds.

Culture. It prefers a sunny position in well drained sandy soil. In order to keep the evergreen foliage perfect, protect it with a little straw during the coldest part of the winter. The plants withstand temperatures as low as 10 below zero. Water sparingly in summer.

Doz. 100

Calluna and Erica - Heaths or Heather

The Heaths are compact, low-growing plants, and as such are extremely useful for rockeries. The small foliage is densely arranged around the wiry little stems, and either when in full bloom or in midwinter makes a very pretty picture. Give some protection in the first winter. Semi-shady location. **Culture.** Same as Azaleas.

Doz. 100

Calluna vulgaris (Scotch Heather). A low-growing shrub, with erect branches covered with short, closely pressed leaves. The pretty, bell-shaped flowers occur in great profusion toward tops of the shoots and are a pretty rosy color. . .

C. vulgaris alba (White Heather). Always worn in button-holes for good luck. Is the white form of the common Scotch Heather

3.50 25.00

C. vulgaris Alporti. Late. Grows 24 inches high. Flowers rosy purple

3.50 25.00

C. vulgaris aurea (Golden-Leaved Heather). Same habit as *Vulgaris* except the foliage, which is of a beautiful golden tint

3.50 25.00

C. vulgaris nana compacta. Prostrate and compact in growth. Not over 7 or 8 inches. Dull, rich green or fine little evergreen plant for the rock garden; has pink flowers.

3.50 25.00

C. vulgaris Hanunondi. Midseason. Grows 18-24 inches high. Flowers white.

3.50 25.00

C. vulgaris minor. Midseason. Grows 15 inches high. Flowers white

3.50 25.00

C. vulgaris multiplex. A double-flowered form of the type. Midseason. Grows 12-15 in. high. Purple flowers.

3.50 25.00

C. vulgaris rubra. Early. Low spreading growth; 6-12 inches. Flowers rosy carmine.

3.50 25.00

ERICA. A charming hardy plant, companion to the Heathers. The Heaths flower in early spring.

E. carnea (Spring Heath). Early, bright rose

3.50 25.00

E. Darleyensis (Darley Heath). Early deep rose.

3.50 25.00

E. vagans (Cornish Heath). Pale lilac

Hybrid Tea Roses

SELECTED NO. XX GRADE

Under this heading we offer only the very best and most popular well tried varieties of Hybrid Tea Roses, with the majority of which every lover of the Rose is familiar. We recommend this collection for general planting to the amateur who wishes the finest varieties, and who is desirous of a supply of extra choice flowers to cut throughout the season. There is not one individual sort which we cannot endorse as possessing superior merit; all have been thoroughly tested.

Care and Culture of Roses. Lack of space prevents giving complete or worth while cultural information in this catalog. A fully illustrated booklet has therefore been prepared to cover this subject properly and will be sent to you upon receipt of twenty-five cents.

Doz. 100

Betty Uprichard. One of those delightfully contrastive types; the outside a blend of deep toned carmine with coppery orange; the interior being mostly a delicate salmon-pink

\$4.00 \$30.00

Briarcliff. Large, pointed buds, and double, high-centered blooms of brilliant rose-pink; fragrant and long lasting

4.00 30.00

Caroline Testout. One of the most popular and valuable bedding varieties, large, full globular flowers of bright satiny rose, with brighter center, very free and fragrant

\$4.00 \$30.00

Charles K. Douglas. Of vigorous, upright growth, and liberal, fragrant bloom which is of delightful form. Color a flaming scarlet flushed with velvety crimson

4.00 30.00

Chateau de Clos Vougeot. Glowing red blooms, deeply shaded black and scarlet; very double; intensely fragrant. Low, branching growth; fair foliage

4.00 30.00

Claudius Pernet. A most vigorous grower of erect branching habit, beautiful brilliant green foliage, long, pointed buds of exquisite shape, carried on long, stiff stems. Very large, full flowers with elongated deep petals; a beautifully formed bloom. Color most striking sunflower-yellow

4.00 30.00

Columbia. This beautiful Rose is of strong, vigorous habit and exceptionally free blooming. Color a most pleasing shade of rose-pink and delightfully fragrant ..

4.00 30.00

Cuba. Vivid orange-scarlet buds opening to immense cuplike flowers of iridescent copper-red and brilliant orange-vermilion. Extremely free-flowering and a vigorous, erect grower

4.00 30.00

Dame Edith Helen. Shapely buds and substantial, high-centered blooms of clear pink, sweetly scented and freely produced on long, strong stems. Vigorous. Most remarkable for the number and beautiful arrangement of its petals

4.00 30.00

Dr. Edward Deacon. Very large buds and blooms of deep salmon-orange, paling to shrimp-pink at the edges of the petals; very double and beautifully shaped. Plant is bushy and remarkably free flowering ..

4.00 30.00

Duchess of Wellington. Intense saffron-yellow, stained with deep crimson, changing to a deep coppery saffron-yellow as the flowers are fairly full, with large petals, great substance, delightfully fragrant ...

4.00 30.00

Edel. An enormous bold, stately, well built flower of great quality and finish. Color white with faintest ivory shading towards the base, passing to a pure white. A fine grower with uniform, stout habit

4.00 30.00

Eldorado. In this we have an exact counterpart of Miss Lolita Armour, in the large sized flowers of distinct formation, vigorous growth, and free flowering habit and fragrance, but in color it is of the golden yellow that is peculiar to the climbing Rose Marechal Niel, with the base of the petals slightly tinted red

4.00 30.00

Elizabeth of York. Pointed buds and medium size, semi-double flowers of bright cerise-pink, borne singly on long stems. A profuse, continuous bloomer. The flower is very beautiful when half open

5.00 40.00

Elvira Aramayo. Slender scarlet buds and semi-double flowers of reddish copper and unique cactus form. Slightly fragrant, and profusely produced

4.00 30.00

HYBRID TEA ROSES—Continued.

	Doz.	100
Etoile de Hollande. Brilliant red blooms of magnificent size, perfect in half-open state, showing clean, attractive centers when fully open; petals enormous; very fragrant. Free flowering	\$4.00	\$30.00
Feu Joseph Loomans. Long, pointed buds of brilliant orange-huff, and large, fairly full flowers of vivid yellow and bright apricot; fragrant and freely produced	4.00	30.00
Frank W. Dunlop. Very large buds and flowers of deep, brilliant rose-pink; very double and highly perfumed. Plant grows tall, with sparse foliage, and blooms freely	4.00	30.00
Golden Emblem. Beautifully formed long buds opening up into fine, fragrant, golden flowers. The color is rich, a yellow cadmium toning to sunflower yellow..	4.00	30.00
Gruss an Teplitz. This is a Rose for everybody, succeeding under the most ordinary conditions. In color it is of the richest scarlet, shading to a velvety crimson; very fragrant; a free, strong grower and in bloom all the time	4.00	30.00
Hadley. A rich crimson-red flower with velvety texture, lovely form, and perfume. Moderate in growth and bloom. Splendid color, superb in fall	4.00	30.00
Hortulanus Budde. Dark red buds opening to orange-scarlet flowers, yellow in center. The fragrant blooms are produced in great profusion on a vigorous plant..	4.00	30.00
Imperial Potentate. Dark, shining rose-pink, shaded lighter on reverse of petals; fragrant. Erect, branching plant with very good foliage. Blooms with remarkable freedom	4.00	30.00
Independence Day. Flaming yellow buds, heavily shaded with copper and brown, opening quickly to moderately large flowers of 15 to 20 petals which rapidly fade to light orange-pink	4.00	30.00
John Russell. Large, ovoid buds and immense crimson flowers of the old-time, globular type with the famous exhibition center. Plant exceptionally strong and vigorous	4.00	30.00
Jonkheer J. L. Mock. The flowers, which are produced with the greatest freedom on long, stiff stems, are of large size and of perfect form, of a deep imperial pink, the outside of the petals silvery rose-white ...	4.00	30.00
Kaiserin Augusta Victoria. Soft pearly white, tinted with just enough lemon in the center to relieve the white; remarkably fragrant, beautifully formed flowers on long, graceful stems; a strong, free, healthy grower	4.00	30.00
Killarney. Is one of the most popular of our garden Roses. In color it is a sparkling brilliant pink; the blooms are large, the buds long and pointed, the petals very large and of great substance	4.00	30.00
Killarney Queen. Another Killarney, closer to the original in color but fuller, and stronger in growth. Very free flowering. It is practically immune to mildew, with large flowers and thick petals	4.00	30.00
Killarney White. A duplicate of the charming pink Killarney; flowers white as snow	4.00	30.00
Lady Alice Stanley. A gem that everyone admires; it is absolutely perfect in every way; form, color, size, freedom of bloom and fragrance are fully developed; in color it is a beautiful shade of coral-rose, the inside of the petals shading to flesh-pink with deeper flushes	4.00	30.00
Lady Ashtown. A very free-flowering variety, producing fine blooms throughout the season. The flowers are large and of a delicate soft rose color, shading to yellow at the base	4.00	30.00
Lady Hillingdon. A beautiful coppery shade of apricot-yellow, beautiful in the bud; a strong, vigorous grower; free flowering	4.00	30.00
Lady Inchiquin. Orange-cerise flowers, large, full, and perfect in shape. A Rose of marvelous beauty and distinctiveness. Wherever exhibited abroad it has created a sensation	4.00	30.00

HYBRID TEA ROSES—Continued.

	Doz.	100
Lady Margaret Stewart. It is of perfect form, with a high-pointed center, golden yellow shaded and streaked with orange and red. Especially handsome foliage	\$5.00	\$40.00
Lady Ursula. Well shaped buds and blooms of good substance in varying shades of light pink merging to a yellow base; slightly fragrant. Plant of tremendous growth	4.00	30.00
Lord Charlemont. Deep crimson, well formed, high-centered and fragrant blooms. Moderately bushy plant. A new red Rose which has been very much talked about	5.00	40.00
Los Angeles. Very vigorous, and produces a continuous succession of long-stemmed flowers of a luminous flame-pink, toned with coral and shaded with translucent gold at the base of petals	4.00	30.00
Madame Butterfly. A symphony of white, bright pink, apricot and gold. Compared with Ophelia, this derivation is fuller-petaled, more prolific, and of greater color appeal. The buds are a rich Indian red, yellow at base	4.00	30.00
Margaret McGredy. Large, ovoid buds and double, cupped flowers of solid orange-vermilion. Very prolific. This extraordinary Rose has been widely discussed and tested in this country and found good ...	4.00	30.00
Miss Lolita Armour. The flowers are of great substance and delightfully fragrant. As the flowers expand they develop to a deep coral-red with a golden coppery red suffusion, the base of the petals a rich golden yellow with coppery red sheen. A strong, vigorous grower	4.00	30.00
Miss Rowena Thom. Enormous buds and blooms of fiery rose and mauve, shaded with old gold at the center, borne on long, strong stems. A profuse, continuous bloomer and a very vigorous plant ...	4.00	30.00
Mme. Edouard Herriot. The Daily Mail Rose. In color its buds are coral-red, shaded with yellow at the base; the open flowers of medium size, semi-double, of a superb coral-red, shaded with yellow and bright rosy scarlet passing to shrimp-red	4.00	30.00
Mme. Jules Bouche. While not a pure white, it is to all intents white and without question the best white everblooming bedding Rose yet introduced. The flowers are large, quite double and of splendid form. It is fragrant, a vigorous grower and very free flowering.	4.00	30.00
Mme. Leon Pain. Splendid salmon buds and pink blooms of great size, tinted heavily with silvery flesh and orange at the center. Plant is vigorous, free flowering, and almost immune to disease	4.00	30.00
Mrs. A. R. Barraclough. Very large, conical buds and enormous, pure pink flowers shaded with clear light yellow at base of petals. Beautifully formed and unusually fragrant	4.00	30.00
Mrs. Aaron Ward. A remarkably floriferous variety of strong, vigorous, but compact growth; the flowers, which are full double, are equally attractive when full blown as in the bud state; in color a distinct Indian yellow, shading lighter towards the edges	4.00	30.00
Mrs. Ambrose Ricardo. Full blooms of pale pink and light yellow, of firm, incurved form. One of the finest and very largest of all Roses. Its enormous blooms improve in color and texture and keep for days after being cut	4.00	30.00
Mrs. Arthur Robert Waddell. Beautiful, tapering buds of yellowish copper, opening to nearly single, cupped blooms of bronze-pink and apricot, with a delicate, delicious perfume	4.00	30.00
Mrs. Charles Bell. Lovely shell-pink buds and blooms of fine, globular form, with shadings of soft salmon; sweetly perfumed	4.00	30.00
Mrs. Erskine Pembroke Thom. Slender yellow buds and large, well shaped blooms of bright canary-yellow, deepest in center. Blooms very freely	4.00	30.00
Mrs. Franklin Dennison. White blooms of unusual substance, sometimes lightly shaded pink and deepening to yellow at base of petals. Produces an abundance of flowers for cutting	4.00	30.00

HYBRID TEA ROSES—Continued.

	Doz.	100
Mrs. Henry Bowles. Ovoid buds and globular flowers of clear, piercing pink with lighter shades. A fine, firm center, well held, and fragrant. Vigorous and free flowering	\$4.00	\$30.00
Mrs. Henry Morse. A bright flower of two contrasting tones of pink, with an underlying yellow glow; double, high centered, large, moderately fragrant ...	4.00	30.00
Mrs. Lovell Swisher. Large, beautifully pointed buds and gorgeous flowers of salmon-pink and gold, passing to flesh-pink at the edges. Very impressive	4.00	30.00
Mrs. Wakefield Christie-Miller. The flowers, which are of large size, remain perfect on the bushes for a long time, and are produced very freely; they are of a bright pink color with lighter shading	4.00	30.00
Mrs. William C. Egan. Deep flesh color, softly contrasted with a lighter shade of soft pink and a golden glow at the base of the petals. One of the splendid new pink Roses	4.00	30.00
Ophelia. A Rose that is admired by everyone; its flowers are held erect on long, stiff stems, are of perfect form, good size, and of a most pleasing, delicate tint of salmon-flesh shaded with rose; very floriferous.	4.00	30.00
Padre. Copper-scarlet, with bright yellow at base of petals. Flowers semi-double, with 15 to 20, often curiously notched petals. Blooms with exceptional freedom	4.00	30.00
Patience. Long, pointed, scarlet buds and large, double, high-centered flowers of scarlet-crimson, shaded with orange and orange-scarlet; profuse, continuous bloomer	4.00	30.00
Radiance. An ideal bedding Rose that continues to produce its large flowers throughout the most unfavorable hot weather when frequently many other varieties fail. A brilliant carmine-pink, with salmon-pink and yellow shadings at base of the petals	4.00	30.00
Red Radiance. A counterpart of Radiance from which it is a "sport," possessing all the good traits of that valuable variety but differing in color, which is a bright cerise-red	4.00	30.00
Rev. F. Page-Roberts. Copper-red buds of great length, opening to golden yellow blooms stained outside with red, fully double and very large; fragrant	5.00	40.00
Rose Marie. Fragrant, clear rose-pink flowers of large size, borne freely on plants of notable vigor. Quite distinct and worth having in any planting	4.00	30.00
Sensation. Enormous scarlet-crimson blooms of fine deep form; double, 30 to 35 petals of great size and substance; very sweetly scented. Plant is strong and active in sending up new blooming shoots. However, Etoile de Hollande is a great improvement over this fine Rose	4.00	30.00
Sir David Davis. Pointed buds and high-centered flowers of glowing crimson, fragrant and long lasting. Plant tall and free flowering	4.00	30.00
Souvenir de Claudius Pernet. (See Claudius Pernet, page 18).		
Souvenir de Georges Pernet. Brick-red buds, opening to orange-pink blooms of immense size, very double, and deliciously fragrant. An unusually beautiful Rose	4.00	30.00
Sun-God. Same robust habit of growth as Rev. F. Page-Roberts. Dark green, shiny, leathery foliage, disease resistant. Most profuse flowering, often 12 to 14 fragrant flowers in bloom at one time, completely covering the plant. Color a combination of shades almost impossible to describe. The major tones are salmon, old gold, shrimp-pink, some yellow, copper, and in autumn touched with fiery orange; all these shades are blended so as to form a lovely combination reminding one of a setting sun. Color never fades at any time or under any condition. This Rose is primarily a garden variety. One of many seedlings selected and bred for garden purposes. A limited number of plants are offered at \$1.00 each.		

HYBRID TEA ROSES—Continued.

	Doz.	100
Talisman. Brilliant red and gold buds, opening to well shaped blooms of scarlet-orange and rich yellow. Constantly in bloom; the most vivid color yet produced in Roses	\$5.00	\$40.00
Ville de Paris. Round buds of clear yellow and big, globular flowers of the same hue, untouched by any other color. This is one of the really distinct breaks in the new yellow Roses	5.00	40.00
Wilhelm Kordes. Long, pointed buds opening to full double flowers, a rich capucine red overlaying a golden ground; wonderfully prolific	4.00	30.00
William F. Dreer. A beautiful Rose. The flowers, similar in shape to Los Angeles, are at their best when half expanded. Color a soft, silvery shell-pink, base of petals rich golden yellow, which, at certain stages of development, gives a golden flower	4.00	30.00
Willowmere. Superb buds and blooms of richest pink, shining with a yellow glow which seems to come from the heart of the flower	4.00	30.00

Hybrid Perpetual Roses

The varieties listed below are unquestionably the best that can be selected in the Hybrid Perpetual class, which, before the development of the Hybrid Teas, was the most popular type for garden planting, and even now they dare not be overlooked, but should be used extensively in conjunction with the other sorts, and especially so in localities where the hardiness of the Hybrid Tea varieties has not been established. The collection here offered embraces as complete a range of colors as it is possible to bring together in such a number of plants, with freedom of flowering, perfect form, fragrance, hardiness and general excellence.

	Doz.	100
Frau Karl Druschki. This is the ideal hardy white Rose; pure in color, perfect in form, strong grower and remarkably free flowering; superb in every way	\$4.00	\$30.00
George Arends or Pink Frau Karl Druschki. This is a pink form of the popular white Frau Karl Druschki, possessing not only the exquisite form, large size, and remarkable free-flowering habits of its parent, but in addition to this, it is also highly perfumed ...	4.00	30.00
Mme. Alibert Barhier. Full, cupped flower of soft fawn-yellow, paling to white, with pinkish shades in the center, blooming throughout the season. A remarkable color for a Hybrid Perpetual, a class in which yellow tints are rare. This Rose has showed up unusually well in color, shape of flower, and its habit of constant blooming	4.00	30.00
Mrs. John Laing. Soft pink, of beautiful form; exceedingly fragrant and remarkably free flowering; always does well and stands very close to the top among fine Roses	4.00	30.00
Paul Neyron. Dark rose of enormous size; perhaps the largest of all	4.00	30.00
Ulrich Brunner. Brilliant scarlet-crimson; an old favorite and one of the best known Roses in cultivation; does well everywhere	4.00	30.00

Polyantha Roses

A type of Roses which is deservedly very popular for bedding purposes. They form shapely, compact, bushy specimens, most of them growing about 8 inches high, producing in great profusion, from early in the season, without stopping, until severe frost, trusses of small flowers. Pruning is not necessary; simply remove the past season's flower stems.

POLYANTHA ROSES—Continued.

	Doz.	100
Cecile Brunner. Small, exquisitely formed buds and flowers of light pink with yellow base in diffuse, graceful clusters. Perfectly formed miniature Roses of utmost grace and delicacy. Also called "Sweet-heart Rose" and "Mignon Rose"	\$4.00	\$30.00
Chatillon Rose. Bright pink semi-double blooms with an illuminating touch of orange. The color lasts well and is not unattractive when faded. The trusses are of gigantic size, and the plant is both healthy and hardy.	4.00	30.00
Eblouissant. Glowing, dark red flowers of medium size, shaded heavily with velvety crimson. Large, compact trusses, borne on dwarf but robust plants, which bloom constantly	4.00	30.00
Ellen Poulsen. Rather large, fairly full flowers of bright rose-pink, darker toward the edges and slightly fragrant	4.00	30.00
Golden Salmon. Bright orange-salmon flowers in huge clusters. Growth is vigorous and bushy. Splendid when planted in masses	4.00	30.00
Lafayette. Large, semi-double flowers of striking light crimson; open, frilled form. Blooms very liberally in loose clusters	4.00	30.00
Orleans. Flowers small, fairly double, and brilliant light red with a whitish center. Blooms without cessation in big, compact corymbs	4.00	30.00
Princess Juliana. A dainty, sweet combination of maidenblush and peach and ivory. The florets are prettily waved, and strung along the branched sprays.	4.00	30.00

New Climbing Roses

Mme. Gregoire Staechelin. The first climbing Rose to which a Gold Medal was awarded at the International Test Garden for Roses at Bagatelle, Paris, France, Mme. Gregoire Staechelin has inherited the best traits of both of its popular parents, Frau Karl Druschki and Chateau de Clos Vougeot. The plant is of strong climbing habit growing 12 feet or more high and has large disease resistant foliage. The main stems grow vigorously upright and all along these the following year, side branches, 12 to 14 inches long will develop with exquisite, full, very fragrant flowers. At the tips, the long pointed buds are crimson at first as the sepals divide, then the firm outer petals show splashes of carmine as the flower opens with an iridescent pearl pink inside. A truly wonderful distinct Rose and probably the pioneer of a new race. Strong, two-year-old plants, \$5.00 per doz.; \$40.00 per 100.

Chaplin's Pink Climber. Unquestionably the most important acquisition in climbing Roses since the introduction of Dr. W. Van Fleet and Paul's Scarlet Climber, universally recognized as the most popular climbing Roses, and to which Chaplin's Pink Climber will prove an equally valuable companion. This striking novelty originated in the same nursery in which Paul's Scarlet Climber was raised. It is a cross between Paul's Scarlet and American Pillar, and like its parents is of vigorous growth, perfectly hardy, producing its large flowers, similar in size and form to Paul's Scarlet, profusely in strong trusses of from 8 to 12 flowers each, but in color a rich lively pink. At the Spring Show of the National Rose Society of England in 1928, it was the outstanding feature among the new Roses and was awarded the Society's Gold Medal. Strong, two-year-old plants, \$5.00 per doz.; \$40.00 per 100.

Hardy Climbing and Rambler Roses

Climbing Roses require no pruning in the spring beyond the cutting out of very old or dead wood; and the shortening of the laterals and long canes to make the growth conform to the space to be covered; but a severe pruning in July, directly after they have finished flowering, is beneficial. Cutting away at that time all old flowering wood will encourage a vigorous growth, which will give an abundance of flowers the following season. We offer on this page a selection of twelve of the most modern Hardy Climbing and Rambler Roses.

American Pillar. A single-flowering variety of great beauty. The flowers are of large size, 3 to 4 inches across, of a lovely shade of pink, with a clear white eye and clusters of yellow stamens. These flowers are borne in immense bunches, and a large plant in full bloom is a sight not easily forgotten. \$4.00 per doz.; \$25.00 per 100.

Bess Lovett. Large, fairly full flowers of light crimson-red, cup-shaped, and borne in long-stemmed clusters suitable for cutting; sweetly fragrant. Plant very strong, exceedingly free flowering, with fine, glossy foliage almost immune to disease. Probably the best of the red climbers, with flowers of Hybrid Tea size. Better habits than Climbing American Beauty but totally unlike it in color and form. \$4.00 per doz.; \$25.00 per 100.

Climbing American Beauty. Its name is somewhat misleading, but it is one of the best climbing Roses. A strong, healthy, vigorous grower, frequently making shoots from 10 to 12 feet long, and good sized flowers for a climbing Rose that blooms so freely. Color a pleasing rose-pink; of splendid form, good substance. \$4.00 per doz.; \$25.00 per 100.

Dorothy Perkins. Soft shell-pink; flowering profusely in large clusters. Very fragrant and lasting. A grand Rose in every way. \$4.00 per doz.; \$25.00 per 100.

Dr. W. Van Fleet. A Rose, which on account of its dainty color and exquisitely shaped buds and flowers, appeals to everyone. The long, pointed buds are of a rich flesh-pink on stems 12 to 18 inches long. Splendid for cutting. \$4.00 per doz.; \$25.00 per 100.

Flower of Fairfield. Also called the "Everblooming Crimson Rambler." Combines the beauty of the well known Crimson Rambler with the continuous-blooming habit, the new growth bearing large clusters of crimson blooms through the summer continuously. Be sure to include this sort in your selection. \$4.00 per doz.; \$25.00 per 100.

Mary Wallace. Originated at the Maryland Station of the Department of Agriculture by the late lamented Dr. W. Van Fleet. The Department describes it as a Pillar Rose, making a fine strong, self-supporting plant 6 to 8 feet high, with large, glossy foliage, blooming with great freedom in spring and bearing a considerable number of fine buds in summer and fall. Flowers very large, generally exceeding 4 inches across; well formed, semi-double, of a bright, clear rose-pink with salmon base to the petals. \$4.00 per doz.; \$25.00 per 100.

Paul's Scarlet Climber. No other Rose, in any class, can compare with it for brilliancy of color, which is a vivid scarlet. Flowers are semi-double, very freely produced in clusters of from 3 to 20 flowers each on much branched canes. It is of strong, climbing habit and perfectly hardy. One of the most popular climbing Roses. \$4.00 per doz.; \$30.00 per 100.

Silver Moon. Different from all other Roses, with beautiful semi-double flowers, 4½ inches and over in diameter; pure white in color, petals of great substance, beautifully cupped, forming a Clematis-like flower. The large bunch of yellow stamens in the center adds to its attractiveness. \$4.00 per doz.; \$25.00 per 100.

Star of Persia. A brilliant new Rose with flowers on the order of the lovely old Harrison's Yellow; semi-double, bright yellow and about 3 inches across. It makes a striking low climber or pillar Rose from 8 to 10 feet high, bursting into showers of sparkling bloom in June. It does not fade and the flowers last several weeks. \$8.00 per doz.; \$60.00 per 100.

White Dorothy Perkins. A pure white climber, identical with Dorothy Perkins except the color. Without doubt the best white climber. \$4.00 per doz.; \$25.00 per 100.

All prices quoted on Roses are for dormant stock, XX No. 1 grade. Rose plants in pots, furnished late in the season, will be priced as follows:

Summer and Fall Flowering Bulbs for Spring Planting

Agapanthus

	Each	Doz.
Umbellatus (Blue Lily of the Nile). A most desirable plant for outdoor decoration; planted in large pots or tubs on the lawn or piazza. Pot-grown plants. 6-inch	\$1.00	\$8.00

Amaryllis

They should be grown in rich, sandy loam, with good drainage, and require abundant moisture when growing; but at their season of rest water should be given sparingly.

	Each	Doz.
Hippeastrum, Giant American Hybrid. The strain we offer is the finest that has ever been produced in this country; strong bulbs throwing vigorous stems with from four to six giant blooms of the most perfect form, ranging in color from white grounds with varied markings of rose, red and crimson, bright red, cherry, and almost maroon. We can supply in mixture only. Large, strong bulbs	\$0.50	\$5.00
Equestris (Barbados Lily). A garden variety with orange-scarlet flowers30	3.00
Formosissima (Sprekelia) (Jacohean Lily). Brilliant scarlet40	4.00
Johnsoni. Deep rich crimson with white stripe on each petal..	.40	4.00

Amorphophallus Rivieri - African Lily

The dark red Calla shaped flower precedes the leaves on this interesting plant. The stem is mottled green and white. The foliage which appears later stands on a stalk resembling an umbrella and makes a very ornamental plant. Large bulbs....

1.50

Begonias, Tuberous Rooted

This charming class of Begonias is perhaps the handsomest of all summer-flowering, tuberous-rooted plants, and deserves even greater popularity. Particularly useful for planting in a semi-shady position. Their culture is of the simplest, and with the least regard for their requirements they will repay with an abundance and brilliancy of bloom not equalled by any other class of plants. Superb for the shady city garden. Begonia bulbs will last for ten years if taken up each autumn.

	SINGLE	Doz.	100
Mixed Colors, Scarlet, Pink, White, Salmon, Yellow.....		\$1.75	\$12.00
	DOUBLE	2.00	15.00
Mixed Colors, Scarlet, Pink, White, Salmon, Yellow.....			

Caladium Esculentum - Elephant's Ear

Grand, tropical plant. A favorite for specimens on the lawn. Height 3 to 4 ft.

Mammoth bulbs, 9 to 11 in.	2.00	15.00
---------------------------------	------	-------

Fancy-Leaved Caladium

Beautiful, variegated-leaved plants adapted for pot culture or bedding if given sheltered positions. Bulbs planted in late May make pretty display borders or for edging taller plants.

Fancy-Leaved Mixed Varieties	Doz.	100
	\$2.00	\$15.00

Calla

Golden Yellow (Richardia Elliottiana). This is the best of the Yellow Callas; its flowers being as large as the popular white variety, but of a rich, lustrous, golden yellow, of velvety texture; the foliage is dark green, with translucent creamy white spots, which add much to its beauty. Strong bulbs ...

3.00 20.00

Cinnamon Vine

Dioscorea batatas. A rapid growing summer climber, with bright green, glossy foliage and spikes of cinnamon-scented white flowers.....

1.50 8.00

Colchicum - Meadow Saffron

(Hardy)

Autumn-flowering bulbs with large, crocus-like blossoms appearing in September and October. They are strongly recommended for planting in the rocky between Sedums or creeping plants, where their bold flowers are seen to the best advantage. Most beautiful of woodland flowers, equally at home in lawn or rock garden, where they keep up a succession of flowers from September till November; i. e., at a season when outdoor flowers are scarce.

	Each	12	100
		Bulbs	Bulbs
*Autumnale. Commonly called the Autumn Crocus; very free-flowering; of easy culture	\$0.40	\$3.65	\$30.00
*Autumnale album. Pure white, increasing fast, making good clumps; free flowering45	4.25	35.00
*Bornmulleri. Fine cup-shaped, long-tubed flowers of rosy lilac coloring. One of the finest species; early flowering50	4.85	40.00
*Speciosus. Deep rose-purple; very large, stout and fine45	4.25	35.00

Crinum

Summer flowering bulbs, closely allied to Amaryllis. They can be used as a pot plant or planted in the garden for the summer and taken up in the fall.

	Each	Doz.
Fimbriatum. Pure white with lavender-pink stripes through center of petals	\$0.75	\$ 7.50
Kirki. Flowers pure white, striped with purple. Flower spikes 2 ft. high.....	1.00	10.00
Powell Pink. Peach-blossom-pink	1.00	10.00

Crocus

AUTUMN AND SPRING FLOWERING SPECIES

Besides the Dutch Crocuses there are certain species that bloom very much earlier in the year, often before the snow has gone. The flowers of these wild sorts are smaller than those of the Dutch kinds, but they are as vigorous and free as the others. Given a sunny position in the rock garden, or a sheltered position in grass where the sun may encourage them freely, they will surprise you by their hardy appearance in the face of cold and storms.

Crocus Imperati often flowers in late February, and is closely followed by Crocus Sieberi, a fuller, purer mauve sort; it has as a companion the deep rich yellow Crocus Susianus, which is even more attractive in the bud stage with its dark, rich brown flowers on the exterior of the segments. Once planted they will take care of themselves for many years. Then comes Crocus Tommasinianus, an exquisite vase-like form, in color varying from a pale mauve to quite a rich purple. This variation is one of its great attractions. These all increase as freely as do the Dutch varieties.

SPRING-FLOWERING SPECIES

For Rock Garden or Hardy Border

	100	1000
	Bulbs	Bulbs
*Biflorus (Scotch Crocus). White with lilac stripes	\$6.00	\$50.00
*Imperati. Fine shade of mauve; exterior of the three outside segments a rich fawn	6.00	50.00
*Sieberi. A gem; lavender flowers with bright orange stigmata. 3.50	3.50	32.50
*Susianus. Most attractive, deep, rich yellow with dark, rich brown flames on exterior of segments	3.00	27.00
*Tommasinianus. Flower varies from a pale mauve to a rich purple	2.50	20.00
*Versicolor. Strong grower; flowers are white, striped purple..	3.50	30.00

AUTUMN-FLOWERING SPECIES (October-Flowering)

For Rock Garden or Hardy Border

*Korolkowi. A lovely yellow species	5.50	50.00
*Pulchellus. Lavender-blue with white anthers and orange spotted throat; a lovely species found growing in the healthy thickets bordering the Bosphorus	22.50	
*Sativus (The Saffron Crocus). Large flowers, purplish lilac, feathered violet, with showy orange stigmata, slightly scented. Flower freely when established	2.75	25.00

AUTUMN-FLOWERING SPECIES—Continued.

	100	1000
	Bulbs	Bulbs
*Speciosus. Bright violet-blue, prettily veined, having orange-red anthers, and light yellow throat, large, handsome and showy; one of the best for naturalizing in grass and massing in borders or in rock work	\$2.50	\$20.00
*Speciosus Artabir. A beautiful variety with large, pale blue flowers with dark veinings	8.00	72.00
*Zonatus. Rose-lilac, yellow center and orange zone; ethereal in lovely coloring	2.50	22.00

Gladioli

Gladioli are too well known to need further introduction. The varieties offered in our list are considered by experts to be representative kinds.

	Doz.	100
Anna Eberius. Deep purple, shading into very deep bordeaux center. Large blooms	\$0.45	\$2.75
Evelyn Kirtland. A fine shade of rosy pink, darker at the edges, fading to a shell-pink at the center, with brilliant, small scarlet blotches on the lower petals.....	.45	2.75
Golden Dream. A golden dream come true. As deeply, richly golden as Souvenir, but much larger. Flowers slightly smaller than Golden Measure but taller and later; many open flowers at one time.....	.50	3.00
Giant Nymph. La France pink; with creamy yellow throat. Without question one of the very best recent introductions..	.50	3.00
Los Angeles. Clear shrimp-pink with orange throat. An excellent cut flower.....	.45	2.75
Mrs. Frank Pendleton. A lovely salmon-pink, with brilliant, deep red blotches in the throat. A color combination rivaling many of the finest orchids in its richness.....	.45	2.75
Mrs. Leon Douglas. Beautiful salmon-rose flowers, striped scarlet. A wonderful sort with tall, showy spikes, blooms often five to six inches in diameter and one of the most popular sorts grown.....	.45	2.75
Rose Ash. Corinthian red shading into ashes-of-roses on the outer edges. Lower petals light yellow speckled with ruby ..	.45	2.75
W. H. Phipps. Dominating flowers of immense size in long, massive spikes, all out at once. A captivating shade of La France pink warmed with salmon-rose, lighter at center; lower petals faintly clouded with ruby dots.....	.50	3.00

Primulinus Gladiolus - Butterfly Gladiolus

They are quite distinct from the usual Gladioli, being of more slender growth, the orchid-like flowers set airily on the slender, yet strong spikes; the range of colors is brilliant and beautiful, and planted in fair sized groups in the garden make a very showy display, but it is as cut flowers that their grace and wonderful colorings show to best advantage.

	Doz.	100
Alice Tiplady. Rich orange-saffron	\$0.50	\$3.00
Maiden's Blush. Delicate shell-pink.....	.50	3.00
Myra. Rich salmon on yellow ground.....	.50	3.00
Orange Queen. Apricot-orange and a color that does not exist in any other variety. Very popular.....	.50	3.00
Souvenir. Pure golden yellow.....	.50	3.00

Mixed Gladiolus

Large-Flowered Exhibition Mixture of fine, large-flowered varieties, containing beautiful forms and shades that will harmonize well. \$22.50 per 1000.....

	Doz.	100
Primulinus Exhibition Mixture of finest improved Primulinus, containing the most beautiful forms and all pastel shadings that will harmonize well together. \$22.50 per 100045	2.75
Gloxinia		
Handsome summer-flowering, tuberous-rooted plants adapted for pot culture. One bulb should be used for a 4-inch pot, using properly mixed soil and care being taken in watering.	Doz.	100
Choice Mixed Colors.....	\$3.50	\$25.00

SUMMER AND FALL FLOWERING BULBS FOR SPRING PLANTING—Continued

Gloriosa - Climbing Lily

	Each	Doz.
Superba Rothschildiana. A splendid tropical climber, easy to grow in a warm conservatory or window or sheltered place in the garden. Grows 6 to 10 feet high, producing its gorgeous Lily-like flowers, which open a bright yellow, changing to a deep scarlet, in bloom through the summer and autumn months. A magnificent and unusual plant. Strong tubers ...	\$0.40	\$4.00

Hyacinthus Candicans - Cape Hyacinth

	100	1000
A white summer-flowering Hyacinth, growing 3 to 5 feet in height, gracefully surmounted with from 20 to 30 pure white, bell-shaped flowers. Culture same as for Gladioli	\$6.00	\$50.00

Lilium -Lilies

	Doz.	100
Auratum (Gold-Banded Japan Lily). Undoubtedly one of the finest. Its large, graceful, fragrant flowers are composed of 6 petals of a delicate ivory-white color, thickly studded with chocolate-crimson spots and striped through the center a golden yellow; 3 to 5 feet. July to September.		
Large bulbs	\$4.00	\$30.00
Mammoth bulbs	5.00	40.00
Auratum platyphyllum . Also called "Macranthum." This is a robust growing form; the stem is stouter and attains a greater height; the leaves are much broader; enormous flowers, white, richly spotted yellow. Undoubtedly the choicest of all.		
Large bulbs	4.00	30.00
Mammoth bulbs	5.00	40.00
Auratum pictum . Is another splendid form of Auratum and fortunately a stronger grower	5.00	40.00
Batemanniae . Strong stems with 5 to 10 flowers of a reddish orange color. July-August. 3 to 4 feet	3.50	25.00
Browni odorum . A vigorous grower with large, trumpet-shaped flowers of clear white, veined outside with purplish maroon.	5.50	45.00
SF Canadense . Our dainty, beautiful native Lily. Graceful and charming flowers.	1.75	12.00
SF Canadense flavum . Yellow-flowered form of the above.....	2.00	15.00
F Candidum (Madonna or Annunciation Lily). This is the old-fashioned garden Lily, and one of the most beautiful.		
Large selected size bulbs	2.00	15.00
Mammoth bulbs	2.50	18.00
SF Carolinianum . A showy Lily with slender stems, bearing reflexed, orange-red flowers, spotted maroon. Requires a well drained situation. July and August. 2 to 3 feet.....	3.50	25.00
Colchicum (Szovitzianum). A beautiful lemon-yellow Lily, produced in pyramidal clusters of drooping, waxlike flowers. June. 4 to 5 feet.....	7.00	60.00
Crocium (True). The Irish Orange Lily. South Europe. Flowers very showy, bright orange, with minute dark brown spots. June flowering. When well grown and established it attains a height of 5 feet or more, with a large quantity of flowers on each stem. This Lily is now getting scarce	4.00	30.00
Elegans (Mixed varieties), (Japan). Very hardy, dwarf Lilies thriving in any garden and producing large, erect flowers of various shades of yellow, orange and red. All varieties grow from 1½ to 2 feet; bloom in June and July. Mixed	2.50	18.00
Elegans, Alice Wilson . A very rare and beautiful Lily with clear lemon-colored flowers. Height 2 feet.....	4.00	30.00
Elegans atrosanguineum . Flowers of a rich dark coppery crimson with purple-black spots at base of petals. Very attractive. Height 1 foot.....	3.50	25.00
Elegans, Orange Queen . Very handsome, producing in July, large orange-colored flowers with small, black spots; a strong robust grower; very decorative in pots or borders. 15 to 18 inches.....	3.50	25.00

LILIES—Continued.

	Doz.	100
Giganteum (Himalaicum). The most majestic of Lilies, having stems 10 to 12 feet high when established, with large, handsome, heart-shaped leaves, and from July to August bearing immense, long, white, trumpet-shaped, sweet scented flowers. Groups of this noble Lily in woodland or wild gardens produce a grand effect. It requires to become established before flowering freely and thrives best where there is an abundance of leaf soil. Plant very shallow...Each, \$4.00..		
SF Grayi . A native Lily with deep red flowers. One of the finest for planting in shady places. Small, rich red flowers, spotted maroon. July. 3 to 4 feet	\$2.00	\$15.00
Hansonii . Plant among shrubs and low plants to protect young shoots, this being one of the earliest Lilies to appear in the spring. The stem reaches a height of 4 to 5 feet, carrying blossoms 2 inches across, regularly reflexed, the petals being of a bright orange spotted more or less with brown, of a waxy texture. June-flowering	5.00	40.00
SF Henryi . A new Japanese Lily that has made a sensation in Europe. It has the same form and appearance as the speciosum varieties but the flowers are bright orange-yellow. They are as hardy as a tree. Easily grown and permanent.....	5.00	40.00
SF Humboldtii (California). Large, handsome flowers of great substance, rich, golden yellow, spotted dark crimson, with recurved petals; very showy. Height 5 feet. July flowering. This Lily requires to be established before blooming freely and then produces as many as 20 to 30 flowers on a stem ..	5.50	45.00
Krameri . Unique for its color and grows from 2 to 4 feet high. The funnel-shaped, finely formed flowers are 6 inches or more in length and as much across, of a beautiful clear pink color, often shaded blush.....	4.00	30.00
Leichtlinii . A fine Lily from Western China somewhat resembling a Tiger Lily, with graceful foliage and producing in late summer spikes of deep orange-red spotted flowers. Height 4 feet. Of easy cultivation	4.00	30.00
SF* Martagon album . One of the most beautiful Lilies, producing in July handsome pyramidal spikes of very beautiful, pure white flowers, with reflexing petals of waxlike substance. Height 4 feet	6.00	50.00
SF* Martagon (Dalmaticum; Turk's Cap Lily). A handsome Lily, bearing clusters of purple, waxlike flowers. Thrives best in partial shade. June. 5 feet.....	3.50	25.00
SF Pardalinum (Leopard Lily). Flowers reflexed, bright yellow at base, spotted brownish purple, remainder orange-scarlet. 3 to 4 feet	2.50	18.00
SF Philadelphicum . A handsome native Lily with yellow, cup-shaped flowers, spotted maroon and shaded orange at ends of petals. Good for naturalizing. July. 3 feet.....	2.00	15.00
Philippinense formosanum (Formosa). A very graceful Lily, growing 2 to 3 feet high with grassy foliage and slender stem; flowers very long and trumpet-shaped, white with reddish brown shading on exterior, tips of petals elegantly recurving.	3.50	25.00
SF Regale or myriophyllum (The Regal Lily). It is absolutely hardy, and is excellent for forcing, and being so hardy, may be grown anywhere. The flowers are white, slightly suffused with pink, with a beautiful shade of canary-yellow at the center, and extending part way up the trumpet. It is delightfully perfumed.		
Flowering bulbs, 4 to 5 inches.....	—	5.00
Flowering bulbs, 5 to 6 inches.....	—	6.00
Medium bulbs, 6 to 7 inches.....	1.50	9.00
Large bulbs, 7 to 8 inches.....	2.00	15.00
Selected bulbs, 8 to 9 inches.....	3.50	25.00
*Rubellum . Beautiful small Lily. The color varies from a deep rose-pink to almost white, with yellow anthers; very fragrant, small funnel-shaped flowers; grows 1½ feet high. It does best in light soil	4.00	30.00
Speciosum album . The Speciosum or Lancifolium are the most important of all the Japanese Lilies, always satisfactory. The variety here offered has large, white flowers of great substance, with a greenish band running through the center of each petal.		
Large bulbs.....	4.00	30.00

LILIES—Continued.

	Doz.	100
Speciosum magnificum . Magnificent large flowers of a rich rosy red.		
Large bulbs	\$3.50	\$25.00
Mammoth bulbs	5.00	40.00
SF Superbum . 3 to 4 feet. July. Flowers bright, reddish orange, conspicuously spotted; easily grown and permanent... ..	1.50	10.00
F*Tenuifolium . A small, slender growing Lily not more than 18 inches high, with bright scarlet flowers and recurved petals. One of the prettiest little Lilies in cultivation. Early June. 12 to 18 inches.....	2.00	15.00
SF Testaceum (Excelsum or Nankeen Lily). This is one of the finest of all Lilies. The color is difficult to describe, being a shading of dull apricot with orange-yellow anthers. A most graceful Lily and a good companion to L. candidum. June-July. 5 feet. Easily grown and permanent	25.00	195.00
SF Tigrinum Fortunei giganteum (The Tiger Lily). Very hardy, vigorous growers. A grand, robust variety of Fortunei, having a woolly stem and producing on bold branching heads up to twenty large, rich orange-scarlet flowers spotted crimson-brown. Height 5 feet	2.50	18.00
SF Tigrinum flore pleno (The Double Tiger Lily). The only double Tiger Lily worth growing.....	2.50	18.00
SF Umbellatum grandiflorum (Europe). A very showy Lily of easy culture, bearing in June, large, handsome, rich orange flowers shaded red; very effective when grouped in shrubbery and flower borders; also good pot plants.....	2.50	18.00
Umbellatum, Golden Fleece . A very fine variety, producing large, open flowers of a clear apricot, slightly speckled maroon-crimson; a good, strong grower. Height 20 inches.....	15.00	110.00
Umbellatum, Monarch . Producing branching tiers of up to 20 or more flowers of a brilliant orange-scarlet shaded vermilion, faintly spotted; of robust growth	10.00	75.00
SF Wallacei . A handsome Lily of a beautiful shade of the warmest apricot with rosy shading. August. 1½ to 2 feet	4.00	30.00
SF Washingtonianum . A beautiful Lily from California, with large, reflexed flowers, varying in color from light to a rich wine color, slightly spotted deeper. This variety requires a moist but well drained situation. June-July. 3 to 5 feet ...	5.00	40.00

Montbretia - Tritonia

Crocsmæflora . Pure yellow, reverse of petals orange; large flowers50	3.00
Geo. Davison . Pale orange-yellow, tinted deeper orange externally75	5.00
Hereward . Pale orange-yellow, resembling the variety George Davison, but nearly one month later. The flowers have the shape of Martagon Lilies.....	.75	5.00
King Edmund . A robust grower with large, open flowers, rich yellow, carmine-blotched center.....	.75	5.00
Lady Hamilton . Yellow suffused with a richer color until it becomes apricot. Flowers are more trumpet-shaped than other varieties and peculiarly graceful.....	.95	6.00
Lord Nelson . A handsome dark-stemmed variety, flowers of great substance, of a rich, deep orange, outside of vermilion.95	6.00
Prometheus . Award of Merit. A magnificent flower 3 inches in diameter; deepest orange with showy crimson ring around eye; most distinct.....	2.25	16.00
Queen Adelaide . Award of Merit. Deep orange, shading to red almost as deep as Germania; very vigorous, large flowers 2 to 3 inches in diameter.....	1.50	10.00
Star of the East . Pale orange-yellow, with lemon-yellow eye, expanding quite flat and held erect. Flowers larger than any other variety; size, vigor, color and habit, magnificent and unequalled	3.00	20.00
Rheingold . A beautiful, clear golden yellow; large spikes and very vigorous grower.....	.75	5.00

SUMMER AND FALL FLOWERING BULBS FOR SPRING PLANTING—Continued

Ismene Calathina Grandiflora

One of the best of our Summer-flowering bulbs. Clusters of large, fragrant, pearly white flowers, resembling the Amaryllis family.

	Doz.	100
Large Bulbs	\$1.25	\$8.00

Nerine

Fothergilli major. The finest of all the Nerines, producing large red flowers with a golden glitter as if sprinkled with gold dust. Adapted for pots and greenhouses. Well ripened bulbs for delivery end of May and June..... 1.50 15.00

Tigridia - Shell Flower of Mexico

Few flowers are more gorgeously colored or so beautiful. Plant in sunny position in a flower border in well drained soil. Same treatment as for Gladioli. Can also be used in beds. Blooms from middle of July to September.

	Doz.	100
Mixed	\$1.25	\$8.00

Tuberose

Double Pearl. One of the most delightfully fragrant and beautiful of the summer flowering bulbs. For flowering in the open, plant about the middle of May, or as soon as the ground becomes warm. Largest bulbs..... .80 6.00

Vallota Purpurea - Scarborough Lily

An evergreen bulbous plant of easy culture. It is one of the most ornamental of the Amaryllis family. It makes a fine pot plant and will grow continually throughout the year, flowering usually in August or September.

	Each	Doz
Large Bulbs	\$0.75	\$7.50

Zephyranthes - Zephyr Flower or Fairy Lilies

Beautiful dwarf, bulbous plant, very effective for massing in the border, flowering with great profusion during the summer. The are also suitable for pot culture and rock garden.

	Doz.	100
Alba. Pure white	\$0.40	\$3.00
Rosea. Large, rose-colored.....	1.25	8.00

Waterlilies - Nymphaea

The culture of Waterlilies is so simple that it might almost be said that "they just grow themselves." Their modest requirements are sun, water and rich soil. In deciding on a place for a natural water garden, one is naturally led to select a low spot. A stream of water running through this or near it can easily be dammed or diverted so as to form a pond. The digging up and grading of the ground to be flooded is the first consideration. Of course, it is not possible for everyone to have such a location, but almost everybody can have built or can themselves construct an artificial pool. In this event, any location that is available would be satisfactory, provided it is exposed to the full sun. Rather than have no water garden at all, the interested party can grow many of the varieties in tubs or half-barrels sunk in the ground.

Soil. In preparing a piece of ground about to be flooded, it is well to dig into the soil a generous amount of thoroughly rotted manure, with the addition of a small amount of bone meal. An excellent soil for use in tubs or artificial pools is made by mixing three parts of rotted sod, compost, or good top soil with one part of cow manure or good barnyard manure. All manure used must be thoroughly decomposed, to prevent fermentation when covered with water. Ground bone or bone meal may be used if necessary, at the rate of one quart to one bushel of soil.

Size of Pool. The larger the water surface the better the results. A tub or half-barrel 2 feet in diameter will furnish a miniature pool. An artificial pool should be made as large as possible, and 2 feet deep. Where clay is very abundant, it is quite possible to line an excavation with this in such a manner as to have it water-tight. Make an artificial pool as natural as possible and avoid stern lines and too apparent masonry. A generous planting of moisture-loving plants around the edge of the pool or pond will furnish an added charm to the plants in the pool itself.

WATERLILIES—Continued.

Water. One foot of water over the soil is the most desirable depth in artificial pools. Some will thrive in shallower water, but few will stand a depth exceeding two feet. A continuous flow of water tends to keep the temperature in the pool low and must be avoided. After the pool is once filled it is only necessary to replenish that which evaporates.

Hardy Varieties

- Gloriosa.** This can well be called the most satisfactory Waterlily. It is the earliest to bloom and continues to flower until late summer, producing more blossoms than any other sort. In the spring the flower is a bright carmine which becomes darker as the season lengthens. The blooms are perfect in form and 4 to 6 inches across. This variety is one of the finest for cutting and has so much to recommend it that we do not hesitate to say that it should be the first Nymphaea for any pool.....\$2.00
- James Brydon.** Rich rosy crimson, reverse of petals having a silvery sheen 2.50
- Marliacea alba.** A vigorous variety, flowers large, of sparkling whiteness; stamens light yellow, sepals flushed pink; fragrant and produced freely and continuously through the season. Desirable and handsome75
- Marliacea chromatella.** Medium sized flowers usually 4 to 6 inches across. Color of the bloom is bright yellow, with stamens somewhat deeper in color. The leaves are green, mottled with brown..... 1.00
- Odorata.** The American Waterlily of the northeastern United States. Flowers white. Splendidly adapted to quantity planting in natural pools30
- Paul Hariot.** The blooms are quite large, of lasting quality, and are borne in abundance all season. The petals are clear yellow the first day, orange-pink the second day, and this deepens almost to a red on the following days. Flowers of different ages present an appearance quite unique and decidedly attractive..... 1.25
- Pink Opal.** A new variety. The color is a deep pink. The buds are almost round, opening into a flower with comparatively short petals, but because of its substance it has a distinct value for cutting..... 1.00
- Rose Arey.** A wonderful variety of the Odorata type; very free flowering, and strong growing. The flowers are very large and are sweetly scented. The color is clear cerise-pink and does not lighten toward the center of the flower..... 1.25
- Rose Magnolia.** The blooms are borne well out of the water, which makes them desirable for cutting. They are usually 4 to 5 inches across and of a delightful shade of pink. Strong, vigorous grower... 1.00
- Sioux.** Large flowers of rich, brassy yellow, shaded red as the flower grows older 1.25
- Tuberosa Richardsoni.** Flowers white and quite double. No variety in our Water Garden is admired more than this immense snowball-like flower. 8 inches in diameter75
- Tuberosa rosea.** Flowers an exquisite shade of pink. A vigorous grower, of the easiest culture..... .75
- Tuberosa sulphurea.** A strong, rampant grower with large sulphur-yellow, sweet-scented flowers..... .75

Tropical Waterlilies

BLUE, LAVENDER, PURPLE, RED, WHITE, AND PINK.

Tropical Water-Lilies, or Nymphaeas, have many desirable qualities. Although they are set out late in the season, usually June, they make such remarkable growth that within several weeks blossoms appear, and continue increasing in size and numbers until heavy frosts destroy the foliage.

NIGHT-BLOOMING TROPICALS

The Night-blooming or, more accurately, night-opening Nymphaeas, are derived from very ancient parentage. To the Egyptians, they were known as the Lotus, and from the records remaining to us we may trace the important part they played in the life and religion of this mystic race. Opening at dusk, these flowers are the guardians of the night, not closing again until the sun is high in the heavens; and if the sky be overcast, the vigil continues through the whole day, perhaps, and the following night until the wayward sun returns, or the bloom's allotted span of life (five days) has passed.

NIGHT-BLOOMING TROPICALS—Continued.

- Dentata.** Flowers pure white, with golden yellow stamens. They are large and open out flat Each \$0.75
- Devoniensis.** Bright rosy red. Several flowers, from 8 to 10 inches in diameter, are produced at one time, and carried on stems well above the foliage75
- Frank Trelease.** Dark crimson, with deep reddish brown stems. Flowers are from 8 to 10 inches in diameter..... 1.25
- Rubra rosea.** Brilliant rosy carmine, with reddish brown stamens..... 1.25
- Sturtevant.** Bright pink, flushed with red. A valuable variety for large pools and ponds..... 1.75

DAY-BLOOMING TROPICALS

- August Koch.** Viviparous blue with lilac-purple shading..... 1.75
- Dauben.** The best known viviparous Lily. Produces small blue flowers in great profusion. The small leaf-plants frequently bloom while still attached to parent plant. Fine for tub or aquarium culture. A continuous bloomer..... .75
- General Pershing.** One of the finest novelties of recent years. Very large, fragrant flowers of pure, warm pink, unlike any other Day-blooming Waterlily. Very free-flowering and one of the most highly prized 3.50
- Mrs. C. W. Ward.** Petals rich rose-pink, illuminated by a mass of golden stamens. Flowers are borne well out of the water..... 1.50
- Mrs. Edwards Whitaker.** The largest and most striking of the day-blooming tropical Lilies. Its blooms are frequently over a foot in diameter and are produced in quantity. The color is lavender-blue, which becomes paler as the bloom ages. Petals slightly rounded at the tips and quite numerous..... 2.00
- Mrs. George H. Pring.** A new and novel type that produces numbers of large, fragrant, white flowers with pointed petals..... 2.00
- Panama-Pacific.** Flowers deep royal purple, with yellow stamens. The buds are green-bronze flaked with red-brown, and the petals edged with red. Like the other viviparous Lilies, it blooms freely and perpetually in the proper environment. One of the best conservatory types 2.00
- Pennsylvania.** Deep blue flowers a foot across and produced freely; sepals marked with purple lines and dots. The leaves are slightly speckled with brown above; beneath, the ground-color is red-purple at the edge, shading to pale green centers. Desirable in a small pool or tub..... 2.00
- William Stone.** Rich violet-blue, shaded amaranth..... 1.75
- Zanzibariensis azurea.** Lovely, clear azure-blue flowers, freely produced. 1.25
- Zanzibariensis rosea.** General characteristics of this plant are the same as the above, with the exception of the colors, which are in various shades of rose. Opens earlier in the morning than other sorts..... 1.25

Nelumbiums - Lotus

- Album grandiflorum (Magnolia Lotus).** Pure white flower with delicate fragrance. Extra-large foliage.....\$1.50
- Luteum.** This variety, native to some of the states in the South and West, is commonly known as the Water Chinquapin or American Lotus. Flowers rich yellow..... 1.50
- Pekinensis rubrum plenum.** The full double flowers are bright rosy carmine and carried well above the foliage..... 3.50
- Speciosum.** The Sacred Lotus of the Nile. It grows well under almost all conditions. Both flowers and leaves stand well above the water. The rosy pink blooms are always large and fragrant..... 1.50

Culture. Same as for Water-lilies.
For the center of pools, the varieties of Lotus are especially desirable as they contrast well with the lower-growing Waterlilies. If space is limited, they may be used as specimens in a large tub. They are not common, and therefore are always interesting.
