Park Rules and Regulations

Pursuant to authority conferred by section 2475, revised statutes, United States, and the act of congress approved May 7, 1894, the following regulations governing the admission of automobiles into the Yellowstone National park are hereby established and made public:

1.—Automobiles. The park is open only to such automobiles as are operated for pleasure and not to those carrying passengers who are paying, either directly or indirectly, for the use of the machine.

2.—Motorcycles. Motorcycles are not permitted to enter the park.

3.—Tickets of passage. Tickets of passage must be secured and paid for at the checking station where the automobile enters the park. This ticket must be conveniently kept, so that it can be exhibited to park guards on demand, and must be surrendered at the last checking station on leaving the park. Tickets of passage will show (a) name of owner, (b) license number of automobile, (c) name of state issuing license, (d) make of machine and manufacturer's number, (e) name of driver, (f) seating capacity of machine and (g) number of passengers.

4.—Fees. Fees are payable in cash only, and will be as follows for each trip through the park: For runabouts on single-seated cars, \$5.00; for five-passenger cars, \$7.50; for seven-passenger cars, \$10.00.

5.—Muffler cut-outs. Muffler cutouts must be closed while approaching or passing riding horses, horse-drawn vehicles, hotels, camps or soldier stations.

6.—Distance apart—Gears and brakes. Automobiles while in motion must not be less than 100 yards apart, except for purpose of passing, which is only permissible on comparatively level or slight grades. All automobiles, except while shifting gears, must retain their gears constantly enmeshed. Persons desiring to enter the park in an automobile will be required to satisfy the guard issuing the ticket of passage that the machine in general, and particularly the brakes and tires, are in first-class working order and capable of making the trip, and that there is sufficient gasoline in the tank to reach the next place where it may be obtained, and carry two extra tires. For this purpose, all drivers will be required effectually to block and skid the rear wheel with either foot or hand brake, or such other brakes as may be a part of the equipment of the automobile. Gasoline can be purchased at regular supply stations as per posted notices.

7.—Speeds. Speeds must be limited to twelve miles per hour ascending and ten miles per hour descending steep grades, and to eight miles per hour when approaching sharp curves. On good roads with straight stretches, and when no team is nearer than 200 yards, the speed may be increased to twenty miles per hour. Horns must be sounded at all curves where the road cannot be seen for at least 200 yards ahead, and when approaching teams or riding animals.

8.—Teams. When teams, saddle horses or pack trains approach, automobiles will take the outer edge of the roadway, regardless of the direction in which they may be going, taking care that sufficient room is left on the inside for the passage of vehicles and animals. Teams have the right of way, and automobiles will be backed or otherwise handled as may be necessary so as to enable teams to pass with safety. In no case must automobiles pass animals on the road at a greater speed than eight miles per hour.

9.—Fines. Fines or other penalties will be imposed for arrival of automobiles at any point before approved lapse of time, hereinafter given, at the following rates: Fifty cents per minute for each of first five minutes; \$1 per minute for each of the next twenty minutes; \$25 fine or ejection from the park, or both, in the discretion of the acting superin-

tendent of the park, for being more than twenty-five minutes early.

All cars must run on schedules. These schedules are posted at all stopping places and are arranged to not interfere with the regular passenger travel in horse-drawn vehicles. At different points of interest through the park, as well as hotels, sufficient stops are allowed to give the tourist all the time needed to see the sights or get something to eat. Cars, however, have to stop at these regular stopping places until their regular leaving time, whether they wish to continue or not.

SALT LAKE TO YELLOWSTONE PARK.

In round numbers the distance from Salt Lake City to Yellowstone Park is 350 miles. At the present time the roads all the way might be classed as good. In a few places new road work has left them rough and dusty, but most of the distance the roads are in good shape.

From Salt Lake City to Ogden the road leads along the Wasatch, giving a fine view of the Mountains and Great Salt Lake. From Ogden the road goes to Brigham City.

From Brigham City there is a choice of two routes. One goes west to Garland and north to Malad and over to Downey and Pocatello. The other goes up Wellsville canyon to Cache Valley, through Logan to Preston, Idaho, through Dayton to Downey and on to Pocatello.

The older and most traveled road is by way of Garland and Malad, and is about six miles shorter than the Cache Valley route. Cache Valley offers a little more in the way of natural attractions, the road going through one of the finest agricultural sections of the west. The roads through Cache Valley are excellent, the poorest piece of road on this route is the five miles between Preston and Dayton. In these roads there is no great choice, both have good hotel accommodations and garages in the various towns along the line, and good time may be made over either road.

From Pocatello the road follows the railroad to St. Anthony. The towns of Blackfoot, Shelley, Rigby, Idaho Falls, Rexburg, St. Anthony, and Ashton are passed. Excellent hotel and garage accommodations are found in nearly all the towns. Idaho Falls is the largest town, and has excellent facilities for taking care of tourists.

A new road north from Ashton has been recently constructed by the Ashton Commercial Club, and this road now gives two routes to the Park. The old road left St. Anthony and went to Ora, leaving Ashton about six miles to the north. This new road is now in very fine shape and tourists need have no hesitation in going via Ashton. The logs give both routes, but the road via Ashton is without doubt the best for the return trip, as it is down grade over an excellent roadway for about 20 miles coming into Ashton.

The trip to the Yellowstone is one of the finest Auto trips in the west, and has the advantage of good roads and excellent garage and hotel accommodations. The trip from Salt Lake to the Park can be made in two days, three days' time make it a very pleasant and easy run.

SALT LAKE TO OGDEN AND REVERSE.

(36.5 Miles)

DESCRIPTION—This is a state road and barring extreme weather conditions is generally in excellent shape. No heavy grade. Pass through a number of pleasant, well-kept towns. Skirts the Wasatch Mountains and affords a splendid view of Great Salt Lake and Antelope Island

00.0—HOTEL UTAH: With Temple square on right, go west on South Temple street to 0.4 and turn right, follow pavement to 1.7. Warm Springs on right. St. Mark's hospital on left. Follow state road to

AMERICAN PLAN

GARAGE IN CONNECTION

ST. ANTHONY TO YELLOWSTONE VIA ASHTON.

(76.8 Miles)

This is over the new road to the Yellowstone and is a good first-class road from Ashton to the junction with the old Yellowstone road. This road has recently been built, is well graded and in excellent shape. It has some fairly steep grade, but nothing that the average car will not easily pull. On the return trip from the Park, the road via Ashton is by far the better way, as the last 17 miles to Ashton is over considerable down grade and a well kept roadway.

0.0—ST. ANTHONY: Leave St. Anthony Machine Co. garage on right, turn left, go one block and cross diagonal across lots to main pole line, follow poles; 0.6 turn left with poles; 0.9 cross bridge; 2.4 turn right with poles; 3.7 turn right to bridge; 3.8 cross Snake River; follow poles; 4.5 turn left with poles; 4.8 Snake River on left; 6.6 Chester, small settlement; 6.8 turn left, with poles, passing school house on left; 8.2 cross open ditch; 8.4 cross Fall River; 8.6 keep right; 10.2 leave poles on left, keep right over new road; 10.6 turn left, pass small ranch house on left; 11.4 turn with poles (road straight ahead goes to Park via Ora), pass church and school house on left; 13.4 turn left; 15.3 turn left; 16.4 follow poles to

17.4—ASHTON: Humes and Swanstrum garage. Ashton is the last town on road to Park and all necessary supplies and oil should be obtained. Leaving garage, go west to 17.8 turn right, church on left; 18.5 straight ahead, side road to right; 19.0 straight ahead; 19.5 straight ahead; 20.4 cross new bridge over Snake River; 20.5 turn right; 20.9 keep left, enter Canyon and follow pole line; 25.7 summit; 26.2 keep left; 27.0 fine spring water 100 yards to left;

32.5—MAIN FORKS: 35.5 pass Utaida Gun Club; 37.2 cross Snake River; 46.6 cross Buffalo River; 48.3 Uden's Ranch; 48.8 keep right; 51.5 keep left,

52.6—MACK'S: 52.7 cross Snake River bridge, turn left up grade; 55.5 keep right; 57.0 keep right; 58.6 keep right; 58.8 dugway; 58.9 cross bridge, keep left with 1 wire pole line; 61.0 Henry's Lake may be seen to left; 62.5 keep right, pass ranch on left; 62.6 keep right; 68.1 pass ranch; 68.6 turn left; 68.8 turn right up hill; 69.5 pass ranch; 69.7 school house on right; 70.5 keep main road; 71.0 keep left; 71.6 cross South Fork of Madison River; 71.9 keep right; 73.9 forks, keep left and follow to

76.8—YELLOWSTONE, MONTANA: Madison Hotel and garage.

YELLOWSTONE, MONT., TO ASHTON AND ST, ANTHONY, IDAHO.

(76.8 Miles)

This is the preferable route coming down from the Park. The last 20 miles to Ashton is a new, fine, well-kept road, and better time can be made than via Ora.

0.0—YELLOWSTONE: 0.1 turn right; 2.6 keep right; 4.0 keep right 4.6 keep right; 4.7 keep left; 5.2 cross South Fork of Madison; 8.0 turn right; 12.5 forks, keep left; 14.4 Henry's Lake may be seen on right; 14.7 pass ranch, keep left; 15.0 keep left with poles; 15.4 forks, keep left; 17.7 forks, keep right; 20.5 cross small bridge and keep left; 22.2 forks, keep right; 22.3 forks, keep right, follow poles; 24.1 steep dugway to river; 24.2 cross Snake River;

24.2—MACK'S RESORT: 27.2 forks, keep right; 27.9 forks, keep left with poles; 28.5 Uden Ranch; 30.3 keep left and cross Buffalo River and keep right; 31.0 forks, keep left; 32.9 Snake River on right; 34.1 forks, keep right; 34.8 Ripley's Ranch; 37.6 keep right to pole line; 38.8 cross Snake River; 38.9 keep right with poles; 39.1 keep left with poles; 41.5 Utaida Rod and Gun Club on left.

44.4—MAIN FORKS: Road sign here. Keep left to Ashton, and follow main road; 50.7 fine spring water 100 yards to right; 51.4 sum-
