DIENER'S CLOSING OUT SALE

Bulbs † Plants † Seeds
AT SLASHING PRICE CUTS

*This Advance Bulletin
to Diener's Customers Only*

The Richard Diener Co., has decided to liquidate its business—to close out its immense stock of bulbs, seeds and plants at ruthless price cuts.

In making plans to liquidate and in putting on this closing out sale, one of our chief considerations was that those to benefit first by the price reductions should be our own customers.

And that is the purpose of this circular.

The sale as advertised here will not be open to the general public for one month after this mailing.

You, who already know the beauty and value of Diener's specialties, have first choice in making your selections at prices one-third less than you have paid before.

Moreover, this sale is a clean sweep. Not even the rarest bulbs or plants will be withheld, including all our growing stock. This is the time to gratify your pet indulgences in Diener Gladiolus and petunia originations and other rare plants.

Naturally, in a sale of this kind, which is held but once and which quotes such sweeping price concessions, there will be a rush on many popular numbers. Therefore, in order that there will be no doubt of your order being filled exactly, without the necessity of a second choice, we suggest an early selection. An order blank is enclosed to facilitate the listing of your purchase. Be assured that we will give it our prompt and most exact care, as always.

RICHARD DIENER COMPANY, INC.
KENTFIELD, MARIN COUNTY, CALIFORNIA

Liquidation Sale Features Slashing Everything Reduced!

33 1/3% Price Slash on All Gladiolus Bulbs

Everything from our most popular bulbs to our rarest bulbs, and even our growing stock, are listed in these columns. This is the chance of a lifetime to plant your garden or stock your nursery with beautiful gladiolus and not count the cost! This is the last sale of Richard Diener specialties and originations grown and propagated by the Diener Co.
