[Docket No. 8862]

PART 12—AMATEUR RADIO SERVICE

USE OF FREQUENCY BAND 220-225

In the matter of service-allocation of frequencies between 25,000 kilocycles and 30,000,000 kilocycles, and proposed amendment of Part 12 of the Commission's rules governing Amateur Radio Service to provide for use of frequency band 220-225 Mc by amateurs.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 28th day of April 1948:

The Commission having under consideration a proposal to make the frequency band 220-225 Mc available to the amateur service in all areas except where the use of that band by amateurs would cause interference to the operation of the British or Canadian radar distance indicator system and in such excepted areas to continue on a temporary basis the availability for the amateur service of the frequency band 235-240 Mc;

It appearing, that general notice of proposed rule making with respect to the abovementioned proposal was duly published and that all interested parties were afforded an opportunity to present written comments pursuant to the provisions of section 4 of the Administrative Procedure Act; and

It further appearing, that the period provided for the submission of comments has ended and no comments have been received by the Commission; and

It further appearing, that when the frequency band 220-225 Mc was allocated to the amateur service, the use of that band by amateurs was at the same time prohibited until January 1, 1949 in order to prevent interference with the British or Canadian radar distance indicator system, and in lieu thereof the frequency band 235-240 Mc was allocated and made

available on an interim basis to the amateur service; and

It further appearing, that incidental to subsequent arrangements between the United States and the United Kingdom, the existing restriction on the use by amateurs of the band 220-225 Mc may be lifted and immediate operation on that band permitted in all areas except at and within interference range of certain United States gateways and Canadian border locations where, until January 1, 1952, the British or Canadian radar distance indicator system may be operated, and that until January 1, 1952 in these excepted areas the band 235-240 Mc will be allocated and available on an interim basis; and

It further appearing, that the aforesaid changes in existing arrangements regarding the two bands 220-225 Mc and 235-240 Mc may be accomplished in an orderly manner by immediately permitting the use by amateurs of the band 220-225 Mc and at the same time continuing for not less than 30 days after this order is published in the FEDERAL REGISTER the permission for all amateurs to use the interim band 235-240 Mc, after which date such permission to use the band 235-240 Mc will cease except in those excepted areas where, as hereinabove explained, the band 220-225 Mc may not be used; and

It further appearing, that the aforesaid changes may be accomplished by the replacement of Note K of the Commission's Public Notice dated September 17, 1946 in the matter of the service-allocation of frequencies between 25,000 kilocycles and 30,000,000 kilocycles, and the amendment of Part 12, Rules Governing Amateur Radio Service, in the manner set forth below; and

It further appearing, that it would be desirable to make certain editorial changes in Part 12, Rules Governing Amateur Radio Service, which are not substantive and do not in any way affect the requirements of any of the Commission's rules and regulations; and that such changes consist of improvements in the language of the rules and of the incorporation into the rules of the provisions currently governing the allocation of frequencies to the amateur service and the availability of frequencies and types of emission for use in that service; and

It further appearing, that because of the minor nature of the proposed editorial changes and the benefits to be derived by the immediate effectuation thereof, compliance with the requirements of section 4 of the Administrative Procedure Act is unnecessary as to those changes, and they should be made effective immediately; and

It further appearing, that because the replacement of Note K and the amendment of Part 12 of the rules and regulations as hereinbefore described with respect to the bands 220-225 Mc and 235-240 Mc will relieve existing restrictions and will be of immediate benefit to all concerned, compliance with the 30-day publication period of section 4 (c) of the Administrative Procedure Act is not required and this order should be made effective immediately as to these matters:

It is ordered. That, effective immediately, Note K, hereinabove referred to, is replaced by Note K-1 as set forth below.

It is further ordered. That, effective immediately, Part 12, Rules Governing Amateur Radio Service, is amended as set forth below.

It is further ordered. That effective immediately, Commission Orders 130 through 130-P, inclusive, are cancelled.

[SEAL] FEDERAL COMMUNICATIONS,
COMMISSION,
T. J. SLOWIE,
Secretary.

1. Note K of Public Notice dated September 17, 1946 in the matter of service allocation of frequencies between 25,000 kc and 30,000,000 kc is replaced by Note K-1 as follows:

NOTE K-1: The United States will permit interim use of the band 220-231 Mc for the British radar distance indicator system at specific U. S. gateways of International Air Routes. The interim use at these locations will terminate not later than January 1, 1952. Until January 1, 1952, the frequency band 235-240 Mc will be available for allocation to the amateur service in those areas where interference is caused to the operation of the British or Canadian radar distance indicator system by amateur operation in the band 220-225 Mc.

2. Amendments to Part 12 of the Commission's rules governing Amateur Radio Service are as follows:

a. Footnote "3" keyed to the subtitle "Allocation of Frequencies" which immediately precedes § 12.111 is amended to read as follows:

The assignment and use of all frequencies below 25 megacycles contained in these regulations are subject to change in accordance with the Commission's final report of allocations below 25 megacycles, in Docket Proceeding No. 6651.

b. Section 12.111 is amended to read as follows:

§ 12.111 *Frequencies and types of emission for use of amateur stations.*

(a) Subject to the limitations and restrictions set forth herein and in § 12.114, the following frequency bands and types of emissions are allocated and available for amateur station operation as follows:

(1) 1750 to 2050 kc. Not available for use.

(2) 3500 to 4000 kc. Use of this band is restricted to amateur radio stations as follows:

(i) 3500 to 4000 kc, using type A1 emission, to those stations located within the continental limits of the United States, the Territories of Alaska and Hawaii, Puerto Rico, the Virgin Islands and all United States possessions lying west of the Territory of Hawaii to 170° west longitude.

(ii) 3850 to 4000 kc, using type A3 emission, to those stations located within the continental limits of the United States, the Territories of Alaska and Hawaii, Puerto Rico, the Virgin Islands and all United States possessions lying

west of the Territory of Hawaii to 170° west longitude, subject to the further restriction that type A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an amateur operator holding Class A privileges.

(3) 7000 to 7300 kc, using type A1 emission.

(4) 14000 to 14400 kc, using type A1 emission, and, on frequencies 14200 to 14300 kc, type A3 emission, subject to the restriction that type A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an amateur operator holding Class A privileges.

(5) 27.160 to 27.430 Mc, using types A0, A1, A2, A3, and A4 emission and also special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques), subject to such interference as may result from the emissions of industrial, scientific and medical devices within 160 kc of the frequencies 27.120 and 27.320 Mc.

(6) 28.0 to 29.7 Mc, using type A1 emission, and on frequencies 28.5 to 29.7 Mc, using type A3 emission, and on frequencies 29.0 to 29.7 Mc, using special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(7) 50.0 to 54.0 Mc, using types A1, A2, A3, and A4 emission and, on frequencies 52.5 to 54.0 Mc, special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(8) 144 to 148 Mc, using types A0, A1, A2, A3 and A4 emission and special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(9) 220-230 Mc, using types A0, A1, A2, A3, and A4 emission and special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques), provided that until January 1, 1952, if this band is required for distance measuring equipment at certain United States gateways and Canadian border locations, amateurs within interference range of those gateways and locations shall, after publication by the Commission of an order designating the areas involved, cease to use this band, but shall be entitled in lieu thereof to use the band 235-240 Mc.

(10) 235 to 240 Mc, using types A0, A1, A2, A3, and A4 emission and special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques) until January 1, 1952, *Provided*, That commencing with June 9, 1948, this band may be used only as a substitute for the band 220-225 Mc in those cases in which the band 220-225 Mc may not be used, as provided in subparagraph (9), of this paragraph.

(11) 420-450 Mc, using types A θ , A1, A2, A3, A4, and A5 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques). § 12.114 *Types of emission.* (a) Type A θ emission, where not specifically designated in the bands listed in § 12.111, may be used for short periods of time when required for authorized remote control purposes or for experi-

mental purposes. However, these limitations do not apply where type A θ emission is specifically designated.

(b) Narrow band frequency or phase modulation may be used, in addition to the types of emission specifically designated in § 12.111, by certain amateur stations for radiotelephone communication until further order of the Commission, but in no event beyond August 1, 1948 as follows:

(c) The authorization provided by paragraph (b), of this section, is subject to the conditions that the band-width of the modulated carrier shall not exceed the band-width occupied by an amplitude-modulated carrier of the same audio characteristics, and that the purity and stability of such emissions shall be maintained in accordance with the requirements of § 12.133 of the Commission's rules governing Amateur Radio Service.

e. Sections 12.115, 12.116 and 12.117 are deleted.

§ 29.22 (d)-7 Involuntary liquidation and replacement.

The statutory provisions affording recognition to the involuntary character of inventory decreases which become apparent in war years and authorizing for tax purposes a replacement of the items of merchandise so liquidated are limited in their application to liquidations occurring in taxable years beginning prior to January 1, 1948, and to inventory replacements effected in taxable years ending prior to January 1, 1951.

PAR. 12. Section 29.23 (m)-3, as amended by Treasury Decision 5413, approved October 31, 1944, is further amended as follows:

(A) By substituting for the heading and the first sentence of the first paragraph the following:

§ 29.23 (m)-3 Computation of depletion of mines (other than metal, coal, bauxite, fluorspar, flake graphite, vermiculite, beryl, feldspar, mica, talc (including pyrophyllite), lepidolite, spodumene, barite, ball, sagger, and china clay, phosphate rock, rock asphalt mines, or trona, bentonite, gilsonite, thenardite, potash, or sulphur mines or deposits) on basis of discovery value. The basis on which depletion is to be computed in the case of mines, except those specified in the next succeeding sentence, discovered by the taxpayer after February 28, 1913, is the fair market value of the property at the date of discovery or within 30 days thereafter, if such mines were not acquired as the result of purchase of a proven tract or lease, and if the fair market value of the property is materially disproportionate to cost. Such basis may not be used in the case of the following: metal, coal, fluorspar, ball and sagger clay, rock asphalt, or sulphur mines with respect to taxable years beginning after December 31, 1941; flake graphite mines with respect to taxable years beginning after December 31, 1942; vermiculite, beryl, feldspar, mica, talc (not including pyrophyllite), lepidolite, spodumene or barite mines, or potash mines or deposits including potash salts in solution with respect to taxable years beginning after December 31, 1943; or bauxite, pyrophyllite, china clay, phosphate rock, trona, bentonite, gilsonite, thenardite (from brines or mixtures of brine) mines or deposits for taxable years beginning after December 31, 1946.

(B) By striking out the fourth paragraph thereof.

PAR. 13. Section 29.23 (m)-5, as amended by Treasury Decision 5413, is further amended as follows:

(A) By revising the heading and the first sentence of the first paragraph to read as follows:

§ 29.23 (m)-5 Computation of depletion based on percentage of income in case of coal mines, metal mines, bauxites mines, fluorspar mines, flake graphite mines, vermiculite mines, beryl mines, feldspar mines, mica mines, talc (including pyrophyllite) mines, lepidolite mines, spodumene mines, barite mines, ball, sagger, and china clay mines, phosphate rock mines, rock asphalt mines, trona,

bentonite, gilsonite, thenardite, and potash and sulphur mines or deposits. Under section 114 (b) (4) (A) a taxpayer may deduct for depletion an amount equal to 5 percent of the gross income from the property during any taxable year in the case of coal mines; an amount equal to 15 percent of the gross income from the property during any taxable year in the case of metal, fluorspar, ball and sagger clay, or rock asphalt mines, and during any taxable year beginning after December 31, 1942, in the case of flake graphite mines, and during any taxable year beginning after December 31, 1943, in the case of vermiculite, beryl, feldspar, mica, talc (not including pyrophyllite), lepidolite, spodumene, or barite mines, or potash mines or deposits including potash salts in solution, and during any taxable year beginning after December 31, 1946, in the case of bauxite, pyrophyllite, china clay, or phosphate rock mines, or trona, bentonite, gilsonite, thenardite (from brines or mixtures of brine) mines or deposits; and an amount equal to 23 percent of the gross income from the property during any taxable year in the case of sulphur mines or deposits; but such deduction shall not in any case exceed 50 percent of the net income of the taxpayer (computed without allowance for depletion) from the property.

(B) By striking out the last paragraph thereof.

PAR. 14. Section 29.23 (m)-10 (d), as amended by Treasury Decision 5413, is further amended as follows:

(A) By revising the second sentence thereof to read as follows: "A depletion deduction in respect of any bonus or advanced royalty from the property in the amount of 15 percent of such bonus or royalty may be taken by the owner of an economic interest in fluorspar, ball and sagger clay, or rock asphalt mines with respect to any taxable year, may be taken by the owner of an economic interest in a flake graphite mine with respect to taxable years beginning after December 31, 1942, may be taken by the owner of an economic interest in vermiculite, beryl, feldspar, mica, talc (not including pyrophyllite), lepidolite, spodumene, and barite mines, and potash mines or deposits including potash salts in solution with respect to taxable years beginning after December 31, 1943, and may be taken by the owner of an economic interest in bauxite, pyrophyllite, china clay, or phosphate rock mines, or trona, bentonite, gilsonite, or thenardite (from brines or mixtures of brine) mines or deposits with respect to taxable years beginning after December 31, 1946; but such depletion deduction shall not in any case exceed 50 percent of the net income of the taxpayer (computed without allowance for depletion) from the property."

(B) By striking out the last two sentences thereof.

Approved August 5, 1947.

SEC. 9. ABATEMENT OF TAX FOR MEMBERS OF THE ARMED FORCES UPON DEATH (Public Law 384, 80th Congress, approved August 8, 1947).

(c) That amount of tax for taxable years preceding those specified in paragraphs (a) and (b) of this section under chapter 1, or corresponding provisions of prior revenue laws, which remains unpaid as at the date of death shall not be assessed, and if any such unpaid tax (including interest, additions to the tax, and additional amounts) has been assessed, such assessment shall be abated and if the amount of any such unpaid tax is collected subsequent to the date of death, the amount so collected shall be credited or refunded as an overpayment.

(B) By revising the final clause of the second sentence thereof to read as follows: "but with respect to taxable years during which such individual was at no time a member of the military or naval forces of the United States or any of the other United Nations and with respect to taxable years ending before December 7, 1941, the amount so abated, credited, or refunded shall not exceed the amount unpaid at the date of death."

PAR. 27. There is inserted immediately preceding § 405.101 the following:

SEC. 10. Collection of Income Tax at Source on Wages (Public Law 384, 80th Congress, approved August 8, 1947).

(a) Section 1621 (a) of the Internal Revenue Code is hereby amended by striking out paragraph (1), by striking out the sentence following paragraph (9), and by amending paragraph (8) to read as follows:

(8) (A) for services for an employer (other than the United States or any agency thereof) performed by a citizen of the United States, if it is reasonable to believe that during the entire calendar year the employee will be a bona fide resident of a foreign country or countries, or

(B) for services for an employer performed within a possession of the United States by a citizen of the United States, if it is reasonable to believe that at least 80 per centum of the remuneration to be paid to the employee by such employer during the calendar year will be for such services, or.

(b) The amendments made by this section shall be applicable with respect to wages paid on or after January 1, 1948, except that the amendment striking out paragraph (1) of section 1621 (a) of the Internal Revenue

Code shall be applicable with respect to wages paid on or after January 1, 1949.

PAR. 28. Section 405.102, as amended by Treasury Decision 5522, approved June 14, 1946, is amended as follows:

(A) The heading and first sentence of paragraph (b) thereof are revised to read as follows:

(b) *Compensation of military and naval forces paid before January 1, 1949.* Remuneration paid before January 1, 1949, for services performed as a member of the military or naval forces of the United States is excepted from the definition of the term "wages," but remuneration paid on or after January 1, 1949, for such services constitutes wages subject to withholding.

(B) By revising the heading and first sentence of paragraph (h) thereof to read as follows:

(h) *Remuneration for services performed outside the United States—(1) Remuneration paid before January 1, 1948.* The remuneration paid before January 1, 1948, by an employer for services performed outside the United States does not constitute wages and hence is not subject to withholding if the major part of the services performed by the employee for such employer during the calendar year is to be performed outside the United States.

(C) By inserting at the end of paragraph (h) thereof the following:

(2) *Remuneration paid on or after January 1, 1948.* Remuneration paid on or after January 1, 1948, by an employer (other than the United States or any agency thereof) for services performed outside the United States by a citizen of the United States, is not subject to withholding if it is reasonable to believe that during the entire calendar year the employee will be a bona fide resident of a foreign country or countries.

The reasonable belief with respect to an employee's bona fide residence in a foreign country mentioned in section 1621 (a) (8) may be based on evidence reasonably sufficient to induce such belief even though such evidence might be insufficient, upon closer examination by the Commissioner or the courts, finally to establish such bona fide residence in a foreign country so as to justify the exemption from tax provided for in section 116 (a).

Unless the employer has reasonable belief that the employee will not be a bona fide resident of a foreign country or countries withholding will not be required in any case where such employee, who is a citizen of the United States, claims to be a resident of a foreign country and files with the employer, for transmission to the Collector with the return on Form W-1 required for the first quarter by § 405.601, an affidavit stating with respect to the calendar year involved:

(i) That he was living on January 1st of the current calendar year in a foreign country (name the country) and expects to live in such foreign country or in some other foreign country (name the country) during the entire calendar year;

(ii) That the purpose or business requiring his presence in the foreign country or countries is such that an extended stay or a stay of indefinite duration will be necessary for its accomplishment;

(iii) That he understands that any exemption from withholding of tax permitted by reason of the filing of such affidavit is not a determination by the Commissioner of Internal Revenue that he is exempt from tax under section 116 (a), Internal Revenue Code;

(iv) All the facts with respect to such foreign service, including:

(a) Name and address (in the United States) of affiant and the collection district in which his last income tax return was filed;

(b) Specification of the places in the foreign countries involved where the services in question will be rendered;

(c) Nature of the services to be rendered during the calendar year and compensation to be paid therefor;

(d) Terms of the agreement with the employer with respect to such foreign services, particularly whether or not such services are to be rendered for any specified period of time;

(e) Marital status of affiant; if married, whether his immediate family will live with him in the foreign country during the period of his foreign service.

In the case of an employee who has been deemed under section 1621 (a) (8) (a) to be a bona fide resident of a foreign country or countries for two consecutive calendar years immediately preceding the current calendar year and who is residing in such foreign country or countries on the first day of January of the current calendar year, the employer may, in the absence at that time of clear and definite knowledge to the contrary, presume that such employee will continue to be a bona fide resident of such foreign country or countries for the current calendar year and the liability of the employer to withhold tax on the compensation paid for services performed outside the United States shall be determined in the light of such presumption.

Remuneration paid on or after January 1, 1948, for services for an employer performed within a possession of the United States by a citizen of the United States is not subject to withholding, if it is reasonable to believe that at least 80 percent of the remuneration to be paid by such employer to the employee during the calendar year will be for such services.

The term "United States" includes the several States, the Territories of Alaska and Hawaii, and the District of Columbia.

MEAT INSPECTION

NOTICE OF PROPOSED AMENDMENTS

The Meat Inspection Division of the United States Department of Agriculture

has been informed that the Ministry of Health in the United Kingdom is considering revising the Public Health (Imported Food) Regulations, 1937, of the United Kingdom, to make acceptable for importation into England and Wales sheep and lamb carcasses from which lymphatic glands have been removed and to make mandatory, as a part of the regular post-mortem inspection, the incision of the prescapular, superficial-inguinal, supra-mammary and precrucial lymphatic glands of sheep, not lamb) carcasses for importation into England and Wales.

It is believed that it will be advisable to amend the United States meat inspection regulations on exportation of mutton and lamb from the United States to England and Wales to conform with the proposed revision of the regulations of the United Kingdom if the latter is adopted.

Therefore, notice is hereby given in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. Supp. 1003) that, should the Public Health (Imported Food) Regulations, 1937, of the United Kingdom be revised as proposed, the Secretary of Agriculture will amend § 24.4 (c) of the regulations (9 CFR, 1945 Supp., 24.4 (c)) relating to Federal meat inspection under the Meat Inspection Act as amended (21 U. S. C. and Supp. 71-91 and 97-97d) as follows:

1. Section 24.4 (c) (3) will be amended to read as follows:

(3) The lymphatic glands and/or serous membranes are required to be in close anatomical relationship to fresh meat cuts imported into England and Wales, except in the case of mutton and lamb.

2. Section 24.4 (c) (4) will be amended by adding at the end thereof the following note:

NOTE: The foregoing recommendations of the Association of Port Sanitary Authorities of the British Isles as to the inclusion of lymphatic glands in cuts of imported meat appear not to be applicable to mutton and lamb for importation into England or Wales in view of a recent amendment of the Public Health (Imported Food) Regulations, 1937, issued by the Ministry of Health in the United Kingdom, which permits the importation into England and Wales of mutton and lamb from which the lymphatic glands have been removed, and requires the incision of certain lymphatic glands of sheep (not lamb) carcasses for importation into England and Wales. See § 24.4 (c) (5) (iii) and 24.4 (c) (7).

3. Section 24.4 (c) (5) (iii) will be amended to indicate that England, Wales, Scotland and Northern Ireland prohibit the importation of meat from which a lymphatic gland, except a gland necessarily removed in preparing the meat, has been taken out: *Provided*, That mutton or lamb from which lymphatic glands have been removed are not prohibited importation into England or Wales.

4. A new subparagraph will be added to § 24.4 (c) reading as follows:

(7) England and Wales prohibit the importation of sheep (not lamb) carcasses the post-mortem examination of which did not include incision of the prescapular, superficial-inguinal, supra-mammary and precrucial lymphatic glands.

Any person who wishes to submit written data or arguments concerning the proposed amendments may do so by filing them with the Chief of the Meat Inspection Division, Bureau of Animal Industry, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., within fifteen days after the date of publication of this notice in the FEDERAL REGISTER.

Witness my hand and the seal of the United States Department of Agriculture.

Done at Washington, D. C., this 3d day of May 1948.

Acting Secretary of Agriculture.

2. The purpose of the proposed amendments is as follows: (a) To make available the lower frequency amateur bands, in addition to those presently available above 25 megacycles, for the mobile operation of amateur stations within the continental limits of the United States, its territories and possessions; (b) To clarify the requirements of notice concerning intended portable or mobile operation; (c) To remove from availability for amateur portable or mobile operation, outside the continental limits of the United States, its territories and possessions, first, those amateur bands above 25 megacycles which are not allocated exclusively to the amateur service on a world wide basis in the Atlantic City Radio Regulations, and, second, those amateur bands above 1215 Mc which are allocated exclusively to the amateur service, but which in view of the complexities involved, do not appear at the present time to warrant inclusion in the rules providing for such operation; (d) To continue the availability of the 28.0-29.7 Mc band for all amateur portable or mobile operation; and (e) To designate special provisions for the operation of amateur stations aboard ships or aircraft.

3. The proposed amendments, authority for which is contained in sections 303 (b), (c), (f), (g) and (r) of the Communications Act of 1934, as amended, are set forth below.

4. Any interested party who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth, may file with the Commission, on or before May 20, 1948, a written statement or brief setting forth his comments. The Commission will consider any such comments that are received before taking any final action regarding the proposed amendments, and if any comments are received which appear to warrant the holding of an oral argument before final action is

taken, notice of the time and place of such oral argument will be given.

Adopted: April 28, 1948.

Released: April 29, 1948.

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] T. J. SLOWIE,
Secretary.

The following are the proposed amendments to Part 12 of the rules governing amateur radio service.

1. Section 12.91 is amended to read as follows:

§ 12.91 *Requirements for portable and mobile operation.* (a) Within the continental limits of the United States, its territories, or possessions, an amateur station may be operated as either a portable or a mobile station on any frequency authorized and available for the amateur service. Whenever portable or mobile operation is, or is likely to be, for a period in excess of 48 hours away from the fixed transmitter location designated in the station license, the licensee shall give prior written notice to the Engineer in Charge of the radio inspection district in which the portable or mobile operation is intended. If the intended operation is portable, and if the over-all period during which such operation will be carried on is, or is likely to be, in excess of 48 hours, the foregoing requirement of prior written notice shall apply notwithstanding the fact that the station is, or is likely to be, operated during any part of this over-all period at the fixed transmitter location. This notice shall state the station call, the name of the licensee, the date or dates of proposed operation and the contemplated portable station locations, or mobile station itinerary, as specifically as possible. An amateur station operated under the provisions of this section shall not be operated during any period exceeding 1 month away from the fixed station location designated in the station license without giving additional notice to the Engineer in Charge of the radio inspection district in which the station is intended to be further operated, nor for more than four consecutive periods of 1 month each as

portable at the same location or as mobile under the same trip itinerary.

(b) Outside the continental limits of the United States, its territories and possessions, an amateur station may be operated as portable or mobile only in the amateur band 28.0 to 29.7 Mc. Within areas under the jurisdiction of a foreign government, operation is also limited to this band and then only with the permission of that government. Whenever such portable or mobile operation is, or is likely to be, for a period in excess of 48 hours away from the continental limits of the United States, its territories, and possessions, the licensee shall give prior written notice to the Engineer in Charge of the radio inspection district in which the fixed transmitter site designated in the station license is located. Only one such notice shall be required during any continued absence from the continental limits of the United States, its territories, and possessions.

2. Section 12.92 is deleted.

3. A new § 12.94 is added to read as follows:

§ 12.94 *Special provisions for mobile stations aboard ships or aircraft.* In addition to complying with all other applicable rules, an amateur mobile station operated on board a ship or aircraft must comply with all of the following special conditions: (a) The installation and operation of the amateur mobile station shall be approved by the master of the ship or captain of the aircraft; (b) The amateur mobile station shall be separate from and independent of all other radio equipment, if any, installed on board the same ship or aircraft; (c) The electrical installation of the amateur mobile station shall be in accord with the rules applicable to ships or aircraft as promulgated by the appropriate government agency; (d) The operation of the amateur mobile station shall not interfere with the efficient operation of any other radio equipment installed on board the same ship or aircraft; and (e) The amateur mobile station and its associated equipment, either in itself or in its method of operation, shall not constitute a hazard to the safety of life or property.

ORDER AMENDING TENTATIVE ALLOCATION PLAN

At a session of the Federal Communications Commission held at its offices in

Washington, D. C. on the 28th day of April 1948;

The Commission having under consideration an amendment of its Revised Tentative Allocation Plan for Class B FM Broadcast Stations (12 F. R. 4031, 5437, 6627; 13 F. R. 236), to the extent that Channel 297 will be allocated to Warsaw, Indiana, for the purpose of making possible the grant of an application now pending for that city; and

It appearing, that there is now pending before the Commission an application for a Class B FM station at Warsaw, Indiana, by Reub Williams & Sons (BPH-1405); that there are no other applications pending for Class B FM facilities at Warsaw, Indiana; that no Class B FM channel has been allocated to Warsaw, Indiana; that Channel 297, which is presently unallocated in this area, could be allocated to Warsaw, Indiana; that the operation of a station on Channel 297 at Warsaw, Indiana would not cause interference to any station, existing, proposed or contemplated by present allocations; that in addition to Channel 297 there is at least one other channel which is presently unallocated in this area and which could be allocated to Warsaw, Indiana; that the adoption of the proposed amendment will increase the number of channels allocated to Warsaw, Indiana, will not reduce the number of channels allocated to any other city, and will not require a change in the channel assignment of any existing FM authorization; and that no existing requirements of the Commission will be affected by said amendment; and

It further appearing, that the nature of the proposed amendment is such as to render unnecessary the public notice and procedure set forth in section 4 (a) of the Administrative Procedure Act; and that for the same reasons this order may be made effective immediately in lieu of the requirements of section 4 (c) of said act; and

It further appearing, that authority for the adoption of said amendment is contained in sections 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

AMERICAN TELEPHONE AND TELEGRAPH CO.
AND WESTERN UNION TELEGRAPH CO.

ORDER INSTITUTING INVESTIGATION

In the matter of charges and regulations for television transmission services and facilities.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 28th day of April 1948;

The Commission, having under consideration new schedules of charges filed by the American Telephone and Telegraph Company and Associated Bell Telephone Companies and by The Western Union Telegraph Company to become effective May 1, 1948, providing for initial charges, regulations, practices, and services governing the furnishing of intercity channels and station connections for video transmission in connection with television broadcasting and television viewers; and also having under consideration two formal petitions of the Television Broadcasters Association filed on April 23, 1948, by which petitions the Association protests with respect to the above-mentioned charges and regulations, and requests (1) suspension thereof, (2) temporary waiver of the Commission's order of February 12, 1948, File No. P-C-942, authorizing commercial operation of the New York-Washington coaxial cable television facilities of the telephone company, (3) an investigation and hearing concerning such rates and regulations; and (4) waiver of § 1.590 of the Commission's rules and regulations to the extent that it provides that requests for suspensions of tariff schedules under section 204 of the act will not ordinarily be considered unless made in writing or by telegram at least 10 days before the effective date named in the schedules;

It appearing, that the Commission authorized commercial operation of the Bell System New York-Washington coaxial cable television facilities for the purpose, among others, of avoiding discrimination and preference in favor of television broadcasters as against other broadcasting services;

It further appearing, that suspension of the above-mentioned rates and regulations of the telephone companies and waiver of the Commission's order of

February 12, 1948, as requested might result either in the discontinuance of the video transmission service during the period of such suspension, or in the rendition of the service without charge, at the expense of other users of the telephone companies' services;

It further appearing, that suspension of the above-mentioned rates and regulations of The Western Union Telegraph Company presents considerations similar to those applicable in the case of the telephone companies;

It further appearing, that the television broadcasters have adequate opportunity to seek a refund, pursuant to sections 205-209 of the Communications Act of 1934, as amended, of any charges which they may pay under the tariff schedules in question in excess of the charges found to be just and reasonable by the Commission after the investigation and hearing hereinafter provided for;

It is ordered, That the aforementioned petition of the Television Broadcasters Association is denied insofar as it requests suspension of the rates and charges filed by American Telephone and Telegraph Company and The Western Union Telegraph Company applicable to the furnishing of television transmission services and facilities, and insofar as it requests temporary waiver of the Commission's order of February 12, 1948 in File No. P-C-942;

It is further ordered, That pursuant to sections 204, 205 and 403 of the Communications Act of 1934, as amended, an investigation is instituted into the lawfulness of the charges, classifications, regulations, practices and services of the American Telephone and Telegraph Company and The Western Union Telegraph Company for and in connection with the transmission of television programs;

It is further ordered, That American Telephone and Telegraph Company, all carriers concurring in its Tariff F. C. C. No. 216, and The Western Union Telegraph Company, are made parties respondent to this proceeding;

It is further ordered, That without in any way limiting the scope of the investigation, it shall include inquiry into the following specific matters:

(1) The lawfulness under sections 201 and 202 of the Communications Act of the charges, classifications, regulations, practices, and services of the respondent carriers applicable to intercity channels, station connections, and associated services and facilities used in connection with television broadcasting and television viewers;

(2) The bases upon which the charges for the services and facilities referred to in (1) above were determined, and respondents' justification for such charges;

(3) Extent of actual and potential need and demand for the services and facilities for and in connection with the transmission of television programs, and the relationship between such need and demand and respondents' charges for such services and facilities;

(4) The reasonableness of the restriction in American Telephone and Telegraph Company's Tariff F. C. C. No. 216

regarding interconnection of interexchange video channels of the telephone company with the interexchange video channels of others (Paragraph II A-6);

(5) The reasonableness of the one year minimum contract period applicable to the furnishing of channels for video transmission contained in The Western Union's Telegraph Company's Tariff F. C. C. 219;

It is further ordered, That hearings be held in this proceeding at the offices of the Commission in Washington, D. C. to begin at 10:00 a. m. on the 15th day of June, 1948;

Notice is hereby given that § 1.857 of the Commission's rules and regulations is inapplicable to this proceeding.

PENNSYLVANIA POWER CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 30th day of April 1948.

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Pennsylvania Power Company ("Pennsylvania"), a public utility subsidiary of Ohio Edison Company, a registered holding company and a public utility subsidiary of The Commonwealth & Southern Corporation, also a registered holding company. The applicant has

designated section 6 (b) of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than May 10, 1948 at 5:30 p. m., e. s. t. (or e. d. s. t., as the case may be), request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after May 10, 1948 said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application, which is on file in the offices of the Commission, for a statement of the transactions therein proposed which are summarized as follows:

Pennsylvania proposes to issue and sell an aggregate of \$1,000,000 principal amount of new First Mortgage Bonds to be dated as of May 1, 1948 and to mature in 1978. The bonds are to be issued pursuant to and secured by Pennsylvania's present indenture dated as of November 1, 1945 as supplemented by an indenture to be dated as of May 1, 1948. The bonds will be sold for cash at private sale to institutional investors at 99½% of the principal amount and accrued interest to date of delivery. The bonds will bear interest at the rate of 3% per annum. Net proceeds to the company are expected to aggregate \$986,465. Fees and expenses are estimated at \$8,535.

The application states that Pennsylvania will use the proceeds from the sale of the new bonds to provide a portion of the funds required for the construction or acquisition of permanent improvements, extensions and additions to its property or to reimburse its treasury in part for expenditures made for such purposes. The company contemplates expenditures for property additions during the years 1948 and 1949 in the amount of \$3,860,000. The company states that, in order to finance this construction program, it will use the proceeds from the sale of the new bonds and cash on hand and estimated to be received from operations in excess of its working capital, interest and dividends. Such amounts will not, in the opinion of the management, be adequate to finance all the construction requirements of the company during the next few years, and it is estimated that approximately \$500,000 cash will have to be provided from the sale, before the end of 1949, of additional securities of a type not yet determined.

The filing states that the issuance and sale of the new bonds have been expressly authorized by the Pennsylvania Public Utility Commission, the State Commission of the State in which Pennsylvania is organized and doing business.

The applicant has requested that the Commission's order be issued as soon as

possible and that it become effective forthwith upon issuance.

By the Commission.

The United Gas Improvement Company ("UGI"), a registered holding company, and its gas utility subsidiary, The Harrisburg Gas Company ("Harrisburg"), having filed a joint application-declaration, as amended, pursuant to sections 6 (b), 9 (a), 10 and 12 (f) of the Public Utility Holding Company Act of 1935 with respect to the transactions summarized below:

CONSUMERS POWER CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 20th day of April 1948.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Consumers Power Company ("Consumers"), a public utility subsidiary of The Commonwealth & Southern Corporation, a registered holding company. The applicant-declarant has designated sections 6, 7 and 12 of the act and Rules U-23, U-42, U-50 and U-62 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than May 12, 1948 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application-declaration, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street, N. W., Washington 25, D. C. At any time after May 12, 1948, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized as follows:

Consumers proposes to issue and sell, pursuant to the competitive bidding provisions of Rule U-50, 200,000 shares of its authorized preferred stock without par value. The dividend rate, which shall not exceed \$5 per annum (but shall not be \$4.50, the rate on the outstanding preferred stock), and the price to be paid to Consumers, which shall not be less than \$100 nor more than \$102.75 per share, plus accrued dividends to the date of purchase, will be determined by the competitive bidding.

The application-declaration indicates that Consumers will use the proceeds from the proposed sale of preferred stock to provide a portion of the funds required for the construction or acquisition of improvements, extensions and additions to its property, or for the discharge or lawful refunding of obligations, or to reimburse its treasury in part for expenditures made for such purposes. The company contemplates expenditures for property additions during 1948 and 1949 in an amount exceeding \$85,000,000 and it is estimated that approximately \$33,000,000 of its cash requirements therefor will have to be provided from the sale, before the end of 1949, of additional securities, of a type not yet determined.

Consumers proposes, in addition, to amend its Certificate of Organization prior to the issuance of the new preferred stock. The stated objectives of such amendment are (1) to establish for the benefit of all the preferred stock, including that now outstanding, protective provisions conforming to the standards of this Commission under the act and (2) to vest in the Board of Directors the authority to determine, by amendment to the By-Laws, the terms and conditions, if any, of any sinking or purchase fund for the shares of any particular class of preferred stock to be issued thereafter. In this connection the filing indicates that the Board of Directors proposes to establish a purchase fund with respect to the new preferred stock, the stated effect of which will be generally, to require the company to endeavor to purchase annually, commencing in 1949, at prices not exceeding the initial public offering price thereof, not less than 2 percent of the maximum number of shares of the new preferred stock at any time issued and outstanding.

The proposed amendment to the Certificate of Organization of Consumers includes, among others, a provision which states, generally, that so long as any shares of preferred stock are outstanding, the payment of dividends on the company's common stock shall be subject to the following limitations: (a) Common stock dividends will be limited to 50% of the net income available therefor whenever the common equity becomes less than 20% of total capitalization, (b) such dividends will be restricted to 75% of such net income whenever the common stock equity becomes less than 25% but is equal to or greater than 20% of total capitalization, and (c) except to the extent permitted under (a) and (b) above, Consumers shall not pay any common stock dividends which would reduce the common stock equity to less than 25% of total capitalization.

Consumers requests that the Commission's order herein contain a provision that, upon the taking effect of the foregoing amendment, the conditions limiting common stock dividends contained in the Commission's orders of August 30, 1945 and September 11, 1947 (Holding Company Act Releases Nos. 6024 and 7711) cease to be effective. Such conditions, in substance, limit cash dividends on the common stock of Consum-

ers to an amount which would not exceed 75% of net income if the common stock equity of Consumers is less than 25% of total capitalization and surplus.

The application-declaration states that the Michigan Public Service Commission, the state commission of the state in which Consumers is doing business, has approved the proposed issuance of the new preferred stock.

Consumers requests that the Commission's order be issued as soon as possible and that it become effective forthwith.

By the Commission.
