§ 517.323 *Eligibility for payment—*

(a) *Dates of sale and of export.* No payment under this subpart will be made in

connection with any sale for export unless the date of sale (see § 517.331 (d)) is on or after the effective date of this subpart and the products are exported on or after the date of such sale and prior to the date specified in paragraph (h) of this section, except that a sales contract made prior to the effective date of this subpart and expressly made contingent upon the Secretary's issuing this or a similar offer will be deemed to be a sale made after such effective date if after such effective date the parties to such contract make the sale binding unconditionally by confirmation or otherwise and if no exportations were made pursuant to such sale prior to such effective date. A sale made subject to the condition that the Representative of the Secretary will approve the Application for Export Payment (paragraph (c) of this section) will be deemed a sale pursuant to this subpart, and since available funds are limited, exporters may find it advisable to make their sales subject to this condition. Products shall be deemed to have been exported when loaded on board the exporting carrier provided such products are not thereafter unloaded from such carrier in the United States, its territories or possessions, and are not diverted to an ineligible country. The date of export of any lot shall be considered to be the date of loading on board the exporting carrier on which movement of such lot from the United States is effected. The date of the on-board bill of lading (or loading tally sheet, see § 517.324 (a) (3)) shall be considered to be the date the products were loaded on board, unless an "on-board" date is shown.

(b) *Minimum size of lot.* No payment will be made under this subpart for the exportation of any lot of less than one hundred (100) units of the eligible products. A unit is 1 box of fresh fruit, 1 case of canned single strength juice, or 1 gallon or equivalent of concentrated juice. A lot is that quantity of products loaded to any one export carrier at any one departure consigned to any one destination under any one export sale.

(c) *Application for export payment.* (1) No payment will be made under this subpart, unless the exporter files Form FV-461 "Application for Export Payment," with the designated Representative of the Secretary, as indicated in § 517.320 (c) and unless such application is approved by the Representative of the Secretary. Form FV-461 must be prepared separately for each export sale and shall be mailed or delivered as promptly as possible after date of consummation of sale but in no event later than the date of export. No payment will be made if such form is mailed or delivered after such date of export unless the Secretary, upon written request by the exporter stating substantial reasons therefor, waives such delay. The Secretary will approve applications covering sales which meet the requirements of this subpart, so long as funds which have been allocated to this subpart are available, in the order in which the applications are received or on such other basis as he may determine to be equitable, will

give written notice of approval or disapproval to the exporter, and will notify the exporter as promptly as possible after receipt of any executed Form FV-461 if any information shown in such form does not conform with the terms and conditions of this subpart. No payment will be made in excess of the sum indicated in the approved Form FV-461, unless the Secretary, upon written request, by the exporter stating substantial reasons therefor, approves a larger amount.

(2) In the event the sale covered by any approved application is not consummated or completed the exporter shall promptly so notify the Representative of the Secretary who approved the application. Such notice shall be furnished within twenty (20) days after the intended date of export shown in the approved application but in no event later than the date of filing of claim for payment, and shall request cancelation of the application to the extent that the quantity exported is reduced.

(d) *Grades.* (1) Florida and Texas fresh grapefruit shall meet the requirements of U. S. No. 2 Grade, or better, and for Standard Pack, as defined in "U. S. Standards for Grapefruit", effective November 15, 1949, provided that such fruit shall be individually wrapped, or packed in boxes lined with diphenyl paper, or blind packed, i. e., fruit on top, bottom, and sides of the box shall be individually wrapped. When wrapped, each fruit shall be fairly well enclosed in its individual wrapper. Such fruit shall also meet the following standards for export: Not more than a total of 10 percent, by count, of the fruit in any container shall be soft, affected by decay, damaged by skin breakdown, have broken skins which are not healed, growth cracks, damage by creasing, or serious damage by dryness or mushy condition, except that for any lot:

Not more than 5 percent of the fruit shall be soft;

Not more than 1/2 of 1 percent of the fruit shall be affected by decay;

Not more than 5 percent of the fruit shall be damaged by a skin breakdown;

Not more than 3 percent of the fruit shall have broken skins, which are not healed;

Not more than 3 percent of the fruit shall have growth cracks;

Not more than 5 percent of the fruit shall be damaged by creasing; and

Not more than 5 percent of the fruit shall be seriously damaged by dryness or mushy condition.

Any lot of fruit shall be considered as meeting the standards for export if the entire lot averages within the requirements specified: *Provided*, That no sample from the containers in any lot shall have more than double the percentage specified for any one defect, and that not more than a total of 10 percent, by count, of the fruit in any container has any of the defects enumerated in the standards for export.

(2) California and Arizona fresh grapefruit shall meet the requirements of U. S. No. 2 Grade, or better, the Standards for Export, and Standard Pack, as defined in "U. S. Standards for Grapefruit (California and Arizona)," effective January 9, 1950, provided that such

fruit shall be individually wrapped, or packed in boxes lined with diphenyl paper, or blind packed, i. e., fruit on the top, bottom, and sides of the box shall be individually wrapped. When wrapped, each fruit shall be fairly well enclosed in its individual wrapper.

(3) Canned processed products shall meet the requirements of U. S. Grade A as defined in the latest respective "United States Standards" or "Tentative United States Standards" for such products.

(e) *Inspection.* Exporters shall furnish, at no expense to the Secretary, certificates of inspection for each lot of fresh or processed products exported pursuant to this subpart. Such certificates for fresh fruit shall be issued by representatives of the Federal or Federal-State inspection service and for processed products by representatives of the Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, PMA, USDA. For fresh fruit the period from date of inspection to date of exportation, both dates inclusive, must not exceed sixteen (16) days, and for processed products the period from date of completion of inspection to date of exportation, both dates inclusive, must not exceed ninety (90) days: *Provided*, That, upon request of the exporter indicating substantial reasons therefor, the Secretary may, if he deems it desirable, grant an extension of time of such period.

(f) *Packaging.* All products to be exported under this subpart shall be suitably packed for export in new boxes or cases acceptable for export shipment in accordance with standard commercial practice for export and in a manner which shall reasonably assure their arrival in good condition in the country of destination. The best known practices to prevent shrinkage and decay shall be followed in packing fresh fruit for export shipment.

(g) *Re-entry or diversion.* The exporter shall undertake, as a part of his "Application for Export Payment," which is required in paragraph (c) of this section, that the products exported under this subpart will thereafter not re-enter the United States or its territories or possessions, or be diverted to other than an approved country as listed in this subpart, in fresh or processed form. In the event of such re-entry or diversion to other than an approved country, the exporter shall refund to the Secretary any export payment received under this subpart with respect to the quantity so re-entered or diverted.

(h) *Final dates.* The final date for mailing or delivering Form FV-461, "Application for Export Payment," shall be 12:00 o'clock midnight September 15, 1952. The final date of export shall be 12:00 o'clock midnight September 30, 1952.

§ 517.324 *Claims supported by evidence of compliance.* (a) The exporter shall file claims for payment for any lot exported under this subpart not later than twenty (20) days after the date of export of such lot: *Provided*, That, upon request of the exporter indicating substantial reasons therefor, the Secretary may, if he deems it desirable, grant an

extension of time for such filing. Each claim for payment shall be filed in an original and three copies on voucher Form FDA-564, "Public Voucher—Diversion Programs," and shall be supported by (1) two certified copies of the sales contract, (2) two certified copies of the sales invoice to the buyer showing the f. a. s. sales price less the payment to be made by the Secretary, (3) two copies of the on-board export bill of lading signed by an agent of the exporting carrier (except that where loss, destruction or damage occurs subsequent to loading on board exporting carrier but prior to issuance of on-board bill of lading, two copies of a loading tally sheet or similar document may be submitted in lieu of such bill of lading), (4) the original (or a signed copy) and one copy of the inspection certificate(s) required in paragraph (e) of § 517.323, and (5) such other documents, if any, as may be required by the Secretary, evidencing purchase, sale and exportation of the commodity on which payment is claimed.

(b) The exporting bill of lading must show the quantity and description of the commodity, inspection certificate number or other detail sufficient to relate the commodity loaded on board the export carrier to the commodity covered by the related inspection certificate, the date and place of loading, the fact that such commodity is on board, the destination of the commodity, and the name and address of both the exporter and consignee. If the shipper or consignor named in such bill of lading is other than the exporter (seller) named in Form FV-461, the exporter shall furnish with his claim a waiver by such shipper or consignor, in favor of such exporter, of any right to claim payment under this subpart for the commodity covered by such bill of lading.

(c) The foregoing required evidence will not be accepted as conclusive if the Secretary has reason to believe that exportation of all or any quantity of the products was not actually accomplished or that there has not been compliance with other requirements of this subpart, and in any such instance the Secretary may require such additional evidence as he deems reasonable.

§ 517.325 *Records and accounts.* The exporter shall maintain adequate records showing purchases, sales, and deliveries of products exported or to be exported in connection with this subpart. Such records, accounts, and other documents relating to any transaction in connection with this subpart shall be available during regular business hours for inspection and audit by authorized employees of the United States Department of Agriculture, and shall be preserved for at least two years after the effective date of this subpart.

§ 517.326 *Amendment and termination.* The Secretary may amend or terminate this subpart at any time upon public announcement thereof. Such amendment or termination, however, shall not apply to applications approved under the subpart prior to the effective time of such amendment or termination.

§ 517.327 *Persons not eligible.* No member of, or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of any contract made under this subpart or to any benefit that may arise therefrom, but this provision shall not be construed to extend to a payment made to a corporation for its general benefit.

§ 517.328 *Set-off.* The Secretary may set off, against any amount owned to any exporter under this subpart, any amount owed by such exporter to Commodity Credit Corporation, the United States Department of Agriculture, or any other agency of the United States.

§ 517.329 *Assignment.* An exporter may assign, in accordance with the provisions of the Assignment of Claims Act of 1940, as amended, any claim for payment hereunder, or name a joint payee with respect to any such claim. In case of such assignment, the Secretary may set off any claim against the exporter arising out of the exportation on which the assigned claim is based, and may set off any other claim of the United States against the exporter based on facts existing at the time of receipt of notice of assignment, or when claim is not assigned, based on facts existing at time of receipt of claim.

§ 517.330 *Good faith.* If the Secretary determines that any exporter has not acted in good faith in connection with any transaction under this subpart or has failed to discharge fully any obligation assumed by him under this subpart, such exporter may be denied the right to continue participating in this subpart or the right to receive payment under this subpart in connection with any sales previously made under this subpart, or both.

§ 517.331 *Definitions.* As used in §§ 517.320 to 517.331, the following terms have the following meanings:

(a) "Secretary" means the Secretary of the United States Department of Agriculture, or any authorized Representative of the Secretary.

(b) "Exporter" means any individual, corporation, partnership, association, or other business entity, located in the United States and engaged in the business of selling and exporting fresh or processed citrus fruits, produced and packed in the continental United States.

(c) "Sales contract" may be in the form of offer and acceptance, confirmation of sale or purchase, or other documentary evidence of consummation of sale including contracts between exporter and buyer.

(d) "Date of sale" means the date on which both buyer and seller signed a written contract, or the date on which buyer accepts an offer of sale or confirms the purchase, or the date on which the seller accepts an offer to purchase or confirms the sale. In the absence of documentary evidence establishing the date of consummation of sale the date of loading on board an export carrier will be considered to be the date sale was consummated.

(e) "F. a. s." means free alongside ship or other export carrier.

(f) "On-board export bill of lading" includes any bill of lading covering the

exportation of fresh or processed citrus fruits from the United States.

(g) "Public announcement" and "public notice" mean the issuance of a press release or the publication of a notice in the FEDERAL REGISTER.

(h) "Filed." Applications, claims and related documents are deemed to be filed when they are postmarked, if mailed, or when received by the designated PMA office if otherwise delivered.

NOTE: The record keeping and reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

*Effective date.* This offer shall be effective on March 5, 1952.

Dated this 28th day of February 1952.

**PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON**

**TERMINATION OF ASSESSMENTS ON SHIPMENTS**

Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957) regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Idaho-Eastern Oregon Potato Committee established under said marketing agreement and order, as amended, and upon other available information, it is hereby found that the rules and regulations set forth in § 957.204 (16 F. R. 7275), no longer tend to effectuate the declared policy of the act in that grade and size regulations § 957.308 (16 F. R. 5833, 6501, 12035) were terminated as of February 12, 1952 and

the basis for levying assessments after that date was thereby eliminated.

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (a) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient for such compliance, and (b) this order relieves restrictions imposed by the provisions of § 957.204 (16 F. R. 7275) which is hereinafter terminated.

The provisions of § 957.204 *Budget of expenses and rate of assessment.* (16 F. R. 7275) are hereby terminated as of 12:01 a. m., m. s. t., February 12, 1952. The termination hereof shall not affect any right, duty, obligation, or liability which arose prior to the effective time of this termination action in connection with § 957.42 of Order No. 57, as amended, and regulation § 957.204 issued pursuant thereto.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

**TITLE 32A—NATIONAL DEFENSE, APPENDIX**

**Chapter III—Office of Price Stabilization, Economic Stabilization Agency**  
[Ceiling Price Regulation 15, Amdt. 12]

**CPR 15—CEILING PRICES OF CERTAIN FOODS SOLD AT RETAIL IN GROUP 3 AND 4 STORES**

**MAIL ORDER AND EXPRESS SALES**

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R.

738), this Amendment 12 to Ceiling Price Regulation 15 is hereby issued.

#### STATEMENT OF CONSIDERATIONS

This amendment exempts mail order and express sales from the provisions of Ceiling Price Regulation 15. It is also incorporated by reference into Ceiling Price Regulation 16 by section 21 (d) of CPR 16. As a result, sales of this type will now be under the provisions of the General Ceiling Price Regulation.

Prior to this amendment, the ceiling prices for dry groceries and certain perishable grocery items sent to purchasers through the mail or via express were computed under CPR's 15 and 16 by adding to the sum of their "net cost" and the allowable percentage markup the actual express or mailing expenses. It was thought at the time the regulations were issued that the allowance permitted by section 25 of CPR 15 and by section 21 (d) of CPR 16 for such expenses would be adequate for sales of this type. Further investigation has now shown that since food which is sold through the mail or via express is usually of a "fancy" or semi-luxury grade, rather than being of a staple variety, it had been the practice of retailers when making such sales to add markups much higher than those added by retailers generally or permitted by the regulations. The volume of mail order and express sales is not substantial enough nor is their character of sufficient importance to warrant establishing new and more appropriate markups for them. The food items sold through the mails are generally for use as gifts and the items are at most merely supplementary to the householders' needs. These sales are therefore now exempted from the provisions of CPR's 15 and 16 and will now be required to be priced under the General Ceiling Price Regulation. In view of the type of sales involved, the resulting increases in prices will have only an insignificant effect upon the cost of living. Sales via mail or express to a foreign country, on the other hand, are generally of staple goods. In view of the policy of encouraging gifts of such goods to needy persons abroad and of the special allowance already provided in section 20 for retailers forwarding gift packages to donees in a foreign country, the exemption provided by this amendment is limited to sales via mail or express to consumers within the North American continent.

In the formulation of this amendment, it has been found impracticable to consult with the official advisory committee. However, the provisions of this amendment incorporate the recommendations of trade association representatives and other persons representing substantial segments of the industry. In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable the Director of Price Stabilization has given due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense

Production Act of 1950, as amended; to prices prevailing from May 24, 1950 to June 24, 1950, inclusive; and to relevant factors of general applicability.

#### AMENDATORY PROVISIONS

Ceiling Price Regulation 15 is amended by changing section 25 to read as follows:

**SEC. 25. Mail order and express sales.** Your mail order sales and your express sales are exempt from the provisions of this regulation. For the purposes of this section mail order and express sales are sales in which the items sold are delivered through the mails or via express within the North American continent.

*Effective date.* This amendment shall become effective March 10, 1952.

#### GENERAL CEILING PRICE REGULATIONS

##### USED RAILS AND DEMOLITION PROJECTS

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82nd Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 29 to the General Ceiling Price Regulation is hereby issued.

#### STATEMENT OF CONSIDERATIONS

Amendment 26 to the General Ceiling Price Regulation added section 14 (t) so as to exempt from the provisions of that regulation sales of used supplies or equipment which were not acquired or produced for purpose of sale. As the Statement of Considerations to that amendment indicated, it was intended to exclude sales which were only occasional in nature, such as a sale by a store of its used fixtures.

A number of railroads have interpreted this amendment to exempt them from price control in the sale of their used rails and trackwork (other than rails used for rerolling or melting). These used rails consist principally of relaying rails which, although somewhat worn, are nevertheless usable in trackage which does not require the use of new rail. It was not intended by Amendment 26 to exclude this type of used equipment from the GPCR. Sales of used rails are not occasional, but recur constantly, and are priced on a standard basis. These rails are generally sold to dealers who specialize in straightening and otherwise reconditioning them for subsequent use in industrial plants, short line railroads, mines, etc.

This amendment removes any doubt as to the status of used rails and trackwork by specifically listing such material in section 14 (t) (2) among the products not included in the exemption. Sales of these used rails and trackwork will

remain subject to the General Ceiling Price Regulation. Rails sold to be rerolled or melted continue to be subject to CPR 5.

A similar difficulty of interpretation has occurred with respect to "demolition projects" which are defined in CPR 5. Railroads, for example, customarily dispose of their locomotives, freight and passenger cars to be cut down into steel scrap. Because of the difficulty in specific pricing, these items have been excluded from CPR 5 and have been priced under the General Ceiling Price Regulation. As a result, several railroads have interpreted section 14 (t) to exempt sales of their equipment for scrap. Since this was not intended, this amendment clarifies that paragraph by excluding demolition projects from its coverage.

In the preparation of this amendment, consultation was held with industry representatives, including trade association representatives, and consideration was given to their recommendation.

#### AMENDATORY PROVISIONS

Section 14 (t) (2) of the General Ceiling Price Regulation is amended to read as follows:

(2) This exemption does not apply to used trucks, used rails or trackwork, demolition projects, scrap or waste materials, or to any commodity which is now or hereafter specifically covered by any supplementary regulation to the General Ceiling Price Regulation or any numbered ceiling price regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

*Effective date.* This amendment shall become effective March 8, 1952.

[General Overriding Regulation 25]

**GOR 25—DIRECTOR'S AUTHORITY TO ESTABLISH OR MODIFY CEILING PRICES**

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this General Overriding Regulation 25 is hereby issued.

**STATEMENT OF CONSIDERATIONS**

This general overriding regulation spells out in general terms applicable to all ceiling price regulations the Director's authority (1) to issue an order fixing an in-line ceiling price applicable to past and future transactions, where a seller has failed to keep the records or file the reports necessary for the establishment of his own ceiling prices; and (2) to disapprove or reduce a ceiling price proposed or established under any ceiling price regulation so as to bring it into line with the level of ceiling prices otherwise established by that regulation.

Many ceiling price regulations already contain specific provisions spelling out these powers of the Director. This GOR is being issued merely to insure uniformity in the interpretation and administration of all ceiling price regulations with respect to these powers regardless of whether any particular regulation already includes or does not include specific provisions covering these matters.

In view of the administrative and general nature of this regulation and since the provisions involved already appear in numerous ceiling price regulations, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

**REGULATORY PROVISIONS**

Sec.

1. What this regulation does.
2. Modification of ceiling prices by Director of Price Stabilization.
3. Establishment of ceiling prices in cases of non-compliance.
4. Definitions.

**AUTHORITY:** Sections 1 to 4 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

**SECTION 1. What this regulation does.** This general overriding regulation sets forth the authority of the Director to act in certain situations with respect to ceiling prices established or required to

be established under any ceiling price regulation.

**SEC. 2. Modification of ceiling prices by Director of Price Stabilization.** The Director of Price Stabilization may at any time disapprove or reduce any ceiling price proposed, reported, or established under any ceiling price regulation, so as to bring it in line with the level of ceiling prices otherwise established by that ceiling price regulation.

**SEC. 3. Establishment of ceiling prices in cases of non-compliance.** If any person subject to a ceiling price regulation fails to prepare or keep any record or file any report required by that regulation in connection with the establishment of his ceiling price, or if any person subject to a ceiling price regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by the applicable regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of the applicable regulation or of the various penalties for failure to do so.

**SEC. 4. Definitions.** (a) "Ceiling price regulation" means any ceiling price regulation heretofore or hereafter issued by the Director of Price Stabilization.

(b) "Director of Price Stabilization" includes any official of the Office of Price Stabilization, including officials of the Regional or District Offices, to whom the Director of Price Stabilization has delegated the function, power, or authority which such official is exercising.

**Effective date.** This General Overriding Regulation 25 shall become effective March 8, 1952.

Director of Price Stabilization.

**MISCELLANEOUS AMENDMENTS**

**EDITORIAL NOTE:** Federal Register Document 52-2470, appearing at page 1853 of the issue for Saturday, March 1, 1952, has been corrected as follows:

In Paragraph 2.10 the words "any three out of" have been inserted between the words "in" and "the" in the eighth line

of the fourth paragraph, so that the paragraph now reads:

In the alternative, the employer may use as his base period bonus fund one-third of the total bonuses paid in or with respect to any three out of the four fiscal years ending January 31, 1947, January 31, 1948, January 31, 1949, and January 31, 1950, or one-third of the total bonuses paid in any three out of the five calendar years 1946 to 1950 inclusive.

## Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-81 as Amended March 4, 1952]

### M-81—PURE TUNGSTEN AND PURE MOLYBDENUM

This order, as amended, is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by the Defense Production Act of 1950, as amended. In the formulation of this order, as amended, there has been consultation with industry representatives and consideration has been given to their recommendations. Consultation with trade association representatives has been impossible because there is no trade association in this industry. Consultation with representatives of all trades and industries affected in advance of the issuance of this order, as amended, has been rendered impracticable because the order, as amended, affects a large number of different trades and industries.

This order, as amended, affects NPA Order M-81, as originally effective August 15, 1951, by including a new paragraph designated (d) in section 7 to provide for an additional exception.

**AUTHORITY:** Sections 1 to 12 issued under sec. 704, 64 Stat. 816, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 96, 82d Cong.; 50 U. S. C. **SECTION 1. What this order does.** This order applies only to carbon- and hydrogen-reduced substantially pure tungsten, and pure molybdenum, as hereinafter defined. The purpose of this order is to conserve and to provide for the distribution and use of pure tungsten and pure molybdenum so as best to serve the interest of the national defense program and of defense supporting activities. It makes pure tungsten and pure molybdenum subject to allocation. It prohibits, subject to certain exceptions, deliveries of pure tungsten and pure molybdenum except by au-

thorizations to be issued from time to time by the National Production Authority (hereinafter called the "NPA"). It requires the filing of monthly reports.

**SEC. 2. Definitions.** As used in this order:

(a) "Person" means any individual, corporation, partnership, association, and any other organized group of persons, and includes any agency of the United States or any other government. A person who keeps separate inventory records for any separate operating or producing units shall treat each such separate operating or producing unit as a separate person for the purposes of this order, unless NPA otherwise directs or permits upon application of such person.

(b) "Pure tungsten" means the element tungsten in substantially pure form, processed to the extent that it is hydrogen-reduced powder, ingot, wire, rod, sheet, and chemicals and compounds, or carbon-reduced powder. Tungsten ores and concentrates, and scrap tungsten metal are not included in this definition.

(c) "Pure molybdenum" means the element molybdenum in substantially pure form processed to the extent that it is powder, ingot, wire, rod, or sheet. Molybdenum ores, concentrates, chemicals and compounds, and scrap molybdenum metal are not included in this definition.

(d) "Chemicals and compounds" means and includes such chemicals as sodium tungstate, or any other chemicals containing tungsten compounds or mixtures such as cobalt tungsten, or molybdenum tungsten mixtures.

(e) "Scrap tungsten metal" means scrap, waste material, or residues containing commercially recoverable tungsten which has been generated from tungsten products derived from hydrogen-reduced powders.

(f) "Scrap molybdenum metal" means scrap, waste material, or residues containing commercially recoverable molybdenum which has been generated from molybdenum products as defined in paragraph (c) of this section.

(g) "Fabricated parts" means coils, filaments, lead wires containing tungsten and/or molybdenum, and finished contacts and other parts containing tungsten and/or molybdenum which are used in or as subassemblies.

(h) "Pure metal processor" means any person who produces tungsten in the form of carbon-reduced powder, hydrogen-reduced powder, ingot, wire, rod, sheet, or chemicals and compounds, or any person who produces molybdenum in the form of powder, ingot, wire, rod, or sheet.

(i) "Fabricator" means any person who uses tungsten or molybdenum ingots, wire, rod, or sheet and who forms, bends, cuts, welds, or further fabricates ingots, wire, rod, or sheet for resale purposes.

**SEC. 3. Relation to other regulations and orders.** All provisions of any NPA regulation or order are superseded to the extent that they are inconsistent with this order, but in all other respects the provisions of such regulations and or-

ders shall remain in full force and effect. Pure tungsten and pure molybdenum shall be delivered only under an allocation authorization pursuant to the provisions of this order and, accordingly, DO rated orders or other preference orders shall have no effect, except to the extent that NPA takes such preference rating into account in granting an allocation authorization. NPA may, from time to time, issue directives as to deliveries or uses of pure tungsten and pure molybdenum and, unless otherwise provided therein, such directives will prevail over the provisions of this order. The provisions of this order do not in any way affect alloy steels.

**SEC. 4. Substitution required.** No person, whether pursuant to a DO rated order or otherwise, shall incorporate any pure tungsten or pure molybdenum into any product or material when substitution of some other element or material (other than a restricted alloying material as defined in section 2 of NPA Order M-80) for pure tungsten or pure molybdenum is commercially feasible.

**SEC. 5. Uses prohibited.** No person shall use pure tungsten in the manufacture of pigments of any type, or as a coloring or coating material for rubber, linoleum, paper of any kind including but not limited to wallpaper, or grinding wheels: *Provided, however,* That these prohibitions do not apply to:

(a) The use of pure tungsten in the manufacture of pigments for coloring employed by the United States Government in the production of currency, bonds, stamps, and/or other Government securities.

(b) The use of pure tungsten in printing inks.

(c) The use of pure tungsten required by any person to comply with any order or directive of NPA.

(d) The use by any person of not more than 50 pounds (tungsten content) of pure tungsten in any consecutive 3-month period, beginning on or after March 1, 1951.

**SEC. 6. Allocation authorization required.** (a) No person shall deliver pure tungsten or pure molybdenum except in accordance with the terms of an allocation authorization issued by NPA, in accordance with this section, nor shall any person accept delivery of or use pure tungsten or pure molybdenum except in accordance with the terms of such an allocation authorization.

(b) NPA will, from time to time, issue allocation authorizations for pure tungsten and pure molybdenum and specifically direct the manner and quantities in which deliveries to particular persons or for particular uses may be made or withheld. Any person seeking to place a purchase order for pure tungsten or pure molybdenum may be required to place the same with one or more suppliers specified by NPA.

(c) Application for allocation must be filed with NPA by the applicant on Form NPAF-114, not later than 45 days preceding the first day of the month in which delivery is required, accompanied by the inventory statement on Form NPAF-113, unless such form has been currently filed pursuant to section 10

(c) of this order. An application for allocation for delivery in October 1951 must be filed not later than August 15, 1951. Each applicant must furnish all information required by said forms, and the requests for allocations must be correctly indicated in the tungsten or molybdenum products material classifications and size ranges.

(d) Whenever an application for allocation is granted in whole or in part, an authorization will be issued at least 10 days prior to the first day of the delivery month to the appropriate supplier and a copy furnished to the applicant. The authorization will require a supplier to make delivery to the extent of the purchasers' orders within the limits of the authorization.

Sec. 7. *Exceptions to allocation requirements.* The provisions of section 6 of this order shall not apply to:

(a) Deliveries to the General Services Administration or any other authorized agency of the United States for the purposes of stockpiling.

(b) The purchase of fabricated parts. Persons producing these parts, however, must secure an allocation as set forth in section 6 and must indicate the end use on their applications.

(c) The sale of pure tungsten welding rod by a person other than a pure metal processor.

(d) The sale for analytical laboratory use of packaged reagent chemicals containing pure tungsten which have been allocated in bulk for the purpose of packaging and resale. This exception is limited to standard packages which do not exceed 5 pounds net weight.

Sec. 8. *Limitations on inventory.* No person shall place an order for or accept delivery of pure tungsten or pure molybdenum at a time when his inventory exceeds, or by acceptance of such delivery would be made to exceed 60 days' requirements at his then scheduled rate and method of operation. Any person who on the effective date of this order or at any time has outstanding orders for pure tungsten or pure molybdenum for delivery in quantities greater than he would be permitted to receive under this section shall forthwith notify his supplier of the extent to which delivery cannot be accepted as scheduled and such orders shall be adjusted accordingly. This section is applicable irrespective of whether or not any such orders or deliveries are made in accordance with an authorized allocation.

Sec. 9. *Applications for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment

that would impair the defense program. Each request shall be in writing, by letter in duplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

Sec. 10. *Records and reports.* (a) Each person participating in any transaction covered by this order shall retain in his files, for at least 2 years, records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this order have been met. This does not specify any particular accounting method, nor does it require alteration of the system of records customarily maintained, provided the system assures an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who have maintained or may maintain such microfilm or other photographic records in the regular and usual course of business.

(b) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

(c) Every person who at any time in a calendar month had in his possession or under his control or who during a calendar month consumed more than 25 pounds of pure tungsten or pure molybdenum shall report to NPA on Form NPAF-113 on or before the fifteenth day of the following month.

(d) Persons subject to this order shall make such records and submit such additional reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

Sec. 11. *Communications.* All communications concerning this order shall be addressed to the Iron and Steel Division, National Production Authority, Washington 25, D. C., Ref: M-81.

Sec. 12. *Violations.* Any person who wilfully violates any provision of this order or any other order or regulation of NPA or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect March 4, 1952.

M-24—TIN PLATE AND TERNEPLATE

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to authority granted by the Defense Production Act of 1950, as amended. In the formulation of this order as amended there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected by the issuance of this order as amended has been rendered impracticable by the fact that the order affects a very substantial number of different trades and industries.

NPA Order M-24, as last amended April 3, 1951, is hereby further amended in the following respects:

1. The definition of "menders" has been amended.

2. Definitions have been added of "unmended menders," "unassorted temper tin plate," and "other coated secondaries."

3. The definition of tin plate has been amended to include "menders," "unmended menders," and "unassorted temper tin plate."

4. The use of "other coated secondaries" has been exempted from the restrictions and limitations of the order.

5. The provision respecting the optional use of "menders" has been transposed from section 4 to section 5.

6. The provisions relating to export have been amended for purposes of clarification.

7. Sections 10, 11, 12, and 13 have been reworded to conform the language to the language in the analogous sections in other NPA orders.

8. A typographical error has been corrected in Note 1 to Schedule A.

9. List A of NPA Order M-8, instead of being incorporated by reference, has been included as Schedule B of this order as amended.

As so amended, NPA Order M-24 reads as follows:

AUTHORITY: Sections 1 to 13 issued under sec. 704, 64 Stat. 816, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789.

SECTION 1. *What this order does.* The purpose of this order is to set forth the permitted uses of tin plate and terneplate, the permitted materials in those uses, and the maximum permitted coat-

ing of tin or of terne metal per single base box. This order also sets forth certain additional permitted uses, optional uses, restrictions on manufacturers, and permitted substitutions. NPA Order M-8, as amended, contains certain limitations on the use of pig tin in the manufacture of tin plate and terneplate, but permits the use of tin for tin plate and terneplate in accordance with the provisions of this order.

**SEC. 2. Definitions.** As used in this order:

(a) "Tin plate" means steel sheets coated with tin, and includes electrolytic tin plate, hot-dipped tin plate, primes, seconds, unassorted, waste-waste, menders, unmended menders, and unassorted temper tin plate. Tin plate (except waste-waste) is furnished as "Specification Production Plate" or "Mill Accumulation Plate," and each such class includes primes, seconds, and unassorted. "Specification Production Plate" is plate produced against orders for specific end uses. "Mill Accumulation Plate" is plate arising in the production of "Specification Production Plate" not applicable against such orders, and, as provided in section 7 of this order, is to be so identified when sold, manifested, and shipped.

(b) "Terneplate" means steel sheets coated with terne metal, and includes special coated manufacturing ternes, manufacturing ternes, roofing ternes generally coated in tin mill coating machines, and long ternes which are steel sheets coated in sheet mill coating machines.

(c) "Reconditioned tin plate or terneplate" means damaged tin plate or terneplate which has been put into usable condition by recoating.

(d) "Waste-waste" means hot-dipped or electrolytic tin-coated steel sheets or steel sheets covered with terne metal which have been rejected during processing by the producer because of imperfections which disqualify such sheets from sale as primes, seconds, or unassorted.

(e) "Unmended menders" means tin-coated steel sheets arising in the production of electrolytic tin plate which have been set aside by the producer by reason of surface appearance which disqualifies such sheets from sale as primes, seconds, or unassorted.

(f) "Menders" means tin-coated steel sheets arising in the production of electrolytic tin plate which have been set aside by the producer by reason of surface appearance which disqualifies such sheets from sale as primes, seconds, or unassorted, and mended either into coke tin plate primes, seconds, or unassorted by hot-dipping in tin, or into unassorted terneplate by hot-dipping in terne metal.

(g) "Unassorted temper tin plate" means primes, seconds, or unassorted tin plate arising in the production of hot-dipped or electrolytic tin plate which has been packaged without regard to temper.

(h) "Other coated secondaries" means steel sheets or strips coated with tin or terne metal which are not defined or classified elsewhere in this section, and includes lacquered or lithographed misprints.

(i) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or any other government.

(j) "NPA" means the National Production Authority.

**SEC. 3. Permitted uses.** Tin plate, terneplate, and reconditioned tin plate and terneplate may be used only for the purposes set forth in Schedule A of this order, subject to the limitations, restrictions, and conditions specified in Schedule A with respect to the various items and purposes.

**SEC. 4. Additional permitted uses.** (a) Any person may use waste-waste for any purpose except in the manufacture of any item or in any process set forth in Schedule B of this order. In addition, any person may use tin plate, terneplate, or reconditioned tin plate or terneplate for any purpose, except in the manufacture of any item or in any process set forth in Schedule B, if his total annual consumption of such plate does not exceed 100 base boxes.

(b) Any person may use other coated secondaries without regard to the restrictions and limitations of this order, but such use shall be subject to all restrictions and limitations imposed by any other order or regulation of NPA.

**SEC. 5. Optional uses—(a) Substitution of material with lower tin content.** Wherever Schedule A of this order permits use of tin plate or terneplate with a maximum permitted coating of tin or terne metal per base box, tin plate or terneplate coated with less tin or terne metal per base box may be used; or if tin mill black plate is adaptable, it may be used as a substitute.

(b) **Optional use of 0.25 tin plate for terneplate.** Where terneplate is permitted to be used in the manufacture of an item listed in Schedule A, a manufacturer may substitute electrolytic tin plate with a maximum permitted tin coating of 0.25 pound per base box for that item.

(c) **Optional use of electrolytic tin plate.** Where hot-dipped tin plate is permitted to be used in the manufacture of an item listed in Schedule A, the manufacturer may substitute electrolytic tin plate.

(d) **Limited optional use of tin plate menders.** Tin plate menders arising in the production of electrolytic tin plate may be used only for purposes where hot-dipped tin plate is permitted under Schedule A.

**SEC. 6. Manufacture—(a) Manufacture of tin plate and terneplate.** Tin plate and terneplate may be manufactured only for the items and purposes set forth in Schedule A of this order and shall be tested as in this section provided. Coating shall be determined on the basis of average spot-coating tests, in the case of electrolytic tin plate, and on the basis of pot yield, in the case of hot-dipped tin plate. No person may use terne metal containing more than 15 percent tin in tin mill coating machines, and for coating roofing ternes. No person may use terne metal containing more

than 10 percent tin in sheet mill coating machines.

(b) **Manufacture of terne metal.** Secondary tin only may be used to make terne metal.

**SEC. 7. Other restrictions.** No person shall sell or deliver any tin plate, terneplate, or reconditioned tin plate or terneplate which he knows or has reason to believe will be accepted or used in violation of the terms of this order, or any other order or regulation of NPA. No person shall sell or deliver any tin plate, terneplate, or reconditioned tin plate or terneplate which he knows or has reason to believe will be exported outside of the continental limits of the United States, its territories and possessions, and Canada, except as permitted by section 9 (c) of this order. No person shall sell or deliver Mill Accumulation Plate unless the same is identified as such when sold, manifested, or shipped.

**SEC. 8. Certification of delivery of plate.** Except as otherwise permitted by section 9 (c) of this order, no person shall sell or deliver any tin plate or terneplate unless he has received from the purchaser a certificate signed manually. This certificate shall be by letter in substantially the following form and, once filed by a purchaser with a seller, covers all future deliveries of tin plate or terneplate from the seller to that purchaser:

To:-----, Seller:  
The undersigned purchaser certifies, subject to criminal penalties for misrepresentation, that he is familiar with Order M-24 of the National Production Authority, and that all purchases from you of items regulated by that order, and the acceptance and use of the same by the undersigned, will be in compliance with said order, and any amendments thereto.

**SEC. 9. Exceptions.** (a) The restrictions in this order shall not apply to military requirements for tin plate or terneplate intended for manufacture of items of a special design or style not normally produced or used commercially, nor to tin plate or terneplate intended for manufacture of items for emergency rations and supplies for lifeboats.

(b) The provisions of this order do not apply to the use of tin plate or terneplate which was in process of manufacture or in the inventory of a consumer, or in the inventory of a manufacturer for the account of a consumer, on April 3, 1951.

(c) The restrictions of this order shall not apply to the sale or delivery for export of tin plate, terneplate, or reconditioned tin plate or terneplate where the person selling or delivering the same has received a validated export license therefor from the Office of International Trade, or has received from another person a certificate signed manually, or where a general export license is applicable. This certificate shall be by letter in substantially the following form, the purchaser striking therefrom the inapplicable words, and shall be filed with each purchase order with the person selling or delivering to such other person tin plate, terneplate, or reconditioned tin plate or terneplate for export:

To -----, Seller: The undersigned purchaser certifies, subject to criminal penalties for misrepresentation, that (he has received a certification from another person that) the Office of International Trade has issued to (him) (such other person) (validated export license No. -----) (an applicable general license) for export shipment of all of the items included in the attached purchase order, and that all purchases from you of items included in the said purchase order and the acceptance of the same by the undersigned will be in compliance with the said license.

SEC. 10. Request for adjustment or exception. Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 11. Records and reports. (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

SEC. 12. Communications. All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M-24.

SEC. 13. Violations. Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false

information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m., on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of

their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

DEPARTMENT OF LABOR

Wage and Hour Division

BEER DIVISION OF ALCOHOLIC BEVERAGE  
AND INDUSTRIAL ALCOHOL INDUSTRY IN  
PUERTO RICO

DISAPPROVAL OF MINIMUM WAGE RATE

Pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. Sup. 1001) notice was published in the FEDERAL REGISTER on February 8, 1952 (17 F. R. 1227) of a proposed decision to disapprove the minimum wage recommendation of Special Industry Committee No. 9 for Puerto Rico for the Beer Division of the Alcoholic Beverage and Industrial Alcohol Industry in Puerto Rico. Interested parties were given an opportunity to submit exceptions within 15 days from the date of publication of the notice.

Objections to the proposed decision were filed by Union de Trabajadores de la Industria Cervecería y Bebidas Refrescantes de la Cervecería India, Inc., afiliada a La Confederación General de Trabajadores de Puerto Rico Auténtica (Union of Workers of the Beer and Soft Drinks Industry, CGT Authentic). These objections have been considered, but I find that they present no new matter which would require modification of the previous conclusions, as set forth in the supplementary findings and opinion entitled "In the Matter of the Recommendations of Special Industry Committee No. 9 for Puerto Rico of Minimum Wage Rates in the Alcoholic Beverage and Industrial Alcohol Industry in Puerto Rico."

Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060; 29 U. S. C. 201), the minimum wage rate recommended by Special Industry Committee No. 9 for Puerto Rico for the Beer Division of the Alcoholic Beverage and Industrial Alcohol Industry in Puerto Rico is hereby disapproved. Activities included within the Beer Division as defined in 29 CFR 706.3 (b) (2), are and will, until further order of the

Administrator, continue to remain subject to the minimum wage rate provided in the wage order for the Malt Beverage, Water, and Soft Drinks Division of the Foods, Beverages, and Related Products Industries in Puerto Rico (29 CFR 673.2 (b)).

Signed at Washington, D. C., this 28th day of February 1952.

WESTERN UNION TELEGRAPH CO.

ORDER CONTINUING HEARING

In the matter of new classifications, regulations and practices of the Western Union Telegraph Company in connection with use of interstate and foreign leased facilities for the dissemination of horse or dog racing news.

The Commission having under consideration a petition filed February 26, 1952, by the State of California, for a continuance to April 1, 1952, of the hearing on the above entitled matter now scheduled for 10:00 a. m., March 3, 1952, in Washington, D. C.; and

It appearing, that the Commission has today granted leave to the State of California to intervene in said proceeding; that the petition for a continuance alleges that the Attorney General of the State of California did not receive notice of the order of the Commission, dated January 30, 1952, designating this matter for hearing until February 21, 1952; that the State of California is preparing and will tender to the Commission very soon a petition for enlargement of the issues to be heard in said proceeding, and that the now scheduled date of March 3, 1952, does not allow sufficient time for the filing thereof and action thereon; that under the proposed enlarged issues the State of California will have important evidence, both oral and documentary, to present; that Western Union and Delaware Wired Music, Inc. have agreed to the requested continuance, but petitioner has been unable to reach respondents, Owner Publishing Company and Big League News Service; that Western Union has agreed to undertake to postpone the effective date of its Tariff FCC No. 219, Seventh Revised, Page 8, until June 1, 1952; and

It appearing further, that good cause has been shown for a grant of the petition of the State of California for a continuance of the above-entitled proceeding to April 1, 1952; that an immediate grant of the instant petition would not cause irreparable injury to any of the parties, and that the public interest requires immediate consideration of said motion;

Now, therefore, it is ordered, This 27th day of February 1952, that the petition

of the State of California is granted and the hearing on the above-entitled matter now scheduled for 10:00 a. m., March 3, 1952, is continued to 10:00 a. m., April 1, 1952, in Washington, D. C.

AMERICAN GAS AND ELECTRIC CO. AND  
INDIANA & MICHIGAN ELECTRIC CO.

ORDER AUTHORIZING ISSUANCE AND SALE BY  
SUBSIDIARY OF SHARES OF COMMON STOCK

FEBRUARY 28, 1952.

American Gas and Electric Company ("American Gas"), a registered holding company and one of its public utility subsidiary companies, Indiana & Michigan Electric Company ("Indiana") have filed a joint application-declaration with this Commission pursuant to sections 6 and 10 of the Public Utility Holding Company Act of 1935, with respect to the following transactions:

Indiana proposes to issue and sell and American Gas proposes to acquire 50,000 shares of Indiana common stock, without par value, in consideration for \$8,000,000 represented by cash capital contributions previously made to Indiana by American Gas. Indiana proposes to charge its "Other Deferred Credits" Account (Account No. 242) and credit its "Common Capital Stock" Account (Account No. 200) with the said amount of \$8,000,000.

It is stated that the above transactions are being proposed so that Indiana may comply with an order of the Public Service Commission of Indiana dated January 10, 1952, wherein the Indiana Commission required such procedure to be taken at the time it authorized Indiana to issue and sell \$17,000,000 principal amount of its 1982 Bonds and \$6,000,000 principal amount of its Serial Notes. This Commission authorized American Gas to make the cash capital contribution to Indiana in the aggregate principal amount of \$8,000,000 in its order dated December 3, 1951 (Holding Company Act Release No. 10907), and granted the application of Indiana for the issuance and sale of the above-mentioned Bonds and Serial Notes by orders dated January 11 and 23, 1952 (Holding Company Act Releases Nos. 11001 and 11022).

The Public Service Commission of Indiana and the Michigan Public Service Commission having expressly approved the proposed transactions and having issued their respective orders thereon, and the joint applicants-declarants having requested that the Commission's order herein become effective forthwith upon issuance; and

Due notice having been given of the filing of the joint application-declaration, and a hearing not having been

requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application-declaration be granted and permitted to become effective, forthwith:

*It is ordered.* Pursuant to Rule U-23 and the applicable provisions of the act that said joint application-declaration be, and hereby is, granted and permitted to become effective, forthwith, subject to the terms and conditions prescribed in Rule U-24.

[Ceiling Price Regulation 7, Section 43, Special Order 45, Amdt. 3]

J. WISS & SONS CO.

CEILING PRICES AT RETAIL

*Statement of considerations.* Special Order 45, issued on May 29, 1951, under section 43 of Ceiling Price Regulation 7, established ceiling prices at retail for shears, scissors, snips, pinking shears, pruning shears and clippers, manufactured by J. Wiss & Sons Co., 11-15 Littleton Avenue, Newark 7, New Jersey, having the brand name "Wiss." J. Wiss & Sons Co., has applied for an extension of time to comply with the preticketing requirements of the special order. Its request is based on an inability to preticket in the manner set forth in the special order by the date specified.

On the basis of the application and after due consideration, the Director has determined to issue this amendment extending the applicant's time to preticket the articles covered by the special order. However, with respect to articles manu-

factured on and after April 1, 1952, and delivered before June 30, 1952, these articles must be preticketed with the statement "OPS—Sec. 43—CPR 7," and indicating either the retail ceiling price or the article's model, style or lot number. On and after June 30, 1952, applicant must preticket all articles under the special order with a statement indicating the retail ceiling price of each article. After June 30, 1952, no sales at retail may be made under the terms of the special order unless the article is marked or tagged with the retail ceiling price.

*Amendatory provisions.*—Special Order 45, issued on May 29, 1951, under section 43 of Ceiling Price Regulation 7 is amended by deleting paragraph 2 and substituting the following new paragraph 2:

2 (a) On and after June 30, 1952, unless a prior date is established under another regulation or order, J. [General Overriding Regulation 18, Special Order 1]

**FREON REFRIGERANTS**

**CEILING PRICES BY RESELLERS**

Pursuant to Sec. 4 of General Overriding Regulation 18 of the Office of Price Stabilization, this special order is hereby issued.

**Statement of considerations.** This special order permits resellers of Freon refrigerants to adjust their ceiling prices in accordance with any adjustments in their net invoice costs resulting from Letter Order L-1, issued to the E. I. DuPont de Nemours & Company, Inc., the manufacturer of these refrigerants, under section 4 of General Overriding Regulation 18. This letter order to the manufacturer effected increases and decreases in the manufacturer's ceiling prices of Freon refrigerants in order to eliminate what may have been deemed discriminatory prices under the Robinson-Patman Act. Information received since the issuance of this letter order shows that changes in the ceiling prices of resellers of these commodities are appropriate.

This special order permits resellers of Freon refrigerants to increase their ceiling prices on the basis of any increases in their net invoice costs of Freon refrigerants resulting from the letter order issued to the manufacturer, in the same manner provided by sections 4 and 5 of Supplementary Regulation 29 to the General Ceiling Price Regulation. If a reseller elects to increase his ceiling price in accordance with this order, he must also decrease ceiling prices of other commodities for which the net invoice costs have decreased as a result of the letter order issued to the manufacturer.

Any reseller who increases his prices to a wholesaler or retailer as a result of this order must, on or before delivery of any of the subject commodities at the increased price, send a copy of this order to his customer.

**Special provisions.** 1. This special order applies to you if you are a wholesaler or retailer (as defined in the General Ceiling Price Regulation) of Freon refrigerants manufactured by the E. I. DuPont de Nemours Co., of Wilmington, Delaware.

2. If you are a wholesaler, and your supplier has increased his prices of Freon refrigerants to you under authority of Letter Order, L-1, Docket No. GOR 18, Sec. 4-93-1, issued to the E. I. DuPont de Nemours Co. of Wilmington, Delaware, you may increase your ceiling prices as provided by section 4 of Supplementary Regulation 29 to the General Ceiling Price Regulation.

3. If you are a retailer, and your supplier has increased his prices of Freon refrigerants to you under authority of said letter order, or under authority of paragraph 2 of this special order, you may increase your ceiling prices as provided by section 5 of Supplementary Regulation 29 to the GCPR.

4. If you increase your ceiling prices pursuant to paragraphs 2 or 3 of this special order, you must also decrease your ceiling prices of Freon refrigerants, as provided in section 4 or 5 of SR 29 to GCPR, where your supplier's prices to you are decreased. Where a price to you is decreased, you must assume that the decrease was made pursuant to the aforementioned letter order, or pursuant to this special order, unless you are informed in writing by your supplier that no part of the decrease is required by said letter order or this special order. Notwithstanding the provisions of sections 4 and 5 of SR 29 to the GCPR, you are not required to decrease your ceiling prices unless you put into effect increases in your ceiling prices pursuant to this special order.

5. On or before the first delivery by you of any Freon refrigerant to a wholesaler or retailer at any increase in price authorized by this special order, you must send a copy of this special order to the wholesaler or retailer.

This special order shall become effective February 29, 1952.

[Ceiling Price Regulation 32, Supplementary Regulation 2, Section 3, Special Order 5]

**LUCHT FIELD, BAY COUNTY, MICHIGAN**

**CRUDE PETROLEUM CEILING PRICES ADJUSTED ON AN IN-LINE BASIS**

**Statement of considerations.** This special order adjusts the ceiling price for the sale of crude petroleum produced from the Lucht Field, Bay County, Michigan.

The Bay Pipe Line Corporation of Saginaw, Michigan, a purchaser of crude

petroleum from the Lucht Field, Bay County, Michigan, wishes to eliminate the differentials it has heretofore imposed upon crude petroleum produced from this oil field. During the base period there was a lack of low cost pipeline transportation and as a result the crude petroleum produced from the Lucht Field, Bay County, Michigan, was sold at a lower price than is being and has been paid for crude petroleum of comparable quality produced in this same general area. It now appears that adequate low cost pipeline transportation has been installed and that the former differentials resulting in prices for this crude petroleum below the in-line ceiling price for comparable crude petroleum in the same general area should no longer be imposed.

From information available to this Office, it appears that the requested adjusted price will be in line with the ceiling price of comparable crude petroleum produced in this same area. This price is \$2.72 per barrel.

**Special provisions.** For the reasons set forth in the Statement of Considerations and pursuant to the provisions of section 3 of Supplementary Regulation 2 to Ceiling Price Regulation 32, It is ordered:

1. That the ceiling price at the lease receiving tank for crude petroleum produced from the Lucht Field, Bay County, Michigan, shall be: \$2.72 per barrel.

2. All provisions of Ceiling Price Regulation 32, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified or revoked by the Director of Price Stabilization at any time.

**Effective date.** This special order shall become effective on February 29, 1952.

ELLIS ARNALL,  
Director of Price Stabilization.

[Ceiling Price Regulation 7, Section 43, Special Order 832]

**SHIFMAN BROS.**

**CEILING PRICES AT RETAIL**

**Statement of considerations.** This is an order establishing uniform retail prices issued upon the basis of an application filed by a supplier under section 43 of CPR 7. This section gives a manufacturer or wholesaler the right to apply for uniform retail ceiling prices for certain of his branded articles. This section requires that the articles must customarily have been sold at substantially uniform prices, and the ceiling prices applied for must not raise the general level of prices under CPR 7. The order may, of course, be amended or revoked if further review shows that the requirements of the regulation have not been fully met.

This special order requires each article to be tagged or marked with the retail ceiling price. The supplier must send

to each retailer a copy of this special order, as well as a list of ceiling prices for each article or cost line and notice of all amendments. The order requires the supplier to file certain sales reports with OPS.

Retailers will be concerned with sections 1 through 6 of this special order which contain provisions applying to them. The rest of the order is of interest primarily to the applicant.

**Order.** For the reasons set forth in the statement of considerations and pursuant to section 43 of CPR 7, it is ordered that the following provisions be in effect:

**Provisions for retailers—1. What this order does.** Sections 1 through 6 apply to you and establish uniform ceiling prices if you sell at retail the articles identified below:

Name and address of applicant: Shifman Bros., 1 Mott Street, Newark 5, New Jersey.

Brand names: "Sanotuft."

Articles: Mattresses and box springs.

**2. Retail ceiling prices for listed articles.** Your ceiling prices for sales at retail of the articles identified above are the retail prices listed in your supplier's application filed with OPS. These prices will be included in a list which will be annexed to the copy of this order which you will receive from your supplier. The list of ceiling prices will be filed with the Federal Register as an appendix to this special order as soon as practicable. These ceiling prices are effective 10 days after you receive this order and the ceiling price list but in no event later than 60 days after the date this order is issued. You shall not sell above these ceiling prices. You may, of course, sell below these prices.

**3. Retail ceiling prices for unlisted items.** Some or all of the retail ceiling prices in this order are fixed in terms of the cost of the article to you. Whenever you receive one of applicant's branded articles which is in the same category and which has the same net cost as one covered by the list, the ceiling price for such article shall be the same as the ceiling price for the article having that same net cost.

**4. Retail ceiling prices affected by amendment to this order.** This order may be amended from time to time or it may be revoked. If so, the applicant is required to send you a copy of the revocation or amendment, together with any list of changes or additions in retail ceiling prices. The ceiling prices con-

tained in any such amendment become your ceiling prices.

**5. Marking and tagging.** This order requires your supplier to pre-ticket his articles by an early date. The label, tag or ticket must be in the following form:

OPS—Sec. 43—CPR 7  
Price \$-----

After 90 days from the effective date of this order, unless you receive articles marked or tagged in this form, you must so mark or tag them yourself. Before that date you must mark, tag or post your prices in the manner required by the regulation which applies in the absence of this special order.

With respect to articles the ceiling prices of which are affected by any amendment to this order, the same rules apply except that you must mark or tag such articles as stated above not later than 60 days after the effective date of the amendment.

**6. Applicability.** This special order establishes your ceiling prices for the articles covered by it regardless of whether you would otherwise price the articles under CPR 7 or any other regulation. It applies to sales in the 48 states and the District of Columbia.

**Provisions for the applicant—7. Notification to retailers.** As the manufacturer or wholesaler to whom this special order is issued, you shall do the following:

(a) **Sending order and list to old customers.** Within 15 days after the effective date of this special order, you shall send a copy of this order, together with a copy of the list referred to in section 8 below to each purchaser for resale to whom, within 2 months immediately prior to the effective date, you had delivered any article covered by this order.

(b) **Notification to new customers.** A copy of this special order and the list shall be sent to all other purchasers for resale on or before the date of the first delivery of any article covered by this order.

(c) **Notification with respect to amendments.** Within 15 days after the effective date of any subsequent amendment to this order, you shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, you had delivered any article included in such amendment. Within 15 days after any amendment, the amendment shall also be included with the notification to new customers.

(d) **Notification to OPS.** Within 15 days of the effective date of this order, you shall send a copy of the list of prices referred to in section 8 below to the Distribution Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C.

**8. Ceiling price list.** The ceiling price list must be annexed to a copy of the order and shall contain the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling prices fixed by the order. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Price to retailers	Retailer's ceilings for articles of cost listed in column 1
\$..... per.....	{unit. Terms {net. percent EOM, etc. etc.
	\$.....

**9. Pre-ticketing requirements.** As the applicant to whom this special order is issued, you must, within 60 days after the effective date of this order (or in the case of an amendment within 60 days after the effective date of that amendment), mark each article covered by this order with a statement in the following form:

OPS—Sec. 43—CPR 7  
Price \$-----

Instead of marking the article you may attach a label, tag or ticket containing the same information.

**10. Sales volume reports.** Within 45 days of the expiration of the first 6-month period following the effective date of this special order and within 45 days of the expiration of each successive 6-month period, you shall file with the Distribution Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which you have delivered in that 6-month period.

This special order may be amended or revoked at any time.

**Effective date.** This special order shall become effective on February 28, 1952.
