

PREFACE

The first edition of the standardized tables used in class P was published in 1982, and a revised edition was published in 1998. An edition published in 2004 cumulated all changes that were made to the tables from 1998-May 2004. For that edition, many of the tables were restructured and many new tables were created in order to facilitate the automatic calculation and display of numbers and captions in *Classification Web*, the online version of the Library of Congress Classification available on the World Wide Web. A 2006 edition cumulated changes made from May 2004-July 2006. For that edition, some of the tables for individual authors, such as Tables P-PZ39, P-PZ40, and P-PZ44, were revised in order to reduce complexity and simplify shelflisting subarrangments. An updated edition was issued in 2010, with editions issued annually beginning in 2015. This 2021 edition cumulates changes that have been made since the 2020 edition.

Access to the online version of the full Library of Congress Classification is available on the World Wide Web by subscription to *Classification Web*. Details about ordering and pricing may be obtained from the Cataloging Distribution Service at

[<http://www.loc.gov/cds/>](http://www.loc.gov/cds/)

New or revised numbers and captions are added to the LC Classification schedules as a result of development proposals made by the cataloging staff of the Library of Congress and cooperating institutions. Upon approval of these proposals by the editorial meeting of the Policy, Training & Cooperative Programs Division, new classification records are created or existing records are revised in the master classification database. Lists of newly approved or revised classification numbers and captions are posted on the World Wide Web at

[<http://www.loc.gov/aba/cataloging/classification/weeklylists/>](http://www.loc.gov/aba/cataloging/classification/weeklylists/)

Janis L. Young, senior cataloging policy specialist in the Policy, Training & Cooperative Programs Division, is responsible for coordinating the overall intellectual and editorial content of class P and its various subclasses, including the P tables. Kent Griffiths, assistant editor of classification schedules, is responsible for creating new classification records, maintaining the master database, and creating index terms for the captions.

Judith P. Cannan, Chief
Policy, Training & Cooperative Programs Division

June 2021
