ADOPTS RESOLUTION FOR FACILITIES OF TREATMENT

Successful Meetings by Mrs. Pankhurst in Comox District

Mrs. Pankhurst, H. T. Ravenhill, and Rev. H. T. Archibald have conducted a successful tour in the Comox district on behalf of social hygiene. They spoke in Cumberland on Monday night, in Courtenay on Tuesday evening and they addressed meetings in Merrville on Wednesday afternoon.

Some Staggering Figures. Mr. Ravenhill set out to justify the existence of the Island Council of Social Hygiene. He says the Comox Argus in its report. He said that they were working with the Provincial Department of Health, who had granted them an eight hundred dollar grant to cover organization expenses, but to fight their hidden foe they would have to ask everyone to get behind them and help them with their donations.

At Courtenay. Mayor Simms took the chair and there were also on the platform Mrs. Pankhurst, the Rev. H. T. Archibald and Mr. H. T. Ravenhill.

At Merrville. The meeting arranged by the Island Council of Social Hygiene at Merrville on Wednesday afternoon was largely attended by the women folk of the settlement. Mrs. Pankhurst charmed everyone and all were surprised to find the militant suffragette of other days such a gentle lady. She drove home her points with great force and held her audience spell bound.

At Cassidy. Cassidy, J. C. Dakin motored the party out to Cassidy when the meeting was held under the auspices of the Granby Women's Institute. The Rev. Mr. Campbell in the chair. The three speakers were Mrs. Pankhurst, the programme, emphasizing that one of the objects of the tour had been to make known the news provided by the Provincial Department of Health, free cure of sufferers, and at each meeting a resolution was passed calling upon the Government to provide for the facilities for free treatment.

At Courtenay. The congregations of the Presbyterian churches of Sandwick and Courtenay have decided to join in maintaining the one minister for the present at least. This decision was first arrived at by the sessions of the respective churches and after they had so resolved submitted the finding to the congregations and by them it was confirmed.

At Courtenay. The Rev. Mr. Menzies resigned his pastorate in order to move to Victoria. There has been no regular minister at either of the churches in the district. Services have gone on regularly by supply from outside points and ministers presiding for a certain time. These were only temporary measures.

At Courtenay. The Rev. James Hyde left for North Vancouver in November of last year. The Courtenay church has been without a regular pastor and is quite willing for the present to join with Sandwick. The district is a wide one, embracing not only Sandwick but the pioneer church at Comox and the mission which was started at Merrville.

At Courtenay. The fire department was called out last night to the premises of the Connaught Club on Commercial Street, the blaze being quickly extinguished by the use of chemicals.

At Courtenay. The Nanaimo Rotary Club had as guests at yesterday's luncheon, Mrs. Pankhurst, the noted militant British suffragist. Rev. H. T. Archibald and H. T. Ravenhill of Victoria, who concluded in this City last night on a two weeks tour of the Island. Although the speeches made were brief the subjects were most interesting.

At Courtenay. Members of the Ladysmith Football team, which went down to defeat before the Toronto Scottish, in the final for the Connaught Cup, arrived home last night by the Princess Patricia. The boys claimed that they were treated splendidly on the trip and admit that Toronto is an exceptionally strong team, but feel that they would have made a better showing but for injuries to players.

At Courtenay. Among the visitors in this City to-day is E. E. Taylor of Calgary, a former business man of Nanaimo. Mr. Taylor conducted a grocery store business in the premises now occupied by Mr. Kermode, and left Nanaimo some eighteen years ago.

At Courtenay. Campbell River. Miss Maurine Robb, who is writing a series of articles for The Boston Herald, Maritime, and other papers, and The Montreal Star, visited here yesterday. Miss Robb made extended trips to Strathcona Park, the Falls, Forbes Landing and many other interesting places in the Comox River district and Valdez Island. Miss Elin and Miss Lily Thulin accompanied Miss Robb to Strathcona Park and were delighted with the grand scenery for which that Government reservation is famed.

OF INTEREST TO WOMEN

This is a Short Letter, But It Proves the Reliability of Lydia E. Pinkham's Vegetable Compound

Bothwell, Ont.—I was weak and run down, had no appetite and was nervous. The nurse who took care of me told me to try Lydia E. Pinkham's Vegetable Compound and now I am getting strong. I recommend your medicine to my friends, and you may use my testimonial.—Mrs. W. J. Brady, R. 2, Bothwell, Ont.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ill is because it contains the tonic, strengthening properties of good old-fashioned roots and herbs, which act on the female organism. Women from all parts of a country continually testifying to its strengthening, beneficial influence, and as it contains no narcotics or harmful drugs it is a safe medicine for women.

If you want special advice write Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by women only. (Advt.)

men here in the next few days.—Comox Argus.

Cricket at Duncan. Duncan, Aug. 13.—On the eve of the Pacific Coast Tournament, the Victoria Club visited Duncan and won a rather sensational game by 8 wickets. After Cowichan, leading on the first innings by 42 runs, Victoria got the home team out, for 42 runs in the second innings, this left Victoria 36 to win which they obtained at a quarter to seven for the loss of two wickets. Capt. Dobbie, with a well played 22, was top scorer for Cowichan and LeBaby 22 for Victoria in first innings. Capt. Coley and Goward both batted and bowled splendidly in the second innings and Victoria were chiefly due to the two that Cowichan was defeated.

Cricket Tournament. The following team leaves Duncan to-day to play in the Pacific Northwest Cricket Tournament: L. A. S. Cole (Capt.), E. W. Carr, Hilton, A. B. Carr, Hilton, Capt. Dobbie, Capt. Sheppard, E. Mackay, A. E. Green, C. G. Bales, R. G. Gore-Langton, Capt. A. Matthews, A. Whitburn, C. S. Crane, R. E. Macbean and W. G. Cornsley.

Duncan Personal. Hon. T. Muthland has arrived in Vancouver on his way to Duncan, to visit his uncle, Mr. C. C. Ward. He expects to be here several months.

Mr. James Noonan has purchased the property at 2220 Douglas Street, at Maple Bay and intends to build there in the near future.

Mrs. W. E. Christmas, mother and sister, Mrs. E. Macbean, are here on a short visit.

Mr. and Mrs. Fitzgerald of Kent, England, are visiting their daughter, Mrs. Kennington and Mrs. Wason.

Mr. H. Chaplin has sold his property on the Island Highway, corner of Gibbons Rd., to the Misses Denny and Geoghegan. They will probably have their girls' school there in the near future.

Tennis at Duncan Club. Team of eight of the South Cowichan Lawn Tennis Club played a friendly match against eight of the Duncan Lawn Tennis Club to-day. The Duncan team winning by a score of 10 to 5.

Some excellent tennis was seen and a delicious tea provided. The full matches are as follows, visitors named first.

AGAINST BABY SHOWS BEING HELD

Sidney Medical Man States His Views. Dr. A. G. Beale, Medical Officer of Health, writes to The Sidney Review, with regard to the proposed baby show there, explaining why he does not believe in such exhibitions. He says: I am unwilling to act as a judge at the proposed baby show to be held there shortly, because I regard these shows as a sort of general post office for the handing around of ailments from catarrh to diphtheria. Where a Medical Officer once we lost two children from diphtheria out of five that contracted the disease. We traced the epidemic to a little girl who had killed one of the infants. She was a dainty little thing, and parents who would not have allowed a grown-up person to kiss their infant, allowed this little girl, thinking there could be no harm, to find on going into the matter that the child was a "carrier." On the continent these shows are discouraged in connection with creches, and the child who has been exhibited is not re-admitted to the creche until it has undergone a period of isolation; toddlers being vastly more apt to distribute disease to each other than older children, because of their low immunity and the way they handle each other and put their fingers in their mouths.

Again, children come from a distance to these shows, and the ordinary school risk is increased a hundred fold. A child is brought to the show, say, from Victoria, or the mother may be visiting from Vancouver and enters her child, who is suffering from a mild attack of scarletina, the rash having been mistaken for a simple rash of infancy, or it may have come and gone in the night. When such an infant is rubbed off the face, particularly the eyebrows or margins of the lips, it is so fine that it is not discernible to the eye, the body at this stage has not begun to peel. Or the toddler brings a toy which may be infected with one of the dozen ailments common to childhood, it is handed to some fractious baby who handles it and puts its fingers in its mouth.

"Itch" is not uncommonly distributed at baby shows, for if the child wears combination shoes, the nails are kept closely cut, the scratch marks which draw attention to the disease are absent.

Again, in view of a few cases in children the term "itch" is a misnomer as the disease does not cause itching. It is occasionally distributed. In its earliest stage, the result might be called a draw, for "Ireland" and "the King" held the wall for about the same number of days. Then one morning nothing save a black smudge appeared after the initial pair of evenings. This lasted till last Friday evening. On Saturday morning came proof that the momentous conference at the Mansion House in Dublin on the day before had effected a change in the painter of legends, for the words then read "God Save Us All!"—Manchester Guardian.

Belgrade, Aug. 14.—A general strike has been proclaimed at Baranya as a protest against the evacuation of the territory by Jugo-Slav troops preliminary to its surrender to Hungary under the terms of the peace treaty. Demonstrations are occurring in all parts of the State.

"GOD SAVE IRELAND." On a morning several months ago the words "God Save Ireland!" appeared in large, straggling, white-washed letters on a dead wall in a Munster town. Three days later "Ireland" was found to be overpainted, "the King" being substituted. There followed a sort of nightly silent battle between rival forces; the result might be called a draw, for "Ireland" and "the King" held the wall for about the same number of days. Then one morning nothing save a black smudge appeared after the initial pair of evenings. This lasted till last Friday evening. On Saturday morning came proof that the momentous conference at the Mansion House in Dublin on the day before had effected a change in the painter of legends, for the words then read "God Save Us All!"—Manchester Guardian.

GOMPERS OPPOSES WAGE REDUCTIONS

Toronto, Aug. 15.—Organized labor in the United States and Canada will resist wage reductions to the utmost, declared Samuel Gompers, president of the American Federation of Labor, who is visiting this city. "Labor," continued Mr. Gompers, "will not be content merely with food and shelter." Discussing the inclination of employers to cut wages, Mr. Gompers said that rent, which was the big item in the wage earners' budget, had not come down, and he could not see any reduction in the cost of living.

Unemployment, said the Labor president, was still increasing, but he believed the prospects for an improvement in the near future were good. Mr. Gompers will address the Brotherhood of Railway Carmen of America, now in session here, and also the convention of the International Photo-engravers' Union, which opened to-day. "THE PROBLEM." "So your son has graduated from college?" "Yes." "And what have you planned to do with him now?" "As to that, we've made no plans whatever. What we are worrying about is what he will decide to do with us since we are so much his inferiors in intellectual attainment."

WILLIAM T. WILSON DIED IN ENGLAND

London, Aug. 15.—Announcement is made of the death of William T. Wilson, former member of Parliament for the West Houghton division of Lancashire. He was born in 1855, and was for many years one of the most prominent leaders of the Labor Party, being named chief Labor Whip in January, 1919.

RUMOR BERNHARDT ILL UNFOUNDED

Paris, Aug. 15.—Sarah Bernhardt, the world famous French actress, rumors of whose illness were current here on Saturday, is in good health, says a telegram from an editor on the staff of Le Journal, who is spending his vacation on the island of Belle-Ile-en-Mer, off the coast of Brittany. He declares he saw Mme. Bernhardt yesterday at her summer home on the island.

SEATTLE BANK ROBBERY CHARGES

Seattle, Aug. 15.—In the case of our men and three women arrested in Kansas City, Mo., on suspicion of implication in the robbery of a bank messenger of \$25,000 here July 14, two additional complaints have been issued by a justice of the peace here. The complaints charge John J. Fox and John Murphy with aiding and abetting in the robbery. The authorities said their extradition would be sought. A complaint previously issued charged with robbery Ed. Patton and Louis Gordon, who according to the Kansas City police, confessed they were principals in the hold-up. This alleged confession exonerated the five others, but the police continued to hold the entire party. Police detectives here yesterday announced they had evidence connecting Fox and Murphy with the crime.

A WHISKY RING.

Livingston, Mont., Aug. 15.—Discovery of a whisky ring among employees of the Lake Hotel in Yellowstone National Park culminated in the conviction of five defendants before United States Commissioner Meltrim at Mammoth on charges of violating the prohibition enforcement law. It was the first prosecution under the federal prohibition law in Yellowstone Park.

INSISTS ON SEPARATION.

Unless something in the nature of a miraculous development takes place during the next few days there is every reason to suppose that the relations between the British Government and Eamonn de Valera will be similar to what they were before the Irish negotiations commenced.

To put it briefly de Valera has replied to the offer made by Mr. Lloyd George with a repetition of his demand for complete separation from the British Empire and a request for arbitration in respect of Ulster's position and the Irish share of the national debt.

There is a note of finality in the British reply which may or may not bring a further rejoinder from de Valera. Whether it does or not the straightforward intimation from Mr. Lloyd George—which defines the position which his Government has taken and will continue to take—will be approved throughout the British Empire.

Those very same "immense distances" might well have been made the pretext of Dominion neutrality in the light of de Valera's reasoning. And if he requires further evidence of his poor conception of inter-Empire relations he may take the example of South Africa.

The argument used by the republican leader is as much an argument in favor of his acceptance of the main concession for the obvious reason that Great Britain could not govern any of the Dominions if she felt that way disposed.

the Empire on all fours with the rest of the Dominions which are looking after their own affairs. In other words Westminster is anxious to let Dublin do the governing. Mr. Lloyd George could not go further than this unless he agreed to permit Ireland to drop out of the Empire's family.

GOOD PROGRESS.

If the census returns do not reveal as great an increase in the size of Victoria's population as had been expected it should be remembered that the period since 1911 has accounted for an exceptional movement of people from British Columbia as a whole and from Victoria and the immediate localities in particular.

In spite of these obvious factors which should be taken into account in considering the census figures it is satisfactory to observe that the official return for Victoria City is not far short of forty thousand.

AIRING FINANCES.

Long before the forthcoming session of the Legislature commences its business it can be taken for granted that a number of constituencies will send their representatives to Victoria to inform the Government how it can dispose of its revenue and make itself popular with all concerned.

THINK MAN IS

AMBROSE SMALL (Continued from page 1.) Little information. Brophy says it is impossible to engage the man in lucid, logical conversation. He says his replies invariably are "yes" or "no," and frequently meaningless.

credit is to remain good. The average individual has neither the desire nor the time to analyze a budget speech. He has less inclination to study the public accounts even in their present simple and concise form. It is highly probable that not more than two dozen members of the Legislature could explain the finances to the public without a good deal of study.

NOTE AND COMMENT

In the light of de Valera's reply to the offer of the British Government it looks as if Ireland is destined to remain a "question" and not become a member of the self-governing states which compose the British Commonwealth of Nations.

PLANS ATTACK ON RAILWAY TOUR

Mr. Bowser wants to find out just what the official excursion on the P. G. E. is going to be like. He had better make the trip himself and get some first hand information. Premier Oliver said to-day in reply to statements that Mr. Bowser is planning to make a lively political capital out of the trip and to refer to it in speeches as a "political joy-ride" in which "all the boys from Vancouver with lots of refreshments" will take part.

CRAIG PREPARED TO GO TO LONDON

"We are busy engaged in ratifying our part of this solemn bargain while the Irishmen outside the Northern area, who in the past have struggled for home rule, have chosen to repudiate the Government of Ireland Act and press Great Britain for wider powers," it says. "To join in such pressure is repugnant to the people of Northern Ireland."

NO DISCUSSION OF SEPARATE IRELAND

one condition only of which our proposal plainly stated the effect—that Ireland should recognize the force of the geographical and historical facts. "It is those facts which govern the problems of British-Irish relations. If they did not exist there would be no problems to discuss. I pass, therefore, to the conditions which are imposed by these facts."

WHAT'S IN A NAME?

Facts About Your Name; Its History, Its Meaning, Whence It Was Derived, Its Significance; Your Lucky Day and Lucky Jewel.
By Mildred Marshall.
(Copyright, 1921, by The Wheelwright Syndicate, Inc.)

LYDA.

explanation attributes its derivation to "lid," meaning "the people." The first feminine names coming from this latter source, which are believed to be Lyda's predecessors, are Lydonia and Lydunia. The latter was the first Christian Duchess in Bohemia. This unfortunate lady was strangled by her heathen daughter-in-law, Dragotina, the mother of Boleslav and Venceslav, but she left a sainted name which proved a favorite among Slavonian women.

It was quickly contracted, however, to Lyda or Lidia. The Russians call it Lydunia. Lyda was popular in England, and likewise in this country. To the modern custom of changing "i" into "y" wherever possible may be attributed by astrologers the title "warm month." The "opal is Lyda's talismanic gem. It will prove a protection against sorcery, and will bring her great personal charm, according to an old belief. Friday is her lucky day and \$ her lucky number.

MRS. PANKHURST RETURNS FROM TOUR

Encouraging impetus to the campaign being waged against the reception of social diseases has been imparted by the lecture tour recently undertaken on Vancouver Island in the interests of the Island Council for Social Hygiene, from which Mrs. E. Pankhurst, Rev. H. T. Archbold and H. T. Ravenhill returned on Saturday.

WED HERE TO-DAY AT EMPRESS HOTEL

In the presence of only the immediate family of the bride and bridegroom, the wedding was quietly celebrated at high noon to-day of Miss Eva Ruth Goldbloom, only daughter of Mr. and Mrs. Samuel Goldbloom, of Holly Lodge, Vancouver, formerly of Winnipeg, to Mr. M. Harvey Brotman, also of Winnipeg, and formerly of the Royal Air Force. The ceremony, which took place in one of the private reception rooms of the Empress Hotel, was performed by Rev. Dr. Friedlander. The bride, who was gowned in her travelling suit of fawn gaberdine with leather trimming, wore a corsage of Ophelia roses and orchids. Her hat was a Paris model of negre duvetine. Mrs. Goldbloom, the bride's mother wore black Chantilly lace with hat to match.

The bride was given away by her father, the groom being attended by Mr. A. Mark Shibanee, of Winnipeg, as best man. After a honeymoon tour of Vancouver Island, thence via Prince Rupert and the Canadian Rockies to Winnipeg, Montreal, New York and other Eastern points, Mr. and Mrs. Brotman will take up residence temporarily at Calgary.

Out of town guests included Mr. and Mrs. Samuel Goldbloom and Mr. and Mrs. Philip Brotman of Vancouver, Ernest Brotman and A. Mark Shibanee of Winnipeg.

Women Active Supporters

Mrs. Pankhurst was greatly impressed with the interest shown at every point in the itinerary and pays special tribute to the activity of the women, and particularly to such organizations as the Women's Institutes, who everywhere rallied to the cause of public health. At the meeting at Campbell River, the most enthusiastic advocates of social hygiene included a party of members of the Valdez Island Women's Institute who had journeyed over especially for the meeting.

About twenty meetings in all were addressed and Mrs. Pankhurst is confident that good results will accrue. Notwithstanding the fact that the following resolution was enthusiastically carried at each meeting, sponsored by a member of the audience: "Whereas there is a great and growing menace to our nation and community in the prevalence of venereal disease, and whereas there exists a necessity to educate the public as well as to afford all accessible means of cure to those infected, be it resolved that we support the work of the Island Council for social hygiene and hereby petition the Provincial Legislature to provide means of free treatment in addition to those established at Vancouver and Victoria, so that sufferers in the more remote parts of the Island may receive the immediate treatment essential to their cure."

Splendid Spirit.
The ready spirit of co-operation and willingness to assist the campaign in any way possible on the part of men and women, and the support offered by the doctors in the various districts impressed Mr. Ravenhill very favorably, and convinced him that a good ground-work has been established by the tour. In several centres committees were formed to carry on the work of the council, while at other places individuals offered to distribute literature concerning the campaign.

It is not, however, the aim of the Council to form new organizations for carrying on the propaganda, but rather to work through the medium of existing agencies, such as Women's Institutes, Parent-Teachers' Associations and similar organizations.

A proposal that addresses should be given in the schools on the subject of good citizenship with ready support and it is likely that this feature will be undertaken during the Fall term.

Conditions More Stable.
Although their itinerary was very full and gave little time for outside matters, Mr. Ravenhill found opportunity to note that conditions are becoming more stabilized on Vancouver Island despite the depression at the cities. Particularly in the Comox Valley there is a settled and prosperous air suggestive of a farming community which has "made good." In Nanaimo the opening of two new mines promises a return to normal prosperity. Everywhere on the tour there were evidence of building activity, an encouraging sign.

NOW OCCUPY NEW HEALTH CENTRE

Saanich V. O. N. Will Soon Start Dental Clinic and Milk Fund Scheme

The work of moving into the new Memorial Health Centre at the corner of Gianford Avenue and Saanich Road is now being undertaken by the Saanich branch of the Victorian Order of Nurses. The centre will be formally opened next month, upon a date to be decided upon. The Saanich branch of the V. O. N. is carrying on a splendid work in the district.

Milk Fund for Children.
At a meeting of the board of management held on Tuesday last, Mrs. A. C. Humphries was appointed convener of a milk fund committee to be formed in Saanich which will supply milk to school children, who are not receiving sufficient nourishment in their home, under the combined supervision of the teacher and V. O. N. nurse. Donation boxes will be placed in various parts of the district for this purpose.

The Dental Clinic, it is hoped, will very shortly be in operation at the Health Centre where the school children will be looked after as regards the teeth. All school children are at present periodically inspected by the nurses and medical officer who are thereby able to check deformity and disease in the first stage.

Nurses' Report.
The nurses' report for the month of July, presented by Miss Kelly, is as follows:
Number of visits made during month, 308; nursing visits, 147; child welfare, 90; social service, 10; prenatal, 15; non-nursing, 25; collection, 7; observation, 14; daily treatments given at the centre to patients under instructions of their own attending doctor, and resident patients were given daily care; meetings attended in the interest of the work numbered 8; collections amounted to \$115.35.

NEWS IN BRIEF

Forthcoming Picnic.—Visiting and former Californians are requested to attend the Calgary picnic at Cadboro Bay on Wednesday afternoon.

Daughters of St. George.—Daughters of St. George, No. 25, will hold their meeting to-night at 8 o'clock in the Foresters' Hall, Broad Street.

A. U. W. at Willows Beach.—The Ancient Order of United Workmen will hold a basket picnic at Willows Beach on Saturday afternoon. Take the Uplands car to Olympia Avenue. Hot water will be supplied.

G. A. U. V. Meeting.—A general meeting of the Grand Army of United Veterans will take place to-night in their new clubrooms, 1203 Langley Street, commencing at 8 o'clock sharp. It will be nomination night.

G. W. V. A. Gathering.—The regular fortnightly meeting of the Great War Veterans' Association will take place to-morrow evening, at 8 o'clock, in their headquarters, on Bastion Street. A discussion on unemployment conditions will occupy a large part of the evening.

Dominion-Wide Movement.—In the event of a resignation falling through, the Veterans of France will proceed to organize from coast to coast, eligible only to members of the G. W. V. A., who have seen service in France.

Saanich Fall Fair.—The North and South Saanich Agricultural Society has issued its price list for the fifty-third annual fall exhibition to be held on October 4 and 5. Entries for the fair must be in the hands of the secretary, Colin A. Chisholm, not later than September 25.

Visit Fossil Beds.—Members of the Natural History Society visited Albert Head on Saturday and examined some of the most interesting of the geological features of the district and a number of fossil deposits. Rev. Robert Connell guided the party.

Victoria W. I. Centre.—The regular monthly meeting of the Victoria Women's Institute will be held at the home of the president, Mrs. S. W. Raven, Elk Lake, on Friday afternoon next, at 2.30 o'clock. Those wishing to attend will please notify the secretary, Mrs. Todd, telephone 824R, so that arrangements for transportation may be made.

To Picnic at Island View Beach.—The Victoria Amateur Swimming Club is planning a picnic for next Sunday, to be held at Island View Beach. This promises to be the biggest outing held this year by the club. The journey will be made by trolley, returning the city about 10 a. m., and returning in the evening. A programme of sports is being arranged.

In Police Court.—Alexis Martin occupied the magistrate's bench in the City Police Court this morning during the absence of Magistrate Jay, who is away on vacation. E. Erickson was tried in the Esquimalt Court on a charge of being under the influence of liquor while in charge of a motor car, and was sent to jail for one month.

Butchers' Picnic.—All arrangements have been completed for the picnic to be held by the butchers of the city and suburbs of the "Chapel," Deep Bay, on Wednesday next. Transportation will be by trolley and private cars, leaving the corner of Douglas and Johnson Streets at 9 a. m. A strong committee has charge of the "sports" programme, and Geiger's band has been engaged for the day. A Stokes has charge of arrangements for transportation, and any information can be obtained by telephoning No. 4925.

Drunk at Fair Grounds.—A fifty dollar fine was imposed this morning at Oak Bay police court on W. W. Hennessy, of San Diego, who was found guilty of being drunk at the Fair Grounds on Saturday. When questioned by Mr. Alexis Martin, presiding magistrate, as to where the liquor was supplied, accused stated that he had secured a dozen bottles of beer and a bottle of whisky with a fifty cent permit.

Esquimalt Fire.—Fire broke out yesterday morning at 3 o'clock in the roof of a house on Esquimalt Rd. opposite the Coach and Horses Inn, owned by Stephen Doran and occupied by J. Amesen. The Esquimalt Fire Department was summoned to the scene and the fire was extinguished in about half an hour. The Victoria Fire Department refused to assist at the fire.

TO VICTORIA OLD TIMERS.

The police are anxious to learn something of the early history of William Ritchie, who died at San Francisco about May 15, 1896, from apparent poisoning. It appears that inquiries are being instituted with regard to his career. He is believed to have been a native son here, and had left Victoria for San Francisco. It is known he had been in the jewelry business, but at the time of his death he was apparently in straightened circumstances and was selling cheap articles on the streets. Anyone who knew him in early life should communicate with the City Detective Department.

ENDS "JOY RIDE" IN POLICE COURT

Olaf Erickson went for an automobile ride last night after looking on the wine when it was "red." Now he is en route for the Government Prison Farm, at Oakalla, after a brief interview with Mr. Alexis Martin, sitting in the Esquimalt Police Court this morning.

Erickson was charged with driving a motor while under the influence of liquor and he was given the minimum sentence of thirty days for the offence. It is alleged that he took the curve on Esquimalt Road round Signal Hill on two wheels for about twenty feet.

SAANICH COTTAGE BURNS; ARREST OF RUSSIAN FOLLOWS

Found Close to Ruins; Mike Semenoff Awaits Court Hearing

Following the destruction by fire of 675 Roderick Street, the home of Dometrius Drayman, early yesterday morning, Mike Semenoff, a Russian, was last night arrested by Constable Rankin of the Saanich Police and is incarcerated in the City Police Station awaiting a hearing in the Saanich police court Wednesday.

Shortly after 3 o'clock on Sunday morning the City and Saanich fire departments were notified of the conflagration and responded at once, the equipment from the Dundas Street Hall reinforcing the efforts of the Saanich firemen. By the time the firemen arrived on the scene the cottage was burning so fiercely that nothing could be done to save the house, which burned to the foundations.

The cottage was only newly completed, being an enlargement of a smaller house, owned by Mrs. Drayman, when she was Miss Olga Forchinski, the alterations being undertaken by the newly married couple with a view to making the cottage their home.

According to stories current in the neighborhood but as yet unconfirmed, there had been considerable trouble between the owners of the house and the accused Semenoff, this culminating in a police court case some weeks ago, when Semenoff was fined \$20.

Last night neighbors noted a strange man hovering around the vacant field near the destroyed house and notified the Saanich police. Constable Rankin attended the call and found that the mysterious man was Semenoff, and on the demand of Mrs. Drayman arrested him.

Dometrius Drayman is employed by the Canadian Pacific Railway as a fireman on the Princess Royal.

OBITUARY RECORD

The funeral of the late Martha Caroline Hall, widow of Rev. Thomas from the residence, Lansdowne Hall, took place Saturday afternoon Road, Uplands. An impressive service was conducted by the Rev. F. A. P. Chadwick at the residence, the following hymns being sung: "On the Resurrection Morning" and "There is a Land of Pure Delight." There was a very large attendance of friends and many beautiful floral designs had been sent. After the service was concluded the remains were forwarded by the B. C. Funeral Company to Toronto for interment. The following acted as pallbearers: R. E. Brett, J. Killen, H. Gilbert, A. Wright, J. Ashworth, P. A. Devesaux, E. M. Brown and G. R. G. Bagnall.

Many friends in Victoria will learn with deep regret of the death, on August 13, of Florence, wife of H. A. Macdonald, Halifax. Mrs. Macdonald was a sister of Mrs. William Grant and Miss Ann Grant, who were married to Douglas Lake. Stage drivers say millions of the grasshoppers appear like great snow squalls in the sky and cover the roads two or three inches deep. Stock raisers are distressed, as the insect hordes rapidly cutting off the pasture for cattle. Passengers on the stage experienced great discomfort, men being compelled to tie their trousers and sleeves of their shirts while passing through the infected air.

MAYOR DOES NOT WANT HIS SALARY RAISED, HE SAYS

Will Fight Plan to Boost Salaries for Himself and Aldermen

Mayor R. J. Porter came out to-day in absolute opposition to the proposal of Alderman A. E. Todd's Civic Reform Committee that the salaries of Victoria's mayor and aldermen should be largely increased. The Mayor intimated that he would fight the proposed salary increase to the last ditch. He probably will have an early opportunity to oppose the plan, as the Civic Reform Committee's report, containing among other suggestions the salary increase recommendation, will come before the City Council for action to-night.

"I am absolutely and flatly opposed to the suggestion that the Mayor's salary should be raised to \$6,000 a year, and that aldermen should get \$100 a month," His Worship declared. "This is no time to increase expenditures. The city cannot afford to pay out any more money to its Mayor and 11 Aldermen under present conditions. From the point of view of finance it is a very unwise proposal. I shall certainly oppose it."

While some clauses in the Civic Reform Committee's reports undoubtedly will cause warm debate in the Council other reports probably will meet with the unanimous approval of the aldermen to-night. So far as is known no member of the Council is opposed to the proposal that city schools and the police department should be managed by committees of the Council. This is, in fact, a move which some aldermen have been urging for years.

MAYOR BESEIGED BY HARVESTERS

City Sends 75 Unemployed to the Prairies

Up to noon to-day the civic authorities had arranged to send approximately seventy-five unemployed men to the Prairies to help to harvest the prairie grain crop.

Ever since the city decided to assist harvesters to reach the harvest fields Mayor Porter has been kept busy signing the necessary vouchers and transportation forms. In fact, the city's chief executive has done little else but sign his name to harvesters' transportation applications for several days and the rush of unemployed seeking their fare to the Prairies is growing greater every hour.

As the city is not sending any men who can afford to pay their own transportation costs, the Mayor questions all applicants for transportation very carefully. "We have turned down a few men who were able to pay their own way," His Worship said this morning. "I intend to see that we help only deserving cases."

Many of the applicants for transportation to the prairies have told the Mayor that they have not even enough money to pay for meals on their trip east. One man told His Worship to-day that he was without money and had a family of eleven children.

PIERROTS ARE HAPPY

Lots of Fun Afforded Visitors to the Gorge by Entertainers

Peggy's Pierrots appearing at the Gorge Park are a happily and delightfully entertaining aggregation of artists and they are making a big hit with the hundreds who daily visit the popular resort.

Miss Kathleen MacDonald is a contralto who has won many friends here as a result of her singing. Sydney Crossley, the comedian, Dave Dumbledon and Joseph Haig add very materially to the success of the splendid programme. Last but not least, Peggy Lewis, who is responsible for bringing the clever company of artists together for the entertainment of the park patrons, is one of the most entertaining artists ever seen at the Gorge.

"To-morrow night will be amateur night for adults and good prizes will be given. On Thursday night the usual competition for children will be held and both these events are proving a big attraction and of great interest to all who attend. The Pierrots are showing every afternoon and evening."

Are You a Born Advertiser?

Certain merchants get a reputation for being born advertisers.

They may have earned the reputation. They were not born that way. Their particular genius has lain in the fact that, having marvelous faith in the power of Daily Newspaper Advertising, they went ahead with it regardless of immediate results.

They had courage. And the courageous advertiser gets the greatest rewards.

There are those whose temperament is not suited to Napoleonic tactics. Neither will their product or pocketbook permit them to use these tactics even if they were so inclined.

Daily Newspaper Advertising is as another brain to the sales force of these men. It is the one medium from which they get quick and accurate returns; and are so able to repeat their advertisements as often as conditions warrant, and the treasury justifies.

This is particularly true at this time of the year when the season, the weather, the change of fashion, the state of public mind and attitude of competitors, all combine to affect daily sales.

The born advertiser is not necessarily the large-space advertiser nor does he have to have more than one thing to advertise.

If he is quick to seize every incident in his daily life and capitalize it in his next day's advertising—the public will soon pay him that tribute of admiration expressed in the words "a born advertiser."

STARRING AT ROYAL

"Playthings of Destiny" Opens Engagement

Merit attaches to the whole production of "Playthings of Destiny," starring Anita Stewart, the Associated First National Pictures attraction which opened an engagement of six days at the Royal Victoria Theatre to-day. Seldom has such a dramatic story been told so skilfully, and rarely has an author hit upon a series of instances so certain to hold the interest of an audience. Combine these with

the excellent talent of the cast, and the splendid settings and effects that have been procured, and "Playthings of Destiny" becomes worthy of classification with the best screen entertainments.

Anita Stewart naturally has the stellar honors in the cast, but Herbert Rawlinson and Walter McGrath

as well as little Richard Headrick do work which entitle them to the highest of praise for the histrionic ability they display. Each of them does a bit of character building which makes their roles as real as if they had spent their whole lives in the environment surrounding the characters.

A short sketch of the plot of the story would give an entirely wrong impression of it. To say that a woman is deceived into committing bigamy, despite the fact that her entire love belongs to the first man she has married, sounds bizarre, but the circumstances which lead to just this situation in "Playthings of Destiny" are of the sort that no other course is possible for Julie Laneau, the character portrayed by Miss Stewart, to pursue.

"High and Dry" a Mermaid comedy, and "Screen Snapshots" are the two short subjects which have been selected to finish off the picture programme. The management are also pleased to announce that they have been able to secure for a short engagement only Miss Belle McEwan, dramatic soprano. Miss McEwan has just returned from filling her engagements in New York as prima donna with Carl Hyson Company in "Day Dreams," and with De Wolf Hopper, Lew Fields, and Nora Bayes in "Snapshots of 1921" at the Selwyn Theatre.

AN ALL STAR CAST

The personnel of the cast of "The Great Day" represents the best of the British stage can offer to the screen. Arthur Boucher, a Shakespearean actor of note, has an important role and is the featured player. Bertram Burleigh, who plays the hero part, is not only a well known actor of the English stage, but he has been seen in numerous photoplay productions. Marjorie Hume, the leading woman, is a well known actress who has scored in the films. Other notables of the cast include May Pallfrey, Mrs. Hayden Coffin, Percy Standing, Meggie Albanesi and Lewis Drayton.

By actual count 598,756 persons have seen "The Bat" in New York since it opened a year ago and 378,889 persons have watched the play in Chicago during the eight months it has been there. "The Bat" which comes here next season, will have been seen by more than 2,000,000 persons before it reaches here.

Picturization of Famous Play—"The Great Day," at the Variety, is a picturization of a successful Drury Lane melodrama written by George R. Sims and Louis N. Parker, two of the best known writers for the British stage.

A BRITISH PRODUCTION

The Great Day

A Hugh Ford Production with Arthur Boucher

THE man was lost in the black night of ruin! His memory a blank. His only friend this poor singed moth of the Paris lights.

His comrade, believing him killed in an Alpine chasm, married to his wife. Then—the GREAT DAY!

A radiant story of sunrise in human hearts. Actually filmed amid the allurements of Paris, the beauties of rural England and the everlasting snows of the Alps.

Presented by Famous Players—Lasky British Producers, Ltd.

WAS SCREENED UNDER DIFFICULTIES

"The Great Day" Now at the Variety, Filmed in Alps.

While the company of "The Great Day," the British-made Paramount picture which will be shown at the Variety Theatre starting to-day was in Switzerland, clouds caused trouble, as, of course, was to be expected in July, at a height of some eleven thousand feet. The company had for one of their guides a fine hefty looking fellow, who was about as literal in his interpretations of instructions as a man could be. Mr. Ford, for instance, pointed out a couple of cliffs which made a photograph impossible. "Do you think," said Mr. Ford, "you could get a shovel and shovel these away?" To this the guide replied: "It would be ver' difficult!" Then, Mr. Ford, having spied a slope of snow that was steep enough to be almost sheer cliff, turned to the guide and, really wanting informa-

tion this time, said: "Say, could a man slide down that?" "He could," replied the guide, "but he would kill himself." The same literalness nearly brought disaster to one of the players, Ernie Collins, who, held by a rope, was supposed to fall over a precipice. Hanging over a cliff, he found the guide was slackening out too slowly for the purpose of camera work, so he called out: "Let it go—faster, faster." Apparently misunderstanding the guide let it go altogether; and Ernie had a drop of some forty feet over the cliff's edge down on to a steep slope of snow, from which he was ultimately rescued unharmed!

DOUBLING FOR DEMPSEY.

House Peters, who plays the title role in "The Man From Lost River," a Frank Lloyd production for Goldwyn, went into a Los Angeles shop the other day to be measured for some shirts. After applying the tape to him the clerk announced: "Mr. Peters, you have the exact measurements of Jack Dempsey." "How many shirts did I order," inquired the actor, "Three." "Make it six, will you?"

"THE TYRANT."

At a dinner party of literary men during the Napoleonic wars Campbell gave the toast of Napoleon and was answered with violent execrations against "the tyrant," says The Manchester Guardian. He waited for silence, and then said: "Gentlemen, he may be all your say, but remember, he once shot a publisher." The toast was then drunk with acclamation. That is a view of publishers which has been widely held since Johnson felled the impertinent "bookseller" with one of his "own felloes," but it was the happy fate of Tauchnitz, who has just died full of years and honor to provide an outstanding exception to the rule—if rule it be. Tauchnitz was not so much an individual as a dynasty. It was founded at Leipzig in 1786, though it was the first Baron—who was born in 1816 and died in 1895—who established the house which has become world-famous. Tauchnitz fulfilled the double function of the ideal publisher, for he was a benefactor of authors and public alike. What Continental traveller has not recognized with joy those familiar paper covers on the bookshelves of some sequestered hotel, left there perhaps by other travellers? What Continental traveller has not smug-

gled over to England the fruit of his buyings up and down Europe? How many rainy days in Swiss mountains have been made tolerable by the invaluable Tauchnitz?

SPANISH AIRMAN KILLED BY FALL
 Santander, Spain, Aug. 14.—The body of the aviator, Florentino Villa, who had been reported to have been found to-day at the bottom of a deep gully among the Castro Zepena Mountains.
 A Mechanic, who was accompanying the aviator when he met his death, also was found. He was dangerously injured when the machine fell.
BAGDAD TO JERUSALEM.
 (Manchester Guardian).
 The Air Ministry announced the other day that planes had prospected a new road from Jerusalem to Bagdad across the desert. From Cairo there now comes some account of what has been accomplished. These two great capitals of the past are let us hope of the future, are divided by a belt six hundred miles wide, of almost impassable desert. The caravan of the ancients found new and perilous ways across it, and these are marked on reliable maps by thin lines that alone disturb the blank surface of a terrible No-Man's-Land. The best of these, the time-honored way from Jerusalem to Bagdad throughout the centuries, went north to Damascus before it struck across and took 1,300 miles in its course. But the aeroplane can find a way where the camel cannot. Three planes, scouted overhead for a convoy of armored cars, fitted with wireless, have struck as nearly as possible straight across this appalling waste, and their bird's-eye view has seen a way through trackless, waterless desolation and through mazes of sand mountains which have defied and killed the adventurer by land. As a result the distance between Jerusalem and Bagdad has been halved, and a virtual bee-line has been met through Amman and Ramadid may now take the place of the longer way painfully found by the travellers and merchants of old. It has been fully perfected when Maude and Allenby were driving the Turk north, each on his own side of the desert, a decision in the Middle Eastern campaign might have been reached before it was. But the strategic will, it is to be hoped, be the least of the values of the new road in the future. It should perform a finer task than any in war—the helping of trade intercourse and mutual understanding in a land whose future these are all-important.

RAIN SPOILS FINAL TEST CRICKET MATCH
 England Bats First and Scored 129 With Four Out Against Australians
 London, Aug. 15.—(Canadian Press Cable)—The start of the fifth and last test cricket match between Australia and England at Kensington on Saturday was delayed until 12.15 o'clock owing to the rain that fell during the morning.
 A large crowd was on hand to witness the match.
 The Incogs triumphed over the Garrison and the English champion won the toss and decided to bat first. The wicket was wet on top, but hard below.
 Two fast bowlers, Gregory and McDonald, opened the attack for the Australians.
 After lunch the match was resumed, but soon stopped by rain and two and a half hours elapsed before the weather became brighter. The game

Congos Unable to Do Anything With Laurence's Bowling; Lost by Innings
 Five C's bowlers were too deadly for the Congos in their match at the Jubilee Grounds on Saturday and the two great capitals of the past met his other Canadian border towns and whistly shipments were discernible. Beer shipped Saturday was reported to have been headed for Toledo and other late and river cities. At least seventy-five state troopers here from Detroit to patrol the waterfronts of Detroit and suburbs.

AUSTRALIAN TENNIS TEAM DEFEATS DANES
 Cleveland, Aug. 15.—Australia advanced towards the acquisition of the Davis Cup here on Saturday when its doubles team, J. C. Anderson and Clifford Todd, clinched a victory in the semi-final round of the challenge play by defeating Erik Tegner and Paul Henriksen, of Denmark, in straight sets, 6-3, 6-3, 6-3.
 Two singles matches remain to be played in the encounter, but they will have no bearing on the matter other than making the Anzac victory conclusive.
 A special messenger, sent by Cetero, famous costumer of Madrid, has just arrived in New York, bringing with him an entire new set of costumes which are to be worn in Wagonhair and Kemper Co.'s great dramatic novelty, "Spanish Love," which will be seen here the coming season, following an engagement of ten months in New York.

These two great capitals of the past are let us hope of the future, are divided by a belt six hundred miles wide, of almost impassable desert. The caravan of the ancients found new and perilous ways across it, and these are marked on reliable maps by thin lines that alone disturb the blank surface of a terrible No-Man's-Land. The best of these, the time-honored way from Jerusalem to Bagdad throughout the centuries, went north to Damascus before it struck across and took 1,300 miles in its course. But the aeroplane can find a way where the camel cannot. Three planes, scouted overhead for a convoy of armored cars, fitted with wireless, have struck as nearly as possible straight across this appalling waste, and their bird's-eye view has seen a way through trackless, waterless desolation and through mazes of sand mountains which have defied and killed the adventurer by land. As a result the distance between Jerusalem and Bagdad has been halved, and a virtual bee-line has been met through Amman and Ramadid may now take the place of the longer way painfully found by the travellers and merchants of old. It has been fully perfected when Maude and Allenby were driving the Turk north, each on his own side of the desert, a decision in the Middle Eastern campaign might have been reached before it was. But the strategic will, it is to be hoped, be the least of the values of the new road in the future. It should perform a finer task than any in war—the helping of trade intercourse and mutual understanding in a land whose future these are all-important.

MASTERS OF OTHER SHIPS COMPLAINED ABOUT COMPASSES

Interesting Evidence Submitted by Capt. W. Finglass at Wreck Inquiry

Vancouver, Aug. 15.—The most interesting evidence given on Saturday at the investigation of the wreck of the S.S. Canadian Exporter was that of Captain William Finglass, assistant marine superintendent for the Canadian Government Merchant Marine, in charge at Vancouver.

Asked as to the compasses on the ships of the fleet, he said, in answer to a number of questions that the four Coughlan ships, Canadian Exporter, Canadian Importer, Canadian Inventor and Canadian Prospector, had all been fitted with the same compasses and the masters of all had complained. The instruments were not as modernly equipped as some. Captain Eddie, Captain Williamson and Captain James had inspected the instruments and Captain Eddie and Captain James had reported to Ottawa to the Department which had asked them to act. Captain Williamson's report was filed here. So far as the witness knew the compasses had been serviceable.

Were Replaced. Nevertheless the instruments on the Canadian Prospector and Canadian Inventor were removed six or seven months ago and replaced with new ones, while the Importer compass was taken out and replaced with a new one during the past week on wired instructions from Montreal. The witness could not say whether the loss of the Exporter had any effect on causing the wired instructions from head office or whether it was merely a coincidence.

Captain Bradley was recalled and gave further details of the unsatisfactory nature of the compasses. Chief Officer Campbell testified that the Azimuth mirror was not properly centred in the standard compasses on the Exporter but said he had seen better and worse compasses.

PRINCESS ENA IS PROCEEDING NORTH

Boat Not Damaged When She Rested on Shoal Near Alert Bay

No apparent damage was sustained by the Canadian Pacific Railway steamer Princess Ena when she touched bottom off Gordon Point, Race Passage, early yesterday morning while feeling her way into Alert Bay in a dense fog.

According to a wireless dispatch received this morning by Capt. J. W. Troup, manager of the B. C. Coast Steamship Service, the Princess Ena, Capt. Sainy, is proceeding north-bound, and at 6 o'clock this morning was reported off Pine Island.

The Princess Ena was heading into Alert Bay with a coal barge in tow, and when picking her way through the dense fog she rested on a shoal, and remained there for six hours when she floated off with the rising tide. The damage, if any, was slight. The vessel proceeded on her course as soon as the fog permitted. The Ena left Nanaimo Friday afternoon, and is bound for Alaska ports with freight.

Thick Fog Reported. Thick fog has been reported all along the coast and coastwise boats have been seriously handicapped. The steamer Princess Beatrice, which is replacing the Princess Maquinna on the west coast of Vancouver Island route, is running considerably behind schedule owing to fog.

She is now bound for Quatsino Sound to River's Inlet, to pick up Indians who have been employed at the canneries.

IXION IN ORIENT WATERS BOUND FROM ENGLAND TO COAST

Returning to the trans-Pacific service of the Blue Funnel Line, the British steamship Ixion, from Liverpool, cleared from Singapore August 8. The Ixion will load freight at Hongkong, Manila, Shanghai, Kobe and Yokohama for ports on this coast and will arrive here next month. She is replacing the Teucer, which has been sent back to the United Kingdom.

HOBEY MAY HAVE EXPECTED DEATH

Partner Believes Skipper of Alaska Had Premonition

Seattle, Aug. 15.—Did Capt. Harry Hobey, commander of the wrecked steamer Alaska, have a premonition of his death?

J. L. Larimer, business partner and best friend of the drowned captain, is unable to free himself of the thought that Hobey had a vague feeling when he took command of the Alaska that it might end in tragedy. Larimer described his friend's misgivings.

"He was ordinarily a man of quick decisions," he explained. "Yet he changed his mind a dozen times in my presence in this office before he decided to take a command on the California route. Finally he threw up his hands and said, 'Oh, what's the difference.' The next day he informed the company that he would take command of the Alaska."

"We were partners in various business projects. He left their management entirely to me. Just before he cleared from here he said to me one day, 'Are our accounts straight, Larimer?' Is everything all right legally? He never asked such a thing before. I believe I was hurt at the time."

Mr. Larimer told how Captain Hobey, after taking Larimer's grandson, Jack Charleston, on the Alaska with him as a bell-boy advised the boy on the trip before the fatal one, to leave the boat at Portland and return to his home here. He gave no reason for the advice, only telling the boy he thought his grandfather was lonely without him.

SALMON PROVED IRRESISTIBLE BAIT FOR HUNGRY COD

Most Remarkable Fish Story of Season Comes From Brentwood

The best fish story of the season comes from Brentwood. One of the most ardent sportsmen of the district who assiduously plays for salmon with the trolling line on Saanich Inlet yesterday hurled a fishy bombshell into the ranks of the amazed Brentwood campers, and the authenticity of the story is vouched for by eyewitnesses who had an unimpeachable reputation for truthfulness.

Here is the story. The fisherman in question was fishing deep with a trolling line weighted with a heavy lead, and with the launch chugging along on the surface of the untroubled waters of the picturesque Inlet, he contemplated with mixed feelings the prospects of the day's haul. All of a sudden there was a tug on the line, and almost simultaneously, another and more deliberate tug. Feverishly the heavily weighted line was hauled in and after a desperate fight the gaping mouth of a huge cod appeared astern, and the fish was just as promptly speared. The cod was a tremendous size. The fisherman had his suspicions. Arriving ashore he brought his knife into play and ripped the codfish open. Inside the codfish was disclosed a fine whole salmon, weighing about twelve pounds. The salmon had gulped down the bait and in turn had been gulped down by the hungry cod.

Perhaps the best feature of the model yacht race was the interest displayed by outsiders, and a large entry is anticipated for the model race space of the future. It is planned that the younger yachting enthusiasts to form a "Model Yacht Racing Club," and some exciting racing events are promised.

The next race is set for August 28, when it is expected handicap rules will be enforced. In yesterday's race a model was entered by Master Goby, a youngster still in his teens, which, although smaller than the rest of the entries, made a particularly good showing. Master Goby sailed in the dinghy at Cudboro Bay on Saturday and came, in second much to the surprise to the veterans of the game.

CANNING QUALLA

Arrangements were made by the finance committee of the New Westminster City Council last week to rent three-quarters of the Cleve cannery wharf and buildings for the months of September, October and November, to J. A. Reid, a well known Fraser River fisherman. Mr. Reid and his associates plan the operation of an establishment for mild curing qualla, commonly known as dog salmon, for the export trade. This commodity is exported to the Orient, where it finds a market.

MYSTERY SLOOP WON MODEL RACE

G. Roberts Surprise His Competitors with "Viola," Ernie Adams's Disqualified

"Viola," the mystery sloop entered by George Roberts in the model yacht race on Sunday, was the first across the finishing line at Cudboro Bay. Getting away to a good start the Viola outstripped the other models over a mile course and finished by a good margin in the first event. The schooner-rigged "Kewpie," entered by Dick Bird, romped home in second place.

Maxie Disqualified. The sloop "Maxie," designed and built by Ernie Adams, was disqualified. Ken Adams' "Go-Duck" behaved in a way that disappointed its builder.

The "Maxie" carried a patent rudder, which failed to work properly, and she cut loose in circles, every puff of wind making her perform all kinds of inexplicable capers. Ernie was far from being satisfied, and, acting on the impulse of the moment, he lifted the "Maxie" out of the water, fixed up her steering apparatus, rowed over to an advantageous point, and set her on the course again. For this act, the "Maxie" was promptly disqualified.

Won Second Race. Convinced that his boat had everything else backed off the water, Ernie Adams entered a verbal protest, so, in order to appease his ruffled feelings, another race was allowed, and this time the "Maxie" came in first. The "Maxie" undoubtedly showed class and will be a contender in future races.

It is maintained by yachtsmen experienced in the regular sailing game, that the model yachts were built in a hurry and consequently were not properly finished. The boys, these authorities state, are fast learning what is required to make the yachts hold the course, and in the building of new boats many improvements will be noticeable.

Much Interest Shown. Perhaps the best feature of the model yacht race was the interest displayed by outsiders, and a large entry is anticipated for the model race space of the future. It is planned that the younger yachting enthusiasts to form a "Model Yacht Racing Club," and some exciting racing events are promised.

The next race is set for August 28, when it is expected handicap rules will be enforced. In yesterday's race a model was entered by Master Goby, a youngster still in his teens, which, although smaller than the rest of the entries, made a particularly good showing. Master Goby sailed in the dinghy at Cudboro Bay on Saturday and came, in second much to the surprise to the veterans of the game.

JAPANESE FREIGHTER BATTERED TO PIECES; ONE OF CREW SAVED

Kobe, Aug. 13.—Forty-five seamen are believed to have been drowned following the wreck of the freighter Shichu Maru, which was disabled by a typhoon and battered to pieces on the rocks off the Loo-Choo Islands. Only one of the ship's personnel is known to have survived.

PROSPECTOR LYINF AT YARROWS' WHARF

The S. S. Canadian Prospector, after being floated out of the Esquimalt drydock, was taken to the wharf at Yarrows, Ltd., where she is undergoing Government inspection. She will get away this week for Vancouver to load for the Orient.

PROPOSAL IRELAND BE A DIMINION IS REJECTED BY VALERA
 (Continued from page 1.)

Ireland would have control of her own educational and industrial affairs, but the British navy would maintain its hold on the seas around the island. A share of the United Kingdom's debt would be assumed by Ireland, the exact amount to be fixed by arbitration.

Valera's Reply.
 De Valera, in reply, demanded full independence for Ireland and suggested a treaty of association with the British Commonwealth group. He proposed regulating trade and immigration or armaments, and suggested that the Irish themselves for solution, De Valera declaring that the employment of force was not contemplated.

TO-DAY'S TRADING IN WINNIPEG MARKETS
 Winnipeg, Aug. 15.—A feature of today's somewhat dull market was the spread between cash wheat and the October future contract. This ranged around 12 cents with cash wheat selling at 191 1/2 and the October fluctuating within fractions of 149, spreads between October and November are only from one to three cents and November and December only five cents, so that this large difference is altogether abnormal. It is probably caused by a shortage of Northern wheat on the spot shipments, and has thrown the market out of line with the others. Wheat futures were all very dull and worked to lower levels after this opening. The volume of business was not large and wheat closed 3/4 cent to 1/2 cent lower.

DR. BRUMFIELD ON HUNGER STRIKE MURDER CHARGE
 Calgary, Aug. 15.—Dr. Brumfield, a dentist of Roseburg, Oregon, in jail here awaiting transportation back to his home, has eaten nothing since Saturday noon. He refuses to say a word about the crime with which he is charged. Constables will arrive Monday to take him back. He is being closely guarded.

IRREGULAR MARKET HERE TO-DAY
 (By Burdick Brothers Ltd.)
 New York, Aug. 15.—The stock market was a very spotted affair to-day with some stocks showing gains, while other groups were subject to pressure. The rail and steel stocks were less susceptible to selling orders and withstood the raid in a vigorous fashion. Harvest and a number of the equipments, together with oils under the leadership of Mexican Petroleum, were unable to show a downward swing in these issues, and short sellers were rewarded by their efforts. No particular news.

HOSPITAL EXPERT IN CONSTRUCTION COMING TUESDAY

Dr. Goldwater, of Mount Sinai Hospital, Suggested for Jubilee Hospital

Dr. S. S. Goldwater, medical superintendent of Mount Sinai Hospital, New York, who is expected in Victoria tomorrow, is recommended as an adviser in connection with the new Jubilee Hospital buildings. Dr. Goldwater was responsible for the present Mount Sinai Hospital buildings. The Kiwanis Club has received an acceptance from him to speak tomorrow evening, probably at the Empress Hotel.

Dr. Goldwater is the most noted expert on hospital construction on this continent, and is now on his way to the Orient in connection with the building of a hospital in China for the study of tropical diseases. This work is being carried out under the auspices of the Rockefeller Foundations.

In recommending that Dr. Gold-

Ontario Commissioner Of Natural Gas Settles In City With Family

Describes Tour Across Continent By Automobile En Route to Reside Here; Praises B. C. Roads.

Victoria has just secured a most welcome resident in E. S. Estlin, late Commissioner of Natural Gas, Chatham, Ontario, who is moving his family here, on giving up his association with the Bureau of Mines of Ontario. He intends to interest himself in the development of British Columbia resources.

As commissioner, he had under his jurisdiction the care of about 8,000 oil wells and 4,000 natural gas wells; also all development and exploration work over the province of Ontario.

He is now here with his eldest son, and of the journey across the continent by automobile he has an interesting story to tell.

Crossed in Ford Car.
Mr. Estlin and his two sons left Chatham, Ontario, on July 12 to drive across the continent to Victoria. The journey was made in a Ford car fitted up with sleeping berth and cooking conveniences. A unique feature of the undertaking was the fact that this car has been in use by Mr. Estlin and his family for nine years, and has traveled over 87,000 miles before bringing the party across the continent.

The Route.
The route taken, Mr. Estlin explains, was via Detroit, Chicago, St. Paul, Minneapolis, through North Dakota to Fargo, and across the Manitoba line at Battineau, about 200 miles west of Winnipeg to Melita, where Mr. A. B. Estlin resides. A stop of a few days was made here, and the party proceeded by way of Regina, Sask., 600 miles over the prairie roads to Kerrobert, Sask., where a visit was paid to Mrs. Estlin's parents, and here the younger son was left.

The party then came on to Calgary and McLeod and crossed the boundary at Kingsgate to Spokane and Seattle. Several days were spent in Seattle.

Mr. Estlin appears to have experienced every variety of road in every possible condition, and it is rather remarkable that only twice was any needed in the rear tires, which were new diamond treads. Only three small tacks were picked up. The front tires being several years old were changed to two spares, also old ones. This was not on account of a blow out, but to get some injuries repaired.

Camping Out.
The condition of the car is as good as at the beginning, he said. No accident of any kind interfered with the pleasure of the journey. Through-out Michigan, Indiana, Illinois, Minnesota, and Dakota, the evening camp was generally made in the country school grounds, but when Idaho and Washington were reached, very good public camping places were provided by the towns and villages.

This seems to be a feature which is being caused to receive attention in the United States, and is very much appreciated by the automobile tourists, all of whom are people of high standing, and of which camping forms not the least interesting feature.

Road Conditions.
Referring to the quality of roads, Mr. Estlin says there is no road equal to the untouched prairie trail, the two runs in the soil, smooth and springy; but the worst form of road is one which should be renounced from an engineering, economical and motorist point of view is where money is wasted in grading up prairie roads and piling up sods in the centre. No one can run a car over them, and the sods only rot down during the year, leaving the centre in holes, which catch the water and ruin the road, yet the practice is maintained with great persistency. The roads in the United States were well marked, but there was practically but little repairing done during the year. Some detached portions of paving have been laid in the national highways, but this is rapidly being ruined because of the freight traffic between centres, which is carried on by huge motor trucks by thousands. These trucks, said Mr. Estlin, are taking care of much of the local freight because of the prohibitive freight rates, "a tribute to the colossal folly of destroying traffic by excessive rates," he declares.

Hundreds of thousands of tourists are making trips by motor instead of train for the same reason.

There is considerable road work being done now on the national highways, and Mr. Estlin says, "We travelled on detours for many days. The farther west we came in the United States, the better the roads and the better the accommodation."

Praises B. C. Roads.
"I have not seen anywhere in my experience roads to equal those on Vancouver Island," remarked Mr. Estlin. "It is the highest form of wisdom to build roads and build them right, and this has been done in British Columbia. I have seen some mention in the newspapers of incivility, and want of courtesy from officials, but I can only say that having crossed the border at the St. Clair River, Ontario, and again in the West and back into Canada I have found in every case those officials to be good fellows—the very best—in no case was my car inspected, but I was helped and trips made pleasant for me, can truthfully say the same for any transportation officials encountered. I think anyone who remembers that these men are human beings and treats them as such will get a smile and a helping hand."

Touring by Car.
"Motor touring is on the increase and accommodation will be as necessary for camper comfort and convenience as hotels. It took us fifteen years to halt the motor vehicle behind a standing street car, let us not take as long to see that the motor car, which really represents some of the finest people on the continent, can drive into our cities and locate without trouble. The best spot for touring with conveniences that can be found—and it will pay the community many times over," he said in conclusion.

VICTORIA MEN PROVE HEROES

Visiting Swimmers Save Lives in Skaka Lake

A quadruple drowning fatality at Skaka Lake was narrowly averted on Monday night, says The Penticton Herald, through the bravery of E. Wade and L. Muirhead, both of Victoria, who are visiting with friends in the town.

A party of friends had gathered there to go in swimming. Among them were Mr. and Mrs. L. H. Alderman, Mr. Arthur Smith, who is Mrs. Alderman's brother; Mrs. I. M. Stevens, Mr. Huntington, Mr. E. Wade, Mr. L. Ewart and Mrs. Max Ewart.

Mrs. Alderman and her brother entered the water on the right hand side of the wharf, and were swimming around waiting for Mr. Alderman to join them, when suddenly Mr. Ewart man found herself sinking. She was unable to get her head above water to cry for help, but her husband, although unable to swim, went to her assistance. He found himself unable to raise her, but succeeded in keeping his own head above water and called for help. The part of the lake where they were deeper than they expected, probably owing to a hole at that particular spot. Mr. Arthur Smith endeavored to assist him but also found himself in danger of drowning, as he could swim but little.

Fortunately Mrs. Stevens heard the cries for help. Mr. Wade, Mr. Muirhead and Mr. Huntington went after her. Mr. Wade and Mr. Muirhead succeeded in bringing Mr. Ewart and Mrs. Alderman ashore, but Mr. Huntington upon reaching Mr. Smith, found himself gripped by the latter's legs and both went down. Mr. Wade again went to the rescue and brought out Messrs. Smith and Huntington.

The shock left the whole party in a very nervous condition and Mr. Ewart brought refreshments from his home, to which place the whole party later adjourned until sufficiently recovered to go to their homes.

THIS HOSPITAL MAN IS NOW CONVINCED

Denman of Vancouver Says He Believes That Tanlac Has No Equal

"I have seen a lot of medicines in my time, but I have never run across one that could measure up with Tanlac when it comes to building a man up and making him feel fine," said George Denman, 248 West 1st, Vancouver, B. C., well-known hospital attendant.

"I have had a lot of experience with medicines, have taken them myself and seen them prescribed for other people but I never have seen one that acts as satisfactorily as Tanlac. It has just about made a new man out of me, for when I began taking it my appetite was so poor I didn't relish my food, and was so nervous the least noise would make me jump like I had been shot at."

"I was convinced that Tanlac is a good medicine from reading the statements of people who had been helped by it, and that is just the reason that I am willing now to make a statement in its behalf. It has good things ought to be passed along and everything agrees with me and I sleep and feel better than I have in years. There is no doubt in my mind that Tanlac is the grandest medicine in the world."

Tanlac is sold in Victoria by Duncan E. Campbell and leading druggists everywhere. (Adv.)

CATERING PROVED A GREAT SUCCESS

The Veterans have made good with the concession granted to them for the race meeting at the Willows, it is understood to-day.

This is the first time that a soldier's organization has undertaken such a plan. The authorities at the race track, have complimented this organization on the businesslike manner in which the public were looked after, also the courteous way in which the needs of the members would be client. Hot dogs, four different varieties of sandwiches, innumerable kinds of soft drinks off the ice, as well as butter milk, lead milk, coffee and iced watermelon, were obtainable along with vanilla ice cream, at the long lunch counter at the end of the betting enclosure. A staff of boys, none of the members of the organization, looked after the wants of the public in the grandstands, and finally a big marquee was erected to feed the staff that was over with the petties.

Veterans worked from 10 to 12 hours daily while the meet was on, and are

NEWS AND NOTES OF THE MINES

Silversmith Mines.
The annual report of the Silversmith Mines, Ltd., has been prepared and issued at the fourth ordinary general meeting of shareholders of the company, held at Sandon on August 4, 1921. Report covers fiscal year ending May 15, 1921.

Cash surplus shows a sharp reduction from that of six months ago, when this company had approximately \$105,000 on hand, but this is probably accounted for largely by outlay necessary for purchase of mill and water rights of Minnesota Silver Company. Classing Victory bonds as cash the company had on May 31 a surplus totalling \$24,191.45, which will of necessity be further reduced by the time mill improvements and tramway construction now in hand are completed. Profit and loss account shows gain for the year to be \$20,196.88.

Sales of ore totalled 2,195 tons, netting \$38,464.54, as compared with 2,982 tons the year previous netting \$205,998.68. Expenditures totalled \$240,277.55, as compared with \$191,618.45 the previous year. No figure on the debtor side of the profit and loss account indicate the amount paid for Minnesota Silver Company's mill and water rights, but a hundred per cent increase in depreciation and depletion reserve accounts indicates that the sum was absorbed in those accounts, so that a rough estimate would place the amount paid at \$36,000.

Tonnage mined was 15,759, as compared with 12,400 tons the preceding year, and 15,355 tons went to the mill. Ample ore reserves have been maintained, the new ore developed being at least sufficient to replace that extracted during the year. The report states. Net milling time was 212.4 days. Mill feed averaged 21 oz. silver, 10.5 per cent. lead, and 10.2 per cent. zinc. Shipments totalled 154 tons crude and 2,821 tons of silver-lead concentrate. Zinc concentrate accumulation is 2,900 tons.

PAYING WITH FISH-HOOKS.

In odd corners of the world many queer things are used as money.

In China you may find in circulation lumps of gold or silver bearing marks which show that they were first issued hundreds of years ago. In shape they are square, oval, or oblong, and they weigh anything up to one and a half pounds. The Chinese also use small strips of brass or copper, some of which are worth less than a hundredth of a penny. Some of the Moscovite tribes pay their bills with little cubes of compressed tea.

In Burma one finds the cowrie shell used as money, while little porcelain coins take the place of halfpence. The inhabitants of some of the districts bordering the Persian Gulf do their buying and selling with fish-hooks of various sizes.

Africa provides a weird assortment. Beads, elephant tusks, and spear heads are all used as coins.

In Oceania flint axes are the most common means of exchange, but we find considerable use made of porcupine feathers woven into ropes. The real wild Red Indian hardly extorts now, out in a few remote countries, such as Alaska, he is still to be found using his shell money.—Tit-Bits.
