- 1523 [FITZHERBERT'S HUSBANDRY] A newe tracte or treatyse
moost profytable For All Husbandmen . .
Imprinted . . by Rycharde Pynson [in or before 1523].
Small 4to. *

In Pinson's edition of Sir Anthony Fitzherbert's *Boke of Surveying*, printed in 1523, this book is mentioned as having been already published. Its date cannot therefore be later than that year. The authorship by Sir Anthony Fitzherbert is considered doubtful, and in the B. M. Catalogue it is suggested that John Fitzherbert may have been the writer; but it is clear that Pinson and Berthelet both regarded the judge as the author. For a full discussion of the subject, it will be well to consult the reprint of the *Treatise*, which was edited by W. W. Skeat for the English Dialect Society in 1882, and also a paper read by Mr. Ernest Clarke, M.A., F.S.A., before the Bibliographical Society in 1896, in which the arguments in favour of the authorship of John, Sir Anthony's elder brother, are very strong.

- another edition. Small 4to. in the B. M. supposed to
have been printed about 1525
— another edition. Thomas Berthelet, 1534. Small 8vo.
— another edition, by the same printer in 1548. Small 8vo.
Various other editions exist.

— A boke of the proprietes of Herbes called an herball . .
Also a generall rule of all maner of Herbes drawn
out of an aunycnt booke of Phisyck by W. C.
W. Copland for J. Wyght [1552?]. Small 8vo.

The letters W. C. are supposed by the B. M. cataloguers and by the older writers to mean Walter Cary, whose name appears on the *Farewell to Physicke*, printed by Denham in 1583; but others, including the writer in the *Dict. of Nat. Biogr.*, take them to mean William Copland the printer; and it is to be remembered that they occur for the first time in Copland's edition.

- other editions by Skot and Kytson; both undated

- 1527 JEROME OF BRUNSWICK-ANDREW. The vertuose boke of Distyllacyon of the waters of all maner of Herbes . . compyled by . . Master Iherom bruynswyke. And now newly Translate out of Duyche into Englysshe [by Laurence Andrew]. Imprinted at London . . by me Laurens Andrewe . . Mccccxxvii. Folio
The translator (who was also the printer) gives his name in the Prologue.

(An edition of 1525 is mentioned in Herbert's Ames; but it had probably no existence.)

There were two issues of the book in 1527, but only the leaves at beginning and end were reprinted. The body of the book is identical in each. The first issue is dated the 17 April; the second is dated the 18 April. They are both in the British Museum.

See also under date 1561.

 (The copy in the British Museum is presumably unique.) Several varying and augmented editions of the "Hundreth good Pointes" were issued between 1561 and 1571. The first edition of the "Five Hundreth Points" (Tusser's enlargement of the former) came out in 1573.
 — Five hundreth points of good husbandry united to as many of good huswiferie . . R. Tottel, London, 1573 . . 2 parts, small 4to.
 Reissued at least twice (in 1576 and 1577) before the appearance of the final and complete edition in 1580.

 The parent edition of all which followed, and the last which was published by Tusser himself.
 The reprints were numerous from that time onwards.

- Later editions were printed in 1579, 1586, 1593, and 1608, and in the last two of these a "Treatise on Bees" is included.
- The author was probably the same person as Didymus Mountain who wrote the Gardener's Labyrinth.
