SUBJECT: Petition for Installing Additional Equipment In Plant  
No.3

Sir:

To proceed more productivity in manufacturing parts of Yarn Preparatory Machines by the subject plant, the below mentioned machines are come to requested as the additional equipment.

I hereby submit this petition for your permission of installing the additional equipment at your earliest convenience.

1. Name of machine: Horizontal Lathe  
Capacity & Type: All Gear Type  
Swing Dia. 340 m/m  
Center to Center 600 m/m  
Quantity: 1  
Manufacturer: "The Ensatsu Iron Works"  
Seller: Tawara Shoten, Nagoya  
Reason for equipping: For the use of making screw cutting of Sizing and Beam Warping Machines parts.
2. Name of machine: Square Shearing Machine  
Capacity: 5mm x 2000mm  
Quantity: 1  
Manufacturer: Nippon Tanatsu Kogyo K.K.  
Reason for equipping: For cutting Iron Plates which are turned out to be parts of Sizing Machine.

OSAKA PREFECTURAL GOVERNMENT

Aug. 27, 1947

TO : Military Government Team  
FROM: Osaka Liaison Office  
SUBJ: Application for Permission of installing additional Machinery No. 32 & 33 in the (plant No. 3) of Nippon Tan-atsu K.K.

With regard to the above subject, the application was made to us by the plant No. 3 of Nippon Tan-atsu K.K. as per attached papers.

It is deemed on our part that the above additional machinery is necessary for improving the repair and manufacture of the weaving machines in this factory.

So, we respectfully invite your honorable consideration for the approval of the application as above mentioned.

FOR THE GOVERNOR OF OSAKA PREFECTURE

  
Head of Osaka Prefectural  
Inspection Section

NIPPON TANATSU KOGYO K. K.  
PLANT NO. 3  
300, Ohmachi, Kishiwada City

August 26, 1947

SUBJECT: Application for Installing Additional Machinery  
THROUGH: Osaka Prefectural Govt., Reparations Section  
TO: Osaka Military Government Team

I herewith submit this application for installing and using the below mentioned machinery in Plant No. 3, which is presently engaged in the manufacture and repair of preparatory weaving machines. Your favorable consideration is earnestly requested.

1. Details of subject machinery

Name of machine:	Horizontal Boring Machine
Capacity:	Diameter of boring bar, 5"; with 5 HP drive motor
Seller:	Hirai Shoten
Manufacturer:	Toa Seiki Co., Ltd.
Date of manufacture:	Unknown
To be installed in:	Plant No. 3

2. Purpose of installing subject machinery

The subject machinery is proposed to be installed in Plant No. 3 for boring the frames of sizing and warping machines. Insufficiency of boring machines has caused unnecessary delay in the production, so subject machine is deemed essential for the production increase which will virtually lead to the contribution toward the rehabilitation of the Japanese economy.

*H. Takemitsu*  
Director.

NIPPON TANATSU KOGYO K. K.  
PLANT NO. 3  
300, Ohmachi, Kistiwada City

August 26, 1947

SUBJECT: Application for installing additional Machinery  
THROUGH: Osaka Prefectural Govt., Reparations Section  
TO: Osaka Military Government Team

I herewith submit this application for installing and using the below mentioned machinery in Plant No. 3, which is presently engaged in the manufacture and repair of preparatory weaving machines. Your favorable consideration is earnestly requested.

1. Details of subject machinery

Name of machine:	6 ft. double-housing planer
Capacity:	2000 mm. maximum length of work 1000 mm. maximum width of work 1000 mm. maximum height of work
Seller:	Hirai Shoten
Manufacturer:	Wakayama Kikai Teisakusho
Date of manufacture:	Unknown
To be installed in:	Plant No. 3

2. Purpose of installing subject machinery

The subject machinery is proposed to be installed in Plant No. 3 for planing the frames of sizing and warping machines. Lack of proper machines has caused unnecessary delay in the production, so subject machine is deemed essential for the production increase which will virtually lead to the contribution toward the rehabilitation of the Japanese economy.

*H. Takachi*  
Director

NIPPON TANATSU KOGYO K. K.  
PLANT NO. 3  
300, Ohmachi, Kishiwada City

August 26, 1947

**SUBJECT:** Application for Installing Additional Machinery  
**THROUGH:** Osaka Prefectural Govt., Reparations Section  
**TO:** Osaka Military Government Team

I herewith submit this application for installing and using the below mentioned machinery in Plant No. 3, which is presently engaged in the manufacture and repair of weaving machines. Your favorable consideration is earnestly requested.

1. Details of subject machinery

Name of machine:	12 ft. all gear type lathe
Capacity:	1600 mm. center to center, 740 mm. swing diameter
Seller:	Wakayama Kikai Seisakusho
Manufacturer:	Wakayama Kikai Seisakusho
Date of manufacture:	Unknown
To be installed in:	Plant No. 3

2. Purpose of installing subject machinery

The subject machinery is proposed to be installed in Plant No. 3 for manufacturing shafts and drums of warping machines. There are only one large size lathes installed in this plant for such purpose, so subject machine can greatly accelerate the delayed production of warping machines. Therefore, this additional installation is deemed essential for the production increase which virtually leads to the contribution toward the rehabilitation of the Japanese economy.

SCAF 1949 COMPLIANCE INSPECTION

1. Plant Name: Nippon Tanatsu Kogyo, Plant No.3
2. Location: 300 Ohmachi-cho, Kishiwada-shi
3. Plant Code Number: 32-38
4. Date of Inspection: 23 May 1949
5. Total Number of Machines: 79
6. Number of Machines in Operation: 56
7. Number of Machines not in operation: 23
8. Storage Condition: Good
9. General Condition of Machines: Good
10. Instructions and Orders:
  1. Clean and store change gears properly.
  2. Keep oil cups on lathes filled with oil.

11. Remarks:

This plant is producing textile machine parts, an item included in their reconversion permit. No violation of permit was noted. This plant was last inspected on 21 Apr.49. Past inspection has found this plant to be good. All previous instructions have been complied with satisfactorily. Slight improvements have been made since last inspection was made. There are two electric heat treating furnaces in this plant which were originally classified as scrap. Mr. Nishikawa, accompanying prefecture inspector was instructed to make a survey of the furnaces to establish their condition. If the furnaces can be economically repair they will be listed in the additional inventory and held in custody until ~~final decision can be made~~ by the evaluation committee. No violation was noted in the use of arm bands, identification buttons and general security of the plant. Fire fighting equipment was found to be adequate. Electric wiring is satisfactory. This plant will again be inspected within a period of one month.

*Sgt. E. M. Bailey*
