

**TRUSTEES' MEETING**

**ADOPT RESOLUTIONS CONFIRMING APPOINTMENTS OF DEPUTY CLERK AND ASSESSOR**

The board of trustees met in regular session at the city hall at 7:30 p. m., April 24, 1916. All members present at roll call.

The minutes of the last regular meeting of April 17th were read, and upon motion of Trustee Muhleman, corrected on Page 131 to show that the city clerk had been instructed to mail a copy of Resolution Number 899 to the Pacific Electric officials, also in the report of the city engineer on the same page to have it appear that Mr. Shoup had admitted being aware of his company's obligation to pay its proportion of the cost of the improvement of Brand boulevard from Second street north, but wished the matter to be deferred as long as possible. With these corrections, the minutes were approved, and the clerk read the minutes of the adjourned meeting of April 19th, which upon being read were approved.

A communication was read from V. E. Clark, a minister, requesting permission of the Board to carry on religious services for a period of three weeks, beginning April 24th, at the northwest corner of Broadway and Louise streets. Upon motion of Trustee Grist, the request was granted.

A communication was read from the city clerk notifying the board that all the appointments of Deputy City Clerk had been canceled, and requesting the board to approve of the action by a proper resolution.

Upon motion of Trustee Grist, "A resolution of the Trustees of the City of Glendale confirming and approving the action of the city clerk in canceling all appointments heretofore made of persons to act as Deputy City Clerk," was taken up for reading and on motion of Trustee Jackson, the same upon being read was adopted.

A further communication was read from the city clerk to the effect that he had appointed G. B. Hoffman, Deputy Assessor, and Elizabeth S. Porter, Deputy Clerk, and requesting that the board approve of his action by proper resolutions.

On motion of Trustee Grist, "A resolution of the city trustees confirming the appointment by the city clerk of Miss Elizabeth S. Porter as Deputy City Clerk," was taken up for reading, and on motion of Trustee Woodberry, the same upon being read was adopted.

On motion of Trustee Muhleman, "A resolution of the board of trustees of the City of Glendale confirming the appointment by the city clerk of G. B. Hoffman as Deputy Assessor," was taken up for reading, and on motion of Trustee Grist, the same upon being read was adopted.

Mr. Davis appeared before the board and presented a protest against the granting of a permit for a gasoline supply station at the corner of Central avenue and Colorado street. He was told by the president of the board that when the matter came before the board he would be given an opportunity to protest at that time.

Mr. Hartley Shaw, city attorney of Tropic, addressed the board in reference to the crossing of the Pacific Electric tracks at Brand boulevard, Tropic, and stating that it was the desire of the City of Tropic that the City of Glendale make a contribution to assist in meeting the expense of moving the Southern Pacific tower at that point. Mr. Shaw was informed that as long as it was a matter of doubt as to whether Brand boulevard is to be extended through to Los Angeles, the City of Glendale is not disposed to be at any expense in regard to the matter. The individual members of the board expressed themselves to the effect that in the event of the project being put through successfully, they would feel that the City of Glendale was sufficiently benefited by the improvement to warrant a contribution at that time if it can be legally made. Upon motion of Trustee Muhleman, the matter was referred to the city attorney.

A committee of ladies representing the Pacific Parent-Teachers' association, appeared before the Board and made a statement of the good work accomplished by the maintenance of the public play grounds at the Pacific avenue school during the last school vacation, and requesting that similar financial assistance be given by the board for the coming year. Chairman Thompson expressed doubt as to the advisability of devoting money to any particular school, as the precedent, if established, might prove embarrassing, and upon his

(Continued on Page 4)

**PROPOSED OIL STATION**

**RESIDENTS NEAR CENTRAL AND COLORADO OPPOSE ESTABLISHMENT OF INDUSTRY**

Warren Story and his son-in-law, George Peters, appeared before the Board of Trustees Monday evening stating that it is the intention of the latter to make application to establish an oil station at the northwest corner of Colorado street and Central avenue. Mr. Peters assured the board that it is his intention to construct and maintain a very high class oil station service. Earlier in the evening S. A. Davis appeared before the board stating that he had heard that an application would be made for the installing of an oil station at Colorado street and Central avenue and that as himself and many other citizens in that locality opposed the installation of an oil station at that point he wished to be notified when the board got ready to take official action on the question, as it is his intention to present some good reasons why it is not necessary to have an oil station in this beautiful residence district. Up to date the Glendale Evening News has received several communications setting forth reasons why there should not be an oil station at the place mentioned above.

It is Mr. Peters' intention to overcome the objections of the opposition by guaranteeing that the building to be constructed and its surroundings will be of so high a class of architecture that there can be no possible objections to such an improvement in a residence district. It is to be equipped with all modern conveniences, including a well furnished rest room for ladies. Before the question is settled either in favor of or against the installation of a station at this place there will be considerable lively discussion.

**OVERLAND AGENCY RECEIVES CARLOAD OF CARS**

On Monday A. Meyers and son, Overland agents for the San Fernando Valley, received a carload of six Overland Touring Cars over the Salt Lake Route, and have another carload on the way. The present shipment, as well as five cars in the next, are sold. The Overlands received will be delivered to the following:

Mrs. H. C. Read, Orange Grove avenue, Glendale; Mrs. A. G. Walker, Burchett street, Glendale; C. H. Hineman, Eagle Rock; G. J. Stadler, Tropic; J. Glenwood Jones, 715 S. Central avenue, and J. A. Pirtle of Glendale Heights. Mr. Meyers says that in spite of the large output of the factory he is having trouble in getting enough cars.

On Tuesday, March 21st, another record was broken at the big Willys-Overland factory, Toledo.

On that day, orders were received for 2243 cars, the greatest daily record for orders yet established by them.

The fact that it was not a contracting time, when distributors of these cars place yearly contracts, but merely a normal day's demand for immediate shipments, gives some idea of the volume of sales handled by that company.

Manufacturing and distributing 200,000 cars for 1916 is no small task, but with the current demand it now seems certain that there will, if anything, be a scarcity of Overland and Willys-Knight cars in spite of the largely increased production. More than 16,000 men are now employed at the Toledo plant.

**BIRTHDAY SURPRISE**

Mr. H. S. Clewett of 710 W. 9th street was the victim of a happy surprise, Monday evening, April 24th, the occasion being the anniversary of his birth. A number of guests had been invited to help celebrate the event and when Mr. Clewett came home at the appointed time in the evening he found his home in the possession of his friends. The elaborately appointed dinner table with its decorations of pink roses and the beautiful birthday cake alight with the proper number of candles explained the whole matter. After the dinner games were enjoyed until late in the evening. The guests were Miss Barbara Askeland, Miss Edna Phillips, Mr. and Mrs. Frank Mathiesen, Mr. Clarence Edwards, Mr. Herbert Mathiesen.

**CERTIFIED TO JUVENILE COURT**

Richard Royce, charged with being intoxicated and conducting himself in a disorderly manner on the public streets, a violation of Ordinance No. 105, was arrested and arraigned before Judge Whomes Monday. Judge Whomes certified him to the Juvenile court, which will deal with his case.

**TROPICO MURDERER GETS LIFE SENTENCE**

**THOMAS MIZAR WHO SHOT AND KILLED BERT RICHARDSON SENT TO SAN QUENTIN**

(Special Service to Glendale Evening News)  
LOS ANGELES, April 25.—Thomas Mizar, who shot and killed Bert Richardson, a banker of Tropic, when Richardson refused to lease him a piece of ground for an oil station, was sentenced today by Judge McCormick to imprisonment for life in San Quentin. Mizar was convicted by a jury Saturday of murder in the second degree. Mizar was at one time a police officer in Montana. He admitted on the witness stand that he had carried a gun for twelve years.

**TROPICO GETS WATER RATE REDUCTION**

**RAILROAD COMMISSION ISSUES ORDER WHICH LOWERS GLENDALE CONSOLIDATED WATER CO'S CHARGE**

(Special Service to Glendale Evening News)  
SAN FRANCISCO, April 25.—The Railroad Commission today issued an order reducing the rates to be charged by the Title, Guaranty & Trust company of Los Angeles as trustee for the stockholders of the Glendale Consolidated Water company, the water from which company's former plant serves Tropic. The rates were fixed as follows: For the first 400 cubic feet, 75 cents; for the next 1600 cubic feet, 10 cents a hundred; for municipal use 6 cents a hundred; for fire service \$15 a month for hydrants in service and 50 cents for additional hydrants. Complaint as to the rates was made by M. W. Eshelman and other residents of Tropic who alleged that they were entitled to a certain part of the Verdugo canyon water free and that they had already paid for the Consolidated Water company's plant by their payments for meters.

**JAP PLAN TO INVADE PACIFIC COAST**

**UNITED STATES SECRET SERVICE MEN FIND SKETCHES OF PACIFIC PORTS AND OF SAN FRANCISCO HARBOR ON SPY**

(Special Service to Glendale Evening News)  
WASHINGTON, D. C., April 25.—Books containing plans of Pacific ports and of San Francisco harbor, also a Japanese plan for the invasion of California were found in the possession of Shoshito, a Japanese, recently arrested by United States secret service men.

**VILLA SAID TO BE IN SATEVO REGION**

**UNITED STATES CONSUL LETCHER STATES BANDIT IS SIXTY MILES WEST OF PARRAL**

(Special Service to Glendale Evening News)  
WASHINGTON, D. C., April 25.—United States Consul Letcher telegraphs from Chihuahua that Villa has been located at a small village sixty miles west of Parral and about the same distance southwest of Satevo. It is stated that this news came from reliable individuals who are well acquainted with Villa. The bandit is not believed to be wounded and appears to be acting on some definite plan of his own. He is not disturbed by the hunt after him.

**SOLDIERS TO CONTROL ANCHORAGE STRIKE**

**FIFTY UNITED STATES MEN SENT TO ALASKAN PORT IN CONNECTION WITH RAILROAD SITUATION**

(Special Service to Glendale Evening News)  
WASHINGTON, D. C., April 25.—Fifty United States soldiers arrived at Anchorage, Alaska, today to guard the United States property there and to control the strike situation. The men engaged to construct the railroad from Seward to the coal fields struck some weeks ago complaining of lack of food and accommodations. An agreement was reached about a month ago but the men state that the engineers in charge of the undertaking did not live up to it.

**SERIOUS RIOTING IN CAPITAL OF IRELAND**

**IRISH REBELS SEIZE DUBLIN POSTOFFICE AND OTHER PUBLIC BUILDINGS AND CUT TELEGRAPH WIRES**

(Special Service to Glendale Evening News)  
LONDON, April 25.—Grave riots broke out in Dublin, the Capital of Ireland, Monday. Augustine Birrell, chief secretary for Ireland announced in the house of commons this morning that rioters had seized the Dublin postoffice and that the military had been called out; that 12 rioters had been killed and that the situation was under control. Other reports state that the rioters hold four or five important buildings in Dublin and that there has been rioting in other parts of the island. The telegraph wires are said to have been cut at various points.

**THE EASTER SUN**

**REV. DR. EDMONDS PREACHES ABLE SERMON TO KNIGHTS OF THE COMMANDERY**

When Glendale Commandery No. 53, Knights Templar, marched into the Presbyterian church Easter Sunday, every available seat in the main body of the building was occupied and also the Sunday School room. The knights in full uniform made an impressive sight and the atmosphere of the church was charged with the sentiment of the season. Good music made the service exceedingly bright.

Dr. Edmonds took for his subject, "The Easter Sun," from Mark XX:2, "At the rising of the sun." Opening with a dramatic description of the tragedy of Good Friday he gave a most thrilling account of all that the death of Christ seemed to mean to the little world of his disciples and then showed what in reality it meant as illuminated by the sun of Easter. Telling of the darkness that covered the earth and the gross darkness that covered the people he showed how the Lord arose and how his glory was revealed unto the world.

The preacher then took up the subject of the rising of the sun of Easter on the word of God showing how the resurrection brought to light that life and immortality which were foreshadowed in the Old Testament. In the light of Easter many things became clear to the disciples which up to that time had been obscure. The dawn of the Easter sun showed that life and the word of God had been going hand in hand all through the centuries that had preceded the birth of Christ and that in him, in the fullness of time came the "silent juncture of eras" in which the purposes of God, his eternal decrees, were fulfilled. The Easter light revealed God in Christ as the hope of the world prophesied concerning and looked forward to by all the writers of Holy writ in the ages past. The Easter Sun shone on the inspired word of God and made it live.

The Easter Sun also shone on the true church of God and made it manifest to the world. This church is not the church of the sects but the church universal, the church for which Christ gave himself that he might present it a perfect church without spot or wrinkle. This is the church which had as its fundamental principle the cross of Christ. This is the church which has the symbol of its authority its divine commission, "Go ye into all the world and make disciples of all nations, baptizing them in the name of the Father, the Son and the Holy Ghost." The light of the Easter Sun made manifest this work which lay before the Church.

The preacher then in a most impressive and convincing manner showed that the light of the Easter Sun shone across the pathway of all true life and service. The commandery stood for service and apart from the light of the resurrection there was no true service possible. Christ was the great exemplar of all true knights. Christ came not to be ministered unto but to minister.

Last of all the Easter light revealed the joy of life. Mary weeping at the tomb and in the garden was a sad sight until the Master stood beside her and said "Mary!" and she turning, with the light of that first Easter falling on her countenance answered him, "Rabboni—my Lord!" Christ is our master. The Easter sun reveals him in that capacity. "One is your master even Christ."

The officials of the commandery and the Sir Knights who were present at the services were:

E. K. Daniels, Eminent Commander.  
Mattison B. Jones, Generalissimo.  
Clem L. V. Moore, Captain-General.

Charles L. Peckham, Senior Warden.

David Crofton, Junior Warden.  
Frank H. Vesper, Standard Bearer.  
William G. Black, Sword Bearer.  
Percy J. Prialux, Warden.  
Charles C. Rittenhouse, Recorder.  
Daniel Campbell, Treasurer.

Sir Knights Dr. Ambrose W. Teel, Delos H. Smith, Thomas D. Ogg, Harry E. Betz, George E. F. Duffet, Claude O. Pulliam, Stewart Lake Heacock, Charles W. Kimberley, George U. Moyses, W. E. Evans, Harry E. Redd, William F. Rattray, W. Wood, R. R. Henderson, Ezra F. Parker, Joseph Sheperd Thompson.

Past Eminent Commanders W. T. Sprouls, T. F. Provolt.

At the close of the service in the Presbyterian church the Sir Knights and a number of their ladies took a special car at the corner of Broadway and Glendale avenue and went direct to Long Beach to attend the

**GARDEN SOCIETY WORK**

**FLOWER-GIVING DAY — WILD FLOWERS PRIZES—FLOWER DISPLAYS**

The Glendale Garden Society has planned a Flower-Giving Day to the poor of Los Angeles to be held Saturday morning, April 29. Automobiles will leave the corner of Brand and Broadway promptly at 10 o'clock. All Tropic and Glendale residents owning automobiles are invited to join this trip.

On Friday evening friends are asked to cut flowers from their gardens and from the gardens of their neighbors—long-stemmed geraniums, sweet peas, roses, gysophila, nasturtiums, mignonette, marigolds, petunias, cosmos, anything bright or sweet, and plunge the blooms into water over night.

In the morning these flowers should be tied into judicious bunches, just what would make a suitable bunch to be handed to each city child; wrap some wet paper around the stems, and envelope the bunch in a sheet of newspaper. By following these rules, the flowers can be carried to Los Angeles and remain perfectly fresh en route.

Friends with automobiles are asked to take it upon themselves to secure these flowers from their own neighborhoods; each automobile ought to be filled with bunches of flowers, all carefully covered with newspaper and tied. Friends without autos but desiring to contribute flowers are requested to leave their bunches at Headquarters, 1111 W. Broadway, on Saturday morning not later than 9:30.

Every automobile should have a Glendale or Tropic pennant conspicuously displayed. Mayor Sebastian and Chief of Police Snively will map out a route through the city streets and will provide traffic policemen at La Plaza for our use.

The first prize for wild flowers mounted and classified, won by Paul Fromm, was presented by Mr. Fred Burlew of Valley View Road, N. Glendale. The second prize, won by Margaret Fortune, was presented by Miss White, special agricultural teacher of the Glendale Grammar schools. The management thanks both these good friends for their kindness. Perhaps next year other Glendale folks will follow their example, and encourage the children by offering suitable prizes.

It was absolutely impossible to keep a record of the many, many people who came on Friday and Saturday mornings laden with exquisite flowers to replenish the faded blooms. Friends who did not enter blossoms the first day quickly caught the spirit of co-operation and came afterwards with arms full of garden beauties. "Just to keep the tables sweet and fragrant," they so kindly said. And indeed the spirit of helpfulness for the general good, and not for individual gain, proved one of the most beautiful features of the whole show.

To mention names is impossible—so many came, so many helped, so many new friends kept turning up, so many loving words were said, so many kindly actions were done, so many men and women from all parts of Glendale, Tropic, San Fernando and Monte Vista valleys trooped in with words of cheer and helpful deeds, that surely the angels in heaven must have smiled tenderly over Glendale during those three wonderful days.

**CHAPTER L., P. E. O.**

Chapter L., P. E. O., will meet at the home of Mrs. May Chase, 348 S. Adams street, Wednesday afternoon, April 26, at 2:30.

joint services of the commanderies of Southern California. Luncheon was served on the car.

When the Glendale commandery and its friends arrived in Long Beach it was received by the Long Beach commandery in the Masonic Temple and heartily welcomed. The six commanderies of Southern California were present and after a brief time spent in fraternization and the necessary preliminaries the commanderies—Long Beach, Whittier, Alhambra, Santa Ana, Pasadena and Glendale—marched to the First Congregational church, where a crowded congregation received them. The Rev. W. K. Booth, pastor of the church, preached an appropriate sermon on the Easter sentiment. The whole service was beautifully arranged so as to fit in with the teaching of the Commandery.

After the service the Sir Knights engaged in a brief drill and then each commandery marched to its car. The Glendale Sir Knights and those who accompanied them arrived home shortly after 7 p. m.

## PROGRESS OF THE GREAT WAR

Nothing is more manifest than the fact that the war is not nearly finished. Lord Kitchener prophesied for it a three years' duration. That prophecy was made out of the fullness of an experience that has extended through an eleven years' preparation for one campaign—that of the Sudan—to the gigantic task of fencing in a stretch of 1000 miles in South Africa and coralling the elusive Boers until the last one of those gallant fighters had been captured. War needs patience and Kitchener knew that it also needs time to bring about results.

It is also becoming apparent that the Teuton's lack of perspective on the rest of the world led him to imagine that he could conquer Europe in a few weeks. Unwarned by that huge blunder he again feverishly imagined that he would take Verdun in two weeks. This was apparent in every statement of the German press which advised the world of the impossibility of resisting the mighty preparations the Germans had made to break through the French lines.

Two months have now elapsed since the first advance was made on the French lines at Verdun and the Germans are as far away as ever from breaking through.

It ought to be remembered that the Allies have now a single general staff directing their movements and that the head of all the Allied armies in France is Gen. Joffre, who directs all the operations both at Verdun, the Vosges, and Flanders. The moment he determines that the whole force of the British should be thrown against the Germans that will be done. It is his campaign and he is responsible for the conduct of it.

There is evidence that the Allies are carrying out a combined policy in the fact that Russian troops arrived the other day at Marsailles to take part in the Verdun campaign. That is evidence not only that Russia has the men for this purpose but that they are now armed. It is stated that Russia has 6,000,000 men in training and that it is only a question of having arms and ammunition for them.

Everywhere the outcome of the war depends, or seems to depend, on the result at Verdun. To have to retire at Verdun would be a severe blow to the prestige of Germany. Hence she must continue to fight and to throw division after division of troops into the storm of shot and shell that the French keep around their gallantly defended trenches. The failure of the Germans to break through at Verdun has already produced several important results. It has determined other neutral nations to stand back from giving any countenance to the Teuton, whose savage and murderous submarine campaign against all neutrals has already aroused against that country the protest of the United States.

The world now awaits Germany's answer to President Wilson and fears that it will still be of that temporizing nature that has characterized the dealings of the Teutons with the Americans. There is no doubt that the neutral nations of the world only need the lead of the United States to make themselves heard in this world's war to some effect.

The rehabilitation of Russia is one of the wonders of the war. That nation, however, will have shortly to withstand the renewed assaults of Von Hindenberg, who has been quite idle for months in his winter quarters. With the breaking up of the ice in the Baltic sea much activity on the part of the Germans, Russians and British may be expected, and much depends on operations in that quarter.

## BATS AS DESIRABLE CITIZENS

There has always been an unaccountable prejudice against the common bat; yet that animal is not only a harmless inhabitant of the air, he is even a most desirable citizen and aid to the agriculturist. The bat is not a bird but species of fur-bearing animal of the order "Chiroptera," which is a designation meaning "hand-wings." They possess a very fine membrane that stretches between their arms and the group, among fur-bearing animals is unique in the high development of the powers of flight. The organs of flight are these arms, with elongated finger bones, between which the two-layered skin gives the proper supporting and propelling surface for locomotion through the air.

Many people have an overwhelming prejudice against the bat and the poor animal is, when encountered, driven from the room where he may have inadvertently penetrated, and perhaps killed, if the valiant human biped can summon up enough courage for that act of slaughter.

In California there are 28 species of bats, as against 541 of birds. It is seldom, however, that more than four species of bats are found in any one locality. In point of numbers of individuals there is a marvelously large population, more particularly in the warm foothills and the interior valleys. All the species of bats inhabiting California are wholly insectivorous. In fact the number of destructive insects they devour is only limited by the number of the bats themselves. They are to be found in vast numbers in old caves whence they stream forth at night, their ghostly flight being quite a wonderful sight as they pour forth in an almost continuous stream for many minutes. In deserted mines, or water tunnels, in barn lofts, garrets or church steeples, and not infrequently behind shutters or signboards against the walls of buildings they may be found, with one little hindfoot clasped round the other and that other holding firmly to some projection of the wall or rock. They sleep with their heads down and in old caves they are quite an interesting sight, hanging in festoons as it were.

These colonies of bats sally forth at night in troops and squadrons. They quarter the area close to their habitat and speedily clear it of every destructive insect. An examination of the ground close to their dwelling places often shows an accumulation of the wings of moths and the legs of beetles. The bat hunts his prey apparently by the sense of sound and with his lips, tongue and lancet teeth devours his prey while in full flight.

Who has heard the cry of the bat? Its note is so high pitched that it is beyond the auditory sense of many individuals, who fre-

## FASHIONS IN FLOWERS

Fashion changes in flowers just as it does in gowns. In New York, it is now violets, pure and simple, bunched closely together by the thousands; then it is violets with a rose or a gardenia in the center; the gardenia is soon replaced by an orchid, and now it comes down to orchids as the main flower—usually two—with a few roses and spray orchids, for the corsage. With every change of style period the florist looks up the flowers of that period and grows them. Seasons no longer count. June roses are just as procurable in March as in June; violets we have with us the year round, and now that orchids have become the fashion of the day, they are never absent.

Every year the international flower show gives out new ideas for the debutante's bouquet, as well as the regular corsage bouquet. As for the bridal bouquet, it is getting lighter and lighter every year; that is, lighter weight roses are used, and sprays rather than bunches of lily of the valley, with less heavy satin, more gauzy ribbon, and no wire. The most popular bouquet of the year is of white orchids and lily of the valley.

Directly in opposition to this spray effect, however, is the Pompadour or Louis XV. bouquet, for debutantes. It is a radical departure from the usual modern bouquet of loosely arranged flowers, but is sure to be popular for bridesmaids who will hardly resist the shepherdess effect of the Pompadour period, to put big pompadour silk draperies over lace petticoats and carry the Pompadour bouquet than which nothing but the shepherdess hook could be in better keeping.

It is the identical "cabbage head bouquet," framed in a paper collar, that our grandmothers carried somewhere between 1830 and 1850. Slim silver or gold stands went with it to place the bouquet in. Roses and smaller flowers, such as violets or forget-me-nots, are largely used. The streamers match the flowers in color. One seen recently was of big red roses, yellow mignon roses and violets, the red roses forming the center like a great red heart, and the smaller flowers being arranged in regulation rows around them. Streamers of satin and gauze ribbon, with showers of small flowers, matched the color scheme.

Another debutante bouquet which is popular, though less radical, is of pink roses and asparagus fern, tied with pink ribbon and chiffon, loosely arranged in an arm bouquet.

## EXPERIMENTAL RANCH

If the poultry raisers of Los Angeles County are sufficiently interested, the committee on agriculture and horticulture of the Los Angeles Chamber of Commerce will make every effort to have established in this vicinity an experimental ranch and a short course in poultry husbandry under the auspices of the University of California.

The nearest university poultry farm is now at Davis, too far north to be of much practical value to the southern end of the state. It is believed that if sufficient interest is manifested a similar branch, dealing only with poultry, can be obtained from Los Angeles County.

In a general way the plan as outlined will include a six weeks' course in the practical part of poultry raising. Most of the failures in this line are attributed to a single cause, that of ignorance.

When it is considered that Southern California is now producing only thirty per cent of the eggs it uses, the room for expansion of the industry readily is seen. With a branch university farm within easy reach, hundreds of flocks could be brought to a more profitable basis through the better understanding of their owners.

Those who would be interested in the establishment of a university branch poultry farm in the county are asked to notify the agricultural and horticultural committee of the Los Angeles Chamber of Commerce at once. On application, a pamphlet will be mailed explaining in detail the general plan for the greater success of the poultry industry in Southern California.

quently maintain that the bat is dumb. The note of the bat, shrill and high, is nevertheless perceptible to those of acute sense.

The bat is credited with destroying malaria-carrying mosquitoes and the bat has consequently been placed under the protection of the law in certain cities of the State of Texas. There is no doubt in view of their usefulness that bats should be protected by law. California is afflicted with a large share of insects that attack fruit and flowers and vegetables and as the bat is the mortal foe of such pests, it is deserving of all protection.

## WHY HURRY SO MUCH?

One of Glendale's real hustlers alighted from a touring car a few days ago, and looking up and down the Broadway thoroughfare he paused and then as an ambulance auto hurried past he exclaimed, "Why all this hurry and worry, time is short for the youngest and most robust of us. Here we are going at a breakneck speed until overtaken by accident or disease, and then we drop out and things go on as though we had never existed. Why hurry so?"

MONEY TO LOAN—At 7 per cent. Exceptionally easy terms. J. F. Lilly, 410 S. Brand. 179tf

### FRANKLIN AS A PRINTER

A letter of Charles Wilson Peale, who painted the first portrait of Washington is dated Oct. 23, 1814, and discusses inventions, windmills, etc. In it he says:

"Dr. Franklin when he was a young man went to London and worked in divers shops and in different parts of the printing business. I heard a curious anecdote of him. He hired to work in a printing office. When a friend of the owner of the press came to see him, the printer told his friend that he was in great want of a compositor and asked where he could find one. 'I am very much surprised that you should want a compositor when you keep a man at press who is the best compositor in London,' he said."

### SIMPLE BREAKFAST MUFFINS

One quart of flour, one pint of warm milk, one teaspoon of salt, one half gill of yeast. Mix at night and heat until light. In the morning, drop the well-risen dough into buttered cups; let them stand 20 minutes, then bake and serve. These can be made with water instead of milk, but are much less tender.

Newest among the periodicals issued at the French front is La Mitraille, its editorial rooms located opposite the enemy. It is distributed free among the French soldiers. Subscriptions from those in civil life are solicited, the subscriber to pay what he pleases.

### SIERRA MADRE FLOWER SHOW

Sierra Madre is advertising its sixth annual flower show widely throughout Glendale. Leaflets advertising the show have been distributed throughout the business center of the city and elsewhere. The show is to be held April 27-28-29 under the auspices of the Woman's club.

Important meeting of the Presbyterian Brotherhood this evening at 7:30 at the Presbyterian church.

Mr. and Mrs. John Roman, 610 S. Brand boulevard, left Tuesday for Chicago, where they will spend two months.

Mr. and Mrs. J. W. Lynn moved Saturday from 1017 Melrose street, North Glendale, to Frenz Apartments, 504 Orange street.

Rt. Rev. Joseph H. Johnson, D. D., Bishop of the Diocese of Los Angeles, will preach in St. Mark's Episcopal church tonight at 7:45.

Mr. and Mrs. C. W. Fortune of 1310 West Ninth street had with them as Easter guests Col. Sampson and wife of Denver, Colorado.

E. W. Kinser of the Santa Paula Packing company was a visitor in Glendale Sunday night at the home of his mother, Mrs. E. W. Kinser, 1442 W. Third street.

Mrs. H. H. Darby, who has been sojourning in Southern California and enjoying the delightful climate, for the past five months, returns tomorrow to her home at Wheaton, Minn.

Mrs. C. G. Yarbrough, 211 S. Maryland avenue, returned home Monday from Los Angeles, where she has been a patient in the hospital for two weeks. She has completely recovered.

Mr. and Mrs. H. L. Le Grand, their son Louis and their daughter Michelle, and Mrs. Claire Hall, 409 Central avenue, Tropico, made a most enjoyable trip to the summit of Mount Lowe, Sunday.

Mr. and Mrs. W. N. Shields, who have been residing at 333 South Louise street, Glendale, have moved to Eagle Rock city. For about two years Mr. Shields was engaged in the confectionery business at 1009 West Broadway.

The Glendale Vulcanizing Co. has just installed a new Akron-Williams vulcanizing machine, which is one of the largest and most expensive vulcanizing machines on the market, but which is in use by the largest vulcanizing concerns in the country. Conrad and Kellenberg, the proprietors of this new concern, state that the prospects are good for a most flourishing business.

Mr. and Mrs. James Pearson of 1214 West Broadway were among the thousands who attended the Easter services on Mt. Rubidoux Sunday morning. Mr. and Mrs. Pearson went to Riverside Saturday where they had reservations at the Mission Inn. Before four o'clock Sunday morning they started on the ascent of Mt. Rubidoux, the gleaming cross on the mountain top being the Mecca of thousands. The services which were held at sunrise were in keeping with the occasion and the day.

**DOROTHY BONNELL BENEFIT**

Don't fail to be numbered among the audience at the Palace Grand theatre this evening. If you are not able to be present in person see that you are represented by a ticket purchased from one of the canvassing committee.

Be sure to note the time stamped on your ticket for only tickets stamped 7:15 can be presented at the First Show. The theatre will be cleared at the end of the First Show so that those holding seats for the second performance can be accommodated.

Miss Pearl S. Keller and Mr. Charles Wells will make a complimentary appearance in ballroom dancing at both performances.

If you have been overlooked by the committee handling the tickets, you can be accommodated at the box office this evening.

The chairman asks every one who is handling tickets to turn in to Munson's Drug store, not later than six o'clock this evening, every unsold ticket, marking the envelope plainly with the name and number of tickets returned.

The committee in charge wishes to thank every person holding a ticket for their support to this worthy cause. Funds sufficient have been collected to care for the immediate wants of the little sufferer and to provide proper nursing for her.

The committee is especially grateful to Mr. Jensen of the Palace Grand theatre, who so generously offered to them not only the use of the theater but provided the show as well, with absolutely no expense to the committee. A full report of the receipts will be made as soon as all the sub-chairmen are heard from.

**FOUR YEARS OLD**

Master Ralph Cunningham, son of Mrs. Eva J. Cunningham of 1414 Salem street, reached the age of four years on Saturday and in honor of the day invited a number of his little friends to enjoy an Easter egg hunt with him on the lawn. To say that Ralph and his little guests entered heartily into the spirit of the occasion is expressing it mildly. All the delights of a really truly birthday celebration were enjoyed by the youngsters.

Advertising consistently in The Glendale Evening News is sure to bring results.

**"IN MEMORIAM"**

JOHN J. KNOX

Born July 25th, 1818  
"Crossed the Bar" April 22nd, 1916

"The chamber where the good man meets his fate is privileged beyond the common walks of men, quite on the verge of heaven."

Comrade-Citizen Knox was born in East Granby, Connecticut, and at every period of his long active life exhibited those traits of character that marked the pilgrim—as it mixed with the Yankee strain. Industry, frugality and observance of habits of life marked by uprightness and morals, made it easy to turn out from that Connecticut farm not only its annual quantity of products, but a well-trained citizen as well.

A "Soldier of the Cross" all his life practically, he did lifelong service in varied lines of usefulness, always in the M. E. church, and a soldier for his flag and country, he gave proof of loyalty by 3 years of active service in the army of his country, ready to die, if need be, if his country and flag was saved from dishonor and destruction. He was with the forces that were with Gen. Phil Sheridan as he swept like a cyclone through the Shenandoah valley, doing as much damage proportionately as Sherman's march to the sea.

The Knox family moved from Connecticut to Southwick, Massachusetts, in an early day, and Comrade Knox enlisted from the bay state, returning thereto after discharge, where he continued to be a tiller of the soil, for all his working life he was a farmer. Here he continued to reside until coming to the Southland eight years ago. Six of these years were spent in Glendale among neighbors and friends who paid due respect to his "departure" by generous attendance at his funeral.

Rev. B. Dudley Snudden was the officiating clergyman and his remarks were strong pointed for the soldier so loyal under two flags, for the results of good living in the long and useful life and for the comradeship and brotherhood harmony, shown in soldier-Christian lives.

Brother Knox married in Connecticut Miss Fannie M. Prout, and three children blessed the union, one, Mrs. D. D. Wilkins of Glendale, now living. Mrs. Knox died 14 years ago, since which time he had resided with the oldest daughter, Mrs. D. D. Griffin, and no want was left unsupplied that was made known or could be anticipated. He continued very active, in spite of gathering years, and loyally attended church and G. A. R. meetings until slow down signs began to be useful. His last birthday party observed at Echo Park nearly two years ago his activity was a surprise to his friends, and at that time he made a nice little speech. Then his tendency to "shut in" conditions became rapidly apparent. His last outing was two months ago, when his comrades motored him to the regular monthly banquet and meeting of N. P. Banks Post.

A goodly number of his soldier comrades, likewise of his church, brethren and citizens, attended the funeral ceremonies that closed a long and useful life of a man well prepared to go hence, because so manifestly well prepared to live. A good citizen, friend, neighbor, brother, a worshiper and servant of the true God, a lover of little children—a sure test of a good man. God set his seal of approbation on him by a long life and promise of rest into which he passed without a struggle, as gentle as the tired child in its mother's arms.

"Resquiescat in pace."

"Brother, tho from yonder sky Cometh neither voice or cry, Well we know for thee today, Every care hath passed away, Brother in that common trust, We commend thee to the dust, When all earthly ties are riven, We shall meet again, in heaven."  
—COM.

After the services in the Pulliam Undertaking chapel, Monday afternoon, the remains were cremated and the ashes shipped to Westfield, Mass., for burial.

**JOINT CELEBRATION**

A joint celebration of the Odd Fellows and Rebekahs is to be held tonight at Odd Fellows hall and all the friends of these two orders are invited. A fine program has been arranged and there will be cards and dancing for all who wish to indulge in those amusements.

**DEATH OF MRS. A. R. SHAULL**

Mrs. Anna Rose Shaull died at the hospital of the Good Samaritan, Los Angeles, Monday evening at 8:30. She was 52 years of age. Mrs. Shaull had been in very poor health for some time. She was born in Detroit, Mich., and lived there the greater part of her life. Her own family was wealthy. Her father was the well-known Silas Farmer of Detroit, after whom Farmer street was named. Her husband, Mr. F. W. Shaull, is an attorney-at-law in Los Angeles. Besides her husband Mrs. Shaull leaves two daughters, Miss Ethel M. Shaull and Mrs. Daisy Shaull Thorpe. The funeral, which is in charge of the Jewel City Undertaking company, will take place from 431 San Fernando road, the Shaull residence, Wednesday afternoon at 2 o'clock. Interment in Forest Lawn cemetery.

**FORMAL OPENING OF EGAN DRAMATIC BRANCH SCHOOL**

On Thursday afternoon of April 27th there will be a formal opening of the new branch of the Egan Dramatic School from the hours of 3:00 to 5:30 p. m. in the old Odd Fellows' Hall in the Hurtt Block, 594 Broadway, opposite city hall. There will be an interesting program given by members of the Los Angeles Egan school, showing the varied work and technique of this well established and widely known institution.

An informal "Dansant" for the children and young people will be given after the program. All mothers and friends are cordially invited to be present. Mr. Egan and a number of his faculty will be there to meet all interested personally and talk to them about the future plans of the school and its possibilities in this rapidly growing, prosperous and intellectual community. Already there has been much interest manifested among some of the leading citizens of Glendale.

Mrs. W. Brown, who on account of ill-health had to give up her large elocution and dancing classes, has very graciously turned them over to this new branch school. Dr. L. H. Hurtt, who for many years was a resident of Glendale and a charter member and former president of the Chamber of Commerce, has very kindly turned over his hall, known as the Old Odd Fellows' hall, free of charge to the school that afternoon. It is hoped that there will be a large attendance. There will not be any admission charged. Light refreshments will be served. All are invited to come and spend a pleasant afternoon with this new but well-known school and its faculty.

**LUTHERAN SOCIAL**

The climax of a very happy Easter season was reached Monday evening, when Rev. and Mrs. R. Warren Mottern received at their home, 340 S. Central avenue, in honor of the new members of the First Lutheran church, during the past year. When the present pastor took hold of this mission, April 1st, 1915, there were reported to Synod the previous fall 18 members. Last night it was reported there was an increase of 27 new members, or 150 per cent, making a substantial, helpful and splendid membership of 45, to date. The social was indeed a very happy and joyous occasion to all present. The house was attractively decorated with a profusion of lilies and roses. After an enjoyable get-acquainted hour, a delightfully impromptu program was given.

Mr. Laichinger, who is a musical favorite in Glendale, with Elizabeth Mottern and Louise Daugherty, favored all with beautiful selections. Very entertaining and pleasing readings were given by Mrs. J. A. St. Clair and Mrs. Walter Wright.

It is most sincerely hoped this will be an encouragement to the large number of Lutheran people within this vicinity to attend their own local church and thus make the work a larger success. The following persons were present last evening: Wm. A. Anderson, Mr. and Mrs. Bryson, Mrs. G. B. Hoffman and Mrs. Wright, Carl and Mrs. Anderson, Walter Anderson and Miss Viola Anderson, Dr. and Mrs. Teel and Miss Jones, Mrs. J. F. Cullen, W. C. and Mrs. Rieth, Mrs. Heen, Miss Schultz, Harry Pasemann, G. F. and Mrs. Daugherty and Louise, J. W. and Mrs. Imler, Mrs. J. A. St. Clair and Patricia St. Clair, Mr. and Mrs. Philip Laichinger, and Rev. and Mrs. Mottern, Elizabeth Mottern and Dorsey Mottern.

**PLAYWRIGHT IS POET**

The following poem was written by Owen Rhodes, author of the new Alumni play, which will be presented at the Palace Grand May 11 and 12. This wonderful little poem hasn't even a name and the author won't even admit its poetry, simply calling it "Just verse," but we leave it to you and know you will not let it go by unappreciated.

A myriad voices fill the air—  
The voice of greed and the voice of power  
With the vaunted promise of a throned hour  
In a splendid palace builded high,  
The coveted goal of every eye,  
And riches beyond compare.

A myriad mortals enter the snare—  
Bowling to Mammon, bowing to fame,  
While the one turned to dross, the other to shame.

There's a tear in each smile, and a sob and a sigh,  
As the hapless throng goes trudging by  
In the wake of its Godless prayer.

Have the voice of gold and the mocking roar  
Of empty pomp and lust and sin  
Drowned out the still small voice within?

No! Down, down with the iron rod  
'Neath which the serfs of self have trod,  
And slaves of the golden store!

Cry out, O Voice, the whole world o'er,  
Of laws divine—from land to land,  
Of tender hearts and outstretched hand

To a brother fallen to the sod—  
Of accents that rise to a smiling God,  
"Go forth and sin no more."

**Overland '615**  
Model 75 Roadster \$595, both f. o. b. Toledo  
With Electric Starter and Electric Lights  
Four Inch Tires  
Five-passenger Touring

LIKE larger and higher priced cars this new Overland is the latest streamline design. In point of appearance alone it has value far surpassing any other low priced car. And its equipment includes everything that riding comfort and driving convenience demands. It has the reliable Autolite two-unit starting and lighting system. There is a speedometer in the cowl dash, and a full set of tools. Large tires—four inches all around—insure greater mileage and comfort than can be obtained from the smaller tires used on other cars of similar specifications, and the rear springs are the famous cantilever type. It is in every respect a thoroughly equipped light weight car.

**GLENDALE FOOTHILLS**  
Miss Katherine B. Ross of Santa Barbara, formerly a resident in Glendale on Maryland avenue, is a visitor at the home of Mr. and Mrs. Charles H. Toll, Kenneth road, where she will remain for two weeks.  
Mr. and Mrs. C. H. Toll and family of Kenneth road motored to San Diego last week, leaving Thursday morning and returning Monday night. They went and returned by the coast road. They found San Diego busy and active. The exposition evidently is daily attracting a large number of visitors. Saturday was Long Beach day and a large number of people from that city were present, more than 100 automobiles bringing parties from Long Beach besides those who came by train. Everywhere is life and activity in the exposition city. The beautiful grounds are more beautiful than ever this year and the city seems to be reaping a rich harvest from the visitors. The party stopped a short time at Laguna beach on their way back.  
Mr. W. D. McRae of Dryden street, who returned home Saturday for Easter, left Monday morning for his field in Santa Clara county. Mr. McRae is field secretary of the Y. M. C. A. in Southern California.  
Mrs. W. D. McRae of Dryden St. had a welcome visitor this week in the person of Mrs. W. Boyd, formerly a resident in Glendale at 1444 Salem street. The Boyds are going back East May 10.

It is not so much what we say as the manner in which we say it that hurts the other fellow. Modulation of voice makes the difference.

**COOKERY HINTS**

A contributor to the Queen, London, asks:  
Do you know this mixture for shaking well all over cake or pudding tins, molds, etc., after well greasing them? Sieve together two or three times equal quantities of flour, caster sugar and cream of tartar, and keep in air-tight tin for use, as required. I knew a mixture of the two former for the purpose, but the cream of tartar is a great improvement. Even quite light puddings, mousses, etc., never stick when turned out, and it obviates all necessity of papering molds. I even use it for meat molds, fishcakes, etc., of course shaking off every bit one can, and it never tastes the dish then; only, of course, some cooks would plaster it on, and that would not do. Another little thing, if you do not already know it. When whipping whites of eggs for meringues, etc., do not stop directly it will not drop off plate or basin, but continue whipping some little time longer, quite a few minutes. They do not appear to get stiffer, but they get much closer in texture, and do not fall nearly so quickly when the sugar is added, and meringues are being formed. I find this holds good in anything one may be using whipped whites for.

**RIGHT DOING**

No one can have a true idea of right, until he does it; any genuine reverence for it, till he has done it often and with cost; any peace ineffable in it, till he does it always and with alacrity. Does any one complain, that the best affections are transient visitors with him, and the heavenly spirit a stranger to his heart? Oh, let him not go forth, on any strained wing of thought, in distant quest of them; but rather stay at home, and set his house in the true order of conscience; and of their own accord the divinest guests will enter.—J. Martineau.

**WATCHES—LARGE AND SMALL**

Watches were first made as large as a saucer and were called pocket clocks, says the Montreal Star. The term "watch" is from a Saxon word meaning "to wake." Springs superseded weights about 1550. The earliest springs were straight pieces, not coiled as now used. There is a watch in a Swiss museum, and it has been shown at exhibitions, that is three sixteenths of an inch in diameter, inserted in the top of a gold pencil case. It is full jeweled and keeps excellent time. Its tiny dial indicates not only hours, minutes and seconds, but also the days of the month.

**LIGHT**

Thou plaything of the child,  
When from the water's surface thou dost spring,  
Thyself upon his chamber ceiling fling,  
And there, in mazy dance and motion wild,  
Disport thyself—ethereal, undefiled,  
Capricious, like the thinkings of the child!  
I am a child again, to think of thee  
In thy consummate glee.  
How I would play with thee, athirst to climb  
On sloping ladders of thy moted beams,  
When through the gray dust darting  
In long streams!  
How marvel at the dusky glimmering red,  
With which my closed fingers thou hadst made.  
And how I loved thee always in the moon!  
But most about the harvest time,  
When corn and moonlight made a mellow tune,  
And thou wast grave and tender as a cooing dove!  
—George MacDonald.

**TURKISH MINT PASTE**

This appetizing confection, which an enthusiastic young girl recently termed "a sort of glorified gum drop," may be easily made in the home kitchen. Stir together two cups of sugar and three envelopes of any good gelatine. Add one cup of cold water, place over the fire, and boil until it threads from the spoon, which is usually 20 minutes, counting from the time it begins to boil. Remove from the fire and add two tablespoons of lemon juice, a small pinch of salt, essence of pepper-mint to taste, and enough green vegetable coloring to make it a delicate green. Pour into a pan that has been rinsed with cold water, and, when thoroughly set, pull from the pan with both hands, first covering them with powdered sugar. Cut in squares with the shears, and roll in powdered sugar.

**AN AUTOCRATIC WOMAN**

Woman seems to want her academic as well as her economic independence; else how explain the charges filed against the president of one of the most renowned of the colleges for women in the United States by professors who claim that she is autocratic in her methods of government. As the charges are formal, and as the issue has been brought before the college trustees, the case bids fair to be historic, for of course the person accused will insist on a trial.

**AQUAMARINE FAVRILE GLASS**

Aquamarine favrile is the name given to a new production in glass by a noted New York firm. It is executed wholly in art pieces that range in cost from \$75 to \$400 each. Each piece of the 12 shown is different, and displays an under-sea effect; one of the largest vases is round at the bottom and has a long neck, the bulb-like half being of solid crystal, into which are cast, by a secret process, five goldfish in natural size and colors; these seem to swim through a mass of seaweed. A smaller vase looks as though filled with clear water; half poised, as though floating, is a perfectly reproduced jellyfish. Not less expressive of charm is a vase about the same size in which swim gray minnows; one vase holds only a quantity of sea grass; while another, much larger, contains the replica of sea anemones clinging to a rocky bottom. Other vases display floral effects; in one the stems of flowers trail down the stem of the vase, on the inner side, of course, as though they were in water. The crystal which contains these effects is solid, so that the upper half of the vase may be filled with water and natural blossoms. All shapes may be had in the vases, which are of a greenish glass denoting the tint of thin water. The pieces are blown, not cast.

**POINTS OF GOOD HUSBANDRY**

Thomas Tusser, an English courtier of the sixteenth century who became a farmer, wrote a long poem called "Five Hundred Points of Good Husbandry." There are many divisions of the subject, such as the "Commodities of Husbandry," in which he says:

"Let house have to fill her,  
Let land have to till her,  
No dwellers, what profiteth house for to stand?  
What goodness, unoccupied, bringeth the land?"

Another heading is "The Ladder to Thrift," from which we cull the following couplets:

"To take thy calling thankfully,  
And shun the path to beggary."  
"To grudge in youth no drudgery,  
To come by knowledge perfectly."

"To follow profit earnestly,  
But meddle not with pilferery."  
"To love thy neighbor, neighborly,  
And show him no discourtesy."

"To use no man deceitfully,  
To offer no man villainy."  
"To bear thy crosses patiently,  
For worldly things are slippery."

The conclusion comes in these lines:

"These be the steps, unfeignedly,  
To climb by thrift to husbandry,  
These steps both reach, and teach thee shall  
To come by thrift, to shift withal."

**OUR DAILY PATHS**

There's beauty all around our paths,  
If but our watchful eyes  
Can trace it midst familiar things  
And through their lowly guise:  
We may find it where a hedge-row  
Shows its blossoms o'er our way,  
Or a cottage window sparkles forth  
In the last red light of day.  
We may find it where a spring  
Shines clear, beneath an aged tree,  
With the foxglove o'er the water's  
Grass borne downwards by the bee;  
Or when a swift and sunny gleam  
On the birchen stems is thrown,  
As a soft wind playing parts the  
Leaves, in copses green and lone.  
—Mrs. Felicia Hemans.

**LIGHTNING SUPERSTITIONS**

There is a popular tradition that lightning will not kill any one who is asleep. The folklore of lightning is extensive and peculiar. According to one school, the splinters of a tree struck by lightning are an infallible specific for the toothache. But most pleasing superstition is that which used to be cherished by the boys of a Yorkshire village, who believed that if they mentioned the lightning immediately after a flash the seat of their trousers would be torn out. No boy could be induced to make the experiment.—London Chronicle.

**DIFFERENT DAYS**

"Yes, I do some rather profitable trading with the Indians."  
"Do you mean to say you peddle glass beads and brass bracelets?"  
"I should remark not. The Indians want real diamonds and wrist watches now."—Kansas City Journal.

**FREEDOM FOR ORIENTAL WOMEN**

"No oriental political or social problem is so important as the subject of the woman's emancipation," asserts Hussin Kamel, Sultan of Egypt, in an interview in the Temps. "Orientals understand too little the great part women play in the world's progress. If we could end the ignorance of our women and give them a chance to assert themselves, all the other troublesome questions would come under their healthy influence. We can never be wholly happy in the east until we free women from the semi-slavery to which they are subjected under Mohammedan laws."

**MINOR NAVAL BATTLE IN NORTH SEA**

**GERMAN LIGHT CRUISER SQUADRON SHELLS LOWESTOFF AT LONG DISTANCE—IS DRIVEN OFF**

(Special Service to Glendale Evening News)  
LONDON, April 25.—German light cruisers ventured out into the North sea Monday. Coming in sight of the British coast, near the fishing town of Lowestoft they bombarded that place at long distance. The bombardment killed one woman, one child and two men. A British light cruiser squadron came up and the Germans fled, fighting a brief action as they disappeared in the darkness. Some of their shells hit two British cruisers and one destroyer without doing damage. The effect of the British guns could not be ascertained.

**ZEPPELIN RAID ON EAST COAST OF ENGLAND**

**THREE GERMAN AIR RAIDERS DROP SEVENTY INCENDIARY BOMBS WITHOUT DOING DAMAGE**

(Special Service to Glendale Evening News)  
LONDON, April 25.—Three German Zeppelins appeared on the east coast Monday night and bombarded apparently without knowledge of the localities they attacked various points, without damage. Light southwest winds were supposed to be slightly unfavorable to the voyage of the Teutonic raiders; but the mild breeze had no effect on them. The night was dark and the raiders dropped only incendiary bombs. They disappeared without being located by any of the British defense air squadron.

**BUSINESS DEPRESSION HITS PHILIPPINES**

**POLICY OF ABANDONMENT CAUSES MANILA REAL ESTATE TO DEPRECIATE TWO-THIRDS**

(Special Service to Glendale Evening News)  
SAN FRANCISCO, April 25.—Recent arrivals at this port from the Philippines state that a wave of depression has struck the entire island. In Manila real estate has depreciated at least two-thirds. Many Americans have sold their holdings at considerable loss. The Filipinos themselves fear that abandonment means delivering the islands over to Japan. Gov. Harrison is said to be encouraging a policy by which Americans are being discouraged from carrying on their businesses in the islands.

**AMERICAN TROOPS ON TRAIL OF VILLA**

**GUIDED BY MEXICAN GENERAL BLISS SETS OUT WITH TROOPERS TO HUNT BANDIT**

(Special Service to Glendale Evening News)  
EL PASO, Texas, April 25.—It is now believed here that the Mexican who gave the information to the United States soldiers regarding the whereabouts of Villa was telling the truth and that he did locate the bandit in one of the retreats south of Satevo. Gen. Bliss has set out with a strong body of picked troopers to try to catch the bandit with the aid of the Mexican guide.

**FIRST ARRESTS MADE IN PITTSBURG STRIKE**

**WESTINGHOUSE COMPANY'S REVOLTED WORKERS MARCH AROUND BUILDING IN ENDLESS CHAIN**

(Special Service to Glendale Evening News)  
PITTSBURG, April 25.—It is estimated that there are now about 1500 men out on strike at the Westinghouse Electric and Manufacturing company's works here. There were several fierce clashes between the deputies and the strikers today. Several strikers have been arrested. The strikers are marching in an endless chain round the Westinghouse factory.

**SCOTT AND OBREGON TO MEET IN JUAREZ**

**UNITED STATES REPRESENTATIVE WILL INSIST THAT VILLA MUST BE CAPTURED**

(Special Service to Glendale Evening News)  
WASHINGTON, D. C., April 25.—Gen. Hugh L. Scott, chief of staff of the American army, and Gen. Alvaro Obregon, minister of war of the de facto government, will probably meet in conference in Juarez very shortly. Scott will disabuse the Mexican representative's mind of the idea that the United States army is in Mexico for any other purpose than that of catching Villa. He will also insist that it remain there until that purpose has been accomplished either by the Mexicans or the Americans.

**PROMPT BUSINESS METHODS**

Exactness is the balance wheel of the business world. A promise to pay at a specified time should be equivalent to cash at that time. A business promise not kept begets lack of faith, and tends to cause a lack of stability in business. If 1000 persons in a community are doing business on promises when Dealer No. One breaks his promise the whole chain of promises is made useless on account of that one man who represents a link in the chain. All promises must be kept if the promise chain remains perfect.

**THERE IS FORCE IN SILENCE**

Silence preaches some of the strongest sermons that have ever been preached. Go out beneath the starry firmament at night and witness the sermon that is stronger than any sermon that ever fell from the lips of man. The majestic oak in the forest speaks not in audible language, but it does speak proclaiming the wonders of nature. The great ocean teaches the most profound lesson when a calm rests upon its surface. Silence commands attention.

It has been said that there is a road to every man's heart. It has also been said that that road is not by the way of the strings of his pocket book.

**TRUSTEES' MEETING**

(Continued from Page 1)

suggestion the matter was referred to the city attorney for opinion.  
Trustee Jackson made a motion, which was seconded by Trustee Grist, that a resolution be drawn up and presented to the officers of the Glendale Garden society, expressing the gratification of the trustees as representing the people of Glendale, for the successful carrying out of the flower festival given by that society during the past week. Mr. Hartmann spoke in reference to the work done by the society and its plans for the future, stating that it is expected that the exhibition given next year will be doubled in size and importance.  
Mr. Warren Story addressed the board briefly in reference to the proposed establishment of gasoline supply station at the corner of Central avenue and Colorado street by Mr. George Peters; the same being the proposition alluded to earlier in the evening by Mr. Davis. Mr. Story favored the project, stating that the station would be one of unusually high class and in no ways detrimental to surrounding property.

The city engineer presented a map of Tract No. 2976, a tract outside of the City of Glendale, requesting that the city trustees adopt and approve the same.

On motion of Trustee Grist, "A resolution of the board of trustees of the City of Glendale, approving the map of tract No. 2976," was taken up for reading and on motion of Trustee Muhleman the same upon being read was adopted.

The city engineer brought up the matter of Pacific avenue from the Southern city limits to Broadway, explaining the scope of the work which would necessitate the construction of culverts, and desiring to know under what plan the work should be carried on, whether district, or by frontage assessment.

The matter was discussed informally, but no action taken.  
On motion of Trustee Grist, the engineer was instructed to prepare a Profile map showing the grades on Broadway east of Glendale avenue, and also on the proposed Sycamore Canyon road at its intersection with Broadway.

The city manager called attention of the board to the action of the Van Nuys Chamber of Commerce in passing a resolution addressed to the Board of Supervisors of Los Angeles County, requesting that body to agree to spend a certain sum of money for the improvement of such leading highways of the county as passed through the municipality. On motion, the matter was referred to the Chamber of Commerce.

The city manager also reported that the city had been put to considerable expense and trouble in taking care of and disposing of two cases of small pox recently, and presented a communication from the health officer of the City of Glendale, accompanied by resolution adopted by the Health Officers' association of Los Angeles County in regard to the great need of an isolation hospital for small pox patients to be maintained by the county, and requesting the board, by resolution, to endorse the action of this association.

On motion, a resolution covering that subject was ordered to be read, and upon being read, was on motion of Trustee Grist adopted.

The manager of the Public Service department reported progress in the work of laying the new twenty-inch pipe line, and also that the department is making preparations on all sides of the city to meet the extra demands for water, which will accompany the advent of the dry season.

The city attorney made a report to the effect that the referee's report on the opening and widening of East Broadway had been completed, and that he is now preparing a report for filing with the Superior Court; also in the matter of the opening and widening of Seventh street, he reported that two of the defendants, George M. and Katharyn Ross, filed objections to the referee's report, which necessitated the matter being set for trial, and on the day of trial, the defendants withdrew their objections and the report was duly confirmed by the court.

He further stated that he had filed in the Superior Court a claim against the contractors for the improvement of Kenneth road, in the sum of something over \$200.00 for water and material furnished by the Public Service department.

He further reported in regard to the opening and widening of Penn street, that the action had been filed and papers had been turned over to the sheriff to be served.

Mr. Cowan of the Glendale Evening News addressed the board in reference to the publication of the minutes of the board, which was referred to the city attorney.

The following demands were allowed:

**A HISTORIC ENGLISH CASTLE**

Longleat castle, which is said to be the first well built house in England, was erected by Sir John Thynne, and its construction occupied twelve years, from January, 1567, until 1579. The first royal visitor to Sir John's noble mansion was Queen Elizabeth, and the story runs that the owner was not very anxious for his sovereign to see his home, as she might ask him where he obtained the money to build so stately a house. Sir John Thynne, who was knighted after the battle of Pinkie, was the factotum of the Protector Somerset, and it is said that he built Longleat from designs prepared by his fallen master for a house of his own.

**APRIL**

April, season blest and dear,  
Hope of the reviving year,  
Promise of bright fruits that lie  
In their downy canopy,  
Till the nipping winds are past,  
And their veils aside are cast!  
April, who delight'st to spread  
O'er the emerald, laughing mead  
Flowers of fresh, and brilliant dyes,  
Rich in wild embroideries;  
The eglantine and hawthorn bright,  
The thyme, and pink, and jasmine white,  
Don their purest robes to be  
Guests, fair April, worthy thee.  
The nightingale—sweet hidden sound!  
Midst the clustering boughs around  
Charms to silence notes that wake  
Soft discourse from bush and brake:  
And bids every listening thing  
Pause awhile to hear her sing.  
—Remy Belleau (translation of Louisa Stuart Costello)

**VERY FINE HANDIWORK**

Dr. Heylin in his "Life of King Charles" records that during the reign of Queen Elizabeth "there was one who wrote the Ten Commandments, the creed, the Paternoster, the queen's name and the prayer of our Lord within the compass of a penny and gave her majesty a pair of spectacles of such an artificial making that by the help thereof she did plainly and distinctly discern every letter."  
A somewhat similar feat was that "rare piece of work brought to pass by Peter Bales, an Englishman, who also exhibited before her majesty the entire Bible written in a book containing as many leaves as a full sized edition, but fitting into a walnut."

**THE VOLCANO CIRCLE**

Volcanoes would seem to be arranged with more or less symmetry in belts circling the great oceans. A ring of fire surrounds the Pacific. Starting at the South Shetland islands, several hundred miles south of Cape Horn, a belt of volcanoes extend up the west coast of South America, Central America and North America; from Alaska it crosses the Pacific along the Aleutian islands to Kamchatka; thence it follows the east edge of the Pacific through the Kurile islands, Japan, Formosa, the Philippines, the Moluccas, the Solomon Islands, the North Hebrides, New Zealand and finally ends in Mounts Terror and Erebus, on the antarctic continent.

**PROTECT WILD FLOWERS**

The Chicago chapter of the Wild Flower Preservation Society of America has been arresting the attention of as many people in its section as possible and telling them, individually and collectively, that unless destruction of wild flowers ceases, the time when the United States will have no wild flowers can easily be measured. Pulling up beautiful things by the roots, in the fields and woods and along the lanes and highways, is an effectual way of depriving the country, in the spring and summer, of much natural beauty.

**BARACA BUSINESS MEETING**

The Baraca class of the First M. E. Sunday School will have a called business meeting tonight, at 7:45, in the primary room at the church. All members are urged to be in attendance, as there is business of importance.
