Herschel's Weather Table for Foretelling the Weather, through all the Lunations of each Year, Forever.

This table and the accompanying remarks are the result of many years' actual observation, the whole being constructed on a due consideration of the attraction of the sun and moon, in their several positions respecting the earth, and will by simple inspection, show the observer what kind of weather will most probably follow the entrance of the moon into any of its quarters, and that so near the truth, as to be seldom or never found to fail.

If the new moon, first quarter, full moon or last quarter happens.		IN WINTER.
8 and 10, "	Cold, with showers Rain Wind and rain Changeable Frequent showers Very rainy Changeable Fair	Rain. Stormy. Cold rain, wind W. snow E. Cold and high wind. Snow or rain. Fair and mild. Fair. Fair frosty wind N. or N. E. Rain or snow if S. or S. W. Ditto.

Observations.—1. The nearer the time of the moon's change first quarter, full and last quarter, are to midnight, the fairer will the weather be during the seven days following.

2. The space for this calculation occupies from ten at

night till two next morning.

3. The nearer to midday or noon, the phases of the moon happens, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the summer, though they affect spring and autumn nearly in the same ratio.

5. The moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, i. e., from four to ten, may be followed by fair weather; but this is mostly dependent on the wind, as is noted in the table.

6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of autumn, the whole of winter, and the beginning of spring, yet in the main, the

above observations will apply to those periods also.

7. To prognosticate correctly, especially in those cases where the wind is concerned, the observer should be within sight of a good vane, when the four cardinal points of the heavens are correctly placed.

GARDNER'S CALENDAR.

January.—Look around y u and endeavor to ascertain the results of your industry throughout the past year. In order to make improved arrangements for the future; survey your former practice, and that of your acquaintances, with a view to improve on everything you have done or seen done; make memorandum of such things as may be obtained in moments of leisure, in preference to putting it off until it is wanted.

February.—Important at this senson to collect plenty of manure; prepare dung and other heating materials for hot-beds; for which select a situation well protected by a close fence or wall. When all is prepared, begin to sow Cabbage, Egg-plant, Lettuce Cucumber and Tomato seed; plant Kidney Beans, Potatose, Pens; sow Badish seed. In cold beds, well pretected, plant Broad Beans, sow Cabbage seed.

Honesty is the best policy, but he who acts upon this as his rule, will not be an honest man.

Trust not the world, for it never payeth that it promiseth.

November.—Endeavor to avoid having your garden products frozen fast in the ground; begin in good-earnest to secure them. Cabbage may be taken up and laid in rows against a ridge, so as to form a square, compact, close-growing bed, the roots and stems being buried up to the lower leaves in Cabbages. The beds may then be covered with straw, or a temporary shed erected over them.

The pleasantest things in the world are pleasant thoughts, and the greatest art in life is to have as many of them as possible.

Condensed History of Events since November 6th, A. D., 1860.

November, 6 .- Abraham Lincoln elected President of the United States by a sectional vote-receiving no vote in a Southern State, and every Northern vote save three, in New Jersey.

Nov. 13.-Georgia Legislature appropriated one million dollars to arm the State.

Nov. 19.—A detachment of State troops ordered to guard the arsenal at Charleston, S. C.

Dec. 14.-Cass, Secretary of State, resigned, because President Buchanan refused to re-inforce Fort Sumter.

Dec. 17 .- Attorney General Black appointed Secretary of State. South Carolina Convention met at Columbia, and, owing to the prevalence of small-pox, adjourned to Charleston. Governor of South Carolina sent a confidential agent to the President of the United States, demanding possession of Fort Sumter.

Dec. 20.-President of the United States sent Caleb Cushing to South Carolina on confidential mission. South Carolina Convention passed the Ordinance of Secession.

Dec. 26 .- Major Anderson moved all his forces from Fort Moultrie to Fort Sumter, with his munitions of war, after first spiking the guns, cutting down the flag staff, and burning the gun carriages. All this was done in the night.

Dec. 27 .- South Carolina State troops took possession of

Fort Moultrie and Castle Pinckney.

Dec. 29 .- Gov. Floyd, Secretary of War, resigned because President Buchanan sustained Anderson's occupation of Fort Sumter, after pledges that the previous status should be preserved.

1861.

The President of the United States replied to South Carolina Commissioners, refusing to recognize them in an official capacity, and refusing to withdraw Anderson from Fort Sumter.

Jan. 3.—South Carolina Commissioners left Washington. Fort Pulaski, Savannah, taken possession of and garrisoned by State troops, in anticipation of its occupation by Federal troops. Mount Vernon Arsenal, Alabama, occupied in like manner. Revenue cutter, Dolphin, taken possession of, but returned by Gov. Brown, of Georgia. Florida Convention

Jan. 4.—Fort Morgan, Mobile, taken possession of and

garrisoned by Mobile troops.
