his horses' neck and traded his home. Mr. Nash is an unflinching friend of justice and humanity, and had been speaking for these with elevated feeling, regarding with these Virginians to be on his side.

His opinion is known as an old "slave-trader," "a negro-driver," who sold his own daughter among his chattels! It was an invective of blockade goods, and it likely he can never take the oath and enter the Legislature if Gen. Canby's orders are carried out.

From the Philadelphia Bulletin. The venerable and philanthropic Josiah Quincy, who has for years given largely of his time and means to establish comfortable homes for the poor of Boston, has been favored by our eminent townsmen, Mr. E. M. Davis, with an account of our Building Association in scheme—something unknown in Boston and New York.

From the Boston Daily Advertiser. I have spoken of the mode of obtaining the funds necessary for the purchase or erection of a moderate house by procuring a loan from such savings banks as might be willing to lend small amounts for the benefit of their depositors and the public.

There are seven or eight members and 1,000 shares. None of the officers receive pay, except the Secretary, and he is only \$2 a month. The treasurer gives bonds for \$1,000, but seldom has over \$50 to \$100 on hand, as the money is generally loaned the same night it is paid into the association.

Only members can borrow money. Each one has to put up a share and every share, but not over \$150 at one time. The interest is given on the \$150 as a security a first mortgage on real estate for the amount borrowed, and if there are buildings they must be insured and the policy transferred to the association.

Our association was started twenty-two months since. As fifty cents each month has been paid in advance, the amount paid in is \$11, but the shares are worth \$14. The house has been made out of premium, interest and fines. Judging from the operations of other similar associations, by the time \$60 has been paid in by members "monthly dues," the shares will be worth \$100 each, that is, the association will hold claims on the real estate of its members, and cash on hand amounting to \$100,000.

The loans are made by the president's stating that there are, say, \$500 in the treasury, but that he will sell \$1,500 if it is wanted, payable out of the first money in the treasury. Some one is willing to pay 5 per cent. premium for it; another 8 per cent. others more, and so on until it reaches say 20 per cent. The buyer has fifteen shares, and says he will take the \$1,500. He gives security for \$1,500 and pays interest monthly on the \$1,500 but the premium of \$300 is deducted, and he gets only \$1,200 money. His monthly dues are \$7.50 and interest \$7.50. He, therefore, pays \$15 a month until the shares are worth on the books \$1800; then his mortgage is banded back marked paid, his policy transferred, and his home is clear.

This occurs at the same time necessarily with every borrower, for it is not registered by what he pays for his money or when he gets it, but by the person who lends the money, and so on until it reaches \$1,000; all the borrowers are out of debt. If there is cash on hand it belongs to those who have not borrowed, and will be \$100 a share for them.

The time that it takes for a society to "run out" as it is called, depends mainly on the "premiums paid." If they are low, the period is shorter. If they are high, the period is longer. In the period would be much shorter. Money borrowed in the first year of the association, at 25 per cent. premium, does not cost the borrower quite 8 per cent. per annum. Then he has these great advantages—he can borrow an amount almost equal to the cost of his property; he returns it in small sums, and, in addition, participates in the profit made by the association. It is the true mode of getting a home out of future earnings.

Being the prospective owner of the place occupied, all the improvements inure to him. This system makes our small houses more lasty, and insures their being kept in better order, because a home that is owned is more cared for than one that is rented. I think that what are called building associations contribute much more towards securing homes for our mechanics and laboring people than our ground rent system.

Joachim Quincy. [We commend the above plan for Co-operative Building Associations, which has been suggested with great care by our friend, EDWARD M. DAVIS, and its usefulness practically demonstrated under his superintendence, to the thoughtful consideration of capitalists who are friendly to, and who

would be glad to give substantial aid to the freed people of the South in helping them to help themselves.—Ed.]

THE INDIANS. INTERESTING CORRESPONDENCE WITH THE INDIAN PRINCE AND THE PROGRESSIVE FRIENDS. The Universal Peace Union and the Progressive Friends united in the following letter, which was forwarded last March:

To the Indians of America: DEAR FRIENDS AND CHILDREN OF THE ONE GREAT SPIRIT—Filled with love, sympathy and peace, we desire to acquaint you with the fact that we have memorialized the Congress of the United States in your behalf.

PHILADELPHIA, Third Month, 1869. The following are among the replies already received: PANAMA RESOLUTIONS. GENEA, Nebraska, May 19th, 1869.

To the Progressive Friends of Pennsylvania and the Universal Peace Union: DEAR FRIENDS: Having received your circular, I take great pleasure in presenting it in an informal manner to the Chiefs of the four bands of the tribe, among whom it has been my privilege to work as teacher at intervals.

TOI-RE-GE-NE-ASH, First Chief of the Tappahal band, says: I am rejoiced to hear that I have friends who care so much for me, and I now hope that I have so good a friend as I shall obtain—a house like a white man.

ADDRESS TO THE REPUBLICANS OF TEXAS AND THE UNION. BY DIRECTION OF THE REPUBLICAN STATE CONVENTION. FELLOW-CITIZENS: The Convention of Republicans, assembled at Houston, Texas, on the 7th of June, 1869, to nominate State officers, directed me to address to issue to the people and the party, upon the political condition of this State.

TEXAS TO-DAY IS NO NEARER RECONSTRUCTION THAN AT THE CLOSE OF THE WAR, EXCEPT IN POINT OF TIME. THE masses of the people who were enlisted against the government of the United States, are now as big a hostile to the present administration as they were at the time of the secession.

LOS ANGELES, Cal., June 24, 1869. Alfred H. Love and the Gentlemen composing the Convention for the Amelioration of the Condition of the Indians: GENTLEMEN: I received your circular of March, 1869, addressed to the Indians under my supervision, as agent for the Mission Indians of Southern California, and the belief which I entertain is, that you are glad that the friends of justice and humanity are about to interest themselves in their behalf.

TOI-RE-GE-NE-ASH, First Chief of the Tappahal band, says: I am rejoiced to hear that I have friends who care so much for me, and I now hope that I have so good a friend as I shall obtain—a house like a white man.

sent in the face of an enemy, and thus the Republican party has been defeated. There is little doubt that the defection and desertion to the enemy of ex-Governor A. Hamilton, was the result of a combination which had for its object the election of that gentleman to the gubernatorial chair of the State, and to the halls of legislation a body of Democrats, who should have given their support.

I have no doubt that you will be glad to see them in the hour of danger, and to see them in the hour of triumph; and to see them in the hour of their country's triumph; insulted by the 'traitors' of the Convention, and unopposed by the price of treason, who will not trust them? Who will not give them their support?

EDUCATION FOR GIRLS.

BY MARY F. DAVIS.

We are told that at the meetings of the trustees of Cornell University this year, the admission of women to the institution was one of the first questions under discussion.

Dr. Elizabeth Blackwell, twenty-five years ago, was denied admission to all the medical schools of New York, Philadelphia and Boston.

Because this might prove to sway the destinies of the world is borned up in the nature of woman, she is honored and privileged to the fullest extent of her capabilities and claims.

all that would make them desirable companions for boys and learned men, and would help to fit them to become the mothers of a more virtuous and happy American people.

ATTENTIVENESS.—How much more we might make of our family life, of our friendships, if every secret thought of love blossomed into a deed!

"MAX has the single and prime duty of preserving the repose of his mind. All that is external to him, that belongs to what we call the world, has no business to concern him."

"THESE LITTLE ONES."

As a general rule, we are not half thoughtful or conscious enough in our manners toward our children.

At the late commencement of Williams College, William Cutler Bryant was called up at the annual dinner by the president of the institution.

"I have occurred to me since I, in the decline of life, to visit once more this seat of learning the agony of the world is trained to succeed on its own, standing on its feet, I am in the situation and with twilight, should be permitted to go with a miracle to look upon a neighboring region glowing with the bloom of spring and bright with the beams of morning.

REST IN THE LORD.—BY FRANCIS POWER COBLE.

God draws a cloud over each gleaming morn'nd We would ask, Why?

Only upon some cross of pain or woe God's sun may rise;

He never sends a joy not meant in love Still less a pain;

IN HIS HANDS WE ARE SAFE.—We fatten on Through storm and mire, Above, behind, around us there is One

What, tho' we fall and bruise and wounded lie, Our lips are dust,

For neither life, nor death, nor things below, Nor things above, Shall ever sever us that we should go From His great love.
