Dislocations.	Ear ache.
Drowning.	Wounds, of all kinds, including the bites
Effects of Cold—Frost Bites.	of dogs, Snakes, Insects, etc.
Epilepsy—Epileptic Fits.	Index.

This book should be in the possession of every head of a family, Nurse, Manufacturer, Conductor, Policeman, Sea Captain, Hospital Steward, School Teacher, Druggist, etc. etc.

This handbook has been compiled with the object of informing the general reader of what to do in cases of emergency, and how to do it, describing the symptoms in each case and giving a list of the principal poisons with remedies and antidotes.

The range of accidents is very wide—from a fish hook in the flesh to apoplexy and Asiatic Cholera, and from broken bones and epilepsy. The prescriptions and rules are simple and intelligible.—*Book Chat*, New York, January, 1889.

This book is the most convenient form in which all necessary information about the proper treatment of accidental injuries can be found.—*News*, New York, June 23, 1889.

It is a book which has been prepared with much labor and care and is admirably adapted to the purposes for which it is designed. *Maryland Medical Journal*.

"What to do in Cases of Accidents and Emergencies," is the title of a handbook of medical and surgical advice written for family and general use. *Star*, New York, Jan. 6, 1889.

This is one of the most useful books of this character which has appeared—*Buffalo Medical and Surgical Journal*

Mr. Lawrence's work is considered the best upon the subject. The book is a more than ordinarily valuable one.—*The Medical Age*.

"Accidents and Emergencies, and How to Treat Them," is the title of a valuable book.—*World*, New York, Jan. 13, 1889.

We regard Mr. Lawrence's work as one of the most valuable which has appeared on the subject.—*Michigan Medical News*.

For sale by all Booksellers or sent by mail post-paid on receipt of price.

P R E F A C E .

The publishing of this the "*Nurse Register*" was undertaken with a view to supply a want which was supposed to exist to a considerable extent and which would serve as a ready book of reference whenever the service of a Nurse is required.

The names and addresses of Nurses (not midwives) that appear are without exception reliable, since a personal canvass was made to secure them.

It is the sincere wish of the Editor that each succeeding edition will be an improvement to its predecessor.

In submitting the "*Register*" to the Profession the Editor hopes that his labor and unremitting care he has bestowed upon it, have resulted in the production of a "*Register*" which will be found to answer all the purposes for which it is intended.

1662 Park Ave., Sept., 1891.

Mill's Training School for Male Nurses,

433 E. TWENTY-SIXTH STREET.

In connection with Bellevue Hospital. Under the Direction of the Commissioners of Charities and Correction.

The managers of the Training School for Male Nurses have made arrangements with the Commissioners of Charities and Correction for the giving in Bellevue Hospital of a two years' course of instruction in nursing to men who may be desirous of becoming professional nurses. Those wishing to receive the course of instruction must apply to the Superintendent of the Male Training School for admission. Upon the recommendation of the Superintendent they may be admitted to the school for one month on probation. The acceptable age of candidates is from 21 to 35 years. The applicant must present a certificate from a responsible person and a physician as to his good-moral character and sound health. Applicants are received at any time during the year when a vacancy exists. During the period of probation the applicant must be in readiness to pass an examination in reading, penmanship, simple arithmetic, and English dictation. This examination is to test the ability of the applicant to read aloud well, to write legibly and accurately, to keep simple accounts, and to take notes of lectures. This amount of education is indispensable for admission to the school, but applicants are reminded that men of superior education and cultivation, when otherwise equally qualified for nurses, will be preferred to those who do not possess these advantages. During the period of probation the pupils are boarded and lodged without expense to themselves, but receive no other compensation. Those who prove to be satisfactory will be accepted as pupil nurses provided that they agree to remain two years in the school, and that they obey the rules and regulations of the school and of the hospital. The pupils will reside in the "Home" connected with the school, and serve as nurses in the wards of Bellevue Hospital. The second year they will be required to perform any duty assigned to them by the Superintendent in the hospital or elsewhere. The pay for the first year is \$12 a month, for the second year \$15 a month. The instruction which is given is largely of a practical character, and such as, in the judgment of the managers, is best fitted to qualify the nurse for the successful exercise of his calling in future. Such of the pupils as complete the course to the satisfaction of the managers are subjected at its termination to an examination which is intended to test their general fitness for the work of nursing in private. If they stand the final test to the satisfaction of the managers, they are recommended to the Commissioners of Charities and Correction for diplomas and badges which certify to their having graduated from the school.

New York Hospital Training School for Nurses.

The terms of the hospital year begin on the 1st of April and 1st of October. The course of instructions extends over a period of eighteen months, and is divided into three equal terms. The school consists of thirty-six pupils divided into classes who shall serve respectively as Junior Assistants, Senior Assistants and Head Nurses. Applicants for tuition in the Training School must be between twenty-five and thirty-five years of age, and possess a good common school education. They must produce certificates of good character, good health and physical capacity for the duties of nurses, and must make their application to the Superintendent of the hospital. If admitted, they will be expected to serve on probation for a period not exceeding two

months, during which time they will receive board and lodging, but no compensation unless accepted as pupils, when they must sign an agreement to remain in the school, and subject themselves to the rules of the hospital for the full period of eighteen months unless failing of promotion. At the end of the term there shall be an examination of the graduating class, which being creditably passed, shall entitle its members to a diploma under the seal of the hospital. The promotions from the lower classes shall be under the direction and control of the Executive Committee. A monthly allowance of \$10 for the Juniors, of \$13 for the Seniors, and of \$16 for the Head Nurses will be made. Board, washing and lodging will be furnished without charge. In sickness all pupils shall have gratuitous care. The instruction will consist in part of didactic lectures relating to the general principles of nursing the observation and recording of symptoms, the diet of the sick, and the methods of managing helpless patients. Besides this, instruction will be given at the bedside in the various departments of medical and surgical nursing.

Training School for Nurses, Mount Sinai Hospital.

850 LEXINGTON AVENUE.

The course of instruction extends over two years. Application for admission may be made at any time to the Superintendent. The most acceptable age for candidates is from twenty-one to thirty-five years. If admitted, they will serve one month on probation, during which time they will receive board and lodging, but no allowance of money unless accepted. If accepted as pupils, they must agree to remain two years, and will receive an allowance of \$7 per month during the entire course. The course of training is practical nursing in the wards of Mount Sinai Hospital, and semi-weekly instructions by a professor of anatomy and physiology. Systematic instruction is also given in a series of lectures by prominent physicians and surgeons. Opportunities for obstetrical training are also afforded, and pupils are taught massage. Lessons are given in hygiene and in the preparation of food for the sick. At the expiration of two years, if the pupil passes a satisfactory examination before the Committee of Instruction, she is awarded a diploma.

Bellevue Training School for Nurses,

426 E. TWENTY-SIXTH STREET.

This school was established in 1873, and now has charge of all the women and children in the hospital and two male surgical wards. The course of training is very thorough, consisting of constant practice in surgical, medical and obstetrical cases; also lectures by surgeons and physicians, lessons in bandaging, and cooking for the sick. Nurses are lodged and boarded free at the Home, 426 E. Twenty-sixth Street. The course of training is two years. The pay the first year is \$7 per month, second year \$12. After passing the final examination, a diploma and badge are given. Applications for admission should be made to the lady Superintendent at Bellevue or at the Home.

Training-School for Nurses,

CHARITY HOSPITAL, BLACKWELL'S ISLAND, N. Y.

For Instructions in Medical and Surgical Special Nursing.

The school is under the authority of the Commissioners of Charities and Correction. The term of service is two years. Nurses reside in the hospital and receive in addition to board and washing, the first year, \$10 per month, and the second year, \$15. The applicants must be over twenty years of age and under thirty-five, and must present a certificate from a responsible person and a physician, as to their moral character and health. Course of instruction consists in service in the surgical, medical, and "special" wards of Charity Hospital, and in the lying-in wards of Maternity Hospital. In addition to this, lectures upon the various branches of nursing are given by the visiting physicians and surgeons and members of the house staff, and frequent examinations are held by the Committee on Training-School. Those wishing to receive this course of instruction must apply to the Committee on Training-School of Charity Hospital, upon whose approval they will be accepted as pupils in the school. At the expiration of two years, those who are fully qualified, will receive a diploma signed by the Medical Examining Committee and the Commissioners of Public Charities and Correction, setting forth that they are experienced and competent nurses. Number limited to forty-five.

Training-School for Nurses,

LONG ISLAND COLLEGE HOSPITAL, BROOKLYN, N. Y.

The regular terms commence on the first of April and the first of October, but pupils will also be received at other times if vacancies exist. The course extends over two years, and includes all the branches of medical, surgical, and obstetrical nursing. The practical instruction takes place in the wards and the dispensary of the hospital. The theoretical is given by the faculty of the college in a course of lectures on anatomy, physiology, obstetrics, surgery, food, and medicine symptomatology and gymcology. Applicants for admission should be between twenty-five and thirty-five years; they must serve one month on probation without compensation; if admitted for the full course, they receive afterwards \$9 per month for the first and \$15 for the second year; also board, lodging, and washing, and in case of sickness, medical attendance free of charge. At the end of the full course a suitable diploma is given to the pupils if they creditably pass an examination conducted by the college faculty. The nurses lodge in a wing of the hospital especially constructed for them. Miss Ida L. Sutcliffe is the superintendent of the school to whom all applications for further information can be addressed.

Training-School for Nurses

BROOKLYN, N. Y.

The school was organized and commenced work on November 1, 1880. It is directed by a society incorporated by the State, consisting of twenty-seven managers who appoint a superintendent. Arrangements have been made with the Brooklyn Hospital authorities to afford a two-years course of training, and the nurses are lodged in a separate building or "Home" on the grounds. During the first year the Nurses care for the sick in the hospital; the second year, they are sent out to care for sick in private families. The nurses receive from the school \$7 a month the first year, and \$12 a month during the second year. There are at present—August—thirty nurses in the school.

The Training School for Male Nurses,

CHARITY HOSPITAL, BLACKWELL'S ISLAND, N. Y.,

Was organized in the Spring of 1887 and has twenty-five pupils. Managers for 1891: Dr. James F. Ferguson, Chairman, and Dr. P. A. Morrow, to whom application should be made for admission. The term of service is two years. Orderlies reside in the Hospital and receive, in addition to board and washing, the first year \$12; the second year \$15. At the expiration of two full years those who are qualified will receive diplomas certifying to their knowledge of nursing, their ability and good character, signed by the Commissioners of Public Charities and Correction, the President and Secretary of the Medical Board, and the Managers of the School.

Training School for Nurses,

HARTFORD, CONN.

In connection with the Hartford Hospital. Twenty Pupils. Miss Flora Macrae, Supt., a Graduate of the Boston City Hospital.

The Directors of the Hartford Hospital have made arrangements for giving, at the Hospital, two years' training to women desirous of becoming professional nurses. Persons wishing to receive this course must apply to the lady Superintendent of the Nurses' School; upon her approval they will be accepted as pupils in the Hospital.

Candidates must be over twenty-one and under thirty-five years of age.

They must be of sound health, and must present, on application, a certificate from some responsible person as to their good character.

Applicants will be received for one month on probation. During this month they are boarded and lodged at the expense of the Hospital, but receive no compensation if they leave before the expiration of this month or are found incompetent by the Superintendent.

They will reside in the Hospital and serve the first year as assistants in the wards of the Hospital, the second year they will be expected to perform any duty assigned them by the Superintendent, either to act as nurses in the Hospital or to be sent to private cases among the rich or poor.

Those persons complying with the foregoing conditions will be accepted as pupils by signing a written agreement to remain at the school for two years and to conform to the rules of the Hospital.

The pupils are taught to prepare food, together with drinks and stimulants for the sick; to understand the art of ventilation without chilling the patient, both in private houses and hospital wards, and all that pertains to night in distinction from day nursing.

To report to the physician accurate observation of the state of the secretion, expectoration, pulse, skin, appetite, temperature of the body intelligence (as delirium or stupor), breathing, sleeping, condition of wounds, eruptions, formation of matter, effect of diet, stimulants, or medicines, and to learn the management of convalescents.

Instruction will be given by attending and resident physicians and surgeons at the bedside of the patients, and in various other ways, also, by the lady Superintendent and head nurse.

The pupils will pass through the different wards, serving and being taught, for one year. They will be supplied with board and lodging, and will be paid (\$10) per month the first year, the second, (\$14) per month.

When the full term of two years is completed, the nurses thus trained, after passing a final examination, will receive diplomas, certifying to their knowledge of nursing, their ability, and good character.

The graduates from the training school for nurses during the year have been: Miss Henrietta Willett, Miss Rilla J. Perry, Miss Ella E. Gibbs, Miss Alice M. Smith, Miss Delia N. Smith, Miss Jennie R. Field, Miss Harriett A. Lorber, Mrs. Addie R. Young, Miss Martha J. Wilkinson, Miss Mary J. Barr, Miss Alma A. Robinson, and Miss Belle M. Snelling.

Training School for Nurses.

Established in connection with the General Hospital in 1873, and having at present a Head Nurse, an Assistant, and Thirty two Female Pupils.

Application for admission may be made at any time to the Superintendent. The Executive Committee of the Connecticut Training School for Nurses has made arrangements with the authorities of the New Haven Hospital for training women desirous of becoming professional nurses. The candidates must be over twenty-four and under forty years of age, and must present a certificate from a clergyman and a physician as to her good moral character and sound health. She will be received for one month on probation without compensation. Those fulfilling the conditions of the probationary month will be accepted as pupil nurses. They must then sign a written agreement to remain under the directions of the school for two years. They will reside in the Nurses' Home and pass through the different wards of the Hospital, serving and being taught for one year. During the second year of their connections with the school the nurses will be assigned the special duties in the Hospital to missionary cases in this city or to the care of patients in private families.

They will be supplied with board, washing and lodging, and will receive during the entire term 200 dollars.

When the full term is ended the nurses thus trained will each receive a diploma signed by a physician of the Committee, the President and officers of the School.

Training School for Nurses, Memorial Hospital.

CORNER ESSEX AVENUE AND HENRY STREET, ORANGE, N. J.

The Orange Training School Association has made arrangements with the authorities of the Orange Memorial Hospital for giving two years' training to women desirous of becoming professional nurses. Those wishing to obtain this course of instruction must apply by letter to the chairman of the Committee on Nurses, upon whose approval they will be received into the school for two months on probation. The most acceptable age for candidates is from twenty-two to forty years. The applicant should send a letter from a clergyman, testifying to her good moral character, and from a physician, stating that she is in sound health. Applicants are received at any time during the year when there is a vacancy. Those who prove satisfactory will be accepted as pupil nurses after signing an agreement to remain two years and to obey the rules of the school and hospital. They will serve for the first year as assistants in the wards of the hospital; the second year they will be expected to perform any duty assigned to them by the Association, either to act as nurses in the hospital or to be sent to private cases among the rich or poor. Pupils receive six dollars a month the first three months, and twelve dollars a month for the remainder of the course. The teaching will be given by visiting and resident physicians and surgeons at the bedside of the patients by the Superintendent, and by such specialists as may be needed. Lectures, recitations and demonstrations will take place from time to time, and examinations at stated periods. When the full term of two years is ended, on passing an examination, each receives a diploma signed by the Examining Board.

Training School for Nurses, Newark, N. J.

This school gives a very thorough course of instruction to its pupils, extending over a period of two years. Applicants are admitted whenever there is a vacancy. They must be between the ages of twenty-one and thirty-five, be possessed of good health and a fair English education. They must present letters certifying to their good moral character. The instruction consists of practical work in the wards, including the care of medical, surgical, obstetric and contagious cases. Lectures are given each year by medical members of the Board of Directors, and lessons in elementary anatomy, physiology, and later from the weeks' Text Book of Nursing by the principal of the school. The pupils attend surgical operations and many post-mortem examinations. They are lodged, boarded and washing done, and are paid the first year from \$8 to \$10 per month, the second year from \$12 to \$15. In sickness all nurses are cared for gratuitously. They are allowed a vacation of two weeks each year, and at the end of their course, after passing a satisfactory examination, receive a diploma. Address Principal of Training School City Hospital, Fairmount Ave., Newark, N. J.
