GOVERNMENT WILL BUILD TO WINNIPEG

ARRANGEMENT WITH GRAND TRUNK PACIFIC

How Section to the Coast Will Be Constructed—Details Now Made Public.

(Special to the Times.)

Ottawa, July 3.—Details of the arrangement between the Grand Trunk Pacific and the government for the building of a trans-continent line are as follows:

The government will build the road from Moncton to Winnipeg, and it will be leased for fifty years by the Grand Trunk Pacific Railway Company. The company will only pay operating expenses for the first five years, the next five years it will pay the net over working expenses, but not to exceed 3 per cent, and will pay 3 per cent, the balance of the time.

From Winnipeg to the Pacific the government is to guarantee 3 per cent, bonds to the extent of 75 per cent, of the cost, but the maximum amount to be guaranteed on the prairie section is not to exceed \$13,000 per mile, and the mountain section not to exceed \$30,000 per mile. On the bonds the company will pay 3 per cent, interest from the date of issue. As the government is building part of the road the capital stock of the company will be reduced from \$75,000,000 to \$45,000,000. \$25,000,000 preference and \$20,000,000 common stock, the latter to be owned and controlled by the Grand Trunk Company of Canada, which will be interested in this way. Running powers are to be given to other railways from Moncton to Winnipeg. The government section will be built by Commission. The arrangement is regarded here as an excellent one.

The Lead Bounty.

In connection with the \$15 bounty on lead it should be mentioned that it will be on smelter ore, not refined ore. The bounty which refiners now get will be repealed. In future it will go to the mine owners—the producers.

BUILDING MAY CEASE.

Action of Vancouver Sawmills Is Likely to Result in Cessation of Operations.

(Special to the Times.)

Vancouver, July 3.—Unexpected action was taken by all Vancouver sawmills which threatens to tie up building operations for the season. The mills issued a notice to-day that no more lumber of any kind would be sold to anyone in Vancouver until further notice.

A month ago all bench carpenters working in the mill, sash and door factories went on strike for a nine-hour day instead of ten. Now the mills object to the city contractors hiring these strikers on buildings, and for other reasons won't sell another stick of lumber until the workmen are coerced to return to work. Buildings will start to be tied up to-morrow, as the contractors have no lumber on hand. Foreign shipments will continue as usual, unless other mill workers go out in retaliation.

The timber-market is in a bad way, and there is no sale to-day for logs at less than two-thirds the price of a month ago.

COMOX LIBERTIES.

Form an Association and Elect Their Officers.

(Special to the Times.)

Cumberland, July 3.—More than half of the farmers in the Comox Valley turned out last night to organize a Liberal association. W. Sloan gave an address on the principles of Liberalism. The following officers were then elected: President, Jos. McPhee; vice-president, Wm. Bobb; secretary, J. A. Halliday; treasurer, Walter McIver; executive committee, Jas. Bennett, Hornby Islands; D. McMillan, Denman Island; Hugh Clark, J. B. Holmes and Alex. Salmon. A delegation from the Cumberland association was present to arrange for the calling of a convention and the adoption of a local platform. A joint meeting of the Comox and Cumberland executives will be held Monday evening.

SUIT FOR TWO MILLION.

Action to Recover Value of Timber Alleged to Have Been Unlawfully Cut.

(Associated Press.)

Butte, Mont., July 3.—The United States government has instituted suit in the Federal court at Butte against the Anaconda Copper Company, the Bitter Root Development, the Marcus Daly estate, William Seaford and others for \$2,000,000, being the value of timber alleged to have been cut unlawfully from the public domain in the western part of the state.

GRAIN FIRES.

Much Damage Has Already Been Done in Various Parts of California.

(Associated Press.)

San Francisco, July 3.—Grain fires are raging in the Sacramento and Stockton districts. In Yolo county an area of six by four miles has been burned over. On Union island barley worth \$250,000 was destroyed. Reports of forest and grain fires are coming in from other sections of the state.

SEAMAN DROWNED.
C. R. Olson, Who Was at Work on Bowspirit of Columbine, Washed Away.

Newport, R. I., July 2.—For the first time in the history of races between American 50-footers, a fatal accident occurred this afternoon just before the yacht触碰ed the bowsprit of its top sail, and was drowned. The two other men who were out on the bowsprit with Olson, stamping the big jib topsail, were washed ashore by the same sea that swept Olson away. Both managed to get another hold upon the bowsprit, and were quickly pulled on deck by the crew.

When the Columbine listed from the big wave into which she had plunged, Olson was seen almost under the stem, clinging to the bowsprit, but before assistance could be given, the ship slipped into another great corner, and he was not seen after. Search was made for Olson with much success, and out of respect for the dead man Mr. Morgan withdrew from the race.

TREATMENT OF JEWS.

The Case Alone Can Decide Whether Petition From the States Will Be Received.

(Associated Press.)
St. Petersburg, July 3.—President Roosevelt's decision to forward to the Russian government the petition in behalf of the Russian Jews is not published here. The foreign office has made the following statement:

The Caar alone can decide whether the petition will be received, but Alexander III. would have never received such a petition. The petition from the Guild-Hall meeting, called by the Lord Mayor of London in 1891, was returned through the foreign office as being inconsistent. The foreign office hopes the Americans will not invite such a slight. They would resent an anti-lynching petition. The foreign office has no special interest in the question except a desire that international relations remain unharmed, since the matter is purely domestic and belongs to another ministerial department."

HON. H. T. DUFFY DEAD.

Provincial Treasurer of Quebec Passed Away Suddenly.

(Associated Press.)

Quebec, July 3.—Hon. H. T. Duffy, provincial treasurer, died at 3 o'clock this afternoon from a stroke of apoplexy.

Hon. H. T. Duffy was born in the town of Durham, Quebec, on May 26, 1852. He was educated at public schools and St. Francois College at Richelieu. He was admitted to practice law in 1879. He held the portfolio of public works in the Marchand government. He was a Liberal.

MILNER'S SPEECH.

At Opening of the Intercolonial Council—Financial Situation Reassuring.

(Associated Press.)

Johannesburg, South Africa, July 3.—The intercolonial council opened here, Lord Milner, in his inaugural address, said the financial situation was reassuring. Though rapid expansion was improbable in the near future, steady progress was certain. He disclaimed any intention of forcing federation, but he remarked it would come, though he did not expect it for some time.

PASSIVE RESISTANCE.

Two American Taxpayers Refuse to Pay the Education Rate.

(Associated Press.)

London, July 2.—The first foreigners to join the "Passive Resistance" movement against the Education Act are two American taxpayers living at Wimbleton, Rev. F. Parikh, formerly a pastor of Portland, Oregon, and E. P. Gaston, who at one time lived in Chicago. They have both refused to pay the education rate, and consequently their household will be seized and sold at auction to satisfy claims for a few shillings.

BRIEF FIGHT.

Herera Won in Two Minutes and Ten Seconds at Salt Lake.

(Associated Press.)

Salt Lake, Utah, July 3.—It took Jose Herrera, of California, only three punches and two minutes and 10 seconds last night to dispose of a fighter who claimed to be Jack Downey, the Brooklyn featherweight. Downey was knocked down after a minute's fighting and was sent down again. The third time Herrera knocked Downey down the latter was out for 10 minutes.

ARRIVAL FROM NO. 9.

Steamer Roanoke Has Reached Seattle With \$50,000 in Gold.

(Associated Press.)

Seattle, July 3.—The steamship Roanoke arrived from Nome last night, bringing \$50,000 in gold and several passengers. This makes the third arrival from Nome within 24 hours.

DREDGE ORDERS.

Will Come to Victoria on Tenth Inst.—A New Dredge.

(Associated Press.)

Mrs. Warren Thorpe and her daughter Petri McDonald have been arrested at Jackson, Michigan, on warrants charging them with the murder of the former's husband so that when she arrives here she will be in a good condition to undertake the work of filling in the flats.

In this connection it might be stated that a new steel dredge is to be built in the near future for the Dominion government, which will cost in the neighborhood of \$50,000. This dredge, it is calculated, will take the place of the Mudlark.

Canadian Pacific land sales for the month ending Tuesday were \$40,673 acres for \$1,421,451. Sales for June, 1902, were 224,073 acres for \$877,622.

For the year ending to-day sales totaled 2,630,529 acres for \$9,693,950. The sale for the year ending June 30th, 1902, were 1,505,455 acres for \$5,145,842.

JEALOUSY IN THE SHIPPING COMBINE

CHANGES ARE TO BE MADE IN MANAGEMENT

So Far It Has Not Been All Smooth Sailing—Several Instances of Clash of Authority.

(Associated Press.)

New York, July 3.—While no official information is available in regard to the discussion at the recent joint meetings in this city of the American and English directors of the Morgan Steamship Trust, some of the details have become known, says the Journal of Commerce, and this indicates that important changes in the management are under consideration, and will be gradually worked out.

The masters discussed naturally hinged on receipts and expenses, with the object of discovering how the receipts can be increased and the expenses cut.

In the matter of receipts the relative popularity of the various lines in the service was weighed, and it was agreed that the necessity existed for increasing the popularity of all backward divisions of the service. On this line the discussion led to the undoubted jealousy that seems to exist on both sides of the water between the men of the enormous rival lines. It appears also that in several instances there has been a clash of authority. The leading financial interests of the company are said to favor placing the absolute general management in the hands of some practical shipowner, man, who shall have demonstrated his ability in this direction, and who has the time and inclination to devote his entire services to the work of the company.

ANNUAL MEETING.

Congregation of Calvary Baptist Church Conducted Yearly Business.

Last Night.

The annual business meeting of Calvary Baptist church was held last night, with the pastor, Rev. J. V. Vichert, presiding. The first order of business was the reception of reports. The three Sunday schools connected with the church reported through their respective superintendents. The schools have a total enrollment of 275; and have raised during the year \$822. Encouraging reports were received also from the Mission Circle and the Junior and Senior Young People's Union. The report of the clerks showed that the pruning knife had been vigorously applied to the membership roll during the year, and the names of a large number of absentees removed, so that in spite of an addition of 15 the membership has been slightly decreased and now stands at 276.

The most gratifying report of the year was that presented by the treasurer. The total revenue for the year was \$3,864, which is in excess of the revenue of last year. Of this amount, \$823 was devoted to missions, being an increase of \$100 over the missionary offering of last year. The management of the collections for missions has been in the hands of the Ladies' Circle, and the arrangement will be continued for another year.

The election of officers was then proceeded with and the following appointed: Clerk, Miss B. H. Walker; treasurer, H. R. McLeary; envelope clerk, C. R. King; deacons, Mrs. Wm. Grant, Messrs. D. G. Walker, A. R. Reid, A. Stewart, C. R. King, A. Galbraith, Jr. A. T. Clyde; members of trustee board, W. Russell and A. B. McNeill; auditors, H. Northcott and A. B. McNeill; president of Mission Circle, Mrs. Vichert; superintendent of junior work, Miss Underhill. The election of Sunday school superintendents was deferred to a subsequent meeting, and the appointment of ushers was placed in the hands of the board of deacons.

An important recommendation in connection with the church debt was presented and acted upon. The debt is not large but is so arranged under the present agreement that it is paid in small annual instalments extending over a term of years. The church desires to complete its payments at the earliest possible date, and the officers were instructed to endeavor to effect an arrangement with the company holding the mortgage, which will permit of payments being made upon the principal as the church is able, and thus open the way for the speedy cancellation of the debt.

Absolute harmony pervades every department of the church work, and the feeling with regard to the future is most hopeful.

During the past couple of days the arrangements of the steamer Roanoke and Majestic have been revised to allow more time for carrying excursions from this city to Seattle. The celebration there is to be carried through on a large scale. There will be an immense industrial parade. Besides this, there will be the usual programme of sports, including athletic contests, musical entertainments, etc. In the evening the city will be illuminated for an entirely new programme. Seating accommodation has been provided for a larger number of people. It is hoped that the attendance will be correspondingly large.

LAWN TENNIS TOURNAMENT

Will Open at Belcher Street Courts on Monday, July 13th.

The annual handicap tournament of the Victoria Lawn Tennis Club will open at the Belcher street courts on Monday, the 13th of July. It is expected that it will extend over a week. Judging from the number of members who are continually playing at the club courts, the entries will be very numerous. The entrants should certainly exceed in number those of tournaments held prior to this one, and the standard of play should be very much higher.

The events will include men's singles, ladies' singles and mixed doubles. Entries may be made to the hon. secretary-treasurer before 6 p.m. on Friday, the 10th inst., and the fee of \$1 for singles and \$2 per pair must be paid at the time of entry. Ordinary, naval and military, monthly, temporary, honorary and lady members are entitled to compete. Gentlemen may enter in the mixed double events with a lady non-member. Play will commence at 4 p.m. on Monday, the 13th inst. The list of competitors as drawn and handicapped will be published later.

DOUGLAS GARDENS.

Second Concert Given Last Night—Entertainment This Evening.

The Douglas Gardens were open last evening for the second time this season, and considering the holidays and the cool evening there was a very full attendance. The audience seemed much pleased with the programme provided.

The illuminated club swinging was especially well received. It was a new feature, and was introduced because of the illness of Mr. Lyons, the vocalist.

The Fifth Regiment band rendered some delightful numbers, and these in attendance were of the unanimous opinion that there was nothing more delightful than to spend an evening amid such beautiful surroundings listening to such excellent band music. The programme includes some fine moving pictures and novelties, and the gardens should be crowded every evening. The grounds will be open as usual to-night, and the Fifth Regiment will be on duty to receive the company.

THE FOURTH OF JULY.

Celebrations at Seattle, Port Townsend and Angeles To Continue—Number of Excursions.

Probably no place throughout the States will be tomorrow, the Fourth of July, as celebrated more largely than on San Juan and at Seattle. Port Townsend and Port Angeles elaborate programmes have been prepared. As usual excursion rates have been fixed for the three points mentioned, so as to allow Victorians to portion.

During the past couple of days the arrangements of the steamer Roanoke and Majestic have been revised to allow more time for carrying excursions from this city to Seattle. The celebration there is to be carried through on a large scale. There will be an immense industrial parade. Besides this, there will be the usual programme of sports, including athletic contests, musical entertainments, etc. In the evening the city will be illuminated for an entirely new programme.

At Port Townsend the programme of attractions events to study points that of previous years. There will be long and varied programmes of sports, especially in athletic contests, musical entertainments, etc. In the evening the illumination of the town and fireworks display. The new steamer Roanoke will make several trips to Angeles during the day. She will leave the Majestic wharf at 8:30 a. m., 1:15 p. m. and 7 p. m. The City of Seattle will accompany the steamer Roanoke in the evenings and render concerts each way.

The new instruments ordered some time ago have been received and will be used for the first time to-morrow.

The popular excursion steamer No. 9 of Nagaimo will make three trips to Angeles leaving from the C. P. N. wharf at 8:30 a. m., and 1:30 and 7 p. m. The City of Nagaimo will have plenty of seats and music galore. The Fifth Regiment band has been engaged to supply music on board, and to begin the possible return of the voyage will render a choice musical programme during each trip. The band will be on board the steamer Nagaimo, which has been built by the Alaska Steamship Co. for the Victoria-San Juan route, will make several trips to Angeles during the day. She will leave the Majestic wharf at 8:30 a. m., 1:15 p. m. and 7 p. m. The City of Seattle will be employed as sea as universally as the coal industry, but while those who had resorted to the use of oil would certainly not resort to coal, it was not likely that there would be many more substitutions of oil for coal where the new fuel had not as yet been tried. The value of oil, too, was rising, and this improved, although very slightly, the position of the coal market.

B. C. ELECTRIC RAILWAY COMPANY,
35 YATES STREET.SEVERAL KILLED
DURING A STORMYACHT'S PASSENGERS
HAD NARROW ESCAPESMuch Damage by Lightning in New York
—The intense heat caused
Eight Deaths.

New York, July 2.—A terrific storm this afternoon followed a day of most intense heat. There were four deaths from the heat to-day, and a score or more of prostrations. Already three deaths, directly traceable to the storm, have been reported, many persons caught in the fury of the wind were injured. At one time the gale blew at the rate of 72 miles an hour, in the upper part of New York, according to the weather bureau.

Mati places were struck by lightning, which played continuously for an hour or more. There were in reality two storms, both blending into one. The Bronx felt the first and worst effects of the storm, trees being uprooted, plate glass being broken, and people being thrown from their feet.

Five persons were rescued from a dismasted yacht by Sir Thomas Lipton's crew this afternoon, after a small had wrecked their craft, and in the nick of time. The yacht was the cabin catboat Yankee, of New Brunswick, owned by Jacob Zeiner. On board with him were Edward Wing of New York, and Mrs. E. Smith and her two daughters, also of New York.

Deaths at Pittsburgh:

Pittsburgh, Pa., July 2.—Four deaths, two of the victims being children, represent the effects of the intense heat.

Prostrations.

Baltimore, Md., July 2.—To-day was the warmest recorded in this city during the present summer. The thermometer registered 94 degrees in the shade at 2 p.m. There were several prostrations from the heat.

PREFERENTIAL TARIFF.

Lord Rosebery Asks For Further Information Regarding Cabinet's Plans.

London, July 2.—Lord Rosebery, in the House of Lords this afternoon, renewed the debate on the preferential tariff proposition, making a further request for information regarding the cabinet's plans. In the course of a long speech, he ridiculed Colonial Secretary Chamberlain's programme, and said he did not believe the government intended to prosecute any inquiry into the matter. The allegations that such an inquiry was being made, said Lord Rosebery, was merely a cloak to screen the irreconcilable differences between the Colonial Secretary and the other members of the cabinet, and he demanded to know whether the inquiry would be definite and organized, whether it would be individual or collective, and whether the results would be published.

SUPPLMENTS TO CROFTON.

Crofton, July 1.—Supplements to Crofton reader for the month of June were approximately as follows: From Marble Bay, Texada, 1,800 tons; from Long Pine, Republic, 970 tons; from Trade Dollar, Republic, 45 tons; from Crofton, Yerxa, Quesnel, 122 tons; from Lefebvre, Mount Steber, 3,000 tons; from Relating, Upper Mountain, Prince of Wales Island, 110 tons; from Van Atsha, Texada, 50 tons.

There is now in the neighbourhood of 200 tons of coke oil here, and shipments are expected regularly. The smelters will blow in again on Monday next, and the sample mill, which has not been running for a few days, while undergoing repairs, will resume Thursday morning.

Many of the residents took advantage of the holiday to get to the sports and shows at Duncan.

The Yerxa Copper Co. will shortly resume regular shipments from their mine at Quesnel.

WORLD'S MEDICAL ASSOCIATION PROPRIETORS, Buffalo, N.Y.

Mr. W. J. Kidder, M.D., Dale Park (Encampment Center), Encampment, Wyo., writes: "During the past year I found myself experiencing maternity, and female infirmities, and I found that I could find no help and primary difficulty. I was growing perceptibly weaker each day and suffered much sharp pain at times. I set that something must be seriously wrong, so I went to Dr. Pierce's Favorite Prescription, and also followed your instructions. I began to improve immediately, my health became excellent and I am now in full possession of my strength and confidence and have a healthy baby boy."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of 31 cent stamps for the paper covered book, or 50 stamps for the cloth bound. Address Dr. E. V. Pierce, Buffalo, N.Y.

SECOND DAY OF CELEBRATION.
Horse Races, Bicycle Meet and Baseball
at Vancouver.

Vancouver, July 2.—There was a fair attendance at the Hastings track to-day. The track was fast and the racing was good. In the midget race, not pace, two in three, George Patchin won in four-one-two-one. Red Tom second in two-two-one-one. Bamford Bay third, in 3.44. Best time, 2.33. Red Tom was fined \$25 for pulling Stermont Junior down fourth heat.

Four and a half furlongs, British Columbia horses: Bellota 1st, Katahdin 2nd, Marada and Madrone 3rd. Time, 5.6.

Six furlongs: Belmont 1st, Idaho Chief 2nd, Bonanza 3rd. Time, 1.35. Five furlongs: Ellis Green 1st, Miss Dividend 2nd, Marada 3rd. Time, 1.06. Pony race, half-mile: Bessie Tremble 1st, Little Bessie 2nd, Sleepy Dan 3rd. Time, 504.

Vancouver again defeated Whatcom at ball-to-day by a score of 5 to 2.

Enormous crowds visited the bicycle championship meet. There was no fast racing owing to the heavy track. The races were well handled. Marion, the Toronto champion, captured the principal events. He won the one-mile championship of Canada against Wm. Todd, S. Archie, M. Bell and K. V. Martin. Bell was second. The time was 2.41.25.

Morton also won the half-mile championship with Bell—a close second; time, 1.15.25.

In the quarter-mile open, however, Morton lost to Martin, the latter winning in 33 seconds.

The novice was won by Willard, Hooper second; Jeffs third; in 2.54.25.

In the one-mile open professional, Boddy won; Hall second; time, 2.38.25.

In the quarter-mile handicap, Morton was first and Willard 25 yards second.

In the half-mile handicap, 50 yards, Hooper was first and Morton second.

In the two-mile professional handicap, Boddy was first and Hall second.

In the one-mile handicap, Anderson was first, Martin second, and Morton third.

In the five-mile championship, Morton was first, Martin second, and Anderson third. Time, 14.03.35.

KING EDWARD'S TELEGRAM.

To Servia's Ruler Does Not Change Relations Between Two Countries.

Belgrade, July 2.—The King of England replied, in courteous terms to King Peter's notification of his accession to the throne, wishing a prosperous reign and hoping it will bring peace, order and justice to the country. King Edward's reply has caused great satisfaction here. King Edward also expressed the hope that King Peter would be able to re-establish the good name and renown of the people of Servia, compromised by the recent tragic event.

NO CHANGE.

London, July 2.—It is officially stated in London that King Edward's telegram to King Peter does not change Great Britain's attitude towards Servia, and it is added that diplomatic relations between the two countries will not be immediately resumed.

A TIENTIN special report says that Russia has a scheme for conducting great manoeuvres in Lianyang shortly and about 7,000 troops are being concentrated in that province. It is reported that Russia also contemplates holding manoeuvres in Harbin. This is certainly a demonstration in connection with the Manchuria problem.

A batch of eight Japanese girls and a man were charged at Hongkong recently, at the instance of Capt. F. L. Pyne, of the N. Y. K. steamer Kinshu Maru, with stowing themselves away on board the ship while on a voyage from Moji, with intent to defraud the owners. The stowaways were discovered in the hold the day after the ship's departure from Moji. On being questioned through an interpreter, the women agreed to return to Japan, but the man refused.

Reference to the recurrence of the plague in Yokohama, the Yokohama municipal aldermen's council has decided to destroy by fire six houses in Tokecho and another 26 houses in Nishitobe, it having been found that the nature of the buildings does not admit of a thorough disinfection, being effected.

The destruction will probably be carried out in the course of a few days.

It is reported that Russia also contemplates holding manoeuvres in Harbin. This is certainly a demonstration in connection with the Manchuria problem.

A batch of eight Japanese girls and a man were charged at Hongkong recently, at the instance of Capt. F. L. Pyne, of the N. Y. K. steamer Kinshu Maru, with stowing themselves away on board the ship while on a voyage from Moji, with intent to defraud the owners. The stowaways were discovered in the hold the day after the ship's departure from Moji. On being questioned through an interpreter, the women agreed to return to Japan, but the man refused.

Reference to the recurrence of the plague in Yokohama, the Yokohama municipal aldermen's council has decided to destroy by fire six houses in Tokecho and another 26 houses in Nishitobe, it having been found that the nature of the buildings does not admit of a thorough disinfection, being effected.

The destruction will probably be carried out in the course of a few days.

A TIENTIN special report says that Russia has a scheme for conducting great manoeuvres in Lianyang shortly and about 7,000 troops are being concentrated in that province. CANADA'S RAILWAY POLICY.

Mr. Blair's dream was not altogether a dream. Canada is to have another transcontinental line of railway, running from tide-water to tide-water, entirely through British territory. The roadbed from Moncton to Winnipeg will be owned by the government, and all companies which desire to help to convey the boundless wealth of the prairies and of the mountains to market have but to build through the prolific sections of the country and ask for running powers over the government road. The carrying out of this arrangement should impart a great stimulus to the settlement of the West and hasten the day when Canada will raise enough food to feed the hungry people of the United Kingdom.

The work is a stupendous one, bold in its conception, but not unworthy of the men whose minds conceived the idea of the preferential tariff. There is no doubt whatever of the ability of the Dominion, with its overflowing treasury, to execute it.

Contrast this policy with that under which the C. P. R., with its immense gifts in cash, in completed road, and in land, was constructed. It will be said that the first transcontinental line was built through a new country, whose possibilities were practically unknown. So will the whole of the new government line almost. It will not only afford the shortest possible route to the Atlantic seaboard. It will be practically a colonization road between Quebec and Winnipeg, bringing new territory within the reach of the settler, creating a new Canada in the great northern belt, and removing forever from the mouth of the scorched and venomous river that Canada is composed of a narrow strip of territory north of the 49th parallel. Talk about a slump in Canada: the day of our prosperity is merely dawning!

ANOTHER PILGRIM BAND.

Another band of pilgrims has started for Ottawa for the purpose of instructing the federal ministers upon the subject of their duties towards British Columbia. No doubt the Minister of Mines and the honorary member of the McBride government have been working so hard since they took office that they need a few days' relaxation. But if the threatened collapse of the nervous systems of the touring ministers was due to over-work, the double time was not put in the government offices at Victoria. Possibly the attitude of the electorate in the interior impressed the Hon. Robert Green, Minister of Mines, with the necessity of doing something to avert the stampede which has already commenced. It has come to be recognized as the first "business" of a new British Columbia government to send a delegation to Ottawa for the purpose of protesting against encroachment on the domain of the provincial prerogative and of making demands upon the federal treasury. And we must admit we are not surprised; apart from the attractions of a very pleasant trip, with its pleasures enhanced

by the thought that it is taken at the public expense, that the government of Hon. Richard McBride has seen fit to follow the example of its predecessors. The treasure chest at Ottawa is full to overflowing, while we have never within the memory of present-day public men had any chest at all in British Columbia. If we had one it would be worse than empty. At the same time, we are fain to admit that the condition of affairs at Ottawa is unique also. When the friends of the honorable gentlemen who have gone East on a begging-trip were in power in the Dominion, the federal treasury was in a chronically exhausted state. They kept the taxes away up and the exchequer away down. It may be, of course, in a mere coincidence that such conditions should be characteristic of the rule of the great Conservative party. Yet we are convinced, and the majority of the people of Canada are undoubtedly of the same mind, that if the Conservative party were in power at Ottawa to-day there would be a relapse to the conditions which prevailed in the days when Canada was being enriched by the National Policy. Incidentally we may note that while the members of the government of British Columbia are ready to take advantage of their positions for the purpose of extracting all the world's enjoyment possible, their chief ambition is to restore Conservative rule in the Dominion. Therefore the pilgrims have undoubtedly claims upon the consideration of the Liberal government of Canada.

After all, it is not at all likely that a fraction of the people of British Columbia will take the alleged mission of the pilgrims seriously. We can imagine the Hon. Richard McBride delivering himself in a characteristically insincere manner of the words in which he announces his determination to insist upon the rights of the provinces. We can hear the thump of his fist upon his desk as he says "The federal authorities must not interfere with our legislation. They must let it stand. The people of British Columbia will insist upon their rights in this matter, and the delegates will show to the federal authorities that the people of the province are determined, and that the provincial government will re-enact and re-enact this legislation as often as it is disallowed." He is a bold, bold minister, is the Hon. Richard. My but Sir Wilfrid Laurier and his colleagues will cower and quail when they read those terribly earnest words! We wonder if the Hon. Richard has studied the political history of Canada. Is he aware of the fact that the Liberal party of the Dominion has fought the battle of provincial rights since confederation and that the warfare has been almost continuously waged against the party which he honors with his distinguished allegiance? We are afraid he hasn't and that the Colonist was right when it accused him of being exceedingly shallow as well as lamentably weak. If Sir John Macdonald had had his way, if there had been no Mowat to correctly interpret the Canadian constitution and to persistently oppose his aggressions backed by a Liberal opposition at Ottawa, the provinces would have been spared of the most important of their rights, the encroachments were numerous. One of the most important of the rights of the provinces was maintained by the Liberals, "out" while the party which is represented by the present government at Ottawa has always been exceedingly careful of the prerogative of the provinces, it has been quite clear as to where the federal authority ends and the provincial authority begins. It will not tolerate usurpation. The rights of the people of Canada as a whole have been committed to the keeping of the Laurier government, and they will be preserved just as carefully as the rights of the provinces were by his predecessors in the Liberal ranks. There is no doubt whatever as to the quarter wherein rests the power to regulate immigration into the Dominion. The Attorney-General of the McBride government knows perfectly well that the act which the province is now attempting to enforce is ultra vires of the Legislature. He has said so in the House, and he is not the man to change his opinions with his circumstances. If the present usurpation were permitted it would be followed by others, and there would be continual wranglings and bickerings, with resultant injury to the interests of the country as a whole. This is a subject upon which there is no difference of opinion whatever among persons competent to give an opinion. As a correspondent of the Times points out, the issue is no new one either in British Columbia. In 1884 the provincial legislature undertook to pass an act relating to the immigration of Chinese. The then Conservative Minister of Justice, Sir Alexander Campbell, laid down the Conservative policy which has never been amended and explained his reasons for advising the disallowance of the law in the following letter to the Governor-General in Council:

"Having reference to the condition of Canada at the time of the union of the provinces, this undersigned is of the opinion that the authority given by the 95th Article of the British North America

Act is an authority to regulate and promote immigration into the province, and not an authority to prohibit immigration. A law which prevents the people of any country from coming into a province cannot be said to be of a local or private nature. On the contrary, it is one involving Dominion, and possibly Imperial, interests. But without coming at present to a definite conclusion as to whether the act in question is one within the legislative authority of parliament or of the legislature, the undersigned is clearly of the opinion that it is an act that should not be put into operation without due consideration and without correspondence with the Imperial authorities."

The Dominion government is pledged to taking such action as will be satisfactory to the people of British Columbia if Japan does not adhere strictly to the terms of the arrangement governing immigration. The representatives of the province are quite competent to perform the work for which they were elected. They will advise the government on this matter and on all matters in which the interests of the West are involved. A satisfactory arrangement for the encouragement of the silver-lead mining industry has already been reached without the assistance of Hon. Richard McBride or his trusty henchman, Hon. Robert Green. It will not be satisfactory to the theorists who believe in "applying the principle of adequate protection," of course, but if it accomplishes that for which it was designed it will pass.

We must apologize for devoting so much space to the great bluff of a government which is itself a very feeble bluff. The pilgrims will no doubt have a good time, they may not come back absolutely empty-handed, but their pilgrimage holds no good for British Columbia.

After all, it is not at all likely that a fraction of the people of British Columbia will take the alleged mission of the pilgrims seriously. We can imagine the Hon. Richard McBride delivering himself in a characteristically insincere manner of the words in which he announces his determination to insist upon the rights of the provinces. City Librarian Goward reports that during June 1,412 books were issued from the city library, ladies taking 765 and gentlemen 647. The highest number issued on one day was 104; the average number 61. Fourteen new members joined the library—nine ladies and five gentlemen. There were added to the library shelves 125 new volumes from Maude's (London) many catalogues on Canadian plants, and the following reports: Minister of Mines, to 31st December, 1902; State of Nevada—Statutes, 1902; Statistical Year Books of Canada, Department of Agriculture; McGill College and University.

The Indian reserve is over populated at present. There has been for a few days past a large influx of visiting Indians on their way to the Fraser river canneries. They have gathered from many parts of the Island, a great many coming from the West Coast. The canary steamer Duncan is in port ready to carry them up to the Fraser. The presence of such a large number of visitors has made the task of Thos. Denny, of the Indian department, an unenviable one. The disposition on the part of the visitors to prove themselves, good guests and the hospitable spirit shown by the residents of the reserve has required the greatest vigilance in the part of Officer Denny to avoid liquor being taken in in excessive quantities. The Chinamen and some whites have also shown a strong disposition to assist the Indians in their fun making.

The death occurred last evening at the Jubilee hospital of Richard Roseoe. Deceased was 30 years of age, and a native of Lancashire, England. Mr. Roseoe was a valued member of the Longshoremen's Union. The funeral will take place on Sunday at 2:30 p.m. from the parlors of W. J. Hanna. It will be held under the auspices of the union, the members at which will attend in a body.

A Seattle dispatch says: "Elring Wallace Hooper arrived here last night with his attorney, Judge E. P. Corne, of New York. They are on their way to Victoria, where Miss Hooper's suit against James Dunsmuir, ex-Premier of British Columbia, will be heard next week. She is bringing the action to have the will of her stepfather, Alexander Dunsmuir, set aside."

Patronage to the Edison theatre continues to be large, a fact in itself a commentary on the character of the entertainment provided by the management, Bell & Belli, in their rendition of scenes from "Il Traviatore"; Campbell Brothers, the club manipulators; double jugglers and bag punchers; and Clement Perkins' the baritone singer, all contributing to a programme diversified and captivating. In addition there are the moving pictures, which are a never-failing source of interest.

A serious accident occurred this morning, the victim of which was J. W. Sayward. While driving to his ranch in the neighborhood of Elk Lake, the back wheel of the buggy became loose and fell off. This started the horse, which ran away, precipitating Mr. Sayward and H. Clarke, an employee of E. G. Prior & Co., who accompanied him to the road. The former sustained injuries which rendered him unconscious. Dr. Fraser was notified and the patient is now progressing favorably. Mr. Clarke was fortunate enough to escape with a few bruises.

The trustees of Craighollow school district beg to thank the ex-pupils of the school and others who so kindly contributed towards the commemoration fund for the ornamentation of the school grounds. The amount received thus far is \$64.50, of which sum \$55 has been paid for the flagstaff, and \$2 for advertising, leaving a balance of \$1.50.

—A prayer meeting was held last evening in the schoolroom of the new Congregational church for the first time. The building is almost completed and services will be held in the schoolroom until the pews for the auditorium arrive. They have been on the way from the East, for over a month, and it is hoped they will be here very soon, so that the entire church may be used by the congregation every Sunday. Chairs have been provided for the schoolroom, where the first public service for worship will be held on Sunday.

The amount received thus far is \$64.50, of which sum \$55 has been paid for the flagstaff, and \$2 for advertising, leaving a balance of \$1.50.

—The trustees are in hopes, with the aid of additional subscriptions, to be able to place a rustic seat around the maple tree in the centre of the school grounds—a tree dear to the memory of all associated with the school. On behalf of the residents of the district, the trustees beg to thank the Times for special favors granted.

—Miss Millie Johnson, eldest daughter of Mr. J. H. Johnson, of this city, who left England about three years ago to study nursing, was united in marriage to Mr. Frederick Wm. Midgley, eldest son of Mr. Thomas Midgley, of Waratah, York road, on June 11th, the event taking place at St. Thomas's church, St. Anne's, England. An Old Country exchange adds: "Mr. Robert J. Midgley was the best man. Miss Marsden, of Sheffield, officiated at the organ, and played the 'Bridal March' as the bride entered the church, Mendelssohn's 'Wedding March' being rendered after the ceremony. At St. George's hall, which had been tastefully decorated, a reception and lunch followed, there being about 50 guests present. The honeymoon is being spent at the Channel Islands. Mr. and Mrs. F. W. Midgley were the recipients of a large number of choice presents."

COMING ATTRACTION.

Much Interest Being Taken In the Re-appearance of N. C. Goodwin In This City.

The principal theatrical event of this season will be the forthcoming engagement of Mr. N. C. Goodwin. There is no prominent player of to-day more popular in this city than he. Mr. Goodwin will present his new comedy, "The Altar of Friendship," by Madeline Lucette Ryley. She has given to the stage some of the cleverest plays of recent years; notably "An American Citizen," which was one of Goodwin's most conspicuous successes. "The Altar of Friendship" tells the story of the self-sacrifice of a young man, who takes upon himself the share and blame of another, in order to save a beloved sister from humiliation. This part is played by Mr. Goodwin. He presents a man of about his own age, a man of rare humor and deep-rooted courage, a man with ready wit, capable brawn and a fine candor. In the play there are, of course, the usual love scenes, the usual misunderstandings to be solved by sweet reconciliation in the end, scenes in which the well-wishers of this gifted player are always pleased to see him and in which he is at his best. The company that supports Mr. Goodwin is a most capable one. The staging is sumptuous and the gowling of the ladies captivating and a charm of brightness and color. Mr. Goodwin appears on Monday evening.

WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office, 24th to 30th June, 1903. The weather during this week for the most part has been showery on the Coast and in Northern British Columbia, and comparatively cool throughout the entire province. Temperature conditions were due to the barometer remaining comparatively high along the Coast of this province and the adjoining states, while further north a series of low barometric areas have been spreading eastward to the Territories. The combination of these movements has caused a prevalence of cool southerly winds immediately along the Coast and cooler air moving in from the Lower Mainland and the Cariboo. The weather in the Yukon district during this period has been pleasant, the highest temperature not exceeding 74 and the lowest 44, while light showers occurred on many days.

Very favorable weather for the crops in the Territories and Maliboo has prevailed

during this week, the temperature seldom exceeding 80 degrees and never low enough to cause even light frost. Rain fell upon several days in the form of local showers and thunderstorms.

Victoria—Amount of bright sunshine recorded was 37 hours and 18 minutes; rainfall, 27 inches; highest temperature, 64 on 27th; lowest, 48.7 on 28th.

PROVINCIAL NEWS.

MORRISSEY-MINES.

Rev. Father Milleux, of Fernie, says it is the intention of the church authorities to erect a Roman Catholic church here next spring. He has started a fund for that purpose, and will place the balance some profit which he made on his recent transfer of Morrissey property to the credit of the fund.

GREENWOOD.

Last week's coke receipts at the two local smelters were larger than for some time previously. If the supply continues to be as liberal the Boundary Falls smelter will soon have enough to admit of its being run at its full capacity, as has been the case with the Greenwood smelter.

NELSON.

The Steam Engineers and Electrical Workers' Union held their semi-annual election of officers, the other night, when the following were appointed: President J. W. McPhee; vice-president, J. Ringrose; financial secretary, T. Wicks; recording secretary, J. McLean; treasurer, R. A. Crosby; guide, G. Gray; guard, A. McDonald; trustees, T. H. Rankin, T. Ingraham and G. Beaumont.

The lake is still falling, and the C. P. R. yards are all free of water now, as well as the tracks in every direction. The little creek just west of the city, which comes down where the old shipyards stood, came down this year in an unprecedented freshet. If the shipyards had still been in their old situation there would have been considerable loss, as the water swept across them with tremendous force, thirty feet deep. The old channel of the stream has been filled with sand to a height of eight and ten feet for several hundred feet. Work has already commenced all along the line remedying the damages caused by the flood.

A rich strike of gold and copper ore was made last week on the Central claim, on Eagle creek, about seven miles from the city. The claim is being worked by J. Dumont, who owns a half interest, and J. Legault and C. Neveu, who hold a quarter interest each. In ground sluicing to trace a two-foot lead of ore, a lead 16 feet wide was uncovered, which on inspection proved to be of gold, which on inspection proved to be of gold-copper ore. Samples were brought to the city for assaying, and the average on the lot amounted to a total valuation of \$33,50. Of this about \$21 is in gold and the balance in copper, with a little silver. It is the intention of the owners to continue ground sluicing, when there is enough water available again, so as to prove the lead for its entire length across the claim. While it will require some sinking and drifting to prove the size of the find, yet the surface cuttings prove that it is a most valuable one, and it will undoubtedly cause a renewal of interest in the country at the head of the creeks rising on the west slope of Toad mountain. The circumstance of development work having been carried on for years on a small stringer with a large lead lying only a few feet off is a good example of the surprises and discoveries that lie in wait for the prospector in the Kootenays. This section of the country was supposed to have been thoroughly prospected, and where the big lead was struck has been gone over probably dozens of times by experienced and capable prospectors, but no lead of the rich ore lying below was found till the accident of an inconvenient place to work shaft caused the owners of the claim to decide to wash off the face of the rock.

VANCOUVER.

The first Christian wedding ever celebrated at the Japanese Mission took place a few days ago. Rev. Goro Kabayagi officiating. The groom was a Japanese photographer of this city and the bride a young Japanese lady who had just arrived from the Orient. The service had to be conducted in Japanese, as the bride did not understand a word of English.

Rev. R. G. MacBeth officiated at a Dominion Day wedding of high noon on Wednesday, Mr. Jeremiah Bull and Miss Euphemia Orr Fortune, both of Lulu Island, being united at the First Presbyterian church manse in the presence of a number of relatives and friends.

Among the guests at the Hotel Vancouver are Mr. and Mrs. Donald von Cramer, who are now on their honeymoon.

"Let the GOLD DUST twins do your work"

moon trip. Mr. von Cramer is a well known member of the staff of the Royal Bank of Canada, having occupied positions in the bank's branches at Victoria, Athabasca, White Horse and Republic, Wash. He has recently been appointed manager of the bank's new branch at Chilliwack, and will leave for that place to-day. His bride is a daughter of Dr. Savage, a prominent resident of Guelph, Ont.

The death occurred on Wednesday morning of Mrs. Lytle, wife of Mr. Jas. Lytle, of 1703 Fourth avenue, Fairview. Deceased had been ill for some time, cancer of the throat being the cause of death. She leaves a husband and child, four months old, to mourn her loss.

Another logging fatality has occurred,

the victim being John Reynolds, who was

employed at the Hastings mill camp at Bear river. Word of the sad accident

was received by the steamer Cassiar,

which vessel also brought down the remains. It seems that Reynolds had just felled a tree and the huge stick, in falling to the ground, struck a branch or small tree, causing it to spring up and hit deceased. The blow must have been a terrific one, as the body of deceased was fearfully mangled, his head and one arm being severed from the trunk. Deceased was only 24 years of age, and came from near Lindsay, Ont. A brother of deceased is in the city, and informed the relatives by wire of the sad occurrence. A injured logger was also brought down by the Cassiar from one of the northern camps for treatment at the City hospital. The man's name is John Larone, and while at work in the woods he was caught between two logs, his left leg being broken and badly crushed.

A horse driven by Mr. Wellmood became frightened at a street car on Wednesday when Mr. Wellmood was driving home from the Hastings track. The horse plunged and Mr. Wellmood pulled tightly on the reins when the animal dropped dead, throwing Mr. Wellmood and his companion, Mr. Davidson, a traveler, to the ground, slightly injuring them both.

PREPARING FOR SHOW.

The Executive of the Agricultural Society Is Making Progress.

The prospects for the exhibition in the city this fall are excellent. The business in connection with it is progressing very favorably, and it is anticipated that this year's show will in many respects exceed all others held in the city.

The executive committee met last night. There were present His Worship the Mayor, Ald. Yates, T. Norris and M. Baker. Dr. S. Tolmie was out of the city.

**THE CLALLAM IS
COMING TO-NIGHT**
**NEW SOUND STEAMER
COMMENCES SERVICE**
The Plans Completed for Still Another
Seattle and Victoria Liner.—The
Telemachus and Lyra.

Victorians will, this evening, have an opportunity of seeing for the first time the new Puget Sound Navigation Company's steamer Clallam, the vessel just completed for the Victoria and Seattle route. The Clallam was named after Clallam county, of which Port Angeles is the county seat. She will arrive here to-night. To-morrow she will run three excursions to Port Angeles, and on Sunday will take the Rosalie's place on the Seattle-Victoria route, arriving and leaving here daily except Tuesday mornings. The Rosalie will, commanding Sunday, go on her new route between Seattle and Cape Flattery. Leaving here at 9 a.m., next Sunday, she will go via Port Angeles en route to Seattle, and on the Majestic leaving Seattle Sunday morning, will come ~~via~~ the same en route to Victoria, sailing from Port Angeles at 4 p.m., and arriving here at 5:30 p.m.

The Clallam has heretofore been described in these columns. She has been built on neat lines, and will be able to give a much better service than the Rosalie was capable of supplying. She cost \$80,000 to build. She is a full upper-cabin passenger steamer, 168 feet overall, 32 feet beam and 13 feet molded depth. Her keel was laid January 15th. She has forty-four staterooms all told, and is said to be commodious and sumptuous throughout. She has a fore and aft compound engine of 800 developed horse-power, capable of an average thirteen-knot speed. She is a Tacoma product from stem to stern the lumber for her complete construction having been supplied by the St. Paul and Tacoma Lumber Company.

In appearance the Clallam very much resembles the well known steamer Majestic, in conjunction with which she is to be operated, except that her stack will be amidships, while the Majestic's is forward of amidships. The Majestic has thirty-one staterooms. She, too, was built by E. W. Heath, who has built the Clallam.

Plans for a much larger steamer for the Victoria and Sound route are said to have been completed by the Puget Sound Navigation Company, and construction work will be begun on her some time in August. This vessel, as previously mentioned, will be known as the Jefferson.

The steamship Telemachus, of the Cape Mutual line, is due here on Monday next with upwards of 1,000 tons of cargo for this port. Most of this freight consists of rails for the E. & N. railway, for the company's Island tracks. The Telemachus is a new ship of 7,500 gross tonnage, and her coming visit will be the first she has ever paid this port. She will be followed by the Lyra, which is

to appear on the Victoria and Sound route.

TESTIMONY TALKS.

All the claims in the world for the various forms of "Golden Medical Discovery" are based upon the actual fact of cure. Thousands of testimonials like the following have been received from persons cured of lung "troubles," bronchitis, hemorrhage, obstinate coughs, etc., by "Golden Medical Discovery."

I was very sick indeed," writes Mrs. Mollie Jacobs of Nelson, Kent Co., Delaware, and our family doctor said I had consumption. I thought I must die soon, for I felt so awfully bad. Had a bad cough, slept poorly, was very short of breath, could hardly get my breath at all sometimes. I had pains in my chest and right lung, also had dyspepsia. Before I took your "Golden Medical Discovery" I was so weak I could not sleep, could not eat, and now I can do a small washing. I worked in the canning factory and did not feel like a new person. I thank the good people of Victoria for making this good medicine. I believe that the "Golden Medical Discovery" has saved my life. I was sick over two years. I took three bottles of the "Golden Medical Discovery" and four vials of Doctor Pierce's "Golden Medical Discovery." I was so weak I could not sleep, could not eat, and now I can do a small washing. FAREWELL CONCERT.

Will Be Tendered to Masters Gordon and Armstrong This Evening.

Some complaints have been raised with respect to the mail service between Puget Sound and this city. The Majestic is the subsidized mail carrier from Seattle to Victoria. On account of a lay off taking place on Thursday, no mail leaves Seattle for this city from 8 o'clock Wednesday morning until 8 o'clock Friday morning, and this does not reach Victoria until Friday afternoon.

MERCHANTS complain that while the Rosalie makes two trips in the intervening time between the Majestic's runs, thus affording an opportunity to ship goods in, they are prevented from getting the invoices by mail, and are often put to considerable inconvenience.

The question has come up at the board of trade, and it was decided to take steps to bring the trouble to the attention of the post office department and the transportation company in order to have this inconvenience rectified.

The proposal is to have the Rosalie carry mail on the day the Majestic is laid off. There is a little difficulty in this also, unless the Rosalie carried two mails, one on the trip which leaves Seattle Wednesday evening, and another on Thursday evening.

Under the present arrangements the mail contract calls for six mails a week.

When the contract was made this was the provision, and a rate was also quoted by the steamship company for a greater number of mails at a proportionate figure.

At the present time British mail coming by way of New York is sent by the United States lines, and comes in by way of the Sound. A part of the papers coming from Eastern Canada, notably Montreal, is sent the same way, a quicker service being obtainable.

The accompanists will be Master H. Lawson, violin; Master G. Edwards, cello, and Miss Lily Brooker and Miss Nancy Harrison, piano. The concert will be directed by Mr. Wickens.

The Czar has abandoned his proposed visit to Rome, provisionally fixed for the autumn. The Czar and Czarevna will spend the autumn in the Crimea.
