VICTORIA, B. C., MONDAY, NOVEMBER 15, 1909.

NO. 94.

WHAT THE BIG FOUR DID FOR THIS CITY

H. B. Thomson's Answer to the Burning Question
"What Have They Done For Victoria?"
—A Characteristic Reply.

At the meetings addressed by the Liberal candidates throughout the city, they drew attention to the fact that during the last three sessions of the legislature, when the present Conservative candidates represented this city, there were three matters dealt with that were of special interest to the people of Victoria, namely, the Normal School, the University and the Court of Appeal.

When the vote was passed for the erection of a Normal School in Vancouver (in the session of 1907), a strong deputation of influential citizens headed by Mr. Morley, who was then mayor, waited upon the government and urged that the Normal School should be established in Victoria, at the same time offering no objection to the grant for one at Vancouver. The request was finally refused, and when the matter was brought up again at the next session, the Minister of Education, from his place on the floor of the House, stated that the Normal School should be established in the Kootenays. The University question is to be left to an outside commission; while the Court of Appeal Act, instead of establishing the court at Victoria, the capital, as is done in other states and provinces, enacts that the court shall sit in Vancouver six months of every year. All these matters came before the legislature during the term of the present Conservative candidates, who sat still and uttered not a word in support of Victoria's rights, but allowed this city to be shorn of its rightful inheritance as the capital of the province.

They further expressed the hope that with these public matters at their public meetings.

Mr. H. B. Thomson in the opening meeting of the Conservative campaign, undertook to answer the Liberal candidates, and hereunder we reproduce Mr. Thomson's speech, word for word as it appears in the Colonist.

H. B. Thomson.

The next speaker, H. B. Thomson, one of the Conservative ticket, expressed his gratification at the large and enthusiastic audience which had assembled at the opening meeting of the campaign. It showed a determination on the part of the citizens of Victoria to maintain the McBride government in power. The Liberals had already held meetings in Spring Ridge and James Bay, and he would like to deal with some of the statements which had been uttered at these places. It was generally understood that Mr. Drury, one of the Liberal candidates, regarded himself as a leader of the party. But he had never attempted to explain that mysterious programme known as the "Oliver railway policy." He had got up before the electors and asked "what had the McBride government done for Victoria?" A man standing as high as he did in the Liberal ranks, a man who was the representative of the Hon. Wm. Templeman in this city, the hand which distributed the patronage from the Ottawa authori-

ties should view provincial politics from a higher standpoint. He was the representative of the man whom Joe Martin had described as "William the fatuous."

Mr. Thomson went on to deal with the Oliver railway map. This map he said was collapsible. It could be adapted to any part of the province. When Mr. Oliver was in Alberta recently he had advocated the construction of railway along the Albert canal. In fact, this map appeared on that mysterious map. But people present at the meeting had pointed out to him the uselessness of such a road. What had he done. Just struck it off the map. It was merely a matter of some forty miles and doubtless Mr. Oliver during his peregrinations through the province would fit in this forty miles at some other point.

The fact of Mr. Drury running on the Liberal ticket indicated that he had some reward in sight. Before the nominations he had assured a number of Conservatives and among other things the speaker, that he would not run. But Mr. Drury was of a mysterious kind. After his trip to Japan as an envoy extraordinary—or plenipotentiary—"something" for the Dominion government he had refused to talk on his return to the city. "No, I can say nothing until I have seen Sir Wilfrid Laurier," was his reply to questions. Well, he had seen Canada's premier. A blue book giving an account of his work had been issued by the federal government, but it really had contained nothing of any moment. Then on his return to Victoria Mr. Drury had spoken. And what did he say? He said the Japanese were a very intelligent people. As a reward for running in the Liberal interests in the pending elections, Mr. Thomson considered that Mr. Drury should be sent on a special mission to Honolulu to find out if the Japanese really grew on trees or whether they were laid by seagulls.

That Dales Tripping.

Then there was Mr. Houston, another of the Liberal candidates. Mr. Houston at a recent campaign meeting at James Bay had told how when he was a boy his feet had tripped over the daisies in Ireland on his way to school. The speaker recalled the days when his "little" feet did the same thing, but he had neither the gall nor the nerve to ask the electors of Victoria to vote for him on that account. He stood before them as a member of the Conservative party, as a supporter of the McBride government. He did not talk of his trip to Ireland, but he did talk of his trip to England. He would much sooner hear him discussing the methods of removing warts from dill pickle.

At the time he was shot Mr. Allen, from his own story, was sitting down in a clearing and had been cleaning his eyes. He had just replaced these on his face when the charge struck him. He wore at the time a blue sweater (Concluded on page 11.)

EDWARD ALLEN BADLY INJURED
VICTIM OF CARELESS SHOOTING IN WOODS
Has Lost Sight of Both Eyes Through Buckshot Charge.

With one eye and the bridge of his nose shot clean away and the sight gone from the other eye, Edward Allen, a druggist, employed at Bowes drug store, lies at St. Joseph's hospital today as the result of a cowardly shooting accident in the woods at the Summit yesterday, and there is small chance that the injured man will escape with his life.

Allen, who yesterday morning was in good health and spirits and left his wife at their home on King's road to take a day's shooting, was shot through the top of the face with buckshot at close range by an unknown party while standing in an open clearing during the forenoon, and lay for the space of two hours with blood streaming from his face, and almost senseless before help came.

Who fired the shot that cost Allen his sight and which may result in his death is unknown, for after discharging his gun the coward, despite the cries of the wounded man, fled, and has not come forward to give information. The wounded man was discovered some time after by two hunters who heard his cries for help and went to his assistance. They carried him about a mile and a half through the woods to the summit, where he was brought down on the trail.

Allen was accompanied yesterday morning by Edward North, of the Vic-

TWO MEN KILLED BY BOMB EXPLOSION
Chief of Police and Secretary Dead—Assassins Attempt Suicide.

(Times Leased Wire.)
Buenos Ayres, Nov. 15.—Senior Falcon, chief of police of this city and secretary of police, were assassinated Sunday while driving. A man supposed to be a Russian anarchist, but unidentified, sprang from a secluded spot and threw a bomb directly under the carriage. The vehicle was blown to pieces, and Senior Falcon and the secretary were terribly injured. They were taken to a hospital, but died soon after reaching there.

Immediately following the explosion of the bomb the assassin drew a revolver and shot himself. The wound is not expected to prove fatal.

NOT "DREADNOUGHT" BUT "DREADROSS."
THE NOISY ONE—"Oh, Dick, I had a horrible nightmare: I dreamt Duncan Ross had left Hazelton and was coming to the coast."
THE KNOWING ONE—"Look here, Billy, your friends are trying to dub you Dreadnought. I think we will have to make it 'DreadRoss.'"

DOUBLE DAILY MAIL SERVICE

HON. WM. TEMPLEMAN SECURES A SUBSIDY
As Soon as E. & N. Runs Two Trains Every Day Money is Ready.

After April next there will be a double daily mail service on the Esquimalt & Nanaimo railway. That the service is not available to-morrow is no fault of the government at Ottawa.

In response to the request of the board of trade, and after considerable urging of the case upon the post office department, Hon. Wm. Templeman has secured a subsidy for a double daily service. In a wire received by President Simon Leiser, the minister of inland revenue says:

"Post office department will provide double daily mail service on Esquimalt & Nanaimo railway if C. P. R. will run trains twice a day as heretofore."

Immediately on receipt of this Mr. Leiser had an interview with Mr. Marpole and H. E. Beasley, superintendent of the E. & N. They assured him that for the coming winter they could not provide the service except on Sundays, Tuesdays, Thursdays and Saturdays, but they gave him an assurance that from the beginning of April the double daily service would be put on to stay on permanently.

The double daily mail service will be run on Tuesdays, Thursdays and Saturdays until spring, but the subsidy is ready for fourteen mails a week at any moment the company chooses to run the necessary trains.

W. W. McLeod, post office inspector, Winnipeg, is here in connection with the matter.

AMBROSE LEPINE DIES AT WINNIPEG

Was Louis Riel's Lieutenant During Rebellion in the Northwest.

(Special to the Times.)
Winnipeg, Man., Nov. 15.—Ambrose Lepine, Louis Riel's lieutenant of the Northwest rebellion of 1867 and 1885, died yesterday afternoon.

He was one of the best known half-breed leaders in Western America. After the Canadian rebellion a price was put on his head. He finally was pardoned.

In a dying statement Lepine said he believed Louis Riel to be ranching in Wyoming and that some day he would return to lead his followers in a rising against the whites.

Riel was hanged in 1885.

LABOR LEADERS ON LIQUOR QUESTION

Addresses Delivered at Mass Meeting in Massey Hall, Toronto.

(Special to the Times.)
Toronto, Ont., Nov. 15.—The question of labor and the saloon was discussed on Sunday afternoon by labor leaders at a big mass meeting in Massey hall. Rev. Charles Steele, a fraternal delegate to the convention of the American Federation of Labor, from the Church of Christ, presided, and made the principal address. Other speakers were John Mitchell and Treasurer John P. Lennon, of the American Federation of Labor, and President Thomas L. Lewis, of the United Mine Workers of America.

Mr. Mitchell declared that organized labor in its fight for better conditions for the wage-earner was doing more to promote temperance than any other organization. He denied that shorter hours of labor and increased wages resulted in added profits to the saloon.

Mr. Lennon said the liquor business lowered the efficiency of the workman and prophesied that the time would come when labor would be arrayed against the saloon.

The United Mine Workers, Mr. Lewis said, have prohibited their members from selling intoxicants, even at picnics.

LIBERAL MEETING

Broad St. Hall
Wednesday, Nov. 17th

The Candidates and Others Will Address the Electors

Chair Taken at 8 P. M.
GOD SAVE THE KING

NEARLY FOUR HUNDRED ENTOMBED IN MINE

Men Imprisoned by Explosion in Pit in Illinois— Fire Which Is Still Raging Drives Back Rescue Party.

(Times Leased Wire.)
Cherry, Ill., Nov. 15.—Hope that the fire had burned out in the St. Paul mine, where nearly four hundred miners were entombed by an explosion on Saturday, was blasted to-day when four rescuers returned from the second trip into the shaft and reported that they were stopped by intense heat after penetrating the two hundred foot level for a short distance. They expressed the belief that the fire is still raging there. They failed to find any trace of the entombed men either living or dead.

The rescuers first went to the three hundred foot level and then tried to penetrate the two hundred foot level. Those men will be sent down to fight the fire with water.

The report has put the most desperate aspect on the situation since the shaft was first sealed.

The main shaft, which was sealed Saturday night, was opened early to-day. An enormous air fan was installed and rescuers wearing gas-proof armor descended into the mine. They found several lamps, caps and oil cans at the three hundred foot level near the shaft, indicating that some of the four hundred entombed men had made their way to the shaft and gone away again.

Soon after they came to the surface and made their report they were lowered again, but were driven back by heat.

Many of the miners here are indignant at the action of the state mining board in sealing the shaft and express the belief that if any of the victims were still alive last night when the lamps and caps were probably left at the foot of the shaft, all hope of their surviving now is gone.

W. W. Taylor, general superintendent of the mine, and President Earling, of the Chicago, Milwaukee and St. Paul railroad, neither of whom has slept since Saturday morning, stood at the mouth of the shaft to-day.

Taylor presented a pathetic figure. The tears rolled down his cheeks as he said:

"I believe the mine inspectors will

tell you that this was the safest mine ever built. I don't believe this could have happened in any other way than through the accidental ignition of some hay in the stables.

"The men in the stables must have lost their heads and failed to shut off the stables from the rest of the mine. I don't think that the men need to have lost their lives. Some of the best men that ever lived have died here through someone's carelessness."

Many of the families of the miners are destitute and food supplies are badly needed.

Several train loads of food and medicines already have been shipped here by the St. Paul railroad.

It is expected that Governor Denison will issue a proclamation asking the state to give assistance to the stricken families. All saloons near here have been closed and the officials apparently have the situation well in hand.

The fact that concussions were felt by farmers yesterday in the vicinity of the mine led many to believe that some of the entombed miners were then alive and were signalling.

The terrible agony of Saturday night and Sunday night, during which time women and children have gone through the most heart-rending suffering, has left this little community dazed and sickened. The doctors and nurses who have been rushed here have had plenty to do caring for the distracted relatives of the entombed men.

Temporary hospitals are ready for the reception of the survivors if any are brought to the surface alive.

From the best figures available it is estimated that between 375 and 400 men are still in the mine. On Saturday twelve bodies were taken out. Six of these were heroes not employed in the mine, who gave their lives in a futile effort to save the imprisoned workers.

Resolution of Sympathy.
Toronto, Ont., Nov. 15.—John Mitchell, the former president of the United Mine Workers, to-day presented to the American Federation of Labor a resolution tendering sympathy to the families of the entombed miners at Cherry, Ills. Several delegates spoke, giving further expression to the deep sympathy felt for the victims of the disaster and the resolution was adopted. (Concluded on page 2.)

STEAMER SINKS AFTER COLLISION

SIXTEEN PERSONS GO DOWN WITH VESSEL
School of Sharks Impedes the Rescue of Sixty-one Survivors.

(Times Leased Wire.)
Singapore, Nov. 15.—The mail steamer Layne, of the Messageries Maritimes Service, running between Java and Singapore and on her way to this port, collided early on Sunday morning with the steamer Onda, of the British India line, and sank two minutes later.

Several European passengers, including Baron and Baroness Benckzt, the captain of the Layne, five European officers and eight others, comprising native passengers and members of the crew, were drowned.

The rescue of sixty-one persons, practically from the jaws of schools of sharks, formed a thrilling incident of the wreck.

The accident occurred in a thick haze at 4 o'clock in the morning. The vessels were steaming at good speed and the Layne was cut almost in two.

There was no time for panic nor any attempt on the part of the officers to get out the boats. The majority of those on board were caught in their berths and carried down with the vessel.

The force of the collision brought the Onda almost to a dead stop. Engines were slowed and boats lowered. The rescue work proved thrilling, for not only were the rescuing parties impeded by the darkness, but sharks were already attacking those clinging to pieces of wreckage.

Sixty-one persons from the ill-fated vessel finally were dragged into the boats and brought by the Onda to this port. Many had been bitten by sharks, several being injured severely.

ATTEMPTS TO KILL LORD MINTO

TWO BOMBS ARE HURLED AT CARRIAGE
The Viceroy of India and Lady Minto Have Narrow Escape.

(Times Leased Wire.)
Ahmedabad, British India, Nov. 15.—Again has Lord Minto, viceroy of India, escaped by a narrow margin assassination at the hands of a bomb-thrower.

The latest attempt was made Saturday afternoon, when an unknown man hurled a bomb at a carriage in which Lord and Lady Minto were driving.

A dragon riding alongside the viceroy's carriage, spurred his horse forward and with his sabre succeeded in hurling the first bomb a distance into a sand heap.

The second bomb struck the viceroy's jemidar, a native lieutenant, who was holding an umbrella over Lady Minto, and fell harmlessly to the ground. Neither bomb exploded, as the soft sand acted as a buffer.

Just previous to this experience a bomb exploded some distance from the viceroy's carriage in another street. Police attracted by the explosion found a man lying on the ground with one hand blown off. He proved to be an innocent bystander. The bomb-thrower escaped in the excitement.

At the earnest request of his wife, who is anxious to return to England, and who also fears that her husband will be assassinated if he continues in his present position, Lord Minto is said to-day to be seriously thinking of resigning his post.

LABOR LEADERS ON LIQUOR QUESTION

Addresses Delivered at Mass Meeting in Massey Hall, Toronto.

(Special to the Times.)
Toronto, Ont., Nov. 15.—The question of labor and the saloon was discussed on Sunday afternoon by labor leaders at a big mass meeting in Massey hall. Rev. Charles Steele, a fraternal delegate to the convention of the American Federation of Labor, from the Church of Christ, presided, and made the principal address. Other speakers were John Mitchell and Treasurer John P. Lennon, of the American Federation of Labor, and President Thomas L. Lewis, of the United Mine Workers of America.

Mr. Mitchell declared that organized labor in its fight for better conditions for the wage-earner was doing more to promote temperance than any other organization. He denied that shorter hours of labor and increased wages resulted in added profits to the saloon.

Mr. Lennon said the liquor business lowered the efficiency of the workman and prophesied that the time would come when labor would be arrayed against the saloon.

The United Mine Workers, Mr. Lewis said, have prohibited their members from selling intoxicants, even at picnics.

STORMS IN NORTHERN EUROPE

Berlin, Nov. 15.—Hurricane-like winds have been raging in Northern Europe. Hundreds of minor casualties have resulted, and there has been loss of life. Thirty persons were seriously injured at Berlin by falling tiles.

Floods in many of the outlying districts greatly retarded traffic, with hundreds of trees were uprooted in the surrounding forests.

COOK'S ARCTIC RECORDS

Copenhagen, Nov. 15.—Dr. Torp, rector of the University of Copenhagen, has selected Prof. Ellis Stromgren, director of the astronomical observatory, as head of the committee to examine Dr. F. A. Cook's records. These are expected to reach here about December 7th.

NEARLY FOUR HUNDRED ENTOMBED IN MINE

(Continued from page 1.)

Rescuers Have Narrow Escape. Cherry Hill, Nov. 15.—The first trip into the mine to-day was made by State Mine Inspector Thomas Moses and S. A. Y. Burnham, and the second by Inspector James S. Taylor and J. S. Webb, of the federal rescue bureau.

Inspector Taylor was deathly pale when he came out of the mine and staggered about blindly when he left the cage. It is rumored that Taylor and Webb had a narrow escape on the second level.

At 1 o'clock six trips had been made into the burning mine, but no trace of the entombed men were found. The belief is general this afternoon that there is little if any chance of saving any of the entombed men.

Mayor Connelly ordered that the supply of milk in the city should be given to nurse but children. Farmers of the surrounding country are contributing food, and the W.C.T.U. and Red Cross Society are sending nurses and food from Chicago.

Treasurer Peary of the United Mine Workers arrived here to-day. President Thomas L. Lewis has wired him authority to spend \$5,000 to assist the sufferers.

Special attention is being paid to the children by the relief workers. The wives of the miners, overcome by grief, are forgetting to feed their children.

DISASTROUS FLOODS IN ISLAND OF JAMAICA

Property Loss is Heavy—Telegraphic Communication Still Interrupted. (Times Leased Wire.) Kingston, Jamaica, Nov. 15.—After torrential rains, lasting many days, normal weather conditions prevailed to-day, but it is difficult to ascertain the extent of damage done by one of the worst storms in Jamaica's history.

Practically all telegraph lines are down and railroads have been badly washed out. While the entire eastern portions of the island was swept by winds and rains, no earth shocks occurred, and damage to crops and property resulted largely from floods.

Reports from St. Mary, an important banana centre, state that within a radius of ten miles of Port Maria banana fields were entirely laid waste. The town of Anello Bay for a time was three feet under water. Grave fears were entertained for several days regarding the safety of inhabitants of that section, but the floods now are subsiding. So far as can be learned, no lives were lost.

The cables to Colon and Bermuda are still out of commission, and attempts made by the coastal steamer Arna to carry dispatches to Holland Bay on Wednesday night failed, heavy gales compelling the vessel to return.

Kingston did not suffer to any great extent from the hurricane, which dipped 100 miles to the westward and lost much of its fury by the time it reached here.

STEAMER ON REEF Struck During Storm Which Swept Over Lake Superior. Duluth, Minn., Nov. 15.—The steamer James J. Hoyt, which is stranded on a reef in Lake Superior, is comparatively safe to-day, according to officers of the steamer Barlow, arriving here.

NEW STEAMERS FOR GRAND TRUNK

WILL BE READY FOR SERVICE BY SPRING

Same Length as Steamer Princess Victoria Being Built on River Tyne. (Times Leased Wire.) Vancouver, B. C., Nov. 15.—Two elegant steamers, twin steamers, twin screws and capable of a speed of 19 knots, as luxurious as the most modern hotel, and to be known as the Prince Rupert and Prince George, are to be placed in service in British Columbia waters next spring by the Grand Trunk Pacific railway. Official announcement of this was made to-day by G. A. McNeill, purchasing agent for the company.

The vessels are now being built by Swan, Hunter & Company at Wallsend-on-Tyne, and are to be 308 feet in length over all, 47 feet beam and 13 feet draught to the main deck. Their cargo capacity will be 600 tons each, and each will be equipped with Marconi wireless apparatus. The interior fittings of the vessels are to be especially handsome, private staterooms, bath, dressing tables and containing brass beds, dressing tables and bath, being provided. The steamers are to be completed next April and will be sent out to this coast immediately for service to Prince Rupert, the Grand Trunk Pacific's terminal.

These steamers are the same length as the steamer Princess Victoria and will dock at Victoria.

Address in Reply to SPEECH FROM THRONE

Mover in House of Commons Speaks on Government's Naval Policy. (Special to the Times.) Ottawa, Nov. 15.—In the Commons this afternoon, Arthur Ewart, member for Berthier, moved the address in reply to the speech from the throne.

Speaking of the government's naval policy he declared Canada was strong enough, wealthy and proud enough to be no longer a colony but a nation. The Dominion should put aside the proposals of those who would prefer a direct contribution to the imperial fleet and build a purely Canadian navy with Canadian labor.

It is very appropriate that the Laymen's Missionary Movement should be brought prominently forward at this time. It is just three years ago to-day since the movement was started in New York. Remarkable progress has been made in the time. The banquet to-night will mark the third anniversary of the association.

The work of improving those sections of the Empire hotel grounds abutting on Humboldt and Government streets, at one end, and on Belleville and Government street, at the other end, are being laid, is now in progress. It is understood to be the intention of the management of the hotel to go ahead with the putting down of cement walks just as soon as the city work now in progress in that vicinity shall have been finished.

W. Lyons, of Hardy Bay, is in the city a guest at the Victoria hotel. Mr. Lyons conducts a hotel and general store at the promising port at the extreme northern end of Vancouver Island on the east coast, and says that the outlook for the future of the place is most promising. Hardy Bay is now enjoying direct steamship connection both from Vancouver and Victoria, and many people are constantly passing through en route to Quatsino and other points on the west coast of the island. The trail connecting the two places is in fairly good shape, but the needs of that section of the island will never be met until a wagon road runs directly from Hardy Bay to the head of Quatsino Arm. The route, which is only twelve miles, is a favorite one with the travelling public, as by its use the rough trip on the waters of the west coast is avoided.

SUFFRAGETTE SENT TO PRISON FOR MONTH

Bristol, Eng., Nov. 15.—Refusing to enter her own recognizance to keep the peace, Theresa Garnett, the suffragette who attacked Winston Churchill, president of the board of trade, on Saturday, was to-day sentenced to one month's imprisonment.

As she was being led from the court room she shouted: "All ministers of the present cabinet will receive similar treatment from suffragettes."

KING LEOPOLD MAY ABDICATE THRONE

Rumor That Trouble is Likely to Follow Refusal to Retire. London, Nov. 15.—The abdication of King Leopold of Belgium is momentarily expected, according to a correspondent of Reynolds's newspaper syndicate at Brussels.

The dispatches state that the king has been warned that serious consequences will follow if he refuses to renounce his throne.

It is said that the anti-Leopold party is negotiating with the heir to the throne to persuade him to succeed his father.

MUCH ACTIVITY IN REAL ESTATE MARKET

Choice Property on Yates and Fort Streets Changes Hands.

There is a noticeable activity in real estate and almost daily transactions of more or less magnitude are recorded. Yates street business property is very popular with speculators. Another deal involving property on that section lying between Douglas and Blanchard has just been closed by P. R. Brown, Ltd. The Pitts property, which is situated on the north side of Yates street, a little east of Douglas, and closely adjacent to the Clarence hotel, has been acquired by a local syndicate for the sum of \$50,000. This is considered a great bargain, as property in that vicinity is now valued by experts in real estate values to be among the choicest in the city.

Fort street is, however, coming into its own, and its business area is gradually being extended in an easterly direction. The property situated on the northeast corner of Fort and Blanchard, on which stands a small wooden building, was acquired on Saturday by Alexander McDermott, who paid \$22,500 for it. This same piece of property changed hands three weeks ago for \$16,000.

The City Brokerage report the sale of 40 acres at Mill Bay, 30 acres of orchard at Vernon and house and lot on Richmond avenue, lot on Bank street and two lots on the Yates estate.

Probate of the will of the late James Neil was granted this morning by Mr. Justice Irving on application of H. H. Shandley.

The Times is in receipt of a telegram from J. J. Dougan, secretary of the provincial school trustees convention, conveying the information that meetings will be held at Chilliwack from November 17th to the 19th. There is therefore no truth in the statement published in some of the Vancouver papers to the effect that the convention had been postponed.

The death occurred early this morning at her home, 54 Government street, of Mrs. Helen Mary Banister, wife of Albert E. Banister. Mrs. Banister was a native of Berkeley, Sussex, England, and was in her 65th year. The family are comparatively recent arrivals in Victoria. The funeral, which will be private, will take place from the residence on Wednesday, at 2:30 p. m. R. V. Leslie Club officiating. The B. C. Funeral-Furnishing Company has charge of the arrangements.

TOO LATE TO CLASSIFY. NEW ADVERTISEMENTS. \$100 ONLY and \$25 per month will buy a very fine modern house, in good locality. This property is certainly great buying. Ryan & Lang, 1007 Government street.

HAVE YOU GOT TEN DOLLARS? Invest it in Alberta. You will make money. Lots 110 down, \$5 a month. Apply Box 449, Post Office.

WANTED—500 men to come and listen to Hawthornthwaite, G. Oliver, the Social candidate, and J. S. Ferguson, to-night, in the Labor Hall, at 8 o'clock.

WANTED—Nursery governess for little girl, daily. Apply mornings between 10 and 12, 428 St. Charles street.

WE HAVE city and farm properties for exchange, let us know what you have; we have some fine prairie land on our list. Ryan & Lang, 1007 Government street.

SOUTH AFRICAN SCRIP FOR SALE—What offers? Box 65, Times.

A SPLENDID BARGAIN—5 lots, with fruit trees, a fine 5 roomed house, modern improvements, a good stable, also a small tank, 5 minutes from car, only \$2,000. For sale at Wescott & Letts, Moody Block, 623 Yates street.

WE HAVE some particularly choice pieces of acreage near the city; call on us and get a list. Ryan & Lang, 1007 Government street.

MODERN SHORTHAND mastered in a few months. For proof, address Box 35, Times.

FOR SALE—No. 3 cook stove, in good condition. 423 Moss street.

MAGAZINES, 5c, 6 for 25c, at the Exchange, 718 Fort street.

LOST—Wire haired terrier, 7 months old. Finder notify E. Corbett, 3098 Oilfield Ave.

**JURY ACQUITS
MME. STEINHEIL**

**BEDLAM REIGNS WHEN
VERDICT IS ANNOUNCED**

Woman Carried Fainting From Stand When Counsel Concludes Address.

Paris, Nov. 15.—Mme. Margherita Steinheil was acquitted by a jury at an early hour yesterday morning of the murder of her husband, Adolph Steinheil, a noted painter, and her step-mother, Mme. Jary. The verdict was rendered at 12.55 a.m., after two and a half hours' deliberation, during which the jury summoned the president of the court for explanations, thus proving that the original majority was for conviction.

To some degree, sentiment and a stuffy, crowded court room favored the prisoner, and the delay caused much apprehension. With the first appearance of the jury, however, several of whom were smiling, an instinctive feeling of acquittal flashed through the court room.

A dramatic scene followed. The red-robed judges and counsel filed in and took their places. Every eye was rivetted on the door through which the prisoner should enter, but she did not appear. M. Devalles, the presiding judge, turned to the jury and said: "Have you reached a verdict?" The foreman arose and replied: "On our conscience, we answer no to every question."

A salvo of "bravos" followed, and a perfect bedlam broke loose. M. Aubin, counsel for Mme. Steinheil, embraced his colleagues. Men in the rear of the house jumped and screamed for joy.

"Bring in the accused," said the judge.

Fully two minutes passed before the black-robed figure with a white face appeared in the doorway, supported on either side by a gentleman. The woman, swayed and seemed to be fainting, but in response to a wild outburst of cheers she lifted her head and looked about, smiling faintly in acknowledgment. Then she tottered forward and sank on the floor beside the rail.

When the judge pronounced the verdict her faint murmur of thanks was hardly heard.

An instant later M. Aubin was over the rail, lifting her in his arms. The crowd surged forward in a solid wall, making the rafters ring with cheers. Outside the gloomy court house, tens of thousands, who had been waiting for hours, took up the cry. Special editions of the papers spread the news like wildfire through the boulevards, where thousands were waiting in front of the cafes, and the same scenes of rejoicing ensued.

After being tenderly assisted out of the room, Mme. Steinheil was conducted from the building by one of the numerous subterranean passages.

The ceremony of liberating Madame Steinheil occurred soon after her acquittal, and the woman, heavily veiled, entered a high-powered automobile and dashed away to an unknown destination.

The closing day of the trial was given over largely to the argument of M. Aubin, counsel for the prisoner, which extended far into the night. The court room, lighted with glaring chandeliers, was stifling hot. The jury became restless, and several women sitting in the rear shrieked and fainted. The prisoner was a pitiful spectacle and gradually fell forward, a cold sweat turning her livid face a ghastly green. A doctor administered restoratives, but before M. Aubin finished she collapsed in a fit of weeping.

When the judge asked her if she had anything to say she made no reply. Tears streamed from many eyes, and a minute later, as the jury retired, Republican guards gently lifted the limp figure and carried her fainting from the room.

The murder of the distinguished painter, Adolph Steinheil, and his mother-in-law on the night of May 21st, 1908, caused a sensation in Paris. They were found strangled in the residence in the Rue de Valenciennes. Madame Steinheil was found gagged and bound to a bed. When she recovered sufficiently from the shock, she gave a description of the assassins, who, according to her story, numbered four, including a red-haired woman. Later Mrs. Steinheil told many conflicting stories, and was herself arrested and charged with the crime. The motive was found in her hatred for her step-mother, and a desire to rid herself of her husband, in order that she might marry Maurice Borel, a wealthy merchant, who had become infatuated with her. The hearing began on November 3rd, and dramatic scenes have characterized them throughout.

It is understood that the jury stood nine to acquittal and three for conviction.

**GETS JUDGMENT FOR
OVER MILLION DOLLARS**

**Southern Pacific Railway Wins
Action Against Development
Company.**

Los Angeles, Cal., Nov. 15.—By a decision given by Judge Houser, of the Los Angeles county superior court, granting the Southern Pacific company judgment in the sum of \$1,405,927.43, that corporation is in practical control of the destinies of the rich Imperial valley in Southern California.

Suit was brought by the Southern Pacific against the California Development Company for payment on a number of promissory notes given to the road by officers of the Development Company, with the consent of its directors. The money raised on the notes was used to dam the disastrous flood of the Colorado river in 1904, when the Salton sea was filled and much of the Development Company's property inundated.

At the time the money was borrowed the Southern Pacific Company entered into a contract with the Development Company, which provided that the railroad corporation would appoint three members of the directorate of the Development Company with the addition of naming the president. The president was empowered to appoint the executive officers and chief engineers employed by the company.

In the suit just decided the Development Company alleged that the Southern Pacific entered into the agreement in order to control rich water rights which give it practical control of the valley.

John D. Works, counsel for the Development Company, refused to state whether further action in behalf of his client would be taken.

FOOLS OR WORSE WITH FIRE-ARMS.

The woods of Vancouver Island, upon the first day of the week at all events, have become as dangerous to human life as the woods of Ontario, or Maine and of some of the more populous eastern states during the hunting season. A young man was shot yesterday. He will be blind for life. Both his eyes and his nose are destroyed. It is yet doubtful whether life itself can be maintained in the mutilated body. The poor fellow might have been dead by now for all the fool with the gun cared about the consequences of his criminal carelessness.

The deplorable event of yesterday accentuates something that has long been apparent to hunters and to all observant persons who may not be sportsmen. That is that something must be done to put a stop to such outrages as that chronicled in to-day's newspapers. The aim of the culprit in the case under consideration was too true. Dozens of cases have occurred during the present season in which, fortunately, the bullets did not find their intended billets. But there have been a number of narrow escapes. We have no recommendations to make in regard to what ought to be done for the protection of life. What we do suggest, however, is that sportsmen, as they value the privileges they now enjoy, should take counsel together and make recommendations to the authorities. Even the loss of one life a year, or what in this case is equivalent to the loss of a life, is too high a price to pay for the sport of shooting game birds and animals.

The governments of some of our municipalities have reached decisions as to their duty more quickly than the government of the province. There are regulations on the statute books governing the carriage of firearms, but they are a dead letter so far as any attempt to enforce them is concerned. It is a common sight to see loads of from ten to sixteen years of age roaming around with shotguns and rifles. Such weapons should not be in the hands of the immature, the inexperienced or the reckless, especially in this true now that as a result of the action of the municipalities round about all shooters are excluded therefrom and the regular weekly army is mobilized in a few districts along the E. & N. Railway. The situation is dangerous, and the wonder is that more accidents have not occurred.

What are the sportsmen and the government going to do about it? No reasonable-minded hunter will object to any suitable regulations that may be suggested to meet conditions which are every year becoming more dangerous.

THE SILENCE OF CAPTAIN TATLOW.

Some years ago a novel entitled "The Silence of Dean Maitland" caused a deep sensation in England. We forget really the plot of the story, but as we recall it the dean was accused of doing something that another man did, and in his desire to screen the real culprit refused to reveal what he knew. In more recent days a local instance of similar import has arisen and the pub-

lic mind is deeply agitated by the silence of Capt. Tatlow as to the reasons that impelled him to leave the ministry. It is said that he promised the premier that he would not tell why he left the government. But has not the conduct of the government press in referring to Capt. Tatlow as "a tool of the C. P. R." and a man who had sacrificed the interest of that party to the railway corporation absolved him from that promise? Has not the time arrived when for the sake of his own reputation he should take the country into his confidence? He should stand side by side with Sir Hibbert Tupper on the platform at Broad street hall next Saturday night and expose the ministerial remnant who still hold sway at James Bay.

SIX RAILWAYS FOR VANCOUVER.

Within a very few years Vancouver will have six transcontinental railways, all with their terminal stations and works upon Burrard Inlet. That is what Hon. W. J. Bowser, K. C., says, and of course it must be true. Three of the roads will be Canadian and three American. The Chicago, Milwaukee & St. Paul, the Attorney-General says, is already making arrangements for entrance to the Terminal City. We are delighted indeed to hear that Vancouver is about to come in a real sense of the term the Terminal City of the Pacific Coast. May it continue to prosper and speedily become what its loyal and enthusiastic citizens believe it is destined to be, the metropolis of the West—not merely of the Canadian West, but of all the West.

At the same time, if the things predicted by Mr. Bowser are going to come to pass, and immediately, whence the necessity of borrowing twenty-one million dollars and lending it to the Canadian Northern Railway Company, even assuming that that company will pay interest upon it and meet the principal sum when it becomes due? The C. P. R., the G. T. P., the N. P., the G. N., and the C. M. & St. P. ought surely to be sufficient for the business of Vancouver with all its boundless ambitions. The Attorney-General as good as says all the roads mentioned which are not already in Vancouver are coming in without any inducement except the business they can do. Why cannot the Canadian Northern, whose advocates in this city claim it to be the most prosperous, the best managed and the most promising, if not actually the best equipped, of all Canadian lines, do the same thing?

It is but a short time since Premier McBride publicly stated that the time had gone by for this province to give assistance in any form to railways; that the best railway policy was the policy his government had carried out for six years: to sit tight and watch the railways come in. And they did come in—but not without a railway policy, the policy of the Dominion government.

In view of the statements of the Premier and his Attorney-General is it any wonder that people are astonished at this sudden alliance with Mackenzie & Mann and are inclined to inquire what is the meaning of it?

TOO SIMPLE FOR THEM.

The Dominion government is anxious to satisfy the natural desire of the people of Victoria to have the Songhees Indians transferred from their reserve in the heart of Victoria. But the Dominion government is simply trustee for the Indians. It holds the property of the tribe as a trustee and is loth to resort to force, even in what it realises to be in the best interests of the Indians. The province claims a reversionary interest in the lands of the reserve and would undoubtedly proceed to maintain its claim, should the property be vacated. Under the complicated conditions which have resulted from the position taken by the province, the demands of the city and the irreconcilable attitude of the Indians, the reserve problem cannot be solved. Unless all the parties come together and act in harmony it can never be solved except through the ultimate resort of raising the aborigines to the status of citizenship and making their property subject to municipal taxation. In that case the province would forfeit its reversionary interest, and the holders would have to be given title to their land, and, presumably, the provincial government would not raise any objection to that, seeing that it professes to be anxious to have the reserve eyecore removed from the midst of Victoria and that all other schemes of settlement have failed. Neither would the city get any of the land for public purposes excepting by purchase in the open market.

For these reasons we believe the plan outlined by the leader of the opposition and explained by Mr. Drury in Victoria West is a good one. The government organs, which, we suppose, are more concerned about keeping open a question which can be turned to political account than about "doing something for Victoria," claim the scheme is too simple. They prefer something abstruse, which can be wrangled over for another fifty years or so. The very simplicity of the proposal commends itself to us. Offer the Indians a fair value for their property, prove to them that the price will be paid promptly to their trustees, who be apportioned in their best interests, and give them a chance to accept. If the supporters of the McBride government, scorf and

sneer at the proposal because it is not sufficiently complex to appeal to their great minds and merely affords them an opportunity of doing something of value for Victoria, let us put in members who will support a government that will at least try to settle the Indian Reserve question.

When last heard from Messrs. McBride and Bowser were at Revelstoke. With the aid of swift automobiles and special trains they have so far managed to elude Sir Hibbert Tupper, Mr. Oliver and Mr. Wade. They ride far into the night to avoid meeting the men who are trying to confront and corner them. But the day is fast approaching when flight will no longer be possible, and the culprits will have to meet their opponents and answer the opposition arguments—if they can. The feeling against the government policy is growing hourly. The schism in the Conservative ranks is becoming wider and wider, and as the true nature of the bargain that Premier McBride has made with the Canadian Northern dawns on people's minds, dissatisfaction is giving way to indignation and indications of a revolt are becoming more and more apparent. At Victoria, Vancouver, Nanaimo, Revelstoke and all along the line of the proposed railway to the eastern confines of the province, the dissatisfaction is growing, and electors are preparing to go to the polls on the 25th inst. and vote against a scheme which if adopted will rivet the shackles of the Canadian Northern railway about our necks for three generations. If the present company, Mackenzie & Mann, want a railway to the coast they should build it themselves and not cast the burden of construction on the province. If the scheme should be rejected—and there is every reason to think that it will be—the railway will come anyhow without the province's spending a dollar. Extension to the coast is a necessity to Mackenzie & Mann. If they cannot secure an outlet on the Pacific they must throw up their hands and sell out to some company that is strong enough to build its own road without passing the poor box about for contributions from the provinces.

No one knows the day when the C.P.R. may retire from the shipping business on this coast; ergo, we ought to sanction a provincial loan of twenty-one millions to bring the Canadian Northern in as a guarantee against such a contingency. That is the latest and the strongest argument in favor of the McBride government's deal with Mr. Mann.

Captain Tatlow is now boldly accused of being nothing more than a tool of the C.P.R. That is the interpretation publicly put upon his action and his silence by his former colleagues in the Conservative party. The ex-Finance Minister should tell all he knows about that railway deal and vindicate himself.

What Other People Think

WHAT DIVISION DID AND WHAT UNITY WILL DO.

To the Editor—Here are a few statistics which tell their own story. At the last provincial election the count stood: Majority of McBride over Drury 424. Majority of Davey over Drury 307. Majority of Behnen over Drury 287. Majority of Thomson over Drury 187. Dr. Ernest Hall's vote 68. A. Johnson's vote 44. Had Dr. Hall and Mr. Johnson not been running there would have been two Liberals elected. The above figures clearly prove this. The independent vote that went to Dr. Hall last time will not be given to Mr. Morley almost to a vote, and out of gratitude to the Liberals for the generous way they have treated Mr. Morley it will support the entire Liberal ticket.

INDEPENDENT CONSERVATIVE.

RAILROADS AND THE PEOPLE.

To the Editor—As it is coming near election day it may interest you to know how other people think on the C. P. R. railway policy. Railroad companies do not come to a country for pleasure. They come on pure business grounds. Railroads make their money off the people. It is from the people they derive their immense revenue. And why should the people be asked to start them in business? The C. P. R.'s security is good, and if they wish to give it they can borrow all the money they need in the money markets of the world. Let the C. P. R. be satisfied with smaller profits for a few years. The C. P. R. is within seven or eight hundred miles from the coast, and it isn't likely they will stop where they are. You can't keep them from coming, subsidy or no subsidy, and they will follow the route which suits them best, despite the wishes of any government or boards of trade, for railroad companies know their business, and railroad companies know when once established are not over considerate to the people. The C. P. R. gave us a touch of that when they shut the bridge on us. Railroad companies look on the people in much the same light as Mr. Vanderbilt did when he used a not very complimentary term about the public. Taxpayers are not your taxes high enough already, and workmen, if our late government had so much money to give away, don't you think it would have been a far more graceful act on their part to have abolished your three dollars poll tax rather than to further tax you that the C. N. R. might come to the Coast? Workmen, rise up to a man and kill that obnoxious C. N. R. policy and jump on it with both feet, for if you don't they'll only laugh at you. HERBERT PHIPPS. Prior St., Nov. 29th.

IS A LOCAL OPTION LAW A FAIR QUESTION?

To the Editor—A good many men are agitated about the effects of local option. Some have issued a circular to real estate men against any form of local option for

houses given. The latter person communications on the same subject. All these people are simply misleading the public on this question.

It is not a question of local option just now, but the placing of a local option law on the statute books, giving the people the right to vote on this question. A local option law gives the people the same right to have the bars as not to have them. Yet these advocates of liquor deny the people that right. Is it were a question of the value of local option, \$1,000,000 people in the U. S. A. and 1,000 municipalities in Canada are the best answer to that, and which local option leagues will show when the time comes. It has not, however, reached that stage. The figures given by liquor men and others on this question will not bear daylight exposure. Citizens who deny to their fellowmen the inherent right of British citizenship are certainly unworthy of public confidence. Every man in British Columbia should be able to cast his vote for or against the licensed bar, and not be subject to the brewer or politician. Some will contend they have that right now. I deny it. Why have we over 70 bars in Vancouver? Why have we 16 in Ladysmith and 22 in Nanaimo? The people have protested both to license commissioners and the Attorney-General against the issue of licenses. The West End of Vancouver has no license, and Nob Hill, Victoria, has none, but the men there thrust them upon districts where the residents bitterly object, but not considered. It is this right we claim should be theirs. Under local option, the voters of any locality will have the power to vote for the licensed bar-room. They will have the right of voting against the licensed bar-room.

Let not the voters be deceived by any herring-truck business, but let them vote intelligently. Ask that a local option law be given to the people. This is the one question just now. We contend the liquor law, neither in word nor deed, gives the people their rights on this question. For commissions and government alike do as they please, besides which it is made a party question which ever party is in power. Our claim is: Let the people in every locality have a law by which they can settle the question for themselves. They can do so by voting "for" at the plebiscite on Nov. 25th. D. SPENCER, Supt. Local Option. Nov. 12th.

CANADA HAS MANY IMMENSE PEAT BEDS

Director of Mines Points Out Their Great Value as Fuel and Gas.

The immense potential value both for industrial and domestic purposes of the 37,000 square miles of peat bogs which have been already located in the middle provinces of Canada is pointed out in a report, prepared by Dr. Eugene Hannel, director of the mines branch, covering the work of the new government peat bog and fuel-testing plant recently established at Ottawa. Dr. Hannel points out that, while both eastern and western Canada have immense peat areas, the middle provinces are practically dependent on the United States for all fuel for domestic and industrial purposes. The value of the anthracite coal alone imported annually is now over \$10,000,000. But while coal is absent from the middle provinces, there is peat in abundance, over 37,000 square miles of peat bogs having already been located by the government surveyors. The report notes that one square mile of bog, with an average depth of six feet, will, after drainage, yield 774,000 tons of air-dried peat, equal in fuel value to 420,244 tons of ordinary bituminous coal. The utilization of this fuel asset is, therefore, manifestly of supreme commercial importance.

In the attempt so far made to establish a peat fuel industry in Canada the Canadian peat manufacturer does not seem to have taken advantage of the experience and scientific knowledge gained in Sweden, Germany, Russia and other foreign countries, where the manufacture of peat fuel has been in progress many years. The Canadian exploiters seem to have tenaciously clung to obsolete processes, which from the first were doomed to failure, since they were designed and constructed on wrong principles.

With a view to utilizing the potential heat energy lying dormant in the Ontario and Quebec peat bogs, the Dominion government, through the mines branch, has during the past couple of years made a complete investigation of the peat fuel industries of Europe, and has delimited and tested large areas of Canadian peat bog. Recently with a view to doing for the peat fuel manufacturer what the department of the interior has done for the farmer, the government has purchased an extensive peat bog at Alfred, near Caledonia, Springs, Ont., and has established a modern fuel-testing plant at Ottawa for experimental purposes. The chief object of this plant will be to practically demonstrate the feasibility of

AT HIS BEST

However careless of his appearance a man may be during business hours, on social occasions the question of apparel becomes to him of paramount importance. He knows that then any slovenliness or lack of taste will brand him with the stamp of mediocrity. He must look absolutely at his best when he dons evening dress.

A DRESS SUIT

Means too much to the wearer to be entrusted in the making to the hands of any but a master craftsman. It must be right in every detail. That's why you ought to entrust the making of yours to

DAVID SPENCER, LTD.

THORPE'S SODA WATER

Made from Water Purified and Sterilized by the PASTEUR BERKFELD SYSTEM

utilizing peat in the gas producer and gas engine for the generation of power.

The peat bog at Alfred covers approximately 300 acres, has an average depth of eight to nine feet, and is a fair sample of many of the peat bogs of Canada. During the past summer the bog has been levelled and sampled, and about five miles of ditches have been dug for the purposes of drainage. The peat in the bog contains on an average some 55 per cent. of moisture, which is reduced by the drying process in the Ottawa plant to about 25 per cent. In this condition the peat bricks are admirably adapted for the gas producer as well as for domestic purposes. The plant when in full running order will have a daily output of about thirty tons, and the operating methods and machinery employed are similar to those now in use in many commercial plants in Europe. The estimated cost of one ton of air-dried peat at the bog will be about \$1.75. This price, together with the cost of transportation for short distances, will make the total cost of peat—having a fuel value equivalent to good coal—considerably lower than that of coal.

In the utilization of peat fuel in the gas producer for power purposes, Dr. Hannel does not recommend that the fuel be transported for long distances to power stations, but that power plants be erected on the bogs to convert the potential energies stored in the peat in electrical energy for distribution to neighboring towns, as is now done in Germany. In this way a peat bog will become a source of energy precisely as in the case of a water power.

The Ladies Aid of St. Mark's church are having a sale of work, followed by a concert, on Wednesday. The sale will open in the parish rooms on Holeskine road at 2 p. m., and the concert will commence at 8 p. m.

On Wednesday next the ladies of Emmanuel Baptist church are holding a social evening. There will be a good programme and a large variety of games, and a good time is assured. There will be refreshments served and a collection in aid of the church debt.

Jobson did it. He invented a hygienic pie dish for fruit or meat pies. It is so constructed that it allows the steam to escape and permits of the gravy supply being regulated without disturbing the crust. Made of good heavy crockery, six sizes, from 70c to \$1.—R. A. Brown & Co., 1302 Douglas street.

The B. Y. P. U. of Emmanuel Baptist church will meet to-morrow evening to hear an address by Rev. W. Stevenson on the life of Henry Martyn. There is some important business to transact, and a full attendance of members and friends is asked.

The Young People's Society of St. Andrew's church will hold their regular weekly meeting this evening, the meeting being in charge of the social committee. An excellent programme has been prepared, and an interesting evening is promised to all who attend. All are very cordially invited to be present.

The singing of "Be Thou Nigh" by Robert Morrison at the First Presbyterian church last night, was much enjoyed by the large congregation, and was also the music generally, and the fine anthem by the choir. The large proportion of men present at the service was largely due to it being specially for the laymen's missionary movement.

There will not be any meeting of the Men's Own Social Club of the Congregational church to-morrow evening. The programme calls for a lecture on "This Island of Ours," by R. B. Clarke, but owing to the fact that the laymen's missionary committee will hold its meeting on that evening, it was thought advisable to cancel the lecture so that all who wished might attend the laymen's missionary meeting.

The paper on the "Passage of the Inner Channels of Vancouver Island," which was to have been given by Dr. Newcombe at the last meeting of the Natural History Society, but which has postponed, will be read to-night at the meeting in the Carnegie library. It will be illustrated with a powerful stereopticon, and will prove of great interest to students of the early history of this province, and also to those who are interested in ornithology.

Chief Davis, of the fire department, is immensely pleased with the new city service truck which has just arrived from the factory of the Seagrave Co., of Brockville, Ont. He declares it to be the finest piece of apparatus of its kind on the coast. It cost \$2,900, and is structurally up-to-date in every particular. It will respond to alarms in all parts of the city, the old ladder truck, which is much heavier, being reserved for calls from the central section of the city.

Some further works of local improvement which will be finally authorized at this evening's meeting of the city council, are: Permanent sidewalks on both sides of McBride avenue, from Queen's avenue to Bay street; permanent sidewalks on portions of Kingston street and Lady-smith street; the grading of Douglas street between Belleville street and Superior street, and the construction of permanent walks on both sides of that street; a permanent sidewalk on the south side of McBride street, between Vancouver and Cook streets, with gutters and boulevards on both sides of the streets; curbs, gutters and boulevards on both sides of Vancouver street, from Humboldt street and Pandora avenue.

In a few instances water pipes in various parts of the city from last night, and plumbers were this morning kept busy repairing the damage.

Have you been to the Victoria theatre to see the London Bioscope and Amateur Show. If not get The Habit. This week from Monday to Friday. Admission 10 cents.

L. O. L. 1426 will meet at the new lodge rooms, Foresters' hall, Broad street, over Weston's carriage shop, this evening for the purpose of conferring degrees.

W. Bryson, assistant engineer, and a party of men left for Sooke Lake this morning to do some work surveying in furtherance of the collection of data regarding that district as a source for the future water supply of Victoria.

The funeral of the late Innes Hopkins, the infant son of Mr. and Mrs. Innes Hopkins, of Esquimalt road, who died at the Royal Jubilee hospital on Saturday last, took place this morning at 10 o'clock. Rev. Hugh Allen conducted services. Interment took place in Ross Bay cemetery.

A concert and dance will be given on Thursday evening, December 2nd, in the A. O. U. W. hall by the A. O. F. football club. An energetic committee is making elaborate preparations for this affair, and a most enjoyable time is promised all those who attend.

The firm of Messrs. McGregor & Little, of this city, has been notified by the officials of the A.-Y.-P. exposition that the garbage cart exhibited by them at the fair has secured the gold medal. This firm possesses all patent rights for the cart, the model of which was built by John Weston, of this city.

The funeral of the late George Jaques, which was arranged to take place on Tuesday afternoon at 2:30 o'clock from the B. C. Funeral Furnishing Company's parlors, has been postponed until Wednesday afternoon at 2:30 o'clock, to await the arrival of a nephew of the deceased from San Diego.

The regular monthly concert of the St. Andrew's Society will be held to-morrow evening in the A. O. U. W. hall. A good musical programme will be given, after which dancing will be indulged in. George Mowat, president of the Society, will occupy the chair, while the programme is rendered. All members of the society are cordially invited to be present.

A meeting of Baxter Hive, Ladies of the Macabees, will be held to-morrow afternoon at 2:30 o'clock in Serpentine's hall, Victoria West, when final arrangements will be made for the holding of an entertainment on Tuesday, December 7th. All members are requested to be present. After the business is completed a social time will be indulged in.

The Victoria branch of the British Israel Association will meet in No. 1 hall (first floor) of the A. O. U. W. building, Yates street, to-morrow evening at 8 o'clock. The second of the series of studies on "Our United Empire" will be the subject dealt with, and will consist largely of a prophetic study of a recent patriotic speech made at the campaigners banquet. The speaker will be E. Middleton. The public and new members are cordially invited.

The work of paving the causeway with vitrified brick is being held up owing to the non-arrival of that material from the Sound. The scow loads which have been on the way from Seattle since Friday were at last reports storm-bound at Port Townsend. The city engineer said this morning that the bricks would possibly arrive during the course of the day. Owing to the cold snap, however, little work could be done at the causeway, as the cement would likely freeze.

A regular meeting of the Victoria West Athletic Association will be held this evening in the club rooms, Catherine street, Victoria West. Besides general business that will be transacted it will be decided whether to enter a second division team in the Island League or not, and matters pertaining to basketball will also be discussed, so that it will be seen that a large attendance of both 1st and 2nd division footballers and basketballers is desired. All those who still have tickets outstanding for the late dance that was held are asked to be sure and be present and hand in their money, as it is desired to settle the thing up to-night. Membership tickets will also be on hand, and any new members will be given the glad hand.

DEPOSITS WITHDRAWABLE BY CHECK.—The B. C. Permanent Loan Co. accepts deposits of one dollar and upwards, allowing interest at the rate of four per cent. per annum on the minimum monthly balance. The full amount deposited, or any portion thereof, may be withdrawn without notice. For the convenience of depositors, cheques are supplied, which may be used at any time. Paid up capital, over \$1,000,000; assets, over \$2,000,000. Branch office, 1210 Government street, Victoria, B. C.

PREPARING FOR THE MAYORALTY

ALDERMAN TURNER PUBLISHES PLATFORM

Campaign to Begin Soon as Provincial Elections Close.

While the municipal election campaign will necessarily receive but little attention at the hands of the public until after November 25th, which is polling day in the provincial election, candidates for the mayoralty are nevertheless doing considerable work in a quiet way. Ald. Turner has published his platform, and Ald. Henderson may be expected to follow suit very shortly. W. E. Oliver, who has also announced his candidature, will shortly be heard from, as he is only awaiting the close of the provincial campaign before taking steps to acquaint the electorate with his views on all civic questions of importance.

It is believed that all three candidates will advocate reforms in methods at the city hall. Ald. Turner has come out flatfootedly for a readjustment there. The fourth plank in his platform—which, by the way, appears in extenso in the advertising columns—reads: "A rearrangement of the public works department by putting it on a sound businesslike basis, in order that we may get the best possible results for the money spent."

While not saying so in so many words, Ald. Turner obviously favors a readjustment of official positions at the city hall, and in this he is undoubtedly in line with public opinion on the matter. Ald. Turner, in respect to the water problem, says he favors "the securing for the city an ample supply of water at the earliest possible moment."

Ald. Henderson will be more specific in respect to the water problem. While he favors securing Sooke Lake as the ultimate source for a supply, he believes that much can yet be done to improve Elk and Beaver Lakes, and he will oppose rejecting the present source until the most determined effort has been made to ascertain if it be not possible to increase the supply.

Mr. Oliver will take the earliest possible occasion to call a public meeting to discuss the issues of the campaign, and he is collecting all the information which might be helpful to him in his meetings.

PANTAGES THEATRE.

"When Hearts Are Trumps," the great comedy drama in which the Harry Pollard-Margurita Fischer Co. have won such marked success since their last Victoria appearance, and which they will present at the Pantages this week, is said to be the best one-act play these artists have ever attempted. It is a strong drama interwoven with a wholesome vein of comedy telling a beautiful heart story of the West. The great ability of Mr. Pollard and Miss Fischer is so well known to local theatre goers that the mere announcement of their appearance should test the capacity of the Johnson street theatre at every performance.

Muriel Arimore, the famed lady violinist, will command the attention of all musicians, as will also the vocal numbers of the lady quartette known as "The Society Four."

Mohammed Kahn, Oriental magician; Arthur Elwert in a new pictured lyric and motion pictures complete an all-star bill.

A new shipment of large "Sallors" at the Elite, 1316 Douglas street.

The big show for the least money at the Victoria theatre, London Bioscope and Amateur Show. Admission 10 cents.

"KILMARNOCK" AND "WHITE ROCK"

When you call for Johnnie Walker's "Kilmarnock Scotch" and "White Rock" as a dilutant you get a delicious, thirst-quenching, health-giving draught composed of the most wholesome, finest flavored whisky and the purest mineral water procurable.

These so harmoniously combine full rich wellownness with pleasing, sparkling coldness that "Kilmarnock and White Rock" are everywhere judged the proper caper.

Do not, accept an inferior mineral water; many spurious imitations are offered as substitutes. Insist upon the genuine "White Rock." Johnnie Walker is everywhere, as you know.

Victoria West beat James Bay on Saturday afternoon at the Royal Park ground in the first meeting of the two teams this year in the Victoria and District Association Football League by the score of two to one, and while James Bay narrowly escaped a draw, they had up till within twenty minutes of times every chance of beating the leaders of the league. A decision by the referee, however, turned the tide and gave the Victoria West a chance to score first, which that side took, and the Bays, discouraged by the bad luck of a goal against them from a penalty, lost heart, and did not play to the same form thereafter, although they evaded the score unexpectedly before Victoria West registered the winning goal.

The penalty was given against a James Bay player who accidentally touched the ball with his arm when within the penalty area. While the decision is right, according to the rules, there were those on the ground who held that the mistake was an accident, and as the giving of a penalty under the circumstances was left to the referee's discretion, Lockley would have done better not to allow the free kick. Prevost, the Victoria West full back, who has the reputation of not yet having missed a penalty kick, steered the ball past Peden in goal, and recorded the score that was to make all the difference at the end of the game.

The Bays had out the strongest line that has worn the blue and white colors this year, and at half time had

against their supporters best hopes, kept the Victoria West team, which was kicking with the wind, from scoring. The team's supporters were jubilant, feeling that to hold the winners down with everything in their favor, was a good performance, and the Bays were looked to do considerable scoring with the advantage of the wind.

The first half was very even football, and neither side can be said to have had the best of it, but with the start of the second half, the Victoria West forwards came together and soon had the Bays' goalkeeper keeping his eyes skinned, sending out shots on the goal. The Bays, however, came again, and had a fair share of the play before the heart was taken out of them by the penalty, which resulted in the first score of the afternoon. Ten minutes later Lorimer from a free, sent the ball right into the Victoria West goal, and Beane, running out, missed the shot and the score was equal. The deciding goal was headed through by a Victoria West player from a rush in goal, after a corner kick had been dropped well in front. From that out the Bays played a spasmodic game, and finished the day losers by one goal. The Bays had out a strong team, of which Kerchin and Lorimer were the best. Many of the other players were slow and got to the ball late, while on the other hand there was vim and dash in the play of the winning team, which all round was the best eleven of the two. McKittrick, on the winning side, sustained an injured knee about the middle of the second half, and from that out was little use to the side. Lockley refereed the game fairly. The teams were:

Victoria West—Beane, Whyte, Prevost, Pettiere, Bailey, who played a first class game; Kinloch, O'Neil, Sedger, Lineham, McKittrick and Sherritt.

James Bay—Peden, Lawson, Lorimer, Hughes, Kerchin, Shanks, Todd, Pratt, Peden, Fairry and Houston.

The Garrison soccer team won its second game this season from the Esquimalt eleven on Saturday afternoon. The game was played at Work Point barracks with unfavorable conditions, as the keen wind which blew took the vim out of the players and the game was a rather ragged exhibition.

Before the game started there was some dispute as to the referee, the Esquimalt men objecting to W. Lorimer. After considerable time the navy boys dropped their objection, but at the close of the game renewed their protest. Too much whistle helped to make play ragged as off-sides and fouls were given very frequently.

As in their former game with the Garrison, the Esquimalt boys started off with a rush and within five minutes after the start of play Pottinger scored from an excellent kick. This was Esquimalt's only score during the game although they had many chances to do it, but trying to bad shooting their chances did not materialize.

With one goal against them the men from the barracks got right into the game and were soon on the aggressive. Two stinging shots were sent at the Esquimalt custodian but were nicely cleared by Dunn. But the Garrison kept pressing and in short time secured a corner. This was kicked to a neatly by Roberson and Buxton shot the ball in, equalizing the score. Buxton, who was playing a great game at

outside right took a long shot, which owing to the wind was misjudged by Dunn and this put the Garrison in the lead. Another goal was awarded the Garrison just before half-time when in a mix-up the ball was put through.

In the second half no score was made. Esquimalt had the best of play in this half but lost numerous chances to equalize the score.

The only accident of the day was in the first half when Carter, one of the Garrison forwards, sprained his ankle and had to be dropped for some time.

The teams lined up as follows:
Garrison—Goal, McDonald; full backs, Sullivan and Elton; half backs, Wylie, O'Grady and Petterson; forwards, Roberson, Carter, Jones, Wyndham and Buxton.

Esquimalt—Goal, Dunn; full backs, Young and Isbester; half backs, Telford, Malcolm and Hill; forwards, Pottinger, Phillips, Griffiths, Cunningham and Jasper.

YACHTSMEN PROPOSE ANOTHER NEW RATING

This Time Twenty-seven Foot Boats Wanted for Cup Races.

Vancouver yachtsmen have started another movement in connection with the rating of Alexandra Cup racers, and this time they want the class reduced to 27 foot boats, holding this measurement would be found generally more satisfactory than either the original 29-foot regulation or the 31-foot recommended by the Northwest International Yachting Association. One of the principal reasons advanced in favor of the change from the 29-foot or 31-foot class to the 27-foot class is the decreased cost of building a racer to challenge for the cup. A 27-foot class boat would also require a smaller crew to handle her, probably two less men than a 29-footer, which would be an important factor both in securing a crew and the expenses involved in taking a crew away to sail the yacht in a foreign port, such as Seattle or any of the Sound cities, in case the international regatta was held there, while in the case of any American contestants for the cup, the same would also apply.

It has been pointed out by yachting experts that a 31-foot racer under either the international or universal rule—whichever should be adopted when the present yachting deadlock is settled—would mean a craft probably 55 feet over all. A yacht of this size could not be built and rigged under \$5,000, while a 27-foot class boat, if such were adopted as the Alexandra cup class, would comprise a handy craft of about 35 feet over all, and could easily be constructed for at least \$3,000. The Alexandra cup originally \$3,000 and she is a 29-footer. But for each foot in size in rating above that the cost of a yacht increases at a high ratio.

The point is that there are several men who would be willing to build a 27-footer and make a try for the honor of competing for the Alexandra cup, as the outlay would not be much above \$3,000. But in the case of a 31-footer there might be trouble in getting any one to go to the extra expense, which the construction and equipment of a yacht that size would entail.

STANLEY AND BURN AT THE SKATING RINK

Runners Meet To-night in a Five Mile Speed Contest.

Burn and Stanley will run one hundred laps to-night at the Assembly rink Fort street, and this will be Stanley's last professional appearance in Victoria, as he leaves at once for Vancouver, where he has matches waiting him, and then goes to Seattle and San Francisco.

The rink will be open as usual for skating, and the running race will be held during an interval in the middle of the evening. There will be accommodation provided on the floor and in the galleries for five hundred people, at which the attendance is expected to amount. Efficient lay scorers and announcers will be provided so that the public will know exactly what the runners have run off without having to keep account of also the time, in which the various miles are run.

Stanley says he has a race fixed at Vancouver with Marsh, and that he reckons to beat this man also. Since he has been in form he has met one defeat only, that at the hands of Baylis last Monday night at the horse show ring at five miles. Stanley claims he can beat Baylis, and has tried to get another race in which the task would not be so extreme. Baylis, however, has not agreed to the proposal, and the two will not meet again.

WOLGAST DEFEATS FRENCH PUGILIST

Herry Riet, Champion Lightweight, is Knocked Out in Second Round.

(Times Leased Wire.)
New Orleans, Nov. 15.—In the second round of a scheduled twenty-round bout before the West Side Athletic Club yesterday, Ad. Wolgast, of Michigan, knocked out Herry Riet, champion lightweight of France. A terrific right swing to the jaw put the Frenchman on the floor, and he fell early in the second round, and fierce infighting, culminating in a crashing blow to the stomach, put him out for good a minute later. Wolgast weighed 125 pounds and Riet about 134. The Frenchman pushed Wolgast from the start, but the sturdy conqueror of Bat Nelson met his rushes with solid short arm smashes to the body and hooks to the jaw.

CORPORAL MATTHEWS GETS TWO POSSIBLES

First-class Shooting by University Cadets at Clover Point.

The University cadets completed the annual classification practice on Saturday at Clover Point, firing five rounds at a moving figure target at 100 yards, and five rounds at a disappearing figure with five seconds exposure for each shot. Corporal Matthews made the possible at both targets; Lance Corporal Woodward, A. Wyld and J. Decker each had a possible at one of the targets, and Lance Corporal Bailey made four hits on each.

The series has occupied three weeks and the results are for the R. V. Harvey cup, No. 2 section (Serge Otter) 279 points, being but 52 points ahead of No. 1 section. The Bartracle cup was won by Lieut. S. Rich with 71 out of a possible 115.

The following have qualified as cadet marksmen: Capt. S. McGuigan, Lieut. S. Rich, Corporal J. E. Matthews, Corporal D. Bell-Irving, Lance Corporal L. Woodward.

SOCCER GAMES IN OLD COUNTRY

London, Nov. 15.—Results of league games played on Saturday follow:

ENGLISH LEAGUE.
First Division.
Bradford City 1, Bolton Wanderers 0.
Bristol City 0, Sheffield United 2.
Bury 0, Aston Villa 2.
Everton 0, Blackburn Rovers 2.
Manchester United 2, Chelsea 0.
Notts County 2, Middlesbrough 1.
Preston North End 4, Newcastle United 0.
Sheffield Wednesday 1, Woolwich Arsenal 1.
Sunderland 2, Nottingham F. 1.
Tottenham Hotspur 1, Liverpool 0.

Second Division.
Barnsley 2, Brimsby Town 1.
Birmingham 1, Lincoln City 1.
Bury 4, Westhampton 2.
Derby City 4, Hull City 0.
Fulham 0, Gainsboro Town 1.
Glossop 3, Clapton Orient 1.
Leeds City 2, Bradford 3.
Oldham Athletic 1, Manchester City 0.
Stockport City 2, Blackpool 0.
West Bromwich Albion 1, Leicester Fosse 2.

SOUTHERN LEAGUE.
Barnsley 2, Grimsby Town 1.
North Brompton 0, Brighton and Hove 0.
Southampton 1, Bristol Rovers 0.
South End United 3, Coventry City 0.
Croydon Common 0, Portsmouth 1.
Northampton 3, Crystal Palace 4.
Luton Town 1, Exeter City 0.
Milton Keynes Dons 1, Reading 1.
Plymouth 0, Norwich City 0.
Queen's Park 1, Swindon Town 0.
Reading 0, Watford 3.

SCOTTISH LEAGUE.
Hamilton Athletic 1, Aberdeen 0.
Ardronians 2, Morton 2.
Patrick Thistle 1, Celtic 3.
Clyde 1, Glasgow Rangers 0.
Dunfermline 4, Hearts of Midlothian 1.
Falkirk 4, Kilmarnock 0.
Hibernians 0, St. Mirren 0.
Port Glasgow 0, Motherwell 1.
Queen's Park 0, Third Lanark 0.

RUGBY FOOTBALL EASTERN GAMES.

Toronto, Nov. 15.—The Tigers again showed championship form when they Saturday defeated the Argonauts by a score of 14 to 4.

Kingston, Nov. 15.—Queen's Seniors wound up their season Saturday afternoon, winning a one-sided game from Ottawa college, the score being 31 to 9.

Montreal, Nov. 15.—McGill defeated Toronto Varsity here Saturday by a score of 11 points to 9.

WORK OUT SATURDAY.
The two Rugby teams worked out at Oak Bay on Saturday afternoon and from the exhibition given the team that will play in Vancouver on Saturday next promises to be as strong a fifteen as Victoria has had to represent it for several years. The sides were equalized pretty fairly, so much so that the first half there was no score but the final was 9 to 3 in favor of the Blues.

BASEBALL TO ABOLISH SPIKES.

New York, Nov. 15.—At the annual meeting of the American League of Baseball Clubs next month the question of abolishing spikes on the players' shoes will be seriously discussed. President Johnson says that he hopes a suitable substitute will be found for the spikes now in use, which will eliminate at least a portion of the accidents which marred the game last season.

THE ROD. SEASON CLOSED YESTERDAY.

The fishing season closed yesterday and will remain closed until March 25th next year. Throughout the streams and lakes anglers were seen yesterday getting the last of the season's sport and several good catches were made.

ATHLETICS. NEW RECORD.

Pretoria, South Africa, Nov. 15.—The sprinter, Donaldson, Saturday ran 120 yards in 11 1/4 seconds. This is a world's record. R. E. Walker, South African runner, ran 120 yards in 11:2-5 seconds last December.

CHEAPER RADIUM.

The price of radium will, it is hoped, be materially reduced by a new and secret process of manufacture which Sir William Ramsay has brought to perfection after a long course of experimental work. The extraction of radium from pitchblende will be carried out at a factory the foundation stone of which was laid recently by Lady Ramsay in Thomas street, Lim-

KILLED BY EXPLOSION.

Aberdeen, Wash., Nov. 15.—George C. Bach, aged 35, was almost instantly killed at a logging camp on Black creek, above Montesano by the explosion of a donkey engine on which he was working. His body was hurled 175 feet by the explosion, and he was unconscious when picked up, dying in a few moments. He was found to be terribly cut on the face and head by splinters of glass.

HORSEWHIPS MINISTER.

Suffragette Makes Attack on Winston Churchill at Bristol.
Bristol, Nov. 15.—Theresa Garnett, a "suffragette," armed with a horsewhip, attacked Mr. Churchill here this afternoon. Mr. Churchill and his wife had just arrived by train when a woman suddenly darted out from the crowd and commenced to lash the cabinet member with a rawhide. Mr. Churchill promptly seized his assailant, and after a struggle, succeeded in wrenching the whip from her hands. The "suffragette" was arrested and imprisoned.

The officers who made the arrest said that the "suffragette" broke through the police line on the station platform, and, brandishing the lash of a long whip upon the minister's head, shouted: "Take that, you brute."
Mr. Churchill's hat broke the force of the blow, but the lash curled about his face and left a red mark.

DAN STUART DEAD.

(Times Leased Wire.)
New York, Nov. 15.—Dan Stuart, one of the best known sporting men in the country, died at his home here yesterday of Bright's disease and heart failure. He was 52 years of age. While in Dallas, Texas, he sought to acquire permission for the Corbett-Fitzsimmons fight, and carried his arrangements so far that Governor Culberson called a special session of the legislature to prohibit prize fighting in the state. Later Stuart secured permission from the Nevada legislature to hold fights in that state, and as a result of his effort the battle was finally brought about in Carson City on March 17th, 1887.

Hot Springs, Ark., Nov. 15.—It is said that the death of Dan Stuart will probably mean the end of racing here. He and "Blind John" Condon, of Chicago, owned the Oklahoma race track, and he has been the principal backer of the effort to repeal the anti-racing law in this state.

The other night just before the rise of the curtain at a Parisian theatre where a play has been performed for nearly 40 nights in succession, the stage hands struck work for higher wages. They refused to set the stage for the following act, so the actors and actresses set it themselves, doing their work so well and so quickly that the audience knew nothing of the strike.

A BROKEN-DOWN SYSTEM.
This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—broken-down vitality, the vital forces that sustain the system. The matter what may be its causes (for they are almost numberless), its symptoms are much the same: the more prominent being apathy, sense of prostration or weakness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—VITALITY.

VITAL STRENGTH & ENERGY
to throw off these morbid feelings, and experience proves that a night succeeds the day this may be more fully secured by a course of the celebrated life-reviving tonic

THERAPION NO. 3
This is an invigorating combination. So long as it is taken in accordance with the printed directions accompanying it, will the shattered health be restored.

THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH.
See a new existence imparted in place of what had so lately seemed "worn-out," "died up," and "valueless." This wonderful restorative is purely vegetable and innocuous, is agreeable to the taste, suitable for all constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement, whose main features are sense of debility, that will not be speedily and permanently benefited by the new vitalizing restorative essence, which is destined to cast into oblivion everything that had preceded it for this wide-spread and numerous class of human ailments.

THERAPION is sold by Chemists throughout the world. Prices: English, 1/6 and 4/6. Purchasers should see that the word "THERAPION" appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Home Office, and without which it is a forgery.

WIN WORLD FOR CHRISTIANITY GREAT QUESTION UNDER DISCUSSION

Laymen's Missionary Movement
Given a Formal Start in
City.

Four of the visiting delegates touring the Dominion in the interests of the Laymen's Missionary Movement addressed Victoria churches and opened the campaign here by an enthusiastic men's meeting in the Grand theatre yesterday afternoon.

The visitors, were Dr. Sidney Gould, of Jerusalem, medical missionary, who preached in Christ Church Cathedral in the morning and St. Saviour's, Victoria West, in the evening; Rev. H. M. Clark, of Honan, China, who was at the Congregational church in the morning and at St. Andrew's Presbyterian in the evening; C. C. Knight, of Regina, in First Baptist and First Presbyterian; and Rev. C. E. Manning, of Toronto, in Centennial and Metropolitan Methodist churches.

A local leader in the movement, R. S. Day, occupied the pulpit of the Victoria West Methodist church in the evening.

The afternoon meeting at the Grand theatre, under the auspices of the Young Men's Christian Association, constituted a start for the two days' conference here. C. C. Michener, of this city, one time travelling general secretary of the Young People's Forward Movement for Missions, occupied the chair in his usual effective manner. He drew attention to the international week of prayer of the Young Men's Christian Association being observed this week the world over.

Rev. W. Stevenson briefly outlined the importance of the coming plebiscite vote, and made clear the point that local option legislation and not prohibition was being sought by this referendum vote. Robt. Morrison sang in splendid voice.

Three missionary addresses of note were delivered and intensely appreciated by the large audience. A streamer seventy-five feet long decorated the walls, bearing the inscription: "The world for Christ in this generation." This striking phrase was illuminated and amplified by the suggestive addresses which followed.

Dr. Gould, of Jerusalem, gave a most interesting address on the Holy Land and Mohammedanism. In opening he dwelt briefly on the significance of the Laymen's Movement and interpreted "movement" to be power in motion, which soon in action gains momentum, and the result is collision—collision with the forces of darkness and indifference, and the result is the accomplishing of great things. This had been proved out already in the Men's Missionary Movement. Dr. Gould stated that there were 225 million Mohammedans in the East, and said that probably Mohammedanism was the hardest and subtlest opponent Christianity had. The devotees were terribly in earnest and frenzied and fanatic in their missionary zeal. Mohammedanism has four striking defects in contrast with Christianity.

First, in their conception of God. They have the shortest creed in the world which declares "There is only one God, their God, and Mahomet is His only prophet." They have ninety-nine names for God, but never God as Father, this to them is blasphemous, and hence the fundamental difference to Christianity. God to the Mohammedan mind is an irresponsible despot who has destined some men for heaven and some for hell. They are typified in the parable of the talents by the man of one talent who accused himself by accusing his word as being hard and austere. This is their conception, and consequently is expected and finds expression in the despotism of their ruler, husband in the home and all in authority. Second, the retrospective aspect of their religion. They belong to the ninth century, and the finished system has never been changed and is not subject to amendment. The dictum is "To-day I have perfected my religion to you and Islam shall be my only representative." This is in striking contrast to Him who said "I have come that they might have more abundantly." Their one is stagnant,

petrified, ossified; the other is revivifying, vitalizing and inspiring. They are bound up in the past with thirteen centuries of appalling gloom and darkness. Third, position and degradation of women. The men are polygamous, cruel and vicious. The state of woman under Mohammedanism is unutterable degradation. The speaker instanced the most heinous cases of brutality of husbands to wives and fathers to girl children. Fourth, the absolute lack of balance in Mohammedanism, no inspiration of high incentive. The speaker instanced India, where the British government are trying to educate the Hindus, ignoring the very foundation principles of the making of the British Empire at home—the foundation of the Bible. They admit it is almost a hopeless task and see their folly. As the Bible has been always recognized as the source of England's greatness and is of any people. This is the great lack of the Mohammedans. The whole world needs the Bible. One cannot take superstition and age-long customs away from people and put nothing stronger and better in its place. The Bible and Bible principles must be employed and the result will be as the British Empire to-day.

C. C. Knight, of Regina, spoke from the Laymen's view-point and asserted that the conversion of the world waits on the conversion of the laity from passive to active membership in Christ's church. This was the motive of the present movement, and was being accomplished in proportion to the awakening of the laymen. The work important has too long been left to the women and children. The men are just waking up to their personal responsibility. They had been playing with missions. The evangelization of this world in this generation can be easily accomplished, and it was their duty to do it because they were only responsible for the men of their generation, and if they did not tell them they would not hear it. Canada has men and money enough to do her share easily. One man being sent to the foreign field from every 600 workers at home would do the task. Up to now as a Dominion they have just been contributing a postage stamp per week to this great problem. The contribution of two car tickets a week from the church members of Canada would evangelize Canada's share of 40,000,000 of the non-Christian world. One per cent of the harvest returns of wheat of the Northwest would do it, for last year the wheat yield was 450 millions of dollars. Canada can do it if she will. It is within the realm of practical politics. It is simply a matter of personal responsibility. If the business men of Canada get under the proposition it can be easily accomplished.

Rev. C. E. Manning, of Toronto, made a telling address as he reviewed the progress of the past year, the first year of results from the Laymen's Missionary Movement. "We kept 13,000 missionaries in the field last year, and supplied 23 millions of dollars for their support and work. Of this amount Canada and the United States contributed ten millions, while England, with half the population, contributed nine millions, almost one-half," said he. To evangelize the world in this generation with the modest proposition of one missionary, assisted by native workers, for every 25,000 people, we should require 40,000 workers in the field and supply them eighty million dollars a year. This would be \$5 per church member per year. Canada spent seventy-seven million dollars last

year in her whisky bill, thirty millions for tobacco and cigars and two millions for missions. Six millions per year will evangelize Canada's share of the world.
In the East the Baptists have made the most advance this year. Jarvis street church, Toronto, raised \$17,000 for missions. The Baptists of Toronto raised \$35,000, \$5,000 more than their allotted, or \$7 per member. Bloor street Methodist church raised \$15,000, \$3,000 more than their share. Every church should organize. Public meetings were good to supply the inspiration, but there must be perspiration to get the financial results, and the work must be done by a thorough canvass of every church. A young man has recently gone out to China as a missionary for \$600 a year, who refused \$5,000 a year to stay home and remain in business. Such instances as this might be multiplied to prove the enthusiasm in this missionary work.

The yellow peril is discussed in the West as a possible menace to civilization, but the yellow peril of wheat and gold constitutes a more real peril than the Chinese. The only thing to do is to spend our money in investments like missions that will count for the Kingdom of God.
Banquet To-Night.
The central event of interest and enthusiasm in the Laymen's Missionary Conference will be the great men's banquet in the Broad street hall to-night at 7 o'clock. Covers will be laid for 200 and almost that number have already expressed their intention of being present. The catering is in the capable hands of the Ladies' Auxiliary of the Young Men's Christian Association. After dinner C. C. Michener will occupy the chair, and the following attractive programme of speakers will address the great gathering of business men: Rev. Canon Tucker, the eloquent secretary of the Anglican Mission Board; Dr. G. J. Bond, of Halifax, ex-editor of the Methodist Guardian, who has just completed a trip of the mission stations of the world and has a statesman's grasp of the situation; Hon. W. A. Charlton, who makes a powerful layman's appeal to men; and W. T. Gunn, the secretary of the Congregational Mission Board.
On Tuesday night the convention will close, when Dr. Bond and F. W. Anderson will lead a conference on "How to bring congregations to their highest missionary efficiency." Ladies are admitted to this session.

CONTEST IN THE ISLANDS PERCY PURVIS AT SALT SPRING

Liberal Candidate Makes Splendid Impression—Mayor Hall Speaks.

(Special Correspondence.) Salt Spring Island, B. C., Nov. 15.—A rousing meeting was held in the interests of the Liberal candidate, P. Purvis, at North Salt Spring on Friday night.

Mr. Purvis then spoke of the deep interest he had always taken in local affairs, and expressed his confidence in the Liberal party.

Mr. Purvis dwelt on the railway policy of the government at some length, lucidly explaining the agreement, and pointing out its numerous defects.

Mr. Purvis then spoke of the ridiculous system of the government in regard to the spraying of orchards, and the inspection of fruit.

Mr. Purvis was pleased at seeing so many ladies present, and he thought the suffragettes were gaining ground in regard to the claim of the district where the best representative he pointed out that many of the members of the Imperial.

Mr. Purvis gave it as his opinion that private members of the House were too poorly paid. The speaker said that he had to work hard to get a share for North Salt Spring.

Mayor Hall said that he was glad to have the opportunity of speaking on Salt Spring Island, because it was the district represented by the late Speaker Footh, who, as all knew, was a good honest Liberal.

which will open up some 200 miles of new country, reaches the stupendous sum of \$65,000,000. That amount is arrived at after computing the principle with simple and compound interest.

Mr. McPhillips—"Why compound interest?" Mayor Hall—"No financial company or business man would consider a proposition of such magnitude without computing with compound interest. We are obliged to use compound interest in all our large financial dealings in Victoria.

Mr. Purvis fought with all his power against a railway contract which covered practically the same ground as the one that we have before us to-day. Why was that? Why is Mr. McPhillips so much in favor of that contract to-day?

AN AWFUL FEAR CAUSED NERVOUS BREAKDOWN. Mrs. S. J. Carman had, as her letter discloses, wit enough to see that fear engenders worry, and worry affects health and results in a general breaking up of the nervous system.

Mrs. Carman, who is well known for miles around her home town of Portland, voices the opinion of everyone that has used Perrozene. It is sure to give you strength, certain to bring you robust health, unfailing in maintaining a reserve of vigor that defies weak turns, nervousness, insomnia and poor health.

GETTING READY FOR WIRELESS TELEPHONE Victoria Station to Be Installed—Will Then Talk With Seattle.

Victoria people will be able to talk with Seattle by wireless telephone within the next few months. The Pacific Radio Telephone Company will be advertising in the Times to-day for bids for the erection of a long distance tower in Victoria.

Mr. Purvis will be the first in Canada to have this latest means of communication with another city. The Pacific Radio Company hopes to have stations in operation shortly in the cities of Victoria, Vancouver, Bellingham, Everett, Seattle and Tacoma.

STEEL DIRECT FROM ORE. A newly-discovered method of making steel directly from iron ore by electricity at Donmiedingen, in Luxemburg, is expected to exercise a favorable influence on the German steel industry.

DYSPEPSIA, GAS, HEARTBURN AND ALL MISERY FROM A BAD STOMACH VANISHES

A Little Diapepsin Will Make You Feel Fine in Five Minutes. The question as to how long you are going to continue a sufferer from Indigestion, Dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking some Diapepsin.

steamer Theodore Roosevelt, while passing the straits of Mackinaw, carried on a conversation with our Chicago station, a distance of 300 miles, but the Chicago tower was used at that time. The tower in Victoria will be similar to those erected at many points along the Great Lakes.

CAMPAIGN IN MANY PLACES BRYDON'S MEETINGS IN SAANICH RIDING

John Keen Will Redeem Kaslo—A Contest for Every Seat. Thomas A. Brydon, the Liberal candidate, has arranged a series of meetings which will bring him over the constituency of Saanich again.

Mr. Brydon is getting a splendid reception among the electors, who are glad of the opportunity to elect a farmer to represent that fine agricultural district. His meetings have all been well attended, and there is no question but that he will defeat the ex-Speaker.

John Keen in Kaslo. (Special to the Times.) Kaslo, B. C., Nov. 15.—With John Keen in the field in Kaslo a victory there for the Liberal party seems assured. Mr. Keen is a strong candidate, very popular in the riding, and his election over Neil F. McKay, the late member, is generally expected.

News from Lillooet tells of a stirring contest between Mark Eggleston, the late member, and Archie McDonald, a former Conservative member who was defeated by Mr. Eggleston in 1907. Both are working hard, but the constituency is with the Liberal candidate, and his re-election is assured.

MAKES HAIR GROW D. E. Campbell Has an Invigorator That Makes the Hair Grow Abundantly or Money Back. If your hair is thinning out gradually it won't be long before the bald spot appears.

Parisian Sage is sold by C. E. Campbell under a positive guarantee to banish dandruff, stop itching hair and itching scalp in two weeks or money back. It gives to women's hair a lustre and radiance that is most fascinating and causes it to grow abundantly.

NOTICE. I, Charles J. McDonald, hereby give notice that, one month from date hereof, I will apply to the Superintendent of Provincial Police at Victoria for a renewal of my license to sell intoxicating liquors at the premises known as the Mayne Inn and Hotel, situated at Mayne, in the district of North Victoria, to commence on the 1st day of January, 1910.

NOTICE. I, Alex. Simpson, hereby give notice that, one month from date hereof, I will apply to the Superintendent of Provincial Police, at Victoria, for a renewal of my license to sell intoxicating liquors at the premises known as the Coach and Horse Hotel, situated at Esquimalt, in the district of Esquimalt, to commence on the 1st day of January, 1910.

CIVIC NOTICE. The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable to execute the following works of local improvement, viz: 1. To drain, drain and rock surface Langford street, and to construct permanent sidewalks on both sides of same from Catherine street to the eastern line of Lot 1, Block 4, and to the eastern line of Lot 11, Block 2, and to construct curbs, gutters, and sidewalks (including maintenance) on both sides of Langford street from Catherine street to Russell street, also a permanent sidewalk with curbs, gutters and boulevards (including maintenance) on the south side of Langford street from Russell street to Front street; 2. To construct wooden block pavement placed on a concrete foundation on Yates street, from the east side of Douglas street to the west side of Blanchard avenue; 3. To construct a permanent sidewalk of concrete on the north side of Niagara street from Menzies street to Oswego street; 4. To construct a permanent sidewalk of concrete on the north side of Niagara street from Beacon Hill Park to South Turner street; 5. To construct a permanent sidewalk of concrete on the north side of Niagara street from Menzies street to Boyd street. And that each and all of said works shall be carried out in accordance with the provisions of the "Local Improvement General By-Law" and amendments thereto, and the City Engineer and City Assessor having reported to the Council, in accordance with the provisions of Section 4 of the said by-law upon each and every of said works of local improvement, giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said works, and the reports of the City Engineer and City Assessor of the aforesaid having been adopted by the Council.

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the Council within fifteen days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by-law in that behalf regulate and determine. WELLINGTON J. DOWLER, C. M. C. City Clerk's Office, Victoria, B. C., Nov. 15, 1909.

CIVIC NOTICE. The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable to execute the following works of local improvement, viz: 1. Permanent sidewalks on both sides of Gladstone avenue, between Shakespeare street and Belmont street, and to construct curbs and boulevards (including maintenance); 2. Permanent sidewalk of concrete, with stone or iron curbs, on the west side of Douglas street, from Cormorant street to Fisgard street; 3. Boulevards, with curbs and gutters, on the north side of Yates street, from Quadra street to the west side of Douglas street, and to construct curbs and rock surface sidewalk on the south side of Yates street, between Quadra street and Fort street (including maintenance); 4. Permanent sidewalks on both sides of Coburg street, from Oswego street to Rendall street, and to grade, drain and rock surface said street; 5. Permanent sidewalks on both sides of St. James street, between Oswego street and Rendall street, and to grade, drain and rock surface said street; 6. Permanent sidewalk on west side of Rendall street, from Niagara street to Simcoe street, and to grade, drain and rock surface said street. And that each and all of said works shall be carried out in accordance with the provisions of the "Local Improvement General By-Law" and amendments thereto, and the City Engineer and City Assessor having reported to the Council, in accordance with the provisions of Section 4 of the said by-law upon each and every of said works of local improvement, giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said works, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council.

"LIQUOR LICENSE ACT, 1906." I, Charles J. McDonald, hereby give notice that, one month from date hereof, I will apply to the Superintendent of Provincial Police at Victoria for a renewal of my license to sell intoxicating liquors at the premises known as the Mayne Inn and Hotel, situated at Mayne, in the district of North Victoria, to commence on the 1st day of January, 1910. (Signed) CHARLES J. McDONALD, Dated this 5th day of November, 1909.

"LIQUOR LICENSE ACT, 1906." I, E. Marshall, hereby give notice that one month from date hereof, I will apply to the Superintendent of Provincial Police, at Victoria, for a renewal of my license to sell intoxicating liquors at the premises known as "The Gorke Hotel," situated at Esquimalt, in the district of Esquimalt, to commence on the 1st day of January, 1910. (Signed) E. MARSHALL, Dated this 3rd day of November, 1909.

EVENTS THAT SHAPE DESTINY

HON. CHARLES MURPHY DISCUSSES THEM

Notable Speech by the Secretary of State in Montreal.

At the Hallowe'en house dinner of the Reform Club the guest of honor was the Hon. Charles Murphy, Secretary of State, who made his first public appearance here since his acceptance of a portfolio, and the speech which he delivered on the occasion demonstrated beyond question that in the new Minister the government is strengthened by an orator of the first rank—forceful, expert and convincing, says the Montreal Herald.

A man of fine presence, with a face denoting firmness and strength, and a clear and resonant voice, Mr. Murphy made a splendid impression upon those who had the privilege of listening to him. His speech was an admirable presentation of the story of the country's development under Liberal rule, and an effective exposition of the results of the autonomous policy which has been the keynote of the administration of Sir Wilfrid Laurier.

In a series of compact tabulated statements compiled from official figures he showed the marvellous progress of the past dozen years, and then took up the question of transportation, past, present and future, with the Georgian Bay Canal and the Hudson's Bay railway as advanced notes in the programme, and body proclaimed his views on the question of Canadian naval defence. Speaking for himself alone, and emphasizing his reservation that his words are not to be taken as foreshadowing any line of government policy, he declared, amid hearty cheers, that whatever ships may be required in connection with the naval policy of the country every one of them should be built in Canada.

The chair was occupied by Mr. Maxwell Murdoch, the president of the club, who performed with his usual tactfulness the duties of toast master. On his right sat the guest of the evening and on his left Senator Dandurand. The dining-room was filled to the limit of its seating capacity with a thoroughly representative gathering of Montreal Liberals, old and young.

Country's Development.
Mr. Murphy, after thanking the club for inviting him to be the guest on this occasion, and referring to similar entertainments which had been given to men eminent in the Liberal ranks in times past, continued:

"In the absence of any intimation on the part of your club as to a subject that you would like to have discussed, I probably cannot do better than occupy fifteen or twenty minutes of your time in speaking to you about some phases of Canadian development. Such a subject may very properly be considered as having a two-fold interest for you. In the first place it must interest you as members of the political party identified with the real development of Canada; and in the second place it must interest you as citizens of the metropolitan city of Montreal—a city whose marvellous growth is an index of the growth of the country and whose constantly expanding trade is the barometer that registers with unflinching accuracy the expansion of trade in the whole Dominion.

"In the history of the development of this country under Liberal rule, there is nothing more impressive than the change that has taken place in connection with the administration of the Post office department. A very brief reference to some statistics will make that abundantly clear. In 1896 there was a deficit of \$781,152; in 1908, there was a surplus of \$1,101,827, or a financial improvement of \$1,882,979.

"If it were not for the reductions in the rates of postage which have taken place since 1896, viz., from 3 cents to 2 cents a letter on inland letters, and

from 5 cents to 2 cents on letters with in the British Empire, the increase would certainly have been at least \$1,000,000 a year more, but this large sum, instead of being collected and added to the revenue was left in the pockets of the people.

The Great Wheat Crop.
"During the past summer it was my good fortune to visit the four western provinces and to spend nearly seven months in meeting the people and becoming acquainted with the country. In Manitoba, Saskatchewan, and Alberta, I saw growing a wheat crop whose sale, according to such excellent authorities as Sir Edward Clouston and Sir Thomas Shaughnessy, will add considerably over one hundred million dollars to the country's wealth and will place the most of that vast sum in circulation before the close of the present year. Nothing could be more eloquent than the figures which tell the story of western wheat during the last decade.

"If we compare the total yield in 1900 with that of 1899 we find that there has been an increase of nearly 40 per cent. "But the wheat crop was not by any means the only impressive sight, that came under my observation in the West. Cattle ranching is there conducted upon a scale that is probably unequalled on this continent. On one ranch in Alberta, fifteen miles by three and a half miles in extent, the owner, Mr. Patrick Burns, told me that he winter-feeds between fifteen and twenty thousand head of cattle every year. To Montrealers the operations carried on by Mr. Burns and his fellow-ranchers must be of special interest, because I was informed that the great majority of the cattle raised on these Western plains are shipped to Liverpool via the port of Montreal.

"Then, sir, in British Columbia I saw fruit-farming carried on under conditions and with results unknown in this part of Canada. The same may be said of the lumber industry which has grown to enormous proportions. Besides all this, vast coal areas are being opened up, and in the southern part of British Columbia known as the boundary country gold, silver and lead mines of marvellous richness are in operation.

"But, Mr. Chairman, it would take too much time to enumerate all the phases of development and progress that came under my notice. Allow me, however, before passing on to remind you that much, if not all of that development and progress must be attributed to the immigration policy of the present Dominion government.

The Value of New Settlers.
"And here again figures are more eloquent than words. From January 1st, 1897, to the end of the last fiscal year, 1,256,000 people came to Canada. Subsequent returns indicate that a few months hence at the close of the present year the total number of immigrants will exceed 1,500,000. Now according to some political economists every immigrant considered as a producer and consumer, is worth \$300. Others estimate his worth at \$1,000. But taking the lower estimate and applying it to our 1,256,000 immigrants it will be seen that they represent a national asset of \$1,256,000,000.

"Then, sir, the influx of American settlers is responsible for another interesting set of figures. Western bankers have estimated that the Americans have brought into Canada and spent in acquiring lands—other than homesteads—in developing them, in purchasing and working mines, etc., no less than \$50,000,000, or an amount sufficient to redeem the debt of the Dominion; pay all the Provincial debts and then leave a handsome balance over.

"The great success chiefly attending the immigration policy of the government was made possible chiefly by the extension of the country's transportation facilities.

"For the construction of the whole of these 25,000 miles of railroad the government does not claim credit, but it has helped materially in the construction of a large portion of it.

"From a national point of view the most important step taken by the government in connection with transportation is, of course, the construction of the Transcontinental railway. The building of the new line across the continent has fastened the eyes of the world upon us in appreciation of the spirit of enterprise and faith in which this monumental work has been undertaken. It has, even this year, before

completion, provided another spout for the western grain hopper, and when completed it will double the land area available for settlement in the West, besides practically creating a new Ontario and a new Quebec to the north (Queens).

The Hudson's Bay Railway.
"In order to provide a second or alternative route for the varied products of our great West, the government as you are aware, has also undertaken the construction of the Hudson's Bay Railway. The survey work is rapidly nearing completion and practically the only important matter remaining open for decision is the selection of a terminus on Hudson's Bay.

"Co-ordinate with our railway interests and rising steadily in importance are our waterways, which are directly identified with the whole scheme of transportation. Since 1888 the St. Lawrence canal has been deepened at a cost of many millions to provide for a fourteen feet navigation. The channel of the river itself has been deepened to thirty feet. As a result of this and the more efficient lighting system introduced by the Minister of Marine and Fisheries, the rate of marine insurance on grain carried by the St. Lawrence has been reduced from 90c to 30c, and the route is now capturing the grain trade of the continent.

"Closely connected with the development of the St. Lawrence route, are two projects that must be of special interest to the people of Montreal. I refer to the construction of the Georgian Bay canal, and the proposed deepening of the Welland canal. The former, as everyone who has occupied the attention of the government while the latter has not yet been considered.

Naval Defence.
"At the last session of parliament a resolution was passed that is certain to open up a new line of development in our national life, I refer to what is popularly known as the naval defence resolution. It may be well to recall that the resolution in question received the unanimous support of all the members of the House of Commons. On that account it has been regarded as a non-partisan resolution, and it is in that spirit that I wish to refer briefly to that branch of the general naval discussion which has been carried on in the newspapers and which has to do with the question of ship-building as a part of a Canadian naval policy. In what I am about to say I wish to be understood as speaking only for myself, as I am not expressing the view of any other member of the government. I desire merely to record my opinion, as a Canadian, speaking to Canadians, that whatever ships may be required in connection with the naval policy of this country, Canada, now, by two small classes of people—one, who assert that the building of ships in this country would lead to "grafting," and the other—who say that Canadians do not know how to build ships and that any vessels we may require should be built across the Atlantic.

"Mr. Chairman, the statement that Canadians are not honest enough to build ships of their own is a miserable slander which will recoil on those who utter it. The other statement that Canadians are not capable enough to build ships is one that evinces not only a strange lack of faith in our people, but an absolute lack of knowledge of what Canadians have done and are capable of doing in the shipbuilding line.

Record of Splendid Achievements.
"The record of splendid achievement that stands to the credit of this government (only a small part of which I have been able to mention) would have been impossible if its course had not been shaped by the directing genius of Sir Wilfrid Laurier. In the light of that achievement how petty, and absurd are the charges made against him and his government. How absurd for instance is the charge circulated in the English speaking provinces that he is kept in power by a solid Quebec.

"Mr. Murphy in a brief retrospective survey drew attention to the various movements that had played a part in the history of the country since the rebellion of 1837—the annexation movement, the movement promoted by the independence party, Imperial Federation, commercial union—remembering that the constant looking towards the United States resulted in a million Can-

adians taking up homes in that country. We hear no more of annexation and we hear no more of commercial union or any other movement of the kind. The spirit of unrest had disappeared and the energies of the whole Dominion were bent upon making Canada a great self-governing nation within the British Empire.

Mr. Murphy pointed to some of the prominent features of Sir Wilfrid's policy, the British preferential tariff, the sending of the contingents to South Africa, the taking over of the fortifications at Halifax and Esquimaux, the acknowledgement of Canada's right to negotiate for concessions from other countries and the declaration that no treaties would bind Canada unless they received Canada's consent. But even a more important change had been wrought by Sir Wilfrid in the unification of the different races and creeds, the promotion of a better understanding between the different sections of the Canadian people which constitutes a most important and enduring link in the chain that binds Canada to the British Empire.

"IT SEEMED LIKE THROWING MONEY AWAY Until I Tried Gin Pills."

Mr. P. Fitzgerald was completely disheartened. He had suffered so long with his kidneys, and spent so much money on doctors without relief, that he had made up his mind he could not be cured.

Then he chanced to read about the wonderful cures by Gin Pills, the great Kidney Remedy, and sent for a sample. The pills did him so much good that he immediately bought two full size boxes. And these two boxes of Gin Pills made him feel like another man.

But let Mr. Fitzgerald tell his own story of a really remarkable cure.

Provincial Asylum, Orilla, June 15th.
I have much pleasure in stating that the sample, which you sent me, led me to buy two boxes of Gin Pills from a local druggist. They are the best remedy for Uric Acid Trouble that I have ever tried. I must say that before using Gin Pills, I had undergone a long and expensive course of treatment by eminent specialists of Chicago. They did me no good—it seemed like throwing money away.

I still keep a box of Gin Pills on hand and take one occasionally. I am pleased to recommend them and bear testimony to their efficacy.

P. FITZGERALD.
After reading such a letter as this, you simply can't doubt the value of Gin Pills in cases of Kidney and Bladder Trouble. If you are a sufferer, write the National Drug & Chemical Co. (Dept. V.T.), Toronto, for a free sample of Gin Pills and try them at our expense. After you have seen for yourself just what Gin Pills will do, buy the full size box at your dealer's, and remember that Gin Pills are sold with a positive guarantee of a cure or money refunded.

VICTIMS OF INTERURBAN WRECK INTERRED

Many Attend Funerals to Pay Respect to Memory of Dead.

Vancouver, Nov. 15.—Vancouver was in mourning Saturday. Towards 2 o'clock in the afternoon a large crowd assembled in front of Armstrong & Edwards' undertaking room on Westminster avenue. Five of Vancouver's sons were to be taken to their last resting place to be buried together as they had died. Four other victims of Wednesday's terrible accident on the interurban were also carried Saturday afternoon to the cemetery at the same time, but from their homes, and the temples of their societies.

It was one of the saddest days in the history of the city. Flags were at half-mast, bells on the churches were tolled. At the undertaking rooms a crowd of women and men stood hushed, waiting anxiously to take a last glimpse of their friends.

One of the street cars had been draped for the occasion; its windows were taken out and the seats draped in crepe to allow the coffins to rest on them. The car was switched into Harris street, and a long lane was made by the fellow-employees of the victims from the undertaking rooms to the car. One by one they were carried by their friends to the car, and amid a carpet of flowers, were placed on the seats.

Another car had been prepared for the immediate relatives and four others for the rest of the mourners. The cars proceeded slowly and almost noiselessly to their destination. Arrived at the cemetery the caskets were taken to the various graves, all of them in a shady spot to the north of the new burial ground. There at the same time eight burial services were read, the first obsequies of the two Stevens, father and son, of Thomas Bowes and Harry Slayton, having been postponed until that time.

There was a very large attendance at the gravesides. Conspicuous among the mourners were the Mayor, representatives of the B. C. Electric Railway Company, fellow employees, and a number of prominent citizens. The clerics who officiated were the Revs. C. G. Owen, E. W. Summerscales, H. S. G. Buttrick, Dr. Fraser, Stillman, K. Wright and R. James. The Rev. Alexander Moege was also there. The graves were covered with beautiful flowers, among which the wreaths and other tributes most conspicuous were those from the immediate rela-

tives, fellow employees and the company. The names of those who were buried Saturday were: A. S. Wilkinson, F. Pochin, T. E. Holland, R. S. Lyon, T. Tuttle, J. F. Stevens, W. Stevens, T. Bowes and H. Slayton.

The four last-named were buried under the auspices of their lodges, the Sons of England superintending the

IMMIGRATION BUILDING IS NOW IN USE

Much Needed Institution Occupied by Officials on Saturday Last.

Dr. Milne and the other members of the immigration staff moved into their new building near the outer dock on Saturday afternoon and that will henceforth be the headquarters for the immigration department. It is a fine building and is splendidly equipped for the work. It has been needed very badly for a long time. When the Chinese are returning from their New Year visits to the Orient sometimes as many as four or five hundred arrive on one steamer, and all of these have to be examined in order to make sure that they are the men who went away. It is necessary to detain new immigrants for many days before they can be given their liberty. There has to be no doubt as to the legality of their entry into the country. Hitherto there has been no place to keep these people except to herd them like cattle in the small building placed at the disposal of the department by the owners of the dock, or to lock them in the city jail. From this time on these people will be accommodated at the new building where there are conveniences for handling them. The building is large but it is not anticipated that it will be too large for the purpose for which it is designed. Deserters have to be detained, stowaways have to be held, and bad characters sent back. All these will be kept in the new building instead of going to the jail.

The new building contains all the most modern conveniences. There are offices for the immigration and customs officials, for the work of the customs department will be conducted from the same building, and the necessary kitchens, dormitories, and an operating room. The building is of two stories with a large basement, plain but admirably fitted for the purpose for which it is designed. It is not quite finished in some respects, but is sufficiently far advanced to allow of its being occupied in part.

HENRIETTE CHARTERED.

Steamer Taken by Grand Trunk Pacific for Three Months.

Confirmation has been received of the chartering of the Mackenzie Express steamer Henriette for service between Prince Rupert and Queen Charlotte Islands. The vessel has been taken for three months and she will be used in connection with the mail contract recently entered into with the Dominion government between Prince Rupert, Portland Canal and Queen Charlotte Islands. It is the intention of the company to make two round trips per month during the winter from Prince Rupert, calling at Port Simpson, Naas Bay, Stewart, Masset, Skidegate, Queen Charlotte City, Leokport, Ikeda Bay, Jedway, Gollan Bay, Forth Island. It is expected that by the time this charter expires the G. T. P. will have a boat or boats of their own specially built for this service. The Henriette is now in port, but will leave in a few days for Prince Rupert where she will be delivered to the charterers.

On Friday evening next the Shipmasters' Association of Vancouver will hold their annual smoker. Captains Newcomb, Bissett and Anderson were appointed to look after the arrangements, and it was decided that strangers could be invited.

The famous Bessie of the Barn South has left Liverpool for a tour in South Africa, China, Japan, New Zealand, Australia and America.

LUMBER CARGO SWEEPED INTO SEA

BARQUENTINE BADLY BATTERED BY GALE

Captain Dent of Retriever Hurlled From Wheel Against Ship's Rail.

(Times Leased Wire.)

San Francisco, Nov. 15.—Nearly a wreck and with half her cargo gone the barkentine Retriever is in port today.

The Retriever left Port Ludlow on November 5th bound for this port. She was off Cape Flattery on November 7th when a terrific gale struck her. On beam ends the ship was at the mercy of the winds and heavy seas for 11 hours, during which time the chains which held her deck cargo of lumber were broken and 50,000 feet of lumber was swept away by the tremendous seas. The gale increased to a hurricane on November 8. The cabin and galley were flooded, and for the following two days the crew ate uncooked food. The storm had nearly spent its fury when Capt. Dent was struck by a wave, hurled from the wheel against the rail and two of his ribs were broken and his shoulder badly bruised. Capt. Dent reported to-day that he sailed for a number of hours through pine lumber, presumably the deckload of some vessel.

He reported that on the night of November 11th an earthquake was felt which caused a heavy commotion in the waves.

BELLE OF SPAIN FOR PRINCE RUPERT

Vessel Had Very Trying Voyage From Nova Scotia.

The third steamer carrying steel rails for Prince Rupert passed yesterday. The Belle of Spain had had a bad trip, having sailed for Prince Rupert early in July. She called at Philadelphia and sailed from that port August 11th. Meeting with severe gales and heavy seas in the North Atlantic she put into St. Lucia for repairs. She was docked and it was found that she was badly strained and damaged, her stanchions being bent and the steering gear slightly damaged. She left St. Lucia on September 10th, and had better luck until she arrived on the Pacific ocean, when she again experienced severe gales.

Capt. Minister, when seen yesterday, said that the trip had been a very unpleasant one. He is going to Nanaimo for coal and will then pass up to Prince Rupert by the inner passage. The captain has no orders beyond that the steamer not yet having been chartered for her outward voyage.

The new schedule on the E. & N. railway is specially arranged to give a direct through service between this city and Comox. The steamer City of Nanaimo connects with the train at Nanaimo and passengers are thus able to travel to or from Cumberland in one day.

RATE WAR TO ALASKA INTERESTING FEW

Nothing But Local Business Handled During Winter Months.

The rate war on the southeastern Alaska run is, according to a Seattle dispatch, arousing little excitement in shipping circles, although there is some interest taken in it in the north. The general public, however, in view of the lack of pyrotechnical interest from the competing companies, is looking on with some indifference and wondering what it is all about. The reason for starting a rate fight on a steamship run, where there is no possibility of a fight for the winter is hard for the public to understand.

It is said, however, that a fight on this run at any other time would be impossible among the steamship companies, as it would involve all the big transcontinental railroads hauling freight for shipment into interior Alaska. Practically all the freight carried on the run in the summer is for the interior and much of it is delivered at Seattle or Vancouver by transcontinental lines. The rate war and general slashing of tariffs between Seattle and Skagway would necessarily affect the through railroads, and would, if started in the summer, have resulted in a mix-up had not the pressure of the railroads put a speedy end to hostilities.

With navigation closed and practically nothing on the run but local business, the steamship companies can fight and cut as merrily as they please without hope or fear of outside interference.

OMINECA FLOATED AND AGAIN AGROUND

Two Sternwheelers Will Be Hauled Out on Sandbar in Skeena River.

(Times Leased Wire.)

Hazelton, Nov. 14.—Sternwheeler Omineca, which grounded on a rock just above Beaver Dam canyon, the Skeena river, recently, was successfully floated, and in company with the Distributor, another of the sternwheelers used by Foley, Welch & Stewart in carrying supplies, proceeded down stream on Wednesday last. She made only a few miles when both boats again grounded. An attempt will be made to haul them out for the winter on a sand bar. The thermometer is down to zero and the water falling rapidly.

WEIR STEAMERS.

Report as to Position of Liners in Different Parts of the World.

The weekly Waterhouse circular giving the latest reported position of the vessels of the Weir fleet in the Pacific trade is as follows:—
American left Vancouver for regular Oriental ports Oct. 29th.
Steamer Century arrived at Auckland from San Francisco Oct. 21st.
Steamer Hyndford departed from San Francisco for New Zealand and Australia Oct. 29th.
Steamer Katanga arrived at Sydney Oct. 18th.
Steamer Kumeru arrived at Hongkong Oct. 24th.
Steamer Oceano left Hongkong for Moll Oct. 24th.
Steamer Quito departed from Comox for Calcutta Oct. 14th.
Steamer Riverdale left Fraser Mills, B. C., for Vancouver Nov. 6th. Will take Nov. 19th sailing from San Francisco on Australian mail line.
Steamer Strathmillan left Seattle for Manila Nov. 6th.
Steamer Suvorio arrived at Vancouver from Yokohama Nov. 5th.
Steamer Tymeric left Newcastle for Suva (Fiji), San Francisco and Vancouver Oct. 3rd.

MAKURA COMING

Big Australian Liner Tuesday Next.
The steamer Makura left Honolulu last Tuesday for this port with 150 passengers and a cargo including 50 tons of general freight and 2,000 carcasses of mutton. She is due here next Tuesday.
It is now learned that the Aorangi will sail from Sydney for this port on November 22nd, and that the Moana will make the last trip of the year, leaving from Sydney December 20th. The what vessel will maintain the Canadian-Australian line's service next year is apparently indefinite, as the company's latest schedule leaves a blank in place of the name of a steamer on certain sailing dates. It is supposed that a new vessel will be used to replace the Aorangi.

Another steamer has been chartered to carry rails from Baltimore to Comox and Vancouver. Eastern advices received yesterday report the fixture of the Norwegian steamer Alden, 2,300 tons, to load steel rails at Baltimore for Guaymas, Mexico, and Vancouver. The fixture is for November loading. The coming of the Alden to the Sound will likely furnish another available steamer for the lumber trade either to the West Coast of Australia. The Norwegian steamer Hercules, which recently loaded four at this port for the Orient, made the voyage with rails to British Columbia from Sydney, C. B.

NEW SHIPYARDS FOR VICTORIA

Watson Brothers Shipbuilding Co. is New Firm at Laurel Point.

Another shipyard is to be established in Victoria. Alex. Watson, well known old time shipbuilder, and his four sons, Tom, George, James and Alex., propose to establish a new shipbuilding firm, the Watson Bros. Shipbuilding Company, at Laurel Point, near the outer wharf, where years carried on a boatbuilding business in previous years. Actual business has now been commenced and a specialty of storing motor boats for the winter will be made.

The shipyards at present at Laurel Point will gradually be improved and by next year the premises will present the aspect of a large shipyard. The new works will be constructed and placed in operation by next autumn, the plant being run practically by electricity. Motors will be secured for the working of the ways and for general purposes about the yards. The Watsons have had wide experience in shipbuilding, having built many of the river boats now in operation on the Northern rivers. Last year Alex. Watson built the Ontario, the Distributor, and the Grand Trunk railway camps along the Skeena river, and the steam freighter Grainer, which is being operated by the Butler Freighting Co.

STEAMER KENNEDY MUCH DAMAGED

Crank Shaft Broken and Several Cylinders Cracked as Result of Flaw.

(Times Leased Wire.)

Seattle, Wash., Nov. 15.—After a preliminary survey to ascertain the extent of damages sustained by the accident to the steamer Kennedy Saturday afternoon, H. B. Kennedy, president of the Port Orchard route, stated to-day that the repairs would cost about \$10,000. It was found that besides the intermediate crankshaft having been broken several cylinders were cracked. The Kennedy is tied up at the Moran dock. It was expected that she will go in drydock on Tuesday to ascertain if her bottom was injured.

The accident occurred about 1:30 o'clock in the afternoon while the Kennedy was en route to Seattle from Bremerton, and is said to have been due to a flaw in the steel of the crankshaft. The boat drifted until picked up by the steamer Toucaner. Although the Kennedy carried a large number of passengers, there was no excitement when it was discovered that the boat was helpless.

SHIPPING REPORT

(Times Leased Wire.)
Seattle—Arrived: Steamer Jefferson, from Southeastern Alaska; steamer Fallon, from Southwestern Alaska. Sailed: Steamer A. G. Lindsay, for Southwestern Alaska.
Aberdeen—Arrived: Steamer Fair Oaks, from San Francisco. Sailed: Steamer Westerner, for San Francisco; barkentine John Smith, for San Pedro. Hoquiam—Sailed: Steamer Stanley Dollar, for San Francisco.
Los Angeles—Arrived: Schooner Samar, from Everett; schooner Shaata, from Bellingham; schooner Chehalis, from Aberdeen.

The first name on the roll of freemen of the borough of Oldham, Lancashire, is to be that of a woman, Mrs. C. E. Lees, who is a member of the town council.

EDWARD ALLEN BADLY INJURED

(Continued from page 1.)

with a red collar and a red hat. When shot he covered his face with his hands and felt the blood streaming from his face. He called for help and afterwards fired several charges from his gun to attract attention, but lay for a couple of hours with his sight all but gone before help arrived. Accompanying him at the time was a white dog.

On the way down Allen told the chief of police, who was on the train, that five minutes before he was shot he was talking to two young men, who had with them an Irish setter dog. He also saw two other hunters in the woods, but in his plight just could not recall them sufficiently to give a clear description of them.

Allen thinks he was mistaken for a deer in the clearing by some inexperienced hunter, who fired without taking precaution to see what he was firing at. The provincial police this morning have the names of several men who left the train at the Summit, and also at Seventeen-mile yesterday morning. All these will be questioned as to their movements of the day. The police want all who were in the vicinity to recall the names of others whom they saw and send them in, so that every person can be called on for an account of his actions. By this means they hope to get in contact with the man who committed the deed.

MOVEMENTS OF VESSELS

(By Dominion Wireless.)
Tatoosh, Nov. 15, 8 a. m.—Clear; wind S. E., 15 miles; bar, 30.31; temp., 38; sea smooth; passed out, schooner towing at 6:05 a. m.

ELECTRIC DRUGS.

Forcing drugs into the system along the path of an electric current is a novel form of treatment for skin diseases, which is now being extensively used at St. Bartholomew's hospital, London. First introduced by Professor Leduc, of Paris, in 1905, it has only recently emerged from its experimental stages. The treatment consists of passing an electric current through the diseased part, one of the electrodes being covered with a pad soaked in a solution containing a drug or chemical. The electricity breaks up the solution into "ions," which penetrate the tissue cells along with the current. The disease for which ionic medication

Canadian Pacific Ry. Winter Train Service

Effective Sunday, Oct. 31st, 1909.
TRAIN NO. 2 leaves Vancouver daily at 7:50 a. m., carrying through Standard and Tourist sleepers to Eastern destinations. Also through Tourist Cars, Vancouver to Toronto daily.
TRAIN NO. 96 leaves Vancouver daily at 15:15 (3:15 p. m.), carrying through Standard and Tourist Cars, Vancouver to Montreal and Eastern destinations.
Both Trains equipped with ELECTRIC-LIGHTED compartment-observation cars.

Victoria--Vancouver--Seattle

SERVICE NOW IN EFFECT.
VANCOUVER ROUTE.—Steamer leaves Victoria daily at 1 a. m., arriving Vancouver daily at 7 a. m. Returning leaves Vancouver daily at 1:30 p. m., arriving Victoria at 6:30 p. m.
SEATTLE ROUTE.—Steamer leaves Victoria daily, except Monday at 11:30 p. m., arriving Seattle daily, except Tuesday, at 7 a. m., returning leaves Seattle daily, except Tuesday, at 9:00 p. m.
The above service will be operated by the Three-funnel Liners Princess Victoria and Princess Charlotte. For tickets and reservations:
L. D. CHETHAM, City Passenger Agent.
All Berths not paid for by 5:00 p. m. will be considered cancelled.

How to Avoid Sea Sickness

Take along a box of Mother's Sea and Train Sick Remedy. It has recently been thoroughly tested on English and Irish Channels and found absolutely reliable. Recommended editorially by such papers as London Daily Express, and the Press generally in Great Britain. Analyzed by Sir Charles A. Cameron, C. B. Guaranteed perfectly harmless and if not satisfactory money refunded. Write for booklet and press notices and testimonials from prominent people. For sale at first-class druggists, or send direct to Mother's Remedy Co., 247 Cleland Bldg., Detroit, Michigan.

PROVED MOST SUCCESSFUL SO FAR.

According to Dr. Lewis Jones, is rodent ulcer treated with zinc ions. Here a pad of lint soaked in a 1 per cent. solution of zinc sulphate is placed over the ulcer. A zinc electrode padded with lint, also soaked in the solution and connected with the positive pole of an ordinary continuous current battery, is then applied over the ulcer. The current is applied for ten or fifteen minutes at a time.
As the process is sometimes painful the part may be first cocainized by ionization—a 1 per cent. solution of cocaine hydrochloride being applied and the current passed for a few minutes. London Daily Mail.

TEACHING BOYS TO SHOOT.

LONDON. At the Marylebone Rifle Club, Earl Roberts presented the challenge shield and medals given by Viscount Portman for competition among the elementary schools on the Marylebone estate. The shield was won by Christchurch school (Cosway street).

Lord Roberts said he took a great interest in that club from the fact that he opened it when it was first started in 1905, in the swimming baths. Over a thousand men had been taught to shoot there. They had at present over 2000 clubs like that in the Miniature Rifle Club society, and if every one of them turned out a thousand good shots in the course of two or three years they would get a very large number of men able to use the rifle. A delightful feature of the club was the way the boys were taught to shoot. It kept the boys out of mischief, and gave them something to think of, and when they grew older and wished to join the Regular or Territorial Army, they had already acquired a skill in the use of the rifle, which would have been much more difficult to come by at a later age.

On visiting the battlefields of South Africa three or four years later after the war, he satisfied himself that many of the regrettable incidents, as they were called, were brought about by the men not being able to use their rifles with skill. The result was they had not sufficient confidence in themselves when spread out a distance from one another. It tried a man's nerve to be some distance from his neighbor lying behind a bush or a rock and to have a bullet whistle by him the moment he showed himself. It was because he was not satisfied that more skill was necessary, and was only to be obtained by practice, that he advocated the starting of miniature rifle clubs. He had seen men do very well at Bisley who had never shot before in the open, but had studied and practiced rifle shooting entirely at a miniature range. (Cheers.)

NAVAL SUPREMACY.

LONDON. Lord Brassey, speaking at Edinburgh under the auspices of the Young Scots Society, said that as for the protection of commerce so far as defence against invasion, our naval supremacy was vital. It had been held by the highest military authorities, including Lord Roberts, that invasion could not be attempted with less than 70,000 men, and that the attempt to capture London with such a force would be in the nature of a forlorn hope.

It was inconceivable that our navy should fail to intercept and to annihilate an armada of the magnitude required. (Cheers.) As to the prospect of reduction of naval armaments, he said it would seem that positive formal agreements with other nations were hardly possible, but they might come to some tacit understanding. They knew that all European powers stood face to face with deficits, and the statesmen of these countries knew well that none of those countries depended as we did on the navy for national existence. They all knew that we cherished no aggressive designs. (Cheers.) He, therefore, entertained some hope that the present conditions would not long endure, and when we saw the reductions made we would follow very gladly. (Cheers.) He had no fear of the future.

Lord Brassey in conclusion said he had refrained from the personal controversies of which they had heard too much. The two protagonists had each done splendid service to their country. He regretted these differences, but there would be neglect of duty if he failed to pay his tribute to Mr. McKenna, who certainly was the most trying circumstances had most ably done his work. (Cheers.)

Conservative Union. The conference of the National Union of Conservative association, to be held in Manchester this month, is likely to be the most successful in the history of the organization. It is pointed out that in the present position of public affairs unusual importance attaches both to the tone of the conference deliberations and to the speech which Mr. Balfour is to deliver at a Free Trade hall mass meeting on Wednesday, November 17th. The Conservative leader's pronouncement on the occasion is expected to serve not only as a manifesto to the electors on the eve of a general election, but as a declaration of the policy of the next British government. The delegates to the number of about 2,000, will come from constituencies in all parts of England, Ireland, Scotland and Wales. Arrangements are in progress to supplement the mass meeting in the Free Trade hall by Unionist demonstrations and meetings throughout the Lancashire constituencies generally.

Libraries for the Clergy. At the quarterly meeting of the association of the late Rev. Dr. Bray, the foundation of a new library at Seoul, in Korea, was confirmed, as was an augmentation of the provision for that at Hazaribagh, in Chota Nagpur. Augmentations were also voted for several libraries abroad, including Madras and Brisbane. It was determined to include Wales in the new system, which has hitherto applied to England only, by which groups of not fewer than 25 clergyman can obtain fresh books to the value of at least £12 every year. Under this system new libraries have been established within the last few months at Parnastep. There is already one of these libraries at Birmingham, and steps are being taken with the same object at more than 20 other centres.

South Africa

NATAL COMMERCE.

DURBAN. Speaking at a meeting of the Durban Chamber of Commerce, the chairman, James McBride, dealt with the trade of Natal. He said that in 1908 the imports during seven months totalled £5,115,453, and this year £5,369,930, or an increase of £254,477. In the seven months ended July 31st, 1909, the exports realized £4,534,329, compared with this year with £5,171,045, or an increase of £236,716. The chairman said he was confident they were now in for a period of steady prosperity, and the figures given as well as recent customs and railway statistics published in the other three colonies, entirely supported his view of the position. "I have," he continued, "been told by some of my friends that I am taking a too optimistic view of the situation, but I maintain the opinion I hold is fully justified by the trade returns already referred to. Whether I am right or wrong, however, I would like to say that I have no use for the pessimist, nor do I think he is of any value whatever to South Africa at the present time. I am quite sure we do not want him in Natal."

REPORT ON MINING.

PIETERMARITZBURG. Important recommendations are contained in the report of the mining commission appointed by the government. They recommend complete departmental reorganization and the appointment of a mining board to control administration. Increased facilities for prospecting are urged as necessary to encourage the fuller development of Natal's mineral resources. Hon. W. A. Deane, minister of agriculture, in moving the second reading of the expropriation bill, made an attack on capitalists, and particularly on land monopolists. The accumulation of land in the hands of one man he characterized as atrocious. The policy of the government, he said, was to find land for those desirous of settling.

The land taxes had not forced absentee landlords to sell their land despite the fact that offers had been made to purchase at a reasonable price. The minister declared that powers of expropriation were necessary in order to stimulate production as it should be stimulated. Dutch members stigmatize the bill as spoliation, and are bitterly opposing it.

DEATH OF JOURNALIST.

CAPETOWN. The death is announced of Mr. John Scoble, one of the best-known journalists in South Africa, who rendered excellent services to the Uitlander cause as editor of the Transvaal Advertiser. Sixty years ago Mr. Scoble was attached to the Standard in London, and his standing as a journalist in British South Africa has always been a high one.

John Scoble was born in London in 1849. His father was secretary of the Anti-Slavery Society, and afterwards M. P. for Elgin in the Canadian parliament. After occupying various positions in the journalistic world in London, Mr. Scoble went to Natal in 1873, where he was appointed gold commissioner and special landrover. He founded and edited several newspapers in various parts of South Africa. He married a sister of Mr. Ritz, at one time president of the Orange Free State.

India

BENGAL JUTE CROP.

CALCUTTA. The final forecast of the Bengal jute crop 1909 shows that the area under cultivation, according to the district returns received, amounts to 511,500 acres, compared with 512,800 acres shown in the preliminary forecast. The reduction is chiefly due to a decrease of figures by the district officer of Day's jute. The acreage for each of the five years from 1905 to 1909, is as follows: 1905, 568,300 acres; 1906, 780,400; 1907, 921,200; 1908, 548,700; and 1909, 511,500. The area under cultivation this year in the Cooh Behar State, which is not included in the Bengal figures, is estimated at 20,000 acres, against 22,000 acres last year. According to the district officer's estimate, the total output of the province, of Bengal, including Cooh Behar, comes to 78 per cent. of a normal yield, against 62 per cent. the estimate made by the department last year.

CONTROL OF FISHERIES.

CALCUTTA. It is understood in official circles that the Bengal scheme for the encouragement and control of the fisheries in the province, as well as the fishery survey of the bay, will, in all probability, be placed on a reorganized footing early in the official year. In the meantime the existing arrangements for carrying on the work are to be continued until the end of next March. Control of the government of his state has been assumed by the Maharaja of Patiala, and the council of regency has ceased to exist. No formal investiture, however, will take place until next spring, when it is understood that the viceroy will install the Maharaja upon the gadi. His Highness is eighteen years of age.

Australian Immigration. Captain Holden, of Calcutta, reports that the Australian immigration scheme for Anglo-Indians is progressing.

Australia

MAIL ROUTES.

PERTH. There is a movement on foot to secure the landing of the mails from the Eastern states at Albany instead of Fremantle as at present. The goldfield districts are strongly in favor of the proposed alteration. The prospects of the present season are excellent. Good rains have fallen, and pastoralists and framers are confident that the yields of wool and grain will establish new records. The area of land under cultivation is far in excess of that of any previous year, and immigrants are arriving by every steamer eager to go on the land.

Advertising the State. Recognising that publicity as to the resources of Western Australia is the best method of advertising the state can adopt, the government has issued invitations to the agricultural editors of the principal weekly newspapers in the eastern states and New Zealand, to visit Western Australia during the forthcoming agricultural show.

Immigration. Writing to the Press, Rev. R. L. Gwynne, secretary of the Kent Colonization association, urges the need for one policy and plan of immigration for Australia. "Really liberal terms," he says, "ought to be provided for married settlers in the backblocks. Bachelor life is a failure so far as Western Australia is concerned. It needs a good woman and the presence of children to make men able to stand the weariness and monotony of life in the hinterland. The establishment is necessary by voluntary means—and there are many patriots here—of a good training farm where the best colonizing youths in the world may be taught the condition of life and prepared for taking land after some years of labor. Government is not asked to do this work, for we need moral discipline and religious atmosphere of which Australia seems so much afraid—if the British parent is to be asked to send his sons hither."

DEFENCE BILL PASSED.

MELBOURNE. The Commonwealth defence bill has passed the House of Representatives practically in its original form. The only alterations are in the direction of improving the measure, and indicate the unanimous desire to help the prime minister to establish national defence on the broadest and surest grounds. One of the amendments prohibits the sale or use of intoxicating liquors in naval and military canteens at training camps. A wise provision which has been hailed with almost universal approval is the fixing of a penalty of £20 for the offence of selling cigarettes to any member of the senior or junior cadet corps.

The Australian Boy Scouts, trained under similar rules to those governing the organization founded by Lieut.-General Sir Robert Baden-Powell, are to be included in the defence scheme. The boy scout movement has spread throughout the Commonwealth with amazing rapidity, and it is quite conceivable that in a time of national emergency the lads so trained and properly organized might render priceless service to their country. In any case, the lessons of observation which are impressed on them will stand them in good stead all their lives, particularly in a country like Australia.

Financial Agreement Deadlock. A deadlock has arisen in connection with the financial agreement between the Commonwealth and the states. Under this agreement, it will be recalled, the federal treasurer is to return to the states from the customs revenue a sum equal to 2s. per head of their population. Several supporters of Mr. Deakin desired to limit the duration of this arrangement to twenty years, but the state premiers decline to vary the terms of the agreement.

Both the Senate and the House of Representatives have passed the bill in which the government takes power to seize the shore ends of the ocean cables touching Australia in time of war or other national emergency. Lord Kitchener's Visit. Hon. Alfred Deakin has received a cable from Field Marshal Lord Kitchener, who is at present in Kit. Darwin on December 21st. A warship is being dispatched to meet the distinguished visitor at the northern territory port.

Estimating satisfactorily, considerably more than a hundred applicants having been received from would-be settlers, a good proportion of whom are ex-army officers and retiring Indian civil servants, who contemplate a tour of inspection through the Commonwealth, as a preparation for future land acquisition. The first batch of immigrants have left Colombo for Australia.

New Salt Mines. Some new salt mines are reported to be working profitably in Afghanistan, and one effect they have had has been to reduce the imports of the Indian product into that country, as well as into Dir Swat and Bajaur, during the past year.

Red Flag Demonstrations. The great majority of the demonstrators belong to the class which has always been ready to range itself under the standards of disorder, whatever is the legend written upon them. Nor is the international organization of anarchism any new discovery, though it has never before been able to display its existence so widely and swiftly as during the last few days. (The Times.)

NAVAL DEFENCE OF THE EMPIRE

Australian Premier and Colonel Foster Speak at Recent Conference.

Melbourne, Nov. 15.—The Imperial Federation League gave a dinner in honor of Colonel Foster, on his return from the Imperial Defence Conference. Premier Deakin, who presided, said that the conference had made a bold advance towards imperial defence than any previous conference. Defence of the Empire was the fundamental question of the present time. Colonel Foster, in reply, said he hoped that New Zealand would shortly co-operate with the Commonwealth in forming a navy, which would be a line of defence on which they would have first to rely. He was glad to note that both political parties in the Commonwealth approved the naval proposals made at the conference. Sir John Forrest, in his speech, said it was unjust to place the Mother Land to bear the whole cost of the naval defence of the Empire.

BOY BANDIT ROBS TWO BANKS IN MONTH

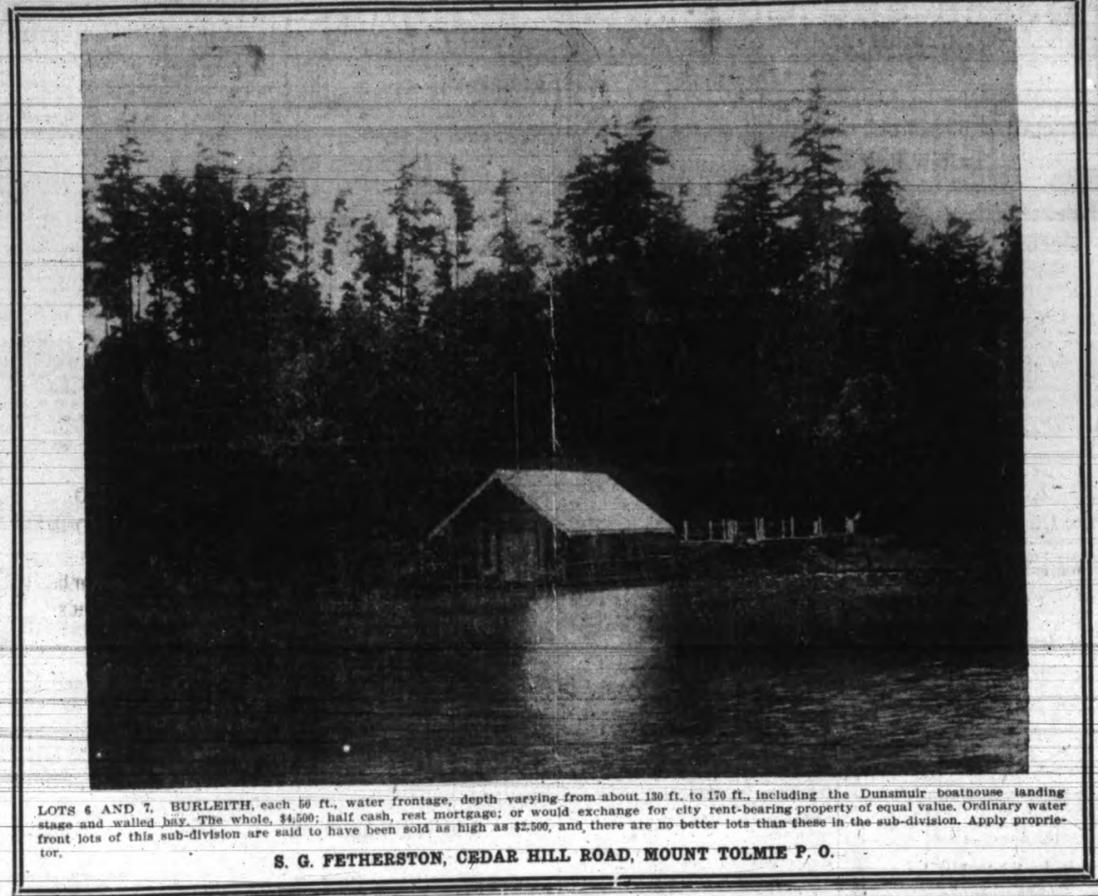

Shoots Cashier and Also Sends Bullet into His Own Head.

Eudora, Kansas, Nov. 15.—Earl Bullock, the 17-year-old bandit, who shot himself through the head following the daring daylight robbery of the Eudora State Bank on Friday, is still alive, but it is not believed he can possibly recover. Fred Starr, cashier of the Kaw Valley State Bank, who was in the Eudora State institution and was shot down by Bullock, is not seriously wounded. The affair was the second robbery of the bank within a month by the youthful desperado, on the first occasion a policeman being killed by a bullet from his revolver and another man shot.

Accompanied by William McKay, 15 years of age, of Jacksonville, Fla., Bullock walked into the bank, and although Starr offered no resistance, shot him through the jaw and snatching up a bundle of bills amounting to \$800, Bullock fled, followed by his partner. Harry Wilson, cashier of the robbed bank, spread the alarm, and a crowd of citizens, armed with shotguns, rifles and revolvers, pursued the boy bandits across the fields. In attempting to swim the Kaw river the boys lost ground, and a few minutes later the mob was at their heels. McKay surrendered, but Bullock, wrenching the revolver from his faltering partner's hands, sped into a patch of wood. The hands of the fleeing bandit and Bullock returned to the fire, but when it became apparent that he was about to be captured, the youth shot himself through the head.

In the meantime the crowd threatened to lynch McKay. Officers rushed him to Lawrence in an automobile and placed him in jail. Bullock's previous hold-up of the Eudora bank and the murder of Policeman Pringle took place on October 11th. While in charge of D. S. Wood, a deputy sheriff of Lawrence, who arrested the boy on a charge of robbing a second-hand store, Bullock drew two revolvers and forced Wood and Cashier Wilson into the bank vault. Snatching Wilson's \$500 and \$1,000 he fled. While attempting to arrest Bullock at his home at Lawrence.

I. C. Hall, who was elected president of the Oxford University Athletic Club, is the first Rhodes scholar on whom that distinction has been conferred.

LOTS 6 AND 7, BURLEITH, each 50 ft. water frontage, depth varying from about 130 ft. to 170 ft., including the Dunsmuir boat-house landing stage and walled bay. The whole, \$4,500; half cash, rest mortgage; or would exchange for city rent-bearing property of equal value. Ordinary water front lots of this sub-division are said to have been sold as high as \$2,500, and there are no better lots than these in the sub-division. Apply proprietor.

A Gold Watch Free

PLIMLEY'S GREAT BICYCLE SALE

Three shipments of our Popular English Bicycles have just arrived from England. They were delayed in reaching us, and rather than carry them over winter we have decided to sell them at a tremendous sacrifice. As we require both the room and the money, we announce the following extraordinary offer:

WITH EVERY HIGH GRADE BICYCLE PURCHASED we will GIVE AN ORDER ON MESSRS. CHALLONER & MITCHELL, the well known jewellers on Government street, for either a LADY'S OR GENTLEMAN'S GOLD WATCH.

There are no strings or other hidden conditions to this offer, you get the bicycle at the regular price, and a Gold Watch entirely free.

We guarantee every new bicycle sold, and Messrs. Challoner & Mitchell guarantee the watches.

There are about 16 different models of bicycles to select from, and a watch goes with every new wheel, free, while the sale lasts.

If you are thinking of purchasing a new bicycle next spring, you will save money by buying now.

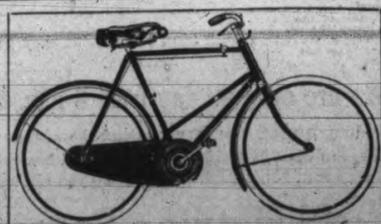

An order for a ladies' watch may go with a gentleman's wheel, or a gentleman's watch with a lady's wheel.

Call at our store and inspect both the watches and the bicycles. Everything is marked in plain figures.

Mail and out-of-town orders will receive the most careful attention.

Thos. Plimley

NEW YORK HORSE SHOW. New York, Nov. 15.—The National Horse Show, closed its twenty-fourth and most successful season at Madison Square Gardens Saturday night with a parade of the horses, and the final exhibits and awards in the championship classes for harness horses and hunters. Only horses already awarded first and second prizes were eligible, but these were obliged to appear under penalty of forfeiting their cash prizes and ribbons.

Judge Wm. H. Moore swelled his unprecedented total of winnings of 22 firsts Saturday afternoon, when his bay geldings, Robin Hood and Walstein took another blue in the class for pairs in harness over fifteen hands high. In the same class his Leonidas and Hildegarde was second.

A. G. Vanderbilt retrieved, in a measure his poor showing this season by winning in record time the Arrow-head cup for four-in-hand driven from a point on Riverside Drive, nine and a half miles distant from the gardens to the judges' stand. He covered the distance in 38 minutes, 10 minutes better than the time made one year ago by Morris K. Hewlett, who finished second this year, three minutes ahead of his own record. The award was based on the appearance of the teams at the finish, as well as the time.

MAY VISIT ENGLAND. Ottawa, Nov. 15.—A six weeks' trip to England next year is practically assured for the Governor-General's Foot-guards regiment and their band.

**SYNOPSIS OF CANADIAN NORTH-
 WEST LAND REGULATIONS.**

Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section (100 acres, more or less) of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.
 DUTIES—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 20 acres, wholly owned and occupied by him or by his father, mother, son, daughter, brother or sister.
 In certain districts a homesteader in good standing may preempt a quarter section alongside his homestead. Price \$100 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.
 A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$100 per acre. Purchased homesteads may be acquired on any available lands on either odd or even numbered sections south of Township 34, east of the Calgary and Edmonton Railway and the west line of Range 28, and west of the Third Meridian and the Sault Railway line. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.

**SYNOPSIS OF CANADIAN NORTH-
 WEST MINING REGULATIONS.**

COAL—Coal mining rights may be leased for twenty-one years at an annual rental of \$1.00 an acre. Not more than 3,000 acres can be leased to one applicant. Royalty, five cents per ton.
QUARTZ—A person within seven years of age and over having made a discovery may locate a claim 1,000 feet by 1,000 feet. Fee, \$50. At least \$500 must be expended on the claim each year, or paid to the Mining Recorder. When \$500 has been expended or paid and other requirements complied with the claim may be purchased at \$1.00 an acre.
PLACER MINING CLAIMS generally, 100 feet square. Entry fee, \$50.
DREDGING—Two leases of five miles each of a river, lake or other waterway, \$10 a mile per annum. Royalty, 2 1/2 per cent. after the output exceeds \$10,000.
 Deputy of the Minister of the Interior, H. R.—Unauthorized publication of this advertisement will not be paid for.
 Use the Times for Wants, For Sales, To Let—10 per word Daily or Semi-Weekly. Six insertions for price of four.
 PHONE 1000.

INDIANS ARE SENT TO JAIL
PUNISHMENT METED OUT TO RINGLEADERS

Trouble in North it is Believed Has Been Settled.

(Special to the Times.)
 Hazelton, Nov. 15.—On Saturday the Kispiox Indians, charged with inciting trouble among the tribesmen in the north, came up for trial at Hazelton.

George Robinson and Billy Williams, Indians, of Kispiox, charged with assault and intimidation this morning, were sentenced to two and three months at hard labor, each term to run concurrently. Charles Wesley, Indian storekeeper at Kispiox, was given three months, all without the option of a fine. Robert and Richard Morrison, brothers, charged with assault and intimidation, were given the option of a fine of seventy dollars each, twenty on the first charge and fifty on the second, or two months' imprisonment with hard labor. Phillip Williams, on a charge of intimidation, was fined twenty-five dollars or one month in jail. Johnny Morrison, owing to confusion in the evidence as to his identity, was discharged.

Chief Constable Maitland-Douglass, as crown prosecutor, showed that the Indians had been previously warned of the consequences if they attempted to interfere with the road work, etc. Other more serious charges against the prisoners were dropped.

The increased police force now en route to Hazelton and the result of the trial Saturday, it is generally believed, will put a check on any further demonstration on the part of the natives of the Skeena river, though a few of the worst agitators are working in other villages endeavoring to incite their fellow countrymen. These will be quickly gathered in and severely dealt with.

There isn't the remotest possibility of the Indians in Northern British Columbia going on the warpath this winter and trying to drive out the whites. The authorities have the matter well in hand. There are four provincial policemen at Hazelton and they can count on the co-operation of between two hundred and three hundred resolute white men living within a radius of fifteen miles of the town. There are probably one hundred whites at Hazelton, the others comprising railway graders on the contract of Mr. Duncan Ross, ex-M. P., about six miles distant, said Mr. Frank Dockrill, a well known mining man, in an interview in Vancouver, who has arrived from the Telkwa mining district and who on his way out spent several days at Hazelton.

"The recent flurry was caused by the idle vapourings of half a dozen Kispiox Indians who got drunk and revived an agitation among their fellow-tribesmen about demanding compensation from the government for the extinguishment of the Indian title to the country. These Indians made a threat that they would stop work on the Kispiox wagon road and fixed a date when the whites must abandon the country. Their bluff was called and they were promptly rounded up and taken into custody. They are now quite penitent. In my opinion an example should be made of the chief offenders as a warning to the other swishes. All in all these people are sensible and the last thing they would like to see would be the exit of the whites."

"The failure of the authorities to capture Gun-a-Noot, the Indian murderer, has had something to do with the unrest up there. Another factor

69 CHARMING DINNERWARE PATTERNS
On Exhibition in Our Windows To-day Prices Ranging From \$7 for a 97 Piece Service, up to \$230

EMPHASIZING the leadership of this store in the matter of dinnerware we present for your inspection in one of our Government Street windows samples from 69 different dinnerware patterns. Sixty-nine different patterns from which to choose—recognize the advantage of selecting from such a stock?

Conceded for years to have the choicest and most comprehensive assemblage of dinner services, this season's showing is the best yet. The variety of patterns is profuse and the range of prices wide enough to meet every possible purse restriction. Certainly you should see these before making a purchase elsewhere—Should see the superb ware and exquisite ornamentation.

From the lightly-priced sets in semi-porcelain to the rich creations in Wedgwood and Haveland china you have a choice of 69 patterns and about a score of prices. Glance at the window showing, then come inside. You are welcome. Services priced from \$230 to \$7

Special Attention Is Called to Our Limoges Sets \$25

In this we show four beautiful patterns—each one a dainty, delightful pattern that'll please you. It isn't necessary to dwell on the superior quality of Ahrenfeldt Limoges china—the fame of this wonderful French china is world-wide. We would greatly appreciate an opportunity to show you these and other offerings in this ware.

Rich, Inexpensive, Effective Portieres from this Material
AN EXCELLENT, LOW PRICED VELOUR, IN GREEN OR RED—50 in. WIDE—\$1.25 YARD.

PORTIERES made from this velour will give you a rich, effective and inexpensive hanging. Sel-dom indeed are you offered such charming material at such a fair price. We have this velour in greens or reds—nice shades—and are prepared to make curtains or portieres for you if you do not wish to do the work yourself. Fifty inches wide, at, per yard, \$1.25

Let us submit an estimate for some new hangings and draperies. We are prepared to do any special work in a prompt and efficient manner.

Colonial Style Furniture
For Bedroom Use—A Style You'll Like

THE COLONIAL style in furniture for the bedroom is gaining in popularity every day. The simple, strong lines appeal to many. We show many pieces in this style of furniture but wish to call particular attention to some moderately priced pieces in golden oak finish. We list three of these here. There are many other equally interesting values displayed on the third floor.

DRESSER in Colonial style. Golden oak finish. Has 2 large and 2 small drawers and a large bevel plate mirror of first quality. Priced at \$35

DRESSING TABLE, in golden oak finish. Colonial design. Has 1 large mirror and 1 drawer. Priced at \$16

DRESSER—A low style in Colonial design. Golden oak finish. Has 1 large and 2 small drawers and massive square-shaped, bevel plate mirror of first quality. Priced at \$35

No excuse for uninviting bedrooms when furniture and furnishings are priced so "easy" as you'll find them here. There's a piece and a price to suit YOU here.

TONG WAR IS STILL IN PROGRESS
 (Continued from page 1.)

That the Tong war is assuming alarming proportions was made evident when Yee Wing, a gunman, said to be in the employ of the Yees, attempted to kill Paul Schmidt, night sergeant of the Morse patrol, on the corner of Callfornia and Kearney streets, to-day.

With Eugene Moffitt also a Morse agency man, Schmidt was guarding Lee Sent, a Chinese interpreter employed by Grant Carpenter, an attorney for the On Yicks. Yee was approaching from behind when Schmidt asked him what he wanted. For answer the Highbinder drew a 35 caliber revolver and leveled it at the officer's head. Schmidt lunged forward and grappled with Yee. The two fought fiercely, and

Yee succeeded in breaking away before Moffitt could come to Schmidt's aid.

He fled toward Dupont street with the police close to his heels. The chase lasted two blocks when Officer George Grunwald caught the fugitive. Cornered the gunman turned on his captors and battled desperately until he was handcuffed. The Chinese was immediately taken to the central police station. The authorities assert that Yee intended to kill Lee Sent. Yee declares that he is a laundryman. His story is doubted.

Gee Gong, who killed Yee Yip Woo, was charged with murder to-day. He grasped Yee by the queue and shot him down in the presence of a large number of white tourists in Chinatown.
