RESCUE TRAVELERS NOW ON ARMY SHIP

SS. Honolulu's People Being Taken to San Francisco Effort to Tow Hulk to San Pedro

San Francisco, Oct. 13.—The task of transferring the passengers and crew of the steamship City of Honolulu from the rescue ship West Faralon to the United States army transport Thomas was completed at 7.45 a. m. today, according to a radio message received at army transport headquarters from the Thomas at 11.25 a. m.

All passengers and crew aboard at 7.45 and we are under way for San Francisco. Captain Hall, of the Thomas said in his message. The Thomas is due in San Francisco to-morrow, but it is expected she will be at least a day late.

Being Towed. Washington, Oct. 13.—The freighter West Faralon, which rescued the passengers and crew of the steamship City of Honolulu, left the United States Shipping Board today after transferring the passengers to the army transport Thomas and the crew of the burned vessel towards Los Angeles until met by tugs. The West Faralon gave her position as approximately 850 miles off Los Angeles.

Fine Weather. About United States Army Transport Thomas, Oct. 13.—(By Wireless to the Associated Press)—The passengers of the burned steamship City of Honolulu were embarking on the transport Thomas from the rescue ship West Faralon at 7 a. m. The weather is fine. More details later. The above was sent to the Associated Press by Captain Hall, of the transport Thomas.

RESOURCES BASIS OF OPTIMISM

Canadians Justified in Expecting Prosperity, Says C. P. Green Association of Advertisers Meets in Toronto

Toronto, Oct. 13.—That Canada's resources were such as to enable her to be in a better position after the war than any other country was the statement of C. Price Green, commissioner of the Canadian National Resources Board, in an address on the development of Canada at the annual meeting of the Association of Canadian Advertisers here last night.

SHOT FIRED AT GENERAL IN INDIA

Attempt on Sir A. Skeen's Life Failed Four Deaths When Pickets Were Attacked

London, Oct. 13.—(Canadian Press Cable)—Reuter's Simla correspondent cables that Major-General Sir Andrew Skeen, commander at Peshawar, when proceeding toward Dir, escorted by a local levy, was fired at by members of the anti-Nawab faction. Luckily the shot missed the general.

A couple of picket attacks were reported from Waziristan. They resulted in the loss of four Sepoys.

SIMILKAMEEN GOLD DISCOVERY

Prospector Says He Made Washington Strike River Point Is Six Miles From Oroville

Seattle, Oct. 13.—A placer gold strike on the Similkameen River in Okanogan County, near the site of a boom mining camp of the Fraser River gold rush of 1858, has just been made, according to word received at Oroville yesterday. The strike was made by Riley Coyne, a prospector, on Rich Bar, about six miles from the town of Oroville.

Coyne brought in several ounces of gold, including several nuggets, and states that he picked the gold out of the gravel with a jackknife. He has secured a lease and will begin developing it once.

The discovery was made, he says, because of the unusually low water in the Similkameen River this fall.

TURK-RUSSIAN TREATY

Angora, Oct. 13.—Soviet Russia will be given most favored-nation treatment in Eastern Anatolia under a commercial treaty soon to be concluded between the Turkish Nationalists and the Moscow Government, it is officially announced.

FEDERATION IS BROUGHT NEARER

Provincial Organization of Women's Institutes Approved Members Urged to Letter Campaign for Oriental Restriction

Provincial federation of the Women's Institutes of British Columbia will shortly become an established fact instead of a desired possibility, following the decision of the Vancouver Island conference to support the proposal, arrived at without a dissenting voice at the Vancouver Island conference. The other district conferences in the Province had already expressed their desire for federation in no uncertain fashion, and the necessary organization will be carried out with all possible speed.

District Board of Directors. Other business this morning included the re-election by a unanimous vote of Mrs. G. Hamilton, representative on the advisory board to the institutes. The election of the district board of directors was as follows: Mrs. Laurie, South Saanich; Mrs. W. D. Todd, Rosebery Avenue; Mrs. Deacon, North Saanich; Mrs. S. W. Raven, Royal Oak; Mrs. Matheson, Esquimalt. The board elected its officers as follows: President, Mrs. Laurie; vice-president, Mrs. Deacon; secretary-treasurer, Mrs. W. D. Todd.

Skutari Probable Scene of Near Eastern Peace Conference

Dispatches have indicated that the forthcoming conference at which peace will be re-established in the Near East will be held in Skutari, the town on the eastern shore of the Bosphorus, opposite Constantinople. Skutari is marked on the map above, which also shows the position of Chanak, on the Asiatic shore of the Dardanelles, where the main British forces are concentrated. A dispatch to-day reports that the Turkish Nationalist troops, following the signing of the armistice, are being withdrawn from the vicinity of Chanak.

DR. TOMALIN DIED SUDDENLY TO-DAY

Well-known Victoria Medical Man Collapsed at Home Dr. William J. C. Tomalin, one of Victoria's best-known medical practitioners, died suddenly this morning at 11 o'clock at his residence, 539 Linden Avenue. He had been in ill-health for some time, having a serious illness about four months ago, but seemed to be making satisfactory progress, and his death came as a great shock to his family and friends. He is survived by his widow and an adopted son, Harold A. ("Bibby") Tomalin.

FRENCH OPPOSE MORATORIUM PLAN FOR GERMANY

Paris, Oct. 13.—The French Government has instructed Louis Barthou, its representative of the Allied Reparations Commission, to oppose the latest proposition made by Sir John Bradbury of Great Britain, that an immediate moratorium for a period of five years be granted Germany on all public payments. It was semi-officially announced this afternoon.

SAYS REPORT OF LOSS OF SHIP FALSE

Lightkeeper at Cape North, N.S., Makes Statement Unknown Ship Was Said to Have Sunk Halifax, Oct. 13.—In contradiction of the reports of fishermen near Cape North that they saw a ship sink two miles off the cape on the afternoon of October 5, the lightkeeper at Cape North has wired the agent of the Federal Department of Marine and Fisheries here stating that no steamship passed on that date and that the steamship Nevada was the only vessel to pass outward between one and two o'clock. He stated that the wind was blowing a strong gale and the weather was clear.

PENSION RIGHTS OF G. T. R. MEN ARE RESTORED

Montreal, Oct. 13.—It has been announced that the pension and seniority rights of the Grand Trunk Railway employees, comprising conductors and trainmen and yardmen, who took part in the railroad strike of 1919 are to be restored. The news was communicated yesterday to the men by Joseph Salter, veteran agent of the Brotherhood of Railroad Trainmen, and Thomas Todd, chairman of the Grand Trunk, who is of the opinion that there had been a misunderstanding and that he therefore had ordered the restoration of the rights lost during the strike. About 1,200 men are affected.

MIDDLE PARK RACE IN ENGLAND WON BY DRAKE

London, Oct. 13.—(Canadian Press Cable)—The Middle Park Stakes, which is run over the six-furlong Breby Stakes course at Newmarket on the closing day of the Second October Meeting, was won to-day in easy fashion by Mrs. S. Whiters' Drake, a bay colt by Sir Eager out of Lady Burghley. Drake, an overwhelming favorite at 11 to 4 on, finished two lengths ahead of H. H. Aga Khan's Paola, a filly by The Tetrarch-Pamphlet, while third place went to Lady Scarborough's Fortuna, a Charles O'Malley-Lundy Lady colt, which finished five lengths behind the winner. Paola was quoted at 5 to 1 against, while Fortuna went to the post quoted at 20 to 1 against. The race has a value of approximately \$16,000.

REGISTRATIONS ARE COMING IN FASTER

The registration total at the City Hall jumped another 24 this morning, bringing it up to 173. Yesterday produced the largest number of additions to the city voters' list recorded this month, 64 being secured. The total for the first 12 days of October was 51, larger than that for the corresponding period last year.

TURKS RETIRING FROM CHANAK AREA

Nationalist Troops Are Being Withdrawn Allied Circles in Constantinople Praise Harington

Chanak, Oct. 13.—A general retirement of the Turkish troops from the immediate vicinity of Chanak is in progress. A Chanak dispatch Thursday announced an advance of the Turkish forces toward the British line, against which the British commander protested as a violation of the armistice agreement. The Turkish commander, replying, declared he had not yet received notification of the armistice, but would give orders for a retirement as soon as such notice came.

HARRINGTON IS GIVEN PRAISE

Constantinople, Oct. 13.—Allied circles to-day unite in giving Lieutenant-General Sir Charles Harington warmest praise for his skillful handling of the difficult armistice negotiations. He had received from the British Cabinet permission to employ the fullest military measures to bring the belligerents to terms but, despite strong pressure from his own officers and continued importunities from abroad, he refused to countenance a resort to arms and placed all his faith in an appeal to reason.

When the Mudania conference seemed headed for the rocks, General Harington addressed to Ismet Pasha, the Turkish Nationalist representative, a stern warning, declaring that the Turkish Nationalists were either to withdraw from the end of her patience. When he spoke he carried in his pocket two ultimatums, either of which meant war. One demanded immediate acceptance of the Allied terms for Thrace and the other demanded that the Turks withdraw at Chanak.

"I was prepared to use them as a last resort, and in the event of my having come," General Harington informed the Associated Press to-day.

SAID IT WAS THE LAST WORD

"I decided not to remove them from my pocket until I had tried persuasion once more. I told Ismet that I was prepared to use them, had made her last concession. He saw me fingering the ultimatums in my pocket and asked, 'Is it really your final word?' 'Somehow his bellicose air changed; he softened into an attitude of compromise and conciliation. Then the steamship Nevada was the only vessel to pass outward between one and two o'clock. He stated that the wind was blowing a strong gale and the weather was clear."

FOUR FACTORS IN THE SITUATION

Sydney, N.S., Oct. 13.—"I am convinced that another terrible and mystifying marine tragedy has taken place, although we may never know the name of the ship or whence she came." This is the expressed opinion of Joseph Salter, veteran agent of the Lloyds in Cape Breton, concerning the reported sinking of a large steamship last Thursday two miles off Cape North.

TO DISCUSS LIFTING OF CATTLE EMBARGO

Fielding and Lapointe Will Meet British Ministers To-morrow London, Oct. 13.—(Canadian Press Cable)—Hon. W. S. Fielding, Canadian Minister of Finance, and Hon. Ernest Lapointe, Canadian Minister of Marine and Fisheries, will meet Sir Arthur Griffith-Boscawen, British Minister of Agriculture, and Rt. Hon. Winston Churchill, Colonial Secretary, to-morrow in an initial conference on the legislation to be drafted providing for the lifting of the British embargo on Canadian cattle, thus giving effect to resolutions passed by the House of Commons and the House of Lords in July on the admission of Canadian cattle.

225,000 PENSIONERS NOW IN AUSTRALIA

London, Oct. 13 (Canadian Press Cable)—Figures published by the Australian Repatriation Department show the generous provisions made for ex-soldiers, says a Reuter dispatch from Sydney. The total expenditure in the interest of ex-soldiers to the end of June last was over £121,000,000, of which war pensions totalled £30,500,000, repatriations proper £15,250,000, war service homes £15,500,000, land settlement £43,600,000 and war gratuities £17,000,000. Australian pensioners number 225,000, of whom 76,000 are ex-soldiers and the remainder are relatives of ex-soldiers. There are 25,000 soldier settlers on the land.

DIABETES SERUM IS DECLARED TO BE A SUCCESS

Philadelphia, Oct. 13.—Unqualified success of a serum remedy for diabetes, prepared by physiologists of the University of Toronto, was announced last night by Dr. Alfred Stengel, Professor of Medicine at the University of Pennsylvania. A small quantity of the serum was sent to the University here a week ago for physicians to use in experimental cases. The disease has hitherto baffled doctors.

FOO-CHOW TAKEN BY GENERAL HSU'S CHINESE FORCES

Amoy, China, Oct. 13.—The city of Foo-chow, capital of Fukien province, has been captured by the invading forces of General Hsu Yu-chang, and Governor Li Hsi-chi is reported to have taken refuge in the Japanese Bank of Taiwan, according to telegrams received here. The capture of the capital is supposed to have taken place late yesterday afternoon.

FISHERIES REPORT BEFORE CABINET

Recommendations for B. C. Will Be Presented Reorganization of Federal Department Suggested Ottawa, Oct. 13.—(Canadian Press)—The report of the commission headed by William Duff, M. P., which investigated the British-Columbia fisheries, has been in the hands of the Acting Minister of Marine for some time, and will be laid before the Cabinet as soon as possible. This report, it is stated, recommends, among other things, a reorganization of the Fisheries Department.

The Cabinet will meet this afternoon for the first time this week. With the most important item of business the appointment of a board to control the Canadian National Railway, disposed of several other matters are scheduled for consideration this afternoon or in the near future.

Immigration. During the past week, representatives of Canadian transportation interests met with Stewart Macdonald, Minister of the Interior, and urged upon him the advisability of adopting certain measures for increasing Canada's immigration. The suggestions made will be laid before the Government by the minister, possibly this afternoon.

Another matter which will probably be decided to-day is the extension of Canada's participation in the British Empire Exhibition which is proposed to hold near London in 1924. Two members of the exhibition committee are touring Canada in support of the scheme and the Minister of Trade and Commerce and the Minister of the Interior have agreed to lay their plans before those two members of the Government. This morning they are conferring with Premier King on the same matter.

Canada's participation in the exhibition would probably necessitate an expenditure of \$100,000, with the exception of Newfoundland, and other portions of the Empire have agreed to participate.

URGES VOTE ON MOTOR CAMP PLAN

Ratepayers Should Decide About Use of Gorge Park, Mayor Says Victoria ratepayers would decide by a plebiscite vote at the December civic election whether they want part of the Gorge Park used as a motor camp for tourists, under a proposal which Mayor Macdonald will lay before the City Council.

The Mayor made this announcement this morning after he had conferred with city officials on the legal status of the Gorge land and had discovered that no legislation would be needed to allow its use as a motor camp. The Mayor, however, is emphatically opposed to the use of the Gorge land for this purpose but he is urging that the scheme, which is being pressed by the Chamber of Commerce, shall be laid before the ratepayers.

"My objection to the use of a part of the Gorge Park as a camp for visiting motorists is based on my opposition to the alienation of any park or school land," the Mayor explained to-day. "I am as much in favor of a camp for motorists as anyone but I do not think that the Gorge land, which has been declared a park, should be used for this purpose. I have suggested other alternative sites which seem more suitable to me and which do not form part of parks already in existence."

At a meeting of the Tourist Trade Interest Group of the Chamber and City Council members last night the Mayor said he admitted that the Gorge land could be used for a motor camp. The property, he believed, had been dedicated as a park and it would be necessary to secure legislation to allow its use for other purposes. To-day, however, the Mayor discovered that this assumption was wrong, and that the land had not been formally dedicated as a park. It had been declared a park only by a resolution of the City Council, he learned. For that reason, he argued, the Council can, by resolution, allow the use for other purposes. He feels, however, that the electors should decide the matter for themselves.

DIED OF BURNS

Peterboro, Ont., Oct. 13.—Mrs. D. E. Eason was a result of burns which she received while operating the furnace yesterday morning.

CHAMBERLAIN STANDS WITH HIS LEADER TO CONTINUE COALITION

Declares Support of Lloyd George In Speech In Birmingham; Says Britain Faces Great National Danger In Labor Party.

Birmingham, Eng., Oct. 13.—(Associated Press)—Rt. Hon. Austen Chamberlain, the Government leader in the House of Commons, in a sensational speech to the Midland Conservative Club here to-day, declared the Coalition Government must be continued, thereby indicating the line upon which Premier Lloyd George will make his fight for political life in the next general election and removing doubts as to whether Mr. Chamberlain, as Unionist Party leader, supported his chief.

Special significance attached to this speech, inasmuch as the Prime Minister himself was said to be awaiting the pronouncement to learn what support he had before writing the speech he is to deliver in Manchester to-morrow.

Mr. Chamberlain took his stand in favor of the Coalition on the grounds that the country faced a great national danger in the Labor Party. If Labor obtained a majority, he declared, "direct action" would triumph over the Government, which would not be allowed to stand, but would be forced to take instructions from the Labor caucus.

The Unionist Party leader asserted that the country must not hand over an experiment in national reconstruction to a subversive, if not revolutionary, party. A levy on capital would mean the ruin of industry, he said. He defended the Government's foreign policy, which had been heavily attacked by the political opponents of the Government. He declared the Government's policy had prevented the conflagration in Asia Minor from spreading to Europe.

speech at Birmingham to-day, which is awaited with intense interest. There was considerable speculation in political circles to-day when King George gave an audience to the Prime Minister, as to whether the latter raised the question of calling a general election. It was stated in Downing Street, however, that Mr. Lloyd George was merely reporting on the Near Eastern situation and would not touch upon domestic politics.

STEAMSHIP LINE ASKS INJUNCTION

Cunard Company Fights U. S. No Liquor Rule Failing Injunction, British Government Will Protest London, Oct. 13.—Unless an injunction is granted the Cunard Line, the British Government probably will protest formally through the Foreign Office against the rule prohibiting liquor on foreign ships in American waters, it was stated in official quarters to-day. Officials here, however, express the opinion that an injunction will be granted in the American courts. It is understood the Government takes the attitude of remaining in the background and allowing the private lines to take the lead, but that it will intervene in the event of the failure of these efforts.

URGES CANADIANS TO AVOID WASTE

Federal Commissioner Points to Great Fire Losses Ottawa, Oct. 13.—(Canadian Press)—"We are the most prodigal and wasteful nation on earth," declared J. Groves Smith, Dominion Fire Commissioner, in a speech before the Ottawa branch of the Engineering Institute of Canada here last night. "From childhood we learn to boast of our forest wealth, our mines and our vast natural resources," said Mr. Smith. "This tends to make us careless in our methods of tapping the source of our wealth and results too often in uneconomic development."

"The fire losses annually in Canada reach an appalling figure. In 1921, apart from forest fires, a direct loss of \$45,000,000 occurred in property alone. Indirect losses called for the payment by insurance companies of \$65,000,000. The Department of Public Works expended \$24,000,000 in dealing with fire. A total expenditure was incurred of \$130,000,000. The destruction of property thus caused an expense of \$525 per capita, a sum which is at least ten times greater than in any other country except the United States."

LOYALTY TO PREMIER SHAPES COURSE

The Morning Post, spokesman for the more extreme Tories, cites this view baldly in an editorial to-day. Mr. Chamberlain, it says, is putting loyalty to the Premier before loyalty to his party, and he can not continue his adherence to the Premier without resigning the leadership. The newspaper admits that the resignation of Mr. Chamberlain would seriously injure the Conservatives, but says the party finds it more and more difficult to confide in his political integrity.

FOOD IS GIVEN FIRE SUFFERERS IN NORTH ONTARIO

PLACING STEVENS IN PROPER INDEX, MANSON SAYS

Attorney-General Deprecates Resort to Untruths and Vulgarity. Government Operating Liquor Business for Morality, Not Profit. Bootleggers Pursued Relentlessly and Persistently Last Six Months.

Attorney-General Manson returned to the Stevens "charges" to-day, asserting that if men such as the Hon. H. H. Stevens, M. P., resort to such tactics he must not be surprised to be card-indexed and placed in his "proper category." "No one deprecates more than I, the necessity for harsh words in dealing with political opponents," said Mr. Manson when shown Mr. Stevens' comments in his reply to him at the meeting of the Victoria Liberal Association on Wednesday evening at the editorial of The World, of Vancouver, yesterday.

"But if men in public life will descend to a campaign of maligning and slandering of the most virulent type without a basis for it in fact and without inquiring as to the true facts, then those men who resort to tactics of that description must not be surprised if they are promptly indexed in their proper category." "One would have thought that there were sufficient problems in the public life of British Columbia to engage the earnest and quiet and sane attention of public men without resorting to the vulgar and untruthful tactics of the man who has no real argument to resort to abuse. Only a day or two ago we saw the spectacle of the organ of Senator Taylor, of New Westminster, of The British Columbian, describing the honored Premier of this Province as a 'railroad desperado' and the next day in its printed columns tendering him an apology and a congratulation on his conduct.

UNUSUAL STORY UNFOLDED IN COURT. A. F. Procter Is Prosecuted for Drunkenness in Charge of Car

Charged on remand in the city police court to-day with being intoxicated while in charge of a car Alexander Forbes Procter pleaded not guilty through his counsel, Henry K. Hall, K. C. Medical Opinion. Dr. C. Denton Holmes, on behalf of the prosecution testified that he had examined the accused at the police station about 6 p. m. on October 5. Procter had had some drink, in his opinion, and while not prepared to say the accused was drunk he advised the desk sergeant to see that Procter did not drive home. Witness would not say the accused was drunk, but took no action fearing that condition of the accused might change when once again in the air.

Police Testimony. Constable Ferguson told of seeing the accused on Store Street prior to 6 p. m. on the evening in question. Witness saw the accused after the latter had just driven his car into a hotel bus standing at the corner of the E. & N. Railway-Depot. The second car was a St. James Hotel bus. When asked why he had run into the other car the accused had replied something about being willing to pay any damage that had been done.

Ferguson said Procter was drunk. Arnold H. Cave, driver of the St. James Hotel bus, testified to having seen a collision at the E. & N. depot. The accused, appeared, to be unwell and both accused and his companion, at this stage the accused asked permission to leave the court room, and the trial halted. His counsel returned in a few minutes and stated that Mr. Procter was threatened with a complete nervous breakdown, and might not be able to continue. The hearing was adjourned while other cases were heard.

Upon resumption some time later, the witness Cave said on cross examination that the accused appeared to be staggering when he was put in the police patrol.

James Welsh, a driver of the Metropolitan Hotel bus, testified that Procter's actions were those of a man under the influence of an intoxicant. Further Police Testimony. Constable Forster testified that he had responded with the patrol wagon to a high accused and his companion, W. W. Baer, came in the wagon. The accused told him he had some drink, alleged witness, and expressed a willingness to pay any damage done. At the station Dr. Holmes was called and stated the accused was quite able to look after himself, but should not drive his car home. Mr. Baer then undertook to accompany the accused did not drive, stated witness.

Constable Harper told of seeing the accused at 2.30 o'clock that afternoon on Blanshard Street. Accused stated the driver of the car was going to get a professional driver to drive him home, alleged witness. Constable Cremer stated the accused had appeared at the station, and had accompanied himself well. Witness would not say he was unable to drive a car. Mr. Hall submitted there was no evidence to show that the accused was intoxicated and that at least one constable had said he was not drunk. There was evidence to show that the man was fluent in his speech and received his discharge. Surviving him are a widow in this city and three sisters and two brothers in England. He was born in London, England, fifty years ago, and had been a resident of Victoria for the past eighteen years. Many of his comrades in the regiment attended the funeral.

The funeral of the late Edward Ditman, aged 34, took place this morning from the Sands Funeral Parlors, at 11 o'clock. Rev. A. Nixon officiated. Interment was made in the Ross Bay Cemetery. The funeral took place Tuesday morning from the Sands Funeral Parlors, at 11 o'clock. Rev. A. Nixon officiated. Interment was made in the Ross Bay Cemetery.

The Rev. A. B. Owen officiated at the funeral service of the late Mrs. Martha Muston at the H. C. Funeral Parlors yesterday afternoon by a number of friends. The remains were laid to rest in the Ross Bay Cemetery. The remains of the late Edward Murphy, who passed away yesterday, are now resting at the H. C. Funeral Parlors, where the funeral service will be held at 2.30 o'clock this afternoon at 2.30 o'clock. He had been a resident of this city for the past 15 years. He was well known by a large number of friends. He leaves one brother, George T. Murphy, of Edmonton, who arrived in this city yesterday afternoon to attend the funeral. The funeral of the late Lewis William (Billy) Bragg, who passed away in this city on October 2, has been arranged to take place from the B. C. Funeral Chapel at 2.30 p. m. to-day. Rev. F. H. East officiating. The deceased was born at Belleville, Ontario, sixty-four years ago, and came to Victoria, where he had resided for the past twenty years. He was well-known by a large number of friends. He leaves one brother, George T. Murphy, of Edmonton, who arrived in this city yesterday afternoon to attend the funeral. Interment will be made in the family plot at Ross Bay Cemetery.

The assets of the Prince Rupert Pulp & Paper Company were sold to-day by order of the court to the Prince Rupert Holding Company for \$200,000. The holding company was the only bidder at the sale. A cash deposit of \$50,000 was paid into court. The sale of the assets was ordered some time ago by order of Mr. Justice Morrison.

Mr. Hall objected at this point, stating the second accused to be the subject of a similar charge in the Saanich court. The court overruled the objection. The second accused, Baer said was caused when the car had collided with a cyclist, who proved to be a man named Bulinck. They picked the man up and drove off with him. Bulinck appeared to be a man who had been rather forcibly at the time. The man Bulinck seemed to change his mind when he was taken to the hospital. He then consulted a doctor, and finally to the police station. Witness admitted the party had left their way once during the ride, in Saanich. At the suggestion that they go to the police station the accused had objected. "That was completing the circle," remarked the court. "Yes, your honor," replied the witness. "It was an unhappy suggestion." Finally Bulinck had opened the door of the car and evaded them. A. F. Procter, the accused, took the stand in his own defence. He declared he had some drinks from a flask; not more than three with a friend earlier in the day; but was not

probably that if the British Columbia Government started to install a new accounting system throughout the Province many of Mr. Mouta's ideas, which are in effect in Edmonton, would be embodied in it also.

ORDERS PROBE OF EVERY PHASE OF EDMONTON SYSTEM

Final instructions will be handed to-day to city officials who will leave for Edmonton to-morrow to investigate the civic finance machinery there in preparation for the inauguration of a similar system here. These instructions, drawn up by Mayor Marchant, provide for a full and complete investigation of the whole Edmonton system and not merely of accountancy methods, as originally planned, the Mayor announced this morning. "I am instructing Assistant Comptroller Mulreund and E. W. Ismay, the City Auditor, not merely to go into the Edmonton system of accounting but also into the whole financial organization of the city. They are to investigate the collection of revenue and the expenditure of money also. In fact, these gentlemen will secure data on the whole financial organization of Edmonton. This plan, of course, is much broader than the original intention, which was merely to investigate Edmonton's accountancy methods." Agree to Trip. The Mayor denied rumors that he intended to cartel the investigation of the Edmonton financial system. "My only objection to the plan is that the municipalities of British Columbia, at their recent convention, unanimously urged the Provincial Government to establish a uniform system of accounting all over the Province and I thought, if the Government were to do this, it would be unwise for Victoria to go ahead alone and install a new system before the Government acted," the Mayor explained. However, when he consulted A. N. Mouta, British Columbia Comptroller General, he explained that he had installed the Edmonton financial system and it, therefore, embodied his views on the subject and he advised to investigate that system. I have no objection now to this investigation and in any case it is

## PROTECTION ASKED BY GREEK CHURCH

Near East Peace Conference Requested to Give Guarantees

Constantinople, Oct. 12.—The Greek Patriarch will move from Constantinople to Mount Athos unless effective guarantees for the safety of the Christian population are given by the forthcoming Near East peace conference. This announcement is contained in telegrams sent by a mixed council of the Greek hierarchy to the Foreign Ministers of the Allied Governments, demanding protection.

Meanwhile the authorities are proceeding with provisional plans to establish the seat of the spiritual head of the church on the slopes of the "Holy Mount," which is situated on the Chalcidion Peninsula, about thirty miles southwest of Salonica.

## VISUALIZING HEAT CROP OF CANADA

Many Steamships and Long Trains Would Be Required to Carry It

Montreal, Oct. 12.—A graphic impression of Canada's tremendous wheat crop is given by the statement that the largest trans-Atlantic cargo carrier of the Canadian Pacific is the S.S. Bowditch. The possible capacity of that steamship is 352,000 bushels of wheat. To carry Canada's 243,000,000 bushels of wheat it would take 274 steamships of the Bowditch capacity to convey the export portion of the wheat crop of the three prairie provinces.

No such armada ever put to sea in the world's history.

Statistics show that 243,000,000 bushels of wheat are equivalent to 20,580,000,000 pounds, or 10,290,000 tons, or 75,500,000 barrels of flour, which could be made into 1,284,250,000 loaves of bread, weighing twenty-four ounces each, enough bread to feed 25,239,728 people with one loaf per day for a whole year. These figures do not take into account the enormous crop of oats or the large crop of barley and rye, and Canadian wheat still immense sections of arable land that are untouched.

Trains—These 343,000,000 bushels of wheat would require 257,250 forty-ton freight cars loaded to capacity. If this string of 257,250 cars was placed in line together it would make a train 1,946 miles long, or one extending from Montreal to a point twenty-six miles west of Swift Current, Saskatchewan, to say nothing of the locomotives. Allowing thirty-five cars to a locomotive, it would require 7,350 to haul 257,250 cars, and 7,350 trains running at intervals of five minutes apart would take twenty-five and a half days to pass a given point. The addition of 3,350 locomotives (average length 81 feet 3/4 inches) to the 257,250 cars would make the total length of cars and locomotives combined 2,060 miles, or almost the distance from Montreal to Medicine Hat, Alberta.

One Letter Costs 450,000 RUBLES

Sending Correspondence From Russia to Canada Costly Exercise

Canadian People Are Informed of Postal Rates

Ottawa, Oct. 12.—Only millionaires can carry on an extensive correspondence from Russia to Canada. A letter mailed in Russia for Canada costs 450,000 rubles for the first ounce and 225,000 rubles for each additional ounce or fraction thereof, according to the October supplement of the Canadian Official Postal Guide. The Post Office Department has been advised of this rate by the International Bureau of the Universal Post Office Bureau, Berne, Switzerland.

One silver ten-cent piece, Canadian money, is worth 450,000 rubles of the Russian ruble which flow from the Soviet printing plants.

Mailing a postcard in Russia is a serious business transaction, involving the purchase of stamps to the value of 20,000 rubles. The Polish rate on letters to Canada, while high in Polish money, cannot compare with the Russian rate. It only costs 100 marks for the first ounce and 50 marks for each additional ounce or fraction thereof, while a trifle of 60 marks will pay charges on a postcard from Poland to Canada.

Polish marks work out in Canadian money at about 100 for 10 cents.

## QUEBEC TO HAVE AN ELECTION

Hon. J. L. Perron Speaks, But Does Not Announce Date

Montreal, Oct. 12.—Hon. J. L. Perron, Minister of Roads in the Provincial Government, speaking at the Perron Liberal Club here last night, foreshadowed the coming electoral struggle in the province.

"I will not say that the present Legislature will last more than four or five years," he said. "I will say that I have seldom seen a Legislature last longer than four or five years. Judging from the past, I can say that we are probably approaching the end of the end of 1922."

He added that while he had never pretended to be a prophet, yet it was certain that the course of provincial politics during the next eight or nine months would be filled with important events.

## You Can Get Back Your Grip on Health

A statement that will be of much concern to thousands of people in Alberta was made recently, by William Williamson, a Veteran of the World War, residing at 215 Tenth St., Northeast, Calgary.

"I believe in giving everything its due," he continued, "and I want to say right now that I just can't praise Tanlac too highly for what it has done in my case. For some time I had been in a badly run-down condition. I had absolutely no appetite and had fallen off seventeen pounds in weight. My nerves were all undone. I could not get sufficient rest at night and got up mornings feeling as tired as when I went to bed. I was also bothered a great deal with rheumatism in my legs and ankles, which would often get so stiff and sore I could not walk without great pain.

"So much was being said in the papers about Tanlac that I went to a druggist friend for advice. He assured me that Tanlac was good, so I began using it and soon found myself wonderfully improved. After taking a few bottles my troubles all disappeared and I found I had regained fifteen pounds of my lost weight. I am now enjoying splendid health and do not hesitate to recommend Tanlac to anyone."

"Tanlac is sold by all good druggists."

## THREE CHILDREN LOST THEIR LIVES

Peterboro, Ont., Oct. 12.—No further deaths have been reported in the snake berry poisoning case. Two children belonging to the family of Mrs. George Goodwin and a nephew lost their lives and a fourth member of the family is seriously ill with a sore throat. So far an investigation of the strange case has not been ordered by the authorities.

Mrs. Goodwin is inclined to the view that the deaths were due to the children eating a combination of green acorns and damson plums.

## RAIDERS TORE UP RAILWAY TRACKS AT POINT IN IRELAND

Belfast, Oct. 12.—Armed men who were thought to be protesting against the recent announcement of the Irish hierarchy against the anti-treaty rebellion, invaded Mayo north village, Kildare, Wednesday night and tore up the railway tracks for some distance. They blocked a Galway-bound mail train and blew up the railway bridge.

## TO STAND TRIAL

Saskatoon, Oct. 12.—L. T. Rand, formerly manager of the Bank of Commerce branch at Huna, Sask., was yesterday committed for trial on three charges of forgery at Melville. It is alleged that these forgeries were committed at Huna during 1920 and 1921 and that the moneys procured from the bank in this manner were diverted to his own use.

OPPOSE PLAN OF CHURCH UNION

Over 700 Presbyterians Attend Meeting in Toronto

Declare Presbyterian Church Will Continue

Toronto, Oct. 12.—Evidence of the strength of that section of the Presbyterian Church opposed to organic union with the Methodists and Congregationalists was displayed here last night at the first meeting of a Presbyterian convocation, with well over 700 people present, all of whom appeared to be in sympathy with the aims and promoters of the gathering.

A resolution had been prepared for submission to the convocation today, which, in effect, after pointing out that Presbyterians believed strongly in a spirit of unity, that they had a feeling of utmost cordial-

ity toward their church brethren and of their willingness for all feasible co-operation with them in the interests of the Kingdom of God, stated they held the firm conviction that the time had not arrived yet for the discontinuance of the Presbyterian Church in Canada. Further, it was declared that church union would bring disruption in its train as an inevitable consequence, and that in any case the Presbyterian Church would continue.

The gathering was presided over by C. S. McDonald, while the other speakers included Thomas McMillan, Toronto; Rev. R. G. Macbeth, D.D., Vancouver; J. H. Sinclair, ex-M.P., Picton, N.S.; Surgeon-General J. T. Fotheringham, Toronto, and Rev. S. B. Nelson, D.D., of Hamilton, Ont.

## BETTING ON RACES DECLARED MENACE

Pronouncement by Methodist General Conference

Toronto, Oct. 12.—The most recent indictment by the Methodist Church against race track gambling, his straight from the shoulder. Yesterday the Methodist General Conference unanimously placed itself on record as follows:

"We deplore the fact that the law against the business of gambling makes two very serious exceptions.

"First, in the case of race track gambling we believe that the excuse given for race track betting, namely, the improvement of pure bred horses, is utterly farcical, and that the business of race track gambling has already developed to such a degree as to be both an economic and a moral menace to Canada, and we can find no justifiable reason for making an exception in the case of the business of race track gambling.

Raffles.

"Second, in the case of the exceptions which allow raffles, etc., when conducted by churches or charitable organizations for philanthropic purposes under specified conditions, we place on record the emphatic statement of this General Conference, that

## FLOUR MILLING COMPANY SHOWS REVENUE GROWTH

Montreal, Oct. 12.—An increase of about thirty per cent. in net revenue over the previous year is shown in the annual statement to August 31 last of the Ogilvie Flour Mills Company, Ltd., presented to shareholders at the annual meeting here yesterday. Net profits for the year were \$846,989, against \$626,303 in 1921. After deducting the preferred dividend there was left applicable to common stock \$708,985, as against \$496,430 in 1921, equivalent to 28.24 per cent on the common as against 19.85 in 1921. Working capital was \$8,182,784, against \$7,871,825.

W. A. Black, vice-president and managing director, pointed out that a large part of the profits came from operations of the company not directly connected with milling, which of late, he said, had not been paying as the result of excessive competition and unfavorable transportation conditions.

TO BE BROUGHT BACK.

Montreal, Oct. 12.—Jules Gosselin, a member of the defunct brokerage firm of Fairbanks-Gosselin, has been located in Paris and a demand made by a number of his creditors that he be extradited to Canada, being wanted in Montreal in connection with the alleged theft of \$500,000 from creditors. He will be brought to this city at the earliest possible moment.

NEXT YEAR'S CARNIVAL.

Whatever name shall be selected for the celebrations that are to take place before and on and after Victoria Day next year the most gratifying development for the time being is the fact that the committee in charge of the arrangements is doing good work well in advance.

Any time within the next couple of months will suffice for the selection of a name. In the meantime something in the nature of a contest might be arranged and suggestions received from other parts of the Province or anywhere where Victoria is sufficiently known.

THE POLITICAL "TWINs."

Everybody knows that Mr. Stevens has about as much use for Mr. Bowser as the Turk has for the Greek. Everybody knows that when Mr. Bowser was a member of the Government in this Province the Federal Member for Burrard amused himself by blocking such measures favored by his bete noir as required Dominion co-operation.

In the face of such an overwhelming defeat at the hands of Mr. Bowser, the member for Burrard realized that the blow which his prestige at Ottawa; to say nothing of the Party fortunes in this Province, would suffer in consequence could only be softened by an outward demonstration of support to Mr. Bowser.

AN INGLORIOUS END.

There is a pathetic note in a dispatch from London which announces the death of the Tariff Reform League through lack of funds. In the year 1903 the late Right Hon. Joseph Chamberlain left the Government to take the platform and get the League going.

effectively laid the hopes of the tariff reformers to rest. It is interesting to observe how easy it has been to satisfy the consciences of those who would have increased the prosperity of Britain by "protecting" her industries and increasing the cost of food.

PENURIOUS GERMANY.

Sir Eric Geddes has put Germany's position in a nutshell. He has just made a personal inspection of the country and has investigated her economic condition on the spot.

On the other hand Germany can pay her reparations with goods; but if that course shall be adopted there will be less need for the manufacture of similar articles in the creditor countries. That would simply mean unemployment and would really constitute payment for goods that Germany could not invoice.

URGENTLY NEEDED.

While the officials at the City Hall are devising ways and means to bring the finances of the municipality back into a healthy state it is difficult to plead the cause of what may appear on the surface to be unimportant needs with any degree of success.

WOMEN AND LEGISLATION.

How this Province has progressed in the enactment of modern social legislation as compared with other Provinces and the neighboring States to the South found reflection in a discussion at yesterday morning's session of the conference of Vancouver Island Women's Institutes.

Women's Institutes in this Province should be able to provide the Government of the day with useful information in respect of feminine opinion upon matters directly dealing with the gentler sex.

CONFERENCE VOTED AGAINST SMOKING

Declaration by Methodist Assembly Affects Ministers

Toronto, Oct. 12.—No more shall the ministers of the Methodist Church in Canada indulge in the habit of smoking.

This was decided last night by the delegates to the General Methodist Conference when they approved a memorial presented by Rev. W. E. Willison, of London, Ont., to reinsert in the Book of Discipline examination form the words "and you will continue to abstain therefrom."

Some years ago the Committee on the Course of Study dropped the question from the discipline, but since that time there has been an outcry in many sections of the church against the habit of smoking by some ministers of the church.

To the Editor.—Your correspondent from Ward Seven, Saanich, in his issue of your paper must be a very superficial observer, as he would not make the statements he attributes to me. In my interview with your representative I confined myself to the work of the Kamloops Convention and expressed no opinion personally.

Such a condition of affairs must come to an end. Your correspondent insists on parents who bring children into the world being responsible for their education, a principle which I do not agree with. I might as well hold that the State should be responsible for the education of its children.

CONFERENCE VOTED AGAINST SMOKING

Declaration by Methodist Assembly Affects Ministers

Toronto, Oct. 12.—No more shall the ministers of the Methodist Church in Canada indulge in the habit of smoking.

This was decided last night by the delegates to the General Methodist Conference when they approved a memorial presented by Rev. W. E. Willison, of London, Ont., to reinsert in the Book of Discipline examination form the words "and you will continue to abstain therefrom."

Some years ago the Committee on the Course of Study dropped the question from the discipline, but since that time there has been an outcry in many sections of the church against the habit of smoking by some ministers of the church.

Letters addressed to the Editor and intended for publication must be short and readable. The longer an article the shorter the chance of insertion. All communications must be addressed to the Editor, but not for publication unless the writer so desires.

THE REEVE'S ATTITUDE.

To the Editor.—Your correspondent from Ward Seven, Saanich, in his issue of your paper must be a very superficial observer, as he would not make the statements he attributes to me. In my interview with your representative I confined myself to the work of the Kamloops Convention and expressed no opinion personally.

Such a condition of affairs must come to an end. Your correspondent insists on parents who bring children into the world being responsible for their education, a principle which I do not agree with. I might as well hold that the State should be responsible for the education of its children.

Y.M.C.A. MEMBERSHIP DRIVE SUCCESSFUL

As a result of the efforts of four divisions of the Y.M.C.A., fifty-one new and old members have been secured by the organization and signed on. At a supper held in the association building last night comparisons were made and a "round up" put forth to make the "round up" a successful one.

MAN IN JAIL

SHAMMED DEATH

Got Up When He Was Given a Few Sharp Cuffs

St. Hyacinthe, Que., Oct. 13.—Joseph Robert, a prisoner in the jail here, shammed death yesterday in an endeavor to escape. The doctor of the prison being summoned, he was recalled to life by a few sharp cuffs. It was then found that he had removed some bricks from the wall of the cell, but finding that the hole thus made only led to the jailer's room, he abandoned the attempt and pretended to be dead.

An Odd Case.

### MANY DISEASES DUE TO INCORRECT DIET SAYS DOCTOR

#### Women's Institutes Hear Dr. Parrett on Simple Health Measures

Delegates to the Women's Institute conference were the guests of the Victoria centre at a luncheon at the Hudson's Bay store yesterday when Mrs. Crocker ably officiated as chairman. After the toast to "King and Country" was honored, toasts to the Department of Agriculture were proposed by Mrs. Crocker and responded to by Mrs. V. S. MacLachlan; to the Guests by Mrs. W. D. Todd, Mrs. Brown, of Sayward, responding; to the hostesses by Mrs. F. C. Ruppington, of Vimy, Mrs. Crocker responding, and to the Institutes of B. C. by Mrs. H. P. Hodges, Mrs. Henderson replying. Mrs. Willis Wright gave solos which were much enjoyed.

The afternoon business session of the conference was largely occupied with a helpful talk on dietetics and a demonstration of the simple principles of home nursing, by Dr. Parrett, of Resthaven Sanitarium.

Declaring that many of the ills to which the modern man is heir are directly due to incorrect diet, Dr. Parrett stated that the English speaking people ate too much meat and too little green vegetables and fruit.

This led the speaker to refer to the relation of diet to cancer. Cancer had increased in English-speaking countries 500 per cent. during the last fifty years. And cancer, it was now generally recognized, was due to three things: hereditary tendencies, advancing age and meat eating.

**Hygienic Principles.** Some simple rules of hygiene were laid down. Ventilation, abundance of fresh air, was the best preventive of tuberculosis or of the colds which so often lead to it. Underclothing should be light and porous. Over-eating and too much weight should be avoided. Starchy foods should be shunned, and coarse vegetables and plenty of fruit taken. Spinach, lettuce, asparagus, green string beans, raw cabbage and raw carrots were all recommended. Lemon juice should be substituted for vinegar in salad. Vinegar was never intended to enter the human system. Green vegetables and milk were rich in vitamins. Tea and coffee should be avoided.

**Addressing Demonstration.** Dr. Parrett with the assistance of two nurses from the sanitarium, and his small son acting as the patient, demonstrated simple measures in hydrotherapy for the treatment of colds, influenza, its first stages, colds, sprains and blood poisoning by means of hot and cold packs, compresses and similar aids.

Mrs. Deacon, convener of the Committee on Agriculture, gave an interesting report showing the progress made by the Institutes along the lines of lectures, talks and the study of literature on agricultural pursuits. Practical methods included the introduction and support of flower and agricultural shows in the various centres.

Mrs. C. de V. Schofield in an able talk touched upon the question of an equal moral standard and the question of social hygiene in which the Women's Institutes could prove a great educational factor. She deplored the departure of the chaperon and emphasized the need of a substitute in order to protect the boys and girls of to-day.

### WHOLESALE RECREATION

"We must find wholesome recreations, for our children will have their dancing and their fun. But we must see that it is of the right kind," said this speaker, who felt that the undesirable public dance must be offset by "having as many dances as possible in the home." The home she considered the centre of learning, both for amusement and for the more serious character-forming things. The Women's Institutes were working along the right constructive lines, for they were working for better homes and better babies.

### MANY CONTRIBUTORS TO RECENT V.O.N. DRIVE

The local board of directors, Victorian Order of Nurses, wishes to thank those who helped during the "drive" week or on tag day. The students from the Normal School helped very much on tag day. A vote of thanks was passed to David Spencer, Ltd., for allowing the V.O.N. the use of table space. The following is the list of subscriptions and donations, the total for the drive and tag day being \$490.87.

Mrs. Arthur Crease, Mrs. J. C. Newbury, Mrs. H. G. Wilson, Mrs. J. H. Oldfield, Mrs. Gilmour, Mrs. Ross Rutherford, Mrs. W. H. Hargrave, Mrs. Bowser, Mrs. L. Dods, Mrs. J. Wollaston, Mrs. W. **PERHAPS** A very absent-minded man was dining out, "My daughter, you know," said the hostess, "married a struggling man. Life has been one long struggle for them, too, ever since."

"Perhaps he'll get away one day," answered the absent-minded man.

Edie, both of Victoria. The bride was attended by her sister, Miss Martha J. Edie. The bridegroom was accompanied by Mr. R. Harrison. Mr. and Mrs. Pike after the ceremony left by the evening boat for California, and on their return they will make their home in this city, of which Mr. Pike is a native, the bride being a native of Treherne, Manitoba.

A most enjoyable event was held at the Vogue Cabaret last night, under the auspices of the rugby and basketball teams of the V. I. A. A. in aid of the Billy Muir Fund. Several songs by Mrs. M. Kennedy and Mr. L. Smith enlivened the evening's entertainment, and were thoroughly appreciated by the audience, who demanded and obtained continual encores. The only thing that marred the event was the small attendance, which was apparently due to other attractions, the proceeds only realizing \$12.50. It is the intention of the V. I. A. A. however, to stage a similar event two weeks hence, when it is hoped a larger patronage will be forthcoming.

A very interesting wedding took place on Tuesday, October 10, at St. Anne's Church, French Creek, V. I. when Miss Winnifred Philpot, only daughter of the late Richard Lee Philpot, of Redford House, Redford, Warwickshire, and owner of the Island Hall, Parkville, V. I. was married to Dr. William J. Woodman, of Hongkong. The ceremony was conducted by the Rev. H. V. Hittcock, vicar of St. Mark's Church, Victoria, assisted by the Rev. C. H. Popham, vicar of St. Anne's. The whole settlement was at the Church Hall, and gave the happy couple an enthusiastic send off.

Mr. Walter E. Adams, Commodore of the Royal Victoria Yacht Club, and Mrs. Adams, were hosts last night at their home on Beach Drive, at a farewell party, complimentary to Mr. and Mrs. Butler, of Cadboro Bay, all of whom are leaving shortly for a few months' visit in England. As most enjoyable evening was spent with music, cards and dancing, while the guests, all of whom had taken part in the dinghy races during the Summer were: Mr. and Mrs. E. P. Ashe, Mr. and Mrs. Butler, Mr. and Mrs. Arthur Crease, Mr. Harry Crease, Mr. and Mrs. Downes, Mr. and Mrs. Hotham, Mr. and Mrs. Harry Barnes, Mr. and Mrs. Ben Temple, Mrs. E. ### OUTDOOR FASHIONS DEMONSTRATED

Smart Suits and Frocks Displayed by Angus Campbell Limited

Continuing their Fall fashion show at the Capitol Theatre last evening Angus Campbell & Co., Ltd., convincingly demonstrated the graceful charm of the new outdoor wear for the Fall and Winter season. As on the previous evening, little Gloria Wilson again introduced the scene and Mrs. Fred Heilly in a handsome gown of copper matelasse, the very latest "bilster" material, acted as hostess.

The Romance of Mother Earth

TO-DAY'S INSTALMENT—29

## The Strange Case of the Tasmanians

It is necessary now to discuss plainly what is meant by a phrase used often very carelessly, "The Races of Mankind."

It must be evident from what has already been explained in Chapter III, that man, so widely spread and subjected therefore to great differences of climate, consuming very different food in different regions, attacked by different enemies, must always have been undergoing considerable local modification and differentiation.

Man, like every other species of living thing, has constantly been tending to differentiate into several species, wherever a body of men has been cut off, in islands or oceans or by deserts or mountains, from the rest of humanity, it must have begun very soon to develop special characteristics, specially adapted to the local conditions.

**Two Contending Forces.**

But, on the other hand, man is usually a wandering and enterprising animal for whom there exist few insurmountable barriers. Men imitate men, fight and conquer them, interbreed, one people with another. Concurrently for thousands of years there have been two sets of forces at work, one tending to separate men into a multitude of local varieties, and another to remix and blend these varieties together before a separate series has been established.

These two sets of forces may have fluctuated in this relative effect in the past. Paleolithic man, for instance, may have been more of a wanderer, he may have drifted about over a much greater area than later Neolithic man; he was less fixed to any sort of home or lair, he was tied by fewer possessions. Being a hunter, he was obliged to follow the migrat-

ions of his ordinary quarry. A few bad seasons may have shifted him hundreds of miles. He may therefore have mixed very widely and developed few varieties over the greater part of the world.

The appearance of agriculture tended to tie those communities of mankind that took it up to the region in which it was most conveniently carried on, and so to favor differentiation.

Mixing or differentiation is not dependent on the highest or lowest stage of civilization; many savage tribes wander now for hundreds of miles; many English villagers in the eighteenth century, on the other hand, had never been more than eight or ten miles from their villages, neither they nor their fathers nor grandfathers before them.

Hunting people often have enormous range. The Labrador country, for instance, is inhabited by a few great herds of caribou as it wanders yearly north and then south again in pursuit of food. This mere handful of people covers a territory as large as France, and the caribou range very widely. Some Kalmuck tribes are said to travel nearly a thousand miles between Summer and Winter pastures.

It carries out this suggestion, that Paleolithic man ranged widely and was distributed thinly indeed but uniformly throughout the world, that the Paleolithic remains we find are everywhere astonishingly uniform.

**From the Seine to Somaliland.**

To quote Sir John Evans, "The implements in distant lands are so identical in form and character with the British specimens that they might have been manufactured by the same hands."

On the banks of the Nile, many hundreds of feet above its present level, implements of the European type have been discovered; while in Somaliland, in an ancient river valley at a great elevation above the sea, Sir H. W. Seton-Karr has collected a large number of implements formed of flint and quartzite, which judging from their form and character, might have been dug out of the drift-deposits of the Somme and the Seine, in the Thames or the ancient Solent."

Phases of spreading and intermixture have probably alternated with phases of settlement and specialization in the history of mankind. But up to a few hundred years ago it is probable that since the days of the Paleolithic Age, man, as a whole, has on the whole been differentiating. The species has differentiated in that period into a very great number of

varieties, many of which have re-blended with others, which have spread and undergone further differentiation or become extinct. Wherever there has been a strongly marked local difference of conditions and a check upon intermixture, there one is almost obliged to assume a variety of mankind must have appeared. Of such local varieties there must have been a great multitude.

In one remote corner of the world, Tasmania, a little cut-off population of people remained in the early Paleolithic stage until the discovery of that island by the Dutch in 1642. They are now, unhappily, extinct. The last Tasmanian died in 1877. They may have been cut off from the rest of mankind for 15,000 or 20,000 or 25,000 years.

## Dissolves Instantly

LUX wafers are made so very thin—our own exclusive process—that every particle dissolves instantly in hot water. LUX makes a quick, wonderful cleansing suds for all fine, dainty things—and leaves no trace of free soap in the fabric to spot, or discolor it.

LUX is as harmless for the cleansing of all fine things as pure water itself.

## How Zam-Buk Rid Me of ECZEMA

"I suffered with eczema for over a year," writes Mr. Z. D'Urso of 722, Papineau Avenue, Montreal. "Though I had treatment from three doctors, costing \$50 in all I continued to suffer intensely with the irritation and pain."

"I thought I should never get relief, until one day a friend told me about Zam-Buk and persuaded me to use it right away. I felt the benefit of the first application. Zam-Buk relieved the irritation and cooled and soothed my skin wonderfully. Gradually the sores began to heal and, with perseverance, Zam-Buk completely rid me of the disease."

"I wish all other sufferers could only realize the futility of experimenting with ordinary ointments in troubles like eczema. Zam-Buk used in the first instance would save lots of needless suffering and expense."

"Every home needs Zam-Buk for roosting-out skin troubles like boils, pimples, abscesses, poisoned wounds and ulcers. For cuts, burns, scalds, sprains, it is also indispensable. 50c. box, all dealers."

entertainment for needy children here.

Efforts were made at the luncheon to stage a radio programme, but it was impossible to hear the music and speeches that were provided at Seattle.

**LOHR-BARKER WEDDING.**

On Wednesday evening the Wilkeson Road Methodist Church was the scene of a pretty wedding of much interest to the people of the surrounding district, it being the bride of Miss Violet Christina, eldest daughter of Mr. and Mrs. William J. Barker, of the Old West Road, and Mr. Richard Eugene Lohr, of Prospect Lake.

The church, filled with expectant friends and relatives, was prettily decorated with chrysanthemums and smilax and when, promptly at eight o'clock the strains of Lohengrin's Wedding March played by Mrs. Cheaten, filled the edifice, the bride entered leaning on the arm of her father. She was gowned in white duchess satin, trimmed with silver lace, and wore a veil and wreath of orange blossoms, the bridegroom in a tuxedo, and the bridesmaid in her younger sister, Irene, who was dressed in mauve palette. The best man was Mr. Harold Lohr, brother of the groom.

In the absence of the Rev. F. Hardy, pastor of the church, who is at present attending the general conference in Toronto, the Rev. S. Cook, of Fairfield, officiated.

The music ceased, a hush fell over the waiting assembly and only the voice of the reverend gentleman was heard reading the marriage service: "For better, for worse, for richer, for poorer, in sickness and in health, etc."

When the bridal party turned to enter the vestry, the choir and congregation stood and sang, "The Voice That Breathed O'er Eden," but by the time the newly married pair passed out through the front door of the church, a crowd of their friends had lined up on either side of the entry armed with a plentiful supply of confetti, of which they made liberal use.

The reception was held at the home of Mr. and Mrs. James Barker, Wellington Road, who have lived in the Victoria district for thirty-seven years and who are the grand parents of the lovely young bride. Here in an alcove banked with flowers the newly married pair received the congratulations and best wishes of their host of friends with whom they are very popular.

A bevy of young people, beautiful girls and comely youths, mostly relatives of the bride, filled the flower-decked home, where a pleasant evening was spent. The more youthful of the party engaged in tripping the light fantastic.

It is needless to state that a fine array of wedding gifts—testified to the bride's popularity in a most substantial manner.

At midnight a buffet supper was served, among other delicacies being a bride's cake, containing a ring, the gift of Mrs. Harold Thompson, and a magnificent wedding cake trimmed by Mrs. B. C. Gale, after partaking of which a number of the young folk escorted the young couple to their new home at Prospect.

**NOT THAT STRONG**

Jimmy giggled when the teacher read the story of a man who swam five times before breakfast.

"You do not doubt that a trained swimmer could do you?"

"No, sir," replied Jimmy, "but I wonder why he did not make it four, and get back to the side where his clothes were."

## VANCOUVER SOCIETY COUPLE WERE WED

### Marriage Yesterday of Miss Eleanor Hutchins

Vancouver, Oct. 12.—St. Paul's Church was filled to capacity yesterday afternoon for the wedding of Miss Eleanor Hutchins, only daughter of Mrs. W. T. Hutchins, when she became the bride of Mr. Donald R. Charleson, son of Mr. and Mrs. B. E. Charleson. The ceremony was performed by Rev. Harold King, a large number of friends being present.

The bride, who entered the church with Gen. A. D. McRae, was given in marriage by her mother. Her wedding gown was a handsome model of white crepe Roma studded with rhinestones, the rhinestone girdle adding an effective touch. The bride's train was of tulle while the rest of the trousseau was caught to her hair with small knots of orange blossoms, and she carried a shower bouquet of lily of the valley and orchids.

She was attended by Mrs. Richard Baker as matron of honor, who wore a frock of mauve shot taffeta with silver hat and carried a bouquet of mauve chrysanthemums. The bridesmaid was Miss Dorothy Langford, wearing a gown of blue shot taffeta and silver hat, her flowers being mauve chrysanthemums. The groom was supported by Mr. Cyril Vibert.

Following the ceremony a reception was held at the home of the bride's mother on Barclay Street. Mrs. Hutchins wearing black and white crepe with black hat and ermine fur. Mrs. Charleson, mother of the bride, was gowned in black broadcated crepe de Chine, with a black velvet hat.

Later Mr. and Mrs. Charleson left for Vancouver Island, where they will spend some time motoring before going East, where they will reside.

**INVITATION DANCES OF C.P.R. CLUB ARE BECOMING POPULAR**

250 Attended Dance at Empress Hotel Last Night

The first of the invitation dances to be staged this season by the Canadian Pacific Social and Athletic Club, was held last night at the Empress Hotel, and the affair went off very successfully, with a large throng of merry dancers occupying the ballroom floor. Two hundred and fifty dancers stepped gaily to the latest dance music provided by Ozard's five-piece orchestra, and perfumes were frequent throughout the evening. The dancing was commenced at 8:30, and continued until 11:30 p. m. That the invitation dances of the club are becoming popular is indicated by the announcement of the committee that over 200 are on the invitation waiting list. In order that the members may enjoy the dances, the committee has decided to limit the invitations to about 250 people.

**HOSPITAL SPACE IS INCREASED**

Addition to Duncan Building Is Opened

Times Correspondence.

Duncan—The opening of the new addition to the King's Daughters' Hospital, Duncan, took place Wednesday afternoon and was very largely attended. Praise was heard on every side for the building, which consists of a large lecture hall, diet kitchen, bathroom, bedrooms, etc., on the main floor, and twelve cubicles upstairs for the nurses, with large bath, cubboards and necessary offices.

Louglas James was the architect and C. C. H. Dickie, M. P., and Kenneth Duncan, M. P., performed the opening ceremony. Mr. Dickie lauded the King's Daughters for the work they had done, first in building the hospital, and now this splendid addition which would fill such a long felt want. He expressed appreciation of the work done to the present, and took great pleasure in declaring the annex open.

A boon.

Mr. Duncan pointed out what a boon the hospital was to the district, and by this new addition the authorities in charge would have more accommodation in the main building and would be enabled to make use of the small cottage for P. B. patients. By the Act the hospital was forced to take care of tuberculosis patients up to the number of four, and they would be able to have proper accommodation for them. The nurses would be able to come to this new building for rest and relaxation, which they greatly needed, as nursing had been very hard work and often depressing.

Mr. Duncan mentioned that the new building had necessitated a great deal of effort on the part of the directors in the matter of raising the necessary money, and they would probably have to go to the public for more financial assistance.

Mr. Randall, Registrar, Graduate Nurses of British Columbia, then made an appropriate speech on behalf of the nurses, pointing out the responsibility they undertook from the time they became probationers, and what a noble profession nursing was.

Thanks.

Mr. Dickie then expressed a hearty vote of thanks to the directors of the hospital, and the chairman of the Board of Directors, thanked him in a few appropriate words and proposed a vote of thanks to Mr. Dickie and Mr. Duncan.

Songs by Mrs. Swan, Miss Savage and Mr. Snow were much appreciated and a delicious tea was served by the hospital directors and a few friends.

Among the out-of-town visitors were: Mrs. L. H. Hardie, Mrs. H. A. S. Morley, Mrs. Billingham, Mrs. Errington, Mrs. Macleod, Mrs. Anderson, Mrs. J. B. Carter, Mrs. F. Moore, Mrs. M. R. Jamieson, Mrs. J. Roberts, Mrs. Robson and Mrs. Lewis, Vancouver; Rev. E. M. Cook, Chemung, Miss Steine and Miss Davidson, Cobble Hill, and Mrs. Johns, Cowichan.

**Lines Shower.**

A linen shower was held in connection with the opening of the annex for the Hospital, and many beautiful and useful articles were received.

### NEWS IN BRIEF

**Dancing Season Opens.**—Announcement is made of the opening of the Menzies Dancing Studio for the Fall and Winter season. New studios have been obtained in anticipation of a strenuous season.

**Mail Arrived.**—An Oriental mail consisting of one bag of letters and three bags of parcel post arrived here to-day on the Blue Funnel liner Talithybus which has just completed a twelve and a half day trip from the Orient.

**Organ Opening.**—The organ now being installed in the Emmanuel Baptist Church will be ready for the opening on Wednesday, October 18. Mr. Jesse Longfield will preside at the organ and the choir of the St. Andrew's Presbyterian Church has also kindly consented to assist their organist on that occasion.

**Unusual Ending.**—A long drawn out discussion of works department affairs by the Saanich Council last night ended in an unusual manner. Councillors Macnool and Brooks dominated the meeting in the midst of an involved debate of Gorge Road costs, and for lack of a quorum the Council rose without an adjournment.

**"Our Stock Motion."**—"This is now our stock motion," remarked Reeve last night, when proceedings of the Works Committee of the Saanich Council were marked with reiteration of "move" the writer be notified we have no funds for this work," as scores of appeals for road work came before the councillors.

**Collecting Penalties.**—The Saanich municipal treasury has already had several occasions to collect the fifteen per cent. penalty on overdue tax payments. According to Collector Sewell, the number of tax receipts issued before October 11, the penalty date, is this year within a score of last year. No figures are yet compiled, but percentage of collections is believed to equal 1921 statistics.

**Little Money Remaining.**—Of the \$25,000 set aside by the Saanich Council for road work this year, \$31,752 has been expended, a detailed statement before the Council last night showed that the wards One, Three and Five are the only districts where substantial sums yet remain of the appropriations made, in the remainder road work has practically ceased.

**Mount Newton Social Club.**—The first five hundred game of the season was held on Wednesday. The winners were Rev. Father Sheelin, Mr. Lovick, Mr. R. Hall, Mr. A. Hydes. Consolation prizes were awarded to Miss Jeanne, Mr. P. Verdier, Mr. H. L. Salmon and Mr. E. Bourgeois. A most pleasant evening was spent and very excellent refreshments were served by the ladies of the club.

**Misleading Signs.**—Asked by the Chamber of Commerce Tourist Group to eliminate obsolete road signs in Saanich, the Municipal Council last night professed inability to distinguish between useful and unnecessary signs, and will ask the group to indicate those desired removed, when the Council will consider granting permission to the Chamber of Commerce to do the work.

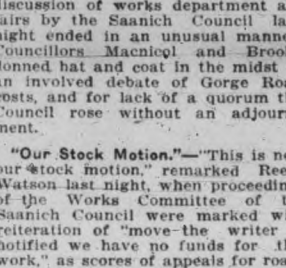

**Rendered Impromptu Concert.**—An excellent programme of vocal numbers was given at the regular meeting of the Cymrodorion Society, at the Forester's Hall, with W. P. Jeanne in the chair. After discussion of routine business the gathering indulged in an impromptu concert that was highly enjoyed by a fair attendance. A resolution of sympathy was voted in connection with the illness of A. Petch, ex-President of the Society.

**Welcome New Rector.**—A reception by the Rev. P. C. Chapman, the newly-appointed rector of St. Paul's Church, Esquimalt, and Mrs. Chapman, was held at the Sailors' Club, Esquimalt, last evening. Over 250 members of the parish sat down to the supper, which commenced the proceedings. An excellent concert followed. The rooms were tastefully decorated for the occasion by the Ladies' Guild. The Rev. Mr. Chapman and Messrs. White, Gillan, Craven and Holloway assisted Madames Hamlet, McDonald, and Miss Carie in the presentation and singing of hymns. The Venerable Archdeacon Sweet, the Rev. Bishop Black and R. H. Poole, M.P.P., were among those who attended the informal welcome to the new rector.

### W. C. T. U. Central.

The monthly business meeting of the Central W. C. T. U. was held at the Y. W. C. A. yesterday afternoon. The president, Mrs. W. Russell, occupied the chair. The corresponding secretary read a "call" to the B. C. Prohibition Convention to be held in Vancouver on October 25 and 26, and various nominations for delegates from the Union to the convention were made. Mrs. Lovatt, a member of long standing, was welcomed back by the members after a lengthy stay in California.

Thirty Pieces of Silver.—The Chamber of Commerce last night asked the Saanich Council to cooperate in conditioning Memorial Avenue, Shelburne Street, Council for Vancouver, and the scheme was going to prove costly, as sweepers must be employed to prevent auto skidding on wet-leaves in the Fall. The Council was surprised to understand that the Chamber has not as yet paid \$50, mutually agreed upon as its share of the cost of cutting mustard weed on Memorial Avenue this Summer. Councillor McWilliam became somewhat heated when he was informed several bills for mustard cutting have been ignored.

Militia Men Exempt.—Members of active militia units are exempt from the two-dollar road tax, and are therefore not required to pay this tax when registering as City voters. They are required to produce a declaration from the commanding officer, however.

### Events to Come

Margaret Jenkins Parent-Teacher Association will hold its annual meeting and election of officers at the school to-night at 8 o'clock.

A special executive meeting of the Great War Veterans' Association, at which all members of the executive are asked to be present, will be held at 5 o'clock to-day.

### W. C. T. U. Central.

The monthly business meeting of the Central W. C. T. U. was held at the Y. W. C. A. yesterday afternoon. The president, Mrs. W. Russell, occupied the chair. The corresponding secretary read a "call" to the B. C. Prohibition Convention to be held in Vancouver on October 25 and 26, and various nominations for delegates from the Union to the convention were made. Mrs. Lovatt, a member of long standing, was welcomed back by the members after a lengthy stay in California.

Thirty Pieces of Silver.—The Chamber of Commerce last night asked the Saanich Council to cooperate in conditioning Memorial Avenue, Shelburne Street, Council for Vancouver, and the scheme was going to prove costly, as sweepers must be employed to prevent auto skidding on wet-leaves in the Fall. The Council was surprised to understand that the Chamber has not as yet paid \$50, mutually agreed upon as its share of the cost of cutting mustard weed on Memorial Avenue this Summer. Councillor McWilliam became somewhat heated when he was informed several bills for mustard cutting have been ignored.

Militia Men Exempt.—Members of active militia units are exempt from the two-dollar road tax, and are therefore not required to pay this tax when registering as City voters. They are required to produce a declaration from the commanding officer, however.

### CANNOT SEND OUT QUESTIONNAIRES IN WATER BILLS

**Plan to Test Opinion on School Work Pronounced Impracticable**

The plan of Victoria businessmen who brought Dr. Adam Shortt here last Summer to send out school questionnaires to the parents of school children along with city water bills was pronounced impracticable at the City Waterworks Department to-day. The businessmen will be so advised immediately.

Distribution of these questionnaires would add considerably to the expense of water bill distribution, it was explained at the city Hall this morning. Such a scheme, it was stated, would necessitate the employment of an extra clerk at the waterworks office and, besides, would not cover Victoria West, which is served by the Esquimalt Waterworks Company.

The purpose of the questionnaire which the businessmen wish to send to parents of school children is to test parents' opinion on the present public school curriculum.

### FARMS DIRECTOR VISITS SIDNEY

**E. S. Archibald Here Yesterday; En Route to Northern British Columbia**

E. S. Archibald, director of Dominion Experimental Farms, who was here yesterday on an inspection of the Dominion Experimental Farm at Bagan Bay, Saanich, left last night for Northern B. C. where he will establish the experimental farm promised to that part of the Province by the Hon. W. S. Motherwell, Canadian Minister of Agriculture, when he was here last Summer. The farm will most likely be established along the line of the Grand Trunk Pacific Railway.

E. M. Straight, superintendent of the Saanich farm, showed the Dominion director over the plant. Mr. Archibald expressed a satisfaction with the work being done here. He also consulted with officials of the Provincial Department of Agriculture earlier in the day.

To Disabled Imperial Officers.—Disabled officers of the Imperial army desirous of obtaining the new metal artificial limb to replace the wooden one now in use must apply direct to the Minister of Pensions, M. S. Division, 2 Sanctuary Building, Westminster, London, S. W. 1. This artificial metal limb is very much lighter than those previously in use and is issued free to all ranks of the Imperial army. Further information on this subject can be obtained from the Pacific Coast Officers' Association, Drill Hall, Victoria.

Baby For Adoption.—The Children's Aid Society has a bonny three-months-old baby boy awaiting adoption and application should be made to the matron of the home on Vancouver Street. Grateful thanks are expressed for the following donations to the Home during the past month: Jos North, for taking the children to the Exhibition; Mrs. Jack Rithet, sack of sugar and fruit; Victoria Boys' College, sandwiches and cake; St. Andrew's Sunday School, pie and cake; Christ Church Sunday School, pie; Vancouver Island Milk Producers, milk; fruit and vegetables from Mrs. Rithet, Mrs. Levy, Christ Church Cathedral, St. John's, St. Barnabas and Fairfield Methodist churches.

Progressive Conservative Club.—The Women's Progressive Conservative Club, Pemberton Building, held their first card party this season at the Balmoral Hotel, on Monday evening. Miss Tulley, having kindly loaned her comfortable rooms for the occasion. Mr. Hadley acted as M. C. At the close of the card game Miss Tulley surprised the guests by serving a most delicious supper, J. Rollins assisting her. Mrs. L. M. Knight sang several songs, her fine voice winning unstinted praise. J. H. Findler played the accompaniment and gave several pianoforte selections. After a most enjoyable evening the merry party broke up at 12.30.

### POPULAR MOTOR SALESMAN WEDS

A very pretty wedding was solemnized at the home of the bride's parents, Mr. and Mrs. D. Woolsey, of 1269 Montrose Avenue, on Thursday evening, October 12, when their only daughter, Cora Louise, was united in marriage to John Clifford Briggs, eldest son of Mr. and Mrs. J. W. Briggs, of Reynolds Street, Lake Hill. The Rev. Geo. W. Johnson officiating. The bride looked charming in her going away suit of Nigger brown tulle with seal fur trimmings with hat and veil to match. She carried a beautiful bouquet of pale pink Ophelia roses. The bridesmaid, Miss Gladys Waterfield, also carried a bouquet of the same flowers. The groom, who is a popular young salesman of the National Motor Co., was assisted by Reginald Woolsey, a brother of the bride.

The groom's gift to the bride was a necklace of pearls, to the bridesmaid a dainty pearl pin, and to the best man a pearl set tie pin. Many beautiful gifts attested to the popularity of the young couple. About twenty-five of their immediate relatives and friends were present, who sat down to a beautifully flower decorated supper table, and after drinking to the health of the bride and groom with good wishes and congratulations amid showers of rice and confetti they left on the midnight boat for a short honeymoon in Vancouver. On their return they will make their home in Victoria.

## Pirates Will Need Watching Next Year

### Pittsburgh in Great Shape for Get-away Next Season, Under Management of Bill McKenzie, Who Brought About Marvellous Change in Club Last Season

Pittsburgh, Oct. 13.—Despite the fact that the Pittsburgh Pirates failed to win the National League pennant from the New York Giants, local mood is in a distinctly different frame than it was a year ago to-day.

In 1921 Manager Gibson's warriors came down the home stretch with a commanding lead—and then blew up with a report that was heard throughout organized baseball. Pen-hants hopes faded away with the Giants' rush, and local supporters gave vigorous vent to their disappointment.

Gibson got away poorly this year. A change of managers resulted. From the week that Bill McKeechne became skipper, distinct improvement was noted. From the middle of July, Pittsburgh played like a "championship team and records show that the Corsairs made the greatest record in the league from that turning point.

Wait Another Year. The Giants' lead was too much, however, and local fans must wait another year. And they seem to be of the opinion that 1923 will be the scene of triumphs such as were recorded at Forbes Field when Fred Clarke's men became champions of the world.

For the last six weeks of the season the Pirates led the league in team hitting. The pitching was superb, with shutout victories anything but rare. The fielding was equally as spectacular.

McKeechne intends to start next season with his present line-up and pitching staff. "Why break up a championship team," he asked, "would you trade our outfield for any in the business, or our pitching staff for any corps in either league? Is there better catcher than Schmidt, or a mightier infield on offence or defence than Grimm, Tierney, Maranville and Trayner?

Local writers and grandstand experts have advanced many theories for the remarkable change that came over the Pirates after McKeechne took charge. Some give the manager all the credit. Others insist that the pitching staff did it—after Catcher Schmidt was brought back to the field and given charge of the hurlers. Another faction credits a lion's share to Reb Russell, mighty slugger, who was brought from Minneapolis by Skipper Mac.

Conservative followers of the Pirates have been willing to admit that the individuals referred to have all contributed their share, but they point out that McKeechne who watched up the Schmidt trouble and McKeechne who added Russell's 42 centime bat to the available artillery. Players themselves have aired their views.

"This psychology stuff may be called the bunk-by-some, but I'm for it," said one of the veterans. "We looked like a team when McKeechne took hold. Then we started out and broke the season's record for consecutive victories. How do you explain it?"

"Schmidt comes back to take the kid catchers in hand and in a few days he has the pitchers believing they can't lose. Russell blugs in and gets hit by the home run bug. Tierney goes on a rampage. Grimm and his batting average to .370. Bigbee blows himself to a similar average. Max Carey and Rabbit Maranville, the two real cogs of the outfit, have their greatest seasons. Grimm and Trayner prove they are really wonderful fielders despite their hard luck with the bat.

"Then the pitchers go crazy. Cooper, Morrison, Carlson, Adams and Glazier all turn in shutouts or field the enemy to one or two runs. They get out there and sock 'em through well knowing that they have a team that can go back and set 'em. Look over the records and see how stingy they all have been with bases on balls. There is your psychology again. They took chances, and broke the old pill over the plate."

Babe May Be Missing. One familiar figure may be missing next year. That's Babe Adams. The big right hander wants to retire but he may change his mind. It is an open secret that Adams overexerted himself this season. Past 40, he pitched shutouts when he had to, but like the Mighty Matty of the olden days, he took things easy when he could. His friends on the team have told of the nights, after hard battles, when Adams' arm was so sore he could hardly lift it. His perfect control and his uncanny knowledge of batters were his assets.

## SIKIS BECOMING INDEPENDENT GENT

### Light-heavyweight Champion May Not Visit States; Talks of Other Fights

New York, Oct. 13.—Information from Paris, that Battling Siki, who recently defeated Georges Carpentier and won the light heavyweight championship of the world, has decided not to come to the United States caused a surprise in metropolitan sporting circles as the Senegalese was booked for a bout November 30 at Madison Square Garden with an unnamed opponent.

Tex Rickard, the garden promoter who announced that he had closed negotiations with M. Helliers, Siki's manager, for the bout, could not be reached, but his partner, Frank Flounroy, expressed complete surprise. He said it seemed improbable to him that Siki would attempt to break an agreement made by Helliers. "Whether Siki is bound by what agreement M. Helliers makes while that contract is in effect. We shall expect Siki to come here."

Might Make Quick Shift. It might be possible for Siki to fight in New York on November 22 and return to Paris to meet Jack Dempsey in a heavyweight championship bout in December. Flounroy said, providing the Senegalese cared to fight twice.

It was reported here that Dempsey and Kearns, his manager, was expected to arrive in San Francisco to look after efforts to verify the report that offers had been made for a title bout in Paris were unsuccessful.

Paris, Oct. 13.—French boxing promoters are endeavoring to bring Jack Dempsey, world's heavyweight champion, here for a battle with "Battling" Siki, Senegalese conqueror of Georges Carpentier, in December. In the event the promoters are successful, the directors of the new Buffalo Velodrome, where Carpentier's eclipse occurred, have made overtures to fight twice.

Raising the Ante. Heretofore no French promoter has dared to ask more than 200 francs for ringside seats, and at the Carpentier-Siki battle thousands of francs were obtained as low as seven francs.

Prospects for the departure of America's star now appears remote, as the boxer is reported to be now on the breaking point with his manager, M. Helliers, and to be intent upon voiding whatever arrangements have been made.

The Chicago Cubs' showing was one of the big surprises of the National League 1922 campaign.

Given little or no consideration at the season's start, they always were in the running. They faded a trifle during the last month, but their showing, as a whole, was a tribute to Bill Killifer's managerial ability.

Killifer whipped a young club, with only a few veterans to steady it, into a formidable aggregation. If Bill ever had a fault it was modesty. He gives his team all the credit. "The boys, not the manager, make the base hits and score the runs," he says.

Recently I bumped into Killifer, congratulated him and asked him the secret of his success. His reply was "like him. 'Ain't no," he said, "but when you tie him down he continues."

"I broke in with the St. Louis Browns in 1909. Jimmy McAleer was manager. I was a green kid from Texas. They wouldn't let me catch, practice batting or do anything. In plain words, they didn't want any greenhorns on the club.

"I went my way, like other youngsters. I was fired, but came back. And when I came back I said to myself—'Bill, if ever you become manager you're going to look out for the youngsters.'"

## Jim Graduates Is Now Coast Leaguer

Seattle, Oct. 13.—James Norman Riley, eminent resident of Seattle, athletically speaking, is home from a Summer's sojourn in the East, principally at Terre Haute, Ind., visiting Salt Lake City en route.

Mr. Riley intends to spend the Winter in Seattle, as he has spent it for several years past, keeping up his athletic work, hockey and golf. At present James Norman is the hard-hitting first baseman of the Salt Lake Coast League team.

Until now the Seattle sports enthusiasts have gazed on the brawny form of Mr. Riley only in the costume affected by the hockey clubs. Yesterday he blossomed forth in the habiliments of the ball yard. Big Jim looks just as formidable in a baseball "unif" as he does with a "chilled" steel blades on his hoofs.

Riley came to Salt Lake from Terre Haute via the St. Louis Browns, which held title to his contract. He has been playing a great brand of ball for the Bees, although handicapped by a severe strain of his left wrist, sustained during one of the "Three-I" League games when a bawling runner ran into him as he was fielding a thrown ball. He had to lay off for about six weeks and the wrist was mended when he has to withstand the jar of a ball thrown from the pitcher or in gripping the bat.

Wants To Play On Coast. In spite of his injury, Riley has been playing nice ball for the Salt Lake club and has been hitting hard and often. He says that he is glad that he is back on the Coast and hopes that he will stick here for several years.

Riley's baseball career has been a singular one. He never started playing until he had reached his majority and his experience covers two years. He signed up two years ago with Bob Brown's Vancouver club of the Pacific International League. He began cracking the ball out of the lot.

He was sold to the St. Louis Americans for \$5,000. He arrived in St. Louis one day and was sent in next day at second base before he got settled down or acquainted. It was too much to expect, of anybody, and a few weeks later he was sent to Terre Haute for seasoning. He hit .276 and was sent back again this year for more experience. He was switched to first base and his play began improving to such an extent that he was grabbed up by Salt Lake when he was put on the market.

When the baseball season closes next Sunday night, it will not mean a Winter of athletic inactivity for Riley. He will have a couple of weeks' rest and will then begin practice for the opening of the major league hockey training season, which will be called the latter part of this month or early in November.

San Francisco, Oct. 13.—San Francisco virtually won the Pacific Coast League championship here yesterday, defeating Oakland 5 to 3. Vernon's defeat by Los Angeles placed the Tigers two and one-half games behind the Seals. If the Seals win today the Tigers could break even with the Seals. If they lose, San Francisco lost the remaining games.

In the event the Tigers won all games and the Seals lost all games the Tigers would lead by one game. But with a two and one-half game handicap sport writers virtually concede the Seals the Pacific Coast championship.

Oakland proved an easy mark for San Francisco yesterday. The Seals took the lead in the first inning. Kremer's pitching was weak and ineffective. Courtney's game was endangered four times, being saved by four double plays. He was replaced by Shea in the eighth inning.

Los Angeles, Oct. 13.—Vernon's pennant hopes practically vanished yesterday when Los Angeles took a 14-inning game, the second in three days, 5 to 4. The Tigers almost got (Concluded on page 17.)

Wests Taking No Chances. The third game on the schedule will bring the champion Wests against the Crusaders. This game against the Crusaders. The Wests will have their full line up out and will take no chances against the Crusaders. The Wests have not seen the Crusaders in action and

will hit their best stride in order to avoid any change of having their season's record broken.

The draw is as follows: Thistles vs. Metropolis, at the Royal Athletic Park; Referee Stokes; Sons of Canada vs. Sons of England, at Beacon Hill upper ground; Referee Locke.

Victoria Wests vs. Crusaders, at Central Park. Referee Langton. All games will start at 2.45 o'clock. The teams will line up as follows: Thistles—Hewitt; Burton and Tuckwell; Roe, Ord and Potter; J. Watt, Wright, T. Watt, Swan and Mulcahy. Players to meet at Veterans of France at 2.15 o'clock.

Metropolis—Weir; Church and Davidson; Gillingham, English and Dryborough; Barrie, Downs, McIlvride, Cull and Hayward. Reserve, Fanthorpe. Players to meet at Met's clubrooms at 2.15 o'clock.

Victoria West—Leeming; Chester and Whyte; Thomas, Muir and Popnam; Sherratt, Merfield, Peden, Totty and Clarkson.

CRUSADERS' TEAM. The following players will represent the Crusaders on Saturday: Bill Holman, H. Auchinoole, F. Webster, H. Moulton, C. Blackstock, T. Mc-Gimpsey, W. Rice, H. Supton, B. Stewart, H. Easler, G. Allan. Reserves: J. Kerr and M. McKenzie. All players are requested to be at the Metropolis Hotel by 2 o'clock.

ELKS AND GYROS TO MEET IN GOLF MATCH. Next Sunday at the Uplands Golf Links a battle royal will take place between the Elks and Gyros, to settle a dispute as to which club has the best expensists of the Royal and Ancient game. Excitement is running high and some records should be shattered.

Players are requested to be on hand at 8.30 a. m. The draw is as follows: "Francis Quimet" Ellis vs. "Gene Saracen" Thomas. "Harry Lauder" Muir vs. "Harry Vardon" Gravin. "George Von Elm" -Barton vs. "Dave Black" Brook. "Walter Hagen" Straith vs. "Abe Mitchell" Wilkinson. "Bon Stein" Lumsden vs. "Phil Taylor" Potts. "Jack Dempsey" Wickson vs. "Georges Carpentier" Oddy. "Ted Ray" Cameron vs. "Chick Evans" Kirkham. "Walter Gravin" Kerr vs. "Willie Black" Patrick.

## S. S. Hoop League Set For Big Season

### SUNDAY GOLF UNDER FIRE IN EAST NOW

Dr. Rochester Says It Forms Biggest Problem of Lord Day's Alliance

Toronto, Oct. 13.—Golf is one of the biggest problems the Lord's Day Alliance has to consider with regard to the question of Sabbath observance. Rev. Dr. Rochester, secretary of the Lord's Day Alliance, told the synod of Toronto and Kingston here yesterday. Was it not taking people from church? he asked. If golf is allowed on Sunday, why not tennis and baseball?

Dr. Rochester referred deprecatingly to a recent championship golf game in Winnipeg on Sunday. He urged the synod to give more time to the question of Sabbath observance. The synod passed a resolution approving of the work of the Lord's Day Alliance, and expressing its determination to keep the organization in any way possible.

### BAYS AND WANDERERS PRACTICE TO-MORROW

A special practice of the J. B. A. senior rugby team will be held at Cranmore Road on Saturday afternoon, at 2 o'clock. The Bays will oppose the Wanderers. Members of both teams are asked to attend.

The association is determined to stage more senior games. Several of the "B" teams will move up into the "A" division, and thus amuse the fans of a greater number of games and a greater variety of teams to watch.

The Metropolitan Methodists are going to get back into senior company this season after a lapse of several years. Vernon Jones will be the moving light in this team and he will gather a number of prominent stars into his cause.

Secure Another Hall. In order to have floor space for the additional games the Sunday School Association has secured the Trades Hall, Broad Street, the league away and the big games will be staged there and at the Y.M.C.A.

The association will operate eight leagues this season. The "A" division will have the "Senior B's" Intermediate Boys, Junior Boys, Senior Ladies, Junior Ladies, Trail Rangers and Tuxis Boys.

The association will hold its next meeting on November 2 and at this gathering a call will be sent out for entries for the various leagues. A further meeting will be held on November 9 and the schedule drafted and arrangements completed for the opening of the season.

### JORDAN RIVER BOYS ORGANIZE FOR YEAR

Basketball Team Getting Ready for Busy Season; Opening Games Played

Jordan River, Oct. 13.—The annual meeting of the Jordan River Athletic Association, held on Tuesday, resulted in the following officers being elected: Secretary-treasurer, J. M. Elliott; business committee, H. Lee, D. L. Walker and J. MacVicar; social committee, S. Gilley and J. MacVicar; games committee, W. Watson and H. Ryan; manager of senior teams, W. Ledingham; manager of children's team, H. Lee.

As a result of this meeting an opening night was staged in the local basketball hall on Wednesday night. Two games of basketball were played, the first being a game between two teams picked from local school children and followed by a closely contested match between the Go-Get-Em's and the Old Timers. The latter game was won 23-23 score in favor of the Old Timers and created loads of fun for the spectators.

The line-up was as follows: Go-Get-Em's—Forwards, W. Ledingham and J. M. Elliott; Centre, W. Watson; Guards, E. J. Walker and J. MacVicar; Referee, R. Rosecamp.

A dance and supper was held following the games and everyone went home highly satisfied with the initial night's entertainment. The orchestra supplied the music.

### SOX BEAT CUBS AND EVEN UP THE SERIES

Chicago, Oct. 13.—The White Sox evened up the series with the Cubs yesterday by taking a pitchers' battle 4 to 3. Each club has now won two games.

### "Bill" Erickson Elected President of Sunday School Basketball Association—More Senior Games to Be Provided—Expect Most Successful Season in History

"Last Winter we had a wonderful basketball season, in fact, the best in the history of our organization, but I am quite confident that this year will see an even greater interest in our association, keen competition, more teams, and an improvement in the calibre of the play of many of the senior teams.

This is the view of W. M. ("Bill") Erickson, who was re-elected president of the Victoria and District Sunday School Basketball Association at the annual meeting of the organization held last evening in the Y.M.C.A. This makes the third term for "Bill" as head of the thriving body. During his spell as headmaster he has gone a great way to make the Sunday School leagues outstanding in local basketball circles. The delegates from various schools at the meeting last night decided unanimously to make a present of the presidency to "Bill" for another term.

It is expected that the opening games of the leagues will be played in the first week of December. Last year the association determined to open earlier, setting the league away before the Christmas holidays, and this proved far more satisfactory than waiting until after the New Year.

The association is determined to stage more senior games. Several of the "B" teams will move up into the "A" division, and thus amuse the fans of a greater number of games and a greater variety of teams to watch.

## British Champion Makes Frank Moran Quit in 7th Round in London

London, Oct. 13.—Joe Beckett, the British heavyweight pugilist, scored a technical knockout over Frank Moran, the American heavyweight, when the referee stopped the bout in the seventh round at Albert Hall here last night. In the fourth round Moran put Beckett down for a count of five and he repeated in the sixth when Beckett stayed down for seven, but the Englishman came back strong on both occasions. Previously Beckett landed a heavy punch in the pit of the stomach and was cautioned, and eventually the referee stopped the fight, Moran being punished so badly that he could not continue.

"Bomby" Wells Down. In another contest, Jack Bloomfield, British light-heavyweight champion, stopped Bombarider Wells, also of England, in the sixth round. Soldier Jones, heavy eight champion of Canada, won from the Englishman, Ernie Toney, when the referee intervened and stopped this bout in the third round owing to an injury to one of Toney's legs.

## Giving Kids a Chance, Reason of Cubs' Success

(By Billy Evans.)

The Chicago Cubs' showing was one of the big surprises of the National League 1922 campaign.

Given little or no consideration at the season's start, they always were in the running. They faded a trifle during the last month, but their showing, as a whole, was a tribute to Bill Killifer's managerial ability.

Killifer whipped a young club, with only a few veterans to steady it, into a formidable aggregation. If Bill ever had a fault it was modesty. He gives his team all the credit. "The boys, not the manager, make the base hits and score the runs," he says.

Recently I bumped into Killifer, congratulated him and asked him the secret of his success. His reply was "like him. 'Ain't no," he said, "but when you tie him down he continues."

"I broke in with the St. Louis Browns in 1909. Jimmy McAleer was manager. I was a green kid from Texas. They wouldn't let me catch, practice batting or do anything. In plain words, they didn't want any greenhorns on the club.

"I went my way, like other youngsters. I was fired, but came back. And when I came back I said to myself—'Bill, if ever you become manager you're going to look out for the youngsters.'"

"I became a manager, and I decided that the kids on my club were going to develop. They have."

CAPITOL

If you believe that diamonds known as "pink gods" have no power over weak women, you are in error. One can go further and assert that they exert their power over all mankind, and they have been responsible for more crime than may be attributed to any other agency.

In "Pink Gods," a new Paramount picture featuring Bebe Daniels, James Kirkwood, Anna Q. Nilsson and Raymond Hatton, at the Capitol Theatre to-night, the baleful influence of these beautiful gems, is admirably depicted. It is a picturization of Cynthia Stockley's South African romance, "Pink Gods and Blue Demons," and every scene of the picture is vibrant with emotion and thrill. The story deals with two young women who fall under the sway of the little pink gods and one of whom, the character portrayed by Bebe Daniels, falls into serious difficulty when she resorts to theft to indulge her craving for the gems. How the other woman is misled by circumstances and ultimately finds happiness, is excellently shown.

### THE PLAYHOUSE

For absolute mirth, delightful music, charming dancing and beautiful settings Playhouse Show Number Five, in which the wonderful revue, "The Bing Boys," is the feature, is considered to be the best yet produced by the new playhouse company. Under the able management of Mr. Reginald N. Hincks this revue has lost none of the appeal that it

had when it was the hit of the London stage a few years ago, and there is no doubt now that it is going to establish a record for attendance at this popular rendezvous.

Miss Roberta Balcom in her two charming dances is making a great hit with the audiences, the first being staged as an entertainment for the villagers in Bingley, and the second a delightful little nymph dance staged at the palatial theatre. Mr. Dave Dumbleton also pleases with his step dancing, and the song and dance number with Miss Eva Hart entitled The Kiss Trot is one of the daintiest offerings ever seen here.

Playhouse Show Number Five will continue to-night, to-morrow afternoon, and Saturday night. From present indications the house will be entirely sold out for the rest of the engagement, and patrons are advised to book seats early.

owner of the largest saw mill in the Northwest, Graves gives a particularly effective characterization to the roller, and because of his work in this picture stardom is predicted for him. Red-blooded adventures is the motif of the story, intermingled with romance of a delightful type.

### ROYAL VICTORIA

Helen Ferguson is the star's leading woman; but another feminine role of almost equal importance is enacted by Ruth Renick. Maurice Flynn, who has starred in Fox productions, has the "heavy" part.

### ROYAL VICTORIA

Peter B. Kyne, the famous novelist is the author of "Kindred of the Dust," an Associated First National attraction produced by R. A. Walsh, which is the attraction again to-day at the Royal Victoria Theatre. The story appeared originally in the Saturday Evening Post and then was issued in book form, many editions of which have been sold. Its popularity and adaptability for film-making caused Producer Walsh to purchase the motion picture rights to it.

One of the strongest casts ever assembled for a single picture enacts the story, including Miss Miriam Cooper, the talented actress whose work in "The Oath" and "Serenade," other recent First National productions, will be well remembered; Ralph Graves, Lionel Belmore, Eugenie Besserer, Maryland Morne, Jessie Walters, W. J. Ferguson, Carolyn Rankin, Fay Rooney, John Herdman and Bruce Guerin.

Miss Cooper plays the part of "Nan of Sawcut Hill," a little maid to whom the fates have been unkind, but who, through many vicissitudes, manages to find the happiness for which her starving soul was hourly craving.

colweb is a very light, filmy proposition and for property men to go out and hunt-up enough colweb to roll-up and use in this case and bring them and carefully put them up, would have been an impossibility. The problem was beginning to take on a serious aspect when Wallace Reid offered a suggestion.

### DOMINION

Beer wagons and big horses went out of fashion at the same time, but in spite of this Cecil E. DeMille discovered a huge black stallion which serves as a mount for Thomas Meighan in the Roman bacchanal episode of "Manslaughter."

Thanks to the equipment and costume, rider and horse appear to be approximately sixteen feet high on the screen. Meighan wears a barbaric costume surmounted by a helmet supporting an eagle which gives him many inches of height added to his own full six feet.

In order to protect the workers and the set, the giant horse was shod with heavy rubber "boots" which served to lessen the effect of his iron shoes on the studio staging.

Mounted on this great beast, Mr. Meighan leads a horde of barbarians into the midst of a Roman bacchanal at which Leatrice Joy appears as the hostess.

Mr. Meighan and Miss Joy with Lois Wilson, head a notable cast which includes John Milten, George Fawcett, Julia Faye, Edythe Chapman, Jack Mower, Casson Ferguson, Dorothy Cunningham, Mickey Moore, James Neill and Sylvia Ashton. "Manslaughter" is now at the Dominion Theatre.

### NEXT WEEK AT COLUMBIA

Mrs. L. Case Russell, the author of the modern version of "Ten Nights in a Barroom" has had a long time for the honor and the profit of a first class screen success. She has written four or five hundred photoplays and is at the head of her profession.

Mrs. Russell is fortunate in the director of her story, Mr. Oscar Apfel, who has made a great drama of it. Then she is fortunate in the fact that the incomparable John Lowell plays the part of Joe Morgan, who goes happily abandoned here, is deemed by the love of his wife and the tender spiritual influence of his little daughter, who loses her life in a dramatic finale.

Although the scene of the play is laid in Cedarville, in America, it is true to life all over the world; the barroom, happily abolished here, is omnipresent elsewhere. You see it in London, Paris, Manchester, Liverpool, Sydney, Capetown, Alexandria; it is all over the world. Joe Morgan is a common type.

It is a great story with a heart interest appeal. It is the child interest that is so strong; both the mother love and the redemption of the errant father hold our interest when we look at this picture.

### COMING TO CAPITOL

Have you ever heard of spiders as interior decorators?  
A swarm of these creepy members of the arachnid family were "hung up" by entering property men at the Lasky studio and made to help out in the atmospheric decoration of the big old gloomy interior of the old Spanish castle of Aragon, built for scenes in "The Ghost Breaker," a picturization of the famous play, which stars Wallace Reid, and which comes to the Capitol Theatre next week.

The set had been built and decorated with various marks of age and decay by skilful camoufleurs at the studio. But one thing remained to make the illusion perfect and that was a plentiful supply of cobwebs in all the nooks and corners. Now a

### HUGE FOUR-DAY FESTIVAL BEING PLANNED FOR MAY

Broom and Water Celebration to Produce Striking Spectacles

Elaborate plans for a four-day festival here next Spring were drawn up by the Victoria Day Committee last night. If these plans are accepted by a general public meeting October 27, next year's celebration will be one of the most striking events of its kind on the continent, it is expected.

The festival will commence Wednesday, May 23, under the programme drafted last night. On the afternoon of that day the Queen of the Festival, to be elected by popular vote, will be met by King Joy, whose identity will be a mystery until the end of the festival, and who will arrive here on the boat from Vancouver. In the evening an informal ball will be held in the Armories.

There will be a lacrosse match on the morning of May 24 and a monster parade in the afternoon through the downtown streets and up to the Willows. The masses of broom to be used in this parade will give the name to the whole celebration—the Broom and Water Festival.

At the Willows a competition, in which the leading bands of the Northwest will take part will be held. This is expected to be a big feature of the celebration. In the evening a Monte Carlo cabaret will be staged at the Willows.

Friday morning is open yet, but some big event will be arranged later. In the afternoon the school sports will be held and Venetian Night, bigger and more ambitious than anything of its kind ever held here, will be staged at the Gorge.

Nothing has been arranged yet for Saturday morning, but the afternoon will be featured by a big regatta at the Gorge, where Indian war canoe races will be a big attraction.

A street programme and call-thumpian parade are among the programme items which are being worked up now. The celebration will be wound up with a formal ball in the Armories Saturday night.

### YUKON CONDITIONS LOOKING BRIGHTER

After nine years in the rigorous life and surroundings of the Northland, Miss Emma Carlson is spending a vacation on the coast and is now a guest at the Dominion Hotel. She arrived here Tuesday from Dawson, and reports that conditions in the Yukon are showing a distinct improvement both in business and in mining prospects.

The people of the Yukon are considerably interested in possible political developments and the appointment of the new Commissioner by the Ottawa authorities, as well as a

### SOOKE HARBOR ASSOCIATION MET

Times Correspondence.  
Sooke Harbor—The general monthly meeting of the Sooke Harbor Development Association took place last week with John A. Murray, J. P., in the chair.

The minutes of the previous meeting having been read and adopted, the special committee appointed to look into the question of access to Sooke Bay by the extension of the Grant Road, was asked by the president to give that committee's report.

Capt. French, with the aid of a large blue print map of the survey made in 1912, gave a most detailed report of the investigations made and while no actual work can for the present be put upon this road, he was glad to report that this portion of the West Coast Road had now been gazetted as far as Tugwell Creek, and it was hoped that in the near future that portion which would provide access to the beach would be carried out.

This would be a great asset in the hauling of gravel for road work, the securing of help for land fertilization, and provision of a way for tourists and residents with cars to reach one of the most beautiful views and beaches on the West Coast.

The president extended to Capt. French and the other members of the special committee the hearty thanks of the association for all the careful work and time spent upon this matter which was one of no small importance to the district.

C. N. R. Service.  
The secretary, W. Miller Higgs, reported that the gas car had now arrived in Victoria for operation upon the Victoria-Sooke Harbor run and that the "at Milne's Landing Station, Sooke River Road, was nearly completed so that the meeting and residents of the district might feel assured that the operation of the line, which had been definitely promised would be an accomplished fact within a very short time.

Members of the association guaranteed to see that the trains were met for the first few days after operation commenced and a regular jitney service should be commenced.

It was moved by A. N. Namara that the secretary write to the Dominion Government Telephone Company requesting that the five cent slot telephone now on the Sooke Wharf be transferred to Saseenos Station for general use of the public. This was seconded by William Clay and unanimously carried.

The question of winter road patrol was discussed, and local road matters were brought up, but the hour being late, road matters were made a special subject for the November meeting.

### LANGFORD EVENTS ARE PLANNED

Times Correspondence.  
Langford—The October meeting of the Langford branch of the W. A. was held this week at the home of Mrs. R. F. Waddington, two new members being welcomed.

It was decided to hold a chicken and ham supper on the evening of November 6 to celebrate Thanksgiving Day, the supper to be followed by an entertainment.

Particular attention was given to the members before the meeting adjourned for tea, which was served by the hostess.

A social evening will be held in the Langford Hall, on October 31, under

## AUTUMN COUGH!

A nasty tickling cough and throat soreness troubles most folk about the Fall. This cough is an insidious peril. Unless got rid of it may mean a bad dose of bronchial catarrh that lingers through the winter.

The first sign of hoarseness or throat irritation is evidence that you need PEPs.

Dissolve one or two of these pleasant infection-killing tablets in your mouth right away. Breathe deeply into your throat and lungs the powerful volatile healing and germicidal medicine given off in the form of fumes. This is sure to destroy all the "cold germs" and keep trouble off the lungs.

By their soothing, curative and germicidal action on the sore inflamed air-tubes, Peps remove the cause of coughs, colds and throat trouble. They impart new vigour and strength to the breathing organs, and ward off the evil effects of this chilly, changeable weather.

PEPs are also splendid for children. They contain no harmful drug of any kind.

### NATURAL HISTORY SOCIETY ACTIVE

#### Initial General Meeting of Winter Season Held This Week

The first general meeting of the Winter season 1922-23 of the Natural History Society of B. C. was held in room 312 Pemberton Building on Monday at 8 p.m.

Nearly thirty members were present. Nine proposals for membership were entered on the minutes. The future of the society seems well assured for many new members are joining and the programme of interesting talks and papers for the season is being prepared with care with regard to the several branches of the society's studies.

Among the interesting specimens brought in for inspection were bulbs of various native plants illustrating the growth of bulbs in their relation to the depth at which they grow and the automatic adjustment of this depth.

A new method of taking carbon impressions of leaves was explained which gives beautiful results with little trouble.

**Teredo Damage.** Mr. Halkett showed a photograph of some old piles from the Quarantine Station. These had great interest for they illustrated a curious state of affairs. The piles had been sheathed with muntz metal but the teredos had worked their way into the wood from the bottom at a depth of 25 feet and drilled right up the pile leaving only a skin of wood inside the muntz metal. In addition

to this the limoria had worked at the water level to show the lower part of the photograph. This represented what was seen from a motor car with the top in place and (under the cover) with the top taken down. One photograph illustrated the struggle which is taking place all round Victoria between the old oaks and new firs with the fir killing off the oak.

**Indian Minah.** Mr. Downes spoke on the Indian minah, a bird imported into New Zealand and exhibited a stuffed specimen. This bird is very amusing as it picks up words and other sounds, such as the calls of other birds quite cleverly. It is not so amusing, however, in its activities in driving out the native birds and eating fruit.

It was feared, when the first Japanese stalling appeared in Vancouver that they were this minah but it turned out not to be so.

Mr. Downes exhibited also some other kinds of stuffed birds, native to New Zealand and stated their characteristics. He had mounted several varieties of crickets and beetles which Mr. Anderson had brought from New Zealand and spoke on this subject also.

The secretary reported having received a report of the Portland Humane Society from Mr. Raker in which the system by which the cat nuisance was corrected in that city. The society is given the pounds and their operation together with the fees from dog licenses and carte blanche to carry out the laws re cats and dogs and other animals.

This had proved most satisfactory and the report set out the number of animals disposed of either by death or by placing in suitable homes.

Mr. Godard reported that he had

just been over to the Port Angeles district and could vouch for the correctness of Mr. Frompage's statements in his lecture. He said that the most beautiful parts of the Olympic range were now easily accessible from Victoria.

**Talk on New Zealand.** Mr. Anderson was called upon for his talk on New Zealand.

Beginning at Victoria and describing the journey over in the S.S. Niagara, the speaker gave amusing descriptions of the ports of Honolulu and Suva, of the beautiful flora and at the latter place the replacing of the natives with the Japanese, Chinese and Indians. Here also he noted that the rainfall at the last reading was 170 inches a year.

On arriving at Auckland he found it to be a wonderful city of over 100,000 people on a magnificent harbor. There are three cities in the country of over 100,000 inhabitants and several close to that number so that a large proportion of the total population is resident in cities.

The whole country is of late volcanic origin and there is little or no alluvial soil. In the South Island the rivers in flowing from the mountains of the west coast towards the east coast traverse plains over which they meander in large wide beds necessitating long bridge works. Large areas are denuded bush, owing to clearing and accidental fire. When the clearing done the resultant land grows the most wonderful grass for the feeding of sheep.

The bush consists of very large dense growths of shrubs and ferns which make an almost impenetrable mass. The ferns number over 400 in variety as against 40 in British Columbia. Some of these ferns might possibly be persuaded to grow here and Mr. Anderson made some arrangements with the Museum in Wellington to exchange seeds and spores for experimental purposes.

**Rabbit Pest.** There are no native quadrupeds although English deer and the famous macropods, which are introduced, have become almost native.

Wild ducks are few, and there are no swallows, grouse, and pheasants and quail are only introduced.

Noticeable birds are the fantail, a small tame bird of beautiful color, an owl which has a cry like the words, "More pork," the kia which is popularly supposed to attack sheep by sitting on the back and pecking the liver out, and black swans.

**Imported B. C. Trout.** Imported rainbow trout from British Columbia are large and plentiful, while eels form a large part of the Maoris' diet, being extremely numerous and of good size.

The Maoris are very civilized and some are even members of Parliament. Mr. Anderson, however, while speaking to some natives at a pah or village, was asked if the Indians of British Columbia still practiced scalping.

No reptiles and no wasps and only one poisonous spider make for the comfort of the bush traveler. Mushrooms and puffballs are of great size while the humble dandelion is everywhere.

Mr. Anderson gave the society two government acts which have reference to the preservation of the natural beauties of the country, and which might well be studied with regard to our own country. These are the Scenery Preservation Act of 1903 and the Tourist and Health Resort Control Act of 1904.

sume eat fruit and wasels also introduced are a nuisance. The gores is a great pest having taken over enormous areas of land especially in the vicinity of Wellington. Bracken is bad; but the sheep are turned on the young growth and the bracken destroyed for good. The English blackberry which flourishes and the biddi bid, a native plant are both very bad for the sheep destroying the wool. So much so that shearing is carried on before the "biddi bid" comes to seed. Two or three other plants such as the "California" thistle, cinnararia and Hawthorn are declared as pests by the Government.

Severe winds are prevalent in parts and windbreaks are necessary generally of pinus insignia and cupressus macrocarpa, which are supplied free by the Government.

There are no native quadrupeds although English deer and the famous macropods, which are introduced, have become almost native.

Wild ducks are few, and there are no swallows, grouse, and pheasants and quail are only introduced.

Mr. Sherwood in moving a hearty vote of thanks to the speaker mentioned that he had omitted to men-

tion a very bad pest and that was the imported watercress which has assumed enormous proportions both in size and quantity and is costing the government a lot of money to clear out of the rivers.

The motion was seconded by Mr. Downes who, having lived in New Zealand himself for some years had appreciated Mr. Anderson's remarks. The next meeting will be held on Oct. 23, when Mr. Halkett, of the Dominion Public Works Department will lecture on the "Tides."

### EXCURSIONS WILL BRING MANY HERE

#### The Chamber of Commerce Pleased With Winter Rates

Directors of the Chamber of Commerce express great satisfaction at the results obtained through their efforts in securing reduced excursion rates to the coast from prairie points during the winter months of December and January and part of February.

The Chamber took this matter up last year with the railway companies, urging that as the Eastern provinces were given an excursion winter rate to points East it looked very much like discrimination against the West that reduced rates were not offered to British Columbia.

When E. W. Beatty, president of the C. P. R. and vice-president Coleman were in Victoria recently the Chamber called the attention of these officials to the situation, and every consideration was immediately promised with the result that excursion rates will be put, into effect this Winter, and this, it is believed, will very materially assist in bringing a large number of prairie farmers to the coast, who will probably make their future homes here, and will at least help to put more money into circulation during their stay in the City. The railway officials said they were glad that the Chamber of Commerce had drawn the matter to their attention, and they would always be ready to co-operate in anything that would assist in promoting the welfare of the country.

The telegram received by the Chamber of Commerce on the subject of the excursions states that there will be twelve selling dates in December, twelve in January and four in February, and as these will be advertised extensively there should be large parties coming West as a result.

Wild ducks are few, and there are no swallows, grouse, and pheasants and quail are only introduced.

Noticeable birds are the fantail, a small tame bird of beautiful color, an owl which has a cry like the words, "More pork," the kia which is popularly supposed to attack sheep by sitting on the back and pecking the liver out, and black swans.

### CITY "OLD GUARD" SEEKS FIVE SEATS SHORTLY VACANT

#### Dinsdale Plans Ticket to Force Return of "Economists"

Intimation that former city aldermen who were swept out of office at the last civic elections are planning to seek a general return to power in December surprised City Council members to-day.

The "Old Guard" move to stage a "come back" at the next election is being fostered by ex-Alderman Robert Dinsdale, who is conferring on the matter now with his former colleagues in the Council. Ex-Alderman Dinsdale hopes to be able to form a ticket who would, he says, endeavor to undo the errors of the present Council. Ex-Alderman George Saenger and W. J. Sargent, it is expected, would form part of the ticket which ex-Alderman Dinsdale is endeavoring to shape.

"We have got to have a return to sanity at the City Hall," Mr. Dinsdale said yesterday in discussing his plans. "The only way to do that is to elect a few good men who are possessed of sufficient common sense to sweep away some of the follies of the present year. The chief effort of a ticket of such men should be to bring more economy into the civic administration. Whatever the faults of the former administration, they certainly kept down expenses, and that cannot be said of the present Council. More money has been spent this

year than for years and much of the expenditure, I believe, is unnecessary. The City Engineer's Department is the sink down which much of the money goes, I am convinced. More economy certainly is needed in that department. When the end of the year comes and the books are balanced up we shall see whether this year's financing has avoided any deficit. We were blamed for having deficits, but whether the present Council has done better—or a great deal worse—remains to be seen."

Montreal, Oct. 13.—James Lacker, 25, found guilty of stealing two parcels of cheques valued at \$30,000 from the Montreal Bank on August 11 last, was sentenced to two years in the penitentiary.

### TAX SALE SLOW EXCEPT FOR SHAWNIGAN LOTS

Of the 328 properties in arrears, only 46 came up for tax sale under Frank Sehl, collector, at the Parliament Buildings, as the others were redeemed before the sale.

There was little bidding except for some lots at Shawnigan Lake where the price was run up four to eight times the amount of the taxes due and the lots were not waterfront lots.

### FOR CHILDREN THE SANDMAN STORY FOR TO-NIGHT

#### OLD THORNY WITCH—Part III.

The Witch was perfectly sure of her victim, for greed and envy she knew full well were the strongest friends she had, and once they were deeply planted in the thoughts of a mortal it was easy for her to have her way.

So she sailed forth down to the spot where she had found Prince Carlo the night before and was not at all surprised to find him waiting for her.

"I agree to do as you direct me," he said at once. "How shall I get the diamond and the Princess?"

"Not so fast, my Prince," cackled the old Witch. "First I will tell you how to get the gold for me and then you shall learn how your wish is to be granted."

From the pocket of her long black cape the Witch took two pea-shaped objects and handed them to Prince Carlo. "Guard these if you wish to get your wish," she said. "In the morning early before any one is up in the castle go to your brother's room and tell him some one is trying to get into the stronghold where the gold and treasures are kept. Once he is in the underground fortress forced him to swallow one of these and he will fall into a sleep from which he cannot be awakened unless the other white pellet is forced into his mouth. You may repent, you know, and wish to save him after all," cackled the old Witch.

But because the laws of the magic world demand that with a spell that is not popular moral shall be given one charm that will break it, Thorny Witch had to give Prince Carlo the other pellet. But this she did not tell him. She had hinted at the way the spell could be broken and that was all the magic laws required.

"But the Princess; how will I get her to become my bride?" asked Prince Carlo. He saw the way to procure the diamond star once his brother was dead. The Princess, he knew, would be much more difficult to win.

Again the old Witch gave a cackling laugh. "When your brother drops to the ground, the door of the stronghold arouse the castle and declare that you found him robbing the chests of the gold stored there and that in the struggle to save your father's wealth you accidentally killed Prince Rollo."

"Of course you will have before this given me my pay for helping you," said the Witch. "And to make certain you do not forget to be grateful you must go to the castle and get

the keys while your father and his guards are asleep."

"But the Princess? You have not yet told me how I am to make sure of having her for my wife," questioned the Prince.

"That you will learn when you return with the keys," replied the Witch, and again she gave the cackling laugh that Prince Carlo disliked to hear.

There was no more to be learned until he brought the keys, and so

How will I get her captured to become my bride?

back to the castle went the Prince and like a thief stole into the room of the sleeping King and took from beneath the pillow on which rested his father's head the keys to the treasure house.

Then back to the Witch he quickly made his way and together they walked to the back of the castle and unlocked the big iron door leading into the fortress.

"Half of your wealth, my Prince," cautioned the old Witch, when, after opening two chests, Prince Carlo stopped handing out the gold. "I can see through iron sides, my dear; don't forget that."

"But you cannot carry any more," argued the Prince, marveling that Thorny Witch had been able to store away so much gold in the mysterious fold of her long, full cape.

"Do not bother your wise head about that, my hearty," replied the Witch. "Open the chests until I have been given half of all the gold that is here—if you wish to have Princess Delta for your bride."

Like all those who listen to greed and envy, Prince Carlo found himself deeper in wrongdoing than he had intended to go; but now that he was in he must obey the evil Witch who was guiding him and so he unlocked the chests and gave until her greed was fully supplied and she was ready to tell him how to win his bride.

**SEEK FERRY AND MOTOR CAMP FOR TOURISTS**

Chamber of Commerce to Try to Secure Gorge Camp Site for Motorists

Need of Ferry Link With Port Angeles Stressed by Tourist Experts

The possibilities of Victoria as a great tourist centre, like the famous resorts of California, were discussed and plans for increasing tourist travel here shaped at a dinner meeting of the Chamber of Commerce Tourist Trade Interest Group, under Frank Waring, with Chamber of Commerce directors and members of the City Council at the Dominion Hotel last night.

Two important decisions were reached by the meeting:

- To press for the inauguration of an adequate automobile ferry service between Port Angeles and Victoria.
- To seek legislation allowing the use of a portion of the city's Gorge Park as a permanent camp for visiting tourists.

The need of ferry connection between Port Angeles and Victoria was impressed upon the meeting by J. A. Stewart, a member of the Seattle Chamber of Commerce. Such a ferry, Mr. Stewart believed, would carry large numbers of cars between the American city and the Islands, and would be the means of developing an increasingly tourist travel by this route.

**Seek Ferry Service.**

Efforts are now being made by Port Angeles interests to have the Puget Sound Navigation Company operate a ferry service between Port Angeles and Victoria next season, George L. Warren, Secretary of the Chamber of Commerce, stated.

The larger transportation companies should be told that if they do not care to operate the needed ferry service private enterprise is prepared to undertake the business, Alderman A. E. Todd declared.

The value of the Gorge Park as a permanent centre of automobile tourists was stressed in a report presented by a committee headed by A. E. Humphries. The proposed motor camp site, it was explained, consisted of four and one-half acres of land, and was sufficient to accommodate 340 cars. If it were not possible to secure this site, the report said, suitable sites could be found at Beacon Hill, on the Dallas Road, on property which reverted to the city at the present tax sale, or near the Aged Men's Home at the Willows. The Gorge site, however, on account of its central location and beautiful surroundings was ideal, the committee reported.

Mayor William Marchant warned the meeting that it might not be possible to secure the Gorge site because all this land, he understood, had been dedicated years ago to park purposes.

**Get Legislation.**

Alderman R. W. Perry suggested that if this were the case then new legislation allowing the use of the land as a tourist camp should be secured at the forthcoming session of the Provincial Legislature. This plan was adopted and the aid of the City Council, the Chamber of Commerce and other public bodies will be asked in an effort to secure the necessary legislation.

Mr. Warren told the meeting about his plans for the lecture tour which he is about to make through the Prairie Provinces. He also showed lantern slides of Island views that will be displayed before public organizations during his trip. The tour was warmly endorsed by J. W. Spencer, President of the Chamber of Commerce, who, with Vice-President J. O. Cameron, was among other Chamber of Commerce heads present.

Alderman David Leeming declared that Victoria must be made to include the surrounding municipalities and districts before it could tackle development plans in a big way. For that reason he urged the gentlemen present to support the enlarged Victoria scheme which the Greater Victoria Committee is pressing at present.

**ELDERLY CITIZENS MAY SECURE VOTE**

Must Make Declaration, But Do Not Pay Road Tax

Citizens sixty years of age and over need not pay the two-dollar road tax in order to place their names on the civic voters' list. Only registration is necessary.

Already quite a number of people who have attained the age of sixty have called at the City Clerk's office to register. While an individual who has reached the three-score mark, and who registered last year, legally is not required to again register this year in order to keep his name on the list, the City Hall has no means of knowing the age of the people registering, which might easily result in names being struck from the list because the road tax had not been paid, actually, the individuals in question were not required to pay owing to their age. For this reason people urged to check up their names at the City Clerk's office.

Anyone who is sixty years of age or over must be a British subject and have resided in the city since January 1 of this year in order to secure the franchise privileges. Men and women have equal voting rights in municipal elections.

**I Did Not Feel Like Working**

"I was in a general run-down condition with a weak back and a tired feeling so that I did not feel like working. My mother was taking Lydia E. Pinkham's Vegetable Compound and recommended it to me, so I have taken it and my back is better and I am now able to do my work. I recommend the Vegetable Compound to my neighbors and you may publish my letter."

—MRS. JOSEPH A. GREENIE, Box 47, Carbon, Alberta.

Lydia E. Pinkham's Vegetable Compound should be taken when you first notice such symptoms as nervousness, backache, weakness and irregularity. It will help you and prevent more serious trouble. Give it a fair trial.

**VICTORIA'S PRIVATE BILL DISCUSSED BY SAANICH COUNCIL**

Charge for Sewer Connections Outside Boundaries Criticized

The private bill which Victoria City will ask the Legislature to enact was last night discussed by the Saanich Council, and the City Council will be asked for further information as to two clauses.

A clause giving retrospective power to charge for sewer connections to city mains outside the municipal boundary was the chief point scanned. The authority desired will allow the city to charge for sewer connections outside the city limits delinquent in sewer connection fees.

Councillors considered that, as drafted, the city would have power to charge for small sums properties on which Saanich or other municipalities might have larger and prior claims for general taxes.

The city has no disposition to contest the city's proposals, but it was considered that the clause would be improved by inclusion of a provision that before such charges could be levied, the consent of the municipality concerned should be obtained.

Another clause examined deals with imposition of a year's head tax of \$5 on horses owned by the city streets. Councillors considered this clause should be widened to exempt farm horses from levy.

**Census Data.**

The Council was informed that the population of Victoria is 11,534, divided among the wards as follows: Ward One, 1,272; Ward Two, 2,514; Ward Three, 726; Ward Four, 1,495; Ward Five, 1,900; Ward Six, 1,212; Ward Seven, 2,271; Colquhoun Mental Home 125. The information was supplied by C. H. Dickie, M. P., who forwarded to the Council a letter from E. S. Macphail, of the Census Bureau. The population of Oak Bay is stated by Mr. Macphail to be 4,153.

**Wants Lighting Included.**

The Council had before it a draft of their proposed Municipal Council Chamber, when Councillor Watrous, that the suggested legislation "contains no provision for the cost of light or power charges, the only aspect of B. C. Electric affairs vital to Saanich." The Council will urge the Attorney-General to widen the scope of the proposed act to include regulation of light and power services and charges, by the Commission, the new act would bring into being.

**COST OF PAVING TYNDAL AVENUE CAUSES FLURRY**

A remarkable example of efficient municipal accountancy last night was staged at the Municipal Council Chamber, when Councillor Vainwright, without previous notice, challenged the cost of extending the paving of Tyndal Avenue and demanded production of all data affecting the expenditure of \$98,872.

Fyles were tabled by Clerk Cowper and in five minutes all wage vouchers, material, patents, road roller, tractor and truck charge sheets affecting the job were produced, the documents covering every cent being located with facile ease which surprised the councillors.

**APPEALS FOR CLEAN POLITICS**

Attorney - General Manson Declines Scavenging Methods

Tells Esquimalt Liberals of Party Responsibility

In an inspiring and fighting speech before a largely attended annual convention of the Esquimalt Liberal Association last night, the Hon. A. M. Manson, the Attorney-General, appealed for clean politics and high ideals in national thought and action. He referred at length to the attack made upon him by Hon. H. H. Stevens.

It was up to the people to think for themselves and they should choose their government representatives according to their own convictions and not merely follow the dictate of a party boss he declared. On the other hand, when those representatives were placed in the responsible position of administering the country's affairs it was their duty in turn not to follow the dictates of a party leader but to rise in the seat of government and express themselves in reality and according to their convictions regarding the settlement of any public policy, the minister said.

Mr. Manson was given a very hearty reception and his re-iteration of the charges and aspersions cast upon him by the ex-Minister of Trade and Commerce was greeted with applause and approval. He thought the practice of maligning and slandering opponents in politics had passed away in Canada, but it still seems to have a place in British Columbia, he said.

"Liberalism is something that needs no apology. Party politics is a very important matter and a man should not be afraid to take some part on one side or the other in public life. Good results in government cannot be expected by leaving the affairs of the nation to a committee. If public affairs were left to the people, there may be some mistakes, but on the whole the business of the country will be carried on satisfactorily and well," he proceeded.

"Liberalism is composed of men and women who think and act for themselves. It is therefore the duty of such associations as yours to aid and guide your leaders in the path that will mean the most for the most," said Mr. Manson.

**For What They Get.**

"The Conservative is more concerned as to what he can get out of the party, accepts the dictates of the leader and the aim is office. The Liberal puts his country first, and that is why we are proud that we are Liberals," said the speaker.

There was no sign of the Liberal party riding down the hill, and there was every indication of enthusiasm, activity, and optimism in the rank and file of the various associations.

The record of the Liberal government in British Columbia during the past five years would stand the test of comparison with any other province in Canada and therefore Liberals need not worry about things that were said by mis-leading opponents, whose charges and mis-statements would not be substantiated by investigation, the minister said.

**The People's Duty.**

Mr. Manson pointed out the great problems which any government of this province was of necessity confronted with, owing to the vast territory and the sparse population. The opposition forward with constructive criticism and assist the government to deal with these matters in the best interests of the people, if such was the aim in office. The Liberal puts his country first, and that is why we are proud that we are Liberals," said the speaker.

**Do People Want It?**

Referring to the scandalous statements made in a mainland paper recently about Premier Oliver, Mr. Manson disposed of this sort of words by asking "Do the people want that sort of thing?" Mr. Stevens had resorted to the same tactics but would prove a boomerang, he declared.

"The Province is alive with wealth awaiting population and development. We must get out and solve the problems confronting this Province which are different to those of other provinces. We need all the constructive suggestions we can get. Do we get it from the Opposition? No. They stoop to grovelling in the ash heap to find something they can throw at the men who have been chosen by the people of the country to fill positions of trust. To gain office they are prepared to sacrifice needlessly and thoughtlessly the good name of their own fellow-citizens. Here is where the Liberal associations can be of service, by proving themselves truthful apostles of the party and rendering all the assistance possible to make government a success.

Mr. Manson said that he did not wish to place all Conservatives in the category of Mr. Bowser and Mr. Stevens. "I think an splendid meeting on the other side of the house who are clean and good, but they are not as independent and as aggressive as they ought to be on occasion. They are too willing to accept the rubber stamp and as their leader looks through his colored political glasses at us to see everything that is dark and when they are willing to accept his dictates.

**SULPHUR CLEARS ROUGH, RED SKIN**

Face, Neck and Arms Easily Made Smooth, Says Specialist.

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ-destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as acne, pimples and ring worms.

It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvements quickly show. Sufferers from skin troubles should obtain a small jar of Mentho-Sulphur from any good druggist and use it like cold cream. (Adv.)

his hand ready to oust him from his place," he declared.

"Retribution is coming to the man who knifed Sir Richard," explained Mr. Manson. "Again we see in Mr. Stevens the spectacle of a man who has been drawing up a ladder with a knife in his hand prepared to draw it down the back of the man who is now opposition leader. I do not think the man behind will succeed, however, for Mr. Bowser has not lost his sense of strategy."

"Bowser realized that the task he has set Stevens as scavenger will so besmirch the latter that he will never be able to overtake the present Conservative leader," concluded Mr. Manson, who wished the Esquimalt Liberal Association every success in the good and faithful work they had set themselves to carry out.

**Rare Raisin Pie AT FLYING FIELD**

Chinese Aviator Grazed by Propeller When Starting Engine

Falling to clear himself from the arc of the propeller by a fraction of a second, Lee Joe, a pilot of the Chinese Commercial Aviation School, sustained injuries yesterday afternoon at the temporary aerodrome, Wilkinson Road. The aviator was removed to hospital for an X-ray of his injuries, the left thigh being cut and bruised.

The accident happened at 5 p. m. when Lee Joe was swinging the propeller of a Curtiss J. N. 4 aeroplane, used as an instructional machine, for another pupil who was about to make a flight.

The engine fired, and the blade commenced its rotation. Lee Joe, an experienced student who has been piloting a machine alone for some time, was a little too late in standing clear. Lee Joe is now progressing satisfactorily at St. Joseph's Hospital.
