FRUIT-HANDLING SUPPLIES

FOR YEARS The Farmers Union has helped the fruit-growers of this valley by furnishing the best supplies of all kinds to be had. We are now ready with—

Caustic Soda

GIANT CAUSTIC SODA in 10-lb., 50-lb. and barrel lots.

Picking Pails

BEST you can buy. Priced at 50c. Also—fruit knives, pitters, etc., at 5c up.

Babbitt's Lye

WHEN YOU'RE ready for lye—and sulphur—here it is. Get your supply now.

Fruit Ladders

THERE ARE ladders—and ladders—but the Parson Fruit Ladder seems to meet the needs of growers just about perfectly. Per foot, 35c.

R G DUNNING

Keep the home soils turning.
Have you had a pair of work shoes made over the Munson last? If not, then you have missed just that much comfort and ease. Price \$5.50 at E. E. SOWER'S.

Wanted: To rent for one week a baby carriage. Phone 7J.

Mrs. Claude Inman of Bakersfield is visiting the C. S. Inman family.

Harriet Dunphy is spending the week at Capitola with Joyce Robson.

Vernon Robinson, son-in-law of Mrs. David Craig, who is enlisted in the Marines was visiting his wife and relatives last Sunday.

Mr. W. H. Lloyd is able to be out again after a very bad siege of poison oak contracted on a trip to Santa Cruz the 4th where part of the family enjoyed the day.

Our office is in receipt of a copy of "The Tracy Press" containing an article by H. A. Hull, the editor, announcing his departure for a three week's vacation, during which time Mr. A. E. Haugh of Campbell is occupying the editorial chair and wielding the office shears.

H. W. Higbie has sold the house on the south of his residence on Johnson avenue to J. R. Smith, who comes from the vicinity of Kansas City. Mr. Smith and family expect to occupy their new home within two weeks. This is a very attractive house with a beautiful outlook and the new residents will undoubtedly enjoy it.

Enjoyed Trip

The following excerpts have been made from a letter sent by Vivian Priestly to his mother. Much that was interesting had to be omitted owing to the length of the epistle.

May 23, 1918.

Dear Mother:

We went by the Santa Fe road, our first stop being at Bakersfield. There we were met by red cross girls who gave us all kinds of things thru the windows. We were not allowed to leave the train at all unless we marched all together. Our first night on the train was some class, two slept in the lower berths and one in the upper. In the morning the train stopped at Needles, Cal., and we got out and had a little exercise. It was ten o'clock before we got any breakfast. Wow! but we were hungry! We soon left Old California behind and began to go through Arizona. For a day and a half we went through deserts. Nothing but flat hot land without trees or grass. We went through Kansas and it is as pretty as can be. There are farms and farms and farms. Every thing grows and the little towns along the tracks bristled with service flags and red cross flags and liberty loan too. We stopped at Chicago for a while but we couldn't see the city from the train shed. From Chicago on we saw lots of manufacturing plants and steel smelters and all kinds of things. There were lots of cities on the way that were not very interesting but one thing was mighty fine. That was Lake Erie. We rode along the shore and then we cut across on a big tressle for miles. Nothing but water on either side and we could see the lake steamers and the city lights all around the shores. We rode along the Hudson river for miles and the scenery was the greatest I've seen for a while. We passed the West Point Military Academy and Sing Sing State Prison of New York. About six o'clock we arrived at the train yards of Weehawkin, a town near N. Y. and stayed in the sheds over night. In the morning we left the train and unloaded all our baggage on trucks and loaded it on a ferry which took us down the Hudson river and the East river to Long Island. We saw steamers all along the docks and the big sky scrapers of New York and the Statue of Liberty. It stands as high as the old tower in San Jose. We also passed under Brooklyn bridge. It is some bridge. The steamers and ferries pass under it like a rat under a door way. There were three bridges just like it but one had two decks. Trains crossed on the lower one and electric cars and autos on the upper one. When the Ferry stopped at Long Island we had to unload the ferry and put all the chests and bags and crates on trucks and wheel them about half a mile over freight yards to the Long Island train. Then we started for our camp as hot and tired as we could be. It was about twenty miles ride. On the way to the camp we passed a few small towns and pretty roads. There are lots of nice homes on Long Island. Soon I heard a funny noise that sent a thrill through me and I looked out of the window to see what it was and there was an aeroplane. Soon we saw another and another, till soon the sky was specked with them like the fields with black birds when the corn is planted. They hummed and roared and chased all over the place. When the train stopped and we got out I found out that the biggest aviation school in the U. S. was right where we were and the Curtiss factory too. We put up tents and got things in order. The next thing was a good bath and change of clothes. Then we felt better. There are nothing but tents thousands of them. The camp is about as big as San Jose; but it is a poor place and not going to be used this winter because there is no sewage system nor any conveniences at all. It is a fine place this time of the year though. The climate is great. We have nothing but cold water. Cold showers and cold water to wash clothes. That's what makes it such a bad camp.

I decided to go over to the flying school and see what I could see. After being halted twice I went along right to the hangars where the machines were and watched to my heart's content. They were about as pretty a sight as one could see. All brand new with a big red, white and blue circle with a star in the center, under the wings. All Curtisses with Liberty motors made in San Francisco. Most of the instructors are French. One Frenchman had a little machine that flew like a hornet and roared like a swarm of them. He couldn't fly, well, then birds can't either. He started off with a roar and shot straight up in the air. He flew until he was a little speck then he darted down at a speed that made my blood run cold until he nearly came down then with a roar he turned straight up in the air and over backwards and flew upside down for three or four big loops. He got up in the cloud one time and came down like a feather just falling, spinning and side slipping and spiralling. Then he

Local and Personal

Irene and Henrietta Toles are visiting their mother at San Francisco.

Gilbert Newcomb is home from Camp Kearny on a seven day's furlough.

Mrs. Lillie F. Shaw went to Oakland on the 4th for a week's visit with relatives.

Mr. and Mrs. W. W. Powell and daughters are here for ten days from their ranch at Durham.

Mrs. Mary Bush of San Francisco is the guest of her friend, Mrs. W. T. Alexander of Casey Road.

Gilmore Duncan returned last week from the San Joaquin valley where he spent two weeks in the hay fields.

Mrs. J. Caldiera and little daughter of Hayward were the guests of Mrs. Sonto last week, returning home Monday.

Chas. Lloyd who is in the engineering department for the Standard Oil at Richmond, was down over Sunday.

Mrs. J. C. Ainsley accompanied by Miss Dorothy and Gordon went to Asilomar Monday for a week's outing.

Frank Mendel and Edward Vandergon returned Wednesday from their month's training at the R. O. T. C. at the Presidio.

Mrs. E. C. Merrill and daughter, Elsie are visiting friends in San Francisco, and the twins are staying with Mrs. A. P. Merrill.

Mrs. Lucy Smith and daughters, Marion and Ada, left Friday morning for a visit with Mrs. George Harlan at Lucia, Monterey Co.

Mrs. M. E. Hill and Miss Marshman are again residents of Campbell, being located with Mrs. Gilman until their own home is ready for occupancy.

Rev. Atkinson has heard thru outside sources of the very fine work which his nephew, Lieut. Woodard, is doing at the aviation finishing school in France.

Gordon Smith returned last week from his outing in the Big Basin with a badly infected hand. It is yielding to treatment but has been a very painful companion.

Jas. Moyle and family visited friends in Campbell last week. Mr. Moyle reports business pretty good and is enjoying a vacation at this time. He has a fond spot for Campbell and longs to get a small patch of dirt to dig in this vicinity.

Thru an inadvertance the names of Mrs. Lottie L. Miracle and Charles Berry were omitted from the list of members of the Limit Club furnished us for publication last week, and C. E. Day has joined since. This brings the number to 22, certainly a very good showing.

Mr. and Mrs. Wm. Savaker (nee Bernice Lloyd) arrived Thursday from Oregon, where they have been living since their marriage. They have decided to make their future home in San Jose or San Francisco, in both of which places Mr. Savaker has had a position offered.

Tuesday afternoon a bundle of garments was sent in to the Junior Red Cross, including girls' dresses, and pinafores (new), two knitted crib quilts, boys' trousers and two feather pillows. The boys' blouses were begun and with even a few workers much is accomplished. Every one who can help will be very welcome at the Grammar school Tuesday afternoons. Girls and young ladies who can sew are invited to help in this worthy work.

There is one business in Campbell which is evidently not suffering from the prevailing scarcity of labor. From the first day of May to the sixth day of July, the Campbell Water Plant was operated continuously 66 working days, 24 extra hours (besides several the president of the company put in himself), and 27 nights without extra help except a few repairs by local men. In that time every body who wanted to irrigate got water and the tanks were also kept full for general use.

ddecided to come down so he went way up again and came nose first like a bullet. We could hear the wind roaring past him. When he came near the ground it looked as though he could never gain control of it again but he just flipped her tail and landed like a hawk. Gee! but it was great! There were all kinds there.

The barbers stop you and yell at you and photographers get in front of you with their cameras. You have to pay fifty cents for a pie and seventy-five cents for a cup of coffee and a little eats. Shows are about three fifty a seat. They are just high way robbers. Where we got off at the Ferry a soda fountain guy wanted two bits for a bottle of pop. A fellow named Spence gave him a silver dollar and he looked at it for about a minute before he could decide whether it was good or not. You know, here they use only paper money.

VIVIAN PRIESTLY,
Medical Detachment, Army Artillery Park, Camp Mills, Mineola, Long Island, N. J.

Have You Tried "Hebe"?

The introductory price of Hebe Milk is 5c for the small cans, 10c for the large cans. It is cheaper than ordinary brands because it is a little different.

Hebe Milk is a compound of evaporated skimmed milk and 7.8 per cent vegetable fat. The flavor is rich and satisfying.

Although Hebe Milk may not continue to be so cheap as at present, it will always be lower in price than ordinary brands, and it is equal in food value to any other evaporated milk.

When The World Will End

When lawyers fail to take a fee
And juries never disagree;
When politicians are content,
And landlords don't collect their rent;
When parties smash all the machines,
And Boston folks give up their beans;
When naughty children all die young,
And girls are born without a tongue;
When ladies don't take time to shop,
And office holders never flop;
When preachers cut their sermons short,
And all folks to the church resort;
When back subscribers all have paid,
And editors have fortunes made;
Such happiness will sure portend,
This world must soon come to an end.

LOVE AND MARRIAGE

ALWAYS A FRUITFUL SUBJECT FOR DISCUSSION.

It Has Been Said That Almost Any Woman Can Ensnare the Man She Chooses if She Uses Power She Possesses.

The various methods employed for the capturing and ultimate permanent capturing of mere mankind have been a fruitful subject for discussion this many a day. The season's new books are full of it. "Any woman can have any man she likes if she pursues him vigorously enough, or eludes him—either does," says Doris Edgerton Jones in "Time of Day."

Most decidedly it depends on the man, says Ellen Adair. The average man detests being openly and obviously run after. For assuredly it brings upon his head the ridicule of his fellow men and the scorn of his feminine acquaintances.

According to Thackeray, any woman with fair opportunities and not actually a hump can marry whom she pleases—but he adds that it is mercy that the little dears are like the beasts of the field and do not know their own power!

"Faint, Yet Pursuing," is their motto, and one which they will get leave to follow to the bitter end, alone and unattached. And all because a lack of diplomacy is there.

For love is, after all, the great adventure. It is at the same time the most entertaining and most satisfying thing in the world. To quote a recent novel, "Love is good for anyone. It's the most educating thing in the world."

Alfred Francis, composer of "The Love Mill," was examining girl applicants for places in the chorus. When he asked one her name she replied, "Minnie Sota."

It would appear, then, that according to the opinion of the last-named, the matter of love is fraught with strange difficulties and obstacles. Be that as it may, there's nothing half so sweet in life as love's young dream.

Expert Opinion. The late Henry Beach Needham, the flying expert who was killed with Lieutenant Warford in France, was often consulted by aeroplane inventors.

An inventor from Seattle submitted a triplane model to the young expert last spring. Mr. Needham studied the model attentively for an hour. Then he laughed and said: "I'd advise you, my friend, to try your hand now at inventing a submarine for one of the belligerents."

Blurred Speech. The use of the ungrammatical colloquialisms of which we are all more or less guilty has a deleterious influence on the character. Slang has the same effect. They put a person in a rut where one gets along without thinking. But the wrong of the opposite situation reveals it.

Demonstrators Teach Value of Potatoes

By the U. S. Department of Agriculture

Thirty million bushels of potatoes, the estimated surplus of last year's crop, must be eaten before July 1 or they will rot. Potatoes are a cheap food now in most places. At two cents a pound they are equal in food value to bread at eight cents a loaf.

Fifteen hundred home-demonstration agents of the United States department of agriculture and the state agricultural colleges are ready to push the potato along a well-paved way. They are teaching how to use mashed potatoes as a substitute for wheat flour in breads and pies and cakes; they are giving instructions in the making of potato loaf and scalloped and baked dishes.

In the cities the gospel of potatoes for patriotism is spread through the war kitchen, the neighborhood centers, the clubs, the churches, demonstrations in settlement houses, talks before Red Cross auxiliaries, etc. Potato booths are being arranged in the local food shows and in the retail stores and the schools and clubs are being enlisted in the big drive.

In the country the work is not so spectacular but just as telling, for through the county organizations and the home-demonstration agents' voluntary workers the potato idea is carried directly to thousands of women in their own homes.

These home-demonstration workers are dedicating their time and energy to the work of aiding the women of the country in their war-conservation problems and are proving more and more every day that this is the most direct and practical route for carrying an idea into the hearts and homes of American women.

IT IS TO LAUGH

Bears it Manfully. Lady of House—Don't you ever get tired of doing nothing? Tramp—Oh, yes, mum; but I never complain.

Necessary Expenditure.

"I say, Brown, can't you manage to pay me that \$10 you owe me? I need the money." "Awfully sorry, old man, but I can't do it."

"That's just it. The thought that I owe you money is worrying me so that I have to do something to help me forget it."

His Wife's Fault.

"This man says you owe him money, Sam," said the judge. "Dat's right, judge, I does." "Well, why don't you pay him?" "Why, I hain't got nothin' t' pay him with," judge.

Enough Cud!

"Well, my real name is Skoopyey and—" "Sufficient!" said Mr. Francis. "Your apology is ample."

Just One Word.

"Henry, you ought to know a little German before you go abroad. Suppose you are captured? You will want to know what the Germans are saying to you."

Their Dilemma.

May—Dick Welles told me last night he loved me, but did not ask me to marry him. Bella—And he asked me to marry him, but didn't say a word about love.

Few Senators Present to Hear the Opening Prayer

Some time ago, when the archbishop of York, primate of England, was in Washington he prayed at the opening of a session of the senate. Most of the senators were present. They all listened devoutly and attentively and when the archbishop wound up with the Lord's prayer they joined in with him. There is nothing very extraordinary or striking about this incident until it is considered in connection with the attendance of the senators on ordinary occasions when prayer is offered in the senate chamber.

Mother's Cook Book.

Little cubes of sugar, Little grains of wheat—Save them with the bacon And other kinds of meat. Every dinner table Wherever people eat, Will help decide the verdict—Victory or defeat.

Cherry Time.

Cherries, like other small fruits, may be canned without cooking. Crush the fruit well and mix with equal parts of sugar; stir until the sugar is well dissolved before canning. Care should be taken that the jars are sterilized, and that they are perfectly sealed; then keep in a cold place.

A few preserved cherries to use as a garnish for various dishes are quite an addition to the fruit closet. When canning cherries, if a kernel or two of the pits are added to each jar, the flavor of almond, which is most delicate, is given to the fruit.

The Royal Ann, which is a sweet, juicy cherry, makes a most delicious salad. Sprinkle the cherries, after pitting them, with a little lemon juice and sugar. Served in a fruit bowl, garnished with cherry leaves, one has a most refreshing breakfast dish.

A pretty garnish for cherry jelly or other desserts is the fresh cherry left in bunches with the stems on, dipped in powdered sugar. Arrange around the jelly or molded dessert.

Cherry Fritters.

Make a batter of a cupful and a half of flour, barley or corn flour, mixed with equal parts of wheat flour; sift with two teaspoonfuls of baking powder, a half teaspoonful of salt and one half cupful of milk, one beaten egg. At the last add a cupful of pitted cherries that have been covered with sugar and allowed to stand for an hour. Drop by spoonfuls into hot fat, and fry to a golden brown. Serve with a sauce made from the cherry juice and sugar.

Cherry Conserve.

Chop one pound of raisins, two pounds of cherries, three oranges, (juice and rind), and cook with four pounds of sugar for 20 minutes. Seal in small jars. This is delicious.

Cherry Salad.

Remove the pits from large, dark cherries like the "Bing" and fill the cavities with blanched filberts. Arrange a few on head lettuce and serve with French dressing.

Nellie Maxwell

City Boys Keener of Ear Than Are Country Fellows

English army doctors, finding city boys keener of ear than country boys, adopt the theory that the quietude of rural districts explains the difference, says the New York World. Urban noises, they argue, keep the aural nerves in a state constantly responsive. Looking across seas, these savants may discover that the keenest human ear ever known, those of the Indians and the frontiersmen, have been developed in the silences of American forests and prairies. It seems probable that hearing, like many another faculty, depends for its active strength upon the exercise due to necessity. It is, in fact, rather than noise, which keeps a listener's nerves on the alert.

The New Beginning.

Almost everyone believes in the principle of making a new start. When we fail we comfort ourselves with the hope that we can try again. But we must not forget that in starting again one of the most important considerations is just where we should make this new start and how to begin it.—Exchange.

DAIRY FACTS

SLAUGHTER OF DAIRY CATTLE

Because of Lack of Feed in Europe Many Animals Have Been Killed—Milk Supply Decreased.

(Prepared by the United States Department of Agriculture.)

Although dairy cattle are economical users of feedstuffs and although they will convert coarse, inedible material into a human food, still they must have some grain for maximum production. When animals convert feeds, such as grain, that can be used direct by human beings, they usually do so at a loss of human food. In times of extreme food shortage, therefore, animals are killed for human food and the grain used directly. In some of the continental countries this policy has been followed because of the lack of feeds and the need of meat. Most of the dairy countries of Europe have depended upon imports for a large part of the grains or concentrates for dairy cattle. This supply has been largely cut off, with the result that in some countries there has been a tendency to decrease the number of animals. Because of these facts, millions of dairy cattle have been slaughtered in Europe since the war began. The lack of milk that has resulted has entailed great suffering in some sections, especially among children. It is important, therefore, that such a situation be prevented in this country so far as possible. If, by economical feeding and the utilization of feeds that are not necessary for humans, the dairymen of the country could conserve their herds until after the war, they would render great service to humanity. With the great number of animals killed in Europe and the increase in the rate of slaughter as the war continues, the food shortage becomes more serious. When the struggle is over it will be impossible to meet at once the demand for milk in the countries where the greatest number of cattle have been killed.

Efforts will be made, of course, to increase the number of dairy cattle, but this requires time—several years, in fact. The supply of grain, on the other hand, can be increased more rapidly, but there will probably be demand upon us for products from the dairy, as well as for foundations for herds, provided we keep our supply of good animals. This should be considered another reason for increasing, or at least maintaining, the herds of dairy cattle in this country.

ORIGIN OF HOLSTEIN BREED

Comes From the Northern Part of Holland, Where It Has Been Bred for Centuries.

(Prepared by the United States Department of Agriculture.)

The Holstein-Friesian, commonly known as the Holstein breed, originated in the northern part of Holland, where it has been bred for centuries. Holsteins have grown greatly in numbers and popularity in recent years in this country and are most numerous in the United States in the middle Atlantic, middle Western and Pacific sections.

Purebred Holstein Cow.

Holstein cattle are of black and white color. They are docile and even tempered, not good "rustlers," and do best when plenty of feed is available. Holstein cows average about 1,250 pounds and bulls 1,800 pounds in weight. The average of milk production is high, but the percentage of butterfat is comparatively low.

Among Holsteins, 3,200 cows that had completed a yearly record for advanced registry averaged 14,027.7 pounds of milk, testing 3.424 per cent butterfat, amounting to 500.7 pounds of fat. The ten highest producers of this breed averaged from 31,248.9 to 28,266.4 pounds of milk, an average, for these ten of 29,898.4 pounds of milk. The ten highest Holstein butterfat producers averaged from 1,205.09 to 1,017.28 pounds, an average, for these ten, of 1,090.89 pounds of butterfat.

MUCH SKIM MILK IS SAVED

Large Quantities Formerly Thrown Into Sewer Now Made Into Cottage Cheese.

One creamery in the state of New York is condensing every day 25,000 pounds of skim milk, much of which formerly was run into the sewer, and several creameries now make their entire supply of skim milk into cottage cheese. These examples are cited in the annual report of the bureau of animal industry, United States department of agriculture, as showing savings effected through the campaign for conservation of all products that can increase the supply of food.

Value of Farm Products

Nearly Doubled in the Past Two Years

In the years when cotton lint was sold by farmers at a low price, and when cotton seed was little used and was more likely a waste and a nuisance, the cotton crop was outranked in value by corn, hay, and usually by wheat, so that it was commonly the fourth crop in order of value. By 1899 cotton had taken precedence of the wheat crop, although the exceptional situation during the first two years of the present war gave wheat the higher place. Gradually the cotton crop, lint and seed, climbed over the great hay crop, and thus has cotton become in recent years second only to corn.

The corn crop of the United States is by far the most valuable agricultural product. When the colonists at Jamestown and Plymouth were saved from starvation by the corn provided by the Indians, this was a common Indian crop east of the Great Plains, and its annual production at that time has been estimated to have been possibly 2,000,000 bushels.

Corn at once became the mainstay of the agriculture of the whites, and the value of this crop, at farm prices, according to the estimate of the United States department of agriculture, reached the extraordinary total of \$4,054,000,000 in 1917 for 3,159,000,000 bushels, the largest and most valuable crop of corn ever grown. The cotton crop is next below in value, with an estimated production of 10,949,000 bales of 500 pounds gross weight, worth at the farm, \$1,518,000,000. When \$327,000,000 is added for seed, the aggregate value of the cotton crop of 1917, at farm prices, becomes \$1,845,000,000.

Hay is not the joke that the funny writers would have it. Indispensable to proper crop rotation and to stock keeping, hay often contended with both cotton and wheat for a place next to corn in value, but in the order of crop values in recent years it has a settled third place, below corn and cotton, and usually above wheat before the present war. In 1914 to 1916 it was slightly exceeded in value by wheat, but it resumed its third place with emphasis in 1917, when the value of the crop was \$1,567,000,000 for 95,000,000 tons, both quantity and value making the highest record, while the wheat crop value was \$1,307,000,000 for 651,000,000 bushels.

Oatmeal was only for the sick, many years ago, and was sold by drug stores; now, this food, more especially in the form of rolled oats, has become dietary, and horses and other live stock share the large crop with their owners. In both production and value the oats crop of 1917 exceeds that of every former year, and the 1,587,000,000 bushels have a farm value of \$1,061,000,000. This is regularly the fifth crop in order of value.

The potato crop of 443,000,000 bushels in 1917, the record crop, has a producers' value of \$554,000,000. A very rough estimate gives the value of \$298,000,000 to the log, lumber and wood production of the farm. This is the production of what is often called the farmer's wood lot, but in some parts of the country the "lot" is often a sizable forest.

The tobacco crop of 1917, also, is at the top of the record, the 1,196,000,000 pounds being worth \$297,000,000 to the farmers. Below this, in order of value, follow the barley crop with a farm value of \$237,000,000; apples, \$213,000,000; kafir corn and milo maize, \$131,000,000; dry edible beans, \$111,000,000; peanuts, \$107,000,000, and rye, \$100,000,000.

Every other crop has a value less than that of rye. An estimated value of \$96,000,000 is given to sweet potatoes; of \$88,000,000 to rice; of \$61,000,000 to peaches; of \$46,000,000 to sugar beets; of \$39,000,000 to onions; of \$35,000,000 to cabbages; of \$34,000,000 to oranges; of \$28,000,000 each to sugar cane and buckwheat; of \$25,000,000 to flaxseed. At the lower end of the scale are "sorghum cane sold" (largely for forage), and sirup, \$24,000,000; clover seed, \$17,000,000; broom corn, \$16,000,000; and pears, \$15,000,000.

The grand aggregate farm-crop value of 1917 is \$13,610,000,000, an increase of 97 per cent over the \$6,907,000,000 of 1915, or nearly a doubling in two years.

Prevent Food Losses

Perishables Can Be Saved by Careful Handling

(By the United States Department of Agriculture.)

Important amounts of perishable foods are made dangerous or inedible in households because they are exposed unnecessarily to heat, moisture, germs, dust, dirt, or to flies and other insects.

Much milk spoils quickly because it is kept uncovered in warm kitchens. Close observance of the doctrine, "Keep perishable food, especially milk, cool, clean and covered continuously," may make a striking difference in the food bills of many families.

Fresh vegetables not needed immediately for other purposes should not be thrown out or allowed to spoil, but should be used in making soups, salads, or combination dishes. Fruits are sometimes allowed to go to waste which might be stewed and kept a day or two until needed.

Vegetables and fruits should not be stored in quantities in hot, damp, and poorly ventilated bins. Such conditions hasten wilting, fermentation and decay.

Surplus fruits, beans, tomatoes and other vegetables produced in home gardens should not be allowed to spoil on the vines or rot on the ground. A morning's work would can and preserve such surpluses for use when fruits and vegetables are scarce and high in price.

Much food, ruined by being stored where flies or other insects, or rats and mice can get at it, can be saved if it is given proper care. Much cereal food is ruined because it is not kept in cans or other suitable containers and protected against weevils or other insects. Prevent such losses by careful handling.

With the Inventors.

A French system of rapid telegraphy by which 40,000 words an hour can be transmitted has worked successfully for distances up to 900 miles in that country.

Cantilever supports under a new motorcycle saddle eliminate all movements other than those in a perpendicular direction and thus absorb the more serious shocks.

Experiments are under way in England with a new fuel for automobiles that is made from sugar refinery refuse and is said to have greater power than gasoline.

Automobile oil is now conveniently put up in cone-shaped containers, and to empty one the point is cut off with a pocket knife and the end thrust into the engine port, into which it drains.

Slabman Jack Coombs, After Amassing Big Money, Declares He Will Retire This Season

Jack Coombs, who left Colby college in 1905 to become a major league pitcher with the Mackmen, and made good right off the reel, is still rated as an effective slabman.

When his arm is right he is one of the hardest pitchers in the National league to beat, and he has long been a hoodoo to the Giants, who have

Jack Coombs, Pitcher.

more trouble beating him than any other pitcher on the Robins' staff.

This is Coombs' eleventh year as a major league pitcher, and he says it will be his last. He announced his plan to retire from the game during the training season at Hot Springs, and as he has earned big money and is well "heeled," he will probably make good his plan to retire.

Deer Do Not Interfere With Eradication of Cattle Tick

(By the United States Department of Agriculture.)

In regions where campaigns to eradicate the cattle fever tick are being carried on, the presence of deer does not interfere in the success of permanently banishing the parasite. This has been proved in California, where deer are numerous in formerly tick-infested regions which are now free from the parasite.

"Deer were known to be plentiful on many of the large California ranches that were tick-infested," said one of the federal inspectors now working in Southern states, "and deer killed on these ranches were often found infested."

"It was our experience in California that as soon as the cattle tick was eradicated from cattle the deer in that section were no longer found tick-infested. This seems to justify the theory that, as the deer is not the natural host of the fever tick, deer which do become infested with cattle ticks are infested by seed ticks which are the progeny of ticks developed on cattle."

BUYERS GUIDE AND BUSINESS DIRECTORY

ARTIFICIAL LIMBS
ABDOMINAL supporters, rupture trusses, elastic stockings, crutches, wheel chairs. Dickson Bull Co., Mfrs. 2216 Telegraph, Oakland.

AUTOMOBILES & ACCESSORIES
AUTOS Bought, Sold and Exchanged. Terms to Buyers. The Used Car Market. Golden Gate and Polk, San Francisco.

Dividends not called for are added to and bear the same rate of interest as the principal from July 1, 1918.
H. C. KLEVAHL, Cashier.

MARRY Thousands of lonely, congenial people, all ages, worth \$5,000 to \$50,000, seeking marriage; descriptions free. R. Y. HYDE, 222-A Minna St., San Francisco, Cal.

EARTH UPON EARTH.
(A Mediaeval Poem Revisited)
Earth upon earth hath woefully wrought;
Now earth bringeth earth to nought;
For earth on earth hath sought
How earth to ruin be brought.

Earth sendeth on earth the dearth
Of exquisite youth and mirth,
Starving the fire on the hearth,
Cheating new life of birth.

Earth winneth on earth but power
To curse the final hour
When earth by its grief will cover
And gaze on its desolate dower.

Earth turneth from earth sad eyes
Unready to be wise;
Earth, sickened for holy skies,
Remembereth Paradise.

—Laura A. Hibbard in the Atlantic.

HAVE YOU A SWEETHEART.
Son or Brother in camp or training for defense? If so, mail him a package of Allen's Foot-Paste, the antiseptic Powder for Tired, Aching, Swollen Feet, and prevents blisters and sore spots. Makes walking easy. Sold everywhere, 25c.—Adv.

Horse Too Expensive.
Physical culture was the topic being talked in a Washington club when Senator J. Hamilton Lewis of Illinois said he was reminded of the view that was taken in that connection by a man named Jones.

One day Jones was complaining that he was not feeling as fit as usual, and a friend suggested that he go in for exercise.

"There's horseback riding, for instance," said the friend. "It is one of the best forms of exercise on earth."

"I know," was the doubtful rejoinder, "but I am afraid I couldn't afford it."

"Can't afford it!" wonderingly exclaimed the other. "You already have a horse, and just think of the appetite it will give you."

"Yes," responded Jones with a sigh, "and just think of the appetite it will give the horse."—Philadelphia Telegraph.

"BEST MEDICINE FOR WOMEN"

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for women's ailments I ever saw."—Mrs. SARA SHAW, R. No. 1, Portsmouth, Ohio.

Mrs. Shaw proved the merit of this medicine and wrote this letter in order that other suffering women may find relief as she did.

Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years experience is at your service.

CALOMEL SELDOM SOLD HERE NOW

Nasty drug salivates, makes you sick and you lose a day's work.

Every druggist in town—your druggist and everybody's druggist has noted a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.—Adv.

Poor Judgment.
Young Wife (at dinner table, sobbing)—I think you—you are just as mean as—as you can be. I made that—that apple dumpling as a pleasant surprise for you, and now—and now—you want me to bring a meat saw to cut it in two with.

Young Husband—Good gracious, Marie, is that a dumpling? I took it for a cocoonant. (With desperate firmness) I'll eat it now, if it kills me.

Have a Clear Skin.
Make Cuticura Soap your every-day toilet soap and assist it now and then by touches of Cuticura Ointment to soften, soothe and heal! For free samples address "Cuticura, Dept. X, Boston." At druggists and by mail, Soap 25, Ointment 25 and 50.—Adv.

History Repeats Itself.
Hub—Any callers today, dear?
Wife—Only the Floods—quite informal—just ran in to escape the shower.
Hub—I see; "the rains descended and the Floods came."

Their Way.
"Trees have a paradoxical way of showing their vitality."
"How so?"
"They show their staying powers best when they leave."

A Dialogue in 1820.
"Hello, old man! Been abroad haven't you?"
"Yes; just got back from Europe."
"Have a pleasant trip?"
"Fine! I wasn't air-sick a minute."

TO BUILD UP both the flesh and strength of pale, puny, serfulous children, for young or old people, get Dr. Pierce's Golden Medical Discovery. It's the best thing known for a wasted body and a weakened system. It thoroughly purifies the blood, enriches it and makes effective every natural means of cleansing, repairing, and nourishing from fevers, pneumonia, or other debilitating diseases, nothing can equal it as an appetizing, restorative tonic to bring back health and vigor. Always benefits in nervous and general debility. Sold in tablet or liquid form.

Purify and rid your blood of the taints and poisons that make it easy for disease to fasten its hold.

Dr. Pierce's Pellets were first put in ready-to-use form nearly fifty years ago, and will always relieve the inactive liver and biliousness. Insist on getting Doctor Pierce's Pleasant Pellets—there is none so good.—Adv.

Hans Wagner's Idea of Size Was Right When It Came to Building Golf Ball Mound

Barney Dreyfuss always delights in recounting the tale of Hans Wagner's first golfing experience.

"Some years ago, while the Pirates were training in Hot Springs," declares Dreyfuss, "some of the enthusiastic golfers tried to get Wagner interested in their game. But for a long time Honus would not entuse. At last, however, they succeeded in luring him to the links and armed him with a driver and a golf ball.

"Honus grabbed a handful of earth and built himself a huge mound, on which he placed the ball. Just as he was about to drive off, one of the expert golfers, horrified, hurried over and grabbed the club of the Dutchman.

"Oh, my dear fellow," he exclaimed, "you never can accomplish anything with such a high mound for your ball."

"And then the golfer lifted up the ball, kicked Wagner's four-inch mound to dust and built another about a half inch tall, placed the ball on it and then, turning to Wagner, ejaculated:

"There; that's about the proper height."

Wagner surveyed the new mound and then said:

"I think I like the higher one better," and at once rebuilt the mound to its original four-inch size.

"And then, while the veteran golfers sadly shook their heads because of the 'fool idea' of Wagner, the Dutchman swung, caught the ball fairly, and made the longest drive ever recorded on Hot Springs' golf course."

Bread From Cotton Seed; Provides Salad Dressing and a Butter Substitute.

The cotton plant, upon which the world depends so largely for clothing, is rapidly increasing in importance as a food producer. Oil from the cotton seed, formerly almost monopolized by makers of high grade soap, now appears upon the table in the form of palatable salad dressing and also as lard and butter substitutes. More recently the seed has been made to yield a flour from which bread pleasing to the taste and as nourishing as lean beefsteak is baked. A bakery in a Southern city is selling 400 loaves of it a week.

The annual value of cotton seed products is placed at \$250,000,000, one-half the output being used for food. Farmers are now receiving \$40 to \$50 a ton for the seed, as compared to \$6 or \$7 a quarter of a century ago. The yearly crop is about 5,000,000 tons, a great asset to the consumer at this time of extreme high prices for pure lard and dairy products.

Interesting Facts
Less than two in every 10,000 factory operatives meet death from accidents connected with their work.

A recent 12½ per cent bonus to British munition workers is costing the country \$700,000,000 a year.

Two thousand four hundred college men have been enrolled for work in shipyards for the duration of the war.

The federal bureau of mines reports that there were 2,693 fatalities in the coal mines of this country last year.

Canadian unions want a labor representative on the committee to aid vocational training among returned soldiers.

Dimensions of Capitol.
The entire length of the capitol building at Washington from north to south is 751 feet 4 inches, and its greatest width from east to west is 350 feet. The area covered by the building is 153,112 square feet. The dome is of cast iron; its height above the base line of the east front is 287 feet 5 inches; the diameter of its base is 135 feet 5 inches. The bronze statue of Freedom on the top of the dome is 19 feet 6 inches high and weighs 14,985 pounds. The rotunda is 96 feet 6 inches in diameter and its height from the floor to the top of the canopy is 180 feet 3 inches.

Meat Must Be Sold

Fresh meat is perishable. It must be sold within about two weeks for whatever it will bring.

A certain amount of beef is frozen for foreign shipment, but domestic markets demand fresh, chilled, unfrozen beef.

Swift & Company cannot increase prices by withholding meat, because it will not keep fresh and salable for more than a few days after it reaches the market.

Swift & Company cannot tell at the time of purchasing cattle, what price fresh meat will bring when put on sale. If between purchase and sale, market conditions change, the price of meat must also change.

The Food Administration limits our profit to 9 per cent on capital invested in the meat departments. This is about 2 cents per dollar of sales. No profit is guaranteed, and the risk of loss is not eliminated.

As a matter of fact, meat is often sold at a loss because of the need of selling it before it spoils.

Swift & Company, U.S.A.

YES! MAGICALLY!
CORNS LIFT OUT
WITH FINGERS

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out root and all, without pain.

A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.—Adv.

Practical-Minded.
One of the questions to be answered was: "When did the practice of burning witches come to an end?"

"When the cost of fuel went up," was the answer one youth gave.

Force of Habit.
Jack—Why did you break your engagement with that school teacher?
Tom—If I failed to show up of an evening she expected me to bring a written excuse signed by my mother.

None Needed.
"What walk in life do you intend to select for your son?"
"Oh, we can afford to buy him an automobile now."

Necessary Expenditure.
"I say, Brown, can't you manage to pay me that \$10 you owe me? I need the money."
"Awfully sorry, old man, but I can't do it."
"I notice you manage to go to the theater two or three times a week, though."
"That's just it. The thought that I owe you money is worrying me so that I have to do something to help me forget it."

Sore Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by **Marine Eye Remedy.** No Smarting, Just Eye Comfort. At Druggists or by mail 50c per Bottle. **Marine Eye Salve in Tubes 25c. For Sale of the Eye FREE at Marine Eye Remedy Co., Chicago**

Home Science.
Teacher—Can any of you children think of a creature not yet mentioned who belongs in the brute creation?
Pupil—My mamma says my papa's one.

Accounting For It.
"That young officer seems very blue."
"That may be because he is a submarine."

A Fitting Inquiry.
"Please, ma'am, the cook wants some more crash for the kitchen."
"Well, I don't, since all I heard out there after she began washing dishes."

Rebekah Installation

Mrs. Hattie Tomlinson of Saratoga, Deputy President, installed the new officers of Ada Rebekah Lodge, No. 223, last week, when the following named assumed their stations: P. N. G., Lucy Smith, N. G., Leila Dodson, V. G., Clara Pope, Rec. Sec'y., Winnie Grizzle, Fin. Sec'y., June Brown, Treasurer, Emma Bulmore, Warden, Katherine Burns, Conductor, Niag Prown, R. S. N. G., Myrtle Johnson, L. S. N. G., Bessie Merrill, Chap., Hattie Dunham, R. S. V. G., Matilda Carney, L. S. V. G., Florence Grizzle, J. G., Emma Dalvit, O. G., Robt. Scholz

Our Children's Welfare At Stake

Upon investigated the appropriation due the Campbell Grammar school for the coming year, Mrs. Bateman said she did not see how it would be possible for the trustees to pay for the present corps of teachers even the salaries which they have been getting. Certainly the voters of this district are not going to permit our school to deteriorate for the lack of a few hundred dollars. The board is asking for only \$1500, which will mean but a few cents to most of the tax payers. We have asked the trustees to give their time and efforts to running the school, and now surely we will not fail to provide them with the necessary money. Remember that the funds available are nearly \$500 short of even this year's amount, owing to epidemics among the pupils. Don't forget to vote and vote, Yes!

New Cannery

The ladies who are in charge of the Red Cross Salvage rooms in San Jose have added another line to the many already under way and are asking for donations for it. They are instituting a canning department for making jams and fruit butters, so if those who have small fruits, seconds, or a surplus of any kind will leave it at the Red Cross store in San Jose it possible, or phone to Mrs. H. W. Higbie or the Press Office it will be taken in.

Keep the store in mind and send in or bring to the depository here in charge of L. M. Beall, any articles or junk you wish to dispose of or are willing to give to this good cause. Foods, and fruits, (fresh or canned) are specially welcome for the Saturday market.

To The Voters of Campbell Township

I solicit your votes at the coming Primary election for the office of Constable of the township. I am a native American of French (Alsatian) descent, have been both a workman and an employer, have been affiliated with the Democratic party but have not always voted a straight ticket when I thought that the country would be better served by scratching, was raised a Catholic but believe that a man's religion is his own business, do not believe in kaiserism either in Europe or America, will not make a house to house canvass for votes as I believe that voters should make up their own minds as to whom they wish to vote for. Am familiar with the laws as I have served terms as deputy sheriff and constable in a northern county and if elected will endeavor to do my duty without fear or favor, to the best of my ability.

EMILE FRITZ, Sunnyside Ave., Campbell.

For Assessor W. L. BIEBRACH, Equal Assessments, Courtesy, and a Square Deal.

Buy Thrift Stamps to-day!

IN connection with the Election Saturday the following report from the State Supt. of Public Instruction is very enlightening, showing the decrease in the apportionment per pupil, while we all know that the cost of educating a child has greatly increased.

Table with 3 columns: Year, Rate per teacher, Rate per pupil on attendance per year. Data from 1910 to 1918.

This table will show that in nine years the rate per pupil on average daily attendance has fallen off on the part of the state \$1.93. In other words, the state is not meeting the obligation placed upon it by the rapid increase in the schools of the state. The amount of money remains about the same while the enrollment rapidly gains. The loss of the poll tax has had much to do with this. The amount the schools get from the Collateral Inheritance Tax is \$250,000—this much—no more. This does not keep pace with the rapid gain in the schools.

A concerted effort should be made to increase the money given to the elementary schools by the state. This burden falls hardest on the small schools, those that have so little property interests that they can not levy a special tax to meet the expense.

Local and Personal Red Cross Doing Good Work

Mr. and Mrs. Alison motored to Asilomar for the week-end.

The T. L. Mendel family spent the week-end at Pacific Grove.

Mrs. Dodge is enjoying an outing at Mt. Hermon with Mrs. Sprecher.

Henry Young returned Monday from Columbia Hospital and is gaining rapidly.

Mrs. Effie Hubbell of Rincon avenue, who has been visiting her son at Camp Lewis returned on Friday.

Mr. and Mrs. J. Enemark came down from Stockton last week and are visiting at the Chas. Townsend home.

Mrs. Darrell Papst and daughter, Ada, are down from Sisson for a visit with Grandpa and Grandma Coupland.

The Coffee Club has been rented for the season and will be under the efficient management of E. J. Ludtke.

Miss Anna Hagelin has accepted a position in the San Jose office of the Garden City Bank and Trust Co.

Lucille Alison and William Lloyd are among the Epworth Leaguers in attendance at the convention at Asilomar.

The Ralston Alison family will go to the Big Basin Tuesday for a two weeks vacation of "rest and hill climbing."

Rev. and Mrs. J. F. Wilson, Lois and Carroll, now located at Reno, Nev., called upon friends here for a few hours Monday on their way to Asilomar.

Mr. and Mrs. Dod Toles, whose home has been in San Jose, have moved out to Sunnyoaks avenue and are occupying a cottage on the C. W. Toles ranch.

The Prune and Apricot Growers Ass'n which recently took over the local Farmers Union packing plant is having a large concrete underground tank installed for the storage of fuel oil.

Mrs. Lillian Olds has sold her property on Santa Clara road south of town to Mr. F. R. Peake who will move his family there soon. Mrs. Olds will probably go to San Jose for a time at least.

Miss Adah Nelson and Miss Agnes Stewart, who attended the state C. E. convention at Sacramento, motored from there to Pacific Grove and thence to Campbell arriving Wednesday evening.

The J. D. Blaine and E. E. Lanphear families, with Miss Hurlbert, motored to Pacific Grove Wednesday evening where they spent the Fourth, Mrs. Blaine remaining until Tuesday. For amusement on the way they took off and put on a few tires.

Mr. and Mrs. R. L. Glover and son of Santa Barbara are here for the summer with Mr. Glover's parents. Mr. Glover is supervisor of physical training in the city schools and director and trainer of athletics for the High School, while Mrs. Glover teaches a fourth grade.

Lieut. H. J. Scholz arrived home from Ft. Monroe, Va., Saturday evening for a visit with his family and friends. He has been transferred to Ft. Scott and will report there Monday. His experiences at Ft. Monroe have been very interesting and his friends have kept him busy telling them.

Second Red Cross Benefit Dance and Card Party, Saturday evening at the Jas. Turner home on Los Gatos-Santa Clara Road. Mesdames Turner, Beal, and Toles, hostesses. Twenty-five cents a couple. Punch and ice-cream extra. Good music has been engaged. Those who attended the first party can assure everyone of a thoroughly enjoyable evening, as well as helping a worthy cause.

Several papers have erroneously reported that Miss Dorothea Smith had gone with the last Stanford Women's Unit. Miss Smith was very anxious to join this group, but General Pershing has requested that women who have husbands or near relatives "over seas" shall not be sent across. As Miss Smith has a brother over there her application could not be granted.

Big Taxes Due

SACRAMENTO.—Within the next thirty days State Treasurer Friend W. Richardson must collect from the corporations of the state over nine million dollars. Under a technical construction of the law the 17,000 corporations owing this tax could be compelled to send gold coin to Sacramento, but Richardson announces that he is conserving gold by depositing it with the Federal Reserve Bank, and that taxpayers may pay their taxes in drafts, cashier's checks, or money orders, as is most convenient. He asks them not to remit by uncertified personal, company or voucher checks.

The first half of the corporation franchise tax is due, and amounts to \$8,846,916. Many corporations will pay their whole tax now, so the total collections will exceed nine million dollars.

The tax is apportioned among the various kinds of corporations as follows:

Railroads \$3,991,455.28

Light and power 1,500,062.11

Banks 1,129,138.95

Miscellaneous 739,114.80

Insurance 675,008.56

Telephone 461,621.20

Oil 207,087.00

Car. 72,253.10

Water 34,591.50

Mining 36,583.50

Corporations which pay early will avoid delinquency and a fifteen per cent penalty.

W. C. T. U. Notes

The W. C. T. U. met with Mrs. Whittman July 10. Devotionals upon the subject, "Helping the World Godward" were of special interest and inspiration, the keynote being the following stanza: "Work! Thank God for the might of it, The ardor, the urge, the delight of it, And what is so kind as the stern command Challenging brain and heart and hand."

A helpful talk upon the preparation needed in order to make our work most effective in helping the world Godward was given. Men and women gone from Campbell in the service of their country were very tenderly remembered in prayer, with other subjects of vital interest.

The committee on renting the Coffee Club reported having rented the place until November tenth.

A number of communications from state workers were read and acted upon. The presence of a former president of Campbell Union was greatly enjoyed as was that of a new member, and the patriotic songs rendered by the daughter of the hostess, during the social hour.

At the next meeting, which will be held with Mrs. Vandergon, July 24th, there will be the welcoming service for new members.

Mrs. J. E. Crawford whose illness was reported last week, underwent an operation Sunday for a stomach trouble and is recovering satisfactorily.

Senator M. B. Johnson, candidate for Congress at the primary Election was calling on his supporters in Campbell yesterday. He reports a most loyal support throughout the district and a strenuous fight is being made to land him on the job.

SHOWER BATHS FOR CHILDREN

Low Wash Basins and Little Shower Baths Adapted for the Use of the Tots.

CHATEAU DES HALLES NOW CHILDREN'S HOSPITAL

One of the Most Complete Establishments of Its Kind in France, With Jolly Playrooms and Toys to Amuse Patients.

Up in the mountains, where the snow falls early and lies deep, 30 miles from Lyons, is the little French village of Les Halles—a story book village, with its massive stone church standing sentinel over two long rows of trim, blue-gray plaster cottages. And a mile farther on is the Chateau des Halles, where your Red Cross has established a home for 200 sick children.

Mangini built the chateau. Mangini was the man who built the railroad along the Riviera and many other railroads in France. And thirty odd years ago he built this castle up in the mountains for his country home. But soon after his two children died. Then he died, and when his widow followed him she left the chateau to the city of Lyons to be used as a hospital for children.

The War's Wreckage. Then came the war. A little rivulet of the war's wreckage began to trickle in at Evian—"repatriees," elderly men and women, children, even babies, who had once lived in the parts of France engulfed by the German tides and whom the Germans, finding them useless, were beginning to ship back into France by way of Switzerland. Gradually this rivulet swelled. Soon 1,000 of these unfortunates were arriving at Evian daily. And fully half of them were children, undernourished, thinly clad, dirty, sickly and, worse, grim, spiritless, with faces that had forgotten how to smile.

To care for these children was the task your Red Cross at once assumed. Working with the French authorities, the Red Cross secured permission to make use of the old and almost forgotten Chateau des Halles up there in the mountains. For years the castle had been closed. No effort had ever been made to fit it up as a hospital. Your Red Cross had to begin at the very beginning.

Rooms Big and Jolly. But what a wonderful task it has accomplished! The Chateau des Halles, transformed into a children's hospital and rest home in furious haste under the terrible pressure of war needs, with little time to think twice and no time to retrieve errors, is not only one of the most complete establishments of its kind; it is one of the best children's hospitals in all France. The two rooms where the arriving children are isolated for a few days are big, jolly rooms—just what is need to efface from the little ones' minds the memories of those iron days behind the German lines. The big play room is strewn with rocking horses and wonderful, smile-enticing parrots and other toys carved by the wounded polios.

And so you stray from room to room, and everywhere you find new evidences of this watchful care. And then you reach the bathrooms. This chateau was built by a man of wealth. Its plumbing was excellent, and yet it has been stripped out and replaced with little, low wash basins and little shower baths that the children can use most comfortably.

That is how your Red Cross thinks and cares for France's children.

Dr. W. A. Schorn, Dentist, Offices in E. O. Curry Block

For CORONER AMOS O. WILLIAMS, Primary Election Aug. 27, General Election Nov. 5

Gnat a Source of Musk. To the list of sources of musk must be added a kind of gnat, order Hymenoptera, class redavidae, genus amullus (stol.), which is so common in the Australian bush at times as to fill the air with a musky odor.

Mr. and Mrs. Chamberlain and children of Concord visited for a couple of days last week with the A. H. Osborn family, the gentlemen being relatives.

The J. C. Ainsley and Geo. E. Hyde Canneries began the apricot canning season in earnest this week, taking care of the earlier fruit. Next week the crews will be enlarged to handle the big crop to capacity.

ELECTION NOTICE

For District School Tax

Notice is hereby given to the electors of Campbell School District, County of Santa Clara, State of California, that an election will be held on the 13th day of July, 1918, at which will be submitted the question of voting a tax to furnish additional school facilities and to maintain school in said district.

For this purpose it is necessary to raise \$1,500.00. The polls will be open at the public school-house of the above named district from 9 o'clock A.M. to 5 o'clock P. M.

The officers appointed to conduct the election are: W. C. McCaughey, Inspector; Mrs. E. M. Toles, Judge; Mrs. Lucy Smith, Judge.

T. A. Robinson, Board of School Trustees; J. H. Stubbe, Bertha R. Day

(Incumbent)

Primary Election Aug. 27, 1918

Voters of Campbell Township

I am a candidate for re-election. I have tried to be strictly impartial in arrests, have been controlled by the spirit of compromise, where minors are the delinquents, and have tried to obey the law as it defines the duties of my office.

I thank you for your support in the past, and I hope for it in the August and November elections of 1918.

T. L. SHARP, Constable C. T.

NOTICE

Thanking the voters of Campbell Township for their generous support of me as Justice of the Peace in the past nine years, and trusting I may still have their suffrage, I hereby announce myself for re-election.

A. J. FARLEY, Justice of the Peace, Campbell Township

Are You Ready For the Primary?

Prepare to pick your fruit but do not neglect your opportunity to pick candidates for the legislature.

In Santa Clara county the Primary election will probably determine who will be the next Assemblymen and Senator to represent us in the state legislature.

Electors CANNOT VOTE AT THE PRIMARY ELECTION, August 27th, unless they have registered since January 1, 1918, and on or before July 27, 1918.

Electors CANNOT VOTE AT THE PRIMARY ELECTION for any candidate for Governor, Lieutenant Governor, Senator, or Assemblyman, unless they state some party affiliation in their registration affidavit.

All who have registered without stating party affiliation and who now wish to state such party affiliation, and all who wish to change their affiliation to another party, may have the desired change made by going to any deputy registrar and making an affidavit.

The big issue to come before the next legislature is the prohibition amendment to the national constitution. The men who will vote for us on that issue in the legislature will be selected in the August primary. The day registration closes for that primary is close at hand.
