# Galloway's Field Seed Bargains

## Quick Action Early in Season Means Big Savings

### WHOLESALE PRICE LIST

Subject to Market Changes

### PRICES CASH

#### History Always Repeats Itself.

As the planting time advances seed prices always advance. Seed purchased RIGHT NOW will enable you to make a big savings so that you can afford to borrow the money at several times the interest rate charged and be ahead at planting time.

#### We guarantee your money back

Shipped subject to your inspection and approval and if not satisfied, return the seed and we will cheerfully refund your money.

#### A dollar saved is a dollar made.

While you have the time now you can't make money faster than by carefully figuring out what field seed you are going to need and get your order in early, because from present indications prices are going up just as sure as the sun comes up in the morning.

There is no need of buying seed at retail when you can get in on a wholesale deal like we are offering here. Try Galloway Brothers' Hi-Quality Pure Tested Seed this year, because we can give you the seed and the service. Our prices are written below in black and white in plain figures based on enormous volume and selling economy. You simply rob your own pocketbook if you fail to take advantage of this opportunity. We have made special arrangements to ship seeds from six of the large seed distributing centers.

No better seed can be found anywhere of the different kinds than we offer. Don't forget that when you order the low priced grades you will get seed that is in proportion to the price. It always pays big dividends on the investment to buy absolutely the highest grade. It is by far the cheapest in the long run.

Order Early. Again, don't forget that early buying generally gets the choicest stocks as well as the lowest prices. As the seed season advances the choicest stocks soon get depleted.

#### Shipments

#### Knee Deep in Alfalfa in Iowa

This piece of alfalfa earned \$100.00 per acre on this Iowa farm. It was a run down farm before it was alfalfaized. You can do it too if you try. Good alfalfa, clover and other legume crops are followed by prosperity.  
 Alfalfa has made many a poor farm rich, many a poor farm fertile, bloom and harvest with bumper crops. It has bought new homes, barns, automobiles and extra acres. It is truly named the "Cash Money Wonder Crop." It is the deepest rooting, best soiling and hay plant grown. Will pay big dividends on your land at most any reasonable price.  
 Resolve to put in five or ten acres this year. Buy the best seed, inoculate it, and be safe. Make up your mind to get close to legume crops for the next five years and you will prosper beyond your fondest dreams. Also try sweet clover and Hubam clover.

### Webster's Illustrated Dictionary

AFTER THE BIBLE COMES WEBSTER'S DICTIONARY. You can't get along without one. Every American home should have a good reliable one. HERE IT IS. Bound in limp Karatol Leather, 20 full page color plates and illustrations, round corners, heavy book paper of durable quality, special radio and wireless terms of 1,000 definitions, together with the usual and special 1922 vocabularies and other special features such as automobile, aviation and census information.

## GALLOWAY LOCAL RADIO

This wonderful little Radiophone should be in the home of every family.

A few weeks ago, while in Chicago, visiting with the inventor of this wonderful little receiving set, I personally sat in a hotel and listened for hours to all of the broadcasting that was being done in the city of Chicago, which included bank reports, stock reports, weather reports, general local news, lectures, sermons, readings, and music of all kinds.

This little machine is guaranteed to pick up all local broadcasting within ten miles, when properly installed on a three hundred and sixty wave meter, and it has been known to pick up messages from 18 to 20 miles. It has also been known to pick up messages from 50 to 100 miles.

This little machine should be in every home. It will give wonderful results if you are within the proper radius of towns where broadcasting is done, which is now going on in almost every large city and, later on, local broadcasting will take place in towns from 5,000 up.

The machine comes all complete. No battery is necessary. No cost of maintenance whatever. Machines no better than this are selling today all the way from \$30.00 to \$40.00. Radio complete with receiving phone and aerial wire. Price, to introduce.

# Make Hens Lay---Save the Chicks

DR. CONN'S FAMOUS SAFE REMEDIES

Why work hard, going through all the extra motions, details and pains hatching chicks and then just at the time they are commencing to reach the age of usefulness let them die for the lack of the right thing at the right time. There are two outstanding enemies at this time of the year that every poultry raiser must guard against, cholera and lice. With cholera your flock is stricken and soon dwindles away. With lice you wonder why they do not do well when, as a matter of fact, their vitality is being sapped away, and your feed and care count for nothing. Try Dr. Conn's poultry remedies. You will not be disappointed. To introduce the Conn Products, which are compounded right here in Waterloo, we are making special introductory offers as listed below. Everything comes put up in neat, easy to ship cartons. Parcel post prepaid.

### BOVOLAX

Here is a real product. Should be in every dairy for the milch cows that shiver and hump up their backs. They need a physic more than any other thing. This physic will not put the cow off feed and cause drop of milk supply, but she will keep right on eating and producing.

Epsom salts makes the cows sick, disturbs the digestive machinery, cuts down the milk supply. Bovolax stimulates the appetite and soon gets them back on their feet.

A laxative at the right time, without making the cow sick, saves trouble and milk.

Bovolax will positively pay for itself in any herd, no matter how small.

### ABORTION PREVENTATIVE

Stop losses from breeding diseases. Many valuable cows are consigned to the packing house just because of lack of a little attention at the right time.

Dr. Conn's Uterine Capsules should be in every barn where dairy cattle or beef cattle are kept. Should be given if they do not clean at the proper time. Also, in case of abortion or any infection. Simply insert a capsule. This product has given 100% satisfaction. Will not taint the milk. Absolutely safe and easy to use.

Full directions.  
 Box of 12 capsules, \$3.00 Three boxes, \$8.00

### DR. CONN'S CATTLE MINERAL

High milk producing cattle give off more mineral in their milk than they take in in the ordinary feed. The result is that when an additional call for mineral for the unborn calf comes the cow cannot supply the demand. This is the cause of a great deal of abortion in cattle. Dr. Conn's mineral supplies that deficiency and results in better and safe breeding, and a big increase in the milk supply.

Guaranteed true to name and safe delivery with the understanding that if stock does not give you the satisfaction you have the right to expect we will either replace it or return your money.

\$25 to \$50 is a conservative value for apple trees in a few years from the time planted. No easier way to make values and dividend payers than to plant fruit trees now. With proper care they will soon be loaded down with apples like picture.

Fruit in big demand—never enough to go around of right kind.

Many vacant places on your farm might just as well be occupied by some kind of fruit trees or small fruits.

We make shipments direct from Iowa and Ohio nurseries from carefully graded stock—no culls. All shipments made at planting time unless otherwise instructed by you.

Only varieties here we know will not disappoint.

## APPLE TREES

"An apple a day keeps the doctor away." is an absolutely true saying. The supply of good fruit cannot equal the demand—never has—good times or bad times. There is enormous money in the right kind of apples. Get the right kind. The Red Delicious is my favorite and first choice. Space will not permit me to properly describe it. My second choice is McIntosh Red and third choice Ensee.

### OUR MOTTO:

PURE-SEEDS, HI-QUALITY, RIGHT PRICES  
BETTER AGRICULTURE, MORE  
BEAUTIFUL HOMES

PROGRESS.

WATERLOO, IOWA, U.S.A.

January 18, 1923.

From William Galloway, Pres.,  
Galloway Brothers Company,  
Waterloo, Iowa.

Dear Friend:-

Good morning. How are you today?

We have you on our list to send you our seed book when they will be off the press, which will be the latter part of January, but in the meantime so you can protect yourself against advancing prices, we are enclosing herewith our WHOLESALE field seed price list, also SPECIAL WHOLESALE OFFER on FRUIT TREES, VINES and PLANTS, direct from Iowa and Ohio nurseries.

RIGHT NOW is the time to buy your field seeds.

History generally repeats itself. As the season advances prices advance, and from present indications they will go up fast this year.

Prices have already gone up on SWEET CLOVER, SUDAN GRASS and quite a few other items.

You can make good money by anticipating your field seed needs and getting your order in EARLY--- RIGHT NOW.

You can afford to borrow money at the bank to buy EARLY this year. You will make the interest and a fine profit besides.

We never before were in better position to give you quick service and save money for you on freight like we are this year, as we have made arrangements to ship our largest WHOLESALE FIELD SEED ORDERS from the point nearest to you from the finest, newest stocks in the country, F.O.B. Chicago Milwaukee, Minneapolis, Omaha, Kansas City, St Louis, Toledo, Ohio and Waterloo, Iowa.

You will also notice on the enclosed circular that we are giving away some very HANDSOME PREMIUMS with orders for field seeds, nursery stock and Dr. Conn's famous poultry and live stock remedies.

Why not have some of your neighbors and friends go in with you, make up a club order for fields seeds, and YOU GET the premium.

We are giving with these orders a \$9.75 FREE RADIO

#2.

SET, FREE \$4.00 DICTIONARY, FREE 5 LBS HOMESTEAD and DELICIOUS COFFEE--- the best you ever tasted, and many other valuable articles, including the FAMOUS FLA-OLA.

They are in addition to our present low prices.

Don't overlook Dr. Conn's Famous Egg Producer. It is going like hot cakes and it does the business because it is safe and is put up by one of the most honest and reliable remedy men in the whole country. His plant and office is right near our factory and I know him.

Now you of course will need some garden seeds, but in the meantime why not get your field seed, nursery stock and remedy order in RIGHT NOW upon receipt of this letter, as prices are bound to be higher later on. We are already too low on both Sudan Grass and all grades of Sweet Clover, but we will let these prices stand and guarantee them to you until the 30th day of January.

In my 14 years experience in the seed business I never saw a season that indicated an unprecedented demand like this year.

I am going to make this prediction. Some kinds of seed we will not be able to get in 60 or 90 days from now. You will see if what I am telling you is not true.

Another thing: Seeds of all kinds generally are in sympathy with grain and corn prices and I also believe that grain seeds will be much higher before the season is over.

Last year we sold a lot of MARCUS WHEAT and our customers had wonderful success with it. It should be sown just as soon after freezing as the ground can be worked. We ship this wheat direct from Minneapolis and at this writing can give you all you want at the low price quoted, although in six weeks I am afraid we will not be able to supply it at anywhere near this figure.

I also want to call your attention to IOWAR OATS, which is making a big record for itself. On our farm place here near Waterloo it went 85 bushels per acre last year and stood up with a big yield where other oats fell down and didn't yield half as much. This is another item on which it will pay you to get your reservation early as the supply is limited. The price is bound to rise.

I don't want to unduly urge you, but if ever there was a year to get your order in early-- TAKE IT FROM ME-- THIS IS THE YEAR! Get your order in early!

Remember, all field seed is shipped to you with the distinct understanding that it must be absolutely satisfactory to you or we will refund your money.

Thanking you for past favors, and hoping you will drop in and see us when ever you are near Waterloo, we beg to remain

Yours very truly,

GALLOWAY BROTHERS COMPANY
