Remarks:

Up to April 30, 1944 we conducted whole warehouse business as pre-stipulated in the Articles of the company but on and after May 1, 1944 the entire business of the warehouse companies of this country was taken over by the Japan Warehouse Control Co., Ltd. (Nihon Soko Tosei K. K.) which was established at that time and our company rented the whole warehouses and facilities, at the same time shifting the major part of our personnel to that company.

We, thus, practically ceased to conduct warehouse business in its proper sense and had to confine ourselves in collecting the rent for the leased warehouses and the insignificant volume of the outside business which was left out of control of the said company.

Under the circumstances, as we found it difficult to keep all of the current branch offices, we closed some of them and made other branch offices take up the business of the closed offices, as it would suit the conditions of the business.

Such being the case the percentage of business of each branch office during this period cannot be calculated on a accurate basis inasmuch as the business of the company was practically transacted by the head office.

Note:-

1. The chemical and the coal mining branches, were established on 1st March, 1943 at the time of the merging of the Nissan Chemical Industrial Co., Ltd. However, as the chemical branch was separated and conceded to the Nissan Chemical Industrial Co., Ltd. and the coal mining branch conceded to the Nippon Coal Mining Co., Ltd. which was established on July 18th, 1945 no detailed records of these companies now remain in our books.

2. The branch offices (Shisha and Kogyosho) are established with such objects as to effect business liaison between the mines or plants within the sphere of their charge, to improve business operations and to promote business activities, but do not possess powers of control over the mines.* Mines and Smelters are one and all under the direct orders of the President and as there are no productions and as no buying or selling of ores is done, we cannot give the percentage.

*But Branch office manager has at times during the war actually issued orders to mines in his area of jurisdiction whenever communication by letter or wire was interrupted.

by branch offices

3. The "% of business" is determined on the rate of income accrued on products of each individual mine or plant against sh aggregate income on products of the respective classification such as mines, smelters or refineries to which they belong.

4. Those mines and plants under 1% are omitted.
