Fellow citizens, if the law requires this as u condition in completing the eligibility of a candidate for the place of Mayor, judge if respect for public manners and morals, does not more imperiously exact that it should be found in a candidate for the office of Governor.

The question of Mr. Cuibertson's capacity to take the Recorder's cliair comes on this evening before the council; and we are induced to hope, that it will meet with the serious instigation to which it is entitled. No member having a re gard for the law, and the necessity of interpreting it accordng to its significant meaning, should for a moment suffer h meelf to be influenced and biased in his decision by considerations of a personal or political nature. Such feeling should be lisewided, and yield to the higher and more important duv of sustaining and enforcing the rigid execution of the proions which the law-making power has deemed proper, fo he security of society, to make. The utility of the provision in our local constitution, forbidding in the most positive manner, any person holding or exercising any office of trust of profit under the United States, from holding or exercising any fice of trust and profit in our State, is not however to be a atter of inquiry, and any attempt to make it such by reterring to the possibler hardships of this case should be put down ar cathedre entirely; the only question is as to the applicabilof the United States then, in that case, he should be per of the United States, having filled the station of inrpreter to the District Court, his election should be declared se and subbletics; the provision is express and for and prescribes in explicit terms all those holding offices and profit under the general government, from serving as State functionaries. The reason for this constitutional check is obvious, and cannot but strike those who bestow the roper attention upon the subject with peculiar force.
