"THE HOME OF PERFECT COMFORT"

HOTEL BEACONSFIELD

BEACON BOULEVARD, BROOKLINE, MASS.

¶ Equipped with every modern comfort and convenience, supplemented by exemplary service, a residence at the Beaconsfield offers an attractive alternative to the responsibility of directing one's own household, and prices are not extravagant.

For Transient and Permanent Business

¶ In addition to two lines of electrics, the Beaconsfield Station (B. & A. R. R.) is on the property, and there are sixty trains a day to and from Boston.

¶ The Beaconsfield Garage, offering the best possible care for automobiles, has a capacity for 150 machines.

BROOKLINE HOUSE AND STREET DIRECTORY

Copyright 1922 W A Greenough & Co Boston Mass

Giving the Postal District number, ward number, and location of each avenue, court, crescent, path, place, road, square, street and terrace, and showing what other streets and places run from it or across it with the number at which they intersect. If you wish to know what streets run from or cross Abbottsford Road look in street list and you will find Naples rd crosses at 58, Coolidge ends at 86 etc.

"SPEED THE DELIVERY OF YOUR MAIL." Mail rehandled is DELAYED. 125,000 letters are rehandled daily in the Boston District on account of INCOMPLETE ADDRESSES. Supply your correspondents with your CORRECT NUMERAL in the same manner as you now furnish your street address, and include the numeral when addressing mail for delivery in the Boston Postal District."—Boston Postmaster.

REGULATIONS CONCERNING FIRE ALARMS

First alarm to be given by striking four rounds on all bells

Second alarm to be given by striking three blows on all bells followed by one or more rounds of box number

Third alarm to be given by striking five blows on all bells followed by box number

Calls for the assistance from Boston by striking ten blows, followed by box number on all bells

The recall signal is to be given by striking two blows on all bells, except when a second box has been given before the recall signal of the first box has been sounded, then the recall will be two blows followed by the box number.

If before the recall is sounded for a first alarm from a given box, an alarm is received from another box responding to the alarm from the first box, all companies that would respond to a second alarm from the first box will answer the alarm from the second box

In case a third alarm has been given and before the recall signal is sounded, an alarm should be rung from another box, all unemployed companies will respond, also engine company from Boston which would

respond in case a call for assistance had been rung from that box

1 One stroke at 12 M, Washington time and 9 P M every evening

22 Two strokes twice between 7.30 and 8 A M no school signal

Barrett Everlastic Roofings

and Specialties

FOR over sixty years we have been making roofings and other materials for farm and home. Every article on our list, therefore, may be bought with absolute assurance that it will be found thoroughly practical and reliable in every way.

EVERLASTIC MULTI-SHINGLES—Four shingles in one, each strip being as easily laid as a single shingle of any other kind. Saves labor and nails. The surface is “slated” in red or green. These Everlastic Multi-Shingles give a double thickness all over the roof, with three thicknesses where the wear is most severe. Fire-resisting.

EVERLASTIC SLATE-SURFACED ROOFING—A really splendid roofing, beautiful and artistic when laid. Slate-surfaced, yet sold in rolls. Made from the same materials as Everlastic “Rubber” Roofing with a special wearing-surface of crushed-slate particles, either red or green. Makes a fire-resisting and very durable roof.

EVERLASTIC TYLIKE SHINGLES—Same material as the Multi-Shingles, in red or green. Cut in single shingles, 8 x 12 $\frac{3}{4}$ in. Laid like ordinary wooden shingles and provide a triple thickness all over the roof. Make a beautiful, fire-resisting roof that will give long service.

EVERLASTIC “RUBBER” ROOFING—The most widely used of all our roll roofings, protecting hundreds of thousands of buildings all over the world. Tough, pliable, water-proof, and low in price. Very easy and economical to lay as no skilled labor is required. Nails and cement packed in each roll.

ELASTIGUM—This wonderful water-proof cement has a hundred different uses. Especially useful for mending gutters, joints around chimneys, parapets, skylights, etc. It is easy to apply, is acid-proof, damp-proof, and it sticks. Can be used in wet weather.

BARRETT’S CARBOSOTA LIQUID CREOSOTE OIL—Is the most efficient wood-preservative on the market today. It combines in the highest degree ability to penetrate deeply into the wood, antiseptic action toward fungous growth and insects, and resistance to the action of water and air. Its use will cut your wood-preserving bills in half.

EVERJET ELASTIC PAINT—Everjet is a high-grade carbon paint for industrial use; has no equal for protecting metal of all kinds against corrosive action of acids, alkalis, fumes, vapors, etc. Being elastic, extremes of heat or cold do not affect it. Water-proof and fire-retarding. Gives a perfect coating unbroken by pinholes or blebs. Try it.
