July 11th, 1894.

Eugene Townsend, Esq.,
Supt. U. S. Mint,
Philadelphia.

Dear Sir:

Yours of the 10th received. I very much regret to learn that my bid for 8 oz. Cotton Duck is not the lowest. You are however aware that there are a great many brands of goods on the market that have the required weight but are made of inferior Cotton and of poor workmanship. We do not attempt to compete with this class of material, as our production is not the lowest priced you can buy, but probably the cheapest if you consider the quality. The experience the Mint has had with the cloth we have furnished in past years will tell the whole story much better than I could write it. Will say however that we manufacture a large quantity of cloth where strength is an important factor and we thought this was one of the things you desired for Coin Bags. This was considered when submitting samples and prices, and we have no fear of competitors if you place the same importance on these items that we do. I will be obliged if you will let me know what
