

Commission Implementing Regulation (EU) 2017/1491 of 21 August 2017 renewing the approval of the active substance 2,4-DB in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending the Annex to Commission Implementing Regulation (EU) No 540/2011 (Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) 2017/1491

of 21 August 2017

renewing the approval of the active substance 2,4-DB in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending the Annex to Commission Implementing Regulation (EU) No 540/2011

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC⁽¹⁾, and in particular Article 20(1) thereof,

Whereas:

- (1) Commission Directive 2003/31/EC⁽²⁾ included 2,4-DB as an active substance in Annex I to Council Directive 91/414/EEC⁽³⁾.
- (2) Active substances included in Annex I to Directive 91/414/EEC are deemed to have been approved under Regulation (EC) No 1107/2009 and are listed in Part A of the Annex to Commission Implementing Regulation (EU) No 540/2011⁽⁴⁾.
- (3) The approval of the active substance 2,4-DB, as set out in Part A of the Annex to Implementing Regulation (EU) No 540/2011, expires on 31 October 2017.
- (4) An application for the renewal of the approval of 2,4-DB was submitted in accordance with Article 1 of Commission Implementing Regulation (EU) No 844/2012⁽⁵⁾ within the time period provided for in that Article.
- (5) The applicant submitted the supplementary dossiers required in accordance with Article 6 of Implementing Regulation (EU) No 844/2012. The application was found to be complete by the rapporteur Member State.
- (6) The rapporteur Member State prepared a renewal assessment report in consultation with the co-rapporteur Member State and submitted it to the European Food Safety Authority (hereinafter ‘the Authority’) and the Commission on 3 June 2015.

Status: Point in time view as at 21/08/2017.

Changes to legislation: Commission Implementing Regulation (EU) 2017/1491 is up to date with all changes known to be in force on or before 01 December 2020. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (7) The Authority communicated the renewal assessment report to the applicant and to the Member States for comments and forwarded the comments received to the Commission. The Authority also made the supplementary summary dossier available to the public.
- (8) On 13 May 2016, the Authority communicated to the Commission its conclusion⁽⁶⁾ on whether 2,4-DB can be expected to meet the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009. The Commission presented the draft renewal report for 2,4-DB to the Standing Committee on Plants, Animals, Food and Feed on 18 May 2017.
- (9) The applicant was given the opportunity to submit comments on the draft renewal report.
- (10) It has been established with respect to one or more representative uses of at least one plant protection product containing 2,4-DB that the approval criteria provided for in Article 4 of Regulation (EC) No 1107/2009 are satisfied. It is therefore appropriate to renew the approval of 2,4-DB.
- (11) The risk assessment for the renewal of the approval of 2,4-DB is based on a limited number of representative uses, which however do not restrict the uses for which plant protection products containing 2,4-DB may be authorised. It is therefore appropriate to remove the restriction for use only as a herbicide.
- (12) Implementing Regulation (EU) No 540/2011 should therefore be amended accordingly.
- (13) Commission Implementing Regulation (EU) 2016/950⁽⁷⁾ extended the approval period of 2,4-DB to 31 October 2017 in order to allow the renewal process to be completed before the expiry of the approval of that substance.
- (14) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Renewal of the approval of the active substance

The approval of the active substance 2,4-DB is renewed as set out in Annex I.

Article 2

Amendments to Implementing Regulation (EU) No 540/2011

The Annex to Implementing Regulation (EU) No 540/2011 is amended in accordance with Annex II to this Regulation.

Status: Point in time view as at 21/08/2017.

Changes to legislation: Commission Implementing Regulation (EU) 2017/1491 is up to date with all changes known to be in force on or before 01 December 2020. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

Article 3

Entry into force and date of application

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 November 2017.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 21 August 2017.

For the Commission

The President

Jean-Claude JUNCKER

*Status: Point in time view as at 21/08/2017.**Changes to legislation: Commission Implementing Regulation (EU) 2017/1491 is up to date with all changes known to be in force on or before 01 December 2020.
