Delay in returning subject Memorandum Receipt is due to the fact that figures in the "Quantity" column of this receipt do not agree with those in column "C" (parts requested but not received during 1949) in list prepared by the Shikoku Regional Repair and Distribution Center. Pencilled memoranda opposite column "C" indicate amounts as they appear on Memorandum Receipt. Number of parts received on 16 May is correct, with the exception that a few of the serial numbers are at variance as indicated.
