HQ MAIZURU DET. KYOTO MIL GOVT TEAM; APO 301 11 AUGUST 1948

To: Commanding Officer, Kyoto Military Gov Team, APO 301
Att: Capt Commous

1. Investigation was made on the petition from Kansai Haiden K.K. for the exemption of transformer 22-24-4858 3 phase 4000 KVA accessory plus regulater 3 phase 400 KVA from the reparation program.

2. At present the Higashi Maizuru sub-station is operated with a 1,500 KVA while another 1,500 KVA transformer is kept there as a spare. The present power supply of the Higashi Maizuru sub-station is as follows.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Ltr. Kyoto Military Government Team, APO 301, dtd. 16 July 48, subj: "Exemption of Machines from Reparations". 1st Ind. Cont'd.

1) Summer Season:

Engineer School	100 KW
Taira Repatriation Center	80 "
General Populations Approximately	1,000 KW
Approximate Total of	1,200 KW

2) Winter Season:

Entineer School	800 KW
Taira Repatriation Center	500 "
General Populations Approximately	1,800 KW
Approximate Total of	3,100 KW

3. Present current capacity is only 3000 KVA which is below the capacity needed during winter season and allows no spare in case of break down.

4. The transformer Kansai Haiden applied for is needed to supply the Occupation Forces as well as the Japanese people during the winter season.

5. Recommend that the transformer and accessories be exempt from reparations.

Att: Captain Commons

1. Revised listing of authorized use machinery and requested authorized use of machinery for plant (22-24) Iino Sangyo K.K. of the former Maizuru Naval Arsenal (Reconversion Permit No. EG-313) are forwarded in five copies each as inclosures one to four of this letter.

2. Lists contain data specifying:

a. Machinery previously authorized for use.

b. Machinery previously authorized for use but not now needed and dropped from authorized use.

c. Additional items needed for authorized use and items needed for authorized use as substituted in lieu of previously authorized items dropped.

d. Items as inventoried under 5/9 since June 1947 and needed for authorized use but not included on original authorized litt.

e. Items as inventoried under OD 5/10 since June 1947 and needed for authorized use but not included on original authorized list.

f. Instruments needed for authorized use as inventoried on supplementary inventories since June 1947 and not included on original use list.

g. Those machines not needed for authorized use.

3. Lists forwarded herewith have been compiled as

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

specified by Mr. J.A. Rudis of the Reparations Section, GHQ and contain listings as arranged in integrated units, designated as to shops, buildings and integrated working components containing those machines within these units that are actually needed for production and separating those items as stored or contained within these production units that are not needed for authorized use.

4. Inspection and check of lists submitted (Incl 1-4) was made on the 12th and 13th of July 1948 by Mr. Rudis, Reparations Section GHQ and Lt. Strollo Maizuru Detachment, Kyoto MilitaryGovernment Team to determine actual need for authorized use of machinery requested and to drop those machines as may have been requested that were not needed for actual present operations of subject plant.

5. Inclosures are arranged as follows: Inspection and check has been made.

Incl. # 1 Dockyard and Sawmill Requested Use.
Incl. # 2 Dockyard and Sawmill Machinery Not Needed for Use.
Incl. # 3 Freight Car Repair Shop Requested Use.
Incl. # 4 Rreight Car Repair Shops Machinery Not Needed for Use.

6. Revised listing is forwarded for clarification by reparations section SCAP of authorized use status of Plant 22-24 Maizuru Naval Arsenal. Since the Maizuru Naval Arsenal, Plant 22-24 Iino Sangyo K.K., is engaged in salvage operations, ship and freight car repair as designated by SCAP. Authorized use machinery is needed for compliance with directives specifying work as designated. Machinery requested as authorized use in Inclosure 1 and 3 are believed to be the minimum amounts necessary to carry on these operations. Recommend approval be made of authorized use lists as revised and submitted as Inclosure 1 and 3 of this letter.

SUBJECT: Use of Steam Boiler

TO : Commanding Officer, Kyoto Military Government Team, APO 713
ATTN: Economics Section

1. This headquarters has received a petition from the Fuji Kogyo Goshi Kaisha, Obama-cho, this prefecture, requesting temporary use of a steam boiler located at Tendai Quarters, Maizuru-cho, Kyoto Prefecture. Subject boiler was formerly the property of the Maizuru Naval Arsenal.

2. Upon inquiry into the matter it was learned that the Fuji Company has made a previous request to your detachment at Maizuru, and were informed that recommendation of this headquarters would have to be obtained before possible permission could be granted.

3. It is the policy of this headquarters to encourage industry in all critical items that do not conflict with the policies and directives of higher headquarters; therefore this headquarters has no objection to temporary use of subject boiler as the company concerned in engaged in the paper and pulp manufacturing industries, items which are critically short items in the present day Japanese economy.

TO: CO, Fukui Mil Govt Team, APO 713

1. Attention is directed to the 6th indorsement.

2. Reference is made to SCAPIN 1355, dated 22 November 1946. Subject application for use of boiler now on reparations should be made by the owner of the boiler through Japanese government channels in compliance with paragraph 5 of referenced SCAPIN.

3. Present policy of higher headquarters is to disapprove all requests for use of reparations equipment in which it is not clearly shown that: a) the facilities requested are not available from current production nor from any non-reparations source, and, b) the product for which the use of reparations machinery is requested is essential to Japan from a national viewpoint and that unused productive facilities do not presently exist.

4. Information available at this headquarters indicates that present productive capacity of Japanese industry exceeds by three times the supply of raw materials. This implies that productive capacity is presently available in Japan for the production of ample quantities of wood pulp and paper products provided that sufficient wood pulp logs were available and sufficient coal could be allocated to the wood pulp and paper industry.

5. In view of the above information, it is recommended that prefecture officials in Fukui Ken critically consider the application for the use of such boiler in view of the criteria listed in paragraph 3. above. In the event local prefecture officials consider this use of subject boiler essential from a national viewpoint and can conclusively show that such a boiler is not available from current production or non-reparations source, the application may be submitted to SCAP through Japanese government channels.

SUBJECT: Exclusion of Transformers from Reparational Control and Custody

THRU : Commanding Officer, Tokai-Hokuriku Mil Govt Region, APO 710

TO : Commanding General, Eighth Army, APO 343
ATTN: Military Government Section

1. The Maizuru No. 3 Naval Powder Mill, Maizuru, was placed under Reparational Custody and Control by SCAPIN 1023, dated 15 June 1946.

2. Prior to the cession of hostilities a large amount of the equipment was dispersed to other areas and thirty (30) transformers owned by the 3rd Navy Powder Mill, which were dispersed in Toyama Prefecture were used, and are stil in use, to rehabilitate the electrical system of Toyama City after the air raid of 1 August 1945.

3. Although these transformers are arsenal machinery they are essential to the electric system of Toyama City. Although it has not been the policy of higher headquarters to release transformers, belonging to arsenals, from reparational control and custody it is the opinion of this headquarters that subject transformers are essential to the civil economy of Toyama City, and therefore recommends approval of this application.

Hq I Corps, APO 301,

TO: CG, Eighth Army, APO 343

1. Forwarded herewith are applications of the Fukusan Kogyo K.K. and the Fuji Kogyo G.S.K. for temporary use of machines dispersed from the Maizuru Navy Yard to Fukui Prefecture, and subsequently inventoried under code numbers 06-7(V) and 06-7(VV) respectively. The above two firms are presently being held responsible by the Japanese Government for the safekeeping of these machines.

2. Recent inspection conducted by this headquarters revealed that the degree of maintenance of these machines was inadequate. At the time of inspection, it was recommended by Major Berry, Headquarters Eighth Army, and the representative of this headquarters that reparations machines which are applied for in the inclosed applications be centralized and returned to the Maizuru Navy Yard. In view of the imminent removal of reparations items from government-owned arsenals and of the anticipated centralization of this machinery, it is the recommendation of this headquarters that the inclosed applications be denied.

HEADQUARTERS
4TH ENGINEER CONSTRUCTION GROUP
APO 301 (KYOTO, HONSHU)

8 August 1947

SUBJECT: Maizuru saw-mill factory
West Maizuru, Kyoto prefecture
Japan scheduled for Reparations

TO: Senior Military Government Officer
Military Government Section,
Hdqrs, I Corps, APO 301

THRU: Military Channels

1. Request that all items of equipment listed on attached blue print of MAIZURU DOCK YARD, IINO INDUSTRIAL Co. Ltd., be deferred in reparations removal until completion of construction of Engineer school and Dependent's housing project at Maizuru.

2. Further request that authority be granted to use and operate the Maizuru Saw-mill Factory for processing lumber to be used in the construction of Engineer school and approximately fifty dependent houses at Maizuru, Japan. This will permit us to specify that kiln dried lumber be used in this construction, and eliminate major construction difficulties.

3. Data contained in inclosures is as follows:

a. Reparation numbers assigned to the items of equipment.

b. A list of principle real estate.

c. A sketch showing layout of factory buildings.

NG

AG 004 - BA 1st Ind NHN/mk

Hq I Corps, APO 301, 19 AUG 1947

TO: CG, Eighth Army, APO 343

1. Basic communication is a request by Headquarters Fourth Engineer Construction Group for deferment of removal for reparations of woodworking machines located in the joiner shop of the Maizuru Naval Yard, plant code no. 22-45, a reparations selections within the shipbuilding industry.

2. The Maizuru Naval Yard is an enemy installation now under custody of the Occupation Forces, as well as a reparations selection. The land and buildings of the Maizuru Naval Yard have not been released to the Japanese. The Iino Industrial Company is now operating the ex-Maizuru Naval Yard, which is used for the repair of former Japanese navy war vessels, which are to be allocated to the Allied Powers. These activities are carried out at the direction of SCAP.

3. The Fourth Engineer Construction Group has established an engineer training school in the Maizuru area, and has planned a dependent housing project to be constructed in connection with the school. It is intended to utilize the land and buildings of the Maizuru Navy Yard for woodworking operations, which will include production of finished lumber, doors, sash, etc.. The finished material will be used in the building of school and dependent housing projects. It is requested that permission be granted for use of woodworking machines located in the installations, and that removal of these machines for reparation purposes be deferred until such time as the engineer projects are completed. It is estimated that these projects will require approximately eight months. The labor for operation and maintenance of reparations machines and raw lumber consumed in the projects will be made the subject of a procurement demand and the Fourth Engineer Construction Group will assume responsibility for supervision of proper maintenance of reparations machinery.

4. This headquarters recommends that the request contained in basic communication be favorably considered and that permission be granted the Fourth Engineer Construction Group to use temporarily the machinery requested.

1. Request in basic communication is returned not favorably considered.

2. Deferment of the equipment and machinery requested for the manufacture of building materials is not believed necessary as a sufficient supply of such materials is available from normal procurement channels to complete the projects now under construction by the group.

3. Recommend that requisitions be submitted to this headquarters for the materials required and they will be furnished from procurement channels now in effect.

SUBJECT: Release of Reparations Equipment

TO : Commanding General, I Corps, APO 301
Attn: Mil Govt, Res & Ind Sect.

1. The enclosed petition is forwarded for your consideration.

2. There is an acute shortage of farming implements in this prefecture. The Government allocation of farm implements is inadequate for the Prefecture needs and in most cases only a small percentage of the allocation is ever received. The only other source of equipment is from the blackmarket where high prices are charged for inferior implements.

3. In order to relieve this situation and to furnish the farmers the equipment they need for maximum food production, the Kyoto Agricultural Association, with the cooperation of the Kyoto Prefecture Agricultural Administration Section, is endeavoring to establish a non-profit, cooperative type, farm implement factory. Manufactured equipment will be distributed to the farmers by the Agricultural Association at cost price.

4. To carry this plan out they are requesting that certain equipment from the former Maizuru Naval Base (Reparations plant 22-24) be turned over to them and released from reparations. Their request is for twenty one (21) reparations items (4 electric motors and 17 machine tools) plus sixty two (62) miscellaneous pieces of non-reparations equipment.

5. It is recommended that this petition be granted.

AG 004 - BA 1st Ind EHN/yo

Hq I Corps, APO 301, 24 MAY 1947.

TO: CG, Eighth Army, APO 343

1. Forwarded herewith is a petition of the Kyoto Prefectural Government for release of twenty-one (21) reparations items from the Maizuru Naval Arsenal (22-24) for use in manufacturing farming implements which are critically needed in this prefecture. The Kyoto Agricultural Association, with the cooperation of the prefectural government, is planning to establish a non-profit, cooperative factory with these machines.

MG

2. This headquarters is sympathetic to the acute needs of farming equipment, but is the opinion that the shortage of such equipment is a problem of nation-wide scope, and not exclusive to any one prefecture. The machines are properly designated for reparations claim, and if this petition were given favorable consideration, many similar cases could be advanced. It is the recommendation of this headquarters that the requested twenty-one (21) machines be retained for reparations.

3. However, due to the shortage of farming implements, and the good faith expressed in the intentions of this plan, it is recommended that the Kyoto Agriculture Association and the prefectural government be permitted temporary use of these machines until such time as they are required for reparations removal.

Attn: Mil Govt. Res & Ind Section

1. Kyoto Post Command is in urgent need of transformers for use on Dependent Housing and other Occupation Force Projects in the Kyoto Area.

2. Investigation by this office indicates that the only transformers available are those in Reparations Plants. The former Maizuru Navy Yards has a sufficient supply of transformers to meet the current needs of Kyoto Post Command.

3. It is requested that sixteen (16) ea. 15 KVA, thirteen (13) ea. 20 KVA and forteen (14) ea. 30KVA transformers from the Maizuru Navy Yards be released to the Post Engineer, Kyoto Post Command.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Ltr, Kyoto Mil Govt Team, subj: "Use of Reparations Equipment by Occupation Forces", dtd 26 Feb 47.

AG 004 - BA 1st Ind EHN/ckw

Hq I Corps, APO 301, 1 MAR 1947

TO: CG, Eighth Army, APO 343

1. Basic communication consists of a request from the Kyoto Military Government Team for release of a total of 43 transformers from plants subject to reparations. The transformers will be used for Occupation Force Projects in the Kyoto Area. A sufficient number of transformers to meet this demand are stored at the former Maizuru Navy Yard (22-45).

2. In view of the statement that subject transformers are the only ones available in this area, it is the recommendation of this headquarters that favorable consideration be given this request.

5 Feb 47

SUBJECT: Petition for Release of Reparation Machinery.

TO : COMMANDING GENERAL, I Corps, APO 301
Attn: Military Government Section

1. Inclosed are copies of an application submitted by the Fukusan Kogyo K.K., which requests that certain machines be removed from the reparations list. The nine machines in question are part of a group of seventeen now on hand at the Fukusan Kogyo K.K.; all machines were inventoried under #06-7 Maizuru Naval Arsenal (Dispersal Area); they appear under parenthetical number #06-7 (V).

2. The firm has repaired and is now utilizing the machines in the production of textile machines. All of the machines are Class 2 and 3 for they are missing motors and other pertinent parts; the Class 3 machines are almost completely worn out. While the company has repaired and can utilize the machines in a limited way for a few more years, it is not thought that the machines are of sufficient value to warrant export to an Allied Nation. Shoul the machines be removed the applicant will be unable to continue production.

3. There can be no doubt of the importance of new textile machines in rehabilitating Japan's textile industry. This headquarters believes that the productive capacity of such textile machines will further the objectives of the occupation far more than could the removal of the metal working machines which have only a few more years of limited production. It is recommended that the petition of the Fukusan Kogyo K.K. be approved, thus removing the machines from the reparations list.

AG 004 - BA 1st Ind EHN/yt

Hq I Corps, APO 301, 12 FEB 1947

TO: CG, Eighth Army, APO 343

1. Inclosed herewith is an application by the Fukusan Kogyo K.K., requesting that nine (9) machines be exempted from reparations claim. These machines are held under custody by the Fukusan Kogyo K.K., and have been inventoried under code number 06-7 (v) (Maizuru Naval Arsenal, dispersal area). There is no reason to question the proper listing of this equipment as reparations machinery.

2. All nine machines are of Classes 2 and 3, as stated in paragraph 2 of the basic communication, and are of little value for export to the Allied Nations for reparations. It is the opinion of this headquarters that they will be of greater benefit to the Allied Nations if left in possession of the subject company and used for the production of textiles. This headquarters recommends that the inclosed application be given favorable consideration, and that subject machinery be removed from the reparation list.

1. Reference: Letter, Commanding Officer, Fukui Mil Govt Team to Commanding General, I Corps, dtd 7 Aug 1946, subj: "Disposition of Ex-Japanese Navy Machinery" and 1st Indorsement thereto, Commanding General, I Corps to Commanding Officer, Fukui Mil Govt Team, dtd 16 Aug 1946.

2. Machinery belonging to the ex-Maizuru Naval Yard was dispersed to various locations in Fukui-ken during the war. In order to properly maintain the machines, the Prefectural Government redistributed the machines to 50 separate factories. Inventory sheets have been prepared on the machinery, and this organization is now in the process of completing the inventory.

3. Approximately 459 pieces of machinery, located at 50 separate points, are involved in this program. In view of the complexity of the undertaking, it is recommended that a separate plant listing (under Fukui-ken) be assigned to these machines as provided for in paragraph 3c, Section III, Inclosure 1 to OD # 5/4. In any event, it is requested that a system of code numbers be assigned to these machines in order that Inventory Sheets and the machinery may be properly marked.

1. The Fukui Military Government Team has located a quantity of machinery in Fukui Prefecture which was formerly part of the Maizuru Naval Arsenal (22-24) and Maizuru Naval Yard (22-29). This equipment has been placed under custody and control, and is receiving proper care. The equipment consists of 459 pieces of machinery, that are dispersed to 50 different locations in Fukui Prefecture.

2. It is the recommendation of this headquarters that the machinery in Fukui Prefecture be consolidated under the name of Maizuru Naval Arsenal. It is further recommended that a separate code number be given this installation for purpose of inventory.
