MESSAGE: SUBJECT: "Control of Construction, Maintenance and Acquisition of Real Estate"

1. References.

a. Circular 77, this headquarters, subject: "Construction Policy, 16 March 1946, as amended.

b. Messageform, this headquarters, 28 April 1948, AG 400.12 (LC), subject: "Removal of Maintenance Clauses from Real Estate Procurement Demand."

c. Memorandum for the Japanese Government, AG 400.12 (31 Mar 48) CE-GD, SCAPIN 1872, 31 March 1948, subject: "Expenditures from Funds Appropriated for Occupation Force Requirements."

2. Reference 1a contains restrictions and limitations for the prosecution of construction in Japan. These restrictions apply to all construction for Occupation Force requirements including special service, information and education, military railway service and communications, as will as operational facilities, housing and similar requirements, The principal intent of the restrictions and limitations is to reduce the impact of Occupation Force requirements on the Japanese economy.

3. A review of current Japanese expenditures from funds appropriated by the Japanese Government for requirements for support of Occupation Forces indicates that costs of projects in excess of established restrictions and limitations are being defrayed from these funds. In general, such projects are not property covered by procurement instrument but have been initiated on informal requests by Occupation Force personnel (in some cases solicited by local prefectures by petition to local commanders) and by loose interpretations of procurement instruments and orders for services and utilities.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

4. Reference 1c has been issued to the Japanese Government to define and limit the instruments which constitute authority to expend Japanese Government funds to meet:

a. The requirements for support of the Occupation Forces.

b. The requirements for compliance with directives issued by the Supreme Commander for the Allied Powers other than requirements under a above.

5. a. Attention is particularly invited to the provision in reference 1c that, except for specified limited requirements for which the Communications Order (GPA Form 8) and Labor Requisition (Labor Form 1) are authorized, and except for limited use by the Commanding General, Eighth United States Army, of letter directives covering advance provisions for materials and equipment for dependent housing projects materials for maintenance and advance payments to contractors, the Procurement Demand, GPA Form 1, is the only instrument authorized for procurement of real estate, construction, rehabilitation, maintenance, equipment, services, supplies, or other requirements for the support of the Occupation Forces. Current standing Signal Instructions Item No.41, subject: "Procurement of Communications Facilities", by the Signal Section, this headquarters, further specifies the usage and limitations of the Procurement instruments GPA Form 8, Communications Orders, and GPA Form 5, Statements of Services Rendered, as defined and limited by SCAPIN 1872.

b. Attention is further invited to the requirements that procurement instruments be initiated to cover any acquisition of special or additional plant, equipment, and real letter and the construction, rehabilitation or maintenance of structures and equipment as may be required in connection with a service or utility furnished by the Japanese Government to meet a requirement for the Occupation Forces.

c. With reference to procurement of maintenance services under provisions of paragraph 4b of reference 1c and where equipment, structures, roads, and other facilities so maintained are not used exclusively for support of the Occupation Forces, monthly GPA-2 Receipts will indicate the percentage of joint usage. However, the estimated dollar value of the total work directed will be included in the appropriate monthly budget report.

6. It is considered necessary to insure compliance with SCAPIN 1872 by verifying the fact that requisitioned labor has been used. Acknowledgement of accomplishment of labor requisitions, Labor Form 1, submitted in compliance with Operational Directive 1, Headquarters Eighth Army, 5 January 1946, in whole or inpart will be indicated by certification of unit labor officer on Labor Time Report, Labor Form 5, Inclosure 2, This Time Report will be forwarded at the end of each pay period through local Military Government Team to local Japanese Government for purpose of accomplishing payment of Labor services performed.

7. a. Address commanders will ensure that no requirement, other than the procurement instruments authorized by this headquarters, are placed on any agency of the Japanese Government for Occupation Forces requirements,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

whether these requirements are mutually for the benefit of the Japanese people and the Occupation Forces, or exclusively for the Occupation Forces. They will additionally ensure that any implementing instructions issued in accordance with provisions of paragraph 8 of reference 1c do not include any requirements for the support of the Occupation Forces.

5. It is apparent from the foregoing that the intent of this directive is to bring under control the expenditures reported by the Japanese Government as being Justified for purposes stated herein. This can only be done by establishing the necessary controls and records within our own forces, so that any extraneous and unauthorized expenditures of funds on the part of the Japanese Government can be detected. These expenditures are of large amounts and are generally attributed to engineer work of some kind. These measures are supplemental to the budgetary control procedures already required for both minor and major construction and for repairs and utility support. It is expected that in this manner the expenditures of the Japanese Government can be reconciled with the value of services received by the Occupational Forces.

2. It is the purpose of this memorandum to define and limit the instruments which constitute authority to expend funds appropriated by the Japanese Government to meet the requirements for support of the Occupation Forces as differentiated from those funds appropriated to meet requirements for compliance with directives issued by the Supreme Commander for Allied Powers for the benefit of the Japanese people, to carry out the terms of surrender, or to otherwise accomplish the purpose of the Occupation.

3. Requirements for support of the Occupation Forces are transmitted to the Japanese Government by means of "Procurement Instrument," which, when applicable, include items mutually beneficial to the Japanese people and the Occupation Forces. The term "Procurement Instrument," as used herein refers to any one of the following three instruments only and does not refer to "SCAPINS," "Letter Directives," or "Work Orders".

a. Procurement Demand, GPA 1. The Eighth United States Army is the only authorized agency to issue these demands. The method of issue is as prescribed by the Commanding General, Eighth Army. Except for limited purposes as defined in subparagraphs b and c below, the Procurement Demand, GPA Form 1, is the only instrument authorized for procurement of real estate, construction, rehabilitation, maintenance, equipment, services, supplies, or any other requirement for the support of the Occupation Forces. Acknowledgement of accomplishment of Procurement Demands (GPA Form 1), in whole or in part, is indicated by receipt of GPA Form 2.

b. Communications Order, GPA Form 8. This is a special form of Procurement Instrument served on the Japanese Government through the Japanese Bureau or Ministry of Communications through the designated Signal representative of the Supreme Commander for the Allied Powers or Commanding General, Eighth Army, for the procurement of communications services, materials, equipment, technical personnel and construction incident to installation, maintenance or operation of communications equipment. It will not be used for construction, maintenance or acquisition of buildings, real estate (except cable or wire right of ways), water, heat, power or sewage, as such. Acknowledgment of accomplishment of Labor Requisition (Labor Form 1), in whole or in part, is indicated by certification of Unit Labor Officer.

4. Procurement of utilities, services, and maintenance, and plant or operating facilities necessary to provide utilities or services as demanded will be accomplished as follows:

(2) The acquisition of special additional plant, equipment, and real estate, and the construction or rehabilitation and maintenance of structure and equipment as may be required in connection with a service or utility furnished by the Japanese Government to meet a requirement for the Occupation Forces will be covered by separate and specific procurement instruments, (See sub-paragraph(3) below).

(3) Procurement instruments issued under the provisions of paragraph 4a (2) above are only issued to the extent that the existing facilities, which are available to the agent of the Japanese Government, are inadequate to provide the utilities or services required.

Maintenance.

All maintenance of equipment, structures, roads and other facilities performed by the Japanese Government in response to an Occupation Force requirement will be covered by a specific procurement instrument (GPA Form 1 or GPA Form 8) or by properly executed work orders issued against an appropriate procurement instrument, approved and issued for a specific facility, area or service. Acknowledgment of accomplishment of maintenance will be made on GPA Form 2 or GPA Form 5, as appropriate,

5. Instructions which are not to be considered "Procurement Instruments," through relating to procurement for support of the Occupation Forces, include the following:

Payments will not be made from Japanese Government funds pursuant to directives from the Supreme Commander for the Allied Powers, unless such payments are fully Justified by the provisions of the original SCAPIN, by implementing instructions issued by those Occupation Force agencies charged with surveillance or by a plan submitted by the Japanese Government and approved by the Supreme Commander for the Allied Powers.

9. The Commanding General, Eighth United States Army, or his designated representative, has been designated as the Occupation Force agency to make periodic examination of Japanese expenditures to ensure compliance with the provisions of this memorandum.

"Gai" No. 02

March 1948

TO : Commanding Officer, Oita Military Government

THROUGH : Oita Liaison and Coordination Office

FROM : Governor, Oita Prefecture

SUBJECT : Nomination of Contractor to Operate Laundry under Direct Control by Occupation Force

Regarding the above subject, which was contained in the letter sent from the United States 8th Army to the governor of the Japanese Government special procurement board(TOKUBETSU-CHODATSU-CHO), we are now in receipt of a petition from a keeper, named Ken-ichi Nonaka, of the "Hakkosha" laundry.

Soon after the petition was received, we conducted a thorough inquiry into the reasons why the laundry keeper was induced to file his petition. And, as a result, the following facts have become known to us:

Simultaneously with the first arrival of the Occupation troops in Oita City immediately after the surrender of Japan, the laundry keeper commenced and completed an enlargement of his laundry and an additional installation of washing and dry-cleaning machines, in order to solicit patronage by the Occupation Force.

Under date of 28 October in 1946, the laundry was procured by the procurement demand, No. FKKH-1642. Since then, the laundry keeper and his employes have made combined and successful efforts to meet the successive requirements by the Occupation Force.

In April 1947, there was established a new laundry under direct control by the Allied armed forces. Thereupon, the Hakkosha laundry sent many of its employes to the new directly-controlled laundry, going through formalities for labor requisition. The new directly-controlled laundry devoted itself to the sole sphere of "laundering", whereas the Hakkosha laundry still continued to perform the both functions of "laundering" and "dry-cleaning".

5 May 1948

SUBJECT: Responsibility for the Beppu Dam, Filtration Plant and Supply of Water to the Occupation Forces

THRU : Oita Liaison and Coordination Office

TO : The Governor, Oita Prefecture

1. This letter confirms instructions given, and agreements reached, in a conference at the office of the Post Engineer, 19th Infantry Regiment on 4 May 1948, attended by the following principal conferees:

Lt Col Paul M. Cairns, Deputy Post Commander,

Lt Col Hugh T. Cary, Executive Officer, 19th Inf Regt,

Major W. A. Crawford, Post Engineer,

Mr. Huffman, Engineer Assistant,

Mr. J. D. Frazee, Oita Military Government Team,

Mr. I. Watanabe, Chief, Oita Liaison and Coordination Office,

Mr. K. Tsuyuki, Chief, Foreign Affairs Section, Oita Prefectural Government.

2. It has been decided by the Commanding General, Eighth Army, that the costs of construction of the dam and filtration plant in Beppu City, from which water for the Beppu Camp and dependent houses in Beppu City is drawn, will not be charged against the Occupation Forces, inasmuch as the project is of long-range benefit to the Japanese.

3. Accordingly, the dam and filtration plant will be considered to be Japanese property, and the Japanese Government will be responsible for their management.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

4. A supplier will be designated by the prefectural government to furnish water to the Occupation Forces in Beppu City, as called for by the Procurement Demand for water which is in effect at the present time, JPNO 3298. It is recommended that the City of Beppu be named as supplier, and that the personnel now operating the Beppu dam and filtration plant continue to be employed in their present positions.

5. The transfer of responsibility for management of the facilities for supplying potable water to the Beppu Camp is retroactive to 1 September 1947, the beginning date of Procurement Demand JPNO 1213. A final Procurement Receipt will be made to cover water supplied from 1 September 1947 to 31 March 1948. From 1 April 1948, monthly Procurement Receipts will be signed covering water supplied against Procurement Demand JPNO 3298.

6. In order to make this change retroactive to 1 September 1947, the following changes in accounting for costs are necessary:

a. The salaries of employees at the dam and filtration plant must be charged against the Japanese Government or designated supplier, beginning 1 September 1947.

b. Procurement Release, form MGP 7, must be executed to charge the Japanese Government with costs of chemicals.

7. The chemicals for treating water which are now on hand may be used by the supplier, if necessary. However, the Japanese Government and the supplier must locate their own source of chemicals at the earliest possible date.

8. It is the responsibility of the Japanese Government to furnish an adequate supply of water to the Beppu Camp at all times. Water in excess of Occupation Force requirements may be diverted for irrigation, use of Beppu City, or such other use as the responsible Japanese officials may elect.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

9. An adequate system of measuring water furnished to the Beppu Camp must be installed.

10. Request acknowledgment of this letter immediately, and notification to this headquarters regarding each specific requirement in the preceding paragraphs, as accomplished.
