DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

(1) *AFFIRMATIVE*, means "yes," "permission granted," "granted," "authorized," "concur," "approved," "recommend approval," "action completed," and equivalent expressions.

(2) *NEGATIVE*, means "no," "permission not granted," "not granted," "not authorized," "do not concur," "not approved," "do not recommend approval," "recommend disapproval," "action not completed," and similar expressions.

(3) *INTERROGATORY*, means "question," "I do not understand," "need more information," "meaning not clear," and similar expressions.

(4) *COMPLY*, includes "will comply," "have complied," or "you are to to comply," according to the contents of the message to which it refers.

(5) *LETTER*, includes the meanings "letter follows," "replying by letter," "by letter," and "reply by letter."

(6) *ACKNOWLEDGED*, means message has been received.

f. The selection of the proper cryptographic system is a responsibility of the cryptographic security officer or the custodian of cryptographic material where there is no cryptographic security officer. He will be governed by the provisions of paragraph 54.

g. If time and availability of personnel permit, the cryptographed text of messages will be checked prior to transmission. The check should determine that the instructions governing the system employed are carefully followed. Particular care must be taken to assure that no plain text appears in the body of the message.

h. The handling and filing of both plain and cryptographed text will conform to the procedure described in paragraphs 56 to 60 inclusive.

i. Paraphrasing is resorted to as a protection to the cryptographic system and will not warrant loose handling of classified messages. Paraphrasing is to be employed when—

(1) The content of previously cryptographed messages is released to the public or given a wide distribution within the Army.

(2) It is necessary to send in cryptographic form—

(*a*) All or portions of a message previously transmitted in plain text.

(*b*) Extracts from publications, regulations, or instructions.

(3) It is necessary to transmit in plain text all or portions of a message previously sent in cryptographic form.

(4) A classified message is recryptographed in a different cryptographic system.

(5) A classified message is recryptographed in the same system.

Exceptions to the necessity for paraphrasing may be granted only in accordance with instructions pertaining to certain cryptographic systems issued by the War Department.

j. When it is necessary to indicate in the text of a classified message information as to the ultimate addressee or the signature of the writer, such information will be buried within the text of the message before cryptographing and will not appear either at the beginning or at the ending of the message.

52. Responsibility for classification of messages.—*a.* Within the limitations prescribed in paragraph 58*b* the originator of a message is responsible that the classification given to it conforms to the definition given in paragraphs 5, 6, 7, and 8. He is also responsible for the proper marking of the message before forwarding it for transmission.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

b. A message will be marked top secret, secret, confidential, restricted, or unclassified in accordance with its contents, except as prescribed in paragraph 58*b*(2).

53. Drafting messages.—*a.* Routine reports and messages which must be given a wide distribution, or the contents of which have been or may eventually be furnished the press, or which contain extracts or quotations from a newspaper, magazine, or any other document available to the public, will if possible be prepared so as to permit their transmission in the clear or will be crypographed in special systems which permit the handling of the plain texts of the messages as correspondence of similar classification, otherwise, such reports and messages will be paraphrasad in accordance with *d* below.

b. Standardization of the content and form of such documents as field orders and operation instructions is necessary, but when fixed expressions are repeated in a message, cryptographic security is greatly endangered. Hence stereotyped phraseology and set form of expression, especially at the beginning or ending of a message which is to be cryptographed will not be used. A list of words considered universally to be stereotyped is furnished by the War Department. Except as specifically provided for in certain cryptgraphic systems or as specifically authorized by the War Department, the use of dummy letters or irrelevant text as "padding" for the purpose of concealing stereotypic phraseology is prohibited. Personnel concerned with the drafting of classified messages will guard against repeated use of the same words or phrases.

c. Words not important to the sense will be omitted. Conjunctions, prepositions, and punctuation marks will be reduced to a minimum. Unless it is known that a message will be sent in clear text over an approved circuit or in a cryptographic system capable of enciphering punctuation marks as such, all punctuation marks included in the body of the message will be spelled either in full or abbreviated form. In similar circumstances, numbers will be also spelled out.

d. Except when it is known that a classified message will be sent in clear text over an approved circuit or in a cryptographic system not requiring the protection afforded by paraphrasing, the originator of all classified messages will paraphrase such portions as are quoted from—

(1) A message in clear text.
(2) A message in the same or another cryptographic system.
(3) A newspaper, magazine, or document.

54. Selection of cryptographic system.—*a.* Cryptographic systems are supplied for handling messages of all classifications. All classified messages, except those transmitted in accordance with the provisions of paragraphs 25*b* and 58*b*(2), will be transmitted in cryptographed form, unless specific exception is made by the War Department.

b. Selection of the cryptographic system to be employed for the cryptographing of a message will be based on the following considerations:

(1) A system authorized for the particular type and classification of message will be used.
(2) Where all addressees can be reached by the same system, the least widely held system available will be used, unless a definite operational advantage will be gained by using a more rapid system for one or more of the addressees. Where all addressees cannot be reached by the same system, the same principle will be applied to the extent permitted by the available systems. Cryptographing of the same or related subject matter in different systems will be

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

kept to a minimum. Headquarters or commands in frequent communication should normally use the same system for exchange of the same type of messages.

c. The determination of the need for paraphrased versions is a function of the cryptographic security officer who may require the assistance of the originator of the message in the preparation of the necessary paraphrases. Where practicable, the cryptographic security officer will furnish copies of the paraphrased versions to the originator, except as noted ir paragraph 48*b*.

55. **Paraphrasing messages.**—*a.* In paraphrasing, it is not sufficient to paraphrase only the beginning or ending of the message. The entire message will be subjected to the process.

b. When paraphrasing must be employed, all of the following processes will be applied to the message:

(1) Changing the sequence of the paragraphs.
(2) Changing the sequence of the sentences in each paragraph.
(3) Shifting the positions of the subject, predicate, and modifiers in each sentence.
(4) Changing from active to passive voice or vice versa.
(5) Substituting synonyms or equivalent expressions.
(6) Changing the length of the paraphrased version of the message in order that the final ciphe. text will not resemble the original cipher text with respect to length.

c. A paraphrase of a message normally will be accorded the same classification as the original message.

56. **Method of handling outgoing secret messages.**—*a.* The procedure hereinafter described will be followed at all headquarters, except the War Department in which the procedure will be as determined by the Chief of Staff.

b. Except as noted in *c* below or as authorized in accordance with the intructions pertaining to certain cryptographic systems issued by the War Department, the originator will prepare and number all copies of secret messages, send the original to the message center, and may retain, when security is not imperiled thereby, one copy for temporary file. Other carbon copies, all numbered and bearing the following notation, may be sent to local officers directly concerned:

The making of an exact copy of this message is forbidden. Only such extracts as are absolutely necessary will be made and marked SECRET. This copy will be safeguarded with the greatest care and will be returned to the originator without delay.

All such copies will be carefully accounted for by the originator and will be destroyed wher returned. The copy in the temporary file will also be destroyed upon determination that the message has been correctly dispatched.

c. Messages pertaining to tactical operations, simulated or actual, may be prepared in triplicate. One carbon may be retained by the originator and the original and one carbon delivered to the message center.

d. The original plain-text copy sent to the message center by the originator will be cryptographed at the cryptographic section of the message center. The number of copies of the cryptogr phed message will be kept at a minimum commensurate with the necessity for furnishing copies to the various transmission agencies. All work sheets used in cryptographing the message will be destroyed by burning. The placing on the origina' plain-text copy of any marks or notations to indicate the steps following in cryptographing the message, such as underlining key words, indicating groupings corresponding to lengths of columns

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

of keys, etc. is forbidden. All copies of cryptographed messages retained by transmitting agencies will be safeguarded so as not to fall into unauthorized hands.

e. The original copy of the literal plain text will be marked SENT (date) and returned to the originator who will place it in his secret file for outgoing messages and destroy the retained copy by burning.

f. The transmitting agency will send the cryptographed message, retaining at least one copy in its file of outgoing messages for final disposition in accordance with local regulations.

g. When certain cryptographic systems are used in which no copy of the cipher text is available, a copy of the plain text may be retained by the message center for file.

h. The method of handling top secret messages will conform to the procedure outlined above as modified by the provisions of paragraph 27*a*(2) and (3).

57. Method of handling incoming secret messages.—*a.* The procedure hereinafter described will be followed at all headquarters, except the War Department in which the procedure will be as determined by the Chief of Staff.

b. The original copy of an incoming cryptographed message as made by the receiving operator will go to the cryptographic section of the message center. A duplicate copy may be made by the receiving operator for the files of the receiving station or message center, where it will be disposed of in accordance with local regulations.

c. A cryptographer will decryptograph the message, making only one copy of the decryptographed literal plain text, which will be marked SECRET and delivered to the addressee. The cryptographed version will be retained in the files of the message center, where it will be disposed of in accordance with local regulations. All work sheets used in decryptographing will be destroyed by burning. The cryptographic section will not retain any copy of the plain text for its files, except as provided in paragraph 56*g*. The placing on the message blank of any marks or notations to indicate the steps followed in decryptographing the message, such as underlining key words, indicating groupings corresponding to lengths of colums of key, etc., is forbidden.

d. Except where authorized in accordance with instructions pertaining to certain cryptographic systems issued by the War Department, the addressee may make and circulate only a limited number of literal copies for the information of other officers directly concerned. These carbon copies will all be numbered and bear the following notation:

> The making of an exact copy of this message is forbidden. Only such extracts as are absolutely necessary will be made and marked SECRET. This copy will be safeguarded with the greatest care and will be returned to ———— without delay.
>
> All such information copies will be carefully accounted for by the addressee and will be destroyed when returned.

e. The method of handling top secret messages will conform to the procedure outlined above as modified by the provisions of paragraph 27*a*(3).

58. Method of handling outgoing and incoming confidential messages.—*a.—Procedure.*—The procedure to be followed in the handling of messages in confidential codes or ciphers will be substantially the same as that prescribed for those transmitted in secret code or cipher, except within the War Department, in which the procedure will be as determined by the Chief of Staff. They will, however, be marked and safeguarded in accordance with provisions of these regulations governing confidential documents.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

b. In tactical operations, simulated or actual.

(1) All messages not classified secret will be regarded as confidential but need not be so marked. All wire and radio messages except those noted in (2) below will be transmitted in cryptographic form.

(2) When the information to be transmitted, if intercepted by the enemy, cannot be acted upon in time to influence the situation in question and time cannot be spared for cryptographing, the commanding officer or his authorized representative may order the transmission of a message in plain language by a radio station serving his headquarters or command. Such written messages will be marked SEND IN CLEAR over the signature of the commander or his authorized representative.

59. Method of handling restricted messages.—The procedure to be followed in the handling of messages in restricted codes and ciphers will be substantially the same as that prescribed for those in confidential code or cipher.

60. Transmission of literal plain text and paraphrased versions of classified messages.—*a.* The sending by any means whatsoever of the literal plain text of a message which has been or will be transmitted in crytographed form is strictly prohibited except as stated below:

(1) Authorized specifically by the War Department.

(2) Authorized local distribution within a headquarters by messenger.

(3) In exceptional cases, when necessary in the performance of his duties, an authorized person may carry the literal plain text of a classified message provided the security requirements pertaining to the transmission of classified material are observed.

(4) Where authorized in accordance with instructions pertaining to certain cryptographic systems issued by the War Department.

b. In cases of emergency or necessity paraphrased versions of the plain text of a cryptographed message will be sent—

(1) In accordance with the provisions of paragraphs 51*i* and 55c.

(2) In accordance with the provisions of paragraph 26 as applied to secret cryptographic material.

(3) When it is necessary to send between headquarters by mail or courier a paraphrased copy of a message which has been or will be crytographed, copy will be marked or stamped "This is a paraphrase."

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

61. Authority to classify.—Whenever the chief of a technical service responsible for a research project or for the design, development, test, or production or procurement of an article of matériel or a component thereof shall determine that the maintenance of any degree of secrecy regarding them is sufficiently important to the national defense, he will classify it as top secret, secret, confidential or restricted.

62. Notification of classification or reclassification.—Whenever the chief of a technical service in charge of a research project, design, development, test, or production of a unit of matériel or component thereof shall determine that matériel of interest to other commands should remain classified after issue or that a change or cancellation of classification is desired, he will notify The Adjutant General, who in turn will inform all concerned.

63. Responsibility for safeguarding technical information.—*a.* Chiefs of technical services engaged in the preparation of plans, research, and development work, or new design, test, production, procurement, storage, or use of classified matériel are responsible for the promulgation of such additional instruments as may be required for the safeguarding of information in the offices, establishments, laboratories, shops, or Army posts under their jurisdiction.

b. All top secret, secret, confidential, or restricted models, exhibits, dies, machines, and other similar items which are to be loaned, leased, or given to a commercial organization will be properly marked to indicate classification when practicable. If such marking is impracticable, the commercial organization will be specifically notified in writing of the classification of such items and of the pertinent provisions of the Espionage Act.

64. Classification of information from commercial firms.—Information obtained from civilian manufacturers concerning proprietary processes will be classified as confidential unless otherwise authorized by the firm concerned.

65. Dissemination of classified technical information.—Classified information concerning technical projects or developments may be imparted only to those individuals whose official duties require such knowledge or possession, and to accredited representatives of foreign nations in accordance with the provisions of paragraph 20*b*.

66. Destruction of classified matériel.—*a. Authority to direct.*—Whenever the chief of a technical service responsible for a research project or for the design, development, test, or production or procurement of an article of matériel or a component thereof shall determine that their destruction is necessary to safeguard information thereof, he will issue the necessary directive.

b. Procedure in destruction of classified matériel.—When destruction of classified matériel has been directed—

(1) The custodian thereof will remove all components of a classified nature and destroy them by burning or by mutilation in the presence of a disinterested officer. The balance of the matériel will then be processed in accordance with existing regulations for the disposition of unserviceable property, or for salvage.

(2) If the above is not practicable, the custodian will destroy the entire article of matériel by burning or by mutilation in the presence of a disinterested officer.

(3) In either case, the certificate of destruction will be signed by both the custodian and the witnessing officer before submission to the officer directing the destruction. If the headquarters has only one com-

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

missioned officer, the report will so state. Exception hereto may be authorized only by the War Department.

67. Invitations for bids and contracts.—*a.* Prior to furnishing a prospective bidder, subbidder, contractor, or subcontractor with drawings, specifications, or other pertinent information concerning any project or projects of a top secret, secret, confidential, or restricted nature and annually thereafter so long as such documents, etc., are in his custody, clearance will be obtained in accordance with separate letter instructions and a general secrecy agreement reading substantially as follows will be signed by the individual or by a responsible officer on behalf of the firm or corporation concerned:

In consideration of the receipt of drawings, specifications, and accompanying inclosures, models, or matériel, and information disclosed orally, concerning projects of a top secret, secret, confidential, or restricted nature, delivered to the undersigned prior to or coincident with the date of this agreement and listed on Exhibit A which is attached hereto and made a part hereof, or to be issued to the undersigned subsequent to the date of this agreement, the following terms are agreed to by or on behalf of the undersigned individual, firm, or corporation, and any and all representatives, agents, employees, or subbidders or subcontractors thereof:

1. The undersigned will neither supply nor disclose any information regarding the drawings, specifications, and accompanying inclosures or models or matériel, or information disclosed orally, referred to herein to any unauthorized person, or incorporate in other projects special features of design or construction peculiar to such drawings, specifications, and accompanying inclosures, or models or matériel, or information disclosed orally.

2. (*a*) The undersigned will *not permit any alien* employed or to be employed by the undersigned or by any subbidder or subcontractor to have access to the drawings, specifications, and accompanying inclosures, or models or matériel referred to herein, or to engineering principles, compositions, subassemblies, or assemblies which are vital to the functioning or use of the article or to the work under any contract for the production thereof, or to work in connection with the contract trials, without the written consent *beforehand* of the Secretary of War.

(*b*) If the project or projects bear a top secret or secret classification, the undersigned will *not permit any individual* to have access to the top secret or secret drawings, specifications, and accompanying inclosures, or models or matériel referred to herein, or to the top secret or secret engineering principles, compositions, assemblies, or subassemblies, or to work under any contract for the production of such top secret or secret items, or to work in connection with the contract trials, without the written consent *beforehand* of the Secretary of War.

3. The undersigned will not make or permit to be made reproductions of the drawings, specifications, and accompanying inclosures, or of the models or matériel, except as specifically authorized by the contracting officer or his duly authorized representative. If reproduction of any drawings, specifications, and accompanying papers, or of models or matériel, is authorized, the undersigned will promptly submit the product obtained to the contracting officer or his duly authorized representative for censorship or such other action as he may deem necessary.

4. If a bid is not submitted on a project of a top secret, secret, confidential, or restricted nature as to which classified drawings, specifications, and accompanying inclosures, and models or matériel have been issued to the undersigned, or if a bid is made and not accepted, or in case award is made, upon the completion of the contract, the undersigned will promptly return by hand, by registered mail, or by insured express, such drawings, specifications, and accompanying papers, or models or matériel, together with all copies thereof, to the office from which the original copies were received. Registered mail or insured express will not be used in returning top secret matter.

5. (*a*) The undersigned agrees to bring or cause to be brought to the attention of all persons engaged in the preparation of the bid, whether submitted or not, including subbidders and their employees, the following provisions of law:

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

Espionage Act: Subparagraphs (d) and (e), sec. 1, act 15 June 1917 (40 Stat. 217); sec. 1, act 28 March 1940 (54 Stat. 79; 50 U. S. C. 31; M. L., 1939, Supp. I, sec. 2181).

Sec. 1, act 12 January 1938 (52 Stat. 3; 50 U. S. C. 45; M. L., 1939, sec. 2187a), and E. O. 8381, 22 March 1940; 5 F. R. 1147; 50 U. S. C. 45; M. L., 1939, Supp. III, sec. 2187a.

Second War Powers Act, 1942, sec. 1402, 1403, act 27 March 1942 (Public Law 507—77th Cong.), as extended by act 20 December 1944 (58 Stat. 827; 50 U. S. C. Supp. IV, sec. 645).

(*b*) If the successful bidder on any project, the undersigned agrees also to bring or cause to be brought to the attention of all persons engaged in the performance of the contract, including persons employed on subcontracts, the provisions of the law enumerated in (*a*) above.

6. The undersigned further agrees that no information in connection with any confidential or restricted project will be given to any person not in the contractor's or subcontractor's employ except upon the written consent beforehand of the contracting officer or his duly authorized representative.

b. The execution of the general secrecy agreement required in *a* above with any individual, firm, or corporation whether it be the prime contractor or subcontractor, prior to the delivery of any classified military information, and the annual secrecy agreements executed thereafter, will constitute authority for delivery to such individual, firm, or corporation from time to time of other or additional classified information pertaining to any top secret, secret, confidential, or restricted project, without the necessity of executing a specific secrecy agreement in each case. A receipt substantially as follows will be obtained when the additional classified data are submitted to those who have entered into such agreement:

Receipt is acknowledged of _____ and it is recognized that these data are classified and come within the purview of the secrecy agreement signed by _____ on _____.

c. If the project(s) or contract(s) bear a top secret or secret classification, two copies of the executed secrecy agreement or agreements and two copies of each annual secrecy agreement executed thereafter will be transmitted promptly by the procuring agency to the commanding general of the army within the area in which the work will be, or may be, performed. The commanding general of the army concerned will retain one copy and forward one copy to the Provost Marshal General.

d. It is the responsibility of each representative of the War Department who invites bids in connection with a project or projects of a top secret or secret classification, to transmit promptly the following information in duplicate to the commanding general of the army within the area in which the work will be, or may be, performed:

(1) The name and addresses of each prospective bidder or subbidder.
(2) The address; full first and last names and middle initial; date and place of birth, of each officer and director and of all persons who will have access to the top secret and secret matériel.
(3) The location of the facility at which the work involved will be, or may be, performed.
(4) The date of invitation for bids.

e. It is the responsibility of each representative of the War Department who enters into a contract classified as top secret or secret, to transmit promptly the following additional information in duplicate to the commanding general of the army within the area in which the work will be, or may be, performed:

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

(1) The name and address of each contractor or subcontractor.
(2) The address; full first and last names and middle initial; date and place of birth, of each employee or other person who will have access to the top secret or secret matériel not included in *d* (2) above.
(3) The location of the facility at which the work involved will be, or may be, performed.
(4) The date of award of contract or subcontract, and probable date of commencement of work thereunder.

f. The commanding general of the army concerned will retain one copy and forward one copy of the reports received in accordance with *d* and *e* above, to the Provost Marshal General.

68. Consultation with responsible manufacturers.—The commanding officers of arsenals and depots and other officers engaged in work on Government contracts are authorized to consult with all interested manufacturers or their representatives, inventors, and other persons concerning technical matters in which they have a legitimate interest. They will, however, inform all such persons of the classification of the projects, works, and developments.

69. Responsibility of Army representatives or inspectors.—*a.* The Army representatives or inspectors of the technical service are the local representatives of the War Department and will take the necessary measures to insure the safeguarding of classified information or projects in the hands of the contractors or subcontractors or in process of manufacture in their plants.

b. Army representatives or inspectors will advise contractors or subcontractors as to their responsibilities and the practical measures to be taken to safeguard top secret, secret, confidential, or restricted matters, and will act favorably, if practicable, on any suggestion or request of the company tending to preserve secrecy. If at any time conditions at any plant, or any action of a company or its employees, jeopardize the security of classified matter pertaining to the War Department or violate the provisions of the Espionage Act, the Army representative or inspector will request the contractor or subcontractor to take prompt remedial action. If adequate precautionary measures are not taken immediately, he will report promptly to the chief of the technical service concerned and, if the situation requires, to the commanding general of the army in which the item is in process of manufacture.

c. When Army and Navy inspectors are on duty at the same plant, the Army inspector will coordinate all security measures with the Navy inspector in order to avoid conflicting demands upon contractors.

70. Responsibility of Government contractors.—*a.* A private individual, firm, or corporation which enters into a contract to engage in technical work for the War Department becomes responsible in matters within his or its control for the safeguarding of all top secret, secret, confidential, or restricted matters that may be disclosed or that may be developed in connection therewith. A clause to this effect will be included in such a contract, but its omission will not release the contractor from his responsibility under the Espionage Act and other pertinent laws.

b. Contractors are responsible that all classified projects allotted to subcontractors or agents are fully protected by a similar agreement.

c. Whenever for any reason a contract agreement or subcontract has been made which does not include a security clause but later is found to involve top secret, secret, confidential, or restricted matter, the technical service concerned will take the necessary steps to insure that the project or work is properly

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

classified and that the contractor, agent, or subcontractor is informed of the classification and of his responsibility in the matter.

71. Tests of classified matériel.—Tests of classified matériel will be adequately safeguarded by all responsible officers.

72. Public display of classified matériel.—*a.* Commanding officers are responsible that all classified parts, components, or features of matériel are properly safeguarded during maneuvers, drills, parades, ceremonies, assemblages, demonstrations, or exhibitions, or exhibitions, open to the general public.

b. (1) Photographs of equipment while in process of development or those revealing processes of manufacture are prohibited unless authorized by the chief of technical service concerned. After an article of equipment has been issued to combat units, release of photographs is permissible unless specifically prohibited by the instructions issued therewith.

(2) Requests for permission to take photographs of classified matériel, projects, or processes of manufacture will be referred to the War Department through the proper chief of technical service. If authority is granted, it will be with the understanding that the resulting photographs will be submitted to the War Department for review prior to release.

73. Release of information or sale of matériel.—*a. General.*—Domestic sale, divulging information in connection with negotiations for foreign sale, and foreign manufacture of items of Army and Navy matériel and equipment are not permitted unless the War and Navy Department are agreed that military secrecy is not compromised thereby.

b. International traffic in arms.

(1) The State Department administers international traffic in arms and military matériel coming within the scope of the Regulations Governing the International Traffic in Arms, Ammunitions, and Implements of War and Other Munitions of War.

(2) The State Department will not release for foreign sale any item comwithin the scope of these regulations until the War and Navy Departments have stated that there is no objection to the release on grounds of secrecy affecting the national defense.

74. Protection of shipments via commercial carriers within United States or its possessions.—*a. Selection of shipping method.*—Disclosure of information pertaining to classified matériel will be prevented during transportation by one of the following methods of shipment, to be determined by a commissioned officer of the service, force, or organization authorizing its movement qualified to make such classification, by a higher authority so qualified, or by a military attaché.

b. Protection documents.—If size and quantity permit, classified matériel may be handled in the same manner as provided for similarly classified documents in paragraphs 26 to 29 inclusive. In cases where matériel is of such size or quantity as to create suspicion of its character and entail additional risk when transported in the same manner as documents, another method will be used.

c. Railway express service protected by carrier's guards.—Top secret, secret, or confidential shipments may be shipped via Railway Express Agency, Incorporated, after advance arrangements have been made for carrier to guard matériel from the time it leaves the hands of consignor until delivered to consignee. Notwithstanding the general prohibition of insurance on Government shipments any classified shipments may be shipped at their actual value and notation of such

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

value made on the bills of lading. (See AR 55-355, AR 55-710, and TM 55-250.) The officer determining the method of shipment will certify to the officer issuing the bill of lading the valuation to be used.

d. Ordinary railway express service protected by military guards.—This method of shipment may be chosen for top secret, secret, or confidential material as provided in c above. In such case the principles of regulations governing guarding of freight shipments (see par. 8, AR 55-155) will be followed so far as appropriate for express service, with the definite exception that guards with express shipments will be furnished with transportation requests. The number of guards detailed to protect the shipment will be a minimum consistent with security requirements.

e. Air express via commercial air lines protected by military guards.—The provisions of *d* above will govern generally.

f. Rail freight service protected by military guards.—See paragraph 8, AR 55-155.

g. Ordinary motor truck freight protected by military guards.—The principles of paragraph 8, AR 55-155, will govern. Only one guard will be used for short runs unless more are necessary.

h. Water freight service protected by military guards.—The principles of paragraph 8, AR 55-155, will govern. When vessels are used which have arrangements for carrying passengers, transportation requests will be issued. When vessels are used which do not have arrangements for carrying public passengers, carriage free or at a reasonable charge, appropriate arrangements for meals will be negotiated.

i. Straight or mixed troop trains.—Classified matériel accompanying troops will be adequately guarded by organization personnel.

j. Guards.—Guards sufficiently armed will be provided in accordance with paragraph 8, AR 55-155. Neither carrier's nor military guards will be used for the sole purpose of preventing disclosure of information of restricted matériel. Guarded service may be used on any shipment when necessary to prevent physical sabotage. When possible, where concealment of the arm is not necessary, submachine guns, automatic rifles, or rifles should be provided in preference to pistols.

k. Shipment, confidential matériel without guard.—Shipments of confidential matériel, except crytographic equipment and components thereof may, at the discretion of the chief of the technical service involved, be shipped by one of the following methods, without guard:

(1) Protected express.
(2) Sealed freight or express cars.
(3) Sealed truck under own motive power.
(4) Flat car, provided trucks or crates containing said equipment are suitably locked and/or sealed and locked and/or sealed to the car. In addition, the equipment will be protected from external view and injury from normal hazards in shipping.

l. Shipment, restricted matériel without guard.—Shipments of restricted matériel, except cryptographic equipment and components thereof, may be shipped by one of the following methods, without guard:

(1) Protected express.
(2) Sealed freight or express cars.
(3) Sealed truck under own motive power.
(4) Flat car, provided trucks or crates containing said equipment are suitably locked and/or sealed and locked and/or sealed to the

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

car. In addition, the equipment will be protected from external view and injury from normal hazards in shipping.

m. Shipment, cryptographic matériel.—For specific means of shipments of cryptographic matériel reference should be made to letter instruction on this subject issued by the War Department.

n. Shipment, classified files.—Shipments of classified files to records depots and War Department records depositories will be made as follows:

(1) When the quantity of top secret, secret, or confidential documents remainng after down grading is small, the documents will be transmitted under separate cover as provided elsewhere in these regulations for the transmission of individual documents. A charge-out will be placed in the folder which contained the document and the document will be properly identified as to the file and folder from which extracted prior to transmission.

(2) When the quantity of top secret, secret, and confidential documents which cannot be down graded makes the procedure above impracticable, the files in which such documents are maintained will be packed in the standard records boxes prescribed by TM 12-259, securely fastened by flat steel straps. The outside of the box will contain no indication of the classified character of the files. The boxes will be shipped under security regulations applicable to bulk shipments of classified matériel except that top secret and cryptographic documents and messages in all cases will be accompanied by an officer courier in addition to armed guards.

(3) Shipment of restricted files. Such files will be shipped in standard records boxes in the same manner as prescribed for unclassified files.

SECTION VI

VISITORS

	Paragraph
Classification	75
Authority for admission	76
Responsibility of commanding officer, Army representative, or inspector	77
Responsibility of Government contractors	78

75. Classification.—*a. Foreign nationals.*— For the purpose of these regulations, the term "foreign nationals" includes all persons not citizens of the United States, and citizens of the United States while a representative, official, or employee of a foreign government, firm, corporation, or individual.

b. United States citizens.—All citizens of the United States not included in *a* above.

76. Authority for admission.—*a. General.*—Correspondence and communications relating to visits will be routed direct between the various offices concerned.

b. Foreign nationals. (See par. 75*a*.)

(1) Subject to the approval of the facility concerned, foreign nationals may be authorized by local authority to visit commercial facilities provided no classified work or project is shown or discussed.

(2) Foreign nationals may be admitted to military installations for social purposes, for activities open to the general public, and in connection with emergency landings, by authority of the commanding officer provided no classified features are shown or discussed.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

(3) Foreign nationals may be admitted to Government facilities; military installations except as provided in (2) above; and commercial facilities where classified work, projects or features will be shown or discussed, only on written authority of the Director of Intelligence, War Department General Staff.

(4) Application for visits which require War Department authorization will be made through the appropriate diplomatic representatives, except in the case of foreign nationals employed by citizens of the United States or by firms or corporations owned or controlled by citizens of the United States for whom applications will be submitted by their employers, approved by the commanding officer or management of the facility to be visited, and forwarded with the recommendation of the chief of the technical service or appropriate commanding general of the army concerned to the Director of Intelligence, War Department General Staff, who will secure the recommendation of the Navy Department. Applications submitted through either of the channels described above will include the following information:

(*a*) Name in full.
(*b*) Official title or position.
(*c*) Name of plant or plants, posts, camps, or airfields to which admission is desired.
(*d*) Date of visit or dates between which visits are desired.
(*e*) Purpose of visit.

For foreign nationals employed by citizens of the United States or by firms or corporations owned or controlled by citizens of the United States the following additional information will be required:

(*f*) Nationality.
(*g*) Length of service with present employer.

(5) Prior to authorizing a visit to a War Department installation or to a commercial facility where classified work, projects, or features will be shown or discussed, the Director of Intelligence, War Department General Staff, will secure the recommendations of the Navy Department and the chief of the technical service concerned. Members of the armed forces of Canada and Mexico may, however, be admitted to Army posts, camps, and airfields near the borders of those countries for occasional visits on the authority of the commanding general of the army, defense command, or air force command having jurisdiction over such posts, camps, or airfields, without reference to higher authority.

c. United States citizens.—Subject to the approval of the commanding officer or the contractor, United States citizens, except those representing a foreign government, firm, or corporation, may be admitted to War Department or commercial manufacturing establishments engaged on classified work or projects under the following conditions:

(1) Casual visitors may be admitted provided no classified work or project is shown or discussed.
(2) Representatives of other United States Government agencies, manufacturers, or their representatives, engineers, and inventors cooperating in War Department work and having a legitimate interest

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

therein may be shown such works or projects as are considered necessary and desirable by the responsible chief of technical service. Authority for admission will be in writing.

(3) Accredited reporters, photographers, and other representatives of publicity agencies may be admitted to War Department installations or manufacturing establishments engaged on work for the War Department, *provided*, classified matter, projects, or processes of manufacture are not shown or discussed with them.

77. Responsibility of commanding officer, Army representative, or inspector.—*a.* The commanding officer of a military establishment or the Army representative or inspector at a commercial establishment is the local representative of the War Department in all matters regarding the admission of visitors. If, in his opinion, the situation at the time makes the admission of a visitor inadvisable, he is empowered to postpone the visit and request instructions from the office which authorized it.

b. The commanding officer or Army representative will make a report to the Director of Intelligence, War Department General Staff, through the appropriate chief of technical service or commanding general of the army concerned, giving the following information concerning foreigners who visit establishments engaged in classified projects:

(1) Name, official position, and nationality.
(2) Authority for the visit.
(3) Matters in which the visitors showed the greatest interest.
(4) General nature of questions asked.
(5) Expressed object of the visit.
(6) Inspector's estimate of the real object of the visit.
(7) General estimate of ability, intelligence, and technical knowledge of the visitor and his proficiency in the English language.
(8) A brief list of what was shown and explained.

78. Responsibility of Government contractors.—*a.* Contractors or subcontractors engaged in work for the War Department must place such restrictions on the movements of persons employed or entering their plants or offices as will give adequate security to top secret, secret, confidential, or restricted matters in their possession. In view of the wide differences in organization, arrangement, and physical make-up of individual plants, no specific rules are practicable. Therefore, local conditions at the plant and the classification of the project will determine the security measures to be adopted.

b. The following general procedure in regard to visitors at establishments or plants engaged in classified projects for the War Department is prescribed:

(1) Visitors will be accompanied during their stay at the plant by the inspector or Army representative, a member of his office, or some responsible person who is specifically informed as to the necessary limitations or restrictions, the scope of the visit, and the information which may be furnished.

(2) Unless specifically authorized by the authorities mentioned in paragraph 76, visitors will not be allowed in any shop, laboratory, drafting room, or section of a plant where top secret, secret, confidential, or restricted matériel is located or where classified work is in progress, nor will they be permitted to take photographs.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

c. (1) War Department contractors will submit to the commanding general of the army or chief of technical service, whichever is appropriate, immediately upon completion of the visit, a report of all visitors, except United States citizens, who have gained information concerning the classified work or projects. The reports will include the following information:

(a) Name, official position, and nationality.
(b) Authority for visit.
(c) Matters in which the visitors showed the greatest interest.
(d) General nature of questions asked.
(e) Expressed object of the visit.
(f) Estimate of the real object of the visit.
(g) General estimate of ability, intelligence, and technical knowledge of the visitor and his proficiency in the English language.
(h) A brief list of what was shown and explained.

(2) The commanding general of the army or chief of technical service, whichever is appropriate, will submit the reports to the Director of Intelligence, War Department General Staff, through the appropriate chief of technical service.

SECTION VII

AIR SPACE RESERVATIONS, RESTRICTED AREAS, AND RESERVED AREAS

	Paragraph
Air space reservations	79
Restricted areas	80
Reserved areas; establishment	81

79. **Air space reservations.**—*a. Establishment.*—Air space reservations over military installations or reservations over which the flight of aircraft is prohibited or restricted for the purpose of national defense or for other governmental purposes are established by executive order of the President of the United States, or by a State, Commonwealth, or Territory.

b. Responsibility of commanding officers.—The commanding officer of a military reservation, post, camp, station, or installation over which an air space reservation has been established is responsible for the surveillance of the designated air space and for prompt report to The Adjutant General, through military channels, of any illegal flight therein.

80. **Restricted areas.**—*a. Designation.*—The commanding officer of a military reservation, post, camp, station, or installation is responsible for the designation and proper safeguarding of restricted areas in his military reservation, post, camp, station, or installation. If local conditions dictate, he will mark all ordinary entrances or approaches to such areas with a sign reading as follows:

WARNING

RESTRICTED AREA

It is unlawful to enter within this _____ without written permission of _____
(Area, building, etc.) (Authority)

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

b. Procedure in case of violation.

(1) The commanding officer of a military reservation, post, camp, station, or installation will cause any person not subject to military law who enters a restricted area or building to be detained, warned of his rights, and interrogated by proper authority. If it is a first offense and there is no evidence of deliberate intent, the offender may be warned against repetition and released upon the surrender of any unlawful photograph, sketch, picture, drawing, map, or graphic representation in his possession. Otherwise the offender will be delivered without unnecessary delay to the nearest United States marshal with a written statement of the facts, the names and addresses of the witnesses, and such pertinent exhibits as may be available.

(2) When an investigation reveals that a person not subject to military law has entered such a restricted area or building, custody of the individual not having been effected, the commanding officer will promptly forward in writing to the nearest United States district attorney a report of all the facts, including the names and addresses of the witnesses.

(3) A report will be made through military channels to the commanding general of the army concerned of each case brought to the attention of civil authority and will include a brief of all the facts and copies of all pertinent communications.

81. **Reserved areas; establishment.**—Areas reserved for military or national defense purposes, admittance to which is either restricted or prohibited, are set apart by executive order of the President of the United States or by order of the Secretary of the Interior.

SECTION VIII

TROOP MOVEMENTS, INDIVIDUAL TRAVEL, AND MOVEMENT OF SUPPLIES

	Paragraph
General	82
Classification requirements	83
Dissemination of information	84
Rail and motor movements	85
In staging areas	86
Embarkation	87
Movement of vessels in harbors	88
At sea	89
Returns to continental United States	90
Movements by air	91
Theater of operations in continental United States	92
Higher classification	93
Reason for classification	94
Periods of peace or following termination of hostilities	95

82. **General.**—*a. Application.*—The provisions of *b* below and paragraphs 83 to 94 inclusive, will apply during periods of hostilities. The provisions of paragraph 95 will apply during periods of peace or following the termination of hostilities and before peace is formally declared.

b. Responsibility of commanding officers.—Commanding officers of units, replacements, or individuals affected by the provisions of this section are responsible that such personnel are instructed in these provisions, advised of their appli-

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

cability, and warned of the danger involved in the disclosure to unauthorized persons of classified information concerning troop movements or movement of supplies. Necessary instructions will be given both at home station and staging area prior to movement to a theater of operations.

83. Classification requirements.—*a. Movement of personnel or supplies.*—Information of movements of personnel or supplies will be classified, when appropriate, as secret, confidential, or restricted by, or by authority of, any officer authorized to make or authorize secret classifications under paragraph 10*a*. In order to insure proper and uniform classification, it is essential that documents concerning movements be classified, when appropriate, in accordance with the principles contained in this section.

b. Troop movements or travel of replacements to theater of operations.—The following elements of information concerning troop movements or travel of replacements or individuals to a theater of operations will normally be classified as indicated, except as stated in paragraph 91:

(1) *Secret.*—Documents which contain any one of the following elements, either directly or by implication, require a classification of secret:
- (*a*) Oversea or intertheater destination in the clear, when such destination is an active theater of operations or a specific location within an active or inactive theater of operations.
- (*b*) A specific port of destination within continental United States for return to continental United States in travel by water.
- (*c*) Date and time of departure from a port of embarkation, a port of debarkation en route, a port of aerial embarkation, or a port of aerial debarkation en route.
- (*d*) Route, name, or destination of ship or convoy.
- (*e*) Estimated time of arrival at an oversea or intertheater destination, or at ports or airports of debarkation en route.
- (*f*) The meaning of an assigned shipment number so far as it represents a specific oversea or intertheater destination.
- (*g*) The oversea or intertheater destination represented by a temporary APO number.
- (*h*) Events en route involving enemy action.

(2) *Confidential.*—Documents which contain any of the following elements will be classified confidential:
- (*a*) Inactive theater of operations as a destination, in the clear, provided the exact destination within the theater is not shown.
- (*b*) Information or description of unit movements of nonoperational significance within areas in or adjacent to active theaters of operations.
- (*c*) A list or tabulation of two or more units combined with and included under a single shipment number or other comparable code designation. The combination of a single unit with its oversea shipment number and letter, or other comparable code designation, however, is restricted information.

(3) *Restricted.*—The following types of information, or documents containing this information, except as indicated in (1) and (2) above, will normally be classified restricted:
- (*a*) Orders, communications, reports, and other documents con-

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

cerning troop movements, oversea or domestic travel of replacements, or oversea travel of individuals. However, reports and communications concerning movements need not be classified if the classified elements of information and unit designations are not included therein and reference to the movement is made by shipment number and letter (or other comparable code designation), by temporary APO number, or by main number.

(*b*) Troop movements between inactive theaters of operations, between the United States and inactive theaters of operations, within inactive theaters of operations, and domestic troop movements whithin continental United States, provided such movements are not associated with further movement to an active theater of operations.

(*c*) Continental United States as a destination in the clear, provided the specific port of debarkation in travel by water is not shown.

c. Domestic travel within continental United States.—Domestic travel within continental United States of individuals which is not associated with further movement to a theater of operations or with classified activities will not normally require classification.

d. Movement of supplies.

(*1*) Movements of supplies and impedimenta which are to accompany units, or are destined for, or otherwise associated with specific units or specific troop movements will be governed by the classification requirements set forth in *b* above.

(*2*) Movements of supplies which are not associated with specific units or troop movements:

(*a*) Movements will normally carry a coded destination symbol such as a shipping designator or shipment number. Documents covering such shipments which by inference or by literal reference compromise the meaning of the coded destination symbol will require a classification at least as high as that of the meaning of such coded symbol.

(*b*) Movements may be addressed in the clear to oversea destination when authorized by the Secretary of War. This method of addressing will not normally be used when the presence of military installations such as oversea ports, combat airfields, harbor defenses, or similar establishments will be exposed thereby.

(*c*) When a coded designation of specific shipments, projects, or locations, such as a consignee combination, is used in combination with a coded destination symbol, the coded designation will be classified at least as high as the meaning of the coded destination symbol. Documents and reports covering shipments may be unclassified where the meaning, coded destination symbols, coded shipment designations, or other coded data covering the shipment are not revealed or otherwise compromised.

e. Movement of personnel or supplies by hospital ship.—Orders for movement of personnel or supplies by hospital ship will be unclassified if it is necessary

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

that such orders accompany the personnel or supplies aboard the hospital ship. See AR 55–530.

84. Dissemination of information.—*a.* All persons connected with the military service who receive information concerning movements of personnel or supplies classified in accordance with paragraphs 83, 90, 91, and 92 are forbidden to make public or to inform unauthorized persons concerning the classified elements of such movements.

b. When it is necessary to advise relatives or other persons of approaching departure, individuals connected with the military service will not disclose any classified information.

c. Arrival in a theater of operations does not diminish the necessity of safeguarding classified elements of information concerning the movement. After such arrival, no information will be given to unauthorized persons concerning names, destinations, or organizations, names of vessels, data concerning convoys, routes pursued, measures taken to avoid attack, date of arrival, debarkation or departure, or number of troops, or kind of cargoes carried.

85. Rail and motor movements.—*a.* Reports concerning arrivals and departure of rail or motor movements within the United States which for any reason are classified, may be transmitted to persons authorized to receive such reports, unclassified, provided unit designations are not included therein.

b. When rail or motor movements or travel of personnel are made preliminary to movement to a theater of operations, cars, baggage, and impedimenta will not be marked in the clear to show oversea destination, date of departure, name of ship, or other classified elements of information. In such cases, impedimenta will be marked with the assigned shipment number and letter or other comparable code designation. The unit designation will not be used as a marking on impedimenta, although the company letter or abbreviation may be used to identify the impedimenta of each company or similar unit in the movement.

86. In staging areas.—*a.* Instructions will be given to all individuals concerned in the applicable security provisions of this section.

b. Commanders of ports or airports of embarkation are authorized to restrict to prescribed limits all personnel under orders for movement to a theater of operations for a period not to exceed 48 hours prior to departure. During this period of restriction, communication with other military personnel and civilians may be prevented or limited as may be considered necessary by the port or airport commander concerned. Special authority must be obtained from the War Department (if in the United States) or the theater commander (if overseas) for placing personnel in restriction more than 48 hours prior to the expected sailing or departure date.

87. Embarkation.—*a.* Troop movements will be made so far as practicable without attracting undue attention. Authority to use bands during embarkation of troops is left to the discretion of port commanders, where, in their opinion, the playing of a band will not jeopardize the security of the movement.

b. All persons not on official business will be excluded from the piers at all times.

c. Personnel may take cameras within the limits of the pier or overseas, subject to the restrictions imposed by the commander of the port, ship, theater, or other area concerned.

d. Members of families, relatives, or friends of personnel under oversea movement or travel orders will not be allowed in the vicinity of piers on the day of sailing.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

88. Movement of vessels in harbors.—Vessels loaded with personnel or supplies will be moved under cover of darkness whenever possible.

89. At sea.—*a.* After sailing from the port of embarkation, the destination will be disclosed to members of units, replacements, or individuals aboard ship only as necessary for training or indoctrination en route. When such information is disclosed, personnel will be warned of the classification thereof. Particular care will be taken to insure that this warning is given all personnel who are allowed ashore at intermediate stopping points.

b. Events at sea concerning or resulting from enemy action will be considered as secret information by all individuals concerned.

90. Returns to continental United States.—Classification requirements are the same as those enumerated in paragraphs 83 and 91.

91. Movements by air.—*a.* Generally, the same requirements for water movements apply to movements by air of units or subdivisions thereof to a theater of operations.

b. In documents containing information of travel to a theater of operations by military aircraft of replacements, and individuals, as distinguished from units, the inclusion of the following elements normally will require a classification of restricted only:

(1) Oversea or intertheater geographical destinations, unless the presence of troops or particular military installations at such destinations is classified higher than restricted.

(2) Date and time of departure from port of aerial embarkation, or airports en route, subsequent to such departure.

(3) Air route, unless the air route is classified higher than restricted.

(4) Estimated time of arrival at specific oversea intertheater destination or airports en route, subsequent to departure from port of aerial embarkation.

(5) Oversea or intertheater destination represented by a temporary APO number.

c. The provisions of paragraph 83 will apply to information concerning the oversea travel of replacements and individuals when both air and water transportation are employed.

d. Orders and allied papers for oversea travel by commercial aircraft of replacements and individuals may be unclassified, even though they contain elements of information for which a classification of restricted is required by *b* (1), (2), (3), and (4) above.

e. All individuals involved in air movements, communicating from intermediate stopping points, will refrain from disclosing classified information.

f. Operational messages limited to information concerning movements of aircraft in a theater of operations may be sent in the clear when authorized by the theater commander.

g. The specific airport of destination within continental United States for returns to the United States by air from theaters of operation is restricted information.

92. Theater of operations in continental United States.—The foregoing paragraphs of this section are based on the assumption that theaters of operations will be located overseas. However, should any portion of continental United States become a theater of operations, the provisions of the foregoing paragraphs nevertheless will apply, subject to the following:

a. The portion so designated will be treated as an "oversea designation."

b. The terms "continental United States" and "United States" will refer only to the zone of interior (see FM 100–5).

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

c. The movements or travel by rail or motor from the zone of interior to the theater of operations, the security provisions applicable to ports of embarkation will also apply to points in the zone of interior from which direct movement to the theater commences, and the provisions applicable to water movement or travel will apply to land movement or travel.

93. Higher classification.—A higher classification than that indicated in this section may be assigned if the order, message, or other communication contains information which should be protected by a higher classification.

94. Reason for classification.—Whenever a classification higher than restricted is assigned to a movement order, the reason for such higher classification will normally be included therein. An *example* of an explanatory paragraph is as follows:

> The following secret and confidential elements of information are contained herein: secret equipment (par. 11*c*); tabulation of units (par 1); confidential mission (pars. 2 and 3). All other elements of this order are restricted.

95. Periods of peace or following termination of hostilities.—*a. Application.*—The provisions of this paragraph will apply only during periods other than those of hostilities.

b. Normal seurity requirements.—Information or documents concerning movement of personnel or supplies will normally be unclassified.

c. Classification requirements.

(1) Elements of information (such as destination, mission, and other elements which should be safeguarded) concerning movements of personnel or supplies, other than movements within oversea areas in which United States Army forces are stationed, will be classified secret, confidential, or restricted only when such classification is authorized by the War Department. Separate instructions directing such classification will be issued to the offices and personnel concerned.

(2) Commanders of United States Army forces stationed in oversea areas are authorized to classify elements of information concerning movement of personnel or supplies within their respective areas.

(3) The provisions of paragraphs 84, 85, 86, and 87 will apply to classified movements.

(4) Whenever a movement order is classified, the reason for such classification will normally be included therein. An example of an explanatory paragraph is as follows:

> The following classified elements of information are contained herein. Secret equipment (par 11*a*); confidential mission (par. 1); restricted consignee combination (pars. 2 and 3). All other elements of this order are unclassified.

II. PUBLICATIONS. 1. The Librarian of Congress has requested that the War Department provide the Library with excess copies of War Department and Army publications. He also agreed to arrange for the distribution to other libraries which are depositories for Government publications of any additional excess copies made available to him. Unclassified War Department publications, printed by the Government Printing Office, are already distributed to such libraries by the Superintendent of Documents under arrangements existing prior to the present war. The Librarian of Congress now wishes to obtain materials not printed by the Government Printing Office, and in addition to arrange in cooperation with the Superintendent of Documents for the distribution of classified publications as rapidly as they may be declassified.

2. The Librarian of Congress has stated that publications in which he is interested are those "usually prepared in book or pamphlet form - conveying information of a more-or-less permanent or general character; not routine directives, announcements, or memoranda." He has further stated that "we would be desirous of accepting from the Department copies of its publications in multiples of 2 to 50 copies, or of 125 and more copies."

3. It is the desire of the War Department to provide the Library of Congress with such available copies of publications as may be excess to its own needs, the transfer of which does not violate security regulations, up to a maximum of 150 copies.

4. The office or activity which prepares publications is

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

responsible for specifying those considered suitable for transfer to the Library of Congress, and will inform the distributing agency which serves it of the titles and dates of issuance of such publications. The distributing agency will determine the quantity of each publication to be shipped to the Library of Congress. The following provisions, however, will be observed by all concerned:

a. In every instance, responsible officers in charge of activities preparing publications will make certain that at least one complete serial set of all publications (whether or not superseded) is retained as a record set with other records of the activity and retired with these records to the proper War Department records depository, oversea or service command records depot, in accordance with AR 15-15, 20 September 1945.

b. Excess copies of classified publications will not be transferred to the Library of Congress until they have been declassified. So far as practicable, the distributing agency will earmark for transfer to the Library of Congress, upon declassification, such excess copies of classified publications as may be listed by the preparing office as being suitable for this purpose.

c. Publications will be transferred when they are excess to the needs of the Army as determined by the distributing agency.

d. Nonclassified publications printed by the Government Printing Office will be excluded, since these are received currently by the Library.

5. Examples of publications of permanent or general character include manuals and pamphlets used for educational or training purposes; proclamations, orders, posters, and propaganda material published in connection with the government of occupied territories; sets of Army newspapers, such as "Yank" and "Stars and Stripes"; organizational or procedural manuals; graphic training aids (excluding film) and similar pictorial material; published histories of actions and organizations; and printed reports or studies of general or historical interest.

6. Shipment of excess publications will be made direct to the Library of Congress by the distributing agency. The mailing address of the Library of Congress is Washington 25, D. C.

7. In the future, all requests from libraries for other than a specific copy or copies of a particular publication will be referred to the Librarian of Congress for direct reply and the writer will be informed of the policy of the War Department as set forth in this circular and that general distribution to libraries is being undertaken by the Library of Congress.

8. The provisions of this circular will not be interpreted to conflict with the provisions of section VI, WD Circular 262, 1945, pertaining to the shipment of excess medical periodicals to the Army Medical Library, nor with the provisions of paragraph 5, section II, WD Circular 287, 1945, which requires three copies of all published histories to be forwarded to Historical Branch, G-2.

9. Questions of policy arising under this circular will be referred to The Adjutant General who is responsible for liaison in this connection with the Library of Congress.

IV. TM 12-222. 1. TM 12-222, Separation Center Operations, 20 September 1945, containing detailed procedures relative to processing personnel and completing administration actions at separation centers is published for the information and guidance of all concerned.

2. Announcement is also made of a procedure to maintain TM 12-222 on a current basis.

a. Any staff division or department originating War Department directives affecting separation center operations or discharge procedures will make appropriate reference to the section of TM 12-222 affected and/or initiate a change to TM 12-222. The Adjutant General will be responsible for insuring that proper references to TM 12-222 are made in such directives.

b. Changes to the TM 12-222 initiated in accordance with a above will be forwarded to the Commanding General, Army Service Forces, for appropriate action and inclusion in periodic revisions of TM 12-222.

tains, and 14 lieutenants) for Air Force participation in certain operational and training activities of the Army Security Agency.

(2) Civilian positions as follows:

(*a*) Four departmental-graded (1 CAF–5, 2 CAF–4's, and 1 CAF–3).

(*b*) Three field-graded (1 P–4 and 2 CAF–4's) and ten field-ungraded.

b. Personnel ceilings will be adjusted accordingly.

4. Personnel to accompany spaces and authorizations.—*a.* Twenty-two Air Force officers presently occupying Department of the Army troop basis spaces in the 1st, 2d, and 8th Radio Squadron, Mobile; 136th Radio Security Detachment; Headquarters, Army Security Agency; and the Army Security Agency School will be released from attachment to the Department of the Army, effective 1 January 1949 and to be completed not later than 28 February 1949.

b. Department of the Army personnel assigned to the 1st, 2d, and 8th Radio Squadrons, Mobile, and the 136th Radio Security Detachment when inactivated by the Department of the Army will be attached for duty with the appropriate Air Force organizations until replaced by Air Force personnel and in no case later than 30 June 1949.

c. Those Department of the Air Force personnel currently assigned to the Army Security Agency who are not readjusted in accordance with these specific readjustment regulations will remain on duty with the Army Security Agency until replaced by Department of the Army personnel and in no case later than 30 June 1949.

d. Two departmental-graded civilians will be transferred from the Department of the Army to the Department of the Air Force in accordance with the provisions of the reference in paragraph 1*b*.

e. Established administrative procedures will be followed in effecting the transfers and reassignments as specified in the reference under paragraph 1*b*.

5. Funds.—Adjustments will be made in Army and Air Force fund allocations as may be necessary by virtue of the changes directed herein. Fund adjustments will be based upon those dates upon which funding responsibility actually passes to the receiving Department and following which the receiving Department, from funds allocated to it, assumes full responsibility for payment.

6. Supplies.—Supplies and equipment will be adjusted as mutually agreed between the Departments.

7. Records.—Records necessary for the performance of the functions outlined in the reference under paragraph 1*b* will be transferred to the receiving Department.

8. Administrative instructions.—*a.* Current Department of the Army and Department of the Air Force publications applicable to the functions transferred under paragraph 2, with the exception of any provisions contained therein which conflict with these joint regulations, will continue in force and apply to the United States Air Force until such time as they are or may be replaced by appropriate Department of the Army and/or Department of the Air Force publications.

b. The Department of the Army will inactivate the following units, effective 1 January 1949 and to be completed not later than 28 February 1949:

(1) 1st Radio Squadron, Mobile.
(2) 2d Radio Squadron, Mobile.
(3) 8th Radio Squadron, Mobile.
(4) 136th Radio Security Detachment.

***III. OFFICERS AND WARRANT OFFICERS OF THE ARMY OF THE UNITED STATES WITHOUT COMPONENT.*—1.** Under the provisions of Public Law 680—80th Congress (sec. III, JAAF Bul. 26, 1948), and by direction of the President, officers and warrant officers of the Army of the United States without component now in the active service and who are hospitalized on 30 June

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

1948 will be retained on active duty until treatment for physical reconstruction has reached a point where they will not be benefited further by retention in a military hospital.

2. When treatment for physical reconstruction has reached a point where further benefits will not be obtained by retention in a military hospital, and physical evaluation has been completed, including, where applicable, approval of Army retiring board findings by the Department of the Army, officers and warrant officers of the Army of the United States without component will be relieved immediately from active duty, except as provided in paragraphs 3 and 4. Readjustment Regulations 1–1 will be indicated as the authority for separation of those officers whose eligibility for relief from active duty is not established in other separation criteria.

3. Those officers of the Army of the United States without component who are found to be qualified physically for retention on active duty may be continued on active duty if they are eligible and apply for appointment in the Officers' Reserve Corps. Under such circumstances, hospital commanders will—

a. Tender an appointment, if eligible, in an active section of the Officers' Reserve Corps in accordance with the provisions of Circular 28, Department of the Army, 1948, as amended.

b. Obtain category statements and process in accordance with current directives.

c. Report for assignment as provided in current directives for the return to duty of hospitalized personnel.

4. The provisions of paragraph 2 are not applicable to male officers of the Medical Department, in that relief from active duty is authorized only under current separation criteria for such officers.

5. Radiograms, Department of the Army, WCL 27362, 27 May 1948, and WCL 34328, 28 June 1948, pertaining to the foregoing subject, are rescinded.

I..AR 30–2210.—Pending revision of AR 30–2210, 15 March 1940, the third sentence of paragraph 4*d*(2)(*d*)*1* of those regulations, as changed by C 11, 26 April 1948, is changed to read as follows:

The **purpose** of the ration supplement, sundries pack, is to provide for issuance of the items indicated in the zone of operations prior to the establishment of adequate Army exchange or comparable sales facilities.

[AG 430.2 (11 May 48)]

II..AR 35–190.—AR 35–190, 21 September 1944, Gifts and Donations, including C 1, 5 February 1946, is rescinded. The statutory authority for the subject regulation, Title XI, act, 27 March 1942 (56 Stat. 183), was repealed by the act of 29 June 1946 (60 Stat. 346; sec. IV, Bul. 17, WD, 1946).

[AG 005 (12 May 48)]

III..CLASSIFICATION.—1. Announcement is made of the declassification of War Department letters issued before 1 January 1946 with file classification AG 400 or SPX 400, which have not heretofore been declassified by separate action, the subjects of which pertain to standard special lists of equipment, equipment modification lists, and unit special lists of equipment.

2. All holders of such letters will mark them as follows:

Regraded UNCLASSIFIED order Sec Army by TAG/8N113.

[AG 312.1 (3 May 48)]

IV..OFFICERS OF THE CIVILIAN COMPONENTS.—Paragraph 3, section III, Circular 71, Department of the Army, 1947, is rescinded and the following substituted therefor:

3. All hours credited in accordance with the foregoing will count toward retention of status in the Active Reserve and an Active Reserve status will be a prerequisite to promotion. Specific requirements for retention of Active Reserve status and for promotion will be published at a later date.

[AG 210.45 (27 Apr 48)]

V..PUBLICATIONS.—1. In order to provide adequate supply of publications and blank forms to meet the expanding needs of the Army, commanders of all posts, camps, stations, or installations maintaining a post publications stockroom will take immediate and continuing action to insure compliance with paragraph 44, TM 38–405, regarding reporting excess stocks.

2. Requisitions will be edited to insure that only essential publications in minimum quantities are requested and that stock levels in stockrooms do not exceed 60 days' supply.

VI..SECURITY CLASSIFICATION REGRADED.—So much of paragraph 4*d*, Circular 105, Department of the Army, 1948, as pertains to the following item (third item, p. 6) is rescinded:

Origin and file reference	*Subject*	*Date*
AG 386.1 (29 Aug 45) OB–S–B–M.	Destruction of Classified Communications Matter in Emergencies on Land, Sea and in the Air.	30 Aug 45

[AG 312.1 (4 May 48)]

VII..STABILIZATION OF ENLISTED PERSONNEL.—Section II, Circular 108, War Department, 1947, as amended by section II, Circular 212, War Department, 1947; section VI, Circular 81, Department of the Army, 1948; and section IV, Circular 102, Department of the Army, 1948, is further amended as follows:

1. Paragraph 1*b* (1) is amended by adding "Ordnance Department Research and Development activities at Fort Bliss, White Sands Proving Ground, and the Ballistics Research Laboratory."

2. Paragraph 1*b* (3) is amended by adding "Food service school instructors in army area food service schools."

[AG 210.31 (23 Apr 48)]

VIII..VEHICULAR LICENSE TAGS.—1. It has come to the attention of the Department of the Army that personnel returned to the zone of interior from oversea commands are not taking prompt action to secure license tags for privately owned vehicles.

2. For the information and guidance of all concerned, vehicular license tags issued by oversea occupation authorities for use in their respective oversea areas have no legal status in the continental United States. The time limit for securing proper license tags in each case is governed by the laws and ordinances of the respective States, the political subdivisions thereof, and the District of Columbia.

3. In order to avoid possible inconveniences to returning personnel and to cooperate with civilian authorities, all commanding officers will take action to insure that the above is brought to the attention of all personnel concerned.

[AG 451.02 (12 May 48)]

IX..RESCISSION.—1. Section VI, Circular 352, War Department, 1946, pertaining to changes in TM 12–510, Guardhouses and Confinement Facilities, is rescinded. For current information on this subject, see C 1, TM 12–510.

[AG 300.7 (12 Apr 48)]

2. Memorandum 130–5–8, 23 December 1947, Disposition of Property Issued to National Guard in an Unserviceable Condition, is rescinded. (See C 3, TM 38–275.)

[AG 300.7 (20 Apr 48)]

3. Memorandum 345–50–3, 8 January 1948, Strength by Branch and Grade (Reports Control Symbol CSCSO–25(1) and Memorandum 345–50–5, 8 January 1948, Strength by Base and Type of Personnel (Reports Control Symbol CSCSO–26 (R1), are rescinded. Instructions for the preparation of these reports are now contained in C 10, TM 12–305, which has been distributed to agencies concerned.

IV..ROYAL PAKISTAN AIR FORCE AIRCRAFT.—In order that the aircraft of the newly created country of Pakistan may be recognized, the following description is furnished:

1. The Royal Air Force roundel on the sides of the fuselage is replaced by a green circle with white center which may be surrounded by a thin yellow, black, or white ring. The fin marking is replaced by a green rectangle with white crescent and five-pointed star, which may also be surrounded by a thin colored line as for roundel. Wing roundels as above.

2. Temporary identification extra markings of Royal Pakistan Air Force fighter aircraft: On sides of fuselage between roundel and tail are placed two white chevrons of equal width and spacing with points facing forward. The wings are marked above and below with white pairs of chevrons with points facing fuselage, and placed as near to fuselage as possible. When viewed from the front, the aircraft appears to have two white rectangles on leading edges of each wing approximately above wheel positions.

***II. CHINAWARE AND GLASSWARE.*—1.** Pending revision of TM 14–904, 14 April 1945, Accounting for Lost, Damaged, and Destroyed Property, the following breakage allowances for chinaware and glassware are authorized; loss through breakage, not due to carelessness, of chinaware and glassware may be replaced at public expense on proper requisition provided it does not exceed 5 percent per quarter of the total value of chinaware and glassware to which the mess is entitled, except on Army mine planters and United States Air Force crash boats where the quarterly allowance will not exceed 20 percent of the total value of chinaware and glassware to which the mess is entitled, in hospitals (for other than the troop mess) where the monthly allowance on tumblers, 10-ounce, will not exceed 50 percent, and the quarterly allowance on tumblers, 6-ounce will not exceed 20 percent, and in messes of the cafeteria type where the quarterly allowance on coffee cups, bowls (general use), and tumblers will not exceed 15 percent of the total value of such items to which the mess is entitled, calculated on the basis of authorized strength of the organization or organizations comprising the mess, including enlisted men or general prisoners permanently attached for rations. When necessary to draw additional chinaware and glassware for use of men temporarily attached for rations, the breakage allowance for temporary issue will be calculated on the quantity so drawn for the period for which required. The value will be determined by the prices given in the published price list (WD Supply Catalog QM 5–1–K). Organizations which have had issued to them, and are using unbreakable tableware, such as enamel-ware, will not be allowed a breakage allowance for such articles. It is not the intent of this paragraph to authorize the quarterly issue of the full breakage allowance. It will cover only actual breakage (not due to

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

fault or neglect), but not to exceed the above percentages. Commanding officers of posts and of all organizations supplied with tableware and kitchen utensils will exercise rigid supervision and economy in the care and preservation of all such articles, and any articles lost, destroyed, damaged, or broken through carelessness will be charged against the person or persons responsible, as prescribed in AR 35–6640. Replenishment requisitions for breakage will be submitted not later than the last day of the month following the close of the quarter for which replacement is requested. Breakage allowance must be claimed each quarter or when responsible officers are relieved, and then only for the proportionate share of the quarter involved. Items of chinaware and glassware rendered insanitary by chipping or cracking without fault or neglect (not actually broken), will be excluded from the calculation of any organizations authorized quarterly breakage allowance. Such items will be turned in to the salvage officer on a property turn-in slip (WD AGO Form 447 or Department of the Air Force Form 82b) as unserviceable due to fair wear and tear. This will be accomplished in accordance with present procedures outlined in TM 38–403 and TM 38–505, with an additional certification by the medical officer to condemn the property. This certification will appear on all copies of the turn-in slip and will read as follows:

"I certify that the chinaware and/or the glassware listed above is insanitary and unfit for further use by the Army and should be disposed of in accordance with TM 38–505."

Under no other circumstances will chinaware or glassware be turned in as unserviceable due to fair wear and tear.

2. Section IV, Circular 127, WD, 1947, pertaining to the foregoing subject, is rescinded.

V..JUDGE ADVOCATE GENERAL'S DEPARTMENT.—**1. Lawyers.**—There is an urgent need for qualified lawyers to perform duties consistent with the over-all mission of the Judge Advocate General's Department. The lowest grade in the Judge Advocate General's Department is first lieutenant.

2. Qualifications.—Officers may apply as indicated by this circular if they possess the following qualifications:

a. Are a graduate of a law school with professional degree.

b. Are admitted to practice before the highest court of a State or Territory or of the District of Columbia, and be in good standing at the bar.

c. Minimum years of full-time legal experience which are desirable but not essential are—

Grade	*Years legal experience*
First lieutenant	None
Captain	4
Major	7
Lt. Colonel	12

Legal experience may include governmental, judicial, teaching, military legal experience, or private practice.

3. Details, transfers, and appointments.—Officers serving in the grades of first lieutenant to lieutenant colonel inclusive, assigned or detailed to branches other than the Judge Advocate General's Department, may request detail in or transfer to the Judge Advocate General's Department. Details and transfers of those professionally qualified will be accomplished upon the recommendation of The Judge Advocate General and by orders of the Department of the Army. Authority for such details, transfers, and appointments is as follows:

a. Regular Army details and transfers	AR 605–145.
b. Officers' Reserve Corps details	AR 605–145.
c. Officers' Reserve Corps transfers	Section V, Cir. 37, Dept. of the Army, 1948.
d. National Guard of the United States details	AR 605–145.

4. Promotion of second lieutenants on active duty.—Second lieutenants on extended active duty who are professionally qualified for duty in the Judge Advocate General's Department will be promoted to the grade of first lieutenant as follows:

a. Officers' Reserve Corps and National Guard of the United States officers holding appointments in the Judge Advocate General's Department who are serving in the grade of second lieutenant and who are professionally qualified will be recommended for promotion to the grade of first lieutenant as an exceptional

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

case under the provisions of paragraph 7*f*, AR 605–12. If the officer holds a grade lower than first lieutenant in the civilian component, the officer's request for appointment or promotion as first lieutenant, Judge Advocate General's Department Reserve, will accompany the recommendation for promotion.

b. Civilian component officers on extended active duty as second lieutenants who are detailed in the Judge Advocate General's Department will be recommended for promotion to the grade of first lieutenant as an exceptional case under the provisions of paragraph 7*f*, AR 605–12, provided that the officer's request for appointment as First Lieutenant JAG-Res. accompanies the recommendation for promotion.

c. Request for transfer to, detail, or appointment in the Judge Advocate General's Department from civilian component second lieutenants of other branches may be submitted. Pending revision of AR 605–12, such officers, if found professionally qualified by The Judge Advocate General, will be promoted to the grade of first lieutenant on active duty. They will be detailed, transferred, or appointed as the case may be in the Judge Advocate General's Department and will be reassigned to Judge Advocate duties.

d. Regular Army officers on duty as second lieutenants may request detail in the Judge Advocate General's Department. If found professionally qualified by The Judge Advocate General, they will be promoted to the temporary grade of first lieutenant. When promoted on the permanent list to the grade of first lieutenant, they may request transfer to the Judge Advocate General's Department.

5. Applications.—Letter applications for transfer, detail, or appointment will be forwarded through command channels to The Adjutant General, Washington 25, D. C. In overseas commands applications will be referred to the Command Judge Advocate for his recommendation and in the United States to the respective Army Judge Advocates.

6. Promotion of JAG-Res. second lieutenants not on extended active duty.—Officers now in the Judge Advocate General's Department Reserve who are not on extended active duty shall be recommended for promotion to the grade of first lieutenant, Judge Advocate General's Department Reserve, as exceptional cases by commanding generals of army or comparable commands. Those considered professionally qualified by The Judge Advocate General will be promoted.

7. Publicity of circular provisions.—The provisions of this circular will be given the widest possible publicity among all officers with a legal background.

8. Instructions pertaining to the foregoing subject were previously contained in section III, Circular 227, War Department, 1946. Applications already made pursuant to Circular 227 will be forwarded.

[AG 210.31 (20 Jan 48)]

VI. OFFICER PROCUREMENT.—Paragraph 4*d*, Circular 101, War Department, 1947, is rescinded and the following substituted therefor:

d. Educational requirement.—Each applicant must have completed a minimum of high school or an accredited preparatory school of equal educational level. Applicants who do not meet the formal educational requirements may qualify by passing, or having passed, the General Educational Development Test (high-school level or higher) of the United States Armed Forces Institute according to standards established in section V, Circular 67, Department of the Army, 1947. Information on this test may be obtained from the Commandant, United States Armed Forces Institute, Madison 3, Wisconsin, the troop information and educa-

tion office of any post, camp, or station, veterans' guidance centers, and, in many areas, from the State school authorities. It will not be necessary for an applicant to procure high-school accreditation from the State in which he resides after passing the aforementioned test. No waivers of educational requirements will be granted.

[AG 210.1 (20 Nov 47)]

VII..ORGANIZED RESERVE CORPS, EXCEPT GENERAL OFFICERS.—Paragraph 6*a*, *b* and *c*, Circular 356, War Department, 1946, is rescinded and the following substituted therefor:

6. Boards.—*a.* Boards composed of an uneven number of officers, totaling not less than three, senior to the individual to be examined, and operating under standards to be prescribed by the Department of the Army will be appointed and convened by direction of the area commander as near as practicable to the place of residence of the person to be examined. Officers of any component on extended active duty and reserve officers not on active duty are eligible for membership on these boards. At least one member of the board will be a reserve officer and the entire membership may be made up of reserve officers. At least one member of the board will be of the arm or service of the officer to be examined or for which the applicant is to be examined. When medical officers are required, and when a senior medical officer is not reasonably available, a medical officer junior to the individual being examined may be appointed, except that when a board is composed entirely of medical officers as noted in *c* below, at least the president of the board will be senior to the individual being examined. No Reserve officer on inactive status will be appointed a member of these boards without his consent. Reserve officers will not be ordered to active duty for this purpose.

b. Boards will be appointed to—

(1) Examine applicants for commission (par. 4).
(2) Examine applicants for officer candidate schools.
(3) Examine officers recommended for promotion.
(4) Submit recommendations with reference to the transfer of an officer to the Inactive Reserve, or on fitness for reassignment to the Active Reserve from the Inactive Reserve.
(5) Submit recommendations on the fitness of an officer for retention in the Organized Reserve Corps.

NOTE.—In cases of misconduct, inefficiency, or other unfitness, not solely physical, the provisions of paragraph 74*c*, AR 140–5, will apply.

c. Boards appointed to determine professional fitness for promotion or physical fitness for retention or reassignment in the Organized Reserve Corps will be furnished a report of a physical examination. When only physical fitness is questioned, under *b* (4) and (5) above, such boards will be composed of medical officers.

[AG 326.2 (7 Jan 48)]

VIII..RELIEF OF OFFICERS, WARRANT OFFICERS, AND FLIGHT OFFICERS FROM ACTIVE DUTY.—Circular 72, War Department, 1947, as amended, is further amended as follows:

1. Paragraph 1*f* is added as follows:

Officers training at civilian educational, commercial, and industrial institutions who submit applications for relief from active duty under provisions of sections III, IV, and V shall not be separated without approval from the Depart-

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

ment of the Army. Applications for relief from active duty submitted by individuals while in such training will be forwarded to The Adjutant General, Attention: AGPO–S–C, Washington 25, D. C., through channels with recommendations as to relief or retention of the applicant.

2. Paragraphs 3*d*(7) and 9*b*(5) are rescinded.

3. Paragraph 15*b* is rescinded and the following substituted therefor:

b. The statutory retirement age prescribed for Regular Army officers is as follows:

(1) Permanent major generals and above 62
(2) Permanent brigadier generals and below 60
(3) Professors, United States Military Academy 64

This change in required retirement age does not become effective for officers of the Medical Corps until 7 August 1948.

electrocardiogram, audiogram determination, microscopic urinalysis, and lens corrections, unless otherwise indicated, administered by any medical officer of any of the armed forces of the United States or any component, or by any civilian physician without expense to the Government, and who are within the age-in-grade requirement outlined in paragraph 39, may be considered for a new appointment in the active Officers' Reserve Corps in the section and grade which they currently hold. Applications will be submitted in quadruplicate on WD AGO Form 170 (Application for Appointment and Statement of Preferences for Reserve Officers), accompanied by a completed WD AGO Form 63 or 64, as applicable, and forwarded to the appropriate area command. Such officers, except members of the Medical, Dental, or Veterinary Corps Reserve, will be required to appear before a board as provided in paragraph 6 for recommendation as to whether they are professionally qualified for the new appointment. Applications, with completed board reports in those cases where board action is required, will then be transmitted by the area command with recommendation to The Adjutant General, Attention: AGPR-A, for necessary screening action.

b. Reserve officers not in the Honorary Reserve who have had no active duty since 16 September 1940, and who are not eligible or do not apply for appointment in the Active Reserve, may, if otherwise qualified, apply by letter to The Adjutant General, Attention: AGPR-A, for appointment in the Honorary Reserve.

IV. SHIPMENT OF PERSONAL BAGGAGE.—**1.** Due to the short supply of certain articles of furniture in the Guam-Marianas area, that command advises that officers assigned to duty there bring with them a small night table, a reading lamp, and a small, comfortable chair.

2. In order that these items may be shipped under current directives, paragraph 2a, Circular 357, War Department, 1946, is amended to include these items under the definition of personal baggage and to authorize their shipment as hold baggage.

3. Packing and crating is authorized as necessary to effect shipment by freight within the zone of interior.

4. Such movements will be charged against the PCS weight allowance of the officer concerned, but no penalty or extra charges will be assessed because of split shipments.

5. This authority does not apply to any oversea area other than the Marianas-Bonins.

6. Section IV, Circular 41, Department of the Army, 1948, pertaining to the foregoing subject, is rescinded.

[AG 524.2 (3 Mar 48)]

V. TM 38–419.—Pending the printing of changes in TM 38–419, 31 March 1947, paragraph 70*a*(7) of that manual is changed by adding the following sentence:

The cost of property transferred with or without reimbursement, donated, abandoned, or destroyed will not be reported on any line of section I—Transfer and Disposal, when the cost of the property transferred, donated, abandoned, or destroyed has been previously reported in section I, on line 11—Salvage Turn-Ins, or line 12—Small Lot Turn-Ins.

[AG 300.7 (26 Feb. 48)]

VI. RESCISSION.—TM 11–2517, 8 April 1944, Supreme Tube Tester Model 504–A is rescinded.

I..ASSIGNMENT READJUSTMENT PROCEDURES.—Circular 82, Department of the Army, 1947, is amended as follows:

1. The last sentence of paragraph 5*a* is rescinded and the following substituted therefor:

All assignments and reassignments will be accomplished within the authorized strength, by MOS, of the unit, installation, or command concerned.

[AG 210.31 (27 Feb 48)]

2. Paragraph 6*a* is rescinded and the following substituted therefor:

a. Wherever under these readjustment procedures individuals in the zone of interior must be reported to The Adjutant General for reassignment, such individuals will be included in the "Report of Surplus Enlisted Personnel" (Reports Control Symbol WDGPA–14), prepared in accordance with section II, Circular 237, War Department, 1947, and appropriately identified as "Enlisted Personnel for Readjustment—Circular 82, Department of the Army, 1947." The MOS reported will be primary MOS defined in Circular 211, War Department, 1947, as amended.

***1. CAREER PLANNING.*—1.** The purpose of this circular is to supplement paragraph 5*b*(7), Circular 142, War Department 1947, by providing a method for including recommended or directed assignment MOS's in Department of the Army orders when considered appropriate or desirable, in accordance with approved career patterns of the arms and services. Such administrative controls on the part of the Department of the Army are not intended as infringements upon the prerogatives of commanders but rather as indirect assistance to enable field commanders to implement army personnel policies. Complete personnel records are maintained only in the Career Management Branch where personnel officers have the mission of monitoring individual's career assignments.

2. Prior to the requesting the issuance of orders for permanent change of station, Career Management Branches of the Arms and Services will review officers' records and will recommend, when appropriate, in order of priority, the assignment MOS's which will increase the officer's value to the service. When selecting the recommended assignment MOS's, consideration must be made of the assignments available within the command to which the officer is ordered. When appropriate, assignment orders of the Department of the Army will contain the assignment MOS's for which the officer is recommended. The recommended assignment MOS, "R–MOS" will appear in orders immediately following the designation of branch of the officer. Example: Capt. John J. Doe, O1900090, FA, R–MOS, 5220, 4400. Following are some examples where recommended MOS's are not necessary and will not be included in order: ROTC, NG, military attaché, student officers, etc.

3. The inclusion of recommended assignment MOS's are intended to follow the broad Army assignment policies designed to offer officers opportunities for broad professional development by wise rotation of duties. Commanders will not be required to adhere rigidly to recommended MOS assignments but will be required to see that each officer serves for a qualifying period in at least one of the recommended MOS's during his tour of duty. Should assignment conditions permit rotation to all recommended assignments during a tour of duty, such rotation would further the individual officer's career.

4. In exceptional and unusual circumstances specific direction for the employment of individual officers will be issued in assignment orders of the Department of the Army. In such cases, the career section of the subject officer's branch

AGO 1169B—Jan. 771933°—48

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

will include the directed assignment MOS, "D–MOS," in orders immediately following the designation of branch of the officer. Example: Col. Lee R. Jones, O12345, Infantry, D–MOS, 5240. This action will be taken in cases only where specific tests of the officer's ability are desired or where the officer's record indicates that his assignments have been so channeled over a period of years as to require immediate adjustment to avoid jeopardizing his future advancement and value to the service. When such a notation is made, it will indicate to the field that the decision has received personal attention of the Commanding General, Army Ground Forces, the chiefs of the administrative or technical services concerned, or of the Director, Personnel and Administration, General Staff, United States Army. Under such conditions the commander may utilize the individual's services wherever needed to meet immediate needs but within 9 months from time of arrival at new station will assign and retain him on the directed assignment for a minimum of *1 year* unless relieved for unsatisfactory performance of duty. Should relief be required under this provision an efficiency report will be rendered under the provisions of paragraph 1*i*, AR 600–185.

5. Whenever an officer is assigned to a duty according to a recommended or directed assignment MOS as indicated in the assignment orders, the following prefixes will be added to the MOS indicated in the column "MOS" in item 28, Chronological Record of Military Service (WD AGO Form 66):

a. For recommended MOS.—Example, "R1542".

b. For directed MOS.—Example, "D2120".

6. The award of military occupational specialties according to procedures set forth in TM 12–425A is in no way changed by the provisions of this circular. When an officer qualifies for the award of a military occupational specialty as a result of a recommended or direct duty assignment as outlined herein, appropriate commanders may take action to award such MOS under the provisions of paragraphs 67 and 73, TM 12–425A.

7. The reasons for recommending or directing assignments are—

a. To assist in proper initial assignment of officers under permanent change of state orders.

b. To insure that individual officers are not penalized because of lack of certain specialized training considered desirable for special assignments or promotion.

c. To qualify officers for command or staff positions in times of emergency by affording individuals an opportunity for broad professional development.

8. Paragraph 5*b*(6), Circular 142, War Department, 1947, is rescinded.

[AG 020 (6 Jan 48)]

II—CIVILIAN CEREMONIES.—**1. Purpose.**—The purpose of this circular is to establish the policy of the Department of the Army for the participation of United States Army troops and equipment in civilian ceremonies within the continental limits of the United States. This policy as amplified or modified by commanders of oversea forces may be applied to participation of United States Army troops in similar activities overseas.

2. Definitions.—The term "civilian ceremonies" includes any activities, celebrations, ceremonies, or observances in which the general public participates, or which the public generally supports. The term includes activities originated and sponsored by nonmilitary organizations (such as Veterans' committees and state and county fair committees) and by the military service (such as Army Day observance). "Participation" refers to representation of the Department of the Army by troops in demonstrations, parades, or other formations, or by equipment displays.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

3. Basic policy.—The Department of the Army encourages the maximum participation in civilian ceremonies within the limitations prescribed below, and requires the cooperation of all commanders in fostering cordial relations between the public and the military service.

a. The occasion must be of such a nature that the appearance of troops will be of benefit to the military service and stimulate the national patriotic spirit.

b. The occasion must not directly or indirectly benefit or appear to favor any private individual, commercial enterprise, sect, or political or fraternal group.

c. Primary responsibilities for determining whether or not troops will be furnished, or the scale of participation, are assigned army commanders. When adverse effects of participation on training or other primary missions outweigh the advantages of participation, troops will not be provided. Consideration must be given the following pertinent factors:

(1) Availability, suitability, and competence of troop units.
(2) Serviceability and suitability of display equipment.
(3) Priority of training, maintenance, or other missions.
(4) Limitations in manpower and funds.

d. Security measures will not be impaired, and movements of troops and munitions on military missions will not be interrupted.

e. Bands will be used in conformity with AR 250–5.

f. Equipment displays will be adequately manned and guarded.

g. Troops and bands of the training divisions will not participate outside their respective posts except on public holidays and Army Day.

h. Army aircraft will be used in conformity with AR 95–15. The amount of bond required, together with details as to its execution and other pertinent instructions will be prescribed by the army commander.

i. Demonstration parachute jumps and glider landing exhibitions in connection with civilian ceremonies will be limited to those ceremonies of national interest sponsored or specifically authorized by the Department of the Army.

4. Public holidays.—The Department of the Army will provide troops to participate in civilian observance of generally recognized public holidays, subject to the provisions of paragraph 3. Action toward observance of public holidays in civilian communities or on military posts may be initiated by military commanders.

5. Responsibilities.—*a.* Local commanders are expected to receive requests for troop participation, and such commanders will be responsible for determining the appropriateness of the occasion, the applicability of the policies stated herein, and the scale of participation, or for determining inability of their commands to participate. Local commanders will inform requesting sponsors of decisions to participate and will establish liaison to arrange necessary details and insure creditable representation. When a local commander decides that his command cannot participate, he will forward the request with an explanation of his decision to the army commander, advising the requesting agency of the reference.

b. The army commander will render decisions on all requests received by him, either from subordinate commanders or direct from civilian sponsors. The army commander is also responsible for general supervision of all troop participation throughout his army area, including the participation of troops and equipment from class II installations. Whether or not he decides to furnish the troops requested, the army commander will reply promptly to the requesting agency.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

c. Requests initially received by the Commanding General, Army Ground Forces, will be handled in accordance with this circular and as directed by Commanding General, Army Ground Forces.

d. Requests received by the Department of the Army will be reviewed for appropriateness by the Chief, Public Information Division, Special Staff, United States Army, who will advise the requesting agency in any instances in which the occasion is considered inappropriate for troop participation, and who will refer all other requests with suitable comment to the Director of Organization and Training. The Director of Organization and Training will forward requests for troop units of company size or smaller or for army bands, direct to the appropriate army commander, furnishing an information copy to the Commanding General, Army Ground Forces, and will forward all requests for units larger than a company to Commanding General, Army Ground Forces, for reference to the appropriate army commander. Upon receipt of requests for troop participation, the army commander will establish contact with the civilian agency concerned. When after investigation the army commander determines that the participation is authorized and feasible under the provisions of paragraph 3, he will execute the desired participation. When a request is not favorably considered by the army commander, or when a reply is directed by higher headquarters, the army commander will report his decision and the action taken or contemplated, to The Adjutant General, Washington 25, D. C., Attention: CSGOT, with information copies direct to Commanding General, Army Ground Forces, and to Chief, Public Information Division. When report of action taken is required and final decision will be delayed, an interim report will be forwarded as prescribed above. The Chief, Public Information Division, will reply to the requesting agency on the basis of the information thus furnished.

6. Training.—Opportunities for training afforded by troop participation will be exploited.

7. Recruiting.—So far as practicable, the army commander will exploit these occasions as a means to secure Army enlistments.

8. Funds.—*a.* Costs which can be attributed directly to the participation of troops and equipment in such activities will be charged against appropriate funds available to the headquarters directing the movement.

b. When deemed advisable, the sponsors will be requested to reduce the cost of participation by providing billets and meals in kind, and/or by defraying the cost, either totally or in part, of transportation and communication services. The headquarters supervising participation will arrange for settlement of financial accounts with the sponsors in such cases.

9. Rescission.—Section VI, Circular 198, War Department, 1946, and Memorandum 600–25–1, 1 April 1947, are rescinded.

[AG 370.7 (5 Jan 48)]

III—CLASSIFICATION.—**1.** *a.* War Department *letters* bearing the file classification AG 201, AG 210.31, or AG 210.33, whose subjects pertain to the assignment, transfer, and movement of personnel within the continental United States and to oversea theaters of operations are *declassified*, provided they were published during the period 7 December 1941–31 December 1945, both dates inclusive.

b. Holders are directed to mark all copies and extracts as follows:

Regraded UNCLASSIFIED Order Sec Army by TAG/7N30

***IV..COURSES AT CIVILIAN INSTITUTIONS IN MEDICAL SPECIALTIES.*—1.** Reference is made to available courses, not scheduled, for medical officers listed in paragraph 2, section I, Circular 204, War Department, 1947.

2. All applications for any of the courses referred to, many of which may still be taken during the present fiscal year, or other courses in civilian institutions to start prior to 1 July 1948, will be forwarded through channels to reach The Surgeon General, Washington 25, D. C., Attention: Military Personnel Division, not later than 1 March 1948.

3. Medical officers of the Regular Army are encouraged to apply for this training.

[AG 461 (2 Jan 48)]

***V..FINANCE OFFICES, U. S. ARMY.*—1.** Paragraph 1, section III, Circular 21, Department of the Army, 1947, as amended, is further amended by changing the address of the Paris Finance Office, U. S. Army, to read "APO 58, c/o Postmaster, New York, New York."

2. Section VI, Circular 68, Department of the Army, 1947, pertaining to the foregoing subject, is rescinded.

[AG 321 (8 Jan 48)]

***VI..JOINT ROUTING INDICATOR BOOK JANP 117.*—**Changes 2 and 3 to Joint Routing Indicator Book JANP 117, now being distributed by The Adjutant General, have been approved by the Joint Communications Board for joint use and approved for intra-Army use. Effective date is 1 December 1947.

[AG 461 (26 Nov 47)]

***VII..POST TRUST FUNDS AND CENTRAL POST FUNDS.*—1.** Attention is directed to paragraph 21*b*, AR 210-50, and paragraphs 4*d* (1) (*b*) *2* and 6*e* (2) (*b*), Circular 47, War Department, 1947.

2. Upon transfer of a post trust fund or a central post fund to a successor custodian, the transfer of the fund will be accomplished in accordance with the provisions of paragraph 18*b*, AR 210-50. The audit prescribed by paragraph 21*b*, AR 210-50, to be made upon transfer to a successor custodian, will be performed by competent disinterested officer personnel designated by the commander of the installation to which the fund pertains. This audit will be made immediately upon the transfer of the fund. Semiannual and terminal audits of such funds will continue to be performed as a Finance Department activity of the army commander. Semiannual audits will cover specifically the tenure of office of each custodian serving during the period included in the audit, and a copy of the semiannual audit with supporting schedules will be provided to each of these custodians.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

3. The contents of this circular will be brought to the attention of all commanders concerned.
[AG 132.2 (6 Jan 47)]

VIII..RELEASE OF PRESS INFORMATION.—1. In releasing information to the press concerning the escape of general or garrison prisoners from United States disciplinary barracks, post guardhouses, and stockades, or any unusual incident or disturbance occurring in such installations, the commanding officer concerned will furnish such factual statements relating to the incident as will not endanger the performance of his primary mission, proper control and security of prisoners confined in his institution. When prisoners escape, press releases will be restricted to that information normally included in WD AGO Form 45 (Descriptive List of Absentee Wanted by the United States Army). Additional facts of news interest may be released which, in the opinion of the commanding officer, will not jeopardize control, discipline, and security within his institution.

2. In determining the extent of information to be disclosed and the nature of the press release to be furnished, consideration should be given to the need for preserving friendly relations with the local press and the general public.
[AG 253.6 (5 Jan 1948)]

IX..RESCISSION.—1. The following War Department circulars are rescinded:

a. Section VII, Circular 223, 1946, pertaining to public relations relating to return and final burial of World War II dead. See C 1, TM 10-281.
[AG 300.7 (8 Dec 47)]

b. Section III, Circular 121, and section VII, Circular 191, 1947, pertaining to the distribution and supply of Department of the Army publications. See C 1, TM 38-405.

I. AR 600–45.—Pending the printing of changes in AR 600–45, 22 September 1943, paragraph 15.1*e* is added as follows:

e. Those individuals who, as members of the Army of the United States, were cited by name on or after 7 December 1941 and prior to 3 September 1945, in orders or in a formal certificate, for meritorious or exemplary conduct in ground combat against the armed enemy, may make application to The Adjutant General, Washington 25, D. C., for award of the Bronze Star Medal on the basis of such citation. A citation in orders for the Combat Infantryman Badge or Medical Badge awarded during the period of actual combat against the armed enemy is considered as a citation for meritorious conduct in ground combat. These citations in orders during the period 7 December 1941 to 3 September 1945 were not automatic, but were based upon recommendations of unit commanders thoroughly familiar with the achievement of the individuals cited and after a careful evaluation of their work.

[AG 200.6 (25 Apr 4)]

II. CLASSIFICATION.—The classification of TM 11–1555, 10 January 1945, Radar Set, AN/CPS–5, Service Manual, Theory, Trouble Shooting, and Repair, is reduced from CONFIDENTIAL to RESTRICTED. All copies and extracts affected by this action, not being destroyed under the provisions of paragraph 12, AR 15–15, will be amended accordingly, citing as downgrading authority "WD AGAD 7D18."

[AG 312.1 (13 Jun 47)]

III. CLASSIFIED DOCUMENTS.—1. Reference is made to paragraph 16, AR 380–5. The procedures below will be followed in changing or canceling the classification of documents:

a. General.

(1) Documents which affect only the office of origin will be regraded by that office or higher authority. Higher authority ordinarily need not and should not be consulted.

(2) If the information contained in a classified document affects the interests of two or more agencies, the agency desiring to regrade or declassify such document will consult the others and attempt to reach an agreement. In the event no agreement can be reached, the matter will be referred for decision through channels to the lowest superior common to them. This reference will be accompanied by a full statement of the views of the differing agencies. In the event there is no

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

common superior to the differing agencies lower than the Chief of Staff, the matter will be referred to the Intelligence Division, War Department General Staff, for decision.

b. Classified documents of joint or combined origin or interest.

(1) Military agencies desiring to effect a change in or cancellation of the classification of a Navy document or a document of Joint Army-Navy interest will present a request to the appropriate authority within the Navy Department. In the event an agreement is not reached, the matter will be referred through channels to Joint Security Control for decision.

(2) Military agencies desirous of changing or canceling the classification of a British document or a document of combined United States-British interest are authorized to refer such request direct to their opposite agency in the British Staff Mission. In event no agreement is reached, the matter will be referred to Joint Security Control.

c. Classified documents originating in theaters of operation.

(1) Discontinuance of oversea commands and headquarters renders it impossible in certain instances to comply with the provisions of paragraph 16, AR 380–5. The War Department is the "higher authority" within the meaning of the above paragraph. Accordingly, the War Department General and Special Staff Divisions have authority consistent with AR 380–5 to regrade or declassify documents which originated in theaters of operations, and which are of primary interest to them. In addition, the commanding generals of the major commands and chiefs of administrative and technical services are authorized, consistent with the provisions of AR 380–5, to review and down grade or declassify the following types of documents which originated in a theater of operations and which are of primary interest to them. This authority may be delegated by major commands and the administrative and technical services to subordinate commands and installations so far as such is considered necessary and advisable.

(*a*) All documents which were originated on or before 2 September 1945.

(*b*) The following types of documents which were originated after 2 September 1945:

1. Those classified by a headquarters which is no longer extant.

2. Those relating solely to United States Army troops.

3. Technical reports solely on United States Army equipment.

(2) The authority conferred herein is not to be construed as a basis for downgrading or declassifying documents which contain information of Joint or Combined interest.

(3) In the exercise of authority conferred herein, care will be taken to insure that information which reveals intelligence sources, methods, successes, etc, is safeguarded.

(4) The command or installation performing downgrading or declassifying action will notify The Adjutant General of such action.

2. The foregoing in no way affects the provisions of AR 380–5 applicable to the downgrading or declassification of information contained in previously cryptographed messages.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

3. Section II, WD Circular 4, 1946, as amended by section II, WD Circular 361, 1946, pertaining to the foregoing subject, is rescinded.
[AG 312.1 (16 Jun 47)]

IV..RESCISSION.—The following publications are rescinded:
1. T/A 11-1050, 9 May 1944, Film Library Organization, including C 1, 28 July 1944.
2. T/D 11X1050, 9 May 1944, Film Library Organization, including C 1, 28 July 1944.
[AG 400.34 (11 Jun 47)]

V..SOVIET SPIES—THE STORY OF RUSSIAN ESPIONAGE IN NORTH AMERICA.—1. "Soviet Spies—The Story of Russian Espionage in North America," by Richard Hirsch, is being distributed in book form by the Troop Information and Education Division, War Department Special Staff.
2. This book has been purchased from commercial sources, and is not an official War Department document. As a report on the breaking of the atomic bomb espionage ring in North America, this publication is of timely interest to every member of the Military Establishment.
3. The Army-wide distribution now under way will include two copies per company or comparable unit. Wide publicity will be given to this book upon receipt within the command, and it will be circulated freely among troops at the company level.
[AG 461 (16 Jun 47)]

VI..STABILIZATION OF ENLISTED PERSONNEL.—Paragraph 1*b*(1), section II, WD Circular 108, 1947, is rescinded and the following substituted thereror:

(1) Reserve Officers' Training Corps Units, Organized Reserves, National Guard, First Antiaircraft Artillery Guided Missile Battalion, Army Ground Forces boards, Recruiting Service, The Quartermaster Board, and the Climatic Research Laboratory, at least 2 years.

[AG 220.3 (28 May 47)]

VII..WAR TROPHIES.—1. The Treasury Department has recently initiated a program to promote safety in the possession and handling of explosive-type war trophies. War Department, Navy Department, and the National Rifle Association are cooperative with Treasury Department. The facilities of each of these agencies are available for the purpose of checking as to the safety and demilitarization, when indicated, of trophies in the hands of veterans and others. Trophies will be returned to the owner unless their destruction is unavoidable.
2. The following general allocations have been made:
a. Treasury Department (the Alcohol Tax Unit of the Bureau of Internal Revenue) is to assist possessors of machine guns and other fully automatic weapons in registration of these arms, and upon consent of the owners will weld these guns so as to make them permanently safe without detracting from their appearance or souvenir value.
b. National Rifle Association is to advise all owners of guns and pistols on the safe handling of their trophy weapons.
c. Installations of the Army and of the Navy are to undertake the reception and examination of mines, grenades, shells, and similar trophies, and their demilitarization upon request of the owners.
3. So far as the Army is concerned, reception, examination, and demilitarization will be an ordnance function.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

4. It is the responsibility of the owner of an explosive-type trophy, if he desires its demilitarization by the Army, to place the trophy in the hands of local committees or authorities as outlined in paragraph 5.

5. Treasury Department officials plan to organize state and local committees representing all of the four agencies (War, Navy, Treasury, and NRA). These committees will endeavor to arrange for central delivery of trophies requiring demilitarization, and their transportation to designated locations where the several classes of trophies can be processed. This will be a matter of local arrangement and cooperation of local authorities.

6. All commanders will lend their cooperation in this program within available facilities. When inspection and/or demilitarization is to be accomplished at an Ordnance Department installation, the committees should contact Army area headquarters where they will be advised relative to the particular installation where the work will be performed.

7. With reference to paragraph 2*a*, registration of automatic-type firearms, such as machine guns, submachine guns, or any type of gun from which a number of shots may be discharged with one continuous pull of the trigger, is mandatory under the provisions of the National Firearms Act.
[AG 386.3 (16 Jun 47)]

VIII..WD AGO FORM 66–1.—1. Pending revision of TM 12–425, 17 June 1944, Personnel Classification, the following instructions are set forth to provide for the recording of information on WD AGO Form 66–1 for AUS officers integrated into the Regular Army and for AUS officers appointed in the Officers' Reserve Corps or the National Guard on separation from the service, including those subsequently recalled to active duty. These instructions are for an interim period pending the printing and distribution of WD AGO Form 66 (Officer's, Warrant Officer's and Flight Officer's Qualification Record). Information for recording entries on WD AGO Forms 66–2 and 66–3 will be published in Headquarters, Army Air Forces, directives.

2. For AUS officers integrated into the Regular Army, the following entries will be made on WD AGO Form 66–1:

a. Item 2. Enter the new Regular Army serial number and line out the old serial number.

b. Item 3. Enter a new arm or service and delete the old one if the officer has received a Regular Army appointment in an arm or service other than that in which previously commissioned or assigned by orders announcing the appointment. For officers given another detail in addition to detail announced in the orders of appointment as outlined in paragraph 3, section I, WD Circular 130, 1947, the entry will be, e. g. FD (AGD) (GSC).

c. Item 4. Delete old component and enter Regular Army, e. g., RA.

d. Item 14.

(1) Enter the date of rank in grade applicable to the new Regular Army grade with the alphabetical prefix "P," denoting permanent rank, under the appropriate column, e. g., "P—24 Jun 42."

(2) Deletions will be accomplished, where applicable, on all AUS promotions made under provisions of WD Circular 10, 1946, or WD Circular 140, 1946, TWXs TAGO, 31 October or 13 December 1945, or grade adjustment policies indicated in WD Circular 222, 1946, section V, WD Circular 240, 1946, WD Circular 303, 1946, and Section V, WD Circular 114, 1947.

(3) Appropriate references to entries and deletions indicated in (1) and (2) above will be made in item 31, "Remarks."

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

e. Item 31.

(1) A statement will be entered relative to the appointment in the Regular Army. Example: "Ref (14) Aptd Capt., Inf, RA, with date of rank, 24 Jun 42 per WD SO 148, dtd 5 Jul 46."

(2) A statement explaining a deletion of AUS appointment made under provisions of War Department circulars and TWXs indicated in *d* (2) above will be entered as follows: Example: "Ref (14) AUS promotion to (*Grade*) under authority of WD Circular *10* or *140*, 1946, vacated on acceptance of Regular Army commission."

3. For AUS officers who accepted appointment in the Officers' Reserve Corps or National Guard subsequent to relief from active duty, upon recall to extended active duty, entries will be made in the manner indicated below on their qualification cards to reflect their new status:

a. Item 3. Enter the arm or service indicated on the special orders recalling the officer to extended active duty. If an officer has been recalled to active duty in an arm or service other than that in which previously commissioned or assigned, the old arm or service will be deleted and the new arm or service entered.

b. Item 4. The entry AUS will be lined out and the new basic component, "NG" or "RES," whichever is applicable, will be entered. An AUS officer recalled to extended active duty establishes a dual status for himself immediately upon compliance with orders recalling him to such duty. The officer's basic component is either the Officer's Reserve Corps or National Guard, entry of which is required in item 4. However, the officer is recalled in an AUS grade, so that his active duty grade is in AUS. This AUS status will be indicated in item 31.

c. Item 14.

(1) Enter the date of rank in the grade recalled to extended active duty under the appropriate column. The date of rank in grade will be taken from the special orders recalling an officer to extended active duty.

(2) If the date of rank in grade is different from the date of rank in grade presently entered on the qualification card, appropriate deletions will be accomplished so that the qualification card reflects only the current date of rank in grade of the officer recalled to extended active duty. In this respect, deletions will be accomplished, when applicable, on all AUS promotions made under provisions of WD Circular 10, 1946, or WD Circular 140, 1946, TWXs TAGO, 31 October or 13 December 1945, or grade adjustment policies indicated in WD Circular 222, 1946, section V, WD Circular 240, 1946, WD Circular 303, 1946, and section V, WD Circular 114, 1947.

(3) Appropriate references to entries and deletions indicated in (1) and (2) above will be made in item 31, "Remarks."

d. Item 31.

(1) A statement will be entered relative to the grade in which recalled to active duty, e. g., "Ref (14) Recalled to extended active duty, 1st Lt, FA, AUS, with date of rank, 8 Jul 44, per WD SO 162, dated 24 Jul 46."

(2) A statement explaining deletion of AUS appointment made under provisions of War Department directives indicated in paragraph 2*c* (2) above, will be entered as follows: "Ref (14) AUS promotion to (*Grade*) under authority of WD Circular (------) 1946, vacated on recall to extended active duty."

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

(3) An entry will also be recorded for the officer's current Reserve grade, section, date of appointment, and date accepted. Example: "Aptd (*Grade*), (*Section*), RES, (*Date*), Accepted (*Date*)."

4. The basic *Reserve* arm or service of an officer is the arm or service designated upon acceptance of an appointment in the Officers' Reserve Corps as indicated in paragraph 24, WD Circular 356, 1946, as amended, or paragraph 4, WD Circular 97, 1947, whichever is applicable.

5. Whenever appointment in the Officers' Reserve Corps is terminated, an entry will be made in item 31, "Remarks," of WD AGO Form 66–1, e. g., "Res Apmt. terminated (*date*)."

6. New qualification cards will be initiated on officers ordered to active duty unless units are informed by The Adjutant General that the form is not on file. To facilitate initial assignment of officers, however, a temporary WD AGO Form 66–1 will be prepared prior to receipt of the original card.

7. Oversea replacement depots will insure that all recently integrated Regular Army officers or officers recalled to extended active duty have in their possession, whenever possible, their original WD AGO Form 66–1 with appropriate changes entered before shipment to an oversea command.

8. Qualification cards of officers ordered to active duty training will be forwarded to the first active duty station where such training will be received as prescribed in paragraph 19 *c* (2) (*b*), WD Circular 356, 1946. If no qualification card is received, the station will prepare a new qualification card except where such duty will be for 15 days or less. Commanders of major commands may, in such cases, determine whether or not a new qualification card will be prepared. However, individual officers on active duty for periods of 15 days or less will, if no qualification card is prepared, be responsible for retaining copies of their orders ordering them to active duty training, so that they may inform the custodian of their reserve record at least once a year of the number of days of active duty training received within the year. All cards will contain an entry on active duty training under "Principal Duty," e. g., "Active dy trng" in the "Record of Current Service" in addition to the information normally required in this item.

9. The provisions of this circular will apply in connection with paragraph 11*c*, WD Circular 97, 1947.

10. Section VIII, WD Circular 240, and section VI, WD Circular 340, 1946, pertaining to the foregoing subject are rescinded.

I. APPOINTMENTS IN OFFICERS' RESERVE CORPS.—**1.** The purpose of this circular is to implement section II, part three, WD Circular 101, 1947, so far as it pertains to those individuals applying for direct appointment in the Officers' Reserve Corps under the provisions of paragraph 17*b*, that is, those who have served 6 months between 7 December 1941 and 30 June 1947 as warrant officers, flight officers, or in one of the first three enlisted grades.

2. All applicants who meet the initial eligibility requirements after review of their applications by Army or oversea commanders will be required to undergo certain screening procedures including a personal appearance before an examining board. This screening involves—

a. Administration of an Army General Classification Test when such score is not available. This test will be dispensed with in the case of warrant officer and flight officer applicants.

b. Final type physical examination.

c. Completion of a biographical information blank.

d. Appearance before an interview and examining board.

3. Since trained personnel must administer this screening, commanders authorized to appoint examining boards will assign these boards only to posts, camps, or stations administering these screening instruments. Sufficient boards will be designated to minimize expenses borne by applicants for travel, quarters, and messing. The trained enlisted personnel referred to above must be individuals who possess an MOS of 275, 290, or 262, and in addition must be well qualified to handle the administration of both the AGCT and BIB. With reference to officer personnel who will be required for administering these screening procedures, it is desirable to select individuals experienced in personnel testing and classification although this requirement is not mandatory where officers with these qualifications cannot be obtained within the limitations of the command.

4. For the purpose of efficient processing of all applicants under paragraph 17*b*, WD Circular 101, 1947, it is desired that Army and oversea commanders, as defined in paragraph 3*f* and *g*, WD Circular 101, accomplish the following without delay:

a. Appoint such examining boards under the provisions of paragraph 20, WD Circular 101, 1947, at centrally located posts, camps, or stations as are necessary for processing and only where facilities for initial screening are available. Army commanders are authorized to call on class II installations within their area for the necessary Reserve or Regular Army officers of the particular arm or services required on the board to interview applicants for that particular arm or service.

b. Accomplish initial review of applications without delay in order that the processing of each applicant can be expedited to effect either selection or rejection.

c. Forward completed applications of qualified personnel to appropriate examining boards so that applicants can be advised with reference to tentative dates and location for completion of processing.

d. Inform all interested personnel within the geographical limits of the command of the command of the location of processing facilities and examining boards.

e. Arrange for quarters, meals, and information concerning travel facilities for civilian applicants. Civilian applicants will be informed that all expenses incident to travel, quarters, and meals will be borne by them.

AGO 11B—July 750702°—47

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

f. Arrange for issue of travel orders for enlisted personnel of the first three grades, warrant officers, and flight officers who are now on active duty and whose applications for Reserve commissions are approved for processing.

g. Supply examining boards with adequate quantity of—

(1) OCI–4, B Test Booklets.
(2) OCI–3, R Answer Sheets.
(3) Appraisal sheets.
(4) Forms for reports of board procedures.
(5) Eligibility requirements for professional and technical specialists.

h. Require all examining boards to furnish rosters of civilian technical and professional specialists who would volunteer to serve as expert advisors to the board at no expense to the Government.

i. Supervise transmission of completed papers of examining board to The Adjutant General, Attention: AGSO–R, to avoid unnecessary delays.

j. Supervise screening of personnel so that no applicant is retained for more than two consecutive days (not including Saturday and Sunday) for processing, including appearance before an examining board.

k. Monitor the administration and scoring of the AGCT, execution of the BIB, and the conduct of physical examinations in the aforementioned order so that adequately trained personnel responsible for such functions are provided at all stations where screening is accomplished.

5. Manual for Examining Boards (WD AGO PRT–748), as referred to in paragraph 22, WD Circular 101, 1947; Appraisal Sheets WD AGO PRT–749 for all applicants except technical experts or specialists; and Appraisal Sheets WD AGO PRT–750 for technical experts or specialist applicants will be available on or before 15 July 1947. The eligibility requirements for direct commissions of professional and technical specialists are being prepared by the War Department for distribution sometime after 1 July 1947.

6. Prior to receipt of the manual for examining boards, and after receiving the initial distribution of the pertinent PRT forms, it is directed that commanders requisition the following devices from the appropriate adjutant general publication depot to be utilized by these boards:

Materials necessary	*WD AGO PRT No.*	*Basis for ordering supplies*
Conduct of the Interview, Booklet, OCI–4, B.	737	One booklet for each board member, plus 10 percent; reused.
Officer Candidate Applicant Interview Blank, OCI–3, R.	650	One for each board member for each applicant, plus 10 percent; not reused.
Pencils with P3B lead	----	One for each board member, plus 10 percent, reused.
Appraisal Sheet M	749	Two for each board member for each nonspecialist applicant, plus 10 percent; not reused.
Appraisal Sheet S	750	Two for each board member for each specialist applicant, plus 10 percent; not reused.
Manual for Examing Boards, RCE–1, M.	748	One booklet for each board member, plus 10 percent; reused.

II..ARMY AUDIT AGENCY, OCF.—1. Effective immediately, the address of the Atlanta Regional Office, Army Audit Agency, is changed as follows:

Atlanta Regional Office
Army Audit Agency
98 Edgewood Avenue, NE.
Atlanta 3, Georgia

2. So much of paragraph 1, section III, WD Circular 132, 1947, as pertains to the above address, is amended accordingly.

III..BENEFICIARIES OF BUREAU OF EMPLOYEES' COMPENSATION, FEDERAL SECURITY AGENCY (modification of AR 40–560 applicable to the fiscal year 1948 only).—The provisions of the following paragraphs are applicable to the beneficiaries referred to, only when treated in Army hospitals during the fiscal year 1948. No open allotment of funds will be published to cover charges for subsistence of beneficiaries of the Bureau of Employees' Compensation, Federal Security Agency, who are hospitalized in Army hospitals during the fiscal year 1948. Instead the following procedures will apply:

1. Subsistence voucher (WD Form 351 and 351a) to cover subsistence charges for beneficiaries of the Bureau who are hospitalized in Army hospitals during the fiscal year 1948 will be prepared in quintuplicate by the calendar month. Where the hospital operates a mess on the garrison ration system, the voucher will be drawn in favor of "Custodian of the Hospital Fund, ———— Hospital", and where the hospital operates a mess on the field ration system, the voucher will be drawn in favor of "The Treasurer of the United States." Care will be taken that the total number of rations (i. e., ration days) entered on Form 351 and 351a is the same as the total number of hospital days shown on the report of hospitalization prepared for the same calendar month (see par. 2*e*, AR 40–560). The subsistence voucher in quadruplicate (WD Form 351 and 351a) will be forwarded to The Surgeon General, Washington 25, D. C., Attention: Fiscal Division, together with the report of hospitalization as required by paragraph 2*e*, AR 40–560.

2. In preparation of subsistence vouchers (WD Form 351 and 351a) the value of each ration day will be prescribed in a War Department circular for each fiscal year as that portion of the per diem rate for in-patient care which is earmarked as the subsistence rate.

3. The Surgeon General, after verifying the subsistence voucher and the report of hospitalization for accuracy, will take action to secure reimbursement, including subsistence, for the hospitalization furnished. Upon receipt of the collection, The Surgeon General will dispose of that portion covering subsistence as follows:

a. If the hospital operates a mess on the garrison ration system, a check will be drawn payable to "Custodian of the Hospital Fund, ———— Hospital," who will credit it to the fund.

b. If the hospital operates a mess on the field ration system, a deposit will be made by The Surgeon General to the credit of the applicable Quartermaster Corps funds.

VI..ROTC INSIGNIA.—Pending the printing of changes in AR 145–10, during ROTC summer camps the ROTC insignia prescribed by paragraph 62*a*, AR 145–10, will be worn on the upper part of the outer half of the left sleeve of the shirt when worn as an outer garment, the top of the insignia to be ½ inch below the top of the shoulder seam.

[AG 421 (5 Jun 47)]

VII..STRUCTURAL FIRE PROTECTION.—Pending the revision of TM 5–600, 6 November 1945, the following information regarding the use of military personnel for structural fire prevention activities is published for the information and guidance of all concerned.

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

1. Authority.—Existing War Department policy requires maximum use of civilian personnel and the restriction of military personnel to functions which specifically require military skill of application. Structural fire protection and fire prevention activities, performed as a phase of repairs and utilities in the zone of the interior, will normally be accomplished by the use of civilian personnel. Structural fire protection includes all phases of fire protection except aircraft crash rescue and crash fire fighting. Military personnel will be assigned for structural fire protection only when insufficient civilian personnel are available to provide continuously the required degree of fire protection as described by War Department directives.

2. Criteria.—When it is necessary to assign military personnel to structural fire protection and fire prevention activities in accordance with paragraph 1, consideration will be given to the following general principles in order that the required degree of fire protection and of fire prevention activities will be maintained:

a. Experienced supervisory and key personnel will be retained so far as possible, and replacement of such personnel by military personnel will be accomplished only when professionally qualified personnel of equal caliber are available from the military ranks.

b. The number of military personnel assigned and tours of duty will be such as to assure continued availability of the minimum number on duty tour at all times to provide effective fire fighting, fire prevention, and related activities. The assignment of military personnel in excess of requirements to meet minimum War Department standards will be carefully avoided.

c. Military personnel so assigned will be carefully selected to assure necessary qualifications. Newly assigned personnel will be given an immediate, thorough basic training in the fundamentals of fire protection and prevention and related activities. A rigid continuous schedule of on-job-training will be strictly maintained.

3. Suggested organization table.—The following typical organization table for the assignment of military personnel to the installation fire department is suggested as a guide:

INSTALLATION MILITARY FIRE FIGHTING DETACHMENT

Rank	Designation	No.	SSN equivalent	Basis
M/Sgt	Detachment Chief	1	383	Per 4 or more fire companies.
T/Sgt	Asst. Detachment Chief	1	383	Detachment chief if 2 or 3 fire companies.
S/Sgt	Company Chief	1	383	Detachment chief if only 1 fire company.
Sgt	Crew Chief	2	383	Per fire company.
Cpl	Driver-Operator	3	(383) (932)	Per fire company.
Pfc	Fire Fighter	4	383	Per fire company.
Pvt	Fire Fighter (Trainee)	2	------	Per fire company.

III..MAIL ROUTING CERTIFICATE.—1. In all cases where War Department documents are to be transmitted via State Department channels, the office originating the transmittal, or its authorized representative, will cause to be placed in the lower left portion of the front of the outer cover a certificate applied by label, rubber stamp, or other legible means, of convenient size and displaying substantially the following data and form:

ROUTING CERTIFICATE

It is certified that contents require transmission indicated below. (Mark one.)

_____ BY COURIER (Hand treatment and registration to destination.)

_____ AIR POUCH (May be unaccompanied. Speed primary.)

_____ SURFACE POUCH (May be unaccompanied.)

Office or Phone _____ Name and Grade _____

2. In the "By Courier" category, security is primary, speed secondary, providing an appropriate channel for all material classified "Confidential" or higher. Shipments in the other two channels may or may not be accompanied by courier, and are appropriate for "Restricted" or unclassified material.

3. This certificate has evolved primarily for application to mail having classified contents, but may be applied to all War Department mail being or to be carried by State Department facilities. Before dispatch of the envelope or cover on which above certificate has been displayed, the necessary method of transmission shall be indicated by a mark placed in the appropriate space, and the certification completed by a signature and brief identification. It is intended that this certificate be executed and applied either by the office causing the transmittal, or by an authorized representative office, such as a message center or mail room or other office familiar with the classification and requirements of the certificated material.

IV..MEDICAL DEPARTMENT OFFICER.—1. Paragraph 3*d*(2), section IV, WD Circular 310, 1946, is rescinded and the following substituted therefor:

(2) Requests for final action on orders for permanent change in station; reassignment to an Army installation; and separation from military service, will be made by the deputy administrator to the appropriate army headquarters. Army headquarters will forward requests for permanent change in station to the Director, Personnel and Administration, War Department General Staff, Washington 25, D. C., and requests for reassignment to an Army installation and for separation from military service to The Surgeon General, Washington 25, D. C. In the case of commissioned officers occupying centralized positions, prior approval will be obtained from the central office.

2. Section IV, WD Circular 191, 1947, pertaining to the foregoing subject, is rescinded.

V..REGULAR ARMY OFFICERS.—**1. General.**—In any war or national emergency the officers and men of the civilian components (ORC, ROTC, and NG) will comprise the bulk of any U. S. fighting force. To insure that Regular Army officers are familiar with the problems, state of training, and psychological outlook of these components the following policy is announced.

2. Assignment policy.—So far as practicable, all Regular Army officers will be required to serve one tour of duty with one of the civilian components, i. e., the Organized Reserve Corps, Reserve Officers' Training Corps, and the National Guard; except that this policy does not constitute a requirement on officers of the Judge Advocate General's Department, Finance Department, or the Corps of Chaplains. Repeat assignments will not be ordered with the same civilian component and so far as availability of personnel qualified for this type of duty will permit, second assignments with civilian components will be avoided.

[AG 210.31 (28 Aug 47)]

VI..WD AGO FORMS 638 AND 639.—1. Paragraph 20, AR 600–45, 22 September 1943, as changed, provides that WD AGO Form 638 (Recommendation for Award—Meritorious Service) or WD AGO Form 639 (Recommendation for Award—Heroism) may be used in initiating recommendations for awards of decorations. These forms have been developed as an aid to recommending officers to assure that no essential detail, as outlined in AR 600–45, is overlooked; to minimize the lack of recognition of outstanding achievement due to the inability of persons making recommendations to adequately present the facts in support of the recommendation; and to avoid the necessity of returning recommendations to initiating individuals for additional information.

2. WD AGO Form 638 is for use in making recommendations for meritorious service and WD AGO Form 639 for making recommendations for heroism. Instructions for their use are printed on each form.

3. These forms are now available upon requisition through normal publications supply channels.

I. CAMOUFLAGE MATERIALS.—1. The allowances of camouflage materials, including camouflage nets, camouflage net sets, and camouflage equipment sets, included in all tables of organization and equipment, special lists of equipment, standard special lists of equipment, and equipment modification lists, except those pertaining to Engineer camouflage units, are rescinded. Items of camouflage material will be omitted in the next revision of all tables of organization and equipment and EML except those indicated above.

2. The following instructions will govern the issue of camouflage materials:

a. Schools, boards, and training installations will be supplied camouflage materials for training and testing purposes in accordance with appropriate tables of allowances. Shrimp nets now in use for training purposes will be continued in use until unserviceable and will then be replaced by garnished twine nets in corresponding sizes and quantities.

b. Training allowances of camouflage materials for tactical units in continental United States are currently prescribed in appropriate tables of allowances.

c. Units departing for oversea commands will not be supplied camouflage materials unless movement orders specifically so direct. Movement orders will not direct the issuance of camouflage materials unless specifically requested by the oversea commander concerned.

d. When units overseas are supplied camouflage materials from class IV stock, the following basis of distribution may be used as a guide to determine the maximum requirements:
