AUTHORITY: §§ 232.1 to 232.15, inclusive, are issued under sec. 302 of the Agricultural Adjustment Act of 1938, as amended (52 Stat. 43; 7 U.S.C., 1940 ed., 1302), and the Act of May 26, 1941 (55 Stat. 203; 7 U.S.C., 1940 ed., Supp. I, 1330), as amended by the Act of December 26, 1941 (55 Stat. 860).

§ 232.1 Definitions. As used in these instructions, unless the context other-

wise requires, the following terms will be construed respectively to mean:

(a) **Producer.** A producer shall be any person producing cotton in 1942 in the capacity of landowner, landlord, tenant, or sharecropper. Person, as used herein, means an individual, partnership, firm, corporation, association, joint-stock company, trust, estate, or other legal entity, or a State or political subdivision thereof, or an agency of such State or political subdivision. If the eligible cotton produced on a farm has been divided among the producers entitled to share in such cotton, the landlord, tenants, and sharecroppers may each obtain a loan on his separate share, or two or more such producers may obtain a loan jointly on their shares of such cotton. Share tenants and sharecroppers may not obtain a loan on cotton in which a landlord has an interest: *Provided*, That a tenant and his landlord may obtain a joint loan on cotton in which they both have an interest. In any case where a landlord, cash tenant, or standing-rent tenant obtains a loan on cotton in which a share tenant or sharecropper has an interest, the 1942 cotton producer's note and loan agreement (1942 C.C.C. Cotton Form A) requires that he have the legal right to do so and that the share tenant or sharecropper be paid his pro rata share of the proceeds.

(b) **Cooperator.** A cooperator, with respect to any farm on which cotton is produced in 1942, shall be a producer who is entitled to obtain a loan at the full loan rate on eligible cotton produced on such farm in 1942. A producer will be entitled to a loan at the full loan rate on eligible cotton produced by or for him in 1942 on a farm for which a cotton acreage allotment or permitted acreage is determined under the 1942 agricultural conservation program, provided that the following requirements are met:

(1) The 1942 acreage of cotton on the farm does not exceed the cotton acreage allotment or the permitted acreage of cotton determined for the farm. For the purpose of determining eligibility for loans under the 1942 cotton loan program, the acreage of cotton on the farm shall not be considered as being in excess of the cotton acreage allotment for the farm unless the producer knowingly planted cotton in excess of the allotment. The producer will not be considered to have knowingly overplanted the allotment for the farm if the planted acreage of cotton on the farm does not exceed

the allotment by more than the larger of 3 acres or 3 percent of the allotment.

(2) The sum of the 1942 acreages of cotton, wheat, corn (in the commercial corn-producing area), and tobacco on the farm does not exceed the sum of the following:

(i) The permitted acreage of cotton or the larger of 103 percent of the cotton acreage allotment or such allotment plus 3 acres.

(ii) The permitted acreage of corn or the larger of 103 percent of the corn acreage allotment or such allotment plus 3 acres. (This subdivision (ii) will be applicable only in the commercial corn-producing area.)

(iii) The permitted acreage of wheat or the larger of 103 percent of the wheat acreage allotment or such allotment plus 3 acres.

(iv) The tobacco acreage allotment or permitted acreage of tobacco.

(3) His aggregate share of the 1942 acreage of cotton on all farms in the county in which he has an interest does not exceed his aggregate share of the permitted acreages of cotton for such farms or the larger of 103 percent of the cotton acreage allotments for such farms or such allotments plus 3 acres for each of such farms.

(4) His aggregate share of the 1942 acreages of cotton on all farms in the State in which he has an interest is not found by the State committee to be such that it substantially offsets the performance under the 1942 agricultural conservation program on the farm or farms from which his share of the cotton would otherwise be eligible for a loan at the full loan rate.

(5) Payment of the penalty on any amount of cotton produced in excess of the cotton marketing quota for the farm has been secured, as provided under the 1942 regulations for marketing quotas for cotton.

(c) **Noncooperator.** A noncooperator, with respect to any farm on which cotton is produced in 1942, shall be a producer who is entitled only to obtain a loan at 60 per centum of the full loan rate on eligible cotton produced on such farm in 1942. If the 1942 acreage of cotton on a farm exceeds the permitted acreage determined for the farm under the 1942 agricultural conservation program, or if the cotton acreage allotment for the farm is knowingly overplanted, a producer will be entitled to a loan at 60 per centum of the full loan rate on that portion of his share of the eligible

cotton produced by or for him on the farm in 1942 which is in excess of his share of the normal or actual production, whichever is greater, of the cotton acreage allotment or permitted acreage determined for the farm.

(d) **Eligible cotton.** Eligible cotton shall be cotton produced in 1942 by or for a producer, provided that the cotton meets the following requirements:

(1) Such cotton must be of a grade and staple specified in § 232.3 of these instructions.

(2) Such cotton must be represented by warehouse receipts issued by an approved warehouse in the form prescribed in § 232.8 of these instructions.

(3) Such cotton must not be compressed to high density.

(4) Such cotton must be free and clear of all liens and encumbrances, except those in favor of the warehouse in which the cotton is stored, as specified in the warehouseman's certificate and storage agreement in 1942 C.C.C. Cotton Form A.

(5) Such cotton must be tendered for a loan by a person who has the legal right to pledge it as security for a loan.

(6) The beneficial interest in the cotton must be, and must always have been, in the person tendering such cotton for a loan, or in such person and any share tenant or sharecropper having an interest in the cotton or its proceeds in case such person is a landlord, cash tenant, or standing-rent tenant and is placing under loan cotton in which both he and a share tenant or sharecropper have an interest.

(7) Such cotton must not have been received in payment of standing or fixed rent.

(8) The persons having an interest in the cotton must either all be entitled to a loan on the cotton at the full loan rate or all be entitled to a loan on the cotton at 60 per centum of the full loan rate.

(e) **Certificate of indemnity.** Cotton covered by a certificate of indemnity (Form FCI-274, issued by Federal Crop Insurance Corporation) will also be eligible for direct loans by Commodity Credit Corporation, in accordance with special instructions to be issued by Commodity Credit Corporation.

(f) **Lending agency.** Any bank, corporation, partnership, association, or person making a loan to a producer, pursuant to a 1942 producer's note and loan agreement (1942 C.C.C. Cotton Form A) in accordance with these instructions.

(g) **Eligible paper.** A 1942 cotton producer's note and loan agreement (1942

C.C.C. Cotton Form A), duly executed subsequent to July 31, 1942, and prior to May 1, 1943. State documentary revenue stamps should be affixed thereto where required by law. (A 1942 cotton producer's note and loan agreement (1942 C.C.C. Cotton Form A) executed by an administrator, executor, or trustee will be acceptable only where valid in law and must be submitted for a direct loan in accordance with § 232.11 of these instructions, unless accompanied by a repurchase agreement of the lending agency. Copies of this agreement may be obtained from the regional office of Commodity Credit Corporation, New Orleans, La.)

§ 232.2 *Forms.* The following documents must be delivered in connection with every loan:

(a) 1942 cotton producer's note and loan agreement (1942 C.C.C. Cotton Form A).

(b) Warehouse receipts complying with the provisions of § 232.8 hereof.

(c) Producer's letter of transmittal (1942 C.C.C. Cotton Form B) or lending agency's letter of transmittal (1942 C.C.C. Cotton Form C).

§ 232.3 *Amount.* The base loan rate applicable at each approved warehouse will be shown on the "Schedule of Approved Warehouses" issued by Commodity Credit Corporation and available at the office of the county agricultural conservation committee. Premiums and discounts applicable to each grade and staple length are shown in the table in § 232.5. Loans will not be made on grades or staple lengths of cotton not

shown in such table. Loans to "cooperators" will be made at the full loan rate, which shall be the rates shown in the "Schedule of Approved Warehouses" adjusted for the appropriate premium or discount for each grade and staple. Loans to "noncooperators" will be made on the basis of 60 percent of such rates on that portion of their shares of the eligible cotton produced by or for them on a farm in 1942 which is in excess of their shares of the normal or actual production, whichever is greater, of the cotton acreage allotment or permitted acreage. All loans will be made on the net weight of the lint cotton.

§ 232.4 *Classification of cotton.* All cotton must be classified by a Board of Cotton Examiners of the United States Department of Agriculture. Warehousemen should forward samples to the Board of Cotton Examiners serving the district in which the warehouse is located, and a list showing the class of the cotton will be returned by said board. Instructions have been issued to approved warehouses concerning sampling and forwarding of samples and recording the class of the cotton in the loan agreement. No separate charge is to be made to producers for this service as it is included in the warehouseman's storage agreement. Either Form 1 Classification Memorandum of the United States Department of Agriculture or a Form A-2 Classification Memorandum of the United States Department of Agriculture, issued to the Farm Security Administration, will be accepted as evidence of the class of cotton.

A charge of 15 cents per bale will be made for classing the cotton. The Boards of Cotton Examiners will make collections for classing charges from the warehousemen at the end of each month. A certified check, cashier's check, or postal money order payable to Commodity Credit Corporation must be sent to the Board of Cotton Examiners by the warehouseman in payment of these charges. The warehouseman should collect this charge from the producer.

§ 232.5 *Preparation of documents.* A producer desiring to obtain a loan may obtain the necessary forms from approved cotton warehouses and also from persons approved by the county agricultural conservation committees in the cotton-producing areas to assist producers in preparing and executing the loan forms. Persons approved by such committees for such purpose must execute the clerk's certificate in 1942 C.C.C. Cotton Form A. Such persons are permitted to collect a fee from producers not to exceed the amount approved by Commodity Credit Corporation for rendering this service. These fees are shown in the following schedule:

The warehouseman is required, as provided in the warehouseman's certificate and storage agreement in 1942 C.C.C. Cotton Form A, to draw representative samples from the bales and to deliver or forward such samples to a Board of Cotton Examiners for classing, except where either Form 1 or Form A-2 Classification Memorandum of the United States Department of Agriculture is used.

Since the loan will be made on net weight, it will be necessary for the warehouseman to determine the amount of tare on each bale and show the tare in the schedule of pledged cotton in 1942 C.C.C. Cotton Form A. Instructions will be issued to the warehousemen for their guidance in determining tare.

All blanks must be filled in with ink, indelible pencil, or typewriter in the manner indicated therein, and no documents containing additions, alterations, or erasures will be accepted by Commodity Credit Corporation. Only the original copy of 1942 C.C.C. Cotton Form A is to be retained by the producer.

The schedule of warehouse receipts must represent cotton of only one grade and staple length.

§ 232.6 Determination of cooperators or noncooperators. As evidence that the producer is a cooperator, Commodity Credit Corporation will accept the clerk's certificate in 1942 C.C.C. Cotton Form A. If the producer does not exhibit the white marketing card(s) on Form Cotton 611 and make the representations to the clerk as required in section 2 of the clerk's certificate, the applicable certificate of the county agricultural conservation committee in 1942 C.C.C. Cotton Form A must be completed. The certificate of the county agricultural conservation committee must be completed on any 1942 C.C.C. Cotton Form A tendered to Commodity Credit Corporation for a direct loan pursuant to § 232.11 hereof.

§ 232.7 Approved warehouses. Warehouse receipts representing eligible cotton will be accepted as security for loans made pursuant to 1942 C.C.C. Cotton Form A only if issued by warehousemen approved by Commodity Credit Corporation. Warehousemen desiring to be approved should communicate with the regional office of the Commodity Credit Corporation, New Orleans, La. When warehouses are approved, notification will be given either by letter or published lists. All cotton pledged as security for any one loan must be in the same warehouse.

The warehouseman as to vest title in the holders or issued to bearer will be acceptable. They must set out in their written or printed terms a description by tag number and weight of the bale represented thereby and all other facts and statements required to be stated in the written or printed terms of a warehouse receipt under the provisions of section 2 of the Uniform Warehouse Receipts Act. Warehouse receipts issued prior to August 1, 1942, which by their terms will expire prior to August 1, 1943, must bear an endorsement of the warehouse extending the terms of the warehouse receipt for a period of 1 year from August 1, 1942. Block warehouse receipts will not be accepted.

§ 232.8 Warehouse receipts. Only negotiable warehouse receipts issued by an approved warehouse dated on or prior to the date of the producer's note and properly assigned by an endorsement in

§ 232.9 Warehouse charges. The warehouseman's charges are limited and his obligation defined by the warehouseman's certificate and storage agreement contained in 1942 C.C.C. Cotton Form

A. This should be read carefully and must be executed by the warehouseman issuing the cotton warehouse receipts pledged as collateral to the producer's note.

§ 232.10—*Liens*. Eligible cotton must be free and clear of all liens except in favor of the warehouse in which the cotton is stored, as specified in the warehouseman's certificate and storage agreement in 1942 C.C.C. Cotton Form A. The names of the holders of all existing liens on cotton tendered as security for a loan, such as landlords, laborers, or mortgagees (but not warehousemen), must be listed in the space provided therefor in 1942 C.C.C. Cotton Form A, and the lienholders so listed must execute the lienholders' waiver in such form. If the borrower is a tenant or sharecropper, the landlord must sign the lien waiver whether or not he claims a lien, unless the producer's note is signed jointly by the landlord and the tenant or sharecropper. A misrepresentation as to prior liens, or otherwise, will render the producer personally liable under the terms of the loan agreement and subject him to criminal prosecution under the provisions of section 35 (A) of the Criminal Code of the United States (18 U.S.C. 80 (1940 ed.)). The lienholders' waiver in 1942 C.C.C. Cotton Form A must be signed personally by all lienholders listed or by their agents, or, if a corporation, by the designated officer thereof customarily authorized to execute such instruments, in which case the duly executed authority need not be attached. A 1942 C.C.C. Cotton Form A will not be acceptable unless all prior lienholders are listed therein and have executed the lienholders' waiver.

§ 232.11 *Direct loans*. It is contemplated that producers will ordinarily obtain loans from a local bank or other lending agency which, in turn, may sell the paper evidencing such loans to Commodity Credit Corporation. Arrangements, however, have been made for making direct loans to producers prior to May 1, 1943. In such cases, the note must be made payable to Commodity Credit Corporation and must be tendered to Commodity Credit Corporation, Masonic Temple Building, New Orleans, La., on a producer's letter of transmittal (1942 C.C.C. Cotton Form B) in duplicate, postmarked not later than April 30, 1943, if tendered by mail. Upon delivery of all necessary documents, properly executed, and upon approval, payment will be made in accordance with the directions of the producer contained in said 1942 C.C.C. Cotton Form B, which permits the producer, if he so desires, to designate persons other than himself to receive all or part of the proceeds of the loan.

Direct loans will be made on certificates of indemnity (Form FCI-274, issued by the Federal Crop Insurance Corporation). Instructions with reference to the requirements of Commodity Credit Corporation in making such loans will be issued by Commodity Credit Corporation as a supplement to these instructions and will be made available through the county agricultural conservation committees.

§ 232.12 *Time and manner of tendering loans for purchase and pooling*. Loans made by a lending agency which has executed and delivered a lending agency agreement (1942 C.C.C. Cotton Form D) to the Regional Office of Commodity Credit Corporation, New Orleans, La., prior to the making of the loan will be eligible for purchase or pooling by Commodity Credit Corporation. 1942 C.C.C. Forms D are obtainable only from the Regional Office of Commodity Credit Corporation, New Orleans, La. Under the terms of this agreement, lending agencies which are parties thereto are required to tender to Commodity Credit Corporation, Masonic Temple Building, New Orleans, La., on Lending Agency's Letter of Transmittal (1942 C.C.C. Cotton Form C), executed in triplicate, all notes on 1942 C.C.C. Cotton Form A, with collateral attached, representing loans made by the lending agency within 15 days of the dates of the notes. Forty notes shall be submitted on each Lending Agency's Letter of Transmittal, except when fewer notes are listed thereon in order that the loans may be tendered within 15 days of the dates of their execution. The Lending Agency's Letter of Transmittal shall state whether the lending agency desires the Corporation to purchase the notes or to place them in a pool operated by it. Upon receipt by Commodity Credit Corporation, the loan papers will be examined, and if found correct, will be approved and purchased, or will be transmitted to the Federal Reserve bank serving the district in which the cotton is stored and placed in a pool, as directed by the lending agency. In the event that the notes are pooled, a certificate of interest will be issued to any approved lending agency designated by the lending agency tendering the eligible paper representing the interest in the pool acquired as the result of the deposit therein of the notes shown on the letter of transmittal. All requests for the release of cotton pledged as security for notes on 1942 C.C.C. Cotton Form A will be handled by the Federal Reserve bank serving the district in which the loan originated.

§ 232.13 *Lending agency*. The lending agency shall endorse the notes of producers as provided in the note, 1942 C.C.C. Cotton Form A. Care should be exercised by the lending agency to determine that the warehouse receipts are genuine. No provision is made for any deduction from the loan proceeds by the lending agency as a charge for handling the loan documents except the authorized clerk's fee, in case the lending agency has executed the clerk's certificate.

§ 232.14 *Federal Reserve Banks*. The location of the Federal Reserve banks referred to herein and the district served by each are shown below:

Location of Federal Reserve Bank and District Served

Atlanta, Ga., Georgia, Florida, Virginia, North Carolina, South Carolina.
Birmingham, Ala., Alabama.
Dallas, Tex., Texas, New Mexico.

Oklahoma City, Okla., Oklahoma.

§ 232.15 *Repayments*. No partial releases of the cotton securing a note will be permitted. If a producer desires to obtain the return of the note and the release of the collateral, he should notify Commodity Credit Corporation, care of the Federal Reserve bank or branch thereof serving the district in which the cotton is stored, as stated in § 232.14 hereof. The notes and warehouse receipts will then be forwarded to an approved bank for release only to said producer upon payment of the amount of the loan, the accrued interest and proper charges. Do not send requests for the return of notes and the release of collateral to the Regional Office of Commodity Credit Corporation, New Orleans, Louisiana, as this causes delay in making the release. If the producer desires to sell his equity in the loan cotton, he must complete the Producer's Equity Transfer on his copy of 1942 Commodity Credit Corporation Cotton Form A. Upon the request of the producer or upon receipt of the request contained in the Producer's Equity Transfer on the producer's copy of 1942 Commodity Credit Corporation Cotton Form A, the note and warehouse receipts will be forwarded to any approved bank designated by the person requesting the release of the cotton with directions to release such note and warehouse receipts upon payment of the amount of the loan, the accrued interest, and proper charges. In all such cases, the bank will be instructed to return the notes and warehouse receipts to the Federal Reserve bank if payment is not effected within 15 days. All charges and expenses of the bank to which the notes and warehouse receipts are sent shall be paid by the person requesting the release of the cotton. In the event that release of the cotton is requested by the submission of the Producer's Equity Transfer, the witness to the producer's signature to such form must be a person approved for such purpose by a county agricultural conservation committee in the cotton-producing area.

[Supp. 1 to 1942 C.C.C. Cotton Form 1: Instructions]

PART 232—1942 COTTON LOANS

PURCHASE OR POOLING OF 1942 COTTON PRODUCERS' NOTES

Rules and procedure relating to the purchase or pooling by Commodity Credit Corporation of 1942 cotton producers' notes pursuant to a lending agency agreement.

Pursuant to the provisions of Title III, section 302 of the Agricultural Adjustment Act of 1938, as amended (52 Stat. 43; 7 U.S.C., 1940 ed., 1302), and the Act of May 26, 1941 (55 Stat. 203; 7 U.S.C., 1940 ed., Supp. I, 1330), as amended by the Act of December 26, 1941 (55 Stat. 860), Commodity Credit Corporation has authorized the making of loans upon the security of cotton in accordance with the regulations in this part (1942 C.C.C. Cotton Form 1—Instructions). Such regulations are supplemented as follows:

Section 232.12 *Time and manner of tendering loans for purchase and pooling*¹ is supplemented by adding at the end thereof the following new section:

§ 232.12a *Rules and procedure relating to the purchase or pooling by Commodity Credit Corporation of 1942 cotton producers' notes pursuant to a lending agency agreement.* (a) 1942 cotton producers' notes (1942 C.C.C. Cotton Form A) (hereinafter called "notes") will be eligible for purchase or for pooling only when tendered by the lending agency which is the payee of the notes tendered and which, prior to the making of the loans on such notes, has executed a lending agency agreement (1942 C.C.C. Cotton Form D) and delivered such agreement to the regional office of Commodity Credit Corporation, Masonic Temple Building, New Orleans, Louisiana.

(b) All notes, together with the warehouse receipts representing the cotton securing such notes, must be tendered to Commodity Credit Corporation, Regional Office, Masonic Temple Building, New Orleans, Louisiana, within 15 days after the respective dates of such notes. Notes must be tendered on 1942 C.C.C. Cotton Form C (lending agency's letter of transmittal), which shall state whether the lending agency desires Commodity Credit Corporation to purchase the notes or to place them in a pool. All of the notes tendered on any one 1942 C.C.C. Cotton Form C must be secured by cotton stored in the same Federal Reserve District. Four copies of the 1942 C.C.C. Cotton Form C must accompany the notes, and not more than 40 notes may be covered by any one transmittal letter.

(c) Notes, when properly tendered, will be examined by the New Orleans Office of the Commodity Credit Corporation. Notes not found to be acceptable will be returned. Notes returned will be accepted if retendered in acceptable form. One copy of 1942 C.C.C. Cotton Form C, on which any notes not accepted will be indicated, will be returned to the lending agency and will constitute a receipt for the accepted notes. Notes accepted by the New Orleans Office of Com-

modity Credit Corporation will be forwarded by it to the Federal Reserve Bank for the district in which the cotton is stored.

(d) If the notes accepted by the New Orleans Office of Commodity Credit Corporation and forwarded to the Federal Reserve Bank were tendered for purchase, the Federal Reserve Bank, acting for Commodity Credit Corporation, will make payment therefor. The purchase price will be the face amounts of the notes, plus accrued interest at the rate of 1½ percent per annum from the respective dates of the notes to the date of their purchase.

(e) If the notes accepted by the New Orleans Office of Commodity Credit Corporation and forwarded to the Federal Reserve Bank were tendered for pooling, the Federal Reserve Bank, acting for Commodity Credit Corporation, will issue to the lending agency named as payee in the notes, or to any other approved lending agency designated by the payee in the 1942 C.C.C. Cotton Form C on which the notes were tendered, a certificate of interest (1942 C.C.C. Cotton Form H) in a face amount equal to the face amounts of the notes deposited, evidencing the deposit of such notes in the pool pursuant to the lending agency agreement.

(f) A separate pool will be created for each Federal Reserve District in which pooled cotton is stored, and each of the notes tendered by all lending agencies for pooling and accepted by Commodity Credit Corporation will be placed in the pool for the district in which the cotton securing such note is stored. The Federal Reserve Bank for each district in which a pool is created will act as custodian of the pool in its district.

(g) The value of a certificate of interest, at any time, shall be its face amount less the total amount of payments made upon it. At the time of its issuance, a payment upon the certificate will be made to the holder in such amount as may be necessary to make the original value of the certificate an integral multiple of \$100. At the time of its issuance, there will also be paid to the holder interest upon the total face amounts of the notes with respect to which the certificate is issued at the rate of 1½ percent per annum from the respective dates of the notes to the date of the issuance of the certificate.

(h) A certificate of interest shall bear interest on the value thereof at the rate of 1½ percent per annum, payable at the time and in the manner provided in paragraph (i) hereof.

(i) The total amount on hand as of the close of business on the last day of each month which was obtained through the collection of the principal amounts of notes comprising the pool will be paid during the 10-day period following the end of the month (hereinafter called the "distribution period") upon certificates of interest outstanding as of the close of business on the last day of the month: *Provided*, That such payments will not be made if Commodity Credit Corporation determines that such action is impracticable because of the insufficiency of the total amount available for payments. Payments upon certificates will be made

upon the basis of the ratio of the value of each certificate to the value of all certificates upon which payments will be made: *Provided*, That the amount which would otherwise be paid upon any certificate may be increased or decreased so as to make such payment an integral multiple of \$100: *And, provided further*, That the amount of any such payment shall in no event exceed the value of the certificate. Interest will be paid on each such payment at the rate of 1½ percent per annum from the date of the certificate upon which the payment is paid to the date of such payment.

(j) A certificate of interest shall be retired when the total amount of payments made upon the certificate equals the face amount thereof.

(k) A certificate of interest may be purchased from the holder thereof, at any time, by Commodity Credit Corporation by paying the holder the value thereof, plus interest thereon at the rate of 1½ percent per annum from the date of the certificate to the date of purchase, and will be purchased by Commodity Credit Corporation at such amount upon demand by the holder thereof. Commodity Credit Corporation may also purchase notes from the pool at any time by paying the face amount of such notes, plus charges and interest.

(l) A certificate of interest may be transferred, subject to the following conditions: Transfers may be made only to a lending agency which has executed a lending agency agreement (1942 C.C.C. Cotton Form D). Only two transfers may be made. Transfers may be made only on 1942 C.C.C. Cotton Form I (assignment of certificate of interest) and will be effective only upon the receipt and acceptance of such form by Commodity Credit Corporation. A 1942 C.C.C. Cotton Form I (assignment of certificate of interest) received during a distribution period will not be effective until the end of such period and payments upon the certificate during such distribution period will be made to the transferor rather than the transferee.

(m) The Federal Reserve Bank by which a certificate of interest is issued will act as custodian of the certificate for the holder until such certificate is retired or purchased by Commodity Credit Corporation, and such bank will enter on the certificate all payments made thereon.

(n) If any amount remains in the pool after all certificates issued with respect to the pool have been retired, such amount shall revert to Commodity Credit Corporation.

(o) If, upon final liquidation of the pool, the proceeds thereof are not sufficient to retire all outstanding certificates, the Corporation will pay to the holders of such certificates the value thereof, plus interest thereon at the rate of 1½ percent from the respective dates of such certificates to the date of retirement.

Dated: August 10, 1942.

President.

Chapter IX—War Production Board
Subchapter B—Director General for Operations
PART 1198—GLASS CONTAINER AND CLOSURE SIMPLIFICATION

[Limitation Order L-103 as amended
September 12, 1942]

Section 1198.1 *Limitation Order L-103*¹ is hereby amended to read as follows:

§ 1198.1 *Limitation Order L-103—(a) Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust,

¹ 7 F.R. 3514.

corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Class container" means any glass bottle, jar, or tumbler which is intended for packing, packaging, or putting up products of any kind, but does not include any closure as defined in subparagraph (3) of this paragraph (b).

(3) "Closure" for a glass container means the sealing or covering device including, but not limited to, a crown or cap affixed or to be affixed to a glass container in order to retain the contents within the container.

(4) "Finish" of a glass container means the configuration of the neck or opening which serves to engage specific parts of the closure in order to affix it to the glass container.

(5) "Design" of a glass container means the particular shape, form, figure, size, capacity, or contour of the body of such container (other than the finish) which influences the use, desirability, advertising, or trade acceptance of the product contained.

(6) A "design in existence" shall mean and shall be limited to a design for which any mold (sample or otherwise) has been cast by any party and is actually in existence. The fact that a design is "in existence" for one size or capacity container shall not mean that it is "in existence" for containers of any other size or capacity, whether or not said other size or capacity containers shall have similar shapes, forms, figures, or contours.

(c) *Issuance of schedules of simplification of lines.* The Director General for Operations may from time to time issue schedules establishing simplified practices with respect to designs, weights, sizes, or types of glass containers and closures. When any such schedule describes a finish by reference either to an over-all measurement in millimeters or to the letters "G. C. A." followed by a numeral or numerals, such description shall mean a specification issued by the Glass Container Association of America and in effect on May 11, 1942. From and after the date of issuance of any such schedule no such containers or closures shall be produced, formed, stamped, drawn, blown, or molded except those that conform to the issued schedule, nor shall any such containers or closures be used contrary to the provisions of such schedule.

(1) Any specification (whether or not relating to a finish) indicated by such a schedule shall mean a specification issued by the Glass Container Association of America, and in effect on May 11, 1942, including the tolerances recognized by that Association in respect to such specification.

(d) *Exhibits.* Exhibits 1 to 28 attached to this order shall have no application except as they are established as standard glass containers by the provisions of any schedule issued pursuant to paragraph (c) hereof.

(e) *Freezing of all glass container designs to designs existing on May 11, 1942.* No person shall manufacture a glass container of a design not in existence on May 11, 1942, except upon one of the following conditions:

(1) When a schedule or exhibit thereof issued by the Director General for Operations or the Director of Industry Operations specifically authorizes the use of a design,

(2) When no suitable glass container exists for packing a product not previously packed in glass,

(3) When it is necessary to design a special glass container in order that it can be used on an existing filling and packing line previously used for containers made from other materials, or

(4) When a minor change in an existing permitted container design will result in a glass container that is lighter in weight in proportion to its capacity, or in a glass container that can be made faster or more efficiently, or of better quality, except that such change shall not be permitted unless the former design is then abandoned.

(5) Any new design permitted by subparagraphs (2), (3), or (4) of this paragraph (e) must be submitted to the War Production Board, Ref: L-103, for approval before adoption by a manufacturer of glass containers.

(6) In appropriate cases, permission to manufacture, by hand blowing, glass containers of a design not in existence on May 11, 1942, and not covered by any of the exceptions set forth in subparagraphs (1) through (5) of this paragraph (e), will be granted upon application for such permission by letter addressed to the War Production Board, Washington, D. C., Ref: L-103.

(f) *Allowance of normal operating tolerances.* Nothing in this order or any schedules which may be issued pursuant to paragraph (c) hereof shall (i) restrict any normal operating practices for improving mold for forming glass containers, when being prepared for use on a machine for forming glass containers, such as adjusting the weight, capacity, or other specification of the mold within the recognized tolerances for such glass containers issued by the Glass Container Association of America; (ii) prevent the normal interchange of finishes or similar parts which may be made optional on a particular body design by reason of a schedule issued pursuant to paragraph (c) above; (iii) prohibit the usual differences in a glass-container design when manufactured on glass-container machinery of different types; or (iv) prevent the alteration of weight to the extent made necessary through interchangeable finish designs when such interchange requires the use of a finish which, through its construction, normally requires a different weight of glass.

(g) *Exceptions.* (1) Nothing in this order shall prohibit the manufacture of a glass container of a design not in existence on or before May 11, 1942, provided that any variations from a design then in existence have been effected by alterations of molds in existence on or before May 11, 1942, and without the necessity for casting new molds, and provided further that such glass container shall not conflict with the specifications established by any schedule of this order.

(2) Whenever a schedule prohibits the replacement of existing molds, such prohibition shall extend to the body mold only and shall not be deemed to prohibit the use of new neck rings nor new blank molds or other equipment which are necessary for use with a body mold.

(3) Nothing in this order or any schedule hereof shall affect the manufacture, sale or delivery of glass containers or closures of any design intended to be shipped outside the forty-eight states of the United States of America and the District of Columbia, provided that said glass containers are made from molds in existence on or before May 11, 1942. On and after the 30th day of September, 1942, any container intended for such shipment, of a design otherwise prohibited hereby or by any schedule hereof shall be identified by means of three raised dots spaced not more than $\frac{1}{4}$ inch, center to center, in the form of an equilateral triangle placed on the bottom plate of the container.

(h) *Miscellaneous provisions—(1) Appeal.* Any person affected by this order who considers that compliance therewith or with any schedule issued pursuant thereto would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of glass conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the Office of the War Production Board, Ref: L-103, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(2) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to Office of War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Containers Branch, Washington, D. C. Ref: L-103. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. (ii) On and after January 1, 1943, only standard glass containers for distilled spirits may be produced.

(4) No provision of this schedule shall be construed to restrict the sale, delivery or use of glass containers which were completely manufactured on or before the 12th day of September 1942.

PART 3080—CHEMICAL FERTILIZERS

[Conservation Order M-231]

CHEMICAL NITROGEN

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of chemical nitrogen for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3080.1 *Conservation Order M-231—*

(a) *Definitions.* For the purposes of this order:

In expressing grades the percentage of nitrogen content is stated first, the percentage of available phosphoric acid is stated second, and the percentage of water-soluble potash is stated third. For example, 2-12-6 means a fertilizer containing 2 percent nitrogen, 12 percent phosphoric acid and 6 percent potash; 0-14-7 means a fertilizer containing no nitrogen, 14 percent phosphoric acid and 7 percent potash.

(3) "Superphosphate" means any plant food product which is obtained by mixing rock phosphate with either or both sulfuric acid and phosphoric acid.

(4) "Potash" means any compound of potassium containing, or capable of releasing in the soil, any water-soluble compound of potassium including, but not limited to, muriate of potash, sulfate of potash or manure salts.

(5) "Organic nitrogen" means nitrogen derived from any plant or animal organism containing nitrogen, including, but not limited to, animal, fish and other tankages, castor pumace, tobacco stems, cotton seed meal, peanut meal, soy bean meal, sewage sludge, cocoa shell meal, peat and humus.

(6) "Chemical nitrogen" means any nitrogen, other than organic nitrogen, including, but not limited to, ammonium sulfate, sodium nitrate, calcium cyanamid, urea and nitrogen-bearing solutions.

(7) "Fertilizer manufacturer" means any person who manufactures or mixes chemical fertilizer.

(8) "Dealer" means any person, other than a fertilizer manufacturer, who purchases or has purchased chemical fertilizer for resale.

(9) "Agent" means any person, other than a fertilizer manufacturer, who receives or has received chemical fertilizer on a consignment basis for resale.

(b) *Restrictions on use and delivery of fertilizer.* (1) On and after September 12, 1942, the effective date of this order, no fertilizer manufacturer, dealer or agent, shall, subject to the exemptions provided for in paragraph (c) hereof, deliver, and no person, including fertilizer manufacturers, dealers and agents, shall use on crops, in any of the states listed in Schedule A attached hereto, any grade of chemical fertilizer other than the grades designated on such schedule as applicable to the respective states listed thereon, and where a particular grade is designated on such schedule as available only for a particular crop, such grade shall be sold or used only for the production of such crop.

(2) In addition to the restrictions provided for in paragraph (b) (1) hereof, but subject to the exemptions provided for in paragraph (c) hereof, on and after September 12, 1942, the effective date of this order:

(i) No fertilizer manufacturer, dealer or agent shall deliver any chemical fer-

tizer containing chemical nitrogen for use in 1942 on grain sown in the fall of 1942 to be harvested for grain, and no person, including fertilizer manufacturers, dealers and agents, shall use any chemical fertilizer containing chemical nitrogen for such purpose.

(ii) No fertilizer manufacturer, dealer or agent shall deliver any chemical fertilizer containing chemical nitrogen for use on lawns, golf courses, parks, cemeteries, roadsides or noncommercial plantings of trees, shrubs or flowers, and no person, including fertilizer manufacturers, dealers and agents, shall use any chemical fertilizer containing chemical nitrogen for any of such purposes. The restriction provided for in this paragraph (b) (2) (ii) shall apply to the use by any landscape gardener or nurseryman of any chemical fertilizer containing chemical nitrogen, on trees, shrubs or flowers planted on the premises of his customers.

(iii) No fertilizer manufacturer, dealer or agent shall deliver any chemical fertilizer containing chemical nitrogen in packages of less than one hundred (100) pounds: *Provided, however,* That any fertilizer manufacturer, dealer or agent holding stocks of chemical fertilizer containing chemical nitrogen in bags of not less than eighty (80) pounds on the effective date of this order, or having stocks of fertilizer bags of not less than eighty (80) pounds capacity on the effective date of this order, shall have the right to deliver chemical fertilizer containing chemical nitrogen in packages of not less than eighty (80) pounds until such time as his existing stock of chemical fertilizer in bags of not less than eighty (80) pounds, and of fertilizer bags of not less than eighty (80) pounds capacity, is exhausted.

(iv) No fertilizer manufacturer, dealer or agent shall, prior to November 15, 1942, deliver any chemical fertilizer containing chemical nitrogen except for use during 1942.

(v) No fertilizer manufacturer shall deliver to any consumer any superphosphate which carries less than 18% available phosphoric acid except as specifically designated on Schedule A hereof.

(3) No person shall accept delivery of any chemical fertilizer which he knows or has reason to believe is made in violation of this order.

(c) *Exemptions.* (1) The restrictions provided for in paragraph (b) (1) hereof, shall not apply to:

PART 1306—IRON AND STEEL

[Amendment 7 to Revised Price Schedule 6¹]

IRON AND STEEL PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1306.10 (f) is amended to read as set forth below:

§ 1306.10 *Appendix A: Domestic and export ceiling prices for sales by producers of iron and steel products.* * * *

(f) (1) The maximum delivered prices for flat rolled iron or steel products which either have been rejected from the original order for which they were rolled or contain imperfections customarily distinguishing secondary or off-grade iron or steel products from products of prime quality, shall be as set forth hereinafter in this paragraph (f): *Provided,* That a product which has been rejected from the original order for which it was rolled may be applied at the full applicable prime price against a different prime order if such product fulfills in every respect the quality and other requirements in the original specifications for such different order, and if such product may be used by the purchaser without resorting to additional processing not usually performed in order to adapt the material to his requirements.

(i) "Seconds arising" shall not be sold at a price in excess of the applicable prices filed therefor in accordance with paragraph (b) of § 1306.5 of this Revised Price Schedule No. 6.

(ii) "Rejects" shall not be sold at a price in excess of the aggregate of 85%

¹ 7 F.R. 1215, 1836, 2132, 2153, 2997, 2299, 3115, 3941, 4780.

of the applicable basing point base price at the basing point nearest freightwise to the point of shipment plus 85% of such of the following extras established by this Revised Price Schedule No. 6 as may be applicable: (a) in the case of hot rolled sheets and cold rolled sheets, the standard extra for 32" x 96" sheet in the gauge specified, and, in the case of hot rolled pickled sheets, the pickling extra; (b) in the case of hot rolled strip, cold rolled strip .26 carbon and higher, commodity cold rolled strip and cold rolled spring steel, the standard extra for gauge and size and, in the case of hot rolled pickled strip, the pickling extra; (c) in the case of cold rolled strip under .26 carbon, the standard extra for gauge and size in cut lengths, for either hard or soft temper; (d) in the case of plates, the standard extra for thickness, for wide widths, for pickling or sand-blasting and for quality (provided such quality is actually furnished and was not the reason for the original rejection and is specified by the customer); and (e) in the case of galvanized sheets, galvanized sheets, long terne sheets, and all other products with separate gauge extra and size extras, the extra for gauge. "Rejects", for the purpose of this subparagraph are flat-rolled iron or steel products which are of a designated specific size and gauge and which contain minor imperfections such as minor surface defects, lack of flatness, camber, off or fluctuating gauge or temper, and similar imperfections, but which may be utilized without requiring unusual processing in order to remove or minimize injurious defects.

(iii) "Wasters" shall not be sold at a price in excess of the aggregate of 75% of the applicable basing point base price at the basing point nearest freightwise to the point of shipment plus 75% of such of the extras set forth in (ii) of this subparagraph as are applicable. "Wasters", for the purposes of this subparagraph, are flat-rolled iron or steel products which are of a designated specific gauge but are unassorted to size, and which are otherwise of the same quality as "rejects."

(iv) "Waste wasters" shall not be sold at a price in excess of the aggregate of 65% of the applicable basing point base price at the basing point nearest freightwise to the point of shipment plus 65% of such of the extras set forth in (ii) of this subparagraph as are applicable: *Provided*, That in computing the maximum unit price for any lot of "waste wasters" containing a range of gauges, the maximum price for the gauge within the range carrying the lowest gauge extra shall be the price used in determining the maximum price for the entire lot: *Provided further*, That the maximum prices for plates which are "waste wasters"

shall be those set forth in (iii) of this subparagraph. "Waste wasters", for the purposes of this subparagraph, are flat-rolled iron or steel products which are unassorted to both size and gauge and also include flat-rolled iron or steel products which, in addition to the imperfections listed in (ii) of this subparagraph, also contain imperfections appreciably limiting the utility of the product, such as blisters, laminations, perforations, dirty surfaces, bad edges, wrinkles, or other mars, and which require further processing by the purchaser, such as shearing, pickling, or scrubbing, in order to remove or minimize such injurious defects.

(v) The maximum prices which may be charged for tin plate "waste waste" shall be \$2.80 per hundred pounds, and for manufacturer's terne plate "waste waste" shall be \$2.25 per hundred pounds.

(vi) To the maximum prices established in (ii), (iii), (iv), and (v) above may be added the actual cost of transportation from the immediate point of shipment to the point of delivery.

(2) The maximum delivered prices for "semi-finished rejects" shall be not in excess of the aggregate of 85% of the applicable basing point base price at the basing point nearest freightwise to the point of shipment for an identical quantity of the iron and steel products of a rerolling grade plus such extra for cross-sectional area as may be applicable and plus the actual cost of transportation from the immediate point of shipment to the point of delivery. "Semi-finished rejects" for the purposes of this subparagraph, are partly finished iron or steel products, such as blooms, billets, tube rounds and slabs, which have been rejected because of poor surface condition, lack of internal soundness, or other defects which render the steel unsuitable for sale or use by the mill as a prime product.

(3) The maximum delivered price for any secondary or off-grade iron or steel product for which a maximum price is not established in subparagraphs (1) and (2) above shall be an amount not in excess of the maximum delivered prices established by this Revised Price Schedule No. 6 for an identical quantity of the same iron and steel of prime quality.

§ 1306.9a *Effective dates of amendments.* * * *

(g) Amendment No. 7 (§ 1306.10 (f)), as amended to Revised Price Schedule No. 6 shall become effective September 17, 1942.

If a substitute price is set, then such price shall be the maximum price.

PART 1375—EXPORT PRICES

[Amendment 1 to Revised Maximum Export Price Regulation¹]

MISCELLANEOUS AMENDMENTS

A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Paragraph (a) (2) of § 1375.1, paragraph (a) of § 1375.2, §§ 1375.4, and 1375.5 are amended, and a new § 1375.12 is added, all as set forth below:

§ 1375.1 *Maximum export price.* * * *

(a) * * *

(2) The maximum domestic price, at the point from which the commodity is to be shipped for export, which would be applicable to a sale of the commodity by the exporter to a domestic purchaser similar to the purchaser outside the continental United States, plus the additions thereto authorized by § 1375.2 (b) less the deductions provided by § 1375.3 (a). In the event that a maximum domestic price for such a sale of the commodity by the exporter is not determinable, a price in line with the maximum undelivered price which would be applicable to such a sale by the domestic jobber or wholesaler located nearest the point from which the commodity is to be shipped for export may be substituted as the basic price and the additions authorized by § 1375.2 (b) and the deductions provided by § 1375.3 (a) made thereto: *Provided*, That on an export sale of the goods defined in § 1375.5 (a), a premium not in excess of that specified therein may be added.

§ 1375.2 *Additions to cost or domestic price.* (a) An amount (stated either as a percentage or a flat amount, depending upon the customary practice in the trade) not in excess of the average premium charged in the export trade for the particular services or functions performed during either the period July 1-December 31, 1940, or March 1-April 15, 1942, whichever average premium is the lower, may be added by the exporter to his cost of acquisition, maximum domestic price or other basic price, as provided in § 1375.1 of this Maximum Export Price Regulation. In determining the applicable premium, due recognition shall be given to existing differentials in the export premiums charged by different types of exporters, differences in premium resulting from variations in the size or value of exports or from variations in the volume of business done by various exporters, as well as to differentials in premium between exports to the territories and possessions of the United States, Canada, and the various foreign nations: *Provided*, That no premium may be included in a maximum export price computed under § 1375.1 (a) (2) unless otherwise provided for therein, or under § 1375.1 (c): *Provided further*, That the applicable average export premium shall

¹ 7 F.R. 5059.

not be increased by reason of the fact that more than one exporter participates in the process of exportation.

§ 1375.4 *Promulgation of specific maximum export premiums.* The Office of Price Administration may, from time to time promulgate figures which shall reflect the average premium charged in the export trade for particular services or functions performed during either the period July 1–December 31, 1940 or March 1–April 15, 1942, whichever average premium is lower. Where the periods July 1–December 31, 1940 or March 1–April 15, 1942 are determined by the Price Administrator to be inappropriate base periods, or where the trade or industry finds great difficulty in discovering an appropriate premium in the base periods the Office of Price Administration may publish a specific export premium for the trade or industry. In case of such promulgation, and pursuant to and subject to the terms of the promulgation, the premium therein stated shall become the maximum premium to be charged in the export trade unless the alternative of the average export premium of the trade is specifically allowed by the Administrator. Such promulgation or promulgations, shall be in the form of amendments to this Maximum Export Price Regulation, and shall be inserted as subparagraphs of § 1375.5.

§ 1375.5 *Specific maximum export premiums—(a) Textiles.* The maximum export premium to be charged on an export sale of textiles, whether woven or knitted, containing 75 per cent or more by weight of cotton or artificial fiber or a mixture of cotton and artificial fiber, including but not limited to finished piece goods and grey goods regardless of width, and articles which are transformed from piece goods into finished articles simply by cutting and/or hemming and/or overedging (but not including wearing apparel), and yarn, thread, twine and rope of cotton or artificial fiber, shall be either:

(1) An amount as defined in § 1375.2 (a), which may be added to the basic price as defined in § 1375.1 (a) (1) or § 1375.1 (b); or

(2) An amount not in excess of 7 per cent of the domestic maximum price which is applicable to a sale by the exporter to a domestic purchaser similar to the purchaser located outside the Continental United States, which may be added to the basic price as defined in § 1375.1 (a) (2) or § 1375.1 (b).

§ 1375.12 *Effective date of amendments.* (a) Amendment No. 1 (§§ 1375.1 (a) (2), 1375.2 (a), 1375.4, 1375.5, 1375.12), shall become effective September 16, 1942.

PART 1384—HARDWOOD LUMBER PRODUCTS
(Maximum Price Regulation 217)

WALNUT GUNSTOCK BLANKS

In the judgment of the Price Administrator it is necessary and proper to establish in a separate regulation the maximum price for the sale of walnut gunstock blanks which, because of the special nature of the industry, cannot satisfactorily be priced on the basis of deliveries made in March 1942. The maximum prices established by this regulation are in the judgment of the Price Administrator generally fair and equitable of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with Procedural Regulation No. 1,¹ issued by the Office of Price Administration, Maximum Price Regulation No. 217 is hereby issued.

AUTHORITY: §§ 1384.101 to 1384.112, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1384.101 *Maximum prices for walnut gunstock blanks.* (a) On and after September 17, 1942, regardless of any contract or other obligation, no person shall sell or deliver any walnut gunstock blanks, and no person shall buy or receive in the course of trade or business any walnut gunstock blanks at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1384.112; and no person subject to this Maximum Price Regulation No. 217 shall agree, offer, solicit or attempt to do any of the foregoing.

(b) The provisions of this Maximum Price Regulation No. 217 shall not be applicable to sales or deliveries of walnut gunstock blanks to a purchaser, if prior to September 17, 1942, such blanks had been received by a carrier other than a carrier owned or controlled by the seller for shipment to such purchaser: *Provided*, That the maximum prices established in this Maximum Price Regulation No. 217 shall be applicable to walnut gunstock blanks delivered to the purchaser after May 11, 1942 on an open billing basis.

(c) The maximum prices established in this Maximum Price Regulation No. 217 shall not be increased by any charges for the extension of credit or by any decrease in the time customarily allowed for payment and shall be decreased for prompt payment to the same extent that the sale price would have been decreased on March 31, 1942.

§ 1384.102 *Less than maximum prices.* Lower prices than those established in this Maximum Price Regulation No. 217 may be charged, demanded, paid or offered.

§ 1384.103 *Adjustable pricing.* Nothing in this Maximum Price Regulation No. 217 shall be construed to prohibit the making of a contract to sell walnut gunstock blanks at a price not to exceed the maximum price at the time of delivery

*Copies may be obtained from the Office of Price Administration.

or supply. Where a petition for amendment or for adjustment or exception has been filed which requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1384.104 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 217 shall not be evaded, whether by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to walnut gunstock blanks, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

§ 1384.105 *Records and reports.* (a) Every seller and purchaser subject to this Maximum Price Regulation No. 217 making sales or deliveries or purchases of walnut gunstock blanks, after September 17, 1942, shall keep for inspection by the Office of Price Administration, for a period of not less than two years, a complete and accurate record of each such sale, delivery or purchase of walnut gunstock blanks, showing the date of purchase or sale, the name and address of the buyer and seller, the quantities and types purchased or sold, the date of delivery, and the price paid or received.

(b) Every manufacturer of walnut gunstock blanks who sells or delivers walnut blanks for wooden gun parts, other than stocks, shall file with the Lumber Branch of the Office of Price Administration, Washington, D. C., within 30 days of entering into the contract for sale of such parts, a report stating the specifications for such blanks, the quantity sold, and the price received.

(c) Such persons shall keep such other records in addition to or in place of the records required in paragraph (a) of this section and shall submit such reports to the Office of Price Administration as the Price Administrator may from time to time require or permit.

§ 1384.106 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 217 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942: *Provided*, That no War Procurement Agency, nor any contracting or paying finance officer thereof, shall be subject to any liability, civil or criminal, imposed by this Maximum Price Regulation No. 217 or the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 217 or any price schedule, regulation or order issued by the Office of Price Administration or any acts or practices which constitute such a violation are urged to communicate with the nearest District, State, or Regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1384.107 *Petition for amendment or adjustment.*—(a) *Government contracts or subcontracts.* Any person who has entered into or proposes to enter into a contract with the United States or any agency thereof, or with the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States", or any agency of any such Government, or a subcontract under any such contract, who believes that the maximum price impedes or threatens to impede production of walnut gunstock blanks which are essential to the war program and which are or will be the subject of such contract or subcontract, may file an application for adjustment of maximum prices established by this Maximum Price Regulation No. 217 in accordance with Procedural Regulation No. 6,² issued by the Office of Price Administration.

(b) *Special relief.* Any person seeking special relief for which no provision is made in the foregoing paragraph (a) of this section, from a maximum price established under this Maximum Price Regulation No. 217, may present the special circumstances of his case in an application for an order of adjustment. Such an application shall be filed in accordance with Procedural Regulation No. 1, issued by the Office of Price Administration, and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant, together with a statement of the reasons why he believes that the granting of relief in his case and in all like cases will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of this Maximum Price Regulation No. 217 to eliminate the danger of inflation.

(c) *General amendments and exceptions.* Persons seeking any general modification of this Maximum Price Regulation No. 217 or any exception not provided for therein may file petitions for amendment or exception in accordance with Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1384.108 *Definitions.* (a) When used in this Maximum Price Regulation No. 217, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing.

(2) "Walnut gunstock blanks" means gunstock blanks made of walnut lumber, either green, air dried or kiln dried, and conforming to the types listed in Appendix A, § 1384.112.

(3) "War procurement agency" includes the War Department, the Department of the Navy, the United States

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, shall apply to other terms used herein.

§ 1384.109 *Applicability of the General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 217 supersede the provisions of the General Maximum Price Regulation³ with respect to sales and deliveries of walnut gunstock blanks for which maximum prices are established by this Regulation.

§ 1384.110 *Export sales.* The maximum price at which a person may export walnut gunstock blanks shall be determined in accordance with the methods provided in the Maximum Export Regulation⁴ issued by the Office of Price Administration. An "export sale" is any sale between a seller in the continental United States and a purchaser outside thereof in which the commodity sold is transported from the continental United States to a point outside thereof and includes any sale of a commodity outside the continental United States, by an agent of the exporter or by a corporation owned or controlled by the exporter, within a period of two years after the date of shipment of the commodity from the continental United States.

PART 1388—DEFENSE RENTAL AREAS

[Amendment 1 to Maximum Rent Regulation 39]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES

The title, preamble and § 1388.5051 (a) of Maximum Rent Regulation No. 39² are hereby amended to read as follows:

Maximum Rent Regulation No. 39 for Housing Accommodations Other Than Hotels and Rooming Houses in the Richmond-Vallejo Defense-Rental Area

In the judgment of the Administrator, rents for housing accommodations within the San Francisco Bay Defense-Rental Area and other defense-rental areas and a portion of a defense-rental area set out in Maximum Rent Regulation Nos. 28 and 32A (§§ 1388.1801 to 1388.1814 and §§ 1388.2001 to 1388.2014, inclusive) were not reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in the designation and rent declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, within sixty days after the issuance of the said designation and rent declaration.

Accordingly, the Administrator issued Maximum Rent Regulations Nos. 28 and 32A for housing accommodations within each such defense-rental area and the said portion of a defense-rental area,

¹ 7 F.R. 3195, 3892, 4179, 5812, 6389.

² 7 F.R. 5813, 5912.

effective July 1, 1942. Since the issuance of these maximum rent regulations, the Administrator has found, and it is his judgment, that by April 1, 1941, defense activities already had resulted in increases in rents for housing accommodations within that portion of the San Francisco Bay Defense-Rental Area consisting of the three Counties of Contra Costa, Napa, and Solano, inconsistent with the purposes of the Emergency Price Control Act of 1942.

The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within the said three counties on or about January 1, 1941; and it is his judgment that the most recent date which does not reflect increases in rents for housing accommodations within the said three counties inconsistent with the purposes of the Act is on or about January 1, 1941. The Administrator is accordingly issuing an amendment to the said designation and rent declaration issued on April 28, 1942, to strike out the said three counties from the San Francisco Bay Defense-Rental Area and to designate the said three counties as the Richmond-Vallejo Defense-Rental Area. The Administrator is also issuing amendments to Maximum Rent Regulations Nos. 28 and 32A to strike out the said three counties from the description of the San Francisco Bay Defense-Rental Area set out in these maximum rent regulations. The Administrator is issuing this maximum rent regulation for housing accommodations within the said Richmond-Vallejo Defense-Rental Area in the place of the maximum rent regulation effective for such housing accommodations since July 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this maximum rent regulation for housing accommodations within the said Richmond-Vallejo Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this maximum rent regulation is hereby issued.

§ 1388.5051 *Scope of regulation.* (a) This Maximum Rent Regulation No. 39 applies to all housing accommodations within the Richmond-Vallejo Defense-Rental Area, as designated in the designation and rent declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, as amended (consisting of the Counties of Contra Costa, Napa, and Solano, in the State of California), except as provided in paragraph (b) of this section.

§ 1388.5064a *Effective dates of amendments.* (a) Amendment No. 1 to Maxi-

PART 1388—DEFENSE-RENTAL AREAS

[Amendment 1 to Maximum Rent Regulation 40A]

HOTELS AND ROOMING HOUSES

The title, preamble and § 1388.6001 (a) of Maximum Rent Regulation No. 40A¹ are hereby amended to read as follows:

Maximum Rent Regulation No. 40A For Hotels and Rooming Houses in the Richmond - Vallejo Defense - Rental Area

In the judgment of the Administrator, rents for housing accommodations within the San Francisco Bay Defense-Rental Area and other defense-rental areas and a portion of a defense-rental area set out in Maximum Rent Regulations Nos. 28 and 32A (§§ 1388.1801 to 1388.1814 and §§ 1388.2001 to 1388.2014 inclusive) were not reduced and stabilized by state or local regulation, or otherwise, in accordance with the recommendations set forth in the designation and rent declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, within sixty days after the issuance of the said designation and rent declaration.

Accordingly, the Administrator issued Maximum Rent Regulations Nos. 28 and 32A for housing accommodations within each such defense-rental area and the said portion of a defense-rental area, effective July 1, 1942. Since the issuance of these maximum rent regulations, the Administrator has found, and it is his judgment, that by April 1, 1941, defense activities already had resulted in increases in rents for housing accommodations within that portion of the San Francisco Bay Defense-Rental Area consisting of the three Counties of Contra Costa, Napa, and Solano, inconsistent with the purposes of the Emergency Price Control Act of 1942.

The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within the said three counties on or about January 1, 1941; and it is his judgment that the most recent date which does not reflect increases in rents for housing accommodations within the said three counties inconsistent with the purposes of the Act is on or about January 1, 1941. The Administrator is accordingly issuing an amendment to the said designation and rent declaration issued on April 28, 1942, to strike out the said three counties from the San Francisco Bay Defense-Rental Area and to designate the said three counties as the

¹ 7 F.R. 5817, 5912.

Richmond-Vallejo Defense-Rental Area. The Administrator is also issuing amendments to Maximum Rent Regulations Nos. 28 and 32A to strike out the said three counties from the description of the San Francisco Bay Defense-Rental Area set out in these maximum rent regulations. The Administrator is issuing this maximum rent regulation for housing accommodations within the said Richmond-Vallejo Defense-Rental Area in the place of the maximum rent regulation effective for such housing accommodations since July 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this maximum rent regulation for rooms in hotels and rooming houses within the said Richmond-Vallejo Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this maximum rent regulation is hereby issued.

§ 1388.6001 *Scope of regulation.* (a) This Maximum Rent Regulation No. 40A applies to all rooms in hotels and rooming houses within the Richmond-Vallejo Defense-Rental Area, as designated in the designation and rent declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, as amended (consisting of the Counties of Contra Costa, Napa, and Solano, in the State of California), except as provided in paragraph (b) of this section.

§ 1388.6014a *Effective dates of amendments.* (a) Amendment No. 1 to Maximum Rent Regulation No. 40A shall become effective September 11th, 1942.

Paragraph (b) of § 1372.52 is amended; the title of § 1372.53 (a) is amended; paragraph (b) of § 1372.56 is revoked; § 1372.59 is amended; in § 1372.61 (a), subparagraphs (1) and (12) are amended and new subparagraphs (22) and (23) are added; all as set forth below:

§ 1372.52 (a) * * *

(1) *Sales by persons selling only at retail.* * * *

(2) *Sales by wholesalers and manufacturers other than those selling only at retail.* (i) The seller of a commodity being priced herein shall add to the maximum price, charged to dealers, established for him by the General Maximum Price Regulation or any other Maximum Price Regulation hereafter issued, the difference between the price most frequently charged by him to ultimate consumers of the same class during the calendar month in the twelve month period ending March 31, 1942 in which he delivered the largest amount of such commodity to ultimate consumers, and the price most frequently charged by him to dealers during the same calendar month for the same commodity.

(ii) If the seller made no deliveries of the commodity being priced during such twelve month period he shall determine such difference for the commodity most nearly like the commodity being priced, and proceed to determine his maximum price therefor as above provided.

¹ 7 F.R. 3720, 5665.

(3) *Month of largest deliveries.* In the event that a seller cannot determine which was his month of largest deliveries for the particular commodity being priced during the twelve month period ending March 31, 1942, he may then use the month of largest deliveries of agricultural insecticides and fungicides as a whole, and may use such month as his month of largest deliveries in calculating his maximum price under this Regulation.

(b) Where the seller concerned cannot establish his maximum price under paragraph (a) of this section, the seller's established maximum price for the commodity being priced shall be the same as the maximum price of his most closely competitive seller, for the same commodity and class of purchaser, or in the absence thereof, such competitor's established maximum price to purchasers of the same class for a similar commodity.

§ 1372.53 * * *

(a) *Sales by persons selling only at retail other than manufacturers.* * * *

§ 1372.59 *Established maximum prices.* A maximum price established under the terms of Maximum Price Regulation No. 144 or of this amendment shall remain the maximum price unless changed by operation of this amendment, regulation, order, or further amendment. Changes in the maximum price to dealers or wholesalers for the commodity sold shall correspondingly change the manufacturer's maximum price at retail, the replacement cost and the dealer's or wholesaler's maximum price at retail, as the case may be, but such change in the dealer's or wholesaler's maximum price shall only be applicable to the commodity purchased by the dealer or wholesaler, as the case may be, at changed replacement cost, unless such regulation, order, or further amendment shall provide otherwise.

§ 1372.61 *Definitions and explanations.* (a) This regulation, and the terms appearing therein, unless the context otherwise requires, shall be construed as follows: * * *

(1) "Agricultural insecticides and fungicides" are defined to be all dusts, spray materials, fumigants, poison baits, and like commodities used for the purpose of controlling insects on or in relation to all plants, trees, seeds, bulbs, crops, poultry, and farm animals; all such commodities used for the purpose of controlling fungous diseases of all plants, trees, seeds, bulbs, and crops; and nutritional sprays. All attractants, spreading and wetting agents, adhesives and diluents and commodities of like character are defined to be "agricultural insecticides and fungicides" except those which are also generally sold at retail for other purposes. Nothing in this regulation shall apply to household insecticides prices for which are established by Maximum Price Regulation No. 142;¹⁷ Seasonal Commodities, as amended.

(12) "Replacement cost" means the maximum price under the General Maximum Price Regulation, and any regulation hereafter issued by the Office of Price Administration, charged, or which may be charged to a dealer for the commodity sold and delivered at such dealer's place of business. A separate replacement cost shall be calculated for each quantity, size of package, and for each brand or each commodity sold. A maximum selling price may not be established by calculating replacement cost in terms of quantities of purchase smaller than normal quantities of purchase and shall be calculated in the customary manner of doing business, with regular allowances, discounts, or other price differentials. Increases in transportation cost subsequent to May 11, 1942, shall not be deemed to increase the replacement cost as herein defined.

(22) "Wholesaler" for the purpose of this regulation, means a person other than a manufacturer who sells all or a part of the commodity being priced to a dealer.

(23) "Dealer" is a person other than a manufacturer or a wholesaler who sells at retail the commodity being priced.

No.	When to be done	Item	Maintenance operations
(*) 6	Initial.....	Engine.....	(a) Drain engine oil and refill crank case with at least 1/4 charge of rust-inhibiting oil. (b) Run engine for 5 minutes at idle speed or about 1,000 R. P. M. Leave this oil in engine.
(*) 7	Initial.....	Fuel System and Carburetor.	(a) Drain gasoline tank completely and replace filler cap to exclude dust. (b) Run engine until all gasoline is consumed.
(*) 8	Initial.....	Spark Plugs.....	Remove spark plugs. Inject 2 ounces of rust-inhibiting oil into each cylinder when piston is on the power stroke. Slowly turn engine over a few revolutions with starter. Replace spark plugs.
(*) 9	Initial.....	Valve Compartment (Overhead Valve engines).	Remove cover. Spray rust-preventive compound or S. A. E. 10-W on mechanism and inside cover, or pack with oil soaked rags. Replace cover.
(*) 10	Initial.....	Seal Engine.....	Seal the engine. This can be done in the following manner: Remove engine oil filler tube cover and crank case breather cover, if there is one, and seal the openings. Also seal the air cleaner, tail pipe, and any other openings into the engine. Tubes or pipes can be sealed satisfactorily by covering with a small piece of oil or waxed paper, gathering the edges of the paper around the tube and tying them with a cord. The air cleaner can be sealed conveniently by covering with a paper bag and tying a cord around it at the solid part on the engine side of the air intake openings. Sealing the engine to a large extent prevents air moisture from entering the engine. NOTE: Since no provision has been made for turning the engine over at regular intervals, it is absolutely essential that the recommended procedure for conserving the engine be followed carefully.
(*) 11	Initial.....	Battery Removal.....	(a) Remove the battery and store it in a cool place near recharging equipment, to facilitate servicing. Clean battery connections and wipe with light grease. (b) If dealer has portable battery charging equipment, he may elect to leave battery in car. In either case battery must be maintained as per Item 12 below.
(*) 12	Initial and as specified under "Maintenance Operations."	Battery Maintenance.....	(a) Check the specific gravity at regular intervals of six weeks, except in extremely hot weather when inspection periods should be cut to three weeks. (b) Check and correct water level at each inspection and recharge batteries as necessary to bring gravity reading to 1.280 or above. In no case should the specific gravity be allowed to fall below 1.220. These specific gravity readings are given for batteries at 60° F. air temperature.
(*) 13	Initial.....	Cooling System.....	Completely drain cooling system including radiator, cylinder block, pump, heater, hose and all water connections. Leave system drain. NOTE: If coolant contains antifreeze and rust-inhibiting solution, it may be left in the cooling system.
(*) 14	Initial.....	Brakes.....	Leave all brakes in released position.
(*) 15	Initial.....	Clutch.....	Block the pedal of dry clutches in partially disengaged position. It is not necessary to disengage other type clutches.
(*) 16	Initial and as specified under "Maintenance Operations."	Tires.....	Jack up vehicle in storage location taking weight off the tires. Maintain the air in tires between 1/2 and 3/4 operating pressure so that vehicles can be pushed or towed out quickly if necessary in an emergency. Tension in cords will be relieved by lowered pressure.
(*) 17	Initial and, if necessary, every six months where applicable.	Hood Latches, Hinges, Brake Connections.	Lubricate with light oil all hood latches, hinges, and brake connections.
(*) 18	Initial where applicable.	Doors and Windows.....	(a) Close all doors and windows tightly. (b) Close all vent-panels. (c) Leave cowl ventilator open (if screened).

NOTE: Materials called for in the performance of these Maintenance Operations such as oils, wax and rust-inhibitor, should be of a grade recommended by the vehicle manufacturer.

The Office of Price Administration, by Order No. 42 (§ 1499.342) effective August 1942, pursuant to section 18 (b) of the General Maximum Price Regulation, has permitted [insert applicant's name] to raise its maximum price for sales to you of [insert name of product] subject to all discounts, allowances and trade practices in effect during March 1942 with respect to sales of [insert name of product] by it.

The permission contained in Order No. 42 (§ 1499.342) was granted by the Office of Price Administration upon the basis of a showing that the maximum prices for sales of [insert name of product] established by the General Maximum Price Regulation are such that no hardship would be imposed upon retailers generally if they were required to pay the price as set forth above.

Order No. 42 (§ 1499.342) does not permit you or any other retailer to raise maximum prices, as established under the General Maximum Price Regulation, for sales of these commodities. However, if you are in a position different from that of retailers generally, so that the price charged you by us pursuant to such order imposes a substantial hardship upon you, and if your maximum prices for sales of these commodities are abnormally low in relation to the maximum prices established for sales of such commodities by other competitive sellers at retail, you may communicate with the nearest District, State, Field, or Regional Office of the Office of Price Administration setting forth the facts of your situation.

(d) All prayers of the applicants not granted herein are denied.

(e) This Order No. 42 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 42 (§ 1499.342) is hereby incorporated as a section of Supplementary Regulation No. 14, which contains modifications of maximum prices established by § 1499.2.

(g) This Order No. 42 (§ 1499.342) shall become effective September 18, 1942. (Public Law No. 421, 77th Cong.)

Chapter I—Interstate Commerce Commission

Subchapter A—General Rules and Regulations

[Service Order No. 85]

PART 95—CAR SERVICE

LENGTH OF TRAINS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 11th day of September, A. D. 1942.

The Commission having under consideration operating rules, regulations, and State laws limiting the length of railroad freight and passenger trains, the Commission is of the opinion that, due to the existing state of war, an emergency exists requiring immediate action within the meaning of section 1, paragraphs (10) to (17), inclusive, of the Interstate Commerce Act.

It appearing that certain rules, regulations practices, and laws are now in effect and are being enforced in certain states limiting the length of railroad freight trains to not more than one-half mile and limiting the number of freight cars in a railroad freight train to 70 cars, and limiting the number of cars in a railroad passenger train to 14 or 16, and that compliance by railroads subject to the Interstate Commerce Act with such rules, regulations, practices, and laws, during the present emergency, may result in congestion of tracks and terminals, wasteful use of locomotives, and interference with the free flow of traffic necessary in the present emergency; and that railroad freight trains exceeding one-half mile in length, or exceeding 70 cars in length, and railroad passenger trains exceeding 14 or 16 cars in length may be operated in accordance with safety standards now applicable, during the present emergency, in and through such states, and that such operation will facilitate the free flow of traffic necessary during the present emergency;

Therefore, it is ordered, That:

AUTHORITY: §§ 95.1 and 95.2, issued under 40 Stat. 101, 41 Stat. 476, 49 Stat. 548, 54 Stat. 901; 49 U.S.C. 1 (10)-(17).

§ 95.1 *Length of trains.* From and after September 15, 1942, carriers by railroad subject to the Interstate Commerce

Act shall operate their trains, when necessary for the prompt movement of freight and the clearing or avoidance of congestion by either freight or passenger trains, without regard to any rules, regulations, practices, or laws now in effect and being enforced in the various states limiting the length of freight trains to not more than one-half mile and limiting the number of cars in a railroad freight train to 70 cars, or limiting the number of cars in a railroad passenger train to 14 or 16.

§ 95.2 *Effective period; emergency character.* This order shall remain in effect during the war in which the United States is now engaged, unless sooner terminated by subsequent order of the Commission; and that this order, being based upon conditions of war emergency, shall not constitute a precedent for peace-time operations.

It is further ordered, That this order shall be served upon each common carrier by railroad subject to the Interstate Commerce Act and upon each State railroad commission, and that notice of this order be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register, The National Archives.

TREASURY TAX SAVINGS NOTES

TAX SERIES A-1945

SEPTEMBER 12, 1942.

I. OFFERING OF NOTES

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, offers for sale, to the people of the United States, at par and accrued interest, an issue of nontransferable notes of the United States, designated Treasury Notes of Tax Series A-1945, which notes, as herein-after provided, will be receivable, at par and accrued interest, in payment of Federal income, estate, and gift taxes.

2. The notes will be placed on sale September 14, 1942, and the sale will continue until terminated by the Secretary of the Treasury.

3. The sale of Treasury Notes of Tax Series A-1944, pursuant to Treasury Department Circular No. 674,¹ dated December 15, 1941, will terminate at the close of business on September 12, 1942.

4. Any holder of a Treasury note, Tax Series A-1944, purchased and bearing a date of issue in September 1942, may surrender such note on or before October 31, 1942, to the agency which issued the note and receive in exchange therefor a Treasury note, Tax Series A-1945, of like face amount inscribed in the same name and bearing the same date of issue, together with a refund of the accrued interest included in the price paid for the surrendered note.

II. DESCRIPTION OF NOTES

1. *General.* The notes will be dated September 1, 1942; they will mature September 1, 1945, and may not be called by the Secretary of the Treasury for redemption before maturity. Subject to the limitations and conditions set forth in section IV of this circular, the notes will be receivable, at par and accrued interest, in payment of Federal income, estate, and gift taxes. If the notes are not presented in payment of taxes, they will be payable at maturity, or, at the owner's option and request, they will be

¹ 6 F.R. 6715.

redeemable before maturity, as provided in section V of this circular, but in either case payment will be made only at the price paid for the notes.

2. *Form inscription, dating.* The owner's name and address will be entered on each note at the time of its issue by an authorized issuing agent, and the date of issue will be shown by an imprint of the agent's dating stamp. The month in which payment is received and credited by a Federal Reserve Bank or Branch, or by the Treasurer of the United States, will determine the purchase price and issue date of each note. The notes may not be transferred, except, that if notes are held by a corporation owning more than 50 percent of the stock, with voting power, of another corporation, such notes may be transferred to the subsidiary upon request of the corporation and surrender of the notes to the agent that issued them. No hypothecation of the notes on any account will be recognized by the Treasury Department and they will not be accepted to secure deposits of public money.

3. *Denominations and interest.* The notes will be issued in denominations of \$25, \$50, \$100, \$500, \$1,000, and \$5,000, and interest thereon will accrue from September 1942, in the amount of 16 cents each month on each \$100 principal amount of note. In no case, however, shall interest accrue beyond the month in which the note is presented in payment of taxes, or beyond its maturity. Exchanges of authorized denominations from higher to lower, but not from lower to higher, may be arranged at the office of the agent that issued the note.

4. *Purchase price and tax-payment value.* A table is appended to this circular showing the principal amount with accrued interest added, for notes of each denomination, for each month from September 1942 to September 1945, inclusive. The total shown for any denomination for any month while the notes remain on sale, is the purchase price, or cost, of the note during that month. Also, the total shown for any denomination for any month is the tax-payment value of the note if receivable during that month in payment of taxes, subject to the provisions of Section IV of this circular.

5. *Taxation.* Income derived from the note shall be subject to all Federal taxes, now or hereafter imposed. The notes shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

III. PURCHASE OF NOTES

1. *Applications and payment.* Applications will be received by the Federal Reserve Banks and Branches, and by the Treasurer of the United States, Washington, D. C. Banking institutions and security dealers generally may submit applications for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized

to act as official agencies. Every application must be accompanied by payment in full, at par and accrued interest from September 1942 to the month in which payment in immediately available funds is received by a Federal Reserve Bank or Branch, or the Treasurer of the United States. Any form of exchange, including personal checks, will be accepted subject to collection, and should be drawn to the order of the Federal Reserve Bank or of the Treasurer of the United States, as payee, as the case may be; War Savings Stamps will be accepted at their face value in lieu of cash. The date funds are made available on collection of exchange will govern the issue price and issue date of the notes. Any depository, qualified pursuant to the provisions of Treasury Department Circular No. 92 (revised February 23, 1932, as supplemented) will be permitted to make payment by credit for notes applied for on behalf of itself or its customers up to any amount for which it shall be qualified in excess of existing deposits.

2. *Reservations.* The Secretary of the Treasury reserves the right to reject any application in whole or in part, and to refuse to issue or permit to be issued hereunder any notes in any case or in any class or classes of cases if he deems such action to be in the public interest, and his action in any such respect shall be final. If an application is rejected, in whole or in part, any payment received therefor will be refunded. The Secretary of the Treasury, in his discretion, may designate agencies other than those herein provided for the sale of, or for the handling of applications for, Treasury notes to be issued hereunder.

3. *Delivery of notes.* Upon acceptance of full-paid applications, notes will be duly issued and, unless delivered in person, will be delivered within the continental United States, the territories and insular possessions of the United States, and the Canal Zone. No deliveries elsewhere will be made.

4. *Form of application.* In applying for notes under this circular, care should be exercised to specify that notes of Tax Series A-1945 are desired, and there must be furnished the name and address of the individual, corporation, or other entity in which the notes are to be issued; and if address for the delivery of the notes is different, appropriate instructions should be given. The name should be in the same form as that used in the Federal tax return of the purchaser, except that in the case of joint tax returns of individuals, the notes should be inscribed individually—the notes will not be issued in the names of two or more persons jointly. The application should be accompanied by remittance to cover the purchase price—that is, par—together with accrued interest from September 1942 to the month in which the application will be received and the remittance collected by an authorized issuing agent. The use of an official application form is desirable, but not necessary. Appropriate forms may be obtained on application to any Federal Reserve Bank or Branch, or the Treasurer of the United States, Washington,

D. C.; banking institutions and security dealers generally will be supplied with forms for the use of their customers.

IV. PRESENTATION IN PAYMENT OF TAXES

1. During and after the second calendar month after the month of purchase (as shown by the issuing agent's dating stamp on each note), during such time, and under such rules and regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe, notes issued hereunder in the name of a taxpayer (individual, corporation, or other entity) may be presented and surrendered, to the extent hereinafter set forth, by such taxpayer, his agent, or his estate, to the Collector of Internal Revenue to whom the tax return is made, and will be receivable by the Collector at par and accrued interest from September 1942, to the month, inclusive (but no accrual beyond September 1945), in which presented in payment of any Federal income taxes (current and back personal and corporation taxes, and excess-profits taxes), or any Federal estate or gift taxes (current and back), assessed against the original purchaser or his estate. Notwithstanding the provisions of Department Circular No. 667, as amended, and of Department Circular No. 674, the Collector will accept (a) not more than \$5,000 principal amount of notes of Tax Series A-1945, or of Tax Series A-1943, or of Tax Series A-1944, or of any of them in combination, and (b) the amount of the accrued interest thereon, on account of any one taxpayer's liability for each class of taxes (income, estate or gift) for each taxable period: *Provided*, That this limitation shall apply separately to husband and wife on a joint return, and shall apply separately to an owner before death and to his estate for the balance of the same year. The notes must be forwarded to the Collector at the risk and expense of the owner, and, for the owner's protection, should be forwarded by registered mail, if not presented in person.

V. CASH REDEMPTION AT OR PRIOR TO MATURITY

1. *General.* Any Treasury Note of Tax Series A-1945, bearing a properly executed request for payment, will be redeemed for cash at the purchase price at or before maturity, without advance notice, following presentation to the agent that issued the note.

2. *Execution of request for payment.* The owner in whose name the note is inscribed must appear before one of the officers authorized by the Secretary of the Treasury to witness and certify requests for payment, establish his identity, and in the presence of such officer sign the request for payment appearing on the back of the note, adding the address to which check is to be mailed. After the request for payment has been so signed, the witnessing officers should complete and sign the certificate provided for his use.

3. *Officers authorized to witness and certify requests for payment.* All officers authorized to witness and certify re-

quests for payment of United States Savings Bonds, as set forth in Treasury Department Circular No. 530, Fifth Revision, are hereby authorized to witness and certify requests for cash redemption of Treasury notes issued under this circular. Such officers include, among others, United States postmasters, certain other post office officials, and the officers of all banks and trust companies incorporated in the United States or its organized territories, including officers at branches thereof.

4. *Presentation and surrender.* Notes bearing properly executed requests for payment must be presented and surrendered to the agent that issued the notes (as shown by the agent's dating stamp), at the expense and risk of the owner. For the owner's protection, notes should be forwarded by registered mail, if not presented in person.

5. *Disability or death.* In case of the disability or death of the owner, and the notes are not to be presented in payment of Federal income, estate or gift taxes due from him or from his estate, instructions should be obtained from the issuing agent before the request for payment is executed, or the notes presented.

6. *Partial redemption.* Partial cash redemption of notes corresponding to an authorized denomination, may be made in the same manner as for full cash redemption, appropriate changes being made in the request for payment. In case of partial redemption of a note, the remainder will be reissued in the same name and with the same date of issue as the note surrendered.

7. *Payment.* Payment of any note, either at maturity or on redemption before maturity, will be made only by the Federal Reserve Bank or Branch, or the Treasury Department, as the case may be, that issued the note, and will be made by check drawn to the order of the owner, and mailed to the address given in his request for payment. In any case, payment will be made at the purchase price of the note, that is, at par and accrued interest (if any) paid at the time of purchase.

VI. GENERAL PROVISIONS

1. Except as provided in this circular, the notes issued hereunder will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing bonds and notes of the United States.

2. Federal Reserve Banks and their Branches, as fiscal agents of the United States, are authorized to perform such services or acts as may be appropriate and necessary under the provisions of this circular, and under any instructions given by the Secretary of the Treasury.

3. The Secretary of the Treasury may at any time or from time to time supplement or amend the terms of this circular, or of any amendments or supplements thereto, and may at any time or from time to time prescribe amendatory rules and regulations governing the offering of the notes, information as to which will promptly be furnished to the Federal Reserve Banks.

TREASURY TAX SAVINGS NOTES TAX SERIES C

SEPTEMBER 12, 1942.

I. OFFERING OF NOTES

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, offers for sale, to the people of the United States, at par, an issue of notes of the United States, designated Treasury Notes of Tax Series C, which notes, as hereinafter provided, will be receivable, at par and accrued interest, in payment of Federal income, estate, and gift taxes.

2. The notes will be placed on sale September 14, 1942, and the sale will continue until terminated by the Secretary of the Treasury.

3. The sale of Treasury Notes of Tax Series B-1944, pursuant to Treasury Department Circular No. 674,¹ dated December 15, 1941, will terminate at the close of business on September 12, 1942.

4. Any holder of Treasury notes, Tax Series B-1944, purchased and bearing a date of issue in September 1942, may surrender such notes on or before September 30, 1942, to the agency which issued the notes and receive in exchange therefor Treasury notes, Tax Series C-1945, of like

face amount inscribed in the same name and issued as of the first day of September, 1942, together with a refund of the accrued interest included in the price paid for the surrendered notes: *Provided*, that where less than \$1,000 of such Series B-1944 notes are so held, they may be surrendered with the cash difference to be exchanged for a \$1,000 Series C-1945 note.

II. DESCRIPTION OF NOTES

1. *General.* The notes of Tax Series C will, in each instance, be dated as of the first day of the month in which payment, at par, is received and credited by an agent authorized to issue the notes. They will mature 3 years from such date, and may not be called by the Secretary of the Treasury for redemption before maturity. All notes issued during any one calendar year shall constitute a separate series indicated by the letter "C", followed by the year of maturity. Subject to the provisions of section IV of this circular, the notes will be receivable, at par and accrued interest, in payment of Federal income, estate, and gift taxes. If not presented in payment of taxes, the notes will be payable at maturity, or, at the owner's option and request, they will be redeemable before maturity, subject to the provisions of Section V of this circular.

¹ 6 F.R. 6715.

2. At the time of issue, the authorized issuing agent will inscribe on the face of each note the name and address of the owner, will enter the date as of which the note is issued, and will imprint his dating stamp (with current date). The notes will be issued in denominations of \$1,000, \$5,000, \$10,000, \$100,000, \$500,000 and \$1,000,000. Exchanges of authorized denominations from higher to lower, but not from lower to higher may be arranged at the office of the agent that issued the note.

3. The notes may not be transferred in ordinary course; they may be pledged as collateral for loans from banking institutions, but no other hypothecation will be recognized by the Treasury Department: *Provided*, If held by a corporation owning more than 50 percent of the stock, with voting power, of another corporation, the notes may be transferred to the subsidiary, upon request of the corporation and surrender of the notes to the agent that issued them: *And provided further*, If notes pledged as collateral for a loan are acquired because of the failure of a loan to be paid, the notes will be redeemed at par and accrued interest to the month in which acquired on surrender of the notes to the agent that issued them, accompanied by proof of the date of acquisition and by request of the pledgee under power of attorney given by the pledgor in whose name the notes are inscribed, and in any such cases the limitations on redemption before maturity provided in paragraph 1 (a) of section V of this circular shall not apply; the notes will not be transferred to the pledgee. The notes will not be acceptable to secure deposits of public money.

4. *Interest*. Interest on each \$1,000 principal amount of notes of Tax Series C will accrue each month from the month of issue, on a graduated scale, as follows:

	Each month
First to sixth months, inclusive.....	\$0.50
Seventh to twelfth months, inclusive80
Thirteenth to eighteenth months, inclusive90
Nineteenth to twenty-fourth months, inclusive	1.00
Twenty-fifth to thirty-sixth months, inclusive	1.10

5. The table appended to this circular shows for notes of each denomination, for each consecutive calendar month from month of issue to month of maturity, (a) the amount of interest accrual, (b) the principal amount of the note with accrued interest (cumulative) added, and (c) the approximate investment yields. In no case shall interest accrue beyond the month in which the note is presented in payment of taxes, or for redemption before maturity as provided in Section V of this circular, or beyond its maturity. Interest will be paid only with the principal amount.

6. *Taxation*. Income derived from the notes shall be subject to all Federal taxes, now or hereafter imposed. The notes shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on

the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

III. PURCHASE OF NOTES

1. *Applications and payment*. Applications will be received by the Federal Reserve Banks and Branches, and by the Treasurer of the United States, Washington, D. C. Banking institutions and security dealers generally may submit applications for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Every application must be accompanied by payment in full, at par. Any form of exchange, including personal checks, will be accepted subject to collection, and should be drawn to the order of the Federal Reserve Bank or of the Treasurer of the United States, as payee, as the case may be. The date funds are made available on collection of exchange will govern the issue date of the notes. Any depository qualified pursuant to the provisions of Treasury Department Circular No. 92 (revised February 23, 1932, as supplemented) will be permitted to make payment by credit for notes applied for on behalf of itself or its customers up to any amount for which it shall be qualified in excess of existing deposits.

2. *Reservations*. The Secretary of the Treasury reserves the right to reject any application in whole or in part, and to refuse to issue or permit to be issued hereunder any notes in any case or in any class or classes of cases if he deems such action to be in the public interest, and his action in any such respect shall be final. If an application is rejected, in whole or in part, any payment received therefor will be refunded. The Secretary of the Treasury, in his discretion, may designate agencies other than those herein provided for the sale of, or for the handling of applications for, Treasury notes to be issued hereunder.

3. *Delivery of notes*. Upon acceptance of full-paid applications, notes will be duly issued and, unless delivered in person, will be delivered within the Continental United States, the Territories and Insular Possessions of the United States, and the Canal Zone. No deliveries elsewhere will be made.

4. *Form of application*. In applying for notes under this circular, care should be exercised to specify that notes of Tax Series C are desired, and there must be furnished the name and address of the individual, corporation, or other entity in which the notes are to be issued; and if address for delivery of the notes is different, appropriate instructions should be given. The name should be in the same form as that used in the Federal tax return of the purchaser, except that in the case of joint tax returns of individuals, the notes should be inscribed individually—the notes will not be issued in the names of two or more persons jointly. The application should be accompanied by remittance to cover the purchase price—that is, par. The use of an official application form is desirable, but not necessary. Appropriate forms may be obtained on application to any Federal

Reserve Bank or Branch, or the Treasurer of the United States, Washington, D. C.; banking institutions and security dealers generally will be supplied with forms for the use of their customers.

IV. PRESENTATION IN PAYMENT OF TAXES

1. During and after the second calendar month after the month of purchase (as shown by the issue date on each note), during such time, and under such rules and regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe, notes issued hereunder in the name of a taxpayer (individual, corporation, or other entity) may be presented and surrendered by such taxpayer, his agent, or his estate, to the Collector of Internal Revenue to whom the tax return is made, and will be receivable by the Collector at par and accrued interest from the month of issue to the month, inclusive (but no accrual beyond maturity), in which presented, in payment of any Federal income taxes (current and back personal and corporation taxes, and excess-profits taxes), or any Federal estate or gift taxes (current and back), assessed against the original purchaser or his estate. The notes must be forwarded to the Collector at the risk and expense of the owner, and, for the owner's protection, should be forwarded by registered mail, if not presented in person.

V. CASH REDEMPTION AT OR PRIOR TO MATURITY

1. *General*. (a) Any Treasury note of Tax Series C not presented in payment of taxes, will be paid at maturity, or, at the option and request of the owner, will be redeemed before maturity, but the notes may be redeemed before maturity only during and after the sixth calendar month after the month of issue (as shown on the face of each note), on 30 days' advance notice. The timely surrender of a note, bearing a properly executed request for payment, will be accepted as constituting the advance notice required hereunder.

(b) Payment at maturity or on redemption before maturity will be made at par and accrued interest to the month of payment, except, if a note is inscribed in the name of a bank that accepts demand deposits, payment at maturity or on redemption before maturity will be made only at the issue price, or par, of the note. However, if a note is acquired by any such bank through forfeiture of a loan, payment will be made at the redemption value for the month in which so acquired.

2. *Execution of request for payment*. The owner in whose name the note is inscribed must appear before one of the officers authorized by the Secretary of the Treasury to witness and certify requests for payment, establish his identity, and in the presence of such officer sign the request for payment appearing on the back of the note, adding the address to which check is to be mailed. After the request for payment has been so signed, the witnessing officer should complete and sign the certificate provided for his use.

[P. & S. Docket No. 1510]

ESSEX COUNTY COOP COMPANY

ORDER EXTENDING PERIOD OF SUSPENSION AND AMENDING ORDER OF INQUIRY AND NOTICE OF HEARING

Seymour Berkowitz and Elsie Landskroner, co-partners, trading and doing business as the Essex County Coop Company, Respondents.

This proceeding is instituted pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 1940 ed. 181 et seq.), subsequently referred to as the act, and the following allegations are made:

1. Seymour Berkowitz and Elsie Landskroner, hereinafter called the respondents, are copartners, doing business under the firm name of Essex County Coop Company.

2. The city of Newark, New Jersey, was designated as a city, market, or place by order of the Acting Secretary of Agriculture, dated October 29, 1935, effective December 12, 1935. New York, New York, and Jersey City, New Jersey, were each designated as a city, market, or place by order of the Acting Secretary of Agriculture, dated October 8, 1935, and effective November 25, 1935.

3. On January 9, 1942, the respondents were duly licensed to furnish services and facilities in connection with the marketing of live poultry in interstate and foreign commerce in the cities of Newark and Jersey City, both in the State of New Jersey, and in the city of New York, State of New York.

4. Subsequent to January 9, 1942, the respondents engaged, and are engaging, in the business of furnishing services and facilities, as stated above, which are more particularly described as the "rental of poultry coops" within the areas of the three cities named herein.

5. In accordance with the requirements of the act, the respondents filed and put into effect a schedule of rates and charges for their services and facilities designated as Tariff No. 1, which was to become effective on December 30, 1941, but the effective date of which was changed to January 9, 1942.

6. On August 5, 1942, the respondents filed with the Secretary a schedule of rates and charges designated as amendment No. 1 to Tariff No. 1, effective August 15, 1942, the effect of which is to increase the rates for the rental of coops from 55 cents to 58½ cents in the cities designated as set forth above.

7. By order of August 13, 1942, the Assistant Secretary of Agriculture directed that the operation and use of the tariff designated as Amendment No. 1 to Tariff No. 1 be suspended and its use deferred until the expiration of 30 days beyond the time when such tariff would otherwise go into effect. This order of suspension was issued for the reason that the rates set forth in the proposed tariff were believed to be unjustified and un-

reasonable. It now appears that a hearing cannot be concluded within the period of suspension named.

8. On or about April 1, 1942, and subsequent thereto, the respondents demanded, charged, and collected for their services and facilities a greater and a different compensation than the rates and charges specified in their schedule on file on April 1, 1942, and in effect on and after that date.

9. The respondents have failed to keep such accounts, records, and memoranda as fully and correctly disclose all of the transactions involved in their business.

It is concluded that a proceeding under the act should be had for the purpose of determining the reasonableness and lawfulness of Tariff No. 1 and of Amendment No. 1 to Tariff No. 1, and of all rates and charges of the respondents and of any and all rules and regulations or practices affecting such rates and charges, and whether any licensee's service is being, or has been, rendered by the respondents without making a lawful charge therefor, and

It is therefore ordered, That Amendment No. 1 to Tariff No. 1 be, and the same is, hereby suspended and its use deferred for a further period of 30 days beyond and including September 14, 1942.

It is further ordered, That a hearing concerning the allegations made herein shall be held before an examiner at a time and place, of which the respondents will have at least 10 days' notice. At such hearing the respondents and all other interested persons will have the right and opportunity to present such evidence with respect to the matters and things herein alleged as may be relevant and material.

It is further ordered, That any and all interested persons who may wish to appear in person to present evidence relative to the issues in this proceeding shall give notice thereof by filing a statement to that effect with the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Washington, D. C., on or before September 25, 1942.

It is further ordered, That a copy hereof be served upon the respondents by registered mail.

It is further ordered, That this order shall be published in the FEDERAL REGISTER.

Done at Washington, D. C., this 10th day of September 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,
Assistant Secretary of Agriculture.
