sell, lease, trade, lend, deliver, ship, or transfer any new rubber tire, casing, or tube from such premises to a person possessing a certificate authorizing such purchase issued by the Office of Price Administration.

(e) *Acquisition of new rubber tires, casings, tubes by persons in the categories enumerated in List A attached hereto.* Any person who believes that the vehicle for which he wishes to acquire new rubber tires, casings, or tubes is included in one of the categories enumerated in List A attached hereto may apply to the Office of Price Administration for a certificate permitting him to purchase, lease, trade, borrow, or accept delivery, shipment or transfer of new rubber tires, casings, or tubes. Such permission may be granted by the Office of Price Administration upon a showing by the applicant of the following facts:

(1) That the vehicle on which the new rubber tire, casing, or tube is to be mounted is included in one of the categories enumerated in List A, and thus constitutes an "eligible" vehicle.

(2) That the vehicle on which the new rubber tire, casing, or tube is to be mounted cannot be replaced by a vehicle owned or operated by or subject to the control of the applicant, which is equipped with serviceable tires and tubes and which is not fully employed for a use specified in one or more of the categories enumerated in List A.

(3) That the new rubber tire, casing, or tube is to be installed at once on a wheel or rim, to replace a tire, casing, or tube no longer serviceable.

(4) That the tire, casing, or tube, when added to all other tires, casings, and tubes in the applicant's possession whether unmounted or mounted on a vehicle, and when that total is applied only to eligible vehicles, does not add up to more than one spare tire, casing, or tube of a given size for each eligible vehicle.

(5) That the existing tire, casing, or tube cannot be recapped, retreaded or repaired for safe use at speeds at which the applicant may reasonably be expected to operate, or that such recapping, retreading or repairing cannot be obtained without inordinate delay.

(6) That the applicant agrees to trade in replaced tires, casings, and tubes on new tires, casings, and tubes purchased under this Order, or to dispose of replaced tires, casings, and tubes as may otherwise be directed by the Office of Price Administration.

(7) That, if the applicant desires authority to purchase a passenger car type new tire of over four-ply construction, the vehicle upon which the new tire is to be mounted cannot be satisfactorily operated in the use to which it is to be put with a tire of four-ply construction.

Upon being satisfied that all of these facts exist, the Office of Price Administration may issue to the applicant a certificate stating the number, size, construction and type of new rubber tires, casings, and tubes which the applicant is authorized to acquire. Such certificate shall be recognized by any person having new rubber tires, casings, or tubes

for sale, and no sale, lease, trade, loan, delivery, shipment or transfer of new rubber tires, casings, or tubes (except as provided in paragraphs (c), (g), and (h) of this section) shall be made except on the basis of such certificate.

(f) Acquisition of "obsolete" type new rubber tires, casings, and tubes. Any person wishing to acquire "obsolete" type new rubber tires, casings, or tubes may apply to the Office of Price Administration for permission to purchase, lease, trade, borrow, or accept delivery, shipment or transfer of such "obsolete" type new rubber tires, casings, or tubes. Such permission may be granted by the Office of Price Administration upon a showing by the applicant of items (3) and (6) of paragraph (e) hereof. Upon being satisfied that all of the facts required by items (3) and (6) exist, the Office of Price Administration may issue to the applicant a certificate stating the number and types of "obsolete" type new rubber tires, casings, and tubes which the applicant is authorized to acquire. Such certificate shall be recognized by any person having "obsolete" type new rubber tires, casings, or tubes for sale, and no sale, lease, trade, loan, delivery, shipment, or transfer of "obsolete" type new rubber tires, casings, or tubes (except as provided in paragraphs (c), (g), and (h) of this section) shall be made except on the basis of such a certificate.

As here used the word "obsolete" refers to passenger car type tires, casings, and tubes of the following sizes, and no others:

[Docket No. A-36, Part III]

PETITION OF DISTRICT BOARD NO. 11 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE DITNEY HILL MINE (MINE INDEX NO. 115) OF THE INGLE COAL CO.

ORDER EXTENDING TEMPORARY RELIEF

This proceeding was instituted upon a petition, as amended, filed with the Bituminous Coal Division on October 11, 1940, by District Board 11, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The Board in its petition requested the establishment of price classifications and minimum prices for the coals of the Ditney Hill Mine (Mine Index No. 115) of the Ingle Coal Co., a code member in District 11.

In accordance with this prayer for relief and in absence of opposition thereto, the Director, in an Order dated October 28, 1940, granted temporary relief as requested for the coals of the Ditney Hill Mine.

Pursuant to orders of the Director and after notice to all interested persons, hearings in this matter were held on January 29, 1941, July 2, 1941, and September 18, 1941, before duly designated Examiners of the Division. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. District Board 11 appeared. The preparation and filing of a report by the Examiner was waived.

On October 17, 1941, the Director issued Findings of Fact and Conclusions of Law and rendered an Opinion in this matter and entered an Order in accordance therewith. The Director found that the coals of the Ditney Hill Mine should be given the same permanent price classifications as the coals of the mines in Price Group 10 and Freight Origin Group No. 71 of the Schedule of Effective Minimum Prices for District No. 11 for All Shipments Except Truck, except that the prices in Size Groups Nos. 1, 2, and 3 should be increased 15 cents per ton. However, in view of the facts that the raw screenings produced at the Ditney Hill Mine appeared to be of an inferior quality, that dedusting equipment had been installed on August 22, 1941, in an effort to enhance their marketability, and that the ability of this equipment to improve the quality of the screenings was still unknown, the Director found that, as a temporary measure, minimum prices for dry dedusted screenings in Size Groups Nos. 26 and 27 should be established for a period of 90 days from the date of the Order at prices 10 cents per ton less than the established minimum prices for the same sizes of coal produced at other mines producing Standard Fifth Vein coals. The Director stated that the purpose of this was to afford District Board 11 an opportunity to study the effect of the use of the dry dedusted screenings produced at the Ditney Hill Mine and determine whether it cares to propose new prices for those coals.

On December 29, 1941, District Board 11 filed a Motion for Extension of Temporary Relief. The motion alleged that although the Engineer for District Board 11 had visited the Ditney Hill Mine on December 9, 1941, to make arrangements to secure samples of the dry dedusted screenings for analyses, he had found that no satisfactory method of preparing the dry dedusted screenings had yet been obtained and that certain changes in the method employed were necessary. The District Board further alleges that other changes, including the rearrangement of screens and installation of others, are being made; that the dry dedusted screenings currently being prepared at the Ditney Hill Mine are not representative of the product that will be produced under the normal operating efficiency of the dry dedusting equipment. District Board 11 accordingly requests that the temporary relief granted in the order of October 17, 1941, be extended for a period of 60 days.

It appears to the undersigned that a reasonable showing of necessity has been made for the 60-day extension of the temporary relief prayed for. No opposition to the requested relief has been made and it appears that the granting of such relief will not prejudice other persons pending final disposition of the matter of the proper price classification for the coals in Size Groups 26 and 27.

Now, therefore, it is ordered, That the Order granting relief entered herein on October 17, 1941, be and it hereby is amended by striking therefrom the words "provided, however, that the prices established for Size Groups Nos. 26 and 27 shall be reduced 10 cents per ton for a period of not more than ninety days from the date of this order" and substituting in lieu thereof the following: "provided, however, that the prices established for Size Groups Nos. 26 and 27 shall be reduced 10 cents per ton for a period of not more than 150 days from the date of this order."

It is further ordered, That Supplement R, annexed to and made part of the Order dated October 17, 1941, be and it hereby is amended by striking therefrom the words, "Size Groups 26 and 27 shall be reduced ten cents per ton for a period of ninety days only commencing with the effective date of this Order" and by substituting in lieu thereof the following: "Size Groups 26 and 27 shall be reduced ten cents per ton for a period of 150 days only commencing with the effective date of this Order."

Jurisdiction is hereby retained to enter any further order with respect to said coals during or subsequent to said 150 day period beginning October 17, 1941.

Dated: January 14, 1942.

PETITION OF DISTRICT BOARD NO. 19, FOR REVISION OF THE PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS PRODUCED AT MINE INDEX NOS. 7 AND 203, FOR SHIPMENT BY TRUCK, IN DISTRICT NO. 19

MEMORANDUM OPINION AND ORDER GRANTING TEMPORARY RELIEF AND NOTICE OF AND ORDER FOR HEARING

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, has been duly filed with this Division by the above-named party. The petitioner requests revision, both temporary and permanent, of the price classifications and minimum prices for the coals, for shipment by truck, produced at the Elkol Mine (Mine Index No. 7) of the Kemmerer Coal Company and at the Twin Creeks Mine (Mine Index No. 203) of Mike Mecca, both mines being located in Subdistrict Price Group No. 1 of District No. 19.

Although it appears that an adequate showing of necessity has been made for the granting of the temporary relief requested, as hereinafter set forth, it does not appear that the petitioner has set forth sufficient facts to warrant the granting of permanent relief in this connection without a hearing.

Now, therefore, it is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act, and the rules of the Division be in the forenoon of that day at a hearing room of the Bituminous Coal Division, Plains Hotel, Cheyenne, Wyoming.

It is further ordered, That D. C. McCurtain, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Acting Director proposed findings of fact and conclusions of law and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding

may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before January 23, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 19 for revision of the effective price classifications and minimum prices, for shipment by truck, for the coals produced at Mine Index No. 7 of Kemmerer Coal Company, and Mine Index No. 203 of Mike Mecca, located in Subdistrict Price Group No. 1 in District No. 19, by reducing those prices as follows:

	Size groups																
	1	2	3	4	5	6	7	8	9	10	11	12	15	16	17		
From: Prices.....	400	400	365	370	370	370	310	275	225	225	210	275	185	185	125		
To: Prices.....	325	325	325	310	310	310	275	235	185	185	185	175	175	175	100		

It is further ordered, That, pending final disposition of this matter, temporary relief is granted, making effective forthwith the reductions in the price classifications and minimum prices outlined in the immediately preceding paragraph and, to that extent, amending the Schedule of Effective Minimum Prices for District No. 19 for All Shipments.

Notice is hereby given that all applications to stay, terminate or modify the temporary relief granted herein, may be filed pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: January 15, 1942.

NOTICE OF HEARING WITH RESPECT TO A PROPOSAL TO AMEND THE TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND ORDER NO. 32, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE FORT WAYNE, INDIANA, MARKETING AREA

Notice is hereby given of a hearing to be held in the St. Paul Auditorium, Barr and Madison Streets, Fort Wayne, Indiana, beginning at 9:30 a. m., c. s. t., January 23, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and Order No. 32, as amended, regulating the handling of milk in the Fort Wayne, Indiana, marketing area.

This notice is given pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 et seq.), and in accordance with the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture (Code of Federal Regulations, Title 7, Chapter IX, Part 900, Section 900.4).

This public hearing is for the purpose of receiving evidence with respect to the

following amendments proposed by the Fort Wayne Local Milk Committee and by the Dairy Division, Surplus Marketing Administration, United States Department of Agriculture:

A

Amendments proposed by the Fort Wayne Local Milk Committee:

1. Delete § 932.1 (a) (6) and substitute therefor the following:

(6) The term "delivery period" means the current marketing period from the first to and including the fifteenth day of each month, and the sixteenth day to and including the last day of each month.

2. Delete that part of § 932.4 (a) (3) prior to the proviso and substitute therefor the following:

(3) *Class III milk.* Except as set forth in subparagraph (4) of this paragraph, the price per hundredweight for Class III milk shall be the price resulting from the following computation by the market administrator: determine the average of the prices per hundredweight ascertained to have been paid for milk of 4 percent butterfat content received during the half-month pay period preceding the delivery period at the following plants, and subtract 3 cents:

Concern:	Location of plant
Defiance Milk Products Company.	Defiance, Ohio.
Van Camp Milk Company.	Garret, Indiana.
Van Camp Milk Company.	Angola, Indiana.
Kraft Cheese Company.	Kendallville, Indiana.

3. Delete § 932.8 (a)

4. Delete that part of § 932.8 (b) prior to subparagraph (1) and substitute therefor the following:

On or before the 15th day after the end of each delivery period each handler shall make payment, subject to the butterfat differential set forth in paragraph (d) of this section, for the total value of milk received from producers during such delivery period, computed according to § 932.7 (a), as follows:

5. Renumber paragraphs (b), (c), and (d) of § 932.8 as paragraphs (a), (b), and (c) of such section.

B

Amendments proposed by the Dairy Division:

1. Add as § 932.3 (d) and (e) the following:

(d) Computation of milk in each class. For each delivery period each handler shall compute, in the manner and on forms prescribed by the market administrator, the amount of milk in each class, as defined in paragraph (b) of this section, as follows:

(1) Determine the total pounds of milk (a) received from producers; (b) produced by him, if any; (c) received from other handlers, if any; (d) received from other sources, if any; (e) add together the resulting amounts.

(2) Determine the total pounds of butterfat received as follows: (a) multiply the weight of the milk received from producers by its average butterfat test; (b) multiply the weight of the milk produced by him, if any, by its average butterfat test; (c) multiply the weight of the milk received from other handlers, if any, by its average butterfat test; (d) multiply the weight of the milk received from other sources, if any, by its average butterfat test; and (e) add together the resulting amounts.

(3) Determine the total pounds of milk in Class I as follows: (a) convert to quarts the quantity of milk disposed of in the form of milk and multiply by 2.15; (b) multiply the result by the average butterfat test of such milk; and (c) if the quantity of butterfat so computed when added to the pounds of butterfat in Class II milk and Class III milk, computed pursuant to subparagraphs (4) (b) and (5) (b) of this paragraph, is less than the total pounds of butterfat received, computed in accordance with subparagraph (2) of this paragraph, an amount equal to the difference shall be divided by 4.0 percent and added to the quantity of milk determined pursuant to (a) of this subparagraph.

(4) Determine the total pounds of milk in Class II as follows: (a) multiply the actual weight of each of the several products of Class II milk by its average butterfat test, (b) add together the resulting amounts, and (c) divide the result obtained in (b) of this subparagraph by 4.0 percent.

(5) Determine the total pounds of milk in Class III as follows: (a) multiply the actual weight of each of the several products of Class III milk by its average butterfat test; (b) add together the resulting amounts; (c) subtract the total pounds of butterfat in Class I milk and Class II milk, computed pursuant to subparagraphs (3) (b) and (4) (b) of this paragraph, and the total pounds of butterfat computed pursuant to (b) of this subparagraph, from the total pounds of butterfat computed pursuant to subparagraph (2) of this paragraph, which resulting quantity shall be allowed as plant shrinkage for the purpose of this paragraph (but in no event shall such plant shrinkage allowance exceed 3 percent of the total receipts of butterfat from producers by the handler) and shall be added to the result obtained in (b) of this subparagraph; and (d) divide the result obtained in (c) of this subparagraph by 4.0 percent.

(6) Determine the classification of milk received from producers as follows:

(i) Subtract from the total pounds of milk in each class the total pounds of milk which were received from other handlers and used in such class.

(ii) Subtract from the total pounds of milk in each class the total pounds of milk which were received from sources other than producers and handlers and used in such class.

(iii) Subtract pro rata out of the remaining milk in each class the quantity of milk received from the handler's own farm.

(e) In the event of a difference between the total quantity of milk utilized

in several classes as computed pursuant to paragraph (d) of this section and the quantity of milk received from producers, such difference shall be reconciled as follows:

(1) If the total utilization of milk in the various classes for any handler, as computed pursuant to paragraph (d) of this section, is less than the receipts of milk from producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to paragraph (d) of this section, is greater than the receipts of milk from producers, the market administrator shall decrease the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

2. Reconsider § 932.4 in its entirety in view of classification of milk amendment proposed above.

3. Delete subparagraphs (1), (2), (3), (4), (5), (6), and (7) of § 932.7 (a).

4. Add to § 932.7 (a) the following:

Multiply the hundredweight of milk in each class, computed pursuant to § 932.3 (e), by the respective class price, and add together the resulting amounts: *Provided*, That if the hundredweight of milk computed pursuant to § 932.3 (d) is less than the hundredweight of milk received from producers, multiply such difference by the Class III price and include such amount in the value of milk for such handler: *And provided further*, That if the hundredweight of milk computed pursuant to § 932.3 (d) is greater than the hundredweight of milk received from producers, multiply such difference by the Class III price, and deduct such amount from the value of milk for such handler.

5. Delete subparagraphs (2) and (3) of § 932.7 (b).

6. Renumber subparagraphs (4), (5), (6), and (7) of § 932.7 (b) as subparagraphs (2), (3), (4), and (5) of such paragraph.

Additional copies of this notice of hearing and copies of Order No. 32, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Room 0312, South Building, Washington, D. C., or may be there inspected.

It is further ordered, That Richard Townsend, or any other officer or officers of the Commission designated by it for that purpose shall preside at the consolidated hearing in such matters. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice; and

(2) Whether the payment by Public Service for the assets of Hoosier will affect the financial integrity and working capital of Public Service.

(3) Whether or not the terms and conditions of such sale of securities with respect to the consideration to be received, the maintenance of competitive conditions, fees and considerations, accounts, disclosure of interest, and similar matters are detrimental to the public interest or the interest of investors and consumers.
