Pages 23009-23304

Wednesday

May 4, 2005

The **FEDERAL REGISTER** (ISSN 0097-6326) is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 is the exclusive distributor of the official edition. Periodicals postage is paid at Washington, DC.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see [www.archives.gov](http://www.archives.gov).

The seal of the National Archives and Records Administration authenticates the **Federal Register** as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge as one of the databases on GPO Access, a service of the U.S. Government Printing Office.

The online edition of the **Federal Register** [www.gpoaccess.gov/nara](http://www.gpoaccess.gov/nara), available through GPO Access, is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6 a.m. each day the **Federal Register** is published and includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward.

For more information about GPO Access, contact the GPO Access User Support Team, call toll free 1-888-293-6498; DC area 202-512-1530; fax at 202-512-1262; or via e-mail at [gpoaccess@gpo.gov](mailto:gpoaccess@gpo.gov). The Support Team is available between 7:00 a.m. and 9:00 p.m. Eastern Time, Monday-Friday, except official holidays.

The annual subscription price for the **Federal Register** paper edition is \$749 plus postage, or \$808, plus postage, for a combined **Federal Register**, **Federal Register** Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register** Index and LSA is \$165, plus postage. Six month subscriptions are available for one-half the annual rate. The prevailing postal rates will be applied to orders according to the delivery method requested. The price of a single copy of the daily **Federal Register**, including postage, is based on the number of pages: \$11 for an issue containing less than 200 pages; \$22 for an issue containing 200 to 400 pages; and \$33 for an issue containing more than 400 pages. Single issues of the microfiche edition may be purchased for \$3 per copy, including postage. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard, American Express, or Discover. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954; or call toll free 1-866-512-1800, DC area 202-512-1800; or go to the U.S. Government Online Bookstore site, see [bookstore.gpo.gov](http://bookstore.gpo.gov).

There are no restrictions on the republication of material appearing in the **Federal Register**.

**How To Cite This Publication:** Use the volume number and the page number. Example: 70 FR 12345.

**Postmaster:** Send address changes to the Superintendent of Documents, Federal Register, U.S. Government Printing Office, Washington DC 20402, along with the entire mailing label from the last issue received.

## SUBSCRIPTIONS AND COPIES

### PUBLIC

**Subscriptions:**  
 Paper or fiche 202-512-1800  
 Assistance with public subscriptions 202-512-1806

**General online information** 202-512-1530; 1-888-293-6498

**Single copies/back copies:**  
 Paper or fiche 202-512-1800  
 Assistance with public single copies 1-866-512-1800  
 (Toll-Free)

### FEDERAL AGENCIES

**Subscriptions:**  
 Paper or fiche 202-741-6005  
 Assistance with Federal agency subscriptions 202-741-6005

## FEDERAL REGISTER WORKSHOP

### THE FEDERAL REGISTER: WHAT IT IS AND HOW TO USE IT

**FOR:** Any person who uses the Federal Register and Code of Federal Regulations.

**WHO:** Sponsored by the Office of the Federal Register.

**WHAT:** Free public briefings (approximately 3 hours) to present:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

**WHY:** To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

**WHEN:** Tuesday, May 17, 2005  
 9:00 a.m.-Noon

**WHERE:** Office of the Federal Register  
 Conference Room, Suite 700  
 800 North Capitol Street, NW.  
 Washington, DC 20002

**RESERVATIONS:** (202) 741-6008

# Rules and Regulations

Federal Register

Vol. 70, No. 85

Wednesday, May 4, 2005

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

## DEPARTMENT OF AGRICULTURE

### Animal and Plant Health Inspection Service

#### 7 CFR Part 340

[Docket No. 03-038-2]

RIN 0579-AB89

#### Introductions of Plants Genetically Engineered To Produce Industrial Compounds

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Affirmation of interim rule as final rule.

**SUMMARY:** We are adopting as a final rule, without change, an interim rule that amended our regulations regarding genetically engineered organisms to require that introductions of plants genetically engineered to encode compounds for industrial use be conducted only under permit. Prior to the interim rule, such introductions could be accomplished under notification, an expedited permitting procedure. The interim rule was necessary to strengthen our regulations for introductions of this small subgroup of genetically engineered plants until such time as the issues related to these plants are fully considered in conjunction with subsequent regulatory revision.

**DATES:** The interim rule became effective on August 6, 2003.

**FOR FURTHER INFORMATION CONTACT:** Dr. John Turner, Director, Policy Division, BRS, APHIS, 4700 River Road Unit 146, Riverdale, MD 20737-1238; (301) 734-8365.

#### SUPPLEMENTARY INFORMATION:

##### Background

The regulations in 7 CFR part 340, "Introduction of Organisms and Products Altered or Produced Through

Genetic Engineering Which are Plant Pests or Which There is Reason to Believe are Plant Pests" (referred to below as the regulations), govern the introduction (importation, interstate movement, or release into the environment) of any organism or product altered or produced through genetic engineering that is a plant pest or that there is reason to believe is a plant pest, or any product which contains such an organism that is unclassified and/or whose classification is unknown. The regulations refer to such organisms as "regulated articles."

With certain limited exceptions, the introduction of any regulated article is prohibited unless that introduction is authorized by a permit or, for specific classes of regulated articles, the Administrator of the Animal and Plant Health Inspection Service (APHIS) has been notified of the introduction in accordance with § 340.3 of the regulations, which provides for the use, under certain circumstances, of an expedited permitting procedure called notification.

The notification option was added to the regulations in 1993 (58 FR 17044-53043, Docket No. 92-156-02) in order to expedite introductions for certain types of low risk plants with which APHIS had considerable regulatory experience. Under the notification procedure, the regulated article to be introduced must be a plant, and the types of genetic modifications to the plant must meet the eligibility criteria described in § 340.3(b). Development of those criteria was based upon the types of genetic modifications that APHIS had reviewed and evaluated many times over the preceding years of issuing permits.

At the time the regulations were amended to provide for the use of notification, the types of genetically engineered plants that had industrial uses were typically those in which nutritional components, such as oil content, were being engineered. Since APHIS had significant regulatory experience with the types of traits then being introduced into these plants, industrial plants were eligible for the notification option. In contrast, the notification regulations in § 340.3(b)(4)(iii) prohibited the use of notification for introductions of plants genetically engineered to encode compounds for pharmaceutical use,

thus continuing to require a permit for such introductions, because of our lack of regulatory experience and scientific familiarity with these types of introduced traits.

In 2003, we noted that a number of more recent introductions of plants engineered to produce compounds intended for industrial use had been for traits different than what we were seeing in 1993. Those more recent introductions were for non-food, non-feed traits with which APHIS has little regulatory experience or scientific familiarity. Based on the expansion of the technology and the new non-food, non-feed uses of industrial plants being developed, we believed it to be prudent and necessary to remove the notification option for all industrials pending the completion of our ongoing review of part 340.

Therefore, in an interim rule effective and published in the *Federal Register* on August 6, 2003 (68 FR 46434-46436, Docket No. 03-038-1), we amended the regulations to require that introductions of plants genetically engineered to encode compounds for industrial use be conducted only under permit. For purposes of the interim rule, plants engineered to produce industrial compounds include those plants that meet the following three criteria: (1) The plants are engineered to produce compounds that are new to the plant; (2) the new compound has not been commonly used in food or feed; and (3) the new compound is being expressed for non-food, non-feed industrial uses. Industrial uses include, but are not limited to, detergent manufacturing, paper production, and mineral recovery.

Comments on the interim rule were required to be received on or before October 6, 2003. We received 12 comments by that date. The comments were from companies and organizations involved in biotechnology, an organic certification service, a university biologist, a private citizen, an association of crop production and protection companies, and associations representing food producers, processors, and manufacturers. One of the commenters voiced opposition to genetically modified plants generally, but offered no specific comments relating to the interim rule. The remaining commenters expressed their support for the interim rule, although several made specific suggestions or

raised related issues. Those comments are discussed below.

Several commenters raised issues related to the potential for plants engineered to produce industrial compounds to contaminate or adulterate food crops. Some commenters urged APHIS to require that the introduction of such crops be conducted under conditions of 100 percent containment (e.g., in secure greenhouses) or geographic isolation to ensure that adulteration does not occur. Other commenters stated that APHIS should not allow food crops to be genetically modified to produce industrial compounds in order to eliminate the potential for the spread of transgenic pollen to sexually compatible non-modified plants. One of these commenters further suggested that if food crops are to be used to produce industrial compounds, self-pollinating crops should be used to the maximum extent possible.

APHIS wishes to reiterate that the purpose of the interim rule was to ensure that introductions of plants engineered to produce industrial compounds will be conducted under permit rather than under notification. Although there are administrative differences between these procedures, the goal of each is to ensure that plants are confined during movement and field testing and do not persist in the environment, and both are designed to achieve high levels of safety. In addition, use of any regulated article originating from a field test as food or feed would be subject to the regulatory authority of the Food and Drug Administration (FDA). Failure to meet any of the requirements associated with APHIS permits and notifications can lead to substantial fines, as provided in the Plant Protection Act.

One commenter agreed with the three criteria set out in the interim rule to describe plants engineered to produce industrial compounds, but suggested that food or feed plants genetically engineered to produce dietary supplements that are acceptable only in dietary supplements should also be considered industrial plants and thus ineligible for introduction using the notification option.

Plants, whether genetically engineered or not, yield a variety of compounds that are used to produce dietary supplements. If a food or feed plant naturally produces a compound used in dietary supplements, and that plant has been genetically engineered to produce more of that compound, then that plant would not be considered an industrial plant (and thus would be eligible for introduction using

notification) because the first of the three criteria is that "the plants are engineered to produce compounds that are new to the plant." However, if the compound is new to the plant, has not been commonly used in food or feed, and is being expressed for non-food, non-feed industrial uses, then the plant would be considered an industrial plant under our criteria and thus eligible for introduction only under permit.

Again with respect to the three criteria, one commenter suggested that APHIS may wish to clarify those criteria regarding the circumstances under which a permit will and will not be required for field testing and to provide examples of both to assist the public and those developing industrial proteins in better understanding those circumstances.

APHIS may, when needed, provide additional written guidance illustrating the criteria that define whether a field test qualifies for the notification procedure or if it must be conducted under permit. The agency has provided such written guidance since the implementation of the regulations in part 340 in 1987, offering additional examples that would not necessarily be appropriate for inclusion in the regulations themselves and updating or clarifying that guidance as necessary. When the notification option was added to the regulations in 1993, APHIS published a user's guide to notifications. Copies of our user's guides are available in print form and may be viewed on the Agency Web site at <http://www.aphis.usda.gov/brs>.

One commenter stated that, while it may be currently necessary to require that introductions of industrial plants be conducted only under permit, over time APHIS should gain sufficient familiarity with certain industrial compounds to allow plants producing such compounds to be grown under notification procedures. The commenter urged APHIS to adopt this approach as it considers amending its regulations in 7 CFR part 340.

APHIS continually evaluates its regulations in the light of increased experience and familiarity with scientific, technical, and administrative considerations. In this or any other situation, the accumulation of experience or the availability of additional information may lead us to initiate rulemaking to update the regulations.

Another commenter, also with an eye toward future amendments to the regulations, suggested that APHIS provide for enhanced oversight for industrial plants in the areas of confinement controls, site security, and

compliance verification and the use of third-party auditors, standard-setting organizations, and standard operating procedures as a quality control mechanism.

APHIS agrees that it is appropriate to take the considerations identified by the commenter into account as we continue to review our existing regulations in part 340 and develop potential amendments to those regulations.

#### Continuing Effect of Amendment

The preamble of the interim rule stated that our amendment to the regulations in part 340 to remove the notification options for plants genetically engineered to encode compounds for industrial use would be in effect until December 31, 2004. At the time we made that statement, and as we explained in the interim rule, it was our intent to remove the notification option for all industrials pending the completion of our ongoing review of part 340. That review, which is not yet complete, is being conducted as part of our consideration of possible amendments to the regulations to, among other things, include genetically engineered organisms that may pose a noxious weed risk and genetically engineered biological control agents.

On January 23, 2004, we published a notice in the *Federal Register* (69 FR 3271-3272, Docket No. 03-031-2), in which we advised the public that we intend to prepare an environmental impact statement (EIS) in connection with potential changes to the regulations regarding the importation, interstate movement, and environmental release of certain genetically engineered organisms. The notice identified potential issues and alternatives that will be studied in the EIS and requested public comment to further delineate the scope of the issues and alternatives.

We believe that it is essential that we consider the findings of the EIS as part of our review of the existing regulations in part 340, but the EIS is not yet at a stage at which we may do so. Therefore, consistent with our stated intent to remove the notification option for all industrials pending the completion of our review of part 340, we are announcing that the current requirement that introductions of plants genetically engineered to encode compounds for industrial use be conducted only under permit will continue in effect beyond December 31, 2004, until the completion of our review of the regulations in part 340. We expect that our review will include the publication in the *Federal Register* of a proposed rule for public comment and

the subsequent publication of a final rule.

Therefore, for the reasons given in the interim rule and in this document, we are adopting the interim rule as a final rule without change.

This action also affirms the information contained in the interim rule concerning Executive Order 12866 and the Regulatory Flexibility Act, Executive Orders 12372 and 12988, and the Paperwork Reduction Act.

Further, this action has been determined to be significant for the purposes of Executive Order 12866 and, therefore, has been reviewed by the Office of Management and Budget.

#### List of Subjects in 7 CFR Part 340

Administrative practice and procedure, Biotechnology, Genetic engineering, Imports, Packaging and containers, Plant diseases and pests, Transportation.

#### PART 340—INTRODUCTION OF ORGANISMS AND PRODUCTS ALTERED OR PRODUCED THROUGH GENETIC ENGINEERING WHICH ARE PLANT PESTS OR WHICH THERE IS REASON TO BELIEVE ARE PLANT PESTS

■ Accordingly, we are adopting as a final rule, without change, the interim rule that amended 7 CFR part 340 and that was published at 68 FR 46434-46436 on August 6, 2003.

Done in Washington, DC, this 28th day of April 2005.

#### NATIONAL INDIAN GAMING COMMISSION

##### 25 CFR Part 542

RIN 3141-AA27

#### Minimum Internal Control Standards

**AGENCY:** National Indian Gaming Commission.

**ACTION:** Final rule.

**SUMMARY:** In response to the inherent risks of gaming enterprises and the resulting need for effective internal controls in Tribal gaming operations, the National Indian Gaming Commission (Commission or NIGC) first developed Minimum Internal Control Standards (MICS) for Indian gaming in 1999, and then later revised them in 2002. The Commission recognized from

the outset that periodic technical adjustments and revisions would be necessary in order to keep the MICS effective in protecting Tribal gaming assets and the interests of Tribal stakeholders and the gaming public. To that end, the following final rule revisions contain certain corrections and revisions to the Commission's existing MICS, which are necessary to correct erroneous citations or references in the MICS and to clarify, improve, and update other existing MICS provisions. The purpose of these final MICS revisions is to address apparent shortcomings in the MICS and various changes in Tribal gaming technology and methods. Public comment to these final MICS revisions was received by the Commission for a period of 48 days after the date of their publication in the **Federal Register** as a proposed rule on December 1, 2004. Thereafter, the comment period was extended for an additional 31 days until February 18, 2005.

After consideration of all received comments, the Commission has made whatever changes to the proposed revisions that it deemed appropriate and is now promulgating and publishing the final revisions to the Commission's MICS Rule, 25 CFR part 542.

**DATES:** Effective Date: May 4, 2005.

**Compliance Date:** On or before July 5, 2005, the Tribal gaming regulatory authority shall: (1) In accordance with the Tribal gaming ordinance, establish and implement Tribal internal control standards that shall provide a level of control that equals or exceeds the revised standards set forth herein; and (2) establish a deadline no later than September 1, 2005, by which a gaming operation must come into compliance with the Tribal internal control standards. However, the Tribal gaming regulatory authority may extend the deadline by an additional 60 days if written notice is provided to the Commission no later than September 1, 2005. Such notification must cite the specific revisions to which the extension pertains.

**FOR FURTHER INFORMATION CONTACT:** Vice-Chairman Nelson Westrin, (202) 632-7003 (not a toll-free number).

#### SUPPLEMENTARY INFORMATION:

##### Background

On January 5, 1999, the Commission first published its Minimum Internal Control Standards (MICS) as a Final Rule. As gaming Tribes and the Commission gained practical experience applying the MICS, it became apparent that some of the standards required clarification or modification to operate

as the Commission had intended and to accommodate changes and advances that had occurred over the years in Tribal gaming technology and methods. Consequently, the Commission, working with an Advisory Committee composed of Commission and Tribal representatives, published the new final revised MICS rule on June 27, 2002. As the result of the practical experience of the Commission and Tribes working with the newly revised MICS, it has once again become apparent that additional corrections, clarifications, and modifications are needed to ensure that the MICS continue to operate as the Commission intended. To identify which of the current MICS need correction, clarification or modification, the Commission initially solicited input and guidance from NIGC employees, who have extensive gaming regulatory expertise and experience and work closely with Tribal gaming regulators in monitoring the implementation, operation, and effect of the MICS in Tribal gaming operations. The resulting input from NIGC staff convinced the Commission that the MICS require continuing review and prompt revision on an ongoing basis to keep them effective and up-to-date. To address this need, the Commission decided to establish a Standing MICS Advisory Committee to assist it in both identifying and developing necessary MICS revisions and revisions on an ongoing basis. In recognition of its government-to-government relationship with Tribes and related commitment to meaningful Tribal consultation, the Commission requested gaming Tribes, in January 2004, for nominations of Tribal representatives to serve on its Standing MICS Advisory Committee. From the 27 Tribal nominations that it received, the Commission selected 9 Tribal representatives in March 2004 to serve on the Committee. The Commission's Tribal Committee member selections were based on several factors, including the regulatory experience and background of the individuals nominated, the size(s) of their affiliated Tribal gaming operation(s), the types of games played at their affiliated Tribal gaming operation(s), and the areas of the country in which their affiliated Tribal gaming operation(s) are located. The selection process was very difficult, because numerous highly qualified Tribal representatives were nominated to serve on this important Committee.

As expected, the benefit of including Tribal representatives on the Committee, who work daily with the MICS, has proved to be invaluable.

Through their advice and recommendations to the Commission, the Tribal Committee members provide early Tribal perspective and input in assisting the Commission in identifying and developing needed MICS revisions, without binding their nominating Tribes in any way regarding the resulting revisions promulgated by the Commission. This, in turn, helps facilitate and implement the Commission's policy commitment to early and meaningful consultation concerning changes to the MICS and other Commission regulatory policies and procedures that affect gaming Tribes.

Tribal representatives selected to serve on the Commission's Standing MICS Advisory Committee are: Tracy Burris, Gaming Commissioner, Chickasaw Nation Gaming Commission, Chickasaw Nation of Oklahoma; Jack Crawford, Chairman, Umatilla Gaming Commission, Confederated Tribes of the Umatilla Indian Reservation; Patrick Darden, Executive Director, Chitimacha Gaming Commission, Chitimacha Indian Tribe of Louisiana; Mark N. Fox, Compliance Director, Four Bears Casino, Three Affiliated Tribes of the Fort Berthold Reservation; Sherrilyn Kie, Senior Internal Auditor, Pueblo of Laguna Gaming Authority, Pueblo of Laguna; Patrick Lambert, Executive Director, Eastern Band of Cherokee Gaming Commission, Eastern Band of Cherokee Indians; John Meskill, Director, Mohegan Tribal Gaming Commission, Mohegan Indian Tribe; Jerome Schultze, Executive Director, Morongo Gaming Agency, Morongo Band of Mission Indians; and Lorna Skenandore, Assistant Gaming Manager, Support Services, Oneida Bingo and Casino, formerly Gaming Compliance Manager, Oneida Gaming Commission, Oneida Tribe of Indians of Wisconsin. The Advisory Committee also includes the following Commission representatives: Philip N. Hogen, Chairman; Nelson Westrin, Vice-Chairman; Cloyce V. Choney, Associate Commissioner; Joe H. Smith, Acting Director of Audits; Ken Billingsley, Region III Director; Nicole Peveler, Field Auditor; Ron Ray, Field Investigator; and Sandra Ashton, Staff Attorney, Office of General Counsel.

In the past, the MICS were comprehensively revised on a large wholesale basis. Such large-scale revisions proved to be difficult for Tribes to implement in a timely manner and unnecessarily disruptive to Tribal gaming operations. The purpose of the Commission's Standing Committee is to conduct a continuing review of the operation and effectiveness of the

existing MICS, in order to promptly identify and develop needed revisions of the MICS, on a manageable incremental basis, as they become necessary to revise and keep the MICS practical and effective. By making more manageable incremental changes to the MICS on an ongoing basis, the Commission hopes to be more prompt in developing needed revisions, while, at the same time, avoiding larger-scale MICS revisions which take longer to implement and can be unnecessarily-disruptive to Tribal gaming operations. In accordance with this approach, the Commission has developed the following final MICS rule revisions, with the assistance of its Standing MICS Advisory Committee. In doing so, the Commission is carrying out its statutory mandate under the Indian Gaming Regulatory Act, 25 U.S.C. 2706(b)(10), to promulgate necessary and appropriate regulations to implement the provisions of the Act. In particular, the following final MICS rule revisions are intended to address Congress' purpose and concern stated in Section 2702(2) of the Act, that the Act "provide a statutory basis for the regulation of gaming by an Indian tribe adequate to shield it from organized crime and other corrupting influences, to ensure the Indian tribe is the primary beneficiary of the gaming operation, and to ensure the gaming is conducted fairly and honestly by both the operator and the players."

The Commission, with the Committee's assistance, identified three specific objectives for the following final MICS rule revisions: (1) To ensure that the MICS are reasonably comparable to the internal control standards of established gaming jurisdictions; (2) to ensure that the interests of the Tribal stakeholders are adequately safeguarded; and (3) to ensure that the interests of the gaming public are adequately protected.

The Standing Advisory Committee initially met on April 8, 2004, and then again on October 21, 2004, and January 25, 2005, to discuss the revisions set forth in the following final MICS rule revisions. The input received from the Committee Members has been invaluable to the Commission in its development of the following final MICS rule revisions.

In furtherance of the Commission's established Government-to-Government Tribal Consultation Policy, the Commission also provided a preliminary working draft of all of the final MICS rule revisions contained herein to gaming Tribes on June 22, 2004, for a 30-day informal review and comment period, before formulation of a proposed rule, which was published

in the **Federal Register** on December 1, 2004. In response to its requests for comments, the Commission received 89 comments from Commission and Tribal Standing Advisory Committee members, individual Tribes, and other interested parties regarding the final revisions. A summary of these comments is presented below in the discussion of each final revision to which they relate.

#### **General Comments to Final Rule MICS Revisions**

For reasons stated above in this preamble, the National Indian Gaming Commission has revised the following specific sections of its MICS rule, 25 CFR part 542. The following discussion includes the Commission's responses to general comments concerning the MICS and is followed by a discussion regarding each of the specifically final rule revisions, along with previously submitted comments to the proposed revisions and the Commission's responses to those comments. As noted above, prior commenters include Commission and Tribal Advisory Committee members, gaming Tribes, and others.

#### *Comments Questioning NIGC Authority To Promulgate MICS for Class III Gaming*

Many of the comments to the published proposed MICS revisions pertained to the Commission's authority to promulgate rules governing the conduct of Class III gaming. Positions were expressed asserting that Congress intended the NIGC's Class III gaming regulatory authority to be limited exclusively to the approval of tribal gaming ordinances and management contracts. Similar comments were received concerning the first proposed MICS back in 1999. The Commission, at that time, determined in its publication of the original MICS in 1999 that it possessed the statutory authority to promulgate Class III MICS. As stated in the preamble to those MICS: "The Commission believes that it does have the authority to promulgate this final rule. \* \* \* [T]he Commission's promulgation of MICS is consistent with its responsibilities as the Federal regulator of Indian gaming." 64 FR 509 (Jan. 5, 1999). The current Commission reaffirms that determination. The Indian Gaming Regulatory Act, which established the regulatory structure for all classes of Indian gaming, expressly provides that the Commission "shall promulgate such regulations as it deems appropriate to implement the provisions of (the Act)." 25 U.S.C. 2707(b)(10).

Pursuant to this clearly stated statutory duty and authority under the

Act, the Commission has determined that MICS are necessary and appropriate to implement and enforce the regulatory provisions of the Act governing the conduct of both Class II and Class III gaming and accomplish the purposes of the Act.

The Commission believes that the importance of internal control systems in the casino operating environment cannot be overemphasized. While this is true of any industry, it is particularly true and relevant to the revenue generation processes of a gaming enterprise, which, because of the physical and technical aspects of the games and their operation and the randomness of game outcomes, makes exacting internal controls mandatory.

The internal control systems are the primary management procedures used to protect the operational integrity of gambling games, account for and protect gaming assets and revenues, and assure the reliability of the financial statements for Class II and III gaming operations. Consequently, internal control systems are a vitally important part of properly regulated gaming. Effective internal control systems are dependent upon the support of the gaming enterprise's governing board, management, and other personnel who are responsible for providing reasonable assurance regarding the achievement of the enterprise's objectives, which typically include operational integrity, effectiveness and efficiency, reliable financial statement reporting, and compliance with applicable laws and regulations. The Commission believes that strict regulations, such as the MICS, are not only appropriate but necessary for it to fulfill its responsibilities under the IGRA to establish a necessary baseline, or minimum, Federal standards for all Tribal gaming operations on Indian lands. 25 U.S.C. 2702(3). Although the Commission recognizes that many Tribes had sophisticated internal control standards in place prior to the Commission's original promulgation of its MICS, many did not. Accordingly, the Commission continues to believe strongly that promulgation and revision of these standards is necessary and appropriate to implement effectively the provisions of the Indian Gaming Regulatory Act throughout Indian country and, therefore, is within the Commission's clearly expressed statutory power and duty under Section 2706(b)(10) of the Act.

#### *Comments Recommending Voluntary Tribal Compliance With MICS*

Comments were also received suggesting that the NIGC should re-issue

the MICS as a bulletin or guideline for Tribes to use voluntarily, at their discretion, in developing and implementing their own Tribal gaming ordinances and internal control standards. The Commission disagrees. The MICS are common in established gaming jurisdictions and, to be effective in establishing a minimum baseline for the internal operating procedures of Tribal gaming enterprises, the rule must be concise, explicit, and uniform for all Tribal gaming operations to which they apply. Furthermore, to nurture and promote public confidence in the integrity and regulation of Indian gaming and ensure its adequate regulation to protect Tribal gaming assets and the interests of Tribal stakeholders and the public, the Commission's MICS regulations must be reasonably uniform in their implementation and application and regularly monitored and enforced by Tribal regulators and the NIGC to ensure Tribal compliance.

#### **Final Rule New or Revised Definitions in Section 542.2 of the MICS**

The Commission has added or revised definitions of the following four terms in section 542.2. A discussion of each new or revised definition follows in alphabetical order. The text of the new or revised definition is set forth following the conclusion of this preamble in which of all of the final rule revisions to the Commission's MICS rule, 25 CFR part 542, are discussed.

##### *Drop Period*

This is a new definition. Several Tribal and Commission Committee members recommended that a definition of the term "drop period" be added to the current existing MICS definitions. In conjunction with other final rule revisions to the MICS which include this term, the NIGC has determined that to ensure that such revisions are clear and unambiguous, insertion of the definition of the term "drop period" into the MICS Definitions section 542.2 is worthwhile. This definition was included in the proposed rule publishing for review and comment prior to formulation of the final new definition, and no comments were received objecting to the definition.

##### *Gaming Machine*

The Commission has revised the existing MICS definition of this term to more accurately define the scope of the referenced term, as it is used in the MICS. Commission and Committee members recommended that the existing definition for "gaming machine" be revised to cover central server based

linked gaming machines or player stations that are being increasingly utilized in Indian gaming. Comments were subsequently received supporting the proposed rule revision, which was published in the **Federal Register** prior to formulation of the final rule revised definition. Comments were received suggesting that the definition should differentiate Class II and Class III gaming machines. Comments were also received suggesting that instead of attempting to list all the various cash equivalents a machine might accept, it would be better simply to refer to the items as cash, coin or cash equivalents. The Commission disagrees with the comment that the definition should attempt to narrow or define the applicability of the definition based on game classification. The definition is intended to be broadly applied to all gaming machines that are not otherwise separately defined in the MICS, such as an electronic bingo machine.

The Commission agrees with the suggestion that the term "cash equivalents" should be used in the definition. We believe the term is more representative of the various items that could be wagered, in addition to cash and coin.

Comment was received recommending that a definition be added to the MICS for the term "cash equivalents." The Commission agrees with this suggestion and will develop such a definition in subsequent proposed revisions after further input from the Advisory Committee and gaming Tribes regarding its text.

##### *Promotional Progressive Pots and/or Pools*

The Commission has revised the existing MICS definition of this term to more accurately define the applicability of the referenced term. Committee members recommended that the definition of "promotional progressive pots and/or pools" be revised to also apply to poker games. The revision was included in the proposed rule revision, which was published in the **Federal Register** for review and comment before the following final rule revision definition was formulated. Comments were subsequently received supporting the final rule revision since most progressive promotional pots are utilized in poker games. One commenter contended that the final rule revision to the progressive promotional pots and/or pools definition would create a conflict with the definition of secondary jackpots. The Commission will further consider this comment and examine how the two referenced terms are used in the MICS. If necessary, we may

consider in the future whether there is any contradiction between the two terms that requires modification of the definition of secondary jackpots.

#### *Series Number*

This is a new definition. The referenced term is used in the current MICS but is not defined. Since it has been the frequent subject of inquiry regarding its meaning, the NIGC has determined that a definition of the term is warranted. Comments to the proposed rule published in the **Federal Register** uniformly supporting the addition of this final rule definition being added to section 542.2 of the MICS.

#### **Final Rule Correction of Referencing and Citation Errors in Sections 542.7, 542.8, 542.12, and 542.13 of the MICS**

The Commission identified and is correcting several referencing and citation errors in the current MICS. The relevant sections include the following: §§ 542.7(g)(1)(i), 542.8(h)(1)(i), 542.12(i)(4), 542.12(k)(1)(v), 542.12(k)(1)(ix), 542.12(k)(1)(xvii), and 542.13(l)(4).

Each of the referencing and citation corrections was set forth in the proposed rule published in the **Federal Register** for review and comment before this final rule was formulated. No comments were received objecting to the corrections.

#### **Final Rule Revisions to Section 542.13(h) Standards for Evaluating Theoretical and Actual Hold Percentages**

It is common practice in the gaming industry that gaming machine manufacturers provide gaming operators with a Pay Analysis Report (PAR) or PAR sheet for each gaming machine that they supply to the operator. The PAR sheet provides information regarding certain design specifications for the gaming machine, including the statistical theoretical percentage(s) that the gaming machine is designed to win or hold for the operator (house), based on an adequate level of wagering activity after payment of game winnings to players. A theoretical hold worksheet also accompanies the PAR sheet and provides additional theoretical hold information for the gaming machine, frequently including probability calculations of the machine's theoretical hold percentages for different specified levels of coin-in wagering activity. The converse to a gaming machine's theoretical hold percentage is its theoretical payback percentage, which is the percentage of total money wagered that the machine is designed to pay back to players as game winnings based on

adequate levels of wagering activity. A gaming machine's theoretical payback percentage can be calculated by deducting its specified theoretical hold percentage(s) from one.

Periodic statistical tracking of actual gaming machine performance, by comparing each machine's actual hold and payback percentages in relation to its theoretical hold and/or payback percentages, has become a necessary standard of management practice to ensure the integrity of gaming machine operations and safeguard related machine revenues and assets. To effectively monitor gaming machine operations for performance irregularities, whether due to machine defect, malfunction, embezzlement, cheating, or other improper tampering, gaming operators are required to periodically prepare a gaming machine analysis report that compares each machine's actual hold percentages to its specified theoretical hold percentage(s), based on the levels of coin-in wagering activity for each reporting period. Any material deviations between the actual and theoretical hold percentages must be thoroughly investigated by gaming machine department management and other management personnel independent of the gaming operation's gaming machine department. The ultimate objective of the gaming machine analysis report and investigative process is to ensure that any material uncharacteristic deviation between actual and theoretical hold is not due to machine defect, malfunction, embezzlement, cheating, or other improper tampering; but instead, a reasonably expected mathematical deviation based on the randomness of the machine's game outcome selection mechanism and the number of game plays and outcomes analyzed.

The standards set forth in section 542.13(h) of the MICS are intended to provide a minimum benchmark for effective use of gaming machine performance analysis by Tribal gaming enterprises to safeguard the integrity of their gaming machine operations and related Tribal gaming assets. In establishing these standards, the Commission has attempted to keep them as practical and effective as possible for the diverse nature and scale of the Tribal gaming machine operations to which they apply. For that reason, the Commission has made several revisions to section 542.13(h).

#### **Final Rule Deletion of Subsection 542.13(h)(2)**

The Commission's deletion of subsection 542.13(h)(2) will eliminate the current requirement that Tribal

operators utilize a weighted average calculation to adjust and determine the appropriate theoretical hold percentages for periodic analysis of complex gaming machines (excluding multi-game multi-denominational gaming machines), which have manufacturer's PAR or theoretical hold worksheets that specify multiple theoretical hold or payback percentages, with a spread of more than 4% between their minimum and maximum specified theoretical hold/payback percentages. Although the manufacturer's PAR sheets and theoretical hold worksheets for most gaming machines specify a single theoretical hold percentage, which can be reliably used for analysis of the machine's actual performance, there are other more complex gaming machines (excluding multi-gaming and multi-denominational gaming machines) that have multiple specified theoretical hold percentages. Identifying the most reliable theoretical hold percentage to use for analysis of the performance of these more complex gaming machines can be difficult and challenging, because the most appropriate theoretical hold percentage is so dependent upon the different amounts of permitted coin-in betting wagers (e.g. 1-coin, 2-coin, 3-coin, etc.) that players may actually decide to make during a given reporting period. The weighted average calculation, which is currently required by subsection 542.13(h)(2), essentially weighs the different permitted player wagering decisions, by multiplying the total amount wagered for each permitted coin-in wager amount times the specified theoretical hold percentage for that wager. Then the sum of the individual theoretical hold results for each permitted coin-in wager amount is divided by the total coin-in, to give a weighted average theoretical hold percentage for use in analyzing that gaming machine's overall performance during the reporting period.

Based on past MICS compliance audits and consultation with other gaming jurisdictions, the Commission has determined that the currently required weighted average calculation may not be necessarily to produce an acceptable adjusted theoretical hold percentage for analyzing the performance of complex gaming machines (other than multi-gaming and multi-denominational gaming machines) which have multiple specified theoretical hold percentages. Practical experience also demonstrates that this is also true regardless of whether the spread between the minimum and maximum specified theoretical hold percentages for such

complex gaming machines exceeds 4%. Accordingly, the Commission is deleting subsection 542.13(h)(2) in its entirety. In particular, the Commission has determined that, excluding multi-game and multi-denominational gaming machines, most other complex gaming machines with multiple specified theoretical hold percentages possess certain characteristics that generally result in most bettors making the maximum allowed coin-in wager. Typically, the pay tables for such machines provide for a disproportionately larger payout for maximum coin-in wagers. This naturally causes most players to bet the maximum allowable number of coins-in. Consequently, the weighted average calculation generally produces an adjusted theoretical hold percentage that is not significantly different than simply selecting the machine's most conservative or smallest specified theoretical hold percentage. Therefore, the required weighted average calculations in subsection 542.13(h)(2) for complex gaming machines, other than multi-game and multi-denomination gaming machines, is being deleted regardless of the spread between the machines' minimum and maximum specified multiple theoretical hold percentages. Although no longer required, circumstances may still dictate use of the weighted average calculation for such gaming machines, instead of simply selecting the most conservative or smallest specified theoretical hold percentage for the machine. In those circumstances, it will remain the responsibility of Tribal gaming management, subject to Tribal Gaming Regulatory Authority (TGRA) oversight, to utilize appropriate weighted average calculations to determine the proper adjusted theoretical hold percentages for accurate and reliable analysis of gaming machine performance.

*Final Rule Revisions Renumbering Subsection 542.13(h)(4) as New Subsection 542.13(h)(2); Extending the Weighted Average Calculation Requirement to Both Multi-Game and Multi Denomination Gaming Machines; and Deleting the 4% Theoretical Payback Spread Standard*

The Commission has revised subsection 542.13(h)(4) by renumbering it as the new subsection 542.13(h)(2); extending the required use of weighted average calculations to determine the adjusted theoretical hold percentage for both multi-game and multi-denominational gaming machines; and deleting the 4% or greater spread criteria regarding the minimum and maximum specified theoretical payback

percentage for such machines. While concluding that weighted average calculations need not be required for determining the most appropriate adjusted theoretical hold percentage for other complex gaming machines with multiple specified theoretical hold percentages, the Commission has determined that such calculations are essential for reliable analysis of the performance of multi-game and multi-denominational gaming machines, regardless of whether the spread between their minimum and maximum specified theoretical hold percentages is more or less than 4%. Therefore, the Commission is adding multi-denominational gaming machines to the weighted average calculation requirement in current subsection 542.13(h)(4), and is deleting the current requirement that the spread between the minimum and maximum specified multiple theoretical hold percentages must exceed 4% before any weighted average calculations are required to determine the appropriate adjusted theoretical hold percentage for either multi-game or multi-denominational gaming machines. In contrast to other complex gaming machines with multiple specified theoretical hold percentages, multi-game and multi-denominational gaming machines do not possess common characteristics that result in reasonably predictable player decisions regarding the individual programmed games of the multi-game gaming machine they elect to play or the denomination of their wager. Instead, player wagering decisions can vary widely and player game/denomination selections are also highly unpredictable and often subject to the effects of intervening management decisions, such as the activation/cancellation of game options, device location, gaming floor mix, and payable alternatives. Thus, to effectively identify a reliable adjusted theoretical hold percentage for analysis of multi-game and multi-denominational gaming machine performance requires a weighted average calculation of player coins-in-wagering for each wager/game/denomination payable player option. Furthermore, it is the Commission's considered judgment that such calculations are required and necessary regardless of whether the spread between the minimum and maximum specified multiple theoretical hold percentage for the multi-game and/or multi-denominational gaming machine exceeds 4%.

*Final Rule Revisions Renumbering Subsection 542.13(h)(19) as New Subsection 542.13(h)(18) and Replacing the Six Month Play Threshold With a Threshold of at Least 100,000 Wagering Transactions for Required Investigation of Large Variances Between Actual and Theoretical Hold*

Based on past experience and interaction with Tribal gaming regulatory authorities, the Commission has determined that the current six months play threshold in subsection 542.13(h)(19) for determining when a gaming machine is required to be included in the gaming machine analysis report is not practical or appropriate. Consequently, to define more accurately when the comparison and investigation of large variances between actual and theoretical hold is required, the Commission has revised subsection 542.13(h)(19) by renumbering it as subsection 542.13(h)(18) and replacing the six months play threshold with a play threshold of at least 100,000 wagering transactions.

*Final Rule Revisions to Subsection 542.13(m)(6) and (7) Accounting/Audit Standards for Gaming Machines*

In recognition of the varying processes that exist in the gaming industry relative to the time period between currency drops for gaming machines, the Commission has determined that the current standard in subsection 542.13(m)(6) requiring weekly comparison of the bill-in meter readings to the total bill acceptor drop is impractical and too inflexible. Accordingly, the Commission is deleting the currently required weekly comparison and replace it with an every "drop period" requirement. In conjunction with these final rule revisions, the term "drop period" is being defined in section 542.2 as the period of time between sequential drops.

Furthermore, in consideration of the above revision, the Commission is revising subsection 542.13(m)(7) by deleting the current \$200.00 threshold for required follow-up investigation of an unresolved variance between actual currency drop and bill-in meter reading and replacing it with a threshold amount that is "both more than \$25.00 and at least 3 percent (3%) of the actual currency drop."

*Comments Regarding Final Rule Deletion of 4% Theoretical Payback Spread Standard and Elimination of the Weighted Average Calculation Requirements for Complex Gaming Machines With Multiple Theoretical Hold Percentages (Excluding Multi-Game or Multi-Denominational Gaming Machines)*

Comments were received supporting the deletion of both standards, indicating that the process will potentially become simpler. Comment was received supporting the deletion of the standards and the willingness of the Commission to accept alternative methods of identifying the appropriate theoretical payback/hold percentage for the machines in question, which will often involve simply selecting the most conservative theoretical hold percentage within the range of acceptable parameters established by the game manufacturer. Such a procedure is founded upon the premise that patrons will generally opt for max coin bet.

Comment was received objecting to the striking of the weighted average calculation for complex gaming machines with a spread between theoretical payback percentages greater than 4%. It was noted that on-line computerized accounting systems for gaming machines capture the required data and facilitate the identification of an optimal theoretical payback/hold percentage for game analysis. Consequently, the commenter contended there is no compelling need to strike the standard. Comment was received questioning whether the standard requires the data to be collected by hard meter or whether soft meters are acceptable.

The Commission concurs with the commenter that the selection of the most conservative hold percentage will generally produce a benchmark for analysis of complex gaming machines, other than multi-game and multi-denominational machines, that will enable the gaming machine analysis report to be accurate and effective. However, should such a procedure not be reflective of the method of play of the gaming operation's patrons, the weighted average calculation would become the desired alternative. By striking the standard, the Commission is deferring to the Tribal Gaming Regulatory Authority (TGRA) to ensure Tribal gaming management employs procedures appropriate to identify reliable theoretical payback/hold percentages for analyzing the performance of their complex gaming devices with multiple specified theoretical hold percentages (excluding

multi-gaming and multi-denominational gaming machines). The Commission acknowledges that, in accordance with industry standard, gaming machines and current technology on-line accounting systems greatly aid the process of collecting data. However, such on-line systems are not at this time required by the MICS for all gaming machines. Therefore, we do not agree that the striking of the standard lacks compelling justification.

The Commission refers the commenter to the MICS definitions regarding the question of whether hard or soft meters may be used to collect necessary game data and determine reliable theoretical payback/hold percentages for game performance analysis. In accordance with section 542.2, the term "meter" is defined as either hard or soft. Consequently, to satisfy the standard, either method of collection is permissible.

*Comments Regarding Final Rule Extension of Weighted Average Theoretical Hold Calculation and Other Multi-Game Gaming Machine Analysis Requirements to Multi-Denominational Machines*

Comments were received acknowledging the need to extend the scope of the standard to include multi-denominational gaming machines in addition to multi-game devices. Comment was received supporting the striking of the 4% theoretical payback percentage spread criteria with regard to multi-game and multi-denomination gaming machines. The devices in question generally represent only a small portion of the typical gaming floor. Comment was received suggesting that, instead of quarterly meter reads, the meters should be read annually. Comment was also received questioning the need to make annual adjustments to the theoretical hold percentage for multi-game and multi-denomination devices, since the recalculation of the theoretical hold percentage results in only a nominal change. In addition, comment was also received regarding the task of calculating theoretical payback and hold percentages for multi-game machines that are also multi-denomination. The commenter questioned whether the necessary data could be extracted from such devices and, even if it could be obtained, the multi-tiered calculations would be exceedingly cumbersome.

Finally, comment was received questioning whether the potential annual adjustment to theoretical hold required the gaming machine to be considered a new device for purposes of the gaming machine analysis report. The

Commission does not concur with the commenter recommendation that collecting the meter data on an annual basis is acceptable. With regard to the collection of wagering data from multi-game and multi-denominational gaming machines, the more data collected, the greater the confidence in the analysis of patron betting habits and, consequently, the more reliable the identification of a valid theoretical hold percentage. Due to the changes in machine mix and location that frequently occur on the gaming floor, the Commission believes the subject data should be collected on a quarterly basis. The Commission does not agree with the comment that the annual review and adjustment of the previously determined theoretical hold percentage is of no value. We agree with the premise that, if the gaming floor remained unaltered from one year to the next, the betting habits of the patrons are likely to remain constant. However, changes to the gaming floor are typically frequent, as management attempts to generate the greatest return on the square footage allocated to the gaming machine department. Such modifications may involve additions and removals of devices, movement of machines on the gaming floor, activation/deactivation of various game options (such as bonusing), changing the mix of games offered, or increasing or restricting the different denominations accepted. Each of these management decisions can affect the theoretical hold of the multi-game and multi-denominational gaming machines in question. We can certainly understand management electing not to make an adjustment to the theoretical hold when the amount of the adjustment will have no significant impact on the reliability of the gaming machine analysis reports. However, due to the volatility of the gaming floor and the potential effect such volatility can have on patron betting habits, we believe the annual testing of previously determined theoretical hold percentages to be a necessary management practice.

The Commission appreciates the concern raised by a commenter regarding the process of determining a reliable theoretical hold percentage for multi-game devices that also accept multi-denomination wagers. The Commission acknowledges that the standard is intended to address either multi-game or multi-denomination but is awkward in its application with regard to devices that possess both characteristics. The standard would imply that a multi-tiered level of weighted average calculations would be required and that, for each

denomination within each game, the corresponding theoretical hold would be weighted by patron selection; the resulting game weighted average theoretical hold would be weighted by patron game selection. Although the exercise would certainly produce a theoretical hold percentage for use in the game analysis report possessing a high level of confidence, we question whether such an in depth examination of the various theoretical percentages, weighted by both patron game and denomination selection, is necessary to identify a reasonable benchmark to measure actual game performance. Generally speaking, we believe it would be acceptable to calculate a simple weighted average of the various denominational theoretical hold percentages contained within each game and use that average theoretical hold percentage in the weighted average calculation based on patron game selection. Furthermore, to make additional reductions in the number of calculations, management might consider grouping games with similar theoretical hold percentages, *i.e.* those with a difference of less than 0.5 percentage points.

In summation, it is important not to lose sight of the ultimate objective of the standards relevant to the statistical tracking of gaming performance, which is to employ a process that is effective in identifying deviations of actual performance from the manufacturer's specifications that warrant investigation. Such deviations may simply result from normal play, or be caused by gaming machine defect, malfunction, heating, embezzlement, or other improper tampering. Relevant to this overall process is the fact that many frauds have occurred in Tribal gaming over the past few years involving false or fraudulent gaming machine payouts that could have been detected sooner, if the gaming operation had had an effective process for measuring the appropriateness of actual gaming machine performance.

In response to the question raised by a commenter whether the annual adjustment to theoretical hold percentage requires a gaming machine to be given a new machine (asset) number for purposes of the gaming machine analysis report, the Commission refers the commenter to section 542.13(h)(16). That section explicitly exempts annual theoretical hold adjustments made in accordance with section 542.13(h)(2) from the general requirement that the adjusted machine be treated as a new machine. Consequently, creation of a new

machine number is not required when such adjustments occur.

*Comments Regarding Final Rule Deletion of "Six Month" Play Threshold and Addition of a "100,000 Wagering Transactions" Threshold for Required Analysis of Large Gaming Machine Variances Between Theoretical and Actual Hold*

Comments were received supporting the Commission's recommended change from a specified six (6) month play threshold in section 542.13(h)(18) to a threshold of 100,000 wagering transactions to determine when a gaming machine should be included in the analysis of actual hold performance to theoretical hold.

Comment was also received suggesting that the PAR sheets provide information more relevant to when a particular device has experienced sufficient play to be included in the gaming machine analysis process. Comment was also received suggesting that the recommended range of acceptable deviations from theoretical of  $\pm 3$  percentage points should be struck from the MICS. The commenter noted that it should be left up to the discretion of the TGRA as the primary gaming regulator to make the determination. Additional comment was also received recommending that it should also be left to the TGRA to determine when sufficient play exists to require the machine to be included in the gaming analysis report, since the performance of some devices should be examined prior to 100,000 wagering transactions, while others may require more play before any investigation of deviations between actual and theoretical performance is worthwhile.

Finally, comment was received suggesting that a computerized application utilizing a volatility indexing mathematical program should be an acceptable alternative to the process required by the MICS. Such programs employ a mathematical formula that estimates the minimum and maximum ranges of acceptable theoretical payback/hold percentages for a given machine based on the following: (1) The theoretical payback/hold over the expected life of the machine; (2) the number of winning combinations; (3) the payback/hold for the winning combinations; and (4) the number of games played. In essence, the program considers the game characteristics and determines a tolerable range of accepted performance, which narrows as performance predictability increases. Typically, predictability increases commensurate with increasing levels of wagering activity.

The Commission concurs with the commenter's recommendation that the standard would be better served by replacing the specified time period with a minimum number of wagering transactions. The final revision to section 542.13(h)(18) has, accordingly, been modified to reflect that recommendation. The Commission also appreciates the suggestion made by the commenter that determining when sufficient data exists to perform the analysis of actual game performance should include consideration of the data contained within the PAR sheet. It is important to recognize that the 100,000 wagering transaction standard establishes a minimum threshold for devices to be included in the required gaming machine analysis report; however, it is also well understood that the investigation of unacceptable deviations between actual and theoretical game performance is a complex process. To comment on how the Commission determined the 100,000 wager transaction threshold, a random number generator (RNG) with a 10 million cycle will produce a range between minimum and maximum confidence factors of approximately 3 percentage points, which we believe justifies an investigation of an unacceptable deviation, which industry practice would identify to be  $\pm 3$  percentage points between actual hold and theoretical hold. However, the analyst should also consider the relevant PAR sheet in determining the extent to which follow-up analysis and investigation is warranted. For example, a multi-game device, particularly if it also accepts multi-denomination, may in fact need more than 100,000 wagering transactions before it is worthwhile to review past performance, *i.e.* look for an abnormally large payout within the audit period. With such a device, the analyst may determine that insufficient play has occurred to perform an in depth review of past performance and would merely document his/her determination. Within reason, we would not consider such a determination to be noncompliant with the standard.

The Commission does not agree with the commenter's suggestion that the recommended acceptable deviation range of  $\pm 3$  percentage points be struck from the MICS. We believe the recommended range represents industry practice and is a reasonable threshold to ensure that the gaming machine analysis process will be effective. The Commission also disagrees with the commenter's recommendation that it should be left to the discretion of the TGRA to decide when a device must be

included in the gaming machine analysis report. For the regulations governing the statistical tracking of gaming performance and the comparison of actual performance to the manufacturer's theoretical performance specifications to be effective, the regulation must be precise and reasonably uniform in defining its applicability. However, we do acknowledge that the analysis of the data possesses an element of subjectivity, which in turn necessitates that the analyst have a professional level of expertise. Inclusion of a gaming machine in the required gaming analysis report does not necessarily dictate that an in depth investigation of all variances is warranted, but does require that the gaming performance analyst/reviewer document the results of their determination.

Finally, the Commission appreciates the suggestion by a commenter that a volatility indexing mathematical program may produce results as reliable as, or even more reliable, than the weighted average calculation required for multi-game and multi-denominational gaming machines in the MICS. In response, it is noteworthy that at section 542.3(c), the TGRA is required to adopt regulations that provide a level of control that equals or exceeds the MICS. Although the rule does not condone the TGRA accepting management procedures that are in conflict with the MICS, it does not preclude acceptance of procedures or controls that are different and at least as stringent as those contained within the MICS. Furthermore, at section 542.13(b), computerized applications that provide at least the same level of control as the MICS are deemed to be acceptable under the current MICS. Based on the data provided by the commenter, it is the belief of the Commission that the noted mathematical formula would be an acceptable alternative procedure. However, it is incumbent upon management to adequately document the process and its effectiveness in providing the required level of control and reliability in analyzing game performance.

*Comments Regarding the Final Revision of Section 542.13(m)(6) To Require Comparison of Bill-In Meter Readings With Total Bill Acceptor Drop Amounts for Each Drop Period Instead of Weekly*

Comments were received concurring with the final revision. Comment was also received noting that the standard is stricter, but also acknowledging that the impact on management's gaming machine accounting/audit function should be nominal. Finally, comment

was received supporting the final revision and noting that it should make the follow-up process less cumbersome.

*Comments Regarding the Final Revision of Section 542.13(m)(7) Requiring Follow-Up of Unresolved Variances Between the Currency Drop and Bill-In Meter Readings to Amounts Greater Than \$25 and 3 percent Instead of \$200.00*

Comment was received suggesting language in the initially proposed revision to clarify the applicability of \$25 or 3 percent. Comment was received objecting to the revision because it would allow variances to go uninvestigated that should be subjected to review. Basically, the commenter contends that the rule is too liberal and results in the control being ineffective. Comment was received recommending the threshold be 5 percent and \$25. The Commission accepts the commenter recommendation regarding more explicit language and has modified the final revision accordingly. The Commission understands the commenter concern for the rule becoming less stringent and possibly ineffective. However, the existing rule requires that a variance of \$200 per machine per week must be investigated. Assuming the Tribal gaming operation performs a daily drop, the average variance threshold per day would be \$28.57. Because the drop must exceed \$833.33 before the 3 percent criteria becomes effective, for all practical purposes, the vast majority of variances will be subject to the \$25 threshold. Consequently, we do not believe the revision will have a material impact on the effectiveness of the control. However, by changing the time frame from a week to a drop period, we believe the standard becomes more consistent with the workflows of the revenue audit process.

The Commission does not concur with the recommendation that the threshold be increased to 5 percent or \$25. With regard to drop amounts, the final rule results in the \$25 threshold being applicable to drops of \$25 to \$833.33. The commenter recommendation would cause the \$25 threshold to be applicable to drops of \$25 to \$500, which would, in effect, result in a lessening of the control. We do not believe there is a compelling basis for making the recommended change.

**Final Revisions to Subsection 542.16(a)(1) General Controls for Gaming Hardware and Software**

*Proposed Deletion of Requirement in Vendor Software/Hardware Agreements That Vendors Agree To Adhere to Related Tribal Internal Controls*

Since initial adoption, this standard has often been a troublesome requirement for management and Tribal gaming regulatory authorities to implement and enforce. The NIGC is not unsympathetic to the challenges created by the regulation when a vendor is uncooperative. Although the proposed rule provided for the deletion of section 542.16(a)(1)(i), which requires Tribal management to ensure that vendors agree to adhere to Tribal internal control standards, the Commission has determined that deletion of this standard is not appropriate at this time. It is the common goal of the NIGC and Tribal management and regulators to ensure that vendors adhere to Tribal internal control standards.

Comment was received supporting deletion of the standard, but noting that management should continue to be held accountable by the TGRA to ensure that agreements/contracts are not entered into that would cause the gaming operation to be noncompliant with any Tribal, State, or Federal laws or regulations. Furthermore, the TGRA should not hesitate to enact and enforce such regulations of their own specific to vendor contract requirements. Comment was also received supporting deletion of the standard because it creates an undue hardship on management in the negotiation of vendor agreements. Additional comment was received supporting the deletion of the standard because violations by vendors are often difficult and troublesome to enforce, which causes the regulation to be fairly meaningless. Other comment was received objecting to deletion of the standard because it provides an added level of protection for Tribes from unscrupulous vendors in their gaming enterprises. Additional comment was received from a TGRA noting that, notwithstanding deletion of the standard from the MICS, the Tribe intends to keep the control in their regulations, which is a Tribe's right as primary regulator under IGRA.

After careful consideration of the comments received and relevant public policy issues, the Commission has decided to retain the standard at this time.

**Final Revisions to Section 542.18 Regarding the Process for Commission Review and Determination of Tribal Requests for a Variance From the MICS in Their Tribal Internal Control Standards**

To more clearly describe the current variance process, the NIGC is revising section 542.18 of the MICS. Specifically, the revisions are intended to more clearly describe the authority and duties of the Chairman, his/her designee, the full Commission, as well as the appeal rights of the Tribal petitioner. The final revisions are also intended to ensure that an adequate factual investigation and record is developed for administrative and judicial review of the merits of the Chairman's decision on each variance request.

Comment was received supporting the final revisions. Comment was also received supporting the revisions, except for that part that prohibits the implementation of a TGRA approved variance until after concurrence has been received from the Commission. Comment was received questioning whether the petitioner Tribe has the authority to extend stipulated time frames in the variance process.

Additional comment was received questioning whether the thirty (30) day period associated with a review by NIGC staff of a resubmission was sufficient. Further comment was received questioning the potential result of a petitioner objecting to an extension of a stipulated time period requested by NIGC staff. Specifically, the concern is that refusal of such a request might result in summary denial of the variance request. Comment was also received questioning the need for extensions of the time frames provided. A commenter represented that the stipulated time periods should be sufficient. Finally, comment was received suggesting that the Commission should consider variance requests only after they have been approved by the TGRA.

The Commission understands the commenter's objection to deferring implementation of a TGRA approved variance until receipt of Commission concurrence; however, to preserve the integrity of the MICS, the regulatory body responsible for its enactment must have the latitude to prohibit the implementation of procedures deemed to be unacceptable and contrary to the NIGC's MICS regulations. The Commission also recognizes that the variance concurrence process is one initiated by the petitioner. Therefore, the Commission would not be unreasonable in considering requests for additional time from the petitioner. It is

noteworthy to such a position that the implementation of the proposed alternative procedure is precluded until after the Commission has concurred.

The Commission acknowledges the concern expressed by a commenter regarding the time afforded NIGC staff to review a resubmission. Therefore, language has been added to enable staff to extend the period, subject to concurrence by the petitioner. The Commission understands the concern expressed by a commenter regarding a possible decision not to concur, if acceptance of an extension to a stipulated time period was not agreed. Certainly, the petitioner should be well aware that the investigation of pertinent facts and data associated with a variance request may take hours or many months, depending upon its complexity. Although requests for additional time should be reasonable and based on cause, the petitioner should also be well aware that the undue refusal to grant additional time may result in a determination different than that which would have otherwise been rendered, if the petitioners had agreed to the Chairman's request for more adequate time to investigate and decide their variance request. Notwithstanding the question pertaining to extension of time frames, the petitioner's right to appeal would continue to exist.

The Commission disagrees with the commenter's contention that time period extensions are not warranted. Although some variance requests can be readily addressed, particularly if the staff charged with performing the research has past experience with similar requests, most will involve extensive analysis. Seldom is a petition simply responded to. Instead, a filing will generally initiate a back and forth exchange with the petitioner as staff seeks additional information or clarifications regarding the requested variance. Alternative procedures involving new technology often involve travel by staff to consult with manufacturers and other regulators or operators. Inherent to the analysis of a variance request is the identification of risk and evaluation of compensating controls. The time periods contained within the regulation will generally be appropriate for the more simple concurrence requests; however, complex requests will typically require one or more extensions of the allotted time frame. The Commission concurs with the commenter's suggestion regarding consideration of variance requests only after they have been approved by the TGRA. In accordance with the final rule, a variance request received by the Commission lacking

evidence of the TGRA approval would not be considered. Since such a submission would lack authority.

**Final Revisions To Add New Sections to the MICS Establishing Minimum Standards for Computerized Key Security Systems**

Section 542.21(t)-(w) What are the minimum internal controls for drop and count for Tier A gaming operations?

Section 542.31(t)-(w) What are the minimum internal controls for drop and count for Tier B gaming operations?

Section 542.41(t)-(w) What are the minimum internal controls for drop and count for Tier C gaming operations?

Sections (t) and (u) are new MICS sections. Existing sections (t) and (u) are unchanged and are now designated as sections (v) and (w). In recognition of an increasing number of gaming operations utilizing or considering the utilization of computerized key control systems, the NIGC has determined that regulations addressing such systems are warranted for Tier A, B, and C Tribal gaming operations.

Comment was received supporting the final revisions noting that electronic key control systems are becoming more prevalent. Comment was also received supporting the determination by the Commission to adopt standards specifically covering the use of computerized key control systems in Tier A, B, and C gaming operations and not rely solely on the general MICS regulation covering computerized applications. Comment was also received supporting the new regulation and noting that the controls also provide for an audit function.

Comment was received supporting the new regulation, but noting that the TGRA should also consider more stringent standards. Comment was received recommending that the auditing procedures, particularly the quarterly inventory of keys, be performed by accounting/auditing personnel independent of the key control process. Additional comment was received questioning the need for the regulations since most of the controls are already in the MICS. Comment was received recommending that the regulation more clearly differentiate the function of key custodian from system administrator.

Comment was also received questioning the need for three persons to be involved in accessing the manual override key to open the box to perform repairs. It was noted that the persons accessing the box would not have access

to the slot drop and count keys. For the purpose of making repairs, only two persons should be required to gain access to the manual override key.

The Commission disagrees with the commenter questioning the need for the new regulations. Computerized key control systems have been the subject of several Tribal variance requests over the past few years. Therefore, the Commission believes it appropriate to establish minimum standards specific to such systems. The Commission concurs with the commenter recommendation that the auditing procedures be performed by accounting/auditing personnel independent of the key control process. The final regulation for all three tiers has been changed accordingly. The Commission also concurs with the commenter's recommendation that the key custodian functions be more clearly defined and noted as being separate from those of the system administrator. Accordingly, the final revisions have been modified in all three new sections to more clearly define separation of the two functions.

The Commission also concurs with the commenter's suggestion that only two people be required to access the manual override key to make repairs to the key control box. Such access would not include access to the coin drop and count keys. The final revisions have been modified to reflect the suggestion of the commenter in all three new MICS sections.

### Regulatory Matters

#### *Regulatory Flexibility Act*

The Commission certifies that the final rule revisions to the Minimum Internal Control Standards contained within this regulation will not have a significant economic impact on small entities, 5 U.S.C. 605(b). The factual basis for this certification is as follows:

Of the 330 Indian gaming operations across the country, approximately 93 of the operations have gross revenues of less than \$5 million. Of these, approximately 39 operations have gross revenues of under \$1 million. Since the final revisions will not apply to gaming operations with gross revenues under \$1 million, only 39 small operations may be affected. While this is a substantial number, the Commission believes that the final revisions will not have a significant economic impact on these operations for several reasons.

Even before implementation of the original MICS, Tribes had internal controls because they are essential to gaming operations in order to protect assets. The costs involved in implementing these controls are part of

the regular business costs incurred by such an operation. The Commission believes that many Indian gaming operation internal control standards that are more stringent than those contained in these regulations. Further, these final rule revisions are technical and minor in nature.

Under the final revisions, small gaming operations grossing under \$1 million are exempted from MICS compliance. Tier A facilities (those with gross revenues between \$1 and \$5 million) are subject to the yearly requirement that independent certified public accountant testing occur. The purpose of this testing is to measure the gaming operation's compliance with the tribe's internal control standards. The cost of compliance with this requirement for small gaming operation is estimated at between \$3,000 and \$5,000. The cost of this report is minimal and does not create a significant economic effect on gaming operations. What little impact exists is further offset because other regulations require yearly independent financial audits that can be conducted at the same time. For these reasons, the Commission has concluded that the final rule revisions will not have a significant economic impact on those small entities subject to the rule.

#### *Small Business Regulatory Enforcement Fairness Act*

These following final rule revisions do not constitute a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. The revisions will not have an annual effect on the economy of \$100 million or more. The revisions also will not cause a major increase in costs or prices for consumers, individual industries, federal, state or local government agencies or geographic regions and does not have a significant adverse effect on competition, employment, investment, productivity, innovation, or the ability of U.S. based enterprises to compete with foreign-based enterprises.

#### *Unfunded Mandates Reform Act*

The Commission is an independent regulatory agency and, as such, is not subject to the Unfunded Mandates Reform Act. Even so, the Commission has determined that the final rule revisions do not impose an unfunded mandate on State, local, or Tribal governments, or on the private sector, of more than \$100 million per year. Thus, this is not a "significant regulatory action" under the Unfunded Mandates Reform Act, 2 U.S.C. 1501 *et seq.*

The Commission has, however, determined that the final rule revisions

may have a unique effect on Tribal governments, as they apply exclusively to Tribal governments, whenever they undertake the ownership, operation, regulation, or licensing of gaming facilities on Indian lands, as defined by the Indian Gaming Regulatory Act. Thus, in accordance with Section 203 of the Unfunded Mandates Reform Act, the Commission undertook several actions to provide Tribal governments with adequate notice, opportunity for "meaningful" consultation, input, and shared information, advice, and education regarding compliance. These actions included the formation of a Tribal Advisory Committee and the request for input from Tribal leaders.

Section 204(b) of the Unfunded Mandates Reform Act exempts from the Federal Advisory Committee Act (5 U.S.C. App.) meetings with Tribal elected officials (or their designees) for the purpose of exchanging views, information, and advice concerning the implementation of intergovernmental responsibilities or administration. In selecting Committee members, consideration was placed on the applicant's experience in this area, as well as the size of the Tribe the nominee represented, geographic location of the gaming operation, and the size and type of gaming conducted. The Commission attempted to assemble a Committee that incorporates diversity and is representative of Tribal gaming interests. The Commission met with the Advisory Committee to discuss the public comments that were received as a result of the publication of the proposed MICS rule revisions, and considered all Tribal and public comments and Committee recommendations before formulating the final rule revisions. The Commission also plans to continue its policy of providing necessary technical assistance, information, and support to enable Tribes to implement and comply with the MICS as revised. The Commission also provided the proposed revisions to Tribal leaders for comment prior to publication of this final rule and considered these comments in formulating the rule.

#### *Takings*

In accordance with Executive Order 12630, the Commission has determined that the following final MICS rule revisions do not have significant takings implications. A takings implication assessment is not required.

#### *Civil Justice Reform*

In accordance with Executive Order 12988, the Office of General Counsel has determined that the following final

MICS rule revisions do not unduly burden the judicial system and meet the requirements of sections 3(a) and 3(b)(2) of the Order.

#### Paperwork Reduction Act

The following final MICS rule revisions require information collection under the Paperwork Reduction Act 44 U.S.C. 3501 *et seq.*, as did the rule it revises. There is no change to the paperwork requirements created by these final revisions. The Commission's OMB Control Number for this regulation is 3141-0009.

#### National Environmental Policy Act

The Commission has determined that the following final MICS rule revisions do not constitute a major Federal action significantly affecting the quality of the human environment and that no detailed statement is required pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*).

#### List of Subjects in 25 CFR Part 542

Accounting, Auditing, Gambling, Indian-lands, Indian-tribal government, Reporting and recordkeeping requirements.

■ Accordingly, for all of the reasons set forth in the foregoing preamble, the National Indian Gaming Commission amends 25 CFR part 542 as follows:

#### PART 542—MINIMUM INTERNAL CONTROL STANDARDS

■ 1. The authority citation for part 542 continues to read as follows:

**Authority:** 25 U.S.C. 2701 *et seq.*

■ 2. Section 542.2 is amended by adding in alphabetical order the definitions for "Drop Period" and "Series number," and by revising the definitions for "Gaming Machine" and "Promotional progressive pots and/or pools" to read as follows:

#### § 542.2 What are the definitions for this part?

*Drop period* means the period of time that occurs between sequential drops.

*Gaming machine* means an electronic or electromechanical machine that allows a player to play games of chance, some of which may be affected by skill, which contains a microprocessor with random number generator capability for outcome selection or computer terminal that accesses an outcome that is subsequently and randomly selected in drawings that are electronically conducted by central computer or other such methods of chance selection, whether mechanical or electronic. The machine is activated by the insertion of

cash or cash equivalents and which awards cash, cash equivalents, merchandise, or a written statement of the player's accumulated credits, which written statements may be redeemable for cash.

*Promotional progressive pots and/or pools* means funds contributed to a table game or card game by and for the benefit of players. Funds are distributed to players based on a predetermined event.

*Series number* means the unique identifying number printed on each sheet of bingo paper that identifies the bingo paper as a series or packet. The series number is not the free space or center space number located on the bingo paper.

■ 3. Amend § 542.7 by revising paragraph (g)(1)(i) to read as follows:

#### § 542.7 What are the minimum internal control standards for bingo?

(g) \* \* \*

(1) \* \* \*

(i) If the electronic equipment contains a bill acceptor, then § 542.21(e) and (f), § 542.31(e) and (f), or § 542.41(e) and (f) (as applicable) shall apply.

■ 4. Amend § 542.8 by revising paragraph (h)(1)(i) to read as follows:

#### § 542.8 What are the minimum internal control standards for pull tabs?

(h) \* \* \*

(1) \* \* \*

(i) If the electronic equipment contains a bill acceptor, then § 542.21(e) and (f), § 542.31(e) and (f), or § 542.41(e) and (f) (as applicable) shall apply.

■ 5. Amend § 542.12 by revising paragraphs (i)(4) and (k)(1)(v), (ix), and (xvii) to read as follows:

#### § 542.12 What are the minimum internal control standards for table games?

(i) \* \* \*

(4) The management in paragraph (i)(3) of this section shall investigate any unusual fluctuations in hold percentage with pit supervisory personnel.

(k) \* \* \*

(1) \* \* \*

(v) The marker form shall be prepared in at least triplicate form (triplicate form being defined as three parts performing the functions delineated in the standard in paragraph (k)(1)(vi) of this section),

with a preprinted or concurrently printed marker number, and utilized in numerical sequence. (This requirement shall not preclude the distribution of batches of markers to various pits.)

(ix) The forms required in paragraphs (k)(1)(v), (vi), and (viii) of this section shall be safeguarded, and adequate procedures shall be employed to control the distribution, use, and access to these forms.

(xvii) When partial payments are made in the pit, the payment slip of the marker that was originally issued shall be properly cross-referenced to the new marker number, completed with all information required by paragraph (k)(1)(xv) of this section, and inserted into the drop box.

■ 6. Amend § 542.13 by revising paragraph (h), (1)(4), and (m)(6) and (7) to read as follows:

#### § 542.13 What are the minimum internal control standards for gaming machines?

(h) Standards for evaluating theoretical and actual hold percentages.

(1) Accurate and current theoretical hold worksheets shall be maintained for each gaming machine.

(2) For multi-game/multi-denominational machines, an employee or department independent of the gaming machine department shall:

(i) Weekly, record the total coin-in meter;

(ii) Quarterly, record the coin-in meters for each payable contained in the machine; and

(iii) On an annual basis, adjust the theoretical hold percentage in the gaming machine statistical report to a weighted average based upon the ratio of coin-in for each game payable.

(3) For those gaming operations that are unable to perform the weighted average calculation as required by paragraph (h)(2) of this section, the following procedures shall apply:

(i) On at least an annual basis, calculate the actual hold percentage for each gaming machine;

(ii) On at least an annual basis, adjust the theoretical hold percentage in the gaming machine statistical report for each gaming machine to the previously calculated actual hold percentage; and

(iii) The adjusted theoretical hold percentage shall be within the spread between the minimum and maximum theoretical payback percentages.

(4) The adjusted theoretical hold percentage for multi-game/multi-

denominational machines may be combined for machines with exactly the same game mix throughout the year.

(5) The theoretical hold percentages used in the gaming machine analysis reports should be within the performance standards set by the manufacturer.

(6) Records shall be maintained for each machine indicating the dates and type of changes made and the recalculation of theoretical hold as a result of the changes.

(7) Records shall be maintained for each machine that indicate the date the machine was placed into service, the date the machine was removed from operation, the date the machine was placed back into operation, and any changes in machine numbers and designations.

(8) All of the gaming machines shall contain functioning meters that shall record coin-in or credit-in, or on-line gaming machine monitoring system that captures similar data.

(9) All gaming machines with bill acceptors shall contain functioning billing meters that record the dollar amounts or number of bills accepted by denomination.

(10) Gaming machine in-meter readings shall be recorded at least weekly (monthly for Tier A and Tier B gaming operations) immediately prior to or subsequent to a gaming machine drop. On-line gaming machine monitoring systems can satisfy this requirement. However, the time between readings may extend beyond one week in order for a reading to coincide with the end of an accounting period only if such extension is for no longer than six (6) days.

(11) The employee who records the in-meter reading shall either be independent of the hard count team or shall be assigned on a rotating basis, unless the in-meter readings are randomly verified quarterly for all gaming machines and bill acceptors by a person other than the regular in-meter reader.

(12) Upon receipt of the meter reading summary, the accounting department shall review all meter readings for reasonableness using pre-established parameters.

(13) Prior to final preparation of statistical reports, meter readings that do not appear reasonable shall be reviewed with gaming machine department employees or other appropriate designees, and exceptions documented, so that meters can be repaired or clerical errors in the recording of meter readings can be corrected.

(14) A report shall be produced at least monthly showing month-to-date, year-to-date (previous twelve (12) months data preferred), and if practicable, life-to-date actual hold percentage computations for individual machines and a comparison to each machine's theoretical hold percentage previously discussed.

(15) Each change to a gaming machine's theoretical hold percentage, including progressive percentage contributions, shall result in that machine being treated as a new machine in the statistical reports (*i.e.*, not commingling various hold percentages), except for adjustments made in accordance with paragraph (h)(2) of this section.

(16) If promotional payouts or awards are included on the gaming machine statistical reports, it shall be in a manner that prevents distorting the actual hold percentages of the affected machines.

(17) The statistical reports shall be reviewed by both gaming machine department management and management employees independent of the gaming machine department on at least a monthly basis.

(18) For those machines that have experienced at least 100,000 wagering transactions, large variances (three percent (3%) recommended) between theoretical hold and actual hold shall be investigated and resolved by a department independent of the gaming machine department with the findings documented and provided to the Tribal gaming regulatory authority upon request in a timely manner.

(19) Maintenance of the on-line gaming machine monitoring system data files shall be performed by a department independent of the gaming machine department. Alternatively, maintenance may be performed by gaming machine supervisory employees if sufficient documentation is generated and it is randomly verified on a monthly basis by employees independent of the gaming machine department.

(20) Updates to the on-line gaming machine monitoring system to reflect additions, deletions, or movements of gaming machines shall be made at least weekly prior to in-meter readings and the weigh process.

\* \* \* \* \*

(1) \* \* \*

(4) Reports, where applicable, adequately documenting the procedures required in paragraph (l)(3) of this section shall be generated and retained.

(m) \* \* \*

(6) For each drop period, accounting/auditing employees shall compare the

bill-in meter reading to the total bill acceptor drop amount for the period. Discrepancies shall be resolved before the generation/distribution of gaming machine statistical reports.

(7) Follow-up shall be performed for any one machine having an unresolved variance between actual currency drop and bill-in meter reading in excess of an amount that is both more than \$25 and at least three percent (3%) of the actual currency drop. The follow-up performed and results of the investigation shall be documented, maintained for inspection, and provided to the Tribal gaming regulatory authority upon request.

\* \* \* \* \*

■ 7. Revise § 542.18 to read as follows:

**§ 542.18 How does a gaming operation apply for a variance from the standards of the part?**

(a) *Tribal gaming regulatory authority approval.* (1) A Tribal gaming regulatory authority may approve a variance for a gaming operation if it has determined that the variance will achieve a level of control sufficient to accomplish the purpose of the standard it is to replace.

(2) For each enumerated standard for which the Tribal gaming regulatory authority approves a variance, it shall submit to the Chairman of the NIGC, within thirty (30) days, a detailed report, which shall include the following:

(i) A detailed description of the variance;

(ii) An explanation of how the variance achieves a level of control sufficient to accomplish the purpose of the standard it is to replace; and

(iii) Evidence that the Tribal gaming regulatory authority has approved the variance.

(3) In the event that the Tribal gaming regulatory authority or the Tribe chooses to submit a variance request directly to the Chairman, it may do so without the approval requirement set forth in paragraph (a)(2)(iii) of this section and such request shall be deemed as having been approved by the Tribal gaming regulatory authority.

(b) *Review by the Chairman.* (1) Following receipt of the variance approval, the Chairman or his or her designee shall have sixty (60) days to concur with or object to the approval of the variance.

(2) Any objection raised by the Chairman shall be in the form of a written explanation based upon the following criteria:

(i) There is no valid explanation of why the gaming operation should have received a variance approval from the Tribal gaming regulatory authority on the enumerated standard; or

(ii) The variance as approved by the Tribal gaming regulatory authority does not provide a level of control sufficient to accomplish the purpose of the standard it is to replace.

(3) If the Chairman fails to object in writing within sixty (60) days after the date of receipt of a complete submission, the variance shall be considered concurred with by the Chairman.

(4) The 60-day deadline may be extended, provided such extension is mutually agreed upon by the Tribal gaming regulatory authority and the Chairman.

(c) *Curing Chairman's objections.* (1) Following an objection by the Chairman to the issuance of a variance, the Tribal gaming regulatory authority shall have the opportunity to cure any objections noted by the Chairman.

(2) A Tribal gaming regulatory authority may cure the objections raised by the Chairman by:

(i) Rescinding its initial approval of the variance; or

(ii) Rescinding its initial approval, revising the variance, approving it, and re-submitting it to the Chairman.

(3) Upon any re-submission of a variance approval, the Chairman shall have thirty (30) days to concur with or object to the re-submitted variance.

(4) If the Chairman fails to object in writing within thirty (30) days after the date of receipt of the re-submitted variance, the re-submitted variance shall be considered concurred with by the Chairman.

(5) The thirty (30) day deadline may be extended, provided such extension is mutually agreed upon by the Tribal gaming regulatory authority and the Chairman.

(d) *Appeals.* (1) Upon receipt of objections to a re-submission of a variance, the Tribal gaming regulatory authority shall be entitled to an appeal to the full Commission in accordance with the following process:

(i) Within thirty (30) days of receiving an objection to a re-submission, the Tribal gaming regulatory authority shall file its notice of appeal.

(ii) Failure to file an appeal within the time provided by this section shall result in a waiver of the opportunity for an appeal.

(iii) An appeal under this section shall specify the reasons why the Tribal gaming regulatory authority believes the Chairman's objections should be reviewed, and shall include supporting documentation, if any.

(iv) The Tribal gaming regulatory authority shall be provided with any comments offered by the Chairman to the Commission on the substance of the

appeal by the Tribal gaming regulatory authority and shall be offered the opportunity to respond to any such comments.

(v) Within thirty (30) days after receipt of the appeal, the Commission shall render a decision based upon the criteria contained within paragraph (b)(2) of this section unless the Tribal gaming regulatory authority elects to waive the thirty (30) day requirement and to provide the Commission additional time, not to exceed an additional thirty (30) days, to render a decision.

(vi) In the absence of a decision within the time provided, the Tribal gaming regulatory authority's resubmission shall be considered concurred with by the Commission and become effective.

(2) The Tribal gaming regulatory authority may appeal the Chairman's objection to the approval of a variance to the full Commission without resubmitting the variance by filing a notice of appeal with the full Commission within thirty (30) days of the Chairman's objection and complying with the procedures described in paragraph (d)(1) of this section.

(e) *Effective date of variance.* The gaming operation shall comply with standards that achieve a level of control sufficient to accomplish the purpose of the standard it is to replace until such time as the Commission objects to the Tribal gaming regulatory authority's approval of a variance as provided in paragraph (b) of this section. Concurrence in a variance by the Chairman or Commission is discretionary and variances will not be granted routinely. The gaming operation shall comply with standards at least as stringent as those set forth in this part until such time as the Chairman or Commission concurs with the Tribal gaming regulatory authority's approval of a variance.

■ 8. Amend § 542.21 by redesignating paragraphs (t) and (u) as paragraphs (v) and (w) and by adding new paragraphs (t) and (u) to read as follows:

**§ 542.21 What are the minimum internal controls for drop and count for Tier A gaming operations?**

\* \* \* \* \*

(t) *Gaming machine computerized key security systems.* (1) Computerized key security systems which restrict access to the gaming machine drop and count keys through the use of passwords, keys or other means, other than a key custodian, must provide the same degree of control as indicated in the aforementioned key control standards; refer to paragraphs (l), (o), (q) and (s) of

this section. Note: This standard does not apply to the system administrator. The system administrator is defined in paragraph (t)(2)(i) of this section

(2) For computerized key security systems, the following additional gaming machine key control procedures apply:

(i) Management personnel independent of the gaming machine department assign and control user access to keys in the computerized key security system (i.e., system administrator) to ensure that gaming machine drop and count keys are restricted to authorized employees.

(ii) In the event of an emergency or the key box is inoperable, access to the emergency manual key(s) (a.k.a. override key), used to access the box containing the gaming machine drop and count keys, requires the physical involvement of at least three persons from separate departments, including management. The date, time, and reason for access, must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(iii) The custody of the keys issued pursuant to paragraph (t)(2)(ii) of this section requires the presence of two persons from separate departments from the time of their issuance until the time of their return.

(iv) Routine physical maintenance that requires accessing the emergency manual key(s) (override key) and does not involve the accessing of the gaming machine drop and count keys, only requires the presence of two persons from separate departments. The date, time and reason for access must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(3) For computerized key security systems controlling access to gaming machine drop and count keys, accounting/audit personnel, independent of the system administrator, will perform the following procedures:

(i) Daily, review the report generated by the computerized key security system indicating the transactions performed by the individual(s) that adds, deletes, and changes user's access within the system (i.e., system administrator). Determine whether the transactions completed by the system administrator provide an adequate control over the access to the gaming machine drop and count keys. Also, determine whether any gaming machine drop and count key(s) removed or returned to the key cabinet by the system administrator was properly authorized.

(ii) For at least one day each month, review the report generated by the computerized key security system indicating all transactions performed to determine whether any unusual gaming machine drop and count key removals or key returns occurred.

(iii) At least quarterly, review a sample of users that are assigned access to the gaming machine drop and count keys to determine that their access to the assigned keys is adequate relative to their job position.

(iv) All noted improper transactions or unusual occurrences are investigated with the results documented.

(4) Quarterly, an inventory of all count room, drop box release, storage rack and contents keys is performed, and reconciled to records of keys made, issued, and destroyed. Investigations are performed for all keys unaccounted for, with the investigation being documented.

(u) *Table games computerized key security systems.* (1) Computerized key security systems which restrict access to the table game drop and count keys through the use of passwords, keys or other means, other than a key custodian, must provide the same degree of control as indicated in the aforementioned key control standards; refer to paragraphs (m), (n), (p) and (r) of this section. Note: This standard does not apply to the system administrator. The system administrator is defined in paragraph (u)(2)(ii) of this section.

(2) For computerized key security systems, the following additional table game key control procedures apply:

(i) Management personnel independent of the table game department assign and control user access to keys in the computerized key security system (*i.e.*, system administrator) to ensure that table game drop and count keys are restricted to authorized employees.

(ii) In the event of an emergency or the key box is inoperable, access to the emergency manual key(s) (a.k.a. override key), used to access the box containing the table game drop and count keys, requires the physical involvement of at least three persons from separate departments, including management. The date, time, and reason for access, must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(iii) The custody of the keys issued pursuant to paragraph (u)(2)(ii) of this section requires the presence of two persons from separate departments from the time of their issuance until the time of their return.

(iv) Routine physical maintenance that requires accessing the emergency manual key(s) (override key) and does not involve the accessing of the table games drop and count keys, only requires the presence of two persons from separate departments. The date, time and reason for access must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(3) For computerized key security systems controlling access to table games drop and count keys, accounting/audit personnel, independent of the system administrator, will perform the following procedures:

(i) Daily, review the report generated by the computerized key security system indicating the transactions performed by the individual(s) that adds, deletes, and changes user's access within the system (*i.e.*, system administrator). Determine whether the transactions completed by the system administrator provide an adequate control over the access to the table games drop and count keys. Also, determine whether any table games drop and count key(s) removed or returned to the key cabinet by the system administrator was properly authorized.

(ii) For at least one day each month, review the report generated by the computerized key security system indicating all transactions performed to determine whether any unusual table games drop and count key removals or key returns occurred.

(iii) At least quarterly, review a sample of users that are assigned access to the table games drop and count keys to determine that their access to the assigned keys is adequate relative to their job position.

(iv) All noted improper transactions or unusual occurrences are investigated with the results documented.

(4) Quarterly, an inventory of all count room, table game drop box release, storage rack and contents keys is performed, and reconciled to records of keys made, issued, and destroyed. Investigations are performed for all keys unaccounted for, with the investigations being documented.

(v) *Emergency drop procedures.* Emergency drop procedures shall be developed by the Tribal gaming regulatory authority, or the gaming operation as approved by the Tribal gaming regulatory authority.

(w) *Equipment standards for gaming machine count.* (1) A weigh scale calibration module shall be secured so as to prevent unauthorized access (*e.g.*, prenumbered seal, lock and key, etc.).

(2) A person independent of the cage, vault, gaming machine, and count team functions shall be required to be present whenever the calibration module is accessed. Such access shall be documented and maintained.

(3) If a weigh scale interface is used, it shall be adequately restricted so as to prevent unauthorized access (passwords, keys, etc.).

(4) If the weigh scale has a zero adjustment mechanism, it shall be physically limited to minor adjustments (*e.g.*, weight of a bucket) or physically situated such that any unnecessary adjustments to it during the weigh process would be observed by other count team members.

(5) The weigh scale and weigh scale interface (if applicable) shall be tested by a person or persons independent of the cage, vault, and gaming machine departments and count team at least quarterly. At least annually, this test shall be performed by internal audit in accordance with the internal audit standards. The result of these tests shall be documented and signed by the person or persons performing the test.

(6) Prior to the gaming machine count, at least two employees shall verify the accuracy of the weigh scale with varying weights or with varying amounts of previously counted coin for each denomination to ensure the scale is properly calibrated (varying weights/coin from drop to drop is acceptable).

(7) If a mechanical coin counter is used (instead of a weigh scale), the Tribal gaming regulatory authority, or the gaming operation as approved by the Tribal gaming regulatory authority, shall establish and the gaming operation shall comply, with procedures that are equivalent to those described in paragraphs (u)(4), (u)(5), and (u)(6) of this section.

(8) If a coin meter count machine is used, the count team member shall record the machine number denomination and number of coins in ink on a source document, unless the meter machine automatically records such information.

(i) A count team member shall test the coin meter count machine prior to the actual count to ascertain if the metering device is functioning properly with a predetermined number of coins for each denomination.

(ii) [Reserved]

■ 9. Amend § 542.31 by redesignating paragraphs (t) and (u) as paragraphs (v) and (w) and by adding new paragraphs (t) and (u) to read as follows:

**§ 542.31 What are the minimum internal controls for drop and count Tier B gaming operations?**

\* \* \* \* \*

(t) *Gaming machine computerized key security systems.* (1) Computerized key security systems which restrict access to the gaming machine drop and count keys through the use of passwords, keys or other means, other than a key custodian, must provide the same degree of control as indicated in the aforementioned key control standards; refer to paragraphs (l), (o), (q) and (s) of this section. Note: This standard does not apply to the system administrator. The system administrator is defined in paragraph (t)(2)(i) of this section.

(2) For computerized key security systems, the following additional gaming machine key control procedures apply:

(i) Management personnel independent of the gaming machine department assign and control user access to keys in the computerized key security system (*i.e.*, system administrator) to ensure that gaming machine drop and count keys are restricted to authorized employees.

(ii) In the event of an emergency or the key box is inoperable, access to the emergency manual key(s) (*a.k.a.* override key), used to access the box containing the gaming machine drop and count keys, requires the physical involvement of at least three persons from separate departments, including management. The date, time, and reason for access, must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(iii) The custody of the keys issued pursuant to paragraph (t)(2)(ii) of this section, requires the presence of two persons from separate departments from the time of their issuance until the time of their return.

(iv) Routine physical maintenance that requires accessing the emergency manual key(s) (override key) and does not involve the accessing of the gaming machine drop and count keys, only requires the presence of two persons from separate departments. The date, time and reason for access must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(3) For computerized key security systems controlling access to gaming machine drop and count keys, accounting/audit personnel, independent of the system administrator, will perform the following procedures:

(i) Daily, review the report generated by the computerized key security

system indicating the transactions performed by the individual(s) that adds, deletes, and changes user's access within the system (*i.e.*, system administrator). Determine whether the transactions completed by the system administrator provide an adequate control over the access to the gaming machine drop and count keys. Also, determine whether any gaming machine drop and count key(s) removed or returned to the key cabinet by the system administrator was properly authorized.

(ii) For at least one day each month, review the report generated by the computerized key security system indicating all transactions performed to determine whether any unusual gaming machine drop and count key removals or key returns occurred.

(iii) At least quarterly, review a sample of users that are assigned access to the gaming machine drop and count keys to determine that their access to the assigned keys is adequate relative to their job position.

(iv) All noted improper transactions or unusual occurrences are investigated with the results documented.

(4) Quarterly, an inventory of all count room, drop box release, storage rack and contents keys is performed, and reconciled to records of keys made, issued, and destroyed. Investigations are performed for all keys unaccounted for, with the investigation being documented.

(u) *Table games computerized key security systems.* (1) Computerized key security systems which restrict access to the table game drop and count keys through the use of passwords, keys or other means, other than a key custodian, must provide the same degree of control as indicated in the aforementioned key control standards, refer to paragraphs (m), (n), (p) and (r) of this section. Note: This standard does not apply to the system administrator. The system administrator is defined in paragraph (u)(2)(ii) of this section.

(2) For computerized key security systems, the following additional table game key control procedures apply:

(i) Management personnel independent of the table game department assign and control user access to keys in the computerized key security system (*i.e.*, system administrator) to ensure that table game drop and count keys are restricted to authorized employees.

(ii) In the event of an emergency or the key box is inoperable, access to the emergency manual key(s) (*a.k.a.* override key), used to access the box containing the table game drop and count keys, requires the physical

involvement of at least three persons from separate departments, including management. The date, time, and reason for access, must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(iii) The custody of the keys issued pursuant to paragraph (u)(2)(ii) of this section, requires the presence of two persons from separate departments from the time of their issuance until the time of their return.

(iv) Routine physical maintenance that requires accessing the emergency manual key(s) (override key) and does not involve the accessing of the table games drop and count keys, only requires the presence of two persons from separate departments. The date, time and reason for access must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(3) For computerized key security systems controlling access to table games drop and count keys, accounting/audit personnel, independent of the system administrator, will perform the following procedures:

(i) Daily, review the report generated by the computerized key security system indicating the transactions performed by the individual(s) that adds, deletes, and changes user's access within the system (*i.e.*, system administrator). Determine whether the transactions completed by the system administrator provide an adequate control over the access to the table games drop and count keys. Also, determine whether any table games drop and count key(s) removed or returned to the key cabinet by the system administrator was properly authorized.

(ii) For at least one day each month, review the report generated by the computerized key security system indicating all transactions performed to determine whether any unusual table games drop and count key removals or key returns occurred.

(iii) At least quarterly, review a sample of users that are assigned access to the table games drop and count keys to determine that their access to the assigned keys is adequate relative to their job position.

(iv) All noted improper transactions or unusual occurrences are investigated with the results documented.

(4) Quarterly, an inventory of all count room, table game drop box release, storage rack and contents keys is performed, and reconciled to records of keys made, issued, and destroyed. Investigations are performed for all keys

unaccounted for, with the investigations being documented.

(v) *Emergency drop procedures.* Emergency drop procedures shall be developed by the Tribal gaming regulatory authority, or the gaming operation as approved by the Tribal gaming regulatory authority.

(w) *Equipment standards for gaming machine count.* (1) A weigh scale calibration module shall be secured so as to prevent unauthorized access (e.g., prenumbered seal, lock and key, etc.).

(2) A person independent of the cage, vault, gaming machine, and count team functions shall be required to be present whenever the calibration module is accessed. Such access shall be documented and maintained.

(3) If a weigh scale interface is used, it shall be adequately restricted so as to prevent unauthorized access (passwords, keys, etc.).

(4) If the weigh scale has a zero adjustment mechanism, it shall be physically limited to minor adjustments (e.g., weight of a bucket) or physically situated such that any unnecessary adjustments to it during the weigh process would be observed by other count team members.

(5) The weigh scale and weigh scale interface (if applicable) shall be tested by a person or persons independent of the cage, vault, and gaming machine departments and count team at least quarterly. At least annually, this test shall be performed by internal audit in accordance with the internal audit standards. The result of these tests shall be documented and signed by the person or persons performing the test.

(6) Prior to the gaming machine count, at least two employees shall verify the accuracy of the weigh scale with varying weights or with varying amounts of previously counted coin for each denomination to ensure the scale is properly calibrated (varying weights/coin from drop to drop is acceptable).

(7) If a mechanical coin counter is used (instead of a weigh scale), the Tribal gaming regulatory authority, or the gaming operation as approved by the Tribal gaming regulatory authority, shall establish and the gaming operation shall comply, with procedures that are equivalent to those described in paragraphs (u)(4), (u)(5), and (u)(6) of this section.

(8) If a coin meter count machine is used, the count team member shall record the machine number denomination and number of coins in ink on a source document, unless the meter machine automatically records such information.

(i) A count team member shall test the coin meter count machine prior to the

actual count to ascertain if the metering device is functioning properly with a predetermined number of coins for each denomination.

(ii) [Reserved]

■ 10. Amend § 542.41 by redesignating paragraphs (t) and (u) as paragraphs (v) and (w) and by adding new paragraphs (t) and (u) to read as follows:

**§ 542.41 What are the minimum internal controls for drop and count for Tier: C gaming operations?**

\* \* \* \* \*

(t) *Gaming machine computerized key security systems.* (1) Computerized key security systems which restrict access to the gaming machine drop and count keys through the use of passwords, keys or other means, other than a key custodian, must provide the same degree of control as indicated in the aforementioned key control standards; refer to paragraphs (l), (o), (q) and (s) of this section. Note: This standard does not apply to the system administrator. The system administrator is defined in paragraph (t)(2)(i) of this section.

(2) For computerized key security systems, the following additional gaming machine key control procedures apply:

(i) Management personnel independent of the gaming machine department assign and control user access to keys in the computerized key security system (i.e., system administrator) to ensure that gaming machine drop and count keys are restricted to authorized employees.

(ii) In the event of an emergency or the key box is inoperable, access to the emergency manual key(s) (a.k.a. override key), used to access the box containing the gaming machine drop and count keys, requires the physical involvement of at least three persons from separate departments, including management. The date, time, and reason for access, must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(iii) The custody of the keys issued pursuant to paragraph (t)(2)(ii) of this section requires the presence of two persons from separate departments from the time of their issuance until the time of their return.

(iv) Routine physical maintenance that requires accessing the emergency manual key(s) (override key) and does not involve the accessing of the gaming machine drop and count keys, only requires the presence of two persons from separate departments. The date, time and reason for access must be documented with the signatures of all

participating employees signing out/in the emergency manual key(s).

(3) For computerized key security systems controlling access to gaming machine drop and count keys, accounting/audit personnel, independent of the system administrator, will perform the following procedures:

(i) Daily, review the report generated by the computerized key security system indicating the transactions performed by the individual(s) that adds, deletes, and changes user's access within the system (i.e., system administrator). Determine whether the transactions completed by the system administrator provide an adequate control over the access to the gaming machine drop and count keys. Also, determine whether any gaming machine drop and count key(s) removed or returned to the key cabinet by the system administrator was properly authorized.

(ii) For at least one day each month, review the report generated by the computerized key security system indicating all transactions performed to determine whether any unusual gaming machine drop and count key removals or key returns occurred.

(iii) At least quarterly, review a sample of users that are assigned access to the gaming machine drop and count keys to determine that their access to the assigned keys is adequate relative to their job position.

(iv) All noted improper transactions or unusual occurrences are investigated with the results documented.

(4) Quarterly, an inventory of all count room, drop box release, storage rack and contents keys is performed, and reconciled to records of keys made, issued, and destroyed. Investigations are performed for all keys unaccounted for, with the investigation being documented.

(u) *Table games computerized key security systems.* (1) Computerized key security systems which restrict access to the table game drop and count keys through the use of passwords, keys or other means, other than a key custodian, must provide the same degree of control as indicated in the aforementioned key control standards; refer to paragraphs (m), (n), (p) and (r) of this section. Note: This standard does not apply to the system administrator. The system administrator is defined in paragraph (u)(2)(ii) of this section.

(2) For computerized key security systems, the following additional table game key control procedures apply:

(i) Management personnel independent of the table game department assign and control user

access to keys in the computerized key security system (*i.e.*, system administrator) to ensure that table game drop and count keys are restricted to authorized employees.

(ii) In the event of an emergency or the key box is inoperable, access to the emergency manual key(s) (a.k.a. override key), used to access the box containing the table game drop and count keys, requires the physical involvement of at least three persons from separate departments, including management. The date, time, and reason for access, must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(iii) The custody of the keys issued pursuant to paragraph (u)(2)(ii) of this section requires the presence of two persons from separate departments from the time of their issuance until the time of their return.

(iv) Routine physical maintenance that requires accessing the emergency manual key(s) override key) and does not involve the accessing of the table games drop and count keys, only requires the presence of two persons from separate departments. The date, time and reason for access must be documented with the signatures of all participating employees signing out/in the emergency manual key(s).

(3) For computerized key security systems controlling access to table games drop and count keys, accounting/audit personnel, independent of the system administrator, will perform the following procedures:

(i) Daily, review the report generated by the computerized key security system indicating the transactions performed by the individual(s) that adds, deletes, and changes user's access within the system (*i.e.*, system administrator). Determine whether the transactions completed by the system administrator provide an adequate control over the access to the table games drop and count keys. Also, determine whether any table games drop and count key(s) removed or returned to the key cabinet by the system administrator was properly authorized.

(ii) For at least one day each month, review the report generated by the computerized key security system indicating all transactions performed to determine whether any unusual table games drop and count key removals or key returns occurred.

(iii) At least quarterly, review a sample of users that are assigned access to the table games drop and count keys to determine that their access to the

assigned keys is adequate relative to their job position.

(iv) All noted improper transactions or unusual occurrences are investigated with the results documented.

(4) Quarterly, an inventory of all count room, table game drop box release, storage rack and contents keys is performed, and reconciled to records of keys made, issued, and destroyed. Investigations are performed for all keys unaccounted for, with the investigations being documented.

(v) *Emergency drop procedures.* Emergency drop procedures shall be developed by the Tribal gaming regulatory authority, or the gaming operation as approved by the Tribal gaming regulatory authority.

(w) *Equipment standards for gaming machine count.* (1) A weigh scale calibration module shall be secured so as to prevent unauthorized access (*e.g.*, prenumbered seal, lock and key, etc.).

(2) A person independent of the cage, vault, gaming machine, and count team functions shall be required to be present whenever the calibration module is accessed. Such access shall be documented and maintained.

(3) If a weigh scale interface is used, it shall be adequately restricted so as to prevent unauthorized access (passwords, keys, etc.).

(4) If the weigh scale has a zero adjustment mechanism, it shall be physically limited to minor adjustments (*e.g.*, weight of a bucket) or physically situated such that any unnecessary adjustments to it during the weigh process would be observed by other count team members.

(5) The weigh scale and weigh scale interface (if applicable) shall be tested by a person or persons independent of the cage, vault, and gaming machine departments and count team at least quarterly. At least annually, this test shall be performed by internal audit in accordance with the internal audit standards. The result of these tests shall be documented and signed by the person or persons performing the test.

(6) Prior to the gaming machine count, at least two employees shall verify the accuracy of the weigh scale with varying weights or with varying amounts of previously counted coin for each denomination to ensure the scale is properly calibrated (varying weights/coin from drop to drop is acceptable).

(7) If a mechanical coin counter is used (instead of a weigh scale), the Tribal gaming regulatory authority, or the gaming operation as approved by the Tribal gaming regulatory authority, shall establish and the gaming operation shall comply, with procedures that are equivalent to those described in

paragraphs (u)(4), (u)(5), and (u)(6) of this section.

(8) If a coin meter count machine is used, the count team member shall record the machine number denomination and number of coins in ink on a source document, unless the meter machine automatically records such information.

(i) A count team member shall test the coin meter count machine prior to the actual count to ascertain if the metering device is functioning properly with a predetermined number of coins for each denomination.

(ii) [Reserved]

Signed in Washington, DC, this 21st day of April, 2005.

**Philip N. Hogen,**  
Chairman.

**Nelson Westrin,**  
Vice-Chairman.

**Cloyce Choney,**  
Commissioner.

BILLING CODE 7565-01-P

## DEPARTMENT OF VETERANS AFFAIRS

### 38 CFR Part 3

RIN 2900-AL90

#### Presumption of Sound Condition: Aggravation of a Disability by Active Service

**AGENCY:** Department of Veterans Affairs.  
**ACTION:** Final rule.

**SUMMARY:** This document amends the Department of Veterans Affairs (VA) adjudication regulations regarding the presumption of soundness of a veteran by adding a requirement that, in order to rebut the presumption of soundness of a veteran on entrance into active service, VA must prove not only that the condition existed prior to entrance into active service, but also that it was not aggravated by the veteran's active service. This amendment reflects a change in VA's interpretation of the statute governing the presumption of sound condition, and is based on a recent opinion of VA's General Counsel as well as a recent decision of the United States Court of Appeals for the Federal Circuit. The intended effect of this amendment is to require that VA, not the claimant, prove that the disability preexisted entrance into military service and that the disability was not aggravated by such service before the presumption of soundness on entrance onto active duty is overcome.

**DATES:** Effective Date: May 4, 2005.

**Applicability Date:** This rule applies to claims that were pending on or filed after the effective date of this rule, May 4, 2005. It does not apply to claims that were finally decided prior to the effective date of this rule or to collateral challenges to final decisions rendered prior to the effective date of this rule.

**FOR FURTHER INFORMATION CONTACT:** David Barrans, Attorney, Office of General Counsel (022), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, telephone (202) 273-6315.

**SUPPLEMENTARY INFORMATION:** VA is amending its adjudication regulations at 38 CFR 3.304(b) to reflect a change in the interpretation of the statute governing the presumption of sound condition.

Section 1111 of title 38, United States Code, provides that veterans are presumed to have been in sound condition when they were examined, accepted, and enrolled for service, except as to conditions that were noted at the time, or "where clear and unmistakable evidence demonstrates that the injury or disease existed before acceptance and enrollment and was not aggravated by such service." Section 1153 of title 38, United States Code, states that "[a] preexisting disease will be considered to have been aggravated by active military, naval, or air service, where there is an increase in disability during such service, unless there is a specific finding that the increase in disability is due to the natural progress of the disease."

VA's regulation implementing the presumption of sound condition, 38 CFR 3.304(b), historically has stated that the presumption may be rebutted by clear and unmistakable evidence that a condition existed prior to service. Although this appears to ignore the last seven words of 38 U.S.C. 1111 ("and was not aggravated by such service"), VA historically has interpreted those seven words to relate to the presumption of aggravation under 38 U.S.C. 1153. Accordingly, VA's regulation implementing the presumption of aggravation under 38 U.S.C. 1153 also implements the last seven words of section 1111, as VA previously construed those words. That regulation, 38 CFR 3.306(b), states that, when a preexisting disability increased in severity during service, the presumption of aggravation may be rebutted only by clear and unmistakable evidence that the increase was due to the natural progress of the disease. The regulation further states that aggravation will not be conceded when a preexisting

disability underwent no increase in severity during service.

Under VA's current regulations, if a condition was not noted at entry but is shown by clear and unmistakable evidence to have existed prior to entry, the burden then shifts to the claimant to show that the condition increased in severity during service. Only if the claimant satisfies this burden will VA incur the burden of refuting aggravation by clear and unmistakable evidence.

VA is revising its interpretation of section 1111 to provide that, if a condition is not noted at entry into service, the presumption of sound condition can be rebutted only if clear and unmistakable evidence shows both that the condition existed prior to service and that the condition was not aggravated by service. Under this interpretation, the burden does not shift to the claimant to establish that a preexisting condition increased in severity during service. Rather, VA alone bears the burden of proving both that the condition existed prior to service and that it was not aggravated by service. If the evidence fails to support either of those findings, the presumption of sound condition is not rebutted.

Our revised interpretation of section 1111 is based on the extensive analysis of the history of that statute stated in a precedent opinion of VA's General Counsel, VAOPGCPREC 3-2003, and the Federal Circuit's opinion in *Wagner v. Principi*, No. 02-7347 (Fed. Cir. June 1, 2004). As the General Counsel and the Federal Circuit noted, the language of section 1111 literally provides that, if a condition was not noted at entry into service, VA bears the burden of showing both that the condition existed prior to service and that it was not aggravated by service. If VA fails to establish either of those facts, the claimant would be entitled to a presumption that he or she entered service in sound condition.

VA has previously refrained from adopting a strictly literal interpretation of section 1111, because such a literal reading compels results that have been described as "illogical" by the General Counsel, "self-contradictory" by the Federal Circuit, and possibly "absurd" by the United States Court of Appeals for Veterans Claims. See VAOPGCPREC 3-2003, *Wagner*, slip op. at 8; *Cotant v. Principi*, 17 Vet. App. 116, 129 (2003). Among other things, a literal construction of the statute would require VA to presume that a veteran entered service in sound condition even in cases where clear and unmistakable evidence shows the contrary, merely because VA cannot prove the absence of aggravation in service. It is unclear why

the question of whether a preexisting disability was aggravated in service should have any bearing on the logically preliminary question of whether there was a preexisting disability at all.

Despite these concerns, VA's General Counsel and the Federal Circuit have concluded that the legislative history of section 1111 strongly suggests that Congress intended what the language of the statute literally requires. The General Counsel also concluded that, although the statute's requirements seemed counterintuitive, they were not so bizarre that Congress could not have intended them.

The rebuttal standard in what is now section 1111 originated in the Act of July 13, 1943, ch. 233, § 9(b), 57 Stat. 554, 556 (Pub. L. 78-144), as an amendment to Veterans' Regulation No. 1(a), part I, para. I(b) (Exec. Ord. No. 6,156) (June 6, 1933). Prior to the amendment, paragraph I(b) stated that the presumption of soundness could be rebutted "where evidence or medical judgment is such as to warrant a finding that the injury or disease existed prior to acceptance and enrollment." In 1943, a bill was introduced in the House to make the presumption of soundness irrebuttable (see H.R. 2703, 78th Cong., 1st Sess. (1943)). That bill apparently was introduced in response to the concern that "a great many men have been turned out of the service after they had served for a long period of time, some of them probably 2 or 3 years, on the theory that they were disabled before they were ever taken into the service" (89 Cong. Rec. 7463 (daily ed. July 7, 1943) (statement of Cong. Rankin)). The Administrator of Veterans Affairs recommended that the bill be revised to permit rebuttal of the presumption "where clear and unmistakable evidence demonstrates that the injury or disease existed prior to acceptance and enrollment" (S. Rep. No. 403, 78th Cong., 1st Sess. 6 (1943)). The Senate thereafter approved an amendment to the bill adopting the Administrator's suggested language, but adding to it the phrase "and was not aggravated by such active military or naval service." That language was approved by the House and was included in the legislation enacted as Public Law 78-144. The provisions of Veterans' Regulation No. 1(a), part I, para. I(b), as amended, were subsequently codified without material change at 38 U.S.C. 311, later renumbered as section 1111.

A Senate Committee Report concerning the 1943 statute stated that "[t]he language added by the committee, 'and was not aggravated by such active military or naval service' is to make

clear the intention to preserve the right in aggravation cases as was done in Public [Law] No. [73-]141." S. Rep. No. 403, at 2. Public Law 73-141, referenced as the model for the Senate amendment, provided for restoration of service-connected disability awards that had been severed under depression-era statutes, and provided that:

The provisions of this section shall not apply \* \* \* to persons as to whom clear and unmistakable evidence discloses that the disease, injury, or disability had inception before or after the period of active military or naval service, unless such disease, injury, or disability is shown to have been aggravated during service \* \* \* and as to all such cases enumerated in this proviso, all reasonable doubts shall be resolved in favor of the veteran, the burden of proof being on the Government.

Act of March 27, 1943, ch. 100, § 27, 48 Stat. 508, 524. This statute appears to have placed the burden on the government to show by clear and unmistakable evidence both that the disability existed prior to service and that it was not aggravated by service. It is thus consistent with the view that the presumption of soundness enacted in 1943 was intended to place the burden of proof on VA with respect to both issues. That purpose is also reflected in other statements made during the debate on the 1943 legislation. See 89 Cong. Rec. 7463 (daily ed. July 7, 1943) (statement of Rep. Rankin) ("It places the burden of proof on the Veterans' Administration to show by unmistakable evidence that the injury or disease existed prior to acceptance and enrollment and was not aggravated by such active military or naval service.")

Based on the foregoing authorities, VA is revising its regulations at 38 CFR 3.304(b) to provide that, in order to rebut the presumption of sound condition, VA must establish by clear and convincing evidence both that the disability existed prior to service and that it was not aggravated by service. To accomplish this, VA is amending § 3.304(b) by adding, at the end of the first sentence, "and was not aggravated by such service."

The effect of this new interpretation is to establish different standards to govern for disabilities that were noted at entry into service and those that were not. If a disability was not noted at entry into service, VA will apply the presumption of sound condition under 38 U.S.C. 1111. If VA fails to establish either that the disability existed prior to service or that it was not aggravated by service, the presumption of sound condition will govern and the disability will be considered to have been incurred in service if all other

requirements for service connection are established. In such cases, the presumption of aggravation in 38 U.S.C. 1153 will not apply because VA will presume that the veteran entered service in sound condition. On the other hand, if a condition was noted at entry into service, VA will consider the claim with respect to the presumption of aggravation in section 1153.

This final rule is an interpretative rule explaining how VA construes 38 U.S.C. 1111, and it merely reflects the holding in the Federal Circuit's decision in *Wagner*. Accordingly, there is a basis for dispensing with prior notice and comment and delayed effective date provisions of 5 U.S.C. 552 and 553.

#### Unfunded Mandates

The Unfunded Mandates Reform Act of 1995 requires, at 2 U.S.C. 1532, that agencies prepare an assessment of anticipated costs and benefits before developing any rule that may result in an expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more (adjusted annually for inflation) in any given year. This rule would have no such effect on State, local, or tribal governments, or the private sector.

#### Regulatory Flexibility Act

The Secretary hereby certifies that this regulatory amendment will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601-612. Only VA beneficiaries could be directly affected. Therefore, pursuant to 5 U.S.C. 605(b), this amendment is exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

#### Paperwork Reduction Act

This document contains no provisions constituting a collection of information under the Paperwork Reduction Act (44 U.S.C. 3501-3521).

The Catalog of Federal Domestic Assistance program numbers are 64.102, 64.109 and 64.110.

#### List of Subjects in 38 CFR Part 3

Administrative practice and procedure, Claims, Health care, Individuals with disabilities, Pensions, Veterans.

Approved: April 4, 2005.

Gordon H. Mansfield,

Deputy Secretary of Veterans Affairs.

■ For the reasons set forth in the preamble, 38 CFR part 3 is amended as follows:

## PART 3—ADJUDICATION

### Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

- 1. The authority citation for part 3, subpart A continues to read as follows:

Authority: 38 U.S.C. 501(a), unless otherwise noted.

#### § 3.304 [Amended]

- 2. In § 3.304, paragraph (b) introductory text, remove "thereto." and add, in its place, "thereto and was not aggravated by such service."

[FR Doc. 05-8899 Filed 5-3-05; 8:45 am]

BILLING CODE 8320-01-P

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[R05-OAR-2004-MI-0002; FRL-7904-4]

### Approval and Promulgation of State Implementation Plans: Michigan: Oxides of Nitrogen

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

**SUMMARY:** The EPA is approving as a revision to Michigan's Clean Air Act State Implementation Plan (SIP) prepared by Michigan that will limit the emissions of oxides of nitrogen (NO<sub>x</sub>) from large stationary sources (i.e., electric generating units, industrial boilers and cement kilns). This SIP, which the Michigan Department of Environmental Quality (MDEQ) submitted for EPA approval on August 5, 2004, meets all of the requirements contained in an EPA rule that was published in the *Federal Register* on October 27, 1998. The federal rule, otherwise known as the Phase I NO<sub>x</sub> SIP Call, requires NO<sub>x</sub> reductions from sources in 19 States in the eastern half of the country and the District of Columbia. MDEQ's August 5, 2004, submittal also satisfies the conditions described in EPA's conditional approval notice published in the *Federal Register* on April 16, 2004. The effect of this approval is to ensure federal enforceability of the state NO<sub>x</sub> plan and to maintain consistency between the state-adopted plan and the approved Michigan SIP. EPA proposed approval of this SIP revision and published a direct final approval on December 23, 2004. EPA received adverse comments on the proposed rulemaking and, therefore, withdrew the direct final rulemaking on February 15, 2005.

**DATES:** This rule is effective June 3, 2005.

**ADDRESSES:** EPA has established a docket for this action under Regional Material in EDocket (RME) ID No. R05-OAR-2004-MI-0002. All documents in the docket are listed in the index. Although listed in the index, some information is not publicly available, i.e., consolidated business information (CBI) or other information where disclosure is restricted by statute. Publicly available docket materials are available in hard copy at the following address: United States Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. The Docket Facility is open during normal business hours, Monday through Friday, excluding legal holidays. We recommend that you telephone Douglas Aburano at (312) 353-6960, before visiting the Region 5 office.

**FOR FURTHER INFORMATION CONTACT:** Douglas Aburano, Environmental Engineer, Criteria Pollutant Section, Air Programs Branch, United States Environmental Protection Agency, Region 5, Mailcode AR-18J, 77 West Jackson Boulevard, Chicago, Illinois 60604. Telephone: (312) 353-6960. E-mail address: [aburano.douglas@epa.gov](mailto:aburano.douglas@epa.gov).

**SUPPLEMENTARY INFORMATION:** This supplemental information section is organized as follows:

- I. Does This Action Apply to Me?
- II. What Action Is EPA Taking Today?
- III. What Is the Background for this Action?
- IV. What Public Comments Were Received and What Is EPA's Response?
- V. Statutory and Executive Order Reviews.

## General Information

### I. Does This Action Apply to Me?

This action applies to large stationary sources of NO<sub>x</sub> (such as electric generating units that produce electricity for sale, other large boilers that produce steam and/or electricity but do not sell electricity, and cement kilns) in the southern counties (Allegan, Barry, Bay, Berrien, Branch, Calhoun, Cass, Clinton, Eaton, Genesee, Gratiot, Hillsdale, Ingham, Ionia, Isabella, Jackson, Kalamazoo, Kent, Lapeer, Lenawee, Livingston, Macomb, Mecosta, Midland, Monroe, Montcalm, Muskegon, Newaygo, Oakland, Oceana, Ottawa, Saginaw, Saint Clair, Saint Joseph, Sanilac, Shiawassee, Tuscola, Van Buren, Washtenaw, Wayne) of Michigan. This action also applies to the unit at DTE Energy's Harbor Beach facility in Huron County.

### II. What Action Is EPA Taking Today?

EPA is approving the NO<sub>x</sub> SIP submitted on August 5, 2004. EPA finds that Michigan's submittal is fully approvable because EPA conditionally approved Michigan's initial April 3, 2003, submittal, and Michigan satisfied the conditions for full approvability in the August 5, 2004, submittal. This submittal meets the requirements of the Phase I NO<sub>x</sub> SIP Call.

Specifically, we are approving Michigan's revision of the ozone SIP that responds to EPA's Phase I NO<sub>x</sub> SIP Call. On April 3, 2003, Michigan submitted for EPA approval Michigan Air Pollution Control Rules 803, 805-810, and 812-817. Michigan submitted Michigan Air Pollution Control Rules 802, 804 and 811 on May 27, 2004. Michigan submitted a revision combining rules 802-817 as submitted on April 3, 2003 and May 27, 2004 as a supplement for ease of incorporation by reference. This supplemental submittal was sent by MDEQ to EPA on August 5, 2004, and it is this revision that we are approving into the SIP today.

By this action, we are also vacating our April 16, 2004 (69 FR 20548) conditional approval of Michigan's earlier NO<sub>x</sub> SIP submittal.

### III. What Is the Background for This Action?

The SIP revision submitted by the MDEQ on August 5, 2004, consists of Michigan Rules 802 through 817. MDEQ has requested that we approve all of these rules in the SIP to satisfy the requirements of EPA's Phase I NO<sub>x</sub> SIP Call.

We concluded in our April 16, 2004, direct final conditional approval at 69 FR 20548 that the April 3, 2003, SIP revision was approvable except for a number of minor deficiencies. Therefore, EPA conditionally approved the submittal. On May 27, 2004, MDEQ submitted for approval as a SIP revision a package that addressed all of the issues raised in EPA's April 16, 2004, conditional approval. On December 23, 2004, we published a direct final action approving the corrections submitted by MDEQ on May 27, 2004. Because EPA received adverse comments during the public comment period, we were required to withdraw the December 23, 2004, direct final rulemaking and address those comments in today's rulemaking.

### IV. What Public Comments Were Received and What Is EPA's Response?

We received four adverse comments on our December 23, 2004, approval of

Michigan's August 5, 2004, SIP revision. Although the comments do not specifically address the actual action taken in the SIP revision; they are "adverse" to the SIP action in that the commenters generally disagree with the action we took on December 23, 2004. Because all of the comments expressed the same general concerns in a similar language, we have summarized them below as one comment.

**Summary of comments (paraphrased):** Several commenters stated that they generally did not agree with this action. One specifically felt that the air in New Jersey is adversely affected by emissions from other States and requested that the Agency require the most stringent controls on upwind sources that impact the air in New Jersey.

**Response:** The level of emission reductions required by Michigan's NO<sub>x</sub> rules meets the requirements of EPA's NO<sub>x</sub> SIP Call. The NO<sub>x</sub> SIP Call finds that specific states (e.g., Michigan) have sources whose NO<sub>x</sub> emissions contribute significantly to another state's failure to attain the ozone standard and requires each such state to eliminate the amount of such significant contribution. EPA set the amount of required NO<sub>x</sub> emission reductions for each State equal to the amount of highly cost-effective NO<sub>x</sub> reductions available in the State. Michigan's rule requires the amount of NO<sub>x</sub> emission reductions determined by EPA for Michigan in the NO<sub>x</sub> SIP Call. Consequently, although the commenter apparently would like additional reductions, beyond the amount required by the NO<sub>x</sub> SIP Call, by Michigan sources, EPA's approval of Michigan's rule is reasonable, and, in fact, there is no basis for rejecting Michigan's rule.

### V. Statutory and Executive Order Reviews

#### *Executive Order 12866: Regulatory Planning and Review*

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget.

#### *Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use*

For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001).

**Regulatory Flexibility Act**

This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

**Unfunded Mandates Reform Act**

Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4).

**Executive Order 13175: Consultation and Coordination With Indian Tribal Governments**

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

**Executive Order 13132: Federalism**

This action also does not have Federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act.

**Executive Order 13045: Protection of Children From Environmental Health and Safety Risks**

This rule also is not subject to Executive Order 13045 "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

**National Technology Transfer Advancement Act**

Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTA), 15 U.S.C. 272,

requires federal agencies to use technical standards that are developed or adopted by voluntary consensus to carry our policy objectives, so long as such standards are not inconsistent with applicable law or otherwise impracticable. In reviewing program submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Act. Absent a prior existing requirement for the state to use voluntary consensus standards, EPA has no authority to disapprove a program submission for failure to use such standards, and it would thus be inconsistent with applicable law for EPA to use voluntary consensus standards in place of a program submission that otherwise satisfies the provisions of the Act. Therefore, the requirements of section 12(d) of the NTTA do not apply.

**Civil Justice Reform**

As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct.

**Governmental Interference With Constitutionally Protected Property Rights**

EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order, and has determined that the rule's requirements do not constitute a taking.

**Paperwork Reduction Act**

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

**Congressional Review Act**

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, EPA promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in

the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 5, 2005. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

**List of Subjects in 40 CFR Part 52**

Environmental protection, Air pollution control, Incorporation by reference, Ozone, Nitrogen dioxide, Reporting and recordkeeping requirements.

Authority: 42 U.S.C. 7401 et seq.

**Subpart X—Michigan**

■ 2. Section 52.1170 is amended by adding paragraph (c)(121) to read as follows:

**§ 52.1170 Identification of plan.**

\* \* \* \* \*

(c) \* \* \*  
(121) On April 3, 2003, the Michigan Department of Environmental Quality (MDEQ) submitted regulations restricting emissions of oxides of nitrogen (NO<sub>x</sub>) to address the Phase I NO<sub>x</sub> SIP Call requirements. EPA conditionally approved Michigan's April 3, 2003, SIP revision on April 16, 2004. On May 27, 2004 and August 5, 2004, Michigan subsequently submitted for EPA approval SIP revisions to address the requirements found in EPA's conditional approval. These additional submittals, in combination with the original SIP revision, fulfill the Phase I NO<sub>x</sub> SIP Call requirements.

(i) *Incorporation by reference.* The following sections of the Michigan

Administrative Code are incorporated by reference.

(A) R336.1802 Applicability under oxides of nitrogen budget trading program, effective May 20, 2004.

(B) R336.1803 Definitions for oxides of nitrogen budget trading program, effective December 4, 2002.

(C) R336.1804 Retired unit exemption from oxides of nitrogen budget trading program, effective May 20, 2004.

(D) R336.1805 Standard requirements of oxides of nitrogen budget trading program, effective December 4, 2002.

(E) R336.1806 Computation of time under oxides of nitrogen budget trading program, effective December 4, 2002.

(F) R336.1807 Authorized account representative under oxides of nitrogen budget trading program, effective December 4, 2002.

(G) R336.1808 Permit requirements under oxides of nitrogen budget trading program, effective December 4, 2002.

(H) R336.1809 Compliance certification under oxides of nitrogen budget trading program, effective December 4, 2002.

(I) R336.1810 Allowance allocations under oxides of nitrogen budget trading program, effective December 4, 2002.

(J) R336.1811 New source set-aside under oxides of nitrogen budget trading program, effective May 20, 2004.

(K) R336.1812 Allowance tracking system and transfers under oxides of nitrogen budget trading program, effective December 4, 2002.

(L) R336.1813 Monitoring and reporting requirements under oxides of nitrogen budget trading, effective December 4, 2002.

(M) R336.1814 Individual opt-ins under oxides of nitrogen budget trading program, effective December 4, 2002.

(N) R336.1815 Allowance banking under oxides of nitrogen budget trading program, effective December 4, 2002.

(O) R336.1816 Compliance supplement pool under oxides of nitrogen budget trading program, effective December 4, 2002.

(P) R336.1817 Emission limitations and restrictions for Portland cement kilns, effective December 4, 2002.

#### § 52.1218 [Removed]

3. Section 52.1218 is removed.

BILLING CODE 6560-50-P

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Parts 0, 2, and 15

[ET Docket No. 03-108; FCC 05-57]

#### Cognitive Radio Technologies and Software Defined Radios

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** This document modifies the Commission's rules to reflect ongoing technical developments in cognitive radio technologies. In light of the Commission's experience with these rules, the Commission is modifying and clarifying the equipment rules to further facilitate the development and deployment of software defined and cognitive radios. These actions are taken to facilitate opportunities for flexible, efficient, and reliable spectrum use by radio equipment employing cognitive radio technologies and enable a full realization of their potential benefits.

**DATES:** Effective August 2, 2005.

#### FOR FURTHER INFORMATION CONTACT:

Hugh Van Tuyl, Office of Engineering and Technology, (202) 418-7506, e-mail: [Hugh.VanTuyl@fcc.gov](mailto:Hugh.VanTuyl@fcc.gov).

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission's Report and Order, ET Docket No. 03-108, FCC 05-57, adopted March 10, 2005 and released March 11, 2005. The full text of this document is available on the Commission's Internet site at <http://www.fcc.gov>. It is also available for inspection and copying during regular business hours in the FCC Reference Center (Room CY-A257), 445 12th Street, SW., Washington, DC 20554. The full text of this document also may be purchased from the Commission's duplication contractor, Best Copy and Printing Inc., Portals II, 445 12th St., SW., Room CY-B402, Washington, DC 20554; telephone (202) 488-5300; fax (202) 488-5563; e-mail [FCC@BCPIWEB.COM](mailto:FCC@BCPIWEB.COM).

#### Summary of the Report and Order

1. An accelerating trend in radio technologies has been the use of software in radios to define their transmission characteristics. The incorporation of cognitive radio technologies to allow the more efficient use of spectrum is also becoming increasingly common. As demonstrated in this and earlier proceedings, this Commission has a continuing commitment to recognize these important new technologies and make any necessary changes to its rules and

processes to facilitate their development in the public interest.

2. Over the past several years, manufacturers have increased the computer processing capabilities of radio system technologies. As a result, radio systems are increasingly incorporating software into their operating design. Incorporating software programming capabilities into radios can make basic functions easier to implement and more flexible. As the capabilities have advanced, radio systems have been gaining increased abilities to be "cognitive"—to adapt their behavior based on external factors. This "ability to adapt" is opening up a vast potential for more flexible and intensive use of spectrum.

3. On December 17, 2003, we adopted a *Notice of Proposed Rule Making and Order*, 69 FR 7397, February 17, 2004, ("NPRM") in this proceeding to explore the uses of cognitive radio technology to facilitate improved spectrum access. The NPRM addressed: (1) The capabilities of cognitive radios, (2) permitting higher power by unlicensed devices in rural or other areas of limited spectrum use, (3) enabling the development of secondary markets in spectrum use, including interruptible spectrum leasing, (4) applications of cognitive radio technology to dynamically coordinated spectrum sharing, and (5) software defined radio and cognitive radio equipment authorization rule changes. A total of 56 parties filed comments and 14 parties filed reply comments in response to the NPRM.

#### Discussion

4. The development of cognitive radio technology has been and will continue to be evolutionary in nature. As the technology evolves, our intent is to delete, change, or adopt rules in phases so as to ensure that our rules facilitate the market-based development and deployment of these technologies. In this *Report and Order*, we first cover in some detail various wide-ranging efforts being undertaken today by both government and industry to further in the near term the development of cognitive capabilities in software-based radio systems and in the longer term the evolution into fully capable cognitive radio systems.

5. To facilitate the market-based development and introduction of new technologies into the market, we addressed certain issues in the *Report and Order* that have arisen with respect to the certification of software-based radio equipment. Based on our experience and the comments in the record, we modify and clarify certain of

our rules that address software defined radios to facilitate the market based development of this technology. Specifically, we require radios in which the software that controls the RF operating parameters is designed or expected to be modified by a party other than the manufacturer to comply with the rules for software defined radios, including the requirement to incorporate security features to prevent unauthorized modifications to the software. We also modify the definition of software defined radio to include devices where a software change could make the device non-compliant with the Commission's radio frequency emission rules. We are eliminating the rule that the manufacturer supply radio software (source code) to the Commission upon request for certification because such software is generally not useful for certification review and may have become an unnecessary barrier to entry. We always retain the right to request and examine any component (whether software or hardware) of a specific radio system when needed for certification under Commission rules. We are requiring that the manufacturer supply a functional description of the radio software that controls its RF characteristics and a description of the means that will be used to protect that software from unauthorized tampering. Furthermore, since these descriptions are apt to involve proprietary intellectual property, we will make provisions to keep these specific items confidential, for Commission use only.

6. The *Report and Order* also considered the technical measures that a cognitive radio could incorporate to enable secondary use of spectrum, yet allow the use of such spectrum to quickly and reliably revert back to the licensee when necessary. We conclude that such measures are, or will be, technically feasible, but see no need to adopt any particular technical model for interruptible spectrum leasing.

#### **Cognitive Radio Technology Developments**

7. The efforts being undertaken by industry, often working with governmental agencies, standards bodies, and others to research, develop, and implement various software-defined radio and cognitive radio capabilities have been striking. These accomplishments were made possible through various advanced radio technologies such as those of the Department of Defense Joint Tactical Radio System (JTRS) in development of a common software architecture and the first actual software defined radios. Industry, working in conjunction with

the military, is also taking a lead in developing and implementing new technologies and is serving as the impetus for further technical developments that should spur the commercial deployment of SDRs and cognitive radios. In addition, efforts are underway within industry forums and standards organizations to adopt internationally accepted standards for software defined radios and cognitive radios. These efforts and the resultant technical developments undoubtedly will lead to even greater flexibility in the future, with some touting the ultimate adoption of radios incorporating a cognition cycle as the foundation for a fully flexible cognitive radio.

8. The advent of cognitive radios and associated technologies has the potential to initiate a new era in radio frequency spectrum utilization. With radios that are able to recognize spectrum availability and able to negotiate protocols for rapid reconfiguration, these radios will employ software defined radio technologies to change their operational characteristics and open new opportunities for spectrum use. As highlighted in our NPRM, applications such as dynamic spectrum sharing, interruptible spectrum sharing, and rapidly reconfigurable secondary markets in spectrum use will be attainable with cognitive radios.

#### **Enabling Cognitive and Software Defined Radio**

9. In this section, we are making certain changes to our current rules and clarifying them in other respects. First we are modifying the definition of software defined radio to include radios that employ software that determines not just the operating parameters, but also the circumstances under which the radio transmits pursuant to those parameters. We clarify that equipment that is designed or expected to be modified by a party other than the manufacturer must be certified as software defined radios and comply with security requirements to prevent unauthorized modifications to the radio frequency operating parameters. We also clarify the security requirements that such equipment must meet.

10. In addition to these changes, we make several other changes to the authorization requirements for software defined radios. We find that the specific rule that requires manufacturers to supply a copy of their radio software (source code) to the Commission upon request is unnecessary because such software is generally not useful for certification review and may have

become an unnecessary barrier to entry. In addition, the Commission already has authority to request to request and examine any component (whether software or hardware) of a radio system when needed for certification under Commission rules. We therefore delete this requirement as discussed below. Further, we clearly define the information about the radio software that must be submitted with applications for software defined radios. Additionally, we allow certification of certain part 15 unlicensed transmitters that have the technical capability of operating outside part 15 frequency bands, provided the equipment incorporates features to limit operation to authorized frequencies when used in the United States.

#### **Cognitive and Software Defined Radio Security**

##### *a. Software Defined Radio Definition and Applicability of Rules*

11. To reflect new kinds of conditions sometimes being included in our certification rules, we are broadening the definition of software defined radio to include devices where a software change could change not only the operating parameters of frequency range, modulation type or maximum output power, but also the circumstances under which a transmitter operates in accordance with Commission rules. For example, to make available otherwise unusable spectrum, we have required that certain radio transmitters include a DFS algorithm that further conditions use of spectrum beyond frequency range, modulation type, and maximum output. We are also changing the rules to require certain equipment to comply with the rules for software defined radios, including the requirement to incorporate security features to prevent unauthorized modifications to the software that controls the RF operating parameters. Specifically, we are requiring equipment in which the software that controls the radio frequency operating parameters is designed or expected to be modified by a party other than the manufacturer to comply with the rules for software defined radios. Because this change is limited to radios that contain RF affecting software that is third party modifiable, we believe that this change will affect only a small subset of equipment available in the marketplace today. We are making no change to the authorization requirements for the vast majority of devices such as cellular/PCS telephones, Wi-Fi equipment and two-way radios where the software that

controls the RF operating parameters is not designed or expected to be modified by a party other than the manufacturer.

12. We have modified our definition of software defined radio because, under recent rules, certain software changes that do not directly affect the technical operating parameters affect whether the device can be certified under our rules. The direct effects are addressed in the current definition of a software defined radio: frequency range, modulation type or maximum output power (either radiated or conducted). Our rules, however, now sometimes require additional radio functions such as DFS to prevent interference to other users. Even though these functions are being implemented and controlled by software in a radio, they do not currently fall within the definition of a software defined radio.

13. We are changing the definition of software defined radio to address software changes that directly or indirectly affect the compliance of a device with the Commission's rules. The modified definition will read as follows.

*Software defined radio.* A radio that includes a transmitter in which the operating parameters of frequency range, modulation type or maximum output power (either radiated or conducted), or the circumstances under which the transmitter operates in accordance with Commission rules, can be altered by making a change in software without making any changes to hardware components that affect the radio frequency emissions.

14. We are also changing the applicability of our rules to address software defined radios with relevant software that is designed or expected to be modified by a party other than the manufacturer. If a radio is not certified as a software defined radio, a manufacturer is not required to demonstrate in the equipment certification process that it incorporates features designed to prevent unauthorized changes to the software that would permit violation of Commission rules the equipment's certification, thus increasing the risk of interference to authorized radio services. We find that such a showing is in the public interest when a radio's RF-affecting software is designed or expected to be modified by a third party other than the manufacturer. In addition to minimizing the potential for unauthorized modifications to software defined radios, these changes will benefit manufacturers by allowing them to take advantage of the streamlined Class III permissive change procedure when they develop revised software that

affects the RF operating parameters of the radio.

15. We find that the rules we are adopting that require the certification of certain radios as software defined radios will not be unduly burdensome on manufacturers or restrain the development of technology. Only a relatively small number of radios will be affected by this requirement because most RF affecting radio software is not designed or expected to be modified by a party other than the manufacturer, and we are not changing the rules for radios that are not designed or expected to be modified by a party other than the manufacturer. Thus, there will be no change to the authorization requirement for the vast majority of devices including cellular/PCS telephones, land mobile transceivers and Wi-Fi equipment, provided the software that directly or indirectly controls the RF emissions of these devices is not designed or expected to be modified by a party other than the manufacturer. Also, manufacturers of radios that are software modifiable typically already take steps to prevent unauthorized modifications to the software in a radio, so we expect that only rarely will manufacturers have to make significant design changes to comply with the security requirements. In addition, as discussed below, we are adopting changes to simplify the information that must be submitted with an application for a software defined radio. Finally, we find that the requirements we are adopting are consistent with the Commission's authority under section 302 of the Communications Act to make reasonable regulations, consistent with the public interest, which govern the interference potential of radio frequency devices.

16. We find that the standard we are adopting adequately protects against interference to other users. We disagree with the commenters who argue that only radios that can be remotely modified in large numbers should be required to be certified as software defined radios. We first find this definitional standard to be too difficult to apply. We also note that a radio that lacks security features to prevent unauthorized changes to the RF operating parameters could be easily modifiable to operate in unauthorized bands, and therefore has a high potential to interfere with authorized users in many different bands, including public safety bands. We therefore find that the requirement to certify certain radios as software defined radios should apply to all radios which are software modifiable by the user, not just those

which could be remotely modified in large numbers.

17. *Permissive changes to software defined radios.* We are modifying the Class III permissive change rule, § 2.1043(b)(3), to make the wording consistent with the modified definition of software defined radio adopted. Additionally, we are setting forth a policy for permissive changes to radios that were approved before the effective date of the rules adopted in this *Report and Order*. Specifically, when a grantee wishes to make a permissive change to a previously approved device, the device will continue to be classified in the same manner that it was at the time it was originally certified, *i.e.*, software defined or non-software defined radio. Thus, a device that was approved as a non-software defined radio before the rules adopted herein become effective will not have to be re-certified as a software defined radio even if it meets the new standard for mandatory certification as a software defined radio. A device that was certified as a software defined radio will continue to be treated as such when a request for a permissive change is filed. Parties should note that we are not changing the requirement that Class III changes are permitted only for software defined radios in which no Class II changes have been made from the originally approved device.

#### *b. Security Requirements for Software Defined Radios*

18. We are clarifying the requirements in the rules that are intended to prevent unauthorized changes to the operating parameters of software defined radios. The Commission's equipment approval rules currently require that manufacturers take steps to ensure that only software that has been approved with a software defined radio can be loaded into such a radio. The current rule states that the software must not allow the user to operate the transmitter with frequencies, output power, modulation types or other parameters outside of those that were approved. Manufacturers may use authentication codes or any other means to meet these requirements, and must describe the methods in their application for equipment authorization.

19. We find that the current approach that manufacturers take steps to prevent unauthorized changes to the software in a radio, but does not require the use of specific security measures, is the most appropriate method to ensure the security of software defined radios. This approach allows manufacturers to respond to improvements in security technology more quickly and with the best solutions for a particular product

because no Commission action is necessary to permit manufacturers to use new security technologies. Therefore, we are maintaining the current security requirement. The record shows that manufacturers are aware of the need to incorporate security measures in software defined radios and are in fact doing so. We note that NTIA has recommended that, as a long term goal, we consider requiring "Protection Profiles"—an approach currently under consideration in the SDR Forum—as part of the equipment certification process for software defined radios. After industry progresses further in its deliberations, we may consider the possible applicability of Protection Profiles, or certain concepts of Protection Profiles, to equipment certification in a future proceeding that addresses the security of software defined and cognitive radios.

20. Our security requirements for software defined radios give manufacturers flexibility to determine the appropriate security measures for a device. However, manufacturers also have the responsibility to choose security measures that can not be easily defeated by unintended parties. In the event that a software defined radio is found to be easily modifiable by end users, we would expect the responsible party as defined by our rules to immediately cease marketing the equipment and to take steps to ensure that future production of the equipment complies with the rules. Any potential forfeiture for non-compliance with the software defined radio security requirements would be considered on a case-by-case basis, taking into account all relevant factors, in the same manner as forfeitures are considered for non-compliant hardware-based equipment. In determining whether to issue any forfeiture penalties for a non-compliant device, the Commission takes into account the nature, circumstances, extent and gravity of the violations and, with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as may be relevant and appropriate. The Commission has specific guidelines for assessing forfeitures, but may issue higher or lower forfeitures than provided in the guidelines, issue no forfeiture at all, or apply alternative or additional sanctions as permitted by statute.

21. We decline to establish specific limitations on the responsible party's liability for a device that incorporates specific type(s) of security measures in the event that it is later determined that unauthorized modifications can be

easily made to the radio frequency operating parameters of the device. The responsible party's liability for a non-compliant device is most appropriately determined on a case-by-case basis. Further, we agree with Intel that such an approach could be counterproductive because manufacturers would tend to design equipment to incorporate specific security features and may have little incentive to design equipment with robust security features, especially where more secure features add cost to a device. However, the Commission may consider compliance with industry security standards as a factor in determining the responsible party's liability.

22. We are simplifying the structure of the rules for software defined radios by moving the security requirements for software defined radios from § 2.932(e) into § 2.944. Section 2.944 currently contains a requirement for parties to submit a copy of radio software to the Commission upon request. We are changing that requirement as well as the applicability of the security requirements for software defined radios. We are placing the requirements for software defined radios into a single rule section, § 2.944, for easier reference. We are also modifying § 2.1033, which lists the information to be included in an application for certification, to make clear that an application for certification of a software defined radio must include the information specified in the revised § 2.944.

23. As part of the revisions to § 2.944, we are providing specific examples of the types of security measures that the Commission may consider to be acceptable for preventing unauthorized modifications to equipment. These examples are intended only to provide guidance to industry, and the use of one or more of these methods in a particular device should not be construed to limit a manufacturer's liability or responsibility to take appropriate corrective action in the event that parties other than the manufacturer are able to make unauthorized modifications to a device. This section will state that manufacturers may use any reasonable means to prevent impermissible modifications to the radio software including, but not limited to, the following and must describe the method(s) used for a particular device in the application for certification:

- The use of a private network that allows only authenticated users to download software.

- Coding in hardware that is decoded by software to verify that new software can be legally loaded into a device.
- Electronic signatures in software.

#### c. Amateur Equipment and D/A Converters

24. In the *NPRM*, we proposed to exempt manufactured software defined radios that are designed to operate solely in amateur bands from any mandatory declaration and certification requirements, provided the equipment incorporates features in hardware to prevent operation outside of amateur bands. We also sought comment on the need to restrict the mass marketing of high-speed digital-to-analog (D/A) converters that could be diverted for use as radio transmitters. No parties have provided any information that shows that software programmable amateur transceivers or high-speed D/A converters present any significantly greater risk of interference to authorized radio services than hardware radios. Therefore, we decline to adopt any new regulations for amateur transceivers or D/A converters at this time. However, we note that certain unauthorized modifications of amateur transmitters are unlawful, and may revisit both of these issues in the future if misuse of such devices results in significant interference to authorized spectrum users.

#### Submission of Radio Software

25. We are removing the requirement that an applicant for authorization of a software defined radio or the grantee or other party responsible for the compliance of a software defined radio submit a copy of the software that controls the radio frequency operating parameters upon request. We find that a copy of software source code is generally not be a useful aid in determining whether unauthorized changes have been made to the operating parameters of a device because software changes that have no effect on these parameters are frequently made by manufacturers. We also are concerned that this specific rule may be overly burdensome because we have observed that some equipment that could be authorized under the rules for software defined radios is not being authorized under these rules. The fact that the software in a device being marketed may differ somewhat from software previously supplied to the Commission would not necessarily indicate that any unauthorized changes have been made to a device's RF affecting operating parameters. In the event that questions arise about the compliance of a particular device, the

Commission has the authority to request and examine any component (whether software or hardware) of a radio system when needed for certification under Commission rules without the need for a specific requirement to submit radio software. Grantees of equipment certification are required to maintain records of equipment specifications and any changes that may affect compliance and must make these records available for inspection by the Commission. Further, the party responsible for the compliance of the device or any party who markets the device must supply a sample of the device to the Commission upon request.

26. We are adopting a requirement to submit a high level software operational description or flow diagram. The requirement we are adopting is analogous to the requirements in the rules that were developed for hardware based equipment that require applicants for equipment certification to supply a block diagram, schematic diagram and a brief description of the circuit functions of a device, along with a statement describing how the device operates. In this regard, the software operational description or flow diagram must describe or show how the RF functions in the radio, including the modulation type, operating frequency and power level are controlled or modified by software, and must describe the security or authentication methods that are incorporated to prevent unauthorized software changes. The description can include text, logic or flow diagrams, state descriptions or other material that provides the Commission's staff with a reasonable understanding of the operation of a device being certified and whether the device complies with the rules. The Commission's staff will work with applicants for certification to ensure that these requirements are clear and will issue appropriate additional guidance as necessary.

27. We agree with comments that information on how software within a software defined radio operates would be company proprietary information and that making this information publicly available would result in competitive harm to a manufacturer. Further, we find that information on the security methods that manufacturers employ to prevent unauthorized modifications to the RF operating parameters of a device would be considered company proprietary information. Additionally, making information on security measures publicly available could assist unauthorized parties in determining ways to defeat them. We also conclude that, if we were to make information on

software defined radio operation and security measures generally available to the public, entities seeking equipment certification may not provide sufficient information for the Commission to determine whether the device at issue would operate in compliance with our rules. Accordingly, we will modify § 0.457(d) of the rules to state that the descriptions of the security features and software operation for a software defined radio are presumptively protected from public disclosure and will not routinely be made available for public inspection. This presumptive protection will apply only to the descriptions of the security features and software operation for a software defined radio and not to any other exhibits in the application for certification which will normally be made available for public inspection after grant of the application. An applicant for certification of a software defined radio must file a specific request and pay the appropriate filing fee to have other exhibits in the application held confidential, assuming the exhibits are eligible for confidential treatment. To avoid possible delays in processing applications, applicants should ensure that exhibits for which confidential treatment is automatically afforded or for which it is requested are clearly identified and that these exhibits do not contain information that is not eligible for such treatment.

28. We decline to allow TCBs to certify software defined radios at this time. The changes that we are adopting to automatically afford confidential treatment to the description of software and security features in software defined radio applications address the confidentiality concerns of parties who requested that TCBs be allowed to certify software defined radios to protect this information from public disclosure. Additionally, as the Commission has previously stated, because software defined radio is a new technology, TCBs will not be permitted to certify software defined radios until the Commission has more experience with them and can properly advise TCBs on how to apply the applicable rules. The Commission's Laboratory maintains a list of types of devices, including software defined radios, that TCBs are excluded from certifying. The Laboratory will remove software defined radios from this exclusion list when it determines that TCBs are capable of certifying them.

#### **Automatic Frequency Selection by Unlicensed Devices**

29. We are changing part 15 of the rules to allow certification of unlicensed transmitters that are capable of

operation outside of permissible part 15 frequency bands, provided the transmitters incorporate an automatic frequency selection mechanism to ensure that they operate only on frequencies where unlicensed operation is permitted when operated in the United States.

30. We will allow certification of part 15 devices that operate outside permissible frequency bands using a master/client model. The terms "master" and "client" were defined in the U-NII proceeding for U-NII devices. We will define these terms for other types of part 15 devices consistent with the U-NII definitions. That is, a master device will be defined as a device operating in a mode in which it has the capability to transmit without receiving an enabling signal. In this mode it is able to select a channel and initiate a network by sending enabling signals to other devices. A network always has at least one device operating in master mode. A client device will be defined as a device operating in a mode in which the transmissions of the device are under control of the master. A device in client mode is not able to initiate a network. We, of course, require master devices marketed within the United States to operate only in permissible part 15 frequency bands, which will ensure that they enable operation of client devices only within permissible part 15 frequency bands. Manufacturers that wish to market master devices that are hardware-capable of operating outside of permissible part 15 frequency bands for use in other countries, but use software to limit their operation to permissible part 15 frequency bands, must incorporate security features into them to limit the operating frequency range for devices marketed in the United States and must certify the devices as software defined radios. Different software can then be installed in master devices that are used outside of the United States to change the operating frequency range for use in other countries. Client devices that can also act as master devices must meet the certification requirements of a master device, and thus must be certified as software defined radios if the manufacturer wishes to incorporate additional frequency bands for use in other countries.

31. We will allow the certification of client devices such as wireless LAN cards used in desktop or notebook computers if they have the capability of operating outside permissible part 15 frequency bands. Client devices may transmit only under the control of a master device. Because master devices are limited to operation on permissible

part 15 frequencies, they will direct client devices to operate on only permissible part 15 frequencies.

32. The changes we have adopted will benefit manufacturers by allowing production of devices that can be used in multiple countries, thus reducing equipment costs. At the same time, the requirement to limit the frequency range of master devices sold in the United States will minimize the likelihood that devices will operate outside permissible frequency bands and cause interference to authorized services.

#### Interruptible Spectrum Leasing

33. In this section, we are describing the technical methods that a cognitive radio could use to enable interruptible secondary use of licensed spectrum by other parties. The concepts in this section would apply to lessors who want a high level assurance of reclaiming leased spectrum when they need it. We find that there are technologies available now or under development that could safely allow for interruptible spectrum leasing. We find that cognitive radio technologies, or even trunked radio technologies, would allow implementation of the following general principles that interested parties state would be essential to enable interruptible leased use of spectrum:

1. The licensee must have positive control as to when the lessee can access the spectrum.

2. The licensee must have positive control to terminate the use of the spectrum by the lessee so it can revert back to the licensee's use.

3. Reversion must occur immediately upon action by the licensee unless that licensee has made specific provisions for a slower reversion time.

4. The equipment used by the licensee and the lessee must perform access and reversion functions with an extremely high degree of reliability.

5. The equipment used by the licensee and the lessee must incorporate security features to prevent inadvertent misuse of, and to thwart malicious misuse of, the licensee's spectrum.

34. There are at least three different technical approaches that currently exist or are under development that a licensee could employ that would comply with the intent of these principles and enable interruptible spectrum leasing. One approach would be for a licensee to allow leasing using an existing trunked system. A trunked system uses a central controller to select the operating frequencies of radios in the system. When a radio is ready to begin transmitting, it sends a request for an operating frequency to a central controller over a control channel. The

controller dynamically assigns an operating frequency to that radio and the other radios with which it communicates. Such a centralized system could be used to assign channels to radios operating under the terms of a lease, or de-assign channels when a licensee needs to use the spectrum. This could be done through a wireless control channel as is currently done to assign channels to radios in the system. Alternatively, information about leased channel availability could be provided by the trunked system controller to the lessee's equipment through a wired link.

35. The beacon approach proposed in the *NPRM* and described above is similar to a trunked system in that it uses a centralized controller to enable operation of lessee's equipment. The beacon could operate either on a frequency licensed to the public safety entity or on a separate control frequency in another band. The approach would require additional infrastructure such as the beacon transmitters and radios that are capable of receiving the beacon and adjusting their operation in response to the beacon signal.

36. A third method that could enable leased use of spectrum is by an exchange of "tokens" sent to the lessee's devices. Token approaches rely on the encrypted exchange of unique information to verify a user's identity when opening and maintaining a secure communications exchange. Tokens would provide a means of ensuring that lessees transmit only on available frequencies when they receive an electronic token authorizing them to do so. These tokens could also enforce terms of a lease such as the specific period of time that transmission on a frequency is allowed, thus providing a licensee with a high level of confidence that lessees will vacate the spectrum when required under the terms of the lease. Such token technology is already in use in other resource allocation problems, such as the enforcement of software license terms and avoiding data transmission conflicts between computers on local area networks.

37. At this point, we see no need to adopt any particular technical model for interruptible spectrum leasing. Ultimately, a licensee must itself be satisfied that the technical mechanism being implemented under a lease does in fact provide it with the ability in real time to reclaim use of its spectrum when necessary.

#### Final Regulatory Flexibility Analysis

38. As required by the Regulatory Flexibility Act (RFA),<sup>1</sup> an Initial Regulatory Flexibility Analysis (IRFA) was incorporated in the *Notice of Proposed Rule Making and Order, Facilitating Opportunities for Flexible, Efficient, and Reliable Spectrum Use Employing Cognitive Radio Technologies (NPRM)*.<sup>2</sup> The Commission sought written public comments on the proposals in the Notice, including comment on the IRFA.<sup>3</sup> This Final Regulatory Flexibility Analysis conforms to the RFA.<sup>4</sup>

##### A. Need for, and Objectives of, the Report and Order

39. Advances in technology are creating the potential for radio systems to use radio spectrum more intensively and more efficiently than in the past. Software-defined and cognitive, or "smart," radios are allowing and will increasingly allow more intensive access to, and use of, spectrum than possible with traditional, hardware-based radio systems. In this *Report and Order*, the Commission continues the process of modifying the rules to reflect these ongoing technical developments in radio technologies. The Commission first adopted rules for software defined radios in 2001, recognizing that manufacturers were beginning to use software to help determine the RF characteristics of radios, and that the equipment rules, which assumed hardware changes were needed to modify a radio's behavior, held the potential of discouraging development of software defined radios by requiring repeated approvals for repeated software changes. In light of the Commission's experience with these rules, and the record in this proceeding, it is modifying and clarifying the equipment rules to further facilitate the development and deployment of software defined and cognitive radios.

40. In the *Report and Order*, the Commission makes several changes to parts 2 and 15 of the rules. Specifically, it:

(1) Eliminates the requirement for applicants and grantees of certification of software defined radios to supply a copy of the software that controls the RF

<sup>1</sup> See 5 U.S.C. 603. The RFA, see 5 U.S.C. 601-612, has been amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), Public Law 104-121, Title II, 110 Stat. 857 (1996).

<sup>2</sup> See *Notice of Proposed Rule Making and Order* in ET Docket No. 03-108, 18 FCC Rcd 26859 (2003), 69 FR 7397, February 17, 2004.

<sup>3</sup> *Id.*

<sup>4</sup> See 5 U.S.C. 604.

operating parameters of the radio upon request;

(2) Requires applicants for certification of software defined radios to supply a high level operational description of the software that controls the radio frequency operating parameters;

(3) Requires that radios in which the software that controls the RF operating parameters is designed or expected to be modified by a party other than the manufacturer to incorporate a means to prevent unauthorized software changes, and requires such radios to be certified as software defined radios;

(4) Allows certification of unlicensed transmitters that have the capability of operating outside permissible part 15 frequency bands, provided the transmitters incorporate a software control to limit operation to permissible part 15 frequency bands when used in the United States.

*B. Summary of Significant Issues Raised by Public Comments in Response to the IRFA*

41. None.

*C. Description and Estimate of the Number of Small Entities To Which the Rules Apply*

42. The RFA directs agencies to provide a description of, and, where feasible, an estimate of the number of small entities that may be affected by the proposed rules, if adopted.<sup>5</sup> The RFA defines the term "small entity" as having the same meaning as the terms "small business," "small organization," and "small business concern" under section 3 of the Small Business Act.<sup>6</sup> Under the Small Business Act, a "small business concern" is one that: (1) is independently owned and operated; (2) is not dominant in its field of operations; and (3) meets any additional criteria established by the Small Business Administration (SBA).<sup>7</sup>

**Wireless Communications Equipment Manufacturers**

43. The SBA has established a small business size standard for radio and television broadcasting and wireless communications equipment manufacturing. Under this standard, firms are considered small if they have 750 or fewer employees.<sup>8</sup> Census

<sup>5</sup> See U.S.C. 603(b)(3).

<sup>6</sup> *Id.* 601(3).

<sup>7</sup> *Id.* 632.

<sup>8</sup> 1997 Economic Census, Manufacturing, Industry Series, Radio and Television Broadcasting and Wireless Communications Equipment Manufacturing, Document No. E97M-3342B (August 1999), at 9; 1997 Economic Census, Manufacturing, Industry Series, Other

Bureau data for 1997 indicate that, for that year, there were a total of 1,215 establishments<sup>9</sup> in this category.<sup>10</sup> Of those, there were 1,150 that had employment under 500, and an additional 37 that had employment of 500 to 999. The percentage of wireless equipment manufacturers in this category is approximately 61.35 percent,<sup>11</sup> so the Commission estimates that the number of wireless equipment manufacturers with employment under 500 was actually closer to 706, with an additional 23 establishments having employment of between 500 and 999. Given the above, the Commission estimates that the majority of wireless communications equipment manufacturers are small businesses.

*D. Description of Projected Reporting, Recordkeeping, and Other Compliance Requirements*

44. Unlicensed transmitters are required to be certified before they can be imported into or marketed within the United States. The certification process requires the manufacturer or other party responsible for compliance to have the equipment tested and electronically file an application form, measurement report and other information on the equipment with the Commission or a designated Telecommunication Certification Body (TCB). Software defined radios at present may be approved only by the Commission and not by TCBs, although the Commission has stated that it will eventually allow TCBs to approve them. The Report and Order does not change this requirement.

45. Applicants for certification of a software defined radio will be required to supply a high level operational description of the software that controls the radio frequency operating parameters.

Communications Equipment Manufacturing, Document No. EC97M-3342C (September 1999), at 9 (both available at <http://www.census.gov/prod/www/abs/97ecmani.html>).

<sup>9</sup> The number of "establishments" is a less helpful indicator of small business prevalence in this context than would be the number of "firms" or "companies," because the latter take into account the concept of common ownership or control. Any single physical locations for an entity is an establishment, even though that location may be owned by a different establishment. Thus, the numbers given may reflect inflated numbers of businesses in this category, including the numbers of small businesses. In this category, the Census breaks out data for firms or companies only to give the total number of such entities for 1997, which was 1,089.

<sup>10</sup> U.S. Census Bureau, 1997 Economic Census, Industry Series: Manufacturing, "Industry Statistics by Employment Size," Table 4, NAICS code 334220 (issued August 1999).

<sup>11</sup> *Id.* Table 5, "Industry Statistics by Industry and Primary Product Class Specialization: 1997."

46. Manufacturers of radios in which the software that controls the radio frequency operating parameters is designed or expected to be modified by a party other than the manufacturer must incorporate a means to prevent unauthorized software changes that must be described in the application for certification. Such software changeable radios must be declared as software defined radios in the application for certification. Most radios at the present are not software modifiable, and manufacturers of those that are generally already take steps to prevent unauthorized modifications, so we expect that only rarely would manufacturers have to redesign equipment to comply with this requirement.

*E. Steps Taken To Minimize Significant Economic Impact on Small Entities, and Significant Alternatives Considered*

47. The RFA requires an agency to describe any significant alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives (among others): (1) The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance or reporting requirements under the rule for small entities; (3) the use of performance, rather than design, standards; and (4) an exemption from coverage of the rule, or any part thereof, for small entities.<sup>12</sup>

48. The Commission sought comment in the *NPRM* about whether it should make compliance with the software defined radio rules, including the requirement to demonstrate that a radio incorporates security features, mandatory rather than optional for certain types of radio transmitters. Based on the comments received, the Commission made these requirements mandatory only for the small subset of radio transmitters in which the software that controls the radio frequency operating parameters is designed or expected to be modified by a party other than the manufacturer. This change will ensure that radio transmitters can not be easily modified and cause interference to authorized services, while minimizing the filing burden on applicants for certification by requiring only a small number of devices to be certified as software defined radios.

49. The Commission simplified the filing requirements for software defined radios to benefit all entities, including

<sup>12</sup> See 5 U.S.C. 603(c).

small entities. It eliminated the requirement to supply software source code upon request because such software is not generally useful for certification review and may have become an unnecessary barrier to entry. The Commission will instead require the submission of a software description at the time of certification as supported by a number of parties in comments. Because such a description would generally be considered company proprietary information, the Commission will automatically hold such information confidential without the need for applicants for certification to file a specific request for confidentiality and pay a fee. Eliminating the need to file a specific confidentiality request and pay a fee is expected to benefit small entities that have fewer resources to comply with regulatory requirements.

#### *F. Congressional Review Act*

The Commission will send a copy of the Report and Order, including this FRFA, in a report to be sent to Congress pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A). In addition, the Commission will send a copy of the Report and Order, including FRFA, to the Chief Counsel for Advocacy of the Small Business Administration.

#### **Ordering Clauses**

50. Parts 0, 2, and 15 of the Commission's Rules are amended as specified in rule changes, effective August 2, 2005. This action is taken pursuant to the authority contained in sections 4(i), 301, 302, 303(e), 303(f) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. sections 154(i), 301, 302, 303(e), 303(f) and 303(r).

51. The Commission's Consumer and Governmental Affairs Bureau, Reference Information Center, shall send a copy of the Report and Order, including the Final Regulatory Flexibility Analysis to the Chief Counsel for Advocacy of the Small Business Administration.

#### **List of Subjects in 47 CFR Parts 0, 2, and 15**

Communications equipment, Radio. Report and recordkeeping requirements. Federal Communications Commission. Marlene H. Dortch, Secretary.

#### **Rule Changes**

■ For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR parts 0, 2, and 15 as follows:

### **PART 0—COMMISSION ORGANIZATION**

■ 1. The authority citation for part 0 continues to read as follows:

**Authority:** Secs. 5, 48 Stat. 1068, as amended; 47 U.S.C. 155.

■ 2. Section 0.457 is amended by revising paragraph (d)(1)(ii) to read as follows:

#### **§ 0.457 Records not routinely available for public inspection.**

\* \* \* \* \*

(d) \* \* \*

(1) \* \* \*

(ii) Applications for equipment authorizations (type acceptance, type approval, certification, or advance approval of subscription television systems), and materials relating to such applications, are not routinely available for public inspection prior to the effective date of the authorization. The effective date of the authorization will, upon request, be deferred to a date no earlier than that specified by the applicant. Following the effective date of the authorization, the application and related materials (including technical specifications and test measurements) will be made available for inspection upon request (See § 0.460). Portions of applications for equipment certification of scanning receivers and related materials will not be made available for inspection. This information includes that necessary to prevent modification of scanning receivers to receive Cellular Service frequencies, such as schematic diagrams, technical narratives describing equipment operation, and relevant design details. Portions of applications for equipment certification of software defined radios that describe the operation of the device's software and security features will not be made available for inspection.

\* \* \* \* \*

### **PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS**

■ 3. The authority citation for part 2 continues to read as follows:

**Authority:** 47 U.S.C. 154, 302a, 303 and 336, unless otherwise noted.

■ 4. Section 2.1(c) is amended by revising the following definition of "software defined radio" to read as follows:

#### **§ 2.1 Terms and definitions.**

\* \* \* \* \*

(c) \* \* \*

*Software defined radio.* A radio that includes a transmitter in which the

operating parameters of frequency range, modulation type or maximum output power (either radiated or conducted), or the circumstances under which the transmitter operates in accordance with Commission rules, can be altered by making a change in software without making any changes to hardware components that affect the radio frequency emissions.

\* \* \* \* \*

#### **§ 2.932 [Amended]**

■ 5. Section 2.932 is amended by removing paragraph (e).

■ 6. Section 2.944 is revised to read as follows:

#### **§ 2.944 Software defined radios.**

(a) Manufacturers must take steps to ensure that only software that has been approved with a software defined radio can be loaded into the radio. The software must not allow the user to operate the transmitter with operating frequencies, output power, modulation types or other radio frequency parameters outside those that were approved. Manufacturers may use means including, but not limited to the use of a private network that allows only authenticated users to download software, electronic signatures in software or coding in hardware that is decoded by software to verify that new software can be legally loaded into a device to meet these requirements and must describe the methods in their application for equipment authorization.

(b) Any radio in which the software is designed or expected to be modified by a party other than the manufacturer and would affect the operating parameters of frequency range, modulation type or maximum output power (either radiated or conducted), or the circumstances under which the transmitter operates in accordance with Commission rules, must comply with the requirements in paragraph (a) of this section and must be certified as a software defined radio.

(c) Applications for certification of software defined radios must include a high level operational description or flow diagram of the software that controls the radio frequency operating parameters.

■ 7. Section 2.1033 is amended by adding new paragraphs (b)(12) and (c)(18) to read as follows:

#### **§ 2.1033 Application for certification.**

\* \* \* \* \*

(b) \* \* \*

(12) An application for certification of a software defined radio must include the information required by § 2.944.

\* \* \* \* \*

(c) \* \* \*

(18) An application for certification of a software defined radio must include the information required by § 2.944.

\* \* \* \* \*

■ 8. Section 2.1043 is amended by revising paragraph (b)(3) to read as follows:

**§ 2.1043 Changes in certificated equipment.**

\* \* \* \* \*

(b) \* \* \*

(3) A Class III permissive change includes modifications to the software of a software defined radio transmitter that change the frequency range, modulation type or maximum output power (either radiated or conducted) outside the parameters previously approved, or that change the circumstances under which the transmitter operates in accordance with Commission rules. When a Class III permissive change is made, the grantee shall supply the Commission with a description of the changes and test results showing that the equipment complies with the applicable rules with the new software loaded, including compliance with the applicable RF exposure requirements. The modified software shall not be loaded into the equipment, and the equipment shall not be marketed with the modified software under the existing grant of certification, prior to acknowledgement by the Commission that the change is acceptable. Class III changes are permitted only for equipment in which no Class II changes have been made from the originally approved device.

**Note to paragraph (b)(3):** Any software change that degrades spurious and out-of-band emissions previously reported to the Commission at the time of initial certification would be considered a change in frequency or modulation and would require a Class III permissive change or new equipment authorization application.

\* \* \* \* \*

**PART 15—RADIO FREQUENCY DEVICES**

■ 9. The authority citation of part 15 continues to read as follows:

**Authority:** 47 U.S.C. 154, 302, 303, 304, 307, 336, and 544.

■ 10. Section 15.202 is added to read as follows:

**§ 15.202 Certified operating frequency range**

Client devices that operate in a master/client network may be certified if they have the capability of operating outside permissible part 15 frequency bands, provided they operate on only permissible part 15 frequencies under the control of the master device with which they communicate. Master devices marketed within the United States must be limited to operation on permissible part 15 frequencies. Client devices that can also act as master devices must meet the requirements of a master device. For the purposes of this section, a master device is defined as a device operating in a mode in which it has the capability to transmit without receiving an enabling signal. In this mode it is able to select a channel and initiate a network by sending enabling signals to other devices. A network always has at least one device operating in master mode. A client device is defined as a device operating in a mode in which the transmissions of the device are under control of the master. A device in client mode is not able to initiate a network.

[FR Doc. 05-8808 Filed 5-3-05; 8:45 am]

BILLING CODE 6712-01-P

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**50 CFR Part 660**

[Docket No. 040830250-5062-03; I.D. 042205C]

**Fisheries Off West Coast States and in the Western Pacific; Pacific Coast Groundfish Fishery; Specifications and Management Measures; Inseason Adjustments; Pacific Halibut Fisheries; Corrections**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Inseason adjustments to management measures; announcement of incidental halibut retention allowance; corrections; request for comments.

**SUMMARY:** NMFS announces changes to management measures in the commercial and recreational Pacific Coast groundfish fisheries. NMFS also announces regulations for the retention of Pacific halibut landed incidentally in the limited entry longline primary sablefish fishery north of Pt. Chehalis,

WA (46°53.30' N. lat.). This document also contains notification of a voluntary closed area (also called an "area to be avoided") off Washington for salmon trollers. These actions, which are authorized by the Pacific Coast Groundfish Fishery Management Plan (FMP), will allow fisheries to access more abundant groundfish stocks while protecting overfished and depleted stocks. This action also corrects the trawl gear regulatory language for chafing gear and selective flatfish trawl gear.

**DATES:** Effective 0001 hours (local time) May 1, 2005, except that the amendments to 50 CFR 660.381 (b)(5)(i) are effective June 3, 2005. Comments on this rule will be accepted through June 3, 2005.

**ADDRESSES:** You may submit comments, identified by 042205C, by any of the following methods:

- E-mail: GroundfishInseason2.nwr@noaa.gov. Include I.D. number in the subject line of the message.
- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
- Fax: 206-526-6736, Attn: Carrie Nordeen.
- Mail: D. Robert Lohn, Administrator, Northwest Region, NMFS, Attn: Carrie Nordeen, 7600 Sand Point Way NE, Seattle, WA 98115-0070.

**FOR FURTHER INFORMATION CONTACT:** Jamie Goen or Carrie Nordeen (Northwest Region, NMFS), phone: 206-526-6140; fax: 206-526-6736; and e-mail: [carrie.nordeen@noaa.gov](mailto:carrie.nordeen@noaa.gov).

**SUPPLEMENTARY INFORMATION:**

**Electronic Access**

This Federal Register document is available on the Government Printing Office's website at: [www.gpoaccess.gov/fr/index.html](http://www.gpoaccess.gov/fr/index.html).

Background information and documents are available at the NMFS Northwest Region website at: [www.nwr.noaa.gov/1sustfish/gdfsh01.htm](http://www.nwr.noaa.gov/1sustfish/gdfsh01.htm) and at the Pacific Fishery Management Council's website at: [www.pcouncil.org](http://www.pcouncil.org).

**Background**

The Pacific Coast Groundfish FMP and its implementing regulations at title 50 in the Code of Federal Regulations (CFR), part 660, subpart G, regulate fishing for over 80 species of groundfish off the coasts of Washington, Oregon, and California. Groundfish specifications and management measures are developed by the Pacific Fishery Management Council (Pacific Council), and are implemented by

NMFS. The specifications and management measures for 2005–2006 were codified in the CFR (50 CFR part 660, subpart G) and published in the **Federal Register** as a proposed rule on September 21, 2004 (69 FR 56550), and as a final rule on December 23, 2004 (69 FR 77012). The final rule was subsequently amended on March 18, 2005 (70 FR 13118) and March 30, 2005 (70 FR 16145).

The Northern Pacific Halibut Act of 1982 (16 U.S.C. 773–773k) (Halibut Act) and its implementing regulations at 50 CFR part 300, subpart E, regulate fishing for Pacific Halibut in U.S. Convention waters. The Halibut Act also authorizes the Pacific Council to develop regulations governing the Pacific halibut catch in waters off of Washington, Oregon, and California that are in addition to, but not in conflict with, regulations of the International Pacific Halibut Commission (IPHC). Accordingly, the Pacific Council has developed, and NMFS has approved, a catch sharing plan (CSP) to allocate the total allowable catch (TAC) of Pacific halibut between treaty Indian and non-Indian harvesters, and among non-Indian commercial and sport fisheries in IPHC statistical Area 2A (off Washington, Oregon, and California). The CSP, as implemented at 50 CFR part 300, provides for retention of halibut landed incidentally in the limited entry, longline primary sablefish fishery north of Pt. Chehalis, WA (46°53.30' N. lat.) in years when the Area 2A TAC is above 900,000 lb (408.2 mt). Because the Area 2A TAC is above 900,000 lb (408.2 mt) in 2005, NMFS is establishing an allowance for incidental halibut retention in the primary sablefish fishery in 2005.

The following changes to current groundfish management measures were recommended by the Pacific Council, in consultation with Pacific Coast Treaty Indian Tribes and the States of Washington, Oregon, and California, at its April 3–8, 2005, meeting in Tacoma, WA. The changes recommended by the Pacific Council include: (1) changes to the limited entry trawl trip limits, (2) changes to the trawl RCA for limited entry trawl fisheries and open access non-groundfish trawl fisheries, (3) a clarification to the trawl gear language in 50 CFR 660.381 regarding chafing gear and selective flatfish trawl gear, (4) an incidental catch allowance for halibut in the limited entry primary sablefish fishery north of Pt. Chehalis, WA, (5) a voluntary area closure off Washington for salmon trollers and (6) changes to California's recreational groundfish fishery seasons and Rockfish Conservation Areas (RCAs). Pacific

Coast groundfish landings will be monitored throughout the year, and further adjustments to trip limits or management measures will be made as necessary to allow achievement of, or to avoid exceeding, optimum yields (OYs).

#### Limited Entry Trawl Limit Adjustments and RCA Changes

The trawl RCAs and limited entry trawl trip limits for Dover sole, "other flatfish," petrale sole, English sole, arrowtooth flounder, minor slope rockfish, darkblotched rockfish and splitnose rockfish are adjusted based on updated trawl model projections and current fish ticket landings data from the Pacific Fisheries Information Network database (PacFIN).

The trawl model used to project trawl catch of target groundfish species and bycatch of overfished species was updated by the NMFS Northwest Fisheries Science Center for the April Pacific Council meeting. The trawl model was updated to include new fishticket, logbook and observer data, as well as other minor changes such as separating English sole from "other flatfish" in the trawl model.

Previously, the trawl model had used a weighted average of fishticket data from 2000 through 2003 to document the amount of target species landings for each limited entry trawl vessel participating in the fishery. For the updated model, fishticket data from 2004 replaced the data from 2000. The updated model continues to use a weighted average for 2001 through 2004 data, with greater weight given to more recent year's data.

Similarly, the trawl model had previously used a weighted average of trawl logbook data from 2000 through 2003 to develop a baseline of each vessel's target catch among depth zones. Where possible, 2004 logbook data replaced data from 2000. However, logbook data are often incomplete early in the year. For the updated trawl model, a large portion of Oregon's 2004 logbook data and California's logbook data from the last six months of 2004 are still not available. Therefore, for periods where data are not complete for 2004, a weighted average from 2001 through 2003 was used in the updated model. As logbook data for 2004 becomes available from Oregon and California, the trawl model will be updated during 2005. Due to the inability to include the 2004 Oregon logbook data, concerns over the effect of higher fuel prices on fleet depth distribution, and possible impacts on canary rockfish, an overfished groundfish species, inseason adjustments were modeled assuming a higher likelihood that vessels will fish

shoreward of the trawl rockfish conservation area (RCA) than was modeled in 2004.

New observer data from September 2003 through August 2004 was also used to update the trawl model. NMFS West Coast Groundfish Observer Program (WCGOP) reports are available online: <http://www.nwfsc.noaa.gov/research/divisions/fram/observer/>. The trawl model was adjusted to account for the new 2005 requirement to use selective flatfish trawl gear shoreward of the trawl RCA north of 40°10' N. lat.

In addition to updating the trawl model, fishticket landings data from PacFIN for the first cumulative limit period (January through February) in 2005 were reviewed and compared to trawl model projections for 2005. Landings for petrale sole, trawl sablefish, longspine, arrowtooth, and Dover sole were higher than what had been projected for that period in the trawl model, while landings of slope rockfish, including darkblotched rockfish and splitnose rockfish, were substantially below initial model projections. The higher landings of petrale and Dover sole are of particular concern, because access to flatfish stocks are substantially more liberal than in recent years, and these species were initially modeled to achieve their respective OYs. Therefore, flatfish trip limits were reduced in order to slow the catch of flatfish species.

Current slope rockfish landings are tracking slower than projected for 2005; however, the Pacific Council was reluctant to increase trip limits for these species based on its concern over the results from management actions in 2004. In May 2004, the Pacific Council had recommended trawl management measures that affected the catch rate of darkblotched rockfish. Specifically, the trawl slope rockfish cumulative limit was increased (from 4,000 lbs (1.8 mt) to 8,000 lbs (3.6 mt) per 2 months north of 40°10' N. lat.) and the seaward trawl RCA boundary was moved from 200 fm (366 m) to 150 fm (274 m) (north of 40°N. lat.). Targeting on slope rockfish increased after the May 2004 inseason action, and industry members reported that there was a size-related market discard factor for small darkblotched rockfish that was independent of trip limit size. The combination of these factors contributed to an increased darkblotched encounter rate, and potentially the discard rate.

In September 2004, the Pacific Council made a recommendation to drastically slow the catch of darkblotched rockfish based on PacFIN fishticket landings data and, for non-whiting trawl, on a preliminary

estimated discard proportion measured by information collected from the WCGOP from the 2003 fishery when the slope rockfish limit was 1,800 lbs (816 mt) per 2-months. NMFS implemented reduced trip limits and RCA changes to bring the catch of darkblotched rockfish to near zero for the remainder of 2004 through an inseason action published in the **Federal Register** on October 6, 2004 (69 FR 59816). In the preamble to the final rule to implement the 2005–2006 groundfish specifications and management measures (69 FR 77012, December 23, 2004), NMFS stated that, based on data available at that time, it believed that the 2004 darkblotched rockfish acceptable biological catch/OY had been exceeded by September 2004. NMFS is in the process of reviewing the updated 2004 catch data using the updated trawl model.

Also in response to the higher darkblotched rockfish mortalities, the Pacific Council recommended and NMFS implemented more restrictive limited entry trawl management measures for the beginning of 2005 as a precautionary measure until new observer data were available. Specifically, in the area north of 40°10' N. lat., the RCA boundary scheduled for Period 1 (January through February) was moved from a boundary line approximating the 150–fm (274–m) depth contour to one approximating the 200–fm (366–m) depth contour, modified to allow fishing in petrale areas, and the slope rockfish trip limits were reduced to 4,000 lbs (1.8 mt) per 2 months (i.e., the same trip limit that was in place in Period 1 of 2004). These RCA boundaries and trip limits were also adopted for the area between 40E10' N. lat and 38E N. lat. due to uncertainty in darkblotched encounter rates for that area. At that time, the Pacific Council anticipated that these RCA boundaries and/or trip limits would then be adjusted inseason in April 2005 as more discard information became available from the 2004 Observer Program.

At its April 2005 meeting, the Pacific Council recommended liberalizing the seaward trawl RCA boundary for 2005 from a boundary line approximating the 200–fm (366–m) depth contour back to one approximating the 150–fm (274–m) depth in this area, and increasing the minor slope rockfish and splitnose limits from 4,000 lbs (1.8 mt) per 2 months to 8,000 lbs (3.6 mt) per 2 months for the following reasons: (1) the darkblotched rockfish encounter rate for the area south of 40°10' N. lat. is much lower than the encounter rate for the area north of 40°10' N. lat. and, therefore, is expected to result in a

minimal increased amount of darkblotched catch, and; (2) the area between 40°10' N. lat. and 38° N. lat. was overly constrained through action taken in September 2004, as a temporary precautionary measure, until NMFS Observer Program data were available.

In general, using the encounter rates based on information from the NMFS Observer Program, as used in the trawl model, produced an anticipated total catch estimate of darkblotched rockfish for all fisheries combined of 172.3 mt (as compared to a 2005 OY of 269 mt). Therefore, while the Pacific Council recommended moving the RCA boundary and increasing the slope rockfish trip limits between 40°10' N. lat. and 38° N. lat., they recommended a precautionary approach to the magnitude of adjustment (i.e., only increasing limits to 8,000 lbs (3.6 mt) per 2 months, rather than increasing them to a higher limit) at this time. Therefore, the Pacific Council recommended and NMFS is implementing the following inseason adjustments:

(1) Decrease Dover sole trip limits with large and small footrope trawl gear from 69,000 lbs (31.3 mt) per 2 months to 22,000 lbs (10.0 mt) per 2 months in Period 6 (November through December) north of 40°10' N. lat.;

(2) Decrease Dover sole trip limits with selective flatfish trawl gear from 50,000 lbs (22.7 mt) per 2 months to 35,000 lbs (15.9 mt) per 2 months (15.9 mt) in Periods 3 through 5 (May through October) and from 20,000 lbs (9.1 mt) per 2 months (9.1 mt) to 8,000 lbs (3.6 mt) per 2 months on Period 6 north of 40°10' N. lat.;

(3) Decrease petrale sole sub-trip limit in the other flatfish and English sole trip limit with large and small footrope trawl gear from 42,000 lbs (19.1 mt) per 2 months (19.1 mt) to 40,000 lbs (18.1 mt) per 2 months (18.1 mt) in Periods 3 through 5 north of 40°10' N. lat.;

(4) In Period 6 decrease the other flatfish and English sole trip limit from 110,000 lbs (49.9 mt) per 2 months (49.9 mt) to 80,000 lbs (36.3 mt) per 2 months north of 40°10' N. lat., make petrale sole a sublimit and decrease it from "not limited" to 60,000 lbs (27.2 mt) per 2 months (27.2 mt);

(5) Decrease the other flatfish, English and petrale sole trip limits with selective flatfish trawl gear from 100,000 lbs per (45.4 mt) per 2 months to 90,000 lbs (40.8 mt) per 2 months in Periods 3 through 5 north of 40°10' N. lat.;

(6) In period 6 decrease the other flatfish, English and petrale sole trip limits with selective flatfish trawl gear from 100,000 lbs (45.4 mt) per 2 months (45.4 mt) to 75,000 lbs (34.0 mt) per 2

months (34.0 mt) and the petrale sole sublimit from 25,000 lbs (11.3 mt) per 2 months (11.3 mt) to 15,000 lbs (6.8 mt) per 2 months (6.8 mt) north of 40°10' N. lat.;

(7) Decrease arrowtooth flounder trip limits with large and small footrope trawl gear from "not limited" to 80,000 lbs per (36.3 mt) per 2 months in Period 6 north of 40°10' N. lat.;

(8) Decrease Dover sole trip limits from 50,000 lbs (22.7 mt) per 2 months to 40,000 lbs (18.1 mt) per 2 months in Periods 3 through 5 and from 50,000 lbs (22.7 mt) per 2 months to 35,000 lbs (15.9 mt) per 2 months in Period 6 south of 40°10' N. lat.;

(9) In Period 6 make petrale sole a sub-trip limit of other flatfish and English sole and decrease it from "not limited" to 100,000 lbs (45.4 mt) 2 months south of 40°10' N. lat.;

(10) Decrease arrowtooth flounder trip limits in Period 6 from "not limited" to 20,000 lbs (9.1 mt) 2 months south of 40°10' N. lat.;

(11) Increase minor slope rockfish and darkblotched and splitnose rockfish trip limits from 4,000 lbs (1.8 mt) per 2 months to 8,000 lbs (3.6 mt) per 2 months in Periods 3 through 6 between 40°10' N. lat. and 38° N. lat.;

(12) Move the seaward boundary of the trawl RCA for limited entry trawl and open access non-groundfish trawl from a boundary line approximating the 200–fm (366–m) depth contour to a boundary line approximating the 150–fm (274–m) depth contour in Periods 3 through 6 between 40°10' N. lat. and 38° N. lat. [Note: North of 40°10' N. lat., multiple bottom trawl gear trip limits are adjusted to match trip limits for the most restrictive gear type for that species in the trip limits table, Table 3 (North).]

#### **Retention of Incidental Halibut Catch in the Primary Sablefish Fishery North of Pt. Chehalis, WA**

The Pacific halibut CSP and implementing regulations at 50 CFR 300.63(b)(3) provide for retention of halibut landed incidentally in the limited entry, longline primary sablefish fishery north of Pt. Chehalis, WA (46°53.30' N. lat.) in years when the Area 2A TAC is above 900,000 lb (408.2 mt). The 2005 Area 2A TAC is 1,330,000 lb (603 mt).

According to IPHC and Federal regulations, Pacific halibut may not be taken by gear other than hook-and-line gear. Only vessels registered for use with sablefish-endorsed limited entry permits may participate in the primary fixed gear sablefish fishery specified for halibut retention in the CSP. Vessels must also carry IPHC commercial

halibut licenses in order to retain and land halibut. Incidental halibut retention in the primary sablefish fishery is only available to vessels operating north of Pt. Chehalis, WA (46°53.30' N. lat.). Under Pacific halibut regulations at 50 CFR 300.63, halibut taken and retained in the primary sablefish fishery may not be possessed or landed south of Pt. Chehalis, WA (46°53.30' N. lat.).

Similar to 2004, halibut caught incidentally in the primary sablefish fishery may be retained by appropriately licensed longline vessels. In 2005, the amount of incidental halibut retained in the primary sablefish fishery is capped at 70,000 lb (31.8 mt), to ensure that the fishery is maintained as an incidental and not as a directed fishery. The objective for setting annual landing restrictions is to reach the halibut quota for this fishery at about the same time as the primary sablefish season ends, October 31, and to ensure an equitable sharing of the halibut landings among the fishers. To achieve this objective, incidental halibut retention in the sablefish fishery over the past few years has been structured as a ratio of halibut landings permitted in relation to sablefish landings.

Therefore, the Pacific Council recommended, and NMFS is implementing the following: Beginning May 1, 2005, and continuing until the halibut quota (70,000 lbs or 31.8 mt) is taken, longliners eligible to participate in the primary sablefish fishery north of Pt. Chehalis, WA (46°53.30' N. lat.) (see 50 CFR 660.372(a)) with appropriate IPHC licenses may retain incidental halibut landings up to 100 lbs (45 kg) (dressed weight) of halibut for every 1,000 lbs (454 kg) (dressed weight) of sablefish landed and up to two additional halibut in excess of the 100 lb (45 kg) per 1,000 lb (454 kg) ratio per landing. Halibut may not be on board a vessel that has any gear other than longline gear on board (e.g., pot or trawl gear).

#### **Voluntary "C-shaped" Closure off Washington for Salmon Troll Fisheries**

Since 2003, NMFS has implemented a "C-shaped" Yelloweye Rockfish Conservation Area (YRCA) off the Washington coast to protect yelloweye rockfish, an overfished species (see 50 CFR 660.390(a)). For 2005, the "C-shaped" YRCA is a mandatory closed area for recreational groundfish and recreational Pacific halibut fishing. In addition, the "C-shaped" YRCA has been designated as an area to be avoided (a voluntary closure) by commercial fixed gear groundfish fishermen at §§ 660.382(c)(1) and 660.383(c)(1).

Much of the YRCA is already closed to commercial groundfish fixed gear fishermen by the non-trawl RCA, which extends from the Washington shoreline to specific latitude and longitude coordinates that approximate the 100-fm (183-m) depth contour.

To further protect yelloweye rockfish, the Pacific Council has recommended that the "C-shaped" YRCA in the North Coast subarea (Washington Marine Area 3) also be designated as an area to be avoided (a voluntary closure) by salmon trollers to protect yelloweye rockfish.

#### **California's Recreational Groundfish Fishery Seasons and RCAs**

At the March 2005 Pacific Council meeting, the California Department of Fish and Game (CDFG) provided an Informational Report that summarized the California Recreational Fisheries Survey (CRFS) program implementation and validation process, and provided recreational groundfish catch and effort estimates by mode for 2004. CRFS results showed that California recreational harvest guidelines or allocations for overfished species were not exceeded in 2004. Initially, California's 2005 recreational fishery was structured with a more restrictive season than the 2004 fishery, based on the Marine Recreational Fisheries Statistics Survey (MRFSS) data through 2003. Based on the CRFS catch results from 2004, in conjunction with the improved ability for real-time inseason catch monitoring through CRFS, the Pacific Council conveyed its willingness to consider CRFS estimates to support inseason adjustments to California's recreational fishery in 2005.

CDFG reviewed the uncertainties and risks associated with using the CRFS data including: (1) identification of technical errors in CRFS during its first year of operation; (2) the tracking of uncalibrated 2004 CRFS data against harvest targets set for unassessed and assessed stocks; and (3) impacts on fishing opportunities of other fisheries and sectors. As with any new program involving sampling and expansions, there is the risk that technical errors may be identified during implementation. The RecFIN Statistical Sub-committee (RecFIN SSC) met recently and evaluated the data inputs from the first year of the CRFS sampling program including errors that could potentially affect the catch estimates generated for 2004. The RecFIN SSC's findings primarily focused on sampling errors in the Angler License Database (ALD) survey. Specifically, the RecFIN SSC noted that licensed anglers were kept in the sample population for only one sample period (month) following

entry into the angler license database, instead of being retained for the remainder of the calendar year. Sampling errors such as this one can cause statistical problems and biases in the estimate. However, further discussion highlighted the fact that ALD effort estimates are only used to estimate catch for modes of fishing that cannot be observed directly in the field. This includes beach/bank anglers, private access boats, and night-time fishing components of the private/rental, man-made, and beach/bank modes. Considering that only about 10 percent of the overall catch and effort for all sportfishing in California comes from these anglers, of which the majority are beach and bank anglers, and that anglers fishing from beach and banks do not catch significant numbers of groundfish, the Pacific Council concluded that the impact of this error on the estimates for groundfish species of concern should be minimal.

CDFG also summarized their plans for tracking inseason take, instituting closures, and providing regulation and educational information to the public. CDFG staff will review recreational catch estimates on a monthly basis for inseason tracking and provide these estimates to the Pacific Council's Groundfish Management Team. In addition, as 2005 monthly catch estimates become available, CDFG will replace the projected catches with the estimates for that month and will use these along with the remaining projected impacts to evaluate whether harvest targets will be met as scheduled. If catches are projected to exceed specific harvest targets specified in Federal regulations, then the Director of CDFG can take action to restrict the fishery to slow the harvest or close the fishery when warranted. This state action becomes effective 10 days after the state has issued public notice on the action. To keep anglers informed and assist with rapid distribution of concerns or requests to slow fishing, CDFG has established a communication network with charter/party boat fishing vessel operators and approximately 20 recreational angling associations and clubs (this network successfully stopped the targeting of widow rockfish in Southern California waters during 2004).

At the Pacific Council's April 2005 meeting and using the 2004 recreational groundfish fishing regulations as a starting point, CDFG recommended modifying the Federal fishing season in 2005 to liberalize the fishing seasons and RCAs based on new information. Primary considerations in adjusting the season were minimizing the canary and

minor nearshore rockfish catch and distributing the fishing effort over a greater depth range to avoid concentrating the fishing effort on the nearshore groundfish species by using a combination of open seasons and allowable depths of fishing. In all areas, California regulations will allow divers and shore anglers to take groundfish, except lingcod in December, during the season closures. The impacts of this action on overfished species and on other groundfish species are projected to remain within the harvest targets and OYs for those species.

Therefore, the Pacific Council recommended and NMFS is implementing changes to California's recreational groundfish fishery as follows:

(1) From the California/Oregon border to 40°10' N. lat., extend the season for all species from July through October to May through December, except that lingcod is closed in December and "other flatfish" remains status quo;

(2) From the California/Oregon border to 40°10' N. lat., restrict the recreational RCA from open shoreward of a boundary line approximating the 40-fm (73-m) depth contour to open shoreward of a boundary line approximating the 30 fm (55 m) depth contour (except the "other flatfish" remains exempt from the RCA);

(3) Between 40°10' N. lat. to 36° N. lat., extend the season for all species (except lingcod and "other flatfish" remain status quo) from July through November to July through December;

(4) Between 36° N. lat. to 34°27' N. lat., liberalize the recreational RCA from open between boundary lines approximating the 20-fm (37-m) and 40-fm (73-m) depth contours to open shoreward of a boundary line approximating the 40 fm (73 m) depth contour for all species (except "other flatfish" remains status quo); (5) South of 34°27' N. lat., extend the season for nearshore rockfish, California sheephead, cabezon, greenlings, ocean whitefish and shelf rockfish from March through September to March through December;

(6) South of 34°27' N. lat., extend the season for lingcod from April through September to April through November;

(7) South of 34°27' N. lat., the season for California scorpionfish and the season and RCA exemption for "other flatfish" remains status quo;

(8) South of 34°27' N. lat., liberalize the recreational RCA from open between boundary lines approximating the 30-fm (55-m) and 60 fm (110 m) depth contours from April through June, shoreward of a boundary line approximating the 40-fm (73-m) depth

contour from July through August and November, and shoreward of the 20-fm (37-m) depth contour in December to open shoreward of a boundary line approximating the 60-fm (110-m) depth contour from April through August and November through December (the recreational RCA for March remains status quo, open between boundary lines approximating the 30-fm (55-m) through 60-fm (110-m) depth contours); (9) South of 34°27' N. lat., restrict the recreational RCA from open shoreward of a boundary line approximating the 40 fm (73 m) depth contour from September through October to open shoreward of a boundary line approximating the 30 fm (55 m) depth contour from September through October. The Pacific Council also recommended that NMFS use its authority to take action similar to that taken by CDFG between Council meetings, if needed to restrict the fisheries.

#### Corrections and Clarifications

The following corrections and clarifications are being made to the 2005-2006 management measures.

Limited entry trawl chafing gear language in Federal regulations at 50 CFR 660.381(b)(3) is clarified to include the chafing gear requirements for small footrope trawl gear (currently found in § 660.381(b)(5) and referenced in the chafing gear requirements at § 660.381(b)(3)) with all other chafing gear requirements.

Chafing gear requirements at § 660.381(b)(3) currently read as follows:

Chafing gear may encircle no more than 50 percent of the net's circumference, except as provided in paragraph (b)(5) of this section. No section of chafing gear may be longer than 50 meshes of the net to which it is attached. Except at the corners, the terminal end of each section of chafing gear must not be connected to the net. (The terminal end is the end farthest from the mouth of the net.) Chafing gear must be attached outside any riblines and restraining straps. There is no limit on the number of sections of chafing gear on a net.

In addition, chafing gear requirements for small footrope trawl gear are mentioned in § 660.381(b)(5) as follows:

Chafing gear may be used only on the last 50 meshes of a small footrope trawl, measured from the terminal (closed) end of the codend.

To clarify the chafing gear language and keep all chafing gear requirements in one location in the regulations, the Pacific Council recommended and NMFS will modify the regulations to read as follows:

Chafing gear may encircle no more than 50 percent of the net's circumference. No section of chafing gear may be longer than 50 meshes

of the net to which it is attached. Chafing gear may be used only on the last 50 meshes of a small footrope trawl, measured from the terminal (closed) end of the codend. Except at the corners, the terminal end of each section of chafing gear on all trawl gear must not be connected to the net. (The terminal end is the end farthest from the mouth of the net.) Chafing gear must be attached outside any riblines and restraining straps. There is no limit on the number of sections of chafing gear on a net.

Limited entry selective flatfish trawl gear language in Federal regulations at 50 CFR 660.381(b)(5)(i) is modified to preserve the original intent of the gear requirement. Buoy placement on selective flatfish trawl gear can alter the size and shape of the trawl mouth. Selective flatfish trawl gear regulations are intended to require that the net's mouth be a flattened oval shape, much wider than it is tall. Changing the shape of the selective flatfish trawl mouth might result in an increased take of rockfish, thus changing the encounter rates of rockfish in targeted flatfish trips with this gear. Trip limits for species taken with selective flatfish gear were previously set for 2005 based on assumptions of incidental rockfish catch with this gear. The Pacific Council's Groundfish Advisory Subpanel alerted the Groundfish Management Team and Enforcement Consultants that some flatfish participants were modifying the shape of the selective flatfish trawl net mouth through strategic placement of buoys on the net's upper edge. Increasing the take of rockfish by modifying the gear with buoy placement from its original configuration is not accounted for by the trawl model used to set 2005 trip limits and may, therefore, result in achieving rockfish OYs more quickly than anticipated. The purpose of this modification to selective flatfish trawl gear requirements is to specify allowable buoy placement and the number of riblines to preserve the original intent of the gear requirement.

Selective flatfish trawl gear requirements at § 660.381(b)(5)(i) currently read as follows:

The selective flatfish trawl net must be a two-seamed net and its breastline may not be longer than 3 ft (0.92 m) in length. There may be no floats along the center third of the selective flatfish trawl net's headrope and the headrope must be at least 30 percent longer in length than the footrope. Selective flatfish trawl gear may not have a footrope that is longer than 105 ft (32.26 m) in length. An explanatory diagram of a selective flatfish trawl net is provided as Figure 1 of part 660, subpart G.

The Pacific Council recommended and NMFS will modify the selective flatfish trawl gear requirement to read as follows:

The selective flatfish trawl net must be a two-seamed net with no more than two riblines, excluding the codend. The breastline may not be longer than 3 ft (0.92 m) in length. There may be no floats along the center third of the headrope or attached to the top panel except on the riblines. The footrope must be less than 105 ft (32.26 m) in length. The headrope must be not less than 30 percent longer than the footrope. An explanatory diagram of a selective flatfish trawl net is provided as Figure 1 of part 660, subpart G.

#### Classification

These actions are authorized by the Pacific Coast groundfish FMP, the Halibut Act, and their implementing regulations and are based on the most recent data available. The aggregate data upon which these actions are based are available for public inspection at the Office of the Administrator, Northwest Region, NMFS, (see **ADDRESSES**) during business hours.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on the management measures and the selective flatfish trawl gear requirements, as notice and comment would be impracticable and contrary to the public interest. The data upon which these recommendations were based was provided to the Pacific Council and the Pacific Council made its recommendations at its April 3-8, 2005, meeting in Tacoma, WA. There was not sufficient time after that meeting to draft this document and undergo proposed and final rulemaking before these actions need to be in effect at the start of the next cumulative limit period, May 1, 2005, as explained below. For the actions in this notice, prior notice and opportunity for comment would be impracticable and contrary to the public interest because affording the time necessary for prior notice and opportunity for public comment would impede the Agency's function of managing fisheries using the best available science to approach without exceeding the OYs for federally managed species.

The adjustments to management measures in this document include changes to the commercial and recreational groundfish fisheries, including corrections and clarifications. Changes to the trawl RCA and the limited entry trawl trip limits must be implemented in a timely manner by May 1, 2005, so that harvest of groundfish, including overfished species, stays within the harvest levels projected for 2005 based on modeling and the most current catch projections available. Changes to the limited entry fixed gear primary sablefish fishery to

allow the retention of Pacific halibut must be implemented by May 1, 2005, in order to provide an opportunity for participants in this fishery to catch the available quota projected to be taken based on the ratio of halibut to sablefish landings set. Changes to California's recreational fishery management measures for seasons and recreational RCAs must be implemented as soon as possible and no later than May 1, 2005, the next recreational fishery management month, in order to conform Federal and state recreational regulations, to protect overfished groundfish species, to keep the harvest of other groundfish species within the harvest levels projected for 2005, and to allow an opportunity for anglers to harvest the available harvest guidelines. Delaying any of these changes would result in management measures that fail to use the best available science and, in some cases, could lead to early closures of the fishery if harvest of groundfish exceeds levels projected for 2005. This would be contrary to the public interest because it would impair achievement of one of the Pacific Coast Groundfish FMP objectives of providing for year-round harvest opportunities or extending fishing opportunities as long as practicable during the fishing year. Delaying these changes would also be contrary to the public's interest in protecting overfished species and other groundfish species from overfishing.

NMFS has also provided clarifications to Federal regulations that clarify the limited entry trawl gear requirement for chafing gear. Affording an opportunity for prior notice and comment on this clarification is unnecessary because it is not a substantive change to the regulations and is contrary to the public interest because it clarifies regulations that might otherwise be confusing to the public.

For these reasons, good cause also exists to waive the 30 day delay in effectiveness requirement under 5 U.S.C. 553 (d)(3) for all actions taken in this notice except the clarification to the selective flatfish trawl gear language. The clarification to selective flatfish trawl gear language may require some fishermen to move buoys and/or riblines on their trawl nets to conform with the originally intended selective flatfish trawl gear configuration. In order to provide fishermen adequate time to reconfigure their trawl gear, the modified language for the selective flatfish trawl gear will take effect 30 days after publication in the **Federal Register**, June 3, 2005.

These actions are taken under the authority of 50 CFR 300.63(b)(3) and

660.370(c) and are exempt from review under Executive Order 12866.

#### List of Subjects in 50 CFR Part 660

Administrative practice and procedure, American Samoa, Fisheries, Fishing, Guam, Hawaiian Natives, Indians, Northern Mariana Islands, Reporting and recordkeeping requirements.

Dated: April 26, 2005.

Ann M. Lange,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

■ For the reasons set out in the preamble, 50 CFR part 660 is amended as follows:

#### PART 660—FISHERIES OFF WEST COAST STATES AND IN THE WESTERN PACIFIC

■ 1. The authority citation for part 660 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*, and 16 U.S.C. 773-773k

■ 2. In § 660.372, paragraph (b)(3)(iv) is added to read as follows:

#### § 660.372 Fixed gear sablefish fishery management.

\* \* \* \* \*

(b) \* \* \*

(3) \* \* \*

(iv) *Incidental halibut retention north of Pt. Chehalis, WA (46°53.30' N. lat.)*. Vessels authorized to participate in the primary sablefish fishery, licensed by the International Pacific Halibut Commission for commercial fishing in Area 2A (waters off Washington, Oregon, California), and fishing with longline gear north of Pt. Chehalis, WA (46°53.30' N. lat.) may land up to the following cumulative limits: 100 lb (45 kg) dressed weight of halibut per 1,000 lb (454 kg) dressed weight of sablefish, plus up to two additional halibut per fishing trip in excess of this ratio. "Dressed" halibut in this area means halibut landed eviscerated with their heads on. Halibut taken and retained in the primary sablefish fishery north of Pt. Chehalis may only be landed north of Pt. Chehalis and may not be possessed or landed south of Pt. Chehalis.

\* \* \* \* \*

■ 3. In § 660.381, paragraphs (b)(3), (b)(5) Introductory text and (b)(5)(i) are revised to read as follows:

#### § 660.381 Limited entry trawl fishery management measures.

\* \* \* \* \*

(b) \* \* \*

(3) *Chafing gear*. Chafing gear may encircle no more than 50 percent of the net's circumference. No section of chafing gear may be longer than 50

meshes of the net to which it is attached. Chafing gear may be used only on the last 50 meshes of a small footrope trawl, measured from the terminal (closed) end of the codend. Except at the corners, the terminal end of each section of chafing gear on all trawl gear must not be connected to the net. (The terminal end is the end farthest from the mouth of the net.) Chafing gear must be attached outside any riblines and restraining straps. There is no limit on the number of sections of chafing gear on a net.

\* \* \* \* \*

(5) *Small footrope trawl gear.* Small footrope gear is bottom trawl gear with a footrope diameter of 8 inches (20 cm) or smaller (including rollers, bobbins or other material encircling or tied along the length of the footrope). Other lines or ropes that run parallel to the footrope may not be augmented with material encircling or tied along their length such that they have a diameter larger than 8 inches (20 cm). For enforcement purposes, the footrope will be measured in a straight line from the outside edge to the opposite outside edge at the widest part on any individual part, including any individual disk, roller, bobbin, or any other device.

(i) Selective flatfish trawl gear is a type of small footrope trawl gear. The selective flatfish trawl net must be a two-seamed net with no more than two riblines, excluding the codend. The breastline may not be longer than 3 ft (0.92 m) in length. There may be no floats along the center third of the headrope or attached to the top panel except on the riblines. The footrope must be less than 105 ft (32.26 m) in length. The headrope must be not less than 30 percent longer than the footrope. An explanatory diagram of a selective flatfish trawl net is provided as Figure 1 of part 660, subpart G.

\* \* \* \* \*

■ 4. In § 660.384, paragraphs (c)(3)(i)(A)(1), (3) and (4); (c)(3)(ii)(A)(1), (2) and (4); (c)(3)(iii)(A)(1) and (4); and (c)(3)(v)(A)(1) are revised to read as follows:

**§ 660.384 Recreational fishery management measures.**

\* \* \* \* \*

(c) \* \* \*  
(3) \* \* \*  
(i) \* \* \*  
(A) \* \* \*

(1) *Between 42° N. lat. (California/Oregon border) and 40°10.00' N. lat.,*

recreational fishing for all groundfish (except "other flatfish" as specified in paragraph (c)(3)(iv) of this section) is prohibited seaward of a boundary line approximating the 30-fm (55-m) depth contour along the mainland coast and along islands and offshore seamounts from May 1 through December 31; and is closed entirely from January 1 through April 30 (i.e., prohibited seaward of the shoreline). Coordinates for the boundary line approximating the 30-fm (55-m) depth contour are specified in § 660.391.

\* \* \* \* \*

(3) *Between 36° N. lat. and 34°27.00' N. lat.,* recreational fishing for all groundfish (except "other flatfish" as specified in paragraph (c)(3)(iv) of this section) is prohibited seaward of a boundary line approximating the 40-fm (73-m) depth contour along the mainland coast and along islands and offshore seamounts from May 1 through September 30; and is closed entirely from January 1 through April 30 and from October 1 through December 31 (i.e., prohibited seaward of the shoreline). Coordinates for the boundary line approximating the 40-fm (73-m) depth contour are specified in § 660.391.

(4) *South of 34°27.00' N. lat.,* recreational fishing for all groundfish (except California scorpionfish as specified below in this paragraph and in paragraph (v) and "other flatfish" as specified in paragraph (c)(3)(iv) of this section) is prohibited shoreward of a boundary line approximating the 30-fm (55-m) depth contour and seaward of a boundary line approximating the 60-fm (110-m) depth contour along the mainland coast and along islands and offshore seamounts from March 1 through April 15; is prohibited seaward of a boundary line approximating the 60-fm (110-m) depth contour from April 16 through August 30 and November 1 through December 31; and is prohibited seaward of a boundary line approximating the 30-fm (55-m) depth contour from September 1 through October 31; except in the CCAs where fishing is prohibited seaward of the 20-fm (37-m) depth contour when the fishing season is open (see paragraph (c)(3)(i)(B) of this section). Recreational fishing for all groundfish (except "other flatfish") is closed entirely from January 1 through February 29 (i.e., prohibited seaward of the shoreline). Recreational fishing for California scorpionfish south of 34°27.00' N. lat. is prohibited

seaward of a boundary line approximating the 30-fm (55-m) depth contour from October 1 through October 31, and seaward of the 60-fm (110-m) depth contour from November 1 through December 31, except in the CCAs where fishing is prohibited seaward of the 20-fm (37-m) depth contour when the fishing season is open. Recreational fishing for California scorpionfish south of 34°27.00' N. lat. is closed entirely from January 1 through September 30 (i.e., prohibited seaward of the shoreline). Coordinates for the boundary line approximating the 30-fm (55-m) and 60-fm (110-m) depth contours are specified in §§ 660.391 and 660.392.

\* \* \* \* \*

(ii) \* \* \*  
(A) \* \* \*

(1) *North of 40°10.00' N. lat.,* recreational fishing for the RCG Complex is open from May 1 through December 31.

(2) *Between 40°10.00' N. lat. and 36° N. lat.,* recreational fishing for the RCG Complex is open from July 1 through December 31 (i.e., it's closed from January 1 through June 30).

\* \* \* \* \*

(4) *South of 34°27.00' N. lat.,* recreational fishing for the RCG Complex is open from March 1 through December 31 (i.e., it's closed from January 1 through February 29).

\* \* \* \* \*

(iii) \* \* \*  
(A) \* \* \*

(1) *North of 40°10.00' N. lat.,* recreational fishing for lingcod is open from May 1 through November 30.

\* \* \* \* \*

(4) *South of 34°27.00' N. lat.,* recreational fishing for lingcod is open from April 1 through November 30 (i.e., it's closed from January 1 through March 31 and from December 1 through December 31).

\* \* \* \* \*

(v) \* \* \*  
(A) \* \* \*

(1) *Between 40°10.00' N. lat. and 36° N. lat.,* recreational fishing for California scorpionfish is open from July 1 through December 31 (i.e., it's closed from January 1 through June 30).

\* \* \* \* \*

■ 5. In part 660, subpart G, Tables 3 (North and South) and Table 5 (South) are revised to read as follows:

BILLING CODE 3510-22-S

**Table 3 (North) to Part 660, Subpart G -- 2005-2006 Trip Limits for Limited Entry Trawl Gear North of 40°10' N. Lat.**  
**Other Limits and Requirements Apply -- Read § 660.301 - § 660.390 before using this table**

| 52 | multiple bottom trawl gear <sup>8/</sup>  |   | 500 lb/ 2 months   |                  |
| 53 | Other Fish <sup>5/</sup> & Pacific cod    |   | Not limited        |                  |

TABLE 3 (North) cont'

1/ Bocaccio, chilipepper and cowcod are included in the trip limits for minor shelf rockfish.

2/ Splitnose rockfish is included in the trip limits for minor slope rockfish.

3/ "Other flatfish" are defined at § 660.302 and include butter sole, curfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, sand sole, and starry flounder.

4/ The minimum size limit for lingcod is 24 inches (61 cm) total length.

5/ "Other fish" are defined at § 660.302 and include sharks, skates, ratfish, morids, grenadiers, and kelp greenling.

Cabezon is included in the trip limits for "other fish."

6/ The Rockfish Conservation Area is a gear and/or sector specific closed area generally described by depth contours but specifically defined by lat/long coordinates set out at § 660.390.

7/ The "modified 200 fm" line is modified to exclude certain petrale sole areas from the RCA.

8/ If a vessel has both selective flatfish gear and large or small footrope gear on board during a cumulative limit period (either simultaneously or successively), the most restrictive cumulative limit for any gear on board during the cumulative limit period applies for the entire cumulative limit period.

To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.

| 35 | Other Fish <sup>5/</sup> & Cabezon  | Not limited        |                     |                    |

TABLE 3 (South) cont

1/ Yellowtail is included in the trip limits for minor shelf rockfish.

2/ POP is included in the trip limits for minor slope rockfish

3/ "Other flatfish" are defined at § 660.302 and include butter sole, curfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, sand sole, and starry flounder.

4/ The minimum size limit for lingcod is 24 inches (61 cm) total length.

5/ Other fish are defined at § 660.302 and include sharks, skates, ratfish, morids, grenadiers, and kelp greenling.

Pacific cod is included in the trip limits for "other fish."

6/ The Rockfish Conservation Area is a gear and/or sector specific closed area generally described by depth contours but specifically defined by lat/long coordinates set out at § 660.390.

7/ The "modified 200 fm" line is modified to exclude certain petrale sole areas from the RCA.

To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.

## 50 CFR Part 660

[Docket No. 050426117-5117-01; I.D. 042505C]

RIN 0648-AS58

**Fisheries Off West Coast States and in the Western Pacific; West Coast Salmon Fisheries; 2005 Management Measures**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Final rule; annual management measures for the ocean salmon fishery; request for comments.

**SUMMARY:** NMFS establishes fishery management measures for the 2005 ocean salmon fisheries off Washington, Oregon, and California and the 2006 salmon seasons opening earlier than May 1, 2006. Specific fishery management measures vary by fishery and by area. The measures establish fishing areas, seasons, quotas, legal gear, recreational fishing days and catch limits, possession and landing restrictions, and minimum lengths for salmon taken in the U.S. exclusive economic zone (EEZ) (3–200 nm) off Washington, Oregon, and California. The management measures are intended to prevent overfishing and to apportion the ocean harvest equitably among treaty Indian, non-treaty commercial, and recreational fisheries. The measures are also intended to allow a portion of the salmon runs to escape the ocean fisheries in order to provide for spawning escapement and to provide for inside fisheries (fisheries occurring in state internal waters).

**DATES:** Effective from 0001 hours Pacific Daylight Time, May 1, 2005, until the effective date of the 2006 management measures, as published in the **Federal Register**. Comments must be received by May 19, 2005.

**ADDRESSES:** Comments on the management measures and the related environmental assessment (EA) may be sent to D. Robert Lohn, Regional Administrator, Northwest Region, NMFS, 7600 Sand Point Way N.E., Seattle, WA 98115-0070, fax: 206-526-6376; or to Rod McInnis, Regional Administrator, Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213, fax: 562-980-4018. Comments can also be submitted via e-mail at the

2005oceansalmonregs.nwr@noaa.gov address, or through the internet at the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments, and include docket number and/or RIN number in the subject line of the message.

Copies of the supplemental FONSI and its supporting EA and other documents cited in this document are available from Dr. Donald O. McIsaac, Executive Director, Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 200, Portland, OR 97220-1384, and are posted on its website ([www.pcouncil.org](http://www.pcouncil.org)).

Send comments regarding the reporting burden estimate or any other aspect of the collection-of-information requirements in these management measures, including suggestions for reducing the burden, to one of the NMFS addresses listed above and to David Rostker, Office of Management and Budget (OMB), by email at [David\\_Rostker@omb.eop.gov](mailto:David_Rostker@omb.eop.gov), or by facsimile (fax) at (202) 395-7285.

**FOR FURTHER INFORMATION CONTACT:** Stephen P. Freese at 206-526-6140, or Mark Helvey at 562-980-4040.

**SUPPLEMENTARY INFORMATION:**

**Background**

The ocean salmon fisheries in the EEZ off Washington, Oregon, and California are managed under a "framework" fishery management plan entitled the Pacific Coast Salmon Fishery Management Plan (Salmon FMP). Regulations at 50 CFR part 660, subpart H, provide the mechanism for making preseason and inseason adjustments to the management measures, within limits set by the Salmon FMP, by notification in the **Federal Register**.

These management measures for the 2005 and pre-May 2006 ocean salmon fisheries were recommended by the Pacific Fishery Management Council (Council) at its April 4 to 8, 2005, meeting.

**Schedule Used to Establish 2005 Management Measures**

The Council announced its annual preseason management process for the 2005 ocean salmon fisheries in the **Federal Register** on January 26, 2005 (70 FR 3668). This notice announced the availability of Council documents as well as the dates and locations of Council meetings and public hearings comprising the Council's complete schedule of events for determining the annual proposed and final modifications to ocean salmon fishery management measures. The agendas for

the March and April Council meetings were published in subsequent **Federal Register** documents prior to the actual meetings.

In accordance with the Salmon FMP, the Council's Salmon Technical Team (STT) and staff economist prepared a series of reports for the Council, its advisors, and the public. The first of the reports was prepared in February when the scientific information first necessary for crafting management measures for the 2005 and pre-May 2006 ocean salmon fishery became available. The first report, "Review of 2004 Ocean Salmon Fisheries" (REVIEW), summarizes biological and socio-economic data for the 2004 ocean salmon fisheries and assesses how well the Council's 2004 management objectives were met. The second report, "Preseason Report I Stock Abundance Analysis for 2005 Ocean Salmon Fisheries" (PRE I), provides the 2005 salmon stock abundance projections and analyzes the impacts on the stocks and Council management goals if the 2004 regulations and regulatory procedures were applied to the projected 2005 stock abundances. The completion of PRE I is the initial step in evaluating the full suite of preseason options.

The Council met in Sacramento, CA from March 7 to 11, 2005, to develop 2005 management options for proposal to the public. The Council proposed four options of commercial and recreational fisheries management for analysis and public comment (typically there are three). These options consisted of various combinations of management measures designed to protect weak stocks of coho and Chinook salmon and to provide for ocean harvests of more abundant stocks. After the March Council meeting, the Council's STT and staff economist prepared a third report, "Preseason Report II Analysis of Proposed Regulatory Options for 2005 Ocean Salmon Fisheries," which analyzes the effects of the proposed 2005 management options. This report was made available to the Council, its advisors, and the public.

Public hearings, sponsored by the Council, to receive testimony on the proposed options were held on: March 28, 2005, in Westport, WA and Coos Bay, OR; and March 29, 2005, in Fort Bragg, CA. The States of Washington, Oregon, and California sponsored meetings in various forums that also collected public testimony, which was then presented to the Council by each state's Council representative. The Council also received public testimony at both the March and April meetings and received written comments at the Council office.

The Council met from April 4 to 8, 2005, in Tacoma, WA to adopt its final 2005 recommendations. Following the April Council meeting, the Council's STT and staff economist prepared a fourth report, "Preseason Report III Analysis of Council-Adopted Management Measures for 2005 Ocean Salmon Fisheries," which analyzes the environmental and socio-economic effects of the Council's final recommendations. This report was also made available to the Council, its advisors, and the public. After the Council took final action on the annual ocean salmon specifications in April, it published the recommended management measures in its newsletter and also posted them on the Council website ([www.pcouncil.org](http://www.pcouncil.org)).

#### Resource Status

Since 1989, NMFS has listed under the Endangered Species Act (ESA) 26 evolutionarily significant units (ESUs) of salmonids on the West Coast. As the listings have occurred, NMFS has conducted formal ESA section 7 consultations, issued biological opinions, and made determinations under section 4(d) of the ESA that consider the impacts to listed salmonid species resulting from proposed implementation of the Salmon FMP, or in some cases, from proposed implementation of the annual management measures. Associated with the biological opinions are incidental take statements which specify the level of take that is expected. Some of the biological opinions have concluded that implementation of the Salmon FMP is not likely to jeopardize the continued existence of certain listed ESUs and have provided incidental take statements. Other biological opinions have found that implementation of the Salmon FMP is likely to jeopardize certain listed ESUs and have identified reasonable and prudent alternatives (consultation standards) that would avoid the likelihood of jeopardizing the continued existence of the ESU under consideration, and provided an incidental take statement for the reasonable and prudent alternative. In a March 4, 2005, letter to the Council, NMFS provided the Council with ESA consultation standards and guidance for the management of stocks listed under the ESA in preparation for the 2005 management season in order to ensure that the Council recommendations comply with the ESA.

Estimates of the 2004 spawning escapements for key stocks managed under the Salmon FMP and preseason estimates of 2005 ocean abundance are provided in the Council's REVIEW and

PRE I documents. The primary resource and management concerns are for salmon stocks listed under the ESA.

Snake River wild fall Chinook are listed under the ESA as a threatened species. Direct information on the stock's ocean distribution and on fishery impacts is not available. Fishery impacts on Snake River fall Chinook are evaluated using the Lyons Ferry Hatchery stock as an indicator. The Lyons Ferry stock is widely distributed and harvested by ocean fisheries from southern California to Alaska. NMFS' ESA consultation standard requires that Council fisheries be managed to ensure that the Adult Equivalent (AEQ) exploitation rate on age-3 and age-4 adults for the combined Southeast Alaska, Canadian, and Council fisheries is not greater than 70.0 percent of that observed during the 1988-1993 base period. The Council's 2005 recommended fisheries, combined with expected impacts in Southeast Alaska and Canada fisheries, have an estimated age 3/4 AEQ exploitation rate that is 69.8 percent of that observed during the 1988-1993 base period. Meeting the Snake River fall Chinook age 3/4 AEQ exploitation rate was a major constraint on fisheries north of Cape Falcon.

This is the sixth year that NMFS provided guidance to the Council related to the Puget Sound Chinook ESU. NMFS's guidance for Puget Sound Chinook stocks is expressed in terms of total or southern U.S. fishery exploitation rate ceilings, or terminal escapement objectives. Under the current management structure, Council fisheries are included as part of the suite of fisheries that comprise the fishing regime negotiated each year by the co-managers under *U.S. v. Washington*, Civ. N. 70-9213 (W.D. Wash.) to meet management objectives for Puget Sound and Washington Coastal salmon stocks. Because these management objectives and the management planning structure address fisheries wherever they occur, Council and Puget Sound fisheries are interconnected. Therefore, in adopting its regulations, the Council recommends fisheries in the ocean that when combined with Puget Sound fisheries meet conservation objectives under Limit 6 of the ESA 4(d) Rule. NMFS estimated that the exploitation rates from Council-managed fisheries on Puget Sound Chinook populations will range from zero to seven percent. Management actions taken to meet exploitation rate and escapement targets will, therefore, occur primarily in the Puget Sound fisheries, but the nature of the existing process is such that ocean fishery impacts must be accounted for

as part of meeting comprehensive harvest management objectives.

In March 2005 NMFS completed its evaluation of the Resource Management Plan (RMP) provided by the Washington Department of Fish and Wildlife and the Puget Sound Treaty tribes for the 2004-2009 fishing years. On March 4, 2005, the NMFS approved the 2004-2009 RMP for applicability of limit 6 for the 2005-2009 fishing seasons. Previously NMFS had consulted on the 2004 fishing season regarding its effects on listed Puget Sound Chinook. NMFS concluded that the RMP poses no jeopardy to the Puget Sound Chinook ESU under conditions specified in Limit 6 of the ESA 4(d) Rule. NMFS issued an associated biological opinion on April 29, 2004, that also included the effects of the Council area fisheries under the Salmon FMP on Puget Sound Chinook salmon. The state and tribes manage their Council-area and inside Puget Sound fisheries as a package in coordination with the Council and NMFS to ensure that all impacts are accounted for and that overall conservation constraints are met. NMFS has determined that the management measures for the ocean salmon fisheries are consistent with the state and Tribal RMP, and that the RMP is consistent with the 4(d) rule.

Sacramento River winter Chinook are listed as endangered under the ESA. The Council's recommended management measures meet NMFS's requirements for the stock established through the ESA section 7 consultation process.

Although management concerns for ESA listed stocks were a primary consideration in preseason planning, the conservation objectives of other stocks also constrained fishing in certain areas. The forecast September 1, 2004 (preseason) ocean abundance of Klamath River fall Chinook salmon is 185,700 age-3 fish, 48,900 age-4 fish, and 5,200 age-5 fish. The forecast abundance requires certain reductions in 2005 commercial fishing opportunity south of Cape Falcon, OR, relative to the 2004 seasons, in order to achieve the conservation objective of 35,000 natural Klamath River fall Chinook adult spawners.

The Canadian Department of Fisheries and Oceans forecast that the abundance of Interior Fraser River (Thompson River) coho in Canada for 2005 to be in the low status category. As a result, U.S. fisheries under the Southern Coho Management Plan, adopted by the Pacific Salmon Commission in February 2002, were constrained to an exploitation rate no greater than 10.0 percent. The development of coho

fisheries north of Cape Falcon, OR, was greatly influenced by the need to meet this obligation of the Pacific Salmon Treaty.

#### Management Measures for 2005 Fisheries

The Council-recommended ocean harvest levels and management measures for 2005 fisheries are designed to apportion the burden of protecting the weak stocks identified and discussed in PRE I equitably among ocean fisheries and to allow maximum harvest of natural and hatchery runs surplus to inside fishery and spawning needs. NMFS finds the Council's recommendations responsive to the goals of the Salmon FMP, the requirements of the resource, and the socio-economic factors affecting resource users. The recommendations are consistent with the requirements of the Magnuson-Stevens Fishery Conservation and Management Act and U.S. obligations to Indian tribes with Federally recognized fishing rights, and U.S. international obligations regarding Pacific salmon. Accordingly, NMFS has adopted them.

North of Cape Falcon the 2005 management measures have a slightly lower Chinook quota and substantially lower coho quota relative to the 2004 season. The total allowable catch for 2005 is 86,500 Chinook and 145,000 marked hatchery coho; these fisheries are restricted to protect depressed Lower Columbia River wild coho, Washington coastal coho, Puget Sound coho, Oregon Coastal Natural (OCN) coho, Interior Fraser River coho, Puget Sound Chinook, and Snake River fall Chinook. Washington coastal and Puget Sound Chinook generally migrate to the far north and are not greatly affected by ocean harvests from Cape Falcon, OR, to the U.S.-Canada border. Nevertheless, ocean fisheries in combination with fisheries inside Puget Sound were restricted in order to meet ESA related conservation objectives for Puget Sound Chinook. North of Cape Alava, WA, the Council recommends a provision prohibiting retention of chum salmon during August and September to protect ESA listed Hood Canal summer chum. The Council has recommended such a prohibition for the last four years.

South of Cape Falcon, OR, the retention of coho is prohibited, except for a recreational selective fishery off Oregon with a 40,000-fish quota of marked hatchery coho. This is the second year the selective fishery includes the southern coastal area of Oregon. The Council's recommendations are below the 15-percent exploitation rate permitted

under Amendment 13 to protect OCN coho stocks, with an expected 11.1-percent OCN coho exploitation rate. The expected ocean exploitation rate for Rogue/Klamath coho is 5.5 percent, and is also below its exploitation rate limit of 13.0 percent. Chinook fisheries off Oregon and California are constrained to meet the conservation objective of Klamath River fall Chinook and the ESA consultation standards for Sacramento River winter Chinook.

#### Treaty Indian Fisheries for 2005

The treaty-Indian commercial troll fishery quota is 48,000 Chinook in ocean management areas and Washington State Statistical Area 4B combined. This quota is slightly lower than the 49,000-Chinook quota in 2004. The fisheries include a Chinook-directed fishery in May and June (under a quota of 25,000 Chinook) and an all-salmon season beginning in July with a 23,000 Chinook sub-quota. The coho quota for the treaty-Indian troll fishery in ocean management areas, including Washington State Statistical Area 4B for the July-September period is 50,000 coho, a decrease from the 75,000-coho quota in 2004.

#### Management Measures for 2006 Fisheries

The timing of the March and April Council meetings makes it impracticable for the Council to recommend fishing seasons that begin before May 1 of the same year. Therefore, the 2006 fishing seasons opening earlier than May 1 are also established in this action. The Council recommended, and NMFS concurs, that the recreational seasons off California from Horse Mountain to the U.S.-Mexico Border and off Oregon from Cape Falcon to Humbug Mountain, and the commercial troll seasons off California from Horse Mountain to Point Arena and off Oregon from Cape Falcon to the Oregon-California Border and will open in 2006 as indicated in the Season Description section. At the March 2005 meeting, the Council may consider inseason recommendations to adjust the commercial season prior to May 1 in the area off California between Horse Mountain and Point Arena.

#### Inseason Actions

The following sections set out the management regime for the salmon fishery. Open seasons and days are described in Sections 1, 2, and 3 of the 2005 management measures. Inseason closures in the commercial and recreational fisheries are announced on the NMFS hotline and through the U.S. Coast Guard Notice to Mariners as described in Section 6. Other inseason

adjustments to management measures are also announced on the hotline and through the Notice to Mariners. Inseason actions will also be published in the **Federal Register** as soon as practicable.

The following are the management measures recommended by the Council and approved and implemented here for 2005 and, as specified, for 2006.

#### Section 1. Commercial Management Measures for 2005 Ocean Salmon Fisheries

Note: This section contains restrictions in parts A, B, and C that must be followed for lawful participation in the fishery. Each fishing area identified in part A specifies the fishing area by geographic boundaries from north to south, the open seasons for the area, the salmon species allowed to be caught during the seasons, and any other special restrictions effective in the area. Part B specifies minimum size limits. Part C specifies special requirements, definitions, restrictions and exceptions.

##### A. Season Description

###### *North of Cape Falcon, OR*

U.S.-Canada Border to Cape Falcon

May 1 through the earlier of June 30 or a 29,000-Chinook quota. Open May 1-3 with a 75 Chinook per vessel landing and possession limit for the three-day open period; open May 6-9 with a 100-Chinook per vessel landing and possession limit for the 4-day open period; beginning May 13, open Friday through Monday with a 125-Chinook possession and landing limit for each of the subsequent 4-day open periods. If insufficient quota remains to prosecute openings prior to the June 24-27 open period, the remaining quota will be provided for a June 26-30 open period with a per vessel landing and possession limit to be determined inseason. All salmon except coho (C.7). Cape Flattery and Columbia Control Zones closed (C.5). See gear restrictions and definitions (C.2, C.3). Vessels must land their fish within 24 hours of any closure of this fishery. Under state law, vessels must report their catch on a state fish receiving ticket. Vessels fishing north of Leadbetter Point must land their fish within the area north of Leadbetter Point. Vessels fishing south of Leadbetter Point must land their fish within the area south of Leadbetter Point, except that Oregon permitted vessels may also land their fish in Garibaldi, OR. Oregon State regulations require all fishers landing salmon into Oregon from any fishery between Leadbetter Point, Washington, and Cape

Falcon, Oregon, must notify Oregon Department of Fish and Wildlife (ODFW) within 1 hour of delivery or prior to transport away from the port of landing by calling 541-867-0300 Ext. 271. Notification shall include vessel name and number, number of salmon by species, port of landing and location of delivery, and estimated time of delivery. Inseason actions may modify harvest guidelines in later fisheries to achieve or prevent exceeding the overall allowable troll harvest impacts (C.8).

July 7 through the earlier of September 15 or a 14,250 preseason Chinook guideline (C.8) or a 23,200-marked coho quota. Open Thursday through Monday prior to August 3, and Wednesday through Sunday thereafter. Landing and possession limit of 75 Chinook per vessel for the July 7-11 and July 14-18 open periods, and 100-Chinook landing and possession limit for subsequent five-day open periods. Landing and possession limit of 75 coho per 5-day open period beginning August 10 in the area between Cape Falcon and Leadbetter Point. All salmon except no chum retention north of Cape Alava, WA, in August and September (C.7). All retained coho must have a healed adipose fin clip, except an inseason conference call may occur to consider allowing retention of all legal sized coho beginning no earlier than September 1 (C.8.d). Gear restricted to plugs 6 inches (15.2 cm) or longer (C.2, C.3), except no special gear restrictions beginning August 10 in the area between Cape Falcon and Leadbetter Point. Cape Flattery and Columbia Control Zones closed (C.5). Vessels must land their fish within 24 hours of any closure of this fishery. Under state law, vessels must report their catch on a state fish receiving ticket. Vessels fishing north of Leadbetter Point must land their fish within the area north of Leadbetter Point. Vessels fishing south of Leadbetter Point must land their fish within the area south of Leadbetter Point, except that Oregon permitted vessels may also land their fish in Garibaldi, OR. Oregon State regulations require all fishers landing salmon into Oregon from any fishery between Leadbetter Point and Cape Falcon must notify ODFW within 1 hour of delivery or prior to transport away from the port of landing by calling 541-867-0300 Ext. 271. Notification shall include vessel name and number, number of salmon by species, port of landing and location of delivery, and estimated time of delivery. Inseason actions may modify harvest guidelines in later fisheries to achieve or prevent exceeding the overall allowable troll harvest impacts (C.8).

#### *South of Cape Falcon*

Cape Falcon to Florence South Jetty, OR (Newport)

March 15-25; April 1-15; May 1-3, 8-10, 15-17, 22-24, 29-30; June 1-30; September 1-23; October 1-31 (C.9). All salmon except coho (C.7). Chinook 27 inch (68.6 cm) total length minimum size limit through April 15, and 28 inches (71.1 cm) total length thereafter (B). All vessels fishing in the area must land their fish in the State of Oregon. See gear restrictions and definitions (C.2, C.3) and Oregon State regulations for a description of special regulations at the mouth of Tillamook Bay.

In 2006, the season will open March 15 for all salmon except coho, with a 27 inch (68.6 cm) total length Chinook minimum size limit.

Florence South Jetty to Humbug Mountain, OR (Coos Bay)

March 15-25; April 1-15; May 1-30; September 1-23; October 1-31 (C.9). All salmon except coho (C.7). Chinook 27 inch (68.6 cm) total length minimum size limit through April 15, and 28 inches (71.1 cm) total length thereafter (B). All vessels fishing in the area must land their fish in the State of Oregon.

In 2006, the season will open March 15 for all salmon except coho, with a 27 inch (68.6 cm) Chinook minimum size limit.

Humbug Mountain to Oregon-California Border (Oregon KMZ)

March 15-25; April 1-15. September 3 through the earlier of September 30, or a 3,000 Chinook quota (C.9). All salmon except coho. Chinook 27 inch (68.6 cm) total length minimum size limit through April 15, and 28 inches (71.1 cm) total length September 1 through 30. Possession and landing limit of 45 fish per day per vessel in September. See gear restrictions and definitions (C.2, C.3). Vessels must land their fish in Gold Beach, Port Orford, or Brookings, OR, and within 24 hours of closure. State regulations require fishers intending to transport and deliver their catch to other locations after first landing in one of these ports notify ODFW prior to transport away from the port of landing by calling 541-867-0300 Ext. 271, with vessel name and number, number of salmon by species, location of delivery, and estimated time of delivery.

In 2006, the season will open March 15 for all salmon except coho, with a 27-inch (68.6-cm) Chinook minimum size limit.

Oregon-California Border to Humboldt South Jetty (California KMZ)

September 3 through the earlier of September 30 or a 6,000 Chinook quota. All salmon except coho. Chinook minimum size limit of 28 inches (71.1 cm) total length. Possession and landing limit of 30 fish per day per vessel. All fish caught in this area must be landed within the area. See compliance requirements (C.1) and gear restrictions and definitions (C.2, C.3). Klamath Control Zone closed (C.5). See California State regulations for additional closures adjacent to the Smith and Klamath rivers. When the fishery is closed between the Oregon-California border and Humbug Mountain and open to the south, vessels with fish on board caught in the open area off California may seek temporary mooring in Brookings, OR, prior to landing in California only if such vessels first notify the Chetco River Coast Guard Station via VHF channel 22A between the hours of 0500 and 2200 and provide the vessel name, number of fish on board, and estimated time of arrival.

Horse Mountain to Point Arena, CA (Fort Bragg)

September 1-30. All salmon except coho. Chinook minimum size limit 27 inches (68.6 cm) total length. See gear restrictions and definitions (C.2, C.3).

In 2006, the season will open March 15 for all salmon except coho, with a 27 inch (68.6 cm) total length Chinook minimum size limit. This opening could be modified following Council review at its March 2006 meeting.

Point Arena to Pigeon Point (San Francisco)

July 4 through August 29; September 1-30. All salmon except coho. Chinook minimum size limit 27 inches (68.6 cm) total length in September; 28 inches (71.1 cm) in July and August. See gear restrictions and definitions (C.2, C.3).

Point Reyes to Point San Pedro, CA (Fall Area Target Zone)

October 3-14. Open Monday through Friday. All salmon except coho. Chinook minimum size limit 26 inches (66.0 cm) total length. See gear restrictions and definitions (C.2, C.3).

Pigeon Point to Point Sur, CA (Monterey)

May 1-31; July 4 through August 29; September 1-30. All salmon except coho. Chinook minimum size limit 27 inches (68.6 cm) total length in May and September; 28 inches (71.1 cm) total length in July and August. See gear restrictions and definitions (C.2, C.3).

Point Sur to U.S.-Mexico Border  
May 1 through September 30. All  
salmon except coho. Chinook minimum

size limit 27 inches (68.6 cm) total  
length in May, June, and September; 28  
inches total length in July and August.

See gear restrictions and definitions  
(C.2, C.3).

#### B. Minimum Size (Inches) (See C.1)

| Area (when open)                                   | Chinook      |          | Coho         |          | Pink |
|--|--------------|----------|--------------|----------|------|
|  | Total Length | Head-off | Total Length | Head-off |      |
| North of Cape Falcon, OR                           | 28.0         | 21.5     | 16.0         | 12.0     | None |
| Cape Falcon to OR-CA Border                        |              |          |              |          |      |
| Prior to April 16, 2005 & beginning March 15, 2006 | 27.0         | 20.5     | -            | -        | None |
| May 1 - October 31                                 | 28.0         | 21.5     | -            | -        | None |
| OR-CA Border to Horse Mountain, CA                 | 28.0         | 21.5     | -            | -        | None |
| Horse Mountain to Point Arena, CA                  | 27.0         | 20.5     | -            | -        | None |
| Pt. Arena to US-Mexico Border                      |              |          |              |          |      |
| Prior to July 1 and September 1-30                 | 27.0         | 20.5     | -            | -        | None |
| July 1 - August 31                                 | 28.0         | 21.5     | -            | -        | None |
| October 3-14                                       | 26.0         | 19.5     | -            | -        | None |

Metric equivalents: 28.0 in=71.1 cm, 27.0 in=68.6 cm, 26.0 in=66.0 cm, 21.5 in=54.6 cm, 19.5 in=49.5 cm, 16.0in=40.6 cm, and 12.0 in=30.5 cm.

#### C. Special Requirements, Definitions, Restrictions, or Exceptions

**C.1. Compliance with Minimum Size or Other Special Restrictions:** All salmon on board a vessel must meet the minimum size or other special requirements for the area being fished and the area in which they are landed if that area is open. Salmon may be landed in an area that is closed only if they meet the minimum size or other special requirements for the area in which they were caught.

##### C.2. Gear Restrictions:

a. Single point, single shank, barbless hooks are required in all fisheries.

b. *Cape Falcon, OR to the Oregon-California border:* No more than 4 spreads are allowed per line.

c. *Oregon-California border to U.S.-Mexico border:* No more than 6 lines are allowed per vessel, and barbless circle hooks are required when fishing with bait by any means other than trolling.

##### C.3. Gear Definitions:

a. *Trolling defined:* Fishing from a boat or floating device that is making way by means of a source of power, other than drifting by means of the prevailing water current or weather conditions.

b. *Troll fishing gear defined:* One or more lines that drag hooks behind a moving fishing vessel. In that portion of the fishery management area (FMA) off Oregon and Washington, the line or lines must be affixed to the vessel and must not be intentionally disengaged from the vessel at any time during the fishing operation.

c. *Spread defined:* A single leader connected to an individual lure or bait.

d. *Circle hook defined:* A hook with a generally circular shape and a point which turns inward, pointing directly to the shank at a 90° angle.

**C.4. Transit Through Closed Areas with Salmon on Board:** It is unlawful for a vessel to have troll or recreational gear in the water while transiting any area closed to fishing for a certain species of salmon, while possessing that species of salmon; however, fishing for species other than salmon is not prohibited if the area is open for such species and no salmon for which the area is closed are in possession.

##### C.5. Control Zone Definitions:

a. *Cape Flattery Control Zone:* The area from Cape Flattery, WA (48°23'00" N. lat.), to the northern boundary of the U.S. EEZ; and the area from Cape Flattery, WA, south to Cape Alava, WA (48°10'00" N. lat.), and east of 125°05'00" W. long.

b. *Columbia Control Zone:* An area at the Columbia River mouth, bounded on the west by a line running northeast/southwest between the red lighted Buoy 14 (46°13'35" N. lat., 124°06'50" W. long.) and the green lighted Buoy 17 (46°15'09" N. lat., 124°06'16" W. long.); on the east, by the Buoy #10 line which bears north/south at 357° true from the south jetty at 46°14'00" N. lat., 124°03'07" W. long. to its intersection with the north jetty; on the north, by a line running northeast/southwest between the green lighted Buoy #7 to the tip of the north jetty (46°15'48" N. lat., 124°05'20" W. long.) and then along the north jetty to the point of intersection with the Buoy #10 line; and, on the south, by a line running northeast/southwest between the red lighted Buoy #4 and tip of the south jetty (46°14'03" N. lat., 124°04'05" W. long.), and then along the south jetty to the point of intersection with the Buoy #10 line.

c. *Klamath Control Zone:* The ocean area at the Klamath River mouth bounded on the north by 41°38'48" N.

lat. (approximately 6 nautical miles (11.1 km) north of the Klamath River mouth); on the west, by 124°23'00" W. long. (approximately 12 nautical miles (22.2 km) off shore); and, on the south, by 41°26'48" N. lat. (approximately 6 nautical miles (11.1 km) south of the Klamath River mouth).

**C.6. Notification When Unsafe Conditions Prevent Compliance with Regulations:** If prevented by unsafe weather conditions or mechanical problems from meeting special management area landing restrictions, vessels must notify the U.S. Coast Guard and receive acknowledgment of such notification prior to leaving the area. This notification shall include the name of the vessel, port where delivery will be made, approximate amount of salmon (by species) on board and the estimated time of arrival.

**C.7. Incidental Halibut Harvest:** During authorized periods, the operator of a vessel that has been issued an incidental halibut harvest license may retain Pacific halibut caught incidentally in Area 2A while trolling for salmon. Halibut retained must be no less than 32 inches (81.3 cm) in total length, measured from the tip of the lower jaw with the mouth closed to the extreme end of the middle of the tail, and must be landed with the head on. License applications for incidental harvest must be obtained from the International Pacific Halibut Commission (IPHC) (phone 206-634-1838). Applicants must apply prior to April 1 of each year. Incidental harvest is authorized only during May-June troll seasons and after June 30 if quota remains and if announced on the NMFS hotline (phone 800-662-9825). ODFW and Washington Department of Fish and Wildlife (WDFW) will monitor landings. If the landings are projected to exceed

the 39,918-lb. (18.1-mt) preseason allocation or the total Area 2A non-Indian commercial halibut allocation, NMFS will take inseason action to close the incidental halibut fishery.

Beginning May 1, license holders may land no more than 1 Pacific halibut per each 3 Chinook, except 1 Pacific halibut may be landed without meeting the ratio requirement, and no more than 35 halibut may be landed per trip. Pacific halibut retained must be no less than 32 inches (81.3 cm) in total length (with head on).

A "C-shaped" yelloweye rockfish conservation area is an area to be avoided for salmon trolling. NMFS and the Council request salmon trollers voluntarily avoid this area in order to protect yelloweye rockfish. The area is defined in the Council Halibut Catch Sharing Plan in the North Coast subarea (Washington marine area 3), with the following coordinates in the order listed:

48°18' N. lat.; 125°18' W. long;  
48°18' N. lat.; 124°59' W. long;  
48°11' N. lat.; 124°59' W. long;  
48°11' N. lat.; 125°11' W. long;  
48°04' N. lat.; 125°11' W. long;  
48°04' N. lat.; 124°59' W. long;  
48°00' N. lat.; 124°59' W. long;  
48°00' N. lat.; 125°18' W. long;  
and connecting back to 48°18' N. lat.;  
125°18' W. long.

C.8. *Inseason Management:* In addition to standard inseason actions or modifications already noted under the season description, the following inseason guidance is provided to NMFS:

a. Chinook remaining from the May through June non-Indian commercial troll harvest guideline north of Cape Falcon, OR, may be transferred to the July through September harvest guideline on a fishery impact equivalent basis.

b. NMFS may transfer fish between the recreational and commercial fisheries north of Cape Falcon, OR, if there is agreement among the areas' representatives on the Salmon Advisory Subpanel.

c. At the March 2006 meeting, the Council will consider inseason recommendations for special regulations for any experimental fisheries (proposals must meet Council protocol and be received in November 2005).

d. If retention of unmarked coho is permitted in the area from the U.S.-Canada border to Cape Falcon, OR, by inseason action, the allowable coho quota will be adjusted to ensure preseason projected mortality of critical stocks is not exceeded.

C.9. Consistent with Council management objectives, the State of Oregon may establish additional late-

season, Chinook-only fisheries in state waters. Check state regulations for details.

C.10. For the purposes of California Department of Fish and Game Code, Section 8232.5, the definition of the Klamath Management Zone for the ocean salmon season shall be that area from Humbug Mountain, OR, to Horse Mountain, CA.

## Section 2. Recreational Management Measures for 2005 Ocean Salmon Fisheries

Note: This section contains restrictions in parts A, B, and C that must be followed for lawful participation in the fishery. Each fishing area identified in part A specifies the fishing area by geographic boundaries from north to south, the open seasons for the area, the salmon species allowed to be caught during the seasons, and any other special restrictions effective in the area. Part B specifies minimum size limits. Part C specifies special requirements, definitions, restrictions and exceptions.

### A. Season Description

#### North of Cape Falcon, OR

U.S.-Canada Border to Cape Alava, WA (Neah Bay Subarea)

July 1 through the earlier of September 18 or a 12,667 marked coho subarea quota with a subarea guideline of 4,300 Chinook. Tuesday through Saturday, except there may be a conference call no later than July 27 to consider opening seven days per week. All salmon, except no chum retention August 1 through September 18, two fish per day, no more than one of which may be a Chinook (Chinook 24-inch (61.0 cm) total length minimum size limit)(B). All retained coho must have a healed adipose fin clip. See gear restrictions and definitions (C.2, C.3). Beginning August 1, Chinook non-retention east of the Bonilla-Tatoosh line (C.4.d) during Council managed ocean fishery. Inseason management may be used to sustain season length and keep harvest within the overall Chinook recreational TAC for north of Cape Falcon (C.5).

Cape Alava to Queets River, WA (La Push Subarea)

July 1 through the earlier of September 18 or a 3,067 marked coho subarea quota with a subarea guideline of 1,900 Chinook. Tuesday through Saturday, except there may be a conference call no later than July 27 to consider opening seven days per week.

September 24 through October 9 or a 100-marked coho quota or a 100

Chinook quota: In the area north of 47° 50'00" N. Lat. and south of 48° 00'00" N. lat. (C.5). Seven days per week.

All salmon, two fish per day, no more than one of which may be a Chinook (Chinook 24-inch (61.0 cm) total length minimum size limit)(B). All retained coho must have a healed adipose fin, except inseason action may occur to consider allowing retention of all legal sized coho beginning September 24 (C.5.d). See gear restrictions and definitions (C.2, C.3). Inseason management may be used to sustain season length and keep harvest within the overall Chinook recreational TAC for north of Cape Falcon (C.5).

Queets River to Leadbetter Point, WA (Westport Subarea)

June 26 through the earlier of September 18 or a 45,066 marked coho subarea quota with a subarea guideline of 28,750 Chinook. Sunday through Thursday, except there may be a conference call no later than July 27 to consider opening seven days per week. All salmon, two fish per day, no more than one of which may be a Chinook (Chinook 24-inch (61.0 cm) total length minimum size limit)(B). All retained coho must have a healed adipose fin clip. See gear restrictions and definitions (C.2, C.3). Beginning August 1, Grays Harbor Control Zone closed (C.4.b). Inseason management may be used to sustain season length and keep harvest within the overall Chinook recreational TAC for north of Cape Falcon (C.5).

Leadbetter Point to Cape Falcon, OR (Columbia River Subarea)

July 3 through the earlier of September 30 or a 60,900-marked coho subarea quota with a subarea guideline of 8,200 Chinook. Sunday through Thursday, except there may be a conference call no later than July 27 to consider opening seven days per week. All salmon, two fish per day, no more than one of which may be a Chinook (Chinook 24-inch (61.0 cm) total length minimum size limit)(B). All retained coho must have a healed adipose fin clip. See gear restrictions and definitions (C.2, C.3). Columbia Control Zone closed (C.4.a). Closed between Cape Falcon and Tillamook Head beginning August 1. Inseason management may be used to sustain season length and keep harvest within the overall Chinook recreational TAC for north of Cape Falcon (C.5).

Cape Falcon to Humbug Mountain, OR

Except as provided below during the selective fishery, the season will be March 15 through October 31 (C.6). All

salmon except coho. Two fish per day (C.1). See gear restrictions and definitions (C.2, C.3).

**Selective fishery:** Cape Falcon to the Oregon/California Border. June 18 through earlier of July 31 or a landed catch of 40,000 marked coho, except that the area south of Humbug Mountain will close July 5-31, concurrent with the KMZ season listed below.

Open seven days per week, all salmon, two fish per day (C.1). All retained coho must have a healed adipose fin clip. Fishing in the Stonewall Bank Groundfish Conservation Area restricted to trolling only on days the all depth recreational halibut fishery is open (see 70 FR 20304, April 19, 2005, and call the halibut fishing hotline 1-800-662-9825 for additional dates)(C.3, C.4.e). Open days may be adjusted inseason to utilize the available quota (C.5). All salmon except coho seasons reopen the earlier of August 1 or attainment of the coho quota.

In 2006, the season will open March 15 for all salmon except coho, two fish per day (C.1), Chinook minimum size limit of 20 inches (50.8 cm) total length (B), and the same gear restrictions as in 2005 (C.2, C.3).

Humbug Mountain to Horse Mountain, CA (Klamath Management Zone)

Except as provided above during the selective fishery, the season will be May 21 through July 4; and August 14 through September 11 (C.6). All salmon except coho, except as noted above in the coho selective fishery. Chinook minimum size limit 24 inches (61.0 cm) total length (B). Seven days per week, two fish per day (C.1). See gear restrictions and definitions (C.2, C.3). Klamath Control Zone closed in August (C.4.c). See California State regulations for additional closures adjacent to the Smith, Klamath, and Eel rivers.

Horse Mountain to Point Arena, CA (Fort Bragg)

February 12 through July 10; July 16-17; July 23 through November 13. All salmon except coho. Two fish per day (C.1). Chinook minimum size limit 20 inches (50.8 cm) total length (B). See gear restrictions and definitions (C.2, C.3).

In 2006, season opens February 18 (nearest Saturday to February 15) for all salmon except coho, two fish per day (C.1), Chinook minimum size limit of 20 inches (50.8 cm) total length (B), and the same gear restrictions as in 2005 (C.2, C.3).

Point Arena to Pigeon Point, CA (San Francisco)

April 2 through November 13. All salmon except coho. Two fish per day (C.1). Chinook minimum size limit 20 inches (50.8 cm) total length (B). See gear restrictions and definitions (C.2, C.3).

In 2006, the season will open April 1 for all salmon except coho, two fish per day (C.1). Chinook minimum size limit of 20 inches (50.8 cm) total length (B), and the same gear restrictions as in 2005 (C.2, C.3).

Pigeon Point to U.S.-Mexico Border

April 2 through September 25. All salmon except coho. Two fish per day (C.1). Chinook minimum size limit 20 inches (50.8 cm) total length (B). See gear restrictions and definitions (C.2, C.3).

In 2006, the season will open April 1 for all salmon except coho, two fish per day (C.1), Chinook minimum size limit of 20 inches (50.8 cm) total length (B), and the same gear restrictions as in 2005 (C.2, C.3).

#### B. Minimum Size (Total Length in Inches) (See C.1)

| Area (when open)                | Chinook    | Coho       | Pink                      |
|---------------------------------|------------|------------|---------------------------|
| North of Cape Falcon, OR        | 24.0 ..... | 16.0 ..... | None.                     |
| Cape Falcon to Humbug Mt., CA   | 20.0 ..... | 16.0 ..... | None.                     |
| Humbug Mt. to Horse Mt., CA     | 24.0 ..... | - .....    | None, except 20.0 off CA. |
| Horse Mt. to U.S.-Mexico Border | 20.0 ..... | - .....    | 20.0.                     |

Metric equivalents: 26.0 in=66.0 cm, 24.0 in=61.0 cm, 20.0 in=50.8 cm, 16.0 in=40.6 cm.

#### C. Special Requirements, Definitions, Restrictions, or Exceptions

**C.1. Compliance with Minimum Size and Other Special Restrictions:** All salmon on board a vessel must meet the minimum size or other special requirements for the area being fished, and the area in which they are landed if that area is open. Salmon may be landed in an area that is closed only if they meet the minimum size or other special requirements for the area in which they were caught.

**Ocean Boat Limits:** Off the coast of Washington, Oregon, and California, each fisher aboard a vessel may continue to use angling gear until the combined daily limits of salmon for all licensed and juvenile anglers aboard has been attained (additional state restrictions may apply).

**C.2. Gear Restrictions:** All persons fishing for salmon, and all persons fishing from a boat with salmon on board must meet the gear restrictions

listed below for specific areas or seasons.

**a. U.S.-Canada Border to Point Conception, CA:** No more than one rod may be used per angler; and single point, single shank barbless hooks are required for all fishing gear. [Note: ODFW regulations in the state-water fishery off Tillamook Bay, OR, may allow the use of barbed hooks to be consistent with inside regulations.]

**b. Cape Falcon, OR, to Point Conception, CA:** Anglers must use no more than 2 single point, single shank, barbless hooks.

**c. Horse Mountain to Point Conception, CA:** Single point, single shank, barbless circle hooks (see circle hook definition below) must be used if angling with bait by any means other than trolling and no more than 2 such hooks shall be used. When angling with 2 hooks, the distance between the hooks must not exceed 5 inches (12.7 cm) when measured from the top of the eye of the top hook to the inner base of the

curve of the lower hook, and both hooks must be permanently tied in place (hard tied). Circle hooks are not required when artificial lures are used without bait.

#### C.3. Gear Definitions:

**a. Recreational fishing gear defined:** Angling tackle consisting of a line with no more than one artificial lure or natural bait attached. Off Oregon and Washington, the line must be attached to a rod and reel held by hand or closely attended; the rod and reel must be held by hand while playing a hooked fish. No person may use more than one rod and line while fishing off Oregon or Washington. Off California, the line must be attached to a rod and reel held by hand or closely attended. Weights directly attached to a line may not exceed four pounds (1.8 kg). While fishing off California north of Point Conception, no person fishing for salmon, and no person fishing from a boat with salmon on board, may use more than one rod and line. Fishing

includes any activity which can reasonably be expected to result in the catching, taking, or harvesting of fish.

b. *Circle hook defined*: A hook with a generally circular shape and a point which turns inward, pointing directly to the shank at a 90° angle.

c. *Trolling defined*: Angling from a boat or floating device that is making way by means of a source of power, other than drifting by means of the prevailing water current or weather conditions.

#### C.4. Control Zone Definitions:

a. *Columbia Control Zone*: An area at the Columbia River mouth, bounded on the west by a line running northeast/southwest between the red lighted Buoy #4 (46°13'35" N. lat., 124°06'50" W. long.) and the green lighted Buoy #7 (46°15'09" N. lat., 124°06'16" W. long.); on the east, by the Buoy #10 line which bears north/south at 357° true from the south jetty at 46°14'00" N. lat., 124°03'07" W. long. to its intersection with the north jetty; on the north, by a line running northeast/southwest between the green lighted Buoy #7 to the tip of the north jetty (46°15'48" N. lat., 124°05'20" W. long.) and then along the north jetty to the point of intersection with the Buoy #10 line; and, on the south, by a line running northeast/southwest between the red lighted Buoy #4 and tip of the south jetty (46°14'03" N. lat., 124°04'05" W. long.), and then along the south jetty to the point of intersection with the Buoy #10 line.

b. *Grays Harbor Control Zone*: The area defined by a line drawn from the Westport Lighthouse (46°53'18" N. lat., 124°07'01" W. long.) to Buoy #2 (46°52'42" N. lat., 124°12'42" W. long.) to Buoy #3 (46°55'00" N. lat., 124°14'48" W. long.) to the Grays Harbor north jetty (46°36'00" N. lat., 124°10'51" W. long.).

c. *Klamath Control Zone*: The ocean area at the Klamath River mouth bounded on the north by 41°38'48" N. lat. (approximately 6 nautical miles (11.1 km) north of the Klamath River mouth); on the west, by 124°23'00" W.

long. (approximately 12 nautical miles (22.2 km) off shore); and, on the south, by 41°26'48" N. lat. (approximately 6 nautical miles (11.1 km) south of the Klamath River mouth).

d. *Bonilla-Tatoosh Line*: Defined as a line running from the western end of Cape Flattery, WA, to Tatoosh Island Lighthouse (48°23'30" N. lat., 124°44'12" W. long.) to the buoy adjacent to Duntze Rock (48°28'00" N. lat., 124°45'00" W. long.), then in a straight line to Bonilla Point (48°35'30" N. lat., 124°43'00" W. long.) on Vancouver Island, B.C.

e. *Stonewall Bank Groundfish Conservation Area*: The area defined by the following coordinates in the order listed:

44°37.46' N. lat.; 124°24.92' W. long.;  
44°37.46' N. lat.; 124°23.63' W. long.;  
44°28.71' N. lat.; 124°21.80' W. long.;  
44°28.71' N. lat.; 124°24.10' W. long.;  
44°31.42' N. lat.; 124°25.47' W. long.;  
and connecting back to 44°37.46' N. lat.; 124°24.92' W. long.

C.5. *Inseason Management*: Inseason regulatory modifications may become necessary inseason to meet pre-season management objectives such as quotas, harvest guidelines, and season duration. In addition to standard inseason actions or modifications already noted under the season description, the following inseason guidance is provided to NMFS: (1) actions could include modifications to bag limits, or days open to fishing, and extensions or reductions in areas open to fishing; (2) Coho may be transferred inseason among recreational subareas north of Cape Falcon on an impact neutral basis to help meet the recreational season duration objectives (for each subarea) after conferring with representatives of the affected ports and the Council's Salmon Advisory Subpanel (SAS) recreational representatives north of Cape Falcon; (3) Chinook and coho may be transferred between the recreational and commercial fisheries north of Cape Falcon on an impact neutral basis if there is agreement among the

representatives of the SAS; (4) If retention of unmarked coho is permitted in the area from the U.S.-Canada border to Cape Falcon, OR, by inseason action, the allowable coho quota will be adjusted to ensure pre-season projected mortality of critical stocks is not exceeded.

C.6. *Additional Seasons in State Waters*: Consistent with Council management objectives, the States of Washington and Oregon may establish limited seasons in state waters. Oregon state-water fisheries are limited to Chinook salmon. Check state regulations for details.

### Section 3. Treaty Indian Management Measures for 2005 Ocean Salmon Fisheries

Note: This section contains restrictions in parts A, B, and C which must be followed for lawful participation in the fishery.

#### A. Season Descriptions

##### U.S.-Canada Border to Cape Falcon, OR

May 1 through the earlier of June 30 or a 25,000 Chinook quota. All salmon except coho. If the Chinook quota for the May-June fishery is not fully utilized, the excess fish cannot be transferred into the later all-salmon season. If the Chinook quota is exceeded, the excess will be deducted from the later all-salmon season. See size limit (B) and other restrictions (C).

July 1 through the earlier of September 15, or 23,000 pre-season Chinook quota, or a 50,000 coho quota. All salmon. If the treaty Indian troll catch taken from Areas 4-4B is projected inseason to exceed 47,286 coho, the total treaty Indian troll quota will be adjusted to ensure that the exploitation rate impact of the treaty Indian troll fishery on Interior Fraser coho does not exceed the level anticipated under the assumptions employed for impact assessment. See size limit (B) and other restrictions (C).

#### B. Minimum Size (Inches)

| Area (when open) and Fishery   | Chinook      |              | Coho         |              | Pink         |
|--|--------------|--------------|--------------|--------------|--------------|
|  | Total Length | Head-off     | Total Length | Head-off     |              |
| North of Cape Falcon, OR<br>Commercial<br>Ceremonial and Subsistence | 24.0<br>None | 18.0<br>None | 16.0<br>None | 12.0<br>None | None<br>None |

Metric equivalents: 24.0 in=61.0 cm, 18.0 in=45.7 cm, 16.0in=40.6 cm, and 12.0 in=30.5 cm.

### C. Special Requirements, Restrictions, and Exceptions

C.1 *Tribe and Area Boundaries*: All boundaries may be changed to include such other areas as may hereafter be authorized by a Federal court for that tribe's treaty fishery.

**MAKAH**— Washington State Statistical Area 4B and that portion of the FMA north of 48°02'15" N. lat. (Norwegian Memorial) and east of 125°44'00" W. long.

**QUILEUTE**— That portion of the FMA between 48°07'36" N. lat. (Sand Point) and 47°31'42" N. lat. (Queets River) and east of 125°44'00" W. long.

**HOH**— That portion of the FMA between 47°54'18" N. lat. (Quillayute River) and 47°21'00" N. lat. (Quinault River) and east of 125°44'00" W. long.

**QUINAULT**— That portion of the FMA between 47°40'06" N. lat. (Destruction Island) and 46°53'18" N. lat. (Point Chehalis) and east of 125°44'00" W. long.

#### C.2 *Gear restrictions*:

- Single point, single shank, barbless hooks are required in all fisheries.
- No more than 8 fixed lines per boat.
- No more than four hand held lines per person in the Makah area fishery (Washington State Statistical Area 4B and that portion of the FMA north of 48°02'15" N. lat. (Norwegian Memorial) and east of 125°44'00" W. long.)

#### C.3 *Quotas*:

- The overall treaty Indian troll ocean quotas are 48,000 Chinook and 50,000 coho.
- The quotas include troll catches by the S'Klallam and Makah tribes in Washington State Statistical Area 4B from May 1 through September 15.
- The Makah encounter rate study will occur between May 1 and September 15. Salmon taken in the study by treaty Indian vessels will be counted towards the overall treaty Indian troll quota.
- The Quileute Tribe will continue a ceremonial and subsistence fishery during the time frame of September 15 through October 15 in the same manner as in 2004. Fish taken during this fishery are to be counted against treaty troll quotas established for the 2005 season (estimated harvest during the October ceremonial and subsistence fishery: 100 Chinook; 200 coho).

#### C.4 *Area Closures*:

- The area within a 6-nautical mile (11.1-km) radius of the mouths of the Queets River, WA (47°31'42" N. lat.) and the Hoh River, WA (47°45'12" N. lat.) will be closed to commercial fishing.
- A closure within 2-nautical miles (3.7 km) of the mouth of the Quinault

River, WA (47°21'00" N. lat.) may be enacted by the Quinault Nation and/or the State of Washington and will not adversely affect the Secretary of Commerce's management regime.

### Section 4. Halibut Retention

Under the authority of the Northern Pacific Halibut Act, NMFS promulgated regulations governing the Pacific halibut fishery which appear at 50 CFR part 300, subpart E. On February 25, 2005, NMFS published a final rule (70 FR 9242) to implement the International Pacific Halibut Commission's (IPHC) recommendations, and to announce fishery regulations for U.S. waters off Alaska and fishery regulations for treaty commercial and ceremonial and subsistence fisheries and some regulations for non-treaty commercial fisheries for U.S. waters off the West Coast. In addition, a final rule to announce approval of and implement the Area 2A Pacific halibut Catch Sharing Plan and the Area 2A management measures for 2005, effective April 14, 2005, was published in the **Federal Register** on April 19, 2005 (70 FR 20304). The regulations and management measures provide that vessels participating in the salmon troll fishery in Area 2A (all waters off the States of Washington, Oregon, and California), which have obtained the appropriate IPHC license, may retain halibut caught incidentally during authorized periods in conformance with provisions published with the annual salmon management measures. A salmon troller may participate in the halibut incidental catch fishery during the salmon troll season or in the directed commercial fishery targeting halibut, but not both.

The following measures have been approved by the IPHC, and implemented by NMFS. The operator of a vessel who has been issued an incidental halibut harvest license by the IPHC may retain Pacific halibut caught incidentally in Area 2A, during authorized periods, while trolling for salmon. Incidental harvest is authorized only during the May and June troll seasons. It is also authorized after June 30 if halibut quota remains and if halibut retention is announced on the NMFS hotline (phone 800-662-9825). License holders may land no more than 1 halibut per each 3 Chinook, except 1 halibut may be landed without meeting the ratio requirement, and no more than 35 halibut may be landed per trip. Halibut retained must meet the minimum size limit of 32 inches (81.3 cm) total length (with head on). The ODFW and WDFW will monitor landings and, if they are projected to

exceed the 39,918-lb. (18.1-mt) salmon troll allocation or the Area 2A non-Indian commercial total allowable catch of halibut, NMFS will take inseason action to close the incidental halibut fishery. License applications for incidental harvest must be obtained from the IPHC. Applicants must apply prior to April 1 of each year.

NMFS and the Council request that salmon trollers voluntarily avoid a "C-shaped" yelloweye rockfish conservation area in order to protect yelloweye rockfish. The area is defined in the Pacific Council Halibut Catch Sharing Plan in the North Coast subarea (WA marine area 3)(See Section 1.C.7. for the coordinates).

### Section 5. Geographical Landmarks

Wherever the words "nautical miles off shore" are used in this document, the distance is measured from the baseline from which the territorial sea is measured.

Geographical landmarks referenced in this document are at the following locations:

- Cape Flattery, WA.....48°23'00" N. lat.
- Cape Alava, WA.....48°10'00" N. lat.
- Queets River, WA.....47°31'42" N. lat.
- Leadbetter Point, WA.....46°38'10" N. lat.
- Cape Falcon, OR.....45°46'00" N. lat.
- Florence South Jetty, OR.....44°00'54" N. lat.
- Humbug Mountain, OR.....42°40'30" N. lat.
- Oregon-California Border.....42°00'00" N. lat.
- Humboldt South Jetty, CA.....40°45'53" N. lat.
- Horse Mountain, CA.....40°05'00" N. lat.
- Point Arena, CA.....38°57'30" N. lat.
- Point Reyes, CA.....37°59'44" N. lat.
- Point San Pedro, CA.....37°35'40" N. lat.
- Pigeon Point, CA.....37°11'00" N. lat.
- Point Sur, CA.....36°18'00" N. lat.
- Point Conception, CA.....34°27'00" N. lat.

### Section 6. Inseason Notice Procedures

Actual notice of inseason management actions will be provided by a telephone hotline administered by the Northwest Region, NMFS, 206-526-6667 or 800-662-9825, and by U.S. Coast Guard Notice to Mariners broadcasts. These broadcasts are

announced on Channel 16 VHF-FM and 2182 KHz at frequent intervals. The announcements designate the channel or frequency over which the Notice to Mariners will be immediately broadcast. Inseason actions will also be filed with the **Federal Register** as soon as practicable. Since provisions of these management measures may be altered by inseason actions, fishermen should monitor either the telephone hotline or Coast Guard broadcasts for current information for the area in which they are fishing.

#### Classification

This notification of annual management measures is exempt from review under Executive Order 12866.

The provisions of 50 CFR 660.411 state that if, for good cause, an action must be filed without affording a prior opportunity for public comment, the measures will become effective; however, public comments on the action will be received for a period of 15 days after the date of publication in the **Federal Register**. NMFS will receive public comments on this action until May 19, 2005. These regulations are being promulgated under the authority of 16 USC 1855(d).

The Assistant Administrator for Fisheries, NOAA (AA) finds good cause under 5 U.S.C. 553(b)(B), to waive the requirement for prior notice and opportunity for public comment, as such procedures are impracticable.

The annual salmon management cycle begins May 1 and continues through April 30 of the following year. May 1 was chosen because the pre-May harvests constitute a relatively small portion of the annual catch. The timeframe of the preseason process for determining the annual modifications to ocean salmon fishery management measures depends on when the pertinent biological data are available. Salmon stocks are managed to meet annual spawning escapement goals or specific exploitation rates. Achieving either of these objectives requires designing management measures that are appropriate for the ocean abundance predicted for that year. These pre-season abundance forecasts, which are derived from the previous year's observed spawning escapement, vary substantially from year to year, and are not available until January and February because spawning escapement continues through the fall.

The preseason planning and public review process associated with developing Council recommendations is initiated in February as soon as the forecast information becomes available. The public planning process requires

coordination of management actions of four states, numerous Indian tribes, and the Federal Government, all of which have management authority over the stocks. This complex process includes the affected user groups, as well as the general public. The process is compressed into a 2-month period which culminates at the April Council meeting at which the Council adopts a recommendation that is forwarded to NMFS for review, approval and implementation of fishing regulations effective on May 1.

Providing opportunity for prior notice and public comments on the Council's recommended measures through a proposed and final rulemaking process would require 30 to 60 days in addition to the 2-month period required for development of the regulations.

Delaying implementation of annual fishing regulations, which are based on the current stock abundance projections, for an additional 60 days would require that fishing regulations for May and June be set in the previous year without knowledge of current stock status. Although this is currently done for fisheries opening prior to May, relatively little harvest occurs during that period (e.g., in 2004 less than 10 percent of commercial and recreational harvest occurred prior to May 1). Allowing the much more substantial harvest levels normally associated with the May and June seasons to be regulated in a similar way would impair NMFS' ability to protect weak and ESA listed stocks and provide harvest opportunity where appropriate.

Overall, the annual population dynamics of the various salmon stocks require managers to vary the season structure of the various West Coast area fisheries to both protect weaker stocks and give fishers access to stronger salmon stocks, particularly hatchery produced fish. Failure to implement these measures immediately could compromise the status of certain stocks, or result in foregone opportunity to harvest stocks whose abundance has increased relative to the previous year thereby undermining the purpose of this agency action. For example, the 2005 forecast ocean abundance for Klamath River fall Chinook requires a reduction in the commercial season length from Humberg Mountain, OR, to the Oregon-California Border from being open from May-June in 2004 to being closed in 2005. With out these, and similar restrictions in other areas in 2005, the projected Klamath River fall Chinook escapement floor would not be met. Based upon the above-described need to have these measures effective on May 1 and the fact that there is limited time

available to implement these new measures after the final Council meeting in April and before the commencement of the ocean salmon fishing year on May 1, NMFS has concluded it is impracticable to provide an opportunity for prior notice and public comment under 5 U.S.C. 553(b)(B).

The AA also finds that good cause exists under 5 U.S.C. 553(d)(3), to waive the 30-day delay in effectiveness of this final rule. As previously discussed, data are not available until February and management measures not finalized until early April. These measures are essential to conserve threatened and endangered ocean salmon stocks, and to provide for harvest of more abundant stocks. If these measures are not in place on May 1, the previous year's management measures will continue to apply. Failure to implement these measures immediately could compromise the status of certain stocks, such as the Klamath River fall Chinook, and negatively impact international, state, and tribal salmon fisheries, thereby undermining the purposes of this agency action.

To enhance notification of the fishing industry of these new measures, NMFS is announcing the new measures over the telephone hotline used for inseason management actions and is also posting the regulations on both of its West Coast regional websites ([www.nwr.noaa.gov](http://www.nwr.noaa.gov) and [swr.nmfs.noaa.gov](http://swr.nmfs.noaa.gov)). NMFS is also advising the States of Washington, Oregon, and California on the new management measures. These states announce the seasons for applicable state and Federal fisheries through their own public notification systems.

This action contains collection-of-information requirements subject to the Paperwork Reduction Act (PRA), and which have been approved by OMB under control number 0648-0433. The public reporting burden for providing notifications if landing area restrictions cannot be met, or to obtain temporary mooring in Brookings, OR, is estimated to average 15 minutes per response. This estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate, or any other aspect of this data collection, including suggestions for reducing the burden, to NMFS and OMB (see **ADDRESSES**).

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject

to the requirements of the PRA, unless that collection of information displays a currently valid OMB control number.

Since 1989, NMFS has listed 26 ESUs of salmonids on the West Coast. As the listings have occurred, NMFS has

conducted formal ESA section 7 consultations and issued biological opinions, and made determinations under section 4(d) of the ESA (Table 1), that consider the impacts to listed

salmonid species resulting from proposed implementation of the Salmon FMP, or in some cases, from proposed implementation of the annual management measures.

TABLE 1. NMFS' ENDANGERED SPECIES ACT CONSULTATIONS AND SECTION 4(D) DETERMINATIONS RELATED TO OCEAN FISHERIES IMPLEMENTED UNDER THE SALMON FMP AND DURATION OF THE PROPOSED ACTION COVERED BY EACH.

| Date                             | Evolutionarily Significant Unit covered and effective period   |
|----------------------------------|--|
| March 8, 1996<br>April 28, 1999  | Snake River Chinook and sockeye (until reinitiated).<br>Oregon coast coho, S. Oregon/ N. California coast coho, Central California coast coho (until reinitiated). |
| April 28, 2000                   | Central Valley spring Chinook and California coast Chinook (until reinitiated).  |
| April 27, 2001                   | Hood Canal summer chum 4(d) limit and associated biological opinion (until reinitiated)..  |
| April 30, 2001                   | Upper Willamette River Chinook, Upper Columbia River spring Chinook, Ozette Lake sockeye, ten steelhead ESUs, Columbia River chum (until reinitiated)..            |
| April 27, 2004<br>April 29, 2004 | Sacramento River winter Chinook (until 2010).<br>Puget Sound Chinook and Lower Columbia River Chinook (until reinitiated).   |

Associated with the biological opinions are incidental take statements that specify the level of take that is expected. Some of the biological opinions have concluded that implementation of the Salmon FMP is not likely to jeopardize the continued existence of certain listed ESUs and provide incidental take statements. Other biological opinions have found that implementation of the Salmon FMP is likely to jeopardize certain listed ESUs and have identified reasonable and prudent alternatives (consultation

standards) that would avoid the likelihood of jeopardizing the continued existence of the ESU under consideration, and provided an incidental take statement for the reasonable and prudent alternative.

In a March 4, 2005, letter to the Council, NMFS provided the Council with ESA consultation standards and guidance for the management of stocks listed under the ESA. These management measures are consistent with the biological opinions that find no jeopardy, with the reasonable and

prudent alternatives in the jeopardy biological opinions, and with the terms of the state and Tribal RMPs.

**Authority:** 16 U.S.C. 773-773k; 1801 *et seq.*

Dated: April 28, 2005.

# Proposed Rules

Federal Register

Vol. 70, No. 85

Wednesday, May 4, 2005

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## SOCIAL SECURITY ADMINISTRATION

### 5 CFR Chapter LXXXI

RINs 0960-AE48, 3209-AA15

#### Supplemental Standards of Ethical Conduct for Employees of the Social Security Administration

**AGENCY:** Social Security Administration (SSA).

**ACTION:** Proposed rules; reopening of comment period.

**SUMMARY:** On February 11, 2005, SSA, with the concurrence of the Office of Government Ethics (OGE), published a notice of proposed rulemaking (NPRM) in the *Federal Register* (70 FR 7192-7196) that would supplement, for officers and employees of SSA, the OGE Standards of Ethical Conduct for Employees of the Executive Branch. The proposed regulations would set forth prohibitions and prior approval requirements for certain outside employment and other outside activities for all SSA employees, except special Government employees, and would set forth additional prior approval requirements for SSA Administrative Law Judges. To allow the public additional time to send us comments, we are reopening the comment period.

**DATES:** To be sure that your comments are considered, we must receive them by June 3, 2005.

**ADDRESSES:** You may give us your comments by: using our Internet facility (*i.e.*, Social Security Online) at <http://policy.ssa.gov/pnpublic.nsf/LawsRegs>; e-mail to [regulations@ssa.gov](mailto:regulations@ssa.gov); telefax to (410) 966-2830; or letter to the Commissioner of Social Security, P.O. Box 17703, Baltimore, MD 21235-7703. You may also deliver them to the Office of Regulations, Social Security Administration, 100 Altmeyer Building, 6401 Security Boulevard, Baltimore, MD 21235-6401, between 8 a.m. and 4:30 p.m. on regular business days. Comments are posted on our Internet site, or you may inspect them physically on regular business days by making

arrangements with the contact person shown in this preamble.

#### Electronic Version

The electronic file of this document is available on the date of publication in the *Federal Register* at <http://www.gpoaccess.gov/fr/index.html>. It is also available on the Internet site for SSA (*i.e.*, Social Security Online) at <http://policy.ssa.gov/pnpublic.nsf/LawsRegs>.

#### FOR FURTHER INFORMATION CONTACT:

Asim A. Akbari, Office of the General Counsel, Office of General Law, telephone (410) 966-6581, fax (410) 597-0071, or TTY 1-410-966-5609. For information on eligibility or filing for benefits, call our national toll-free numbers, 1-800-772-1213 or TTY 1-800-325-0778, or visit our Internet Web site, Social Security Online, at <http://www.socialsecurity.gov>.

#### SUPPLEMENTARY INFORMATION:

On February 11, 2005 (70 FR 7192-7196), we published "Supplemental Standards of Ethical Conduct for Employees of the Social Security Administration" as an NPRM, with a 30-day public comment period. This NPRM would set forth prohibitions and prior approval requirements for certain outside employment and other outside activities for all SSA employees, except special Government employees, and would set forth additional prior approval requirements for SSA Administrative Law Judges. SSA has received a request to extend the comment period. This factor, and the importance of the proposed rule, makes it appropriate to reopen the comment period for another 30 days, through June 3, 2005. If you have already provided comments on the NPRM, your comments will be considered and you do not need to resubmit them.

Dated: April 21, 2005.

**Jo Anne B. Barnhart,**  
Commissioner of Social Security.

Approved: April 25, 2005.

**Marilyn L. Glynn,**  
Acting Director, Office of Government Ethics.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

#### 7 CFR Part 983

[Docket No. FV05-983-3 PR]

#### Pistachios Grown in the State of California; Termination of Language in Table 3, "Maximum Defect and Minimum Size Levels"

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Proposed rule.

**SUMMARY:** This proposed rule would terminate language in Table 3, "Maximum Defect and Minimum Size Levels," of the marketing order regulating pistachios produced in the State of California. This language was erroneously included in Table 3 at the time of promulgation of the order. Correction of the table was unanimously recommended by the Administrative Committee for Pistachios, the committee responsible for local administration of the order.

**DATES:** Comments received by May 19, 2005 will be considered prior to issuance of a final rule.

**ADDRESSES:** Interested persons are invited to submit written comments concerning the proposal to: Docket Clerk, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, SW., STOP 0237, Washington, DC, 20250-0237; Fax: (202) 720-8938, E-mail: [moab.docketclerk@usda.gov](mailto:moab.docketclerk@usda.gov), or Internet: <http://www.regulations.gov>. Comments should reference the docket number and the date and page number of this issue of *Federal Register* and will be made available for public inspection in the Office of the Docket Clerk during regular business hours, or can be viewed at: <http://www.ams.usda.gov/fv/moab.html>.

#### FOR FURTHER INFORMATION CONTACT:

Melissa Schmaedick, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, P.O. Box 1035, Moab, Utah, 84532; Telephone: (435) 259-7988, Fax: (435) 259-4945; or Rose Aguayo, California Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 2202 Monterey Street, Suite 102 B, Fresno,

California 93721; Telephone: (559) 487-5901, Fax: (559) 487-5906.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue SW., STOP 0237, Washington, DC 20250-0237; Telephone: (202) 720-2491, Fax: (202) 720-8938, or E-mail: [Jay.Guerber@usda.gov](mailto:Jay.Guerber@usda.gov).

**SUPPLEMENTARY INFORMATION:** This rule is proposed pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Order 12866.

This proposal has been reviewed under Executive Order 12988, Civil Justice Reform. This proposal is not intended to have retroactive effect. This proposed rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this proposed rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed not later than 20 days after date of the entry of the ruling.

This action would terminate language in Table 3, "Maximum Defect and Minimum Size Levels," of the marketing order regulating pistachios produced in the State of California (69 FR 17844, April 5, 2004). The termination would apply to language in two portions of the table: (1) In the "Internal (Kernel) Defects" section, the words "external or" would be removed from the heading "Total external or internal defects allowed" because this section of the table only covers internal defects allowed, and (2) the sub-heading "Minimum permissible defects (percent by weight)" would be removed so that

all information in the table would be captured under the table heading "Maximum permissible defects (percent by weight)." This language was erroneously included in Table 3 at the time of promulgation of the order. Termination of this language would remove these errors and would allow Table 3 to read as originally intended by the group establishing the order.

Suspension of this language was unanimously recommended by the Administrative Committee for Pistachios (ACP), the group responsible for local administration of the order, at a December 15, 2004, committee meeting. However, because this is a permanent correction, USDA is proposing to remove and terminate the language.

The federal marketing order regulating the handling of pistachios produced in the State of California was promulgated in 2004. Provisions to establish the ACP became effective on April 6, 2004 (69 FR 17844, April 5, 2004). The regulatory provisions of the order will become effective on August 1, 2005 (70 FR 661, January 5, 2005; 70 FR 4191, January 28, 2005).

Section 983.39, Minimum quality levels, of the order establishes maximum defect and minimum size tolerances for pistachios produced and handled in California. Table 3 of the order, which is included in § 983.39, describes the maximum thresholds for defects, as well as the maximum tolerance for minimum-sized pistachios, of the provisions in table format. Table 3 also serves as a reference tool for handlers regulated by the order to easily interpret the written quality and size provisions of the order under § 983.39.

ACP preparations for implementing the regulatory provisions of the order have brought to light that two sub-headings in Table 3, "Maximum Defect and Minimum Size Levels," were erroneously included at the time of promulgation. In the "Internal (Kernel) Defects" section, the words "external or" would be removed from the heading "Total external or internal defects allowed" because this section of the table only applies to internal defects, not external defects. Additionally, the sub-heading "Minimum permissible defects (percent by weight)" would be removed from the table so that all information in the table would be captured under the table heading "Maximum Permissible Defects (percent by weight)." Termination of this language would remove these errors and would allow Table 3 to read as originally intended by the group responsible for promulgating the order.

This language should be removed prior to the effective date of the regulatory provisions of the order (August 1, 2005).

#### The Regulatory Flexibility Act and Effects on Small Businesses

Pursuant to the requirements set for in the Regulatory Flexibility Act (RFA) the administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this proposal on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 20 handlers of California pistachios subject to regulation the marketing order and approximately 741 producers in the production area. Small agricultural service firms are defined as those whose annual receipts are less than \$6,000,000 and small agricultural producers have been defined by the Small Business Administration as those having annual receipts less than \$750,000 (13 CFR 121.201). Eight out of the 20 handlers subject to regulation have annual pistachio receipts of at least \$6,000,000. In addition, 722 producers have annual receipts less than \$750,000. Thus, the majority of pistachio producers and handlers regulated under the marketing order may be classified as small entities.

This action would terminate language in Table 3, "Maximum Defect and Minimum Size Levels" in § 983.39 of the order. The termination would apply to language in two portions of the table: (1) In the "Internal (Kernel) Defects" section, the words "external or" would be removed from the heading "Total external or internal defects allowed" because this section of the table only pertains to internal defects, and (2) the sub-heading "Minimum permissible defects (percent by weight)" would be removed so that all information in the table would be captured under the table heading "Maximum permissible defects (percent by weight)." Neither the thresholds contained in the table nor the regulatory provisions outlined in § 983.39 of the order would be impacted by this termination. The termination would serve to facilitate more accurate interpretation of the information presented in Table 3. Thus, no significant impact on large or small

entities is anticipated as a result of this proposal.

One alternative to this action would be to not remove and terminate the identified language in Table 3. However, at a December 15, 2004 meeting of the ACP, it was determined that if this language were not removed from the table, handlers regulated under the order may not correctly interpret the thresholds outlined in Table 3. Thus, the ACP unanimously recommended that the table be corrected. Committee meetings are open to the public. No comments or recommendations against the recommendation were received.

A comment period of 15 days after publication of this proposal in the **Federal Register** is deemed appropriate so that the termination of language in Table 3 can be made effective as soon as possible and prior to the beginning of the 2005–2006 production year, which begins September 1, 2005, and ends August 31, 2006. Pistachios harvested and received in August of any year are applied to the subsequent production year for marketing order purposes. This proposal has been discussed at open meetings of the ACP and is fully supported.

In compliance with Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction

Act of 1995 (44 U.S.C. 3501 *et seq.*), the information collection and recordkeeping requirements imposed by this order have been previously approved by OMB and assigned OMB Number 0581–0215. This action imposes no additional reporting or recordkeeping requirements on either small or large pistachio handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies. In addition, USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

The Committee's meeting was publicized and all Committee members and alternate Committee members, representing both large and small entities, were invited to attend the meeting and participate in Committee deliberations. The Committee itself is composed of 11 members, of which 8 members are growers, 2 are handlers, and one represents the public.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at the following Web site: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at

the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

In summary, the termination would apply to language in two portions of the table. In the "Internal (Kernel) Defects" section, the words "external or" would be removed and terminated, and the sub-heading "Minimum permissible defects (percent by weight)" would be removed and terminated so that all information in the table would be captured under the table heading "Maximum permissible defects (percent by weight)."

#### List of Subjects in 7 CFR Part 983

Pistachios, Marketing agreements and orders, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 983 is proposed to be amended as follows:

#### PART 983—PISTACHIOS GROWN IN CALIFORNIA

1. The authority citation for 7 CFR part 983 continues to read as follows:

Authority: 7 U.S.C. 601–674.

#### § 983.39 [Amended]

2. In § 983.39, Table 3 is revised to read as follows:

TABLE 3.—MAXIMUM DEFECT AND MINIMUM SIZE LEVELS

| Factor   | Maximum permissible defects<br>(percent by weight) |         |
|--|--|---------|
|  | Inshell  | Kernels |
| <b>EXTERNAL (SHELL) DEFECTS</b>  |  |         |
| 1. Non-splits & not split on suture .....  | 10.0   | .....   |
| (i) Maximum non-splits allowed .....   | 4.0  | .....   |
| 2. Adhering hull material .....  | 2.0  | .....   |
| 3. Dark stain .....  | 3.0  | .....   |
| 4. Damage by other means, other than 1, 2 and 3 above, which materially detracts from the appearance or the edible or marketing quality of the individual shell or the lot. .... | 10.0   | .....   |
| <b>INTERNAL (KERNEL) DEFECTS</b>   |  |         |
| 1. Damage .....  | 6.0  | 3.0     |
| Immature kernel (Fills <75%—>50% of the shell)   |  |         |
| Kernel spotting (Affects 1/6 aggregate surface)  |  |         |
| 2. Serious damage .....  | 4.0  | 2.5     |
| Minor insect or vertebrate injury/insect damage, insect evidence, mold, rancidity, decay   |  |         |
| (i) Maximum insect damage allowed .....  | 2.0  | 0.5     |
| Total internal defects allowed .....   | 9.0  | .....   |
| <b>OTHER DEFECTS</b>   |  |         |
| 1. Shell pieces and blanks .....   | 2.0  | .....   |
| (Fills <50% of the shell)  |  |         |
| (i) Maximum blanks allowed .....   | 1.0  | .....   |
| 2. Foreign material—No glass, metal or live insects permitted .....  | 0.25   | 0.1     |
| 3. Particles and dust .....  | 0.25   | .....   |
| 4. Loose kernels .....   | 6.0  | .....   |
| Maximum allowable inshell pistachios that will pass through a 30/64ths inch round hole screen .....  | 5.0  | .....   |

Dated: April 29, 2005.

**Kenneth C. Clayton,**  
Acting Administrator, Agricultural Marketing  
Service.

BILLING CODE 3410-02-P

## FEDERAL ELECTION COMMISSION

### 11 CFR Part 100

[Notice 2005-13]

#### Definition of Federal Election Activity

**AGENCY:** Federal Election Commission.  
**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The Federal Election Commission seeks comments on proposed changes to its rules defining "Federal election activity" under the Federal Election Campaign Act of 1971, as amended ("FECA"). The proposed changes would retain the existing definition of "voter registration activity" and modify the existing definitions of "get-out-the-vote activity" and "voter identification" consistent with the ruling of the U.S. District Court for the District of Columbia in *Shays v. FEC*. The Commission has made no final decision on the issues presented in this rulemaking. Further information is provided in the supplementary information that follows.

**DATES:** Comments must be received on or before June 3, 2005. If the Commission receives sufficient requests to testify, it may hold a hearing on these proposed rules. Anyone wishing to testify at the hearing must file written comments by the due date and must include a request to testify in the written comments.

**ADDRESSES:** All comments must be in writing, addressed to Ms. Mai T. Dinh, Assistant General Counsel, and submitted in either electronic, facsimile or hard copy form. Commenters are strongly encouraged to submit comments electronically to ensure timely receipt and consideration. Electronic comments must be sent to either [FEAdef@fec.gov](mailto:FEAdef@fec.gov) or submitted through the Federal eRegulations Portal at <http://www.regulations.gov>. If the electronic comments include an attachment, the attachment must be in Adobe Acrobat (.pdf) or Microsoft Word (.doc) format. Faxed comments should be sent to (202) 219-3923, with hard copy follow-up. Hard copy comments and hard copy follow-up of faxed comments should be sent to the Federal Election Commission, 999 E Street, NW., Washington, DC 20463. All comments must include the full name

and postal service address of the commenter or they will not be considered. The Commission will post comments on its Web site after the comment period ends. If the Commission decides a hearing is necessary, the hearing will be held in the Commission's ninth floor meeting room, 999 E Street, NW., Washington, DC.

**FOR FURTHER INFORMATION CONTACT:** Ms. Mai T. Dinh, Assistant General Counsel, Mr. J. Duane Pugh Jr., Senior Attorney, or Ms. Margaret G. Perl, Attorney, 999 E Street, NW., Washington, DC 20463, (202) 694-1650 or (800) 424-9530.

**SUPPLEMENTARY INFORMATION:** The Bipartisan Campaign Reform Act of 2002 ("BCRA"), Public Law No. 107-155, 116 Stat. 81 (2002), amended FECA by adding a new term, "Federal election activity" ("FEA"), that describes certain activities that State, district, and local party committees must pay for with either Federal funds<sup>1</sup> or a combination of Federal and Levin funds.<sup>2</sup> 2 U.S.C. 431(20) and 441(b)(1); see also 2 U.S.C. 441(d)(1) (prohibiting national, State, district or local party committees from soliciting or directing non-Federal funds to 501(c) tax-exempt organizations which engage in FEA); 2 U.S.C. 441(e)(4) (limiting Federal candidate and officeholder solicitations for funds on behalf of 501(c) tax-exempt organizations whose principal purpose is to conduct certain types of FEA). The Commission further defined FEA in 11 CFR 100.24. In *Shays v. FEC*, 337 F. Supp.2d 28, 101, 106-07 (D.D.C. 2004), appeal docketed, No. 04-5352 (D.C. Cir. Sept. 28, 2004) ("*Shays*"), the district court held that certain parts of the definitions of "voter registration activity" and "get-out-the-vote activity" ("GOTV") in 11 CFR 100.24(a)(2) and (3), respectively, had not been promulgated with adequate notice and opportunity for comment. In addition, the district court held that certain aspects of the definitions of "get-out-the-vote activity" and "voter identification" in 11 CFR 100.24(a)(3) and (4), respectively, were inconsistent with Congressional intent. *Shays* at 104, 107 n.83, and 108.<sup>3</sup> The district court

<sup>1</sup> "Federal funds" are funds subject to the limitations, prohibitions, and reporting requirements of the Act. See 11 CFR 300.2(g).

<sup>2</sup> "Levin funds" are funds that are raised by State, district or local party committees pursuant to the restrictions in 11 CFR 300.31 and disbursed subject to the restrictions in 11 CFR 300.32. See 11 CFR 300.2(i).

<sup>3</sup> The district court described the first step of the *Chevron* analysis, which courts use to review an agency's regulations: "a court first asks 'whether Congress has directly spoken to the precise question at issue. If the intent of Congress is clear, that is

remanded the case for further action consistent with the court's decision. The Commission has initiated this rulemaking to comply with the district court order.

#### 1. 11 CFR 100.24(a)(2)—Definition of "Voter Registration Activity"

BCRA does not define "voter registration activity" other than to specify that it is only FEA when it is conducted 120 days or fewer before a regularly scheduled Federal election. See 2 U.S.C. 431(20)(A)(i). Current section 100.24(a)(2) defines voter registration activity to mean "contacting individuals by telephone, in person, or by other individualized means to assist them in registering to vote." (Emphasis added). The definition also includes a non-exhaustive list of examples of costs that are included, such as printing and distributing registration and voting information, providing individuals with voter registration forms, and assisting individuals in the completion and filing of such forms.

In *Shays*, the plaintiffs argued that the requirement that voter registration activity "assist" in the registration of voters impermissibly narrowed the definition because it excludes from its reach encouragement that does not constitute actual assistance. See *Shays* at 98. The district court found that the Commission's interpretation of section 431(20)(A) does not conflict with the expressed intent of Congress. *Shays* at 99-100. "[T]he Court note[d] that it is possible to read the term 'voter registration activity' to encompass those activities that actually register persons to vote, as opposed to those that only encourage persons to do so without more. [citation omitted]. Moreover, the Court [did not] find based on the record presented that the 'common usage' of the term 'voter registration activity' necessarily includes the latter type of activities." *Id.* at 99.<sup>4</sup>

The court also held that the question of whether the regulation satisfies step two of the *Chevron* test—whether the Commission's interpretation of the statute is a permissible one—was not ripe for review. While the court found that the regulation is not an impermissible construction of BCRA,

the end of the matter; for the court, as well as the agency, must give effect to the unambiguously expressed intent of Congress." See *Shays* at 51 (quoting *Chevron, U.S.A., Inc. v. Natural Res. Def. Council*, 467 U.S. 837, 842-43 (1984)).

<sup>4</sup> The Court also noted an apparent discrepancy between 11 CFR 100.133 and 11 CFR 106.5(a)(2)(iv) with regard to the definition of voter registration and get-out-the-vote activity. See *Shays* at 99 n.71, 103 n.77. However, any such comparison is no longer relevant since the latter regulation sunsetted on December 31, 2002.

the court concluded that it lacked sufficient guidance on the scope of the regulation to determine whether it "unduly compromises the Act's purposes." *Shays* at 100 (citing *Orloski v. FEC*, 795 F.2d 156, 164 (D.C. Cir. 1986)). In this regard, the court noted that "[w]hile it is clear that mere encouragement does not fall within the scope of the regulation, it is possible that encouragement coupled with a direction of how one might register could constitute 'assist[ance]' under the provision." *Shays* at 100.

The district court also determined that the promulgation of this regulation did not satisfy the APA's notice requirement because the notice of proposed rulemaking did not indicate that the Commission would seek to limit the term "voter registration activity" to those activities that assist the registration of voters. See *Shays* at 100-01. The Commission has, therefore, initiated this rulemaking to cure what the court concluded was a notice problem and to consider the comments it receives on the current rule.

The Commission is concerned that a definition of "voter registration activity" that includes merely "encouraging" people to register to vote may sweep too broadly. The current regulations seek to balance the need to cover the core voter registration activity targeted by the statute with the public policy interest of encouraging the civic act of voting. Also, the Commission's experience indicates that exhortations to register and vote are so frequent in political party communications (and often spontaneous) that attaching any campaign finance significance to every "don't forget to vote" uttered by speakers at political party events or written in a political party flyer may be unduly burdensome to the political party committees and could overwhelm the administrative and enforcement capacity of the Commission. As the Commission noted when it promulgated the regulation, "[a] more expansive definition would run the risk that thousands of political committees and grassroots organizations that merely encouraged voting as a civic duty, who have never been subject to Federal regulation for such conduct, would be swept into the extensive reporting and filing requirements mandated under Federal law." See *Explanation and Justification for Regulations on Prohibited and Excessive Contributions; Non-Federal Funds or Soft Money*, 67 FR 49064, 49067 (July 29, 2002) ("*Soft Money E&J*"). Consequently, the proposed regulation, which is identical to the current rule, would rely on the individual contact and "assist"

requirements to narrow the scope of "voter registration activity" to a standard that is enforceable, and yet is otherwise as broad as possible.

Although the Commission is not proposing any changes to current 11 CFR 100.24(a)(2), it seeks comment on whether it should address the concerns raised by the district court by amending the regulation, expanding the explanation and justification for the final rules, or providing guidance through a case-by-case application of the rules in advisory opinions and the enforcement process. Substantively, the Commission seeks comment on the following questions. Should the Commission define "assist" to include encouragement coupled with a direction as to how one might register? Does the "assist" limitation or the "individualized means" requirement exclude any activities that should be included in the definition of "voter registration activity?" Are there other specific activities that the Commission should include or exclude from the definition of "voter registration activity?"

#### 2. Proposed 11 CFR 100.24(a)(3)—*Definition of "Get-Out-the-Vote Activity"*

In BCRA, Congress also included GOTV within the definition of FEA without further defining the term. See 2 U.S.C. 431(20)(A)(ii). Current section 100.24(a)(3) defines GOTV as "contacting registered voters by telephone, in person, or by other individualized means to assist them in engaging in the act of voting." See 11 CFR 100.24(a)(3) (emphasis added). For the reasons stated above, the current definition of GOTV does not encompass merely encouraging voters to go to the polls. Section 100.24(a)(3) includes an exception to the definition of GOTV for communications by "an association or similar group of candidates for State or local office or of individuals holding State or local office" where those communications refer only to State or local candidates. See 11 CFR 100.24(a)(3). In addition, the current rule provides a non-exhaustive list of examples of GOTV activity such as providing information to individual voters regarding the date, time and location of polling places within 72 hours of an election, and offering to transport, or actually transporting, voters to the polls. See 11 CFR 100.24(a)(3)(i)-(ii).

The district court found that the term "get-out-the-vote activity" in section 431(20)(A)(ii) was not defined by Congress and can be read in different ways, and concluded that excluding

mere encouragement of people to vote in section 100.24(a)(3) reflected a permissible reading under *Chevron* step one. See *Shays* at 101-05. The court also upheld the 72-hour provision, noting that current section 100.24(a)(3) makes clear that the list of examples is non-exhaustive. However, the court expressed uncertainty regarding "what, if any, activity conducted outside the 72-hour window [in 11 CFR 100.24(a)(3)(i)] would be considered GOTV activity," and therefore, as with the "assist" requirement in section 100.24(a)(2), could not reach a decision as to *Chevron* step two. See *Shays* at 103 (emphasis in original). With respect to the exception for State and local candidate and officeholder associations in the current GOTV definition, the court found that it "runs contrary to Congress's clearly expressed intent" as enacted in BCRA and fails step one of *Chevron*. See *Shays* at 104.

To conform to the district court's opinion, proposed section 100.24(a)(3) would remove the exception for communications by associations or similar groups of candidates for State or local office, or of State or local officeholders, that refer only to State or local candidates. This exception was included in the 2002 rules because the Commission was concerned that the underlying provision would require Federal registration and reporting for a broad swath of State and local election activity, "sweep[ing] within Federal regulation candidates for city council, or the local school board, who join together to identify potential voters for their own candidacies. \* \* \* See *Soft Money E&J*, 67 FR at 49070. The Commission seeks public comment on whether there are other alternatives to address the Commission's concerns while still satisfying Congressional intent as determined by the *Shays* court.

Further, what impact would there be from removing the exception for groups of non-Federal candidates? Would such groups of non-Federal candidates have to pay for the full amount of FEA with Federal funds? Compare 2 U.S.C. 441i(b)(1) with (b)(2); see also 11 CFR 300.32(a)(1). Could groups of non-Federal candidates that are political committees be permitted to allocate under current 11 CFR 106.6 even though the FEA allocation regulations at 11 CFR 300.33 do not apply to groups of non-Federal candidates? See also 2 U.S.C. 441i(b)(2). In addition, would groups of non-Federal candidates that are not political committees be able to allocate their FEA given that they are not covered by 11 CFR 106.6?

The district court also held that the promulgated regulation defining GOTV

did not meet the APA's notice requirement for the same reasons it articulated with regard to the definition of "voter registration activity." See *Shays* at 106-07. The proposed rules do not include any amendments to the "assist" requirement in section 100.24(a)(3), or the non-exhaustive list of activities that constitute GOTV activities in current 11 CFR 100.24(a)(3)(i) and (ii). The Commission included these two examples of GOTV to assist in applying the regulation to particular factual situations. The *Shays* court found that "[t]he regulation makes clear that the examples it provides are non-exhaustive." *Shays* at 103. The Commission seeks comment on the examples of GOTV activity identified in section 100.24(a)(3). Should this non-exclusive list be changed in any way? Should the specific reference to activity within 72 hours of an election be changed in any way? Is 72 hours an appropriate period within which to specify activity included as GOTV? Would some other time frame be appropriate? Should the Commission provide more specificity as to when it will consider activity taking place more than 72 hours before an election to be GOTV?

### 3. Proposed 11 CFR 100.24(a)(4)— Definition of "Voter Identification"

"Voter identification" is another term used in the BCRA definition of FEA that is not defined by the statute. See 2 U.S.C. 431(20)(A)(ii). Current section 100.24(a)(4) defines voter identification as "creating or enhancing voter lists by verifying or adding information about the voters' likelihood of voting in an upcoming election or their likelihood of voting for specific candidates." 11 CFR 100.24(a)(4). The current definition does not include voter list acquisition because the Commission concluded that political party committees may acquire voter lists for a number of reasons other than for voter identification in connection with an election in which a Federal candidate appears on the ballot. Such reasons include fundraising and off-year party building activities. See *Soft Money E&J*, 67 FR at 49069. Section 100.24(a)(4) also contains an exception for associations of State or local candidates and/or officeholders identical to the exception to the definition of GOTV in section 100.24(a)(3).

The district court in *Shays* "agree[d] that one may obtain a voter list and not be engaged in an activity aimed at identifying voters. But whatever the intent, inherent in the acquisition of such a list is the identification of voters." *Shays* at 108. Because the court

saw "no evidence that *Congress intended* to exclude certain forms of activities that identify voters when it used the term 'voter identification'" the court held that the Commission's decision not to include acquisition of voter lists in the definition of "voter identification" failed *Chevron* step one. *Shays* at 108 (emphasis in original). The court held that the exception for State and local candidate and officeholder associations violated *Chevron* step one for the same reasons discussed above regarding the same exclusion in the GOTV regulation. *Shays* at 107 n.83.

To comport with this ruling, proposed section 100.24(a)(4) would include acquisition of voter lists in the definition of "voter identification." Thus, the acquisition of voter lists would be considered FEA if it occurs after the earliest filing deadline for the ballot in an even-numbered year and after the date is set for a special election in which a candidate for Federal office appears on the ballot. See 11 CFR 100.24(a)(1) and 100.24(b)(2). The Commission would use the date the information was purchased to determine whether the acquisition of a voter list falls within the FEA timeframes and would therefore be a Federal election activity. This interpretation would have the advantage of being a bright-line rule for the Commission and political parties. In addition, this interpretation would be consistent with the reporting requirements, as a political party would report the disbursement for a voter list at the time of purchase. The Commission seeks comment on whether this application of the rule would encourage State party committees to purchase voter lists outside the FEA window so that they would be able to allocate their purchases under 11 CFR 106.7(d)(3) (using a mix of Federal and non-Federal funds) rather than being required to allocate under 11 CFR 300.33 (using a mix of Federal and Levin funds). Do voter lists lose sufficient value over time so that the benefit of being able to use a mix of Federal and non-Federal funds would be outweighed by having an up-to-date voter list closer to an election? Would the use of the purchase date raise other concerns?

Alternatively, the Commission also seeks comment on an alternative application of the rule that would use the date the voter list was used to determine whether the acquisition of a voter list falls within the FEA timeframes and would therefore be a Federal election activity. Under this alternative, a voter list that was purchased before the FEA period would nonetheless be subject, at least in part, to Federal and

Levin funds requirements whenever it was used within the FEA period. Triggering the FEA provisions based on the use of a voter list would discourage any attempts to avoid those requirements by purchasing a list early for intended use during the FEA period. However, this approach could raise allocation and valuation issues if the voter list is purchased outside the FEA window and used by the political party committee both inside and outside the window.

The Commission is concerned about how this proposed rule may affect a State party committee's ability to acquire a voter list in preparation for a general election in an odd-numbered year in which a special election to fill a Federal office is called contemporaneously with its acquisition of a voter list. The purpose of the definition of "in connection with an election in which a candidate for Federal office appears on the ballot" in 11 CFR 100.24(a)(1) is to ensure that the regulation would not affect activities that are purely non-Federal in nature. See *Soft Money E&J*, 67 FR at 49066. In the situation described above, requiring a State party committee to use Federal funds to acquire a voter list that it will use only for a general election where no candidate for Federal office is on the ballot may be beyond the purpose of the regulations relating to Federal election activity. The Commission seeks comment on whether the regulation should include a limited exception to the definition of "voter identification" for acquisition of voter lists if the State, or local party committee does not actually use the voter list in connection with any election where a Federal candidate appears on the ballot.

Proposed section 100.24(a)(4) also would remove the exception for associations or groups of candidates for State or local office, and associations of State and local officeholders, that engage in voter identification activity that refers only to State or local candidates. Is there another approach that would address the Commission's concerns while still comporting with Congressional intent, as determined by the *Shays* court? As discussed above, the Commission is also seeking public comment regarding the impact of removing this exception for groups of non-Federal candidates, and the ability of those groups to pay for FEA by allocating between Federal and non-Federal funds under existing regulations at 11 CFR 106.6.

**4. Proposed 11 CFR 100.24(a)(1)—  
Definition of “In Connection With an  
Election in Which a Candidate for  
Federal Office Appears on the Ballot”**

Voter identification, GOTV, and generic campaign activity constitute FEA when those activities are conducted “in connection with an election in which a candidate for Federal office appears on the ballot.” 2 U.S.C. 431(20)(A)(ii). In defining this phrase, a Commission regulation establishes the timeframe in which these activities are FEA, and are collectively “type 2 FEA.” 11 CFR 100.24(a)(1)(i) and (ii). The Commission is considering whether to make some limited exceptions and one change to the operation of the type 2 FEA time periods in current 11 CFR 100.24(a)(1)(i) and (ii).

Proposed revisions to section 100.24(a)(1)(ii) would change the operation of type 2 FEA time periods that are related to special elections for Federal office. Currently, this provision is limited so that it only applies in odd numbered years, and the proposed revisions would eliminate this limitation. While many special elections that occur in even numbered years will fall in time periods already covered by paragraph (a)(1)(i), the removal of the limitation could extend the type 2 FEA time period when a State schedules a special election for Federal office before the type 2 FEA time period under paragraph (a)(1)(i) has begun. The Commission seeks comment on this proposed change.

The Commission is concerned that treating State party committees’ voter drives that are related to a State or local election as FEA because of an upcoming special election for Federal office would unduly federalize an election that was initially scheduled to decide State and local races. To address this issue, the Commission is considering adopting an exception to section 100.24(a)(1)(ii) so that the type 2 FEA time periods would not include the period before any special election for Federal office that is scheduled to be held on the same date as a previously scheduled State or local election. This exception does not appear in the proposed rules that follow. Is such an exception consistent with FECA, as amended by BCRA? Would an exception that is limited to voter drives that refer only to State or local candidates be too narrowly tailored to address this concern? Alternatively, should any voter drives that refer to candidates for Federal office be excluded from the exception so that the FEA rules would still apply to such voter drives?

Proposed new section 100.24(a)(1)(iii) would create an exception to type 2 FEA time periods for certain municipal elections. The municipal elections that would be subject to the exception are those that take place on a date other than Federal election dates, but still during the type 2 FEA timeframes specified in 11 CFR 100.24(a)(1)(i). The rationale for such an exception might be that municipalities have chosen an election date apart from State or Federal elections in an effort to disentangle State and Federal contests from local elections to leave the local elections nonpartisan. If that local election date is nonetheless within the type 2 FEA timeframes specified in 11 CFR 100.24(a)(1), then all of the FEA requirements of Federal law would apply, chief among them the requirement that State, district or local committees of political parties use only Federal or a combination of Federal and Levin funds to pay for type 2 FEA. 2 U.S.C. 441(b).

The Commission seeks comment on this proposed exception, which is reflected in the proposed regulatory language that follows. Is the exception adequate to address the concerns? Is it consistent with FECA, as amended by BCRA? Do any practical considerations tend either to support or to oppose such an exception?

Alternatively, the regulation could be revised to address the same concerns more narrowly. One example of a more limited exception would be to exclude GOTV that takes place within 72 hours before an election that does not include an election for Federal office. The 72-hour standard is borrowed from the Commission’s first example of the non-exhaustive list of examples of GOTV in 11 CFR 100.24(a)(3)(i). The Commission seeks comment on whether GOTV that takes place only shortly before a local election where no Federal candidates are on the ballot may merit an exception from the type 2 FEA time periods, while an exception for other forms of FEA may not be appropriate. Would any other limitations on the exception be more suitable? Please note that the proposed regulation text that follows does not reflect the more narrow alternative exceptions to the type 2 FEA time periods.

The Commission also seeks comment on whether similar exceptions would be appropriate for voter registration activity, or type 1 FEA. BCRA establishes that voter registration activity is Federal election activity “during the period that begins on the date that is 120 days before the date a regularly scheduled Federal election is held and ends on the date of the

election.” 2 U.S.C. 431(20)(A)(i). Would any exceptions to this timeframe to address any of the situations described above be permissible under BCRA? If so, should any such exceptions be adopted?

**Certification of No Effect Pursuant to 5  
U.S.C. 605(b) (Regulatory Flexibility  
Act)**

The Commission certifies that the attached proposed rule, if promulgated, would not have a significant economic impact on a substantial number of small entities. The basis for this certification is that the organizations affected by this proposed rule are State, district, and local party committees, which are not “small entities” under 5 U.S.C. 601. These not-for-profit committees do not meet the definition of “small organization” which requires that the enterprise be independently owned and operated and not dominant in its field. 5 U.S.C. 601(4). State political party committees are not independently owned and operated because they are not financed and controlled by a small identifiable group of individuals, and they are affiliated with the larger national political party organizations. In addition, the State political party committees representing the Democratic and Republican parties have a major controlling influence within the political arena of their State and are thus dominant in their field. District and local party committees are generally considered affiliated with the State committees and need not be considered separately. To the extent that any State party committees representing minor political parties might be considered “small organizations,” the number affected by this proposed rule is not substantial.

**List of Subjects in 11 CFR Part 100**

Elections.

For reasons set out in the preamble, subchapter A of chapter 1 of title 11 of the Code of Federal Regulations would be amended as follows:

**PART 100—SCOPE AND DEFINITIONS  
(2 U.S.C. 431)**

1. The authority citation for 11 CFR part 100 would continue to read as follows:

**Authority:** 2 U.S.C. 431, 434, and 438(a)(8).

2. In § 100.24, paragraphs (1)(i), (ii), (iii), (2), (3), and (4)(a) would be revised to read as follows:

**§ 100.24 Federal Election Activity (2 U.S.C. 431(20)).**

(a) \* \* \*  
(1) \* \* \*

(i) Except as provided in paragraph (a)(1)(iii) of this section, the period of time beginning on the date of the earliest filing deadline for access to the primary election ballot for Federal candidates as determined by State law, or in those States that do not conduct primaries, on January 1 of each even-numbered year and ending on the date of the general election, up to and including the date of any general runoff.

(ii) The period beginning on the date on which the date of a special election in which a candidate for Federal office appears on the ballot is set and ending on the date of the special election.

(iii) In municipalities that elect local officials in elections that do not coincide with primary or general elections for Federal office but occur during the period described in paragraph (a)(1)(i) of this section, the following periods of time are excluded from the periods described in paragraphs (a)(1)(i) and (a)(1)(ii) of this section:

(A) For municipalities that hold local elections before primary elections for Federal office, from the beginning of the period described in paragraph (a)(1)(i) up to and including the date of the municipal election; and

(B) For municipalities that hold primary elections for Federal office before local elections, from the day after the primary election for Federal office up to and including the date of the municipal election.

(2) *Voter registration activity* means contacting individuals by telephone, in person, or by other individualized means to assist them in registering to vote. Voter registration activity includes, but is not limited to, printing and distributing registration and voting information, providing individuals with voter registration forms, and assisting individuals in the completion and filing of such forms.

(3) *Get-out-the-vote activity* means contacting registered voters by telephone, in person, or by other individualized means, to assist them in engaging in the act of voting. Get-out-the-vote activity includes, but is not limited to:

(i) Providing to individual voters, within 72 hours of an election, information such as the date of the election, the times when polling places are open, and the location of particular polling places; and

(ii) Offering to transport or actually transporting voters to the polls.

(4) *Voter identification* means acquiring information about potential voters, including, but not limited to, obtaining voter lists and creating or enhancing voter lists by verifying or

adding information about the voters' likelihood of voting in an upcoming election or their likelihood of voting for specific candidates.

\* \* \* \* \*

Dated: April 29, 2005.

BILLING CODE 6715-01-P

## FEDERAL ELECTION COMMISSION

### 11 CFR Parts 106 and 300

[NOTICE 2005-12]

#### State, District, and Local Party Committee Payment of Certain Salaries and Wages

**AGENCY:** Federal Election Commission.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The Federal Election Commission is seeking comment on proposed changes to regulations regarding payments by State, district or local party committees for salaries and wages of employees who spend 25 percent or less of their compensated time in a month on Federal election activity and activity in connection with Federal elections. Currently, these committees may use funds whose only restriction is that they comply with State law. The proposed changes would require these expenses to be paid using at least some Federal funds, consistent with the ruling of the United States District Court for the District of Columbia in *Shays v. Federal Election Commission*. The Commission is appealing this ruling to the DC Circuit. In the interim, the Commission is initiating this rulemaking. The Commission has not made any final decision on the issues presented in this rulemaking. Further information is provided in the supplementary information that follows.

**DATES:** Comments must be received on or before June 3, 2005. If the Commission receives sufficient requests to testify, it may hold a hearing on the proposed rules. Anyone wishing to testify at the hearing must file written comments by the due date and must include a request to testify in the written comments.

**ADDRESSES:** All comments must be in writing, addressed to Ms. Mai T. Dinh, and submitted in either electronic, facsimile, or hard copy form. Commenters are strongly encouraged to submit comments electronically to ensure timely receipt and consideration. Electronic comments must be sent to

either [StatePartyWages@fec.gov](mailto:StatePartyWages@fec.gov) or submitted through the Federal eRegulations Portal at <http://www.regulations.gov>. If the electronic comments include an attachment, the attachment must be in the Adobe Acrobat (.pdf) or Microsoft Word (.doc) format. Faxed comments must be sent to (202) 219-3923, with hard copy follow-up. Hard copy comments and hard copy follow-up of faxed comments must be sent to the Federal Election Commission, 999 E Street, NW., Washington, DC 20463. All comments must include the full name and postal service address of the commenter or they will not be considered. The Commission will post comments on its Web site after the comment period ends. If the Commission decides a hearing is necessary, the hearing will be held in the Commission's ninth floor meeting room, 999 E Street NW., Washington, DC.

**FOR FURTHER INFORMATION CONTACT:** Ms. Mai T. Dinh, Assistant General Counsel, or Mr. Anthony T. Buckley, Attorney, 999 E Street, NW., Washington, DC 20463. (202) 694-1650 or (800) 424-9530.

**SUPPLEMENTARY INFORMATION:** The Bipartisan Campaign Reform Act of 2002 ("BCRA"), Pub. L. 107-155, 116 Stat. 81 (March 27, 2002), contained extensive and detailed amendments to the Federal Election Campaign Act of 1971, as amended (the "Act"), 2 U.S.C. 431 *et seq.* Under BCRA, State, district and local party committees ("State party committees") must pay the salaries and wages of employees who spend more than 25 percent of their compensated time per month on Federal election activity and activities in connection with a Federal election (collectively "Federal-related activities") entirely with Federal funds.<sup>1</sup> 2 U.S.C. 431(20)(A)(iv) and 441i(b)(1). However, BCRA is silent on what type of funds State party committees must use to pay the salaries and wages of employees who spend some, but not more than 25 percent, of their compensated time per month on Federal-related activities. In 2002, the Commission promulgated 11 CFR 106.7(c)(1) and (d)(1)(i), and 300.33(c)(2) to address salaries and wages for both types of employees. Under these rules, State party committees may pay the salaries or wages of employees who spend 25 percent or less of their compensated time each month on these activities

<sup>1</sup> "Federal funds" are funds that are subject to the contribution limitations, source prohibitions, and reporting requirements of the Act. 11 CFR 300.2(g).

entirely with funds that comply with State law. *Id.*

In *Shays v. Federal Election Commission*, 337 F.Supp.2d 28 (DDC 2004), appeal docketed, No. 04-5352 (DC Cir. Sept. 28, 2004) ("*Shays*"), the district court considered a challenge to the portion of the regulations that permits State party committees to use all non-Federal funds to pay the salaries and wages of employees who spend 25 percent or less of their time each month on Federal-related activities. The district court recognized that the Commission's interpretation of 2 U.S.C. 431(20)(A)(iv) and 441i(b)(1), as promulgated in 11 CFR 300.33(c)(2), is a permissible reading of these statutory sections under step one of *Chevron* because Congress had not directly spoken on this issue.<sup>2</sup> *Shays* at 113-114. The district court also determined that it could not conclude that the Commission's regulation was a facially impermissible interpretation of BCRA. *Shays* at 114. However, the district court determined that the regulation compromised BCRA's "purposes of preventing circumvention of its national party committee non-Federal money ban and stemming the flow of non-Federal money into activities that impact Federal elections" by permitting State party committees to divide "the Federal workload among multiple employees." *Shays* at 114 (citing *McConnell v. Federal Election Commission*, 540 U.S. 93, 124 S.Ct. 619, 676 (2003)). The district court found that "the regulation 'creates the potential for gross abuse'" and remanded section 300.33(c)(2) to the Commission for further action consistent with its opinion. *Shays* at 114 (citing *Orloski v. Federal Election Commission*, 795 F.2d 156, 165 (DC Cir. 1986)).<sup>3</sup>

Implicit in the district court's decision is that State party committees

are required under BCRA and FECA to use at least some Federal funds to pay for the salaries and wages of those employees who spend some of their compensated time, but not more than 25 percent per month, on Federal-related activity. Thus, the Commission is issuing this Notice of Proposed Rulemaking ("NPRM") to determine the appropriate mix of Federal and non-Federal funds that State party committees must use to pay the salaries and wages for these employees.

One approach would be to adopt an allocation method that would establish a fixed minimum percentage that a State party committee would be required to allocate to its Federal account. A fixed minimum percentage provides committees with a bright-line rule that is easy to understand and administer. The proposed rule below reflects this approach. Section 106.7(c)(1) would be amended to set forth two methods by which State party committees could pay the salaries and wages for employees who spend 25 percent or less of their compensated time in a month on Federal-related activity. Paragraph (c)(1)(i) would state that State party committees could pay for such salaries and wages with funds from their Federal account. Paragraph (c)(1)(ii) would state that such salaries and wages could also be allocated between the committee's Federal and non-Federal accounts under section 106.7(d)(1)(i). Section 106.7(d)(1)(i) would be amended to require State party committees to allocate at least 25 percent of the salaries and wages for employees who spend 25 percent or less of their compensated time on Federal-related activities to their Federal account.<sup>4</sup> Non-Federal funds used to pay the remaining portion of salaries and wages would still be required to comply with State law.

The Commission has two reasons for proposing 25 percent as the fixed minimum percentage. Because these employees would not spend more than 25 percent of their compensated time on Federal-related activities, a minimum allocation percentage that is 25 percent would ensure that State party committees would use Federal funds to pay for the compensated time spent on Federal-related activity. In addition, prior to BCRA, salaries and wages of State party committees' employees were considered administrative expenses that were allocated based on ballot composition. See former 11 CFR 106.5(d) (repealed 2002). In the Final

Rules and Explanation and Justification for Prohibited and Excessive Contributions; Non-Federal Funds or Soft Money, 67 FR 49064 (July 29, 2002), the Commission repealed 11 CFR 106.5(d) and replaced it with an allocation method for administrative expenses that were fixed percentages, depending upon whether there were Presidential or Senatorial candidates on the ballot for a two-year election cycle. See 11 CFR 106.7(d)(2). However, employees' salaries and wages are no longer considered administrative expenses. Rather than treating them as administrative expenses and requiring State party committees to use different allocation ratios every two years, the 25 percent allocation ratio in the proposed rule represents the average of the four allocation ratios used for administrative expenses, and should roughly approximate the average annual allocated expenses for salaries and wages over the same period.

Nevertheless, in the alternative, the Commission seeks comment on returning to treating salaries and wages for these employees as administrative expenses subject to the allocation ratios in 11 CFR 106.7(d)(2). The Commission is also seeking suggestions for other fixed minimum percentages and the basis for the suggested fixed minimum percentages.

Another alternative method, which is not reflected in the proposed rule, would be to establish an allocation percentage that is directly proportional to the amount of compensated time these employees spend on Federal-related activities in a given month. Under this approach, the percentage of Federal funds that a State party committee must use to pay for these salaries and wages would be no less than the percentage of compensated time these employees spend on Federal-related activities in relation to all compensated time in a given month. The remaining salaries and wages could be paid for with non-Federal funds, provided that the funds comply with State law. The log that each State, District or local party committee maintains pursuant to section 106.7(d)(1) would allow committees to determine the percentage of an employee's time that must be compensated using Federal funds.

The proposed rules also include conforming changes to current 11 CFR 300.33(c)(2). That paragraph would be amended to state that salaries and wages for employees who spend 25 percent or less of their compensated time per month on Federal-related activities may be allocated in accordance with 11 CFR 106.7(c) and (d)(1)(i).

<sup>2</sup> The district court described the first step of the *Chevron* analysis, which courts use to review an agency's regulations: "a court first asks 'whether Congress has directly spoken to the precise question at issue. If the intent of Congress is clear, that is the end of the matter; for the court, as well as the agency, must give effect to the unambiguously expressed intent of Congress.'" See *Shays*, at 51 (quoting *Chevron, U.S.A., Inc. v. Natural Res. Def. Council*, 467 U.S. 837, 842-43 (1984)).

<sup>3</sup> The Commission has filed an appeal with the U.S. Court of Appeals for the DC Circuit of certain aspects of the *Shays* decision, including the court's conclusion that the rules regarding payments by State, district or local party committees for salaries and wages of employees who spend 25 percent or less of their compensated time in a month on Federal-related activity creates the potential for great abuse of BCRA. The appeal is currently pending. In the event the Commission prevails on appeal, the Commission may terminate this rulemaking proceeding prior to adoption of final rules.

<sup>4</sup> Under the proposed rules, salaries of employees who spend no time in a given month on Federal-related activities could continue to be paid entirely with funds that comply with State law.

The Commission also seeks comment on whether the methods for allocating salaries and wages should be applied to fringe benefits of employees. In Advisory Opinion 2003-11, a State party committee sought guidance on paying the costs of fringe benefits (medical, dental, and prescription drug insurance coverage; coverage for short-term disability (wage loss) and long-term disability insurance benefits; coverage for life insurance benefit; and employer matching contributions to the 401(k) retirement plan) for employees who spent 25 percent or less of their compensated time per month on Federal-related activity. The committee had allocated such costs based on the allocation method used for administrative expenses, which required a mixture of Federal and non-Federal funds, rather than based on the allocation method used for salaries and wages, which would have allowed for the use of all non-Federal funds. The Commission concluded amounts spent on fringe benefits fall into the category of compensated time, and thus concluded that the State party committee could use all non-Federal funds to pay for the fringe benefits.

The Commission now seeks comment on whether the rules should be amended to permit, but not require, State, district and local party committees to use the same allocation rules for fringe benefits as are used for salaries and wages, instead of allocating fringe benefits as administrative costs. See also Advisory Opinion 2004-12.

In Advisory Opinion 2004-12, the Commission determined that a State party committee may pay for Federal election activity with Federal funds raised at events where the costs of such events had been paid for with a combination of Federal and non-Federal funds through the use of the "funds received" method under 11 CFR 106.7(d)(4). See 11 CFR 106.7(c)(4). A narrow interpretation of current section 106.7(c)(4) may suggest that when there is an event at which Federal and non-Federal funds are being raised, and the costs of the event are properly allocated between the Federal and non-Federal accounts according to the funds received method, the Federal money raised at the event cannot be used to pay for any Federal election activity. This interpretation would require a State party committee to differentiate its Federal funds depending on their intended use, a requirement that the Commission has not historically adopted. Because the Commission wishes to make clear that it has not adopted this interpretation, it is seeking comment on whether current 11 CFR

106.7(c)(4) should be revised, consistent with AO 2004-12, to clarify that Federal funds raised at an event where both non-Federal and Federal funds are raised, and the costs of the event are allocated according to the funds received method, may be used for Federal election activity. The Commission also seeks comment as to whether this approach is consistent with BCRA.

The Commission seeks comment on all the issues identified in this NPRM as well as the proposed rule.

#### Certification of No Effect Pursuant to 5 U.S.C. 605(b)

##### [Regulatory Flexibility Act]

The Commission certifies that the attached proposed rule, if promulgated, would not have a significant economic impact on a substantial number of small entities. The basis for this certification is that the organizations affected by this proposed rule are State, district, and local party committees, which are not "small entities" under 5 U.S.C. 601. These not-for-profit committees do not meet the definition of "small organization" which requires that the enterprise be independently owned and operated and not dominant in its field. 5 U.S.C. 601(4). State political party committees are not independently owned and operated because they are not financed and controlled by a small identifiable group of individuals, and they are affiliated with the larger national political party organizations. In addition, the State political party committees representing the Democratic and Republican parties have a major controlling influence within the political arena of their State and are thus dominant in their field. District and local party committees are generally considered affiliated with the State committees and need not be considered separately. To the extent that any State party committees representing minor political parties might be considered "small organizations," the number affected by this proposed rule is not substantial.

#### List of Subjects

##### 11 CFR Part 106

Campaign funds, Political committees and parties, Reporting and recordkeeping requirements.

##### 11 CFR Part 300

Campaign funds, Nonprofit organizations, Political committees and parties, Political candidates, Reporting and recordkeeping requirements.

For reasons set out in the preamble, subchapters A and C of chapter 1 of title

11 of the Code of Federal Regulations would be amended to read as follows:

#### PART 106—ALLOCATIONS OF CANDIDATE AND COMMITTEE ACTIVITIES

1. The authority citation for part 106 would continue to read as follows:

**Authority:** 2 U.S.C. 438(a)(8), 441a(b), 441a(g).

2. Paragraphs (c)(1) and (d)(1) introductory text and (d)(1)(i) of § 106.7 would be revised to read as follows:

#### § 106.7 Allocation of expenses between Federal and non-Federal accounts by party committees, other than for Federal election activities.

\* \* \* \* \*

(c) *Costs allocable by State, district, and local party committees between Federal and non-Federal accounts.*

(1) *Salaries and wages.* For the salaries and wages for employees who spend 25% or less of their compensated time in any given month on Federal election activity or activity in connection with a Federal election, State, district, and local party committees must either:

(i) Pay for such salaries and wages with funds from their Federal account; or

(ii) Allocate such salaries and wages between their Federal and non-Federal accounts in accordance with paragraph (d)(1)(i) of this section.

\* \* \* \* \*

(d) *Allocation percentages, ratios, and record-keeping.*

(1) *Salaries and wages.* Committees must keep a monthly log of the percentage of time each employee spends in connection with a Federal election. Allocations of salaries and wages shall be undertaken as follows:

(i) For salaries and wages for employees who spend 25% or less of their compensated time in a given month on Federal election activities or on activities in connection with a Federal election, the committee shall allocate at least 25% of such salaries and wages to a Federal account. Any portion of salaries and wages not allocated to a Federal account must be paid from funds that comply with State law.

\* \* \* \* \*

#### PART 300—NON-FEDERAL FUNDS

1. The authority citation for part 300 would continue to read as follows:

**Authority:** 2 U.S.C. 434(e), 438(a)(8), 441a(a), 441i, 453.

2. Paragraph (c)(2) of § 300.33 would be revised to read as follows:

**§ 300.33 Allocation of costs of Federal election activity.**

\* \* \* \* \*

(c) \* \* \*

(2) *Salaries and wages.* Salaries and wages for employees who spend more than 25% of their compensated time in a given month on Federal election activity or activities in connection with a Federal election must not be allocated between or among Federal, non-Federal, and Levin accounts. Only Federal funds may be used. (Salaries and wages for employees who spend 25% or less of their compensated time in a given month on Federal election activity or activities in connection with a Federal election may be allocated in accordance with 11 CFR 106.7(c) and (d)(1)(i)).

BILLING CODE 6715-01-P

**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 52**

[R06-OAR-2005-NM-0002; FRL-7908-1]

**Approval and Promulgation of Air Quality Implementation Plans; New Mexico; San Juan County Early Action Compact Area****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

**SUMMARY:** The EPA is proposing to approve revisions to the State Implementation Plan (SIP) submitted by the Governor of New Mexico on December 16, 2004. The proposed revisions will incorporate the Early Action Compact (EAC) Clean Air Action Plan into the New Mexico SIP. The EAC is a voluntary program between the New Mexico Department of Environment (NMED), the Cities of Aztec, Bloomfield, and Farmington, San Juan County, and EPA. EPA is proposing approval of the photochemical modeling in support of the attainment demonstration of the 8-hour ozone standard within the San Juan County EAC area. EPA is proposing these actions as a strengthening of the SIP in accordance with the requirements of sections 110 and 116 of the Federal Clean Air Act (the Act). The revisions will contribute to improvement in air quality and continued attainment of the 8-hour National Ambient Air Quality Standard (NAAQS) for ozone.

**DATES:** Comments must be received on or before June 3, 2005.**ADDRESSES:** Submit your comments, identified by Regional Material in EDocket (RME) ID No. R06-OAR-2005-NM-0002, by one of the following methods:

*Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

*Agency Web site:* <http://docket.epa.gov/rmepub/> Regional Material in EDocket (RME), EPA's electronic public docket and comment system, is EPA's preferred method for receiving comments. Once in the system, select "quick search," then key in the appropriate RME Docket identification number. Follow the on-line instructions for submitting comments.

*U.S. EPA Region 6 "Contact Us" Web site:* <http://epa.gov/region6/r6comment.htm> Please click on "6PD" (Multimedia) and select "Air" before submitting comments.

*E-mail:* Mr. Thomas Diggs at [diggs.thomas@epa.gov](mailto:diggs.thomas@epa.gov). Please also cc the person listed in the **FOR FURTHER INFORMATION CONTACT** section below.

*Fax:* Mr. Thomas Diggs, Chief, Air Planning Section (6PD-L), at fax number 214-665-7263.

*Mail:* Mr. Thomas Diggs, Chief, Air Planning Section (6PD-L), Environmental Protection Agency, 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202-2733.

*Hand or Courier Delivery:* Mr. Thomas Diggs, Chief, Air Planning Section (6PD-L), Environmental Protection Agency, 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202-2733. Such deliveries are accepted only between the hours of 8 a.m. and 4 p.m. weekdays except for legal holidays. Special arrangements should be made for deliveries of boxed information.

*Instructions:* Direct your comments to Regional Material in EDocket (RME) ID No. R06-OAR-2005-NM-0002. The EPA's policy is that all comments received will be included in the public file without change, change and may be made available online at <http://docket.epa.gov/rmepub/>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information the disclosure of which is restricted by statute. Do not submit information through Regional Material in EDocket (RME), [regulations.gov](http://www.regulations.gov), or e-mail if you believe that it is CBI or otherwise protected from disclosure. The EPA RME Web site and the Federal [regulations.gov](http://www.regulations.gov) are "anonymous access"

systems, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through [www.regulations.gov](http://www.regulations.gov), your e-mail address will be automatically captured and included as part of the comment that is placed in the public file and made available on the Internet. If you submit an electronic comment, we recommend that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

*Docket:* All documents in the electronic docket are listed in the Regional Material in EDocket (RME) index at <http://docket.epa.gov/rmepub/>. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in RME or in the official file which is available at the Air Planning Section (6PD-L), Environmental Protection Agency, 1445 Ross Avenue, Suite 700, Dallas, Texas 75202-2733. The file will be made available by appointment for public inspection in the Region 6 FOIA Review Room between the hours of 8:30 a.m. and 4:30 p.m. weekdays except for legal holidays. Contact the person listed in the **FOR FURTHER INFORMATION CONTACT** paragraph below to make an appointment. If possible, please make the appointment at least two working days in advance of your visit. There will be a 15 cents per page fee for making photocopies of documents. On the day of the visit, please check in at the EPA Region 6 reception area at 1445 Ross Avenue, Suite 700, Dallas, Texas.

The State submittal is also available for public inspection at the State Air Agency listed below during official business hours by appointment:

New Mexico Environment Department, Air Quality Bureau, 2048 Galisteo, Santa Fe, New Mexico 87505.

**FOR FURTHER INFORMATION CONTACT:** Mr. Alan Shar, Air Planning Section (6PD-L), EPA Region 6, 1445 Ross Avenue,

Dallas, Texas 75202-2733, telephone (214) 665-6691, [shar.alan@epa.gov](mailto:shar.alan@epa.gov).

Throughout this document "we," "us," and "our" refer to EPA.

**I. What Action Are We proposing?**

Today we are proposing to approve a revision to the New Mexico SIP under sections 110 and 116 of the Act, as a strengthening of the SIP. This revision will incorporate the San Juan County EAC Clean Air Action Plan into the New Mexico SIP. The EAC is a voluntary agreement between the NMED, the Cities of Aztec, Bloomfield, and Farmington, San Juan County, and EPA. The geographic area included in this EAC consists of San Juan County, with the exception of the Navajo Nation and the Ute Mountain Reservation. See section II of this document for more information on the EAC. The intent of this agreement, known as the San Juan County EAC, is to reduce ozone pollution and thereby maintain the 8-hour ozone standard. The San Juan County EAC sets forth a schedule to develop technical information about ozone pollution, and adopt and implement a Clean Air Action Plan, consisting of emissions control measures to ensure San Juan County achieves compliance with the 8-hour ozone standard by December 31, 2007. The revision also includes an attainment demonstration and associated local voluntary measures.

**II. What Is an EAC?**

The Early Action Compact was developed to allow communities an opportunity to reduce emissions of ground level ozone pollution sooner than the Act requires. The EAC program was developed for areas that approach or monitor exceedences of the 8-hour ozone standard, but are in attainment for the 1-hour ozone standard. The compact is a voluntary agreement between local communities, States and tribal air quality officials, and EPA which allows States and local entities to make decisions that will accelerate meeting the new 8-hour ozone standard

using locally tailored pollution controls instead of Federally mandated control measures. Early planning and early implementation of control measures that improve air quality will likely accelerate protection of public health. The EPA believes the EAC program provides an incentive for early planning, early implementation, and early reductions of air emissions in the affected areas, thus leading to an expeditious attainment and maintenance of the 8-hour ozone standard.

Communities with EACs will have plans in place to reduce air pollution at least two years earlier than required by the Act. In December 2002, a number of States submitted compact agreements pledging to reduce emissions earlier than required for compliance with the 8-hour ozone standard. These States and local communities had to meet specific criteria, and agreed to meet certain milestones for development and implementation of the compact. States with communities participating in the EAC program had to submit implementation plans for meeting the 8-hour ozone standard by December 31, 2004, rather than June 15, 2007, the deadline for all other areas not meeting the 8-hour standard. The EAC program required communities to develop and implement air pollution control strategies, account for emissions growth, and demonstrate their attainment and maintenance of the 8-hour ozone standard. For more information on the EAC program see section V of our December 16, 2003 (68 FR 70108) publication entitled "Deferral of Effective Date of Nonattainment Designations for 8-hour Ozone National Ambient Air Quality Standards for Early Action Compact Areas."

On April 15, 2004, EPA designated all areas for the 8-hour ozone standard. The EPA deferred the effective date of nonattainment designations for those EAC areas that were violating the 8-hour standard but continue to meet the compact milestones. We announced the details of this deferral on April 15, 2004 as part of the Clean Air Rules of 2004. See our April 30, 2004 (69 FR 23858) publication entitled "Air Quality Designations and Classifications for the 8-Hour Ozone National Ambient Air Quality Standards; Early Action Compact Areas with Deferred Effective Dates."

**III. What Is a SIP?**

The SIP is a set of air pollution regulations, control strategies and technical analyses developed by the state, to ensure that the state meets the NAAQS. These ambient standards are established under section 109 of the Act

and they currently address six criteria pollutants: Carbon monoxide, nitrogen dioxide, ozone, lead, particulate matter, and sulfur dioxide. The SIP is required by Section 110 of the Act. These SIPs can be extensive, containing state regulations or other enforceable documents and supporting information such as emission inventories, monitoring networks, and modeling demonstrations.

**IV. What Is The Content Of The San Juan EAC Attainment Demonstration?**

In support of this proposal, the NMED conducted an ozone photochemical modeling study developed for the Four Corners/San Juan air basin. This study meets EPA's modeling requirements and guidelines, including such items as the base year inventory development, the growth rate projections, and the performance of the model. See our Technical Support Document (TSD) for more information about this modeling study. The modeling submitted in support of this proposal demonstrates that San Juan EAC area would be in attainment with the 8-hour ozone NAAQS in 2007 and 2012. The modeling results for the Four Corners/San Juan air basin show or predict a maximum ozone design value of 74.78 parts per billion (ppb) for the 2007. This predicted maximum design value is well below the 8-hour ozone limit of 85 ppb. In fact, the San Juan EAC area would attain the 8-hour ozone NAAQS absent requiring additional local control measures or emissions reductions. See section VI of this document for a list of adopted measures as a part of this EAC. Therefore, we are proposing to approve NMED's EAC 8-hour ozone attainment demonstration plan for the Four Corners/San Juan air basin.

**V. Why Are We Proposing To Approve This EAC SIP Submittal?**

We are proposing to approve this EAC SIP submittal because implementing the requirements in the San Juan EAC Clean Air Action Plan will help ensure San Juan County's continued compliance with the 8-hour ozone standard through December 31, 2007. We have reviewed the submittal and determined that it is consistent with the requirements of the Act, EPA's policy, and EAC's protocol. Our TSD contains more information concerning this rulemaking action.

**VI. What Measures Are Included In This EAC Submittal?**

The ozone concentrations in San Juan County have not exceeded the federal 1-hour ozone standard during the past several years. While the ozone concentrations in this EAC area have

not exceeded the federal 8-hour ozone standard and are not projected to exceed the 8-hour standard in 2012, there has been an upward trend in the 8-hour ozone levels. The NMED has submitted this revision to the SIP as a preventive and progressive measure to avoid potential violations of the 8-hour standard within the affected area. The measures adopted in this EAC are as follows: (a) Reporting progress toward set milestones, at least, once every six months, (b) building upon EPA's national emission inventory for the area, and including additional emissions estimates particularly from oil and gas exploration and production activities to that inventory, (c) performing base case and future case photochemical modeling in conformance with EPA's guidance documents, (d) conducting additional future modeling runs focused on growth scenarios, (e) making information and reports available to the public via Web page <http://www.nmenv.state.nm.us/ozoneetf>, (f) conducting a public outreach campaign comprised of activities such as developing public service announcements, and creating educational materials for high school age children, and (g) administering a Voluntary Innovative Strategies for Today's Air Standards (VISTAS) aimed at the improvement of air quality in northwestern New Mexico. The purpose of San Juan VISTAS is to identify, promote, and implement cost-effective technologies and best management practices to reduce ozone precursor emissions in northwestern New Mexico. Oxides of nitrogen (NO<sub>x</sub>) and volatile organic compounds (VOC) are ozone precursors. For more information on VISTAS, see <http://www.nmenv.state.nm.us/aqb/projects/SJV/index.html>. On March 3, 2005, NMED announced that Burlington Resources, Inc., San Juan Division has agreed to become the first participant in the VISTAS program. Burlington Resources will be focusing on reducing emissions of NO<sub>x</sub> and VOCs at well sites by implementing improved oil and gas well venting practices, insulating well site equipment, and optimizing operation of company's compressor fleet.

For compliance and milestone determination purposes the San Juan EAC area has already started implementing the above measures, prior to the December 31, 2005 EAC deadline, on an on-going basis.

#### VII. What Happens If San Juan County Does Not Meet The EAC Milestones?

On April 15, 2004, EPA designated the San Juan County area as attainment

for the 8-hour ozone standard. The measures outlined in this submittal provide sufficient information to conclude that the San Juan County EAC area will complete each compact milestone requirement, including attainment of the 8-hour ozone standard by 2007. However, one of the principles of the EAC protocol is to provide safeguards to return areas to traditional SIP requirements should an area fail to comply with the terms of the compact. If, as outlined in our guidance and in 40 CFR 81.300, a compact milestone is missed and the San Juan County EAC area is still in attainment of the 8-hour ozone standard, we would take action to propose and promulgate a finding of failure to meet the milestone, but the ozone attainment designation and the approved SIP elements would remain in effect. If the EAC area subsequently violates the 8-hour ozone standard and the area has missed a compact milestone, we would also consider factors in section 107(d)(3)(A) of the Act in deciding whether to redesignate the EAC area to nonattainment for the 8-hour ozone NAAQS.

#### VIII. Proposed Action

The EPA is proposing to approve the aforementioned changes to New Mexico's SIP because the revisions are consistent with the Act and EPA regulatory requirements. See sections IV and VI of this document for more information.

#### IX. Statutory and Executive Order Reviews

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this proposed action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason and because this action will not have a significant, adverse effect on the supply, distribution, or use of energy, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001). This proposed action merely proposes to approve state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this proposed rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule proposes to approve pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law,

it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4).

This proposed rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). Although Executive Order 13175 does not apply to this rule, tribal officials, through their participation in the Four Corners Ozone Task Force, have been active in the development of this rule. This action also does not have Federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely proposes to approve a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. This proposed rule also is not subject to Executive Order 13045 "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions under the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note), EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 do not apply. This proposed rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

**List of Subjects in 40 CFR Part 52**

[FMR Case 2005-102-1]

RIN: 3090-AI08

**Federal Management Regulation; Transportation and Management; Transportation Payment and Audit**

**AGENCY:** Office of Governmentwide Policy, General Services Administration (GSA).

**ACTION:** Proposed rule.

**SUMMARY:** The General Services Administration is amending the Federal Management Regulation (FMR) by adding the requirement that transportation managers who obligate the Government for rate tender procurements must be properly authorized in writing. This written authorization will certify that the transportation manager is competent and trained in transportation management and has the authority to commit Government funds for the procurement of transportation or transportation services. The FMR and any corresponding documents may be accessed at GSA's website at <http://www.gsa.gov/fmr>.

**DATES:** *Comment Date:* July 5, 2005.

**ADDRESSES:** Submit comments identified by FMR case 2005-102-1 by any of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
- Agency Web Site: <http://www.gsa.gov/fmr>. Click on the FMR case number to submit comments.
- E-mail: [fmrcase.2005-102-1@gsa.gov](mailto:fmrcase.2005-102-1@gsa.gov). Include FMR case 2005-102-1 in the subject line of the message.
- Fax: 202-501-4067.
- Mail: General Services Administration, Regulatory Secretariat (VIR), 1800 F Street, NW, Room 4035, ATTN: Laurieann Duarte, Washington, DC 20405.

**Instructions:** Please submit comments only and cite FMR case 2005-102-1 in all correspondence related to this case. All comments received will be posted without change to <http://www.gsa.gov/fmr>, including any personal information provided.

**FOR FURTHER INFORMATION CONTACT:** The Regulatory Secretariat, Room 4035, GS Building, Washington, DC, 20405, at (202) 208-7312 for information pertaining to status or publication schedules. For clarification of content, contact Ms. Elizabeth Allison, Office of Governmentwide Policy, Transportation Management Policy Division, at (202) 219-1729, or e-mail at [elizabeth.allison@gsa.gov](mailto:elizabeth.allison@gsa.gov). Please cite FMR case 2005-102-1.

**SUPPLEMENTARY INFORMATION:****A. Background**

31 U.S.C. 3325 and 31 U.S.C. 3527 address the issues of liability and relief of Certifying and Disbursing Officers. The regulation proposes to clarify the issue of accountability, liability, and relief by adding an additional requirement that will mandate that any person or persons who obligates Government funds have proper written authority from the Agency Head or his/her designee.

It is the responsibility of Government associates, contractors, and/or agents of the Government to uphold their duty of spending public money in a responsible fiduciary manner. Therefore, it is the intent of this proposed regulation to cover not only certifying or disbursing officers as covered in 31 U.S.C. 3322 and 3528, but all persons holding the responsibility of procuring or paying for transportation or transportation services with Government funds to be held accountable for their transactions. Person(s) with proper authority must display this authority in plain view.

Federal associates have a duty to uphold the public trust, prevent the occurrence of conflicts of interest, and to endeavor at all times to use their position for the public benefit. It is expected that any Government employee arranging for transportation will follow standards of professionalism in the relationship between the Government shipper and the transportation service provider (TSP). As transportation managers, employees are entrusted to spend money allocated to their agency effectively and efficiently. Employees must spend those funds wisely by continually seeking for required transportation services at the lowest cost and the best value to the Government.

For transportation services acquired under the authorities of the Federal

Acquisition Regulation (FAR) (48 CFR Chapter 1), contracting officers shall be appointed in writing on a Standard Form 1402, Certificate of Appointment, which shall state any limitations on the scope of authority to be exercised, other than limitations contained in applicable law or regulations. Appointing officials shall maintain files containing copies of all appointments that have not been terminated.

Agency heads are encouraged to delegate micro-purchase authority to individuals who are employees of an executive agency or members of the Armed Forces of the United States who will be using the supplies or services being purchased. Individuals delegated this authority shall be appointed in writing in accordance with agency procedures.

The FAR further states that procurement officers are to utilize the talent and experience of a qualified transportation officer for any transportation procurements. At a minimum, transportation managers, conducting a FAR procurement, will have Contracting Officer Representative (COR) training. There are a number of classes being offered in the commercial sector. GSA prescribes the Federal Acquisition Institute's Contracting Officer Representative (COR) Mentor Program that is on-line, for its CORs.

It is, therefore, reasonable to expect that transportation managers, acquiring transportation services utilizing a rate tender, will be qualified, trained in transportation management, and have experience with a rate tender. Transportation managers generally are not formally delegated the authority to perform their functions, nor are they required to meet any specialized training experience or education requirements. This proposed rule describes procedures with respect to delegations of authority, and outlines training and experience requirements. Transportation managers, acquiring transportation for one-time-only shipments utilizing procurements other than the FAR or a rate tender, should have the authority to commit Government funds. The delegated authority will be in writing.

**B. Substantive Changes**

This proposed rule adds the requirement and clarifies the authority and training that transportation managers must have to obligate Government expenditures for the procurement of transportation or transportation services utilizing a rate tender procurement.

This proposed rule adds the requirement and clarifies the issue of

which person(s) obligating Government funds will be held accountable and that relief can only be authorized by their agency's counsel.

#### C. Executive Order 12866

GSA has determined that this proposed rule is not a significant rule for the purposes of Executive Order 12866 of September 30, 1993.

#### D. Regulatory Flexibility Act

This proposed rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the proposed rule only applies to internal agency management and will not have a significant effect on the public.

#### E. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the proposed rule does not impose recordkeeping or information collection requirements, or the collection of information from offerors, contractors, or members of the public which require the approval of the Office of Management and Budget (OMB) under 44 U.S.C. 3501 *et seq.*

#### F. Small Business Regulatory Enforcement Fairness Act

This proposed rule is exempt from Congressional review prescribed under 5 U.S.C. 801 since it relates solely to agency management and personnel.

#### List of Subjects in 41 CFR Parts 102-117 and 102-118

Accounting, Claims, Government property management, Reporting and recordkeeping requirements, Surplus Government property, Transportation.

Dated: April 1, 2005.

G. MARTIN WAGNER,

Associate Administrator, Office of Governmentwide Policy.

For the reasons set forth in the preamble, GSA proposes to amend 41 CFR parts 102-117 and 102-118 as set forth below:

#### PART 102-117—TRANSPORTATION MANAGEMENT

1. The authority citation for 41 CFR part 102-117 continues to read as follows:

**AUTHORITY:** 31 U.S.C. 3726, 40 U.S.C. 121(c), and 49 U.S.C. 10721, 13712, and 15504.

2. Amend Part 102-117 by adding Subpart M to read as follows:

#### PART 102-117—TRANSPORTATION MANAGEMENT

\* \* \* \* \*

#### Subpart M—Authorization and Training to Procure Transportation or Transportation Services

##### Sec.

102-117.365 What authorization do I need to procure transportation or transportation services?

102-117.370 What training or experience is necessary to qualify me as a transportation manager?

102-117.375 How do I acquire the training or experience to qualify as a transportation manager?

102-117.380 How do I document the training or experience to qualify as a transportation manager?

\* \* \* \* \*

#### § 102-117.365 What authorization do I need to procure transportation or transportation services?

(a) The head of the agency or someone delegated that authority must grant the employee the authority, in writing, to obligate Government funds using rate tenders to procure transportation or transportation services for that U.S. Government agency or agency component.

(b) Transportation managers, acquiring transportation for one-time-only shipments utilizing procurements other than the Federal Acquisition Regulation (48 CFR Chapter 1) or a rate tender, must have the authority to commit Government funds. The delegated authority must be in writing.

(c) This authority must be posted where anyone may see that the employee is an experienced and trained transportation manager with the authority to commit Government funds.

*Note to § 102-117.365:* For information on liability, see § 102-118.350 of this subchapter.

#### § 102-117.370 What training or experience is necessary to qualify me as a transportation manager?

(a) A transportation manager is an authorized Federal employee who has been delegated to oversee the physical movement of commodities, household goods, and other freight from one location to another by a transportation service provider (TSP).

(b) Employees may be assigned the position of a transportation officer or technician under the Office of Personnel Management classification system. For specific duties associated with a particular classification for traffic managers, or traffic management specialists, see the Office of Personnel Management web site, [www.opm.gov](http://www.opm.gov).

The Traffic Management Series is GS-2130.

(c) Before you are assigned transportation management duties as an ancillary duty, you must demonstrate, at a minimum, knowledge and experience in planning and directing an overall traffic management program of an organization as well as—

- (1) Negotiating with TSPs;
- (2) Representing the organization's position in disputes, such as disagreements over rates and charges;
- (3) Developing, evaluating and advising on traffic management policies and programs;
- (4) Understanding a particular transportation program such as freight, personal property, or passenger;
- (5) Understanding the transportation requirements and systems for specific geographical areas;

(6) Understanding programs that require transportation, such as contract administration, supply, storage, distribution, or inventory management;

(7) Understanding contract methodology for the procurement of specific transportation services;

(8) Analyzing transportation costs to develop alternatives in procurement, storage, distribution, or mobilization; and

(9) Understanding transportation policies and procedures, as well as knowledge of rate tenders and other regulations.

#### § 102-117.375 How do I acquire the training or experience to qualify as a transportation manager?

(a) The minimum experience for transportation as an ancillary duty would be a formal 40-hour training course specializing in transportation management.

(b) Transportation managers with full-time responsibilities as transportation managers should have documented minimum experience requirements for transportation as an ancillary duty with a minimum of an 80-hour training course and 2-year on-the-job training. College or university class or degrees are highly desirable and may be substituted for on-the-job training.

(c) Informal training may be acquired through on-the-job training.

(d) Classroom training is available from commercial sources such as transportation associations, institutes, and colleges and universities. Much of the training is available through computer on-line classes, but other courses are taught at specific locations throughout the United States.

(e) There are also Government training forums and schools, but these may be agency specific. The Department

of Transportation (DOT) lists specialized training on the DOT website for hazardous material and other specialized cargo and freight.

(f) Additional training is required if the employee moves or otherwise is involved with hazardous material, hazardous waste, or other specialized transportation requirements. This training must be current and well documented.

**§ 102-117.380 How do I document the training or experience to qualify as a transportation manager?**

(a) Training documentation includes a certificate of completion from a class that is accredited with the International Association for Continuing Education and Training (IACET), at a minimum, or a degree from an accredited university or college, indicating the hours of training, experience level attained, and course description.

(b) A supervisor must acknowledge in writing that the employee has attained a level of experience and the number of years of experience that is credited to the logistics or transportation management field.

**PART 102-118—TRANSPORTATION PAYMENT AND AUDIT**

3. The authority citation for 41 CFR part 102-118 continues to read as follows:

**Authority:** 31 U.S.C. 3726, 40 U.S.C. 121(c), and 49 U.S.C. 10721, 13712, and 15504.

**§ 102-118.350 [Redesignated as § 102-118.351]**

4. Redesignate § 102-118.350 as § 102-118.351.

5. Add new § 102-118.350 to read as follows:

**§ 102-118.350 What authority must I have to obligate funds for transportation or transportation services?**

(a) In accordance with 31 U.S.C. 3322 and 3528, certifying and disbursing officers are accountable for expenditures of public funds. However, any Government employee who has the responsibility to procure transportation must also have proper authority to obligate funds. This authority must be in writing from the head of your agency or his or her designee.

(b) For further information and training requirements, see part 102-117, subpart M, of this subchapter.

[FR Doc. 05-8839 Filed 5-3-05; 8:45 am]

BILLING CODE 6820-14-S

**FEDERAL COMMUNICATIONS COMMISSION**

**47 CFR Part 90**

[WT Docket No. 05-62; DA 05-1084]

**Amendment of the Commission's Rules to Provide for Flexible Use of the 896-901 MHz and 935-940 MHz Bands Allotted to the Business and Industrial Land Transportation Pool, and Oppositions**

**ACTION:** Proposed rule; extension of comment period.

**SUMMARY:** In this document, the Wireless Telecommunications Bureau (WTB) of the Federal Communications Commission (Commission) extends the periods for both the comment and reply comment deadlines established in the Notice of Proposed Rulemaking (NPRM) adopted by the Commission in the 900 MHz B/ILT white space proceeding. The deadline to file comments is extended from April 18, 2005, to May 18, 2005, and the deadline to file reply comments is extended from May 2, 2005, to June 2, 2005. This action is taken to enable interested parties sufficient opportunity to review complex issues raised by the NPRM and to provide commenters a reasonable period of time to continue discussions with other interested parties in an effort to reach consensus that would allow a consistent filing position in this matter for most of the 900 MHz user communities.

**DATES:** The agency must receive comments on or before May 18, 2005; and reply comments on or before June 2, 2005.

**ADDRESSES:** You may submit comments, identified by WT Docket No. 05-62, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Federal Communications Commission's Web Site:* <http://www.fcc.gov/cgb/ecfs/>. Follow the instructions for submitting comments.

- *E-mail:* To receive filing instructions for e-mail comments, commenters should send an e-mail to [ecfs@fcc.gov](mailto:ecfs@fcc.gov), and should include the following words in the body of the message, "get form <your e-mail address>." A sample form and directions will be sent in reply. Include the docket number(s) in the subject line of the message.

- *Mail:* Appropriate addresses for submitting comments and reply comments may be found in the **SUPPLEMENTARY INFORMATION** section of this document.

- *People with Disabilities:* Contact the FCC to request reasonable accommodations (accessible format documents, sign language interpreters, CART, etc.) by e-mail: [FCC504@fcc.gov](mailto:FCC504@fcc.gov) or phone: 202-418-0530 or TTY: 202-418-0432.

*Instructions:* All submissions received must include the agency name and docket number or Regulatory Information Number (RIN) for this rulemaking. All comments received will be posted without change to <http://www.fcc.gov/cgb/ecfs/>, including any personal information provided.

*Docket:* For access to the docket to read background documents or comments received, go to <http://www.fcc.gov/cgb/ecfs/>.

**FOR FURTHER INFORMATION CONTACT:** Michael Connelly, Wireless Telecommunications Bureau at 202-418-0620, or via the Internet at [Michael.Connelly@fcc.gov](mailto:Michael.Connelly@fcc.gov).

**SUPPLEMENTARY INFORMATION:** This is a summary of the Federal Communications Commission's Order (Order), DA 05-1084, in WT Docket No. 05-62, (2005 WL 852749 (F.C.C.)), adopted April 14, 2005, and released April 14, 2005, which extends the comment and reply comment filing deadlines in the 900 MHz B/ILT white space proceeding. The full text of this document is available for public inspection and copying during regular business hours at the FCC Reference Information Center, 445 12th St., SW., Room CY-A257, Washington, DC 20554. The complete text may be purchased from the Commission's duplicating contractor: Best Copy & Printing, Inc., 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone 800-378-3160, facsimile 202-488-5563, or via e-mail at [fcc@bcpiweb.com](mailto:fcc@bcpiweb.com). The full text may also be downloaded at: <http://www.fcc.gov>. Alternative formats are available to persons with disabilities by contacting Brian Millin at (202) 418-7426 or TTY (202) 418-7365 or at [Brian.Millin@fcc.gov](mailto:Brian.Millin@fcc.gov).

**Synopsis of the Order**

2. On April 14, 2005, the WTB released an Order that extended the comment and reply comment filing deadlines established in the NPRM adopted by the Commission in this proceeding on February 10, 2005 in WT Docket No. 05-62; FCC 05-31, published at 70 FR 13143, March 18, 2005. In the NPRM, the Commission seeks public comment regarding a proposal to auction unused spectrum in the 896-901 MHz and 935-940 MHz Bands presently allotted to the Business and Industrial Land Transportation Pool

("900 MHz B/ILT Pool"), in order to facilitate flexible use. In particular, the Commission proposes to permit any use of the B/ILT channels in the 900 MHz band that is consistent with the band's fixed and mobile allocations. In addition, the Commission proposes to license the remaining spectrum using a geographic area licensing scheme, and to adopt service rules, including licensing, technical and operational rules for the new geographic licensees.

3. On April 4, 2005, the United Telecom Council, the National Association of Manufacturers and MRFAC, the Association of American Railroads, the American Petroleum Institute, the National Rural Electric Cooperative Association, and the Enterprise Wireless Alliance jointly filed a request for an extension of time to submit comments. They contend that the current comment period does not provide commenters with a sufficient length of time to provide thorough and meaningful responses. They also state that they are conducting discussions with other interested parties in an effort to reach consensus that would allow a consistent filing position in this matter for most of the 900 MHz user communities, and believe that this effort will not be complete before the comment filing deadline. On April 12, 2005, Nextel Communications, Inc. filed an opposition to the comment period extension request, arguing that any delay would adversely impact the Commission's 800 MHz rebanding effort, 69 FR 67823, November 22, 2004, and would delay Nextel's opportunity to obtain, through the auction process, any unused 900 MHz B/ILT spectrum.

#### Ordering Clauses

4. Pursuant to sections 4(i) and 4(j) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i) and 154(j), and §§ 0.131, 0.331, and 1.46 of the Commission's rules, 47 CFR 0.131, 0.331, and 1.46, the deadline for filing comments in response to the NPRM, published at 70 FR 13143, March 18, 2005, in this proceeding, is extended to May 18, 2005, and the deadline for filing reply comments is extended to June 2, 2005.

Federal Communications Commission.

## DEPARTMENT OF TRANSPORTATION

### National Highway Traffic Safety Administration

#### 49 CFR Part 571

[Docket No. NHTSA-05-21051]

### Federal Motor Vehicle Safety Standards (FMVSS); Small Business Impacts of Motor Vehicle Safety

**AGENCY:** National Highway Traffic Safety Administration (NHTSA), DOT.

**ACTION:** Notice of regulatory review; request for comments.

**SUMMARY:** The National Highway Traffic Safety Administration (NHTSA) seeks comments on the economic impact of its regulations on small entities. As required by Section 610 of the Regulatory Flexibility Act, we are attempting to identify rules that may have a significant economic impact on a substantial number of small entities. We also request comments on ways to make these regulations easier to read and understand. The focus of this notice is rules that specifically relate to passenger cars, multipurpose passenger vehicles, trucks, buses, trailers, incomplete vehicles, motorcycles, and motor vehicle equipment.

**DATES:** Comments must be received on or before July 5, 2005.

**ADDRESSES:** You should mention the docket number of this document in your comments and submit your comments in writing to: Docket Management System, U.S. Department of Transportation, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590. You may call Docket Management at: (202) 366-9324. You may visit the Docket from 10 a.m. to 5 p.m. Monday through Friday.

**FOR FURTHER INFORMATION CONTACT:** Nita Kavalauskas, Office of Regulatory Analysis, Office of Planning, Evaluation and Budget, National Highway Traffic Safety Administration, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Telephone: (202) 366-2584. Facsimile (fax): (202) 366-2559.

#### SUPPLEMENTARY INFORMATION:

##### I. Section 610 of the Regulatory Flexibility Act

###### A. Background and Purpose

Section 610 of the Regulatory Flexibility Act of 1980 (Pub. L. 96-354), as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), requires agencies to conduct periodic reviews of final rules that have a significant

economic impact on a substantial number of small business entities. The purpose of the reviews is to determine whether such rules should be continued without change, or should be amended or rescinded, consistent with the objectives of applicable statutes, to minimize any significant economic impact of the rules on a substantial number of such small entities.

###### B. Review Schedule

The Department of Transportation (DOT) published its Semiannual Regulatory Agenda on November 22, 1999, listing in Appendix D (64 FR 64684) those regulations that each operating administration will review under section 610 during the next 12 months. Appendix D also contains DOT's 10-year review plan for all of its existing regulations.

The National Highway Traffic Safety Administration (NHTSA, "we") has divided its rules into 10 groups by subject area. Each group will be reviewed once every 10 years, undergoing a two-stage process—an Analysis Year and a Review Year. For purposes of these reviews, a year will coincide with the fall-to-fall publication schedule of the Semiannual Regulatory Agenda. Thus, Year 1 (1998) began in the fall of 1998 and ended in the fall of 1999; Year 2 (1999) began in the fall of 1999 and ended in the fall of 2000; and so on.

During the Analysis Year, we will request public comment on and analyze each of the rules in a given year's group to determine whether any rule has a significant impact on a substantial number of small entities and, thus, requires review in accordance with section 610 of the Regulatory Flexibility Act. In each fall's Regulatory Agenda, we will publish the results of the analyses we completed during the previous year. For rules that have subparts, or other discrete sections of rules that do have a significant impact on a substantial number of small entities, we will announce that we will be conducting a formal section 610 review during the following 12 months.

The section 610 review will determine whether a specific rule should be revised or revoked to lessen its impact on small entities. We will consider: (1) The continued need for the rule; (2) the nature of complaints or comments received from the public; (3) the complexity of the rule; (4) the extent to which the rule overlaps, duplicates, or conflicts with other federal rules or with state or local government rules; and (5) the length of time since the rule has been evaluated or the degree to which technology, economic conditions,

or other factors have changed in the area affected by the rule. At the end of the

Review Year, we will publish the results of our review. The following table

shows the 10-year analysis and review schedule:

#### NHTSA SECTION 610 REVIEW PLAN

| Year | Regulations to be reviewed   | Analysis year | Review year |
|------|--|---------------|-------------|
| 1    | 49 CFR parts 501 through 526 and 571.213   | 1998          | 1999        |
| 2    | 49 CFR 571.131, 571.217, 571.220, 571.221, and 571.222                           | 1999          | 2000        |
| 3    | 49 CFR 571.101 through 571.110 and 571.135                                       | 2000          | 2001        |
| 4    | 49 CFR parts 529 through 579, except part 571                                    | 2001          | 2002        |
| 5    | 49 CFR 571.111 through 571.129 and parts 580 through 588                         | 2002          | 2003        |
| 6    | 49 CFR 571.201 through 571.212   | 2003          | 2004        |
| 7    | 49 CFR 571.214 through 571.219, except 571.217                                   | 2004          | 2005        |
| 8    | 49 CFR parts 591 through 594   | 2005          | 2006        |
| 9    | 49 CFR 571.223 through 571.404, part 500 and new parts and subparts under 49 CFR | 2006          | 2007        |
| 10   | 23 CFR parts 1200 and 1300 and new parts and subparts under 23 CFR               | 2007          | 2008        |

#### C. Regulations Under Analysis

During Year 7 (2004), the Analysis Year, we will conduct a preliminary assessment of the following sections of 49 CFR part 571:

| Section | Title                      |
|---------|----------------------------|
| 571.214 | Side impact protection.    |
| 571.216 | Roof crush resistance.     |
| 571.218 | Motorcycle helmets.        |
| 571.219 | Windshield zone intrusion. |

We are seeking comments on whether any requirements in Parts 571.214, 571.216, 571.218, and 571.219 have a significant economic impact on a substantial number of small entities. "Small entities" include small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations under 50,000. Business entities are generally defined as small businesses by Standard Industrial Classification (SIC) code, for the purposes of receiving Small Business Administration (SBA) assistance. Size standards established by SBA in 13 CFR 121.201 are expressed either in number of employees or annual receipts in millions of dollars, unless otherwise specified. The number of employees or annual receipts indicates the maximum allowed for a concern and its affiliates to be considered small. If your business or organization is a small entity and if any of the requirements in Parts 571.214, 571.216, 571.218, and 571.219 have a significant economic impact on your business or organization, please submit a comment to explain how and to what degree these rules affect you, the extent of the economic impact on your business or organization, and why you believe the economic impact is significant.

If the agency determines that there is a significant economic impact on a substantial number of small entities, it will ask for comment in a subsequent notice during the Review Year on how these impacts could be reduced without reducing safety.

#### II. Plain Language

##### A. Background and Purpose

Executive Order 12866 and the President's memorandum of June 1, 1998, require each agency to write all rules in plain language. Application of the principles of plain language includes consideration of the following questions:

- Have we organized the material to suit the public's needs?
- Are the requirements in the rule clearly stated?
- Does the rule contain technical language or jargon that is not clear?
- Would a different format (grouping and order of sections, use of headings, paragraphing) make the rule easier to understand?
- Would more (but shorter) sections be better?
- Could we improve clarity by adding tables, lists, or diagrams?
- What else could we do to make the rule easier to understand?

If you have any responses to these questions, please include them in your comments on this document.

##### B. Review Schedule

In conjunction with our section 610 reviews, we will be performing plain language reviews over a ten-year period on a schedule consistent with the section 610 review schedule. We will review part 571 to determine if these regulations can be reorganized and/or rewritten to make them easier to read, understand, and use. We encourage interested persons to submit draft regulatory language that clearly and simply communicates regulatory

requirements, and other recommendations, such as for putting information in tables that may make the regulations easier to use.

#### Comments

How Do I Prepare and Submit Comments?

Your comments must be written and in English. To ensure that your comments are correctly filed in the Docket, please include the docket number of this document in your comments.

Your comments must not be more than 15 pages long. (49 CFR 553.21.) We established this limit to encourage you to write your primary comments in a concise fashion. However, you may attach necessary additional documents to your comments. There is no limit on the length of the attachments.

Please submit two copies of your comments, including the attachments, to Docket Management at the address given above under **ADDRESSES**.

Comments may also be submitted to the docket electronically by logging onto the Docket Management System Web site at <http://dms.dot.gov>. Click on "Help & Information" or "Help/Info" to obtain instructions for filing your comments electronically.

How Can I Be Sure That My Comments Were Received?

If you wish Docket Management to notify you upon its receipt of your comments, enclose a self-addressed, stamped postcard in the envelope containing your comments. Upon receiving your comments, Docket Management will return the postcard by mail.

How Do I Submit Confidential Business Information?

If you wish to submit any information under a claim of confidentiality, you should submit three copies of your

complete submission, including the information you claim to be confidential business information, to the Chief Counsel, NHTSA, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. In addition, you should submit two copies, from which you have deleted the claimed confidential business information, to Docket Management at the address given above under **ADDRESSES**. When you send a comment containing information claimed to be confidential business information, you should include a cover letter setting forth the information specified in our confidential business information regulation. (49 CFR part 512.)

#### Will the Agency Consider Late Comments?

We will consider all comments that Docket Management receives before the close of business on the comment closing date indicated above under **DATES**. To the extent possible, we will also consider comments that Docket Management receives after that date.

#### How Can I Read the Comments Submitted by Other People?

You may read the comments received by Docket Management at the address given above under **ADDRESSES**. The hours of the Docket are indicated above in the same location.

You may also see the comments on the Internet. To read the comments on the Internet, take the following steps:

(1) Go to the Docket Management System (DMS) Web page of the Department of Transportation (<http://dms.dot.gov/>).

(2) On that page, click on "search."

(3) On the next page (<http://dms.dot.gov/search/>), type in the four-digit docket number shown at the beginning of this document. Example: If the docket number were "NHTSA-1998-1234," you would type "1234." After typing the docket number, click on "search."

(4) On the next page, which contains docket summary information for the docket you selected, click on the desired comments. You may download the comments. However, since the comments are imaged documents, instead of word processing documents, the "pdf" versions of the documents are word searchable.

Please note that even after the comment closing date, we will continue to file relevant information in the Docket as it becomes available. Further, some people may submit late comments. Accordingly, we recommend that you

periodically check the Docket for new material.

**Joseph Carra,**

*Associate Administrator for National Center for Statistics and Analysis.*

[FR Doc. 05-8827 Filed 5-3-05; 8:45 am]

**BILLING CODE 4910-59-P**

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

#### 50 CFR Part 17

**RIN 1018-A115**

#### **Endangered and Threatened Wildlife and Plants; Listing Roswell Springsnail, Koster's Springsnail, Pecos Assimineia, and Noel's Amphipod as Endangered With Critical Habitat**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Revised proposed rule; reopening of public comment period, notice of availability of draft economic analysis and draft environmental assessment, updated legal descriptions for critical habitat units.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), announce the availability of the draft economic analysis and draft environmental assessment for the proposal to designate critical habitat for the Roswell springsnail (*Pyrgulopsis roswellensis*), Koster's springsnail (*Juturnia kosteri*), Pecos assimineia (*Assimineia pecos*), and Noel's amphipod (*Gammarus desperatus*) (four invertebrates) under the Endangered Species Act of 1973, as amended (Act). We are also reopening the public comment period for the proposal to list the four invertebrates as endangered with critical habitat to allow all interested parties an opportunity to comment on and request changes to the proposed listing and critical habitat designation, as well as the associated draft economic analysis and draft environmental assessment. In addition, we are proposing updated legal descriptions for critical habitat units using Geographic Information Systems (GIS) coordinates. We invite all interested parties to submit comments on this proposal within the 30-day comment period.

**DATES:** Comments must be submitted directly to the Service (see **ADDRESSES** section) on or before June 3, 2005.

**ADDRESSES:** If you wish to comment, you may submit your comments and materials by any one of several methods:

1. You may submit written comments and information to the Susan MacMullin, Field Supervisor, New Mexico Ecological Services Field Office, 2105 Osuna Road NE, Albuquerque, New Mexico 87113.

2. You may hand-deliver written comments and information to our New Mexico Ecological Services Field Office, at the above address, or fax your comments to 505-346-2542.

3. You may send your comments by electronic mail (e-mail) to "[R2FWE\\_AL@fws.gov](mailto:R2FWE_AL@fws.gov)." For directions on how to submit electronic filing of comments, see the "Public Comments Solicited" section below.

You may obtain copies of the draft economic analysis and draft environmental assessment by mail by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. You may also view these documents in person, review comments and materials received, and review supporting documentation used in preparation of the proposed rule, by appointment, during normal business hours, at the New Mexico Ecological Services Field Office at the address provided above.

**FOR FURTHER INFORMATION CONTACT:** Susan MacMullin, Field Supervisor, New Mexico Ecological Services Field Office (telephone 505-761-2525, facsimile 505-346-2542).

#### **SUPPLEMENTARY INFORMATION:**

##### **Public Comments Solicited**

We intend any final action resulting from this proposal to be as accurate and as effective as possible. Therefore, we solicit comments or suggestions from the public, other concerned governmental agencies, the scientific community, industry, or any other interested party concerning this proposed rule. We particularly seek comments concerning:

(1) The reasons why any habitat should or should not be determined to be critical habitat as provided by section 4 of the Act, including whether the benefits of designation will outweigh any threats to the species resulting from designation;

(2) Specific information on the amount and distribution of the four invertebrates' habitat, and which habitat is essential to the conservation of the species and why;

(3) Land use designations and current or planned activities in the subject area and their possible impacts on the species or proposed critical habitat;

(4) Whether our approach to listing or critical habitat designation could be improved or modified in any way to provide for greater public participation

and understanding, or to assist us in accommodating public concerns and comments;

(5) Any foreseeable economic, environmental, or other impacts resulting from the proposed designation of critical habitat or coextensively from the proposed listing, in particular, any impacts on small entities or families;

(6) Whether the economic analysis identifies all State and local costs. If not, what other costs are overlooked;

(7) Whether the economic analysis makes appropriate assumptions regarding current practices and likely regulatory changes imposed as a result of the listing of the species or the designation of critical habitat;

(8) Whether the economic analysis correctly assesses the effect on regional costs associated with land use controls that derive from the designation;

(9) Whether the designation will result in disproportionate economic impacts to specific areas that should be evaluated for possible exclusion from the final designation; and

(10) Whether the economic analysis appropriately identifies all costs that could result from the designation or coextensively from the listing.

Comments submitted during this comment period will be fully considered in the critical habitat determination, which will be made on or before August 1, 2005. To meet this date, all comments or proposed revisions to the draft economic analysis, draft environmental assessment, and proposed rule need to be submitted to us during the open comment period (see **DATES**).

Please submit electronic comments in ASCII file format and avoid the use of special characters or any form of encryption. Please also include "Attn: RIN 1018-A115" in your e-mail subject header and your name and return address in the body of your message. If you do not receive a confirmation from the system that we have received your e-mail message, contact us directly by calling our New Mexico Ecological Services Field Office at (505) 346-2525.

Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address, which we will honor to the extent allowable by law. If you wish us to withhold your name or address, you must state this request prominently at the beginning of your comments. However, we will not consider anonymous comments. To the extent consistent with applicable law, we will make all submissions from organizations or businesses, and from

individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

#### Background

On November 22, 1985, we received a petition from Mr. Harold F. Olson, Director of the New Mexico Department of Game and Fish, to add 11 species of New Mexican mollusks to the Federal list of endangered and threatened wildlife. Roswell springsnail (*Pyrgulopsis roswellensis*, formerly *Fontelicella* sp. (Hershler 1994)), Koster's springsnail (*Juturnia kosteri*, formerly *Tryonia* (Hershler *et al.* 2002)), and Pecos assiminea were among the 11 species. We determined the petition presented substantial information that the requested action may be warranted and published a positive 90-day petition finding in the **Federal Register** on August 20, 1986 (51 FR 29671). A subsequent 12-month finding published in the **Federal Register** on July 1, 1987 (52 FR 24485), concluded that the petitioned action was warranted but precluded by other higher priority listing actions. A proposed rule to list the three snails as endangered with critical habitat was published in the **Federal Register** on February 12, 2002 (67 FR 6459). The proposed rule also included Noel's amphipod, which had been a candidate for listing, because this invertebrate shares the same habitats, threats, and management needs as the three snails.

These species occur at sinkholes, springs, and associated spring runs and wetland habitats. They are found at Bitter Lake National Wildlife Refuge in Chaves County, New Mexico, one site in Pecos County, Texas, and one site in Reeves County, Texas.

In the proposed rule, we determined that these three snails and one amphipod have an exceedingly limited distribution and are imperiled by local and regional groundwater depletion, surface and groundwater contamination, oil and gas extraction activities within the supporting aquifer and watershed, and direct loss of their habitat (e.g., through burning or removing marsh vegetation, inundating, or filling of habitat).

If the proposed listing and critical habitat designation is finalized, section 7(a)(2) of the Act would require that Federal agencies ensure that actions they fund, authorize, or carry out are not likely to jeopardize the continued existence of the species or result in the destruction or adverse modification of critical habitat.

Section 4 of the Act requires that we consider economic and other relevant

impacts prior to making a final decision on what areas to designate as critical habitat. We may revise the proposal, or its supporting documents, to incorporate or address new information received during the comment period. In particular, we may exclude an area from critical habitat if we determine that the benefits of excluding the area outweigh the benefits of including the area as critical habitat, provided such exclusion will not result in the extinction of the species. Bitter Lake National Wildlife Refuge (NWR) completed a Final Comprehensive Conservation Plan in September of 1998 that provides for protection and management of the four invertebrate species and sensitive natural habitats. We believe that there is minimal benefit from designating critical habitat for the four invertebrates within Bitter Lake NWR lands because these lands are already managed for the conservation of wildlife. We did not propose to exclude Bitter Lake NWR from the proposed critical habitat designation, but we anticipate excluding it from the final designation after further analysis and public comment.

The draft economic analysis estimates that the total post-designation costs could amount to between \$6.4 million to \$12.8 million over 20 years (or \$3.4 to \$6.8 million in present value terms and \$170,000 to \$339,000 annually from 2005 to 2025). Approximately 82 percent of these costs are associated with impacts to oil and gas activities on Bureau of Land Management lands within the Bitter Lake Habitat Protection Zone. Federal, State, and The Nature Conservancy management activities are expected to generate 14 percent of total forecast costs.

#### Corrected Coordinates for Proposed Units of Critical Habitat

Below we provide corrected legal descriptions for the four invertebrates' proposed critical habitat designation. The legal descriptions published on February 12, 2002 (67 FR 6459), as part of the proposed critical habitat designation, used a less accurate method of description and contained errors. In this revised proposed rule, we are proposing updated legal descriptions for critical habitat units using GIS coordinates, which is our current (and a more precise) method of identifying critical habitat units. The general unit locations of proposed critical habitat on the maps in the February 12, 2002, proposal remain correct, and we are not republishing them in this document. The proposed updated legal descriptions using GIS coordinates may be found in the rule portion of this document.

**Name Change**

Since the publication of the February 12, 2002, proposed rule, the common and scientific names of one of the snails proposed for listing as endangered with critical habitat have changed. The proposed rule specified this snail as Koster's tryonia (*Tryonia kosteri*). This snail is now identified as Koster's springsnail (*Juturnia kosteri*). This revised proposed rule incorporates the current common and scientific names of this snail into the proposed amendatory language. We are not, however, republishing the critical habitat unit maps in this proposed rule. If this proposal is adopted, the map of the critical habitat for Koster's springsnail will be revised to correct the common name in our final determination. To view the critical habitat unit maps, refer to the February 12, 2002, proposed rule (67 FR 6459).

**Required Determinations**

This revised proposed rule affirms the information contained in the February 12, 2002, proposed rule (67 FR 6459) concerning Executive Order 12866 and the Regulatory Flexibility Act; Executive Orders 13211, 12630, 13132, 12988, and 13175; the Unfunded Mandates Reform Act; the Paperwork Reduction Act; the National Environmental Policy Act; and the President's memorandum of April 29, 1994, "Government-to-Government Relations with Native American Tribal Governments" (59 FR 22951).

**List of Subjects in 50 CFR Part 17**

Endangered and threatened species, Exports, Imports, Reporting and recordkeeping requirements, Transportation.

**Proposed Rule Promulgation**

Accordingly, we propose to amend part 17, subchapter B of chapter I, title

50 of the Code of Federal Regulations, as set forth below:

**PART 17—[AMENDED]**

1. The authority citation for part 17 continues to read as follows:

**Authority:** 16 U.S.C. 1361–1407; 16 U.S.C. 1531–1544; 16 U.S.C. 4201–4245; Pub. L. 99–625, 100 Stat. 3500, unless otherwise noted.

2. Amend § 17.11(h) as follows:  
 a. Add Pecos assiminea snail, Koster's springsnail, and Roswell springsnail in alphabetical order under "SNAILS"; and

b. Add Noel's amphipod in alphabetical order under "CRUSTACEANS", to the List of Endangered and Threatened Wildlife to read as follows:

**§ 17.11 Endangered and threatened wildlife.**

3. Amend § 17.95 as follows:  
 a. In paragraph (f), add critical habitat for Pecos assiminea, Koster's springsnail, and Roswell springsnail; and  
 b. In paragraph (h), add critical habitat for Noel's amphipod, in the same alphabetical order as these species occur in § 17.11(h).

**§ 17.95 Critical habitat—fish and wildlife.**

\* \* \* \* \*  
 (f) *Clams and snails.*  
 \* \* \* \* \*

Pecos assiminea (*Assiminea pecos*)  
 1. A portion of the critical habitat for the Pecos assiminea is located in paragraph (f) of this section within the text for the Koster's springsnail. These species occur together, and critical

habitat and the primary constituent elements are identical for these snails. In addition, critical habitat is depicted for the Pecos assiminea in:  
 (i) Pecos County, TX, including the Diamond Y Springs complex, located at longitude – 102.923461 and latitude 30.999271, and approximately 6.8 km (4.2 mi) of the spring outflow ending at about 0.8 km (0.5 mi) downstream of the State Highway 18 bridge crossing (approximately longitude – 102.885137 and latitude 31.041405). Also included is approximately 0.8 km (0.5 mi) of Leon Creek upstream of the confluence with Diamond Y Draw. All surrounding riparian vegetation and mesic soil environments within the spring, outflow, and portion of Leon Creek are also proposed for designation as these

areas are considered habitat for the Pecos assiminea. Legal description (geographic projection, North American Datum 83): Longitude (decimal degrees), Latitude (decimal degrees):

(iii) [Reserved for maps.]

(2) The primary constituent elements of critical habitat for Pecos assimineia are found in paragraph (f) of this section within the text for Koster's springsnail. In addition, Pecos assimineia requires moist soil at stream or spring run margins with hydrophytic vegetation such as salt grass or sedges.

\* \* \* \* \*

Koster's springsnail (*Juturnia kosteri*)

1. Critical habitat is depicted for the Koster's springsnail in Chaves County, NM, and includes areas within the Bitter Lake National Wildlife Refuge (Sago Springs; Bitter Creek; the adjacent gypsum sinkholes; portions of impoundments 3, 5, 6, 7, and 15; and Hunter Marsh). The designation includes all springs, seeps, sinkholes, and outflows surrounding Bitter Creek, Refuge impoundments, and the Sago Springs complex. Legal description (geographic projection, North American Datum 83):

(2) [Reserved for map.]

(3) Within these areas, the primary constituent elements include permanent, flowing, unpolluted fresh to moderately saline water; slow to moderate velocities of water over substrates (a surface on which a plant or animal grows or is attached) ranging from deep organic silts to limestone cobble and gypsum substrates; presence of algae, submergent vegetation, and detritus in the substrata; water temperatures in the approximate range of 10–20 degrees Centigrade (50–68 degrees Fahrenheit) with natural diurnal and seasonal variation slightly above and below that range.

Roswell springsnail (*Pyrgulopsis roswellensis*)

The critical habitat map and description for the Roswell springsnail is located in paragraph (f) of this section within the text for the Koster's springsnail. These species occur together, and critical habitat and the primary constituent elements are identical for these snails.

\* \* \* \* \*

(h) Crustaceans.

\* \* \* \* \*

Noel's amphipod (*Gammarus desperatus*)

The critical habitat map and description, including the primary constituent elements, for the Noel's amphipod is located in paragraph (f) of this section, within the text for the Koster's springsnail. These species occur together, and critical habitat and the primary constituent elements are identical for this snail and the Noel's amphipod.

## Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

### DEPARTMENT OF AGRICULTURE

#### Submission for OMB Review; Comment Request

April 28, 2005.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA\_1  
Submission@omb.eop.gov or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

#### Forest Service

**Title:** Airplane Pilot Qualifications and Approval Record, Helicopter Pilot Qualifications and Approval Record, Airplane Data Record, and Helicopter Data Record.

**OMB Control Number:** 0596-0015.  
**Summary of Collection:** The Forest Service (FS) is the largest owner and operator of aircraft in the Federal Government outside of the Department of Defense. In conducting the Forest Service Land management mission they use 44 owned aircraft with 315 aircraft on loan to 18 States for fire suppression activities. The majority of FS flying is in support of wildland fire suppression. In addition to the agency owned aircraft, the FS contracts with approximately 400 vendors for aviation services used in resource protection and administrative projects. Contractor aircraft and pilots are used to place water and chemical retardants on fires, provide aerial delivery of firefighters to fires, perform reconnaissance, resource surveys, search for lost personnel, and fire detection. Contracts for such services established rigorous qualification requirements for pilots and specific condition/equipment/performance requirements for aircraft. The authority is granted under the Federal Aviation Administration Regulations in Title 14 (Aeronautics and Space) of the Code of Federal Regulation.

**Need and Use of the Information:** FS will collect information using FS forms to document the basis for approval of contract pilot and aircraft for use in specific FS aviation missions. The information collected from contract pilots in face to face meetings (such as name, age, pilots license number, number of hours flown in type of aircraft, etc.) is based on the length and type of contract but is usually done on a reoccurring annual basis. Without the information supplied on these forms, FS contracting officers and pilot/aircraft inspectors cannot determine if pilots and aircraft meet the detailed qualification, equipment, and condition requirements essential to safe, efficient accomplishment of FS specified flying missions and which are included in contract specifications.

**Description of Respondents:** Individuals or households; Business or

Federal Register

Vol. 70, No. 85

Wednesday, May 4, 2005

other for-profit; State, local or tribal government.

**Number of Respondents:** 2,738.  
**Frequency of Responses:** Reporting: Annually.  
**Total Burden Hours:** 688.

**Ruth Brown,**

Departmental Information Collection  
Clearance Officer.

BILLING CODE 3410-11-M

### DEPARTMENT OF AGRICULTURE

#### Agricultural Marketing Service

[No. LS-05-05]

#### Lamb Promotion, Research, and Information Program

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Notice.

**SUMMARY:** The Agricultural Marketing Service (AMS) is announcing that lamb producers, feeders, seedstock producers, and first handlers of lamb and lamb products voting in a national referendum from January 31, 2005, through February 28, 2005, have approved the continuation of the Lamb Promotion, Research, and Information Order (Order).

**FOR FURTHER INFORMATION CONTACT:** Kenneth R. Payne, Chief, Marketing Programs Branch, Livestock and Seed Program; Agricultural Marketing Service (AMS), USDA, Room 2638-S; STOP 0251; 1400 Independence Avenue, SW.; Washington, DC 20250-0251, telephone number 202/720-1115, fax number 202/720-1125, or by e-mail at: [Kenneth.Payne@usda.gov](mailto:Kenneth.Payne@usda.gov).

**SUPPLEMENTARY INFORMATION:** Pursuant to the Commodity Promotion, Research, and Information Act of 1996 (Act) (7 U.S.C. 7411-7425), the Department of Agriculture conducted a referendum from January 31, 2005, through February 28, 2005, among eligible lamb producers, feeders, seedstock producers, and first handlers of lamb and lamb products to determine if the Order would continue to be effective. A final rule was published in the December 27, 2004, **Federal Register** (69 FR 22570) outlining the procedures for conducting the referendum.

Of the 3,490 valid ballots cast, 2,807 (80 percent) favored and 683 (20

percent) opposed the continuation of the Order. Additionally, of those persons who cast valid ballots in the referendum, those who favored the Order accounted for 84 percent of the total production voted, and those opposed account for 16 percent of the total production voted. For the program to continue, it must have been approved by at least a majority of those persons voting for approval who were engaged in the production, feeding, or slaughter of lambs during calendar year 2004 and

who also represent a majority of the volume of lambs produced, fed, or slaughtered.

Therefore, based on the referendum results, the Secretary of Agriculture has determined that the required majority of eligible voters who voted in the nationwide referendum from January 31, 2005, through February 29, 2005, voted to continue the Order. As a result, the Lamb Checkoff Program will continue to be funded by a mandatory assessment on producers, seedstock

producers (breeders), feeders, and exporters at the rate of one-half cent (\$.005) per pound when live ovine animals are sold. The first handler, primarily packers, will pay an additional \$.30 cents per head on ovine animals purchased for slaughter. Importers are not assessed.

In accordance with Paperwork Reduction Act (44 U.S.C. Chapter 35), the information collection requirements have been approved under OMB number 0581-0227.

#### STATE REFERENDUM RESULTS

[January 31, 2005, through February 28, 2005]

| State   | Votes |     | Volume voted |         |

BILLING CODE 3410-02-P

#### DEPARTMENT OF COMMERCE

#### Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the

following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 3501).

Agency: Economic Development Administration (EDA).

*Title:* Data Collection for Compliance with Government Performance and Results Act of 1993.

*Agency Form Numbers:* ED-915, Public Works, Economic Adjustment Infrastructure, and Revolving Loan Fund Reporting Form; ED-916, Economic Development District and Indian Tribe Reporting Form; ED-917, University Center Reporting Form; and ED-918, Trade Adjustment Assistance Reporting Form.

*OMB Approval Number:* 0610-0098.

*Type of Review:* Extension of a Currently Approved Collection of Information.

*Burden Hours:* 19,768 burden hours.

*Number of Respondents:*

Approximately 2,737 respondents.

*Average Hours Per Response:* (1) 8 burden hours for the Public Works and Economic Adjustment Infrastructure and Revolving Loan Funds Reporting Form; (2) 6 hours for the Economic Development District and Indian Tribe Reporting Form; (3) 7 hours for the University Center Form; and (4) 6 hours for the Trade Adjustment Assistance Form.

*Needs and Uses:* EDA provides investments that will help our partners (states, regions and local communities) across the nation create wealth and minimize poverty by promoting a favorable business environment to attract private capital investment and higher-skill, higher-wage jobs through world class capacity building, infrastructure, business assistance, research grants and strategic initiatives.

EDA must collect data and report on the results of the following principal programs. The Public Works program promotes long-range economic development in distressed areas by providing investments for vital public infrastructure and development facilities. The Economic Adjustment program offers flexible investments, including revolving loan funds, for communities facing sudden or severe economic distress. EDA's Planning program supports local planning and long-term partnerships with State, regional organizations, Economic Development Districts and Indian Tribes that assist distressed communities with strategic planning and investment activities. The University Center program is a partnership that draws on the expertise of colleges and universities to strengthen distressed communities as they strive to become economically self-sufficient. The Trade Adjustment Assistance program, authorized under the Trade Act of 1974 (19 U.S.C. 2341 *et seq.*), assists U.S. firms and industries injured as the result of trade agreements by offering low-cost, effective

professional assistance to certified firms in developing and implementing recovery strategies.

The Government Performance and Results Act of 1993 (GPRA) requires Federal agencies to develop performance measures and report to Congress and their stakeholders the results of the agency's performance. To comply with GPRA, EDA must collect specific data from grant recipients to report its performance in meeting stated goals and objectives. The congressionally mandated reports include (i) the Annual Performance Plan, (ii) Annual Program Performance Report, (iii) annual Accountability Report, and (iv) annual Budgets. EDA performance measures are designed to evaluate overall program performance and not the performance of individual grantees. The information collected at project completion and various stages thereafter will be used to enhance the management and performance of EDA programs.

*Affected Public:* State, local or Indian governments and not-for profit organizations.

*Frequency:* Annually.

*Respondents Obligation:* Mandatory.

*OMB Desk Officer:* David Rostker, (202) 395-3897. Copies of the above collection of information proposal can be obtained by calling or writing to Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via e-mail at [dHynek@doc.gov](mailto:dHynek@doc.gov)).

Written comments and recommendations for the proposed collection should be sent within thirty (30) days of publication of this notice to David Rostker, OMB Desk Officer, facsimile (202) 395-7285, or via e-mail at [David\\_Rostker@omb.eop.gov](mailto:David_Rostker@omb.eop.gov).

Dated: April 29, 2005.

BILLING CODE 3510-34-P

## DEPARTMENT OF COMMERCE

### Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* U.S. Census Bureau.

*Title:* 2005 National Census Test Coverage Follow-up.

*Form Number(s):* None (interviews will be conducted via phone using an automated instrument).

*Agency Approval Number:* None.

*Type of Request:* New collection.

*Burden:* 10,000 hours.

*Number of Respondents:* 60,000.

*Avg. Hours Per Response:* 10 minutes.

*Needs and Uses:* The U.S. Census Bureau requests authorization from the Office of Management and Budget to conduct the 2005 National Census Test (NCT) Coverage Followup (CFU) operation.

Improved coverage is one of the four major goals for Census 2010. In preparation for the 2010 Census, the Census Bureau plans to conduct the 2005 CFU operation in conjunction with the 2005 NCT.

For the 2005 CFU operation, we plan to select a sample of respondents for a telephone followup interview. This coverage operation is intended to evaluate new procedures that have been developed to improve coverage and reduce duplication.

The purpose of the 2005 CFU operation is to determine whether respondents in the 2005 NCT included all the appropriate persons on their form and excluded persons who should have been counted elsewhere. The 2005 CFU operation will attempt to assess the accuracy in which respondents report within household coverage using different rostering approaches and coverage questions. The U.S. Census Bureau will conduct the 2005 CFU from November 1, 2005 through March 6, 2006.

The U.S. Census Bureau telephone center staff will interview households selected for 2005 CFU using computer-assisted telephone interviewing (CATI). The 2005 CFU CATI instrument will include the ability to conduct interviews in Spanish.

*Affected Public:* Individuals or households.

*Frequency:* One-time.

*Respondent's Obligation:* Mandatory.

*Legal Authority:* Title 13 U.S.C. 141 and 193.

*OMB Desk Officer:* Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at [dhynek@doc.gov](mailto:dhynek@doc.gov)).

Written comments and recommendations for the proposed

information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer either by fax (202-395-7245) or e-mail ([susan\\_schechter@omb.eop.gov](mailto:susan_schechter@omb.eop.gov)).

Dated: April 29, 2005.

**Madeleine Clayton,**

*Management Analyst, Office of the Chief Information Officer.*

BILLING CODE 3510-07-P

## DEPARTMENT OF COMMERCE

### Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the emergency provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Agency:* National Oceanic and Atmospheric Administration (NOAA).

*Title:* Scale & Catch Weighing Requirements.

*Form Number(s):* None.

*OMB Approval Number:* 0648-0330.

*Type of Request:* Emergency submission.

*Burden Hours:* 10,032.

*Number of Respondents:* 90.

*Average Hours Per Response:* 45 minutes (for the form applicable to this revision).

*Needs and Uses:* The NOAA Fisheries, Alaska Region, catch-weighing and catch monitoring procedures were extended to the Bering Sea/Aleutian Islands (BSAI) King and Tanner Crabs. In addition, this information collection is revised to add a new form for automatic hopper scale tests. This collection describes equipment and operational requirements, consisting of: scales used to weigh catch at sea; scales approved by the State of Alaska; observer sampling station; and inshore catch monitoring and control plan.

*Affected Public:* Business or for-profit organizations; individuals or households.

*Frequency:* Annually; on occasion.

*Respondent's Obligation:* Mandatory.

*OMB Desk Officer:* David Rostker,

(202) 395-3897.  
Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at [dHynek@doc.gov](mailto:dHynek@doc.gov)).

Written comments and recommendations for the proposed information collection should be sent before May 9, 2005 to David Rostker, OMB Desk Officer, FAX number (202) 395-7285, or [David\\_Rostker@omb.eop.gov](mailto:David_Rostker@omb.eop.gov).

Dated: April 29, 2005.

**Gwellnar Banks,**

*Management Analyst, Office of the Chief Information Officer.*

## DEPARTMENT OF COMMERCE

### Census Bureau

#### 2006 Census Test

**ACTION:** Proposed collection; comment request.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

**DATES:** Written comments must be submitted on or before July 5, 2005.

**ADDRESSES:** Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at [DHynek@doc.gov](mailto:DHynek@doc.gov)).

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Edison Gore, Acting Division Chief, Decennial Management Division, U.S. Census Bureau, Building 2, Room 2102, Washington, DC 20233-9200, (301) 763-3998.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

##### Background

In order to design and implement an optimal short-form-only 2010 Census, the Census Bureau has adopted a robust incremental and iterative research, development, and testing program. This program includes several special purpose tests (e.g., cognitive tests for the wording of the race and Hispanic origin questions), two national mail-out/mail-back tests (the 2003 National Census Test and the 2005 National Census

Test), two site tests (2004 Census Test and the 2006 Census Test), and a 2008 Dress Rehearsal in preparation for the actual 2010 Census.

The 2003 National Census Test was the first major test that we conducted in preparation for the 2010 Census. This was a two-part mail-out/mail-back test designed to evaluate alternative self-response options (paper, Internet, and telephone) and alternative presentations of the race and Hispanic origin questions. For more information, see **Federal Register:** June 7, 2002 (Volume 67, Number 110).

In 2004, we implemented a site test (the 2004 Census Test) that was used chiefly to examine the feasibility of collecting personal information using a Hand Held computer (HHC). It also studied new methods to improve coverage, including procedures for reducing duplication, and tested respondent reaction to revised race and Hispanic origin questions, examples, and instructions, including the removal of the Some other race option. For more information, see **Federal Register:** July 11, 2003 (Volume 68, Number 133).

The 2005 National Census Test, which is scheduled to begin in late summer of 2005 (Census Day is September 15, 2005), is a mail-out/mail-back test designed to evaluate alternative treatments including:

Procedures intended to improve the completeness and accuracy of reporting for short form items, especially the wording of the race and Hispanic origin questions;

1. The presentation of residence rules and other questionnaire items designed to make sure that everyone is counted only once and in the right place;
2. The effects of a bilingual Spanish/English questionnaire on response rates;
3. The feasibility of various replacement questionnaire mailing options and methods; and
4. The effects of questionnaire design improvements on data quality.

This test will be our last chance to test content on this scale in preparation for the 2010 Census. Although results from this test will not be available in time for use in planning the 2006 Census Test, they will be used to make content decisions for the 2010 Census (no later than January 2007). For more information, see **Federal Register:** November 1, 2004 (Volume 69, Number 210).

#### 2006 Census Test

Building upon the results of the 2004 Census Test, the 2006 Census Test will help the U.S. Census Bureau achieve one of its Strategic Goals—developing a census that is cost-effective, improves

coverage, and reduces operational risk. The objectives of the 2006 Census Test include studying methods for:

- Improving enumeration on American Indian Reservations;
- Improving coverage, including procedures to address overall coverage of population and housing and procedures to address duplication;
- Increased use of automation for data collection, including using Hand Held Computers (HHCs) for updating addresses and geographic features. The HHCs also will have expanded functionality and usability that will improve their utility during data collection followup operations;
- Addressing the needs of respondents who speak a language other than English by mailing Bilingual Questionnaires and Language Assistance Guides; and
- Improving self-response by delivering targeted replacement questionnaires and using motivational language on mailing pieces.

The Census Bureau will conduct three other operations as part of the 2006 Census Test—the 2006 Census Test Group Quarters Validation/Advance Visit operation, the 2006 Coverage Followup operation, and the 2006 Coverage Measurement operation. Brief descriptions of these operations are included below for reference purposes. These operations will be submitted to OMB separately.

The 2006 Census Test Group Quarters Validation/Advance Visit operation is designed to verify and update the Census 2000 GQ inventory in the test sites and verify information about the group quarters such as to verify the group quarter's name, address, and geocode information. This operation also will collect additional information (e.g., asking for the expected Census Day population). In addition, the enumerators will explain the purpose of the enumeration, determine if there are any security issues that need to be resolved, and address any privacy issues expressed by the facility's staff and make an appointment for the group quarters enumeration. Additional information, such as dates and times open and meals served will be obtained for service-based facilities.

The Coverage Followup operation is designed to improve coverage by collecting additional information from households which might have coverage problems. This includes households where persons may have been counted more than once (e.g., students who are counted at their parents' home but also counted where they reside while they are attending school) and persons who might not have been included in the

household count (e.g., newborn babies or roommates). This operation also will contact large households (those with more than six persons listed on their mail-back questionnaires) in order to ensure that everyone is included in the census. Another category of households that we will attempt to contact will be those that contain persons identified on administrative records but were included on their census questionnaire. Finally, this operation will include households where the count of persons does not equal the number of persons for which census data are provided.

The 2006 Coverage Followup will be conducted in two phases, telephone and personal visit. During the telephone phase, we will attempt to contact the households noted above from our call centers and complete a Coverage Followup web-based questionnaire. For cases not resolved during the telephone phase, field enumerators will visit the households and administer a paper Coverage Followup questionnaire.

The Coverage Measurement program is intended to measure the coverage of the census. In the 2006 Census Test, two field components of the Coverage Measurement Program will be conducted—the Person Interview and the Person Followup. The Person Interview instrument will collect data from a sample of households which we will compare to the data collected by the census questionnaire. In certain cases of inconsistencies, the Person Followup will be conducted to clarify the situation. The data from the Coverage Measurement Program are intended to measure erroneous enumerations and persons that were missed when they should have been counted. In the 2006 Census Test, changes to these operations are being tested so they will not be used to formally assess the coverage of the 2006 Census Test enumeration.

We will conduct the 2006 Census Test in two sites, one urban and one rural. The urban site, Travis County 2006 Census Test site, will consist of the central portion of Travis County, Texas. The rural site, the Cheyenne River Reservation American Indian Reservation and Tribal Trust Lands, is located in South Dakota. These sites were selected because they contain demographic characteristics associated with specific test objectives that will support key research questions and evaluation requirements. Plans for this test are subject to Congressional appropriation of requested funds.

## II. Method of Collection

Both sites combined contain about 200,000 housing units and a variety of

group quarters. The temporary field office that we will establish in each site will manage staffing, training, and the data collection.

Prior to the actual enumeration, enumerators will conduct Address Canvassing in both sites using HHCs. They will attempt to contact every structure that is or could be a place where people live or stay (including Other Living Quarters which may be Group Quarters or housing units) in order to update the maps and address lists that we will use for conducting the enumeration.

This test will be the first time that we have attempted to automate the Address Canvassing operation by using HHCs. An automated process which will capture address and geographic feature updates in real time will be faster than updating the lists and geographic features manually and will reduce the costs and clerical errors that result from keying and digitizing. We also will use the results of Address Canvassing to continue the process of integrating the address list for Group Quarters with the address list for housing units in order to reduce duplication and geographic errors and improve data quality for Group Quarters. The 2006 Census Test also will include our first attempt to collect GPS coordinates for structures during the Address Canvassing operation.

We will use different enumeration procedures for each site. We will enumerate the rural site using the Update/Enumerate method—a method of data collection designed for communities like the Cheyenne River Reservation with special enumeration needs and where many housing units may not have house-number-and-street-name mailing addresses.

During Update/Enumerate, enumerators will update the addresses and maps as they visit each address in their assignment areas, and then enumerate the residents during the same visit. This operation is scheduled to occur between March 13, 2006 and May 12, 2006.

Respondents in the urban site (Travis County 2006 Census Test site) will receive their questionnaires by mail. The enumeration strategy that we will use for this site will be similar to the one that we used in mail-out/mail-back areas in the 2004 Census Test. The multi-part mailing strategy will consist of an advance letter, an initial mailing package, a blanket reminder post card, and a replacement questionnaire package.

In order to test the effect of deadline messages, some respondents will receive mailings that include

progressively stronger deadline messaging to encourage respondents to complete and mail back their forms prior to the cut-off date for Nonresponse Followup. All mailing pieces will be delivered by the United States Postal Service (USPS) via first class postage.

The advance letter will be delivered between March 8, 2006 and March 10, 2006. This letter will inform respondents that they will soon receive a census form. About a week later, each address in the Travis County 2006 Census Test site will receive an initial mailing package that includes the questionnaire. The questionnaires for some areas will be in English, while housing units in other areas will receive a bilingual (English/Spanish) form. We will use this design to test the impact of a bilingual questionnaire on response rates and data quality. In addition, the questionnaire mailing package for certain census tracts also will contain a language assistance guide designed to aid respondents whose primary language is other than English. We are including these guides in the initial questionnaire mailing for some tracts so that we can study the effect of the guides on response rates.

Approximately one week after the initial questionnaires have been delivered, the USPS will deliver a blanket reminder post card to each address. This postcard will serve as a thank-you for respondents who have mailed back the questionnaire and will be a reminder for those who have not. About 10 days after the reminder postcard is delivered, each address from which we have not received a questionnaire will receive a targeted replacement questionnaire package.

Two to three weeks after Census Day (April 1, 2006), we will begin to identify the universe of addresses in the Travis County 2006 Census Test site from which we have not yet received a census response. Enumerators equipped with HHCs will visit each of these addresses between April 24, 2006 and July 15, 2006, in order to complete a census questionnaire. Enumerators will determine the Census Day status of the unit and complete a questionnaire on their HHCs based on that status. Enumerators also will complete a census questionnaire for any address that they find in their assignment areas which is not shown on their assignment lists.

The assignment lists, as well as the questionnaires and maps, will be in electronic, rather than paper form. These enumeration materials will be stored and updated as necessary on their HHCs. Each enumerator's assignment list will be updated daily to

remove addresses from which a census response is received by mail after the universe identification. Updating the enumerators' assignment lists daily could reduce respondent burden as well as the cost of Nonresponse Followup by eliminating unnecessary visits to housing units that have already been enumerated.

Nonresponse Followup will incorporate several quality checks. Among these is the Vacant-Delete Check—an independent followup of all addresses classified as vacant or nonexistent for the first time during Nonresponse Followup. These addresses will be reassigned to an enumerator other than the enumerator who made the original classification. The Vacant-Delete Check enumerators will verify the Census Day status of the assigned addresses and complete a short form questionnaire that reflects the Census Day status. This operation also will be conducted using HHCs equipped with the same functionality that we use to conduct Nonresponse Followup. Other quality check procedures conducted during this operation include an independent re-interview of a portion of an enumerator's completed cases.

Although most individuals live in conventional housing units, others live in group living situations, (*i.e.*, college residence halls or shelters for people experiencing homelessness) and will not be enumerated using the mail-out/mail-back method. We will enumerate these individuals using the Group Quarters Enumeration operation (April 3, 2006 to May 19, 2006) and the Service-Based Enumeration operation, which will be conducted from March 20, 2006 to March 31, 2006.

During the Group Quarters Enumeration operation, enumerators will visit group quarters in order to verify address information about the group quarters, develop a control list of all residents, and distribute questionnaires for completion. Within a few days, the same enumerator will return to the GQ to collect the completed questionnaires. In order to obtain a complete count for everyone who uses the facility, the enumerator will ask the GQ contact to supply information for any individual on the control list who did not complete a questionnaire.

The Service-Based Enumeration is designed to enumerate people experiencing homelessness who may be missed in the traditional enumeration of housing units and group quarters. As in Census 2000, people will be enumerated at places where they receive services such as meals, or a bed for the night.

Service-Based Enumeration facilities for the 2006 Census Test will include only shelters (emergency and transitional shelters, hotels and motels providing shelter for people experiencing homelessness) and soup kitchens in order to test new procedures for enumerating this population. Enumerators will visit these facilities a maximum of two times during the enumeration period and enumerate the clients who are using the service at the time of the enumerator's visit.

Respondents in both sites will be able to call our existing call centers' toll-free telephone numbers to obtain information about the questionnaire and the 2006 Census Test. This service will be available in English, Spanish, and Telephone Device for the Deaf.

### III. Data

*OMB Number:* None.

*Form Number:* DD-1 (Initial Mailout/Mailback Questionnaire), DD-1(R) (Replacement Mailout/Mailback Questionnaire), DD-1(E) (Update/Enumerate Questionnaire), DD-1(E)SUPP (Update/Enumerate Supplemental Questionnaire—for large households), DD-1(E)R (Update/Enumerate Reinterview Questionnaire), DD-15 (Service-Based Enumeration Individual Census Questionnaire), DD-20 (Group Quarters Individual Census Report), DD-1(E/S) (Bilingual Mailout/Mailback Questionnaire).

*Type of Review:* Regular.

*Affected Public:* Individuals, businesses or other for-profit organizations, non-profit institutions, and small businesses or organizations.

*Estimated Number of Respondents:* Approximately 200,000 housing units. Approximately 35,200 residents in Group Quarters. Approximately 800 residents in Service-Based Enumeration facilities.

*Estimated Time Per Response:* All questionnaires will require approximately 10 minutes for response.

*Estimated Total Annual Burden Hours:* Approximately 34,000 hours for the housing units that responded by mail or during Nonresponse Followup (plus a five percent reinterview of the estimated 105,000 Nonresponse Followup workload) and 6,000 hours for Group Quarters Enumeration and Service-Based Enumeration.

*Estimated Total Annual Cost:* There is no cost to respondents except for their time to respond.

*Respondent's Obligation:* Mandatory.

*Legal Authority:* Title 13 of the United States Code, sections 141 and 193.

#### IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: April 29, 2005.

**Madeleine Clayton,**

#### DEPARTMENT OF COMMERCE

##### Bureau of Industry and Security

##### Transportation and Related Equipment, Technical Advisory Committee; Notice of Open Meeting

The Transportation and Related Equipment Technical Advisory Committee will meet on May 18, 2005, 9:30 a.m., in the Herbert C. Hoover Building, Room 6087B, 14th Street between Pennsylvania & Constitution Avenues, NW., Washington, DC. The Committee advises the Office of the Assistant Secretary for Export Administration with respect to technical questions that affect the level of export controls applicable to transportation and related equipment or technology.

##### Agenda:

1. Opening remarks and introductions. Christiansen/Borman.
2. Identification of Duties and Election of TRANSTAC Chair.
3. Update on country-specific policies.
4. Update on policies and procedures.
5. Review of Wassenaar Arrangement and Technical Working Group issues.
6. Review of Missile Technology Control Regime Issues.
7. Update on Export Administration Regulations CCL Issues.
8. Update on status of US Munitions List Review.

9. Presentation of papers, proposals, and comments by the public.

10. Review of new and open action items.

The meeting will be open to the public and a limited number of seats will be available. Reservations are not accepted. To the extent time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting. However, to facilitate distribution of public presentation materials to Committee members, the Committee suggests that you forward your public presentation materials to Yvette Springer at [Yspringer@bis.doc.gov](mailto:Yspringer@bis.doc.gov).

For more information, call Ms. Springer on (202) 482-4814.

Dated: April 26, 2005.

#### DEPARTMENT OF COMMERCE

##### International Trade Administration

[C-475-825]

##### Stainless Steel Sheet and Strip in Coils From Italy: Final Results of the Full Sunset Review of the Countervailing Duty Order

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** On June 1, 2004, the Department of Commerce ("the Department") initiated a sunset review of the countervailing duty ("CVD") order on stainless steel sheet and strip in coils ("SSSS") from Italy pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). See *Initiation of Five-Year (Sunset) Reviews*, 69 FR 30874 (June 1, 2004). On the basis of a notice of intent to participate and an adequate substantive response filed on behalf of the interested parties, the Department conducted a full (240-day) sunset review. As a result of this review, the Department finds that revocation of the CVD order would likely lead to continuation or recurrence of subsidies at the levels indicated in the "Final Results of Review" section of this notice.

**EFFECTIVE DATE:** May 4, 2005.

**FOR FURTHER INFORMATION CONTACT:** Hilary Sadler, Esq., Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution

Avenue, NW., Washington, DC 20230; telephone: (202) 482-4340.

#### SUPPLEMENTARY INFORMATION:

##### Background

On June 1, 2004, the Department initiated a sunset review of the CVD order on SSSS from Italy pursuant to section 751(c) of the Act. See *Initiation of Five-Year (Sunset) Reviews*, 69 FR 30874 (June 1, 2004). On December 29, 2004, the Department published the preliminary results of the full sunset review of the CVD on SSSS from Italy. See *Notice of Preliminary Results of Full Sunset Review: Stainless Steel Sheet and Strip in Coils from Italy* ("preliminary sunset review results"), 69 FR 78091 (December 29, 2004) and the accompanying *Issues and Decision Memorandum for the Full Sunset Review of the Countervailing Duty Order on Stainless Steel Sheet and Strip in Coils from Italy: Preliminary Results* ("preliminary results decision memorandum") dated December 29, 2004.<sup>1</sup> In our preliminary sunset review results, we found that benefits from the following programs would likely continue or recur were the order revoked:

- (1) Law 675/77;
- (2) Law 451/94 Early Retirement Benefits; and
- (3) European Social Fund.

On February 8, 2005, the Department received a joint case brief from the Government of Italy (GOI) and the European Commission (EC). See *Case Brief from the EC and the GOI re: Sunset Review of the Countervailing Duty Order on Stainless Steel Sheet and Strip in Coils from Italy* (February 8, 2005) including separate GOI and EC Attachments. The Department also received a case brief from ThyssenKrupp Acciai Speciali Terni, S.p.A. ("TKAST") (formerly Acciai Speciali Terni, S.p.A.) in a timely manner. See *Case Brief from TKAST re: Stainless Steel Sheet and Strip in Coils from Italy* (Sunset) (February 8, 2005). The Department did not receive a case brief from the domestic interested parties but did receive a rebuttal brief to the case briefs submitted by the GOI, EC and TKAST. See *Rebuttal Brief from Petitioners re: Sunset Review of the Countervailing Duty Order on Stainless Steel Sheet and Strip in Coils from Italy* (February 14, 2005).

##### Scope of the Order

The product covered by this order is certain stainless steel sheet and strip in

<sup>1</sup> For a full discussion of the history of this order prior to the preliminary results of this sunset review, see the December 29, 2004 preliminary results decision memorandum.

coils. Stainless steel is an alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. The subject sheet and strip is a flat-rolled product in coils that is greater than 9.5 mm in width and less than 4.75 mm in thickness, and that is annealed or otherwise heat treated and pickled or otherwise descaled. The subject sheet and strip may also be further processed (e.g., cold-rolled, polished, aluminized, coated, etc.) provided that it maintains the specific dimensions of sheet and strip following such processing.

The merchandise subject to these orders is classified in the Harmonized Tariff Schedule of the United States ("HTSUS") at the following subheadings: 7219.13.00.30, 7219.13.00.50, 7219.13.00.70, 7219.13.00.80, 7219.14.00.30, 7219.14.00.65, 7219.14.00.90, 7219.32.00.05, 7219.32.00.20, 7219.32.00.25, 7219.32.00.35, 7219.32.00.36, 7219.32.00.38, 7219.32.00.42, 7219.32.00.44, 7219.33.00.05, 7219.33.00.20, 7219.33.00.25, 7219.33.00.35, 7219.33.00.36, 7219.33.00.38, 7219.33.00.42, 7219.33.00.44, 7219.34.00.05, 7219.34.00.20, 7219.34.00.25, 7219.34.00.30, 7219.34.00.35, 7219.35.00.05, 7219.35.00.15, 7219.35.00.30, 7219.35.00.35, 7219.90.00.10, 7219.90.00.20, 7219.90.00.25, 7219.90.00.60, 7219.90.00.80, 7220.12.10.00, 7220.12.50.00, 7220.20.10.10, 7220.20.10.15, 7220.20.10.60, 7220.20.10.80, 7220.20.60.05, 7220.20.60.10, 7220.20.60.15, 7220.20.60.60, 7220.20.60.80, 7220.20.70.05, 7220.20.70.10, 7220.20.70.15, 7220.20.70.60, 7220.20.70.80, 7220.20.80.00, 7220.20.90.30, 7220.20.90.60, 7220.90.00.10, 7220.90.00.15, 7220.90.00.60, and 7220.90.00.80. Although the HTSUS subheadings are provided for convenience and customs purposes, the Department's written description of the merchandise covered by these orders is dispositive.

Excluded from the scope of these orders are the following: (1) Sheet and strip that is not annealed or otherwise heat treated and pickled or otherwise descaled; (2) sheet and strip that is cut to length; (3) plate (i.e., flat-rolled stainless steel products of a thickness of 4.75 mm or more); (4) flat wire (i.e., cold-rolled sections, with a prepared edge, rectangular in shape, of a width of not more than 9.5 mm); and (5) razor blade steel. Razor blade steel is a flat-rolled product of stainless steel, not

further worked than cold-rolled (cold-reduced), in coils, of a width of not more than 23 mm and a thickness of 0.266 mm or less, containing, by weight, 12.5 to 14.5 percent chromium, and certified at the time of entry to be used in the manufacture of razor blades. See Chapter 72 of the HTSUS, "Additional U.S. Note" 1(d).

In response to comments by interested parties the Department has determined that certain specialty stainless steel products are also excluded from the scope of these orders. These excluded products are described below:

Flapper valve steel is defined as stainless steel strip in coils containing, by weight, between 0.37 and 0.43 percent carbon, between 1.15 and 1.35 percent molybdenum, and between 0.20 and 0.80 percent manganese. This steel also contains, by weight, phosphorus of 0.025 percent or less, silicon of between 0.20 and 0.50 percent, and sulfur of 0.020 percent or less. The product is manufactured by means of vacuum arc remelting, with inclusion controls for sulphide of no more than 0.04 percent and for oxide of no more than 0.05 percent. Flapper valve steel has a tensile strength of between 210 and 300 ksi, yield strength of between 170 and 270 ksi, plus or minus 8 ksi, and a hardness (Hv) of between 460 and 590. Flapper valve steel is most commonly used to produce specialty flapper valves in compressors.

Also excluded is a product referred to as suspension foil, a specialty steel product used in the manufacture of suspension assemblies for computer disk drives. Suspension foil is described as 302/304 grade or 202 grade stainless steel of a thickness between 14 and 127 microns, with a thickness tolerance of plus-or-minus 2.01 microns, and surface glossiness of 200 to 700 percent Gs. Suspension foil must be supplied in coil widths of not more than 407 mm and with a mass of 225 kg or less. Roll marks may only be visible on one side, with no scratches of measurable depth. The material must exhibit residual stresses of 2 mm maximum deflection and flatness of 1.6 mm over 685 mm length.

Certain stainless steel foil for automotive catalytic converters is also excluded from the scope of these orders. The stainless strip in coils is a specialty foil with a thickness of between 20 and 110 microns used to produce a metallic substrate with a honeycomb structure for use in automotive catalytic converters. The steel contains, by weight, carbon of no more than 0.030 percent, silicon of no more than 1.0 percent, manganese of no more than 1.0 percent, chromium of between 19 and 22 percent, aluminum of no less than

5.0 percent, phosphorus of no more than 0.045 percent, sulfur of no more than 0.03 percent, lanthanum of less than 0.002 or greater than 0.05 percent, and total rare earth elements of more than 0.06 percent, with the balance iron.

Permanent magnet iron-chromium-cobalt alloy stainless strip is also excluded from the scope of these orders. This ductile stainless steel strip contains, by weight, 26 to 30 percent chromium and 7 to 10 percent cobalt, with the remainder of iron, in widths 228.6 mm or less, and a thickness between 0.127 and 1.270 mm. It exhibits magnetic remanence between 9,000 and 12,000 gauss, and a coercivity of between 50 and 300 oersteds. This product is most commonly used in electronic sensors and is currently available under proprietary trade names such as "Arnokrome III."<sup>2</sup>

Certain electrical resistance alloy steel is also excluded from the scope of these orders. This product is defined as a non-magnetic stainless steel manufactured to American Society of Testing and Materials (ASTM) specification B344 and containing, by weight, 36 percent nickel, 18 percent chromium, and 46 percent iron, and is most notable for its resistance to high-temperature corrosion. It has a melting point of 1390 degrees Celsius and displays a creep rupture limit of 4 kilograms per square millimeter at 1000 degrees Celsius. This steel is most commonly used in the production of heating ribbons for circuit breakers and industrial furnaces, and in rheostats for railway locomotives. This product is currently available under proprietary trade names, such as "Gilphy 36."<sup>3</sup>

Certain martensitic precipitation-hardenable stainless steel is also excluded from the scope of these orders. This high-strength, ductile stainless steel product is designated under the Unified Numbering System (UNS) as S45500-grade steel, and contains, by weight, 11 to 13 percent chromium and 7 to 10 percent nickel. Carbon, manganese, silicon and molybdenum each comprise, by weight, 0.05 percent or less, with phosphorus and sulfur each comprising, by weight, 0.03 percent or less. This steel has copper, niobium, and titanium added to achieve aging and will exhibit yield strengths as high as 1700 Mpa and ultimate tensile strengths as high as 1750 Mpa after aging, with elongation percentages of 3 percent or less in 50 mm. It is generally provided in thicknesses between 0.635 and 0.787 mm, and in widths of 25.4

<sup>2</sup>"Arnokrome III" is a trademark of the Arnold Engineering.

<sup>3</sup>"Gilphy 36" is a trademark of Imphy, S.A.

mm. This product is most commonly used in the manufacture of television tubes is currently available under proprietary trade names, such as "Durphynox 17."<sup>4</sup>

Finally, three specialty stainless steels typically used in certain industrial blades and surgical and medical instruments are also excluded from the scope of these orders. These include stainless steel strip in coils used in the production of textile cutting tools (e.g., carpet knives).<sup>5</sup> This steel is similar to AISI grade 420 but containing, by weight, 0.5 to 0.7 percent of molybdenum. The steel also contains, by weight, carbon of between 1.0 and 1.1 percent, sulfur of 0.020 percent or less, and includes between 0.20 and 0.30 percent copper and between 0.20 and 0.50 percent cobalt. This steel is sold under proprietary names, such as "GIN4 Mo." The second excluded stainless steel strip in coils is similar to AISI 420-J2 and contains, by weight, carbon of between 0.62 and 0.70 percent, silicon of between 0.20 and 0.50 percent, manganese of between 0.45 and 0.80 percent, phosphorus of no more than 0.025 percent, and sulfur of no more than 0.020 percent. This steel has a carbide density on average of 100 carbide particles per 100 square microns. An example of this product is "GIN5" steel. The third specialty steel has a chemical composition similar to AISI 420 F, with carbon of between 0.37 and 0.43 percent, molybdenum of between 1.15 and 1.35 percent, but lower manganese of between 0.20 and 0.80 percent, phosphorus of no more than 0.025 percent, silicon of between 0.20 and 0.50 percent, and sulfur of no more than 0.020 percent. This product is supplied with a hardness of more than Hv 500 guaranteed after customer processing, and is supplied as, for example, "GIN6", "GIN4 Mo.", "GIN5" and "GIN6" are the proprietary grades of Hitachi Metals America, Ltd.

#### Analysis of Comments Received

All issues raised in this review are addressed in the Issues and Decision Memorandum ("Decision Memorandum") from Ronald K. Lorentzen, Acting director, Office of Policy, Import Administration, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated April 27, 2005, which is hereby adopted by this notice. The issues discussed in the accompanying Decision Memorandum include the likelihood of continuation or recurrence of countervailable

subsidies and the net countervailable subsidy likely to prevail were the order revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in the Central Records Unit, room B-099, of the main Commerce building. In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading "May 2005." The paper copy and electronic version of the Decision Memorandum are identical in content.

#### Final Results of Review

We determine that revocation of the countervailing duty order on SSSS from Italy would be likely to lead to continuation or recurrence of countervailable subsidies at the rate listed below:

| Producer/exporters | Net countervailable subsidy (percent) |
|--------------------|---------------------------------------|
| TKAST .....        | 0.73                                  |
| Arinox .....       | <i>de minimis</i> .                   |
| All Others .....   | 0.73                                  |

#### Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: April 27, 2005.

**Barbara E. Tillman,**

*Acting Assistant Secretary for Import Administration.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[I.D. 031005A]

#### Magnuson-Stevens Act Provisions; Fisheries of the Northeastern United States; Northeast Multispecies Fishery; 2005 Georges Bank Cod Hook Sector Operations Plan and Agreement and Allocation of Georges Bank Cod Total Allowable Catch

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of approval of hook sector operations plan and allocation of Georges Bank cod total allowable catch.

**SUMMARY:** NMFS announces approval of an Operations Plan and Sector Contract titled "Amendment 1 to Georges Bank (GB) Cod Hook Sector Operations Plan and Agreement" (Sector Agreement), and the associated allocation of GB cod, consistent with regulations implementing Amendment 13 to the Northeast (NE) Multispecies Fishery Management Plan (FMP). The intent is to allow regulated harvest of groundfish by the GB cod Hook Sector (Sector), consistent with the objectives of the FMP.

**ADDRESSES:** Copies of the Sector Operations Plan and the environmental assessment (EA) are available upon request from the NE Regional Office at the following mailing address: George H. Darcy, Assistant Regional Administrator for Sustainable Fisheries, NMFS, Northeast Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. These documents may also be requested by calling (978) 281-9315.

**FOR FURTHER INFORMATION CONTACT:** Thomas Warren, Fishery Policy Analyst, phone (978) 281-9347, fax (978) 281-9135, e-mail [Thomas.Warren@NOAA.gov](mailto:Thomas.Warren@NOAA.gov).

**SUPPLEMENTARY INFORMATION:** The final rule implementing Amendment 13 (69 FR 22906, April 27, 2004) specified a process for the formation of sectors within the NE multispecies fishery and the allocation of total allowable catch (TAC) for a specific groundfish species (or Days-at-Sea (DAS)), implemented restrictions that apply to all sectors, authorized the Sector, established the GB Cod Hook Sector Area (Sector Area), and specified a formula for the allocation of GB cod TAC to the Sector. The Sector was authorized for fishing year (FY) 2004 and, based upon the hook gear landings history of its 58

<sup>4</sup> "Durphynox 17" is a trademark of Imply, S.A.

<sup>5</sup> This list of uses is illustrative and provided for descriptive purposes only.

members, was allocated 371 mt of cod, which represented 12.587 percent of the total 2004 GB cod TAC.

NMFS provided interested parties an opportunity to comment on the Sector Agreement proposed for the 2005 fishing year through notification published in the **Federal Register** on April 1, 2005 (70 FR 16804); additional background and details of the Sector Agreement are contained in that notification and are not repeated here. No comments from the public were received.

After consideration of the proposed Sector Agreement, which contains the Sector Contract and Operations Plan, NMFS has concluded that the Sector Agreement is consistent with the goals of the FMP and other applicable law and is in compliance with the regulations governing the development and operation of a sector as specified under 50 CFR 648.87.

There are 49 members of the approved Sector. The calculation of GB cod TAC for the Sector was based upon historic GB landings under the following two regulatory scenarios: (1) The current regulations, as implemented by Amendment 13, that restrict GB cod landings to only hook gear; and (2) based upon the proposed Framework Adjustment 40-B (currently under review by the NMFS) that, if approved, would not restrict GB cod landings to certain gear types. The allocation percentages were calculated by dividing the sum of GB cod landings by Sector members for the FYs 1996 through 2001 by the sum of the accumulated landings of GB cod harvested by all NE multispecies vessels for same time period (113,278,842 lb or 51,383 mt) for each of the two regulatory scenarios described above. The resulting numbers are 10.79 percent and 11.12 percent for the two methods, respectively. Based upon the 49 Sector members, the Sector TAC of GB cod for FY 2005 is 441 mt, and would be 455 mt, upon approval of FW 40-B.

Letters of Authorization will be issued to members of the Sector exempting them, conditional upon their compliance with the Sector Agreement, from the requirements of the Gulf of Maine trip limit exemption program, limits on the number of hooks, and the GB Seasonal Closure Area, as specified in §§ 648.86(b), 648.80(a)(4)(v), and 648.81(g), respectively.

#### Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

### National Oceanic and Atmospheric Administration

[042705A]

#### U.S. Climate Change Science Program Workshop: Climate Science in Support of Decisionmaking

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

**ACTION:** Notice, public workshop and opportunity for public discussion.

**SUMMARY:** The National Oceanic and Atmospheric Administration publishes this notice to announce the U.S. Climate Change Science Program (CCSP) Workshop: Climate Science in Support of Decisionmaking, addressing the capability of science to inform decisionmaking. This workshop will include discussion of decisionmaker needs for scientific information on climate variability and change, as well as expected outcomes of CCSP's research and assessment activities that are necessary for resource management, adaptive planning, and policy formulation.

**DATES:** The workshop will be held Monday, November 14, 2005, from 8:30 a.m. to 5:30 p.m., Tuesday, November 15, 2005, from 8:30 a.m. to 5:30 p.m., and Wednesday, November 16, 2005, from 8:30 a.m. to noon.

**ADDRESSES:** The workshop will be held at the Marriott Crystal Gateway, 1700 Jefferson Davis Highway in Arlington, VA.

**FOR FURTHER INFORMATION CONTACT:** Sandy MacCracken, Telephone: 202-223 6262, Fax: 202 223 3065, Email: [smaccrac@usgcrp.gov](mailto:smaccrac@usgcrp.gov).

**SUPPLEMENTARY INFORMATION:** The Climate Change Science Program, sponsored by 13 participating departments and agencies of the U.S. Government, coordinates and integrates scientific research on changes in climate and related systems. The CCSP Strategic Plan emphasizes the application of knowledge from CCSP to develop, improve, and disseminate products for use in decisionmaking related to climate variability and change. Many CCSP programs and activities address these needs-for example, the use of

observations and seasonal-to-interannual climate forecasts in the management of natural resources, or application of scientific knowledge in integrated assessments of global change.

The CCSP Strategic Plan calls for the development of 21 Synthesis and Assessment products that provide current evaluations of climate science issues, complementing other international assessments such as that prepared by the Intergovernmental Panel on Climate Change (IPCC). To maximize the effectiveness of all CCSP products, it is vital that these products account for the science information needs of their users. The workshop will be an opportunity for scientists and user communities to discuss future application and development of climate science, recognizing the multiple ways in which climate information will be utilized to address societal and scientific challenges.

**Status:** *The times above may be subject to change. Refer to the website listed below for a final meeting agenda.* Participation will be limited to the first 800 registrants. Webcast of the proceedings may be arranged if demand for participation exceeds this limit. Early registration is strongly encouraged. A registration form and other logistical information, including fees, are available at: <http://www.climatescience.gov/workshop2005>.

The workshop will include both plenary and breakout sessions. The plenary sessions will include presentations by leading figures from the international scientific community and the government, NGO, and private sectors. The breakout sessions will foster interactions among those involved in producing CCSP decision support resources, and representatives of the scientific, resource management, policy development, and other stakeholder communities. Abstracts for contributed presentations at the workshop that focus on development of scientific resources for decisionmaking are encouraged. Instructions on how to submit abstracts will be posted by June 1, 2005 at: [www.climatescience.gov/workshop2005/contribpres.htm](http://www.climatescience.gov/workshop2005/contribpres.htm).

Dated: April 28, 2005.

**James R. Mahoney,**

*Assistant Secretary of Commerce for Oceans and Atmosphere, Director, Climate Change Science Program.*

## National Oceanic and Atmospheric Administration

[I.D. 042905A]

## New England Fishery Management Council; Public Meetings

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce

**ACTION:** Notice of public meetings.

**SUMMARY:** The New England Fishery Management Council (Council) is scheduling a public meeting of its Groundfish Oversight Committee in May, 2005. Recommendations from the committee will be brought to the full Council for formal consideration and action, if appropriate.

**DATES:** The 2-day meeting will be held on May 23, 2005, at 9:30 a.m. and May 24, 2005, at 8:30 a.m.

**ADDRESSES:** The meeting will be held at the Holiday Inn, 31 Hampshire Street, Mansfield, MA 02048; telephone: (508) 339-2200.

**FOR FURTHER INFORMATION CONTACT:** Paul J. Howard, Executive Director, New England Fishery Management Council (978) 465-0492. Requests for special accommodations should be addressed to the New England Fishery Management Council, 50 Water Street, Newburyport, MA 01950; telephone: (978) 465-0492.

**SUPPLEMENTARY INFORMATION:** The Groundfish Oversight Committee will hold a 2-day meeting to identify measures for the biennial adjustment to the Northeast Multispecies Fishery Management Plan. The schedule for this meeting is shown below. Members of the public are cautioned that the Committee may deviate from this schedule, if necessary, in order to complete its work. While the Committee will make every effort to adhere to the agenda, topics may be discussed at different times, or on different days, than planned.

Tentatively identified as Framework Adjustment 42, the biennial adjustment will consider a number of groundfish management issues, including any changes to measures necessary to achieve Amendment 13 mortality objectives, revisions to existing Special Access Programs (SAPs), a review of the days-at-sea (DAS) leasing program, a review of the Category B (regular) DAS Pilot Projects, and other issues. The Council will review Committee recommendations at an initial framework meeting that will be held at the June 21-23, 2005 Council meeting.

Final decisions by the Council will take place at the November 15-17, 2005 Council meeting. If approved, management measures are scheduled to be implemented on May 1, 2006.

*Monday, May 23, 2005:* Modifications to existing SAPs (such as changing the time, error, or haddock catch in the Closed Area I Hook Gear Haddock SAP, changing measures in the Eastern US/CA Haddock SAP and the Closed Area II yellowtail flounder SAP, etc.), options for the DAS leasing program, receipt of a report on the recently held meetings to address safety in the groundfish fishery, and review of draft management measures already approved by the Council for inclusion in this action.

*Tuesday, May 24, 2005:* Consideration of options for addressing the concern that vessels fishing with handgear while using DAS could not meet the qualification criteria for DAS allocations under Amendment 13, recommendations to reduce bycatch of haddock, a proposal for a gillnet sector, and a preliminary review of landings statistics for calendar and fishing year 2005 (if available).

Other business may be discussed by the Committee if time is available.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

## Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting dates.

Dated: April 29, 2005.

**Peter H. Fricke,**

## Patent Examiner Employment Application—Job Application Rating System (JARS) (Formerly Electronic Application for Patent Examiners—Job Application Rating System (JARS))

**ACTION:** Proposed collection; comment request.

**SUMMARY:** The United States Patent and Trademark Office (USPTO), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on the submission of an extension of a currently approved collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

**DATES:** Written comments must be submitted on or before July 5, 2005.

**ADDRESSES:** You may submit comments by any of the following methods:

- E-mail: [Susan.Brown@uspto.gov](mailto:Susan.Brown@uspto.gov). Include "0651-0042 comment" in the subject line of the message.
- Fax: 571-273-0221; marked to the attention of Susan Brown.
- Mail: Susan K. Brown, Records Officer, Office of the Chief Information Officer, Office of Data Architecture and Services, Data Administration Division, U.S. Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information should be directed to the attention of Theresa Hall, Supervisor, Patent Branch, Office of Human Resources, U.S. Patent and Trademark Office (USPTO), Alexandria, VA 22314; by telephone at 571-272-6144; or by e-mail to [Theresa.Hall@uspto.gov](mailto:Theresa.Hall@uspto.gov).

**SUPPLEMENTARY INFORMATION:**

## I. Abstract

The Job Application Rating System (JARS) is a system by which the USPTO can rapidly review applications for employment of entry-level patent examiners. The Office of Human Resources (OHR), armed with a recommendation from a Supervisory Patent Examiner (SPE) can, in turn, rapidly make an offer of employment and support hiring actions with necessary administrative action. Over the past three fiscal years, JARS has enabled the Patent Corps to hire more than 1,600 entry-level patent examiners.

Since the inception of JARS, upgrades have increased the flexibility of the system and the speed and ease with which the Office of Human Resources can support hiring recommendations.

Specifically, JARS allows applicants to update personal information without submitting a new application. Additional form letters and reports are available, date tracking of previous employment is significantly improved; and status tracking improvements enable users to tell who has previously updated the record and when. Future enhancements will allow JARS to collect demographic data, upgrade the Windows server from 2000 to 2003, migrate JARS to a J2EE environment, perform pre-employment testing, provide integration with Recruitment One-Stop (e-Government Initiative), and allow for category ranking. The above upgrades to JARS will begin in FY 05 and extend to FY 07. These enhancements and upgrades will increase and improve the capabilities of the JARS system.

In the current employment environment, information technology professionals and engineering graduates are in great demand. The USPTO is in direct competition with private industry for the same caliber of candidates with the requisite knowledge and skills to perform patent examination work. Consequently, it is imperative that every available technology be employed if the USPTO is to remain competitive, meet the hiring goal, and fulfill the agency's congressional commitment to reduce the pendency rate for the examination of patent applications. The information supplied to the USPTO by an applicant seeking a patent examiner position with the USPTO assists the Human Resources Specialists and hiring managers in determining whether an applicant possesses the basic qualification requirements for the patent examiner position.

JARS provides the USPTO a user-friendly on-line employment application process for applicants and enables the USPTO to process hiring actions in an efficient and timely manner. The on-line application provides an electronic real-time candidate inventory that allows the USPTO to review applications from potential applicants almost instantaneously. Given the immediate hiring need of the Patent Examining Corps, time consumed in the mail distribution system or paper review of applications delays the decision-making process by several weeks. The JARS system results in increased speed and accuracy in the employment process, in addition to streamlining labor and reducing costs.

The use of the JARS on-line application fully complies with 5 U.S.C. 2301, which requires adequate public notice to assure open competition by guaranteeing that necessary employment information will be accessible and available to the public on inquiry. The JARS on-line application is fully compliant with Section 508 (29 U.S.C. 794(d)), which requires agencies to provide disabled employees and members of the public access to information that is comparable to the access available to others.

Since the JARS on-line application is used as an alternative form of employment application, the collection and use of the information requires OMB approval as outlined in Section 5.1 of the Delegated Examining Operations Handbook. The Handbook provides guidance to agencies under a delegated examining authority by the Office of Personnel Management (OPM),

under the provisions of Title 5, U.S. Code, Chapter 11, Section 1104.

## II. Method of Collection

The application information is collected electronically from the applicant. The application form may be completed on-line and then transmitted to the USPTO electronically, via the Internet. For those applicants who do not have access to a personal computer, applications are available in the Personnel Office at the USPTO, or the applicant can go to the local library to complete an application.

## III. Data

OMB Number: 0651-0042.

Form Number(s): PTO-2041.

Type of Review: Extension of a currently approved collection.

Affected Public: Individuals or households; farms; the Federal Government; and State, local or tribal governments.

Estimated Number of Respondents: 7,000 responses per year.

Estimated Time Per Response: The USPTO estimates that it will take the public approximately 30 minutes to complete the employment application, depending upon the situation. There is one form associated with this information collection, Form PTO-2041.

Estimated Total Annual Respondent Burden Hours: 3,500 hours per year.

Estimated Total Annual Respondent Cost Burden: \$110,250. Using the median hourly rate for scientists and engineers of \$31.50, according to the Bureau of Labor Statistics, the USPTO estimates \$110,250 per year for salary costs associated with respondents. This is a fully loaded rate.

| Item   | Estimated time for response | Estimated annual responses | Estimated annual burden hours |
|--|-----------------------------|----------------------------|-------------------------------|
| Patent Examiner Employment Application ..... | 30 minutes ..               | 7,000                      | 3,500                         |
| Total .....                                  | .....                       | 7,000                      | 3,500                         |

Estimated Total Annual (Non-hour) Respondent Cost Burden: \$4,200. There are no capital start-up, maintenance, or record keeping costs, as well as no filing fees associated with this information collection. However, this collection does have annual (non-hour) costs in the form of postage costs.

Not every applicant can supply all of the required information electronically. For example, in order to apply for a patent examiner position, the applicant must possess a minimum of a bachelor degree. A resume and an official college

or university transcript must be submitted separately with this application and mailed to the USPTO. The college or university transcript must be an official/original copy and include the university stamp or seal. When responding to the veteran's preference claim field, additional information may be required. The applicant may be required to submit Form DD214 or SF-15, which must be completed separately and either mailed, faxed or delivered to the USPTO. The OF-306 (Declaration of Federal

Employment) and the SF-85 (Security Background Information) must be printed, signed and dated, and provided to the USPTO via mail prior to reporting for duty. These additional required documents may be submitted to the USPTO by first-class mail through the United States Postal Service. The USPTO estimates that the average first-class postage is 60 cents. Therefore, the USPTO estimates that it will receive 7,000 responses to the JARS on-line application per year, for a total cost of

\$4,200 (7,000 × \$0.60 = \$4,200) in postage fees.

#### IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they will also become a matter of public record.

Dated: April 27, 2005.

Susan K. Brown,

*Records Officer, USPTO, Office of the Chief Information Officer, Office of Data Architecture and Services, Data Administration Division.*

BILLING CODE 3510-16-P

#### COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

##### Solicitation of Public Comments on Request for Textile and Apparel Safeguard Action on Imports from China

April 28, 2005.

**AGENCY:** The Committee for the Implementation of Textile Agreements (the Committee)

**ACTION:** Solicitation of public comments concerning a request for safeguard action on imports from China of men's and boys' cotton and man-made fiber shirts, not knit (Category 340/640).

**SUMMARY:** On April 6, 2005, the Committee received a request from the American Manufacturing Trade Action Coalition, the National Council of Textile Organizations, the National Textile Association, and UNITE HERE requesting that the Committee limit imports from China of men's and boys' cotton and man-made fiber shirts, not knit (Category 340/640). They request that a textile and apparel safeguard action, as provided for in the Report of the Working Party on the Accession of

China to the World Trade Organization (the Accession Agreement), be taken on imports of such shirts. The Committee hereby solicits public comments on this request, in particular with regard to whether imports from China of such shirts are, due to market disruption, threatening to impede the orderly development of trade in this product. Comments must be submitted by June 3, 2005 to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, United States Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC 20230.

**FOR FURTHER INFORMATION CONTACT:** Jay Dowling, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4058.

#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agriculture Act of 1956, as amended; Executive Order 11651, as amended.

#### BACKGROUND:

The Report of the Working Party on the Accession of China to the World Trade Organization (Accession Agreement) provides that, if a WTO Member, such as the United States, believes that imports of Chinese origin textile and apparel products are, "due to market disruption, threatening to impede the orderly development of trade in these products", it may request consultations with China with a view to easing or avoiding the disruption. Pursuant to this provision, if the United States requests consultations with China, it must, at the time of the request, provide China with a detailed factual statement showing (1) the existence or threat of market disruption; and (2) the role of products of Chinese origin in that disruption. Beginning on the date that it receives such a request, China must restrict its shipments to the United States to a level no greater than 7.5 percent (6 percent for wool product categories) above the amount entered during the first 12 months of the most recent 14 months preceding the month in which the request was made.

On April 6, 2005, the Committee received a request that an Accession Agreement textile and apparel safeguard action be taken on imports from China of men's and boys' cotton and man-made fiber shirts, not knit (Category 340/640). The Committee has determined that this request provides the information necessary for the Committee to consider the request in light of the considerations set forth in the Procedures. In this case, the Committee notes that imports from China of men's and boys' cotton and

man-made fiber shirts, not knit (Category 340/640) have increased from 500,713 dozen in the first quarter of 2004 to 1,925,762 dozen in the first quarter of 2005 (includes preliminary data for 2005). The text of the request is reproduced in full below.

The Committee is soliciting public comments on this request, in particular with regard to whether imports from China of such shirts are, due to market disruption, threatening to impede the orderly development of trade in this product.

Comments may be submitted by any interested person. Comments must be received no later than June 3, 2005. Interested persons are invited to submit ten copies of such comments to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, U.S. Department of Commerce, 14th and Constitution Avenue N.W., Washington, DC 20230.

If a comment alleges that there is no market disruption or that the subject imports are not the cause of market disruption, the Committee will closely review any supporting information and documentation, such as information about domestic production or prices of like or directly competitive products. Particular consideration will be given to comments representing the views of actual producers in the United States of a like or directly competitive product.

The Committee will protect any business confidential information that is marked "business confidential" from disclosure to the full extent permitted by law. To the extent that business confidential information is provided, two copies of a non-confidential version must also be provided in which business confidential information is summarized or, if necessary, deleted. Comments received, with the exception of information marked "business confidential", will be available for inspection between Monday - Friday, 8:30 a.m and 5:30 p.m in the Trade Reference and Assistance Center Help Desk, Suite 800M, USA Trade Information Center, Ronald Reagan Building, 1300 Pennsylvania Avenue, NW, Washington, DC, (202) 482-3433.

The Committee expects to make a determination within 60 calendar days of the close of the comment period as to whether the United States will request consultations with China. If, however, the Committee is unable to make a determination within 60 calendar days, it will cause to be published a notice in the **Federal Register**, including the date by which it will make a determination. If the Committee makes a negative determination, it will cause this

determination and the reasons therefore to be published in the *Federal Register*. If the Committee makes an affirmative determination that imports of Chinese origin men's and boys' cotton and man-made fiber shirts, not knit are, due to

market disruption, threatening to impede the orderly development of trade in these products, the United States will request consultations with China with a view to easing or avoiding such market disruption in accordance

with the Accession Agreement and the Committee's procedures.

**D. Michael Hutchinson,**  
*Acting Chairman, Committee for the  
Implementation of Textile Agreements.*  
BILLING CODE 3510-DS-S

April 6, 2005

James Leonard  
Chairman, Committee for the Implementation of Textile Agreements  
Room H3100  
U.S. Department of Commerce  
14<sup>th</sup> and Constitution Avenue, N.W.  
Washington, D.C. 20230

Dear Mr. Leonard:

The American Manufacturing Trade Action Coalition (AMTAC) National Council of Textile Organizations (NCTO), National Textile Association (NTA), and United HERE! request that the Committee for the Implementation of Textile Agreements (CITA) take the necessary actions to impose a safeguard on U.S. imports from China of cotton and man-made fiber men's and boys' shirts, not knit, classified within Category 340/640 of the U.S. Textile and Apparel Category System. This request is made pursuant to the guidelines issued by CITA (68 F.R. 27788, May 21, 2003).

The parties submitting this request are trade associations and unions which are representative of either domestic producers of products like or directly competitive with cotton and man-made fiber men's and boys' shirts, not knit, in Category 340/640 or of domestic producers of components used in the production of products that are like or directly competitive with those contained in Category 340/640.

For your background information, descriptions of each organization are as follows:

AMTAC is a not-for-profit manufacturing trade association established for the purpose of preserving and creating American manufacturing jobs through the establishment of trade policy and other measures necessary for the U.S. manufacturing sector to stabilize and grow. Its members are involved in a wide variety of manufacturing, including textiles, throughout the United States. AMTAC's office is in Washington, D.C.  
[www.amtac.org](http://www.amtac.org)

NCTO is a not-for-profit trade association established to represent the entire spectrum of the United States textile sector, from fibers to yarns to fabrics, to finished products, as well as suppliers in the textile machinery, chemical and other such sectors which have a stake in the prosperity and survival of the U.S. textile sector. Its headquarters are in Washington, D.C., and it also maintains an office in Gastonia, North Carolina.  
[www.ncto.org](http://www.ncto.org)

NTA is a not-for-profit trade association of companies who knit or weave fabrics in the United States, dye, print or otherwise finish fabrics in the United States, or supply fibers, yarns, or other services to the American textile industry. NTA's office is in Boston, Massachusetts. [www.nationaltextile.org](http://www.nationaltextile.org)

Unite HERE! was formed by merger in 2004 of UNITE (formerly the Union of Needletrades, Textiles and Industrial Employees) and HERE (Hotel Employees and Restaurant Employees International Union). The Union UNITE HERE represents more than 440,000 active members and more than 400,000 retirees throughout North America. UNITE HERE's headquarters are in New York, New York. [www.unitehere.org](http://www.unitehere.org)

It is the strong view of the petitioners that the surge in first quarter 2005 imports from China of cotton and man-made fiber men's and boys' shirts, not knit compounded with the long-term decline in U.S. production of these products constitutes market disruption under section 11.242 of the Report of the Working Party on the Accession of China to the World Trade Organization (WTO). This rise in imports and corresponding long-term decline in domestic production has produced a steady downward trend in the domestic market share for these products according to the I/P Book published by the Office of Textiles and Apparel, International Trade Administration, U.S. Department of Commerce (OTEXA).

In recent years, U.S. apparel production has declined in virtually all of the major cotton and man-made fiber categories. The petitioners assert that this decline has been the direct result of increasing imports far surpassing the growth in the U.S. market for these products. With the January 1, 2005 removal of quotas on all WTO members, imports are rising across the board, and the surge in first quarter 2005 imports from China is disrupting the market.

CITA is well aware of the circumstances following the integration of certain categories on January 1, 2002, in which China registered enormous increases and quickly moved to dominate trade. Following the same track, U.S. imports of cotton and man-made fiber men's and boys' shirts, not knit, from China skyrocketed 284 percent in the first quarter of 2005. China was the fourth largest supplier behind Bangladesh, South Korea, and India with a 5.7 percent share of the U.S. import market for calendar year 2004. For the year ending March 2005, Chinese market share rose to 8.5 percent, with China still in fourth place. A look at the first quarter 2005 alone shows China rose to the number one supplier with a 15 percent share, followed by Bangladesh with 13.8 percent, India with 10.5 percent, and South Korea with 7.7 percent of total imports of these products.

Sharp price reductions are likely a major element in the sudden surge of Chinese imports with the removal of quotas and corresponding quota costs. A review of recent price data indicates that China's January 2005 prices for cotton and man-made fiber men's and boys' shirts, not knit, averaged \$53/dozen. This average unit value is 16 percent below the price in January 2004 of \$63/dozen and 18 percent below the calendar year 2004 average price of \$65/dozen. As with the surging import numbers, the large and instantaneous price drops China demonstrate so far in 2005 again follow the pattern established in 2002 with the removal of certain items from quota. In those categories integrated in 2002, China dropped its prices by an average of 58 percent.

In sum, surging low-priced imports from China and declining domestic production are clearly disrupting the U.S. market in Category 340/640. The language on safeguards in

the U.S./China Protocol of Accession is based on language in the Multi-Fiber Agreement (MFA) and the WTO's Agreement on Textiles and Clothing (ATC). Both of those international agreements contained language providing for immediate action in the event of highly unusual and critical circumstances. We believe that current circumstances are such that prompt action is necessary irrespective of the timelines in the CITA procedures.

Thank you for your consideration of this important matter.

Sincerely,

Auggie Tantillo

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### Solicitation of Public Comments on Request for Textile and Apparel Safeguard Action on Imports from China

April 28, 2005.

**AGENCY:** The Committee for the Implementation of Textile Agreements (the Committee)

**ACTION:** Solicitation of public comments concerning a request for safeguard action on imports from China of cotton and man-made fiber sweaters (Category 345/645/646).

**SUMMARY:** On April 6, 2005, the Committee received a request from the American Manufacturing Trade Action Coalition, the National Council of Textile Organizations, the National Textile Association, and UNITE HERE requesting that the Committee limit imports from China of cotton and man-made fiber sweaters (Category 345/645/646). They request that a textile and apparel safeguard action, as provided for in the Report of the Working Party on the Accession of China to the World Trade Organization (the Accession Agreement), be taken on imports of such sweaters. The Committee hereby solicits public comments on this request, in particular with regard to whether imports from China of such sweaters are, due to market disruption, threatening to impede the orderly development of trade in this product. Comments must be submitted by June 3, 2005 to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, United States Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

**FOR FURTHER INFORMATION CONTACT:** Jay Dowling, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4058.

#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agriculture Act of 1956, as amended; Executive Order 11651, as amended.

#### BACKGROUND:

The Report of the Working Party on the Accession of China to the World

Trade Organization (Accession Agreement) provides that, if a WTO Member, such as the United States, believes that imports of Chinese origin textile and apparel products are, "due to market disruption, threatening to impede the orderly development of trade in these products", it may request consultations with China with a view to easing or avoiding the disruption. Pursuant to this provision, if the United States requests consultations with China, it must, at the time of the request, provide China with a detailed factual statement showing (1) the existence or threat of market disruption; and (2) the role of products of Chinese origin in that disruption. Beginning on the date that it receives such a request, China must restrict its shipments to the United States to a level no greater than 7.5 percent (6 percent for wool product categories) above the amount entered during the first 12 months of the most recent 14 months preceding the month in which the request was made.

On April 6, 2005, the Committee received a request that an Accession Agreement textile and apparel safeguard action be taken on imports from China of cotton and man-made fiber sweaters (Category 345/645/646). The Committee has determined that this request provides the information necessary for the Committee to consider the request in light of the considerations set forth in the Procedures. In this case, the Committee notes that imports from China of cotton and man-made fiber sweaters (Category 345/645/646) have increased from 134,828 dozen in the first quarter of 2004 to 383,314 dozen in the first quarter of 2005 (includes preliminary data for 2005). The text of the request is reproduced in full below.

The Committee is soliciting public comments on this request, in particular with regard to whether imports from China of such sweaters are, due to market disruption, threatening to impede the orderly development of trade in this product.

Comments may be submitted by any interested person. Comments must be received no later than June 3, 2005. Interested persons are invited to submit ten copies of such comments to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, U.S. Department of Commerce, 14th and Constitution Avenue N.W., Washington, DC 20230.

If a comment alleges that there is no market disruption or that the subject

imports are not the cause of market disruption, the Committee will closely review any supporting information and documentation, such as information about domestic production or prices of like or directly competitive products. Particular consideration will be given to comments representing the views of actual producers in the United States of a like or directly competitive product.

The Committee will protect any business confidential information that is marked "business confidential" from disclosure to the full extent permitted by law. To the extent that business confidential information is provided, two copies of a non-confidential version must also be provided in which business confidential information is summarized or, if necessary, deleted. Comments received, with the exception of information marked "business confidential", will be available for inspection between Monday - Friday, 8:30 a.m and 5:30 p.m in the Trade Reference and Assistance Center Help Desk, Suite 800M, USA Trade Information Center, Ronald Reagan Building, 1300 Pennsylvania Avenue, NW, Washington, DC, (202) 482-3433.

The Committee expects to make a determination within 60 calendar days of the close of the comment period as to whether the United States will request consultations with China. If, however, the Committee is unable to make a determination within 60 calendar days, it will cause to be published a notice in the **Federal Register**, including the date by which it will make a determination. If the Committee makes a negative determination, it will cause this determination and the reasons therefore to be published in the **Federal Register**. If the Committee makes an affirmative determination that imports of Chinese origin cotton and man-made fiber sweaters are, due to market disruption, threatening to impede the orderly development of trade in these products, the United States will request consultations with China with a view to easing or avoiding such market disruption in accordance with the Accession Agreement and the Committee's procedures.

#### D. Michael Hutchinson,

*Acting Chairman, Committee for the  
Implementation of Textile Agreements.*

BILLING CODE 3510-DS-S

April 6, 2005

James Leonard  
Chairman, Committee for the Implementation of Textile Agreements  
Room H3100  
U.S. Department of Commerce  
14<sup>th</sup> and Constitution Ave, NW  
Washington, DC 20230

Dear Mr. Leonard:

The American Manufacturing Trade Action Coalition (AMTAC), National Council of Textile Organizations (NCTO), National Textile Association (NTA), and UNITE HERE! request that the Committee for the Implementation of Textile Agreements (CITA) take the necessary actions to impose a safeguard on U.S. imports from China of cotton and man-made fiber sweaters classified within Category 345/645/646 of the U.S. Textile and Apparel Category System. This request is made pursuant to the guidelines issued by CITA (68 F.R. 27788, May 21, 2003).

The parties submitting this request are trade associations and unions which are representative of either domestic producers of products like or directly competitive with cotton and man-made fiber sweaters contained in Category 345/645/646 or of domestic producers of components used in the production of products that are like or directly competitive with the those contained in Category 345/645/646.

For your background information, descriptions of each organization are as follows:

AMTAC is a not-for-profit manufacturing trade association established for the purpose of preserving and creating American manufacturing jobs through the establishment of trade policy and other measures necessary for the U.S. manufacturing sector to stabilize and grow. Its members are involved in a wide variety of manufacturing, including textiles, throughout the United States. AMTAC's office is in Washington, D.C.  
[www.amtacdc.org](http://www.amtacdc.org)

NCTO is a not-for-profit trade association established to represent the entire spectrum of the United States textile sector, from fibers to yarns to fabrics to finished products, as well as suppliers in the textile machinery, chemical and other such sectors which have a stake in the prosperity and survival of the U.S. textile sector. Its headquarters are in Washington, D.C., and it also maintains an office in Gastonia, NC. [www.ncto.org](http://www.ncto.org)

NTA is a not-for-profit trade association of companies who knit or weave fabrics in the United States, dye, print or otherwise finish fabrics in the United States, or supply fibers, yarns, or other services to the American textile industry. NTA's office is in Boston, MA.  
[www.nationaltextile.org](http://www.nationaltextile.org)

**UNITE HERE!** was formed by a merger in 2004 of UNITE (formerly the Union of Needletrades, Textiles and Industrial Employees) and HERE (Hotel Employees and Restaurant Employees International Union). The union UNITE HERE represents more than 440,000 active members and more than 400,000 retirees throughout North America. UNITE HERE's headquarters are in New York, NY. [www.unitehere.org](http://www.unitehere.org)

It is the strong view of the petitioners that the surge in imports during the first quarter of 2005 from China of cotton and man-made fiber sweaters compounded with the long-term decline in U.S. production of these products constitutes market disruption under § 11.242 of the Report of the Working Party on the Accession of China to the World Trade Organization (WTO). This rise in imports and corresponding long-term decline in domestic production has produced a steady downward trend in the domestic market share for these products according to the I/P Book published by the Office of Textiles and Apparel, International Trade Administration, U.S. Department of Commerce (OTEXA).

In recent years, U.S. apparel production has declined in virtually all of the major cotton and man-made fiber categories. The Petitioners assert that this decline has been the direct result of increasing imports far surpassing the growth of the U.S. market for these products. With the January 1, 2005 removal of quotas on all WTO members, imports are rising across the board, and the surge in the first quarter 2005 imports from China is disrupting the U.S. market.

CITA is well aware of the circumstances following the integration of certain categories on January 1, 2002 in which China registered enormous increases and quickly moved to dominate trade. Following the same track, U.S. imports of cotton and man-made fiber sweaters from China skyrocketed 203.71 percent year-to-date March 2005 compared to the same period in 2004, according to preliminary import data provided by OTEXA. The preliminary import figures demonstrate that China's annual percent share of the U.S. import market rose from 7.0 percent in calendar year 2004 to 8.86 percent year-ending March 2005. Furthermore, China's year-to-date March 2005 share was 33.89 percent, which was the largest import share of any country. China was the sixth largest supplier to the U.S. during 2004. It should be noted, however, that imports from four of the top five suppliers of cotton and manmade fiber sweaters to the U.S. declined in 2004 compared to the previous year. The increase from Hong Kong was less than 1 percent. China's growth in this market has come at the expense of U.S. producers and other top Asian suppliers.

Sharp price reductions are likely a major element in the sudden surge of Chinese imports with the removal of quotas and corresponding quotas costs. A review of recent price data indicates that China's January 2005 prices for cotton and man-made fiber sweaters averaged \$78.63/dozen. This average unit value is 6 percent below the price last January of \$83.72/dozen and 17 percent below the calendar year 2004 average price of \$94.37/dozen. As with the surging import numbers, the large and instantaneous price drops China demonstrated in January 2005 again follow the pattern established in 2002 with the removal of certain items from quota. In those categories integrated in 2002, China dropped its prices by an average of 58 percent.

In sum, surging low-priced imports from China are clearly disrupting the U.S. market in Category 345/645/646. The language on safeguards in the U.S./China Protocol of Accession is based on language in the Multi-Fiber Agreement (MFA) and the WTO's Agreement on Textiles and Clothing (ATC). Both of those international agreements contained language providing for immediate action in the event of highly unusual and critical circumstances. We believe that current circumstances are such and that prompt action is necessary irrespective of the timelines in the CITA procedures.

Thank you for your consideration of this important matter.

Sincerely,

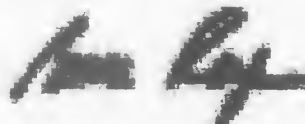

Auggie Tantillo  
Executive Director

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### Solicitation of Public Comments on Request for Textile and Apparel Safeguard Action on Imports from China

April 28, 2005.

**AGENCY:** The Committee for the Implementation of Textile Agreements (the Committee)

**ACTION:** Solicitation of public comments concerning a request for safeguard action on imports from China of cotton and man-made fiber brassieres (Category 349/649).

**SUMMARY:** On April 6, 2005, the Committee received a request from the American Manufacturing Trade Action Coalition, the National Council of Textile Organizations, the National Textile Association, and UNITE HERE requesting that the Committee limit imports from China of cotton and man-made fiber brassieres (Category 349/649). They request that a textile and apparel safeguard action, as provided for in the Report of the Working Party on the Accession of China to the World Trade Organization (the Accession Agreement), be taken on imports of such brassieres. The Committee hereby solicits public comments on this request, in particular with regard to whether imports from China of such brassieres are, due to market disruption, threatening to impede the orderly development of trade in this product. Comments must be submitted by June 3, 2005 to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, United States Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

**FOR FURTHER INFORMATION CONTACT:** Jay Dowling, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4058.

#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agriculture Act of 1956, as amended; Executive Order 11651, as amended.

#### BACKGROUND:

The Report of the Working Party on the Accession of China to the World

Trade Organization (Accession Agreement) provides that, if a WTO Member, such as the United States, believes that imports of Chinese origin textile and apparel products are, "due to market disruption, threatening to impede the orderly development of trade in these products", it may request consultations with China with a view to easing or avoiding the disruption. Pursuant to this provision, if the United States requests consultations with China, it must, at the time of the request, provide China with a detailed factual statement showing (1) the existence or threat of market disruption; and (2) the role of products of Chinese origin in that disruption. Beginning on the date that it receives such a request, China must restrict its shipments to the United States to a level no greater than 7.5 percent (6 percent for wool product categories) above the amount entered during the first 12 months of the most recent 14 months preceding the month in which the request was made.

On April 6, 2005, the Committee received a request that an Accession Agreement textile and apparel safeguard action be taken on imports from China of cotton and man-made fiber brassieres (Category 349/649). The Committee has determined that this request provides the information necessary for the Committee to consider the request in light of the considerations set forth in the Procedures. In this case, the Committee notes that imports from China of cotton and man-made fiber brassieres (Category 349/649) have increased from 4,079,865 dozen in the first quarter of 2004 to 5,581,965 dozen in the first quarter of 2005 (includes preliminary data for 2005). The text of the request is reproduced in full below.

The Committee is soliciting public comments on this request, in particular with regard to whether imports from China of such brassieres are, due to market disruption, threatening to impede the orderly development of trade in this product.

Comments may be submitted by any interested person. Comments must be received no later than June 3, 2005. Interested persons are invited to submit ten copies of such comments to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, U.S. Department of Commerce, 14th and Constitution Avenue N.W., Washington, DC 20230.

If a comment alleges that there is no market disruption or that the subject

imports are not the cause of market disruption, the Committee will closely review any supporting information and documentation, such as information about domestic production or prices of like or directly competitive products. Particular consideration will be given to comments representing the views of actual producers in the United States of a like or directly competitive product.

The Committee will protect any business confidential information that is marked "business confidential" from disclosure to the full extent permitted by law. To the extent that business confidential information is provided, two copies of a non-confidential version must also be provided in which business confidential information is summarized or, if necessary, deleted. Comments received, with the exception of information marked "business confidential", will be available for inspection between Monday - Friday, 8:30 a.m and 5:30 p.m in the Trade Reference and Assistance Center Help Desk, Suite 800M, USA Trade Information Center, Ronald Reagan Building, 1300 Pennsylvania Avenue, NW, Washington, DC, (202) 482-3433.

The Committee expects to make a determination within 60 calendar days of the close of the comment period as to whether the United States will request consultations with China. If, however, the Committee is unable to make a determination within 60 calendar days, it will cause to be published a notice in the **Federal Register**, including the date by which it will make a determination. If the Committee makes a negative determination, it will cause this determination and the reasons therefore to be published in the **Federal Register**. If the Committee makes an affirmative determination that imports of Chinese origin cotton and man-made fiber brassieres are, due to market disruption, threatening to impede the orderly development of trade in these products, the United States will request consultations with China with a view to easing or avoiding such market disruption in accordance with the Accession Agreement and the Committee's procedures.

**D. Michael Hutchinson,**  
*Acting Chairman, Committee for the  
Implementation of Textile Agreements.*

BILLING CODE 3510-DS-S

April 6, 2005

James Leonard  
Chairman, Committee for the Implementation of Textile Agreements  
Room H3100  
U.S. Department of Commerce  
14<sup>th</sup> and Constitution Ave, NW  
Washington, DC 20230

Dear Mr. Leonard:

The American Manufacturing Trade Action Coalition (AMTAC), National Council of Textile Organizations (NCTO), National Textile Association (NTA), and UNITE HERE! request that the Committee for the Implementation of Textile Agreements (CITA) take the necessary actions to impose a safeguard on U.S. imports from China of cotton and man-made brassieres and other body-supporting garments classified within Category 349/649 of the U.S. Textile and Apparel Category System. This request is made pursuant to the guidelines issued by CITA (68 F.R. 27788, May 21, 2003).

The parties submitting this request are trade associations and unions which are representative of either domestic producers of products like or directly competitive with cotton and man-made fiber brassieres, in Category 349/649 or of domestic producers of components used in the production of products that are like or directly competitive with the those contained in Category 349/649.

For your background information, descriptions of each organization are as follows:

**AMTAC** is a not-for-profit manufacturing trade association established for the purpose of preserving and creating American manufacturing jobs through the establishment of trade policy and other measures necessary for the U.S. manufacturing sector to stabilize and grow. Its members are involved in a wide variety of manufacturing, including textiles, throughout the United States. AMTAC's office is in Washington, D.C. [www.amtacdc.org](http://www.amtacdc.org)

**NCTO** is a not-for-profit trade association established to represent the entire spectrum of the United States textile sector, from fibers to yarns to fabrics to finished products, as well as suppliers in the textile machinery, chemical and other such sectors which have a stake in the prosperity and survival of the U.S. textile sector. Its headquarters are in Washington, D.C., and it also maintains an office in Gastonia, NC. [www.ncto.org](http://www.ncto.org)

**NTA** is a not-for-profit trade association of companies who knit or weave fabrics in the United States, dye, print or otherwise finish fabrics in the United States, or supply fibers, yarns, or other services to the American textile industry. NTA's office is in Boston, MA. [www.nationaltextile.org](http://www.nationaltextile.org)

**UNITE HERE!** was formed by a merger in 2004 of UNITE (formerly the Union of Needletrades, Textiles and Industrial Employees) and HERE (Hotel Employees and Restaurant Employees International Union). The union UNITE HERE represents more than 440,000 active members and more than 400,000 retirees throughout North America. UNITE HERE's headquarters are in New York, NY. [www.unitehere.org](http://www.unitehere.org)

It is the strong view of the petitioners that market disruption continues in category 349/649 and that renewed surges of imports from China are exacerbating that disruption. As a result of a request filed by the petitioners in 2003, CITA agreed that market disruption was the case and imposed a quota on imports from China in this category for the annual period that began on December 24, 2003. Since the expiration of that quota imports of Chinese origin brassieres have surged, with imports in the first quarter of 2005 being up 43 percent compared to the same period in 2004.

In sum, surging low-priced imports from China and a long term trend of declining production indicates that the situation is similar to the circumstances in late 2004 when CITA determined that Chinese imports were contributing to market disruption in this category. The language on safeguards in the U.S./China Protocol of Accession is based on language in the Multi-Fiber Agreement (MFA) and the WTO's Agreement on Textiles and Clothing (ATC). Both of those international agreements contained language providing for immediate action in the event of highly unusual and critical circumstances. We believe that current circumstances are such and that prompt action is necessary irrespective of the timelines in the CITA procedures.

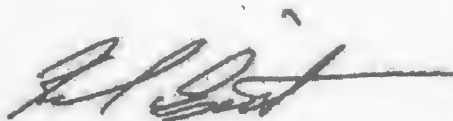

Sincerely,

Auggie Tantillo  
Executive Director  
AMTAC

Cass Johnson  
President  
NCTO

BILLING CODE 3510-DS-C

**COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS**

**Solicitation of Public Comments on Request for Textile and Apparel Safeguard Action on Imports from China**

April 28, 2005.

**AGENCY:** The Committee for the Implementation of Textile Agreements (the Committee)

**ACTION:** Solicitation of public comments concerning a request for safeguard action on imports from China of cotton and man-made fiber dressing gowns and robes (Category 350/650).

**SUMMARY:** On April 6, 2005, the Committee received a request from the American Manufacturing Trade Action Coalition, the National Council of Textile Organizations, the National Textile Association, and UNITE HERE requesting that the Committee limit imports from China of cotton and man-made fiber dressing gowns and robes (Category 350/650). They request that a textile and apparel safeguard action, as

provided for in the Report of the Working Party on the Accession of China to the World Trade Organization (the Accession Agreement), be taken on imports of such dressing gowns and robes. The Committee hereby solicits public comments on this request, in particular with regard to whether imports from China of such dressing gowns and robes are, due to market disruption, threatening to impede the orderly development of trade in this product. Comments must be submitted by June 3, 2005 to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, United States Department of Commerce,

14th and Constitution Avenue, N.W., Washington, D.C. 20230.

**FOR FURTHER INFORMATION CONTACT:** Jay Dowling, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4058.

**SUPPLEMENTARY INFORMATION:**

**Authority:** Section 204 of the Agriculture Act of 1956, as amended; Executive Order 11651, as amended.

**BACKGROUND:**

The Report of the Working Party on the Accession of China to the World Trade Organization (Accession Agreement) provides that, if a WTO Member, such as the United States, believes that imports of Chinese origin textile and apparel products are, "due to market disruption, threatening to impede the orderly development of trade in these products", it may request consultations with China with a view to easing or avoiding the disruption. Pursuant to this provision, if the United States requests consultations with China, it must, at the time of the request, provide China with a detailed factual statement showing (1) the existence or threat of market disruption; and (2) the role of products of Chinese origin in that disruption. Beginning on the date that it receives such a request, China must restrict its shipments to the United States to a level no greater than 7.5 percent (6 percent for wool product categories) above the amount entered during the first 12 months of the most recent 14 months preceding the month in which the request was made.

On April 6, 2005, the Committee received a request that an Accession Agreement textile and apparel safeguard action be taken on imports from China of cotton and man-made fiber dressing gowns and robes (Category 350/650). The Committee has determined that this

request provides the information necessary for the Committee to consider the request in light of the considerations set forth in the Procedures. In this case, the Committee notes that imports from China of cotton and man-made fiber dressing gowns and robes (Category 350/650) have increased from 884,075 dozen in the first quarter of 2004 to 1,226,435 dozen in the first quarter of 2005 (includes preliminary data for 2005). The text of the request is reproduced in full below.

The Committee is soliciting public comments on this request, in particular with regard to whether imports from China of such dressing gowns and robes are, due to market disruption, threatening to impede the orderly development of trade in this product.

Comments may be submitted by any interested person. Comments must be received no later than June 3, 2005. Interested persons are invited to submit ten copies of such comments to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, U.S. Department of Commerce, 14th and Constitution Avenue N.W., Washington, DC 20230.

If a comment alleges that there is no market disruption or that the subject imports are not the cause of market disruption, the Committee will closely review any supporting information and documentation, such as information about domestic production or prices of like or directly competitive products. Particular consideration will be given to comments representing the views of actual producers in the United States of a like or directly competitive product.

The Committee will protect any business confidential information that is marked "business confidential" from disclosure to the full extent permitted by law. To the extent that business

confidential information is provided, two copies of a non-confidential version must also be provided in which business confidential information is summarized or, if necessary, deleted. Comments received, with the exception of information marked "business confidential", will be available for inspection between Monday - Friday, 8:30 a.m and 5:30 p.m in the Trade Reference and Assistance Center Help Desk, Suite 800M, USA Trade Information Center, Ronald Reagan Building, 1300 Pennsylvania Avenue, NW, Washington, DC, (202) 482-3433.

The Committee expects to make a determination within 60 calendar days of the close of the comment period as to whether the United States will request consultations with China. If, however, the Committee is unable to make a determination within 60 calendar days, it will cause to be published a notice in the **Federal Register**, including the date by which it will make a determination. If the Committee makes a negative determination, it will cause this determination and the reasons therefore to be published in the **Federal Register**. If the Committee makes an affirmative determination that imports of Chinese origin cotton and man-made fiber dressing gowns and robes are, due to market disruption, threatening to impede the orderly development of trade in these products, the United States will request consultations with China with a view to easing or avoiding such market disruption in accordance with the Accession Agreement and the Committee's procedures.

**D. Michael Hutchinson,**

*Acting Chairman, Committee for the Implementation of Textile Agreements.*

BILLING CODE 3510-DS-S

April 6, 2005

James Leonard  
Chairman, Committee for the Implementation of Textile Agreements  
Room H3100  
U.S. Department of Commerce  
14<sup>th</sup> and Constitution Avenue, N.W.  
Washington, D.C. 20230

Dear Mr. Leonard:

The American Manufacturing Trade Action Coalition (AMTAC), National Council of Textile Organizations (NCTO), National Textile Association (NTA), and UNITE HERE! request that the Committee for the Implementation of Textile Agreements (CITA) take the necessary steps to impose a safeguard on U.S. imports from China of dressing gowns classified in Category 350/650 of the U.S. Textile and Apparel Category System. This request is made pursuant to the guidelines issued by CITA (68 F.R. 27788, May 21, 2003).

The parties submitting this request are trade associations and unions which are representative of either domestic producers of products like or directly competitive with dressing gowns contained in Category 350/650 or of domestic producers of components used in the production of products that are like or directly competitive with the products contained in Category 350/650.

For your background information, descriptions of each organization are as follows:

**AMTAC** is a not-for-profit manufacturing trade association established for the purpose of preserving and creating American manufacturing jobs through the establishment of trade policy and other measures necessary for the U.S. manufacturing sector to stabilize and grow. Its member are involved in a wide variety of manufacturing, including textiles, throughout the United States. AMTAC's office is in Washington, D.C.  
[www.amtacdc.org](http://www.amtacdc.org)

**NCTO** is a not-for-profit trade association established to represent the entire spectrum of the United States textile sector, from fibers to yarns to fabrics to finished products, as well as suppliers in the textile machinery, chemical and other such sectors which have a stake in the prosperity and survival of the U.S. textile sector. Its headquarters are in Washington, D.C., and it also maintains an office in Gastonia, North Carolina.  
[www.ncto.org](http://www.ncto.org)

**NTA** is a not-for-profit trade association of companies who knit or weave fabrics in the United States, dye, print or otherwise finish fabrics in the United States, or supply fibers, yarns, or other services to the American textile industry. NTA's office is in Boston, Massachusetts. [www.nationaltextile.org](http://www.nationaltextile.org)

**UNITE HERE!** was formed by a merger of UNITE (formerly the Union of Needletrades, Textiles, and Industrial Employees) and HERE (Hotel Employees and Restaurant Employees International Union). The union UNITE HERE represents more than 440,000 active members and more than 400,000 retirees throughout North America. UNITE HERE's headquarters are in New York, New York. [www.unitehere.org](http://www.unitehere.org)

It is the strong view of the petitioners that market disruption continues in this category and that renewed surges of imports from China are exacerbating that disruption. As a result of a request filed by the petitioners in 2003, CITA agreed that market disruption was the case and imposed a quota on imports from China in this category for the annual period that began on December 24, 2003. Chinese trade overshipped this quota which resulted in an embargo on November 1, 2004, almost two months prior to the end of the quota period. CITA then staged entry of the embargoed goods to prevent further market disruption that could have resulted if they had all entered in the last week of December following the end of the quota.

As a result January entries in this category declined 3 percent even though imports from the world continued to increase by 7 percent. By February and March, almost all of the entries were not subject to the previous quota, since they were exported after December 23, 2004. U.S. imports from China surged in these two months so that preliminary first quarter imports from China jumped 37 percent over the first quarter 2004 imports that were, for the most part, subject to the quota.

Although production data for this category is not available for the first half of 2004, the long term decline through 2003 is part of what CITA based its decision to impose a quota. U.S. imports grew 14 percent in 2004 and preliminary figures showed a 12 percent increase for the first quarter of 2005.

In sum, surging low-priced imports from China and a long term trend of declining production reveals that the situation is similar to what it was in late 2004 when CITA determined that Chinese imports were contributing to market disruption in this category. The language on safeguards in the U.S./China Protocol of Accession is based on language in the Multi-Fiber Agreement (MFA) and the WTO's Agreement on Textiles and Clothing (ATC). Both of those international agreements contained language providing for immediate action in the event of highly unusual and critical circumstances. We believe that current circumstances are such and that prompt action is necessary irrespective of the timelines in the CITA procedures.

Thank you for your consideration of this important matter.

Sincerely,

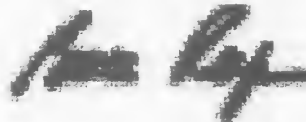

Auggie Tantillo

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### Solicitation of Public Comments on Request for Textile and Apparel Safeguard Action on Imports from China

April 28, 2005.

**AGENCY:** The Committee for the Implementation of Textile Agreements (the Committee)

**ACTION:** Solicitation of public comments concerning a request for safeguard action on imports from China of other synthetic filament fabric (Category 620).

**SUMMARY:** On April 6, 2005, the Committee received a request from the American Manufacturing Trade Action Coalition, the National Council of Textile Organizations, the National Textile Association, and UNITE HERE requesting that the Committee limit imports from China of other synthetic filament fabric (Category 620). They request that a textile and apparel safeguard action, as provided for in the Report of the Working Party on the Accession of China to the World Trade Organization (the Accession Agreement), be taken on imports of other synthetic filament fabric. The Committee hereby solicits public comments on this request, in particular with regard to whether imports from China of other synthetic filament fabric are, due to market disruption, threatening to impede the orderly development of trade in this product. Comments must be submitted by June 3, 2005 to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, United States Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

**FOR FURTHER INFORMATION CONTACT:** Jay Dowling, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4058.

#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agriculture Act of 1956, as amended; Executive Order 11651, as amended.

#### BACKGROUND:

The Report of the Working Party on the Accession of China to the World

Trade Organization (Accession Agreement) provides that, if a WTO Member, such as the United States, believes that imports of Chinese origin textile and apparel products are, "due to market disruption, threatening to impede the orderly development of trade in these products", it may request consultations with China with a view to easing or avoiding the disruption. Pursuant to this provision, if the United States requests consultations with China, it must, at the time of the request, provide China with a detailed factual statement showing (1) the existence or threat of market disruption; and (2) the role of products of Chinese origin in that disruption. Beginning on the date that it receives such a request, China must restrict its shipments to the United States to a level no greater than 7.5 percent (6 percent for wool product categories) above the amount entered during the first 12 months of the most recent 14 months preceding the month in which the request was made.

On April 6, 2005, the Committee received a request that an Accession Agreement textile and apparel safeguard action be taken on imports from China of other synthetic filament fabric (Category 620). The Committee has determined that this request provides the information necessary for the Committee to consider the request in light of the considerations set forth in the Procedures. In this case, the Committee notes that imports from China of other synthetic filament fabric (Category 620) have increased from 1,534,747 square meters in the first quarter of 2004 to 12,132,793 square meters in the first quarter of 2005 (includes preliminary data for 2005). The text of the request is reproduced in full below.

The Committee is soliciting public comments on this request, in particular with regard to whether imports from China of other synthetic filament fabric are, due to market disruption, threatening to impede the orderly development of trade in this product.

Comments may be submitted by any interested person. Comments must be received no later than June 3, 2005. Interested persons are invited to submit ten copies of such comments to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, U.S. Department of Commerce, 14th and Constitution Avenue N.W., Washington, DC 20230.

If a comment alleges that there is no market disruption or that the subject imports are not the cause of market disruption, the Committee will closely review any supporting information and documentation, such as information about domestic production or prices of like or directly competitive products. Particular consideration will be given to comments representing the views of actual producers in the United States of a like or directly competitive product.

The Committee will protect any business confidential information that is marked "business confidential" from disclosure to the full extent permitted by law. To the extent that business confidential information is provided, two copies of a non-confidential version must also be provided in which business confidential information is summarized or, if necessary, deleted. Comments received, with the exception of information marked "business confidential", will be available for inspection between Monday - Friday, 8:30 a.m and 5:30 p.m in the Trade Reference and Assistance Center Help Desk, Suite 800M, USA Trade Information Center, Ronald Reagan Building, 1300 Pennsylvania Avenue, NW, Washington, DC, (202) 482-3433.

The Committee expects to make a determination within 60 calendar days of the close of the comment period as to whether the United States will request consultations with China. If, however, the Committee is unable to make a determination within 60 calendar days, it will cause to be published a notice in the **Federal Register**, including the date by which it will make a determination. If the Committee makes a negative determination, it will cause this determination and the reasons therefore to be published in the **Federal Register**. If the Committee makes an affirmative determination that imports of Chinese origin other synthetic filament fabric are, due to market disruption, threatening to impede the orderly development of trade in these products, the United States will request consultations with China with a view to easing or avoiding such market disruption in accordance with the Accession Agreement and the Committee's procedures.

**D. Michael Hutchinson,**  
*Acting Chairman, Committee for the  
Implementation of Textile Agreements.*  
BILLING CODE 3510-DS-S

April 6, 2005

James Leonard  
Chairman, Committee for the Implementation of Textile Agreements  
Room H3100  
U.S. Department of Commerce  
14<sup>th</sup> and Constitution Avenue, N.W  
Washington, D.C. 20230

Dear Mr. Leonard:

The American Manufacturing Trade Action Coalition (AMTAC), National Council of Textile Organizations (NCTO), National Textile Association (NTA), and UNITE HERE! Request that the Committee for the Implementation of Textile Agreements (CITA) take the necessary actions to impose a safeguard on U.S. imports from China of other synthetic filament fabric classified within Category 620 of the U.S. Textile and Apparel Category System. This request is made pursuant to the guidelines issued by CITA (68 F.R. 27788, May 21, 2003).

The parties submitting this request are trade associations and unions which are representative of either domestic producers of products like or directly competitive with other synthetic filament fabric contained in Category 620 or of domestic producers of components used in the production of products that are like or directly competitive with the products contained in Category 620.

For your background information, descriptions of each organization are as follows:

**AMTAC** is a not-for-profit manufacturing trade association established for the purpose of preserving and creating American manufacturing jobs through the establishment of trade policy and other measures necessary for the U.S. manufacturing sector to stabilize and grow. Its members are involved in a wide variety of manufacturing, including textiles, throughout the United States. AMTAC's office is in Washington, D.C.  
[www.amtacdc.org](http://www.amtacdc.org)

**NCTO** is a not-for-profit trade association established to represent the entire spectrum of the United States textile sector, from fibers to yarns to fabrics to finished products, as well as suppliers in the textile machinery, chemical and other such sectors which have a stake in the prosperity and survival of the U.S. textile sector. Its headquarters are in Washington, D.C. and it also maintains an office in Gastonia, North Carolina  
[www.ncto.org](http://www.ncto.org)

**NTA** is a not-for-profit trade association of companies who knit or weave fabrics in the United States, dye, print or otherwise finish fabrics in the United States, or supply fibers, yarns, or other services to the American textile industry. NTA's office is in Boston, Massachusetts [www.nationaltextile.org](http://www.nationaltextile.org)

**UNITE HERE!** was formed by a merger in 2004 of UNITE (formerly the Union of Needletrades, Textiles and Industrial Employees) and HERE (Hotel Employees and Restaurant Employees International Union). The union UNITE HERE represents more than 440,000 active members and more than 400,000 retirees throughout North America. UNITE HERE's headquarters are in New York, New York. [www.unitehere.org](http://www.unitehere.org)

It is the strong view of the petitioners that the surge in the preliminary first quarter imports from China of other synthetic filament fabric compounded with the long-term decline in U.S. production of these products constitutes market disruption under Section 11.242 of the Report of the Working Party on the Accession of China to the World Trade Organization (WTO).

In recent years, U.S. production has decreased in virtually all of the major cotton and man-made fiber fabric categories. The Petitioners assert that this decrease has been the direct result of two elements. These include the 32 percent increase in fabric imports over the last five years coupled with substantial increases in the imports of apparel and other final products in which U.S. fabric is not used. With the January 1, 2005 removal of quotas on all WTO members, total fabric imports for the first quarter 2005 were up 5.7 percent on a preliminary basis, but more important, U.S. fabric imports from China climbed 86.6 percent during the same period.

Since 2003, U.S. imports of other synthetic filament fabric have surged. In 2004, these imports were up 12 percent, and this was followed by a 75 percent hike in the preliminary first quarter figures.

CITA is well aware of the circumstances following the integration of certain categories on January 1, 2002 in which China registered enormous increases and quickly moved to dominate trade. Following the same track, U.S. imports of other synthetic filament fabric from China elevated by 770 percent in the preliminary first quarter figures, over the same quarter's trade in 2004. As demonstrated in the preliminary first quarter data, China's climb to top supplier has already begun, with China's percent share of imports rising from 2.1 percent for calendar year 2004 to 5.4 percent for the preliminary year ending March 2005. Furthermore, China's 12 percent import share for the preliminary first quarter ranks them second, far above the thirteenth place they held in calendar year 2004.

Sharp price reductions are likely a major element in the sudden surge of Chinese imports with the removal of quotas and corresponding quota costs. A review of recent price data indicates that China's January 2005 prices for other synthetic filament fabric averaged \$0.64/square meter. This average unit value is 49 percent below the price in January 2004 of \$1.26/square meter and 68 percent below the calendar year 2004 average price of \$1.97/square meter. As with the surging import numbers, the large and instantaneous price drops China demonstrated in January 2005 again followed the pattern established in 2002, with the removal of certain items from quota. In those categories integrated in 2002, China dropped its prices by an average of 54 percent.

In sum, surging low-priced imports from China and declining domestic production are clearly disrupting the U.S. market in Category 620. The language on safeguards in the U.S./China Protocol of Accession is based on language in the Multi-Fiber Agreement (MFA) and the WTO's Agreement on Textiles and Clothing (ATC). Both of those international agreements contained language providing for immediate action in the event of highly unusual and critical circumstances. We believe that current circumstances are such and that prompt action is necessary irrespective of the timelines in the CITA procedures.

Thank you for your consideration in this important matter.

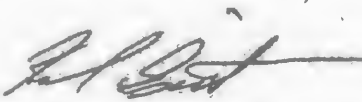

Sincerely,

Auggie Tantillo  
Executive Director  
AMTAC

Cass Johnson

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### Solicitation of Public Comments on Request for Textile and Apparel Safeguard Action on Imports from China

April 28, 2005.

**AGENCY:** The Committee for the Implementation of Textile Agreements (the Committee)

**ACTION:** Solicitation of public comments concerning a request for safeguard action on imports from China of man-made fiber knit shirts and blouses (Category 638/639).

**SUMMARY:** On April 6, 2005, the Committee received a request from the American Manufacturing Trade Action Coalition, the National Council of Textile Organizations, the National Textile Association, and UNITE HERE requesting that the Committee limit imports from China of man-made fiber knit shirts and blouses (Category 638/639). They request that a textile and apparel safeguard action, as provided for in the Report of the Working Party on the Accession of China to the World Trade Organization (the Accession Agreement), be taken on imports of such man-made fiber knit shirts and blouses. The Committee hereby solicits public comments on this request, in particular with regard to whether imports from China of such man-made fiber knit shirts and blouses are, due to market disruption, threatening to impede the orderly development of trade in this product. Comments must be submitted by June 3, 2005 to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, United States Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

**FOR FURTHER INFORMATION CONTACT:** Jay Dowling, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4058.

#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agriculture Act of 1956, as amended; Executive Order 11651, as amended.

#### BACKGROUND:

The Report of the Working Party on the Accession of China to the World

Trade Organization (Accession Agreement) provides that, if a WTO Member, such as the United States, believes that imports of Chinese origin textile and apparel products are, "due to market disruption, threatening to impede the orderly development of trade in these products", it may request consultations with China with a view to easing or avoiding the disruption. Pursuant to this provision, if the United States requests consultations with China, it must, at the time of the request, provide China with a detailed factual statement showing (1) the existence or threat of market disruption; and (2) the role of products of Chinese origin in that disruption. Beginning on the date that it receives such a request, China must restrict its shipments to the United States to a level no greater than 7.5 percent (6 percent for wool product categories) above the amount entered during the first 12 months of the most recent 14 months preceding the month in which the request was made.

On April 6, 2005, the Committee received a request that an Accession Agreement textile and apparel safeguard action be taken on imports from China of man-made fiber knit shirts and blouses (Category 638/639). The Committee has determined that this request provides the information necessary for the Committee to consider the request in light of the considerations set forth in the Procedures. In this case, the Committee notes that imports from China of man-made fiber knit shirts and blouses (Category 638/639) have increased from 642,708 dozen in the first quarter of 2004 to 2,808,951 dozen in the first quarter of 2005 (includes preliminary data for 2005). The text of the request is reproduced in full below.

The Committee is soliciting public comments on this request, in particular with regard to whether imports from China of such man-made fiber knit shirts and blouses are, due to market disruption, threatening to impede the orderly development of trade in this product.

Comments may be submitted by any interested person. Comments must be received no later than June 3, 2005. Interested persons are invited to submit ten copies of such comments to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, U.S. Department of Commerce, 14th and Constitution Avenue N.W., Washington, DC 20230.

If a comment alleges that there is no market disruption or that the subject imports are not the cause of market disruption, the Committee will closely review any supporting information and documentation, such as information about domestic production or prices of like or directly competitive products. Particular consideration will be given to comments representing the views of actual producers in the United States of a like or directly competitive product.

The Committee will protect any business confidential information that is marked "business confidential" from disclosure to the full extent permitted by law. To the extent that business confidential information is provided, two copies of a non-confidential version must also be provided in which business confidential information is summarized or, if necessary, deleted. Comments received, with the exception of information marked "business confidential", will be available for inspection between Monday - Friday, 8:30 a.m and 5:30 p.m in the Trade Reference and Assistance Center Help Desk, Suite 800M, USA Trade Information Center, Ronald Reagan Building, 1300 Pennsylvania Avenue, NW, Washington, DC, (202) 482-3433.

The Committee expects to make a determination within 60 calendar days of the close of the comment period as to whether the United States will request consultations with China. If, however, the Committee is unable to make a determination within 60 calendar days, it will cause to be published a notice in the **Federal Register**, including the date by which it will make a determination. If the Committee makes a negative determination, it will cause this determination and the reasons therefore to be published in the **Federal Register**. If the Committee makes an affirmative determination that imports of Chinese origin man-made fiber knit shirts and blouses are, due to market disruption, threatening to impede the orderly development of trade in these products, the United States will request consultations with China with a view to easing or avoiding such market disruption in accordance with the Accession Agreement and the Committee's procedures.

**D. Michael Hutchinson,**  
*Acting Chairman, Committee for the Implementation of Textile Agreements.*

BILLING CODE 3510-DS-S

April 6, 2005

James Leonard  
Chairman, Committee for the Implementation of Textile Agreements  
Room H3100  
U.S. Department of Commerce  
14<sup>th</sup> and Constitution Ave, NW  
Washington, DC 20230

Dear Mr. Leonard:

The American Manufacturing Trade Action Coalition (AMTAC), National Council of Textile Organizations (NCTO), National Textile Association (NTA), and UNITE HERE! request that the Committee for the Implementation of Textile Agreements (CITA) take the necessary actions to impose a safeguard on U.S. imports from China of man-made fiber knit shirts and blouses classified within Category 638/639 of the U.S. Textile and Apparel Category System. This request is made pursuant to the guidelines issued by CITA (68 F.R. 27788, May 21, 2003).

The parties submitting this request are trade associations and unions which are representative of either domestic producers of products like or directly competitive with man-made fiber knit shirts and blouses contained in Category 638/639 or of domestic producers of components used in the production of products that are like or directly competitive with those contained in Category 638/639.

For your background information, descriptions of each organization are as follows:

**AMTAC** is a not-for-profit manufacturing trade association established for the purpose of preserving and creating American manufacturing jobs through the establishment of trade policy and other measures necessary for the U.S. manufacturing sector to stabilize and grow. Its members are involved in a wide variety of manufacturing, including textiles, throughout the United States. AMTAC's office is in Washington, D.C.  
[www.amtacdc.org](http://www.amtacdc.org)

**NCTO** is a not-for-profit trade association established to represent the entire spectrum of the United States textile sector, from fibers to yarns to fabrics to finished products, as well as suppliers in the textile machinery, chemical and other such sectors which have a stake in the prosperity and survival of the U.S. textile sector. Its headquarters are in Washington, D.C., and it also maintains an office in Gastonia, NC. [www.ncto.org](http://www.ncto.org)

**NTA** is a not-for-profit trade association of companies who knit or weave fabrics in the United States, dye, print or otherwise finish fabrics in the United States, or supply fibers, yarns, or other services to the American textile industry. NTA's office is in Boston, MA.  
[www.nationaltextile.org](http://www.nationaltextile.org)

**UNITE HERE!** was formed by a merger in 2004 of UNITE (formerly the Union of Needletrades, Textiles and Industrial Employees) and HERE (Hotel Employees and Restaurant Employees International Union). The union UNITE HERE represents more than 440,000 active members and more than 400,000 retirees throughout North America. UNITE HERE's headquarters are in New York, NY. [www.unitehere.org](http://www.unitehere.org)

It is the strong view of the petitioners that the surge in 1<sup>st</sup> Quarter 2005 imports from China of man-made fiber knit shirts and blouses compounded with the long-term decline in U.S. production of these products constitutes market disruption under § 11.242 of the Report of the Working Party on the Accession of China to the World Trade Organization (WTO). This rise in imports and corresponding long-term decline in domestic production has produced a steady downward trend in the domestic market share for these products according to the I/P Book published by the Office of Textiles and Apparel, International Trade Administration, U.S. Department of Commerce (OTEXA).

In recent years, U.S. apparel production has declined in virtually all of the major cotton and man-made fiber categories. The Petitioners assert that this decline has been the direct result of increasing imports far surpassing the growth of the U.S. market for these products. With the January 1, 2005 removal of quotas on all WTO members, imports are rising across the board, and the surge in 1<sup>st</sup> Quarter 2005 imports from China is disrupting the U.S. market.

CITA is well aware of the circumstances following the integration of certain categories on January 1, 2002 in which China registered enormous increases and quickly moved to dominate trade. Following the same track, U.S. imports of man-made fiber knit shirts and blouses from China skyrocketed 331.2 percent in the 1<sup>st</sup> Quarter of 2005. China was the eighth largest producer supplier behind Mexico, Honduras, Taiwan, Hong Kong, South Korea, Macua, and El Salvador with 3.4 percent share of the U.S. import market for calendar year 2004. For the year-ending March 2005, Chinese market share rose to 5.7 percent, with China moving into fifth place. Looking at the 1<sup>st</sup> Quarter 2005 alone, China shot up to become the second largest supplier with a 13 percent share followed by Honduras with 11 percent, El Salvador with 6 percent, and Taiwan with 4 percent share of total imports.

Sharp price reductions are likely a major element in the sudden surge of Chinese imports with the removal of quotas and corresponding quotas costs. A review of recent price data indicates that China's January 2005 prices for man-made fiber shirts and blouses averaged \$58/dozen. This average unit value is 18 percent below the price last January of \$70/dozen and 28 percent below the calendar year 2004 average price of \$80/dozen. As with the surging import numbers, the large and instantaneous price drops China demonstrated so far in 2005 again follow the pattern established in 2002 with the removal of certain items from quota. In those categories integrated in 2002, China dropped its prices by an average of 58 percent.

In sum, surging low-priced imports from China are clearly disrupting the U.S. market in Category 638/639. The language on safeguards in the U.S./China Protocol of Accession

is based on language in the Multi-Fiber Agreement (MFA) and the WTO's Agreement on Textiles and Clothing (ATC). Both of those international agreements contained language providing for immediate action in the event of highly unusual and critical circumstances. We believe that current circumstances are such and that prompt action is necessary irrespective of the timelines in the CITA procedures.

Thank you for your consideration of this important matter.

Sincerely,

Auggie Tantillo  
Executive Director  
AMTAC

Cass Johnson  
President  
NCTO

Karl Spilhaus  
President

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### Solicitation of Public Comments on Request for Textile and Apparel Safeguard Action on Imports from China

April 28, 2005.

**AGENCY:** The Committee for the Implementation of Textile Agreements (the Committee)

**ACTION:** Solicitation of public comments concerning a request for safeguard action on imports from China of man-made fiber trousers (Category 647/648).

**SUMMARY:** On April 6, 2005, the Committee received a request from the American Manufacturing Trade Action Coalition, the National Council of Textile Organizations, the National Textile Association, and UNITE HERE requesting that the Committee limit imports from China of man-made fiber trousers (Category 647/648). They request that a textile and apparel safeguard action, as provided for in the Report of the Working Party on the Accession of China to the World Trade Organization (the Accession Agreement), be taken on imports of such man-made fiber trousers. The Committee hereby solicits public comments on this request, in particular with regard to whether imports from China of such man-made fiber trousers are, due to market disruption, threatening to impede the orderly development of trade in this product. Comments must be submitted by June 3, 2005 to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, United States Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

**FOR FURTHER INFORMATION CONTACT:** Jay Dowling, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4058.

#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agriculture Act of 1956, as amended; Executive Order 11651, as amended.

#### BACKGROUND:

The Report of the Working Party on the Accession of China to the World

Trade Organization (Accession Agreement) provides that, if a WTO Member, such as the United States, believes that imports of Chinese origin textile and apparel products are, "due to market disruption, threatening to impede the orderly development of trade in these products", it may request consultations with China with a view to easing or avoiding the disruption. Pursuant to this provision, if the United States requests consultations with China, it must, at the time of the request, provide China with a detailed factual statement showing (1) the existence or threat of market disruption; and (2) the role of products of Chinese origin in that disruption. Beginning on the date that it receives such a request, China must restrict its shipments to the United States to a level no greater than 7.5 percent (6 percent for wool product categories) above the amount entered during the first 12 months of the most recent 14 months preceding the month in which the request was made.

On April 6, 2005, the Committee received a request that an Accession Agreement textile and apparel safeguard action be taken on imports from China of man-made fiber trousers (Category 647/648). The Committee has determined that this request provides the information necessary for the Committee to consider the request in light of the considerations set forth in the Procedures. In this case, the Committee notes that imports from China of man-made fiber trousers (Category 647/648) have increased from 615,356 dozen in the first quarter of 2004 to 2,300,622 dozen in the first quarter of 2005 (includes preliminary data for 2005). The text of the request is reproduced in full below.

The Committee is soliciting public comments on this request, in particular with regard to whether imports from China of such man-made fiber trousers are, due to market disruption, threatening to impede the orderly development of trade in this product.

Comments may be submitted by any interested person. Comments must be received no later than June 3, 2005. Interested persons are invited to submit ten copies of such comments to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, U.S. Department of Commerce, 14th and Constitution Avenue N.W., Washington, DC 20230.

If a comment alleges that there is no market disruption or that the subject imports are not the cause of market disruption, the Committee will closely review any supporting information and documentation, such as information about domestic production or prices of like or directly competitive products. Particular consideration will be given to comments representing the views of actual producers in the United States of a like or directly competitive product.

The Committee will protect any business confidential information that is marked "business confidential" from disclosure to the full extent permitted by law. To the extent that business confidential information is provided, two copies of a non-confidential version must also be provided in which business confidential information is summarized or, if necessary, deleted. Comments received, with the exception of information marked "business confidential", will be available for inspection between Monday - Friday, 8:30 a.m and 5:30 p.m in the Trade Reference and Assistance Center Help Desk, Suite 800M, USA Trade Information Center, Ronald Reagan Building, 1300 Pennsylvania Avenue, NW, Washington, DC, (202) 482-3433.

The Committee expects to make a determination within 60 calendar days of the close of the comment period as to whether the United States will request consultations with China. If, however, the Committee is unable to make a determination within 60 calendar days, it will cause to be published a notice in the **Federal Register**, including the date by which it will make a determination. If the Committee makes a negative determination, it will cause this determination and the reasons therefore to be published in the **Federal Register**. If the Committee makes an affirmative determination that imports of Chinese origin man-made fiber trousers are, due to market disruption, threatening to impede the orderly development of trade in these products, the United States will request consultations with China with a view to easing or avoiding such market disruption in accordance with the Accession Agreement and the Committee's procedures.

**D. Michael Hutchinson,**  
*Acting Chairman, Committee for the Implementation of Textile Agreements.*

BILLING CODE 3510-DS-S

April, 6, 2005

James Leonard  
Chairman, Committee for the Implementation of Textile Agreements  
Room H3100  
U.S. Department of Commerce  
14<sup>th</sup> and Constitution Ave, NW  
Washington, DC 20230

Dear Mr. Leonard:

The American Manufacturing Trade Action Coalition (AMTAC), National Council of Textile Organizations (NCTO), National Textile Association (NTA), and UNITE HERE! request that the Committee for the Implementation of Textile Agreements (CITA) take the necessary actions to impose a safeguard on U.S. imports from China of man-made fiber men's and boys' trousers, breeches and shorts, and women's and girls' slacks, breeches, and shorts (herein referred to as man-made fiber trousers), classified within Category 647/648 of the U.S. Textile and Apparel Category System. This request is made pursuant to the guidelines issued by CITA (68 F.R. 27788, May 21, 2003).

The parties submitting this request are trade associations and unions which are representative of either domestic producers of products like or directly competitive with man-made fiber trousers contained in Category 647/648 or of domestic producers of components used in the production of products that are like or directly competitive with those contained in Category 647/648.

For your background information, descriptions of each organization are as follows:

**AMTAC** is a not-for-profit manufacturing trade association established for the purpose of preserving and creating American manufacturing jobs through the establishment of trade policy and other measures necessary for the U.S. manufacturing sector to stabilize and grow. Its members are involved in a wide variety of manufacturing, including textiles, throughout the United States. AMTAC's office is in Washington, D.C. [www.amtacdc.org](http://www.amtacdc.org)

**NCTO** is a not-for-profit trade association established to represent the entire spectrum of the United States textile sector, from fibers to yarns to fabrics to finished products, as well as suppliers in the textile machinery, chemical and other such sectors which have a stake in the prosperity and survival of the U.S. textile sector. Its headquarters are in Washington, D.C., and it also maintains an office in Gastonia, NC. [www.ncto.org](http://www.ncto.org)

**NTA** is a not-for-profit trade association of companies who knit or weave fabrics in the United States, dye, print or otherwise finish fabrics in the United States, or supply fibers, yarns, or other services to the American textile industry. NTA's office is in Boston, MA. [www.nationaltextile.org](http://www.nationaltextile.org)

**UNITE HERE!** was formed by a merger in 2004 of UNITE (formerly the Union of Needletrades, Textiles and Industrial Employees) and HERE (Hotel Employees and Restaurant Employees International Union). The union UNITE HERE represents more than 440,000 active members and more than 400,000 retirees throughout North America. UNITE HERE's headquarters are in New York, NY. [www.unitehere.org](http://www.unitehere.org)

It is the strong view of the petitioners that the surge in 1<sup>st</sup> Quarter 2005 imports from China of man-made fiber trousers compounded with the long-term decline in U.S. production of these products constitutes market disruption under § 11.242 of the Report of the Working Party on the Accession of China to the World Trade Organization (WTO). This rise in imports and corresponding long-term decline in domestic production has produced a steady downward trend in the domestic market share for these products according to the *I/P Book* published by the Office of Textiles and Apparel, International Trade Administration, U.S. Department of Commerce (OTEXA).

In recent years, U.S. apparel production has declined in virtually all of the major cotton and man-made fiber categories. The Petitioners assert that this decline has been the direct result of increasing imports far surpassing the growth of the U.S. market for these products. With the January 1, 2005 removal of quotas on all WTO members, imports are rising across the board, and the surge in 1<sup>st</sup> Quarter 2005 imports from China is disrupting the U.S. market.

CITA is well aware of the circumstances following the integration of certain categories on January 1, 2002 in which China registered enormous increases and quickly moved to dominate trade. Following the same track, U.S. imports of man-made fiber trousers from China skyrocketed 269 percent in the 1<sup>st</sup> Quarter of 2005. China was the fifth largest producer supplier behind Mexico, Indonesia, Taiwan and Guatemala with 4.6 percent share of the U.S. import market for calendar year 2004. For the year-ending March 2005, Chinese market share rose to 7.3 percent, with China in third place. Looking at the 1<sup>st</sup> Quarter 2005 alone, China shot up to the number one supplier with a 14.2 percent share, followed by Mexico with 12.8 percent, Indonesia with 10.7 percent, and Bangladesh with a 6 percent share of total imports.

Sharp price reductions are likely a major element in the sudden surge of Chinese imports with the removal of quotas and corresponding quotas costs. A review of recent price data indicates that China's January 2005 prices for man-made fiber trousers averaged \$69/dozen. This average unit value is 26.9 percent below the price last January of \$94.05/dozen and 31 percent below the calendar year 2004 average price of \$100/dozen. As with the surging import numbers, the large and instantaneous price drops China demonstrated so far in 2005 again follow the pattern established in 2002 with the removal of certain items from quota. In those categories integrated in 2002, China dropped its prices by an average of 58 percent.

In sum, surging low-priced imports from China are clearly disrupting the U.S. market in Category 647/648. The language on safeguards in the U.S./China Protocol of Accession is based on language in the Multi-Fiber Agreement (MFA) and the WTO's Agreement on

Textiles and Clothing (ATC). Both of those international agreements contained language providing for immediate action in the event of highly unusual and critical circumstances. We believe that current circumstances are such and that prompt action is necessary irrespective of the timelines in the CITA procedures.

Thank you for your consideration of this important matter.

Sincerely,

Auggie Tantillo  
Executive Director

## Meeting of the Defense Base Closure and Realignment Commission (BRAC)

AGENCY: Notice of meeting.

**SUMMARY:** This notice sets forth the schedules and summary for the forthcoming meetings of the BRAC. The purposes of these meetings are to receive testimony from the Secretary of Defense, the Chairman of the Joint Chiefs of Staff (JCS), or their representatives; the Department of the Air Force; the Department of the Navy; the Department of the Army; and the Department of Defense's Joint Cross Service Groups on the recommendations and methodology regarding the closure and realignment of military installations. The Commission Chairman, Anthony J. Principi, will chair the hearings.

*Dates and Times*

Monday, May 16, 2005, 1:30 p.m.–4:30 p.m., Secretary of Defense, Chairman, JCS

Tuesday, May 17, 2005, 9:30 a.m.–12:30 p.m., Department of the Air Force

Tuesday, May 17, 2005, 1:30 p.m.–4:30 p.m., Department of the Navy

Wednesday, May 18, 2005, 9:30 a.m.–12:30 p.m., Department of the Army

Wednesday, May 18, 2005, 1:30 p.m.–4:30 p.m., Defense Joint Cross Service Groups

Thursday, May 19, 2005, 9:30 a.m.–12:30 p.m., Defense Joint Cross Service Groups

**ADDRESSES:** Senate Russell Building, Room 418, U.S. Senate, Washington, DC.

**FOR FURTHER INFORMATION CONTACT:** Contact Mr. Charles Battaglia, Executive Director, BRAC Commission, 2521 South Clark St., Suite 600, Arlington VA 22202, telephone 703-699-2952

Dated: April 29, 2005.

## Notice; Meeting of the Independent Review Panel To Study the Relationships Between Military Department General Counsels and Judge Advocates General—Open Meeting

**SUMMARY:** Pursuant to the Federal Advisory Committee Act (FACA), Public Law 96-463, notice is hereby given that the Independent Review Panel To Study the Relationships Between Military Department General Counsels and Judge Advocates General will hold an open meeting at the Hilton Crystal City, 2399 Jefferson Davis Highway, Arlington, Virginia 22202, on May 18–19, 2005, from 8:30 a.m. to 11:30 p.m. and 1 p.m. to 4 p.m.

**Purpose:** The Panel will meet on May 18–19, 2005, from 8:30 a.m. to 11:30 a.m. and 1 p.m. to 4 p.m., in order to hear testimony from current and former senior Defense Department officials concerning the relationships between the legal elements of their respective Military Departments. These sessions will be open to the public, subject to the availability of space. During these initial sessions, the public will not have the opportunity to address the Panel orally, but will be afforded the opportunity at subsequent sessions. In keeping with the spirit of FACA, the Panel welcomes written comments concerning its work from the public at any time. Interested citizens are encouraged to attend the sessions.

**DATES:** May 18–19, 2005: 8:30 a.m.–11:30 a.m. and 1 p.m.–4 p.m.

**Location:** Hilton Crystal City, 2399 Jefferson Davis Highway, Arlington, Virginia 22202.

**FOR FURTHER INFORMATION CONTACT:** Any member of the public wishing further information concerning this meeting or wishing to submit written comments may contact: Mr. James R. Schwenk, Designated Federal Official, Department of Defense Office of the General Counsel, 1600 Defense Pentagon, Arlington, Virginia 20301-1600. Telephone: (703) 697-9343. Fax: (703) 693-7616. [schwenkj@dodgc.osd.mil](mailto:schwenkj@dodgc.osd.mil).

Interested persons may submit a written statement for consideration by the Panel at any time prior to June 10, 2005.

Dated: April 29, 2005.

BILLING CODE 5001-06-M

## DEPARTMENT OF EDUCATION

## Office of Vocational and Adult Education, Department of Education; Notice of Proposed Changes to Requirements

**SUMMARY:** The Assistant Secretary for Vocational and Adult Education proposes to change certain requirements governing the Community Technology Centers (CTC) program that were established in 2004 and used for the Fiscal Year (FY) 2004 CTC competition. Specifically, the Assistant Secretary proposes to remove the following two requirements: (1) Novice and non-novice applicants in CTC competitions must be ranked and funded separately, and (2) at least 75 percent of the funds must be set aside for non-novice applicants and up to 25 percent of the funds must be set aside for novice applicants. The Assistant Secretary intends to make awards in FY 2005 from the list of unfunded applicants from the FY 2004 CTC competition.

**DATES:** We must receive your comments on or before June 3, 2005.

**ADDRESSES:** Address all comments about these proposed changes to the requirements to Inas El-Sabban, U.S. Department of Education, 400 Maryland Avenue, SW., room 11055, Potomac Center Plaza, Washington, DC 20202-7100. If you prefer to send your comments through the Internet, use the following address: [inas.el-sabban@ed.gov](mailto:inas.el-sabban@ed.gov).

You must include the phrase "CTC Comments" in the subject line of your electronic message.

**FOR FURTHER INFORMATION CONTACT:** Inas El-Sabban. Telephone: (202) 245-7736.

If you use a telecommunications device for the deaf (TDD), you may call the Federal Relay Service (FRS) at 1-800-877-8339.

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotope, or computer diskette) on request to the contact person listed under **FOR FURTHER INFORMATION CONTACT**.

**SUPPLEMENTARY INFORMATION:****Invitation To Comment**

We invite you to submit comments regarding these proposed changes to the requirements that we established for the FY 2004 CTC competition. These changes will apply only to the awards we will make in FY 2005 based on the list of unfunded applications from the FY 2004 competition.

We invite you to assist us in complying with the specific

requirements of Executive Order 12866 and its overall requirement of reducing regulatory burden that might result from this proposed regulatory action. Please let us know of any further opportunities we should take to reduce potential costs or increase potential benefits while preserving the effective and efficient administration of the program.

During and after the comment period, you may inspect all public comments about this regulatory action at 550 12th Street, SW., room 11089, Washington, DC, between the hours of 8:30 a.m. and 4 p.m., Eastern Time, Monday through Friday of each week except Federal holidays.

#### Assistance to Individuals With Disabilities in Reviewing the Rulemaking Record

On request, we will supply an appropriate aid, such as a reader or print magnifier, to an individual with a disability who needs assistance to review the comments or other documents in the public rulemaking record for this regulatory action. If you want to schedule an appointment for this type of aid, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

#### Background

In 2004, the Department held a CTC competition with FY 2004 funds, in which it used the requirements, priorities, and selection criteria that it had established through a notice of final requirements, priorities, and selection criteria for novice and non-novice applicants for the CTC program, published in the **Federal Register** on April 16, 2004 (69 FR 20766). Under the requirements established and used in the FY 2004 competition, the Department ranked and funded separately two sets of applicants that met the established absolute priorities—novice applicants and non-novice applicants. The Department set aside approximately 75 percent of the funds for non-novice applicants and approximately 25 percent of the funds for novice applicants.

Because of the separate ranking of novice and non-novice applicants and the set-aside requirements, a number of high-quality applications received through the FY 2004 CTC competition were not funded. Accordingly, the Department proposes to make awards for FY 2005 based on the list of unfunded applicants from the FY 2004 CTC competition without regard to the set-aside provisions, thereby continuing to support and create local technology programs that are among the strongest in the nation.

#### Discussion of Proposed Changes

We will announce the final changes to these requirements in a notice in the **Federal Register**. We will determine the final requirements after considering responses to this notice and other information available to the Department.

#### Targeted Applicants

We propose to change two of the requirements of the CTC competition held in 2004 so that the Department is no longer required to: (1) Rank and fund novice and non-novice applicants separately, and (2) set aside at least 75 percent of the funds for non-novice applicants and up to 25 percent of the funds for novice applicants that met the absolute priorities.

For FY 2005, we are proposing to make awards from the list of unfunded applicants from the FY 2004 competition in the highest-ranking order, using the same priorities and selection criteria and irrespective of the novice or non-novice status of applicants.

#### Rationale

The Department received nearly 500 applications in response to the FY 2004 Notice Inviting Applications for the CTC program. With the \$9.5 million available, the Department awarded 25 grants. A number of high-quality applications remained unfunded. The Assistant Secretary has determined the best way to expend the \$4.9 million appropriated for FY 2005 is to make awards from the list of unfunded applicants from the FY 2004 CTC competition, without taking into account the novice or non-novice status of the applicants. By making awards from the list of unfunded applicants from the FY 2004 competition in this manner, the Department will ensure that the highest-quality applications are funded.

#### Executive Order 12866

This notice of proposed changes to requirements has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the notice of proposed changes to requirements are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this notice of proposed changes to requirements, we have determined that the benefits of the

proposed change to the requirements governing the FY 2004 CTC competition justify the costs.

We have also determined that this regulatory action does not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

#### Intergovernmental Review

This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive Order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for this program.

#### Electronic Access to This Document

You may view this document, as well as all other Department of Education documents published in the **Federal Register**, in text or Adobe Portable Document Format (PDF), on the Internet at the following site: <http://www.ed.gov/news/fedregister>.

To use PDF you must have Adobe Acrobat Reader, which is available free at this site. If you have questions about using PDF, call the U.S. Government Printing Office (GPO), toll free, at 1-888-293-6498; or in the Washington, DC, area at (202) 512-1530.

Note: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available on GPO Access at: <http://www.gpoaccess.gov/nara/index.html>.

#### DEPARTMENT OF EDUCATION

##### Meeting of the National Advisory Council on Indian Education

**AGENCY:** National Advisory Council on Indian Education (NACIE), U.S. Department of Education

**ACTION:** Notice of meeting.

**SUMMARY:** This notice sets forth the schedule and proposed agenda of an

upcoming meeting of the National Advisory Council on Indian Education (the Council) and is intended to notify the general public of their opportunity to attend. This notice also describes the functions of the Council. Notice of the Council's meetings is required under section (10)(a)(2) of the Federal Advisory Committee Act and by the Council's charter.

**Agenda:** The purpose of the meeting will be to discuss the development of the annual report to Congress, NACIE activity plan and subcommittee reports. The Council will also receive a briefing on the National Indian Education Conference, including a discussion on strategies gained from the conference for implementing the No Child Left Behind Act in a manner that is consistent with tribal traditions, language and culture.

**Date and Time:** May 23, 2005; 9 a.m. to 4 p.m.

**Location:** American Indian Center, 1630 W. Wilson Avenue, Chicago, Illinois 60640.

**FOR FURTHER INFORMATION CONTACT:**

Bernard Garcia, Group Leader, Office of Indian Education, U.S. Department of Education, 400 Maryland Avenue, SW., Washington, DC 20202. Telephone: 202-260-1454. Fax: 202-260-7779.

**SUPPLEMENTARY INFORMATION:**

The Council advises the Secretary of Education on the funding and administration (including the development of regulations, and administrative policies and practices) of any program over which the Secretary has jurisdiction and includes Indian children or adults as participants or programs that may benefit Indian children or adults, including any program established under Title VII, Part A of the Elementary and Secondary Education Act. The Council submits to the Congress, not later than June 30 of each year, a report on the activities of the Council that includes recommendations the Council considers appropriate for the improvement of Federal education programs that include Indian children or adults as participants or that may benefit Indian children or adults, and recommendations concerning the funding of any such program.

The general public is welcome to attend the May 23, 2005 meeting to be held from 9 a.m. to 4 p.m., in Chicago, IL. Individuals who need accommodations for a disability in order to participate (*i.e.*, interpreting services, assistive listening devices, materials in alternative format) should notify Bernard Garcia at 202-260-1454 by May 11, 2005. We will attempt to meet requests after this date, but cannot

guarantee availability of the requested accommodation. The meeting site is accessible to individuals with disabilities.

Records are kept of all Council proceedings and are available for public inspection at the Office of Indian Education, United States Department of Education, Room 5C141, 400 Maryland Avenue, SW., Washington, DC 20202.

Dated: April 29, 2005.

**Margaret Spellings,**

*Secretary, U.S. Department of Education.*

**DEPARTMENT OF ENERGY**

**Federal Energy Regulatory Commission**

[Docket No. IC05-545-000; FERC-545]

**Commission Information Collection Activities, Proposed Collection; Comment Request; Extension**

April 27, 2005.

**AGENCY:** Federal Energy Regulatory Commission, DOE.

**ACTION:** Notice of proposed information collection and request for comments.

**SUMMARY:** In compliance with the requirements of section 3506(c)(2)(a) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), the Federal Energy Regulatory Commission (Commission) is soliciting public comment on the specific aspects of the information collection described below.

**DATES:** Comments on the collection of information are due by June 27, 2005.

**ADDRESSES:** Copies of sample filings of the proposed collection of information can be obtained from the Commission's Web site (<http://www.ferc.gov/docs-filings/elibrary.asp>) or to the Federal Energy Regulatory Commission, Attn: Michael Miller, Office of the Executive Director, ED-1, 888 First Street, NE., Washington, DC 20426. Comments may be filed either in paper format or electronically. Those parties filing electronically do not need to make a paper filing. For paper filing, an original and 14 copies of such comments should be submitted to The Office of the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426 and refer to Docket No. IC05-545-000.

Documents filed electronically via the Internet must be prepared in WordPerfect, MS Word, Portable Document Format, or ASCII format. To file the document, access the Commission's Web site at <http://>

[www.ferc.gov](http://www.ferc.gov) and click on "Make an e-filing", and then follow the instructions for each screen. First time users will have to establish a user name and password. The Commission will send an automatic acknowledgement to the sender's e-mail address upon receipt of comments.

All comments may be viewed, printed or downloaded remotely via the Internet through FERC's homepage using the eLibrary link. For user assistance, contact [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll-free at (866) 208-3676. or for TTY, contact (202) 502-8659.

**FOR FURTHER INFORMATION CONTACT:**

Michael Miller may be reached by telephone at (202) 502-8415, by fax at (202) 273-0873, and by e-mail at [michael.miller@ferc.gov](mailto:michael.miller@ferc.gov).

**SUPPLEMENTARY INFORMATION:** The

information collected under the requirements of FERC-545 "Gas Pipeline Rates: Rate Change (Non-formal)" (OMB No. 1902-0154) is used by the Commission to implement the statutory provisions of sections 4, 5, 8, 10 and 16 of the Natural Gas Act (NGA) (15 U.S.C. 717c-717o, PL 75-688, 52 Stat. 822 and 830) and Title III of the Natural Gas Policy Act (15 U.S.C. 3301-3432, Pl. 95-621). A natural gas company must obtain Commission authorization for all rates and charges made, demanded or received in connection with the transportation of natural gas in interstate commerce. The Commission is authorized to investigate the rates charged by natural gas pipeline companies subject to its jurisdiction. If, after the investigation, the Commission is of the opinion that the rates are "unjust or unreasonable or unjustly discriminatory or unduly preferential," it is authorized to determine and prescribe just and reasonable rates. The NGA also provides the Commission with a means for considering the reasonableness of rates through settlement conferences or hearings.

The data filed in rate change applications for all rates and charges made, demanded, or received in connection with the transportation of natural gas are used by the Commission to establish a basis for determining just and reasonable rates that should be charged, and the rate of return which can be earned by the regulated natural gas company. However rate regulation, combined with the obligations of major natural gas companies to serve all customers fairly and equitably, also prevents rate discrimination. Major natural gas companies and others engaged in the transportation of natural gas must file this information for ratemaking purposes and certain NGPA

authorizations approval. The reporting requirements for this information collection are found in 18 CFR part 154 of the Commission's regulations. These reporting requirements are mandatory.

**Action:** The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

**Burden Statement:** Public reporting burden for this collection is estimated as:

| Number of respondents annually (1) | Number of responses per respondent (2) | Average burden hours per response (3) | Total annual burden hours (1)×(2)×(3) |
|------------------------------------|--|---------------------------------------|---------------------------------------|
| 152                                | 12.77                                  | 58.38                                 | 113,318                               |

Estimated cost burden to respondents is \$5,9142,219. (113,318 hours/2080 hours per year times \$108,558 per year average per employee). The cost per respondent is \$38,909.

The reporting burden includes the total time, effort, or financial resources expended to generate; maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or

other forms of information technology, e.g., permitting electronic submission of responses.

**Linda Mitry,**  
Deputy Secretary.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. IC05-603-001, FERC-603]

#### Commission Information Collection Activities, Proposed Collection; Comment Request; Submitted for OMB Review

April 27, 2005.

**AGENCY:** Federal Energy Regulatory Commission, DOE.

**ACTION:** Notice.

**SUMMARY:** In compliance with the requirements of section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507, the Federal Energy Regulatory Commission (Commission) has submitted the information collection described below to the Office of Management and Budget (OMB) for review of this information collection requirement. Any interested person may file comments directly with OMB and should address a copy of those comments to the Commission as explained below. The Commission received no comments in response to an earlier *Federal Register* notice of March 14, 2005 (70 FR 12461-62) and has made this notation in its submission to OMB.

**DATES:** Comments on the collection of information are due by May 28, 2005.

**ADDRESSES:** Address comments on the collection of information to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Federal Energy Regulatory Commission Desk Officer. Comments to OMB should be filed electronically, c/o [oir\\_submission@omb.eop.gov](mailto:oir_submission@omb.eop.gov) and include the OMB Control No. as a point

of reference. The Desk Officer may be reached by telephone at (202) 395-4650. A copy of the comments should also be sent to the Federal Energy Regulatory Commission, Office of the Executive Director, ED-33, Attention: Michael Miller, 888 First Street, NE., Washington, DC 20426. Comments may be filed either in paper format or electronically. Those persons filing electronically do not need to make a paper filing. For paper filings, such comments should be submitted to the Office of the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426 and should refer to Docket No. IC05-603-001.

Documents filed electronically via the Internet must be prepared in, MS Word, Portable Document Format, Word Perfect or ASCII format. To file the document, access the Commission's Web site at <http://www.ferc.gov> and click on "Make an e-filing," and then follow the instructions for each screen. First time users will have to establish a user name and password. The Commission will send an automatic acknowledgment to the sender's E-mail address upon receipt of comments. User assistance for electronic filings is available at (202) 502-8258 or by e-mail to [efiling@ferc.gov](mailto:efiling@ferc.gov). Comments should not be submitted to the e-mail address.

All comments are available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659.

**FOR FURTHER INFORMATION CONTACT:** Michael Miller may be reached by telephone at (202) 502-8415, by fax at (202) 273-0873, and by e-mail at [michael.miller@ferc.gov](mailto:michael.miller@ferc.gov).

**SUPPLEMENTARY INFORMATION:**

**Description**

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC-603 "Critical Energy Infrastructure Information."
2. *Sponsor:* Federal Energy Regulatory Commission.
3. *Control No.:* 1902-0197.

The Commission is now requesting that OMB approve with a three-year extension of the expiration date, with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* The information is used by the Commission to implement procedures for gaining access to critical energy infrastructure information (CEII) that would not otherwise be available under the Freedom of Information Act (FOIA) (5 U.S.C. 552). On February 21, 2003, the Commission issued Order No. 630 (68 FR 9857-9873), and then issued subsequent Order Nos. 630-A (68 FR 46456-60), and 649 (69 FR 48386-91) to address the appropriate treatment of CEII in the aftermath of the September 11, 2001 terrorist attacks and to restrict unrestrained general access due to the ongoing terrorism threat. These steps enable the Commission to keep sensitive infrastructure information out of the public domain, decreasing the likelihood that such information could be used to plan or execute terrorist attacks. The process adopted in these orders is a more efficient alternative for handling request for previously public documents than FOIA.

The Commission has defined CEII to include information about existing or proposed critical infrastructure that (i) relates to the production, generation, transportation, transmission, or distribution of energy; (ii) could be useful to a person planning an attack on critical infrastructure, (iii) is exempt from mandatory disclosure under the Freedom of Information Act, and (iv) does not simply give the location of the critical infrastructure. Critical infrastructure means existing and proposed systems and assets, whether physical or virtual, the incapacity or destruction of which would negatively affect security, economic security, public health or safety, or any combination of those matters. A person seeking access to CEII may file a request for that information by providing information about their identity and reason for the need for the information. Through this process, the Commission is able to review the requester's need for the information against the sensitivity of the information. The Commission

implements these requirements in 18 CFR 388.113 of its regulations.

5. *Respondent Description:* The respondent universe currently comprises all entities requesting access to CEII information submitted to or issued by the Commission.

6. *Estimated Burden:* 46 total hours, 182 respondents (average per year), 1 response per respondent, and .25 hours per response (average).

7. *Estimated Cost Burden to respondents:* The estimated total cost to respondents is \$2,392. The cost per respondent = \$13. (46 hours @\$52 hourly rate + 182).

**Statutory Authority** 15 U.S.C. 717, *et seq.*, 16 U.S.C. 791a, *et seq.*, section 313(b) of the Federal Power Act, 16 U.S.C. 824l(b) and section 19(b) of the Natural Gas Act, 15 U.S.C. 717r(b).

[Docket Nos. ER05-718-001]

**California Independent System Operator Corporation; Notice of Filing**

April 29, 2005.

Take notice that on April 22, 2005, the California Independent System Operator Corporation (CAISO) tendered for filing an amendment to the CAISO Tariff, Amendment No. 69, for expedited consideration and acceptance by the Commission. CAISO states that the purpose of Amendment No. 69 is to make certain modifications in order to fully implement the intertie pricing methodology proposed in Amendment No. 66 and approved by the Commission.

The CAISO states that this filing has been served upon the Public Utilities Commission, the California Energy Commission, the California Electricity Oversight Board, all parties with effective Scheduling Coordinator Agreements under the CAISO Tariff, and all parties of record in Docket No. ER05-718-000.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to

the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

*Comment Date:* 5 p.m. eastern time on May 6, 2005.

[Docket No. RP05-227-00]

**El Paso Natural Gas Company; Notice of Compliance Filing**

April 27, 2005.

Take notice that on April 22, 2005, El Paso Natural Gas Company (El Paso) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1-A, Substitute Fifth Revised Sheet No. 2, with an effective date of April 15, 2005.

El Paso states that the filing is being made in compliance with the Commission's order issued April 7, 2005 at Docket No. RP05-227-000.

El Paso states that it is submitting Substitute Fifth Revised Sheet No. 2 to remove a reference to a precedent

agreement in compliance with the Commission's recent order in this proceeding.

Any person desiring to protest this filing must file in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). Protests to this filing will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Such protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing a protest must serve a copy of that document on all the parties to the proceeding.

The Commission encourages electronic submission of protests in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. ### Federal Energy Regulatory Commission

[Docket No. RP05-279-000]

#### Garden Banks Gas Pipeline, LLC; Notice of Proposed Changes in FERC, Gas Tariff

April 27, 2005.

Take notice that on April 22, 2005, Garden Banks Gas Pipeline, LLC (GBGP) tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, the following tariff sheets to become effective May 22, 2005:

Third Revised Sheet No. 0  
Fourth Revised Sheet No. 14  
Fourth Revised Sheet No. 24

Third Revised Sheet No. 33  
Seventh Revised Sheet No. 59  
Fourth Revised Sheet No. 86  
Third Revised Sheet No. 216  
Third Revised Sheet No. 227  
Third Revised Sheet No. 238  
Third Revised Sheet No. 278  
Third Revised Sheet No. 288  
Third Revised Sheet No. 295  
Third Revised Sheet No. 297  
Fourth Revised Sheet No. 302

GBGP states that the above-referenced tariff sheets are being filed in accordance with section 154.204 of the Commission's regulations in order to make minor conforming changes to its Tariff to reflect revisions to its contact information, including address, telephone, and facsimile numbers.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov> using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. ## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. RP05-278-000]

#### Guardian Pipeline, L.L.C.; Notice of Proposed Changes in FERC Gas Tariff

April 27, 2005.

Take notice that on April 22, 2005, Guardian Pipeline, L.L.C. (Guardian) tendered for filing to become part of Guardian's FERC Gas Tariff, Original Volume No. 1, the following tariff sheets to become effective June 1, 2005:

Fourth Revised Sheet No. 0 (Title Page)  
Sixth Revised Sheet No. 6  
Second Revised Sheet No. 80  
First Revised Sheet No. 81  
Second Revised Sheet No. 82  
First Revised Sheet No. 83  
Fourth Revised Sheet No. 105  
Second Revised Sheet No. 150  
Second Revised Sheet No. 153  
First Revised Sheet No. 370  
Second Revised Sheet No. 371  
First Revised Sheet No. 375  
Original Sheet No. 376  
Sheet Nos. 377-379  
Third Revised Sheet No. 380  
Third Revised Sheet No. 393  
First Revised Sheet No. 394  
First Revised Sheet No. 395  
Second Revised Sheet No. 396

Guardian states that it is filing revised tariff sheets for the purpose of: (1) Revising Rate Schedule PAL and its associated form of service agreement, (2) relocating the scheduling priority of PAL service from the General Terms and Conditions to Rate Schedule PAL; and (3) making minor housekeeping changes.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention

or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. [Docket No. RP05-280-000]

#### Mississippi Canyon Gas Pipeline, LLC; Notice of Proposed Changes in FERC Gas Tariff

April 27, 2005.

Take notice that on April 22, 2005, Mississippi Canyon Gas Pipeline, LLC (MCGP) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheets to become effective May 22, 2005:

Second Revised Sheet No. 0  
 First Revised Sheet No. 11  
 Second Revised Sheet No. 22  
 First Revised Sheet No. 28  
 First Revised Sheet No. 32  
 Fifth Revised Sheet No. 57  
 Second Revised Sheet No. 103  
 First Revised Sheet No. 245  
 First Revised Sheet No. 256  
 First Revised Sheet No. 267  
 First Revised Sheet No. 293  
 First Revised Sheet No. 304  
 Second Revised Sheet No. 311  
 Second Revised Sheet No. 313  
 First Revised Sheet No. 318

Second Revised Sheet No. 320

MCGP states that the above-referenced tariff sheets are being filed in accordance with section 154.204 of the Commission's regulations in order to make minor conforming changes to its Tariff to reflect revisions to the contact information, including address, telephone, and facsimile numbers.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

### Federal Energy Regulatory Commission

[Docket No. RP05-281-000]

#### Transcontinental Gas Pipe Line Corporation; Notice of Proposed Changes in FERC Gas Tariff

April 27, 2005.

Take notice that on April 22, 2005, Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing as part of its FERC Gas Tariffs, Third Revised Volume No. 1, and Original Volume No. 2, certain revised sheets which are enumerated in Appendix A attached to the filing, to become effective June 1, 2005.

Transco states that the instant filing is being submitted to remove the Great Plains Surcharge rates and certain tariff provisions (including references thereto) from Transco's Third Revised Volume No. 1 and Original Volume No. 2 FERC Gas Tariffs.

Transco states that it is serving copies of the instant filing to its affected customers, interested State Commissions and other interested parties.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP05-83-000]

#### Sempra Port Arthur LNG; Notice of Technical Conference

April 27, 2005.

On Tuesday, May 17, 2005, at 8:30 a.m. (CST), staff from the Commission's Office of Energy Projects will convene a cryogenic design and technical conference regarding the proposed Sempra Port Arthur LNG import terminal. The cryogenic conference will be held at the Holiday Inn Port Arthur-Park Central located at 2929 Jimmy Johnson Blvd., Port Arthur, TX. For hotel details call (409) 724-5000.

In view of the critical energy infrastructure information and security issues to be explored, the cryogenic conference will not be open to the public. Attendance at this conference will be limited to existing parties to the proceeding (anyone who has specifically requested to intervene as a party) and to representatives of interested Federal, State, and local agencies. Any person planning to attend this May 17th cryogenic conference must register by close of business on Friday, May 13, 2005. Registrations may be submitted either online at <http://www.ferc.gov/whats-new/registration/cryo-conf-form.asp> or by faxing a copy of the form (found at the referenced online link) to (202) 208-0353. All attendees must sign a non-disclosure statement prior to entering the conference. Upon arrival at the hotel, check the reader board in the hotel lobby for venue. For additional information regarding the cryogenic conference, please contact Steven Busch

at [steven.busch@ferc.gov](mailto:steven.busch@ferc.gov) or (202) 502-6353.

Magalie R. Salas,

Secretary.

BILLING CODE 6717-01-P

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

#### Notice of Meeting, Notice of Vote, Explanation of Action Closing Meeting and List of Persons To Attend

April 27, 2005.

The following notice of meeting is published pursuant to section 3(a) of the Government in the Sunshine Act (Pub. L. 94-409), 5 U.S.C. 552b:

**AGENCY HOLDING MEETING:** Federal Energy Regulatory Commission.

**DATE AND TIME:** May 4, 2005. (Within a relatively short time after the Commission's open meeting on May 4, 2005.)

**PLACE:** Room 3M 4A/B, 888 First Street, NE., Washington, DC 20426.

**STATUS:** Closed.

**MATTERS TO BE CONSIDERED:** Non-Public Investigations and Inquiries, Enforcement Related Matters, and Security of Regulated Facilities.

**CONTACT PERSON FOR MORE INFORMATION:** Magalie R. Salas, Secretary, telephone (202) 502-8400.

Chairman Wood and Commissioners Brownell, Kelliher, and Kelly voted to hold a closed meeting on May 4, 2005. The certification of the General Counsel explaining the action closing the meeting is available for public inspection in the Commission's Public Reference Room at 888 First Street, NW., Washington, DC 20426.

The Chairman and the Commissioners, their assistants, the Commission's Secretary and her assistant, the General Counsel and members of her staff, and a stenographer are expected to attend the meeting. Other staff members from the Commission's program offices who will advise the Commissioners in the matters discussed will also be present.

Linda Mitry,

Deputy Secretary.

BILLING CODE 6717-01-P

## ENVIRONMENTAL PROTECTION AGENCY

[OAR-2004-0501; FRL-7907-1]

### Agency Information Collection Activities: Proposed Collection; Comment Request; Reporting Under EPA's Green Power Partnership and Combined Heat and Power (CHP) Partnership—EPA ICR No. 2173.01

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following proposed Information Collection Request (ICR) to the Office of Management and Budget (OMB): Reporting Requirements Under EPA's Green Power Partnership and Combined Heat and Power (CHP) Partnership—EPA ICR No. 2173.01. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

**DATES:** Comments must be submitted on or before July 5, 2005.

**ADDRESSES:** Follow the detailed instructions in **SUPPLEMENTARY INFORMATION**.

**FOR FURTHER INFORMATION CONTACT:** Jim Sullivan, Climate Protection Partnerships Division, Office of Atmospheric Programs, 6202J, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 343-9241; fax number: (202) 565-2134; e-mail address [sullivan.jamest@epa.gov](mailto:sullivan.jamest@epa.gov).

**SUPPLEMENTARY INFORMATION:** The EPA has established a public docket for this ICR under Docket ID No. OAR-2004-

0501, which is available for public viewing at the Air and Radiation Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket and Information Center is (202) 566-1742. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA within 60 days of this notice, and according to the following detailed instructions: Submit your comments to EPA online using EDOCKET (our preferred method), by e-mail to [a-and-r-docket@epamail.epa.gov](mailto:a-and-r-docket@epamail.epa.gov), or by mail to: EPA Docket Center, Environmental Protection Agency, Air and Radiation Docket and Information Center, MC 6102T, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

EPA's policy is that public comments, whether submitted electronically or on paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

**Affected Entities:** Entities potentially affected by this action are corporations,

institutions, state, local, and tribal agencies that voluntarily agree to work with EPA to purchase or market green power or to support the use of CHP.

**Title:** Reporting Requirements Under EPA's Green Power Partnership and CHP Partnership—EPA ICR No. 2173.01.

**Abstract:** In an effort to aid implementation of the President's May 2001 National Energy Strategy, as well as the President's February 2002 Climate Change Strategy, EPA has launched two new partnership programs with industry and other stakeholders: The Green Power Partnership and the CHP Partnership. These partnership programs encourage organizations to invest in clean, efficient energy technologies, including renewable energy and CHP.

The EPA has developed this ICR to obtain authorization to collect information from organizations participating in the Green Power Partnership and CHP Partnership to ensure that they are meeting their voluntary renewable energy and CHP goals and to assure the credibility of these partnership programs. Organizations that join these programs voluntarily agree to the following respective actions: (1) Designating a Green Power or CHP Partnership liaison; (2) for the Green Power Partnership, reporting to EPA, on an annual basis, their progress toward their green power commitment via a 1-page Green Power Partner Yearly Report; (3) for the CHP Partnership, reporting to EPA information on their existing CHP projects and project development activity via the CHP Partner Projects Data Form. The EPA uses the data obtained from its Partners to assess the success of these programs in achieving their national energy and greenhouse gas reduction goals.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**Burden Statement:** The annual public reporting and recordkeeping burden for this three (3) year collection of information is estimated to equal 3,980 hours and to average 3.4 hours per year per respondent. The average number of annual burden hours per type of response is: 4.9 hours for a Letter of Intent (a one-time burden for Green Power and CHP Partners); for the Green Power Partnership, 2.4 hours for the Green Power Partner Yearly Report; for the CHP Partnership, 2.0 hours for end user Partners to complete the CHP Partner Projects Data Form report on completed CHP projects (a one-time report), or 1.7 hours per year for CHP project updates for Partners with ongoing CHP project development activities.

Partners from both programs may also submit voluntary updates of simple information, such as contact information or company profiles, via the Web site. These updates would take from 15 minutes to 0.5 hours per response. A subset of Partners may participate in brief (i.e., 15 minute) telephone calls with EPA to clarify questions pertaining to the Letter of Intent, Green Power Partner Yearly Report, or CHP Partner Projects Data Form. All of these activities are included in the annual burden estimate.

The estimated number of annual respondents averaged over three (3) years is 1,164, which includes an average of 1,033 respondents for the Green Power Partnership and 131 for the CHP Partnership.

There are no capital or start-up costs associated with this information collection. The average annual operation and maintenance cost resulting from this (3) three year collection of information is \$3 per respondent. The average annual labor cost is \$254 per respondent. The resulting total annual cost averaged over the three year period is \$298,886. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of

collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: April 19, 2005.

**Kathleen Hogan,**

Director, Climate Protection Partnerships Division.

BILLING CODE 6560-50-P

## ENVIRONMENTAL PROTECTION AGENCY

[OAR-2005-0115; FRL-7907-7]

**Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; General Conformity of Federal Actions to State Implementation Plans (Renewal), EPA ICR Number 1637.06, OMB Control Number 2060-0279**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on April 30, 2005. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

**DATES:** Additional comments may be submitted on or before June 3, 2005.

**ADDRESSES:** Submit your comments, referencing docket ID number OAR-2005-0115 to (1) EPA online using EDOCKET (our preferred method), by e-mail to [a-and-r-Docket@epa.gov](mailto:a-and-r-Docket@epa.gov), or by mail to: Environmental Protection Agency, EPA Docket Center (EPA/DC), Air and Radiation Docket and Information Center, 6102T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and

Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Annie Nikbakht, Ozone Policy and Strategies Group, Mail Drop C539-02, Environmental Protection Agency, 109 T.W. Alexander Drive, RTP, North Carolina 27711; telephone number: (919) 541-5246; fax number: (919) 541-0824; e-mail address: [nikbakht.annie@epa.gov](mailto:nikbakht.annie@epa.gov).

**SUPPLEMENTARY INFORMATION:** EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On February 1, 2005 (70 FR 5178), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OAR-2005-0115, which is available for public viewing at the Air and Radiation Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket is (202) 566-1742. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise

restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

**Title:** General Conformity of Federal Actions to State Implementation Plans (40 CFR part 51, subpart W; part 93, subpart B) (Renewal).

**Abstract:** Before any agency, department, or instrumentality of the Federal government engages in, supports in any way, provides financial assistance for, licenses, permits, or approves any activity, that agency has the affirmative responsibility to ensure that such action conforms to the State Implementation Plan (SIP) for the attainment and maintenance of the national ambient air quality standards (NAAQS).

The Federal government uses information collected to ensure that general Federal actions conform to applicable provisions of the SIP and that the Federal action does not impede the goal of attaining and maintaining the NAAQS throughout the country. The State and local air agencies use the results from conformity determinations to determine applicability of the general conformity requirements, to demonstrate that their actions satisfy both the emissions and air quality criteria stipulated in the regulation, and to demonstrate that their actions conform to applicable provisions of the SIP.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 35 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and

requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Entities potentially affected by this action are those which take Federal Actions, or are subject to Federal Actions, and emit pollutants above de minimis levels.

**Estimated Number of Respondents:** 674.

**Frequency of Response:** One time, or every five years.

**Estimated Total Annual Hour Burden:** 9,435 hours.

**Estimated Total Annual Cost:** \$592,763, which includes \$0 annualized capital/startup costs, \$0 annual O&M costs, and \$592,763 annual labor costs.

**Changes in the Estimates:** There is a decrease of 811 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is applicable to the Non-Federal, State, and Local agencies which are the entities more affected. This number is calculated based on Non-Federal, State, and Local agencies only.

Dated: April 26, 2005.

## ENVIRONMENTAL PROTECTION AGENCY

**Regional Docket Nos. V-2004-1, -2; [IL 225-1, FRL-7907-8]**

### Clean Air Act Operating Permit Program; Petitions for Objection to State Operating Permits for Midwest Generation Fisk and Crawford Stations

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of final action.

**SUMMARY:** This document announces that the EPA Administrator has responded to two citizen petitions asking EPA to object to operating permits issued by the Illinois Environmental Protection Agency (IEPA) to two facilities. Specifically, the Administrator has partially granted and partially denied each of the petitions submitted by the Chicago Legal Clinic to object to the operating permits issued to the Midwest Generation Fisk and Crawford stations.

Pursuant to section 505(b)(2) of the Clean Air Act (Act), Petitioner may seek

judicial review of those portions of the petitions which EPA denied in the United States Court of Appeals for the appropriate circuit. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307 of the Act.

**ADDRESSES:** You may review copies of the final orders, the petitions, and other supporting information at the EPA Region 5 Office, 77 West Jackson Boulevard, Chicago, Illinois 60604. If you wish to examine these documents, you should make an appointment at least 24 hours before visiting day. Additionally, the final orders for the Midwest Generation Fisk and Crawford stations are available electronically at: <http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitiondb2004.htm>.

#### FOR FURTHER INFORMATION CONTACT:

Pamela Blakley, Chief, Air Permitting Section, Air Programs Branch, Air and Radiation Division, EPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, telephone (312) 886-4447.

**SUPPLEMENTARY INFORMATION:** The Act affords EPA a 45-day period to review, and object to as appropriate, operating permits proposed by State permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to State operating permits if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

On January 22, 2004, the EPA received from the Chicago Legal Clinic petitions requesting that EPA object to the issuance of the title V operating permits to the Midwest Generation Fisk and Crawford stations. The petitions raise issues regarding the permit application, the permit issuance process, and the permits themselves. Chicago Legal Clinic asserts that the permits: (1) Lack compliance schedules designed to bring the Midwest Generation Fisk and Crawford stations into compliance with Clean Air Act requirements; (2) contain language that fails to include conditions that meet the legal requirements for monitoring; (3) contain language that violates the requirements related to credible evidence; (4) contain language regarding

startup, malfunction and breakdown that violates EPA policy; and (5) contain language that violates EPA policy requiring a permit to be practically enforceable.

On March 25, 2005, the Administrator issued orders partially granting and partially denying the petitions. The orders explain the reasons behind EPA's conclusion that the IEPA must reopen the permits to: (1) Address Petitioner's significant comments; (2) include periodic monitoring in compliance with 40 CFR § 70.6(a)(3)(i)(B); (3) remove the note stating that compliance with the carbon monoxide limit is inherent; (4) explain in the statement of basis how it determined in advance that the permittee had met the requirements of the Illinois State Implementation Plan (SIP) or to specify in the permit that continued operation during malfunction or breakdown will be authorized on a case-by-case basis if the source meets the SIP criteria; (5) remove language which is not required by the underlying applicable requirement or explain in the permit or statement of basis how this language implements the meaning and intent of the underlying applicable requirement; (6) remove "established startup procedures," include the startup procedures in the permit, or include minimum elements of the startup procedures that would "affirmatively demonstrate that all reasonable efforts have been made to minimize startup emissions, duration of individual startups and frequency of startups;" (7) require the owner or operator of the sources to report to the agency "immediately" or explain how the phrase "as soon as possible" meets the requirements of the SIP; (8) remove "reasonably" and "reasonable" from relevant permit terms or define or provide criteria to determine "reasonably" and "reasonable" that meet the requirements of the SIP; (9) remove the term "reasonable" from the relevant permit conditions in accordance with the language in Part 70, Section 504 of the Clean Air Act or Section 39.5 of the Environmental Protection Act; (10) remove the ability to waive the testing requirements or explain how such a waiver would meet the requirements of part 70; (11) define "extraordinary circumstances" in a manner consistent with the requirements of the SIP or remove the language from the permit; and (12) remove "summary of compliance" from the permit or clarify the term such that the reader understands what a "summary of compliance" must contain and how the summary relates to the control measures. The orders also

explain the reasons for denying Chicago Legal Clinic's remaining claims.

Dated: April 19, 2005.

## ENVIRONMENTAL PROTECTION AGENCY

[MI 86-01; FRL-7907-9]

### Notice of Final Determination for the Final Determination for the Indeck-Niles Energy Center, L.L.C. located in Niles, MI

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of final action.

**SUMMARY:** This notice announces that on September 30, 2004, the Environmental Appeals Board (EAB or Board) of the United States EPA denied a petition for review of a Federal Prevention of Significant Deterioration (PSD) permit issued to Indeck-Niles L.L.C. (Indeck) by the Michigan Department of Environmental Quality (MDEQ).

**DATES:** The effective date for the EAB's decision is September 30, 2004. Pursuant to Section 307(b)(1) of the Clean Air Act, 42 U.S.C. 7607(b)(1), judicial review of this permit decision, to the extent it is available, may be sought by filing a petition for review in the United States Court of Appeals for the Sixth Circuit within 60 days of May 4, 2005.

**ADDRESSES:** The documents relevant to the above action are available for public inspection during normal business hours at the following address: Environmental Protection Agency, Region 5, 77 West Jackson Boulevard (AR-18J), Chicago, Illinois 60604. To arrange viewing of these documents, call Laura L. David at (312) 886-0661.

**FOR FURTHER INFORMATION CONTACT:** Laura L. David, Environmental Protection Agency, Region 5, 77 W. Jackson Boulevard (AR-18J), Chicago, Illinois 60604. Anyone who wishes to review the EAB decision can obtain it at <http://www.epa.gov/eab/orders/indeck2004.pdf>.

**SUPPLEMENTARY INFORMATION:** In the Board's September 30, 2004 Order Denying Review, the Board made the following findings. On November 2, 2000, Indeck-Niles, L.L.C. applied to MDEQ for permission to construct a new 656-MW simple-cycle natural gas-fired electrical generating facility, to be transformed into a 1,076-MW

combined-cycle facility approximately twelve to eighteen months after startup of the simple-cycle facility. Indeck proposed to site the new facility (Indeck-Niles Energy Center) in the southwestern corner of the State of Michigan, in Cass County, northeast of the City of Niles, Michigan, and not far from South Bend, Indiana. That portion of the State was designated as attainment or unclassifiable for carbon monoxide (CO), nitrogen dioxide (NO<sub>2</sub>), sulfur dioxide (SO<sub>2</sub>), ozone (measured as volatile organic compounds (VOCs)), and particulate matter (PM) at the time of permit issuance.

In the first phase of the project, Indeck proposed to install four natural gas-fired combustion turbines for operation in simple-cycle mode. In the second phase, Indeck proposed to convert the four simple-cycle turbines into combined-cycle units through the addition of heat recovery steam generators and natural gas-fired duct burners to increase steam output. The conversion would take place within twelve to eighteen months after operation of the simple-cycle turbines commences. The steam produced would be piped to two steam condensing turbines to produce additional power. In this configuration, the proposed facility has the potential to emit NO<sub>x</sub>, CO, VOCs, and PM in quantities sufficient to trigger the requirement for emissions limitations reflecting Best Available Control Technology (BACT). Accordingly, as part of the permit application process, Indeck conducted BACT analyses for the relevant pollutants and proposed BACT emissions limits for the pollutants of concern.

In December 2001, MDEQ approved Indeck's analyses and issued a permit to the company for the proposed facility (New Source Review Permit to Install No. 364-00). However, a number of individuals timely petitioned the Board for review of that permit, which prevented the permit from going into effect at that time. On March 11, 2002, the Board issued an order denying the individuals' petition for review and the permit therefore became final on that date. Notably, however, Indeck failed to commence construction of its new facility within eighteen months of issuance of the final PSD permit. Under the State of Michigan's air pollution control regulations (which are based on the Federal PSD rules), such a lack of action within the prescribed time frame renders the permit void (Mich. Admin. Code r. 336.1201(4)).

A year and a half later, in June 2003, Indeck requested that MDEQ reissue the PSD permit for the proposed Indeck-

Niles Energy Center, largely as originally conceived. Indeck did not revise or supplement its initial BACT analyses, performed in November 2000, but instead relied on the information contained therein as the best available information for the permit review. One difference between the original permit and the present one relates to the NO<sub>x</sub> control technology. In its original permit application, Indeck had proposed to equip each of the four natural gas-fired combustion turbines with dry low-NO<sub>x</sub> burners and a selective catalytic reduction system to achieve a NO<sub>x</sub> BACT emissions limit, during combined cycle operations, of 3.5 parts per million dry volume at 15% oxygen averaged over a twenty-four hour rolling time period. Those proposals became part of the original permit. In the new permit, those air pollution control measures are still included; however, Indeck has also agreed to install a catalytic oxidation system on each of the four combustion turbine/dry low-NO<sub>x</sub> burner pairs, which is a more stringent technology option than previously proposed, in order to achieve the BACT limits for CO and VOCs emissions.

MDEQ subsequently reviewed and approved Indeck's BACT analyses. Accordingly, MDEQ issued a draft PSD permit to Indeck in January 2004, containing proposed terms and conditions to regulate the proposed power plant. MDEQ also published a notice inviting public comment on the draft permit and establishing a 30 day comment period. On February 25, 2004, MDEQ held a public hearing on the draft permit at the Niles High School Auditorium in Niles, Michigan. The Department received approximately sixty written and twelve oral comments on the draft permit from interested parties, including comments from Mr. Douglas Meeusen ("Petitioner"). After reviewing the public comments on the draft permit, MDEQ issued a final permit (Permit to Install No. 364-00A) on April 21, 2004, for Indeck's construction of the Niles Energy Center, along with a document responding to the comments on the draft permit.

On May 20, 2004, Petitioner filed PSD Appeal No. 04-01 with the Board. In his appeal, Petitioner raised concerns about the startup and shutdown frequency of the proposed facility's combustion turbines. Under Indeck's PSD permit, each turbine is allowed to operate in startup/shutdown mode a maximum of 500 hours per twelve-month rolling time period, as determined at the end of each calendar month, or a total of 2,000 hours for the four turbines annually. The Petitioner challenged special condition 5.8 of the permit which provides that

Indeck must prepare a plan ("emission minimization plan") to minimize air pollutant emissions during startup and shutdown periods, as well as malfunction periods, and obtain MDEQ's approval of this plan prior to initiating operation of the combustion turbines and duct burners. The Petitioner pointed out that, in his comments on the draft version of the permit, he had asked MDEQ to provide for public scrutiny of the emissions minimization plan and to follow all the directives given to MDEQ by the EAB in a previous decision regarding Tallmadge Energy Center, Order Denying Review in Part and Remanding in Part (PSD Appeal No. 02-12, EAB May 21, 2003), regarding a similar emissions minimization plan. The Petitioner argued that MDEQ ignored the Tallmadge requirements and, as a consequence, the plan called for in Indeck's PSD permit lacks the requisite degree of specificity to allow for meaningful comment by Petitioner and other members of the public.

At the request of the Board, MDEQ submitted a response to the merits of the petition for review on June 25, 2004. In response, MDEQ distinguished the factual circumstances of this case from those in Tallmadge Energy Center. First, MDEQ noted that the Tallmadge permit explicitly exempted that facility from complying with all BACT emission limits during startup, shutdown, and malfunction periods and instead made the facility's operations contingent on the permittee's submittal of a plan describing how it would minimize emissions during those periods. Indeck's permit, MDEQ noted, does not contain such explicit exemption from all BACT limits. To the contrary, MDEQ observed that Indeck's permit incorporates annual BACT emission limitations (expressed in terms of tons per year) that must be met at all times, including during startup, shutdown, and malfunction periods, and it also contains restrictions on the amount of time the turbines can be in startup/shutdown mode and sets forth a minimum load requirement of ninety percent that defines when startup is completed. Second, MDEQ responded to any latent concerns that might exist about the Indeck permit's exclusions of the facility from short-term (*i.e.*, hourly, daily) BACT concentration limits during startup and shutdown periods. Specifically, MDEQ explained that due to the nature of operations during startup and shutdown, involving lower and inconsistent combustion temperatures, the proposed facility will not be capable of always meeting the

short-term concentration limits in those periods. In addition, MDEQ stated that, unlike the situation in Tallmadge, Indeck's permit does not "rely on a startup, shutdown and malfunction plan to establish permitting requirements in lieu of emission limits that satisfy BACT." In MDEQ's view, the permit required Indeck to submit a plan to minimize emissions during these periods. MDEQ, however, did not consider that plan a substitute for the BACT limits contained in the permit. Since Indeck's PSD permit does not completely exempt startup/shutdown from BACT limitations, the Board declined the basis for invoking Tallmadge Generating Station and Rockgen Energy Center (an electric power generating case out of the State of Wisconsin and cited as precedent in Tallmadge). The Board remanded the PSD permits in both of those cases because the permits contained blanket exemptions from BACT emissions limits during startup and shutdown periods, contrary to the directives of the Clean Air Act (CAA), as interpreted by EPA policymakers. In the Indeck case, however, the PSD permit explicitly establishes BACT emissions limits for NO<sub>x</sub>, CO, VOCs, and particulate matter, on a tons per twelve-month rolling time period basis (as determined at the end of each calendar month), including all periods of startup, shutdown, and malfunction. The permit also has a provision limiting total startup/shutdown event time to 2,000 hours per year (500 hours per individual turbine) and defining "startup" as "the period of time from initiation of combustion firing until the unit reaches steady state operation (loads greater than 90 percent)." In these circumstances, EAB determined that it would be inappropriate to construe Tallmadge and Rockgen as establishing bright-line rules for every case in which the PSD permit contains a startup/shutdown emissions minimization plan.

On September 30, 2004, for the foregoing reasons, the Board denied the petition for review of PSD Permit No. 364-00A.

Dated: April 22, 2005.

BILLING CODE 6560-50-P

**ENVIRONMENTAL PROTECTION AGENCY**

[Docket Number ORD-2005-0013; FRL-7906-6]

**Board of Scientific Counselors, Computational Toxicology Subcommittee Meeting—May 2005**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of meeting.

**SUMMARY:** Pursuant to the Federal Advisory Committee Act, Pub. L. 92-463, the Environmental Protection Agency, Office of Research and Development (ORD), announces a meeting (via conference call) of the Board of Scientific Counselors (BOSC) Computational Toxicology Subcommittee.

**DATES:** The conference call will be held Friday, May 20, 2005, from 10 a.m. to 11 a.m. eastern standard time (e.s.t.), and may adjourn early if all business is completed. Written comments, and requests for the draft agenda or for making oral presentations at the meeting will be accepted up to 1 business day before the meeting date.

**ADDRESSES:** *Conference call:* Participation in the conference call will be by teleconference only—meeting rooms will not be used. Members of the public may obtain the call-in number and access code for the call from Lorelei Kowalski, whose contact information is listed under the **FOR FURTHER INFORMATION CONTACT** section of this notice.

**Document Availability**

Any member of the public interested in receiving a draft BOSC agenda or making an oral presentation during the conference call may contact Ms. Lorelei Kowalski, Designated Federal Officer, whose contact information is listed under the **FOR FURTHER INFORMATION CONTACT** section of this notice. In general, each individual making an oral presentation will be limited to a total of three minutes. The draft agenda can be viewed through EDOCKET, as provided in Unit I.A. of the **SUPPLEMENTARY INFORMATION** section.

**Submitting Comments**

Written comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I.B. of this section. Written comments will be accepted up to 1 business day prior to the conference call date.

**FOR FURTHER INFORMATION CONTACT:** Ms. Lorelei Kowalski, Designated Federal

Officer, via telephone/voice mail at (202) 564-3408, via e-mail at [kowalski.lorelei@epa.gov](mailto:kowalski.lorelei@epa.gov), or by mail at Environmental Protection Agency, Office of Research and Development, Mail Code 8104-R, 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

**SUPPLEMENTARY INFORMATION:****I. General Information**

This notice announces a meeting (via conference call) of the BOSC Computational Toxicology Subcommittee. The purpose of the meeting is to finalize a draft letter report on EPA's Computational Toxicology Research Center. Proposed agenda items for the conference call include, but are not limited to: Presentations of the Subcommittee's draft responses to the charge questions and approval of the final draft letter report prior to its submission to the BOSC Executive Committee. The conference call is open to the public.

**A. How Can I Get Copies of Related Information?**

1. *Docket.* EPA has established an official public docket for this action under Docket ID No. ORD-2005-0013. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Documents in the official public docket are listed in the index in EPA's electronic public docket and comment system, EDOCKET. Documents are available either electronically or in hard copy. Electronic documents may be viewed through EDOCKET. Hard copies of the draft agenda may be viewed at the Board of Scientific Counselors, Computational Toxicology Subcommittee Meeting—Spring 2005 Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the ORD Docket is (202) 566-1752.

2. *Electronic Access.* You may access this **Federal Register** document electronically through the EPA Internet under the Federal Register listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EDOCKET. You may use EDOCKET at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those

documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket identification number (ORD-2005-0013).

For those wishing to make public comments, it is important to note that EPA's policy is that comments, whether submitted electronically or on paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA's electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks mailed or delivered to the docket will be transferred to EPA's electronic public docket. Written public comments mailed or delivered to the Docket will be scanned and placed in EPA's electronic public docket.

**B. How and to Whom Do I Submit Comments?**

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket identification number (ORD-2005-0013) in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period.

1. *Electronically.* If you submit an electronic comment as prescribed below, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment, and it allows EPA to contact you if further information on the substance of the comment is needed or if your comment cannot be read due to technical difficulties. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment placed in the official public docket and made available in EPA's electronic public docket. If EPA cannot

read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. **EDOCKET.** Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EDOCKET at <http://www.epa.gov/edocket/>, and follow the online instructions for submitting comments. To access EPA's electronic public docket from the EPA Internet Home Page, <http://www.epa.gov>, select "Information Sources," "Dockets," and "EDOCKET." Once in the system, select "search," and then key in Docket ID No. ORD-2005-0013. The system is an anonymous access system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. **E-mail.** Comments may be sent by electronic mail (e-mail) to [ORD.Docket@epa.gov](mailto:ORD.Docket@epa.gov), Attention Docket ID No. ORD-2005-0013. In contrast to EPA's electronic public docket, EPA's e-mail system is not an anonymous access system. If you send an e-mail comment directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

iii. **Disk or CD ROM.** You may submit comments on a disk or CD ROM mailed to the mailing address identified in Unit I.B.2. These electronic submissions will be accepted in Word, WordPerfect or rich text files. Avoid the use of special characters and any form of encryption.

2. **By Mail.** Send your comments to: U.S. Environmental Protection Agency, ORD Docket, EPA Docket Center (EPA/DC), Mailcode: 28221T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, Attention Docket ID No. ORD-2005-0013.

3. **By Hand Delivery or Courier.** Deliver your comments to: EPA Docket Center (EPA/DC), Room B102, EPA West Building, 1301 Constitution Avenue, NW., Washington, DC, Attention Docket ID No. ORD-2005-0013 (**Note:** this is not a mailing address). Such deliveries are only accepted during the docket's normal hours of operation as identified in Unit I.A.1.

Dated: April 27, 2005.

**Kevin Y. Teichman,**

*Director, Office of Science Policy.*

## ENVIRONMENTAL PROTECTION AGENCY

[OPP-2005-0084; FRL-7712-2]

### Dimethoate; Notice of Receipt of Requests to Voluntarily Cancel or Amend to Terminate Uses of Certain Pesticide Registrations

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by registrants to amend or voluntarily cancel their registrations to terminate certain uses of products containing the pesticide dimethoate [*O,O*-dimethyl *S*-(*N*-methylcarbamoylmethyl) phosphorodithioate]. Most dimethoate products registered for use in the United States will remain registered for certain other uses. EPA intends to approve these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of these requests, or unless the registrants withdraw their requests within this period. Upon approval of these requests, any sale, distribution, or use of products listed in this notice will be permitted only if such sale, distribution, or use is consistent with the terms as described in the final order.

**DATES:** Comments, identified by docket ID number OPP-2005-0084, must be received on or before June 3, 2005.

**ADDRESSES:** Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION.**

**FOR FURTHER INFORMATION CONTACT:** Stephanie Plummer, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 305-0076; fax number: (703) 308-7042; e-mail address: [plummer.stephanie@epa.gov](mailto:plummer.stephanie@epa.gov).

**SUPPLEMENTARY INFORMATION:**

## I. General Information

### A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders, including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

### B. How Can I Get Copies of this Document and Other Related Information?

1. **Docket.** EPA has established an official public docket for this action under docket identification (ID) number OPP-2005-0084. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. **Electronic access.** You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket ID number.

Certain types of information will not be placed in the EPA Dockets. Information claimed as CBI and other information whose disclosure is restricted by statute, which is not

included in the official public docket, will not be available for public viewing in EPA's electronic public docket. EPA's policy is that copyrighted material will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. To the extent feasible, publicly available docket materials will be made available in EPA's electronic public docket. When a document is selected from the index list in EPA Dockets, the system will identify whether the document is available for viewing in EPA's electronic public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. EPA intends to work towards providing electronic access to all of the publicly available docket materials through EPA's electronic public docket.

For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA's electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks that are mailed or delivered to the docket will be transferred to EPA's electronic public docket. Public comments that are mailed or delivered to the docket will be scanned and placed in EPA's electronic public docket. Where practical, physical objects will be photographed, and the photograph will be placed in EPA's electronic public docket along with a brief description written by the docket staff.

#### *C. How and to Whom Do I Submit Comments?*

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be

marked "late." EPA is not required to consider these late comments. If you wish to submit CBI or information that is otherwise protected by statute, please follow the instructions in Unit I.D. Do not use EPA Dockets or e-mail to submit CBI or information protected by statute.

1. *Electronically.* If you submit an electronic comment as prescribed in this unit, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *EPA Dockets.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket/>, and follow the online instructions for submitting comments. Once in the system, select "search," and then key in docket ID number OPP-2005-0084. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. *E-mail.* Comments may be sent by e-mail to [opp-docket@epa.gov](mailto:opp-docket@epa.gov). Attention: Docket ID Number OPP-2005-0084. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

iii. *Disk or CD ROM.* You may submit comments on a disk or CD ROM that

you mail to the mailing address identified in Unit I.C.2. These electronic submissions will be accepted in WordPerfect or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By mail.* Send your comments to: Public Information and Records Integrity Branch (PIRIB) (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, 1200 Pennsylvania Ave., NW, Washington, DC 20460-0001, Attention: Docket ID Number OPP-2005-0084.

3. *By hand delivery or courier.* Deliver your comments to: Public Information and Records Integrity Branch (PIRIB), Office of Pesticide Programs (OPP), Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA, Attention: Docket ID Number OPP-2005-0084. Such deliveries are only accepted during the docket's normal hours of operation as identified in Unit I.B.1.

#### *D. How Should I Submit CBI to the Agency?*

Do not submit information that you consider to be CBI electronically through EPA's electronic public docket or by e-mail. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

#### *E. What Should I Consider as I Prepare My Comments for EPA?*

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.

2. Describe any assumptions that you used.

3. Provide any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at your estimate.

5. Provide specific examples to illustrate your concerns.

6. Offer alternatives.

7. Make sure to submit your comments by the comment period deadline identified.

8. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your response. It would also be helpful if you provided the name, date, and Federal Register citation related to your comments.

## II. Background on the Receipt of Requests to Cancel and/or Amend Registrations to Delete Uses

This notice announces receipt by EPA of requests from all of the affected dimethoate end-use registrants to cancel dimethoate product registrations or amend their registrations so as to terminate all use of dimethoate on apples, broccoli raab, cabbage, collards, fennel, grapes, head lettuce, lespedeza, spinach, tomatillo, and trefoil. Dimethoate is a systemic organophosphate insecticide.

Dimethoate will remain registered for use on a variety of other vegetables, fruit, field crops, trees, and ornamental plants. In letters submitted between November 2004 and March 2005, dimethoate end-use registrants requested that EPA cancel end-use product registrations or amend end-use product registrations to terminate use on apples, broccoli raab, cabbage, collards, fennel, grapes, head lettuce, lespedeza, spinach, tomatillo, and trefoil. The registrants requested 1 year from the date of cancellations of these registrations/uses for the distribution of their existing stocks of products with the current labels. The registrants also requested that the 180-day comment period be waived in favor of a 30-day comment period, allowing for a quicker cancellation of these uses. Only one of the currently active dimethoate products would be canceled, and the majority of dimethoate uses are not affected by this request.

## III. What Action is the Agency Taking?

This notice announces receipt by EPA of requests from registrants to cancel dimethoate products or amend their registrations to terminate certain uses of dimethoate product registrations. The affected products and the registrants making the requests are identified in Tables 1 and 2 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request at any time that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or

2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The dimethoate registrants have requested that EPA waive the 180-day comment period; therefore, EPA will provide a 30-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued canceling or amending the affected registrations.

TABLE 1.—DIMETHOATE PRODUCT REGISTRATIONS WITH PENDING REQUESTS FOR AMENDMENT

| Registration No. | Product Name   | Company                                  |
|------------------|--|--|

#### IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

### V. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before June 3, 2005. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

### VI. Provisions for Disposition of Existing Stocks

Upon the close of the comment period for this Notice, EPA expects to issue an order granting the requests for voluntary cancellation and amendments for the products identified in Tables 1 and 2, and to include in the order provisions regarding the status of existing stocks of the pesticides. Existing stocks are defined in EPA's existing stocks policy (56 FR 29362, June 26, 1991) as those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation or amendment of their registration. Any distribution, sale, or use of existing stocks, except as provided in the amendment or cancellation order, would be considered a violation of section 12(a)(2)(K) and/or 12(a)(1)(A) of FIFRA.

In any order issued in response to these requests for cancellation or amendment to terminate certain uses, EPA proposes to include the following provisions for the treatment of any existing stocks of the products identified or referenced in Table 1 or 2:

1. *Distribution or sale of products by the registrant labeled for use on apples, broccoli raab, cabbage, collards, fennel, grapes, head lettuce, lespedeza, spinach, tomatillo, and trefoil:*

The registrant of any product listed in Table 1 or 2 may distribute or sell existing stocks of the product bearing labels for use on apples, broccoli, raab, cabbage, collards, fennel, grapes, head lettuce, lespedeza, spinach, tomatillo, or trefoil for 1 year after the effective date of the cancellation or amendment order. The distribution or sale of existing stocks by the registrant of any product listed in Table 1 or 2 will not be lawful under FIFRA 1 year after the effective date of the cancellation or amendment order, except for the purposes of shipping such stocks for export

consistent with section 17 of FIFRA or for proper disposal.

2. *Distribution, sale, or use of products by persons other than the registrant labeled for use on apples, broccoli raab, cabbage, collards, fennel, grapes, head lettuce, lespedeza, spinach, tomatillo, and trefoil:*

Any person other than the registrant may distribute, sell, and use existing stocks of any product listed in Table 1 or 2 that is labeled for use on apples, broccoli raab, cabbage, collards, fennel, grapes, head lettuce, lespedeza, spinach, tomatillo, and trefoil after the effective date of the cancellation or amendment order and until such existing stocks are exhausted.

### List of Subjects

Environmental protection, Pesticides and Pests.

Dated: April 26, 2005.

### ENVIRONMENTAL PROTECTION AGENCY

[OPP-2005-0111; FRL-7710-6]

#### Aminoethoxyvinylglycine hydrochloride (Aviglycine HCl); Notice of Filing a Pesticide Petition to Establish a Tolerance for a Certain Pesticide Chemical in or on Food

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces the initial filing of a pesticide petition proposing the establishment of regulations for residues of a certain pesticide chemical in or on various food commodities.

**DATES:** Comments, identified by docket identification (ID) number OPP-2005-0111, must be received on or before June 3, 2005.

**ADDRESSES:** Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**.

**FOR FURTHER INFORMATION CONTACT:** Denise Greenway, Biopesticides and Pollution Prevention Division (7511C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number:

(703) 308-8263; e-mail address: [greenway.denise@epa.gov](mailto:greenway.denise@epa.gov).

### SUPPLEMENTARY INFORMATION:

#### I. General Information

##### A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS 111)
- Animal production (NAICS 112)
- Food manufacturing (NAICS 311)
- Pesticide manufacturing (NAICS 32532)

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

##### B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket identification (ID) number OPP-2005-0111. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA

Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

Certain types of information will not be placed in the EPA Dockets. Information claimed as CBI and other information whose disclosure is restricted by statute, which is not included in the official public docket, will not be available for public viewing in EPA's electronic public docket. EPA's policy is that copyrighted material will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. To the extent feasible, publicly available docket materials will be made available in EPA's electronic public docket. When a document is selected from the index list in EPA Dockets, the system will identify whether the document is available for viewing in EPA's electronic public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. EPA intends to work towards providing electronic access to all of the publicly available docket materials through EPA's electronic public docket.

For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA's electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks that are mailed or delivered to the docket will be transferred to EPA's electronic public docket. Public comments that are mailed or delivered to the docket will be scanned and placed in EPA's electronic public docket. Where practical, physical

objects will be photographed, and the photograph will be placed in EPA's electronic public docket along with a brief description written by the docket staff.

#### *C. How and To Whom Do I Submit Comments?*

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments. If you wish to submit CBI or information that is otherwise protected by statute, please follow the instructions in Unit I.D. Do not use EPA Dockets or e-mail to submit CBI or information protected by statute.

1. *Electronically.* If you submit an electronic comment as prescribed in this unit, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *EPA Dockets.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket/>, and follow the online instructions for submitting comments. Once in the system, select "search," and then key in docket ID number OPP-2005-0111. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. *E-mail.* Comments may be sent by e-mail to [opp-docket@epa.gov](mailto:opp-docket@epa.gov), Attention: Docket ID number OPP-2005-0111. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

iii. *Disk or CD ROM.* You may submit comments on a disk or CD ROM that you mail to the mailing address identified in Unit I.C.2. These electronic submissions will be accepted in WordPerfect or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By mail.* Send your comments to: Public Information and Records Integrity Branch (PIRIB) (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001, Attention: Docket ID number OPP-2005-0111.

3. *By hand delivery or courier.* Deliver your comments to: Public Information and Records Integrity Branch (PIRIB), Office of Pesticide Programs (OPP), Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA, Attention: Docket ID number OPP-2005-0111. Such deliveries are only accepted during the docket's normal hours of operation as identified in Unit I.B.1.

#### *D. How Should I Submit CBI to the Agency?*

Do not submit information that you consider to be CBI electronically through EPA's electronic public docket or by e-mail. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does

not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

#### *E. What Should I Consider as I Prepare My Comments for EPA?*

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Make sure to submit your comments by the deadline in this notice.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

#### **II. What Action is the Agency Taking?**

EPA has received a pesticide petition as follows proposing the establishment and/or amendment of regulations for residues of a certain pesticide chemical in or on various food commodities under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a. EPA has determined that this petition contains data or information regarding the elements set forth in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the petition. Additional data may be needed before EPA rules on the petition.

#### **List of Subjects**

Environmental protection, Agricultural commodities, Feed additives, Food additives, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: April 18, 2005.

**Janet L. Anderson,**

*Director, Biopesticides and Pollution Prevention Division, Office of Pesticide Programs.*

#### **Summary of Petition**

The petitioner summary of the pesticide petition is printed below as required by FFDCA section 408(d)(3). The summary of the petition was prepared by the petitioner and represents the view of the petitioner. The petition summary announces the availability of a description of the analytical methods available to EPA for the detection and measurement of the pesticide chemical residues or an explanation of why no such method is needed.

#### **Valent BioSciences Corp.**

##### *PP 6F4632*

EPA has received a pesticide petition 6F4632 from Valent BioSciences Corp., 870 Technology Way, Libertyville, IL 60048, proposing pursuant to section 408(d) of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a(d), to amend 40 CFR part 180 to establish an exemption from the requirement of a tolerance for the biochemical pesticide Aminoethoxyvinylglycine hydrochloride (Aviglycine HCl or AVG) in or on walnut and cucumber.

Pursuant to section 408(d)(2)(A)(i) of the FFDCA, as amended, Valent BioSciences Corp. has submitted the following summary of information, data, and arguments in support of their pesticide petition. This summary was prepared by Valent BioSciences Corp. and EPA has not fully evaluated the merits of the pesticide petition. The summary may have been edited by EPA if the terminology used was unclear, the summary contained extraneous material, or the summary unintentionally made the reader conclude that the findings reflected EPA's position and not the position of the petitioner.

#### *A. Product Name and Proposed Use Practices*

Aviglycine HCl (AVG) is a plant growth regulator used in preventing pistillate flower abortion (PFA) in walnuts, thereby increasing yield. AVG is the active ingredient (ai) in ReTain Plant Growth Regulator (EPA Reg. 73049-45) and ReTain Plant Growth Regulator for California (EPA Reg. No. 73049-58). The proposed use is for a

single application to orchards when 5 to 10% of each of the trees is in bloom in order to increase the fruit set in walnut cultivars that suffer a high incidence of PFA. The proposed use rate for walnuts is 50 - 100 grams a.i./acre (0.73 - 1.46 lbs of ReTain® per acre targeting 125 parts per million (ppm) AVG in the spray solution) in a spray volume of 100 gallons per acre for small trees, 200 gallons per acre for large trees.

Aviglycine HCl is a plant growth regulator effective in inducing staminate (male) flowers on gynoeocious (all female) breeding lines of cucurbits used in seed production. AVG is the ai in ReTain Plant Growth Regulator (EPA Reg. 73049-45) and ReTain Plant Growth Regulator for California (EPA Reg. No. 73049-58). The proposed use is for one to four applications of ReTain to cucumber plants at early first leaf stage through to the tenth leaf stage. The proposed use rate for cucumbers is 19 to 48 grams a.i./acre (0.28 - 0.7 lbs of ReTain® per acre targeting 250 to 500 ppm AVG in the spray solution) in a spray volume of 10 to 25 gallons per acre to ensure good coverage.

#### *B. Product Identity/Chemistry*

*1. Identity of the pesticide and corresponding residues.* A study designed to determine whether uptake, translocation and metabolism of AVG occurs in apples identified seven minor metabolites in addition to the primary metabolite, *N*-acetyl aviglycine HCl. The study was not meant as a measure of the amount of AVG residues and metabolites found in apples under normal field conditions. The only significant incorporation of AVG in apple tissues, following brush-on application at high rates, resulted from absorption from the peel rather than translocation from the leaves. AVG is also metabolized in the tissues to form *N*-acetyl aviglycine HCl and several other minor metabolites, and is partially degraded on the apple surface to water-soluble products that may be formed due to microbial and/or photodegradative action.

*2. Magnitude of residue at the time of harvest and method used to determine the residue.* It is improbable that the proposed early season use of aviglycine HCl, as a means of preventing PFA, would result in measurable residues in the meat of walnuts. The proposed timing of application to walnut trees is early to mid-bloom. The use precludes direct applications to walnut fruit which are not yet present on the trees and are harvested 3-5 months after application. The edible portion of the nut is further protected by the hull and shell surrounding the nut. Translocation

of aviglycine HCl residues within treated plants was examined in studies of AVG metabolism in apple trees. There is minimal translocation of aviglycine HCl within plants. Residues of AVG will degrade over time on and in treated plant tissue. As a result, the potential for measurable residues of aviglycine HCl on the harvested edible portion of walnuts following application of ReTain to control PFA in walnuts is negligible.

The proposed use of aviglycine HCl on cucumbers is for seed production only. The proposed use is for an early season application to immature plants. There is minimal translocation of aviglycine HCl within plants. Residues of AVG will degrade over time on and in treated plant tissue. Therefore it is unlikely residual AVG will be present in the fruit or seed at the time the seed is harvested. There are also two generations between the seed production use of ReTain and generation of a commercial edible plant product from that seed. Cucurbit seed is mechanically harvested with specialized equipment that destroys the fruit to obtain the seed. As a result, the potential for measurable residues of aviglycine HCl on the harvested edible portion of commercially grown cucumbers following application of ReTain as a means of inducing male flowers in seed production 2-generations before commercial harvest is negligible. Analytical methods for the detection of aviglycine HCl have been submitted to EPA in support of petitions for tolerances on pome and stone fruit. An analytical method for detection of aviglycine HCl residues in or on walnuts or cucumbers is not required. There is negligible potential for measurable residues of aviglycine HCl on walnuts or cucumbers as a result of the proposed use of ReTain and an exemption from the requirements of a tolerance for both walnuts and cucumbers is being sought.

3. *A statement of why an analytical method for detecting and measuring the levels of the pesticide residue are not needed.* An analytical method for detection of aviglycine HCl residues in walnuts or cucumbers is not required. The proposed uses of aviglycine HCl on walnuts is for a single season application of ReTain at a rate of 50 to 100 g a.i./acre, applied to walnut trees early to mid-bloom to control pistillate flower abortion. It is highly unlikely that this early season application at low rates would result in measurable residues in the harvested meat of walnuts. Therefore, it should not be necessary to establish a tolerance for this use. Residue studies, methods

supporting the analysis and methods of analysis for purpose of enforcement would similarly not be required.

The proposed use of aviglycine HCl is one to four early season applications of ReTain to breeding lines of cucumbers for seed production. ReTain is not proposed for use on cucumbers destined for commercial harvest and it is highly unlikely that application to cucumbers grown for seed production could or would result in measurable residues in the cucumbers grown commercially from progeny of that seed. Therefore, it should not be necessary to establish a tolerance for this use. Residue studies, methods supporting the analysis and methods of analysis for purpose of enforcement would similarly not be required.

#### C. Mammalian Toxicological Profile

1. *Acute toxicity.* Aviglycine HCl has low acute oral, dermal, and inhalation toxicity. The oral lethal dose (LD<sub>50</sub>) in rats is >5,000 milligrams/kilogram (mg/kg), the dermal LD<sub>50</sub> is >2,000 mg/kg and the inhalation 4-hour lethal concentration (LC<sub>50</sub>) is >5.00 milligrams/Liter (mg/L) air. AVG is not a skin sensitizer in guinea pigs, and is not irritating to the skin and eyes of rabbits. End-use formulations of AVG have similar low acute toxicity profiles.

2. *Genotoxicity.* AVG does not induce gene mutations in bacterial and mammalian cells, chromosome aberrations in mammalian cells or deoxyribonucleic acid (DNA) damage in bacterial cells in *in vitro* test systems. Similarly, it does not exhibit a clastogenic effect *in vivo* in the rat micronucleus test. Therefore, there is no evidence to suggest a genotoxic hazard at any of the three main levels of genetic organization.

3. *Reproductive and developmental toxicity.* In the rabbit developmental toxicity study with AVG, there was no evidence of teratogenicity or other embryotoxic effects at the highest dose levels, although maternal toxicity was evident. The rabbit maternal no observed adverse effect level (NOAEL) was established at 0.4 mg a.i./kg/day based on reduced body weight gains and food consumption, and decreased defecation. Developmental NOAEL was established at 0.4 mg a.i./kg/day based on fetal body weights. In the rat test the maternal NOAEL was established at 1.77 mg a.i./kg/day based on inhibition of body weight gain and reduced food consumption. The Developmental NOAEL was found to be 1.77 mg a.i./kg/day based on decreased mean fetal body weights and reduced ossification. The developmental and maternal LOELs were established at 8.06 mg/kg/day.

AVG was evaluated in a rat 2-generation reproduction study submitted by Abbott Laboratories. Based on reductions in body weight, changes in organ weights and an increased incidence of microscopic findings, the parental NOAEL was established at 0.8 mg a.i./kg/day. The NOAEL for reproductive toxicity was established at 4.0 mg a.i./kg/day and the neonatal toxicity NOAEL was established at 2.5 mg a.i./kg/day.

4. *Subchronic toxicity.* Subchronic (90-day) feeding studies were conducted with rats, mice, and dogs. In a 90-day feeding study in rats, the NOAEL was 0.4 mg a.i./kg bwt/day for males and females based on increased incidence of periportal hepatocellular vacuolation in the liver. In the 90-day feeding study in mice, the NOAEL was established at 10 mg a.i./kg/day for males and females based on decreased body weight and histopathological changes in the liver (both sexes), in the testis (males) and the adrenal (females) at 25 mg a.i./kg/day. For dogs, the NOAEL was established at 0.6 mg a.i./kg/day based on inappetence, low body weight gain and centrilobular histopathological changes in the liver at 1.2 mg a.i./kg/day.

A 21 day repeat dose dermal toxicity study in rats was carried out at 0, 100, 500, and 1,000 mg/kg/day. The no observed effect level (NOEL) is 1,000 mg/kg/day; a lowest observed effect level (LOEL) was not determined.

5. *Chronic toxicity.* Chronic studies with AVG were conducted on rats to determine oncogenic potential and/or chronic toxicity of the compound. The NOAEL for the 1 year chronic study was 0.7 mg/kg/day for males and females based on decreases in body weights, food consumption, testicular tubular and epithelial vacuolation, and pancreatic acinar cell atrophy. The rat carcinogenicity study with AVG confirmed the substance has no carcinogenic potential. There was no evidence of cell necrosis that could be a preliminary stage before tumor genesis, and time of death was similar to controls. During the 2 year carcinogenicity study, the administration of AVG at 7 mg a.i./kg/day was associated with body weight and food consumption reductions, increases in the incidence of adrenal focal medullary cell hyperplasia, testicular tubular atrophy and other associated findings in the testis and epididymis, ocular cataracts, and pancreatic lobular/acinar cell atrophy. The NOAEL was established at 0.7 mg/kg/day.

#### D. Aggregate Exposure

1. *Dietary exposure—i. Food.* There is no expected dietary exposure to residues of aviglycine HCl from the proposed early to mid-bloom use of ReTain on walnuts. No residues are expected on the commodity. Additionally, the contribution of walnuts as a percent of total diet is relatively small. It is estimated that walnuts contribute 0.009% of the diet of the general population and 0.005% to the diet of non-nursing infants. There is no expected dietary exposure to residues of aviglycine HCl from the proposed use of ReTain on cucumbers for seed production. No residues are expected on any cucumbers produced for consumption from the proposed use. Expected dietary exposures from residues of AVG would occur through apples, pears, peaches, nectarines, plums, processed pome, and stone-fruits (excluding cherries). Acute and chronic dietary exposure assessments were conducted using a Tier I approach. This Tier I assessment incorporated tolerance level residues for all commodities, assumption of 100% crop treated (CT) for all crops, default processing factors and consumption data from the 1994 through 1998 United States Department of Agriculture (USDA) Continuing Surveys of Food Intakes by Individuals (CSFII 1994, 1995, 1996, and 1998). Estimates of chronic and acute dietary exposure were calculated using Dietary Exposure Evaluation Module Food Commodity Intake Database (DEEM™-FCID™) software (Novigen, 2001). The database was used to determine chronic exposure estimates for the overall U.S. population and 24 population subgroups and acute exposure estimates for the overall U.S. population and 10 population subgroups.

The resulting exposures were compared to a chronic reference dose (RfD) of 0.007 mg a.i./kg/day and an acute NOEL of 1.77 mg/kg bwt/day. The RfD is based on the NOAEL of 0.7 mg a.i./kg/day from the rat chronic toxicity study (52 week) and the rat carcinogenicity feeding study (104-week) with a 100-fold uncertainty factor to account for intra-species and inter-species variations. The acute NOEL is based on the rat oral developmental toxicity study.

Chronic dietary exposure estimates for the overall U.S. population and 24 population subgroups, including infants and children, are well below the chronic RfD. Estimated daily exposures from tolerance level residues and a 100% CT assumption for all crops were 15.9% of the RfD or less for all populations examined. Acute dietary exposure was

estimated for the overall U.S. population and the population subgroups: (i) all infants, (ii) nursing infants, (iii) non-nursing infants, (iv) children 1 to 2 years of age, (viii) adults 20 to 49 years of age, (ix) females 13 to 49 years of age and (x) adults 50 years and older. Estimated daily exposures from tolerance level residues (at the 95<sup>th</sup> percentile) and a 100% CT assumption for all crops resulted in MOEs (Margin of Exposure) greater than 430 for all population groups examined.

The proposed agricultural uses of aviglycine HCl will not alter the results of the chronic and acute dietary exposure analyses conducted for pome fruit and stone fruit applications, which clearly demonstrated a reasonable certainty that no harm will result from the agricultural uses of AVG.

ii. *Drinking water.* AVG is highly unlikely to contaminate groundwater resources due to its high soil sorption, and short soil and water/sediment half-lives. Study results show that AVG is easily adsorbed to soils, principally onto clay particles. Half-lives in soils vary between 0.6 and 4.3 days. Water-sediment studies have shown that AVG will be readily adsorbed to sediment where it is mineralized and incorporated into the organic fraction of the sediment. Biodegradation occurs in both systems. The half-life of AVG in the aqueous phase and total water/sediment system was calculated to be approximately 1.2 and 2.3 days respectively. An AVG water concentration assessment was conducted using the EPA first Tier screening models. FIRST was used for surfacewater concentration assessment and for screening concentration in groundwater, SCI-GROW was used for groundwater assessment. There were no estimated groundwater concentrations according to SCI-GROW. Peak surfacewater concentrations estimated using FIRST were 1.283 and the estimated annual average was 0.021 parts per billion (ppb), assuming 87% CT. The contribution of drinking water to aggregate risk is considered to be negligible.

2. *Non-dietary exposure.* AVG has no product registrations for residential non-food uses. Non-occupational, non-dietary exposure for AVG has thus been estimated to be extremely small. Therefore, the potential for non-dietary exposure is insignificant.

The exposure from the commercial use is expected to be dermal in nature. A 21-day repeat dose dermal toxicity study resulted in no significant treatment related effects at 1,000 milligrams/kilogram/day (mg/kg/day), the highest dose tested (HDT).

#### E. Cumulative Exposure

Consideration of a common mechanism of toxicity is not necessary at this time because there is no indication that toxic effects of AVG would be cumulative with those of any other chemical compounds. AVG has a novel mode of action compared to other currently registered active ingredients. Therefore, Valent BioSciences Corp. believes it is appropriate to consider only the potential risks of aviglycine HCl in an aggregate risk assessment.

#### F. Safety Determination

1. *U.S. population.* Aviglycine HCl is an amino acid which has been generated through a fermentation of a soil microorganism. The proposed use of aviglycine HCl on walnuts prior to fruit development is not expected to result in measurable residues on the walnuts harvested for consumption approximately 4 months following application. Using the chronic exposure assumptions for pome and stone fruit and the proposed RfD described above, the dietary exposure to AVG for the U.S. population was calculated to be 2.2% of the RfD.

Therefore, taking into account the proposed uses, it can be concluded with reasonable certainty that residues of AVG in food and drinking water will not result in unacceptable levels of human health risk.

2. *Infants and children.* FFDC section 407 provides that EPA shall apply an additional safety factor for infants and children to account for prenatal and postnatal toxicity and the lack of completeness of the database. Only when there is no indication of increased sensitivity of infants and children and when the data base is complete, may the extra safety factor be removed. In the case of aviglycine HCl, the toxicology database is complete. There is no indication of increased sensitivity in the database overall, and specifically, there is no indication of increased sensitivity in the developmental and multi-generation reproductive toxicity studies. Therefore, Valent BioSciences Corp. concludes that there is no need for an additional safety factor and a safety factor of 100 be used for the assessment.

Using the chronic exposure assumptions and the proposed RfD described above, the dietary exposure to AVG for non-nursing infants, the most highly exposed population subgroup, was calculated to be 0.001110 mg/kg bwt/day or 15.9% of the reference dose. Daily exposure for the overall U.S. population was estimated to be 0.000153 mg/kg bwt/day. The proposed

tolerances will utilize 2.2% of the RfD for the U.S. population.

#### G. Effects on the Immune and Endocrine Systems

Lifespan, and multigenerational studies on mammals, and acute and subchronic studies on aquatic organisms and wildlife did not reveal any definite immune or endocrine effects. An

immunotoxicity study in rats at 0, 1.25, 5 and 15 mg/kg/day with a NOAEL of 5 mg/kg/day based on decreased primary antibody (IgM) response to sheep red blood cells; decreased absolute and relative thymus weights; decreased body weight, food consumption and food efficiency at the high dose level. The LOEL is 15 mg/kg/day.

Any endocrine related effects would have been detected in this definitive array of required tests. The probability of any such effect due to agricultural uses of AVG is considered negligible.

#### H. Existing Tolerances

Tolerances have been established for the residues of AVG in or on the following food commodities:

| Commodity                               | Parts per million |
|---|-------------------|
| Apples                                  | 0.08              |
| Fruit, stone, group 12, (except cherry) | 0.170             |
| Pears                                   | 0.08              |

#### I. International Tolerances

There are no Codex maximum residue limits for use of aviglycine HCl on apples or pears, or on any other crop.

BILLING CODE 6560-50-S

### ENVIRONMENTAL PROTECTION AGENCY

[OPPT-2005-0026; FRL-7713-6]

#### Approval of Test Marketing Exemption for a Certain New Chemical

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces EPA's approval of an application for test marketing exemption (TME) under section 5(h)(1) of the Toxic Substances Control Act (TSCA) and 40 CFR 720.38. EPA has designated this application as TME-05-3. The test marketing conditions are described in the TME application and in this notice.

**DATES:** Approval of this TME is effective April 27, 2005.

**FOR FURTHER INFORMATION CONTACT:** For general information contact: Colby Lintner, Regulatory Coordinator, Environmental Assistance Division (7408M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (202) 554-1404; e-mail address: [TSCA-Hotline@epa.gov](mailto:TSCA-Hotline@epa.gov).

For technical information contact: Adella Underdown, Program Manager, Chemical Control Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone

number: (202) 564-9364; e-mail address: [underdown.adella@epa.gov](mailto:underdown.adella@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

###### A. Does this Action Apply to Me?

This action is directed in particular to the chemical manufacturer and/or importer who submitted the TME to EPA. This action may, however, be of interest to the public in general. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

###### B. How Can I Get Copies of this Document and Other Related Information?

1. **Docket.** EPA has established an official public docket for this action under docket identification (ID) number OPPT-2005-0026. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the EPA Docket Center, Rm. B102-Reading Room, EPA West, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The EPA Docket Center Reading Room telephone number is (202) 566-1744 and the telephone number for the OPPT Docket, which is located in EPA Docket Center, is (202) 566-0280.

2. **Electronic access.** You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

##### II. What is the Agency's Authority for Taking this Action?

Section 5(h)(1) of TSCA and 40 CFR 720.38 authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes, if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the test marketing activity will not present an unreasonable risk of injury.

##### III. What Action is the Agency Taking?

EPA approves the above-referenced TME. EPA has determined that test

marketing the new chemical substance, under the conditions set out in the TME application and in this notice, will not present an unreasonable risk of injury to health or the environment.

#### IV. What Restrictions Apply to this TME?

The test market time period, production volume, number of customers, and use must not exceed specifications in the application and this notice. All other conditions and restrictions described in the application and in this notice must also be met.

*TME-05-03.*

*Date of Receipt:* March 14, 2005.

*Notice of Receipt:* April 8, 2005 (70 FR 18013) (FRL-7708-8).

*Applicant:* CBI.

*Chemical:* (G) Soy Polyol.

*Use:* (G) Polyurethane's market

*Production Volume:* CBI.

*Number of Customers:* CBI.

*Test Marketing Period:* CBI.

The following additional restrictions apply to this TME. A bill of lading accompanying each shipment must state that the use of the substance is restricted to that approved in the TME. In addition, the applicant shall maintain the following records until 5 years after the date they are created, and shall make them available for inspection or copying in accordance with section 11 of TSCA:

1. Records of the quantity of the TME substance produced and the date of manufacture.
2. Records of dates of the shipments to each customer and the quantities supplied in each shipment.
3. Copies of the bill of lading that accompanies each shipment of the TME substance.

#### V. What was EPA's Risk Assessment for this TME?

EPA identified no significant health or environmental concerns for the test market substance. Therefore, the test market activities will not present an unreasonable risk of injury to human health or the environment.

#### VI. Can EPA Change Its Decision on this TME in the Future?

Yes. The Agency reserves the right to rescind approval or modify the conditions and restrictions of an exemption should any new information that comes to its attention cast significant doubt on its finding that the test marketing activities will not present an unreasonable risk of injury to human health or the environment.

#### List of Subjects

Environmental protection, Test marketing exemptions.

Dated: April 27, 2005.

**Anna Coutlakis,**

*Acting Chief, New Chemicals Prenotice Management Branch, Office of Pollution Prevention and Toxics.*

### FEDERAL COMMUNICATIONS COMMISSION

#### Public Information Collections Approved by Office of Management and Budget

April 26, 2005.

**SUMMARY:** The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

**FOR FURTHER INFORMATION CONTACT:** Paul J. Laurenzano, Federal Communications Commission, 445 12th Street, SW., Washington DC 20554, (202) 418-1359 or via the Internet at [pl Laurenzano@fcc.gov](mailto:pl Laurenzano@fcc.gov).

#### SUPPLEMENTARY INFORMATION:

*OMB Control No.:* 3060-1081.

*OMB Approval Date:* 04/15/2005.

*Expiration Date:* 04/30/2008.

*Title:* Federal-State Joint Board on Universal Service Petitions for Designations as Eligible Telecommunications Carriers, CC Docket No. 96-45.

*Form No.:* N/A.

*Estimated Annual Burden:* 22 responses; 176 total annual burden hours; approximately 8 hours average per respondent.

*Needs and Uses:* In the Virginia Cellular Order (FCC 03-338), the Commission stated as part future Eligible Telecommunications Carriers (ETC) designation orders, each designated ETC will be required to submit records and documentation on an annual basis. In particular, ETCs will be required to report: (1) Progress towards meeting infrastructure build-out plans; (2) the number of consumer complaints per 1,000 handsets; and (3) information detailing the number of unfulfilled requests for service from potential customers for a twelve month period. This information collection is necessary to ensure that each ETC satisfies its obligation under section 214(e) of the Communications Act of 1934, as amended, to provide services supported by the universal service

mechanism throughout the areas for which each ETC is designated.

*OMB Control No.:* 3060-0814.

*OMB Approval date:* 03/16/2005.

*Expiration Date:* 03/31/2008.

*Title:* Section 54.301, Local Switching Support and Local Switching Support Data Collection Form and Instructions.

*Form No.:* N/A.

*Estimated Annual Burden:* 160 responses; 3,324 total annual burden hours; 5-24 hours average response time per respondent.

*Needs and Uses:* Pursuant to section 54.301, each incumbent local exchange carrier that is not a member of the NECA common line tariff, that has been designated an eligible telecommunications carriers, and that serves a study area with 50,000 or fewer access lines shall, for each study area, provide the Administrator with the projected total unseparated dollar amount assigned to each account in section 54.301(b). Average schedule companies are required to file information pursuant to section 54.301(f). Both respondents must provide true-up data. The data is necessary to calculate certain revenue requirement.

*OMB Control No.:* 3060-0512.

*OMB Approval date:* 4/15/2005.

*Expiration Date:* 4/30/2008.

*Title:* The ARMIS Annual Summary Report.

*Form No.:* FCC 43-01.

*Estimated Annual Burden:* 124 responses; 11,036 total annual burden hours; 89 hours per respondent.

*Needs and Uses:* The Annual Summary Report contains financial and operating data and is used to monitor the incumbent local exchange carrier industry and to perform routine analyses of costs and revenues on behalf of the Commission.

*OMB Control No.:* 3060-0511.

*OMB Approval date:* 4/15/2005.

*Expiration Date:* 4/30/2008.

*Title:* ARMIS Access Report.

*Form No.:* FCC Report 43-04.

*Estimated Annual Burden:* 82 responses; 12,546 total annual burden hours; 153 hours average per respondent.

*Needs and Uses:* The Access Report is needed to administer the Commission's accounting, jurisdictional separations and access charge rule; to analyze revenue requirements and rates of return, and to collect financial data from Tier 1 incumbent local exchange carriers.

*OMB Control No.:* 3060-0470.

*OMB Approval date:* 3/25/2005.

*Expiration Date:* 3/31/2008.

*Title:* Sections 64.901, Allocation of Cost; Section 64.903, Cost Allocation Manuals; and RAO Letters 19 and 26.

*Form No.:* N/A.

*Estimated Annual Burden:* 12 responses; 2,400 total annual burden hours; 200 hours average per respondent.

*Needs and Uses:* Section 64.903(a) requires LECs with annual operating revenues equal to or above the indexed revenue threshold as defined in 47 CFR 32.9000 to file a cost allocation manual containing the information specified in section 64.903(a)(1)–(6). Section 64.903(b) requires that carriers update their cost allocation manuals at least annually, except changes to the cost apportionment table and the description of time reporting procedures must be filed at time of implementation. FCC uses the manual to ensure that all costs are properly classified.

*OMB Control No.:* 3060–0410.

*OMB Approval date:* 4/15/2005.

*Expiration Date:* 4/30/2008.

*Title:* Forecast of Investment Usage Report and Actual Usage of Investment Report.

*Form No.:* FCC 499A and FCC 499B.

*Estimated Annual Burden:* 194 responses; 7,760 total annual burden hours; 40 hours average per respondent.

*Needs and Uses:* The Forecast of Investment Usage and Actual Usage of Investment Reports are needed to detect and correct forecast errors that could lead to significant misallocation of network plant between regulated and nonregulated activities. FCC's purpose is to protect the regulated ratepayer from subsidizing the nonregulated activities of rate regulated telephone companies. Only large ILECs file these reports.

*OMB Control No.:* 3060–0395.

*OMB Approval date:* 4/15/2005.

*Expiration Date:* 4/30/2008.

*Title:* The ARMIS USOA Report (ARMIS Report 43–02); The ARMIS Service Quality Report (ARMIS Report 43–05); and the ARMIS Infrastructure Report (ARMIS Report 43–07).

*Form No.:* FCC 43–02, FCC 43–05 and FCC 43–07.

*Estimated Annual Burden:* 50 responses; 20,754 total annual burden hours; 415 hours average per respondent.

*Needs and Uses:* The USOA Report provides the annual results of the carriers' activities for each account of the Uniform System of Accounts. The Service Quality Report provides service quality information in the areas of interexchange access service, installation and repair intervals, local service installation and repair intervals,

trunk blockage, and total switch downtime for price cap carriers. The Infrastructure Report provides switch deployment and capabilities data.

*OMB Control No.:* 3060–0384.

*OMB Approval date:* 3/7/2005.

*Expiration Date:* 3/31/2008.

*Title:* Auditor's Attestation and Certification—47 CFR sections 64.904 and 64.905.

*Form No.:* N/A.

*Estimated Annual Burden:* 15 responses; 1,545 total annual burden hours; 103 hours average per respondent.

*Needs and Uses:* Each incumbent local exchange carrier required to file a cost allocation manual is required to have either an attest engagement or a financial audit performed by an independent auditor biennially. Mid-sized carriers are required to file a certification with the Commission stating that they are in compliance with 47 CFR section 64.901. The requirements are imposed to ensure that the carriers are properly complying with Commission rules. They serve as an important aid in the Commission's monitoring program.

*OMB Control No.:* 3060–0370.

*OMB Approval date:* 4/15/2005.

*Expiration Date:* 4/30/2008.

*Title:* Part 32—Uniform System of Accounts for Telecommunications Companies.

*Form No.:* N/A.

*Estimated Annual Burden:* 239 responses; 1,516,702 total annual burden hours; 104–26,195 hours average per respondent.

*Needs and Uses:* The Uniform System of Accounts is a historical financial accounting system which reports the results of operational and financial events in a manner which enables both managements and regulators to assess these results within a specified accounting period. Subject respondents are telecommunications companies. Entities having annual revenues from regulatory telecommunications operations of less than \$123 million are designated as Class B and are subject to a less detailed accounting system than those designated as Class A companies.

*OMB Control No.:* 3060–0056.

*OMB Approval date:* 4/13/2005.

*Expiration Date:* 4/30/2008.

*Title:* Part 68—Connection of Terminal Equipment to the Telephone Network.

*Form No.:* N/A.

*Estimated Annual Burden:* 70,450 responses; 32,027 total annual burden hours; .05–24 hours average per respondent.

*Needs and Uses:* The purpose of 47 CFR part 68 is to protect the network

from certain types of harm and interference to other subscribers. To ensure that consumers, providers of telecommunications, the Administrative Council, TCBS, and the Commission are able to trace products to the party responsible for placing terminal equipment on the market, it is essential to require manufacturers and suppliers to provide the information required by part 68.

Federal Communications Commission.

BILLING CODE 6712–01–P

## FEDERAL COMMUNICATIONS COMMISSION

### Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

April 26, 2005.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Written Paperwork Reduction Act (PRA) comments should be submitted on or before June 3, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all comments regarding this Paperwork Reduction Act submission to Judith B. Herman, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., DC 20554 or via the Internet to *Judith-B.Herman@fcc.gov*.

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collection(s), contact Judith B. Herman at 202-418-0214 or via the Internet at *Judith-B.Herman@fcc.gov*.

**SUPPLEMENTARY INFORMATION:**

*OMB Control No.:* 3060-0805.

*Title:* Section 90.527, Regional Plan Requirements; Section 90.523, Eligibility; and Section 90.545, TV/DTV Interference Protection Criteria  
*Form No:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

*Number of Respondents:* 21,055 respondents; 21,175 responses.

*Estimated Time Per Response:* 2-982 hours.

*Frequency of Response:* On occasion and one-time reporting requirements and third party disclosure requirement.

*Total Annual Burden:* 186,082 hours.  
*Total Annual Cost:* N/A.

*Privacy Act Impact Assessment:* N/A.

*Needs and Uses:* The Commission is submitting this information collection to the Office of Management and Budget (OMB) to request extension (no change) to this information collection. Section 90.523 requires that nongovernmental organizations that provide services which protect the safety of life, or property, obtain a written statement from an authorizing state or local government entity to support the nongovernmental organization's application for the assignment of 700 MHz radio frequencies. Under Section 90.527 in order to prepare the regional plans for the 700 MHz band, the regional planning committees will require input from those entities within their regions that will be eligible to receive licenses under the plans. Thus, the entities that seek inclusion in the plan in order to obtain licenses will be third party respondents. Section 90.545 requires that public safety applicants select one of three ways to meet TV/DTV interference protection requirements: (1) Utilize the geographic separation in the rule; (2) submit an engineering study to justify other separations; or (3) obtain concurrence from applicable TV/DTV station(s). This will reduce the potential for interference to public reception of the signals of existing TV and DTV broadcast stations

transmitting on TV channels 62, 63, 64, 65, 67, 68 or 69. Commission personnel will use the information it obtains to assign licenses, and also use the information to determine regional spectrum requirements and to develop technical standards. The information will also be used to determine whether prospective licensees will operate in compliance with the Commission's rules. Without such information, the Commission could not accommodate regional requirements or provide for the optimal use of the available frequencies.

Federal Communications Commission.

## FEDERAL COMMUNICATIONS COMMISSION

### Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

April 27, 2005.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Written Paperwork Reduction Act (PRA) comments should be submitted on or before July 5, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of

time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all Paperwork Reduction Act (PRA) comments to Les Smith, Federal Communications Commission, Room 1-A804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to *Leslie.Smith@fcc.gov*.

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collection(s), contact Les Smith at (202) 418-0217 or via the Internet at *Leslie.Smith@fcc.gov*.

**SUPPLEMENTARY INFORMATION:** *OMB*

*Control Number:* 3060-0065.

*Title:* Application for New or Modified Radio Stations Authorization Under Part 5 of the FCC Rules—Experimental Radio Service, FCC Form 442.

*Form Number:* FCC 442.

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business or other for-profit; Not-for-profit institutions; and State, Local or Tribal Government.

*Number of Respondents:* 200.

*Estimated Time per Response:* 4 hours.

*Frequency of Response:* On occasion reporting requirements.

*Total Annual Burden:* 1,120 hours.

*Total Annual Cost:* \$16,500.

*Privacy Impact Assessment:* No impact(s).

*Needs and Uses:* On August 23, 2003, the Commission released an *Order, Amendment of Part 5 of the Commission's Rules to Require Electronic Filing of Applications for Experimental Radio Licenses and Authorizations, FCC 03-207*. The *Order* was published in the *Federal Register* on October 15, 2003 (68 FR 59335). Mandatory electronic filing of applications for Experimental Radio licenses, including FCC Form 442 commenced on January 1, 2004. This change is reflected in the amendments to part 5 of the Commission's rules, 47 CFR 5.1-5.125.

Applicants that require an FCC license to operate a new or modified experimental radio station must file FCC Form 442, as required by 47 CFR 5.55 (a), (b), and (c) and 5.59 of FCC Rules. The FCC's information technician and engineers use the data supplied by applicants in FCC Form 442 to determine: (1) If the applicant is eligible for an experimental license; the purpose of the experiment; compliance with the requirements of part 5 of the FCC Rules; and (2) if the proposed operation will cause interference to existing operations. Thus, the FCC cannot grant an experimental license without the information contained on this form.

Federal Communications Commission.

## FEDERAL COMMUNICATIONS COMMISSION

### Notice of Public Information Collection(s) Being Submitted to OMB for Review and Approval

April 27, 2005.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Written comments should be submitted on or before June 3, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all comments to Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC 20554 or via the Internet to [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov) or Kristy L. LaLonde, Office of Management and Budget (OMB), Room 10236 NEOB, Washington, DC 20503, (202) 395-3087 or via the Internet at [Kristy\\_L.\\_LaLonde@omb.eop.gov](mailto:Kristy_L._LaLonde@omb.eop.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information or copy of the

information collection(s) contact Cathy Williams at (202) 418-2918 or via the Internet at [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov).

#### SUPPLEMENTARY INFORMATION: OMB Control Number: 3060-0433.

*Title:* Basic Signal Leakage Performance Report.

*Form Number:* FCC Form 320.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit entities.

*Number of Respondents:* 33,500.

*Estimated Time per Response:* 20 hours.

*Frequency of Response:* Recordkeeping requirement; Annual reporting requirement.

*Total Annual Burden:* 670,000 hours.

*Total Annual Cost:* None.

*Privacy Impact Assessment:* No impact(s).

*Needs and Uses:* Cable television system operators who use frequencies in the bands 108-137 and 225-400 MHz (aeronautical frequencies) are required to file a Cumulative Leakage Index (CLI) derived under 47 CFR Section 76.611(a)(1) or the results of airspace measurements derived under 47 CFR Section 76.611(a)(2). This filing must include a description of the method by which compliance with basic signal leakage criteria is achieved and the method of calibrating the measurement equipment. This yearly filing is done in accordance with 47 CFR Section 76.1803 with the use of FCC Form 320. The data collected on the FCC Form 320 is used by the Commission staff to ensure the safe operation of aeronautical and marine radio services, and to monitor for compliance of cable aeronautical usage in order to minimize future interference to these safety of life services.

In a Public Notice (DA-04-2117) dated July 14, 2004, the Commission informed Multichannel Video Programming Distributors (MVPDs) about the requirement that all Form 320 filings must be submitted electronically as of February 1, 2005.

Federal Communications Commission.

## FEDERAL COMMUNICATIONS COMMISSION

[DA 05-699]

### Telecommunications Services Between the United States and Cuba

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice.

**SUMMARY:** This document is a summary of the International Bureau's decision to approve the application of Allied Communications International, Inc. to provide international voice and data service between the United States and Cuba. The International Bureau determined that the present and future public convenience and necessity require a grant of the application.

**DATES:** Effective March 17, 2005.

**FOR FURTHER INFORMATION CONTACT:** Peggy Reitzel, International Bureau, (202) 418-1460.

**SUPPLEMENTARY INFORMATION:** This is a summary of the International Bureau's Order, DA 05-699, adopted on March 16, 2005, and released on March 17, 2005. The full text of this document is available for inspection and copying during normal business hours in the Consumer and Government Affairs Bureau's Reference Information Center, (Room CY-A257) of the Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554. The document is also available for download over the Internet at [http://hraunfoss.fcc.gov/edocs\\_public/attachmatch/DA-05-699A1.pdf](http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-05-699A1.pdf). The complete text of this document also may be purchased from the Commission's copy contractor, Best Copy and Printing, Inc. Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone (202) 488-5300.

### Summary of Order

On March 16, 2005, the Commission approved the application of Allied Communications International, Inc. ("ACI") to provide international voice and data service between the United States and Cuba. ACI filed an application seeking authority pursuant to section 214 to provide the service via indirect transit through Mexico.

The Commission has authorized ACI to provide service between the United States and Cuba in accordance with the provisions of the Cuban Democracy Act of 1992. This will allow ACI to route its voice and data traffic via a Qwest point of presence in Florida to site facilities of Comsat International. Comsat International will then route the traffic via network facilities made available by several submarine cable systems. In addition, the Commission granted ACI's request for permission to modify its routing arrangement between the United States and Mexico as new business and technical developments may warrant. ACI will be required to notify the Commission of any such routing changes. Under the guidelines

established by the Department of State, ACI is to submit reports indicating the numbers of circuits activated by facility, on or before June 30, and December 31, of each year, and on the one-year anniversary of this notification in the **Federal Register**.

Federal Communications Commission.

## FEDERAL COMMUNICATIONS COMMISSION

[DA 05-1058]

### Consumer Advisory Committee

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice.

**SUMMARY:** In this document, the Commission announces a change in the date of the meeting of its Consumer Advisory Committee meeting (Committee).

**ADDRESSES:** Federal Communications Commission, 445 12th Street, NW., Room TW-C305, Washington, DC 20554.

**DATES:** The Consumer Advisory Committee meeting has been rescheduled for Friday June 10, 2005, 9 a.m. to 4 p.m.

**FOR FURTHER INFORMATION CONTACT:** Scott Marshall, Consumer & Governmental Affairs Bureau, (202) 418-2809 (voice), (202) 418-0179 (TTY), or e-mail [scott\\_marshall@fcc.gov](mailto:scott_marshall@fcc.gov).

#### SUPPLEMENTARY INFORMATION:

This is a summary of the Commission's document DA 05-1058, dated and released April 14, 2005.

The Committee is organized under, and operates in accordance with the provisions of the Federal Advisory Committee Act, 5 U.S.C., App. 2 (1988). Minutes of meetings are available for public inspection and are posted on the Commission's Web site at <http://www.fcc.gov/cgb/cac>. Meetings are broadcast on the Internet in Real Audio/Real Video format with captioning at <http://www.fcc.gov/cgb/cac>. Meetings are sign language interpreted with real-time transcription and assistive listening devices available. Meeting agendas and handout materials are provided in accessible formats. The meeting site is accessible to people with disabilities.

Members of the public may address the Committee or may send written comments to: Scott Marshall, Designated Federal Officer of the Committee.

To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an e-mail to [fcc504@fcc.gov](mailto:fcc504@fcc.gov) or call the Consumer & Governmental Affairs Bureau at (202) 418-0530 (voice), (202) 418-0432 (TTY).

Federal Communications Commission.

## FEDERAL MARITIME COMMISSION

### Notice of Agreements Filed

The Commission hereby gives notice of the filing of the following agreements under the Shipping Act of 1984. Interested parties may obtain copies of agreements by contacting the Commission's Office of Agreements at (202) 523-5793 or via e-mail at [tradeanalysis@fmc.gov](mailto:tradeanalysis@fmc.gov). Interested parties may submit comments on an agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days of the date this notice appears in the **Federal Register**.

**Agreement No.:** 011375-063.

**Title:** Trans-Atlantic Conference Agreement.

**Parties:** Atlantic Container Line AB; A. P. Moller-Maersk A/S; Hapag-Lloyd Container Linie GmbH; Mediterranean Shipping Company, S.A.; Nippon Yusen Kaisha; Orient Overseas Container Line Limited; and P&O Nedlloyd Limited.

**Filing Party:** Wayne R. Rohde, Esq.; Sher & Blackwell; 1850 M Street, NW., Suite 900; Washington, DC 20036.

**Synopsis:** The amendment adds a provision dealing with the payment of civil penalties.

**Agreement No.:** 011435-008.

**Title:** APL/TMM/Lykes Space Charter Agreement.

**Parties:** American President Lines, Ltd.; APL Co. Pte Ltd.; Lykes Lines Limited, LLC and TMM Lines Limited, LLC.

**Filing Party:** Wayne R. Rohde, Esq.; Sher & Blackwell; 1850 M Street, NW., Suite 900; Washington, DC 20036.

**Synopsis:** The amendment deletes authority for the parties to discuss and agree on rates.

**Agreement No.:** 011435-009.

**Title:** APL/TMM/Lykes Space Charter Agreement.

**Parties:** American President Lines, Ltd.; APL Co. Pte Ltd.; Lykes Lines Limited, LLC and TMM Lines Limited, LLC.

**Filing Party:** Wayne R. Rohde, Esq.; Sher & Blackwell; 1850 M Street, NW., Suite 900; Washington, DC 20036.

**Synopsis:** The amendment extends the duration of the agreement.

**Agreement No.:** 011728-002.

**Title:** Maersk Sealand/APL Mediterranean Slot Charter Agreement.

**Parties:** A.P. Moller-Maersk A/S; American President Lines, Ltd.; and APL Co. Pte Ltd.

**Filing Party:** Wayne R. Rohde, Esq.; Sher & Blackwell LLP; 1850 M Street, NW., Washington, DC 20036.

**Synopsis:** The amendment deletes references to the Suez Express Service, revises the slot allocations, and clarifies the basis of compensation.

**Agreement No.:** 011883-001.

**Title:** Maersk Sealand/Lykes Lines/TMM Lines Slot Exchange Agreement.

**Parties:** A. P. Moller-Maersk A/S; CP Ships USA LLC.

**Filing Party:** Wayne R. Rohde, Esq.; Sher & Blackwell; 1850 M Street, NW., Suite 900; Washington, DC 20036.

**Synopsis:** The amendment extends the duration of the agreement through June 20, 2005 and reflects a change in the name of Lykes.

By Order of the Federal Maritime Commission.

Dated: April 29, 2005.

**Bryant L VanBrakle,**

*Secretary.*

## FEDERAL RESERVE SYSTEM

### Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at [www.ffiec.gov/nic/](http://www.ffiec.gov/nic/).

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than May 27, 2005.

**A. Federal Reserve Bank of Kansas City** (Donna J. Ward, Assistant Vice President) 925 Grand Avenue, Kansas City, Missouri 64198-0001:

1. *Central Financial Corporation*, Hutchinson, Kansas; to acquire up to 9.93 percent of the voting shares of Fort Worth Bancshares, Inc., and thereby indirectly acquire voting shares of Fort Worth National Bank, both in Fort Worth, Texas.

Board of Governors of the Federal Reserve System, April 28, 2005.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### National Committee on Vital and Health Statistics: Meeting

Pursuant to the Federal Advisory Committee Act, the Department of Health and Human Services announces the following advisory committee meeting.

*Name:* National Committee on Vital and Health Statistics (NCVHS), Subcommittee on Populations.

*Time and Date:* 9 a.m. to 3 p.m., May 13, 2005.

*Place:* Hubert H. Humphrey Building, Room 705A, 200 Independence Avenue, SW., Washington, DC 20201.

*Status:* Open.

*Purpose:* The Subcommittee will review a report it is preparing and discuss future agenda items.

*Contact Person for More Information:* Additional information about this meeting as well as summaries of past meetings and a roster of committee members may be obtained from Audrey L. Burwell, Office of Minority Health, 1101 Wootton Parkway, 6th Floor, Room 600, Rockville, Maryland 20852, telephone: (301) 443-9923, e-mail [alburwell@osops.dhhs.gov](mailto:alburwell@osops.dhhs.gov); or Marjorie S. Greenberg, Executive Secretary, NCVHS, National Center for Health Statistics, Centers for Disease Control and Prevention, Room 2413, 3311 Toledo Road, Hyattsville, Maryland 20782, telephone: (301) 458-4245. Information also is available on the NCVHS home page of the HHS Web site: <http://www.ncvhs.hhs.gov/> where an agenda and more details about participation in the meeting or Subcommittee deliberations will be posted when available.

Should you require reasonable accommodation, please contact the CDC Office of Equal Employment Opportunity on (301) 458-4EEO (4336) as soon as possible.

Dated: April 19, 2005.

**James Scanlon,**

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

#### Disease, Disability, and Injury Prevention and Control Special Emphasis Panel: Health Protection Research Initiative Investigator Initiated Research, Program Announcement CD 04 002

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following meeting:

*Name:* Disease, Disability, and Injury Prevention and Control Special Emphasis Panel (SEP): Health Protection Research Initiative Investigator Initiated Research, Program Announcement CD 04 002.

*Times and Dates:* 11 a.m.-12:30 p.m., June 6, 2005 (Closed).

*Place:* Centers for Disease Control and Prevention/Office of Public Health Research, 1 West Court Square, Suite 7000, Room 7009, Mailstop D-72, Decatur, GA 30030, Telephone 404-371-5253.

*Status:* The meeting will be closed to the public in accordance with provisions set forth in section 552b(c) (4) and (6), Title 5 U.S.C., and the Determination of the Director, Management Analysis and Services Office, CDC, pursuant to Public Law 92-463.

*Matters To Be Discussed:* The meeting will include the review, discussion, and evaluation of applications received in response to Health Protection Research Initiative Investigator Initiated Research, Program Announcement CD 04 002.

*Contact Person for More Information:* Mary L. Lerchen, DrPH, MS, Designated Federal Official, Office of Chief of Science, CDC, Office of Public Health Research, 1 West Court Square, Suite 7000, Room 709, Mailstop D-72, Decatur, GA 30030, Telephone 404-371-5282.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both CDC and the Agency for Toxic Substances and Disease Registry.

Dated: April 27, 2005.

**Alvin Hall,**

*Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.*

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Administration for Children and Families

#### Family and Youth Services Bureau; Basic Center Program

*Announcement Type:* Initial.

*Funding Opportunity Number:* HHS-2005-ACF-ACYF-CY-0063.

*CFDA Number:* 93.623.

*Due Date for Applications:*

Application is due June 20, 2005.

*Executive Summary:* The Family and Youth Services Bureau (FYSB) is accepting applications for the Basic Center Program (BCP). The Basic Center Program is one of the programs authorized under Part A of the Runaway and Homeless Youth (RHY) Act of 1974 to address runaway and homeless youth problems. Basic Center Programs provide an alternative to involving runaway and homeless youth in the law enforcement, child welfare, mental health, and juvenile justice systems. Each program must provide a safe and appropriate shelter and individual, family, and group counseling, as appropriate. Optional services that programs may provide are:

- Street-based services;
- Home-based services for families with youth at risk of separation from the family;
- Drug abuse education and prevention services; and
- At the request of runaway and homeless youth, testing for sexually transmitted diseases.

Each BCP is required to provide to runaway and homeless youth; temporary shelter for up to fifteen (15) days including room and board; individual, group and family counseling (as appropriate); and aftercare and referrals, as appropriate. Some programs also provide some or all of their services through host homes (usually private homes under contract to the centers) with counseling and referrals being provided. Basic Center programs shelter youth through 18 years of age.

#### I. Funding Opportunity Description

##### A. Authorizing Legislation

Grants for Runaway and Homeless Youth programs are authorized by the Runaway and Homeless Youth Act (Title III of the Juvenile Justice and Delinquency Prevention Act of 1974), as amended by the Runaway, Homeless, and Missing Children Protection Act of 2003, Public Law 108-96. Text of the 2003 amended legislation may be found at <http://www.acf.hhs.gov/programs/fysb> (click on Grants Programs, then

click on the link for "Missing, Exploited, and Runaway Children Protection Act").

##### B. Program Background, Purpose and Scope of Services

In the early 1970s, there were an alarming number of youth leaving home without parental permission, crossing State lines and, while away from home, were exposed to exploitation and other dangers of street life. In response to the widespread concern about the problem of runaway and homeless youth, Congress created a system of financial support for States through a competitive grant program as authorized by the Runaway and Homeless Youth (RHY) Act of 1974. The implementation and administration of the program was placed in the Family and Youth Services Bureau (FYSB) within the Department of Health and Human Services (HHS).

The Basic Center Program (BCP) was one of the grant programs authorized under Part A of the RHY Act of 1974 to address the runaway and homeless youth problems. The overall purpose of BCP is to provide a system of care for young runaways outside the traditional child welfare, mental health, law enforcement, or juvenile justices systems. Each program must provide a safe and appropriate shelter and individual, family, and group counseling as appropriate. Optional services that programs may provide are:

- Street-based services;
- Home-based services for families with youth at risk of separation from the family;
- Drug abuse education and prevention services; and
- At the request of runaway and homeless youth, testing for sexually transmitted diseases

While each Basic Center is slightly different, each Basic Center Program is required to provide outreach to runaway and homeless youth; temporary shelter for up to fifteen (15) days, including room and board; individual, group and family counseling (as appropriate); and aftercare and referrals, as appropriate. Some programs also provide some or all of their shelter services through host homes (usually private homes under contract to the centers) with counseling and referrals being provided. BCPs shelter youth through 18 years of age.

In fiscal year 2004, a total of \$44.4 million was available for the program, which allowed FYSB to fund 345 Basic Centers.

##### C. Positive Youth Development

The Family and Youth Services Bureau has worked to promote a

positive youth development (PYD) framework for all of its funded grant programs (including the Basic Center Programs) and activities. Therefore, applicants are encouraged, to the extent possible, to develop their project descriptions with the PYD framework in mind as discussed below.

The positive youth development approach is predicated on the understanding that all young people need support, guidance and opportunities during adolescence, a time of rapid growth and change. With this support, they can develop self-assurance and create a healthy, successful life. Key elements of positive youth development are:

- Healthy messages to adolescents about their bodies, their behaviors and their interactions;
- Safe and structured places for teens to study, recreate and socialize;
- Strengthened relationships with adult role models, such as parents, mentors, coaches or community leaders;
- Skill development in literacy, competence, work readiness and social skills; and
- Opportunities to serve others and build self-esteem.

If these factors are being addressed, young people can become not just "problem free" but "fully-prepared" and engaged constructively in their communities and society.

These key elements result in the following outcomes:

- Increased opportunities and avenues for the positive use of time;
- Increased opportunities for positive self-expression; and
- Increased opportunities for youth participation and civic engagement.

It is FYSB's hope and expectation that awareness of this PYD approach and its importance for serving youth will increase. The FYSB publications, *Understanding Youth Development: Promoting Positive Pathways of Growth* (<http://www.ncfy.com/pubs/undyouth.htm>) and *Reconnecting Youth and Community: A Youth Development Approach* (<http://www.ncfy.com/Reconnec.htm>) are widely distributed as a source document for positive youth development concepts and applications. These publications are available online from the FYSB National Clearinghouse on Families and Youth (NCFY) at <http://www.ncfy.com> or by phone at (301-608-8098). Additionally, a recent Statement of Principles for Positive Youth Development, endorsed by a broad range of agencies, institutions and organizations, may be found in the brochure: *Toward a Blueprint for Youth: Making Positive Youth Development a National Priority*. Multiple copies of this

resource are available from NCFY or it can be found online at <http://www.acf.hhs.gov/programs/fysb/youthdev.htm>.

#### D. Definitions

Definitions may be found at Section 387 of the RHY Act, as amended.

**Homeless Youth**—The term “homeless youth” means an individual who is not more than 21 years of age, or in the case of a youth seeking shelter in a center under Part A of the Runaway and Homeless Act, not more than 18 years of age, and for the purposes of Part B not less than 16 years of age for whom it is not possible to live in a safe environment with a relative; and who has no other safe alternative living arrangement.

**Street Youth**—The term “street youth” means an individual who is a runaway youth; or indefinitely or intermittently a homeless youth; and spends a significant amount of time on the street or in other areas that increase the risk to such youth for sexual abuse, sexual exploitation, prostitution, or drug abuse.

**Youth at Risk of Separation from the Family**—The term “youth at risk of separation from the family” means an individual who is less than 18 years of age; and who has a history of running away from the family of such individual whose parent, guardian, or custodian is not willing to provide for the basic needs of such individual; or who is at risk of entering the child welfare system or juvenile justice system as a result of the lack of services available to the family to meet such needs.

**Drug Abuse Education and Prevention Services**—The term “drug abuse education and prevention services” means services to runaway and homeless youth to prevent or reduce the illicit use of drugs by such youth; and may include individual, family, group, and peer counseling; drop-in services; assistance to runaway and homeless youth in rural areas (including the development of community support groups); information and training relating to the illicit use of drugs by runaway and homeless youth, to individuals involved in providing services to such youth; and activities to improve the availability of local drug abuse prevention services to runaway and homeless youth.

**Home-Based Services**—The term “home-based services” means services provided to youth and their families for the purpose of preventing such youth from running away, or otherwise becoming separated, from their families; assisting runaway youth to return to their families; and includes services that

are provided in the residences of families (to the extent practicable), including intensive individual and family counseling; and training relating to life skills and parenting.

**Street-Based Services**—The term “street-based services” means services provided to runaway and homeless youth and street youth in areas where they congregate. These services are designed to assist such youth in making healthy personal choices regarding where they live and how they behave; and may include identification of and outreach to runaway and homeless youth, and street youth; crisis intervention and counseling; information and referral for housing; information and referral for transitional living and health care services; advocacy, education, and prevention services related to alcohol and drug abuse; sexual exploitation; sexually transmitted diseases, including human immunodeficiency virus (HIV); and physical and sexual assault.

**Transitional Living Youth Project**—The term “transitional living youth project” means a project that provides shelter and services designed to promote a transition to self-sufficient living and to prevent long-term dependency on social services.

**Locality**—The term “locality” refers to a unit of general government. For example, a “locality” may be a city, county, township, town, parish, village, or a combination of such units. Additionally, Federally-recognized Indian tribes are eligible to apply for grants as local units of government.

**Aftercare Services**—The term “aftercare services” means the provision of services to runaway or otherwise homeless youth and their families subsequent to the youth’s return home or the youth’s placement in alternative living arrangements, which assist in alleviating the problems that contributed to his or her running away or being homeless.

**Area**—The term “area” means a specific neighborhood or section of the locality in which the runaway and homeless youth project is or will be located.

**Coordinated Networks of Agencies**—The term “coordinated networks of agencies” means an association of two or more private agencies, whose purpose is to develop or strengthen services to runaway or otherwise homeless youth and their families.

**Counseling Services**—The term “counseling services” means the provision of guidance, support, and advice to runaway or otherwise homeless youth and their families that is designed to alleviate the problems

that contributed to the youth’s running away or being homeless, resolve intra-family problems, to reunite such youth with their families, whenever appropriate, and to help them decide upon a future course of action.

**Demonstrably Frequented by or Reachable**—The term “demonstrably frequented by” or “reachable” means located in an area in which runaway or otherwise homeless youth congregate, or an area accessible to such youth by public transportation, or by the provision of transportation by the runaway and homeless youth project itself.

**Juvenile Justice System**—The term “juvenile justice system” means agencies such as, but not limited to, juvenile courts, law enforcement, probation, parole, correctional institutions, training schools, and detention facilities.

**Law Enforcement Structure**—The term “law enforcement structure” means any police activity or agency with legal responsibility for enforcing a criminal code including police departments and sheriffs’ offices.

**A Locality is a unit of general government**—for example, a city, county, township, town, parish, village, or a combination of such units. Federally recognized Indian tribes are eligible to apply for grants as local units of government.

**Runaway and Homeless Youth Project**—The term “runaway and homeless youth project” means a locally controlled human service program facility outside the law enforcement structure and the juvenile justice system that provides temporary shelter, directly or through other facilities, counseling, and aftercare services to runaway or otherwise homeless youth.

**Runaway Youth**—The term “runaway youth” means a person under 18 years of age who absents himself or herself from home, or place of legal residence, without the permission of his or her family.

**Short-Term Training**—The term “short-term training” means the provision of local, State, or regionally based instruction to runaway or otherwise homeless youth service providers in skill areas that will directly strengthen service delivery.

**State**—The term “State” includes any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, and any territory or possession of the United States.

**Technical Assistance**—The term “technical assistance” means the provision of expertise or support for the purpose of strengthening the

capabilities of grantee organizations to deliver services.

**Temporary Shelter**—The term “temporary shelter” means the provision of short-term (maximum of 15 days) room and board and core crisis intervention services, on a 24-hour basis, by a runaway and homeless youth project.

## II. Award Information

**Funding Instrument Type:** Grant.

**Anticipated Total Priority Area**

**Funding:** \$13,800,000.

**Anticipated Number of Awards:** 107.

**Ceiling on Amount of Individual**

**Awards Per Budget Period:** \$200,000.

**Floor on Amount of Individual**

**Awards:** None.

**Average Projected Award Amount:**

\$129,000.

**Length of Project Periods:** 36-month project with three 12-month budget periods.

## III. Eligibility Information

### 1. Eligible Applicants

County governments; City or township governments; Special district governments; State controlled institutions of higher education; Native American tribal governments (Federally recognized); Native American tribal organizations (other than Federally recognized tribal governments); Non-profits having a 501(c)(3) status with the

IRS, other than institutions of higher education; Non-profits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Others (See Additional Information on Eligibility below.)

### Additional Information on Eligibility

Public and non-profit private entities and coordinated networks of such entities are eligible applicants under this announcement.

Faith-based and community organizations are eligible applicants under this announcement.

Current BCP grantees with project periods ending on or before September 29, 2005, and all other eligible applicants not currently receiving BCP funds may apply for a new competitive Basic Center grant under this announcement.

Current BCP grantees (including sub-grantees) with one or two years remaining in their project period may not apply for a new Basic Center grant for the community they currently serve. These grantees will receive instructions from their respective Administration for Children and Families (ACF) Runaway and Homeless Youth (RHY) Regional Office contacts on the procedures for applying for noncompetitive continuation grants. Current grantees that have questions regarding their eligibility to apply for new funds should

consult with the appropriate Regional Office Youth Contact to determine if they are eligible to apply for a new grant award.

The funds available for new awards and continuations in each State and insular area are listed below in the Basic Center Program Table of Allocations by State. In this Table, the amounts shown in the “New Awards” column are the amounts available for competition under this announcement. The dollar amount available for awards in each State depends on the amount of the State’s total allotment (based on the State’s relative population of individuals who are less than 18 years of age) minus the amount required for non-competing continuations. Therefore, where the amount required for non-competing continuations in any State equals or exceeds the State’s total allotment, it is possible that no new awards will be made in the State. However, agencies in States where zero (\$ -0-) funding is reflected on the BCP Table of Allocation are highly encouraged to apply for grant funding in the event that additional funding becomes available.

All applicants under this competitive grant area will compete with other eligible applicants in the State in which they propose to deliver services.

## BASIC CENTER PROGRAM FISCAL YEAR 2005 ALLOCATION BY STATE

|                               | Continuations    | New awards       | Totals           |

| FY 2005 BCP Total ..... | 30,113,312    | 14,149,588 | 44,262,900 |

Note: Agencies in States where zero (\$ -0-) funding is reflected on the BCP Table of Allocations are highly encouraged to apply for grant funding in case additional funds become available.

### 2. Cost Sharing/Matching

Yes.

### Matching/Cost-Sharing

Grantees are required to meet a non-Federal share of the project costs, in accordance with Pub. L. 108-96, section

83(a). Grantees must provide at least 10 percent of the total approved cost of the project. The total approved cost of the project is the sum of the ACF share and the non-Federal share. The non-Federal share may be met by cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. For example, in order to meet the match requirements, a project with a total approved cost of \$666,670, requesting \$600,000 (based on an award of \$200,000 per budget period) in ACF funds, must provide a non-Federal share of at least \$66,667 (10 percent of total approved project cost of \$666,670). Grantees will be held accountable for commitments of non-Federal resources even if over the amount of the required match. Failure to provide the amount will result in disallowance of Federal funds. Lack of supporting documentation at the time of application will not impact the responsiveness of the application for competitive review.

### 3. Other

All applicants must have a Dun & Bradstreet number. On June 27, 2003, the Office of Management and Budget published in the **Federal Register** a new Federal policy applicable to all Federal grant applicants. The policy requires Federal grant applicants to provide a Dun & Bradstreet Data Universal Numbering System (DUNS) number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal ([www.Grants.gov](http://www.Grants.gov)). A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you may request a number on-line at <http://www.dnb.com>.

Non-profit organizations applying for funding are required to submit proof of their non-profit status. Proof of non-profit status is any one of the following:

- A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code.
- A copy of a currently valid IRS tax exemption certificate.

- A statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earning accrue to any private shareholders or individuals.

- A certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status.

- Any of the items in the subparagraphs immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at: [www.acf.hhs.gov/programs/ofs/forms.htm](http://www.acf.hhs.gov/programs/ofs/forms.htm).

### Disqualification Factors

Applications that exceed the ceiling amount will be considered non-responsive and will not be considered for funding under this announcement.

Any application that fails to satisfy the deadline requirements referenced in Section IV.3 will be considered non-responsive and will not be considered for funding under this announcement.

## IV. Application and Submission Information

### 1. Address To Request Application Package

ACYF Operations Center, c/o The Dixon Group, Attn: Basic Center Program Funding, 118 Q Street, NE., Washington, DC 20002-2132. Phone: 866-796-1591. E-mail: [fysb@dixongroup.com](mailto:fysb@dixongroup.com).

### 2. Content and Form of Application Submission

Each application package must include an original and two copies. Do not staple the application or any section of the application.

The length of the entire application package must not exceed 80 pages. This includes the required Federal forms/certifications (SF-424, SF-424A, SF-424B and SF-LLL), table of contents, project summary, project description, budget/budget justification, supplemental documentation, proof of non-profit status, summaries of sub-grants and contracts, and letters of support or agreement. All pages of the application package must be

sequentially numbered beginning with page one. The required Federal forms will be counted towards the total number of pages. All pages of each application will be counted to determine the total length. All pages exceeding the 80 page limit will be removed and will not be considered in the reviewing process. A cover letter is not required. Applicants are reminded that if a cover letter is submitted, it will count towards the 80 page limit.

The project description must be typed and double-spaced on a single-side of 8 1/2 x 11 plain white paper with at least 1/2 inch margins on all sides, using black print with 12 pitch or 12 point size Times New Roman font. For charts, budget tables, supplemental letters, and support documents, applicants may use a different pitch size and font but no less than 10 pitch size and single-spaced.

**Additional Application Guidance**—If more than one agency is involved in submitting a single application, one entity must be identified as the applicant organization that will have legal responsibility for the grant. Follow the additional guidance below to complete the SF-424:

- Item 6: Insure the accuracy of Employer Identification Number (EIN). This number is provided to an organization by the Internal Revenue Service (IRS).
  - Item 10: Clearly state the Catalog of Federal Domestic Assistance (CFDA) number (93.623) and title of the program (Basic Center Program).
  - Item 13: Proposed Project Start Date is 09/30/2005; End Date is 09/29/2008.
  - Item 14: Include the Congressional District where the applicant is located in 14a and other district(s) affected by the project in 14b. An applicant may insure the accuracy of its district(s) via the following website address: <http://www.house.gov/writerep/>. Once in the site: select your State, enter your zip code, including the 4-digit zip code extension, and then click "contact my representative". This will take you to a page where the correct Congressional District is listed.
  - Item 15: The Estimated Funding should reflect only the budgeted amount for a 12-month budget period. Assume that if the application is awarded a grant in this cycle that future funding based on non-competitive continuation grants will remain at this level based on the availability of funds.
- Table of Contents**—Should reference the order of the application sections and provide page numbers.
- One Page Project Summary/Abstract**—An abstract should describe the project and reference the funding

request. Clearly mark this page with the applicant name as shown on item 5 of the SF-424 and the services area as shown in item 12 of the SF-424. Also, include the applicant's telephone number and E-mail address. The summary description is limited to one page and can be single or double-spaced. Care should be taken to produce a summary which accurately and concisely reflects the proposed project. The summary should describe the goals and objectives and the results and benefits expected.

**Project Description**—Should provide a broad overview of the project and of what the project intends to achieve; address each of the categories in Section V.1; be structured in a manner that addresses each of the evaluation criteria (Objectives and Need for Assistance, Results and Benefits, Approach, Staff and Position Data, Organizational Profiles, and Budget and Budget Justification); and respond to the evaluation criteria in Section V.1.

**Budget and Budget Justification**—The budget detail must be in a worksheet, table, or spreadsheet format and should reflect a 12-month budget period. Each category within the budget should correspond with the budget categories' titles listed in Section B of form SF-424A under Budget and Budget Justification and should include a description of each line item within the category and the calculations derived. The budget justification must be in a narrative format. The budget justification must provide a rationale for the items requested and how these items relate to the overall success of the project.

**Proof of Non-Profit Status**—See Section III.3 for acceptable documentation that must be submitted by date of award.

**Summary of Sub-grants/Contracts**—A summary of a monetary sub-grant and/or contract must be provided as part of the application package. The summary must include a description of the project services that will be completed through the sub-grant or contract using Federal funds.

**Letters of Agreement**—Letters of agreement are required if the applicant is proposing to provide services that will be provided by a different agency or entity based on a non-monetary arrangement. The letter of agreement must enumerate the project services that will be completed under the agreement.

**Letters of Support**—Letters from community, public, and commercial leaders and organizations that support funding for the proposed project.

**Non-Federal Resources Commitment Letters**—Letters from organizations,

entities, or individuals agreeing to provide non-Federal resources (cash or in-kind) to the project.

You may submit your application to us in either electronic or paper format.

To submit an application electronically, please use the [www.Grants.gov/Apply](http://www.Grants.gov/Apply) site. If you use Grants.gov, you will be able to download a copy of the application package, complete it off-line, and then upload and submit the application via the Grants.gov site. ACF will not accept grant applications via email or facsimile transmission.

Please note the following if you plan to submit your application electronically via Grants.gov

- Electronic submission is voluntary, but strongly recommended.
- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation. We strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.gov.
- We recommend you visit Grants.gov at least 30 days prior to filing your application to fully understand the process and requirements. We encourage applicants who submit electronically to submit well before the closing date and time so that if difficulties are encountered an applicant can still send in a hard copy overnight. If you encounter difficulties, please contact the Grants.gov Help Desk at 1-800-518-4276 to report the problem and obtain assistance with the system.
- To use Grants.gov, you, as the applicant, must have a DUNS Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five days to complete the CCR registration.
- You will not receive additional point value because you submit a grant application in electronic format, nor will we penalize you if you submit an application in paper format.
- You may submit all documents electronically, including all information typically included on the SF-424 and all necessary assurances and certifications.
- Your application must comply with any page limitation requirements described in this program announcement.
- After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Administration for Children and Families will retrieve your application from Grants.gov.

• We may request that you provide original signatures on forms at a later date.

• You may access the electronic application for this program on [www.Grants.gov](http://www.Grants.gov).

• You must search for the downloadable application package by the CFDA number.

Applicants that are submitting their application in paper format should submit an original and two copies of the complete application. The original and each of the two copies must include all required forms, certifications, assurances, and appendices, be signed by an authorized representative, have original signatures, and be submitted unbound.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at: [www.acf.hhs.gov/programs/ofs/forms.htm](http://www.acf.hhs.gov/programs/ofs/forms.htm).

#### Standard Forms and Certifications

The project description should include all the information requirements described in the specific evaluation criteria outlined in the program announcement under Section V Application Review Information. In addition to the project description, the applicant needs to complete all the standard forms required for making applications for awards under this announcement.

Applicants seeking financial assistance under this announcement must file the Standard Form (SF) 424, Application for Federal Assistance; SF-424A, Budget Information—Non-Construction Programs; SF-424B, Assurances—Non-Construction Programs. The forms may be reproduced for use in submitting applications. Applicants must sign and return the standard forms with their application.

Applicants must furnish prior to award an executed copy of the Standard Form LLL, Certification Regarding Lobbying, when applying for an award in excess of \$100,000. Applicants who have used non-Federal funds for lobbying activities in connection with receiving assistance under this announcement shall complete a disclosure form, if applicable, with their applications (approved by the Office of Management and Budget under control number 0348-0046). Applicants must sign and return the certification with their application.

Applicants must also understand they will be held accountable for the

smoking prohibition included within Pub. L. 103-227, Title XII Environmental Tobacco Smoke (also known as the PRO-KIDS Act of 1994). A copy of the **Federal Register** notice which implements the smoking prohibition is included with the forms. By signing and submitting the application, applicants are providing the certification and need not mail back the certification with the application.

Applicants seeking to provide drug abuse education and prevention services must also understand that they will be held accountable for conducting outreach activities for runaway and homeless youth. (See 42 U.S.C. 5712(e)(2)) By signing and submitting the application, applicants are providing this certification and need not mail back a separate certification with the application.

Applicants must make the appropriate certification of their compliance with all Federal statutes relating to nondiscrimination. By signing and submitting the applications, applicants are providing the certification and need not mail back the certification form. Complete the standard forms and the associated certifications and assurances based on the instructions on the forms. The forms and certifications may be found at: [www.acf.hhs.gov/programs/ofs/forms.htm](http://www.acf.hhs.gov/programs/ofs/forms.htm).

Please see Section V.1. Criteria, for instructions on preparing the full project description.

### 3. Submission Dates and Times

Due Date for Applications: June 20, 2005.

#### Explanation of Due Dates

The closing time and date for receipt of applications is referenced above. Applications received after 4:30 p.m. eastern time on the closing date will be classified as late.

**Deadline:** Applications shall be considered as meeting an announced deadline if they are received on or before the deadline time and date referenced in Section IV.6. Applicants are responsible for ensuring applications are mailed or submitted electronically well in advance of the application due date.

Applications hand carried by applicants, applicant couriers, other representatives of the applicant, or by overnight/express mail couriers shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8 a.m. and 4:30 p.m., eastern time, at the address referenced in Section IV.6., between Monday and Friday (excluding Federal holidays).

ACF cannot accommodate transmission of applications by facsimile. Therefore, applications transmitted to ACF by fax will not be accepted regardless of date or time of submission and time of receipt.

Receipt acknowledgement for application packages will be provided to applicants who submit their package via mail, courier services, or by hand delivery. Applicants will receive an electronic acknowledgement for applications that are submitted via <http://www.Grants.gov>.

**Late Applications:** Applications that do not meet the criteria above are considered late applications. ACF shall notify each late applicant that its application will not be considered in the current competition.

Any application received after 4:30 p.m. eastern time on the deadline date will not be considered for competition.

Applicants using express/overnight mail services should allow two working days prior to the deadline date for receipt of applications. Applicants are cautioned that express/overnight mail services do not always deliver as agreed.

**Extension of deadlines:** ACF may extend application deadlines when circumstances such as acts of God (floods, hurricanes, etc.) occur, or when there are widespread disruptions of mail service, or in other rare cases. A determination to extend or waive deadline requirements rests with the Chief Grants Management Officer.

#### Checklist

You may use the checklist below as a guide when preparing your application package.

| What to submit                                 | Required content             | Required form or format   | When to submit           |
|--|------------------------------|---|--------------------------|
| Table of Contents .....                        | See Sections IV .....        | Found in Section IV .....   | By application due date. |
| Project Abstract .....                         | See Sections IV. and V ..... | Found in Sections IV. and V .....   | By application due date. |
| Project Description .....                      | See Section IV. and V .....  | Found in Sections IV. and V .....   | By application due date. |
| SF-424 .....                                   | See Section IV .....         | Found at: <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |
| SF-424A .....                                  | See Section IV .....         | Found at: <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |
| Budget and Budget Justification .....          | See Sections IV. and V ..... | Found in Sections IV. and V .....   | By application due date. |
| SF-424B .....                                  | See Section IV .....         | Found at: <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |
| Proof of Non-Profit Status .....               | See Section III .....        | Found in Section III .....  | By date of award.        |
| SF-LLL Certification Regarding Lobbying .....  | See Section IV .....         | Found at: <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By date of award.        |
| Letters of Support .....                       | See Sections IV. and V ..... | Found in Sections IV. and V .....   | By application due date. |
| Non-Federal Resources Commitment Letters ..... | See Section IV .....         | Format described in Section IV .....  | By application due date. |
| Letters of Agreement .....                     | See Section IV .....         | Format described in Section IV .....  | By application due date. |
| Summary of sub-grant and/or contract .....     | See Section IV .....         | Format described in Section IV .....  | By application due date. |

#### Additional Forms

Private, non-profit organizations are encouraged to submit with their

applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on

Ensuring Equal Opportunity for Applicants," at: [www.acf.hhs.gov/programs/ofs/forms.htm](http://www.acf.hhs.gov/programs/ofs/forms.htm).

| What to submit                                   | Required content | Location  | When to submit           |
|--|------------------|---|--------------------------|
| Survey for Private, Non-Profit Grant Applicants. | See form .....   | May be found at: <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |

#### 4. Intergovernmental Review

##### State Single Point of Contact (SPOC)

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of October 1, 2004, the following jurisdictions have elected to participate in the Executive Order process: Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, North Mariana Islands, Puerto Rico, and Virgin Islands. As these jurisdictions have elected to participate in the Executive Order process, they have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a.

Under 45 CFR 100.8(a)(2), a SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade SW., 4th floor, Washington, DC 20447.

Although the remaining jurisdictions have chosen not to participate in the

process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or for projects administered by federally-recognized Indian Tribes, need take no action in regard to E.O. 12372.

The official list, including addresses, of the jurisdictions that have elected to participate in E.O. 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.

#### 5. Funding Restrictions

Grant awards will not allow reimbursement of pre-award costs.

Construction of a facility is not an allowable activity or expenditure under this program. However, it is permissible to use grant funds to renovate existing structures as described in program regulations at 45 CFR 1351.15.

No grant funds may be used for any program of distributing sterile needles or syringes for the hypodermic injection of any illegal drug. (42 U.S.C. 5752) [See Section VI.3. Special Terms and Conditions of Awards.]

A minimum of \$100,000 will be allotted to each State, the District of Columbia and Puerto Rico. A minimum of \$45,000 will be awarded to each of the four insular areas: Guam, American Samoa, the Commonwealth of the Northern Marianas and the Virgin Islands.

#### 6. Other Submission Requirements

**Submission by Mail:** An applicant must provide an original application with all attachments, signed by an authorized representative and two copies. The application must be received at the address below by 4:30 p.m. eastern time on or before the closing date. Applications should be mailed to: c/o The Dixon Group, Attn: Basic Center Program Funding, 118 Q Street, NE., Washington, DC 20002-2132, Attention: ACYF Operations Center.

**Hand Delivery:** An applicant must provide an original application with all attachments signed by an authorized representative and two copies. The application must be received at the address below by 4:30 p.m. eastern time on or before the closing date. Applications that are hand delivered will be accepted between the hours of

8 a.m. to 4:30 p.m. eastern time, Monday through Friday. Applications should be delivered to: c/o The Dixon Group, Attn: Basic Center Program Funding, 118 Q Street, NE., Washington, DC 20002-2132, Attention: ACYF Operations Center.

**Electronic Submission:** [www.Grants.gov](http://www.Grants.gov). Please see section IV. 2 Content and Form of Application Submission, for guidelines and requirements when submitting applications electronically.

#### V. Application Review Information

*The Paperwork Reduction Act of 1995 (Pub. L. 104-13)*

Public reporting burden for this collection of information is estimated to average 20 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information.

The project description is approved under OMB control number 0970-0139 which expires 4/30/2007.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

##### 1. Criteria

###### Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, information responsive to each of the requested evaluation criteria must be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application in a manner that is clear and complete.

##### General Expectations and Instructions

ACF is particularly interested in specific project descriptions that focus on outcomes and convey strategies for achieving intended performance. Project

descriptions are evaluated on the basis of substance and measurable outcomes, not length. Extensive exhibits are not required. Cross-referencing should be used rather than repetition. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly pertain to an integral part of the grant funded activity should be placed in an appendix. Pages should be numbered and a table of contents should be included for easy reference.

#### Introduction

Applicants required to submit a full project description shall prepare the project description statement in accordance with the following instructions while being aware of the specified evaluation criteria. The text options give a broad overview of what your project description should include while the evaluation criteria identify the measures that will be used to evaluate applications.

#### Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

#### Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

#### Results or Benefits Expected

Identify the results and benefits to be derived. For example, the project description may cite measurable outcomes, including but not limited to, the number of youth returning home for reunification with family or returning to a safe and appropriate alternative living arrangement.

#### Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data is to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget (OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF."

List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

#### Geographic Location

Describe the precise location of the project and boundaries of the area to be served by the proposed project. Maps or other graphic aids may be attached.

#### Staff and Position Data

Provide a biographical sketch and job description for each key person appointed. Job descriptions for each vacant key position should be included as well. As new key staff is appointed, biographical sketches will also be required.

#### Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners, such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and

other pertinent information. If the applicant is a non-profit organization, submit proof of non-profit status in its application.

The non-profit agency can accomplish this by providing: (a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code; (b) a copy of a currently valid IRS tax exemption certificate, (c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals; (d) a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status, (e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

#### Budget and Budget Justification

Provide a budget with line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. Also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

#### General

Use the following guidelines for preparing the budget and budget justification. Both Federal and non-Federal resources shall be detailed and justified in the budget and narrative justification. "Federal resources" refers only to the ACF grant for which you are applying. "Non-Federal resources" are all other Federal and non-Federal resources. It is suggested that budget amounts and computations be presented in a columnar format: first column, object class categories; second column, Federal budget; next column(s), non-Federal budget(s), and last column, total budget. The budget justification should be a narrative.

#### Personnel

*Description:* Costs of employee salaries and wages.

**Justification:** Identify the project director or principal investigator, if known. For each staff person, provide the title, time commitment to the project (in months), time commitment to the project (as a percentage or full-time equivalent), annual salary, grant salary, wage rates, etc. Do not include the costs of consultants or personnel costs of delegate agencies or of specific project(s) or businesses to be financed by the applicant.

#### Fringe Benefits

**Description:** Costs of employee fringe benefits unless treated as part of an approved indirect cost rate.

**Justification:** Provide a breakdown of the amounts and percentages that comprise fringe benefit costs such as health insurance, FICA, retirement insurance, taxes, etc.

#### Travel

**Description:** Costs of project-related travel by employees of the applicant organization (does not include costs of consultant travel).

**Justification:** For each trip, show the total number of traveler(s), travel destination, duration of trip, per diem, mileage allowances, if privately owned vehicles will be used, and other transportation costs and subsistence allowances. Travel costs for key staff to attend ACF-sponsored workshops should be detailed in the budget.

#### Equipment

**Description:** "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost which equals or exceeds the lesser of (a) the capitalization level established by the organization for the financial statement purposes, or (b) \$5,000. (**Note:** Acquisition cost means the net invoice unit price of an item of equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in-transit insurance, freight, and installation shall be included in or excluded from acquisition cost in accordance with the organization's regular written accounting practices.)

**Justification:** For each type of equipment requested, provide a description of the equipment, the cost per unit, the number of units, the total cost, and a plan for use on the project, as well as use or disposal of the equipment after the project ends. An applicant organization that uses its own definition for equipment should provide a copy of its policy or section of its

policy which includes the equipment definition.

#### Supplies

**Description:** Costs of all tangible personal property other than that included under the Equipment category.

**Justification:** Specify general categories of supplies and their costs. Show computations and provide other information which supports the amount requested.

#### Contractual

**Description:** Costs of all contracts for services and goods except for those that belong under other categories such as equipment, supplies, construction, etc. Include third party evaluation contracts (if applicable) and contracts with secondary recipient organizations, including delegate agencies and specific project(s) or businesses to be financed by the applicant.

**Justification:** Demonstrate that all procurement transactions will be conducted in a manner to provide, to the maximum extent practical, open and free competition. Recipients and subrecipients, other than States that are required to use Part 92 procedures, must justify any anticipated procurement action that is expected to be awarded without competition and exceed the simplified acquisition threshold fixed at 41 U.S.C. 403(11) (currently set at \$100,000).

Recipients might be required to make available to ACF pre-award review and procurement documents, such as request for proposals or invitations for bids, independent cost estimates, etc.

**Note:** Whenever the applicant intends to delegate part of the project to another agency, the applicant must provide a detailed budget and budget narrative for each delegate agency, by agency title, along with the required supporting information referred to in these instructions.

#### Other

Enter the total of all other costs. Such costs, where applicable and appropriate, may include but are not limited to insurance, food, medical and dental costs (noncontractual), professional services costs, space and equipment rentals, printing and publication, computer use, training costs, such as tuition and stipends, staff development costs, and administrative costs.

**Justification:** Provide computations, a narrative description and a justification for each cost under this category.

#### Indirect Charges

**Description:** Total amount of indirect costs. This category should be used only when the applicant currently has an

indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

**Justification:** An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. If the applicant organization is in the process of initially developing or renegotiating a rate, upon notification that an award will be made, it should immediately develop a tentative indirect cost rate proposal based on its most recently completed fiscal year, in accordance with the cognizant agency's guidelines for establishing indirect cost rates, and submit it to the cognizant agency. Applicants awaiting approval of their indirect cost proposals may also request indirect costs. When an indirect cost rate is requested, those costs included in the indirect cost pool should not also be charged as direct costs to the grant. Also, if the applicant is requesting a rate which is less than what is allowed under the program, the authorized representative of the applicant organization must submit a signed acknowledgement that the applicant is accepting a lower rate than allowed.

#### Non-Federal Resources

**Description:** Amounts of non-Federal resources that will be used to support the project as identified in Block 15 of the SF-424.

**Justification:** The firm commitment of these resources must be documented and submitted with the application so the applicant is given credit in the review process. A detailed budget must be prepared for each funding source.

**Evaluation Criteria:** The following evaluation criteria appear in weighted descending order. The corresponding score values indicate the relative importance that ACF places on each evaluation criterion; however, applicants need not develop their applications precisely according to the order presented. Application components may be organized such that a reviewer will be able to follow a seamless and logical flow of information (e.g. from a broad overview of the project to more detailed information about how it will be conducted).

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

#### Approach (35 Points)

1. The extent to which the application describes how the Basic Center will operate programmatically and

administratively and meet the needs of runaway and homeless youth and their families providing the scope of services required by the authorizing RHY legislation and program administration requirements.

2. The extent to which the application describes the delivery of counseling services to youth that encourages, to the extent possible, the involvement of parents or legal guardians in the counseling.

3. The extent to which the application describes the delivery of aftercare services to youth and ensures that services will be provided to all youth, including those who are returned to a home or domicile that is beyond the State in which the runaway and homeless youth center is located.

4. The extent to which the application states the expected or estimated ratio of staff to youth in a BCP center and explains how this ratio will be sufficient to ensure adequate supervision and treatment of youth accessing services.

5. The extent to which the application describes plans for conducting an outreach program that, where applicable, will attract members of ethnic, cultural, and racial minorities and/or persons with limited ability to speak English. As such, the application should describe the strategies and activities for encouraging awareness of and sensitivity to the diverse needs of runaway and homeless youth who are persons of low English proficiency, or represent particular ethnic and racial backgrounds.

6. If the application proposes to serve a specific RHY population (e.g. single-sex programs, gay and lesbian youth, or a particular ethnic group, etc.) then the application will be evaluated on the extent to which the applicant describes plans for providing focused services to meet the special needs of this population and how the applicant will make referrals or otherwise provide for the needs of RHY youth who are not in the specific population the applicant will serve.

7. The extent to which the application describes plans for ensuring coordination with schools to which runaway and homeless youth will return and for assisting the youth to stay current with the curricula of these schools. Specific information on how the applicant will work with the McKinney-Vento School District Liaison (as designated by the State Coordinator) to assure that runaway and homeless youth are provided information about the educational services available to such youth under 42 U.S.C. 11431 through 11435. A list of McKinney-Vento State Coordinators can be found

at [www.serve.org/nche/downloads/scontact.pdf](http://www.serve.org/nche/downloads/scontact.pdf).

8. The extent to which the application describes procedures for dealing with youth who have run away from foster care placements and from correctional institutions and must show that procedures are in accordance with Federal, State and local laws.

9. The extent to which the application describes procedures for maintaining confidentiality of records on the youth and families served. Procedures must insure that no information on the youth and families is disclosed without the consent of the individual youth, parent or legal guardian. **Note:** Disclosures without consent made to another agency compiling statistical records or to a government agency involved in the disposition of criminal charges against an individual youth may be permissible if individually identifiable information is not provided, and if such disclosures are consistent with applicable State, local, or other Federal laws.

10. If the applicant proposes to provide optional home-based services, then the application will be evaluated on the extent to which it provides a description of:

- The nature of counseling and information provided to youth and the families (including unrelated individuals in the family households) of such youth, including services relating to basic life skills, interpersonal skill building, educational advancement, job attainment skills, mental and physical health care, parenting skills, financial planning, and referral to sources of other needed services;
- How the center will provide directly, or through an arrangement made by the center, 7-day, 24-hour service to respond to family crises (including immediate access to temporary shelter for runaway and homeless youth and youth at risk of separation from the family);
- The objectives and measures of success to be achieved in partnership with the families of runaway and homeless youth and youth at risk of separation from the family, as a result of receiving home-based services;
- Initial and ongoing training for staff who provide home-based services;
- How caseloads will remain sufficiently low to allow for intensive involvement (i.e., 5 to 20 hours per week) with each family receiving such services and how staff providing such services will receive qualified supervision.

11. If the applicant proposes to provide optional drug abuse education and prevention services, then the application will be evaluated on the

extent to which it provides a description of:

- The types of such services that the applicant proposes to provide;
- The objectives of such services;
- The types of information and training to be provided to individuals providing such services to runaway and homeless youth; and,
- How outreach activities for runaway and homeless youth will be conducted.

12. If the applicant proposes to provide optional street-based services, then the application will be evaluated on the extent to which it provides a description of:

- Staff supervision, including on-street supervision by appropriately trained staff;
- Backup personnel for on-street staff;
- Initial and ongoing training for staff who provide such services; and
- How outreach activities for runaway and homeless youth and street youth will be conducted.

#### Results or Benefits Expected (20 Points)

1. The extent to which the application describes specific measurable outcomes and how they will be achieved.

2. The extent to which the application describes the anticipated changes in attitudes, values, and behavior of the youth served and improvements in individual and family functioning that will result from services provided.

#### Objectives and Need for Assistance (15 Points)

1. The extent to which the application describes the goals and objectives of the proposed Basic Center project and how implementation will fulfill the purpose and provide the scope services stated in Part A of the RHY legislation as described in the "Background, Purpose and Scope of Services" in Section I.

2. The extent to which the application describes the need for assistance by describing the general conditions of youth and families in the area to be served and the estimated number and characteristics of runaway and homeless youth and their families in the vicinity. The extent to which the discussion includes matters of family functioning and the health, education, employment, and social conditions of the youth in the service area, including at-risk conditions or behaviors such as drug use, school failure, and delinquency.

3. The extent to which the application describes the existing support systems for youth at risk of separation from the family and homeless youth in the area, with specific references to law enforcement, health and mental health care, social services, schools and child

welfare. In addition, the extent to which the applicant identifies other agencies providing shelter and services to runaway and homeless youth in the area and gaps in service between such agencies. Supporting documentation of need from other community groups may be included.

4. The extent to which the application describes the area to be served, states the precise location(s) of program services, and demonstrates that the services will be located in an area which is frequented by and/or easily accessible by runaway and homeless youth.

5. The extent to which the application specifies the annual number of qualifying runaway and homeless youth (RHY) and their families expected to be directly served (*i.e.*, sheltered and counseled) by the BCP. The extent to which the application provides the number of beds available for runaway and homeless youth. (This number is restricted to a minimum of 4 RHY youth and a maximum shelter capacity of 20 youth unless the applicant is required by State or local law or regulations to meet a higher maximum to comply with licensure requirements for child and youth serving facilities; proof is required for this exception.)

#### Staff and Position Data (10 Points)

1. The extent to which the application describes key staff (including key staff, consultants, and volunteers) skills, knowledge, and experience as it relates to working with RHY generally and BCP specifically.

2. The extent to which the application provides for key staff, biographical sketches or resumes, and position descriptions that are consistent with those described in the narrative budget justification. Resumes must indicate what positions staff will fill; and position descriptions must specifically describe each job as it relates to the proposed project.

3. The extent to which the application describes the cultural competencies of staff and how that competency relates to the youth being served.

4. The extent to which the application describes a plan for training project staff as well as staff of cooperating organizations and individuals. Training should include at a minimum: organizational policies and procedures, job responsibilities, and subject matter knowledge of issues pertaining to runaway and homeless youth and at-risk youth, such as positive youth development.

#### Budget and Budget Justification (10 Points)

1. The extent to which the application provides a detailed line item budget and narrative budget justification for requested Federal and non-Federal funds to implement the full scope of services and related activities for the first year (12-months) of the project. The Budget Categories described, must be the same as the categories listed on the SF-424A, Section B: Personnel, fringe benefits, travel, equipment, supplies, contractual, other, total direct charges, indirect charges, and total budget. The non-Federal share, as appropriate, must be reflected among the same categories in a separate column.

2. The extent to which the application describes how each category of costs are derived, *i.e.*, detailed calculations that include estimation methods, quantities, unit costs, etc., that equate to the total costs proposed in a particular category (*e.g.*, travel costs should be broken down into hotel costs, per diem rates, airfare, etc.).

3. The extent to which the applicant has appropriately allocated funds toward the purchase of necessary computer equipment in order to comply with the special requirements of statistical record keeping through RHYMIS (Runaway and Homeless Youth Management information System). (See Section VI.2. Administrative and National Policy Requirements.)

4. The extent to which the application describes fiscal controls (including accounting procedures and audit requirements) to ensure prudent use, proper disbursement, and accurate accounting of Federal funds received as well as accounting for non-Federal resources.

#### Organizational Profiles (10 Points)

1. The extent to which the application describes the organization's past experience in working with runaway, homeless, and street youth populations. Experience does not have to pertain only to past FYSB funded program experience. Note: Past experience means that a major activity of the agency has been the provision of temporary shelter, counseling, and referral services to runaway or otherwise homeless youth and their families, either directly or through linkages established with other community agencies.

2. The extent to which the application describes the role of other organizations or multiple sites of the agency that will be involved in direct services (through monetary or non-monetary arrangements) to runaway and homeless

youth through this grant. The application should list all of these sites and include addresses, phone numbers and staff contact names if different from the address and contact on the SF-424. Letters of agreement and an Organizational Chart are required.

3. If the agency is a current recipient of funds from the Administration for Children and Families for services to runaway and homeless youth for programs other than those applied for in this application, the application will be evaluated on the extent to which it shows how the services supported by these funds are, or will be, integrated with the existing services.

4. The extent to which the application provides a plan for project continuance beyond grant support, including a plan for securing resources and continuing project activities after Federal assistance has ceased. A listing of the applicant's other funding sources must be included. The extent to which the application either describes how the activities implemented under this project will be continued by the agency once Federal funding for the project has ended or describes specific plans for accomplishing program phase-out in the event the applicant cannot obtain new operating funds at the end of the 36-month project period. Availability of funds is not guaranteed.

5. The extent to which the application includes letters of support from community, public, and commercial leaders and organizations that support the proposed project for funding.

#### 2. Review and Selection Process

No grant award will be made under this announcement on the basis of an incomplete application.

Applications will be reviewed and scored competitively. This review will be conducted in Washington, DC, by a panel of experts in the field, generally persons from outside the Federal Government. The review panels will use the evaluation criteria listed in Section V.1. of this announcement to review and score the applications. In addition, the panels will assign a score (maximum score 100) to each application. The panels will identify the application's strengths and weaknesses based on the application's responsiveness to the evaluation criteria. The results (scores) of this review will be a primary factor in making funding decisions. Each application in the funding range will be subject to an administrative review by the ACF Central and Regional Offices after the panel review process. ACF may consider a variety of factors in addition to the review criteria identified above, including geographic location, relative

needs for services, types of applicant organizations, and comments solicited from the ACF regional offices, in order to ensure that the interests of the Federal Government are met in making the final selections.

As required by the RHY Act, in making grant award decisions, priority for funding shall be given to private entities with past experience in providing services to runaway, homeless and street youth. Past experience means that a major activity of the agency has been the provision of temporary shelter, counseling, and referral services to runaway or otherwise homeless youth and their families, either directly or through linkages established with other community agencies.

Since ACF will be using non-Federal reviewers in the process, applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget and Social Security Numbers, if otherwise required for individuals. The copies may include summary salary information.

#### Approved but Unfunded Applications

Applications that are approved but unfunded may be held over for funding in the next funding cycle, pending the availability of funds, for a period not to exceed one year.

#### 3. Anticipated Announcement and Award Dates

Awards will be made by September 30, 2005. Unsuccessful applicants will be notified in writing after the final awards have been made.

### VI. Award Administration Information

#### 1. Award Notices

The successful applicants will be notified through the issuance of a Financial Assistance Award document which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, the non-Federal share to be provided, (if applicable), and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

Organizations whose applications will not be funded will be notified in writing.

#### 2. Administrative and National Policy Requirements

Grantees are subject to the requirements in 45 CFR Part 74 (non-

governmental) and 45 CFR Part 92 (governmental).

Runaway and Homeless Youth Program Administration Requirements (45 CFR, Part 1351)

Direct Federal grants, subaward funds, or contracts under this ACF Program shall not be used to support inherently religious activities such as religious instruction, worship, or proselytization. Therefore, organizations must take steps to separate, in time or location, their inherently religious activities from the services funded under this Program. Regulations pertaining to the prohibition of Federal funds for inherently religious activities can be found on the HHS Web site at <http://www.os.dhhs.gov/fbci/waisgate21.pdf>.

Applicants are advised that no grant funds may be used for any program of distributing sterile needles or syringes for the hypodermic injection of any illegal drug. Prospective grantees are advised that entities which receive Basic Center Program (BCP) grant funds and which operate a program of distributing sterile needles or syringes for hypodermic injections of illegal drugs must account for all funds used for such programs separately from any expenditure of BCP grant funds. (42 U.S.C. 5752.) See Section IV.5. Funding Restrictions.

Runaway and Homeless Youth Management Information System (RHYMIS)

*RHYMIS (Runaway and Homeless Youth Management information System)*—Grantees must agree to keep adequate statistical records profiling the youth and families served under the Federal grant and to gather and submit program and client data required by FYSB. This information is required by the RHY program legislation and defined in user-friendly Runaway and Homeless Youth Management Information System (RHYMIS or RHYMIS-LITE). Recipients of a grant administered through the Family and Youth Services Bureau (FYSB) are required and expected to submit the data via RHYMIS or in an approved format which RHYMIS can receive. Grantees have the option of using RHYMIS for internal management improvement or for research and other program needs. A RHYMIS hotline/help desk is available at 888-749-6474, and/or at [rhyomis\\_help@csc.com](mailto:rhyomis_help@csc.com).

The Family and Youth Services Bureau will fund computer software for RHY program data collection through RHYMIS. An applicant lacking the computer equipment (hardware) for

RHYMIS data collection must include an estimated cost for such equipment in their proposed budget. If the applicant already has such equipment, this fact must be noted. (See Section V.1. Evaluation Criteria/Budget and Budget Justification.) (Note: Existing grantees generally report that their staff has been able to easily train themselves to operate RHYMIS due to its user-friendliness, prompts, help features, and FYSB's technical support service.)

In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13) the data collection under RHYMIS is approved under OMB control number 0970-0123, which expires September 30, 2007.

#### 3. Reporting Requirements

Program Progress Reports: Semi-Annual.

Financial Reports: Semi-Annual.

Grantees will be required to submit program progress and financial reports (SF 269) throughout the project period. Program progress and financial reports are due 30 days after the reporting period. In addition, final programmatic and financial reports are due 90 days after the close of the project period.

### VII. Agency Contacts

#### Program Office Contact

Dorothy W. Pittard, Family and Youth Services Bureau, c/o ACYF Operations Center, 118 Q Street, NE, Washington, DC 20002-2132. Phone: 866-796-1591. E-mail: [fysb@dixongroup.com](mailto:fysb@dixongroup.com).

#### Grants Management Office Contact

Peter Thompson, ACYF Grants Officer, Family and Youth Services Bureau, c/o ACYF Operations Center, 118 Q Street, NE, Washington, DC 20002-2132. Phone: 866-796-1591. E-mail: [fysb@dixongroup.com](mailto:fysb@dixongroup.com).

### VIII. Other Information

Please reference Section IV.3 for details about acknowledgement of received applications.

*Notice:* Beginning with FY 2006, the Administration for Children and Families (ACF) will no longer publish grant announcements in the **Federal Register**. Beginning October 1, 2005, applicants will be able to find a synopsis of all ACF grant opportunities and apply electronically for opportunities via: [www.Grants.gov](http://www.Grants.gov). Applicants will also be able to find the complete text of all ACF grant announcements on the ACF Web site located at: <http://www.acf.hhs.gov/grants/index.html>.

Dated: April 28, 2005.

Joan E. Ohl,

Commissioner, Administration on Children,  
Youth and Families.

[FR Doc. 05-8893 Filed 5-3-05; 8:45 am]

BILLING CODE 4184-01-P

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Administration for Children and Families

#### Administration on Children, Youth and Families, Children's Bureau; Grants to Tribes, Tribal Organizations, and Migrant Programs for Community- Based Child Abuse Prevention Programs

*Announcement Type:* Initial.

*Funding Opportunity Number:* HHS-  
2005-ACF-ACYF-CA-0061.

*CFDA Number:* 93.590.

*Due Date for Applications:*

Application is due July 5, 2005.

*Executive Summary:* The primary purpose of this funding announcement is to provide financial support to selected tribes, tribal organizations, and migrant programs for child abuse prevention programs and activities that are consistent with the goals outlined by Title II of CAPTA. The goal of the programs and activities supported by these funds is to prevent the occurrence or recurrence of abuse or neglect within the tribal and migrant populations. The funds must support more effective and comprehensive child abuse prevention activities and family support services, including an emphasis on strengthening marriages and reaching out to include fathers, that will enhance the lives and ensure the safety and well-being of migrant and Native American children and their families. Some examples of programs that may be funded include, but are not limited to, voluntary home visiting, respite care, parenting education, mutual support, family resource centers, marriage education, and other family support services. The funds must also be used to support an evaluation of the programs and services funded by the grant. Finally, programs funded should develop stronger linkages with the Community-based Child Abuse Prevention Program (CBCAP) State Lead Agency funded under Title II of CAPTA.

It is anticipated that three grants (one each to a tribe, a tribal organization, and a migrant program) will be funded under this announcement for \$143,000 per grantee for FY 2005. This amount reflects the maximum Federal share of this project not exceeding one-third (1/3)

of one percent (1%) of the Federal appropriation for Title II for each 12-month budget period.

#### I. Funding Opportunity Description

The primary purpose of this funding announcement is to provide financial support to selected tribes, tribal organizations, and migrant programs for child abuse prevention programs and activities that are consistent with the goals outlined by Title II of CAPTA. The goal of the programs and activities supported by these funds is to prevent the occurrence or recurrence of abuse or neglect within the tribal and migrant populations. The funds must support more effective and comprehensive child abuse prevention activities and family support services, including an emphasis on strengthening marriages and reaching out to include fathers, that will enhance the lives and ensure the safety and well-being of migrant and Native American children and their families. Some examples of the programs funded may include, but are not limited to, voluntary home visiting, respite care, parenting education, mutual support, family resource centers, marriage education, and other family support services. The funds must also be used to support an evaluation of the programs and services funded by the grant. Finally, programs funded should develop stronger linkages with the Community-based Child Abuse Prevention Program (CBCAP) State Lead Agency funded under Title II of CAPTA.

It is anticipated that three grants (one each to a tribe, a tribal organization, and a migrant program) will be funded under this announcement for \$143,000 per grantee for FY 2005. This amount reflects the maximum Federal share of this project not exceeding one-third (1/3) of one percent (1%) of the Federal appropriation for Title II for each 12-month budget period.

##### 1. Priority Area 1—Grants to Tribes, Tribal Organizations, and Migrant Programs for Community-based Child Abuse Prevention Programs

###### 1. Description

The primary purpose of this funding announcement is to provide financial support to selected tribes, tribal organizations, and migrant programs for child abuse prevention programs and activities that are consistent with the goals outlined by Title II of CAPTA. The goal of the programs and activities supported by these funds is to prevent the occurrence or recurrence of abuse or neglect within the tribal and migrant populations. The funds must support more effective and comprehensive child

abuse prevention activities and family support services, including an emphasis on strengthening marriages and reaching out to include fathers, that will enhance the lives and ensure the safety and well-being of migrant and Native American children and their families. Some examples of programs that may be funded include, but are not limited to, voluntary home visiting, respite care, parenting education, mutual support, family resource centers, marriage education, and other family support services. The funds must also be used to support an evaluation of the programs and services funded by the grant. Finally, programs funded should develop stronger linkages with the Community-based Child Abuse Prevention Program (CBCAP) State Lead Agency funded under Title II of CAPTA.

It is anticipated that three grants (one each to a tribe, a tribal organization, and a migrant program) will be funded under this announcement for \$143,000 per grantee for FY 2005. This amount reflects the maximum Federal share of this project not exceeding one-third (1/3) of one percent (1%) of the Federal appropriation for Title II for each 12-month budget period.

#### Background Information

The Administration on Children, Youth and Families (ACYF) administers national programs for children and youth; works with States and local communities to develop services which support and strengthen family life; seeks joint ventures with the private sector to enhance the lives of children and their families; and provides information and other assistance to parents. The concerns of ACYF extend to all children from pre-natal through adolescence. Many of the programs administered by the agency focus on children from low-income families; abused and neglected children; children and youth in need of foster care, independent living, adoption or other child welfare services; preschool children; children with disabilities; runaway and homeless youth; and children from Native American and migrant families.

Within ACYF, the Children's Bureau plans, manages, coordinates, and supports child abuse and neglect prevention and child welfare services programs. The Children's Bureau programs are designed to promote the safety, permanency, and well-being of all children, including those in foster care, available for adoption, recently adopted, abused, neglected, dependent, disabled, or homeless and to prevent neglect and abuse of children. The programs also encourage strengthening the family unit to help prevent the

unnecessary separation of children from their families and reunifying families, when appropriate, when separation has occurred. The Children's Bureau also supports programs and services that encourage healthy marriage; promote family stability; support relationship building for parenting couples; reach out to and provide assistance to fathers; and emphasize the role of fathers in ensuring the well-being of their children.

The Children's Bureau is the agency within the Federal Government that has primary responsibility for assisting State child welfare systems to promote continuous improvement in the delivery of child welfare services. State child welfare systems are designed to protect children who have suffered maltreatment, who are at risk for maltreatment, or who are under the care and placement responsibility of the State because their families are unable to care for them. These systems also focus on securing permanent living arrangements through foster care and adoption for children who are unable to return home.

The Children's Bureau fulfills this mission by providing leadership and conducting activities designed to assist and enhance national, State, and community efforts to prevent, assess, identify, and treat child abuse and neglect. These activities include undertaking data collection and analysis; research and demonstration programs regarding and making grants to States for: developing comprehensive child-centered and family-focused child protective services systems; providing training and technical assistance to develop the necessary resources to implement successful comprehensive child and family protection strategies; gathering, processing, and housing high quality data sets through a National Data Archive on Child Abuse and Neglect; and gathering, storing, and disseminating child maltreatment information through a National Clearinghouse on Child Abuse and Neglect Information and a National Adoption Information Clearinghouse.

Federal programs administered by the Bureau include the Foster Care and Adoption Assistance Programs, the Child Welfare Services State Grants Program, Child Welfare Services Training Program, the Chafee Foster Care Independence Program, the Adoption Opportunities Program, the Abandoned Infants Assistance Program, the Promoting Safe and Stable Families Program, the Court Improvement Program, and several State and discretionary grant programs authorized by the Child Abuse Prevention and

Treatment Act (CAPTA). For more information about Children's Bureau programs, visit <http://www.acf.hhs.gov/programs/cb>.

*Child Abuse Prevention and Treatment Act (CAPTA)*. Since its enactment in 1974, CAPTA [42 U.S.C. 5101 *et seq.*] has sought to increase national attention to the problem of child abuse and neglect and to improve the Nation's ability to prevent and respond to the maltreatment of children. Through its several reauthorizations over the years, the law has worked to strengthen the entire child protective services system. Under CAPTA, programs have been implemented for the prevention of child maltreatment, the identification of child abuse and neglect, initial response, assessment and investigation of suspected child abuse reports, and prosecution of caregivers found to be the perpetrators of the abuse.

Title I of CAPTA authorizes research and demonstration grants, data collection and information dissemination activities and two State grant programs: the Basic State Grant and the Children's Justice Act Grant. The Basic State Grant provides States with funds and basic Federal guidelines to strengthen and maintain their child protective services (CPS) systems. The Children's Justice Act provides funds to assist States in developing, establishing and operating programs which are designed to improve the handling of child abuse and neglect cases to reduce trauma to the child victim; the handling of cases of suspected child abuse or neglect related fatalities; and the investigation and prosecution of cases on child abuse or neglect.

Title II of CAPTA authorizes the Community-Based Grants for the Prevention of Child Abuse and Neglect. This program assists States to develop and implement, or expand and enhance, a comprehensive statewide system of community-based family resource and support services to prevent child maltreatment.

Community-Based Grants for the Prevention of Child Abuse and Neglect Program

In 2003, the Congress passed legislation reauthorizing CAPTA's programs for an additional five years. Among the provisions in the legislation was a section reauthorizing, amending and re-naming the program previously known as the Community-Based Family Resource and Support (CBFRS) Grants program. The program is now known as the Community-Based Grants for the Prevention of Child Abuse and Neglect or, for the sake of brevity, the

Community-Based Child Abuse Prevention (CBCAP) program. This formula grant program specifically supports community-based efforts to develop, operate, expand, enhance, and, where appropriate, to network, initiatives aimed at the prevention of child abuse and neglect, to support networks of coordinated resources and activities to better strengthen and support families to reduce the likelihood of child abuse and neglect, and to foster an understanding, appreciation, and knowledge of diverse populations in order to be effective in preventing and treating child abuse and neglect. One percent of the funding for this program is earmarked to support child abuse prevention programs and activities specifically targeting the tribal and migrant populations. Tribal and migrant programs funded in previous years have included parenting education and support, voluntary home visiting programs, outreach and case management services for the specified target population.

All States, the District of Columbia, and the territories receive funding under the formula grant program. In every State, the Governor designates a Lead Agency to receive these funds. The Lead Agencies provide grants to local agencies to fund child abuse prevention and family support services and activities. Some States may choose to fund tribal and migrant programs from their formula grant. Many States fund core services such as parent education, parent mutual support, home visiting programs, early childhood programs, respite and crisis care, family resource centers, and other family support services. In addition, the Lead Agencies provide leadership and support for the child abuse prevention network in the State and offered training and technical assistance to their funded programs. It is expected that the tribal and migrant programs funded by this announcement will be actively engaged in the Statewide CBCAP network. Moreover, the tribal and migrant programs are encouraged to provide their input and expertise with the Lead Agencies regarding the needs and issues facing their target populations.

For more information on the CBCAP Program and Lead Agencies, visit the website for the FRIENDS National Resource Center for CBCAP Programs at: <http://www.friendsnrc.org>.

## II. Award Information

*Funding Instrument Type:* Grant.  
*Anticipated Total Priority Area Funding:* \$429,000.

*Anticipated Number of Awards:* 0 to 3.

*Ceiling on Amount of Individual Awards per budget period:* \$143,000.

*Average Projected Award Amount:* \$143,000.

*Length of Project Periods:* 36 month project with three 12 month budget periods.

In the first budget period, the maximum Federal share of each project is not to exceed \$143,000. The projects awarded will be for a project period of 36 months. The initial grant award will be for a 12-month budget period. The award of continuation beyond each 12-month budget period will be subject to the availability of funds, satisfactory progress on the part of the grantee, and a determination that continued funding would be in the best interest of the government.

### III. Eligibility Information

#### 1. Eligible Applicants

Native American tribal governments (Federally recognized).

Native American tribal organizations (other than Federally recognized tribal governments).

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education.

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education.

#### Additional Information on Eligibility

Indian tribes, tribal organizations, and migrant programs with the capacity to establish, maintain and evaluate community-based programs for the prevention of child abuse and neglect may apply.

Applicants should specify if they are applying as a "Tribe" or "Tribal Organization" or "Migrant Program."

Organizations should foster strong linkages with the State Lead Agency for the Community-Based Child Abuse Prevention Programs funded by Title II of CAPTA.

Collaborative and interdisciplinary efforts are acceptable, but applications should identify a primary applicant responsible for administering the grant.

Faith-based and community organizations that meet all other eligibility requirements are eligible to apply.

#### 2. Cost Sharing/Matching

No.

#### 3. Other

All applicants must have a Dun & Bradstreet number. On June 27, 2003 the Office of Management and Budget published in the **Federal Register** a new Federal policy applicable to all Federal grant applicants. The policy requires

Federal grant applicants to provide a Dun & Bradstreet Data Universal Numbering System (DUNS) number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal ([www.Grants.gov](http://www.Grants.gov)). A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you may request a number on-line at <http://www.dnb.com>.

Non-profit organizations applying for funding are required to submit proof of their non-profit status.

Proof of non-profit status is any one of the following:

- A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code.
- A copy of a currently valid IRS tax exemption certificate.
- A statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earning accrue to any private shareholders or individuals.
- A certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status.
- Any of the items in the subparagraphs immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at: [www.acf.hhs.gov/programs/ofsf/forms.htm](http://www.acf.hhs.gov/programs/ofsf/forms.htm).

#### Disqualification Factors

Applications that exceed the ceiling amount will be considered non-responsive and will not be eligible for funding under this announcement.

Any application received after 4:30 p.m. eastern time on the deadline date will not be considered for competition.

### IV. Application and Submission Information

#### 1. Address to Request Application Package

ACYF Operations Center, c/o The Dixon Group, Inc., ATTN: Children's Bureau, 118 Q St., NE., Washington, DC 20002-2132.

#### 2. Content and Form of Application Submission

Each application must contain the following items in the order listed:

*Application for Federal Assistance* (Standard Form 424). Follow the instructions below and those that accompany the form.

In Item 5 of Form 424, put DUNS number in "Organizational DUNS:" box.

In Item 5 of Form 424, include name, phone number, and, if available, email and fax numbers of the contact person.

In Item 8 of Form 424, check 'New.'

In Item 10 of Form 424, clearly identify the Catalog of Federal Domestic Assistance (CFDA) program title and number for the program for which funds are being requested as stated in this funding opportunity announcement.

In Item 11 of Form 424, identify the single funding opportunity the application addresses.

#### In Item 12 of Form 424, identify the specific geographic area to be served.

In Item 14 of Form 424, identify Congressional districts of both the applicant and project.

*Budget Information Non-Construction Programs.* (Form 424A) and Budget Justification.

Follow the instructions provided here and those in Section V. Application Review Information. Note that Federal funds provided to States and services or other resources purchased with Federal funds may not be used to match project grants.

*Certifications/Assurances.* Applicants requesting financial assistance for non-construction projects must file the Standard Form 424B, 'Assurances: Non-Construction Programs.' Applicants must sign and return the Standard Form 424B with their applications.

Applicants must provide a certification regarding lobbying when applying for an award in excess of \$100,000.

Applicants must sign and return the certification with their applications.

Applicants must disclose lobbying activities on the Standard Form LLL when applying for an award in excess of \$100,000. Applicants who have used

non-Federal funds for lobbying activities in connection with receiving assistance under this announcement shall complete a disclosure form to report lobbying. Applicants must sign and return the disclosure form, if applicable, with their applications.

Applicants must make the appropriate certification regarding environmental tobacco smoke. By signing and submitting the application, the applicant is providing the certification and need not mail back the certification with the applications.

If applicable, applicants must include a completed SPOC certification (Single Point of Contact) with the date of the SPOC contact entered in line 16, page 1 of the Form 424.

By signing the "Signature of Authorized Representative" on the SF 424, the applicant is providing a certification and need not mail assurances for completing the following grant and cooperative agreement requirements:

(1) The applicant will have the project fully functioning within 90 days of the notification of the grant award.

(2) The applicant will participate if the Children's Bureau chooses to do a national evaluation or a technical assistance contract that relates to this priority area.

(3) All performance indicator data, program and financial reports will be submitted in a timely manner, in recommended format (to be provided), and the final report will also be submitted on disk or electronically using a standard word-processing program.

(4) Within 90 days of project end date, the applicant will submit a copy of the final report and any program products to the National Clearinghouse on Child Abuse and Neglect Information, 330 C Street, SW, Washington, DC 20447. This is in addition to the standard requirement that the final program and evaluation report must also be submitted to the Grants Management Specialist and the Federal Project Officer.

(5) Allocate sufficient funds in the budget to:

(a) Provide for the project director and the evaluator to attend an annual 3-day grantees' meeting in Washington, DC.

(b) Provide for the project director and the evaluator to attend an early kick-off meeting in Washington, DC, in the first year only, within 90 days of the notification of the grant award.

(c) Provide for 10-15 percent of the proposed budget to project evaluation.

In implementing their projects, grantees are expected to comply with all applicable administrative regulations

regarding extent or types of costs. Applicable HHS regulations can be found in 45 CFR Part 74 or 92.

**Project Abstract/Summary** (one page maximum, double spaced). Clearly mark this page with the applicant name as shown on item 5 of the Form 424, identify the competitive grant funding opportunity and the title of the proposed project as shown in item 11 and the service area as shown in item 12 of the Form 424. The summary description should not exceed 300 words.

Care should be taken to produce an abstract/summary that accurately and concisely reflects the proposed project. It should describe the objectives of the project, the approach to be used and the results or benefits expected.

**Project Description for Evaluation.** Applicants should organize their project description in this sequence: (1) Objectives and Need for Assistance; (2) Approach; (3) Organizational Profiles; (4) Budget and Budget Justification.

**Indirect cost rate agreement.** If claiming indirect costs, provide documentation that applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

**Letters of agreement and memoranda of understanding.** If applicable, include a letter of commitment or Memorandum of Understanding from each partner and/or sub-contractor describing their role, detailing specific tasks to be performed, and expressing commitment to participate if the proposed project is funded.

The application limit is 60 pages total including all forms and attachments. Pages over this page limit will be removed from the application and will not be reviewed.

To be considered for funding, each application must be submitted with the Standard Federal Forms (provided at the end of this announcement or through the electronic links provided) and following the guidance provided. The application must be signed by an individual authorized to act for the applicant agency and to assume responsibility for the obligations imposed by the terms and conditions of the grant award.

To be considered for funding, each applicant must submit one signed original and two additional copies of the application, including all forms and attachments, to the Application Receipt Point specified in the section titled **Deadline** at the beginning of the announcement. The original copy of the application must have original signatures.

The application must be typed, double spaced, printed on only one side, with at least 1/2 inch margins on each side and 1 inch at the top and bottom, using standard 12 point fonts (such as Times New Roman or Courier). Pages must be numbered.

All copies of an application must be submitted in a single package, and a separate package must be submitted for each funding opportunity. The package must be clearly labeled for the specific funding opportunity it is addressing.

Because each application will be duplicated, do not use or include separate covers, binders, clips, tabs, plastic inserts, maps, brochures, or any other items that cannot be processed easily on a photocopy machine with an automatic feed. Do not bind, clip, staple, or fasten in any way *separate subsections* of the application, including supporting documentation; however, each *complete* copy must be stapled securely in the upper left corner. Applicants are advised that the copies of the application submitted, not the original, will be reproduced by the Federal government for review.

**Tips for Preparing a Competitive Application.** It is essential that applicants read the entire announcement package carefully before preparing an application and include all of the required application forms and attachments. The application must reflect a thorough understanding of the purpose and objectives of the applicable legislation. Reviewers expect applicants to understand the goals of the legislation and the Children's Bureau's interest in each topic. A "responsive application" is one that addresses all of the evaluation criteria in ways that demonstrate this understanding. Applications that are considered to be "unresponsive" generally receive very low scores and are rarely funded.

The Children's Bureau's Web site (<http://www.acf.dhhs.gov/programs/cb>) provides a wide range of information and links to other relevant Web sites. Before you begin preparing an application, we suggest that you learn more about the mission and programs of the Children's Bureau by exploring the Web site.

**Organizing Your Application.** The specific evaluation criteria in Section V of this funding announcement will be used to review and evaluate each application. The applicant should address each of these specific evaluation criteria in the project description. Applicants should organize their project description in this sequence: (1) Objectives and Need for Assistance; (2) Approach; (3) Organizational Profiles; (4) Budget and Budget Justification and

should use the same headings as these criteria, so that reviewers can readily find information that directly addresses each of the specific review criteria.

**Project Evaluation Plan.** Project evaluations are very important. If you do not have the in-house capacity to conduct an objective, comprehensive evaluation of the project, then the Children's Bureau advises that you propose contracting with a third-party evaluator specializing in social science or evaluation, or a university or college, to conduct the evaluation. A skilled evaluator can assist you in designing a data collection strategy that is appropriate for the evaluation of your proposed project. Additional assistance may be found in a document titled "Program Manager's Guide to Evaluation." A copy of this document can be accessed at [http://www.acf.hhs.gov/programs/opre/other\\_research/pm\\_guide\\_eval/reports/pmguide/pmguide\\_toc.html](http://www.acf.hhs.gov/programs/opre/other_research/pm_guide_eval/reports/pmguide/pmguide_toc.html).

**Logic Model.** A logic model is a tool that presents the conceptual framework for a proposed project and explains the linkages among program elements. While there are many versions of the logic model, they generally summarize the logical connections among the needs that are the focus of the project, project goals and objectives, the target population, project inputs (resources), the proposed activities/processes/outputs directed toward the target population, the expected short- and long-term outcomes the initiative is designed to achieve, and the evaluation plan for measuring the extent to which proposed processes and outcomes actually occur. Information on the development of logic models is available on the Internet at <http://www.uwex.edu/ces/pdand/> or [http://www.extension.iastate.edu/cyfar/capbuild/ng/outcome/outcome\\_logicmdir.html](http://www.extension.iastate.edu/cyfar/capbuild/ng/outcome/outcome_logicmdir.html).

**Use of Human Subjects.** If your evaluation plan includes gathering data from or about clients, there are specific procedures which must be followed in order to protect their privacy and ensure the confidentiality of the information about them. Applicants planning to gather such data are asked to describe their plans regarding an Institutional Review Board (IRB) review. If applicable, applicants must include a completed Form 310, Protection of Human Subjects. For more information about use of human subjects and IRB's you can visit these Web sites: [http://www.hhs.gov/ohrp/irb/irb\\_chapter2.htm#d2](http://www.hhs.gov/ohrp/irb/irb_chapter2.htm#d2) and <http://www.hhs.gov/ohrp/humansubjects/guidance/ictips.htm>.

You may submit your application to us in either electronic or paper format.

To submit an application electronically, please use the [www.Grants.gov/Apply](http://www.Grants.gov/Apply) site. If you use Grants.gov, you will be able to download a copy of the application package, complete it off-line, and then upload and submit the application via the Grants.gov site. ACF will not accept grant applications via e-mail or facsimile transmission.

Please note the following if you plan to submit your application electronically via Grants.gov.

- Electronic submission is voluntary, but strongly encouraged.
  - When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation. We strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.gov.
  - To use Grants.gov, you, as the applicant, must have a DUNS Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five days to complete the CCR registration.
  - You will not receive additional point value because you submit a grant application in electronic format, nor will we penalize you if you submit an application in paper format.
  - You may submit all documents electronically, including all information typically included on the SF 424 and all necessary assurances and certifications.
  - Your application must comply with any page limitation requirements described in this program announcement.
  - After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Administration for Children and Families will retrieve your application from Grants.gov.
  - We may request that you provide original signatures on forms at a later date.
  - You may access the electronic application for this program on [www.Grants.gov](http://www.Grants.gov).
  - You must search for the downloadable application package by the CFDA number.
- Originals, copies and signatures.** If submitting your application in paper format, an original and two copies of the complete application are required. The original and each of the two copies must include all required forms, certifications, assurances, and appendices, be signed by an authorized

representative, have original signatures, and be submitted unbound.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at: [www.acf.hhs.gov/programs/ofs/forms.htm](http://www.acf.hhs.gov/programs/ofs/forms.htm).

**Standard Forms and Certifications:** The project description should include all the information requirements described in the specific evaluation criteria outlined in the program announcement under Section V Application Review Information. In addition to the project description, the applicant needs to complete all the standard forms required for making applications for awards under this announcement.

Applicants seeking financial assistance under this announcement must file the Standard Form (SF) 424, Application for Federal Assistance; SF-424A, Budget Information—Non-Construction Programs; SF-424B, Assurances—Non-Construction Programs. The forms may be reproduced for use in submitting applications. Applicants must sign and return the standard forms with their application.

Applicants must furnish prior to award an executed copy of the Standard Form LLL, Certification Regarding Lobbying, when applying for an award in excess of \$100,000. Applicants who have used non-Federal funds for lobbying activities in connection with receiving assistance under this announcement shall complete a disclosure form, if applicable, with their applications (approved by the Office of Management and Budget under control number 0348-0046). Applicants must sign and return the certification with their application.

Applicants must also understand they will be held accountable for the smoking prohibition included within Pub. L. 103-227, Title XII Environmental Tobacco Smoke (also known as the PRO-KIDS Act of 1994). A copy of the **Federal Register** notice which implements the smoking prohibition is included with forms. By signing and submitting the application, applicants are providing the certification and need not mail back the certification with the application.

Applicants must make the appropriate certification of their compliance with all Federal statutes relating to nondiscrimination. By signing and submitting the applications, applicants are providing the certification and need not mail back the certification form.

Complete the standard forms and the associated certifications and assurances based on the instructions on the forms. The forms and certifications may be found at: [www.acf.hhs.gov/programs/ofs/forms.htm](http://www.acf.hhs.gov/programs/ofs/forms.htm).

Applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget and Social Security Numbers, if otherwise required for individuals. The copies may include summary salary information.

Please see Section V.1. Criteria, for instructions on preparing the full project description.

**3. Submission Dates and Times**

*Explanation of Due Dates:* The closing time and date for receipt of applications is 4:30 p.m. (Eastern Time Zone) on the date noted above. Applications received after 4:30 p.m. eastern time on the closing date will be classified as late.

*Deadline:* Applications shall be considered as meeting an announced deadline if they are received on or before the deadline time and date

referenced in Section IV.6. Applicants are responsible for ensuring applications are mailed or submitted electronically well in advance of the application due date.

Applications hand-carried by applicants, applicant couriers, other representatives of the applicant, or by overnight/express mail couriers shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8:00 a.m. and 4:30 p.m., eastern time, at the address referenced in Section IV.6., between Monday and Friday (excluding Federal holidays).

ACF cannot accommodate transmission of applications by facsimile. Therefore, applications transmitted to ACF by fax will not be accepted regardless of date or time of submission and time of receipt.

Receipt acknowledgement for application packages will not be provided to applicants who submit their package via mail, courier services, or by hand delivery. However, applicants will receive an electronic acknowledgement

for applications that are submitted via Grants.gov.

*Late Applications:* Applications which do not meet the criteria above are considered late applications. ACF shall notify each late applicant that its application will not be considered in the current competition.

Any application received after 4:30 p.m. eastern time on the deadline date will not be considered for competition.

Applicants using express/overnight mail services should allow two working days prior to the deadline date for receipt of applications. Applicants are cautioned that express/overnight mail services do not always deliver as agreed.

*Extension of deadlines:* ACF may extend application deadlines when circumstances such as acts of God (floods, hurricanes, etc.) occur, or when there are widespread disruptions of mail service, or in other rare cases. A determination to extend or waive deadline requirements rests with the Chief Grants Management Officer.

*Checklist:* You may use the checklist below as a guide when preparing your application package.

| What to submit                                       | Required content        | Required form or format | When to submit           |
|--|-------------------------|-------------------------|--------------------------|
| Project Abstract .....                               | See Section IV .....    | Section IV .....        | By application due date. |
| Project Narrative .....                              | See Section IV, V ..... | Section IV, V .....     | By application due date. |
| SF424 .....  | See Section IV .....    | Section IV .....        | By application due date. |
| SF424A .....   | See Section IV .....    | Section IV .....        | By application due date. |
| Assurances and Certifications                        | See Section IV .....    | Section IV .....        | By application due date. |
| Letters of commitment from partners (if applicable). | See Section IV .....    | Section IV .....        | By application due date. |
| Indirect Cost Rate Agreement (if applicable).        | See Section IV .....    | Section IV .....        | By application due date. |

*Additional Forms:* Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related

Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at:

[www.acf.hhs.gov/programs/ofs/forms.htm](http://www.acf.hhs.gov/programs/ofs/forms.htm).

| What to submit                                   | Required content | Location   | When to submit           |
|--|------------------|--|--------------------------|
| Survey for Private, Non-Profit Grant Applicants. | See form .....   | May be found on <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |

**4. Intergovernmental Review**

**State Single Point of Contact (SPOC)**

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of October 1, 2004, the following jurisdictions have elected to participate in the Executive Order process: Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, North Mariana Islands, Puerto Rico, and Virgin Islands. As these jurisdictions have elected to participate in the Executive Order process, they

have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2).

A SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are

encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade SW., 4th floor, Washington, DC 20447.

When comments are submitted directly to ACF, they should be addressed to: Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants, 370 L'Enfant Promenade, SW., Washington, DC 20447.

Although the remaining jurisdictions have chosen not to participate in the process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or for projects administered by federally-recognized Indian Tribes, need take no action in regard to E.O. 12372.

The official list, including addresses, of the jurisdictions elected to participate in E.O. 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.

#### 5. Funding Restrictions

Grant awards will not allow reimbursement of pre-award costs. Construction is not an allowable activity or expenditure under this solicitation.

#### 6. Other Submission Requirements

**Submission by Mail:** An applicant must provide an original application with all attachments, signed by an authorized representative and two copies. Please see Section IV.3. for an explanation of due dates. Applications should be mailed to: ACYF Operations Center, c/o The Dixon Group, Inc., ATTN: Children's Bureau, 118 Q St., NE., Washington, DC 20002-2132.

**Hand Delivery:** An applicant must provide an original application with all attachments signed by an authorized representative and two copies. The application must be received at the address below by 4:30 p.m. eastern time on or before the closing date. Applications that are hand delivered

will be accepted between the hours of 8 a.m. to 4:30 p.m. eastern time, Monday through Friday. Applications should be delivered to:

ACYF Operations Center, c/o The Dixon Group, Inc., ATTN: Children's Bureau, 118 Q St., NE., Washington, DC 20002-2132.

**Electronic Submission:** <http://www.Grants.gov>. Please see section IV. 2 Content and Form of Application Submission, for guidelines and requirements when submitting applications electronically.

#### V. Application Review Information

*The Paperwork Reduction Act of 1995 (Pub. L. 104-13)*

Public reporting burden for this collection of information is estimated to average 40 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information.

The project description is approved under OMB control number 0970-0139 which expires 4/30/2007.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

#### 1. Criteria

##### General Instructions

The following are instructions and guidelines on how to prepare the "project summary/abstract" and "full project description" sections of the application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD).

ACF is particularly interested in specific project descriptions that focus on outcomes and convey strategies for achieving intended performance. Project descriptions are evaluated on the basis of substance and measurable outcomes, not length. Extensive exhibits are not required. Cross-referencing should be used rather than repetition. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly pertain to an integral part of the grant funded activity should be placed in an appendix. Pages should be numbered and a table of contents should be included for easy reference.

##### Introduction

Applicants required to submit a full project description shall prepare the project description statement in accordance with the following

instructions while being aware of the specified evaluation criteria. The text options give a broad overview of what your project description should include while the evaluation criteria identifies the measures that will be used to evaluate applications.

##### Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

##### Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

##### Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data is to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget

(OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF."

List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

#### Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners, such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. If the applicant is a non-profit organization, submit proof of non-profit status in its application.

The non-profit agency can accomplish this by providing: (a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code; (b) a copy of a currently valid IRS tax exemption certificate; (c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals; (d) a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status; (e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

#### Budget and Budget Justification

Provide a budget with line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. Also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss

the necessity, reasonableness, and allocability of the proposed costs.

#### General

Use the following guidelines for preparing the budget and budget justification. Both Federal and non-Federal resources shall be detailed and justified in the budget and narrative justification. "Federal resources" refers only to the ACF grant for which you are applying. "Non-Federal resources" are all other Federal and non-Federal resources. It is suggested that budget amounts and computations be presented in a columnar format: first column, object class categories; second column, Federal budget; next column(s), non-Federal budget(s), and last column, total budget. The budget justification should be a narrative.

#### Personnel

*Description:* Costs of employee salaries and wages.

*Justification:* Identify the project director or principal investigator, if known. For each staff person, provide the title, time commitment to the project (in months), time commitment to the project (as a percentage or full-time equivalent), annual salary, grant salary, wage rates, etc. Do not include the costs of consultants or personnel costs of delegate agencies or of specific project(s) or businesses to be financed by the applicant.

#### Fringe Benefits

*Description:* Costs of employee fringe benefits unless treated as part of an approved indirect cost rate.

*Justification:* Provide a breakdown of the amounts and percentages that comprise fringe benefit costs such as health insurance, FICA, retirement insurance, taxes, etc.

#### Travel

*Description:* Costs of project-related travel by employees of the applicant organization (does not include costs of consultant travel).

*Justification:* For each trip, show the total number of traveler(s), travel destination, duration of trip, per diem, mileage allowances, if privately owned vehicles will be used, and other transportation costs and subsistence allowances. Travel costs for key staff to attend ACF-sponsored workshops should be detailed in the budget.

#### Equipment

*Description:* "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost which equals or exceeds the lesser

of (a) the capitalization level established by the organization for the financial statement purposes, or (b) \$5,000. (**Note:** Acquisition cost means the net invoice unit price of an item of equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in-transit insurance, freight, and installation shall be included in or excluded from acquisition cost in accordance with the organization's regular written accounting practices.)

*Justification:* For each type of equipment requested, provide a description of the equipment, the cost per unit, the number of units, the total cost, and a plan for use on the project, as well as use or disposal of the equipment after the project ends. An applicant organization that uses its own definition for equipment should provide a copy of its policy or section of its policy which includes the equipment definition.

#### Supplies

*Description:* Costs of all tangible personal property other than that included under the Equipment category.

*Justification:* Specify general categories of supplies and their costs. Show computations and provide other information which supports the amount requested.

#### Contractual

*Description:* Costs of all contracts for services and goods except for those that belong under other categories such as equipment, supplies, construction, etc. Include third party evaluation contracts (if applicable) and contracts with secondary recipient organizations, including delegate agencies and specific project(s) or businesses to be financed by the applicant.

*Justification:* Demonstrate that all procurement transactions will be conducted in a manner to provide, to the maximum extent practical, open and free competition. Recipients and subrecipients, other than States that are required to use Part 92 procedures, must justify any anticipated procurement action that is expected to be awarded without competition and exceed the simplified acquisition threshold fixed at 41 U.S.C. 403(11) (currently set at \$100,000).

Recipients might be required to make available to ACF pre-award review and procurement documents, such as request for proposals or invitations for bids, independent cost estimates, etc.

**Note:** Whenever the applicant intends to delegate part of the project to another agency,

the applicant must provide a detailed budget and budget narrative for each delegate agency, by agency title, along with the required supporting information referred to in these instructions.

#### Other

Enter the total of all other costs. Such costs, where applicable and appropriate, may include but are not limited to insurance, food, medical and dental costs (noncontractual), professional services costs, space and equipment rentals, printing and publication, computer use, training costs, such as tuition and stipends, staff development costs, and administrative costs.

*Justification:* Provide computations, a narrative description and a justification for each cost under this category.

#### Indirect Charges

*Description:* Total amount of indirect costs. This category should be used only when the applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

*Justification:* An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. If the applicant organization is in the process of initially developing or renegotiating a rate, upon notification that an award will be made, it should immediately develop a tentative indirect cost rate proposal based on its most recently completed fiscal year, in accordance with the cognizant agency's guidelines for establishing indirect cost rates, and submit it to the cognizant agency. Applicants awaiting approval of their indirect cost proposals may also request indirect costs. When an indirect cost rate is requested, those costs included in the indirect cost pool should not also be charged as direct costs to the grant. Also, if the applicant is requesting a rate which is less than what is allowed under the program, the authorized representative of the applicant organization must submit a signed acknowledgement that the applicant is accepting a lower rate than allowed.

*Evaluation Criteria:* The following evaluation criteria appear in weighted descending order. The corresponding score values indicate the relative importance that ACF places on each evaluation criterion; however, applicants need not develop their applications precisely according to the order presented. Application components may be organized such that a reviewer will be able to follow a seamless and logical flow of information (e.g. from a broad overview of the

project to more detailed information about how it will be conducted).

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

#### Approach (50 Points)

In reviewing the approach, the following factors will be considered: (50 points)

(1) The extent to which there is a sound timeline for effectively implementing the proposed project, including major milestones and target dates. The extent to which the proposed project would complete the development and implementation of a child abuse prevention program in a timely manner and conduct a thorough evaluation of its effectiveness within the three-year project time frame.

(2) The extent to which the proposed project would improve the safety and well-being of tribal, Native American or migrant families being served by the program. The extent to which specific measurable outcomes will occur as a result of the proposed child abuse prevention program. The extent to which there will be a strong relationship between the proposed child abuse prevention or family support program and improved outcomes for tribal, Native American or migrant children and families.

(3) The extent to which there will be an effective administrative and organizational interface between the applicant and CBCAP State Lead Agencies. The extent to which there are appropriate letters of commitment from any partner organizations, if applicable.

(4) The extent to which the application demonstrates a thorough understanding of the challenges of improving the approaches to providing family support and child abuse prevention services to the target population. The extent to which the application demonstrates a thorough understanding of the challenges that the proposed project will have in planning and implementing the proposed project with these underserved groups. The extent to which the applicant provides a sound plan explaining how the project would successfully overcome these challenges.

(5) The extent to which the proposed project will effectively provide culturally competent services to the tribal, Native American or migrant population.

(6) The extent to which the design of the proposed project reflects up-to-date knowledge from child welfare

prevention research and literature. The extent to which the proposed project is innovative and involves service delivery strategies that build on, or are an alternative to, existing strategies.

(7) The extent to which the project's evaluation plan would measure achievement of project objectives, customer satisfaction, acquisition of competencies, effectiveness of program services and project strategies, the efficiency of the implementation process, and the impact of the project. The extent to which the methods of evaluation would provide performance feedback, support periodic assessment of program progress and provide a sound basis for program adjustments. The extent to which the proposed evaluation plan would be likely to yield useful findings or results about effective strategies, and contribute to and promote evaluation research and evidence-based practices that could be used to guide replication or testing in other settings. The extent to which applicants that do not have the in-house capacity to conduct an objective, comprehensive evaluation of the project present a sound plan for contracting with a third-party evaluator specializing in social science or evaluation, or a university or college to conduct the evaluation.

(8) The extent to which there is a sound plan for documenting project activities and results, including the development of a data collection infrastructure that is sufficient to support a methodologically sound and rigorous evaluation. The extent to which appropriate data sources are identified and relevant data would be collected. The extent to which there is a sound plan for collecting and analyzing these data, securing informed consent and implementing an Institutional Review Board (IRB) review, and Tribal review, if applicable.

(9) The extent to which there is a sound plan for developing useful products during the proposed project and a reasonable schedule for developing these products. The extent to which the intended audience (e.g., researchers, policymakers, and practitioners) for product dissemination is comprehensive and appropriate. The extent to which the dissemination plan includes appropriate mechanisms and forums that would effectively convey the information and support successful replication by other interested agencies.

(10) The extent to which there is a sound plan for continuing this project beyond the period of Federal funding.

**Organizational Profiles (20 Points)**

In reviewing the organizational profiles, the following factors will be considered: (20 points)

(1) The extent to which the application evidences sufficient experience and expertise in child abuse prevention or family support, especially in the area of service delivery involving tribal, Native American, or migrant populations; in collaboration with child and family agencies serving the target population; in culturally competent service delivery; and in administration, development, implementation, management, and evaluation of similar projects. The extent to which each participating organization (including partners and/or subcontractors) possesses the organizational capability to fulfill their assigned roles and functions effectively (if the application involves partnering and/or subcontracting with other agencies/organizations) in serving tribal, Native American or migrant populations.

(2) The extent to which the proposed project director and key project staff possess sufficient relevant knowledge, experience and capabilities to implement and manage a project of this size, scope and complexity effectively (e.g. resume). The extent to which the role, responsibilities and time commitments of each proposed project staff position, including consultants, subcontractors and/or partners, are clearly defined and appropriate to the successful implementation of the proposed project with respect to serving tribal, Native American or migrant populations.

(3) The extent to which there is a sound management plan for achieving the objectives of the proposed project on time and within budget, including clearly defined responsibilities, for accomplishing project tasks and ensuring quality. The extent to which the plan clearly describes the effective management and coordination of activities carried out by any partners, subcontractors and consultants (if appropriate). The extent to which there would be a mutually beneficial relationship between the proposed project and other work planned, anticipated or underway with Federal assistance by the applicant.

**Objectives and Need for Assistance (20 Points)**

In reviewing the objectives and need for assistance, the following factors will be considered: (20 points)

(1) The extent to which the application demonstrates an understanding of the requirements of

Title II of the Child Abuse Prevention and Treatment Act, and the extent to which the proposed project will contribute to meeting those requirements. The extent to which the application demonstrates a clear understanding of issues related to the prevention of child abuse and neglect for the tribal, Native American or migrant population.

(2) The extent to which the application demonstrates a thorough understanding of the need for family support and child abuse prevention services for the tribal, Native American or migrant population.

(3) The extent to which the application presents a clear vision for the proposed child abuse prevention project to be developed and implemented. The extent to which the applicant makes a clear statement of the goals (end products of an effective project) and objectives (measurable steps for reaching these goals) of the proposed project. The extent to which these goals and objectives closely relate to the family support needs of tribes, Native Americans, or the migrant population in the target community.

(4) The extent to which the application presents a thorough review of the relevant literature that reflects a clear understanding of the research on best practices and promising approaches as it relates to the proposed project. The extent to which the review of the literature sets a sound context and rationale for the project. The extent to which it provides evidence that the proposed project is innovative and, if successfully implemented and evaluated, likely to contribute to the knowledge base on the prevention of child abuse and neglect and the promotion of family support for tribes, Native Americans, or the migrant population.

(5) The extent to which the lessons learned through the proposed project would benefit policy, practice and theory development in addressing the family support needs of tribes, Native Americans, or the migrant population in the target community.

**Budget and Budget Justification (10 Points)**

In reviewing the budget and budget justification, the following factors will be considered: (10 points)

(1) The extent to which the costs of the proposed project are reasonable and appropriate, in view of the activities to be conducted and expected results and benefits.

(2) The extent to which the applicant's fiscal controls and accounting procedures would ensure

prudent use, proper and timely disbursement and accurate accounting of funds received under this program announcement.

**2. Review and Selection Process**

No grant award will be made under this announcement on the basis of an incomplete application.

When the Operations Center receives your application it will be screened to confirm that your application was received by the deadline. Federal staff will verify that you are an eligible applicant and that the application contains all the essential elements. Applications received after the deadline will be withdrawn from further consideration.

A panel of at least three reviewers (primarily experts from outside the Federal government) will use the evaluation criteria described in this announcement to evaluate each application. The reviewers will determine the strengths and weaknesses of each application, provide comments about the strengths and weaknesses and give each application a numerical score.

All applications will be reviewed and evaluated using four major criteria: (1) Objectives and need for assistance, (2) approach, (3) organizational profiles, and (4) budget and budget justification. Each criterion has been assigned a point value. The point values (summing up to 100) indicate the maximum numerical weight each criterion may be given in the review and evaluation process.

Reviewers also are evaluating the project products and materials that you propose. They will be interested in your plans for sustaining your project without Federal funds if the evaluation findings are supportive. Reviewers will be looking to see that the total budget you propose and the way you have apportioned that budget are appropriate and reasonable for the project you have described. Remember that the reviewers only have the information that you give them, so it needs to be clear, complete, and concise.

The results of the competitive review are a primary factor in making funding decisions. In addition, Federal staff conducts administrative reviews of the applications and, in light of the results of the competitive review, will recommend applications for funding to the ACYF Commissioner. ACYF reserves the option of discussing applications with other funding sources when this is in the best interest of the Federal government. ACYF may also solicit and consider comments from ACF Regional Office staff in making funding decisions. ACYF may take into consideration the involvement

(financial and/or programmatic) of the private sector, national, or State or community foundations; a favorable balance between Federal and non-Federal funds for the proposed project; or the potential for high benefit from low Federal investment. ACYF may elect not to fund any applicants having known management, fiscal, reporting, programmatic, or other problems which make it unlikely that they would be able to provide effective services or effectively complete the proposed activity.

With the results of the peer review and the information from Federal staff, the Commissioner of ACYF makes the final funding decisions. The Commissioner may give special consideration to applications proposing services of special interest to the Government and to achieve geographic distributions of grant awards. Applications of special interest may include, but are not limited to, applications focusing on unserved or inadequately served clients or service areas and programs addressing diverse ethnic populations.

#### Available Funds

Applicants should note that grants to be awarded under this program announcement are subject to the availability of funds.

#### Approved But Unfunded Applications

In cases where more applications are approved for funding than ACF can fund with the money available, the Grants Officer shall fund applications in their order of approval until funds run out. In this case, ACF has the option of carrying over the approved applications up to a year for funding consideration in a later competition of the same program. These applications need not be reviewed and scored again if the program's evaluation criteria have not changed. However, they must then be placed in rank order along with other applications in later competition.

#### 3. Anticipated Announcement and Award Dates

Applications will be reviewed during the Summer 2005. Grant awards will have a start date no later than September 30, 2005.

### VI. Award Administration Information

#### 1. Award Notices

The successful applicants will be notified through the issuance of a Financial Assistance Award document which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support

will be given, the non-Federal share to be provided (if applicable), and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

Organizations whose applications will not be funded will be notified in writing.

#### 2. Administrative and National Policy Requirements

Grantees are subject to the requirements in 45 CFR Part 74 (non-governmental) or 45 CFR Part 92 (governmental).

#### 3. Reporting Requirements

*Programmatic Reports:* Semi-Annually.

*Financial Reports:* Semi-Annually. Programmatic Reports and Financial Reports are required semi-annually. All required reports will be submitted in a timely manner, in recommended formats (to be provided), and the final report will also be submitted on disk or electronically using a standard word-processing program.

### VII. Agency Contacts

#### Program Office Contact

Melissa Brodowski, Children's Bureau, 330 C Street, SW., Washington, DC 20447. Phone: 202-205-2629. E-mail: [mbrodowski@acf.hhs.gov](mailto:mbrodowski@acf.hhs.gov).

#### Grants Management Office Contact

Peter Thompson, Grants Officer, Administration for Children and Families, Children's Bureau, 330 C Street, SW., Room 2070, Washington, DC 20447. Phone: 202-401-4608. E-mail: [pthompson@acf.hhs.gov](mailto:pthompson@acf.hhs.gov).

### VIII. Other Information

*Notice:* Beginning with FY 2006, the Administration for Children and Families (ACF) will no longer publish grant announcements in the **Federal Register**. Beginning October 1, 2005 applicants will be able to find a synopsis of all ACF grant opportunities and apply electronically for opportunities via: [www.Grants.gov](http://www.Grants.gov). Applicants will also be able to find the complete text of all ACF grant announcements on the ACF Web site located at: <http://www.acf.hhs.gov/grants/index.html>.

Direct federal grants, sub-award funds, or contracts under this program shall not be used to support inherently religious activities such as religious instruction, worship, or proselytization. Therefore, organizations must take steps to separate, in time or location, their inherently religious activities from the services funded under this program.

Regulations pertaining to the prohibition of Federal funds for inherently religious activities can be found on the HHS Web site at <http://www.os.dhhs.gov/fbc/waisgate21.pdf>.

Additional information about this program and its purpose can be located on the following Web sites: <http://www.acf.hhs.gov/programs/cb/>.

For general information regarding this announcement please contact: ACYF Operations Center, c/o The Dixon Group, Inc., ATTN: Children's Bureau, 118 Q St., NE., Washington, DC 20002-2132. Telephone: 866-796-1591.

Applicants will not be sent acknowledgements of received applications.

Dated: April 27, 2005.

Joan E. Ohl,

Commissioner, Administration on Children, Youth and Families.

[FR Doc. 05-8897 Filed 5-3-05; 8:45 am]

BILLING CODE 4184-01-P

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Administration for Children and Families

#### Administration on Children, Youth and Families

*Funding Opportunity Title:* FY2005 Discretionary Grants for the Family Violence Prevention and Services Program; Specialized Outreach Demo.; Domestic Violence/Runaway and Homeless Youth Collaboration on the Prevention of Adolescent Dating Violence; and, Minority Training Grant Stipends in Domestic Violence for Historically Black, Hispanic-Serving and Tribal Colleges and Universities.

*Announcement Type:* Initial.

*Funding Opportunity Number:* HHS-2005-ACF-ACYF-EV-0077.

*CFDA Number:* 93.592.

*Due Date for Applications:* Application is due July 5, 2005.

*Executive Summary:* Specialized Outreach Demonstration Projects for Services to Underserved and Diverse Populations: In order to further the commitment to bring diverse voices and approaches to the discussions on the elimination of domestic violence, the Administration on Children, Youth and Families announces grant funds to support projects that convene researchers, activists, survivors of domestic violence, and practitioners who have been advocates of a more culturally appropriate and familial orientation to the elimination of domestic violence.

The Administration on Children, Youth and Families seeks to support coordinated outreach efforts to underserved and diverse communities, of which each effort is staffed and/or supported by expert and multi-disciplined teams that are culturally responsive and competent in regard to the issue of domestic violence in their particular communities.

On a nationwide basis the expertise assembled within the Special Outreach projects will offer assistance on resource accumulation and information, capacity building within community organizations, policy analysis and review, training, and technical assistance for public and private organizations providing service in the domestic violence community. This assistance will be available to the entire domestic violence community as well as the specific communities to be served by these demonstration projects.

Domestic Violence/Runaway and Homeless Youth Collaborations on the Prevention of Adolescent Dating Violence: The collaboration of the Runaway Youth and Domestic Violence communities will foster the development and implementation of effective strategies and program requirements for the use of domestic violence prevention services concurrently with services provided through Basic Center, Transitional Living and Street Outreach Projects. These collaborations will help to eliminate adolescent dating violence.

These collaborative efforts will focus on the youth who are identified within the domestic violence and runaway and homeless youth communities as individuals that may be responsive to a collaborative set of interventions that are useful as effective prevention and intervention strategies.

*Minority Training Grant Stipends in Domestic Violence for Historically Black, Hispanic-Serving, and Tribal Colleges and Universities:* The Minority Training Grant Stipends to Historically Black, Hispanic Serving, and Tribal Colleges and Universities will assist in generating skill-building and training opportunities in domestic violence prevention and services. These projects will be particularly responsive to issues of cultural content and designed to increase the extent to which minority groups participate in the domestic violence service community.

A substantial proportion of the domestic violence that occurs in the general population involves underserved populations, including populations that are underserved because of ethnic, racial, cultural, language diversity or geographic

isolation. The purpose of this effort and priority area is to increase the numbers and the capacity of the advocates and allies to do the work that is needed in these communities to prevent domestic violence.

### I. Funding Opportunity Description

The Family Violence Prevention and Services Act (the Act) was originally enacted in sections 301-313 of Title III of the "Child Abuse Amendments of 1984" (Pub. L. 98-457, 10/9/84). The Act was reauthorized and otherwise amended by the "Child Abuse Prevention, Adoptions, and Family Services Act of 1988" (Pub. L. 100-294, 4/25/88); the "Child Abuse, Domestic Violence, Adoption, and Family Services Act of 1992" (Pub. L. 102-295, 5/2/92); the "Safe Homes for Women of 1994," Subtitle B of the "Violent Crime Control and Law Enforcement Act of 1994" (Pub. L. 103-322, 9/13/94); and the "Child Abuse and Prevention Treatment Act of 1996" (Pub. L. 104-235, 10/3/96); and the "Victims of Trafficking and Violence Protection Act of 2000" (Pub. L. 106-386, 10/28/00). The Act was most recently amended by the "Keeping Children and Families Safe Act of 2003" (Pub. L. 108-36).

Priority Area 1: Specialized Outreach Demonstration Projects for Services to Underserved and Diverse Populations

#### 1. Description

##### *Funding Opportunity Description*

In order to further the commitment to bring diverse voices and approaches to the discussions on the elimination of domestic violence, the Administration on Children, Youth and Families announces grant funds to support projects that convene researchers, activists, survivors of domestic violence, and practitioners who have been advocates of a more culturally appropriate and familial orientation to the elimination of domestic violence.

On a nationwide basis the expertise assembled within the Special Outreach projects will offer assistance on resource accumulation and information, capacity building within community organizations, policy analysis and review, training, and technical assistance for public and private organizations providing service in the domestic violence community. This assistance will be available to the entire domestic violence community as well as the specific communities to be served by these demonstration projects.

##### *Minimum Requirements*

Areas of emphasis to be developed in the applicants' proposals are the:

- Description of the immediacy of needs to be addressed as an outreach demonstration and the description of information on the specific assistance your organization currently provides; and a general description of the activities and assistance to be provided as a demonstration;
- Technical assistance, training and consultation to be provided to improve the cultural relevancy of service delivery, resource utilization, and state-of-the-art techniques related to program implementation, service delivery and evaluation;
- Development of a network of young adult, culturally competent professionals in domestic violence and the coordination of their input, experiences and professional expertise to assist persons, programs, or agencies requesting information or assistance;
- Presentation of the technical approach and specific strategies for assistance to the field that is national in scope, culturally specific in emphasis, and includes the use of expert panels and/or working groups;
- Description of efforts that will be initiated with other national advocacy and domestic violence organizations, other national technical assistance resource centers and clearinghouses, and articulate how the continued coordination with them will enhance the demonstration efforts;
- Provision of a detailed plan that proposes the implementation of special projects related to policy issues, training, curricula development, service delivery models or other aspects of services, related to the prevention of domestic violence;
- Provision of a work plan and evaluation schedule, and a plan for a report on the effectiveness of the project one year after the effective date of the grant award;
- Description of the outreach staff and supportive expertise including a steering committee, organizational or institutional affiliations, capability, and experience in the area of domestic violence;
- Description of the organizational and administrative structure, the management plan, and the cost structure within which the project will operate; and
- A description of the administrative, operational and organizational relationships that are current, and those that will be established with other centers and technical assistance entities for an effective national network.

### II. Award Information

*Funding Instrument Type:*  
Cooperative Agreement.

**Federal Substantial Involvement with Cooperative Agreement:** The ACYF intends to support the Special Outreach Demonstrations through Cooperative Agreement Awards. A cooperative agreement is an award instrument of financial assistance when substantial involvement is anticipated between the awarding office and the recipient during performance of the contemplated project.

The ACYF will outline a plan of action with the grantee for implementation under the cooperative agreement. The ACYF anticipates collaboration that facilitates outreach activities with local and non-profit community organizations. Assistance by ACYF will also be characterized by assuring that information on community based resources and activities are available to the grantee. The ACYF, in support of the Special Outreach Demonstration grantees, will sponsor a peer-to-peer information exchange workshop to facilitate and identify technical assistance issues and related information requirements of the grantee.

The respective responsibilities of the ACYF and the successful applicant will be identified and incorporated in to the agreement during the pre-award negotiations. It is anticipated that the cooperative agreement will not change the project requirements for the grantee in this announcement. The plan under the cooperative agreement will prescribe the general and specific responsibilities of the grantee as well as the grantor as well as foreseeable joint responsibilities. A schedule of tasks will be developed and agreed upon in addition to any special conditions relating to the implementation of the project.

**Anticipated Total Priority Area Funding:** \$1,600,000.

**Anticipated Number of Awards:** 1 to 4.

**Ceiling on Amount of Individual Awards Per Budget Period:** \$400,000.

**Average Projected Award Amount Per Budget Period:** \$400,000.

**Length of Project Periods:** 36 month project with three 12 month budget periods.

### III. Eligibility Information

#### 1. Eligible Applicants

State-controlled institutions of higher education; Non-profits having a 501(c)(3) status with the IRS, other than institutions of higher education; Private institutions of higher education; Others (see Additional Information on Eligibility below.)

#### Additional Information on Eligibility

**Eligibility includes:** Faith-based community organizations, domestic

violence advocacy organizations, and public and private non-profit disability organizations with 501(c)(3) status.

Public or private non-profit educational institutions that have domestic violence institutes, centers or programs related to culturally specific issues in domestic violence; private non-profit organizations and/or collaborations that focus primarily on issues of domestic violence in racial and ethnic underserved communities. All applicants must have documented experience in the areas of domestic violence prevention and services, and experience and relevance to the specific underserved populations to whom assistance, outreach and information would be provided. Each applicant must have an advisory board/steering committee and staffing that is reflective of the targeted underserved community.

#### 2. Cost Sharing/Matching

None.

#### 3. Other

Awards, on a competitive basis, will be for a one-year budget period, although project periods may be for 3 years. Applications for continuation grants funded under these awards beyond the one-year period will be considered in subsequent years on a non-competitive basis, subject to the availability of funds, satisfactory progress of the grantee, and a determination that continued funding would be in the best interest of the government. Total funds available for the first 12 months of the project are subject to the availability of funds.

All applicants must have a Dun & Bradstreet number. On June 27, 2003 the Office of Management and Budget published in the *Federal Register* a new Federal policy applicable to all Federal grant applicants. The policy requires Federal grant applicants to provide a Dun & Bradstreet Data Universal Numbering System (DUNS) number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal ([www.Grants.gov](http://www.Grants.gov)). A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you

may request a number on-line at <http://www.dnb.com>.

Non-profit organizations applying for funding are required to submit proof of their non-profit status. Proof of non-profit status is any one of the following:

- A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code.
- A copy of a currently valid IRS tax exemption certificate.
- A statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals.
- A certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status.
- Any of the items in the subparagraphs immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

When applying electronically we strongly suggest you attach your proof of non-profit status with your electronic application.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

#### Disqualification Factors

Applications that exceed the ceiling amount will be considered non-responsive and will not be eligible for funding under this announcement.

Any application that fails to satisfy the deadline requirements referenced in Section IV.3 will be considered non-responsive and will not be considered for funding under this announcement.

### IV. Application and Submission Information

#### 1. Address to Request Application Package

ACYF Operations Center, c/o The Dixon Group, Inc., Attention FV-FYSB, 118 Q Street, NE., Washington, DC 20002-2132. Phone: 866-796-1591, Email: [FYSB@dixongroup.com](mailto:FYSB@dixongroup.com).

## 2. Content and Form of Application Submission

You may submit your application to us in either electronic or paper format. To submit an application electronically, please use the <http://www.Grants.gov/Apply> site. If you use Grants.gov, you will be able to download a copy of the application package, complete it off-line, and then upload and submit the application via the Grants.gov site. ACF will not accept grant applications via email or facsimile transmission.

Please note the following if you plan to submit your application electronically via Grants.gov

- Electronic submission is voluntary, but strongly encouraged.
- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation. We strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.gov.
- We recommend you visit Grants.gov at least 30 days prior to filing your application to fully understand the process and requirements. We encourage applicants who submit electronically to submit well before the closing date and time so that if difficulties are encountered an applicant can still send in a hard copy overnight. If you encounter difficulties, please contact the Grants.gov Help Desk at 1-800-518-4276 to report the problem and obtain assistance with the system.
- To use Grants.gov, you, as the applicant, must have a DUNS Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five days to complete the CCR registration.
- You will not receive additional point value because you submit a grant application in electronic format, nor will we penalize you if you submit an application in paper format.
- You may submit all documents electronically, including all information typically included on the SF 424 and all necessary assurances and certifications.
- Your application must comply with any page limitation requirements described in this program announcement.
- After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Administration for Children and Families will retrieve your application from Grants.gov.
- We may request that you provide original signatures on forms at a later date.

- You may access the electronic application for this program on [www.Grants.gov](http://www.Grants.gov).

- You must search for the downloadable application package by the CFDA number.

An original and two copies of the complete application are required. The original and each of the two copies must include all required forms, certifications, assurances, and appendices, be signed by an authorized representative, have original signatures, and be submitted unbound.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

Receipt acknowledgement for application packages will not be provided to applicants who submit their package via mail, courier services, or by hand delivery. However, applicants will receive an electronic acknowledgement for applications that are submitted via <http://www.Grants.gov>.

**Standard Forms and Certifications:** The project description should include all the information requirements described in the specific evaluation criteria outlined in the program announcement under Section V Application Review Information. In addition to the project description, the applicant needs to complete all the standard forms required for making applications for awards under this announcement.

Applicants seeking financial assistance under this announcement must file the Standard Form (SF) 424, Application for Federal Assistance; SF 424A, Budget Information—Non-Construction Programs; SF 424B, Assurances—Non-Construction Programs. The forms may be reproduced for use in submitting applications. Applicants must sign and return the standard forms with their application.

Applicants must furnish prior to award an executed copy of the Standard Form LLL, Certification Regarding Lobbying, when applying for an award in excess of \$100,000. Applicants who have used non-Federal funds for lobbying activities in connection with receiving assistance under this announcement shall complete a disclosure form, if applicable, with their applications (approved by the Office of Management and Budget under control number 0348-0046). Applicants must sign and return the certification with their application.

Applicants must also understand they will be held accountable for the smoking prohibition included within Public Law 103-227, Title XII Environmental Tobacco Smoke (also known as the PRO-KIDS Act of 1994). A copy of the **Federal Register** notice which implements the smoking prohibition is included with forms. By signing and submitting the application, applicants are providing the certification and need not mail back the certification with the application.

Applicants must make the appropriate certification of their compliance with all Federal statutes relating to nondiscrimination. By signing and submitting the applications, applicants are providing the certification and need not mail back the certification form. Complete the standard forms and the associated certifications and assurances based on the instructions on the forms. The forms and certifications may be found at <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

Those organizations required to provide proof of non-profit status, please refer to Section III.3.

Please see Section V.1, for instructions on preparing the full project description.

## 3. Submission Dates and Times

**Explanation of Application Due Dates:** The closing time and date for receipt of applications is referenced above. Applications received after 4:30 p.m. eastern time on the closing date will be classified as late.

**Deadline:** Applications shall be considered as meeting an announced deadline if they are received on or before the deadline time and date referenced in Section IV.6. Applicants are responsible for ensuring applications are mailed or submitted electronically well in advance of the application due date.

Applications hand carried by applicants, applicant couriers, other representatives of the applicant, or by overnight/express mail couriers shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8 a.m. and 4:30 p.m., eastern time, at the address referenced in Section IV.6., between Monday and Friday (excluding Federal holidays).

ACF cannot accommodate transmission of applications by facsimile. Therefore, applications transmitted to ACF by fax will not be accepted regardless of date or time of submission and time of receipt.

Applicants will not be sent acknowledgement of applications received in hard-copy through the mail.

Applicants that submit applications via Grants.gov will receive electronic acknowledgement.

**Late Applications:** Applications that do not meet the criteria above are considered late applications. ACF shall notify each late applicant that its application will not be considered in the current competition.

Any application received after 4:30 p.m. eastern time on the deadline date will not be considered for competition.

Applicants using express/overnight mail services should allow two working days prior to the deadline date for receipt of applications. Applicants are cautioned that express/overnight mail services do not always deliver as agreed.

**Extension of deadlines:** ACF may extend application deadlines when

circumstances such as acts of God (floods, hurricanes, etc.) occur, or when there are widespread disruptions of mail service, or in other rare cases. A determination to extend or waive deadline requirements rests with the Chief Grants Management Officer.

**Checklist:** You may use the checklist below as a guide when preparing your application package.

| What to submit                                       | Required content           | Required form or format  | When to submit                                       |
|--|----------------------------|--|--|
| Project Abstract .....                               | See Sections IV.2 and V .. | Found in Sections IV.2 and V .....   | By application due date.                             |

**4. Intergovernmental Review**

**State Single Point of Contact (SPOC)**

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of October 1, 2004, the following jurisdictions have elected to participate in the Executive Order process: Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, North Mariana Islands, Puerto Rico, and Virgin Islands. As these jurisdictions have elected to participate

in the Executive Order process, they have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2).

A SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations that may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services,

Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade SW., 4th floor, Washington, DC 20447.

Although the remaining jurisdictions have chosen not to participate in the process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or for projects administered by federally recognized Indian Tribes, need take no action in regard to E.O. 12372.

The official list, including addresses, of the jurisdictions that have elected to participate in E.O. 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.

**5. Funding Restrictions**

ACYF will not fund any project where the role of the applicant is to serve as a conduit for funds to organizations other than the applicant. The applicant

must have a substantive role in the implementation for the project for which the funding is requested. This prohibition does not bar the making of sub-grants or sub-contracting for specific services or activities needed to conduct the project.

#### 6. Other Submission Requirements

**Submission by Mail:** An applicant must provide an original application with all attachments, signed by an authorized representative and two copies. Please see Section IV.3 for an explanation of due dates. Applications should be mailed to: ACYF Operations Center, c/o The Dixon Group, Attention: FV-FYSB Funding, 118 Q Street, NE., Washington, DC 20002-2132.

**Hand Delivery:** An applicant must provide an original application with all attachments signed by an authorized representative and two copies. The application must be received at the address below by 4:30 p.m. eastern time on or before the closing date. Applications that are hand delivered will be accepted between the hours of 8 a.m. to 4:30 p.m. eastern time, Monday through Friday. Applications should be delivered to:

Electronic Submission: <http://www.Grants.gov>. Please see Section IV.2 for guidelines and requirements when submitting applications electronically.

#### V. Application Review Information

*The Paperwork Reduction Act of 1995 (Pub. L. 104-13)*

Public reporting burden for this collection of information is estimated to average 40 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information.

The project description is approved under OMB control number 0970-0139, which expires 4/30/2007.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

##### 1. Criteria

The following are instructions and guidelines on how to prepare the "project summary/abstract" and "full project description" sections of the application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD).

#### Part I—The Project Description Overview

##### Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, information responsive to each of the requested evaluation criteria must be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application in a manner that is clear and complete.

##### Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

##### Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

##### Results or Benefits Expected

Identify the results and benefits to be derived. Identify the methodology, quantitative or qualitative, which will be used to determine the outcomes of the project.

##### Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities

identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

##### Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners, such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. If the applicant is a non-profit organization, submit proof of non-profit status in its application.

The non-profit agency can accomplish this by providing: (a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code; (b) a copy of a currently valid IRS tax exemption certificate; (c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals; (d) a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status; (e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

##### Budget and Budget Justification

Provide a budget with line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail

sufficient for the calculation to be duplicated. Also include a breakout by the funding sources identified in Block 15 of the SF 424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

**Evaluation Criteria:** The following evaluation criteria appear in weighted descending order. The corresponding score values indicate the relative importance that ACF places on each evaluation criterion; however, applicants need not develop their applications precisely according to the order presented. Application components may be organized such that a reviewer will be able to follow a seamless and logical flow of information (*i.e.*, from a broad overview of the project to more detailed information about how it will be conducted).

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

#### Approach (30 Points)

The extent to which the application outlines a sound and workable plan of action pertaining to the scope of the project, and details how the proposed work will be accomplished; relates each task to the objectives and identifies the key staff member who will be the lead person; provides a chart indicating the timetable for completing each task, the lead person, and the time committed; cites factors that might accelerate or decelerate the work, giving acceptable reasons for taking this approach as opposed to others; describes and supports any unusual features of the project, such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement; and provides for projections of the accomplishments to be achieved. The extent to which the application describes the evaluation methodology that will be used to determine if the needs identified and discussed are being met and if the results and benefits identified are being achieved.

#### Results or Benefits Expected (20 Points)

The extent to which the application identifies the results and benefits to be derived, the extent to which they are consistent with the objectives of the applications, the extent to which the application indicates the anticipated contributions to policy, practice, and theory, and the extent to which the

proposed project costs are reasonable in view of the expected results. Identify, in specific terms, the results and benefits, for target groups and human service providers, to be derived from implementing the proposed project.

#### Objectives and Need for Assistance (20 Points)

The extent to which the need for the project and the problems it will address have national and local significance; the applicability of the project to coordination efforts by national, Tribal, State and local governmental and non-profit agencies, and its ultimate impact on domestic violence prevention services and intervention efforts, policies and practice; the relevance of other documentation as it relates to the applicant's knowledge of the need for the project; and the identification of the specific topic or area to be served by the project. Maps and other graphic aids may be attached.

The extent to which, when applicable, the application describes the evaluation methodology that will be used to determine if the needs identified and discussed are being met and if the results and benefits identified are being achieved.

#### Budget and Budget Justification (15 Points)

Relate the proposed budget to the level of effort required to obtain the project's objectives and provide a cost/benefit analysis. Demonstrate that the project's costs are reasonable in view of the anticipated results. Applications will be evaluated on the extent to which they include a budget that is concise and provides a detailed justification of the amount of Federal funds that are requested.

#### Organizational Profiles (15 Points)

The extent to which the participating organizations and entities have discussed, through letters and other documentation, the proposed collaboration and cooperation. Assess the extent to which the financial and physical resources provided by the participating entities will be adequate and to what extent will the coordinating organizations participate in the day to day operations of the project.

#### 2. Review and Selection Process

No grant award will be made under this announcement on the basis of an incomplete application.

#### Approved but Unfunded Applications

In cases where more applications are approved for funding than ACF can fund with the money available, the

Grants Officer shall fund applications in their order of approval until funds run out. In this case, ACF has the option of carrying over the approved applications up to a year for funding consideration in a later competition of the same program. These applications need not be reviewed and scored again if the program's evaluation criteria have not changed. However, they must then be placed in rank order along with other applications in later competition.

Since ACF will be using non-Federal reviewers in the process, applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget and Social Security Numbers, if otherwise required for individuals. The copies may include summary salary information.

#### VI. Award Administration Information

##### 1. Award Notices

The successful applicants will be notified through the issuance of a Financial Assistance Award document, which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail. Organizations whose applications will not be funded will be notified in writing.

##### 2. Administrative and National Policy Requirements

Grantees are subject to the requirements in 45 CFR Part 74 (non-governmental) or 45 CFR Part 92 (governmental).

##### 3. Reporting Requirements

All grantees are required to submit semi-annual program reports; grantees are also required to submit semi-annual expenditure reports using the required financial standard form (SF 269) which can be found at the following URL: <http://www.acf.hhs.gov/programs/ofs/forms.htm>

Final reports are due 90 days after the end of the grant period.

Programmatic Reports: Semi-Annually.

Financial Reports: Semi-Annually.  
Programmatic Reports: Semi-annually and a final report is due 90 days after the grant period.

Financial Reports: Semi-annually and a final report is due 90 days after the grant period.

All grantees are required to submit semi-annual financial status reports using the required financial standard form (SF 269). A format for the program report will be sent to all grantees after the awards are made.

#### VII. Agency Contacts

Program Office Contact: William D. Riley, Director, Family Violence Division, Room 2117, Switzer Building, 330 C Street, SW., Washington, DC 20447. Phone: 202-401-5229. E-mail: [wiley@acf.hhs.gov](mailto:wiley@acf.hhs.gov).

Grants Management Office Contact: Peter Thompson, Grants Officer, Administration on Children, Youth, and Families, Room 2070, Switzer Building, 330 C Street, SW., Washington, DC 20447. Phone: 202-401-4608. E-mail: [pthompson@acf.hhs.gov](mailto:pthompson@acf.hhs.gov).

#### VIII. Other Information

**Notice:** Beginning with FY 2006, the Administration for Children and Families (ACF) will no longer publish family violence discretionary grant announcements in the **Federal Register**. Beginning October 1, 2005 applicants will be able to find a synopsis of all ACF grant opportunities and apply electronically for opportunities via: [www.Grants.gov](http://www.Grants.gov). Applicants will also be able to find the complete text of all ACF grant announcements on the ACF web site located at: <http://www.acf.hhs.gov/grants/index.html>.

Additional Information on this program and its purpose can be located on the following web site: <http://www.acf.hhs.gov/programs/fysb>.

Applicants will not be sent acknowledgements of received applications.

#### Priority Area 2

#### I. Domestic Violence/Runaway and Homeless Youth Collaboration on the Prevention of Adolescent Dating Violence

##### 1. Description

This announcement would offer the applicant organization, through a letter of agreement, the opportunity to design, develop, and collaborate in a service intersection area that has languished from the lack of concentrated attention. The approaches to the needs of this intersection are many and varied, for example: collaborative efforts that may accommodate informational needs; the development of training materials and curricula to be used in a learning environment; the collection of mutually useful data that may lead to more intensive service approaches; and the development of protocols for effective strategies of prevention/intervention

that may lead to an improved pattern of service delivery.

Adolescent dating violence exhibits similar characteristics as adult violence in terms of its being a continuing and escalating form of abuse. As such, these behaviors range from verbal abuse to physical and sexual assaults. The cycle of abuse is also displayed in these early relationships as the violence may escalate over time. Moreover, a high percentage of disconnected youth come from homes where domestic violence occurs while 40 to 60 percent of men in court ordered treatment for domestic violence have witnessed it as a child. It also is recognized, however, that perpetrators of adolescent dating violence can be either male or female. As teenagers lack the experience of intimate relationships, the abuse they may be experiencing may be interpreted as jealousy of their partner's commitment to them. There is a need to raise the awareness of adolescent dating violence and send the message that it is not wrong or "uncool" to talk about or report the violence in a relationship. To encourage healthy relationships we need to promote programs to reduce adolescent violence through community awareness activities, education and prevention programs, and information and supportive opportunities.

#### Minimum Requirements

Applicants must submit a signed interagency agreement between the organization representing the interest of Runaway and Homeless Youth (RHY) programs and the organization or coalition representing the domestic violence advocacy interests.

The agreement that is submitted will specifically indicate the roles and responsibilities that each agency and participating organizations will have in the planning and implementation of the proposed project. Moreover, the agreement will indicate the collaborative commitment to cultural sensitivity in the proposed project.

Applicants may propose to do one or more of the following, or may propose other related project activities that maintain the focus of the priority area:

- Plan and implement cross-training activities between domestic violence service providers and advocates, youth workers, supervisors, and other social service providers on the relationships of adolescent dating violence and disconnected youth;
- Develop and implement model intervention responses of youth workers to identified adolescent dating violence;
- Support the development and adoption of model collaborative

protocols for domestic violence service providers and youth workers; and

- The compilation of service data correlating adolescent dating violence with youth who are serviced through Basic Center, Transitional Living Programs, and Street Outreach projects.

#### II. Award Information

**Funding Instrument Type:** Grant.

**Anticipated Total Priority Area Funding:** \$300,000.

**Anticipated Number of Awards:** 1 to 4.

**Ceiling on Amount of Individual Awards Per Project Period:** \$75,000.

**Average Projected Award Amount Per Project Period:** \$75,000.

**Length of Project Periods:** 36 month project with three 12 month budget periods.

#### III. Eligibility Information

##### 1. Eligible Applicants

Non-profits having a 501(c)(3) status with the IRS, other than institutions of higher education.

Non-profit organizations not having 501(c)3 status.

Others (See Additional Information on Eligibility below).

##### Additional Information on Eligibility

Eligibility includes local public agencies and non-profit community-based organizations; faith-based and community-based organizations who are recipients, or have been recipients, of grant awards for Basic Center, Transitional Living and Street Outreach Family and Youth Services Bureau-funded projects; and non-profit domestic violence advocacy organizations and domestic violence State Coalitions who are or have been recipients of Family Violence Prevention and Services grant awards.

##### 2. Cost Sharing/Matching

No.

##### 3. Other

Awards, on a competitive basis, will be for a one-year budget period, although project periods may be for 3 years. Applications for continuation grants funded under these awards beyond the one-year period will be considered in subsequent years on a non-competitive basis, subject to the availability of funds, satisfactory progress of the grantee, and a determination that continued funding would be in the best interest of the government. Total funds available for the first 12 months of the project are subject to the availability of funds.

All applicants must have a Dun & Bradstreet number. On June 27, 2003 the

Office of Management and Budget published in the **Federal Register** a new Federal policy applicable to all Federal grant applicants. The policy requires Federal grant applicants to provide a Dun & Bradstreet Data Universal Numbering System (DUNS) number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal ([www.Grants.gov](http://www.Grants.gov)). A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003. Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you may request a number on-line at <http://www.dnb.com>.

Non-profit organizations applying for funding are required to submit proof of their non-profit status. Proof of non-profit status is any one of the following:

- A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code.
- A copy of a currently valid IRS tax exemption certificate.
- A statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals.
- A certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status.
- Any of the items in the subparagraphs immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

When applying electronically we strongly suggest you attach your proof of non-profit status with your electronic application.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at <http://www.acf.hhs.gov/programs/ojs/forms.htm>.

#### Disqualification Factors

Applications that exceed the ceiling amount will be considered non-responsive and will not be eligible for funding under this announcement.

Any application that fails to satisfy the deadline requirements referenced in Section IV.3 will be considered non-responsive and will not be considered for funding under this announcement.

#### IV. Application and Submission Information

##### 1. Address to Request Application Package

ACYF Operations Center, c/o Dixon Group, FV-FYSB Funding; 118 Q Street, NE., Washington, DC 20002-2132. Phone: 866-769-1591. E-mail: [fysb@dixongroup.com](mailto:fysb@dixongroup.com).

##### 2. Content and Form of Application Submission

You may submit your application to us in either electronic or paper format.

To submit an application electronically, please use the <http://www.Grants.gov/Apply> site. If you use Grants.gov, you will be able to download a copy of the application package, complete it off-line, and then upload and submit the application via the Grants.gov site. ACF will not accept grant applications via email or facsimile transmission.

Please note the following if you plan to submit your application electronically via Grants.gov

- Electronic submission is voluntary, but strongly encouraged.
- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation. We strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.gov.
- We recommend you visit Grants.gov at least 30 days prior to filing your application to fully understand the process and requirements. We encourage applicants who submit electronically to submit well before the closing date and time so that if difficulties are encountered an applicant can still send in a hard copy overnight. If you encounter difficulties, please contact the Grants.gov Help Desk at 1-800-518-4276 to report the problem and obtain assistance with the system.
- To use Grants.gov, you, as the applicant, must have a DUNS Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five days to complete the CCR registration.

- You will not receive additional point value because you submit a grant application in electronic format, nor will we penalize you if you submit an application in paper format.

- You may submit all documents electronically, including all information typically included on the SF 424 and all necessary assurances and certifications.

- Your application must comply with any page limitation requirements described in this program announcement.

- After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Administration for Children and Families will retrieve your application from Grants.gov.

- We may request that you provide original signatures on forms at a later date.

- You may access the electronic application for this program on [www.Grants.gov](http://www.Grants.gov).

- You must search for the downloadable application package by the CFDA number.

An original and two copies of the complete application are required. The original and each of the two copies must include all required forms, certifications, assurances, and appendices, be signed by an authorized representative, have original signatures, and be submitted unbound.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at <http://www.acf.hhs.gov/programs/ojs/forms.htm>.

Receipt acknowledgement for application packages will not be provided to applicants who submit their package via mail, courier services, or by hand delivery. However, applicants will receive an electronic acknowledgement for applications that are submitted via <http://www.Grants.gov>.

#### Standard Forms and Certifications

The project description should include all the information requirements described in the specific evaluation criteria outlined in the program announcement under Section V Application Review Information. In addition to the project description, the applicant needs to complete all the standard forms required for making applications for awards under this announcement.

Applicants seeking financial assistance under this announcement

must file the Standard Form (SF) 424, Application for Federal Assistance; SF 424A, Budget Information—Non-Construction Programs; SF 424B, Assurances—Non-Construction Programs. The forms may be reproduced for use in submitting applications. Applicants must sign and return the standard forms with their application.

Applicants must furnish prior to award an executed copy of the Standard Form LLL, Certification Regarding Lobbying, when applying for an award in excess of \$100,000. Applicants who have used non-Federal funds for lobbying activities in connection with receiving assistance under this announcement shall complete a disclosure form, if applicable, with their applications (approved by the Office of Management and Budget under control number 0348-0046). Applicants must sign and return the certification with their application.

Applicants must also understand they will be held accountable for the smoking prohibition included within Public Law 103-227, Title XII Environmental Tobacco Smoke (also known as the PRO-KIDS Act of 1994). A copy of the **Federal Register** notice which implements the smoking prohibition is included with forms. By signing and submitting the application, applicants are providing the certification and need not mail back the certification with the application.

Applicants must make the appropriate certification of their compliance with all Federal statutes relating to nondiscrimination. By signing and submitting the applications, applicants are providing the certification and need not mail back the certification form. Complete the standard forms and the

associated certifications and assurances based on the instructions on the forms. The forms and certifications may be found at: <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

Those organizations required to provide proof of non-profit status, please refer to Section III.3.

Please see Section V.1, for instructions on preparing the full project description.

Receipt acknowledgement for application packages will not be provided to applicants who submit their package via mail, courier services, or by hand delivery. However, applicants will receive an electronic acknowledgement for applications that are submitted via <http://www.Grants.gov>.

**3. Submission Dates and Times**

**Explanation of Application Due Dates**

The closing time and date for receipt of applications is referenced above. Applications received after 4:30 p.m. eastern time on the closing date will be classified as late.

**Deadline:** Applications shall be considered as meeting an announced deadline if they are received on or before the deadline time and date referenced in Section IV.6. Applicants are responsible for ensuring applications are mailed or submitted electronically well in advance of the application due date.

Applications hand carried by applicants, applicant couriers, other representatives of the applicant, or by overnight/express mail couriers shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8 a.m. and 4:30 p.m., eastern

time, at the address referenced in Section IV.6., between Monday and Friday (excluding Federal holidays).

ACF cannot accommodate transmission of applications by facsimile. Therefore, applications transmitted to ACF by fax will not be accepted regardless of date or time of submission and time of receipt.

Applicants will not be sent acknowledgement of applications received in hard-copy through the mail. Applicants that submit applications via Grants.gov will receive electronic acknowledgement.

**Late Applications:** Applications that do not meet the criteria above are considered late applications. ACF shall notify each late applicant that its application will not be considered in the current competition.

Any application received after 4:30 p.m. eastern time on the deadline date will not be considered for competition.

Applicants using express/overnight mail services should allow two working days prior to the deadline date for receipt of applications. Applicants are cautioned that express/overnight mail services do not always deliver as agreed.

**Extension of deadlines:** ACF may extend application deadlines when circumstances such as acts of God (floods, hurricanes, etc.) occur, or when there are widespread disruptions of mail service, or in other rare cases. A determination to extend or waive deadline requirements rests with the Chief Grants Management Officer.

**Checklist**

You may use the checklist below as a guide when preparing your application package.

| What to submit                                       | Required content           | Required form or format  | When to submit           |
|--|----------------------------|--|--------------------------|
| Project Abstract .....                               | See Sections IV.2 and V .. | Found in Sections IV.2 and V .....   | By application due date. |
| Project Description .....                            | See Sections IV.2 and V .. | Found in Sections IV.2 and V .....   | By application due date. |
| Budget Narrative/Justification.                      | See Sections IV.2 and V .. | Found in Sections IV.2 and V .....   | By application due date. |
| SF 424 .....   | See Section IV.2 .....     | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> .. | By application due date. |
| SF LLL Certification Regarding Lobbying.             | See Section IV.2 .....     | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> .. | By application due date. |
| Certification Regarding Environmental Tobacco Smoke. | See Section IV.2 .....     | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> .. | By application due date. |
| Assurances .....                                     | See Section IV.2 .....     | .....  | By application due date. |
| SF 424A .....  | See Section IV.2 .....     | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> .. | By application due date. |
| Proof of Non-Profit Status                           | See Section III.3 .....    | Found in Section III.3 .....   | By application due date. |

**Additional Forms**

Private, non-profit organizations are encouraged to submit with their

applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on

Ensuring Equal Opportunity for Applicants," at <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

| What to submit                                   | Required content | Location   | When to submit           |
|--|------------------|--|--------------------------|
| Survey for Private, Non-Profit Grant Applicants. | See form .....   | Found in <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |

#### 4. Intergovernmental Review

##### State Single Point of Contact (SPOC)

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of October 1, 2004, the following jurisdictions have elected to participate in the Executive Order process:

Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, North Mariana Islands, Puerto Rico, and Virgin Islands. As these jurisdictions have elected to participate in the Executive Order process, they have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2).

A SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations that may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade SW., 4th floor, Washington, DC 20447.

Although the remaining jurisdictions have chosen not to participate in the

process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or for projects administered by federally recognized Indian Tribes, need take no action in regard to E.O. 12372.

The official list, including addresses, of the jurisdictions that have elected to participate in E.O. 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.

##### 5. Funding Restrictions

None.

##### 6. Other Submission Requirements

**Submission by Mail:** An applicant must provide an original application with all attachments, signed by an authorized representative and two copies. Please see Section IV.3 for an explanation of due dates. Applications should be mailed to: The Dixon Group, Attention: FV-FYSB Funding, 118 Q Street, NE., Washington, DC 20002-2132.

**Hand Delivery:** An applicant must provide an original application with all attachments signed by an authorized representative and two copies. The application must be received at the address below by 4:30 p.m. eastern time on or before the closing date. Applications that are hand delivered will be accepted between the hours of 8 a.m. to 4:30 p.m. eastern time, Monday through Friday. Applications should be delivered to:

**Electronic Submission:** <http://www.Grants.gov> Please see Section IV.2 for guidelines and requirements when submitting applications electronically.

#### V. Application Review Information

The Paperwork Reduction Act of 1995 (Pub. L. 104-13)

Public reporting burden for this collection of information is estimated to average 40 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information.

The project description is approved under OMB control number 0970-0139, which expires 4/30/2007.

An agency may not conduct or sponsor, and a person is not required to

respond to, a collection of information unless it displays a currently valid OMB control number.

##### 1. Criteria

The following are instructions and guidelines on how to prepare the "project summary/abstract" and "full project description" sections of the application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD).

#### PART I—THE PROJECT DESCRIPTION OVERVIEW

##### Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, information responsive to each of the requested evaluation criteria must be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application in a manner that is clear and complete.

##### Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

##### Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution in a quantifiable manner. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/

beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

#### Results or Benefits Expected

Identify the results and benefits to be derived. Identify the methodology, quantitative or qualitative, which will be used to determine the outcome of the project.

#### Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement. Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

#### Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners, such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. If the applicant is a non-profit organization, submit proof of non-profit status in its application.

The non-profit agency can accomplish this by providing: (a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code; (b) a copy of a currently valid IRS tax exemption certificate, (c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and

that none of the net earnings accrue to any private shareholders or individuals; (d) a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status, (e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

#### Budget and Budget Justification

Provide a budget with line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. Also include a breakout by the funding sources identified in Block 15 of the SF 424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

**Evaluation Criteria:** The following evaluation criteria appear in weighted descending order. The corresponding score values indicate the relative importance that ACF places on each evaluation criterion; however, applicants need not develop their applications precisely according to the order presented. Application components may be organized such that a reviewer will be able to follow a seamless and logical flow of information (i.e., from a broad overview of the project to more detailed information about how it will be conducted).

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

#### Approach (30 Points)

The extent to which the application outlines a sound and workable plan of action pertaining to the scope of the project, and details how the proposed work will be accomplished; relates each task to the objectives and identifies the key staff member who will be the lead person; provides a chart indicating the timetable for completing each task, the lead person, and the time committed; cites factors that might accelerate or decelerate the work, giving acceptable reasons for taking this approach as opposed to others; describes and supports any unusual features of the project, such as design or technological

innovations, reductions in cost or time, or extraordinary social and community involvement; and provides for projections of the accomplishments to be achieved. The extent to which the application describes the evaluation methodology that will be used to determine if the needs identified and discussed are being met and if the results and benefits identified are being achieved.

#### Results or Benefits Expected (20 Points)

The extent to which the application identifies the results and benefits to be derived, the extent to which they are consistent with the objectives of the applications, the extent to which the application indicates the anticipated contributions to policy, practice, and theory, and the extent to which the proposed project costs are reasonable in view of the expected results. Identify, in specific terms, the results and benefits, for target groups and human service providers, to be derived from implementing the proposed project.

#### Objectives and Need for Assistance (20 Points)

The extent to which the need for the project and the problems it will address have national and local significance; the applicability of the project to coordination efforts by national, Tribal, State and local governmental and non-profit agencies, and its ultimate impact on domestic violence prevention services and intervention efforts, policies and practice; the relevance of other documentation as it relates to the applicant's knowledge of the need for the project; and the identification of the specific topic or area to be served by the project. Maps and other graphic aids may be attached. The extent to which the application describes the evaluation methodology that will be used to determine if the needs identified and discussed are being met and if the results and benefits identified are being achieved.

#### Budget and Budget Justification (15 Points)

Relate the proposed budget to the level of effort required to obtain the project's objectives and provide a cost/benefit analysis. Demonstrate that the project's costs are reasonable in view of the anticipated results. Applications will be evaluated on the extent to which they include a budget that is concise and provide a detailed justification of the amount of Federal funds that are requested.

### Organizational Profiles (15 Points)

The extent to which the participating organizations and entities have discussed, through letters and other documentation, the proposed collaboration and cooperation. Assess the extent to which the financial and physical resources provided by the participating entities will be adequate and to what extent will the coordinating organizations participate in the day to day operations of the project.

### 2. Review and Selection Process

No grant award will be made under this announcement on the basis of an incomplete application.

### Approved But Unfunded Applications

In cases where more applications are approved for funding than ACF can fund with the money available, the Grants Officer shall fund applications in their order of approval until funds run out. In this case, ACF has the option of carrying over the approved applications up to a year for funding consideration in a later competition of the same program. These applications need not be reviewed and scored again if the program's evaluation criteria have not changed. However, they must then be placed in rank order along with other applications in later competition.

Since ACF will be using non-Federal reviewers in the process, applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget and Social Security Numbers, if otherwise required for individuals. The copies may include summary salary information.

### VI. Award Administration Information

#### 1. Award Notices

The successful applicants will be notified through the issuance of a Financial Assistance Award document which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

Organizations whose applications will not be funded will be notified in writing.

#### 2. Administrative and National Policy Requirements

Grantees are subject to the requirements in 45 CFR Part 74 (non-

governmental) or 45 CFR Part 92 (governmental).

### 3. Reporting Requirements

All grantees are required to submit semi-annual program reports; grantees are also required to submit semi-annual expenditure reports using the required financial standard form (SF 269) which can be found at the following URL: <http://www.acf.hhs.gov/programs/ofsf/forms.htm>

Final reports are due 90 days after the end of the grant period.

**Programmatic Reports:** Semi-Annually.

**Financial Reports:** Semi-Annually. **Programmatic Reports:** Semi-annually and a final report is due 90 days after the grant period.

**Financial Reports:** Semi-annually and a final report is due 90 days after the grant period.

### VII. Agency Contacts

#### Program Office Contact

William D. Riley, Director, Family Violence Division, Room 2117, Switzer Building, 330 C Street, SW., Washington, DC 20447. Phone: 202-401-5529. Email: [wrliley@acf.hhs.gov](mailto:wrliley@acf.hhs.gov).

#### Grants Management Office Contact

Peter Thompson, Grants Officer, Administration on Children, Youth and Families, Room 2070, Switzer Building, 330 C Street, SW., Washington, DC 20447. Phone: 202-401-4608. Email: [pthompson@acf.hhs.gov](mailto:pthompson@acf.hhs.gov).

### VIII. Other Information

**Notice:** Beginning with FY 2006, the Administration for Children and Families (ACF) will no longer publish family violence discretionary grant announcements in the **Federal Register**. Beginning October 1, 2005 applicants will be able to find a synopsis of all ACF grant opportunities and apply electronically for opportunities via: [www.Grants.gov](http://www.Grants.gov). Applicants will also be able to find the complete text of all ACF grant announcements on the ACF web site located at: <http://www.acf.hhs.gov/grnts/index.html>.

Please see Section IV.3 for details about acknowledgement of received applications.

#### Priority Area 3

#### I. Minority Training Grant Stipends in Domestic Violence for Historically Black, Hispanic-Serving, and Tribal Colleges and Universities

##### 1. Description

The Minority Training Grant Stipends to Historically Black, Hispanic Serving, and Tribal Colleges and Universities

will assist in generating skill-building and training opportunities in domestic violence prevention and services. The skill-building and training opportunities will be provided through field placements of the participating students. The field placements will occur in local domestic violence programs that may provide residential and non-residential services. These projects will be particularly responsive to issues of cultural content and designed to increase the extent to which minority groups participate in the domestic violence service community.

A substantial proportion of the of the domestic violence that occurs in the general population involves underserved populations, including populations that are underserved because of ethnic, racial, cultural, language diversity or geographic isolation. The purpose of this effort and priority area is to increase the numbers and the capacity of the advocates and allies to do the work that is needed in these communities to prevent domestic violence.

There are three Executive orders that support the provision of training grants to the educational institutions targeted in this priority area:

- Executive Order 13021 of October 19, 1969, Tribal Colleges and Universities;
- Executive Order 12900 of December 5, 1994, Educational Excellence for Hispanic Americans; and
- Executive Order 12876 of November 1, 1993, Historically Black Colleges and Universities.

Executive Order 13021 reaffirms the special relationship of the Federal Government to the American Indians and identifies several purposes that support access to opportunities and resources, and that support educational opportunities of economically disadvantaged students; Executive Order 12900 requires the provision of quality education and increased opportunities for Hispanic Americans; and Executive Order 12876 requires strengthening the capacity of Historical Black Colleges and Universities to provide quality education and increased opportunities to participate in and benefit from Federal programs.

This priority area is intended to provide support for graduate and undergraduate students who show promise and demonstrate serious interest and commitment to domestic violence in underserved populations. Historically Black, Hispanic, and American Indian colleges and universities will be given consideration in order to generate skill building and training opportunities particularly

responsive to issues of cultural content. This area also will support the growth of college and university-based practice knowledge about domestic violence and encourage social work students to pursue careers that will address these experiences and underscore the need for new social workers; and ultimately the identification of the potential for different approaches to prevention, identification of, and the treatment efforts for domestic violence in underserved populations.

#### Minimum Requirements

A field placement should provide stipends for individuals pursuing degrees in social work with a special interest in domestic violence. The stipend should provide one-year undergraduate or graduate support for skill-building and training for students interested in treatment and services to underserved racial and ethnic minority populations. Stipends should not exceed a 12-month period. All field placements will be at a minimum of 400 hours for a one-year period.

Placements must provide a structured learning environment enabling students to compare field experiences, integrate knowledge from the classroom, and expand knowledge beyond the scope of the practicum setting. (Baccalaureate and Master's Program Evaluative Standards, Interpretive Guidelines, Curriculum Policy Statement, and the Accreditation Standards and Self-Study Guides).

Proposals must include content about the differential assessment and intervention skills that will enable the practitioners to serve diverse populations. Placements should focus on the following general and specific areas: Information on domestic violence services in the community; interventions with shelters; batterers' groups and other treatment services; medical services to families experiencing domestic violence; legal advocacy; TANF relationships; crisis intervention services; community service centers; faith community interaction; and the families of prisoners.

Faculty must indicate the use of professional supervision, coordinate and monitor the practicum placements.

Proposals must define the social work setting and practice, field instructor assignments and activities, and student learning expectations and responsibilities. Clear practice and evaluation goals for the field practicum must be articulated including an orientation plan for the student to the practicum policy and agency's policy.

## II. Award Information

*Funding Instrument Type:* Grant.  
*Anticipated Total Priority Area Funding:* \$1,000,000.  
*Anticipated Number of Awards:* 1 to 10.

*Ceiling on Amount of Individual Awards Per Project Period:* \$100,000.  
*Average Projected Award Amount Per Budget Period:* \$100,000.

*Length of Project Periods:* 36 month project with three 12 month budget periods.

## III. Eligibility Information

### 1. Eligible Applicants

State controlled institutions of higher education; Private institutions of higher education; Others (See Additional Information on Eligibility below.)

#### Additional Information on Eligibility:

Participating students are qualified undergraduate or graduate social work students. All of the applicant's students must be enrolled in the institution, be full-time students, and maintain satisfactory academic records. Awards will be made only to eligible institutions on behalf of their qualified student candidates.

### 2. Cost Sharing/Matching

No

### 3. Other

All applicants must have a Dun & Bradstreet number. On June 27, 2003 the Office of Management and Budget published in the **Federal Register** a new Federal policy applicable to all Federal grant applicants. The policy requires Federal grant applicants to provide a Dun & Bradstreet Data Universal Numbering System (DUNS) number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal ([www.Grants.gov](http://www.Grants.gov)). A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you may request a number on-line at <http://www.dnb.com>.

Private, non-profit organizations are encouraged to submit with their applications the survey located under

"Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at: <http://www.acf.hhs.gov/programs/ofsf/forms.htm>.

#### Disqualification Factors

Applications that exceed the ceiling amount will be considered non-responsive and will not be eligible for funding under this announcement.

Any application that fails to satisfy the deadline requirements referenced in Section IV.3 will be considered non-responsive and will not be considered for funding under this announcement.

## IV. Application and Submission Information

### 1. Address to Request Application Package

ACYF Operations Center, c/o Dixon Group, FV-FYSB Funding, 118 Q Street, NE., Washington, DC 20002-2132.  
Phone: 866-796-1591. Email: [fysb@dixongroup.com](mailto:fysb@dixongroup.com).

### 2. Content and Form of Application Submission

You may submit your application to us in either electronic or paper format.

To submit an application electronically, please use the <http://www.Grants.gov/Apply> site. If you use Grants.gov, you will be able to download a copy of the application package, complete it off-line, and then upload and submit the application via the Grants.gov site. ACF will not accept grant applications via email or facsimile transmission.

Please note the following if you plan to submit your application electronically via Grants.gov

- Electronic submission is voluntary, but strongly encouraged.
- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation. We strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.gov.
- We recommend you visit Grants.gov at least 30 days prior to filing your application to fully understand the process and requirements. We encourage applicants who submit electronically to submit well before the closing date and time so that if difficulties are encountered an applicant can still send in a hard copy overnight. If you encounter difficulties, please contact the Grants.gov Help Desk at 1-800-518-4276 to report the problem and obtain assistance with the system.

- To use Grants.gov, you, as the applicant, must have a DUNS Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five days to complete the CCR registration.

- You will not receive additional point value because you submit a grant application in electronic format, nor will we penalize you if you submit an application in paper format.

- You may submit all documents electronically, including all information typically included on the SF 424 and all necessary assurances and certifications.

- Your application must comply with any page limitation requirements described in this program announcement.

- After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Administration for Children and Families will retrieve your application from Grants.gov.

- We may request that you provide original signatures on forms at a later date.

- You may access the electronic application for this program on [www.Grants.gov](http://www.Grants.gov)

- You must search for the downloadable application package by the CFDA number.

An original and two copies of the complete application are required. The original and each of the two copies must include all required forms, certifications, assurances, and appendices, be signed by an authorized representative, have original signatures, and be submitted unbound.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at: <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

Receipt acknowledgement for application packages will not be provided to applicants who submit their package via mail, courier services, or by hand delivery. However, applicants will receive an electronic acknowledgement for applications that are submitted via <http://www.Grants.gov>.

#### Standard Forms and Certifications

The project description should include all the information requirements described in the specific evaluation criteria outlined in the program announcement under Section V Application Review Information. In

addition to the project description, the applicant needs to complete all the standard forms required for making applications for awards under this announcement.

Applicants seeking financial assistance under this announcement must file the Standard Form (SF) 424, Application for Federal Assistance; SF-424A, Budget Information—Non-Construction Programs; SF-424B, Assurances—Non-Construction Programs. The forms may be reproduced for use in submitting applications. Applicants must sign and return the standard forms with their application.

Applicants must furnish prior to award an executed copy of the Standard Form LLL, Certification Regarding Lobbying, when applying for an award in excess of \$100,000. Applicants who have used non-Federal funds for lobbying activities in connection with receiving assistance under this announcement shall complete a disclosure form, if applicable, with their applications (approved by the Office of Management and Budget under control number 0348-0046). Applicants must sign and return the certification with their application.

Applicants must also understand they will be held accountable for the smoking prohibition included within Public Law 103-227, Title XII Environmental Tobacco Smoke (also known as the PRO-KIDS Act of 1994). A copy of the **Federal Register** notice which implements the smoking prohibition is included with forms. By signing and submitting the application, applicants are providing the certification and need not mail back the certification with the application.

Applicants must make the appropriate certification of their compliance with all Federal statutes relating to nondiscrimination. By signing and submitting the applications, applicants are providing the certification and need not mail back the certification form. Complete the standard forms and the associated certifications and assurances based on the instructions on the forms. The forms and certifications may be found at: <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

Those organizations required to provide proof of non-profit status, please refer to Section III.3.

Please see Section V.1, for instructions on preparing the full project description.

#### 3. Submission Dates and Times

##### Explanation of Application Due Dates

The closing time and date for receipt of applications is referenced above.

Applications received after 4:30 p.m. eastern time on the closing date will be classified as late.

**Deadline:** Applications shall be considered as meeting an announced deadline if they are received on or before the deadline time and date referenced in Section IV.6. Applicants are responsible for ensuring applications are mailed or submitted electronically well in advance of the application due date.

Applications hand carried by applicants, applicant couriers, other representatives of the applicant, or by overnight/express mail couriers shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8:00 a.m. and 4:30 p.m., eastern time, at the address referenced in Section IV.6., between Monday and Friday (excluding Federal holidays).

ACF cannot accommodate transmission of applications by facsimile. Therefore, applications transmitted to ACF by fax will not be accepted regardless of date or time of submission and time of receipt.

Applicants will not be sent acknowledgement of applications received in hard-copy through the mail. Applicants that submit applications via Grants.gov will receive electronic acknowledgement.

**Late Applications:** Applications that do not meet the criteria above are considered late applications. ACF shall notify each late applicant that its application will not be considered in the current competition.

Any application received after 4:30 p.m. eastern time on the deadline date will not be considered for competition.

Applicants using express/overnight mail services should allow two working days prior to the deadline date for receipt of applications. Applicants are cautioned that express/overnight mail services do not always deliver as agreed.

**Extension of deadlines:** ACF may extend application deadlines when circumstances such as acts of God (floods, hurricanes, etc.) occur, or when there are widespread disruptions of mail service, or in other rare cases. A determination to extend or waive deadline requirements rests with the Chief Grants Management Officer.

#### Checklist

You may use the checklist below as a guide when preparing your application package.

| What to submit                                       | Required content           | Required form or format  | When to submit           |
|--|----------------------------|--|--------------------------|
| Project Abstract .....                               | See Sections IV.2 and V .. | Found in Sections IV.2 and V .....   | By application due date. |
| Project Description .....                            | See Sections IV.2 and V .. | Found in Sections IV.2 and V .....   | By application due date. |
| Budget Narrative/Justification.                      | See Sections IV.2 and V .. | Found in Sections IV.2 and V .....   | By application due date. |
| SF424 .....  | See Section IV.2 .....     | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> .. | By application due date. |
| SF-LLL Certification Regarding Lobbying.             | See Section IV.2 .....     | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> .. | By application due date. |
| Certification Regarding Environmental Tobacco Smoke. | See Section IV.2 .....     | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> .. | By application due date. |
| Assurances .....                                     | See Section IV.2 .....     | .....  | By application due date. |
| SF424A .....   | See Section IV.2 .....     | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> .. | By application due date. |

| Abstract .....                                       | .....                      | .....  | By application due date. |

#### Additional Forms

Private, non-profit organizations are encouraged to submit with their

applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on

Ensuring Equal Opportunity for Applicants," at: <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

| What to submit                                   | Required content | Location   | When to submit           |
|--|------------------|--|--------------------------|
| Survey for Private, Non-Profit Grant Applicants. | See form .....   | Found in <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |

#### 4. Intergovernmental Review

##### State Single Point of Contact (SPOC)

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of October 1, 2004, the following jurisdictions have elected to participate in the Executive Order process: Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, North Mariana Islands, Puerto Rico, and Virgin Islands. As these jurisdictions have elected to participate in the Executive Order process, they have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2).

A SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade SW., 4th floor, Washington, DC 20447.

Although the remaining jurisdictions have chosen not to participate in the process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or for projects administered by federally-recognized Indian Tribes, need take no action in regard to E.O. 12372.

The official list, including addresses, of the jurisdictions that have elected to participate in E.O. 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.

#### 5. Funding Restrictions

ACYF will not fund any project where the role of the application is to serve as a conduit for funds to organizations other than the applicant. The applicant must have a substantive role in the implementation of the project for which the funding is requested. This prohibition does not bar the making of subgrants or subcontracting for specific services or activities needed to conduct the project.

#### 6. Other Submission Requirements

**Submission by Mail:** An applicant must provide an original application with all attachments, signed by an authorized representative and two copies. Please see Section IV.3 for an explanation of due dates. Applications should be mailed to: c/o Dixon Group, Attention: FV-FYSB Funding, 118 Q Street, NE., Washington, DC 20002-2132.

**Hand Delivery:** An applicant must provide an original application with all attachments signed by an authorized representative and two copies. The application must be received at the address below by 4:30 p.m. eastern time on or before the closing date. Applications that are hand delivered will be accepted between the hours of 8 a.m. to 4:30 p.m. eastern time, Monday through Friday. Applications should be delivered to:

**Electronic Submission:** <http://www.Grants.gov>. Please see Section IV.2 for guidelines and requirements when submitting applications electronically.

## V. Application Review Information

*The Paperwork Reduction Act of 1995*  
(Pub. L. 104-13)

Public reporting burden for this collection of information is estimated to average 40 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information.

The project description is approved under OMB control number 0970-0139 which expires 4/30/2007.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

### 1. Criteria

The following are instructions and guidelines on how to prepare the "project summary/abstract" and "full project description" sections of the application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD).

#### Part I—The Project Description Overview

##### Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, information responsive to each of the requested evaluation criteria must be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application in a manner that is clear and complete.

##### Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

##### Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution in a quantifiable manner. The need for assistance must be demonstrated and the principal and subordinate objectives of the project

must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

##### Results or Benefits Expected

Identify the results and benefits to be derived. Identify the methodology, quantitative or qualitative, which will be used to determine the outcomes of the project.

##### Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

##### Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners, such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. If the applicant is a non-profit organization, submit proof of non-profit status in its application.

The non-profit agency can accomplish this by providing: (a) A reference to the

applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code; (b) a copy of a currently valid IRS tax exemption certificate, (c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals; (d) a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status, (e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

##### Budget and Budget Justification

Provide a budget with line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. Also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

##### Evaluation Criteria

The following evaluation criteria appear in weighted descending order. The corresponding score values indicate the relative importance that ACF places on each evaluation criterion; however, applicants need not develop their applications precisely according to the order presented. Application components may be organized such that a reviewer will be able to follow a seamless and logical flow of information (*i.e.*, from a broad overview of the project to more detailed information about how it will be conducted).

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

##### Approach (30 points)

The extent to which the application outlines a sound and workable plan of action pertaining to the scope of the project, and details how the proposed work will be accomplished; relates each

task to the objectives and identifies the key staff member who will be the lead person; provides a chart indicating the timetable for completing each task, the lead person, and the time committed; cites factors which might accelerate or decelerate the work, giving acceptable reasons for taking this approach as opposed to others; describes and supports any unusual features of the project, such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement; and provides for projections of the accomplishments to be achieved. The extent to which, as applicable, the application describes the evaluation methodology that will be used to determine if the needs identified and discussed are being met and if the results and benefits identified are being achieved.

#### Results or Benefits Expected (20 points)

The extent to which the application identifies the results and benefits to be derived, the extent to which they are consistent with the objectives of the applications, the extent to which the application indicates the anticipated contributions to policy, practice, and theory, and the extent to which the proposed project costs are reasonable in view of the expected results. Identify, in specific terms, the results and benefits, for target groups and human service providers, to be derived from implementing the proposed project.

#### Objectives and Need for Assistance (20 points)

The extent to which the need for the project and the problems it will address have national and local significance; the applicability of the project to coordination efforts by national, Tribal, State and local governmental and non-profit agencies, and its ultimate impact on domestic violence prevention services and intervention efforts, policies and practice; the relevance of other documentation as it relates to the applicant's knowledge of the need for the project; and the identification of the specific topic or area to be served by the project. Maps and other graphic aids may be attached. The extent to which, when applicable, the application describes the evaluation methodology that will be used to determine if the needs identified and discussed are being met and if the results and benefits identified are being achieved.

#### Budget and Budget Justification (15 Points)

Relate the proposed budget to the level of effort required to obtain the project's objectives and provide a cost/

benefit analysis. Demonstrate that the project's costs are reasonable in view of the anticipated results. Applications will be evaluated on the extent to which they include a budget that is concise and provides a detailed justification of the amount of Federal funds that are requested.

#### Organizational Profiles (15 Points)

Describe the staffing/faculty pattern for the proposed project, clearly linking responsibilities to project task and specifying the roles and contributions of key associated staff. Describe the qualifications of the project team including their experiences working on similar projects in an institutional setting and providing assistance and guidance to participating students. Also describe the relevant educational background and the demonstrated ability to produce results in the project that have potential for replication and are usable. One or two pertinent paragraphs on each key member of the project team are preferred to resumes.

#### 2. Review and Selection Process

No grant award will be made under this announcement on the basis of an incomplete application.

#### Approved But Unfunded Applications

In cases where more applications are approved for funding than ACF can fund with the money available, the Grants Officer shall fund applications in their order of approval until funds run out. In this case, ACF has the option of carrying over the approved applications up to a year for funding consideration in a later competition of the same program. These applications need not be reviewed and scored again if the program's evaluation criteria have not changed. However, they must then be placed in rank order along with other applications in later competition.

Since ACF will be using non-Federal reviewers in the process, applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget and Social Security Numbers, if otherwise required for individuals. The copies may include summary salary information.

#### VI. Award Administration Information

##### 1. Award Notices

The successful applicants will be notified through the issuance of a Financial Assistance Award document which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support

will be given, and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

Organizations whose applications will not be funded will be notified in writing.

#### 2. Administrative and National Policy Requirements

Grantees are subject to the requirements in 45 CFR Part 74 (non-governmental) or 45 CFR Part 92 (governmental).

45 CFR Part 1050

#### 3. Reporting Requirements

All grantees are required to submit semi-annual program reports; grantees are also required to submit semi-annual expenditure reports using the required financial standard form (SF-269) which can be found at the following URL: <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

Final reports are due 90 days after the end of the grant period.

Programmatic Reports: Semi-Annually; Financial Reports: Semi-Annually; Programmatic Reports: Semi-annually and a final report is due 90 days after the grant period.

Financial Reports: Semi-annually and a final report is due 90 days after the grant period.

All grantees are required to submit semi-annual financial status reports using the required financial standard form (SF-269). A format for the program report will be sent to all grantees after the awards are made.

#### VII. Agency Contacts

##### Program Office Contact

William D. Riley, Director, Family Violence Division, Room 2117, Switzer Building, 330 C Street, SW., Washington, DC 20447. Phone: 202-401-5529. E-mail: [wriley@acf.hhs.gov](mailto:wriley@acf.hhs.gov).

##### Grants Management Office Contact

Peter Thompson, Grants Officer, Administration on Children, Youth and Families, Room 2070, Switzer Building, 330 C Street, SW., Washington, DC 20447. Phone: 202-401-4608. E-mail: [pthompson@acf.hhs.gov](mailto:pthompson@acf.hhs.gov).

#### VIII. Other Information

*Notice:* Beginning with FY 2006, the Administration for Children and Families (ACF) will no longer publish family violence discretionary grant announcements in the **Federal Register**. Beginning October 1, 2005 applicants will be able to find a synopsis of all ACF grant opportunities and apply

electronically for opportunities via: [www.Grants.gov](http://www.Grants.gov). Applicants will also be able to find the complete text of all ACF grant announcements on the ACF Web site located at: <http://www.acf.hhs.gov/grants/index.html>.

Additional information on this program and its purpose can be located on the following web site: <http://www.acf.hhs.gov/programs/fysb>.

Applicants will not be sent acknowledgements of received applications.

Dated: April 28, 2005.

Joan E. Ohl,

Commissioner, Administration on Children, Youth and Families.

[FR Doc. 05-8896 Filed 5-3-05; 8:45 am]

BILLING CODE 4184-01-P

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Administration for Children and Families

#### Office of Refugee Resettlement; Discretionary Funds for Refugee Microenterprise Development Projects

*Announcement Type:* Initial.

*Funding Opportunity Number:* HHS-2005-ACF-ORR-RG-0094.

*CFDA Number:* 93.576.

*Due Date for Applications:*

Application is due July 5, 2005.

*Executive Summary:* The Office of Refugee Resettlement (ORR) has supported the field of microenterprise development since 1991 with discretionary grants to various State governments, community economic development agencies, community action and other human service agencies, local mutual assistance associations, and voluntary agencies. Organizations with successful programs have typically been those with a long-term commitment to microenterprise, particularly access to lending, and to its adaptation to the refugee experience. They have committed agency resources to support refugee programs; and their work in refugee microenterprise development has been consistent with the overall agency mission.

A public or private non-profit agency interested in receiving funding under this announcement must have the organizational capacity to work with refugees who have low incomes, limited English-language proficiency, and neither assets nor American business experience. Many newly arrived refugees do not qualify for commercial loans or for admission into mainstream microenterprise development programs for these reasons. Organizations that

cannot support in-house lending and essential loan-servicing responsibilities may experience difficulties in implementing a microenterprise project.

Refugees bring positive attributes to microenterprise development projects, including a diverse and rich array of business ideas, skills, experiences, and ambitions. These characteristics have been largely responsible for the success of the ORR program. During the last 14 years, refugees have started or expanded more than 1,800 micro-businesses (with a business survival rate of over 88 percent). ORR grantees have provided over \$4 million in financing to these entrepreneurs and clients have used these loans to leverage an additional \$4,500,000 in loans from other sources. The loan repayment rate is close to 100 percent. Additionally, 2,666 new jobs have been created. Over 10,500 refugees have gained new entrepreneurial skills and knowledge; and the additional business income is helping refugee families to achieve economic self-sufficiency. By commonly accepted measures of performance (business survival rates, loan default rates, etc.), the ORR-funded programs have excelled and frequently led the field in achievement.

Building on the experience of the last 14 years, ORR seeks in this announcement to continue support to this field, particularly on behalf of those refugees who, because of language and cultural barriers, are unlikely to gain access to commercial loans or business training through other programs. To be successful in this competition, refugee-serving organizations must demonstrate their organization's capacity to provide the technical expertise necessary to help refugees start, expand, or strengthen businesses, and to provide access to credit. Economic development agencies must show how they will modify their existing programs to serve refugees effectively.

The Office of Refugee Resettlement (ORR) invites eligible entities to submit competitive grant applications for microenterprise development projects for refugees.<sup>1</sup> Applications will be

<sup>1</sup> Eligibility for refugee social services includes: (1) Refugees; (2) asylees; (3) Cuban and Haitian entrants under section 501 of the Refugee Education Assistance Act of 1980 (Pub. L. 96-422); (4) certain Amerasians from Vietnam who are admitted to the U.S. as immigrants under section 584 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, as included in the FY 1988 Continuing Resolution (Pub. L. 100-202); (5) certain Amerasians from Vietnam who are U.S. citizens under Title II of the Foreign Operations, Export Financing, and Related Programs Appropriations Act of 1989 (Pub. L. 100-461), 1990 (Pub. L. 101-167), and 1991 (Pub. L. 101-513); and (6) victims of a severe form of trafficking who receive certification or eligibility letters from ORR

accepted pursuant to the Director's discretionary authority under section 412(c) of the Immigration and Nationality Act (INA) (8 U.S.C. 1522(c)), as amended. Applications will be screened and evaluated as indicated in this program announcement. Awards will be contingent on the outcome of the competition and the availability of funds.

#### I. Funding Opportunity Description

*Legislative Authority:* Section 412(c)(1)(A) of the Immigration and Nationality Act (INA) (8 U.S.C. 1522(c)(1)(A)) authorizes the Director "to make grants to, and enter into contracts with, public or private nonprofit agencies for projects specifically designed—(i) to assist refugees in obtaining the skills that are necessary for economic self-sufficiency, including projects for job training, employment services, day care, professional refresher training, and other recertification services; (ii) to provide training in English where necessary (regardless of whether the refugees are employed or receiving cash or other assistance); and (iii) to provide where specific needs have been shown and recognized by the Director, health (including mental health) services, social services, educational and other services". In addition, section 412(a)(4)(A)(i) of the INA (8 U.S.C. 1522(a)(4)(A)(i)) authorizes the Director to make loans for the purpose of carrying out this section.

#### Discretionary Funds for Refugee Microenterprise Development Projects

##### 1. Description

*Purpose and Scope:* The purpose of microenterprise development is to assist refugees in becoming economically self-sufficient and to help refugee communities in developing employment and capital resources.

To achieve this purpose, applicants for microenterprise development projects may request funds for business technical assistance, short-term training, credit in the form of microloans, a revolving microloan fund or loan loss reserve fund, and post-loan technical assistance. Funds may also be requested to cover administrative costs associated

and certain family members who have been granted derivative T visas (see 45 CFR 400.43 and ORR State Letters Number 01-13 as modified by State Letter Number 02-01 and Number 04-12 on trafficking victims). For convenience, the term "refugee" is used in this notice to encompass all such eligible persons. Additional information on eligibility is available at: <http://www.acf.hhs.gov/programs/orr/policy/s101-13.htm>; <http://www.acf.hhs.gov/programs/orr/policy/s102-01.htm>; and <http://www.acf.hhs.gov/programs/orr/policy/s104-12.htm>.

with managing a microenterprise project.

Projects should be designed in a manner that is culturally and linguistically appropriate for the refugee population, including interest in diverse microbusinesses and English-language proficiency. Project designs should also take into account such economic factors as employment rates, welfare status, and length of time in the U.S. Applicants should also be familiar with the capital needs and capital market gaps for refugee entrepreneurs and should demonstrate how refugees will gain access to business credit.

Successful applicants should demonstrate an understanding of the economic opportunities in the community for refugees and should have established working partnerships with the communities' refugee resettlement services network, with existing microenterprise development organizations (where they are present), and with financial institutions.

**Client Eligibility:** Eligible clients are refugees who aspire to establish, expand, or stabilize a microenterprise but who lack the financial resources, credit history, or personal assets to qualify for business loans or assistance through commercial institutions. Refugees who are not yet citizens may participate regardless of their date of arrival in the U.S. However, refugees who arrived in the U.S. within the last five years have priority for services. Grantees will be responsible for documenting refugee client eligibility.

**Allowable Activities:** Project components may include one-on-one business consultation and training, training in classroom settings, access to business credit, revolving loan funds, loan-loss reserve funds, and technical assistance to refugee businesses. ORR funds may also be used for the administrative costs associated with managing a revolving loan fund.

#### Training and Technical Assistance

Training and other services should be individualized and flexible. While not all clients need extensive training or comprehensive technical assistance, proposals should address how the grant award will be allocated based on client need. Applications should indicate how technical assistance will be provided to address the complexity of the business plan, the level of risk entailed by the business, and the experiential background of the client.

If structured training is offered, it is generally recommended that the training be relatively short-term. The goal of training should be the completion of the business plan.

Training should also stress marketing and cash-flow projections.

#### Loans

Microloans consist of small amounts of credit that are less than \$15,000 and are extended to low-income entrepreneurs for start-ups of microenterprises or for the expansion or stabilization of existing microenterprises. ORR funds may be used for microloans to individual refugee entrepreneurs in sums not to exceed \$15,000 (of ORR monies). These funds may be disbursed through individual loans or a revolving loan fund. Grantees with loan funds will be responsible for establishing written lending policies and procedures and for collecting and servicing loan repayments.

ORR supports the use of commercial lending institutions for refugee borrowers to leverage the limited amount of ORR funds available for this purpose and to provide borrowers with the opportunity to establish creditworthy histories with traditional lenders. Applicants may elect to establish cooperative relationships with one or more of the community's financial institutions to obtain access to commercial loan funds. Alternatively, grantees may establish a loan-loss reserve fund with a financial institution, but should ensure that the agreement with the financial institution is beneficial to the grantee and the refugee clients; this should be monitored particularly in reference to the amount of additional funds leveraged using ORR monies and the way in which loans will be approved. In this case, ORR funds may be used for microloans to individual refugee entrepreneurs in sums not to exceed \$15,000 of ORR monies in the reserve, but the total loan may be larger if necessary.

ORR does not encourage the use of below-market rates of interest for the loan funds. Conversely, grantees may not charge refugees interest rates that exceed four percentage points above the New York prime lending rate at the time of loan approval. Unless the terms and interest rate are identical, ORR loan funds cannot be combined with other sources.

Microloans will have a maximum maturity of three years. The applicant must demonstrate how they will ensure that loans are closed out by the end of the project period. If the term of the loan will exceed the time of the grant, grantees may also propose how they will continue to administer the loan repayment and any necessary technical assistance after the end of the project period. Loans may be used for working

capital, inventory, supplies, furniture, fixtures, machinery, tools, equipment, building renovation, and/or leasehold improvements.

Microloan funds may not be used for the following types of businesses:

- As venture capital for established businesses that are attempting major expansion;
- For enterprises engaged in gambling or speculation;
- For any illegal activity or production or for the service or distribution of illegal products;
- For purposes not related to microenterprise development; e.g., for the purchase of a personal-use automobile.

Additionally, ORR strongly urges that if a refugee client proposes opening an import/export business or a franchise business, the businesses be thoroughly investigated and documented to ensure legality and fairness to the refugee.

**Treatment of Program Income:** Projects with revolving loan funds may earn and retain program income in the form of interest (on individual loans or from loan-loss reserves). Specifically, program income funds may be retained by the project to expand the pool of credit in accordance with 45 CFR 74.24 (b)(1), (b)(2) and (e) for non-profit organizations and 45 CFR 92.25 (g)(2) for governmental entities. Similarly, repaid loan principal is to be treated as program income and placed in the revolving loan fund or loan-loss reserve fund for re-lending. Program income may be retained by the grantee so long as the use of these funds furthers the objectives of the grant and is consistent with the Federal statute under which the grant was made (45 CFR 74.24(e)).

Any fees or charges imposed on refugee clients by the grantee or its subcontractors or affiliates (e.g., loan processing or training fees) must be disclosed in the application and preapproved by ORR. Program income must be reported on the Financial Status Report (SF 269) semiannually during the project period.

Successful grantees will be expected to coordinate their policies and procedures for developing and administering refugee microenterprise development projects with the existing refugee microenterprise services network. To ensure an exchange of technical and training information among programs, all grantees are encouraged to attend two ORR training meetings during each year of their participation in this program area. Grant funds may be used to offset the cost of attendance.

## II. Award Information

*Funding Instrument Type:* Grant.  
*Anticipated Total Priority Area Funding:* \$1,200,000.  
*Anticipated Number of Awards:* 4 to 12.

*Ceiling on Amount of Individual Awards Per Budget Period:* \$500,000.  
*Average Projected Award Amount Per Budget Period:* \$200,000.  
*Length of Project Periods:* 48-month project with four 12-month budget periods.

## III. Eligibility Information

### 1. Eligible Applicants

State governments;  
 County governments; City or township governments; State-controlled institutions of higher education; Non-profits having a 501(c)(3) status with the IRS, other than institutions of higher education; Non-profits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; and Private institutions of higher education.

### Additional Information on Eligibility

Only public and private non-profit organizations are eligible to apply. Faith-based organizations are eligible to apply.

To be successful in this competition, refugee-serving organizations must demonstrate their organization's capacity to provide the technical expertise necessary to help refugees start, expand, or strengthen businesses, and to provide access to credit. Economic development agencies must show how they will modify their existing programs to serve refugees effectively.

### 2. Cost Sharing/Matching

None.

### 3. Other

All applicants must have a Dun & Bradstreet number. On June 27, 2003 the Office of Management and Budget published in the **Federal Register** a new Federal policy applicable to all Federal grant applicants. The policy requires Federal grant applicants to provide a Dun & Bradstreet Data Universal Numbering System (DUNS) number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal ([www.Grants.gov](http://www.Grants.gov)). A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or

plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you may request a number online at <http://www.dnb.com>.

Non-profit organizations applying for funding are required to submit proof of their non-profit status. Proof of non-profit status is any one of the following:

- A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS code.
- A copy of a currently valid IRS tax-exemption certificate.
- A statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals.
- A certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status.
- Any of the items in the subparagraphs immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

When applying electronically we strongly suggest that you attach your proof of non-profit status with your electronic application.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at: <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

### Disqualification Factors

Applications that exceed the ceiling amount will be considered non-responsive and will not be considered for funding under this announcement.

Any application that fails to satisfy the deadline requirements referenced in Section IV.3 will be considered nonresponsive and will not be considered for funding under this announcement.

## IV. Application and Submission Information

### 1. Address To Request Application Package

Sylvia Johnson, Grants Management Officer, Office of Grants Management, Administration for Children and Families, 370 L'Enfant Promenade SW., 4th Floor West, Washington, DC 20447. Phone: 202-401-5513. E-mail: [ACFOGME-Grants@acf.hhs.gov](mailto:ACFOGME-Grants@acf.hhs.gov). URL: [www.acf.hhs.gov/programs/orr](http://www.acf.hhs.gov/programs/orr).

### 2. Content and Form of Application Submission

Applicants that are submitting their application in paper format should submit an original and two copies of the complete application. An original and two copies of the complete application are required. The original and each of the two copies must include all required forms, certifications, assurances, and appendices, be signed by an authorized representative, have original signatures, and be submitted unbound.

ACF is particularly interested in specific factual information and statements of measurable goals in quantitative terms. Project descriptions are evaluated on the basis of substance, not length. Extensive exhibits are not required. Cross-referencing should be used rather than repetition. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly pertain to an integral part of the grant-funded activity should be placed in an appendix. A table of contents and an executive summary should be included. The application narrative should be in a 12-pitch font with a 25 page narrative limit (up to an additional 20 pages of attachments are allowable, not including letters of support, table of contents, executive summary, or standard forms and certifications). Reviewers may disregard narrative over the page limit. Each page should be numbered sequentially, including any attachments or appendices. Please do not staple or in any way bind the application other than with a rubber band or a clip. Please do not include books or videotapes as they are not easily reproduced and are, therefore, inaccessible to reviewers.

You may submit your application to us in either electronic or paper format. To submit an application electronically, please use the <http://www.Grants.gov/ApplySite>. If you use Grants.gov, you will be able to download a copy of the application package, complete it off-line, and then upload and submit the application via the Grants.gov site. ACF

will not accept grant applications via e-mail or facsimile transmission.

Please note the following if you plan to submit your application electronically via Grants.gov:

- Electronic submission is voluntary, but strongly encouraged.
  - When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation. We strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.gov.
  - We recommend that you visit Grants.gov at least 30 days prior to filing your application to fully understand the process and requirements. We encourage applicants who submit electronically to submit well before the closing date and time so that if difficulties are encountered an applicant can still send in a hard copy overnight. If you encounter difficulties, please contact the Grants.gov Help Desk at 1-800-518-4276 to report the problem and obtain assistance with the system.
  - To use Grants.gov, you, as the applicant, must have a DUNS Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five days to complete the CCR registration.
  - You will not receive additional point value because you submit a grant application in electronic format, nor will we penalize you if you submit an application in paper format.
  - You may submit all documents electronically, including all information typically included on the SF 424 and all necessary assurances and certifications.
  - Your application must comply with any page-limitation requirements described in this program announcement.
  - After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Administration for Children and Families will retrieve your application from Grants.gov.
  - We may request that you provide original signatures on forms at a later date.
  - You may access the electronic application for this program on <http://www.Grants.gov>
  - You must search for the downloadable application package by the CFDA number.
- Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on

Ensuring Equal Opportunity for Applicants," at: <http://www.acf.hhs.gov/programs/ofsf/forms.htm>.

**Standard Forms and Certifications:** The project description should include all the information requirements described in the specific evaluation criteria outlined in the program announcement under Section V Application Review Information. In addition to the project description, the applicant needs to complete all the standard forms required for making applications for awards under this announcement.

Applicants seeking financial assistance under this announcement must file the Standard Form (SF) 424, Application for Federal Assistance; SF 424A, Budget Information—Non-Construction Programs; SF 424B, Assurances—Non-Construction Programs. The forms may be reproduced for use in submitting applications. Applicants must sign and return the standard forms with their application.

Applicants must furnish prior to award an executed copy of the Standard Form LLL, Certification Regarding Lobbying, when applying for an award in excess of \$100,000. Applicants who have used non-Federal funds for lobbying activities in connection with receiving assistance under this announcement shall complete a disclosure form, if applicable, with their applications (approved by the Office of Management and Budget under control number 0348-0046). Applicants must sign and return the certification with their application.

Applicants must also understand they will be held accountable for the smoking prohibition included within Pub. L. 103-227, Title XII Environmental Tobacco Smoke (also known as the PRO-KIDS Act of 1994). A copy of the **Federal Register** notice, which implements the smoking prohibition, is included with forms. By signing and submitting the application, applicants are providing the certification and need not mail back the certification with the application.

Applicants must make the appropriate certification of their compliance with all Federal statutes relating to non-discrimination. By signing and submitting the applications, applicants are providing the certification and need not mail back the certification form. Complete the standard forms and the associated certifications and assurances based on the instructions on the forms. The forms and certifications may be found at: <http://www.acf.hhs.gov/programs/ofsf/forms.htm>.

For those organizations required to provide proof of non-profit status, please refer to Section III.3.

Please see Section V.1, for instructions on preparing the full project description.

### 3. Submission Dates and Times

**Due Dates for Applications:** July 5, 2005.

#### Explanation of Due Dates for Applications

The closing date for submission of applications is referenced above. Mailed applications postmarked after the closing date will be classified as late.

**Deadline:** Mailed applications shall be considered as meeting an announced deadline if they are either received on or before the deadline date or sent on or before the deadline date and received by ACF in time for the independent review referenced in Section IV.6. Applicants are responsible for ensuring applications are mailed or submitted electronically well in advance of the application due date.

Applicants must ensure that a legibly dated U.S. Postal Service postmark or a legibly dated, machine-produced postmark of a commercial mail service is affixed to the envelope/package containing the application(s). To be acceptable as proof of timely mailing, a postmark from a commercial mail service must include the logo/emblem of the commercial mail service company and must reflect the date the package was received by the commercial mail service company from the applicant. Private metered postmarks shall not be acceptable as proof of timely mailing. (Applicants are cautioned that express/overnight mail services do not always deliver as agreed.)

Applications hand-carried by applicants, applicant couriers, or by other representatives of the applicant shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8 a.m. and 4:30 p.m., eastern time at the address referenced in Section IV.6., between Monday and Friday (excluding Federal holidays).

ACF cannot accommodate transmission of applications by fax. Therefore, applications transmitted to ACF by fax will not be accepted regardless of date or time of submission and time of receipt.

Receipt acknowledgement for application packages will not be provided to applicants who submit their package via mail, courier services, or by hand delivery. However, applicants will receive an electronic acknowledgement

for applications that are submitted via <http://www.Grants.gov>.

**Late applications:** Applications that do not meet the criteria above are considered late applications. ACF shall notify each late applicant that its application will not be considered in the current competition.

**Extension of deadlines:** ACF may extend application deadlines when circumstances such as acts of God (floods, hurricanes, etc.) occur, or when there are widespread disruptions of mail service, or in other rare cases. Determination to extend or waive

deadline requirements rests with the Chief Grants Management Officer.

**Checklist**

You may use the checklist below as a guide when preparing your application package.

| What to submit                                       | Required content              | Required form or format   | When to submit           |
|--|-------------------------------|---|--------------------------|
| Project Abstract .....                               | See Sections IV.2 and V ..... | Found in Sections IV.2 and V .....  | By application due date. |
| Project Description .....                            | See Sections IV.2 and V ..... | Found in Sections IV.2 and V .....  | By application due date. |
| Budget Narrative/Justification .....                 | See Sections IV.2 and V ..... | Found in Sections IV.2 and V .....  | By application due date. |
| SF 424 .....   | See Section IV.2 .....        | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |
| SF LLL Certification Regarding Lobbying.             | See Section IV.2 .....        | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |
| Certification Regarding Environmental Tobacco Smoke. | See Section IV.2 .....        | See <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |
| Assurances .....                                     | See Section IV.2 .....        | .....   | By date of award.        |

**Additional Forms:** Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related

Documents and Forms," "Survey for Private, Non-Profit Grant Applicants," titled, "Survey on Ensuring Equal Opportunity for Applicants," at: [http://](http://www.acf.hhs.gov/programs/ofs/forms.htm)

[www.acf.hhs.gov/programs/ofs/forms.htm](http://www.acf.hhs.gov/programs/ofs/forms.htm).

| What to submit                                   | Required content | Location   | When to submit           |
|--|------------------|--|--------------------------|
| Survey for Private, Non-Profit Grant Applicants. | See form .....   | Found in <a href="http://www.acf.hhs.gov/programs/ofs/forms.htm">http://www.acf.hhs.gov/programs/ofs/forms.htm</a> . | By application due date. |

**4. Intergovernmental Review**

**State Single Point of Contact (SPOC)**

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of October 1, 2004, the following jurisdictions have elected to participate in the Executive Order process: Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, North Mariana Islands, Puerto Rico, and Virgin Islands. As these jurisdictions have elected to participate in the Executive Order process, they have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if

any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2).

A SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade SW., 4th floor, Washington, DC 20447.

When comments are submitted directly to ACF, they should be addressed to: Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants, 370 L'Enfant Promenade, SW., Washington, DC 20447.

Although the remaining jurisdictions have chosen not to participate in the process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or for projects administered by federally-recognized Indian Tribes, need take no action in regard to E.O. 12372.

The official list, including addresses, of the jurisdictions that have elected to participate in E.O. 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.

A list of Single Points of Contact for each State and Territory is included with the application materials for this announcement.

**5. Funding Restrictions**

Grant awards will not allow reimbursement of pre-award costs.

**6. Other Submission Requirements**

**Submission by Mail:** An applicant must provide an original application with all attachments, signed by an authorized representative and two copies. Please see Section IV.3 for an explanation of due dates. Applications should be mailed to: Sylvia Johnson, Grants Management Officer, Office of

Grants Management, Administration for Children and Families, 370 L'Enfant Promenade SW., 4th Floor West, Washington, DC 20447.

**Hand Delivery:** An applicant must provide an original application with all attachments signed by an authorized representative and two copies. The application must be received at the address below by 4:30 p.m. eastern time on or before the closing date.

Applications that are hand delivered will be accepted between the hours of 8 a.m. to 4:30 p.m. eastern time, Monday through Friday. Applications should be delivered to: Sylvia Johnson, Administration for Children and Families, Office of Grants Management, ACF Mailroom, Second Floor (near loading dock), Aerospace Center, 901 D Street, SW., Washington, DC 20024.

**Electronic Submission:** <http://www.Grants.gov>. Please see Section IV.2 for guidelines and requirements when submitting applications electronically.

## V. Application Review Information

*The Paperwork Reduction Act of 1995 (Pub. L. 104-13)*

Public reporting burden for this collection of information is estimated to average 25 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information.

The project description is approved under OMB control number 0970-0139 which expires 4/30/2007.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

### 1. Criteria

The following are instructions and guidelines on how to prepare the "project summary/abstract" and "full project description" sections of the application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD).

#### Part I—The Project Description Overview

##### Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be

included where they can present information clearly and succinctly. In preparing your project description, information responsive to each of the requested evaluation criteria must be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application in a manner that is clear and complete.

### General Instructions

ACF is particularly interested in specific project descriptions that focus on outcomes and convey strategies for achieving intended performance. Project descriptions are evaluated on the basis of substance and measurable outcomes, not length. Extensive exhibits are not required. Cross-referencing should be used rather than repetition. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly pertain to an integral part of the grant funded activity should be placed in an appendix. Pages should be numbered and a table of contents should be included for easy reference.

### Introduction

Applicants required to submit a full project description shall prepare the project description statement in accordance with the following instructions while being aware of the specified evaluation criteria. The text options give a broad overview of what your project description should include while the evaluation criteria identifies the measures that will be used to evaluate applications.

### Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

### Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested

to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

### Results or Benefits Expected

Identify the results and benefits to be derived. ORR is particularly interested in the number and type of businesses established, expanded, or stabilized; the employment generated by the businesses; the number and size of loans provided to refugees; the amount of additional funds leveraged by the ORR funds for microenterprise loans, and the impact of the businesses assisted on the refugees' movement toward self-sufficiency.

### Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

### Evaluation

Provide a narrative addressing how the conduct of the project and the results of the project will be evaluated. In addressing the evaluation of results, state how you will determine the extent to which the project has achieved its stated objectives and the extent to which the accomplishment of objectives can be attributed to the project. Discuss the criteria to be used to evaluate results, and explain the methodology that will be used to determine if the needs identified and discussed are being met and if the project results and benefits are being achieved. With respect to the conduct of the project, define the procedures to be employed to determine whether the project is being conducted in a manner consistent with the work plan presented and discuss the impact of the project's various activities on the project's effectiveness.

#### Geographic Location

Describe the precise location of the project and boundaries of the area to be served by the proposed project. Maps or other graphic aids may be attached.

#### Additional Information

Following are requests for additional information that need to be included in the application:

#### Staff and Position Data

Provide a biographical sketch and job description for each key person appointed. Job descriptions for each vacant key position should be included as well. As new key staff is appointed, biographical sketches will also be required.

#### Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners, such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. If the applicant is a non-profit organization, submit proof of non-profit status in its application.

The non-profit agency can accomplish this by providing: (a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code; (b) a copy of a currently valid IRS tax exemption certificate, (c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals; (d) a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status, (e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

#### Third-Party Agreements

Provide written and signed agreements between grantees and subgrantees or subcontractors or other cooperating entities. These agreements

must detail scope of work to be performed, work schedules, remuneration, and other terms and conditions that structure or define the relationship.

#### Letters of Support

Provide statements from community, public and commercial leaders that support the project proposed for funding. All submissions should be included in the application OR by application deadline.

#### Budget and Budget Justification

Provide a budget with line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. Also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

#### General

Use the following guidelines for preparing the budget and budget justification. Both Federal and non-Federal resources shall be detailed and justified in the budget and narrative justification. "Federal resources" refers only to the ACF grant for which you are applying. "Non-Federal resources" are all other Federal and non-Federal resources. It is suggested that budget amounts and computations be presented in a columnar format: First column, object class categories; second column, Federal budget; next column(s), non-Federal budget(s), and last column, total budget. The budget justification should be a narrative.

#### Personnel

*Description:* Costs of employee salaries and wages.

*Justification:* Identify the project director or principal investigator, if known. For each staff person, provide the title, time commitment to the project (in months), time commitment to the project (as a percentage or full-time equivalent), annual salary, grant salary, wage rates, etc. Do not include the costs of consultants or personnel costs of delegate agencies or of specific project(s) or businesses to be financed by the applicant.

#### Fringe Benefits

*Description:* Costs of employee fringe benefits unless treated as part of an approved indirect cost rate.

*Justification:* Provide a breakdown of the amounts and percentages that comprise fringe benefit costs such as health insurance, FICA, retirement insurance, taxes, etc.

#### Travel

*Description:* Costs of project-related travel by employees of the applicant organization (does not include costs of consultant travel).

*Justification:* For each trip, show the total number of traveler(s), travel destination, duration of trip, per diem, mileage allowances, if privately owned vehicles will be used, and other transportation costs and subsistence allowances. Travel costs for key staff to attend ACF-sponsored workshops should be detailed in the budget.

#### Equipment

*Description:* "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost which equals or exceeds the lesser of (a) the capitalization level established by the organization for the financial statement purposes, or (b) \$5,000. (Note: Acquisition cost means the net invoice unit price of an item of equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in-transit insurance, freight, and installation shall be included in or excluded from acquisition cost in accordance with the organization's regular written accounting practices.)

*Justification:* For each type of equipment requested, provide a description of the equipment, the cost per unit, the number of units, the total cost, and a plan for use on the project, as well as use or disposal of the equipment after the project ends. An applicant organization that uses its own definition for equipment should provide a copy of its policy or section of its policy which includes the equipment definition.

#### Supplies

*Description:* Costs of all tangible personal property other than that included under the Equipment category.

*Justification:* Specify general categories of supplies and their costs. Show computations and provide other information which supports the amount requested.

**Contractual**

*Description:* Costs of all contracts for services and goods except for those that belong under other categories such as equipment, supplies, construction, etc. Include third party evaluation contracts (if applicable) and contracts with secondary recipient organizations, including delegate agencies and specific project(s) or businesses to be financed by the applicant.

*Justification:* Demonstrate that all procurement transactions will be conducted in a manner to provide, to the maximum extent practical, open and free competition. Recipients and subrecipients, other than States that are required to use Part 92 procedures, must justify any anticipated procurement action that is expected to be awarded without competition and exceed the simplified acquisition threshold fixed at 41 U.S.C. 403(11) (currently set at \$100,000).

Recipients may be required to make available to ACF pre-award review and procurement documents, such as request for proposals or invitations for bids, independent cost estimates, etc.

*Note:* Whenever the applicant intends to delegate part of the project to another agency, the applicant must provide a detailed budget and budget narrative for each delegate agency, by agency title, along with the required supporting information referred to in these instructions.

**Other**

Enter the total of all other costs. Such costs, where applicable and appropriate, may include but are not limited to insurance, food, medical and dental costs (noncontractual), professional services costs, space and equipment rentals, printing and publication, computer use, training costs, such as tuition and stipends, staff development costs, and administrative costs.

*Justification:* Provide computations, a narrative description and a justification for each cost under this category.

**Indirect Charges**

*Description:* Total amount of indirect costs. This category should be used only when the applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

*Justification:* An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. If the applicant organization is in the process of initially developing or renegotiating a rate, upon notification that an award will be made, it should immediately develop a tentative indirect

cost rate proposal based on its most recently completed fiscal year, in accordance with the cognizant agency's guidelines for establishing indirect cost rates, and submit it to the cognizant agency. Applicants awaiting approval of their indirect cost proposals may also request indirect costs. When an indirect cost rate is requested, those costs included in the indirect cost pool should not also be charged as direct costs to the grant. Also, if the applicant is requesting a rate which is less than what is allowed under the program, the authorized representative of the applicant organization must submit a signed acknowledgement that the applicant is accepting a lower rate than allowed.

**Program Income**

*Description:* The estimated amount of income, if any, expected to be generated from this project.

*Justification:* Describe the nature, source and anticipated use of program income in the budget or refer to the pages in the application which contain this information.

**Evaluation Criteria**

The following evaluation criteria appear in weighted descending order. The corresponding score values indicate the relative importance that ACF places on each evaluation criterion; however, applicants need not develop their applications precisely according to the order presented. Application components may be organized such that a reviewer will be able to follow a seamless and logical flow of information (*i.e.*, from a broad overview of the project to more detailed information about how it will be conducted).

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

**Approach (25 Points)**

Adequacy and appropriateness of the program approach or design, including project goals and structure (policies, procedures, activities); training and technical assistance; loan funds, lending criteria, and fees, if included in the design; whether the business targets are start-ups, expansions, strengthenings, or all of the above, and how the applicant will aid each type of client; partner agencies; and credit provision.

**Results or Benefits Expected (20 Points)**

Extent to which the expected outcomes and unit costs of the project are appropriate, consistent with

reported nationwide performance in microenterprise projects, and reasonable in relation to the proposed activities. Results may include the impact of business income and business assets on clients' welfare status, if applicable, and on economic self-sufficiency as well as projected outcomes for business income, employment, and survivability.

**Organizational Profiles (20 Points)**

Demonstrated organizational and management capacity including bilingual/bicultural competent services and experience serving refugees and other economically disadvantaged populations; description of experience in organizational management, including previous experience in managing grants of similar size; description of experience in providing microenterprise development services and in the management of loan funds, including a projected monthly cash flow chart for the loan fund for the four-year period beginning September 30, 2005; description of results achieved under any previous grant awarded by ORR for microenterprise; and experience in collaboration with the specific refugee community(ies) and coalition building among refugee and non-refugee service providers.

**Objectives and Need for Assistance (20 Points)**

Quality of the description of the prospective refugee communities' profile with respect to welfare utilization, English language proficiency, length of time in the U.S., interest in microbusiness, and the description of local capital needs and capital market gaps for refugee microentrepreneurs, including their ability to access mainstream financial services. This should include data regarding refugee hardships, the climate for business startups in relation to the overall cost of living, and a market analysis of the general business community.

**Budget and Budget Justification (15 Points)**

Appropriateness and reasonableness of the proposed budget, including the relative distribution of funds for administrative costs, training, technical assistance, and loan capital. The application should include project timelines and a narrative justification supporting each budget line item.

**2. Review and Selection Process**

No grant award will be made under this announcement on the basis of an incomplete application.

The ORR Director and program staff use review panel scores when considering competing applications. Review panel scores will weigh heavily in funding decisions, but will not be the only factors considered. Applications generally will be considered in order of the average scores assigned by the review panel. Because other important factors are taken into consideration, highly ranked applications are not guaranteed funding. These other considerations include the timely and proper completion by the applicant of projects funded with ORR funds granted in the last five (5) years; comments of reviewers and government officials; ORR staff evaluation and input; amount and duration of the grant requested and the proposed project's consistency and harmony with ORR goals and policy; administrative costs associated with any sub-grantees; geographic distribution of applications; previous program performance of applicants; compliance with grant terms under previous HHS grants; audit reports; investigative reports; and applicant's progress in resolving any final audit disallowance or program review finding on previous ORR or other Federal agency grants.

#### Approved But Unfunded Applications

Applications that are approved but unfunded may be held over for funding in the next funding cycle, pending the availability of funds, for a period not to exceed one year.

### VI. Award Administration Information

#### 1. Award Notices

Successful applicants will be notified through the issuance of a Financial Assistance Award document, which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, the non-Federal share to be provided (if applicable), and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

Organizations whose applications will not be funded will be notified in writing.

#### 2. Administrative and National Policy Requirements

Grantees are subject to the requirements in 45 CFR Part 74 (non-governmental) or 45 CFR Part 92 (governmental).

Direct Federal grants, subaward funds, or contracts under this ACF program shall not be used to support inherently religious activities such as

religious instruction, worship, or proselytization. Therefore, organizations must take steps to separate, in time or location, their inherently religious activities from the services funded under this Program. Regulations pertaining to the prohibition of Federal funds for inherently religious activities can be found on the HHS Web site at <http://www.os.dhhs.gov/fbc/waisgate21.pdf>.

#### 3. Reporting Requirements

Program Progress Reports: Semi-annually.

Financial Reports: Semi-annually.

Grantees will be required to submit program progress and financial reports (SF 269) throughout the project period. Program progress and financial reports are due 30 days after the reporting period. In addition, final programmatic and financial reports are due 90 days after the close of the project period.

### VII. Agency Contacts

#### Program Office Contact

Lisa Campbell, Project Officer, Office of Refugee Resettlement, Administration for Children and Families, 370 L'Enfant Promenade SW., 8th Floor West, Washington, DC 20447. Phone: 202-205-4597. E-mail: [lcampbell@acf.hhs.gov](mailto:lcampbell@acf.hhs.gov).

#### Grants Management Office Contact

Sylvia Johnson, Grants Management Officer, Office of Grants Management, Administration for Children and Families, 370 L'Enfant Promenade SW., 4th Floor West, Washington, DC 20447. Phone: 202-401-5513. E-mail: [ACFOGME-Grants@acf.hhs.gov](mailto:ACFOGME-Grants@acf.hhs.gov).

### VIII. Other Information

**Notice:** Beginning with FY 2006, the Administration for Children and Families (ACF) will no longer publish grant announcements in the **Federal Register**. Beginning October 1, 2005 applicants will be able to find a synopsis of all ACF grant opportunities and apply electronically for opportunities via: <http://www.Grants.gov>. Applicants will also be able to find the complete text of all ACF grant announcements on the ACF Web site located at: <http://www.acf.hhs.gov/grants/index.html>.

ORR typically sponsors two training workshops per year, which grantees are required to attend; therefore applicants should budget accordingly.

Please reference Section IV.3 for details about acknowledgement of received applications.

Dated: April 27, 2005.

**Nguyen Van Hanh,**

*Director, Office of Refugee Resettlement.*

BILLING CODE 4184-01-P

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4976-N-01]

### Notice of Proposed Information Collection: Healthy Homes and Lead Hazard Control Grant Programs Data Collection—Electronic Quarterly Progress Reporting

**AGENCY:** Office of Healthy Homes and Lead Hazard Control, HUD.

**ACTION:** Notice.

**SUMMARY:** The revised information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposals.

**DATES:** *Comments Due Date:* July 5, 2005.

**ADDRESSES:** Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Gail Ward, Reports Liaison Officer, Department of Housing and Urban Development, 451 7th Street, SW., Room P-3206, Washington, DC 20410.

**FOR FURTHER INFORMATION CONTACT:** Dr. Warren Friedman at (202) 755-1785, ext. 159 (this is not a toll-free number).

Hearing- or speech-impaired persons may access the number above via TTY by calling the toll-free Federal Information Relay Service at 1-800-877-8339.

**SUPPLEMENTARY INFORMATION:** The Department is submitting the revised information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C.—Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the revised collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the revised collection of information; (3) enhance the quality, utility, and clarity of the

information to be collected; and (4) minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This notice also lists the following information:

**Title of Proposal:** Healthy Homes and Lead Hazard Control Grant Programs Data Collection—Electronic Quarterly Progress Reporting.

**OMB Control Number:** To be assigned.  
**Need for the Information and Proposed Use:** This data collection is designed to provide timely information to HUD regarding the implementation progress of the grantees on carrying out Healthy Homes and Lead Hazard Control Grant Programs. The information collection will also be used to provide Congress with status reports as required by the Residential Lead-Based Paint Hazard Reduction Act (Title X of the Housing and Community Development Act of 1992).

This data collection is intended to obtain information specific to each of the grant programs of the Office of Healthy Homes and Lead Hazard Control. This refines the approach used previously, under OMB Control Number 2538-0008, which covered both lead hazard control and healthy homes grant programs, used the Lead Hazard Control Grantee Quarterly Program Report for all grant programs. Under the new data collection, the reporting for each grant program will be tailored to reflect the data most relevant to its individual operating procedures and enable respondents in each program to focus their attention on information specific to their program. The other significant difference from the previous data collection is an increase in the number of respondents from 210 to 300 to reflect the gradual increase in the number of grantees participating in HUD's healthy homes and lead hazard control grant programs (255 as of March 31, 2005). With the number of hours per response remaining at 8 hours, and the responses required quarterly, the total annual hours is adjusted from 6,720, to 9,600. Based on experience under the previous collection, the Department expects that at least 99% of responses under this collection will be electronic.

**Agency Form Numbers:** To be assigned.

**Members of Affected Public:** State, tribal, local governments, not-for-profit institutions and for-profit firms located in the U.S. and its territories.

**Total Burden Estimate:** Number of respondents = 300; Frequency of

response = 4; Hours of response = 8; Total Burden Hours = 9,600.

**Status of the Proposed Information Collection:** New collection.

**Additional Information:** The obligation to respond to this information collection is mandatory.

**Authority:** Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: April 27, 2005.

**Joseph F. Smith,**

*Deputy Director, Office of Healthy Homes and Lead Hazard Control.*

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4977-N-03]

### Notice of Proposed Information Collection for the Survey of Consumer Perceptions of Factory-Build Housing

**AGENCY:** Office of the Policy Development and Research, HUD.

**ACTION:** Notice.

**SUMMARY:** The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

**DATES:** *Comments Due Date:* July 5, 2005.

**ADDRESSES:** Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control number and should be sent to: Reports Liaison Officer, Office of Policy Development and Research, Department of Housing and Urban Development, 451 7th Street, SW., Room 8226, Washington, DC 20410.

**FOR FURTHER INFORMATION CONTACT:** Dr. Carlos Martín, Office of Policy Development and Research, Department of Housing and Urban Development, Washington, DC 20410; telephone (202) 708-4370, extension 5845 for copies of the proposed forms and other available documents. (This is not a toll-free number.)

**SUPPLEMENTARY INFORMATION:** The Department will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended). This Notice is soliciting comments from members of the public and affected agencies

concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology (e.g., permitting electronic submission of responses).

This notice also lists the following information:

**Title of Proposal:** Survey of Consumer Perceptions of Factory-Build Housing.

**Description of the need for the information and proposed use:** This request is for the clearance of a survey instrument designed to measure American consumers perceptions of factory-build housing (including manufactured, modular, and panelized construction) in relation to traditional, "stick-build" housing construction. The purpose of the survey is: (1) To gauge through a national sample the understanding and accuracy of these housing types through either verbal (phone) or visual (internet) depictions of them; (2) ascertain whether preconceived notions with regard to financial value and technical performance exist across the housing types; and (3) to determine whether individual knowledge of these housing types correlate with perceptions and accurate depictions.

**OMB Approval Number:** Pending OMB approval.

**Agency Form Numbers:** None.

**Members of Affected Public:** Individuals.

**Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:** 2,500 individuals will be surveyed through a phone survey (and up to an additional 10,000 will be included through an internet survey). Average time to complete the phone survey is 15 minutes, and the internet survey will be 10 minutes. Respondents will only be contacted once. Total burden hours are 625 for the primary telephone survey (and up to 1,667 hours for the additional internet survey).

**Authority:** Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: April 27, 2005.

Harold L. Bunce,

Deputy Assistance Secretary for Economic Affairs, Office of Policy Development and Research.

BILLING CODE 4210-62-M

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4975-N-11]

### Notice of Proposed Information Collection: Comment Request

**AGENCY:** Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

**ACTION:** Notice.

**SUMMARY:** The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

**DATES:** *Comments Due Date:* July 5, 2005.

**ADDRESSES:** Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Wayne Eddins, Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, SW., L'Enfant Plaza Building, Room 8001, Washington, DC 20410 or [Wayne\\_Eddins@hud.gov](mailto:Wayne_Eddins@hud.gov).

**FOR FURTHER INFORMATION CONTACT:** Vance Morris, Director, Office of Single Family Program Development, Department of Housing and Urban Development, 451 7th Street, SW., Washington, DC 20410, telephone (202) 708-2121 (this is not a toll free number) for copies of the proposed forms and other available information.

**SUPPLEMENTARY INFORMATION:** The Department is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of

information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond; including the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This notice also lists the following information:

*Title of Proposal:* HUD's Energy Efficient Mortgages.

*OMB Control Number, if applicable:* Collection in use without OMB approval.

*Description of the need for the information and proposed use:* HUD's Energy Efficient Mortgage (EEM) program allows a borrower to finance 100 percent of the expense of a cost-effective "energy package" that makes the house more energy efficient. The EEM may be used with sections 203(b), 203(k), (rehabilitation mortgages), 234(c) (units in condominium projects), and 203(h) (mortgages for disaster victims) loans for both purchases and refinances, including streamline refinances. HUD will use the information collected to determine the eligibility of mortgages submitted for insurance under this program.

*Agency form numbers, if applicable:* None.

*Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:* The number of burden hours is 2,310. The number of respondents is 600, the frequency of response is on occasion, and the burden hour per response is 3 minutes to 3.85 hours.

*Status of the proposed information collection:* This is a collection in use without OMB approval.

**Authority:** The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: April 27, 2005.

Frank L. Davis,

General Deputy Assistant Secretary for Housing—Deputy Federal Housing Commissioner.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4971-N-23]

### Notice of Submission of Proposed Information Collection to OMB; Section 5(h) Homeownership Program for Public Housing: Reporting

**AGENCY:** Office of the Chief Information Officer, HUD.

**ACTION:** Notice.

**SUMMARY:** The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

Public Housing Agencies (PHAs) are required to submit to HUD information on the sale of public housing to residents. HA's identify the address of the unit sold, and the date sold. The underlying statute for this program has been replaced by another so HA's can no longer submit requests to sell units under program. Sale information is used by HUD to report to congress and to modify the HA's subsidy calculation.

**DATES:** *Comments Due Date:* June 3, 2005

**ADDRESSES:** Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB approval Number (2577-0201) and should be sent to: HUD Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: (202) 395-6974.

**FOR FURTHER INFORMATION CONTACT:** Wayne Eddins, Reports Management Officer, AYO, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410; e-mail [Wayne\\_Eddins@HUD.gov](mailto:Wayne_Eddins@HUD.gov); or Lillian Deitzer at [Lillian\\_L\\_Deitzer@HUD.gov](mailto:Lillian_L_Deitzer@HUD.gov) or telephone (202) 708-2374. This is not a toll-free number. Copies of available documents submitted to OMB may be obtained from Mr. Eddins or Ms Deitzer.

**SUPPLEMENTARY INFORMATION:** This notice informs the public that the Department of Housing and Urban Development has submitted to OMB a request for approval of the information collection described below. This notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology,

e.g., permitting electronic submission of responses.

This notice also lists the following information:

*Title Of Proposal:* Section 5(h) Homeownership Program for Public Housing; Reporting.

*OMB Approval Number:* 2577-0201.

*Form Numbers:* None.

*Description of the Need for the Information and its Proposed Use:* Public Housing Agencies (PHAs) are

required to submit to HUD information on the sale of public housing to residents. HA's identify the address of the unit sold, and the date sold. The underlying statute for this program has been replaced by another so HA's can no longer submit requests to sell units under program. Sale information is used by HUD to report to congress and to modify the HA's subsidy calculation.

*Frequency of Submission:* On Occasion.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4971-N-22]

### Notice of Submission of Proposed Information Collection to OMB; Relocation and Real Property Acquisition, Recordkeeping Requirements Under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as Amended (URA)

**AGENCY:** Office of the Chief Information Officer, HUD.

**ACTION:** Notice.

**SUMMARY:** The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

Agencies which receive HUD funding for projects that will involve relocation of owners or tenants displaced due to a

project which involves rehabilitation demolition, or acquisition of property are subject to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (URA). Agencies are required to document their compliance with the requirements of the URA and applicable implementing program regulations.

**DATES:** *Comments Due Date:* June 3, 2005.

**ADDRESSES:** Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB approval Number (2506-0121) and should be sent to: HUD Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: (202) 395-6974.

#### FOR FURTHER INFORMATION CONTACT:

## DEPARTMENT OF JUSTICE

### Notice of Lodging of Partial Consent Decree Under the Clean Water Act

Notice is hereby given that on April 25, 2005, a proposed Partial Consent Decree in *Commonwealth of Kentucky and United States v. Louisville and Jefferson County Metropolitan Sewer District*, ("MSD") Civil Action No. 3:05-CV-236S was lodged with the United States District Court for the Western District of Kentucky.

The joint Commonwealth of Kentucky and United States action sought penalties and injunctive relief for

unauthorized discharges of untreated sewage and to address problems of overflows from sewers that carry a combination of untreated sewage and storm water under the Clean Water Act and MSD's National Pollutant Discharge Elimination System permit issued by Kentucky. Under the Consent Decree, MSD will propose and implement specific corrective action plans to bring its combined sewer overflows into compliance with water quality standards and to eliminate unauthorized discharges from its sanitary sewers. The Consent Decree also requires MSD to pay a civil penalty to the Commonwealth of Kentucky of \$1

million and, under Kentucky supervision, to perform Supplemental Environmental Projects (SEP) costing an additional \$2.25 million.

Pursuant to 28 CFR 50.7, the United States Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the Consent Decree. Comments should be addressed to the U.S. Department of Justice, Assistant Attorney General, Environment and Natural Resources Division, P.O. Box 7611, Ben Franklin Station, Washington, DC 20044-7611, and should refer to *Commonwealth of Kentucky and United States v. Louisville and Jefferson County Metropolitan Sewer District*, ("MSD") Civil Action No. 3:05-CV-236S, D.J. Ref. No. 90-5-1-1-08254.

The Consent Decree may be examined during the public comment period on the following Department of Justice Web site: <http://www.usdoj.gov/enrd/open.html>. A copy of the Consent Decree may also be obtained by mail from the Consent Decree Library, U.S. Department of Justice, P.O. Box 7611, Ben Franklin Station, Washington, DC 20044-7611, or by faxing or e-mailing a request a Tonia Fleetwood ([tonia.fleetwood@usdoj.gov](mailto:tonia.fleetwood@usdoj.gov)), fax number (202) 514-0097, phone confirmation number (202) 514-1547. When requesting a copy from the Consent Decree Library, please enclose a check in the amount of \$11.75 (25 cents per page reproduction cost) payable to the U.S. Treasury.

Ellen M. Mahan,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources.

## DEPARTMENT OF JUSTICE

### Office of Justice Programs

#### Agency Information Collection Activities: Proposed Collection; Comments Requested

**ACTION:** 60-day emergency notice of information collection under review: summit on implementing wireless communications assessment.

The Department of Justice, Office of Justice Programs, National Institute of Justice has submitted the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with emergency review procedures of the Paperwork Reduction

Act of 1995. OMB approval has been requested by May 2, 2005. The proposed information collection is published to obtain comments from the public and affected agencies. If granted, the emergency approval is only valid for 180 days. Comments should be directed to OMB, Office of Information and Regulation Affairs, Attention: Department of Justice Desk Officer (202) 395-6466, Washington, DC 20503.

During the first 60 days of this same review period, a regular review of this information collection is also being undertaken. All comments and suggestions, or questions regarding additional information, to include obtaining a copy of the proposed information collection instrument with instructions, should be directed to: Rhonda Jones, Program Executive, National Institute of Justice, by telephone, at: 202-616-3233.

Request written comments and suggestions from the public and affected agencies concerning the proposed collection of information. Your comments should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information:

(1) *Type of information collection:* New collection.

(2) *The title of the form/collection:* Summit on Implementing Wireless Communications Assessment.

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* No agency form number; applicable component is the National Institute of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: State, local, or tribal government. Other: Federal Government, Not-for-profit Institutions.

The information collected in this assessment will be used to help plan future Department of Justice Summits. Attendees of the summit are asked to assess the panel topics, offered sessions, and overall benefits of the summit. Additionally, the attendees are asked to provide any comments they may have had on the summit in general.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* It is estimated that 130 respondents will complete the application in 3 minutes.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated total public burden associated with this application is 6.5 hours.

*If additional information is required contact:* Brenda E. Dyer, Department Clearance Officer, Information Management and Security Staff, Justice Management Division, United States Department of Justice, 601 D Street, NW., Patrick Henry Building, Suite 1600, Washington, DC 20530.

Dated: April 28, 2005.

**Brenda E. Dyer,**

Department Clearance Officer, United States Department of Justice.

BILLING CODE 4410-18-P

## DEPARTMENT OF LABOR

### Office of the Secretary

#### Submission for OMB Review: Comment Request

April 27, 2005.

The Department of Labor (DOL) has submitted the following public information collection requests (ICRs) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of each ICR, with applicable supporting documentation, may be obtained by contacting Darrin King on 202-693-4129 (this is not a toll-free number) or e-mail: [king.darrin@dol.gov](mailto:king.darrin@dol.gov).

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Employment Standards Administration (ESA), Office of Management and Budget, Room 10235, Washington, DC 20503, 202-395-7316 (this is not a toll-free number), within 30 days from the date of this publication in the **Federal Register**.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have particular utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Employment Standards Administration.

Type of Review: Extension of currently approved collection.

Title: Rehabilitation Plan and Award.

OMB Number: 1215-0067.

Form Number: OWCP-16.

Frequency: On occasion.

Type of Response: Reporting.

Affected Public: Business and other for-profit and Individuals or households.

Number of Respondents: 7,000.

Annual Responses: 7,000.

Average Response Time: 30 minutes.

Total Annual Burden Hours: 3,500.

Total Annualized capital/startup costs: \$0.

Total Annual Costs (operating/maintaining systems or purchasing services): \$0.

Description: The Office of Workers' Compensation Programs (OWCP) is the agency responsible for administration of the Longshore and Harbor Workers' Compensation Act; 33 U.S.C. 901 *et seq.*, and the Federal Employees' Compensation Act, 5 U.S.C. 8101 *et seq.* Both of these Acts authorize OWCP to pay for approved vocational rehabilitation services to eligible workers with work-related disabilities. OWCP must receive the signatures of the worker and the rehabilitation counselor to show that the worker agrees to follow the proposed plan, and that the proposed plan is appropriate. The OWCP-16 is the standard format for the collection of information needed to approve proposed vocational rehabilitation services. Form OWCP-16 serves to document the agreed upon plan for rehabilitation services submitted by the injured worker and vocational rehabilitation counselor, the costs involved, and OWCP's award of

payment from funds provided for rehabilitation. Form OWCP-16 summarizes the costs of the rehabilitation plan to enable OWCP to make a prompt decision on funding.

Agency: Employment Standards Administration.

Type of Review: Extension of currently approved collection.

Title: Report of Changes That May Affect Your Black Lung Benefits.

OMB Number: 1215-0084.

Form Number: CM-929.

Frequency: Biannually.

Type of Response: Reporting.

Affected Public: Individuals or households.

Number of Respondents: 51,000.

Annual Responses: 51,000.

Average Response Time: 5 to 8 minutes.

Total Annual Burden Hours: 4,505.

Total Annualized Capital/Startup Costs: \$0.

Total Annual Costs (operating/maintaining systems or purchasing services): \$0.

Description: The Federal Mine Safety and Health Act of 1977 as amended, 30 U.S.C. 941, and 20 CFR 725.533(e) authorizes the Division of Coal Mine Workers' Compensation to pay compensation to coal miner beneficiaries. Once a miner or survivor is found eligible for benefits, the primary beneficiary is requested to report certain changes that may affect black lung benefits. The CM-929 is used to help determine continuing eligibility of primary beneficiaries receiving black lung benefits from the Black Lung Disability Trust Fund. The CM-929 is completed by the beneficiary to report factors that may affect his or her benefits, including income, marital status, receipt of state workers' compensation and dependents' status.

Agency: Employment Standards Administration.

Type of Review: Extension of currently approved collection.

Title: Housing Occupancy Certificate—Migrant and Seasonal Agricultural Worker Protection Act.

OMB Number: 1215-0158.

Form Number: WH-520.

Frequency: On occasion.

Type of Response: Reporting; Recordkeeping; and Third party disclosure.

Affected Public: Farms and Business or other for-profit.

Number of Respondents: 300.

Annual Responses: 300.

Average Response Time: 3 minutes to complete the form and 1 minute to post a certification.

Total Annual Burden Hours: 20.

Total Annualized Capital/Startup Costs: \$0.

Total Annual Costs (operating/maintaining systems or purchasing services): \$0.

Description: Section 203(b)(1) of the Migrant and Seasonal Agricultural Worker Protection Act, 29 U.S.C. 1801, *et seq.*, and Regulation 29 CFR 500.135(b) provide that any person who owns or controls a facility or real property to be used for housing migrant agricultural workers shall not permit such housing to be occupied by any worker unless a copy of the certificate of occupancy from the state, local, or federal agency that conducted the housing safety and health inspection is posted at the site of the facility or real property. Form WH-520 is both an information gathering form and the certificate of occupancy that the DOL issues when it is the federal agency conducting the safety and health inspection.

Ira L. Mills,

Departmental Clearance Officer.

BILLING CODE 4510-23-M

## DEPARTMENT OF LABOR

### Employment Standards Administration

#### Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment Standards Administration is soliciting comments concerning the proposed collection: Representative Payee Report (CM-623), Representative Payee Report, Short Form (CM-623S), and Physician's/Medical Officer's Statement (CM-787). A copy of the proposed information collection request can be obtained by contacting the office listed below in the addresses section of this Notice.

**DATES:** Written comments must be submitted to the office listed in the addresses section below on or before [insert date 60 days from the date of publication].

**ADDRESSES:** Ms. Hazel M. Bell, U.S. Department of Labor, 200 Constitution Ave., NW., Room S-3201, Washington, DC 20210, telephone (202) 693-0418, fax (202) 693-1451, *e-mail* bell.hazel@dol.gov. Please use only one method of transmission for comments (mail, fax, or e-mail).

#### SUPPLEMENTARY INFORMATION

##### I. Background

The Office of Workers' Compensation Programs administers the Federal Black Lung Workers' Compensation Program. Under the Federal Mine Safety and Health Act (30 U.S.C. 901) benefits due a DOL black lung beneficiary may be paid to a representative payee on behalf of the beneficiary when the beneficiary is unable to manage his/her benefits due to incapability, incompetence, or minority. The CM-623, Representative Payee Report is used to collect expenditure data regarding the disbursement of the beneficiary's benefits by the representative payee to assure that the beneficiary's needs are being met. The CM-623S, Representative Payee Report, Short Form is a shortened version of the CM-623 that is used when the representative payee is a family member. The CM-787,

Physician's/Medical Officer's Statement is a form used by OWCP to gather information from the beneficiary's physician about the capability of the beneficiary to manage monthly benefits. It is used by OWCP to determine if it is in the beneficiary's best interest to have his/her benefits managed by another party. The regulatory authority for collecting this information is at 20 CFR 725.506, 510, 511, and 513. This information collection is currently approved for use through October 31, 2005.

##### II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

##### III. Current Actions

The Department of Labor seeks the extension of approval to collect this information in order to carry out its responsibility to determine if a beneficiary is capable and/or competent to manage his/her black lung benefits, and to ensure that the representative payee is using the benefits to meet the beneficiary's needs.

*Type of Review:* Extension.

*Agency:* Employment Standards Administration.

*Title:* Representative Payee Report (CM-623), Representative Payee Report, Short Form (CM-623S), and Physician's/Medical Officer's Statement (CM-787).

*OMB Number:* 1215-0173.

*Agency Number:* CM-623, CM-623S, and CM-787.

*Affected Public:* Individuals or households; Business or other for profit, Not-for-profit institutions.

*Total Respondents:* 5,339.

*Total Annual responses:* 5,399.

*Estimated Total Burden Hours:* 5,430.

*Frequency:* On occasion.

*Total Burden Cost (capital/startup):* \$0.

*Total Burden Cost (operating/maintenance):* \$0.

| Forms              | Respondents/<br>responses | Time per response | Burden hours |

#### DEPARTMENT OF LABOR

##### Employment Standards Administration

##### Proposed Collection; Comment Request

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested

data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment Standards Administration is soliciting comments concerning the proposed collection: Employee Polygraph Protection Act. A copy of the proposed information collection request can be obtained by contacting the office listed below in the **ADDRESSES** section of this Notice.

**DATES:** Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before July 5, 2005.

**ADDRESSES:** Ms. Hazel M. Bell, U.S. Department of Labor, 200 Constitution Ave., NW., Room S-3201, Washington, DC 20210, telephone (202) 693-0418, fax (202) 693-1451, e-mail [bell.hazel@dol.gov](mailto:bell.hazel@dol.gov). Please use only one method of transmission for comments (mail, fax, or e-mail).

**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Wage and Hour Division (WHD) of the Department of Labor (DOL) administers the Employee Polygraph Protection Act of 1988 (EPPA), 29 U.S.C. 2001 *et seq.* The EPPA prohibits most private employers from using any lie detector tests either for pre-employment screening or during the course of employment. The Act contains an exemption applicable to Federal, State and local government employers. The EPPA also contains several limited exemptions authorizing polygraph tests under certain conditions, including testing: (1) By the Federal Government of experts, consultants or employees of Federal contractors engaged in national security intelligence or counterintelligence functions; (2) of employees the employer reasonably suspects of involvement in a workplace incident resulting in economic loss or injury to the employer's business; (3) of some prospective employees of private armored cars, security alarm and security guard firms; and (4) of some current and prospective employees of certain firms authorized to manufacture, distribute or dispense controlled substances. The WHD may assess civil money penalties of up to \$10,000 against employers who violate any EPPA provision. DOL currently has no printed public use forms associated with this information collection that consists of third-party disclosures and recordkeeping requirements. Appendix A of Regulations, 29 CFR part 801, contains a written statement setting forth both the examinee's and employer's legal rights, for use in satisfying the EPPA section 8(b)(2)(d) disclosure requirement. DOL proposes to make the information in Appendix A available on an optional public use form that will be available through the Departmental Internet Web site in PDF format. This information collection is currently approved for use through October 31, 2005.

**II. Review Focus**

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

**III. Current Actions**

The DOL seeks an approval for the extension of this information collection that requires the keeping of records by examiners and employers as necessary or appropriate for the administration of the Act and the provision of certain notices to polygraph examiners and examinees.

*Type of Review:* Extension.

*Agency:* Employment Standards Administration.

*Title:* Employee Polygraph Protection Act.

*OMB Number:* 1215-0170.

*Agency Number:* Notice to Examinee Employer Polygraph Protection Act (WH-1481).

*Affected Public:* Business or other for-profit, Not-for-profit institutions, Farms.

*Total Respondents:* 328,000.

*Total Responses:* 328,000.

*Time per Response:* Varies from 1 minute to 30 minutes, depending on the notice.

*Frequency:* On Occasion (Recordkeeping, Reporting, Third-party Disclosure).

*Estimated Total Burden Hours:* 82,406.

*Total Burden Cost (capital/startup):* \$0.

*Total Burden Cost (operating/maintenance):* \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: April 27, 2005.

**Bruce Bohanon,**

*Chief, Branch of Management Review and Internal Control, Division of Financial Management, Office of Management, Administration and Planning, Employment Standards Administration.*

BILLING CODE 4510-27-P

**DEPARTMENT OF LABOR**

**Mine Safety and Health Administration**

**Proposed Information Collection Request Submitted for Public Comment and Recommendations; Testing, Evaluation and Approval of Mining Products**

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

**DATES:** Submit comments on or before July 5, 2005.

**ADDRESSES:** Send comments to U.S. Department of Labor, Mine Safety and Health Administration, John Rowlett, Director, Management Services Division, 1100 Wilson Boulevard, Room 2134, Arlington, VA 22209-3939. Commenters are encouraged to send their comments on a computer disk, or via Internet e-mail to [Rowlett.John@dol.gov](mailto:Rowlett.John@dol.gov), along with an original printed copy. Mr. Rowlett can be reached at (202) 693-9827 (voice), or (202) 693-9801 (facsimile).

**FOR FURTHER INFORMATION CONTACT:** Contact the employee listed in the **ADDRESSES** section of this notice.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Mine Safety and Health Administration (MSHA) is responsible for the inspection, testing, approval and certification, and quality control of mining equipment and components, materials, instruments, and explosives

used in both underground and surface coal, metal, and nonmetal mines. Title 30 CFR parts 6 through 36 contain procedures by which manufacturers may apply for and have equipment approved as "permissible" for use in mines.

## II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection requirement related to testing, evaluation, and approval of Mining Products. MSHA is particularly interested in comments that:

- \* Evaluate whether the proposed collection of information is necessary for the proper performance of MSHA's functions, including whether the information has practical utility;

- \* Evaluate the accuracy of MSHA's estimate of the burden of the proposed

collection of information, including the validity of the methodology and assumptions used;

- \* Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and

- \* Address the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submissions of responses) to minimize the burden of the collection of information on those who are to respond.

A copy of the proposed information collection request can be obtained by contacting the employee listed in the **ADDRESSES** section of this notice or viewed on the Internet by accessing the MSHA home page (<http://www.msha.gov>) and then choosing

"Statutory and Regulatory Information" and "Federal Register Documents."

## III. Current Actions

Title 30 CFR parts 6 through 36 require that an investigation leading to approval or certification will be undertaken by the A&CC only pursuant to a written application accompanied by prescribed drawings and specifications identifying the piece of equipment. This information is used by engineers and scientists to evaluate the design in conjunction with tests to assure conformance to standards prior to approval for use in mines.

*Type of Review:* Extension.

*Agency:* Mine Safety and Health Administration.

*Title:* Permissible Equipment Testing.

*OMB Number:* 1219-0066.

*Affected Public:* Business or other for-profit.

BILLING CODE 4510-43-P

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

#### Proposed Information Collection Request Submitted for Public Comment and Recommendations; Hazard Communication

#### ACTION: Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or containing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized,

collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

**DATES:** Submit comments on or before July 5, 2005.

**ADDRESSES:** Send comments to U.S. Department of Labor, Mine Safety and Health Administration, John Rowlett, Director, Management Services Division, 1100 Wilson Boulevard, Room 2134, Arlington, VA 22209-3939. Commenters are encouraged to send their comments on a computer disk, or via Internet e-mail to [Rowlett.John@dol.gov](mailto:Rowlett.John@dol.gov), along with an original printed copy. Mr. Rowlett can be reached at (202) 693-9827 (voice), or (202) 693-9801 (facsimile).

**FOR FURTHER INFORMATION CONTACT:** Contact the employee listed in the **ADDRESSES** section of this notice.

**SUPPLEMENTARY INFORMATION:**

### I. Background

Section 101(a)(7) of the Mine Act requires, in part, that mandatory standards "prescribe the use of labels or other appropriate forms of warning as are necessary to insure that miners are apprised of all hazards to which they are exposed, relevant symptoms and appropriate emergency treatment, and proper conditions and precautions for safe use or exposure." MSHA collected evidence from the National Institute for Occupational Safety and Health's (NIOSH) Occupational Health Survey of Mining and other sources indicating that there is chemical exposure occurring in every type of mine, although every miner may not be exposed. We are concerned that miners being exposed to chemicals may not know the hazards of those chemicals or the appropriate precautions to prevent injury or illness caused by exposure to a hazardous chemical.

### II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection requirement related to Hazard Communication (HazCom). MSHA is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of MSHA's functions, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Address the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses), to minimize the burden of the collection of information on those who are to respond.

A copy of the proposed information collection request can be obtained by contacting the employee listed in the ADDRESSES section of this notice or viewed on the Internet by accessing the MSHA Home page (<http://www.msha.gov>) and then choosing "Statutory and Regulatory Information" and "Federal Register Documents."

### III. Current Actions

The HazCom standard involves third-party information sharing. It requires

mine operators and/or contractors to assess the hazards of chemicals they produce or use and provide information to their miners concerning the chemicals' hazards. The mine operators and/or contractors must develop a written hazard communication program that describes how they will inform miners of chemical hazards and safe handling procedures through miner training, labeling containers of hazardous chemicals, and providing miners access to material safety data sheets (MSDSs). The purpose of the information sharing is to provide miners with the right to know the hazards and identities of the chemicals they are exposed to while working, as well as the measures they can take to protect themselves from these hazards. Through HazCom mine operators and/or contractors also have the necessary information regarding the hazards of chemicals present at their mines, so that work methods are improved or instituted to minimize exposure to these chemicals. HazCom provides miners with access to this information, so that they can take action to protect themselves.

*Type of Review:* Extension.

*Agency:* Mine Safety and Health Administration.

*Title:* Hazard Communication.

*OMB Number:* 1219-0133.

*Recordkeeping:* 3 years.

*Frequency:* On Occasion.

*Affected Public:* Business or other for profit.

*Cite/Reference/Form/etc:* 30 CFR part 47.

*Total Respondents:* 21,031.

*Total Responses:* 845,370.

*Average Time per Response:* 15 minutes.

*Estimated Total Burden Hours:* 203,438.

*Total Burden Cost (capital/startup):* \$0.

*Total Burden Cost (operating/maintaining):* \$496,166.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated at Arlington, Virginia, this 26th day of April, 2005.

### DEPARTMENT OF LABOR

#### Occupational Safety and Health Administration

[Docket No. ICR-1218-ONEW(2005)-01]

#### Survey of Automatic External Defibrillator Use in Occupational Settings; Proposed Information Collection Activity; Request for Comment

**AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.

**ACTION:** Notice of opportunity for public comment.

**SUMMARY:** In accordance with the Paperwork Reduction Act, OSHA is soliciting public comment on a survey addressing the usefulness and efficacy of automatic external defibrillators (AEDs) in occupational settings.

**DATES:** Comments must be submitted by the following dates: *Hard copy:* Your comments must be submitted (postmarked or received) by July 5, 2005. *Facsimile and electronic transmission:* Your comments must be received by July 5, 2005.

**ADDRESSES:** You may submit comments, identified by OSHA Docket No. ICR-1218-ONEW(2005)-01, by any of the following methods: *Regular mail, express delivery, hand delivery, and messenger service:* Submit your comments and attachments to the OSHA Docket Office, Room N-2625, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210; telephone (202) 693-2350 (OSHA's TTY number is (877) 899-5627). OSHA Docket Office and Department of Labor hours are 8:15 a.m. to 4:45 p.m. e.t.

*Facsimile:* If your comments are 10 pages or fewer in length, including attachments, you may fax them to the OSHA Docket Office at (202) 693-1648.

*Electronic:* You may submit comments through the Internet at <http://ecomments.osha.gov>. Follow instructions on the OSHA Web page for submitting comments.

*Docket:* For access to the docket to read or download comments or background materials, such as the complete Information Collection Request (ICR) (containing the Supporting Statement, OMB-83-I Form, and attachments), go to OSHA's Web page at <http://www.OSHA.gov>. In addition, comments, submissions, and the ICR are available for inspection and copying at the OSHA Docket Office at the address above. You also may contact Todd Owen at the address below to obtain a copy of the ICR. For additional information on submitting comments,

please see the "Public Participation" heading in the **SUPPLEMENTARY INFORMATION** section of this document.

**FOR FURTHER INFORMATION CONTACT:** Todd Owen, Directorate of Standards and Guidance, OSHA, Room N-3609, 200 Constitution Avenue, NW., Washington, DC 20210; telephone: (202) 693-2222.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate.

The Office of Management and Budget (OMB) has requested that OSHA conduct a comprehensive study of the usefulness and efficacy of AEDs in occupational settings. OSHA estimates that as many as 8,700 fatal heart attacks and other fatal cardiac events might occur at workplaces annually (Ex. 3-1). Studies have shown that timely access to defibrillation units significantly increases the survival probabilities of victims of such events (Ex. 3-2). Modern technology has permitted the development of AEDs that can be effectively used by first responders with a basic level of training. In addition, there also are AEDs on the market now that require minimal or no training to operate. Moreover, the cost of AEDs has dropped significantly and this trend is anticipated to continue as their use in public, home and workplace setting increases. Based on the costs of AED equipment, associated training, and program management requirements and the potential value of the lives saved, OSHA believes the use of such equipment in establishments is cost effective from a societal perspective.

Despite the social desirability of greater penetration of AED programs in occupational settings, little quantitative information is available about current prevalence of such programs in different industrial sectors. OSHA also lacks information about factors that influenced establishments to install AED equipment and about other factors that deterred establishments from implementing AED programs.

To gather more information about AED use in occupational settings, OSHA will conduct a statistical survey of selected establishments in OSHA-regulated industrial sectors to develop statistically accurate estimates of the current prevalence of AED programs in various industrial sectors. OSHA will also develop estimates of the percentages of establishments that have considered, but not implemented such programs. Additionally, OSHA will collect information on the characteristics of AED programs and establishments (*e.g.*, size, industry, workforce age distribution, etc.) that may correlate with the presence or lack of an AED program. Finally, OSHA plans to supplement the statistical survey with extended case study interviews with selected respondents from the statistical survey. These interviews will provide in-depth, albeit qualitative, information about various factors that influence decisions on whether to implement AED programs, as well as about the circumstances that underlie the cost and effectiveness of such programs.

OSHA has conducted a thorough search and review of existing studies and other literature about AED use. Only limited information is available about AED use in occupational settings, although substantial literature exists addressing AED use in public settings. In addition, OSHA found little direct evidence about AED cost-effectiveness in the workplace. Collection of information sought by OSHA from establishments concerning the use of automatic external defibrillators in occupational settings will include:

1. Profile information, including industry, type of operation, number of employees, age distribution of employees, presence of safety or health professionals on staff, and experience with sudden cardiac events.
2. Characteristics of AED programs in place, including number of units, number of employees trained, type and frequency of training, and percentage of workforce protected by AEDs.
3. Factors influencing decisions whether to invest in AED equipment or implement an AED program, including experience with sudden cardiac events, role of marketing by AED manufacturers, costs of AED equipment, costs of training, cost of maintenance, and liability concerns.
4. Frequency of use of AED units and their effectiveness in cases of employee heart attacks or other sudden cardiac events.
5. In-depth interviews on issues identified with respect to Topics 2, 3,

and 4 will be conducted during post-survey case study interviews.

OSHA plans to use this information, first, to identify the occupational settings in which AEDs are most cost-effective. Second, OSHA will use the survey results to identify barriers to expanding AED use and to help design effective outreach programs to encourage establishments to install AED equipment. Without this survey, OSHA will lack information about the current prevalence of AED programs in occupational settings. The Agency will also lack information on the characteristics of establishments with and without AED programs and about the factors that have influenced establishments' decisions whether to implement AED programs. Without this knowledge, OSHA will have difficulty determining the efficacy of different strategies that might be used to encourage the implementation of workplace AED programs such as developing outreach and promotion programs.

The proposed collection of information consists of a two-stage statistical survey of at least 1,000 establishments in OSHA-regulated industries that have 100 or more employees. In the first stage, OSHA will survey establishments from the universe population to gather baseline profile information and to screen for establishments that either (1) have an AED program in place, or (2) have considered implementing an AED program but have not done so. In the second stage, screened respondents will be asked questions specific to which group their establishment belongs (*i.e.*, currently has an AED program or considered but has not implemented such a program).

As an adjunct to the statistical survey, OSHA plans to conduct as many as 36 in-depth case study interviews with selected volunteers among respondents in both the groups that do and do not have AED programs. These open-ended interviews will permit OSHA to gather detailed qualitative information about key issues pertaining to the implementation, cost, and effectiveness of AED programs and factors deterring implementation of such programs.

##### **II. Proposed Actions**

OSHA is requesting OMB approval of the collection of information (paperwork) requirements contained in the Survey of Automatic External Defibrillators. The Agency will summarize the comments submitted in response to this notice and will include this summary in its request to OMB to

approve these collections of information requirements.

### III. Special Issues for Comments

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collection; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

### IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments and supporting materials in response to this notice by (1) hard copy, (2) FAX transmission (facsimile), or (3) electronically through the OSHA Web page. Because of security-related problems, a significant delay may occur in receiving comments by regular mail. Please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627) for information about security procedures concerning the delivery of submissions by express delivery, hand delivery and courier service.

All comments, submissions, and background documents are available for inspection and copying at the OSHA Docket Office at the above address. Comments and submissions posted on OSHA's Web page are available at <http://www.OSHA.gov>. Contact the OSHA Docket Office for information about materials not available through the OSHA Web page, and for assistance using the Web page to locate docket submissions.

Electronic copies of this **Federal Register** notice, as well as other relevant documents, are available on OSHA's Web page. Submissions become part of the public record, therefore, private information such as social security numbers should not be submitted.

*Type of Review:* New

*Title:* Survey of Automatic External Defibrillator use in Occupational Settings.

*OMB Number:* 1218-0NEW-1.

*Affected Public:* Business or other for-profits.

*Number of Respondents:* 4,000.

*Frequency:* One time.

*Average Time per Response:* Varies from 2 minutes (.03 hour) for a non-response rate to 30 minutes for some establishments to participate in a follow-up case study.

*Estimated Total Burden Hours:* 551.  
*Estimated Cost (Operation and Maintenance):* \$0.

### V. Authority and Signature

Jonathan L. Snare, Acting Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*), and Secretary of Labor's Order No. 5-2002 (67 FR 65008).

Signed in Washington, DC, on April 26, 2005.

**Jonathan L. Snare,**

*Acting Assistant Secretary of Labor.*

BILLING CODE 4510-26-M

## DEPARTMENT OF LABOR

### Wage and Hour Division

[Administrative Order No. ]

### Special Industry Committee for All Industries in American Samoa; Appointment; Convention; Hearing

1. Pursuant to sections 5 and 6(a) (3) of the Fair Labor Standards Act (FLSA) of 1938, as amended (29 U.S.C. 205, 206(a) (3)), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004) and 29 CFR part 511, I hereby appoint special Industry Committee No. 26 for American Samoa.

2. Pursuant to sections 5, 6(a) (3) and 8 of the FLSA, as amended (29 U.S.C. 205, 206(a) (3), and 208), Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and 29 CFR part 511, I hereby:

(a) Convene the above-appointed industry committee;

(b) Refer to the industry committee the question of the minimum rate or rates for all industries in American Samoa to be paid under section 6(a)(3) of the FLSA, as amended; and,

(c) Give notice of the hearing to be held by the committee at the time and place indicated.

The industry committee shall investigate conditions in such industries and the committee, or any authorized subcommittee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the FLSA.

The committee shall meet in executive session to commence its

investigation at 9 a.m. and begin its public hearing at 11 a.m. on June 20, 2005, in Pago Pago, American Samoa.

3. The rate or rates recommended by the committee shall not exceed the rate prescribed by section 6(a) or 6(b) of the FLSA, as amended by the Fair Labor Standards Act Amendments of 1996, of \$5.15 an hour effective September 1, 1997.

The committee shall recommend to the Administrator of the Wage and Hour Division of the Department of Labor the highest minimum rate or rates of wages for such industries that it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in such industries, and will not give any industry in American Samoa a competitive advantage over any industry in the United States outside of American Samoa.

4. Where the committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in the industry than may be determined for other employees in the industry, the committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set forth herein and in 29 CFR 511.10, that will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within an industry, in making such classifications, and in determining the minimum wage rates for such classifications, the committee shall consider, among other relevant factors, the following:

(a) Competitive conditions as affected by transportation, living and production costs;

(b) Wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and

(c) Wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

5. Prior to the hearing, the Administrator of the Wage and Hour Division, U.S. Department of Labor, shall prepare an economic report

containing the information that has been assembled pertinent to the matters referred to the committee. Copies of this report may be obtained at the Office of the Governor, Pago Pago, American Samoa, and the National Office of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210. Upon request, the Wage and Hour Division will mail copies to interested persons who make a written request to the Wage and Hour Division. To facilitate mailing, such persons should make advance written request to the Wage and Hour Division. The committee will take official notice of the facts stated in this report. Parties, however, shall be afforded an opportunity to refute such facts by evidence received at the hearing.

6. The provisions of Title 29, Code of Federal Regulations, part 511, will govern the procedure of this industry committee. Copies of this part of the regulations will be available at the Office of the Governor, Pago Pago, American Samoa, and at the National Office of the Wage and Hour Division. The proceedings will be conducted in English, but in the event that a witness should wish to testify in Samoan, an interpreter will be provided. As a prerequisite to participation as a party, interested persons shall file six copies of a pre-hearing statement at the aforementioned Office of the Governor of American Samoa and six copies at the National Office of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210. Each pre-hearing statement shall contain the data specified in 29 CFR 511.8 of the regulations and shall be filed not later than May 20, 2005. If such statements are sent by airmail between American Samoa and the mainland, such filing shall be deemed timely if postmarked within the time provided.

Signed in Washington, DC, this 27th day of April, 2005.

Elaine L. Chao,

Secretary of Labor.

## FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

### Sunshine Act Meeting

April 26, 2005

**TIME AND DATE:** 10 a.m., Wednesday, May 4, 2005.

**PLACE:** The Richard V. Backley Hearing Room, 9th Floor, 601 New Jersey Avenue, NW., Washington, DC.

**STATUS:** Open.

**MATTERS TO BE CONSIDERED:** The Commission will hear oral argument on an appeal of Maple Creek Mining, Inc. and Maple Creek employees Steve Brown, Alvy Walker, and Greg Miller from the decision of an administrative law judge in *Secretary of Labor and United Mine Workers of America v. Maple Creek Mining, Inc., et al.*, Docket Nos. PENN 2002-116, PENN 2003-54, PENN 2003-55, and PENN 2003-56. (Issues include whether substantial evidence supports the judge's determinations that: (1) The operator violated the requirement of 30 CFR § 75.380(d)(1) to maintain in a safe condition each designated escapeway in an underground coal mine; (2) the violation was significant and substantial; (3) that the violation was due to the operator's unwarrantable failure to comply with the standard; and (4) that Maple Creek employees Steve Brown, Alvy Walker, and Greg Miller were liable for the violation under section 110(c) of the Federal Mine Safety and Health Act of 1977.)

Any person attending this meeting who requires special accessibility features and/or auxiliary aids, such as sign language interpreters, must inform the Commission in advance of those needs, subject to 29 CFR § 2706.150(a)(3) and § 2706.160(d).

**CONTACT PERSON FOR MORE INFO:** Jean Ellen, (202) 434-9950/(202) 708-9300 for TDD Relay/1-800-877-8339 for toll free.

Jean H. Ellen,  
Chief Docket Clerk.

## NUCLEAR REGULATORY COMMISSION

### Advisory Committee on Reactor Safeguards Subcommittee Meeting on Fire Protection; Notice of Meeting

The ACRS Subcommittee on Fire Protection will hold a meeting on May 17, 2005, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows: *Tuesday, May 17, 2005—8:30 a.m. until 12 Noon.*

The purpose of this meeting is to discuss the Draft Regulatory Guide, DG-1139, "Risk-Informed, Performance-Based Fire Protection for Existing Light-Water Nuclear Power Plants." This regulatory guide provides guidance for use in complying with the requirements that the U.S. Nuclear Regulatory Commission (NRC) has promulgated for risk-informed, performance-based fire protection programs that meet the requirements of Title 10, Section 50.48(c), of the Code of Federal Regulations (10 CFR 50.48(c)) and the 2001 Edition of the National Fire Protection Association (NFPA) standard, NFPA 805, "Performance-Based Standard for Fire Protection for Light-Water Reactor Electric Generating Stations." The Subcommittee will hear presentations by and hold discussions with the NRC staff, representatives of the Electric Power Research Institute (EPRI), and other interested persons regarding this matter. The Subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Members of the public desiring to provide oral statements and/or written comments should notify the Designated Federal Official, Dr. Hossein P. Nourbakhsh (Telephone: (301) 415-5622) five days prior to the meeting, if possible, so that appropriate

arrangements can be made. Electronic recordings will be permitted.

Further information regarding this meeting can be obtained by contacting the Designated Federal Official between 7:30 a.m. and 4:15 p.m. (ET). Persons planning to attend this meeting are urged to contact the above named individual at least two working days prior to the meeting to be advised of any potential changes to the agenda.

Dated: April 27, 2005.

Michael L. Scott,  
Branch Chief, ACRS/ACNW.

[FR Doc. E5-2172 Filed 5-3-05; 8:45 am]

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

### Advisory Committee on Reactor Safeguards Meeting of the Subcommittee on Early Site Permits; Notice of Meeting

The ACRS Subcommittee on Early Site Permits will hold a meeting on May 16, 2005, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows: Monday, May 16, 2005—8:30 a.m. until 1 p.m.

The Subcommittee will discuss and review the application for an early site permit for the Grand Gulf site and the staff's draft safety evaluation report related to that application.

The Subcommittee will hear presentations by and hold discussions with representatives of the NRC staff, System Energy Resources, Inc. (the applicant), and other interested persons regarding this matter. The Subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Members of the public desiring to provide oral statements and/or written comments should notify the Designated Federal Official, Dr. Medhat M. El-Zeftawy (telephone (301) 415-6889) five days prior to the meeting, if possible, so that appropriate arrangements can be made. Electronic recordings will be permitted.

Further information regarding this meeting can be obtained by contacting the Designated Federal Official between 7:30 a.m. and 4:15 p.m. (ET). Persons planning to attend this meeting are urged to contact the above named individual at least two working days prior to the meeting to be advised of any potential changes to the agenda.

Dated: April 27, 2005.

Michael L. Scott,  
Branch Chief, ACRS/ACNW.

## NUCLEAR REGULATORY COMMISSION

### Notice of Opportunity To Comment on Model Safety Evaluation on Technical Specification Improvement for Combustion Engineering Plants to Risk-Inform Requirements Regarding Selected Required Action End States Using the Consolidated Line Item Improvement Process

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Request for comment.

**SUMMARY:** Notice is hereby given that the staff of the Nuclear Regulatory Commission (NRC) has prepared a model safety evaluation (SE) relating to changes in Combustion Engineering (CE) plant required action end state requirements in technical specifications (TS). The NRC staff has also prepared a model no-significant-hazards-consideration (NSHC) determination relating to this matter. The purpose of these models is to permit the NRC to efficiently process amendments that propose to adopt technical specifications changes, designated as TSTF-422, related to Topical Report CE NPSD-1186, Rev. 00, "Technical Justification for the Risk Informed Modification to Selected Required Action End States for CEOP PWRs," which was approved by an NRC SE dated July 17, 2001. Licensees of CE nuclear power reactors to which the models apply could then request amendments, confirming the applicability of the SE and NSHC determination to their reactors. The NRC staff is requesting comment on the model SE and model NSHC determination prior to announcing their availability for referencing in license amendment applications.

**DATES:** The comment period expires June 3, 2005. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

**ADDRESSES:** Comments may be submitted either electronically or via U.S. mail. Submit written comments to Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mail Stop: T-6 D59, U.S. Nuclear Regulatory

Commission, Washington, DC 20555-0001. Hand deliver comments to: 11545 Rockville Pike, Rockville, Maryland, between 7:45 a.m. and 4:15 p.m. on Federal workdays. Copies of comments received may be examined at the NRC's Public Document Room, 11555 Rockville Pike (Room O-1F21), Rockville, Maryland. Comments may be submitted by electronic mail to [CLIIP@nrc.gov](mailto:CLIIP@nrc.gov).

**FOR FURTHER INFORMATION CONTACT:** Tom Boyce, Mail Stop: O-12H4, Division of Inspection Program Management, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone 301-415-0184.

### SUPPLEMENTARY INFORMATION:

#### Background

Regulatory Issue Summary 2000-06, "Consolidated Line Item Improvement Process for Adopting Standard Technical Specifications Changes for Power Reactors," was issued on March 20, 2000. The consolidated line item improvement process (CLIIP) is intended to improve the efficiency of NRC licensing processes, by processing proposed changes to the standard technical specifications (STS) in a manner that supports subsequent license amendment applications. The CLIIP includes an opportunity for the public to comment on proposed changes to the STS after a preliminary assessment by the NRC staff and finding that the change will likely be offered for adoption by licensees. This notice solicits comment on a proposed change to the STS that allows changes in CE plant required action end state requirements in technical specifications, if risk is assessed and managed. The CLIIP directs the NRC staff to evaluate any comments received for a proposed change to the STS and to either reconsider the change or announce the availability of the change for adoption by licensees. Licensees opting to apply for this TS change are responsible for reviewing the staff's evaluation, referencing the applicable technical justifications, and providing any necessary plant-specific information. Each amendment application made in response to the notice of availability will be processed and noticed in accordance with applicable NRC rules and procedures.

This notice involves the changes in CE plant required action end state requirements in TS, if risk is assessed and managed. The change was proposed in Topical Report CE NPSD-1186, Rev. 00, "Technical Justification for the Risk Informed Modification to Selected

Required Action End States for CEOG PWRs," which was approved by an NRC SE dated July 17, 2001. This change was proposed for incorporation into the STS by the owners groups participants in the Technical Specification Task Force (TSTF) and is designated TSTF-422. TSTF-422 can be viewed on the NRC's Web page at <http://www.nrc.gov/reactors/operating/licensing/techspecs.html>.

#### Applicability

This proposal to modify TS requirements by the adoption of TSTF-422 is applicable to all licensees of CE plants who have adopted or will adopt, in conjunction with the proposed change, TS requirements for a Bases control program consistent with the TS Bases Control Program described in Section 5.5 of the applicable vendor's STS, and commit to WCAP-16364-NP, Rev [0], "Implementation Guidance for Risk Informed Modification to Selected Required Action End States at Combustion Engineering NSSS Plants (TSTF-422)."

To efficiently process the incoming license amendment applications, the staff requests that each licensee applying for the changes proposed in TSTF-422 include Bases for the proposed TS consistent with the Bases proposed in TSTF-422. In addition, licensees that have not adopted requirements for a Bases control program by converting to the improved STS or by other means, are requested to include the requirements for a Bases control program consistent with the STS in their application for the proposed change. The need for a Bases control program stems from the need for adequate regulatory control of some key elements of the proposal that are contained in the proposed Bases in TSTF-422. The staff is requesting that the Bases be included with the proposed license amendments in this case because the changes to the TS and the changes to the associated Bases form an integral change to a plant's licensing bases. To ensure that the overall change, including the Bases, includes appropriate regulatory controls, the staff plans to condition the issuance of each license amendment on the licensee's incorporation of the changes into the Bases document and on requiring the licensee to control the changes in accordance with the Bases Control Program. The CLIIP does not prevent licensees from requesting an alternative approach or proposing the changes without the requested Bases and Bases control program. However, deviations from the approach recommended in this notice may require additional review by

the NRC staff and may increase the time and resources needed for the review.

#### Public Notices

This notice requests comments from interested members of the public within 30 days of the date of publication in the **Federal Register**. After evaluating the comments received as a result of this notice, the staff will either reconsider the proposed change or announce the availability of the change in a subsequent notice (perhaps with some changes to the safety evaluation or the proposed NSHC determination as a result of public comments). If the staff announces the availability of the change, licensees wishing to adopt the change must submit an application in accordance with applicable rules and other regulatory requirements. For each application, the staff will publish a notice of consideration of issuance of amendment to facility operating licenses, a proposed NSHC determination, and a notice of opportunity for a hearing. The staff will also publish a notice of issuance of an amendment to operating license to announce the modification of plant required action end state requirements in technical specifications.

#### Proposed Safety Evaluation

*U.S. Nuclear Regulatory Commission, Office of Nuclear Reactor Regulation, Consolidated Line Item Improvement, Technical Specification Task Force (TSTF) Change TSTF-422, Risk Informed Modifications to Selected Required Action End States*

#### 1.0 Introduction

On January 23, 2003, the Nuclear Energy Institute (NEI) Risk Informed Technical Specifications Task Force (RITSTF) submitted a proposed change, TSTF-422, Revision 1, to the Combustion Engineering (CE) standard technical specifications (STS) (NUREG-1432) on behalf of the industry. TSTF-422, Revision 1, is a proposal to incorporate the Combustion Engineering Owners Group (CEOG) approved Topical Report CE NPSD-1186, Rev. 00, "Technical Justification for the Risk Informed Modification to Selected Required Action End States for CEOG PWRs" (Reference 1), into the CE STS (Note: The proposed changes are made with respect to STS, Rev. 3, unless otherwise stated). This proposal is one of the industry's initiatives being developed under the Risk Management Technical Specifications (RMTS) program. These initiatives are intended to maintain or improve safety through the incorporation of risk assessment and management techniques in technical

specifications (TS), while reducing unnecessary burden and making technical specification requirements consistent with the Commission's other risk-informed regulatory requirements, in particular the maintenance rule.

The Code of Federal Regulations, 10 CFR 50.36(c)(2)(i), "Technical Specifications; Limiting Conditions for Operation," states: "When a limiting condition for operation of a nuclear reactor is not met, the licensee shall shut down the reactor or follow any remedial action permitted by the technical specifications until the condition can be met." TS provide a completion time (CT) for the plant to meet the limiting condition for operation (LCO). If the LCO or the remedial action cannot be met, then the reactor is required to be shutdown. When the individual plant technical specifications were written, the shutdown condition or end state specified was usually cold shutdown.

Topical Report CE NPSD-1186 provides the technical basis to change certain required end states when the TS CTs for remaining in power operation are exceeded. Most of the requested TS changes are to permit an end state of hot shutdown (Mode 4) rather than an end state of cold shutdown (Mode 5) contained in the current TS. The request was limited to: (1) Those end states where entry into the shutdown mode is for a short interval, (2) entry is initiated by inoperability of a single train of equipment or a restriction on a plant operational parameter, unless otherwise stated in the applicable TS, and (3) the primary purpose is to correct the initiating condition and return to power operation as soon as is practical.

The TS for CE plants define six operational modes. In general, they are:

- Mode 1—Power Operation.
- Mode 2—Reactor Startup.
- Mode 3—Hot Standby. Reactor coolant system (RCS) temperature above ~300°F (TS specific) and RCS pressure that can range up to power operation pressure. Shutdown cooling (SDC) systems can sometimes be operated in the lower range of Mode 3 temperature and pressure.
- Mode 4—Hot Shutdown. RCS temperature can range from the lower value of Mode 3 to the upper value of Mode 5. Pressure is generally (but not always) low enough for SDC system operation.
- Mode 5—Cold Shutdown. RCS temperature is below 200°F and RCS pressure is consistent with operation of the SDC system.
- Mode 6—Refueling. Operation is in Mode 6 if one or more reactor vessel head bolts have been de-tensioned. RCS

temperature is below 200°F and RCS pressure is generally equal to containment pressure.

Criticality is not allowed in Modes 3 through 6, inclusive.

The CEOG request generally is to allow a Mode 4 end state rather than a Mode 5 end state for selected initiating conditions.

## 2.0 Regulatory Evaluation

In 10 CFR 50.36, the Commission established its regulatory requirements related to the content of TS. Pursuant to 10 CFR 50.36(c)(1)–(5), TS are required to include items in the following five specific categories related to station operation: (1) Safety limits, limiting safety system settings, and limiting control settings; (2) limiting conditions for operation (LCOs); (3) surveillance requirements (SRs); (4) design features; and (5) administrative controls. The rule does not specify the particular requirements to be included in a plant's TS. As stated in 10 CFR 50.36(c)(2)(i), the "Limiting conditions for operation are the lowest functional capability or performance levels of equipment required for safe operation of the facility. When a limiting condition for operation of a nuclear reactor is not met, the licensee shall shut down the reactor or follow any remedial action permitted by the technical specifications \* \* \*."

The Reference 1 request states: "preventing plant challenges during shutdown conditions has been, and continues to be, an important aspect of ensuring safe operation of the plant. Past events demonstrate that risk of core damage associated with entry into, and operation in, shutdown cooling is not negligible and should be considered when a plant is required to shutdown. Therefore, the TS should encourage plant operation in the steam generator heat removal mode whenever practical, and require SDC entry only when it is a risk beneficial alternative to other actions."

Controlling shutdown risk encompasses control of conditions that can cause potential initiating events and response to those initiating events that do occur. Initiating events are a function of equipment malfunctions and human error. Response to events is a function of plant sensitivity, ongoing activities, human error, defense-in-depth, and additional equipment malfunctions. In the end state changes under consideration here, a component or train has generally resulted in a failure to meet a TS and a controlled shutdown has begun because a TS CT requirement is not met.

Most of today's shutdown TS and the design basis analyses were developed

under the perception that putting a plant in cold shutdown would result in the safest condition and the design basis analyses would bound credible shutdown accidents. In the late 1980s and early 1990s, the NRC and licensees recognized that this perception was incorrect and took corrective actions to improve shutdown operation. At the same time, standard TS were developed and many licensees improved their TS. Since a shutdown rule was expected, almost all TS changes involving power operation, including a revised end state requirement were postponed in anticipation of enactment of a shutdown rule (see, for example, Reference 2). However, in the mid 1990s, the Commission decided a shutdown rule was not necessary in light of industry improvements.

In practice, the realistic needs during shutdown operation are often addressed via voluntary actions and application of 10 CFR 50.65 (Reference 3), the maintenance rule. Section 50.65(a)(4) states: "Before performing maintenance activities \* \* \* the licensee shall assess and manage the increase in risk that may result from the proposed maintenance activities. The scope of the assessment may be limited to structures, systems, and components that a risk-informed evaluation process has shown to be significant to public health and safety." Regulatory Guide (RG) 1.182 (Reference 4) provides guidance on implementing the provisions of 10 CFR 50.65(a)(4) by endorsing the revised Section 11 (published separately) to NUMARC 93-01, Revision 2 (Reference 5). The revised section 11 of NUMARC 93-01, Revision 2, was subsequently incorporated into Revision 3 of NUMARC 93-01. However, Revision 3 has not yet been formally endorsed by the NRC.

## 3.0 Technical Evaluation

The changes proposed in TSTF-422 are consistent with the changes proposed and justified in Topical Report CE NPSD-1186, and approved by the associated SE of July 17, 2001 (Reference 6). The evaluation included in Reference 6, as appropriate and applicable to the changes of TSTF-422 (Reference 7), is reiterated here and differences from the SE (Reference 6) are justified. [NOTE: Licensees must commit to WCAP-16364-NP, Rev [0], "Implementation Guidance for Risk Informed Modification to Selected Required Action End States at Combustion Engineering NSSS Plants (TSTF-422)," (Reference 8) addressing a variety issues such as considerations and compensatory actions for risk significant plant configurations.] An

overview of the generic evaluation and associated risk assessment will be provided, along with a summary of the associated TS changes justified by the SE (Reference 6).

### 3.1 Risk Assessment

The objective of the risk assessment in Topical Report CE NPSD-1186 was to show that the risk changes due to changes in TS end states are either negative (i.e., a net decrease in risk) or neutral (i.e., no risk change).

Topical Report CE NPSD-1186 documents a risk-informed analysis of the proposed TS changes. Probabilistic risk analysis (PRA) results and insights are used, in combination with results of deterministic assessments, to identify and propose changes in end states for all CE plants. This is consistent with guidance provided in RG 1.174, "An Approach for Using Probabilistic Risk Assessment in Risk-Informed Decisions on Plant-Specific Changes to the Licensing Basis," (Reference 9), and RG 1.177, "An Approach for Plant-Specific, Risk-Informed Decisionmaking: Technical Specifications," (Reference 10). The three-tiered approach documented in RG 1.177 was followed. The first tier includes the assessment of the risk impact of the proposed change for comparison to acceptance guidelines consistent with the Commission's Safety Goal Policy Statement (RG 1.174). In addition, the first tier aims at ensuring that there are no time intervals associated with the implementation of the proposed TS end state changes during which there is an increase in the probability of core damage or large early release with respect to the current end states. The second tier addresses the need to preclude potentially high-risk configurations which could result if equipment is taken out of service during implementation of the proposed TS change. The third tier addresses the application of 10 CFR 50.65(a)(4) for identifying risk-significant configurations resulting from maintenance or other operational activities and taking appropriate compensatory measures to avoid such configurations. The scope of the topical report and the associated SE were limited to identifying changes in end state conditions that excluded continued power operation as an acceptable end state, regardless of the risk.

CEOG's risk assessment approach was found comprehensive and acceptable. In addition, the analyses show that the criteria of the three-tiered approach for allowing TS changes are met as explained below:

- *Risk Impact of the Proposed Change (Tier 1).* The risk changes associated with the proposed TS changes, in terms of mean yearly increases in core damage frequency (CDF) and large early release frequency (LERF), are risk neutral or risk beneficial. In addition, there are no time intervals associated with the implementation of the proposed TS end state changes during which there is an increase in the probability of core damage or large early release with respect to the current end states.

- *Avoidance of Risk-Significant Configurations (Tier 2).* The need for some restrictions and enhanced guidance was determined by the specific TS assessments, documented in WCAP-16364-NP, Rev. 0, "Implementation Guidance for Risk Informed Modification to Selected Required Action End States at Combustion Engineering NSSS Plants (TSTF-422)," (Reference 8). These restrictions and guidance are intended to (1) preclude preventive maintenance and operational activities on risk-significant equipment combinations, and (2) identify actions to exit expeditiously a risk-significant configuration should it occur. The licensees are expected to commit to following the implementation guidance in Reference 8. The staff finds that the proposed restrictions and guidance are adequate for preventing risk-significant plant configurations.

- *Configuration Risk Management (Tier 3).* These are programs in place to comply with 10 CFR 50.65(a)(4) to assess and manage the risk from proposed maintenance activities. These programs can support licensee decisionmaking regarding the appropriate actions to control risk whenever a risk-informed TS is entered.

### 3.2 Assessment of TS Changes

The changes proposed in TSTF-422 are consistent with the changes proposed in topical report CE NPSD-1186 and approved by the NRC SE of July 17, 2001. Only those changes proposed in TSTF-422 are addressed in this SE. The SE information and justifications are not duplicated in this document; see ML011980047 in ADAMS for the topical report SE (Reference 6). The SE and associated topical report address the entire fleet of CE plants, and the plants adopting TSTF-422 must confirm the applicability of the changes to their plant. Following are the proposed changes, including a synopsis of the STS LCO, the change, and a brief conclusion of acceptability.

#### 3.2.1 TS 3.5.4—Refueling Water Storage Tank (RWST)

The RWST is a source of borated water for the ECCS.

*LCO:* The RWST shall be operable in Modes 1, 2, 3, and 4.

*Condition Requiring Entry into End State:* When the RWST is inoperable in Modes 1, 2, 3, and 4 due to boron concentration not being within limits and not corrected within 8 hours.

*Proposed Modification for End State Required Actions:* Modify action statement to allow for Mode 3 or Mode 4 end state when boron concentration is outside of the operating band for a period greater than 8 hours and create a new action (e.g., 3.5.4.D.2) to maintain the current end state for other inoperabilities than boron concentration out of limits.

*Assessment:* The requested change is unlikely to have a significant impact on safety because deviations are likely to be small. Most of the need for a large volume of water from the RWST in Mode 3 is due to low probability events such as loss-of-coolant-accident (LOCA), and avoiding equipment transitions associated with some mode changes, and thereby avoiding risk associated with those changes.

#### 3.2.2 TS 3.3.6—ESFAS Logic and Manual Trip—(Digital)

The engineered safety feature actuation system (ESFAS) provides an automatic actuation of the ESFs which are required for accident mitigation. A set of two manual trip circuits is also provided, which uses the actuation logic and initiation logic circuits to perform the trip function.

*LCO:* Six channels of ESFAS matrix logic, four channels of ESFAS initiation logic, two channels of actuation logic and two channels of manual trip shall be operable for the safety injection actuation signal (SIAS), containment isolation actuation signal (CIAS), containment cooling actuation signal (CCAS), recirculation actuation signal (RAS), containment spray actuation signal (CSAS), main steam isolation signal, and emergency feedwater actuation system EFAS-1 and EFAS-2. The LCO is applicable in Modes 1, 2, and 3 for all functions for all components and in Mode 4 for initiation logic, actuation logic, and manual trip for SIAS, CIAS, CCAS, and RAS. (The specific applicability of CCAS or equivalent systems (e.g., CSAS) may vary among utilities.)

*Condition Requiring Entry into End State:* Condition F of the TS is entered when:

1. One manual trip circuit, initiating logic circuit, or actuation logic circuit is

inoperable for RAS, SIAS, CIAS, or CCAS, for more than 48 hours (Conditions A, B & D), or,

2. Two initiating logic circuits in the same trip leg for RAS, SIAS, CIAS, or CCAS are inoperable for more than 48 hours (Condition C).

*Proposed Modification for End State Required Actions:* Modify the Mode 5 end state required action to allow component repair in Mode 4 of all functions of the CCAS and RAS initiation/logic function of the SIAS and CIAS. Entry into Mode 4 is proposed at 12 hours. No change was requested for TS 3.5.3, ECCS-shutdown.

*Assessment:* The primary objective of the ESFAS logic and manual trip in Mode 4 is to provide a SIAS to the operable HPSI train and CIAS to ensure containment isolation. For TS 3.5.3, ECCS-Shutdown, to be met, the manual trip and actuation logic associated with that train of HPSI must be available in Mode 4. No other Mode 4 restrictions are required. By including the actuation logic in Mode 4, the effort in establishing HPSI following a LOCA or other inventory loss event is minimized. Similarly, by requiring one CIAS manual trip and actuation relay group to be operable, the plant operating staff does not have to operate every containment penetration manually following an event that may lead to radiation releases to the containment.

In general, the CCAS is used to automatically actuate the containment heat removal systems (containment recirculation fan coolers) to prevent containment overpressurization during a range of accidents which release inventory to the containment, including large break LOCAs, small break LOCAs, or main steam line breaks or feedwater line breaks inside containment. This signal is typically actuated by high containment pressure. Based on the lower stored energy in the RCS and lesser core heat generation, short term containment pressure following a LOCA or main steam line break would be less than the current design containment strength. Ample instrumentation is available to the operator to diagnose the onset of the event and to take appropriate mitigating actions (actuation of the containment fan coolers and/or sprays) prior to a potential containment threat.

Following a LOCA, the RAS is used to automatically perform the switchover from the SI mode of heat removal to the sump recirculation mode of heat removal. RAS times in Mode 4 are expected to be longer than those associated with Mode 1 and available instrumentation is sufficient to alert the operator to the need for switchover.

Since the SIAS and CIAS signals perform numerous actions, manual trip and actuation for these signals should be retained in Mode 4. In particular, the operability of a single train of HPSI is required in Mode 4. Therefore, the associated actuation circuit and manual trip circuit for SIAS should be maintained available so that automatic lineup of HPSI can be established following a LOCA. Both isolation valves in the appropriate containment penetrations are required to be operable during Mode 4. However, the large number of actions required to isolate these penetrations, given an event, indicates that an extended unavailability of CIAS is not desired. We conclude from a comparison of plant conditions, event response, and risk characteristics, including the discussions of Sections 3 and 4 of Reference 6, that there is no net benefit from requiring a Mode 5 end state as opposed to a Mode 4 end state.

### 3.2.3 TS 3.3.8—(Digital) Containment Purge Isolation Signal

The containment purge isolation signal (CPIS) provides automatic or manual isolation of any open containment purge valves upon indication of high containment airborne radiation.

*LCO:* One CPIS channel shall be operable in Modes 1, 2, 3, and 4, during core alterations, and during movement of irradiated fuel assemblies within containment.

*Condition Requiring Entry into End State:* CPIS (manual trip actuation logic), or one or more required channels of radiation monitors is inoperable and the required actions associated with the TS allowed outage time (AOT) or completion time (CT) have not been met.

*Proposed Modification for End State Required Actions:* Modify Mode 5 end state required action to allow component repair in Mode 4. Entry time into Mode 4 is proposed at 12 hours.

*Assessment:* TS for Modes 1 through 4 allow plant operation with the containment mini-purge valves open. Following an accident, unavailability of the CPIS in Mode 4 would prevent automatic containment purge isolation. Without automatic isolation, the operator must manually isolate the containment purge. Since Mode 4 core damage events will evolve more slowly than similar events at Mode 1, the operator has adequate time and plant indications to identify and respond to an emergent core damage event and secure the containment purge.

The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4

of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDC system.

The CEOG recommended and provided implementation guidance stating that, when the CPIS is disabled, the operating staff should be alerted and operation of the containment mini-purge should be restricted. It further recommended consideration should be given to maintaining availability of CIAS during the CPIS Mode 4 repair. The staff endorses these recommendations. In addition, licensees must commit to the implementation guidance contained in Reference 8.

### 3.2.4 TS 3.3.8 (Analog) and TS 3.3.9—(Digital), Control Room Isolation Signal

The control room isolation signal (CRIS) initiates actuation of the emergency radiation protection system and terminates the normal supply of outside air to the control room to minimize operator radiation exposure.

*LCO:* One channel of CRIS shall be operable. The channel consists of manual trip, actuation logic, and radiation monitors for iodine/particulates and gases.

*Condition Requiring Entry into End State:* Both channels of CRIS are inoperable (and one control room emergency air cleanup system train is not realigned to the emergency mode within one hour). A channel consists of actuation logic, manual trip, and particulate/iodine and gaseous radiation monitors.

*Proposed Modification for End State Required Actions:* It is proposed that the existing TS be modified to change the Mode 5 end state required action to allow component repair in Mode 4. Entry time into Mode 4 is 12 hours.

*Assessment:* The CRIS includes two independent, redundant subsystems, including actuation trains. Control room isolation also occurs on a SIAS. The CRIS functions must be operable in Modes 1, 2, 3, and 4 [5, 6], [during core alterations], and during movement of irradiated fuel assemblies to ensure a habitable environment for the control room operators.

This system responds to radiation releases from fuel. Adequate in-plant radiation sensors (for example, containment high area radiation monitors (CHARMs)) are available to identify the need for control room (CR) isolation or shield building filtration (if appropriate). In Mode 4, the transient

will unfold more slowly than at power. Therefore sufficient time exists for the operator to take manual action to realign the control room emergency air cleanup system (CREACUS). The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions, including this condition. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDC system.

The CEOG recommended and provided implementation guidance stating that it would be prudent to minimize unavailability of SIAS and alternate shutdown panel and/or remote shutdown capabilities during Mode 4 operation with CRIS unavailable. The staff agrees. In addition, licensees must commit to the implementation guidance contained in Reference 10.

### 3.2.5 TS 3.3.9—(Analog) Chemical Volume Control Isolation Signal

The chemical volume control system (CVCS) isolation signal provides protection from radioactive contamination, as well as personnel and equipment protection in the event of a letdown line rupture outside containment.

*LCO:* Four channels of west penetration room/letdown heat exchanger room pressure sensing and two actuation logic channels shall be operable.

*Condition Requiring Entry into End State:* The Mode 5 end state entry (Condition D) is required when:

1. One actuation logic channel is inoperable, or
2. One CVCS isolation instrument channel is inoperable for a time period in excess of the plant AOT/CT (48 hours).

*Proposed Modification for End State Required Actions:* Modify Condition D of TS to accommodate a Mode 4 end state when the required actions are not completed in the specified time.

*Assessment:* Transition to lower temperature states requires the CVCS. Thus, by the time the plant is placed in Mode 4, the system should have successfully operated to borate the RCS. The CEOG stated that, consequently, there is adequate time to identify the need for CVCS isolation and for the operator to terminate letdown and secure charging.

The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to

Mode 5 under many conditions. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDC system.

### 3.2.6 TS 3.3.10 (Analog)—Shield Building Filtration Actuation Signal

The shield building filtration actuation signal (SBFAS) is required to ensure filtration of the air space between the containment and shield building during a LOCA.

*LCO:* Two channels of SBFAS automatic and two channels of manual trip shall be operable.

*Condition Requiring Entry into End State:* Shutdown Condition B of TS 3.3.10 requires transition to Mode 5. This required action is to be taken when one Manual Trip or Actuation Logic channel is inoperable for a time period exceeding the TS AOT/CT (48 hours).

*Proposed Modification for End State Required Actions:* Modify Mode 5 end state required action to allow component repair in Mode 4.

*Assessment:* With one SBFAS channel inoperable, the system may still provide its function via its redundant channel. These systems provide post-accident radiation protection to on-site staff and/or the public. Since these systems respond to radiation releases from fuel, adequate in-plant radiation sensors (such as CHARMs) are available to identify the need for CR isolation or shield building filtration (if appropriate).

The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions, including this condition. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDC system.

### 3.2.7 TS 3.4.6—RCS Loops—Mode 4

An RCS loop consists of a hot leg, SG, crossover pipe between the SG and an RCP, the RCP, and a cold leg. The operational meaning with respect to this TS is that water flows from the reactor vessel into a hot leg, either into a SG or a SDC system where it is cooled, and is returned to the reactor vessel via one or more cold legs. The flow rate must be sufficient to both cool the core and to ensure good boron mixing.

*LCO:* Two loops or trains consisting of any combination of RCS loops and SDC trains shall be operable and at least one

loop or train shall be in operation while in Mode 4.

*Condition Requiring Entry into End State:* Condition B of the STS Revision 1 requires that with one required SDC train inoperable and two required RCS loops inoperable for 24 hours, the plant be maneuvered into Mode 5. Required Action A.2 of STS Revisions 2 and 3 require proceeding to Mode 5 within 24 hours with a required loop inoperable and a SDC loop operable (the STS Revision 1, 2 and 3 situations and results are similar, yet worded differently). The short completion time and the low-temperature end state reflect the importance of maintaining these paths for heat removal.

*Proposed Modification for End State Required Actions:* When RCS loops are unavailable with the inoperability of one train of SDC, but at least one SG heat removal path can be established, modify the TS to change the end state from Mode 5 to Mode 4 with RCS heat removal accomplished via the steam generators.

*Assessment:* This TS requires that two loops or trains consisting of any combination of RCS cooling loops or SDC trains shall be operable and at least one loop or train shall be in operation to provide forced flow in the RCS for decay heat removal and to mix boron. LCO action 3.4.6 addresses the condition when the two SDC trains are inoperable. In that condition, the STS recognizes that Mode 5 SDC operation is not possible and continued Mode 4 operation is allowed until the condition may be exited. Condition B of STS Revision 2 and Required Action A.2 of STS Revision 3 are concerned with the unavailability of forced circulation in two RCS loops and the inoperability of one train of SDC. Upon failure to satisfy the LCO, the current STS drives the plant to Mode 5.

The requested change reflects the risk of Mode 5 operation with one SDC system train inoperable and two RCS loops not in operation. The change will allow heat removal to be achieved in Mode 4 using either SDC or, if available, the steam generators with RCS/core heat removal driven by natural convection flows. Reactivity concerns are addressed by requiring natural circulation prior to RCP restart. Furthermore, as already noted in the STS Bases, if unavailability of RCS loops is due to single SDC train unavailability, staying in a state with minimal reliance on SDC is preferred (Mode 4) due to the diversity in RCS heat removal modes during Mode 4 operation.

### 3.2.8 TS 3.6.2—Containment Air Locks

Containment air locks provide a controlled personnel passage between outside and inside the containment building with two doors/door-seals in series with a small compartment between the doors. When operable, only one door can be opened at a time, thus providing a continuous containment building pressure boundary. The two doors provide redundant closures.

*LCO:* [Two] containment air lock[s] shall be operable in Modes 1, 2, 3, and 4.

*Condition Requiring Entry into End State:* Entry into a Mode 5 end state is required when:

1. One or more containment air locks with one containment air lock door inoperable or,
2. One or more containment air locks with containment air lock interlock mechanism inoperable, or
3. One or more containment air locks inoperable for other reasons, and
4. The required action not completed within the specified AOT/CT.

*Proposed Modification for End State Required Actions:* Modify TS to accommodate Mode 4 end state within the Condition D required Action to shutdown. Mode 4 entry is proposed within 12 hours of expiration of the specified AOT/CT for the conditions that require entry into Mode 4.

*Assessment:* The TS requirements apply to Modes 1, 2, 3, and 4. Containment air locks are not required in Mode 5. The requirements for the containment air locks during Mode 6 are addressed in LCO 3.9.3, "Containment Penetrations."

Operability of the containment air locks is defined to ensure that leakage rates (defined in TS 3.6.1) will not exceed permissible values. These TS are entered when containment leakage is within limits, but some portion of the containment isolation function is impaired. The issue of concern is the appropriate action/end state for extended repair of an inoperable air lock where air lock doors are not functional. Changes to the TS are only requested for conditions when containment leakage is not expected to exceed that allowed in TS 3.6.1. For example, this means that the containment air locks must still be functional under expected conditions during Mode 4 operation.

The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions, including this condition. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because

additional risk benefits are realized by averting the risks associated with the alignment of the SDC system.

### 3.2.9 TS 3.6.3—Containment Isolation Valves

For systems that communicate with the containment atmosphere, two redundant isolation valves are provided for each line that penetrates containment. For systems that do not communicate with the containment atmosphere, at least one isolation valve is provided for each line.

**LCO:** Each containment isolation valve shall be operable in Modes 1, 2, 3, and 4.

**Condition Requiring Entry into End State:** A required action to maneuver the plant into Mode 5 (Condition F) will occur when one or more penetration flow paths exist with one or more containment isolation valves inoperable [except for purge valve leakage and shield building bypass leakage not within limit] and the affected penetration flow path cannot be isolated within the prescribed AOT/CT.

**Proposed Modification for End State Required Actions:** Modify TS to accommodate a Mode 4 end state (within 12 hours) for any penetration having one CIV inoperable.

**Assessment:** Operability of the containment isolation valves ensures that leakage rates will not exceed permissible values. This LCO is entered when containment leakage is within limits but some portion of the containment isolation function is impaired (e.g., one valve in a two valve path inoperable or containment purge valves have leakage in excess of TS limits). The issue of concern in this TS is the appropriate action/end state for extended repair of an inoperable CIV when one CIV in a single line is inoperable. The assessment discussed in paragraph 3.2.8 above, is applicable and will not be repeated.

### 3.2.10 TS 3.6.4—Containment Pressure

**LCO:** Containment pressure shall be controlled within limits during Modes 1, 2, 3, and 4.

**Condition Requiring Entry into End State:** A Mode 5 end state transition is required to be initiated (Condition B) when the containment pressure is not within limits and the condition is not corrected within one hour.

**Proposed Modification for End State Required Actions:** Modify Condition B of TS to accommodate a Mode 4 end state when the required actions are not completed in the specified time. Mode 4 entry is proposed at 12 hours.

**Assessment:** The upper limit on containment pressure in this LCO

results from a containment designed to respond to Mode 1 design basis accidents while remaining well within the structural material elastic response capabilities. This effectively maintains the containment design pressure about a factor of two or more below the minimum containment failure pressure. Consequently, small containment pressure challenges at the design basis pressure have a negligible potential of threatening containment integrity.

The vacuum lower limit on containment pressure is typically set by the plant design basis and ensures the ability of the containment to withstand an inadvertent actuation of the containment spray (CS) system. The lower limit is of particular concern to plants with steel shell containment designs—plants with steel containment control the impact of CS actuation via use of vacuum breakers. Therefore, for plants with steel shell containments, if the lower limit pressure specification is violated, the operators are to confirm operability of the vacuum breakers. For all plants, when entering this action statement for violation of low containment pressure limit for a period projected to exceed one day, one containment spray pump is to be secured. The licensee shall commit to an implementation guide in which these actions will be prescribed. Aspects of the assessment discussed in paragraph 3.2.8 above, are applicable and will not be repeated.

### 3.2.11 TS 3.6.5—Containment Air Temperature

**LCO:** Containment average air temperature shall be  $\leq 120^\circ\text{F}$  in Modes 1, 2, 3, and 4.

**Condition Requiring Entry into End State:** Condition B of this TS requires a Mode 5 shutdown when containment temperature is not within limits and is not corrected within the specified AOT/CT.

**Proposed Modification for End State Required Actions:** Modify condition B of TS to accommodate a Mode 4 end state with a 12 hour entry time.

**Assessment:** The upper limit on containment temperature is based on Mode 1 design basis analyses for containment structures and equipment qualification. The Mode 4 energy release is less than the maximum that could occur in Mode 1 and, consequently, initial Mode 4 post-accident containment temperature will be below the containment temperature limit employed in the plant design basis. Thus, temporary operation outside the bounds of the LCO would not be expected to challenge containment integrity. Aspects of the assessment

discussed in paragraph 3.2.8 above are applicable, and will not be repeated.

### 3.2.12 TS 3.6.6—Containment Cooling Systems

The containment building is typically provided with containment spray and containment cooling trains to control containment conditions following accidents that cause containment pressure or temperature upsets.

**LCO:** Two CS trains and two containment cooling trains shall be operable in Modes 1, 2, [and] [3 and 4]. The time required for Mode 5 entry varies from 30 to 36 hours for one component of the containment cooling system out of service. [For SONGS Units 2 and 3, unavailability of one or more CS train(s) will require the plant to transition to Mode 4 in 84 hours.]

**Condition Requiring Entry into End State:** Condition B requires Mode 5 entry when the affected train is not returned to service within the TS AOT/CT. For SONGS 2 and 3 only, conditions 3.6.6.1 B and 3.6.6.1 F require Mode 4 entry within 84 hours.

**Proposed Modification for End State Required Actions:** Modify condition B and F of TS to accommodate a Mode 4 end state. Entry time requirements are as follows:

| Inoperability             | Required actions |
|---------------------------|------------------|
| CS one train .....        | Mode 4—84 hrs.   |
| Cont. Coolers two trains. | Mode 4—36 hrs.   |

**Assessment:** Containment cooling is required to ensure long term containment integrity. Containment cooling TSs include LCO 3.6.6.—containment spray and cooling systems, LCO 3.6.6A—credit taken for iodine removal by containment spray, and LCO 3.6.6B—credit not taken for iodine removal by containment spray.

The design basis of the CS and cooling systems varies among the CEOG units. Most CEOG plants credit the CS and cooling systems for containment pressure and temperature control and one of the two systems for radioiodine removal. In these plants, typically, one train of CS is sufficient to effect radioiodine control and one train of CS and one train of fan coolers is sufficient to effect containment pressure and temperature control. The Palo Verde units are designed with only the CS system (containing full capacity redundant CS pumps) which it credits for both functions.

Design and operational limits (and consequently the TSs) are established based on Mode 1 analyses. Traditionally, these analyses and limits

are applied to Modes 2, 3, and 4. Mode 1 analyses bound the other modes and confirm the adequacy of the containment cooling system to control containment pressure and temperature following limiting containment pipe breaks occurring at any mode. However, the resulting TS requirements generally become increasingly conservative as the lower temperature shutdown modes are traversed. Plants that do not require containment cooling in Mode 4 include St. Lucie Units 1 and 2 and Palo Verde Units 1, 2 and 3. SONGS Units 2 and 3, ANO 2, and St. Lucie Units 1 and 2 do not require sprays to be operable in Mode 4.

Inability to complete the repair of a single train of cooling equipment in the allotted AOT/CT presently requires transition to Mode 5. This end state transition was based on the expectation of low Mode 5 risks when compared to alternate operating states. As discussed in Sections 3 and 4 of Reference 6, Mode 4 is a robust operating mode when compared to Mode 5. Furthermore, when considering potential Mode 4 containment challenge, the low stored energy and decay heat of the RCS (after 36 or 84 hours) support the proposed use of the containment cooling and radionuclide removal capability. Based on representative plant analyses performed in support of PRA containment success criteria, containment protection may be established via use of a single fan cooler. Qualitatively, a similar conclusion could be drawn for one train of CS. Consequently, in Mode 4, one train of containment coolers or one train of CS should provide adequate heat removal capability. Furthermore, for plants that credit CS for iodine removal, accidents initiated in Mode 4 should be adequately mitigated via one operable spray pump. Therefore, 84 hours requested to transition to Mode 4 with one CS train inoperable allows additional time to restore the inoperable CS train and is reasonable when considering the relatively low driving force for a release of radioactive material from the RCS. Further, the CEOG states that the requested 36 hours to transition to Mode 4 with both trains of containment cooling inoperable is reasonable, based on operating experience, to reach the required plant conditions from full power conditions in an orderly manner and without challenging plant systems. It also recognizes that at least one train of CS is available as a backup system.

### 3.2.13 TS 3.6.11—Shield Building

The shield building is a concrete structure that surrounds the primary

containment in some pressurized water reactors (PWRs). Between the primary containment and the shield building inner wall is an annular space that collects containment leakage that may occur following an accident. Following a LOCA, the shield building exhaust air cleanup system establishes a negative pressure in the annulus between the shield building and the steel containment vessel. Filters in the system then control the release of radioactive contaminants to the environment.

*LCO:* In Modes 1, 2, 3, and 4, Condition A provides 24 hours to restore Shield building operability. If the shield building cannot be restored to operable status within the required completion time, the plant must be brought to Mode 5 within 36 hours.

*Condition Requiring Entry into End State:* A Mode 5 end state, in Condition B, is required to be initiated when the shield building is inoperable for more than 24 hours.

*Proposed Modification for End State Required Actions:* Modify Mode 5 end state required action to allow component repair in Mode 4 with a 12 hour Mode 4 entry requirement.

*Assessment:* The LCO considers the limited leakage design of the containment and the probability of an accident occurring during the transition from Mode 1 to Mode 5. The purpose of maintaining shield building operability is to ensure that the release of radioactive material from the primary containment atmosphere is restricted to those leakage paths and associated leakage rates assumed in the accident analysis.

Shield building "leakage" at or near containment design basis levels is not explicitly modeled in the PRA. The PRA implicitly assumes that containment gross integrity must be available. In the Level 2 model, containment leakage is not considered to contribute to large early release even without a shield building. Were accidents to occur in Mode 4, resulting initial containment pressures would be less than the design basis analysis conditions and the shield building would be available to further limit releases. When Condition A of this TS can no longer be met, the plant must be shut down and transitioned to Mode 5.

Inoperability of the shield building during Mode 4 implies leakage rates in excess of permissible values. Containment conditions following a LOCA in Mode 4 may result in containment pressures somewhat higher than in Mode 5, but since containment leakage is controlled via TS 3.6.1, and no major leak paths should be

unisolable, there should be no contribution to an increased LERF.

The requirements stated in the LCO define the performance of the shield building as a fission product barrier. In addition, this TS places restrictions on containment air locks and containment isolation valves. The integrated effect of these TS is intended to ensure that containment leakage is controlled to meet 10 CFR part 100 limits following a maximum hypothetical event initiated from full power.

Accidents initiated from Mode 4 are initially less challenging to the containment than those initiating from Mode 1. Furthermore, by having the plant in a shutdown condition in advance, fission product releases should be reduced. Thus, while leakage restrictions should be maintained in Mode 4, a condition in excess of that allowed in Mode 1, is anticipated to meet overall release requirements and therefore, Mode 4 should be allowed to effect repair of the leak and then return the plant to power operation.

The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions, including this condition. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDCS.

### 3.2.14 TS 3.7.7—Component Cooling Water System<sup>1</sup>

The CCW system provides cooling to critical components in the RCS and also provides heat removal capability for various plant safety systems, both at power and on SDC.

*LCO:* Two CCW trains shall be operable in Modes 1, 2, 3, and 4.

*Condition Requiring Entry into End State:* One CCW train inoperable and not returned in Condition A to service in TS AOT/CT, 72 hours.

*Proposed Modification for End State Required Actions:* Modify Condition B of TS to accommodate a Mode 4 end state with a 12 hour entry requirement, rather than a Mode 5 end state.

*Assessment:* The appropriate actions to be taken in the event of inoperabilities of the CCW system depend on the particular system function being compromised and the existence of backup water supplies.

In the event of a design basis accident, one train of CCW is required to provide the minimum heat removal capability

<sup>1</sup> Terminology for cooling water systems vary between the CEOG plants.

assumed in the safety analysis for systems to which it supplies cooling water. The CCW system provides heat removal capability to the containment fan coolers, CS, and SDC. In addition, CCW provides cooling to the reactor coolant pumps. Other safety components may be cooled via CCW component flow paths. From an end state perspective, upon loss of part of the CCW, the plant should normally transition to a state where reliance on the CCW system is least significant. For San Onofre Units 2 and 3, loss of one CCW train will degrade the plant's capability to remove heat via the affected SDC heat exchanger. Thus, once on SDC, an unrecovered failure of the second CCW train means no SDC system will remove decay heat and alternate methods, such as returning to SG cooling, must be used to prevent core damage. Provided component cooling is available to the RCPs, a Mode 4 end state with the RCS on SG heat removal is usually preferred to the Mode 5 end state on SDC heat removal, in part for this reason. The risk of plant operation in Mode 4 on SG cooling may be less than for Mode 5 because the transient risks associated with valve misalignments and malfunctions may be averted by avoiding SDC entry.

For conditions where CCW flow is lost to the RCP seals, reactor shutdown is required and the RCS loops operating TS is entered. Limited duration natural circulation operation is acceptable, but extended plant operation in the higher Mode 4 temperatures may degrade RCP seal elastomers. Mode 5 operation ensures adequately low RCS temperatures so that RCP seal challenges would be avoided. Therefore, use of the modified Mode 4 end state may not always be appropriate. Prior to entry into Mode 5 due to loss of CCW to RCP seals, the redundant CCW train should be confirmed to be operable and backup cooling water systems should be confirmed for emergency use. SG inventory should be retained to assure a diverse and redundant heat removal source if CCW should fail. The licensee shall commit to an implementation guide in which compensatory actions will be contained.

### 3.2.15 TS 3.7.8—Service Water System/Salt Water Cooling System/Essential Spray Pond System/Auxiliary Component Cooling Water<sup>2</sup>

This TS covers systems that provide a heat sink for the removal of process heat and operating heat from the safety-related components during a transient

<sup>2</sup> Terminology for cooling water systems vary between the CEOG plants.

or design basis accident. This discussion is based on the SONGS 2 and 3 designation of the SWC system.

**LCO:** Two SWC trains shall be operable in Modes 1, 2, 3, and 4.

**Condition Requiring Entry into End State:** One SWC train inoperable and not restored to operability in Condition A within TS AOT/CT, 72 hours.

**Proposed Modification for End State Required Actions:** Modify Condition B of TS to accommodate a Mode 4 end state with a 12 hour entry requirement on steam generator heat removal.

**Assessment:** The primary function of the SWC system is to remove heat from the CCW system. In this manner the SWC system also supports the SDC system. In some plants the SWC system or its equivalent provides emergency makeup to the CCW system and may also provide backup supply to the AFWS. For many plants, including San Onofre Units 2 and 3, loss of one SWC system train will degrade the plant's capability to remove heat via the affected SDC heat exchanger. In this case, a Mode 4 end state with the RCS on SG heat removal is preferred to Mode 5 with the RCS on SDC heat removal.

At least one SWC train must be operable to remove decay heat loads following a design basis accident. SWC is also used to provide heat removal during normal operating and shutdown conditions. Two 100 percent trains of SWC are provided, which provides adequate SWC flow assuming the worst single failure.

SWC is required to support SDC when the plant is in Mode 4 on SDC or in Mode 5. Therefore, in conditions in which the other SWC train is inoperable, the one operable SWC train must continue to function. The staff notes much of the CCW discussion in paragraph 3.2.14 above, is also applicable here since long-term loss of SWC is, in effect, loss of CCW.

Operation in Mode 4 with the steam generators available provides a decay heat removal path that is not directly dependent on SWC, although there are some long-term concerns such as RCP seal cooling. Overall, the proposed Mode 4 TS end state generally results in plant conditions where reliance on the SWC system is least significant. The licensee shall commit to an implementation guide in which compensatory actions will be contained.

### 3.2.16 TS 3.7.9—Ultimate Heat Sink<sup>3</sup>

The ultimate heat sink (UHS) system provides a heat sink for the removal of

<sup>3</sup> Calvert Cliffs designates the system as the salt water system; SWC performs the function of the ultimate heat sink at SONGS Units 2 and 3.

process and operating heat from the safety-related components during a transient or design basis accident. In some plants the UHS system provides emergency makeup to the CCW system and may also provide backup supply to the AFW system. For many plants, loss of one UHS system train such as would occur with the loss of a cooling fan tower, as in this TS, will degrade the plant's capability to remove heat via the affected SDC heat exchanger.

**LCO:** The UHS shall be operable in Modes 1, 2, 3, and 4.

**Condition Requiring Entry into End State:** One cooling tower inoperable and not restored to operability in Condition A within TS AOT/CT, 7 days.

**Proposed Modification for End State Required Actions:** Modify Condition B of TS to accommodate a Mode 4 end state with a 12 hour entry requirement.

**Assessment:** In Modes 1, 2, 3, and 4, the UHS system is a normally operating system which is required to support the OPERABILITY of the equipment serviced by the SWS and required to be operable in these modes. In Mode 5, the OPERABILITY requirements of the UHS are determined by the systems it supports.

When the plant is in Mode 5, UHS is required to support shutdown cooling and the one operable cooling tower (in conditions in which the other train is inoperable) must continue to function. Operation in Mode 4 with the steam generators available provides a decay heat removal path that is not dependent on UHS.

The proposed Mode 4 TS end state results in plant conditions where the direct reliance on the UHS system is the least significant. The rationale applicable to paragraph 3.2.15 above, applies to this section as well. Further, we note we addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions, including this condition.

### 3.2.17 TS 3.7.10—Emergency Chilled Water System

The emergency chilled water (ECW) system provides a heat sink for the removal of process and operating heat from selected safety-related air-handling systems during a transient or accident.

**LCO:** Two ECW trains shall be operable in Modes 1, 2, 3, and 4.

**Condition Requiring Entry into End State:** Mode 5 entry is required when one ECW train is inoperable and not returned to service in Condition A within the TS AOT/CT, 7 days.

**Proposed Modification for End State Required Actions:** Modify Condition B

of TS to accommodate a Mode 4 end state with a 12 hour entry requirement.

**Assessment:** The ECW system is actuated on SIAS and provides water to the heating, ventilation and air conditioning (HVAC) units of the ESF equipment areas (e.g., main control room, electrical equipment room, safety injection pump area). For most plant equipment, ECW is a backup to normal HVAC. For a subset of equipment, only ECW is available, but cooling is provided by both ECW trains.

In Modes 1, 2, 3, and 4, the ECW system is required to be operable when a LOCA or other accident would require ESF operation. Two trains have not been required in Mode 5 because potential heat loads are smaller and the probability of accidents requiring the ECW system has been perceived as low.

Because normal HVAC would be available in all non-loss of 1E bus situations, cooling to most plant equipment would remain available. Should an event occur during Mode 4, the post-accident heat loads would be reduced, potentially allowing more time for manual recovery actions, including alternate ventilation measures. Such measures could include opening doors/vents and/or provision for temporary alternate cooling equipment. Repair of the ECW in Mode 4 poses a low risk of core damage due to the diversity of plant RCS heat removal resources in Mode 4 and the added risks associated with the transition to Mode 5, as discussed in Sections 3 and 4 of Reference 6.

### 3.2.18 TS 3.7.11—Control Room Emergency Air Cleanup System

The CREACUS<sup>4</sup> consists of two independent, redundant trains that recirculate and filter the control room air. Each train consists of a prefilter and demisters<sup>5</sup>, a high efficiency particulate air (HEPA) filter, an activated charcoal adsorber section for removal of gaseous activity (principally iodine), and a fan. Ductwork, valves or dampers, and instrumentation also form part of the system, as do demisters that remove water droplets from the air stream. A second bank of HEPA filters follows the adsorber section to collect carbon fines and to backup the main HEPA filter bank if it fails.

**LCO:** Two CREACUS trains shall be operable in Modes 1, 2, 3, [or] 4 [5 and 6] and [during movement of irradiated fuel assemblies].

**Condition Requiring Entry into End State:** Mode 5 operation is required

<sup>4</sup> Alternate designations include CREACS, CREVAS, CREVS, and CREAFS.

<sup>5</sup> SONGS 2 & 3 do not include a demister as part of CREACUS.

when one CREACUS train is inoperable in Modes 1, 2, 3, or 4 and not returned to service in Condition A within the TS AOT/CT, 7 days.

**Proposed Modification for End State Required Actions:** Modify Condition B of TS to accommodate a Mode 4 end state with entry into Mode 4 in 12 hours.

**Assessment:** The CREACUS provides a protected environment from which operators can control the plant following an uncontrolled release of radioactivity, chemicals, or toxic gas. The current TS requires operability of CREACUS from Mode 1 through 4 to support operator response to a design basis accident. Operability in Mode 5 and 6 may also be required at some plants for chemical and toxic gas concerns and may be required during movement of fuel assemblies. The CREACUS is needed to protect the control room in a wide variety of circumstances. Plant operation in the presence of degraded CREACUS should be based on placing the plant in a state which poses the lowest plant risk.

Outage planning should ensure that the plant staff is aware of the system inoperability, that respiratory units and control room pressurization systems are available, that operational and leakage pathways are properly controlled, and that alternate shutdown panels and local shutdown stations are available. The licensee shall commit to an implementation guide in which compensatory actions will be contained.

The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions, including this condition. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDC system.

### 3.2.19 TS 3.7.12—Control Room Emergency Air Temperature Control System

The control room emergency air temperature control system (CREATCS) provides temperature control following control room isolation. Portions of the CREATCS may also operate during normal operation. The CREATCS consists of two independent, redundant trains that provide cooling and heating of recirculated control room air. Each train consists of heating coils, cooling coils, instrumentation, and controls. A single train of CREATCS will provide the required temperature control to maintain habitable control room

temperatures following a design basis accident.

**LCO:** Two CREATCS trains shall be operable in Modes 1, 2, 3, and 4, and during movement of irradiated fuel assemblies.

**Condition Requiring Entry into End State:** One CREATCS train inoperable and the Condition A required action and the associated completion time of 30 days not met in Mode 1, 2, 3, or 4.

**Proposed Modification for End State Required Actions:** Modify Mode 5 end state required action to allow component repair in Mode 4, and Mode 4 must be entered in 12 hours.

**Assessment:** CREATCS is required to ensure continued control room habitability and ensure that control room temperature will not exceed equipment operability requirements following isolation of the control room. We addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 above, and concluded there is essentially no benefit in moving to Mode 5 under many conditions. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDSCS. In this case, there is little impact on risk associated with unavailable CREATCS and the impact is reduced further if the alternate shutdown panel or local plant shutdown and control capability are available. Consequently, for longer outages, licensees should ensure availability of the alternate shutdown panel or local plant shutdown and control capability. The licensee shall commit to an implementation guide in which compensatory actions will be contained.

### 3.2.20 TS 3.7.13—ECCS Pump Room Exhaust Air Cleanup System and ESF Pump Room Exhaust and Cleanup System

The ECCS pump room exhaust air cleanup system (ECCS PREACS) and the ESF pump room exhaust air cleanup system (ESF PREACS) filters air from the area of active ESF components during the recirculation phase of a LOCA. This protects the public from radiological exposure resulting from auxiliary building leaks in the ECCS system. The ECCS PREACS consists of two independent, redundant equipment trains. A single train will maintain room temperature within acceptable limits.

**LCO:** Two ECCS PREACS trains shall be operable in Modes 1, 2, 3, and 4.

**Condition Requiring Entry into End State:** One or two ECCS PREACS trains inoperable and Conditions A and B required actions and associated

completion times of 7 days and 24 hours, receptively, not met in Modes 1, 2, 3, or 4.

*Proposed Modification for End State Required Actions:* Modify Mode 5 end state required action in Condition C to allow component repair in Mode 4. The time for initial entry into Mode 4 is 12 hours.

*Assessment:* The CEOG bounded the short term need for the PREACS by assuming: (1) the frequency of Mode 4 LOCAs requiring recirculation is bounded by 0.0001 per year, (2) the probability of a significant leak into the ECCS pump room is about 0.1, and (3) the probability that the backup system is unavailable is 0.1. Then, the probability that the system will be needed over a given repair interval (assumed at 7 days or 0.0192 years) becomes  $0.0001 \times 0.10 \times 0.10 \times 0.0192 = 1.92 \times 10^{-8}$ . The CEOG failed to address potential operator errors, as discussed in Section 3 of Reference 6, in arriving at this estimate. However, the bounding nature of the CEOG estimate and the sensitivity study discussed in Section 4, above, appear to be sufficient that this failure will not significantly influence the conclusion. For the licensee to have the condition which allows 24 hours to restore the ECCS pump room boundary when two ECCS PREACS trains are inoperable, they would have already had to commit to compensatory and preplanned measures to protect control room operators from potential hazards such as radioactive contamination, toxic chemicals, smoke, temperature and relative humidity, and physical security. Consequently, we conclude that this is a reasonable assessment.

The PREACS is a post-accident mitigation system that is expected to have little or no impact on CDF. The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDCS.

### 3.2.21 TS 3.7.15—Penetration Room Emergency Air Cleanup System

The penetration room emergency air cleanup system filters air from the penetration area between the containment and the auxiliary building. It consists of two independent, redundant trains. Each train consists of a heater, demister or prefilter, HEPA filter, activated charcoal absorber, and a

fan. The penetration room emergency air cleanup system's purpose is to protect the public from radiological exposure resulting from containment leakage through penetrations.

*LCO:* Two PREACS trains shall be operable in Modes 1, 2, 3, and 4. Inability to return one or two PREACS to service in the allotted AOT/CT requires plant shutdown to Mode 5 in 36 hours, in Condition C.

*Condition Requiring Entry into End State:* One or two penetration room emergency air cleanup system trains inoperable and required Action and associated completion time of Conditions A or B, 7 days or 24 hours respectively, not met in Modes 1, 2, 3, or 4.

*Proposed Modification for End State Required Actions:* Modify Mode 5 end state required action to allow component repair in Mode 4. Mode 4 entry is proposed to be in 12 hours.

*Assessment:* The need for the penetration room emergency air cleanup system is of particular importance following a severe accident with high levels of airborne radionuclides. These events are of low probability. (For example, for Mode 1, the plant core damage frequency is on the order of  $2 \times 10^{-5}$  to  $1 \times 10^{-4}$  per year). The CEOG estimated the short term need for the PREACS by assuming: (1) the frequency of Mode 4 core damage events is on the order of  $5 \times 10^{-5}$  per year, and (2) the probability that the backup system is unavailable is  $1 \times 10^{-2}$ . Then, the probability that the system will be needed over a given repair interval (assumed at 7 days or  $1.92 \times 10^{-2}$  years) becomes  $5 \times 10^{-5} \times 0.01 \times 0.0192 \sim 1 \times 10^{-8}$ .

The penetration room emergency cleanup system is an accident mitigation system and it has little to no impact on the likelihood of core damage. The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions, including this condition. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDC system. For the licensee to have the condition which allows 24 hours to restore the penetration room boundary when two PREACS trains are inoperable, they would have already had to commit to compensatory and preplanned measures to protect control room operators from potential hazards such as radioactive contamination, toxic chemicals, smoke, temperature and relative humidity, and

physical security. Consequently, we conclude that this is a reasonable assessment.

### 3.2.22 TS 3.8.1—AC Sources—Operating

The unit Class 1E electrical power distribution system AC sources consist of the offsite power sources (preferred power sources, normal and alternate(s)), and the onsite standby power sources (Train A and Train B emergency diesel generators). In addition, many sites, including SONGS Units 2 and 3 and St. Lucie Units 1 and 2, provide a cross-tie capability between units. Palo Verde provides alternate AC power capability via an onsite combustion turbine-generator.

As required by General Design Criterion (GDC) 17 of 10 CFR part 50, appendix A, the design of the AC electrical power system provides independence and redundancy. The onsite Class 1E AC distribution system is divided into redundant load groups (trains) so that the loss of any one group does not prevent the minimum safety functions from being performed. Each train has connections to two preferred offsite power sources and a single diesel generator. Offsite power is supplied to the unit switchyard(s) from the transmission network by two transmission lines.<sup>6</sup> From the switchyard(s), two electrically and physically separated circuits provide AC power, through step down station auxiliary transformers, to the 4.16 kV ESF buses.

Certain loads required for accident mitigation are started in a predetermined sequence in order to prevent overloading the transformer supplying offsite power to the onsite Class 1E distribution system. Within 1 minute after the initiating signal is received, all automatic and permanently connected loads needed to recover the unit or maintain it in a safe condition are started via the load sequencer.

In the event of a loss of power, the ESF electrical loads are automatically connected to the emergency diesel generators (EDGs) in sufficient time to provide for safe reactor shutdown and to mitigate the consequences of a design basis accident (DBA) such as a LOCA.

*LCO:* The following AC electrical sources shall be operable in Modes 1, 2, 3, and 4:

1. Two qualified circuits between the offsite transmission network and the

<sup>6</sup> An offsite circuit consists of all breakers, transformers, switches, interrupting devices, cabling, and controls required to transmit power from the offsite transmission network to the onsite Class 1E ESF bus or buses.

onsite Class 1E AC electrical power distribution system; [and]

2. Two EDGs each capable of supplying one train of the onsite Class 1E AC electrical power distribution system.

*Condition Requiring Entry into End State:* Plant operators must bring the plant to Mode 5 within 36 hours following the sustained inoperability of either or both required offsite circuits, either or both required EDGs, or one required offsite circuit and one required EDG.

*Proposed Modification for End State Required Actions:* Modify Condition G [Condition F for SONGS] of STS to specify a Mode 4 end state on SG heat removal with a 12 hour entry time.

*Assessment:* Entry into any of the conditions for the AC power sources implies that the AC power sources have been degraded and the single failure protection for ESF equipment may be ineffective. Consequently, as specified by TS 3.8.1, at present the plant operators must bring the plant to Mode 5 when the required action is not completed by the specified time for the associated condition.

During Mode 4 with the steam generators available, plant risk is dominated by a LOOP initiating event. If a LOOP were to occur during degraded AC power system conditions, the number of redundant and diverse means available for removing heat from the RCS may vary, depending upon the cause of the degradation. If the LCO entry resulted from inoperability of both onsite AC sources (i.e., EDGs) followed by LOOP, a station blackout event will occur. For this event, the SG inventory may be sufficient for several hours of RCS cooling without feedwater, and the TDAFW pump, which does not rely on the AC power sources to operate, should be available if needed. Further, there should be time to start any available alternate AC power supplies, such as blackout diesels. For all other LCO entries which do not lead to station blackout following LOOP during Mode 4, feed and bleed (for non 3410 megawatt thermal CE-designed PWRs) capability may also be available for RCS heat removal if the auxiliary feedwater system should fail. If the RCS conditions are such that the steam generators are not available for RCS heat removal during Mode 4, then only the SDC system is available for RCS heat removal for non-station blackout events.

Switchyard activities, other than those necessary to restore power, should be prohibited when AC power sources are degraded. Note that to properly utilize TDAFW pumps the SG pressure should be maintained above the

minimum recommended pressure required to operate the TDAFW. The licensee shall commit to an implementation guide in which compensatory actions will be contained.

The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDC system. In the case of a degraded AC power capability, the likelihood of losing SDC is increased, and the staff judged the plant should be placed in a condition that maximizes the likelihood of avoiding a further plant upset of loss of RCS cooling. This will generally be Mode 4 with SG cooling.

### 3.2.23 TS 3.8.4—DC Sources—Operating

The DC electrical power system:

1. Provides normal and emergency DC electrical power for the AC emergency power system, emergency auxiliaries, and control and switching during all modes of operation,

2. Provides motive and control power to selected safety related equipment, and

3. Provides power to preferred AC vital buses (via inverters).

For CEOG Member PWRs (with the exception of San Onofre, Palo Verde, Calvert Cliffs, and Waterford), the Class 1E, 125-VDC electrical power system consists of two independent and redundant safety-related subsystems. The Class 1E, 125-VDC electrical power system at San Onofre, Palo Verde, and Calvert Cliffs consists of four independent and redundant Class 1E, safety subsystems. At Waterford, there are three Class 1E, 125-VDC independent and redundant safety-related subsystems. Each subsystem consists of one battery, the associated battery charger(s) for each battery, and all the associated control equipment and interconnecting cables.

The 125-VDC loads vary among the CE-designed PWRs. At SONGS for example, Train A and Train B 125-VDC electrical power subsystems provide control power for the 4.16 KV switchgear and 480-V load center AC load groups A and B, diesel generator A and B control systems, and Train A and B control systems, respectively. Train A and Train B DC subsystems also provide DC power to the Train A and Train B inverters, as well as to Train A and Train B DC valve actuators, respectively.

The inverters in turn supply power to the 120-VAC vital buses.

Train C and Train D 125-VDC electrical power subsystems provide power for nuclear steam supply system control power and DC power to Train C and Train D inverters, respectively. The Train C DC subsystem also provides DC power to the TDAFW pump inlet valve HV-4716 and the TDAFW pump electric governor.

During normal operation, the 125-VDC load is powered from the battery chargers with the batteries floating on the system. In case of loss of normal power to the battery charger (which is powered from the safety related 480-VAC source), the DC load is automatically powered from the station batteries.

*LCO:* All of the DC electrical power subsystems are required to be operable during Modes 1, 2, 3, and 4. At SONGS for example, the Train A, Train B, Train C, and Train D DC electrical power subsystems shall be operable in Modes 1, 2, 3, and 4.

*Condition Requiring Entry into End State:* The plant operators must bring the plant to Mode 5 within 36 hours following the sustained inoperability of one DC electrical power subsystem for a period of 2 hours.

*Proposed Modification for End State Required Actions:* Modify Condition B of ISTS to Mode 4, on SG heat removal, end state with a 12 hour entry requirement.

*Assessment:* DC power sources have sufficient capacity for the steady state operation of the connected loads during Modes 1, 2, 3, and 4, while at the same time maintaining the battery banks fully charged. Each battery charger has sufficient capacity to restore the battery to its fully charged state within a specified time period while supplying power to connected loads. The DC sources are required to be operable during Modes 1, 2, 3, and 4 and connected to the associated DC buses. Mode 5 is the current state for not restoring an inoperable DC electrical subsystem to operable status within 2 hours.

If a DC electrical power subsystem is inoperable during Mode 4, plant risk is dominated by LOOP events. Such an event with concurrent failure of the unaffected EDG can progress to a station blackout. These events challenge the capability of the ESF systems to remove heat from the RCS. Entry into Mode 4 as the end state when an inoperable DC electrical power subsystem cannot be restored to operability within 2 hours provides the plant staff with several resources. For station blackout cases with one DC power source continuing to

operate, the TDAFW pump is available for RCS heat removal when steam pressure is adequate. If this pump becomes unavailable, such as if the other DC sources were lost and the TDAFW pump could not be satisfactorily operated locally, the lack of RCS heat removal initiates a boil-down of the steam generator inventory. Boil-off of steam generator inventory and a certain amount of RCS inventory must both occur in order to uncover the core. Under this condition, the plant operators have significant time to accomplish repair and/or recovery of offsite or onsite power. For non-station blackout cases, the remaining train(s) (motor and/or turbine-driven) of auxiliary feedwater are available for RCS heat removal if steam pressure is adequate as long as the remaining DC power source continues to operate. Should the remaining train(s) fail, feed and bleed capability is available for certain CE-designed PWRs to provide RCS heat removal as long as the remaining DC power source continues to operate. Whether or not DC power remains, Mode 4 operation with an inoperable DC power source provides the plant operators with diverse means of RCS heat removal and significant time to perform repairs and recovery before core uncover occurs.

The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions, including those applicable here. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDC system. The licensee shall commit to an implementation guide in which compensatory actions will be contained.

#### 3.2.24 TS 3.8.7—Inverters—Operating

In Modes 1, 2, 3, and 4, the inverters provide the preferred source of power for the 120-VAC vital buses which power the reactor protection system (RPS) and the ESFAS. The inverters are designed to ensure the availability of AC power for the systems instrumentation required to shut down the reactor and maintain it in a safe condition after an anticipated operational occurrence or a postulated design basis accident (DBA). The Class 1E, 125-VDC station batteries via the respective Class 1E, 125-VDC buses provide an uninterruptible source of power for the inverters.

LCO: All of the safety related inverters are required to be operable during Modes 1, 2, 3, and 4. At SONGS for example, the required Train A, Train B,

Train C, and Train D inverters shall be operable in Modes 1, 2, 3, and 4.

*Condition Requiring Entry into End State:* The plant operators must bring the plant to Mode 5 within 36 hours following the sustained inoperability of one required inverter for a period of 24 hours.

*Proposed Modification for End State Required Actions:* Modify Condition B of ISTS to Mode 4 on SG heat removal within a 12 hour entry requirement.

*Assessment:* The inverters are included as four independent and redundant trains. Each inverter provides a dedicated source of uninterruptible power to its associated vital bus. An operable inverter requires the associated vital bus to be powered by the inverter and have output voltage and frequency within the acceptable range. In order to be operable, the inverter must also be powered from the associated station battery. Maintaining the inverters operable ensures that the redundancy incorporated in the design of the RPS and ESFAS is maintained. The inverters provide an uninterruptible source of power, provided the station batteries are operable, to the vital buses even if the 4.16 kV ESF buses are not energized. Entry into the LCO required action implies that the redundancy of the inverters has been degraded.

The inoperability of a single inverter during Mode 4 operation will have little or no impact on plant risk. The inoperable inverter causes a loss of power to the associated bistable channel of the RPS. Since reactor trip will have been accomplished as part of the shutdown prior to reaching Mode 4, loss of one inverter will not impact reactor trip. An inoperable inverter also causes a loss of power to one of the four ESFAS trip paths. This single condition should not impact the ability of the ESFAS to perform its function.

The staff addressed Mode 4 versus Mode 5 operation in Sections 3 and 4 of Reference 6, and concluded there is essentially no benefit in moving to Mode 5 under many conditions. Further, there is a potential benefit to remaining in Mode 4 on SG heat removal because additional risk benefits are realized by averting the risks associated with the alignment of the SDC system.

#### 3.3 Summary and Conclusions

The above requested changes are found acceptable by the staff. The staff approval applies only to operation as described and acceptably justified in the References 1 and 6.<sup>7</sup> To be consistent

<sup>7</sup> The requested end state changes do not preclude licensees from entering cold shutdown should they

with the staff's approval, any licensee requesting to operate in accordance with TSTF-422, as approved in this safety evaluation, should commit to operate in accordance with WCAP-16364-NP, "Implementation Guidance for Risk Informed Modification to Selected Required Action End States at Combustion Engineering NSSS Plants (TSTF-422)," which includes a requirement for the licensee to commit to adhere to the guidance of the revised Section 11 of NUMARC-93-01, Revision 3.

#### 4.0 Verifications and Commitments

In order to efficiently process incoming license amendment applications and ensure consistent implementation of the change by the various licensees, the NRC staff requested each licensee requesting the changes addressed by TSTF-422 using the CLIIP to address the following plant-specific regulatory commitment.

4.1 Each licensee should make a regulatory commitment to follow the implementation guidance of WCAP-16364-NP.

The licensee has made a regulatory commitment to follow the implementation guidance of WCAP-16364-NP.

The NRC staff finds that reasonable controls for the implementation and for subsequent evaluation of proposed changes pertaining to the above regulatory commitment(s) can be provided by the licensee's administrative processes, including its commitment management program. The NRC staff has agreed that NEI 99-04, Revision 0, "Guidelines for Managing NRC Commitment Changes," provides reasonable guidance for the control of regulatory commitments made to the NRC staff (see Regulatory Issue Summary 2000-17, "Managing Regulatory Commitments Made by Power Reactor Licensees to the NRC Staff," dated September 21, 2000). The NRC staff notes that this amendment establishes a voluntary reporting system for the operating data that is similar to the system established for the ROP PI program. Should the licensee choose to incorporate a regulatory commitment into the final safety analysis report or other document with established regulatory controls, the associated regulations would define the appropriate change-control and reporting requirements.

desire to do so for operational needs or maintenance requirements. In such cases, the specific requirements associated with the requested end state changes do not apply.

## 5.0 State Consultation

In accordance with the Commission's regulations, the [ ] State official was notified of the proposed issuance of the amendment. The State official had [(1) no comments or (2) the following comments—with subsequent disposition by the staff].

## 6.0 Environmental Consideration

The amendments change a requirement with respect to the installation or use of a facility component located within the restricted area as defined in 10 CFR part 20 and change surveillance requirements. [For licensees adding a Bases Control Program: The amendment also changes record keeping, reporting, or administrative procedures or requirements.] The NRC staff has determined that the amendments involve no significant increase in the amounts and no significant change in the types of any effluents that may be released offsite, and that there is no significant increase in individual or cumulative occupational radiation exposure. The Commission has previously issued a proposed finding that the amendments involve no significant-hazards-considerations, and there has been no public comment on the finding [FR ]. Accordingly, the amendments meet the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(9) [and (c)(10)]. Pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the issuance of the amendments.

## 7.0 Conclusion

The Commission has concluded, on the basis of the considerations discussed above, that (1) there is reasonable assurance that the health and safety of the public will not be endangered by operation in the proposed manner, (2) such activities will be conducted in compliance with the Commission's regulations, and (3) the issuance of the amendments will not be inimical to the common defense and security or to the health and safety of the public.

## Proposed No Significant Hazards Consideration Determination

*Description of Amendment Request:* A change is proposed to the standard technical specifications (STS) for Combustion Engineering NSSS Plants (NUREG 1432) and plant specific technical specifications (TS), to allow for some systems, entry into hot shutdown rather than cold shutdown to repair equipment, if risk is assessed and managed consistent with the program in place for complying with the requirements of 10 CFR 50.65(a)(4). Changes proposed in TSTF-422 will be made to individual TS for selected Required Action end states providing this allowance.

*Basis for proposed no-significant-hazards-consideration determination:* As required by 10 CFR 50.91(a), an analysis of the issue of no-significant-hazards-consideration is presented below:

### *Criterion 1—The Proposed Change Does Not Involve a Significant Increase in the Probability or Consequences of an Accident Previously Evaluated*

The proposed change allows a change to certain required end states when the TS Completion Times for remaining in power operation are exceeded. Most of the requested technical specification (TS) changes are to permit an end state of hot shutdown (Mode 4) rather than an end state of cold shutdown (Mode 5) contained in the current TS. The request was limited to: (1) Those end states where entry into the shutdown mode is for a short interval, (2) entry is initiated by inoperability of a single train of equipment or a restriction on a plant operational parameter, unless otherwise stated in the applicable technical specification, and (3) the primary purpose is to correct the initiating condition and return to power operation as soon as is practical. Risk insights from both the qualitative and quantitative risk assessments were used in specific TS assessments. Such assessments are documented in Section 5.5 of CE NPSD-1186, Rev 00, "Technical Justification for the Risk-Informed Modification to Selected Required Action End States for CEQG Member PWRs," Final Report, Task 1115, CE Nuclear Power LLC., January 2001. They provide an integrated discussion of deterministic and probabilistic issues, focusing on specific technical specifications, which are used to support the proposed TS end state and associated restrictions. The staff finds that the risk insights support the conclusions of the specific TS assessments. Therefore, the probability of an accident previously evaluated is not significantly increased, if at all. The consequences of an accident after adopting proposed TSTF-422, are no different than the consequences of an accident prior to adopting TSTF-422. Therefore, the consequences of an accident previously evaluated are not significantly affected by this change. The addition of a requirement to assess and manage the risk introduced by this change will further minimize possible concerns. Therefore, this change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

### *Criterion 2—The Proposed Change Does Not Create the Possibility of a New or Different Kind of Accident from any Previously Evaluated*

The proposed change does not involve a physical alteration of the plant (no new or different type of equipment will be installed). Allowing a change to

certain required end states when the TS Completion Times for remaining in power operation are exceeded, *i.e.*, entry into hot shutdown rather than cold shutdown to repair equipment, if risk is assessed and managed, will not introduce new failure modes or effects and will not, in the absence of other unrelated failures, lead to an accident whose consequences exceed the consequences of accidents previously evaluated. The addition of a requirement to assess and manage the risk introduced by this change and the commitment by the licensee to adhere to the guidance in WCAP-16364-NP, Rev[0], "Implementation Guidance for Risk Informed Modification to Selected Required Action End States at Combustion Engineering NSSS Plants (TSTF-422)," will further minimize possible concerns. Thus, this change does not create the possibility of a new or different kind of accident from an accident previously evaluated.

*Criterion 3—The Proposed Change Does Not Involve a Significant Reduction in the Margin of Safety*

The proposed change allows, for some systems, entry into hot shutdown rather than cold shutdown to repair equipment, if risk is assessed and managed. The CEOG's risk assessment approach is comprehensive and follows staff guidance as documented in RGs 1.174 and 1.177. In addition, the analyses show that the criteria of the three-tiered approach for allowing TS changes are met. The risk impact of the proposed TS changes was assessed following the three-tiered approach recommended in RG 1.177. A risk assessment was performed to justify the proposed TS changes. The net change to the margin of safety is insignificant. Therefore, this change does not involve a significant reduction in a margin of safety.

Based upon the reasoning presented above and the previous discussion of the amendment request, the requested change does not involve a significant hazards consideration.

Dated at Rockville, Maryland, this 27th day of April 2005.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

### Notice of Availability of Model Application Concerning Technical Specification Improvement To Modify Requirements Regarding the Addition of Limiting Condition for Operation 3.0.8 on the Inoperability of Snubbers Using the Consolidated Line Item Improvement Process

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of availability.

**SUMMARY:** Notice is hereby given that the staff of the Nuclear Regulatory Commission (NRC) has prepared a model application relating to the modification of requirements regarding the impact of inoperable snubbers not in technical specifications, on supported systems in technical specifications (TS). The purpose of this model is to permit the NRC to efficiently process amendments that propose to modify requirements by adding to the TS a limiting condition for operation (LCO) 3.0.8 that provides a delay time for entering a supported system TS when the inoperability is due solely to an inoperable snubber, if risk is assessed and managed, as generically approved by this notice. Licensees of nuclear power reactors to which the model applies could request amendments utilizing the model application.

**DATES:** The NRC staff issued a **Federal Register Notice** (69 FR 68412, November 24, 2004) which provided a Model Safety Evaluation (SE) relating to modification of requirements regarding the addition<sup>1</sup> to the TS of LCO 3.0.8 on the impact of inoperable snubbers; similarly the NRC staff herein provides a Model Application, including a revised Model Safety Evaluation. The NRC staff can most efficiently consider applications based upon the Model Application, which references the Model Safety Evaluation, if the application is submitted within one year of this **Federal Register** notice.

**FOR FURTHER INFORMATION CONTACT:** Tom Boyce, Mail Stop: O-12H2, Division of Inspection Program Management, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone 301-415-0184.

**SUPPLEMENTARY INFORMATION:**

<sup>1</sup> In conjunction with the proposed change, technical specification (TS) requirements for a Bases Control Program, consistent with the TS-Bases Control Program described in section 5.5 of the applicable vendor's standard TS (STS), shall be incorporated into the licensee's TS, if not already in the TS.

## Background

Regulatory Issue Summary 2000-06, "Consolidated Line Item Improvement Process for Adopting Standard Technical Specifications Changes for Power Reactors," was issued on March 20, 2000. The consolidated line item improvement process (CLIIP) is intended to improve the efficiency of NRC licensing processes. This is accomplished by processing proposed changes to the standard technical specifications (STS) in a manner that supports subsequent license amendment applications. The CLIIP includes an opportunity for the public to comment on proposed changes to the STS following a preliminary assessment by the NRC staff and finding that the change will likely be offered for adoption by licensees. The CLIIP directs the NRC staff to evaluate any comments received for a proposed change to the STS and to either reconsider the change or to proceed with announcing the availability of the change for proposed adoption by licensees. Those licensees opting to apply for the subject change to technical specifications are responsible for reviewing the staff's evaluation, referencing the applicable technical justifications, and providing any necessary plant-specific information. Each amendment application made in response to the notice of availability will be processed and noticed in accordance with applicable rules and NRC procedures.

This notice involves the modification of requirements regarding the addition to the TS of LCO 3.0.8 that provides a delay time for entering a supported system TS when the inoperability is due solely to an inoperable snubber, if risk is assessed and managed. This change was proposed for incorporation into the standard technical specifications by all Owners Groups participants in the Technical Specification Task Force (TSTF) and is designated TSTF-372 Revision 4, which was referenced in the **Federal Register Notice** (FRN) 69 FR 68412, of November 24, 2004, and can both be viewed on the NRC's Web page at <http://www.nrc.gov/reactors/operating/licensing/techspecs.html>.

## Applicability

This proposed change to modify technical specification requirements for the impact of inoperable non-technical specifications in TS is applicable to all licensees who currently have or who will adopt, in conjunction with the proposed change, technical specification requirements for a Bases control program consistent with the

Technical Specifications Bases Control Program described in section 5.5 of the applicable vendor's STS.

To efficiently process the incoming license amendment applications, the staff requests each licensee applying for the changes addressed by TSTF-372 Revision 4 using the CLIP to include the Bases for the proposed technical specifications. In addition, for those licensees that have not adopted requirements for a Bases control program by converting to the improved STS or by other means, the staff requests that you include the requirements for a Bases control program consistent with the STS in your request for the proposed change. The need for a Bases control program stems from the need for adequate regulatory control of some key elements of the proposal that are contained in the proposed Bases for surveillance requirement (SR) 3.0.8. The staff is requesting that the Bases be included with the proposed license amendments because, in this case, the changes to the technical specifications and changes to the associated Bases form an integrated change to a plant's licensing bases. To ensure that the overall change, including the Bases, includes the appropriate regulatory controls, the staff plans to condition the issuance of each license amendment on incorporation of the changes to the Bases document and on ensuring the licensee's TS have a Bases Control Program for controlling changes to the Bases. The CLIP does not prevent licensees from requesting an alternative approach or proposing the changes without the requested Bases and Bases control program. Variations from the approach recommended in this notice may, however, require additional justification, additional review by the NRC staff and may increase the time and resources needed for the review.

#### Public Notices

The staff issued a **Federal Register** Notice (69 FR 68412, November 24, 2004) that requested public comment on the NRC's pending action to approve modification of TS requirements regarding the impact of inoperable non-technical specification snubbers on supported systems in TS. In particular, following an assessment and draft safety evaluation by the NRC staff, the staff sought public comment on proposed changes to the STS, designated as TSTF-372 Revision 4. The TSTF-372 Revision 4 can be viewed on the NRC's Web page at <http://www.nrc.gov/reactors/operating/licensing/techspecs.html>. TSTF-372 Revision 4 may be examined, and/or copied for a fee, at the NRC's Public Document

Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records are accessible electronically from the ADAMS Public Library component on the NRC Web site (the Electronic Reading Room), at <http://www.nrc.gov/reading-rm/adams.html>.

In response to the notice soliciting comments from interested members of the public about modifying the TS requirements regarding the impact of inoperable non-technical specification snubbers on supported systems in TS, the staff received three sets of comments (from licensees and the TSTF Owners Groups, representing licensees). Specific comments on the model SE were offered, and are summarized and discussed below:

1. *Comment:* Performing and documenting the engineering assessment every time LCO 3.0.8 is used is unnecessary as it is unlikely that the design function of the snubbers will change. The Safety Evaluation should be revised to state that when LCO 3.0.8 is used, licensees must confirm that at least one train of each system that is supported by the inoperable snubber(s) would remain capable of performing its required safety or support functions for postulated design loads other than seismic loads.

The evaluation described is not an "operability assessment." In order for LCO 3.0.8 to be needed, the system supported by the snubber to be removed from service would not be considered operable. The phrases "operability assessment" and "engineering assessment" should be replaced as described in the previous bullet.

*Response:* The terms "engineering assessment" and "operability assessment" were used to describe the determination licensees must make, when a snubber is inoperable, that the snubber is seismic or non-seismic in function, the number of trains affected, and that the underlying assumptions of LCO 3.0.8 apply, before invoking LCO 3.0.8. It is recognized that the determination is only required when the inoperable snubber is required to support a system that is required to be operable by a TS, and when that TS is in a mode of applicability. Also, when a train is removed from service for maintenance, the risk assessment for the performance of the maintenance would encompass that for snubbers supporting only equipment on that train. So there are circumstances in which assessments/determinations for inoperable snubbers are not required. In recognition of the variability of the degree of determination required for an inoperable snubber, and the fact that the

term "assessment" has formal procedural connotations, the wording has been changed as suggested, to require that " \* \* \* licensees confirm \* \* \* " and not assess, every time a snubber is inoperable.

2. *Comment:* In [section 3.2] item 1.(e), the Safety Evaluation uses the phrase "perform a risk assessment." This phrase also appears on page 68420 of the **Federal Register** notice, third column, in the No Significant Hazards Consideration (NSHC), Criterion 3 discussion. The proposed Technical Specifications state that "risk must be assessed and managed." Item 1.(e) and the NSHC should be revised to be consistent with the proposed Technical Specifications.

*Response:* The staff agrees. The wording will be changed to be consistent with 10 CFR 50.65(a)(4), which requires the licensee to "assess and manage the increase in risk."

3. *Comment:* Documenting the design functions of the snubber(s) for NRC inspection should not be required. As stated in TSTF-372, the risk assessments will be consistent with those performed to meet the requirements of 10 CFR 50.65(a)(4). It is not required that the risk assessments performed to meet the requirements of 10 CFR 50.65(a)(4) be documented. It would be inconsistent to require documentation of the particular portion of the 10 CFR 50.65(a)(4) risk assessments related to snubbers. In addition, this information exists in the plant's design documentation and it imposes an unnecessary burden on the licensee to record for this particular purpose otherwise generic information.

*Response:* To be consistent with the requirements of 10 CFR 50.65(a)(4), which does not require the documentation discussed in this comment, and in light of the variability of assessments associated with inoperable snubbers (as noted in the response to comment 1 above), the requirement for every evaluation to be documented has been removed. The staff nonetheless considers that it would be prudent in many circumstances for the evaluation to be documented, and that it would also be efficient if licensees were able to refer to prior evaluations. LCO 3.0.8 does not apply to non-seismic snubbers. In addition, a record of the design function of the inoperable snubber (*i.e.*, seismic vs. non-seismic), implementation of any applicable Tier 2 restrictions, and the associated plant configuration shall be available on a recoverable basis for staff inspection.

4. *Comment:* On page 68415 of the **Federal Register** Notice, the third

column, first paragraph, the following statement is made: "Since the licensee controlled testing is done on only a small (about 10%) representative sample of the total snubber population, it is not expected to have more than a few snubbers supporting a given safety system out for testing at a time." The statement "it is not expected to have more than a few snubbers supporting a given safety system out for testing at a time" does not appear in TSTF-372 and is not an assumption of the risk assessment that was performed to support the Traveler. The Traveler risk assessment assumed that the systems affected by removed snubbers are unavailable. Therefore, the number of removed snubbers is irrelevant. The statement implies that plants must impose some undefined limit (*i.e.*, a "few") on the number of snubbers that can be simultaneously removed from a given system. Such a restriction is unnecessary and confusing. It is recommended that the sentence be revised to state, "Since the licensee controlled testing is done on only a small (about 10%) representative sample of the total snubber population, typically only a few snubbers supporting a given safety system are out for testing at a time." This changes the sentence from what could be construed as a requirement to a statement of fact.

*Response:* The staff accepts the use of the phrase, "typically only," as a substitute; the staff considers the phrases equivalent.

5. *Comment:* On page 68419 of the **Federal Register** Notice, the third column, first paragraph prior to Section 4.0. State Consultation, the following statement is made: "Since the 10 CFR 50.65(a)(4) guidance, section 11 of NUMARC 93-01, does not currently address seismic risk, implementation guidance must be developed by licensees adopting this change to ensure that the proposed LCO 3.0.8 is considered in conjunction with other plant maintenance activities and integrated into the existing 10 CFR 50.65(a)(4) process."

A similar statement is made on page 68418 of the **Federal Register** Notice, the third column, the last paragraph of Section 3.1.3. It is not necessary to develop independent "implementation guidance" to ensure that the proposed LCO 3.0.8 is considered in conjunction with other plant maintenance activities and integrated into the existing 10 CFR 50.65(a)(4) process. We recommend that the sentences be revised to state: Since the 10 CFR 50.65(a)(4) guidance, Section 11 of NUMARC 93-01, does not currently address seismic risk, licensees adopting this change must ensure that

the proposed LCO 3.0.8 is considered in conjunction with other plant maintenance activities and integrated into the existing 10 CFR 50.65(a)(4) process.

*Response:* The staff accepts the wording change. In this case the use of the term "implementation guidance" was not intended to convey formal industry guidance. Therefore, to avoid confusion using the words "must ensure" is preferable. Wording has been added in the Safety Evaluation to ensure that seismic risk assessments used to satisfy the 10 CFR 50.65(a)(4) process will be based upon either detailed seismic probabilistic risk assessment (PRA) based evaluations or bounding risk analyses, such as utilized in the assessment included in the Safety Evaluation.

6. *Comment:* On page 68414 of the **Federal Register** Notice, middle column, first paragraph, it is stated that prior to conversion to improved STS, the 72-hour delay time provision that was typically included in the snubber technical specification was applicable only to snubbers found to be inoperable (*i.e.*, emergent conditions only). This characterization is contrary to previous NRC positions (*see* References 4 and 5 of TSTF-372, Revision 4). It is a long standing industry practice to utilize the 72-hour delay for the removal of snubbers for maintenance and testing purposes, not only emergent conditions.

*Response:* There remain some differing interpretations on what pre-improved STS allowed. Regardless of prior practices and what older specifications permitted, this change will clarify and make consistent practices and understanding of what is permitted. Therefore, statements of what pre-improved STS allowed are removed from the text.

7. *Comment:* In the first paragraph of the Summary, the term "non-technical specifications snubbers" is used. That term is not defined or used elsewhere. In section 1.0, INTRODUCTION, the new LCO 3.0.8 identifies the snubbers of interest as "required snubbers." In section 2.0, Regulatory Evaluation, the snubbers of interest are characterized as "relocated snubbers."

Some clarification is requested to ensure that the snubbers of interest are clearly understood to be those required to support Technical Specifications functions.

*Response:* In the first paragraph of the Summary, the term "non-technical specifications snubbers" is changed to "snubbers not in technical specifications." In section 1.0, INTRODUCTION, the new LCO 3.0.8 identifies the snubbers of interest as

"required snubbers." In technical specifications the term "required snubbers" is understood to be those required to support Technical Specifications functions. In section 2.0, REGULATORY EVALUATION, the term "relocated snubber requirements" has been changed to "snubber requirements that have been relocated from technical specifications" \* \* \*.

8. *Comment:* For licensees who have not converted to the improved STS, some clarification is needed for the "other means" by which a licensee could have adopted a Bases control program. Is it necessary that the Bases control program be incorporated into the Technical Specifications, or would the establishment of a procedure in the plant operating manual be sufficient?

*Response:* The Risk Management Technical Specifications (RMTS) Initiatives that have been approved to date have each required the adoption of a Bases Control Program, if not previously adopted through conversion to the STS. It is necessary that the Bases Control Program be incorporated into the TS. At this point it is expected that most plants have adopted a Bases Control Program in the Administrative Controls Section of their TS. As noted, licensees are not prevented from requesting an alternative approach or proposing the changes without the requested Bases and Bases control program. Variations from the approach recommended in this notice may, however, require additional justification, additional review by the NRC staff and may increase the time and resources needed for the review. In addition, an alternative approach will most likely have to similarly involve a change to the plant license.

9. *Comment:* Section 3.1.2 of the model safety evaluation regarding the use of LCO 3.0.8b for boiling water reactors requires that "at least one success path exists, using equipment not associated with the inoperable snubber(s), to provide makeup and cooling needed to mitigate LOOP accident sequences." The phrase "needed to mitigate LOOP accident sequences" is absent in the corresponding implementation requirements in Section 3.2.1(d), which implies all accident sequences must be considered. This phrase should be restored to Section 3.2.1(d) to clarify the type of analysis that must be performed.

*Response:* The staff agrees. The phrase "needed to mitigate LOOP accident sequences" is added to Section 3.2.1(d).

Dated at Rockville, Maryland, this 27th day of April 2005.

For the Nuclear Regulatory Commission.

**Theodore R. Tjader,**

*Senior Reactor Engineer, Technical Specifications Section, Operating Improvements Branch, Division of Inspection Program Management, Office of Nuclear Reactor Regulation.*

### Model Safety Evaluation

*Technical Specification Task Force (TSTF) Change TSTF-372*

#### 1.0 Introduction

On April 23, 2004, the Nuclear Energy Institute (NEI) Risk Informed Technical Specifications Task Force (RITSTF) submitted a proposed change, TSTF-372, Revision 4, to the standard technical specifications (STS) (NUREGS 1430-1434) on behalf of the industry (TSTF-372, Revisions 1 through 3 were prior draft iterations). TSTF-372, Revision 4, is a proposal to add an STS Limiting Condition for Operation (LCO) 3.0.8, allowing a delay time for entering a supported system technical specification (TS), when the inoperability is due solely to an inoperable snubber, if risk is assessed and managed. The postulated seismic event requiring snubbers is a low-probability occurrence and the overall TS system safety function would still be available for the vast majority of anticipated challenges.

This proposal is one of the industry's initiatives being developed under the risk-informed technical specifications program. These initiatives are intended to maintain or improve safety through the incorporation of risk assessment and management techniques in TS, while reducing unnecessary burden and making technical specification requirements consistent with the Commission's other risk-informed regulatory requirements, in particular the Maintenance Rule.

The proposed change adds a new limiting condition of operation, LCO 3.0.8, to the TS. LCO 3.0.8 allows licensees to delay declaring an LCO not met for equipment, supported by snubbers unable to perform their associated support functions, when risk is assessed and managed. This new LCO 3.0.8 states: When one or more required snubbers are unable to perform their associated support function(s), any affected supported LCO(s) are not required to be declared not met solely for this reason if risk is assessed and managed, and:

a. The snubbers not able to perform their associated support function(s) are associated with only one train or subsystem of a multiple train or subsystem supported system or are associated with a single train or

subsystem supported system and are able to perform their associated support function within 72 hours; or

b. The snubbers not able to perform their associated support function(s) are associated with more than one train or subsystem of a multiple train or subsystem supported system and are able to perform their associated support function within 12 hours.

At the end of the specified period the required snubbers must be able to perform their associated support function(s), or the affected supported system LCO(s) shall be declared not met."

The proposed TS change is described in sections 1.0 and 2.0. The technical evaluation and approach used to assess its risk impact is discussed in section 3.0. The results and insights of the risk assessment are presented and discussed in section 3.1. Section 3.2 summarizes the staff's conclusions from the review of the proposed TS change.

#### 2.0 Regulatory Evaluation

In 10 CFR 50.36, the Commission established its regulatory requirements related to the content of TS. Pursuant to 10 CFR 50.36, TS are required to include items in the following five specific categories related to station operation: (1) Safety limits, limiting safety system settings, and limiting control settings; (2) limiting conditions for operation (LCOs); (3) surveillance requirements (SRs); (4) design features; and (5) administrative controls. The rule does not specify the particular requirements to be included in a plant's TS. As stated in 10 CFR 50.36(c)(2)(i), the "Limiting conditions for operation are the lowest functional capability or performance levels of equipment required for safe operation of the facility. When a limiting condition for operation of a nuclear reactor is not met, the licensee shall shut down the reactor or follow any remedial action permitted by the technical specification \* \* \* ." TS section 3.0, on "LCO and SR Applicability," provides details or ground rules for complying with the LCOs.

Snubbers are chosen in lieu of rigid supports in areas where restricting thermal growth during normal operation would induce excessive stresses in the piping nozzles or other equipment. Although they are classified as component standard supports, they are not designed to provide any transmission of force during normal plant operations. However, in the presence of dynamic transient loadings, which are induced by seismic events as well as by plant accidents and transients, a snubber functions as a rigid

support. The location and size of the snubbers are determined by stress analysis based on different combinations of load conditions, depending on the design classification of the particular piping.

Prior to the conversion to the improved STS, TS requirements applied directly to snubbers. These requirements included:

- A requirement that snubbers be functional and in service when the supported equipment is required to be operable.
- A requirement that snubber removal for testing be done only during plant shutdown.
- A requirement that snubber removal for testing be done on a one-at-a-time basis when supported equipment is required to be operable during shutdown.
- A requirement to repair or replace within 72 hours any snubbers, found to be inoperable during operation in Modes 1 through 4, to avoid declaring any supported equipment inoperable.
- A requirement that each snubber be demonstrated operable by periodic visual inspections, and
- A requirement to perform functional tests on a representative sample of at least 10% of plant snubbers, at least once every 18 months during shutdown.

In the late 1980s, a joint initiative of the NRC and industry was undertaken to improve the STS. This effort identified the snubbers as candidates for relocation to a licensee-controlled document based on the fact that the TS requirements for snubbers did not meet any of the four criteria in 10 CFR 50.36(c)(2)(ii) for inclusion in the improved STS. The NRC approved the relocation without placing any restriction on the use of the relocated requirements. However, this relocation resulted in different interpretations between the NRC and the industry regarding its implementation. The NRC has stated, that since snubbers are supporting safety equipment that is in the TS, the definition of OPERABILITY must be used to immediately evaluate equipment supported by a removed snubber and, if found inoperable, the appropriate TS required actions must be entered. This interpretation has in practice eliminated the 72-hour delay to enter the actions for the supported equipment that existed prior to the conversion to the improved STS (the only exception is if the supported system has been analyzed and determined to be OPERABLE without the snubber). The industry has argued that since the NRC approved the relocation without placing any

restriction on the use of the relocated requirements, the licensee controlled document requirements for snubbers should be invoked before the supported system's TS requirements become applicable. The industry's interpretation would, in effect, restore the 72-hour delay to enter the actions for the supported equipment that existed prior to the conversion to the improved STS. The industry's proposal would allow a time delay for all conditions, including snubber removal for testing at power. The option to relocate the snubbers to a licensee controlled document, as part of the conversion to improved STS, has resulted in non-uniform and inconsistent treatment of snubbers. On the one hand, plants that have relocated snubbers from their TS are allowed to change the TS requirements for snubbers under the auspices of 10 CFR 50.59, but they are not allowed a 72-hour delay before they enter the actions for the supported equipment. On the other hand, plants that have not converted to improved STS have retained the 72-hour delay if snubbers are found to be inoperable, but they are not allowed to use 10 CFR 50.59 to change TS requirements for snubbers. It should also be noted that a few plants that converted to the improved STS chose not to relocate the snubbers to a licensee-controlled document and, thus, retained the 72-hour delay. In addition, it is important to note that unlike plants that have not relocated, plants that have relocated can perform functional tests on the snubbers at power (as long as they enter the actions for the supported equipment) and at the same time can reduce the testing frequency (as compared to plants that have not relocated) if it is justified by 10 CFR 50.59 assessments. Some potential undesirable consequences of this inconsistent treatment of snubbers are:

- Performance of testing during crowded time period windows when the supported system is inoperable with the potential to reduce the snubber testing to a minimum since the snubber requirements that have been relocated from TS are controlled by the licensee,
- Performance of testing during crowded windows when the supported system is inoperable with the potential to increase the unavailability of safety systems, and
- Performance of testing and maintenance on snubbers affecting multiple trains of the same supported system during the 7 hours allotted before entering MODE 3 under LCO 3.0.3.

To remove the inconsistency in the treatment of snubbers among plants, the TSTF proposed a risk-informed TS

change that introduces a delay time before entering the actions for the supported equipment, when one or more snubbers are found inoperable or removed for testing, if risk is assessed and managed. Such a delay time will provide needed flexibility in the performance of maintenance and testing during power operation and at the same time will enhance overall plant safety by:

- Avoiding unnecessary unscheduled plant shutdowns and, thus, minimizing plant transition and realignment risks,
- Avoiding reduced snubber testing and, thus, increasing the availability of snubbers to perform their supporting function,
- Performing most of the required testing and maintenance during the delay time when the supported system is available to mitigate most challenges and, thus, avoiding increases in safety system unavailability, and
- Providing explicit risk-informed guidance in areas in which that guidance currently does not exist, such as the treatment of snubbers impacting more than one redundant train of a supported system.

### 3.0 Technical Evaluation

The industry submitted TSTF-372, Revision 4, "Addition of LCO 3.0.8, Inoperability of Snubbers" in support of the proposed TS change. This submittal (Ref. 1) documents a risk-informed analysis of the proposed TS change. Probabilistic risk assessment (PRA) results and insights are used, in combination with deterministic and defense-in-depth arguments, to identify and justify delay times for entering the actions for the supported equipment associated with inoperable snubbers at nuclear power plants. This is in accordance with guidance provided in Regulatory Guides (RGs) 1.174 and 1.177 (Refs. 2 and 3, respectively).

The risk impact associated with the proposed delay times for entering the TS actions for the supported equipment can be assessed using the same approach as for allowed completion time (CT) extensions. Therefore, the risk assessment was performed following the three-tiered approach recommended in RG 1.177 for evaluating proposed extensions in currently allowed CTs:

- The first tier involves the assessment of the change in plant risk due to the proposed TS change. Such risk change is expressed (1) by the change in the average yearly core damage frequency ( $\Delta$ CDF) and the average yearly large early release frequency ( $\Delta$ LERF) and (2) by the incremental conditional core damage probability (ICCDP) and the incremental

conditional large early release probability (ICLERP). The assessed  $\Delta$ CDF and  $\Delta$ LERF values are compared to acceptance guidelines, consistent with the Commission's Safety Goal Policy Statement as documented in RG 1.174, so that the plant's average baseline risk is maintained within a minimal range. The assessed ICCDP and ICLERP values are compared to acceptance guidelines provided in RG 1.177, which aim at ensuring that the plant risk does not increase unacceptably during the period the equipment is taken out of service.

- The second tier involves the identification of potentially high-risk configurations that could exist if equipment in addition to that associated with the change were to be taken out of service simultaneously, or other risk-significant operational factors such as concurrent equipment testing were also involved. The objective is to ensure that appropriate restrictions are in place to avoid any potential high-risk configurations.

- The third tier involves the establishment of an overall configuration risk management program (CRMP) to ensure that potentially risk-significant configurations resulting from maintenance and other operational activities are identified. The objective of the CRMP is to manage configuration-specific risk by appropriate scheduling of plant activities and/or appropriate compensatory measures.

A simplified bounding risk assessment was performed to justify the proposed addition of LCO 3.0.8 to the TS. This approach was necessitated by (1) the general nature of the proposed TS changes (*i.e.*, they apply to all plants and are associated with an undetermined number of snubbers that are not able to perform their function), (2) the lack of detailed engineering analyses that establish the relationship between earthquake level and supported system pipe failure probability when one or more snubbers are inoperable, and (3) the lack of seismic risk assessment models for most plants. The simplified risk assessment is based on the following major assumptions, which the staff finds acceptable, as discussed below:

- The accident sequences contributing to the risk increase associated with the proposed TS changes are assumed to be initiated by a seismically-induced loss-of-offsite-power (LOOP) event with concurrent loss of all safety system trains supported by the out-of-service snubbers. In the case of snubbers associated with more than one train (or subsystem) of the same system, it is assumed that all

affected trains (or subsystems) of the supported system are failed. This assumption was introduced to allow the performance of a simple bounding risk assessment approach with application to all plants. This approach was selected due to the lack of detailed plant-specific seismic risk assessments for most plants and the lack of fragility data for piping when one or more supporting snubbers are inoperable.

- The LOOP event is assumed to occur due to the seismically-induced failure of the ceramic insulators used in the power distribution systems. These ceramic insulators have a high confidence (95%) of low probability (5%) of failure (HCLPF) of about 0.1g, expressed in terms of peak ground acceleration. Thus, a magnitude 0.1g earthquake is conservatively assumed to have 5% probability of causing a LOOP initiating event. The fact that no LOOP events caused by higher magnitude earthquakes were considered is justified because (1) the frequency of earthquakes decreases with increasing magnitude and (2) historical data (References 4 and 5) indicate that the mean seismic capacity of ceramic insulators (used in seismic PRAs), in terms of peak ground acceleration, is about 0.3g, which is significantly higher than the 0.1g HCLPF value. Therefore, the simplified analysis, even though it does not consider LOOP events caused by earthquakes of magnitude higher than 0.1g, bounds a detailed analysis which would use mean seismic failure probabilities (fragilities) for the ceramic insulators.

- Analytical and experimental results obtained in the mid-eighties as part of the industry's "Snubber Reduction Program" (References 4 and 6) indicated that piping systems have large margins against seismic stress. The assumption that a magnitude 0.1g earthquake would cause the failure of all safety system trains supported by the out-of-service snubbers is very conservative because safety piping systems could withstand much higher seismic stresses even when one or more supporting snubbers are out of service. The actual piping failure probability is a function of the stress allowable and the number of snubbers removed for maintenance or testing. Since the licensee controlled testing is done on only a small (about 10%) representative sample of the total snubber population, typically only a few snubbers supporting a given safety system out for testing at a time. Furthermore, since the testing of snubbers is a planned activity, licensees have flexibility in selecting a sample set of snubbers for testing from a much larger population by conducting

configuration-specific engineering and/or risk assessments. Such a selection of snubbers for testing provides confidence that the supported systems would perform their functions in the presence of a design-basis earthquake and other dynamic loads and, in any case, the risk impact of the activity will remain within the limits of acceptability defined in risk-informed RGs 1.174 and 1.177.

- The analysis assumes that one train (or subsystem) of all safety systems is unavailable during snubber testing or maintenance (an entire system is assumed unavailable if a removed snubber is associated with both trains of a two-train system). This is a very conservative assumption for the case of corrective maintenance since it is unlikely that a visual inspection will reveal that one or more snubbers across all supported systems are inoperable. This assumption is also conservative for the case of the licensee-controlled testing of snubbers since such testing is performed only on a small representative sample.

- In general, no credit is taken for recovery actions and alternative means of performing a function, such as the function performed by a system assumed failed (e.g., when LCO 3.0.8b applies). However, most plants have reliable alternative means of performing certain critical functions. For example, feed and bleed (F&B) can be used to remove heat in most pressurized water reactors (PWRs) when auxiliary feedwater (AFW), the most important system in mitigating LOOP accidents, is unavailable. Similarly, if high pressure makeup (e.g., reactor core isolation cooling) and heat removal capability (e.g., suppression pool cooling) are unavailable in boiling water reactors (BWRs), reactor depressurization in conjunction with low pressure makeup (e.g., low pressure coolant injection) and heat removal capability (e.g., shutdown cooling) can be used to cool the core. A 10% failure probability for recovery actions to provide core cooling using alternative means is assumed for Diablo Canyon, the only West Coast PWR plant with F&B capability, when a snubber impacting more than one train of the AFW system (i.e., when LCO 3.0.8b is applicable) is out of service. This failure probability value is significantly higher than the value of  $2.2E-2$  used in Diablo Canyon's PRA. Furthermore, Diablo Canyon has analyzed the impact of a single limiting snubber failure, and concluded that no single snubber failure would impact two trains of AFW. No credit for recovery actions to provide core cooling using alternative means is necessary for West Coast PWR plants

with no F&B capability because it has been determined that there is no single snubber whose non-functionality would disable two trains of AFW in a seismic event of magnitude up to the plant's safe shutdown earthquake (SSE). It should be noted that a similar credit could have been applied to most Central and Eastern U.S. plants but this was not necessary to demonstrate the low risk impact of the proposed TS change due to the lower earthquake frequencies at Central and Eastern U.S. plants as compared to West Coast plants.

- The earthquake frequency at the 0.1g level was assumed to be  $1E-3$ /year for Central and Eastern U.S. plants and  $1E-1$ /year for West Coast plants. Each of these two values envelop the range of earthquake frequency values at the 0.1g level, for Eastern U.S. and West Coast sites, respectively (References 5 and 7).

- The risk impact associated with non-LOOP accident sequences (e.g., seismically initiated loss-of-coolant-accident (LOCA) or anticipated-transient-without-scrum (ATWS) sequences) was not assessed. However, this risk impact is small compared to the risk impact associated with the LOOP accident sequences modeled in the simplified bounding risk assessment. Non-LOOP accident sequences, due to the ruggedness of nuclear power plant designs, require seismically-induced failures that occur at earthquake levels above 0.3g. Thus, the frequency of earthquakes initiating non-LOOP accident sequences is much smaller than the frequency of seismically-initiated LOOP events. Furthermore, because of the conservative assumption made for LOOP sequences that a 0.1g level earthquake would fail all piping associated with inoperable snubbers, non-LOOP sequences would not include any more failures associated with inoperable snubbers than LOOP sequences. Therefore, the risk impact of inoperable snubbers associated with non-LOOP accident sequences is small compared to the risk impact associated with the LOOP accident sequences modeled in the simplified bounding risk assessment.

- The risk impact of dynamic loadings other than seismic loads is not assessed. These shock-type loads include thrust loads, blowdown loads, waterhammer loads, steamhammer loads, LOCA loads and pipe rupture loads. However, there are some important distinctions between non-seismic (shock-type) loads and seismic loads which indicate that, in general, the risk impact of the out-of-service snubbers is smaller for non-seismic loads than for seismic loads. First, while

a seismic load affects the entire plant, the impact of a non-seismic load is localized to a certain system or area of the plant. Second, although non-seismic shock loads may be higher in total force and the impact could be as much or more than seismic loads, generally they are of much shorter duration than seismic loads. Third, the impact of non-seismic loads is more plant specific, and thus harder to analyze generically, than for seismic loads. For these reasons, licensees will be required to confirm every time LCO 3.0.8 is used, that at least one train of each system that is supported by the inoperable snubber(s) would remain capable of performing their required safety or support functions for postulated design loads other than seismic loads.

3.1 Risk Assessment Results and Insights

The results and insights from the implementation of the three-tiered approach of RG 1.177 to support the proposed addition of LCO 3.0.8 to the TS are summarized and evaluated in the following sections 3.1.1 to 3.1.3.

3.1.1 Risk Impact

The bounding risk assessment approach, discussed in Section 3.0, was implemented generically for all U.S. operating nuclear power plants. Risk assessments were performed for two categories of plants, Central and East Coast plants and West Coast plants, based on historical seismic hazard curves (earthquake frequencies and associated magnitudes). The first category, Central and East Coast plants, includes the vast majority of the U.S. nuclear power plant population (Reference 7). For each category of plants, two risk assessments were performed:

- The first risk assessment applies to cases where all inoperable snubbers are associated with only one train (or subsystem) of the impacted safety

systems. It was conservatively assumed that a single train (or subsystem) of each safety system is unavailable. It was also assumed that the probability of non-mitigation using the unaffected redundant trains (or subsystems) is 2%. This is a conservative value given that for core damage to occur under those conditions, two or more failures are required.

- The second risk assessment applies to the case where one or more of the inoperable snubbers are associated with multiple trains (or subsystems) of the same safety systems. It was assumed in this bounding analysis that all safety systems are unavailable to mitigate the accident, except for West Coast PWR plants. Credit for using F&B to provide core cooling is taken for plants having F&B capability (e.g., Diablo Canyon) when a snubber impacting more than one train of the AFW system is inoperable. Credit for one AFW train to provide core cooling is taken for West Coast PWR plants with no F&B capability (e.g., San Onofre) because it has been determined that there is no single snubber whose non-functionality would disable two trains of AFW in a seismic event of magnitude up to the plant's SSE.

The results of the performed risk assessments, in terms of core damage and large early release risk impacts, are summarized in Table 1. The first row lists the conditional risk increase, in terms of CDF (core damage frequency),  $\Delta R_{CDF}$ , caused by the out-of-service snubbers (as assumed in the bounding analysis). The second and third rows list the ICCDP (incremental conditional core damage probability) and the ICLERP (incremental conditional large early release probability) values, respectively. The ICCDP for the case where all inoperable snubbers are associated with only one train (or subsystem) of the supported safety systems, was obtained by multiplying the corresponding  $\Delta R_{CDF}$  value by the time fraction of the

proposed 72-hour delay to enter the actions for the supported equipment. The ICCDP for the case where one or more of the inoperable snubbers are associated with multiple trains (or subsystems) of the same safety system, was obtained by multiplying the corresponding  $\Delta R_{CDF}$  value by the time fraction of the proposed 12-hour delay to enter the actions for the supported equipment. The ICLERP values were obtained by multiplying the corresponding ICCDP values by 0.1 (i.e., by assuming that the ICLERP value is an order of magnitude less than the ICCDP). This assumption is conservative since containment bypass scenarios, such as steam generator tube rupture accidents and interfacing system loss-of-coolant accidents, would not be uniquely affected by the out-of-service snubbers. Finally, the fourth and fifth rows list the assessed  $\Delta CDF$  and  $\Delta LERF$  values, respectively. These values were obtained by dividing the corresponding ICCDP and ICLERP values by 1.5 (i.e., by assuming that the snubbers are tested every 18 months, as was the case before the snubbers were relocated to a licensee-controlled document). This assumption is reasonable because (1) it is not expected that licensees would test the snubbers more often than what used to be required by the TS, and (2) testing of snubbers is associated with higher risk impact than the average corrective maintenance of snubbers found inoperable by visual inspection (testing is expected to involve significantly more snubbers out of service than corrective maintenance). The assessed  $\Delta CDF$  and  $\Delta LERF$  values are compared to acceptance guidelines, consistent with the Commission's Safety Goal Policy Statement as documented in RG 1.174, so that the plant's average baseline risk is maintained within a minimal range. This comparison indicates that the addition of LCO 3.0.8 to the existing TS would have an insignificant risk impact.

TABLE 1.—BOUNDING RISK ASSESSMENT RESULTS FOR SNUBBERS IMPACTING A SINGLE TRAIN AND MULTIPLE TRAINS OF A SUPPORTED SYSTEM

|                           | Central and east coast plants |                | West coast plants |                |
|---------------------------|-------------------------------|----------------|-------------------|----------------|
|                           | Single train                  | Multiple train | Single train      | Multiple train |
| $\Delta R_{CDF}/yr$ ..... | 1E-6                          | 5E-6           | 1E-4              | 5E-4           |
| ICCDP .....               | 8E-9                          | 7E-9           | 8E-7              | 7E-7           |
| ICLERP .....              | 8E-10                         | 7E-10          | 8E-8              | 7E-8           |
| $\Delta CDF/yr$ .....     | 5E-9                          | 5E-9           | 5E-7              | 5E-7           |
| $\Delta LERF/yr$ .....    | 5E-10                         | 5E-10          | 5E-8              | 5E-8           |

The assessed  $\Delta CDF$  and  $\Delta LERF$  values meet the acceptance criteria of 1E-6/year and 1E-7/year, respectively, based

on guidance provided in RG 1.174. This conclusion is true without taking any credit for the removal of potential

undesirable consequences associated with the current inconsistent treatment of snubbers (e.g., reduced snubber

testing frequency, increased safety system unavailability and treatment of snubbers impacting multiple trains) discussed in Section 1 above, and given the bounding nature of the risk assessment.

The assessed ICCDP and ICLERP values are compared to acceptance guidelines provided in RG 1.177, which aim at ensuring that the plant risk does not increase unacceptably during the period the equipment is taken out of service. This comparison indicates that the addition of LCO 3.0.8 to the existing TS meets the RG 1.177 numerical guidelines of 5E-7 for ICCDP and 5E-8

for ICLERP. The small deviations shown for West Coast plants are acceptable because of the bounding nature of the risk assessments, as discussed in section 2.

The risk assessment results of Table 1 are also compared to guidance provided in the revised section 11 of NUMARC 93-01, Revision 2 (Reference 8), endorsed by RG 1.182 (Reference 9), for implementing the requirements of paragraph (a)(4) of the Maintenance Rule, 10 CFR 50.65. Such guidance is summarized in Table 2. Guidance regarding the acceptability of conditional risk increase in terms of

CDF (*i.e.*,  $\Delta R_{CDF}$ ) for a planned configuration is provided. This guidance states that a specific configuration that is associated with a CDF higher than 1E-3/year should not be entered voluntarily. Since the assessed conditional risk increase,  $\Delta R_{CDF}$ , is significantly less than 1E-3/year, plant configurations including out of service snubbers and other equipment may be entered voluntarily if supported by the results of the risk assessment required by 10 CFR 50.65(a)(4), by LCO 3.0.8, or by other TS.

TABLE 2.—GUIDANCE FOR IMPLEMENTING 10 CFR 50.65(A)(4)

| $\Delta R_{CDF}$             |  | Guidance  |                    |
|------------------------------|--|---|--------------------|
| Greater than 1E-3/year ..... |  | Configuration should not normally be entered voluntarily. |                    |
| ICCDP                        | Guidance   |   | ICLERP             |
| Greater than 1E-5 .....      | Configuration should not normally be entered voluntarily .....           |   | Greater than 1E-6. |
| 1E-6 to 1E-5 .....           | Assess non-quantifiable factors; Establish risk management actions ..... |   | 1E-7 to 1E-6.      |
| Less than 1E-6 .....         | Normal work controls .....   |   | Less than 1E-7.    |

Guidance regarding the acceptability of ICCDP and ICLERP values for a specific planned configuration and the establishment of risk management actions is also provided in NUMARC 93-01. This guidance, as shown in Table 2, states that a specific plant configuration that is associated with ICCDP and ICLERP values below 1E-6 and 1E-7, respectively, is considered to require "normal work controls." Table 1 shows that for the majority of plants (*i.e.*, for all plants in the Central and East Coast category) the conservatively assessed ICCDP and ICLERP values are over an order of magnitude less than what is recommended as the threshold for the "normal work controls" region. For West Coast plants, the conservatively assessed ICCDP and ICLERP values are still within the "normal work controls" region. Thus, the risk contribution from out of service snubbers is within the normal range of maintenance activities carried out at a plant. Therefore, plant configurations involving out of service snubbers and other equipment may be entered voluntarily if supported by the results of the risk assessment required by 10 CFR 50.65(a)(4), by LCO 3.0.8, or by other TS. However, this simplified bounding analysis indicates that for West Coast plants the provisions of LCO 3.0.8 must be used cautiously and in conjunction with appropriate management actions, especially when equipment other than snubbers is also inoperable, based on the results of configuration-specific risk

assessments required by 10 CFR 50.65(a)(4), by LCO 3.0.8, or by other TS.

The staff finds that the risk assessment results support the proposed addition of LCO 3.0.8 to the TS. The risk increases associated with this TS change will be insignificant based on guidance provided in RGs 1.174 and 1.177 and within the range of risks associated with normal maintenance activities. In addition, LCO 3.0.8 will remove potential undesirable consequences stemming from the current inconsistent treatment of snubbers in the TS, such as reduced frequency of snubber testing, increased safety system unavailability and the treatment of snubbers impacting multiple trains.

### 3.1.2 Identification of High-Risk Configurations

The second tier of the three-tiered approach recommended in RG 1.177 involves the identification of potentially high-risk configurations that could exist if equipment, in addition to that associated with the TS change, were to be taken out of service simultaneously. Insights from the risk assessments, in conjunction with important assumptions made in the analysis and defense-in-depth considerations, were used to identify such configurations. To avoid these potentially high-risk configurations, specific restrictions to the implementation of the proposed TS changes were identified.

For cases where all inoperable snubbers are associated with only one

train (or subsystem) of the impacted systems (*i.e.*, when LCO 3.0.8a applies), it was assumed in the analysis that there will be unaffected redundant trains (or subsystems) available to mitigate the seismically initiated LOOP accident sequences. This assumption implies that there will be at least one success path available when LCO 3.0.8a applies. Therefore, potentially high-risk configurations can be avoided by ensuring that such a success path exists when LCO 3.0.8a applies. Based on a review of the accident sequences that contribute to the risk increase associated with LCO 3.0.8a, as modeled by the simplified bounding analysis (*i.e.*, accident sequences initiated by a seismically-induced LOOP event with concurrent loss of all safety system trains supported by the out of service snubbers), the following restrictions were identified to prevent potentially high-risk configurations:

- For PWR plants, at least one AFW train (including a minimum set of supporting equipment required for its successful operation) not associated with the inoperable snubber(s), must be available when LCO 3.0.8a is used.
- For BWR plants, one of the following two means of heat removal must be available when LCO 3.0.8a is used:

—At least one high pressure makeup path (*e.g.*, using high pressure coolant injection (HPCI) or reactor core isolation cooling (RCIC) or equivalent) and heat removal capability (*e.g.*,

suppression pool cooling), including a minimum set of supporting equipment required for success, not associated with the inoperable snubber(s), or

—At least one low pressure makeup path (e.g., low pressure coolant injection (LPCI) or containment spray (CS)) and heat removal capability (e.g., suppression pool cooling or shutdown cooling), including a minimum set of supporting equipment required for success, not associated with the inoperable snubber(s).

For cases where one or more of the inoperable snubbers are associated with multiple trains (or subsystems) of the same safety system (*i.e.*, when LCO 3.0.8b applies), it was assumed in the bounding analysis that all safety systems are unavailable to mitigate the accident, except for West Coast plants. Credit for using F&B to provide core cooling is taken for plants having F&B capability (e.g., Diablo Canyon) when a snubber impacting more than one train of the AFW system is inoperable. Credit for one AFW train to provide core cooling is taken for West Coast PWR plants with no F&B capability (e.g., San Onofre) because it has been determined that there is no single snubber whose non-functionality would disable more than one train of AFW in a seismic event of magnitude up to the plant's SSE. Based on a review of the accident sequences that contribute to the risk increase associated with LCO 3.0.8b (as modeled by the simplified bounding analysis) and defense-in-depth considerations, the following restrictions were identified to prevent potentially high-risk configurations:

- LCO 3.0.8b cannot be used at West Coast PWR plants with no F&B capability when a snubber whose non-functionality would disable more than one train of AFW in a seismic event of magnitude up to the plant's SSE is inoperable (it should be noted, however, that based on information provided by the industry, there is no plant that falls in this category)
- When LCO 3.0.8b is used at PWR plants, at least one AFW train (including a minimum set of supporting equipment required for its successful operation) not associated with the inoperable snubber(s), or some alternative means of core cooling (e.g., F&B, firewater system or "aggressive secondary cooldown" using the steam generators) must be available.
- When LCO 3.0.8b is used at BWR plants, it must be verified that at least one success path exists, using equipment not associated with the

inoperable snubber(s), to provide makeup and core cooling needed to mitigate LOOP accident sequences.

### 3.1.3 Configuration Risk Management

The third tier of the three-tiered approach recommended in RG 1.177 involves the establishment of an overall configuration risk management program (CRMP) to ensure that potentially risk-significant configurations resulting from maintenance and other operational activities are identified. The objective of the CRMP is to manage configuration-specific risk by appropriate scheduling of plant activities and/or appropriate compensatory measures. This objective is met by licensee programs to comply with the requirements of paragraph (a)(4) of the Maintenance Rule (10 CFR 50.65) to assess and manage risk resulting from maintenance activities, and by the TS requiring risk assessments and management using (a)(4) processes if no maintenance is in progress. These programs can support licensee decision making regarding the appropriate actions to manage risk whenever a risk-informed TS is entered. Since the 10 CFR 50.65(a)(4) guidance, the revised (May 2000) Section 11 of NUMARC 93-01, does not currently address seismic risk, licensees adopting this change must ensure that the proposed LCO 3.0.8 is considered with respect to other plant maintenance activities and integrated into the existing 10 CFR 50.65(a)(4) process whether the process is invoked by a TS or (a)(4) itself.

### 3.2 Summary and Conclusions

The option to relocate the snubbers to a licensee controlled document, as part of the conversion to Improved STS, has resulted in non-uniform and inconsistent treatment of snubbers. Some potential undesirable consequences of this inconsistent treatment of snubbers are:

- Performance of testing during crowded windows when the supported system is inoperable with the potential to reduce the snubber testing to a minimum since the relocated snubber requirements are controlled by the licensee.
- Performance of testing during crowded windows when the supported system is inoperable with the potential to increase the unavailability of safety systems.
- Performance of testing and maintenance on snubbers affecting multiple trains of the same supported system during the 7 hours allotted before entering MODE 3 under LCO 3.0.3.

To remove the inconsistency among plants in the treatment of snubbers, licensees are proposing a risk-informed TS change which introduces a delay time before entering the actions for the supported equipment when one or more snubbers are found inoperable or removed for testing. Such a delay time will provide needed flexibility in the performance of maintenance and testing during power operation and at the same time will enhance overall plant safety by (1) avoiding unnecessary unscheduled plant shutdowns, thus, minimizing plant transition and realignment risks; (2) avoiding reduced snubber testing, thus, increasing the availability of snubbers to perform their supporting function; (3) performing most of the required testing and maintenance during the delay time when the supported system is available to mitigate most challenges, thus, avoiding increases in safety system unavailability; and (4) providing explicit risk-informed guidance in areas in which that guidance currently does not exist, such as the treatment of snubbers impacting more than one redundant train of a supported system.

The risk impact of the proposed TS changes was assessed following the three-tiered approach recommended in RG 1.177. A simplified bounding risk assessment was performed to justify the proposed TS changes. This bounding assessment assumes that the risk increase associated with the proposed addition of LCO 3.0.8 to the TS is associated with accident sequences initiated by a seismically-induced LOOP event with concurrent loss of all safety system trains supported by the out-of-service snubbers. In the case of snubbers associated with more than one train, it is assumed that all affected trains of the supported system are failed. This assumption was introduced to allow the performance of a simple bounding risk assessment approach with application to all plants and was selected due to the lack of detailed plant-specific seismic risk assessments for most plants and the lack of fragility data for piping when one or more supporting snubbers are inoperable. The impact from the addition of the proposed LCO 3.0.8 to the TS on defense-in-depth was also evaluated in conjunction with the risk assessment results.

Based on this integrated evaluation, the staff concludes that the proposed addition of LCO 3.0.8 to the TS would lead to insignificant risk increases, if any. Indeed, this conclusion is true without taking any credit for the removal of potential undesirable consequences associated with the current inconsistent treatment of

snubbers, such as the effects of avoiding a potential reduction in the snubber testing frequency and increased safety system unavailability. Consistent with the staff's approval and inherent in the implementation of TSTF-372, licensees interested in implementing LCO 3.0.8 must, as applicable, operate in accordance with the following stipulations:

1. Appropriate plant procedures and administrative controls will be used to implement the following Tier 2 Restrictions.

(a) At least one AFW train (including a minimum set of supporting equipment required for its successful operation) not associated with the inoperable snubber(s), must be available when LCO 3.0.8a is used at PWR plants.

(b) At least one AFW train (including a minimum set of supporting equipment required for its successful operation) not associated with the inoperable snubber(s), or some alternative means of core cooling (e.g., F&B, fire water system or "aggressive secondary cooldown" using the steam generators) must be available when LCO 3.0.8b is used at PWR plants.

(c) LCO 3.0.8b cannot be used by West Coast PWR plants with no F&B capability when a snubber, whose non-functionality would disable more than one train of AFW in a seismic event of magnitude up to the plant's SSE, is inoperable.

(d) BWR plants must verify, every time the provisions of LCO 3.0.8 are used, that at least one success path, involving equipment not associated with the inoperable snubber(s), exists to provide makeup and core cooling needed to mitigate LOOP accident sequences.

(e) Every time the provisions of LCO 3.0.8 are used licensees will be required to confirm that at least one train (or subsystem) of systems supported by the inoperable snubbers would remain capable of performing their required safety or support functions for postulated design loads other than seismic loads. LCO 3.0.8 does not apply to non-seismic snubbers. In addition, a record of the design function of the inoperable snubber (i.e., seismic vs. non-seismic), implementation of any applicable Tier 2 restrictions, and the associated plant configuration shall be available on a recoverable basis for staff inspection.

2. Should licensees implement the provisions of LCO 3.0.8 for snubbers, which include delay times to enter the actions for the supported equipment when one or more snubbers are out of service for maintenance or testing, it must be done in accordance with an

overall CRMP to ensure that potentially risk-significant configurations resulting from maintenance and other operational activities are identified and avoided, as discussed in the proposed TS Bases. This objective is met by licensee programs to comply with the requirements of paragraph (a)(4) of the Maintenance Rule, 10 CFR 50.65, to assess and manage risk resulting from maintenance activities or when this process is invoked by LCO 3.0.8 or other TS. These programs can support licensee decisionmaking regarding the appropriate actions to manage risk whenever a risk-informed TS is entered. Since the 10 CFR 50.65(a)(4) guidance, the revised (May 2000) Section 11 of NUMARC 93-01, does not currently address seismic risk, licensees adopting this change must ensure that the proposed LCO 3.0.8 is considered in conjunction with other plant maintenance activities and integrated into the existing 10 CFR 50.65(a)(4) process. In the absence of a detailed seismic PRA, a bounding risk assessment, such as utilized in this Safety Evaluation, shall be followed.

#### 4.0 State Consultation

In accordance with the Commission's regulations, the [ ] State official was notified of the proposed issuance of the amendment. The State official had [(1) no comments or (2) the following comments—with subsequent disposition by the staff].

#### 5.0 Environmental Consideration

The amendments change a requirement with respect to the installation or use of a facility component located within the restricted area as defined in 10 CFR part 20 and change surveillance requirements. [For licensees adding a Bases Control Program: The amendment also changes record keeping, reporting, or administrative procedures or requirements.] The NRC staff has determined that the amendments involve no significant increase in the amounts and no significant change in the types of any effluents that may be released offsite, and that there is no significant increase in individual or cumulative occupational radiation exposure. The Commission has previously issued a proposed finding that the amendments involve no significant-hazards considerations, and there has been no public comment on the finding [FR]. Accordingly, the amendments meet the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(9) [and (c)(10)]. Pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental

assessment need be prepared in connection with the issuance of the amendments.

#### 6.0 Conclusion

The Commission has concluded, on the basis of the considerations discussed above, that (1) there is reasonable assurance that the health and safety of the public will not be endangered by operation in the proposed manner, (2) such activities will be conducted in compliance with the Commission's regulations, and (3) the issuance of the amendments will not be inimical to the common defense and security or to the health and safety of the public.

Subject: Plant Name

Docket No. 50—Application for Technical Specification Change To Add LCO 3.0.8 on the Inoperability of Snubbers (and Adoption of a Technical Specifications Bases Control Program) \* Using the Consolidated Line Item Improvement Process

Gentleman:

In accordance with the provisions of 10 CFR 50.90 [LICENSEE] is submitting a request for an amendment to the technical specifications (TS) for [PLANT NAME, UNIT NOS.].

The proposed amendment would modify TS requirements for inoperable snubbers by adding LCO 3.0.8, (and, in conjunction with the proposed change, TS requirements for a Bases control program consistent with TS Bases Control Program described in Section 5.5 of the applicable vendor's Standard Technical Specifications).

Attachment 1 provides a description of the proposed change, the requested confirmation of applicability, and plant-specific verifications. Attachment 2 provides the existing TS pages marked up to show the proposed change. Attachment 3 provides revised (clean) TS pages. Attachment 4 provides a summary of the regulatory commitments made in this submittal. (IF APPLICABLE: Attachment 5 provides the existing TS Bases pages marked up to show the proposed change (for information only).)

[LICENSEE] requests approval of the proposed License Amendment by [DATE], with the amendment being implemented [BY DATE OR WITHIN X DAYS].

In accordance with 10 CFR 50.91, a copy of this application, with attachments, is being provided to the designated [STATE] Official.

I declare under penalty of perjury under the laws of the United States of America that I am authorized by [LICENSEE] to make this request and that the foregoing is true and correct. (Note that request may be notarized in lieu of using this oath or affirmation statement).

If you should have any questions regarding this submittal, please contact [NAME, TELEPHONE NUMBER]

Sincerely,  
[Name, Title]

**Attachment 1—Description and Assessment**

**1.0 Description**

The proposed amendment would modify technical specifications (TS) requirements for inoperable snubbers by adding LCO 3.0.8.<sup>2</sup>

The changes are consistent with Nuclear Regulatory Commission (NRC) approved Industry/Technical Specification Task Force (TSTF) STS change TSTF-372 Revision 4.

The availability of this TS improvement was published in the **Federal Register** on [DATE] as part of the consolidated line item improvement process (CLIIP).

**2.0 Assessment**

**2.1 Applicability of Published Safety Evaluation**

[LICENSEE] has reviewed the safety evaluation dated [DATE] as part of the CLIIP. This review included a review of the NRC staff's evaluation, as well as the supporting information provided to support TSTF-372. [LICENSEE] has concluded that the justifications presented in the TSTF proposal and the safety evaluation prepared by the NRC staff are applicable to [PLANT, UNIT NOS.] and justify this amendment for the incorporation of the changes to the [PLANT] TS.

**2.2 Optional Changes and Variations**

[LICENSEE] is not proposing any variations or deviations from the TS changes described in the TSTF-372 Revision 4 or the NRC staff's model safety evaluation dated [DATE].

**3.0 Regulatory Analysis**

**3.1 No Significant Hazards Consideration Determination**

[LICENSEE] has reviewed the proposed no significant hazards consideration determination (NSHCD) published in the **Federal Register** as part of the CLIIP. [LICENSEE] has concluded that the proposed NSHCD presented in the **Federal Register** notice is applicable to [PLANT] and is hereby incorporated by reference to satisfy the requirements of 10 CFR 50.91(a).

**3.2 Verification and Commitments**

As discussed in the notice of availability published in the **Federal Register** on [DATE] for this TS improvement, plant-specific verifications were performed as follows:

The licensee has established TS Bases for LCO 3.0.8 which provide guidance and details on how to implement the new requirements. LCO 3.0.8 requires that risk be managed and assessed. The Bases also state that while the Industry and NRC guidance on implementation of 10 CFR 50.65(a)(4), the Maintenance Rule, does not address seismic risk, LCO 3.0.8 should be considered with

<sup>2</sup> [In conjunction with the proposed change, technical specifications (TS) requirements for a Bases Control Program, consistent with the TS Bases Control Program described in Section 5.5 of the applicable vendor's standard TS (STS), shall be incorporated into the licensee's TS, if not already in the TS.]

respect to other plant maintenance activities, and integrated into the existing Maintenance Rule process to the extent possible so that maintenance on any unaffected train or subsystem is properly controlled, and emergent issues are properly addressed. The risk assessment need not be quantified, but may be a qualitative assessment of the vulnerability of systems and components when one or more snubbers are not able to perform their associated support function. Finally, the licensee is expected to have a Bases Control Program consistent with Section 5.5 of the STS.

**4.0 Environmental Evaluation**

[LICENSEE] has reviewed the environmental evaluation included in the model safety evaluation dated [DATE] as part of the CLIIP. [LICENSEE] has concluded that the staff's findings presented in that evaluation are applicable to [PLANT] and the evaluation is hereby incorporated by reference for this application.

**Attachment 2—Proposed Technical Specification Changes (Mark-Up)**

**Attachment 3—Proposed Technical Specification Pages**

**Attachment 4—List of Regulatory Commitments**

The following table identifies those actions committed to by [LICENSEE] in this document. Any other statements in this submittal are provided for information purposes and are not considered to be regulatory commitments. Please direct questions regarding these commitments to [CONTACT NAME].

Regulatory commitments—[LICENSEE] will establish the Technical Specification Bases for LCO 3.0.8 as adopted with the applicable license amendment.

Due date/event—[Complete, implemented with amendment OR within X days of implementation of amendment]

BILLING CODE 7590-01-P

**SECURITIES AND EXCHANGE COMMISSION**

[Investment Company Act Release No. 26861; 812-13163]

**Edward D. Jones & Co., L.P.; Notice of Application**

April 28, 2005.

**AGENCY:** Securities and Exchange Commission ("Commission").

**ACTION:** Notice of an application for an order under section 6(c) of the Investment Company Act of 1940 (the "Act") for an exemption from section 22(d) of the Act, as well as certain disclosure requirements.

**SUMMARY OF APPLICATION:** Edward D. Jones & Co., L.P. ("Edward Jones")

requests an order that would permit the sale of shares of certain registered open-end investment companies ("mutual funds") at a price that reflects the elimination of the front-end sales load, in connection with a Deferred Consideration Agreement entered into by Edward Jones with the United States Attorney's Office for the Eastern District of Missouri. Edward Jones also requests that the relief extend to such mutual funds and their principal underwriters.

**DATES:** The application was filed on February 4, 2005, and amended on April 5, 2005.

**HEARING OR NOTIFICATION OF HEARING:** An order granting the application will be issued unless the Commission orders a hearing. Interested persons may request a hearing by writing to the Commission's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the Commission by 5:30 p.m. on May 24, 2005, and should be accompanied by proof of service on applicants, in the form of an affidavit, or for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the Commission's Secretary.

**ADDRESSES:** Secretary, Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Applicant, 12555 Manchester Road, St. Louis, MO 63131-3729.

**FOR FURTHER INFORMATION CONTACT:** Bruce R. MacNeil, Senior Counsel, at (202) 551-6817, or Todd F. Kuehl, Branch Chief, at (202) 551-6821 (Division of Investment Management, Office of Investment Company Regulation).

**SUPPLEMENTARY INFORMATION:** The following is a summary of the application. The complete application may be obtained for a fee at the Commission's Public Reference Branch, 450 Fifth Street, NW., Washington, DC 20549-0102 (telephone (202) 942-8090).

#### Applicant's Representations

1. Edward Jones, a Missouri limited partnership, is registered as a broker-dealer under the Securities Exchange Act of 1934. Edward Jones is one of the largest sellers of brokerage-sold mutual funds in the United States and has selling agreements with approximately 240 mutual fund families.

2. On December 20, 2004, Edward Jones entered into a Deferred Consideration Agreement ("Agreement") with the United States

Attorney's Office for the Eastern District of Missouri ("Office"). The Agreement states that the Office investigated the conduct of Edward Jones relating to revenue sharing payments made by certain mutual funds that were designated as preferred funds ("Preferred Funds"). Among other things, Edward Jones acknowledged in the Agreement that it recommended the Preferred Funds to its customers and did not provide disclosure about the receipt of revenue sharing to its customers.

3. The Agreement provides that the Office will delay consideration of any actions stemming from the investigation for a period of two years in consideration of, among other things, Edward Jones offering all of its customers who owned shares of any Preferred Funds on December 31, 2004 ("Eligible Customers") the opportunity, for a period of 90 days, to sell their interests in the Preferred Funds and purchase shares of any other mutual fund with which Edward Jones has a selling agreement (the "Switch Funds") without the payment of a front-end sales load (the "Switch"). In connection with the Switch, the front-end sales load will either be waived by a Switch Fund's principal underwriter and Edward Jones (the "NAV Switch Funds")<sup>1</sup> or Edward Jones will rebate the front-end sales load back to the customer (the "Rebate Switch Funds").

#### Applicant's Legal Analysis

1. Section 22(d) of the Act, in relevant part, prohibits any registered investment company, any principal underwriter and any dealer from selling a redeemable security except at a current public offering price described in the prospectus. Rule 22d-1 under the Act provides an exemption from section 22(d) allowing a mutual fund, its principal underwriter and dealers to sell shares at prices that reflect variations in, or elimination of, the sales load, if certain conditions are met. Rule 22d-1(a) requires that the mutual fund, its principal and dealer apply any scheduled variation uniformly to all offerees in the class specified. Rule 22d-1(b) requires the mutual fund to furnish to existing shareholders and prospective investors adequate information concerning any scheduled variation, as prescribed in applicable registration form requirements. Rule 22d-1(c) requires the mutual fund, before making any new sales load variation available to

the purchasers of the fund's shares, to revise its registration statement to describe that new variation. Finally, rule 22d-1(d) requires the mutual fund to advise its existing shareholders of any new sales load variation within one year of the date when that variation is first made available to purchasers of the fund's shares.

2. Form N-1A is the registration statement used by mutual funds. Item 7(a)(2) of Form N-1A requires disclosure of waivers or variations of sales loads. Item 18(a) of Form N-1A requires additional disclosure of how a mutual fund's shares are offered to the public, including waivers or variations of sales loads.

3. Section 6(c) of the Act provides that the Commission may exempt any class of persons, securities or transactions, from any provision of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

4. Edward Jones requests an order pursuant to section 6(c) of the Act exempting it, the Switch Funds and their principal underwriters from section 22(d) of the Act to the extent necessary to implement the Switch, and exempting the Switch Funds from the requirements of Items 7(a)(2) and 18(a) of Form N-1A as they would apply to the elimination of the front-end sales load in connection with the Switch. Edward Jones states that the provisions of section 22(d) were intended to prevent disruption of orderly distribution by dealers selling shares at a discount and discrimination among investors resulting from different prices charged to different investors. Edward Jones states that the Switch does not implicate any of these concerns and that the requested relief meets the standards of section 6(c) of the Act.

5. Edward Jones states that it will ensure that the elimination of the front-end sales load in the Switch will be applied uniformly to all offerees in the class specified, as required by rule 22d-1(a). Edward Jones further states that each NAV Switch Fund will advise its existing shareholders of the front-end sales load elimination within one year of the Switch, as required by rule 22d-1(d). As a condition to the requested order, participation by an NAV Switch Fund in the Switch must receive prior approval of the NAV Switch Fund's board of directors, including a majority of the directors who are not interested persons. Edward Jones argues that compliance with the requirements of rule 22d-1(b) and (c) is unduly

<sup>1</sup> The term NAV Switch Funds also includes any Switch Funds whose principal underwriters make a "full dealer allowance" of the front-end sales load amount to Edward Jones.

burdensome under the circumstances. Edward Jones states that it will notify all Eligible Customers in writing of their opportunity to participate in the Switch. In the notice to Eligible Customers, Edward Jones will disclose that the customer's purchase of Rebate Switch Funds may be more expensive to Edward Jones than their purchase of NAV Switch Funds, thus creating a conflict of interest. The notice also will identify those Switch Funds that are NAV Switch Funds and those that are Rebate Switch Funds.

#### Applicant's Conditions

Applicant agrees that any order granting the requested relief will be subject to the following conditions:

1. Prior to implementing the Switch, Applicant will obtain an undertaking in writing from each of the NAV Switch Funds that the NAV Switch Fund will comply with Rule 22d-1(d) under the Act with respect to the Switch.
2. Prior to an NAV Switch Fund's participating in the Free Switch, the board of directors or trustees of the NAV Switch Fund ("Board"), including a majority of the Board members who are not "interested persons," as defined in Section 2(a)(19) of the Act, will review any sales load waiver proposed to be made by the NAV Switch Fund or its principal underwriter in connection with the Switch to determine whether the waiver is in the best interest of the NAV Switch Fund and its shareholders. To assist the Board in making this determination, the NAV Switch Fund's principal underwriter will provide the Board with such information as may reasonably be necessary to enable the Board to make an informed decision. The factors considered and the basis for the Board's determination will be reflected in the Board's minutes, which will be preserved for a period of not less than six years from the date of the NAV Switch Fund's participation in the Switch, the first two years in an easily accessible place.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,  
Deputy Secretary.

#### SECURITIES AND EXCHANGE COMMISSION

[Release No. 35-27962]

#### Filings Under the Public Utility Holding Company Act of 1935, as Amended ("Act")

April 27, 2005.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated under the Act. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendment(s) is/are available for public inspection through the Commission's Branch of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by May 23, 2005, to the Secretary, Securities and Exchange Commission, Washington, DC 20549-0609, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for hearing should identify specifically the issues of facts or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in the matter. After May 23, 2005, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

#### E.ON AG, et al. (70-10282)

E.ON AG ("E.ON"), a registered holding company under the Act, located at E.ON-Platz 1, 40479 Düsseldorf, Germany, and certain of its direct and indirect utility and nonutility subsidiary companies listed in the Application, including E.ON U.S. Holding GmbH ("E.ON U.S. Holding"), a registered holding company and a direct subsidiary of E.ON, also located at E.ON-Platz 1, 40479 Düsseldorf, Germany, and the parent company of E.ON U.S. Investments Corp. ("E.ON U.S. Investments"), a registered holding company and parent of LG&E Energy LLC ("LG&E Energy"), a registered holding company and parent of Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU"), all located at 220 West Main Street, Louisville, Kentucky 40202 (collectively, "Applicants"), have filed an application, as amended ("Application") under sections 6(a), 7, 9(a), 10, 12(b), 12(c), 12(d) and 13(b) of the Act and rules 20, 26, 42, 43, 45, 46, 52, 53, 87 and 90.

Applicants seek authority for certain financing transactions of E.ON and its associated companies during the period from the effective date of the order granting the Application through May 31, 2008 ("Authorization Period"). The Commission previously provided authorizations for E.ON and certain other entities in the E.ON group ("E.ON Group" or "Group"), on June 14, 2002, to undertake specific financing transactions, which authorizations expire on May 31, 2005 ("2002 Order").<sup>1</sup>

#### I. Background

E.ON is headquartered in Düsseldorf, Germany, and most of its operations are located in Europe.<sup>2</sup> Applicants state that, in 2003, E.ON reorganized its

<sup>1</sup> See *E.ON AG, et al.*, Holding Co. Act Release No. 27539 (June 14, 2002).

<sup>2</sup> Applicants state that E.ON had approximately 478,000 shareholders worldwide, as of June 30, 2004, and that E.ON's shares, all of which are ordinary shares, are listed on all seven German stock exchanges. The shares are also actively traded over-the-counter in London and E.ON's American Depository Shares ("ADSs"), each of which represents one ordinary share, are listed on the New York Stock Exchange.

Applicants state that, unless otherwise noted, amounts expressed in United States dollars ("USD") are unaudited and have been converted from Euros, for convenience, at an exchange rate of USD 1.2179 = EUR 1.00, the Noon Buying Rate of the Federal Reserve Bank of New York on June 30, 2004. For the six months ended June 30, 2004, E.ON reported consolidated revenues of EUR 25.594 billion (USD 31.171 billion) calculated in accordance with U.S. generally accepted accounting procedures ("US GAAP"). As of June 30, 2004, E.ON had total consolidated assets of EUR 113.958 billion (USD 138.789 billion).

structure to reflect its commitment to an integrated business focusing on power and gas.<sup>3</sup>

E.ON states that, as a result of its decision to focus on power and gas, in the last few years, its core energy business has been reorganized into five new market units, each of which is focused on a market in which E.ON believes it has a strong competitive position: (1) Central Europe, led by E.ON Energie AG ("E.ON Energie"); (2) Pan-European Gas, led by E.ON Ruhrgas AG ("E.ON Ruhrgas"); (3) U.K., led by E.ON UK plc ("E.ON UK"); (4) Nordic, led by E.ON Nordic AB ("E.ON Nordic"); and (5) U.S. Midwest, led by LG&E Energy. E.ON's non-U.S. business segments (E.ON Energie in Central Europe; E.ON Ruhrgas leading Pan-European Gas; E.ON UK in the U.K.; and E.ON Nordic in Northern Europe) are comprised in part of foreign utility companies, as defined in section 33 of the Act ("FUCOs").

#### A. LG&E Energy and the U.S. Midwest Market Unit

E.ON U.S. Holding, the direct subsidiary of E.ON and parent of E.ON U.S. Investments Corp. (together, "Intermediate Companies"), which is the direct parent of LG&E Energy, the holding company for LG&E and KU, E.ON's United States utility subsidiaries (together, "Utility Subsidiaries"). E.ON U.S. Holding, E.ON U.S. Investments and LG&E Energy are registered holding companies. LG&E Energy owns LG&E and KU, as noted above.<sup>4</sup> LG&E is an electricity- and natural gas-utility based

in Louisville, Kentucky<sup>5</sup> and KU is an electric-utility based in Lexington, Kentucky.<sup>6</sup> Revenues from the U.S. Midwest market unit were USD 1.173 billion (EUR 963 million) for the same period, 3.8% of E.ON's consolidated revenues.

#### B. Subsidiaries To-Be-Divested

The "to-be-divested" E.ON subsidiaries ("TBD Subsidiaries") are those subsidiaries that E.ON is required to divest under the 2002 Order. Viterra AG ("Viterra"), E.ON's wholly owned real estate group, is engaged in two businesses: residential real estate and real estate development. E.ON currently holds a 42.9% interest in Degussa AG ("Degussa"), a specialty chemical company. In the 2002 Order, E.ON was required to divest Degussa, Viterra and five passive real estate investment vehicles managed by Viterra within five years and E.ON states that it continues to expect to meet that requirement.<sup>7</sup>

#### II. Summary of the Request

Applicants state that E.ON follows a centralized financing policy and that, as a general rule, external financings will be undertaken at the E.ON level (or through finance subsidiaries under its guarantee).<sup>8</sup> In certain limited circumstances, future external financings may also take place at the subsidiary level. Generally, over time, E.ON intends to refinance outstanding external subsidiary debt that is not consistent with the group financing policy as it comes due with

intercompany loans.<sup>9</sup> E.ON also states, however, that the financing of joint ventures or partly-owned companies is generally concluded externally.

Applicants request the following financing authorizations and authorizations for certain related actions, as described further in subsequent sections of this notice, beginning with the effective date of an order issued in this matter through May 31, 2008 (the Authorization Period).

1. For E.ON, authority to issue and sell equity and certain debt securities, directly or indirectly, in new financing transactions, in an aggregate amount of up to USD 75 billion at any one time outstanding (and which transactions are also subject to the E.ON External Limit, the E.ON Short-term Limit and the E.ON Guarantee Limit (all further described below)):

(a) Equity and unsecured long-term debt securities in an aggregate amount of up to USD 50 billion at any one time outstanding (exclusive of short-term debt and guarantees) ("E.ON External Limit"), including, but not limited to,

(i) Common stock and ADSs, preferred stock, preferred securities, equity-linked securities, options, warrants, purchase contracts, units, securities with call and put options and securities convertible into any of these securities;

(ii) Unsecured long-term debt, including, among other things, subordinated debt and bank borrowings;

(b) Unsecured short-term debt in an aggregate amount of up to USD 30 billion at any one time outstanding ("E.ON Short-term Limit"); and

(c) Guarantees, and other credit support, in an aggregate amount of up to USD 40 billion at any one time outstanding (exclusive of guarantees exempt under rules 45(b) and 58(a)(1)) ("E.ON Guarantee Limit").

2. For E.ON (for itself and on behalf of its subsidiaries) and for its subsidiaries, authority to engage in currency and interest rate transactions for the purpose of hedging ("Hedging Interests") and certain debt and equity transactions for the purpose of engaging in anticipatory hedging ("Anticipatory Hedging Transactions"), subject to certain limitations.

3. For E.ON and its subsidiaries, authority to continue utilizing certain profit and loss transfer agreements and the consolidated tax filing of E.ON and its German subsidiaries in the manner authorized by the 2002 Order.

<sup>9</sup> Applicants state that E.ON's aim is to maximize its financing efficiency and minimize structural subordination issues that would arise if significant external debt was held at the operating subsidiary level.

<sup>3</sup> Applicants state that E.ON's "on\*top" project was comprehensive strategic review, the principle elements of which were an analysis of E.ON's competitive position, the redefinition of its corporate strategy and the design of a revised organizational structure to reflect E.ON's strategic goals. The on\*top project, among other things, resulted in the transfer of management of LG&E Energy and its utility subsidiaries from Powergen Ltd. ("Powergen") to E.ON. By order dated November 22, 2004, the Commission authorized Powergen's deregistration under the Act, as well as the deregistration of its direct and indirect parent holding companies, E.ON UK Holding GmbH and E.ON UK Holding Company Ltd.

<sup>4</sup> LG&E Energy is also engaged in nonutility businesses, through wholly owned subsidiaries LG&E Capital Corp. ("LCC") and LG&E Energy Marketing Inc. ("LEM"). LCC operates one oil-fired and nine coal-fired electricity generation units in western Kentucky through its wholly owned subsidiary Western Kentucky Energy Corp. and affiliates. In addition, through its subsidiaries, LCC operates several other independent power projects in the United States. LCC also owns interests in three Argentine gas distribution companies and stakes in two power plants in the United States through another wholly owned subsidiary, LG&E Power Inc. Applicants state that LG&E Energy is in the process of disposing of its stakes in the power plants held by LG&E Power Inc.

<sup>5</sup> LG&E distributes electricity to approximately 384,000 customers and supplies natural gas to approximately 312,000 customers in Louisville and 17 surrounding counties.

<sup>6</sup> KU serves approximately 482,000 customers in 77 Kentucky counties, approximately 30,000 customers in five counties in Virginia, as well as 12 municipalities and fewer than 10 customers in Tennessee.

<sup>7</sup> The 2002 Order also required the divestiture of several other E.ON subsidiaries within three years. Since the issuance of the 2002 Order, E.ON has divested VEBA Oel AG, Viterra Energy Services, Inc., Stinnes AG, Schmalbach Lubeca AG and the other companies required to-be-divested within three years, with the exception of AV Packaging and Hibernia Gamma Beteiligungsgesellschaft mbH. E.ON states that it intends to complete the divestiture of AV Packaging and Hibernia Gamma Beteiligungsgesellschaft mbH by July 1, 2005, the three year anniversary of E.ON's registration under the Act. From January 1, 2002 to June 30, 2004, the aggregate proceeds received by E.ON from the divestiture of various businesses in connection with its transformation from a diversified company into an energy and utility company were approximately EUR 21.8 billion.

<sup>8</sup> Applicants state that most of the financing transactions of E.ON's market unit have been centralized and netted at the parent, or at a direct wholly owned finance subsidiary of the parent, to reduce the Group's overall debt and interest expense.

4. For E.ON and the E.ON Group (other than the LG&E Group (described below)), authority to:

(a) Finance the TBD Subsidiaries and E.ON's nonutility subsidiaries not held within a FUCO group or the LG&E Energy Group ("Retained Nonutility Subsidiaries") through capital contributions, loans, guarantees, purchases of equity or debt securities or other methods, subject to,

(i) An aggregate amount of up to USD 1 billion (through July 1, 2007) (the end of the divestiture period) for TBD Subsidiary investments ("TBD Investment Limit");

(ii) An aggregate amount of up to USD 15 billion for Retained Nonutility Subsidiary investments ("Retained Nonutility Subsidiary Investment Limit"); and

(b) For the Retained Nonutility Subsidiaries, to finance their businesses and acquire new businesses (as permitted under the Act, the rules or by Commission order) through the issuance of equity, preferred stock and debt securities to third parties, subject to the Retained Nonutility Subsidiary Investment Limit.

5. For E.ON through the Intermediate Companies (E.ON U.S. Holding and E.ON U.S. Investments) and through the related financing subsidiaries, authority to finance the Intermediate Companies and LG&E Energy and its subsidiaries (including LG&E and KU) (together, "LG&E Energy Group") by:

(a) Issuance and sale of securities to E.ON and associate companies (but not companies in the LG&E Energy Group (described below));

(b) For E.ON North America Inc. ("E.ON NA") and Fidelia Corp. ("Fidelia") (and any of their subsidiaries), issuance and sale of securities to third parties, such as banks, to finance the capital needs of the E.ON Group, including the LG&E Energy Group;

(c) For the Intermediate Companies and their subsidiaries, acquisition of securities of other Intermediate Companies and their subsidiaries and the LG&E Energy Group;

(d) For the Intermediate Companies and their subsidiaries, issuance of guarantees and other forms of credit support to or for the benefit of another Intermediate Company, its subsidiaries and the LG&E Energy Group, subject to an aggregate amount of up to USD 2 billion at any one time outstanding (exclusive of guarantees exempt under rules 45(b) and 58(a)(1)); and

(e) For the LG&E Energy Group, including LG&E and KU, authority,

(i) For LG&E Energy, to issue and sell short-term debt securities in an

aggregate amount of up to USD 400 million;

(ii) For the Utility Subsidiaries, each of LG&E and KU,

(a) To issue and sell long-term debt securities having a maturity of two years or less in an aggregate amount of up to USD 400 million and USD 400 million, respectively;

(b) To issue and sell short-term debt securities in an aggregate amount of up to USD 200 million and USD 200 million, respectively;

(c) To continue to obtain secured intercompany loans from Fidelia in an aggregate amount of up to USD 275 million and USD 215 million, respectively;

(d) To guarantee, or provide other credit support, for the obligations of their subsidiaries and other companies in which they have invested (but not exempt wholesale generators, as defined in section 32 of the Act ("EWGs"), exempt telecommunications companies, as defined in section 34 of the Act ("ETCs"), or FUCOs), in an amount of up to USD 200 million and USD 200 million, respectively;

(iii) For LG&E Energy and its nonutility subsidiaries, to enter into intercompany loans in an aggregate amount of up to USD 1.5 billion (excluding amounts exempt under rules 45(b) and 52) at any one time outstanding (and LG&E Energy will not borrow from its subsidiaries);

(iv) For LG&E Energy, to issue guarantees and other credit support in an aggregate amount of up to USD 1.5 billion at any one time outstanding (excluding amounts exempt under rule 45(b) and separate from E.ON's External Limit and E.ON's Guarantee Limit); and

(v) For the LG&E Energy Group nonutility subsidiaries, to issue guarantees and other credit support in an additional aggregate amount of up to USD 1.5 billion, at any one time outstanding (exclusive of guarantees that may be exempt under rule 45(b) and separate from E.ON's External Limit and E.ON's Guarantee Limit).

6. For Applicants, to continue the existing money pools and intercompany financing arrangements.

7. For Applicants, authority to form financing entities ("Financing Entities," as defined below) and engage in related transactions.

8. For Applicants, authority for each company in the E.ON Group (other than EWGs, FUCOs and ETCs), to acquire, redeem or retire its securities (or those of its direct and indirect subsidiaries), either outstanding presently or issued and sold in the future, from time to time.

9. For Applicants, to continue authority to change the terms of any E.ON Group company's authorized capital stock, issue additional shares, or alter of the terms of any existing authorized security.

10. For Applicants, authority to continue to pay dividends out of capital or unearned surplus.

11. For Applicants, authority to restructure, consolidate or otherwise reorganize, E.ON's nonutility holdings, which may include the acquisition, directly or indirectly, of securities of one or more intermediate subsidiaries ("Development Subsidiaries," as defined below) organized exclusively for the purpose of acquiring, financing, divesting and/or holding the securities of one or more existing or future nonutility subsidiaries.<sup>10</sup>

12. For Applicants, authority to continue to invest in EWGs and FUCOs up to an aggregate amount of USD 65 billion ("Aggregate EWG/FUCO Financing Limitation").

13. For Applicants, authority to invest in energy-related companies doing business outside the U.S. ("Energy-Related Subsidiaries") in an aggregate amount of up to USD 10 billion ("Energy-Related Subsidiary Investment Limit").

### III. Financing Parameters

Applicants represent that the following general terms will be applicable, where appropriate, to the external financing transactions requested to be authorized in the Application.

#### A. Effective Cost of Money

Applicants state that the effective cost of money on external debt securities and preferred stock or other types of preferred securities will not exceed the competitive market rates available at the time of issuance for securities having the same or reasonably similar terms and conditions issued by similar companies of reasonably comparable credit quality.

#### B. Maturity

Applicants state that the maturity of long-term debt will be between one and 50 years after their issuance. Preferred securities and equity-linked securities will be redeemed no later than 50 years after their issuance, unless converted into common stock. Preferred stock issued directly by E.ON may be perpetual in duration. Short-term debt

<sup>10</sup> Development Subsidiaries may also engage in development activities ("Development Activities") and administrative activities ("Administrative Activities") relating to the permitted businesses of the nonutility subsidiaries.

will have an original maturity of less than one year.

#### C. Issuance Expenses

Applicants state that the underwriting fees, commissions or other similar remuneration paid in connection with the non-competitive issue, sale or distribution of securities will not exceed the greater of: (i) 5% of the principal or total amount of the securities being issued; or (ii) issuance expenses that are generally paid at the time of the pricing for sales of the particular issuance, having the same or reasonably similar terms and conditions issued by similar companies of reasonably comparable credit quality.

#### D. Common Equity Ratio and Investment Grade Ratings

E.ON and LG&E Energy, each on a consolidated basis, and LG&E and KU will maintain common stock equity as a percentage of total capitalization of at least 30%, as reflected in their most recent annual or semiannual report, in the case of E.ON, and, with respect to LG&E Energy and the Utility Subsidiaries, quarterly financial statements prepared in accordance with U.S. GAAP; provided that E.ON in any event will be authorized to issue common stock to the extent permitted as a consequence of this Application.

Applicants further represent that, except for securities issued for the purpose of funding money pool operations, no guarantees or other securities, other than common stock, may be issued in reliance upon the authorization granted by the Commission pursuant to the Application unless: (i) The security to be issued, if rated, is rated investment grade; (ii) all outstanding securities of the issuer that are rated, are rated investment grade; and (iii) all outstanding securities of E.ON that are rated, are rated investment grade. For purposes of this provision ("Investment Grade Condition"), a security will be deemed to be rated "investment grade" if it is rated investment grade by at least one nationally recognized statistical rating organization ("NRSRO"), as that term is used in paragraphs (c)(2)(vi)(E), (F) and (H) of rule 15c3-1 under the Securities Exchange Act of 1934, as amended. In addition, Applicants request authorization as follows: (i) Notwithstanding that at any time the preferred stock of a Utility Subsidiary, if rated, may not be rated investment grade by an NRSRO, such Utility Subsidiary may nonetheless participate in the Utility Money Pool, borrow funds as secured intercompany loans from Fidelity and borrow funds as

intercompany loans; and (ii) notwithstanding that at any time the securities of a nonutility subsidiary that are rated are not rated investment grade, such nonutility subsidiary may nonetheless participate in the U.S. Nonutility Money Pool and may borrow funds as intercompany loans. Applicants request that the Commission reserve jurisdiction over the issuance of any guarantee or other securities in reliance upon the authorization granted by the Commission pursuant to the Application at any time that the conditions set forth in clauses (i) through (iii) above are not satisfied.

#### E. Use of Proceeds

Applicants state that the proceeds from the proposed financings will be used for general corporate purposes, including: (i) Financing investments by and capital expenditures of the E.ON Group; (ii) the funding of future investments in companies that are exempt under the Act or the rules or permitted by Commission order, including EWGs, FUCOs, TBD Subsidiaries, ETCs and Rule 58 Subsidiaries (as defined below); (iii) the repayment, redemption, refunding or purchase by any E.ON Group company of any of its own securities; (iv) financing or refinancing capital requirements of the E.ON Group; and (v) other lawful purposes. Applicants represent that no financing proceeds will be used to acquire the equity securities of any company unless the acquisition has been approved by the Commission or is in accordance with an available exemption under the Act or rules, including sections 32, 33, 34 and rule 58.

#### IV. The Request

Applicants request the following authorizations during the Authorization Period as described below.

##### A. E.ON External Financing and Related Transactions

E.ON requests authorization to increase its capitalization through the issuance and sale of securities, including, but not necessarily limited to, common stock, preferred stock, preferred securities, equity-linked securities, options, warrants, purchase contracts, units (consisting of one or more purchase contracts, warrants, debt securities, shares of preferred stock, shares of common stock or any combination of such securities), long-term debt, subordinated debt, lease financing, bank borrowings, securities with call or put options, and securities convertible into any of these securities, up to an aggregate amount of new

financing not to exceed USD 50 billion outstanding at any one time (exclusive of short-term debt and guarantees), the E.ON External Limit, during the Authorization Period; provided that securities issued for purposes of refunding or replacing other outstanding securities (where E.ON's capitalization is not increased as a result) shall not be counted against this limitation.<sup>11</sup> E.ON further proposes that issuances subject to the E.ON External Limit (an aggregate limit of USD 50 billion), the E.ON Short-term Limit (an aggregate limit of USD 30 billion) and the E.ON Guarantee Limit (an aggregate limit of USD 40 billion) would not, in the aggregate, exceed USD 75 billion, during the Authorization Period, which would be consistent with its current overall financing limits.<sup>12</sup>

##### A.1. Common Stock, Preferred Stock, Preferred Securities and Equity-linked Securities

E.ON requests authorization to issue and sell common stock, options, warrants or other stock purchase rights exercisable for common stock.<sup>13</sup> E.ON also proposes to issue common stock and/or purchase shares of its common stock (either currently or under forward contracts) in the open market or through negotiated purchases for purposes of: (i) Reissuing such shares at a later date pursuant to stock-based plans which are maintained for stockholders, employees and directors; or (ii) managing its capital structure. E.ON further requests authorization to use its common stock and other equity instruments to fund employee benefit plans and in connection with dividend reinvestment plans currently in existence or that may be formed during the Authorization Period.<sup>14</sup>

E.ON also requests authorization to issue preferred stock directly and/or issue, indirectly, through one or more financing subsidiaries, other forms of preferred securities (including, without

<sup>11</sup> These financing transactions will be valued at the time of issuance.

<sup>12</sup> See note 1, above. The Commission's 2002 Order placed an overall limit on E.ON's external financing of USD 75 billion. That limit applied E.ON's aggregate issuances of equity, long- and short-term debt securities and guarantees.

<sup>13</sup> Public distributions may be pursuant to private negotiation with underwriters, dealers or agents, or effected through competitive bidding among underwriters. In addition, sales may be made through private placements or other non-public offerings to one or more persons.

<sup>14</sup> E.ON states that it currently maintains a stock-based compensation plan that issues stock appreciation rights ("SARs"), authorized by the Commission's 2002 Order, and it proposes to issue shares of its common stock to satisfy its obligations under its stock-based plans, as they may be amended or extended, and similar plans or plan funding arrangements adopted in the future without additional Commission order.

limitation, trust preferred securities or monthly income preferred securities), equity-linked securities in the form of stock purchase units (which combine a security with a fixed obligation (e.g., preferred stock or debt) with a stock purchase contract that is exercisable (either mandatorily or at the option of the holder or a combination of both) within a relatively short period (e.g., three to six years after issuance)). Applicants state that these transactions will be subject to the E.ON External Limit.

#### A.2. Long-term Debt

E.ON also requests authorization to issue unsecured long-term debt that may be issued directly through a public or private placement, or indirectly, through one or more financing subsidiaries, in the form of notes, convertible notes, medium-term notes or debentures under one or more indentures or long-term indebtedness under agreements with banks or other institutional lenders.<sup>15</sup> Applicants state that these transactions will be subject to the E.ON External Limit.

#### A.3. Short-term Debt

E.ON requests authority to issue and sell from time to time, directly or indirectly through one or more Financing Entities, unsecured short-term debt, including commercial paper and bank borrowings, in an aggregate principal amount at any time outstanding not to exceed USD 30 billion, the E.ON Short-term Limit; provided that securities issued for purposes of refunding or replacing other outstanding short-term debt securities (where E.ON's capitalization is not changed as a result) shall not be counted against this limitation.

E.ON requests further authorization to issue and sell, from time to time, directly or indirectly through one or more Financing Entities, unsecured short-term debt, an aggregate amount at any time outstanding of up to the E.ON Short-term Limit, in the form of commercial paper, notes issued to banks and other institutional lenders, and other forms of unsecured short-term indebtedness. Applicants state that short-term borrowings under credit lines will have original maturities of less than a year from the date of each borrowing. Applicants state that these transactions

<sup>15</sup> The maturity dates, interest rates, redemption and sinking fund provisions and conversion features, if any, with respect to the long-term debt of a particular series, as well as any associated placement, underwriting or selling agent fees, commissions and discounts, if any, will be established by negotiation or competitive bidding at the time of issuance.

will be subject to the E.ON External Limit.

#### A.4. Interest Rate, Currency and Certain Equity Risk Management Devices

E.ON requests authorization to enter into, perform, purchase and sell financial instruments intended to manage the volatility of interest rates and currency exchange rates, including but not limited to swaps, caps, floors, collars and forward agreements or any other similar agreements ("Hedging Instruments"). E.ON will employ Hedging Instruments as a means of prudently managing the risk associated with any of the outstanding debt issued by it or any of its associate companies under the authority requested in the Application or an applicable exemption by, for example: (i) Converting variable rate debt to fixed rate debt; (ii) converting fixed rate debt to variable rate debt; (iii) limiting the impact of changes in interest rates resulting from variable rate debt; and (iv) providing an option to enter into interest rate swap transactions in future periods for planned issuances of debt securities.

E.ON also proposes to enter into Hedging Instruments with respect to anticipated debt or equity offerings ("Anticipatory Hedges"), subject to certain limitations and restrictions. Anticipatory Hedges would only be entered into on-exchange or off-exchange with Approved Counterparties, and would be used to fix and/or limit the interest rate or currency exchange rate risk associated with any proposed new issuance.<sup>16</sup>

E.ON's subsidiaries also propose to enter into Hedging Instruments or Anticipatory Hedges to hedge interest rate or currency exposures, subject to the limitations described above.

#### A.5. Guarantees

E.ON requests authorization to provide guarantees with respect to debt securities or other contractual obligations of any subsidiary, as may be appropriate in the ordinary course of the subsidiary's business, up to an aggregate principal or nominal amount not to

<sup>16</sup> Applicants state that Anticipatory Hedges may include: (i) A forward sale of U.S. or European Economic Area ("EEA") Treasury futures contracts, U.S. or EEA Treasury obligations and/or a forward swap (each a "Forward Sale"); (ii) the purchase of put options on U.S. or EEA Treasury obligations ("Put Options Purchase"); (iii) a Put Options Purchase in combination with the sale of call options on U.S. or EEA Treasury obligations ("Zero Cost Collar"); (iv) transactions involving the purchase or sale of U.S. or EEA Treasury obligations; or (v) some combination of a Forward Sale, Put Options Purchase, Zero Cost Collar and/or other derivative or cash transactions, including, but not limited to, structured notes, caps and collars, appropriate for the Anticipatory Hedges.

exceed USD 40 billion at any one time outstanding (the E.ON Guarantee Limit), exclusive of any guarantees and other forms of credit support that are exempt under rules 45(b) and 52(b); provided, however, that the amount of guarantees in respect of obligations of any EWGs and FUCOs or companies engaged or formed to engage in proposed energy-related businesses, and proposed companies exempt under rule 58 under the Act ("Rule 58 Subsidiaries") shall remain subject to the limitations of rules 53(a)(1) and 58(a)(1), as applicable.

E.ON requests authorization for the E.ON Group (other than the LG&E Energy Group) to charge each subsidiary (other than an LG&E Energy Group company), a fee for the period of time that a guaranty is outstanding, the fee to be based upon market rates, which take into account credit risk, where it may be necessary to operate its business efficiently under applicable regulations.<sup>17</sup> E.ON represents that the amount of guarantees for obligations of any Rule 58 Subsidiaries shall remain subject to the limitations of rule 58(a)(1).

#### A.6. Profit and Loss Transfer Agreements

Applicants request that the Commission continue to authorize the profit and loss transfer agreements of E.ON and its German subsidiaries.

#### B. Subsidiary Financing and Related Transactions

##### B.1. TBD Subsidiaries and Retained Nonutility Subsidiaries

The E.ON Group (other than the LG&E Energy Group) request authorization to finance the TBD Subsidiaries and the Retained Nonutility Subsidiaries through capital contributions, loans, guarantees, purchase of equity or debt securities or other methods throughout the Authorization Period. The Retained Nonutility Subsidiaries also propose to finance their respective businesses and the acquisition of new businesses (as permitted under the Act or the rules or by Commission order), through the issuance of equity, preferred stock and debt securities to third parties.

Applicants propose that, in connection with the financing of the TBD Subsidiaries, they be authorized to make investments in an aggregate amount of up to USD 1 billion (the TBD

<sup>17</sup> Where regulations are not applicable, or for any guarantee of an LG&E Energy Group company, E.ON may charge the subsidiary a fee for each guarantee that is not greater than the cost, if any, of obtaining the liquidity necessary to perform the guarantee (for example, bank line commitment fees or letter of credit fees, plus other transactional expenses) for the period of time that it remains outstanding.

Investment Limit), through July 1, 2007 (the end of the divestiture period). In addition, Applicants propose that financing of, and investments in, the Retained Nonutility Subsidiaries, be authorized in an aggregate amount of up to USD 15 billion.

#### B.2. LG&E Energy Group Companies and the Intermediate Companies

E.ON owns LG&E Energy through the Intermediate Companies, E.ON U.S. Holding and E.ON U.S. Investments, which are registered holding companies under the Act. E.ON U.S. Holding also owns Fidelia, a Financing Entity, and E.ON U.S. Investments owns E.ON NA and its subsidiaries, which also function as Financing Entities.

To finance the LG&E Energy Group and/or the Intermediate Companies and their subsidiaries, Applicants request authorization for the Intermediate Companies and their subsidiaries to issue and sell securities to E.ON and associate companies, but not companies in the LG&E Energy Group.

In addition, authorization is requested for E.ON NA and Fidelia (and any of their subsidiaries) to issue securities to third parties, such as banks, to finance the capital needs of the E.ON Group, including the LG&E Energy Group. Applicants also request authorization for the Intermediate Companies and their subsidiaries to acquire securities of other Intermediate Companies and their subsidiaries and the LG&E Energy Group companies.

The Intermediate Companies and their subsidiaries also seek authorization to issue guarantees, and other forms of credit support, to or for the benefit of another Intermediate Company, its subsidiaries and the LG&E Energy Group companies. Applicants state that, in no case would an Intermediate Company borrow, or receive any extension of credit or indemnity from any LG&E Energy Group company or its subsidiaries, except that an Intermediate Company may borrow from its direct or indirect Financing Entity that is not part of the LG&E Energy Group.

In addition, authority is requested for the Intermediate Companies, E.ON NA and Fidelia, and their respective subsidiaries, to guarantee the indebtedness or contractual obligations of, and to otherwise provide credit support to, their respective associated subsidiary companies up to an aggregate amount of external guarantees not exceed USD 2 billion outstanding (exclusive of any guarantees and other forms of credit support that are exempt under rules 45(b) and 52(b)); *provided, however*, that the amount of guarantees

for obligations of any Rule 58 Subsidiaries shall remain subject to the limitations of rule 58(a)(1). Applicants state that, for reasons of economic efficiency, the terms and conditions of any financings between an Intermediate Company (or E.ON NA and Fidelia) and its direct or indirect parent, or between an Intermediate Company and a FUCO subsidiary or their associate company subsidiaries, will be on market terms. Applicants state that market rate financing assures that intercompany loans will not be used to transfer profits from one related entity to another and will also allow the lending entity to recover its true costs of liquidity, risks associated with credit quality and interest rate and currency variability.

#### B.2.a. LG&E Energy Short-term Debt

LG&E Energy requests authorization to obtain funds through the issuance of external short-term debt securities in an aggregate amount of up to USD 400 million, to meet its funding requirements.

#### B.2.b. Utility Subsidiary Debt, Intercompany Loans and Guarantees

LG&E and KU request authorization to issue certain long-term and short-term debt securities having maturities of two years or less in an aggregate amount of up to USD 400 million at any one time outstanding for each of LG&E and KU (to the extent their financing is not exempt under rule 52(a), or otherwise), as each may deem appropriate in light of its needs and market conditions at the time of issuance, subject to the applicable Financing Parameters.

Applicants also request that LG&E and KU be authorized, up to amounts of USD 275 million and USD 215 million, respectively, to obtain secured intercompany loans from Fidelia, as currently authorized, through the Authorization Period.<sup>18</sup> In addition, authorization is requested for Fidelia to provide intercompany loans to LG&E and KU on a secured basis.

Utility Subsidiaries also seek authorization, up to an amount of USD 200 million in the case of LG&E and USD 200 million in the case of KU, to guarantee, or otherwise provide credit support for, the obligations of their subsidiaries and other companies in which they have invested (but not EWGs, ETCs or FUCOs), to the extent

<sup>18</sup> LG&E and KU request authorization under section 12(d) of the Act and rule 43 to secure these intercompany loans with a subordinated lien on certain personal property of the respective company, including "utility assets" within the meaning of the Act, as the Commission previously authorized, through May 31, 2005. See *E.ON, et al.*, Holding Co. Act Release No. 27711 (Aug. 15, 2003); see also SEC File No. 70-9985.

not exempt under rule 45. Applicants represent that any guarantee of an obligation of an EWG, FUCO or ETC will be undertaken only if the investment is authorized under sections 32, 33 or 34 of the Act, applicable rules, and/or Commission order.

Applicants request that the Utility Subsidiaries be permitted to charge each subsidiary a fee for each guarantee provided on the subsidiary's behalf that is not greater than the cost, if any, of the liquidity necessary to perform the guarantee. Applicants further state that guarantees issued by Utility Subsidiaries will not be secured by any utility assets.

#### B.2.c. Certain Other LG&E Energy Group Subsidiary Transactions

E.ON, E.ON NA and Fidelia (or a special purpose financing subsidiary) request authorization to finance all or a portion of the capital needs of the LG&E Energy Group companies directly, or indirectly through other E.ON Group companies, including the Intermediate Companies, at the lowest practical cost. Companies in the LG&E Energy Group propose to borrow funds from other E.ON Group companies that may have available surplus funds.

Applicants state that, except for the secured intercompany loans, described above, the borrowings will be unsecured and, in all cases, the borrowings will only occur if the interest rate on the loan would result in an equal or lower cost of borrowing than the LG&E Energy Group company could obtain in a loan from E.ON or in the capital markets on its own.<sup>19</sup> Applicants state that borrowings by LG&E Energy Group companies would comply, at a minimum, with the Financing Parameters.

Applicants request authorization for intercompany loans among LG&E Energy and its nonutility subsidiaries in an amount of up to USD 1.5 billion at any one time outstanding during the Authorization Period. Applicants state that this intrasystem financing amount would exclude financing exempt under rules 45(b) and 52. They further state that LG&E Energy will not borrow funds from its subsidiary companies and that the terms and conditions of intercompany loans available to any

<sup>19</sup> Applicants state that, consequently, all borrowings by an LG&E Energy Group company from an associate company would be at the lowest of: (i) E.ON's effective cost of capital; (ii) the lending associate's effective cost of capital (if lower than E.ON's effective cost of capital); and (iii) the borrowing LG&E Energy Group's effective cost of capital determined by reference to the effective cost of a direct borrowing by such company from a nonassociate for a comparable term loan that could be entered into at such time (Best Rate Method).

borrowing company will be materially no less favorable than the terms and conditions of loans available to the borrowing company from third-party lenders. In addition, all intercompany loans will be payable on demand or have a maturity of less than 50 years from the date of issuance.

Applicants also request authorization for LG&E Energy and the LG&E Energy Group nonutility subsidiaries to enter into guarantees, extend credit, obtain letters of credit, enter into guaranty-type expense agreements and otherwise to provide credit support for the obligations, from time to time, of the LG&E Energy Group companies during the Authorization Period, specifically:

(a) For LG&E Energy, in an aggregate amount of up to USD 1.5 billion outstanding at any one time (exclusive of guarantees that may be exempt under rule 45(b)); and

(b) For the LG&E Energy Group nonutility subsidiaries, in an additional aggregate amount of up to USD 1.5 billion outstanding at any one time (exclusive of guarantees that may be exempt under rule 45(b)).

Applicants state that these requests are separate from E.ON's External Limit and E.ON's Guarantee Limit.

#### C. Continuation of Money Pools

Applicants request authorization to continue to operate three money pools.<sup>20</sup> The three money pools are the Utility Money Pool,<sup>21</sup> the U.S. Nonutility Money Pool<sup>22</sup> and the E.ON Nonutility Money Pool.<sup>23</sup>

Applicants state that Utility Subsidiaries' borrowings from the Utility Money Pool would be counted against their overall short-term borrowing limits stated above. The U.S. Nonutility Money Pool will be operated on substantially the same terms and conditions as the Utility Money Pool. The E.ON Nonutility Money Pool is

<sup>20</sup> See 2002 Order (as modified for the E.ON Nonutility Money Pool in *E.ON, et al.*, Holding Co. Act Release No. 27788 (Dec. 29, 2003)).

<sup>21</sup> The Utility Money Pool includes only Utility Subsidiaries, as borrowers from and lenders to the pool. E.ON, E.ON NA, Fidelia and LG&E Energy may lend to, but not borrow from, the Utility Money Pool. LG&E Energy Services Inc. ("LG&E Services") will continue to act as the administrator of the Utility Money Pool.

<sup>22</sup> The U.S. Nonutility Money Pool includes the nonutility subsidiaries as borrowers from and lenders to the pool. E.ON, E.ON NA, Fidelia and LG&E Energy may lend to, but not borrow from, the U.S. Nonutility Money Pool. LG&E Services will continue to act as the administrator of the U.S. Nonutility Money Pool.

<sup>23</sup> The E.ON Nonutility Money Pool may include all E.ON Group companies as borrowers from and lenders to the pool, except E.ON, the Intermediate Companies, and the LG&E Energy Group. E.ON and the Intermediate Companies may lend to, but not borrow from, the E.ON Nonutility Money Pool.

administered by E.ON Finance GmbH (formerly Hibernia Industriewerte GmbH).<sup>24</sup>

#### D. Acquisition, Redemption or Retirement of Securities

Applicants request authorization for each company in the E.ON Group, other than EWGs, FUCOs and ETCs, to acquire, redeem or retire its securities or those of its direct and indirect subsidiaries, which securities may be either outstanding presently or issued and sold in the future from time to time during the Authorization Period. Applicants state that these transactions will be undertaken at either the competitive market prices for the securities or at the stated price for those securities, as applicable, and that Utility Subsidiaries will acquire, retire or redeem securities only in accordance with rule 42.

#### E. Financing Entities

Applicants also request authorization for the E.ON Group companies, except the EWGs, FUCOs and ETCs, to organize new or use existing corporations, trusts, partnerships or other entities ("Financing Entities"), to finance the business of the respective parent company or its subsidiaries. Applicants state that a Financing Entity would be used to finance the authorized or permitted businesses of its direct or indirect parent company ("Founding Parent"), including the businesses of the LG&E Energy Group, but in no event would a Financing Entity engage in prohibited upstream loans involving companies in the LG&E Energy Group.<sup>25</sup>

In addition, Applicants request authorization to issue securities to a Financing Entity to evidence the transfer of financing proceeds by a Financing Entity to a company receiving financing. Applicants also request authorization to enter into support or expense agreements on market price terms with Financing Entities to pay the expenses of any of these entities.

#### F. Changes in Capital Stock of Subsidiaries

Applicants request authority to change the terms of any subsidiary's authorized capital stock capitalization or other equity interests by an amount deemed appropriate by E.ON or any intermediate parent company; provided that the consents of all other

<sup>24</sup> *E.ON, et al.*, Holding Co. Act Release No. 27788 (Dec. 29, 2003); see also note 20 above.

<sup>25</sup> Applicants state that Financing Entities would be intended to issue any securities that the Founding Parent would be authorized to issue, as authorized by the Commission by order, rule or under the Act.

shareholders, if required by applicable corporate law or the subsidiary's governing documents, have been obtained for the proposed change.

#### G. Payment of Dividends Out of Capital or Unearned Surplus

Applicants request authorization that each of the TBD Subsidiaries, the Retained Nonutility Subsidiaries, the Intermediate Companies, and the LG&E Energy Group companies (excluding Utility Subsidiaries), be permitted to continue to pay dividends with respect to its capital stock, from time to time, out of capital and unearned surplus (to the extent permitted under the corporate law and state or national law applicable in the jurisdiction where each company is organized and the terms of any credit agreements and indentures that restrict the amount and timing of distributions to shareholders), through the Authorization Period. Applicants state that, in addition, none of the companies will declare or pay any dividend out of capital or unearned surplus unless it: (i) Has received excess cash as a result of the sale of some or all of its assets; (ii) has engaged in a restructuring or reorganization; and/or (iii) is returning capital to an associate company.

#### H. Nonutility Reorganizations

Applicants also request continued authority to restructure, consolidate or otherwise reorganize E.ON's nonutility holdings, including those in the LG&E Energy Group, from time to time, as may be necessary or appropriate in furtherance of the E.ON Group's authorized nonutility activities, and to maintain and support investment in the E.ON TBD Subsidiaries pending divestiture.

E.ON requests authorization to acquire, directly or indirectly, the securities of one or more intermediate subsidiaries ("Development Subsidiaries") organized exclusively for the purpose of acquiring, financing, divesting and/or holding the securities of one or more existing or future nonutility subsidiaries. Applicants request authorization for the Development Subsidiaries to provide management, administrative, project development and operating services to direct or indirect subsidiaries at cost, in accordance with section 13 of the Act and the rules, including rules 90 and 91, to the extent transactions are not exempt, or authorized or permitted by Commission rule or order.

*I. EWG and FUCO Subsidiaries and Reinvestment of Proceeds From the Divestiture of Nonutility Businesses*

E.ON requests the Commission authorize continued investment in an aggregate amount of up to USD 65 billion in EWGs and FUCOs, the Aggregate EWG/FUCO Financing Limitation.<sup>26</sup> Applicants state that they also seek authority to issue and sell up to USD 35 billion of securities to finance EWG and FUCO investments pending the receipt of divestiture proceeds ("Bridge Loans"), for the flexibility of E.ON, so that attractive investment opportunities may be pursued, because the timing of the receipt of divestiture proceeds will not always coincide with the opportunity to invest in additional EWG or FUCO assets.<sup>27</sup> Applicants state that any issuance of Bridge Loans would count against the E.ON External Limit or the E.ON Short-term Limit, depending on the maturity of the Bridge Loans.

*J. Energy-Related Subsidiaries*

E.ON also seeks authorization to acquire and to invest up to USD 10 billion, the Energy-Related Subsidiary Investment Limit, of the divestiture proceeds during the Authorization Period in certain permitted nonutility businesses located primarily outside of the U.S.

For the Commission by the Division of Investment Management, pursuant to delegated authority.

*Deputy Secretary.*

[FR Doc. E5-2148 Filed 5-3-05; 8:45 am]

BILLING CODE 8010-01-P

**SECURITIES AND EXCHANGE COMMISSION**

[Release Nos. 33-8572; 34-51631/April 28, 2005]

**Order Making Fiscal Year 2006 Annual Adjustments to the Fee Rates Applicable Under Section 6(b) of the Securities Act of 1933 and Sections 13(e), 14(g), 31(b) and 31(c) of the Securities Exchange Act of 1934**

**I. Background**

The Commission collects fees under various provisions of the securities laws. Section 6(b) of the Securities Act of 1933 ("Securities Act") requires the Commission to collect fees from issuers on the registration of securities.<sup>1</sup> Section 13(e) of the Securities Exchange Act of 1934 ("Exchange Act") requires the Commission to collect fees on specified repurchases of securities.<sup>2</sup> Section 14(g) of the Exchange Act requires the Commission to collect fees on proxy solicitations and statements in corporate control transactions.<sup>3</sup> Finally, sections 31(b) and (c) of the Exchange Act require national securities exchanges and national securities associations, respectively, to pay fees on transactions in specified securities to the Commission.<sup>4</sup>

The Investor and Capital Markets Fee Relief Act ("Fee Relief Act")<sup>5</sup> amended section 6(b) of the Securities Act and sections 13(e), 14(g), and 31 of the Exchange Act to require the Commission to make annual adjustments to the fee rates applicable under these sections for each of the fiscal years 2003 through 2011, and one final adjustment to fix the fee rates under these sections for fiscal year 2012 and beyond.<sup>6</sup>

**II. Fiscal Year 2006 Annual Adjustment to the Fee Rates Applicable under Section 6(b) of the Securities Act and Sections 13(e) and 14(g) of the Exchange Act**

Section 6(b)(5) of the Securities Act requires the Commission to make an

annual adjustment to the fee rate applicable under section 6(b) of the Securities Act in each of the fiscal years 2003 through 2011.<sup>7</sup> In those same fiscal years, sections 13(e)(5) and 14(g)(5) of the Exchange Act require the Commission to adjust the fee rates under sections 13(e) and 14(g) to a rate that is equal to the rate that is applicable under section 6(b). In other words, the annual adjustment to the fee rate under section 6(b) of the Securities Act also sets the annual adjustment to the fee rates under sections 13(e) and 14(g) of the Exchange Act.

Section 6(b)(5) sets forth the method for determining the annual adjustment to the fee rate under section 6(b) for fiscal year 2006. Specifically, the Commission must adjust the fee rate under section 6(b) to a "rate that, when applied to the baseline estimate of the aggregate maximum offering prices for [fiscal year 2006], is reasonably likely to produce aggregate fee collections under [Section 6(b)] that are equal to the target offsetting collection amount for [fiscal year 2006]." That is, the adjusted rate is determined by dividing the "target offsetting collection amount" for fiscal year 2006 by the "baseline estimate of the aggregate maximum offering prices" for fiscal year 2006.

Section 6(b)(11)(A) specifies that the "target offsetting collection amount" for fiscal year 2006 is \$689,000,000.<sup>8</sup> Section 6(b)(11)(B) defines the "baseline estimate of the aggregate maximum offering price" for fiscal year 2006 as "the baseline estimate of the aggregate maximum offering price at which securities are proposed to be offered pursuant to registration statements filed with the Commission during [fiscal year 2006] as determined by the Commission, after consultation with the Congressional Budget Office and the Office of Management and Budget.

\* \* \*

To make the baseline estimate of the aggregate maximum offering price for

<sup>7</sup> The annual adjustments are designed to adjust the fee rate in a given fiscal year so that, when applied to the aggregate maximum offering price at which securities are proposed to be offered for the fiscal year, it is reasonably likely to produce total fee collections under section 6(b) equal to the "target offsetting collection amount" specified in section 6(b)(11)(A) for that fiscal year.

<sup>8</sup> Congress determined the target offsetting collection amounts by applying reduced fee rates to the CBO's January 2001 projections of the aggregate maximum offering prices for fiscal years 2002 through 2011. In any fiscal year through fiscal year 2011, the annual adjustment mechanism will result in additional fee rate reductions if the CBO's January 2001 projection of the aggregate maximum offering prices for the fiscal year proves to be too low, and fee rate increases if the CBO's January 2001 projection of the aggregate maximum offering prices for the fiscal year proves to be too high.

<sup>1</sup> 15 U.S.C. 77f(b).

<sup>2</sup> 15 U.S.C. 78m(e).

<sup>3</sup> 15 U.S.C. 78n(g).

<sup>4</sup> 15 U.S.C. 78ee(b) and (c). In addition, Section 31(d) of the Exchange Act requires the Commission to collect assessments from national securities exchanges and national securities associations for round turn transactions on security futures. 15 U.S.C. 78ee(d).

<sup>5</sup> Pub. L. No. 107-123, 115 Stat. 2390 (2002).

<sup>6</sup> See 15 U.S.C. 77f(b)(5), 77f(b)(6), 78m(e)(5), 78m(e)(6), 78n(g)(5), 78n(g)(6), 78ee(j)(1), and 78ee(j)(3). Section 31(j)(2) of the Exchange Act, 15 U.S.C. 78ee(j)(2), also requires the Commission, in specified circumstances, to make a mid-year adjustment to the fee rates under sections 31(b) and (c) of the Exchange Act in fiscal years 2002 through 2011.

<sup>26</sup> See the 2002 Order, note 1 above. Applicants propose that the investments consist of: (i) an initial combined E.ON, Powergen and LG&E Energy aggregate investment in EWGs and FUCOs of USD 4.886 billion, as of December 31, 2001; (ii) the proposed reinvestment of the sale proceeds of the TBD Subsidiary divestitures in an amount up to USD 35 billion; and (iii) an additional amount of EWG/FUCO proposed investment of up to USD 25 billion.

<sup>27</sup> Applicants state that, upon the receipt of the divestiture proceeds, the Bridge Loans or debt securities with an equivalent principal amount would be retired, redeemed or otherwise paid down.

fiscal year 2006, the Commission is using the same methodology it developed in consultation with the Congressional Budget Office ("CBO") and Office of Management and Budget ("OMB") to project aggregate offering price for purposes of the fiscal year 2005 annual adjustment. Using this methodology, the Commission determines the "baseline estimate of the aggregate maximum offering price" for fiscal year 2006 to be \$6,437,675,847,178.<sup>9</sup> Based on this estimate, the Commission calculates the annual adjustment for fiscal 2006 to be \$107.00 per million. This adjusted fee rate applies to section 6(b) of the Securities Act, as well as to sections 13(e) and 14(g) of the Exchange Act.

### III. Fiscal Year 2006 Annual Adjustment to the Fee Rates Applicable Under Sections 31(b) and (c) of the Exchange Act

Section 31(b) of the Exchange Act requires each national securities exchange to pay the Commission a fee at a rate, as adjusted by our order pursuant to section 31(j)(2), which currently is \$41.80 per million of the aggregate dollar amount of sales of specified securities transacted on the exchange.<sup>10</sup> Similarly, section 31(c) requires each national securities association to pay the Commission a fee at the same adjusted rate on the aggregate dollar amount of sales of specified securities transacted by or through any member of the association otherwise than on an exchange. Section 31(j)(1) requires the Commission to make annual adjustments to the fee rates applicable under sections 31(b) and (c) for each of the fiscal years 2003 through 2011.<sup>11</sup>

Section 31(j)(1) specifies the method for determining the annual adjustment

for fiscal year 2006. Specifically, the Commission must adjust the rates under sections 31(b) and (c) to a "uniform adjusted rate that, when applied to the baseline estimate of the aggregate dollar amount of sales for [fiscal year 2006], is reasonably likely to produce aggregate fee collections under [Section 31] (including assessments collected under [Section 31(d)]) that are equal to the target offsetting collection amount for [fiscal year 2006]."

Section 31(j)(1) specifies that the "target offsetting collection amount" for fiscal year 2006 is \$1,435,000,000.<sup>12</sup> Section 31(j)(2) defines the "baseline estimate of the aggregate dollar amount of sales" as "the baseline estimate of the aggregate dollar amount of sales of securities \* \* \* to be transacted on each national securities exchange and by or through any member of each national securities association (otherwise than on a national securities exchange) during [fiscal year 2006] as determined by the Commission, after consultation with the Congressional Budget Office and the Office of Management and Budget. \* \* \*"

To make the baseline estimate of the aggregate dollar amount of sales for fiscal year 2006, the Commission is using the same methodology it developed in consultation with the CBO and OMB to project dollar volume for purposes of prior fee adjustments.<sup>13</sup> Using this methodology, the Commission calculates the baseline estimate of the aggregate dollar amount of sales for fiscal year 2006 to be \$45,554,892,611,953. Based on this estimate, and an estimated collection of \$110,180 in assessments on securities futures transactions under Section 31(d) in fiscal year 2006, the uniform adjusted rate is \$30.70 per million.<sup>14</sup>

<sup>12</sup> Congress determined the target offsetting collection amounts by applying reduced fee rates to the CBO's January 2001 projections of dollar volume for fiscal years 2002 through 2011. In any fiscal year through fiscal year 2011, the annual and, in specified circumstances, mid-year adjustment mechanisms will result in additional fee rate reductions if the CBO's January 2001 projection of dollar volume for the fiscal year proves to be too low, and fee rate increases if the CBO's January 2001 projection of dollar volume for the fiscal year proves to be too high.

<sup>13</sup> Appendix B explains how we determined the "baseline estimate of the aggregate dollar amount of sales" for fiscal year 2006 using our methodology, and then shows the purely arithmetical process of calculating the fiscal year 2006 annual adjustment based on that estimate. The appendix also includes the data used by the Commission in making its "baseline estimate of the aggregate dollar amount of sales" for fiscal year 2006.

<sup>14</sup> The calculation of the adjusted fee rate assumes that the current fee rate of \$41.80 per million will apply through October 31st due to the operation of the effective date provision contained in section 31(j)(4)(A) of the Exchange Act.

### IV. Effective Dates of the Annual Adjustments

Section 6(b)(8)(A) of the Securities Act provides that the fiscal year 2006 annual adjustment to the fee rate applicable under section 6(b) of the Securities Act shall take effect on the later of October 1, 2005, or five days after the date on which a regular appropriation to the Commission for fiscal year 2006 is enacted.<sup>15</sup> Section 13(e)(8)(A) and 14(g)(8)(A) of the Exchange Act provide for the same effective date for the annual adjustments to the fee rates applicable under sections 13(e) and 14(g) of the Exchange Act.<sup>16</sup>

Section 31(j)(4)(A) of the Exchange Act provides that the fiscal year 2006 annual adjustments to the fee rates applicable under sections 31(b) and (c) of the Exchange Act shall take effect on the later of October 1, 2005, or thirty days after the date on which a regular appropriation to the Commission for fiscal year 2006 is enacted.

### V. Conclusion

Accordingly, pursuant to section 6(b) of the Securities Act and sections 13(e), 14(g) and 31 of the Exchange Act,<sup>17</sup>

*It is hereby ordered* that the fee rates applicable under section 6(b) of the Securities Act and sections 13(e) and 14(g) of the Exchange Act shall be \$107.00 per million effective on the later of October 1, 2005, or five days after the date on which a regular appropriation to the Commission for fiscal year 2006 is enacted; and

*It is further ordered* that the fee rates applicable under sections 31(b) and (c) of the Exchange Act shall be \$30.70 per million effective on the later of October 1, 2005, or thirty days after the date on which a regular appropriation to the Commission for fiscal year 2006 is enacted.

By the Commission.

**J. Lynn Taylor,**  
Assistant Secretary.

### APPENDIX A

With the passage of the Investor and Capital Markets Relief Act, Congress has, among other things, established a target amount of monies to be collected from fees charged to issuers based on the value of their registrations. This appendix provides the formula for determining such fees, which the Commission adjusts annually. Congress has mandated that the Commission determine these fees based on the "aggregate maximum offering prices," which measures the aggregate dollar amount of securities

<sup>15</sup> 15 U.S.C. 77f(b)(8)(A).

<sup>16</sup> 15 U.S.C. 78m(e)(8)(A) and 78n(g)(8)(A).

<sup>17</sup> 15 U.S.C. 77f(b), 78m(e), 78n(g), and 78ee(j).

<sup>9</sup> Appendix A explains how we determined the "baseline estimate of the aggregate maximum offering price" for fiscal year 2006 using our methodology, and then shows the purely arithmetical process of calculating the fiscal year 2006 annual adjustment based on that estimate. The appendix includes the data used by the Commission in making its "baseline estimate of the aggregate maximum offering price" for fiscal year 2006.

<sup>10</sup> Order Making Fiscal 2005 Mid-Year Adjustment to the Fee Rates Applicable Under Sections 31(b) and (c) of the Securities Exchange Act of 1934, Rel. No. 34-51277 (February 28, 2005), 70 FR 10695 (March 4, 2005).

<sup>11</sup> The annual adjustments, as well as the mid-year adjustments required in specified circumstances under section 31(j)(2) in fiscal years 2002 through 2011, are designed to adjust the fee rates in a given fiscal year so that, when applied to the aggregate dollar volume of sales for the fiscal year, they are reasonably likely to produce total fee collections under Section 31 equal to the "target offsetting collection amount" specified in section 31(j)(1) for that fiscal year.

registered with the SEC over the course of the year. In order to maximize the likelihood that the amount of monies targeted by Congress will be collected, the fee rate must be set to reflect projected aggregate maximum offering prices. As a percentage, the fee rate equals the ratio of the target amounts of monies to the projected aggregate maximum offering prices.

For 2006, the Commission has estimated the aggregate maximum offering prices by projecting forward the trend established in the previous decade. More specifically, an ARIMA model was used to forecast the value of the aggregate maximum offering prices for months subsequent to March 2005, the last month for which the Commission has data on the aggregate maximum offering prices.

The following sections describe this process in detail.

#### A. Baseline Estimate of the Aggregate Maximum Offering Prices for Fiscal Year 2006.

First, calculate the aggregate maximum offering prices (AMOP) for each month in the sample (March 1995—March 2005). Next, calculate the percentage change in the AMOP from month-to-month.

Model the monthly percentage change in AMOP as a first order moving average process. The moving average approach allows one to model the effect that an exceptionally high (or low) observation of

AMOP tends to be followed by a more "typical" value of AMOP.

Use the estimated moving average model to forecast the monthly percent change in AMOP. These percent changes can then be applied to obtain forecasts of the total dollar value of registrations. The following is a more formal (mathematical) description of the procedure:

1. Begin with the monthly data for AMOP. The sample spans ten years, from March 1995 to March 2005. There are 3 months in the sample for which the data are omitted because of the impact of extraordinary events (e.g., the 1995 government shutdown).

2. Divide each month's AMOP (column C) by the number of trading days in that month (column B) to obtain the average daily AMOP (AAMOP, column D).

3. For each month  $t$ , the natural logarithm of AAMOP is reported in column E.

4. Calculate the change in log (AAMOP) from the previous month as  $\Delta_t = \log(\text{AAMOP}_t) - \log(\text{AAMOP}_{t-1})$ . This approximates the percentage change.

5. Estimate the first order moving average model  $\Delta_t = \alpha + \beta e_{t-1} + e_t$ , where  $e_t$  denotes the forecast error for month  $t$ . The forecast error is simply the difference between the one-month ahead forecast and the actual realization of  $\Delta_t$ . The forecast error is expressed as  $e_t = \Delta_t - \alpha - \beta e_{t-1}$ . The model can be estimated using standard commercially available software such as SAS or Eviews. Using least squares, the estimated

parameter values are  $\alpha = 0.01275$  and  $\beta = -0.74504$ .

6. For the month of April 2005, forecast  $\Delta_t = 4/05 = \alpha + \beta e_{t=3/05}$ . For all subsequent months, forecast  $\Delta_t = \alpha$ .

7. Calculate forecasts of log (AAMOP). For example, the forecast of log (AAMOP) for June 2005 is given by  $\text{FLAAMOP}_{t=6/05} = \log(\text{AAMOP}_{t=3/05}) + \Delta t = 4/05 + \Delta_{t=5/05} + \Delta_{t=6/05}$ .

8. Under the assumption that  $e_t$  is normally distributed, the  $n$ -step ahead forecast of AAMOP is given by  $\exp(\text{FLAAMOP}_t + \sigma_e^2/2)$ , where  $\sigma_e$  denotes the standard error of the  $n$ -step ahead forecast.

9. For June 2005, this gives a forecast AAMOP of \$22.0 Billion (Column I), and a forecast AMOP of \$484.0 Billion (Column J).

10. Iterate this process through September 2006 to obtain a baseline estimate of the aggregate maximum offering prices for fiscal year 2006 of \$6,437,675,847,178.

#### B. Using the Forecasts From A to Calculate the New Fee Rate

1. Using the data from Table A, estimate the aggregate maximum offering prices between 10/1/05 and 9/30/06 to be \$6,437,675,847,178.

2. The rate necessary to collect the target \$689,000,000 in fee revenues set by Congress is then calculated as:  $\$689,000,000 + \$6,437,675,847,178 = 0.00010703$  (or \$107.00 per million.).

Aggregate Maximum Offering Prices Subject to Securities Act Section 6(b)  
(Dashed Line Indicates Forecast Values)

## Appendix B

With the passage of the Investor and Capital Markets Relief Act, Congress has, among other things, established a target amount of monies to be collected from fees charged to investors based on the value of their transactions. This appendix provides the formula for determining such fees, which the Commission adjusts annually, and may adjust semi-annually.<sup>18</sup> In order to maximize the likelihood that the amount of monies targeted by Congress will be collected, the fee rate must be set to reflect projected dollar transaction volume on the securities exchanges and certain over-the-counter markets over the course of the year. As a percentage, the fee rate equals the ratio of the target amounts of monies to the projected dollar transaction volume.

For 2006, the Commission has estimated dollar transaction volume by projecting forward the trend established in the previous decade. More specifically, dollar transaction volume was forecasted for months subsequent to March 2005, the last month for which the Commission has data on transaction volume.

The following sections describe this process in detail.

### A. Baseline Estimate of the Aggregate Dollar Amount of Sales for Fiscal Year 2006

First, calculate the average daily dollar amount of sales (ADS) for each month in the sample (March 1995–March 2005). The monthly aggregate dollar amount of sales (exchange plus certain over-the-counter markets) is presented in column C of Table B.

Next, calculate the change in the natural logarithm of ADS from month-to-month. The

<sup>18</sup> Congress requires that the Commission make a mid-year adjustment to the fee rate if 4 months into the fiscal year it determines that its forecasts of aggregate dollar volume are reasonably likely to be off by 10% or more.

average monthly percentage growth of ADS over the entire sample is 0.015 and the standard deviation 0.117. Assuming the monthly percentage change in ADS follows a random walk, calculating the expected monthly percentage growth rate for the full sample is straightforward. The expected monthly percentage growth rate of ADS is 2.3 percent.

Now, use the expected monthly percentage growth rate to forecast total dollar volume. For example, one can use the ADS for March 2005 (\$136,873,904,911) to forecast ADS for April 2005 (\$139,958,043,570 = \$136,873,904,911 × 1.023).<sup>19</sup> Multiply by the number of trading days in April 2005 (21) to obtain a forecast of the total dollar volume for the month (\$2,939,118,914,973). Repeat the method to generate forecasts for subsequent months.

The forecasts for total dollar volume are in column G of Table B. The following is a more formal (mathematical) description of the procedure:

1. Divide each month's total dollar volume (column C) by the number of trading days in that month (column B) to obtain the average daily dollar volume (ADS, column D).

2. For each month  $t$ , calculate the change in ADS from the previous month as  $\Delta_t = \log(\text{ADS}_t / \text{ADS}_{t-1})$ , where  $\log(x)$  denotes the natural logarithm of  $x$ .

3. Calculate the mean and standard deviation of the series  $\{\Delta_1, \Delta_2, \dots, \Delta_{120}\}$ . These are given by  $\mu = 0.015$  and  $\sigma = 0.117$ , respectively.

4. Assume that the natural logarithm of ADS follows a random walk, so that  $\Delta_t$  and  $\Delta_s$  are statistically independent for any two months  $s$  and  $t$ .

5. Under the assumption that  $\Delta_t$  is normally distributed, the expected value of  $\text{ADS}_t / \text{ADS}_{t-1}$  is given by  $\exp(\mu + \sigma^2/2)$ , or on average  $\text{ADS}_t = 1.023 \times \text{ADS}_{t-1}$ .

<sup>19</sup> The value 1.023 has been rounded. All computations are done with the unrounded value.

6. For April 2005, this gives a forecast ADS of  $1.023 \times \$136,873,904,911 = \$139,958,043,570$ . Multiply this figure by the 21 trading days in April 2005 to obtain a total dollar volume forecast of \$2,939,118,914,973.

7. For May 2005, multiply the April 2005 ADS forecast by 1.023 to obtain a forecast ADS of \$143,111,676,201. Multiply this figure by the 21 trading days in May 2005 to obtain a total dollar volume forecast of \$3,005,345,200,226.

8. Repeat this procedure for subsequent months.

### B. Using the Forecasts From A to Calculate the New Fee Rate

1. Use Table B to estimate fees collected for the period 10/1/05 through 10/31/05. The projected aggregate dollar amount of sales for this period is \$3,359,544,441,122. Projected fee collections at the current fee rate of 0.0000418 are \$140,428,958.

2. Estimate the amount of assessments on securities futures products collected during 10/1/05 and 9/30/06 to be \$110,180 by projecting a 2.3% monthly increase from a base of \$6,889 in March 2005.

3. Subtract the amounts \$140,428,958 and \$110,180 from the target offsetting collection amount set by Congress of \$1,435,000,000 leaving \$1,294,460,862 to be collected on dollar volume for the period 11/1/05 through 9/30/06.

4. Use Table B to estimate dollar volume for the period 11/1/05 through 9/30/06. The estimate is \$42,195,348,170,831. Finally, compute the fee rate required to produce the additional \$1,294,460,862 in revenue. This rate is \$1,294,460,862 divided by \$42,195,348,170,831 or 0.0000306778.

5. Consistent with the system requirements of the exchanges and the NASD, round the result to the seventh decimal point, yielding a rate of .0000307 (or \$30.70 per million).

BILLING CODE 8010-01-P

Table B. Estimation of baseline of the aggregate dollar amount of sales.

## Fee rate calculation.

|  |            |
|--|------------|
| a. Baseline estimate of the aggregate dollar amount of sales, 10/1/05 to 10/31/05 (\$Millions) | 3,359,544  |
| b. Baseline estimate of the aggregate dollar amount of sales, 11/1/05 to 9/30/06 (\$Millions)  | 42,195,348 |
| c. Estimated collections in assessments on securities futures products in FY 2006 (\$Millions) | 0.110      |
| d. Implied fee rate $((\$1,435,000,000 - 0.0000418^a - c) / b)$                                | \$30.7     |

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-51623; File No. SR-FICC-2004-17]

### Self-Regulatory Organizations; Fixed Income Clearing Corporation; Order Granting Approval of a Proposed Rule Change To Modify the Assessment Process for Late Submissions of Collateral Made Through the GCF Repo Service and To Increase the Types of Securities Available To Satisfy Collateral Allocation Obligations

April 28, 2005.

#### I. Introduction

On August 13, 2004, the Fixed Income Clearing Corporation ("FICC") filed with the Securities and Exchange Commission ("Commission") and on March 14, 2005, amended proposed rule change File No. SR-FICC-2004-17 pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act").<sup>1</sup> Notice of the proposed rule change was published in the *Federal Register* on March 29, 2005.<sup>2</sup> No comment letters were received. For the reasons discussed below, the Commission is now granting approval of the proposed rule change.

#### II. Description

FICC is amending the rules of the Government Securities Division ("GSD") of FICC to modify the assessment process for late submissions of collateral allocations made through its GCF Repo service and to increase the types of securities that can be used by a member in satisfaction of collateral obligations.<sup>3</sup>

##### 1. Assessment Process for Late Submissions of Collateral Allocations Made Through the GCF Repo Service

On October 30, 1998, the Commission granted approval to FICC's predecessor, the Government Securities Clearing Corporation, to implement its GCF Repo service, which is a significant alternative financing vehicle to the

delivery versus payment and tri-party repo markets.<sup>4</sup> That approval included a fine schedule for failure to adhere to relevant timeframes. The fine schedule was not implemented because of certain events.<sup>5</sup> More recently, FICC has shifted the service from an interbank service to an intrabank service in order to address certain payment system risk issues that have arisen and that have resulted in decreased volumes.<sup>6</sup> FICC believes, given the lower volumes and likely forthcoming changes to the service to address the payment system risk issues, that the original fine schedule should be replaced.

Specifically, FICC is implementing a late fee schedule to replace the late fine schedule. FICC believes that late fee schedules are appropriate in situations where the member's lateness causes an operational burden on FICC but does not result in risk to FICC or its members.<sup>7</sup> In addition, in order to encourage members to make their collateral allocations on a timely basis, there will now be one late fee targeted to the most significant time frame surrounding the service. Specifically, if a dealer does not make the required collateral allocation by the later of 4:30 p.m. (New York time) or 1 hour after the actual close of Fedwire GCF repo reversals, the dealer will be subject to a late fee of \$500.00. Finally, in order to alleviate the potential operational and administrative burdens caused by late collateral allocations, FICC is amending the GCF Repo rules to provide that FICC will process collateral allocation obligations that are received after 6 p.m. on a good faith basis only. This 6 p.m. deadline will replace the 7 p.m. final cutoff for dealer allocations of collateral to satisfy obligations.

##### 2. Types of Collateral Used To Satisfy Collateral Allocation Obligations

Currently, GSD Rule 20 provides that a collateral allocation obligation may be satisfied with "comparable securities," Treasury securities, and/or cash. "Comparable securities" are defined to include any securities that are represented by the same generic CUSIP

number as the securities in question. Therefore, in the event that a member does not have enough of the collateral securities or the "comparable securities," the only collateral that can be used is Treasury securities and/or cash.

GSD members have approached FICC and have asked that it amend rules to add certain additional collateral options. In response, FICC is amending its rules as set forth below:

(a) Ginnie Mae adjustable-rate mortgage obligations can be satisfied with Ginnie Mae fixed-rate mortgage backed securities and

(b) Fannie Mae and Freddie Mac adjustable-rate mortgage obligations can be satisfied with: (i) Fannie Mae and Freddie Mac fixed-rate mortgage-backed securities, (ii) Ginnie Mae fixed-rate mortgage-backed securities, and (iii) Ginnie Mae adjustable-rate mortgage obligations.

#### III. Discussion

Section 17A(b)(3)(F) of the Act requires among other things that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities transactions.<sup>8</sup> The Commission finds that by allowing FICC's members additional collateral options with which to meet GCF collateral allocation obligations and by implementing a fee schedule that should incentivize members to allocate collateral on a timely basis, FICC's proposed rule change should promote the prompt and accurate clearance and settlement of GCF Repo transactions. As such, FICC's proposed rule change is consistent with Section 17A(b)(3)(F) of the Act.

#### IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act and in particular Section 17A of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,<sup>9</sup> that the proposed rule change (File No. SR-FICC-2004-17) be and hereby is approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.<sup>10</sup>

Margaret H. McFarland,  
Deputy Secretary.

BILLING CODE 8010-01-P

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> Securities Exchange Act Release No. 51413 (March 23, 2005), 70 FR 15960.

<sup>3</sup> The proposed rule change also amends GSD's rules to clarify that where a collateral allocation obligation is satisfied by the posting of U.S. Treasury Bills, notes, or bonds, such securities must mature in a time frame no greater than that of the securities that have been traded except if such traded securities are U.S. Treasury Bills, such obligations must be satisfied with the posting of "comparable securities" and/or cash only.

<sup>4</sup> Securities Exchange Act Release No. 40623 (October 30, 1998), 63 FR 59831 (November 5, 1998) [File No. SR-GSCC-98-02].

<sup>5</sup> As a new and complex service, members had difficulty adhering to the time frames. In addition, the initial rate of participation was very low, and there was a need to encourage growth in the service.

<sup>6</sup> Securities Exchange Act Release No. 48006 (June 10, 2003), 68 FR 35745 (June 16, 2003) [SR-FICC-2003-04].

<sup>7</sup> In a GCF Repo transaction, a borrower does not receive the funds borrowed until it makes the required collateral allocation. The lender maintains control of the funds until the allocation is made. The transaction does not produce a risk of loss to FICC, the lender, or other members.

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-51626; File No. SR-NASD-2005-054]

### Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Notice of Filing of Proposed Rule Change Relating to Certain Amendments to the Restated Certificate of Incorporation and the By-Laws of The Nasdaq Stock Market, Inc.

April 28, 2005.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on April 19, 2005, the National Association of Securities Dealers, Inc. ("NASD"), through its subsidiary, the Nasdaq Stock Market Inc. ("Nasdaq"), filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in items I, II, and III below, which items have been prepared by Nasdaq. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Nasdaq filed this proposed rule change to make certain amendments to the Nasdaq Restated Certificate of Incorporation (the "Certificate") and the Nasdaq By-Laws (the "By-Laws") to phase out the current classified board structure and provide for the annual election of all members of the Nasdaq Board of Directors (the "Nasdaq Board"). Under the General Corporation Law of the State of Delaware ("Delaware law"), the proposed amendments to the Certificate must be approved by Nasdaq's stockholders. Nasdaq has submitted the text of the proposed amendments to the Certificate to its stockholders for approval at the 2005 annual meeting of stockholders (the "Annual Meeting"), which will be held on May 25, 2005. After Nasdaq's stockholders approve the proposed amendments to the Certificate, Nasdaq will immediately amend this rule filing to indicate such approval. In order to allow the amendment to take effect as approved by the stockholders, Nasdaq requests that, if the Commission finds that the proposed rule change is consistent with the Act, immediately after Nasdaq's stockholders approve of the proposed amendments to the Certificate, then the proposed rule

change will be approved on May 25, 2005.<sup>3</sup> Below is the text of the revised rule change. Proposed new language is in *italics*; proposed deletions are in [brackets].

#### RESTATED CERTIFICATE OF INCORPORATION OF THE NASDAQ STOCK MARKET, INC.

\* \* \* \* \*

#### ARTICLE FIFTH

A. No change.  
 B. [The] *Subject to the provisions of this paragraph B*, the Board (other than those directors elected by the holders of any series of Preferred Stock provided for or fixed pursuant to the provisions of Article Fourth hereof, (the "Preferred Stock Directors")) shall be divided into three classes, as nearly equal in number as possible, designated Class I, Class II and Class III. [Class I directors shall initially serve until the first] *Each director elected or appointed prior to the effectiveness of this Certificate of Amendment under the General Corporation Law of the State of Delaware shall serve for his or her full term, such that the term of each Class I director shall expire at the 2007 annual meeting of stockholders* [following the effectiveness of this Restated Certificate of Incorporation; Class II directors shall initially serve until]; *the term of each Class II director shall expire at the [second] 2005 annual meeting of stockholders* [following the effectiveness of this Restated Certificate of Incorporation]; and *the term of each Class III [directors shall initially serve until the third] director shall expire at the 2006 annual meeting of stockholders* [following the effectiveness of this Restated Certificate of Incorporation. Commencing with the first annual meeting of stockholders following the effectiveness of this Restated Certificate of Incorporation, directors of each class the term of which shall then expire shall be elected to hold office for a three-year term and until the election and qualification of their respective successors in office]. In case of any increase or decrease, from time to time, in the number of directors (other than Preferred Stock Directors), the number of directors in each class shall be apportioned as nearly equal as possible. *The term of each director elected at the 2005 annual meeting of stockholders and at each subsequent annual meeting of stockholders shall expire at the first annual meeting of stockholders following his or her election.*

*Commencing with the 2007 annual meeting of stockholders, the foregoing classification of the Board shall cease, and the directors, other than the Preferred Stock Directors, shall be elected by the holders of the Voting Stock (as hereinafter defined) and shall hold office until the next annual meeting of stockholders and until their respective successors shall have been duly elected and qualified, subject, however, to prior death, resignation, retirement, disqualification or removal from office.*

C. Subject to the rights of the holders of any one or more series of Preferred Stock then outstanding, newly created directorships resulting from any increase in the authorized number of directors or any vacancies in the Board resulting from death, resignation, retirement, disqualification, removal from office or other cause shall only be filled by the Board. [Any director so chosen shall hold office until the next election of the class for which such directors shall have been chosen and until his successor shall be elected and qualified.] No decrease in the number of directors shall shorten the term of any incumbent director.

D. Except for Preferred Stock Directors, any director, or the entire Board, may be removed from office at any time, but only [for cause and only] by the affirmative vote of at least 66⅔% of the total voting power of the outstanding shares of capital stock of Nasdaq entitled to vote generally in the election of directors ("Voting Stock"), voting together as a single class.

E. No change.

\* \* \* \* \*

#### BY-LAWS OF THE NASDAQ STOCK MARKET, INC.

\* \* \* \* \*

#### ARTICLE IV

##### BOARD OF DIRECTORS

Sec. 4.1–Sec. 4.3 No change.

##### Election

Sec. 4.4 Except as otherwise provided by law, these By-Laws, or the Delegation Plan, after the first meeting of Nasdaq at which Directors are elected, [a class of] Directors of Nasdaq shall be elected each year at the annual meeting of the stockholders, or at a special meeting called for such purpose in lieu of the annual meeting. If the annual election of Directors is not held on the date designated therefore, the Directors shall cause such election to be held as soon thereafter as convenient.

Sec. 4.5 No change.

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

<sup>3</sup> Telephone conversation between John Yetter, Associate General Counsel, Nasdaq, and Mia Zur, Attorney, Division of Market Regulation ("Division"), Commission (April 28, 2005).

### Removal

Sec. 4.6 Any or all of the Directors may be removed from office at any time[, but only for cause,] by the affirmative vote of at least 66 $\frac{2}{3}$  percent of the total voting power of the outstanding shares of capital stock of Nasdaq entitled to vote generally in the election of directors, voting together as a single class.

Sec. 4.7—Sec. 4.16 No change.

\* \* \* \* \*

## II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in item IV below. Nasdaq has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

#### 1. Purpose

Nasdaq seeks to phase out its current classified board structure and provide for the annual election of the entire Nasdaq Board. The Certificate provides in Article Fifth, paragraph B that the Nasdaq Board be divided into three classes, with one class elected at each annual meeting and members of each class serving three-year terms. The Certificate and Nasdaq's By-Laws provide, in accordance with Delaware law applicable to classified boards of directors, that directors may be removed only for cause. This system for electing directors was established in June 2000 while Nasdaq was still a wholly-owned subsidiary of NASD in anticipation of NASD's sale of a portion of its interest in Nasdaq in 2000 and 2001 that led to Nasdaq becoming a publicly traded corporation.

Nasdaq believes that the determination of whether a classified board of directors serves the interests of stockholders of a corporation requires an examination of all relevant factors by the directors and stockholders of the corporation. In light of Nasdaq's particular situation, including its unique role as regulator and operator of a securities market, Nasdaq believes that the annual election of directors may better serve its investors by enhancing accountability through more frequent

elections. Nasdaq also believes that the size and diversified experience of the Nasdaq Board are likely to assist Nasdaq in retaining seasoned directors despite more frequent election. While a classified board generally may discourage takeover attempts because the extended terms of directors can delay a change in control of the board of directors, Nasdaq does not believe that there is a clear consensus on whether this is a positive or negative result for stockholders.

In order to ensure a smooth transition to the system of annual election of the entire Nasdaq Board, the proposed rule change would not shorten the terms of directors elected prior to the Annual Meeting. As a result, the terms of Class 2 directors, who are up for election at the Annual Meeting, would be for one year and would expire at the 2006 annual meeting if the amendment is approved by stockholders and the Commission. Class 1 and Class 3 directors would continue to serve until their current terms expire in 2007 and 2006, respectively, and annual election would apply to these directors thereafter. Directors elected by the Nasdaq Board to fill vacancies that may arise will serve for the remainder of the term of the class to which the director was elected. Beginning in 2007, the classification of the Nasdaq Board would end and all directors would be subject to annual election.

The proposed amendments to the Certificate also would delete the existing requirement which provides, in accordance with the provisions of Delaware law applicable to classified boards of directors, that directors may be removed only for cause. Under Delaware law, directors of companies that do not have classified boards may be removed by stockholders with or without cause. The Nasdaq Board has approved conforming amendments to the By-Laws that would be effective only in the event the proposed amendment is approved by the stockholders at the Annual Meeting and by the Commission. The conforming amendments are also included as proposed rule changes in this filing.

#### 2. Statutory Basis

Nasdaq believes that the proposed rule change is consistent with the Act, including section 15A(b)(2) and (6) of the Act,<sup>4</sup> which require, among other things, that Nasdaq be so organized and have the capacity to be able to carry out the purposes of the Act and to comply with and enforce compliance with the provisions of the Act, and that Nasdaq's

<sup>4</sup> 15 U.S.C. 78o-3(b)(2) and (6).

rules are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. Nasdaq believes that the changes proposed to the Certificate and By-Laws will serve the public interest by enhancing the accountability of board members through more frequent elections. Nasdaq also believes that enhancing the accountability of its board members will also help Nasdaq fulfill its obligations arising under the Act.

### B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the NASD consents, the Commission will:

A. By order approve such proposed rule change; or

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

## IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

### Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to [rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File Number SR-NASD-2005-054 on the subject line.

### Paper comments

- Send paper comments in triplicate to Jonathan G. Katz, Secretary,

Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-NASD-2005-054. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing also will be available for inspection and copying at the principal office of the Nasdaq. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NASD-2005-054 and should be submitted on or before May 25, 2005.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.<sup>5</sup>

Margaret H. McFarland,  
Deputy Secretary.

BILLING CODE 8010-01-P

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-51628; File No. SR-NYSE-2005-28]

### Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the New York Stock Exchange, Inc. Relating to Its Original Financial Listing Standards Pilot Program

April 28, 2005.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on April 25,

2005, the New York Stock Exchange, Inc. ("NYSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in items I and II below, which items have been prepared by the Exchange. The proposed rule change has been filed by the NYSE as a "non-controversial" rule change pursuant to Rule 19b-4(f)(6) under the Act.<sup>3</sup> The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange seeks to extend its original financial listing standards pilot program (the "Pilot Program")<sup>4</sup> until the earlier of July 31, 2005, or such date as the Commission may approve File Number SR-NYSE-2004-20,<sup>5</sup> which seeks permanent approval of the Pilot Program. The Pilot Program established revised financial standards applicable to the listing of equity securities on the Exchange. The Pilot Program is currently in effect on an extended basis until the earlier of April 30, 2005, or such date as the Commission may approve File Number SR-NYSE-2004-20.<sup>6</sup>

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

#### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

On January 29, 2004, the Commission granted accelerated approval to the Pilot Program on a six-month pilot basis through July 30, 2004.<sup>7</sup> Two comments were received in response to File Number SR-NYSE-2003-43.<sup>8</sup> The NYSE thereafter filed File Number SR-NYSE-2004-15 on March 16, 2004 for immediate effectiveness,<sup>9</sup> which suspended portions of the original Pilot Program regarding minimum numerical continued listing set forth in section 802.01B of the NYSE's Listed Company Manual. In File Number SR-NYSE-2004-15, the Exchange noted its intention to publish the requirements of the original Pilot Program regarding minimum numerical continued listing standards set forth Section 802.01B for public comment on a non-accelerated timeframe. File Number SR-NYSE-2004-15 did not, however, affect the Pilot Program with respect to original listing standards set forth in sections 102.01C and 103.01B of the NYSE's Listed Company Manual or the Pilot Program's non-substantive change to the language of section 802.01C.

On April 4, 2004, the Exchange filed File Number SR-NYSE-2004-20, which seeks permanent approval for the Pilot Program currently in effect with respect to the Exchange's original minimum listing standards and approval of the continued minimum listing standards as originally proposed in File Number SR-NYSE-2003-43. File Number SR-NYSE-2004-20 was published in the *Federal Register* on July 2, 2004.<sup>10</sup> Three comment letters were received in response to File Number SR-NYSE-2004-20.<sup>11</sup> Following consideration of these comment letters, the Exchange filed Amendment No. 2 to File Number SR-NYSE-2004-20 on August 31,

<sup>7</sup> See Securities Exchange Act Release No. 49154, *supra* note 4.

<sup>8</sup> See letters to Jonathan G. Katz, Secretary, Commission, from W. Randy Eaddy, Kilpatrick Stockton LLP, dated March 11, 2004, and Kenneth A. Hoogstra, von Briesen & Roper, s.c., dated February 25, 2004.

<sup>9</sup> See Securities Exchange Act Release No. 49443 (March 18, 2004), 69 FR 13929 (March 24, 2004) (File No. SR-NYSE-2004-15).

<sup>10</sup> See *supra* note 5.

<sup>4</sup> See Securities Exchange Act Release Nos. 51104 (January 28, 2005), 70 FR 6482 (February 7, 2005) (File No. SR-NYSE-2005-08); 50615 (October 29, 2004), 69 FR 64799 (November 8, 2004) (File No. SR-2004-58); 50123 (July 29, 2004), 69 FR 57474 (August 5, 2004) (File No. SR-NYSE-2004-40); and 49154 (January 29, 2004), 69 FR 5633 (February 5, 2004) (approving File No. SR-NYSE-2003-43).

<sup>5</sup> See Securities Exchange Act Release No. 51332 (March 8, 2005), 70 FR 15392 (March 25, 2005).

<sup>6</sup> See Securities Exchange Act Release No. 51104, *supra* note 4.

<sup>5</sup> 17 CFR 200.30-3(a)(12).

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

2004.<sup>12</sup> On October 12, 2004, the Exchange filed File Number SR-NYSE-2004-58 to extend the Pilot Program until January 31, 2005.<sup>13</sup> On January 13, 2005, the Exchange filed File Number SR-NYSE 2005-08 to extend the Pilot Program until April 30, 2005.<sup>14</sup> Thereafter, the Exchange filed amendments to File Number SR-NYSE-2004-20 on November 29, 2004,<sup>15</sup> December 17, 2004,<sup>16</sup> January 25, 2005,<sup>17</sup> February 17, 2005,<sup>18</sup> and March 4, 2005.<sup>19</sup> File Number SR-NYSE-2004-20, as amended, was re-published for comment in the *Federal Register* on March 25, 2005.<sup>20</sup> Therefore, the Exchange believes it is appropriate to extend the amended Pilot Program until the earlier of July 31, 2005, or such date as the Commission may approve File Number SR-NYSE-2004-20.

## 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act<sup>21</sup> because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

### B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

<sup>12</sup> See letter to Nancy J. Sanow, Assistant Director, Division, Commission, from Darla C. Stuckey, Corporate Secretary, NYSE, dated August 31, 2004 ("Amendment No. 2").

<sup>13</sup> See Securities Exchange Act Release No. 50615, supra note 4.

<sup>14</sup> See Securities Exchange Act Release No. 51104, supra note 4.

<sup>15</sup> See Amendment No. 3, dated November 29, 2004, submitted by Mary Yeager, Assistant Corporate Secretary, NYSE.

<sup>16</sup> See Amendment No. 4, dated December 17, 2004, submitted by Mary Yeager, Assistant Corporate Secretary, NYSE.

<sup>17</sup> See Amendment No. 5, dated January 25, 2005, submitted by Mary Yeager, Assistant Corporate Secretary, NYSE.

<sup>19</sup> See Amendment No. 7, dated March 4, 2005, submitted by Mary Yeager, Assistant Corporate Secretary, NYSE.

<sup>20</sup> See Securities Exchange Act Release No. 51332, supra note 5.

<sup>21</sup> 15 U.S.C. 78f(b)(5).

### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received with respect to the proposed rule change.

### III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change (1) does not significantly affect the protection of investors or the public interest; (2) does not impose any significant burden on competition; and (3) by its terms, does not become operative until 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, and the Exchange provided the Commission with written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission, it has become effective pursuant to section 19(b)(3)(A) of the Act<sup>22</sup> and Rule 19b-4(f)(6) thereunder.<sup>23</sup> At any time within 60 days of the filing of this proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Although Rule 19b-4(f)(6) under the Act<sup>24</sup> requires that an Exchange submit a notice of its intent to file at least five business days prior to the filing date, the Commission is waiving this requirement at the Exchange's request in view of the fact that the proposed rule change seeks to continue the existing Pilot Program. The NYSE has also requested that the Commission waive the 30-day operative delay. The Commission believes waiving the 30-day operative delay is consistent with the protection of investors and the public interest. Waiver of the operative date will allow the Exchange's Pilot Program to continue without any interruption in service to issuers and investors. For these reasons, the Commission designates the proposal to be effective and operative upon filing with the Commission.<sup>25</sup>

<sup>22</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>23</sup> 17 CFR 240.19b-4(f)(6).

<sup>24</sup> *Id.*

<sup>25</sup> For purposes only of waiving the 30-day operative delay of this proposal, the Commission has considered the proposed rule's impact on

## IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

### Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to [rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File Number SR-NYSE-2005-28 on the subject line.

### Paper Comments

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-NYSE-2005-28. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing also will be available on NYSE's Web site (<http://www.nyse.com/regulation/construles/1098741855384.html>) and for inspection and copying at the principal office of NYSE. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSE-2005-28 and should be submitted on or before May 25, 2005.

efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.<sup>26</sup>

J. Lynn Taylor,

Assistant Secretary.

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-51627; File No. SR-PCX-2005-27]

### Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change and Amendment No. 1 Thereto by the Pacific Exchange, Inc. Relating to the Calculation of the National Best Bid or Offer When Another Exchange is Disconnected From the Intermarket Option Linkage

April 28, 2005.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on March 31, 2005, the Pacific Exchange, Inc. ("PCX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. On April 19, 2005, the Exchange filed Amendment No. 1 to the proposed rule change.<sup>3</sup> The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is proposing to add Exchange Rule 6.94(e) to add provisions for declaring an away market unreliable when an away market is disconnected from the Intermarket Option Linkage ("Linkage")<sup>4</sup> and to relocate the current rule on declaring an away market unreliable to Exchange Rule 6.94(e). The text of the proposed rule change, as amended, is available on the Exchange's Web site (<http://www.pacificex.com>), at the principal office of the Exchange, and

at the Commission Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The purpose of the proposed rule change is to codify the Exchange's current policy on declaring an away market unreliable when an away market is disconnected from Linkage. Currently, the Exchange relies on Exchange Rule 6.87(h)(4) to determine whether an away market is unreliable.

In order to clarify the Exchange's practices for declaring an away market unreliable, the Exchange is proposing to add Exchange Rule 6.94(e). Proposed Exchange Rule 6.94(e) is substantially similar to current Exchange Rule 6.87(h)(4), except that proposed Exchange Rule 6.94(e) adds provisions relating to declaring an away market unreliable when such away market is disconnected from Linkage. Proposed Exchange Rule 6.94(e)(A)(iii) would codify the Exchange's policy to declare an away market unreliable if such away market is disconnected from Linkage. The Exchange believes that declaring an away market that has been disconnected from Linkage unreliable is necessary to eliminate quotes from the National Best Bid or Offer ("NBBO") calculation that are not readily available to PCX OTP Holders<sup>5</sup> and OTP Firms.<sup>6</sup> When the Exchange receives notice that an away market has been disconnected from Linkage, the senior person in charge of the Exchange Control Room will direct that the away market that has been disconnected from Linkage be declared unreliable and removed from the Exchange's NBBO calculation until the sooner of the end of the trading day or the time that the quotes are confirmed by the Exchange to be reliable again.

<sup>5</sup> See Exchange Rule 1.1(q).

<sup>6</sup> See Exchange Rule 1.1(r).

The Exchange believes that the described procedure for removing an away market from, or including an away market in, the Exchange's NBBO calculation is appropriate and efficient because the Exchange receives electronic confirmation that an away market has been disconnected from or reconnected to Linkage.<sup>7</sup> Receipt of this real time information, in conjunction with the proposed rule change, will allow the Exchange to disseminate the most accurate NBBO calculation to the PCX OTP Holders and OTP Firms.

The Exchange is also proposing to move the provisions for declaring an away market unreliable in Exchange Rule 6.87(h)(4) to proposed Exchange Rule 6.94 (Order Protection), because the Exchange believes Exchange Rule 6.94 is a more appropriate rule to address declaring an away market unreliable.

###### 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act<sup>8</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act<sup>9</sup> in particular, because the proposed rule change is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system.

##### B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

##### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

<sup>7</sup> At the request of the Exchange, the Commission staff made a change to this sentence to clarify that the Exchange believes that the described procedures are appropriate and efficient for both removing an away market, as well as for including an away market, in the Exchange's NBBO calculation. Telephone conversation between Steven Matlin, Senior Counsel, Exchange, and Kim Allen, Attorney, Division of Market Regulation, on April 22, 2005.

<sup>8</sup> 15 U.S.C. 78f(b).

<sup>9</sup> 15 U.S.C. 78f(b)(5).

<sup>26</sup> 17 CFR 200.30-3(a)(12).

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

<sup>3</sup> See Form 19b-4 dated April 19, 2005 ("Amendment No. 1"). Amendment No. 1 replaced and superseded the original filing in its entirety.

<sup>4</sup> "Linkage" means the systems and data communications network that link electronically the Participants to one another for the purpose of sending and receiving Linkage Orders, related confirmations, order statuses and Administrative Messages. See Section 2(14) of the Plan for the Purpose of Creating and Operating and Intermarket Option Linkage.

### III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission will:

(A) By order approve the proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

### IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

#### Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to [rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File Number SR-PCX-2005-27 on the subject line.

#### Paper Comments

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-PCX-2005-27. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted

without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-PCX-2005-27 and should be submitted on or before May 25, 2005.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.<sup>10</sup>

**J. Lynn Taylor,**

*Assistant Secretary.*

### DEPARTMENT OF STATE

[Public Notice 5021]

#### Bureau of Oceans and International Environmental and Scientific Affairs; Advisory Committee to the U.S. Section of the Inter-American Tropical Tuna Commission (Committee Renewal)

**Summary:** On March 30, 2005, the Department of State renewed the Charter of the Advisory Committee to the U.S. Section of the Inter-American Tropical Tuna Commission (IATTC) for an additional two years.

**Effective Date:** Upon Publication.

**For Further Information Contact:**

David F. Hogan, IATTC GAC Designated Federal Official, Office of Marine Conservation, Bureau of Oceans and International Environmental and Scientific Affairs, U.S. Department of State, Washington DC 20520, Phone: 202-647-2335.

**Supplementary Information:** The IATTC was established pursuant to the Convention for the Establishment of an Inter-American Tropical Tuna Commission, signed in 1949. The purpose of the Commission is to conserve and manage the fisheries and associated resources of the eastern tropical Pacific Ocean. The United States is represented to the IATTC by the U.S. Section, which includes four Presidentially-appointed Commissioners and a Department of State representative.

The General Advisory Committee to the United States Section of the IATTC was established pursuant to Section 4 of the Tuna Conventions Act of 1950 (16 U.S.C. 953, as amended), the implementing statute for the IATTC Convention. The goal of the Advisory Committee is to serve the U.S. Section to the IATTC, the Department of State, and other agencies of the U.S.

<sup>10</sup> 17 CFR 200.30-3(a)(12).

Government as advisors on matters relating to international conservation and management of stocks of tuna and dolphins in the eastern tropical Pacific Ocean, and in particular on the development of U.S. policy and positions associated with such matters.

The Advisory Committee to the U.S. Section of the IATTC may be terminated only by law. In accordance with the provisions of the Federal Advisory Committee Act (Pub. L. 92-463), a new Charter must be issued on a biennial basis from the date the current Charter was approved and filed with Congress and the Library of Congress. The current Charter expired in 2004 due to staff changes.

The Committee is composed of representatives of the major U.S. tuna harvesting, processing, and marketing sectors. Additionally, Committee membership includes representatives of recreational fishing interests and environmental interests formulating specific U.S. policy recommendations and positions.

The Advisory Committee will continue to follow the procedure prescribed by the Federal Advisory Committee Act (FACA). Meetings will continue to be open to the public unless a determination is made in accordance with Section 10 of the FACA, 5 U.S.C. Secs. 552b(c)(1) and (4), that a meeting or a portion of the meeting should be closed to the public. Notice of each meeting continues to be provided for publication in the **Federal Register** as far in advance as possible prior to the meeting.

Dated: April 11, 2005.

**David A. Balton,**

*Deputy Assistant Secretary of State for Oceans and Fisheries, Department of State.*

## DEPARTMENT OF TRANSPORTATION

### Federal Railroad Administration

#### Proposed Agency Information Collection Activities; Comment Request

**AGENCY:** Federal Railroad  
Administration, DOT.

**ACTION:** Third notice and request for  
comments.

**SUMMARY:** In compliance with the  
Paperwork Reduction Act of 1995 (44  
U.S.C. 3501 *et seq.*), this notice  
announces that the Information  
Collection Requirements (ICRs)  
abstracted below have been forwarded  
to the Office of Management and Budget  
(OMB) for review and comment. The  
ICRs describes the nature of the  
information collections and their  
expected burdens. The **Federal Register**  
notice with a 60-day comment period  
soliciting comments on the following  
collection of information was published  
on September 22, 2004 (69 FR 56819).  
An earlier **Federal Register** notice with  
a 30-day comment period soliciting  
comments on the following collection of  
information was published on December  
2, 2004 (69 FR 70167).

**DATES:** Comments must be submitted on  
or before June 3, 2005.

**FOR FURTHER INFORMATION CONTACT:** Mr.  
Robert Brogan, Office of Planning and  
Evaluation Division, RRS-21, Federal  
Railroad Administration, 1120 Vermont  
Ave., NW., Mail Stop 17, Washington,  
DC 20590 (telephone: (202) 493-6292),  
or Mr. Victor Angelo, Office of Support  
Systems, RAD-20, Federal Railroad  
Administration, 1120 Vermont Ave.,  
NW., Mail Stop 35, Washington, DC  
20590 (telephone: (202) 493-6470).  
(These telephone numbers are not toll-  
free.)

#### SUPPLEMENTARY INFORMATION:

The Paperwork Reduction Act of 1995  
(PRA), Public Law 104-13, § 2, 109 Stat.  
163 (1995) (codified as revised at 44  
U.S.C. 3501-3520), and its  
implementing regulations, 5 CFR Part  
1320, require Federal agencies to issue

two notices seeking public comment on  
information collection activities before  
OMB may approve paperwork packages.  
44 U.S.C. 3506, 3507; 5 CFR 1320.5,  
1320.8(d)(1), 1320.12. On September 22,  
2004, FRA published a 60-day notice in  
the **Federal Register** soliciting comment  
on ICRs that the agency was seeking  
OMB approval. 69 FR 56819. FRA  
received two comments after issuing  
this notice. On December 2, 2004, FRA  
published a first 30-day notice in the  
**Federal Register** soliciting comment on  
ICRs that the agency was seeking OMB  
approval. 69 FR 70167. FRA received no  
comments in response to this notice.  
Because of delays in providing  
information regarding the methodology  
of the proposed collection of  
information to the Bureau of  
Transportation Statistics (BTS) and to  
the Office of the Chief Information  
Officer (CIO) in U.S. Department of  
Transportation, FRA is publishing this  
second 30-day notice to provide another  
opportunity for timely comment.

In response to the 60-day notice, the  
first comment (letter) came from The  
Brotherhood of Locomotive Engineers  
and Trainmen (BLET), which represents  
both locomotive engineers and  
trainmen. BLET expressed its  
wholehearted support for the proposed  
study. In his letter, Don M. Hahs, the  
President of BLET, observed:

BLET, and others, believe the collection of  
this data will provide greater insight into  
the probability of safety related injury associated  
with these [critical incident] events. Given  
the fact that the frequency of these events  
may result in locomotive engineers  
experiencing several of them in their careers,  
the FRA and industry can be benefited in  
understanding the scope of this concern. The  
proposed data collection and purpose for  
which it is being collected can provide non-  
regulatory and preemptive approaches that  
may mitigate the negative effects to safety  
and health associated with Post-Traumatic  
Stress.

Mr. M. Hahs further remarked:

The identification of "best practices" for  
Critical Incident Stress Debriefing programs,  
as proposed in the study, will allow the  
transportation community to learn a great  
deal. The eventual publication of the study  
has the potential to add to the body of  
research of this recognized problem and will  
add value for the scientific community with  
no burden to the society at large. Therefore,  
the BLET encourages FRA to move forward  
with the proposed study and seek approval  
from the Office of Management and Budget  
as soon as possible.

BLET did address the paperwork  
burden for this proposed collection of  
information. Mr. Hahs noted: "BLET  
considers the estimates of the burden of  
information collection activities, its

methodologies, and assumptions to be  
valid."

The Union Pacific Railroad also  
expressed its support for the project. In  
his comment (letter), Dr. Dennis W.  
Holland, Director, Occupational Health  
Psychology, Union Pacific Safety  
Department, stated the following:

The study is timely and of significant  
interest to the rail industry. UPRR is a  
pioneer in the development and  
implementation of Peer Support programs for  
employees involved in critical incidents. We  
believe the proposed study will benefit both  
the railroads and railroad labor by providing  
information on how best to respond to  
critical incidents. In addition, the  
information provided by the proposed study  
will enable railroad professionals to best use  
resources to assist employees dealing with  
tragic events.

There is no cost for materials to study  
participants, and the total burden hours  
are minimal. It should also be noted that  
FRA and its contractor, University of  
Denver, have been in contact with  
representatives of the Association of  
American Railroads (AAR), the BLET,  
and the United Transportation Union  
(UTU) from the beginning concerning  
the need for this study and the proposed  
procedures. These representatives have  
made several useful suggestions, which  
have been incorporated into the design  
of this study. Several useful suggestions  
were also provided, and used, by  
members of the CISD resource group—  
an entity established to assist in the  
development of this study. This  
resource group consists of  
representatives from the AAR, BLE,  
UTU, and several Class I and short line  
carriers. Finally, a team of  
epidemiologists and statisticians from  
reputable universities and  
establishments, including Yale  
University, the University of California  
at San Francisco, Colorado State  
University (Fort Collins), the University  
of Denver, the Denver VA Medical  
Center, the Centers for Disease Control  
and Prevention, and individuals from  
the U.S. Department of Transportation's  
Volpe National Transportation Systems  
Center, reviewed the sampling plan of  
the proposed study and offered useful  
recommendations and feedback.

Before OMB decides whether to  
approve this proposed collection of  
information, it must provide 30 days for  
public comment. 44 U.S.C. 3507(b); 5  
CFR 1320.12(d). Federal law requires  
OMB to approve or disapprove  
paperwork packages between 30 and 60  
days after the 30 day notice is  
published. 44 U.S.C. 3507 (b)-(c); 5 CFR  
1320.12(d); *see also* 60 FR 44978, 44983,  
Aug. 29, 1995. OMB believes that the 30  
day notice informs the regulated

community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); see also 60 FR 44983, Aug. 29, 1995.

The summary below describe the nature of the information collection requirements (ICRs) and the expected burden. These requirements are being submitted for clearance by OMB as required by the PRA.

*Title:* Post-Traumatic Stress in Train Crew Members After a Critical Incident.

*OMB Control Number:* 2130-NEW.

*Type of Request:* Approval of a New Collection of Information.

*Affected Public:* Train Crew Members (Locomotive engineers, firers, and conductors).

*Form(s):* FRA F 6180.120; FRA F 6180.121; FRA F 6180.122.

*Abstract:* Nearly 1,000 fatalities occur every year in this country from trains striking motor vehicles at grade crossings and individual trespassers along the track. These events can be very traumatic to train crew members, who invariably are powerless to prevent such collisions. Exposure of train crews to such work-related traumas can cause extreme stress and result in safety-impairing behaviors, such as are seen in Post-Traumatic Stress Disorder or Acute Stress Disorder. Most railroads have Critical Incident Stress Debriefing (CISD) intervention programs designed to mitigate problems caused by exposure to these traumas. However, they are quite varied in their approach, and it is not certain which components of these programs are most effective. The purpose of this collection of information is to identify "best practices" for CISD programs in the railroad industry. By means of written and subsequent oral interviews with train crew members that will each take approximately 45 minutes, the proposed study aims to accomplish the following: (1) Benchmark rail industry best practices of CISD programs; (2) establish the extent of traumatic stress disorders due to grade crossing and trespasser incidents in the rail industry (not by region or railroad) and identify at-risk populations; and (3) evaluate the effectiveness of individual components of CISD programs. It should be noted that only the components of CISD programs will be evaluated, not an individual railroad's overall intervention program.

*Annual Estimated Burden Hours:* 2,043 hours.

**ADDRESSES:** Send comments regarding these information collections to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 Seventeenth Street, NW., Washington, DC, 20503, Attention: FRA Desk Officer.

*Comments are invited on the following:* Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.

**Authority:** 44 U.S.C. 3501-3520.

Issued in Washington, DC on April 28, 2005.

**D.J. Stadler,**

*Director, Office of Budget, Federal Railroad Administration.*

## DEPARTMENT OF TRANSPORTATION

### National Highway Traffic Safety Administration

[Docket No. NHTSA-2005-21081; Notice 1]

#### Graco Children's Products Inc., Receipt of Petition for Decision of Inconsequential Noncompliance

Graco Children's Products Inc. (Graco) has determined that certain child restraints that it produced in 2004 do not comply with S4.3(a) of 49 CFR 571.302, Federal Motor Vehicle Safety Standard (FMVSS) No. 302, "Flammability of interior materials." Graco has filed an appropriate report pursuant to 49 CFR part 573, "Defect and Noncompliance Reports."

Pursuant to 49 U.S.C. 30118(d) and 30120(h), Graco has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of Graco's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of

judgment concerning the merits of the petition.

Affected are a total of approximately 450 Graco Comfort Sport convertible child restraints manufactured on December 27, 2004. S4.3(a) of FMVSS No. 302 requires that material "shall not burn \* \* \* at a rate of more than 102 mm per minute." Two nylon warning labels which are a component of these child restraints do not comply with this requirement.

Graco explains that the seat pad used on the Comfort Sport model contains two warning labels sewn onto the backside of the seat pad. Graco states:

The pad is an Easy Wash pad with flaps that allow for easy removal of the seat pad without disconnecting the harness. The labels are sewn to the backside of the two flaps. The label is manufactured of nylon material and when tested as a single material does not meet the requirements of \* \* \* S4.3(a) . \* \* \*

Graco believes that the noncompliance is inconsequential to motor vehicle safety and that no corrective action is warranted. Graco states that the risk of injury from the noncompliance is inconsequential for several reasons:

Location of labels on backside of pad. The labels are located on the backside of the pad and directly behind a child seated in the child restraint. This location is not directly accessible to any flame source. \* \* \* The contribution of the labels to any flame spread is negligible.

Small size of labels. The labels are relatively small compared to the overall size of the seat pad. \* \* \* The size of each label is 1 1/16" x 5 1/2" x 0.003" thick.

Seat pad and child restraint materials comply with FMVSS No. 302. The labels are the only material \* \* \* that do not comply with FMVSS No. 302. \* \* \* This overwhelming amount of material that complies. \* \* \* affords the occupant(s) the necessary protection from any flammability hazard. \* \* \*

Composite flammability testing complies. Although the label is not adhered to the pad at every point as specified by FMVSS No. 302 for composite testing, Graco has tested the labels in a composite \* \* \* [and] it burns well within the accepted rate established by FMVSS No. 302.

Graco states that it is unaware of any complaints of a fire in this seat and consequently there has been no injury.

Interested persons are invited to submit written data, views, and arguments on the petition described above. Comments must refer to the docket and notice number cited at the beginning of this notice and be submitted by any of the following methods. Mail: Docket Management Facility, U.S. Department of Transportation, Nassif Building, Room

PL-401, 400 Seventh Street, SW., Washington, DC, 20590-0001. Hand Delivery: Room PL-401 on the plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC. It is requested, but not required, that two copies of the comments be provided. The Docket Section is open on weekdays from 10 a.m. to 5 p.m. except Federal Holidays. Comments may be submitted electronically by logging onto the Docket Management System Web site at <http://dms.dot.gov>. Click on "Help" to obtain instructions for filing the document electronically. Comments may be faxed to 1-202-493-2251, or may be submitted to the Federal eRulemaking Portal: go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

The petition, supporting materials, and all comments received before the close of business on the closing date indicated below will be filed and will be considered. All comments and supporting materials received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice of the decision will be published in the *Federal Register* pursuant to the authority indicated below.

Comment closing date: June 3, 2005.

Authority: (49 U.S.C. 30118, 30120; delegations of authority at CFR 1.50 and 501.8)

Issued on: April 28, 2005.

**Ronald L. Medford,**

Senior Associate Administrator for Vehicle Safety.

## DEPARTMENT OF TRANSPORTATION

### Surface Transportation Board

[STB Docket No. AB-33 (Sub-No. 224X)]

#### Union Pacific Railroad Company— Abandonment Exemption—in Buffalo County, NE

Union Pacific Railroad Company (UP) has filed a notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon a 0.74-mile portion of its Kearney Industrial Lead from milepost 3.01 to the end of the line at milepost 3.75, near Kearney, in Buffalo County, NE. The line traverses United States Postal Service Zip Code 68847.

UP has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) there is no overhead traffic on the line; (3) no formal complaint filed by a user of rail service

on the line (or by a state or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Board or with any U.S. District Court or has been decided in favor of complainant within the 2-year period; and (4) the requirements at 49 CFR 1105.7 (environmental reports), 49 CFR 1105.8 (historic reports), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to this exemption, any employee adversely affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) has been received, this exemption will be effective on June 3, 2005, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues,<sup>1</sup> formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),<sup>2</sup> and trail use/rail banking requests under 49 CFR 1152.29 must be filed by May 16, 2005. Petitions to reopen or requests for public use conditions under 49 CFR 1152.28 must be filed by May 24, 2005, with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to UP's representative: Mack H. Shumate, Jr., Union Pacific Railroad Company, 101 North Wacker Drive, Room 1920, Chicago, IL 60606.

If the verified notice contains false or misleading information, the exemption is void ab initio.

UP has filed an environmental and historic report which addresses the effects, if any, of the abandonment on the environment and historic resources. SEA will issue an environmental assessment (EA) by May 9, 2005. Interested persons may obtain a copy of

<sup>1</sup> The Board will grant a stay if an informed decision on environmental issues (whether raised by a party or by the Board's Section of Environmental Analysis (SEA) in its independent investigation) cannot be made before the exemption's effective date. See *Exemption of Out-of-Service Rail Lines*, 5 I.C.C.2d 377 (1989). Any request for a stay should be filed as soon as possible so that the Board may take appropriate action before the exemption's effective date.

<sup>2</sup> Each OFA must be accompanied by the filing fee, which currently is set at \$1,200. See 49 CFR 1002.2(f)(25).

the EA by writing to SEA (Room 500, Surface Transportation Board, Washington, DC 20423-0001) or by calling SEA, at (202) 565-1539. [Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at 1-800-877-8339.] Comments on environmental and historic preservation matters must be filed within 15 days after the EA becomes available to the public.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), UP shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the line. If consummation has not been effected by UP's filing of a notice of consummation by May 4, 2006, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Decided: April 26, 2005.

By the Board, David M. Konschnick,  
Director, Office of Proceedings.

**Vernon A. Williams,**

Secretary.

BILLING CODE 4915-01-P

## DEPARTMENT OF TRANSPORTATION

### Surface Transportation Board

[STB Docket No. AB-33 (Sub-No. 219X)]

#### Union Pacific Railroad Company— Abandonment Exemption—in Douglas and Champaign Counties, IL

Union Pacific Railroad Company (UP) has filed a notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon a 9.87-mile line of railroad known as the Westville Industrial Lead, extending from milepost 164.87 at Villa Grove to the end of the track at milepost 155.0 near Broadlands, in Douglas and Champaign Counties, IL. The line traverses United States Postal Service Zip Codes 61816 and 61956.<sup>1</sup>

<sup>1</sup> Pursuant to 49 CFR 1152.50(d)(2), the railroad must file a verified notice with the Board at least 50 days before the abandonment or discontinuance is to be consummated. The applicant initially indicated a proposed consummation date of June 2, 2005, but because the verified notice was filed on April 14, 2005, consummation may not take place prior to June 3, 2005. By facsimile filed on April 21, 2005, applicant's representative confirmed that

UP has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) there is no overhead traffic to be rerouted; (3) no formal complaint filed by a user of rail service on the line (or by a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Board or with any U.S. District Court or has been decided in favor of complainant within the 2-year period; and (4) the requirements at 49 CFR 1105.7 (environmental reports), 49 CFR 1105.8 (historic reports), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to this exemption, any employee adversely affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) has been received, this exemption will be effective on June 3, 2005, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues,<sup>2</sup> formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),<sup>3</sup> and trail use/rail banking requests under 49 CFR 1152.29 must be filed by May 16, 2005. Petitions to reopen or requests for

public use conditions under 49 CFR 1152.28 must be filed by May 24, 2005, with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to UP's representative: Mack H. Shumate, Jr., Senior General Attorney, 101 North Wacker Drive, Room 1920, Chicago, IL 60606.

If the verified notice contains false or misleading information, the exemption is void *ab initio*.

UP has filed an environmental and historic report which addresses the abandonment's effects, if any, on the environment and historic resources. SEA will issue an environmental assessment (EA) by May 9, 2005. Interested persons may obtain a copy of the EA by writing to SEA (Room 500, Surface Transportation Board, Washington, DC 20423-0001) or by calling SEA, at (202) 565-1539. [Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at 1-800-877-8339.] Comments on environmental and historic preservation matters must be filed within 15 days after the EA becomes available to the public.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), UP shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the line. If

consummation has not been effected by UP's filing of a notice of consummation by May 4, 2006, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Decided: April 26, 2005.

By the Board, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams,

Secretary.

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

#### Electronic Tax Administration Advisory Committee (ETAAC)

**AGENCY:** Internal Revenue Service (IRS),  
Treasury.

**ACTION:** Notice of open meeting.

**SUMMARY:** In 1998 the Internal Revenue Service established the Electronic Tax Administration Advisory Committee (ETAAC). The primary purpose of ETAAC is for industry partners to provide an organized public forum for discussion of electronic tax administration issues in support of the overriding goal that paperless filing should be the preferred and most convenient method of filing tax and information returns. ETAAC offers constructive observations about current or proposed policies, programs, and procedures, and suggests improvements. Listed is a summary of the agenda along with the planned discussion topics.

#### Summarized Agenda

9 a.m. Meeting opens.

12 noon Meeting adjourns.

The planned discussion topics are:

(1) Remarks from the Director of  
Electronic Tax Administration.

(2) Expanding E-Government:  
Partnering for a Results-Oriented  
Government.

(3) Filing Season Update.

(4) Draft 2005 Report to Congress  
Discussion.

**Note:** Last-minute changes to these topics are possible and could prevent advance notice.

**DATES:** There will be a meeting of  
ETAAC on Thursday, May 19, 2005.  
This meeting will be open to the public,  
and will be in a room that  
accommodates approximately 40  
people, including members of ETAAC  
and IRS officials. Seats are available to  
members of the public on a first-come,  
first-served basis.

**ADDRESSES:** The meeting will be held at  
the Madison Hotel (John Adams  
Meeting Room), 15 & M Streets, NW.,  
Washington, DC 20005.

**FOR FURTHER INFORMATION CONTACT:** To  
have your name put on the guest list  
and to receive a copy of the agenda or  
general information about ETAAC,  
please contact Kim Logan on 202-283-  
1947 or at [etaac@irs.gov](mailto:etaac@irs.gov) by Friday, May  
13, 2005. Notification of intent should  
include your name, organization and  
telephone number. Please spell out all  
names if you leave a voice message.

**SUPPLEMENTARY INFORMATION:** ETAAC  
reports to the Director, Electronic Tax  
Administration, the executive  
responsible for the electronic tax

administration program. Increasing  
participation by external stakeholders in  
the development and implementation of  
the strategy for electronic tax  
administration, will help achieve the  
IRS achieve the goal that paperless filing  
should be the preferred and most  
convenient method of filing tax and  
information returns.

ETAAC members are not paid for  
their time or services, but consistent  
with Federal regulations, they are  
reimbursed for their travel and lodging  
expenses to attend the public meetings,  
working sessions, and an orientation  
each year.

Dated: April 28, 2005.

Jo Ann N. Bass,

Director, Strategic Services Division.

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

**Open Meeting of the Area 6 Taxpayer  
Advocacy Panel (Including the States  
of Arizona, Colorado, Idaho, Montana,  
New Mexico, North Dakota, Oregon,  
South Dakota, Utah, Washington and  
Wyoming)**

**AGENCY:** Internal Revenue Service (IRS)  
Treasury.

**ACTION:** Notice.

**SUMMARY:** An open meeting of the Area  
6 committee of the Taxpayer Advocacy

Panel will be conducted (via teleconference). The Taxpayer Advocacy Panel (TAP) is soliciting public comments, ideas, and suggestions on improving customer service at the Internal Revenue Service. The TAP will use citizen input to make recommendations to the Internal Revenue Service.

**DATES:** The meeting will be held Thursday, May 19, 2005.

**FOR FURTHER INFORMATION CONTACT:** Dave Coffman at 1-888-912-1227, or 206-220-6096.

**SUPPLEMENTARY INFORMATION:** Notice is hereby given pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1988) that an open meeting of the Area 6 Taxpayer Advocacy Panel will be held Thursday, May 19, 2005 from 1 p.m. Pacific Time to 2:30 p.m. Pacific Time via a telephone conference call. The public is invited to make oral comments. Individual comments will be limited to 5 minutes. If you would like to have the TAP consider a written statement, please call 1-888-912-1227 or 206-220-6096, or write to Dave Coffman, TAP Office, 915 2nd Avenue, MS W-406, Seattle, WA 98174 or you can contact us at <http://www.improveirs.org>. Due to limited conference lines, notification of intent to participate in the telephone conference call meeting must be made with Dave Coffman. Mr. Coffman can be reached at 1-888-912-1227 or 206-220-6096.

The agenda will include the following: Various IRS issues.

Dated: April 26, 2005.

**Martha Curry,**

*Acting Director, Taxpayer Advocacy Panel.*

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

#### Privacy Act of 1974, as Amended

**AGENCY:** Internal Revenue Service, Treasury.

**ACTION:** Notice of alteration to a Privacy Act system of records.

**SUMMARY:** In accordance with the requirements of the Privacy Act of 1974, as amended, 5 U.S.C. 552a, the Treasury Department, Internal Revenue Service, gives notice of a proposed alteration to the system of records, Treasury/IRS 60.000—Employee Protection System Records.

**DATES:** Comments must be received no later than June 3, 2005. The system of records will be effective June 13, 2005, unless comments are received which result in a contrary determination.

**ADDRESSES:** Comments should be sent to the Office of Governmental Liaison and Disclosure, Internal Revenue Service, 1111 Constitution Ave., NW., Washington, DC 20224. Comments will be made available for inspection and copying in the National Office room upon request. An appointment for inspecting the comments can be made by calling (202) 622-5164. This is not a toll free number.

**FOR FURTHER INFORMATION CONTACT:** Chief, Office of Employee Protection, Internal Revenue Service, 477 Michigan Avenue, Detroit, MI 48226, telephone (313) 628-3742. This is not a toll free number.

**SUPPLEMENTARY INFORMATION:** This gives notice of a proposed alteration to a Department of the Treasury, Internal Revenue Service system of records entitled "Treasury/IRS 60.000—Employee Protection System Records" which is subject to the Privacy Act of 1974, 5 U.S.C. 552a. The proposed alteration will add individuals who are potentially dangerous to IRS contractors to the system of records.

The Employee Protection System Records system of records was established to enhance the security and safety of Internal Revenue Service employees who are engaged in the assessment and collection of Federal taxes. This system consists of information furnished by Internal Revenue Service employees or other parties with respect to an individual who is involved in a tax administration matter before the Internal Revenue Service.

The records in this system are maintained for a period of five years, after which the records are reviewed to determine whether there is a need to maintain the information in the system. This system currently consists primarily of records of potentially dangerous taxpayers formerly maintained under the system of records entitled "Treasury/IRS 60.001—Assault and Threat Investigation Files, Inspection, and Records" pertaining to assaults, threats, and suicide threats maintained in the Treasury/IRS 60.007—Miscellaneous Information File, Inspection.

The alteration will add records to the system that will include reports of incidents of threats of harm to, or intimidation of, government contractors by individual taxpayers, threats of suicide made by a taxpayer in response

to a contact by a government contractor, results of investigations into those incidents, determinations as to whether the taxpayer should be considered a potentially dangerous taxpayer or a taxpayer who should be approached with caution, and related correspondence.

The system notice was last published in its entirety in the *Federal Register* on November 30, 2001, at 66 FR 59839.

The report of an altered system of records, as required by 5 U.S.C. 552a(r) of the Privacy Act, has been submitted to the Committee on Government Reform of the House of Representatives, the Committee on Homeland Security and Governmental Affairs of the Senate, and the Office of Management and Budget, pursuant to Appendix I to OMB Circular A-130, "Federal Agency Responsibilities for Maintaining Records About Individuals," dated November 30, 2000.

For the above reasons, the IRS proposes to amend its system of records as set forth below:

#### Treasury/IRS 60.000

##### SYSTEM NAME:

Employee Protection System Records

\* \* \* \* \*

##### CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Description of the changes:

a. The first sentence is removed and in its place add the following sentence to read: "Individuals attempting to interfere with the administration of internal revenue laws through assaults, threats, suicide threats, filing or threats of filing frivolous criminal or civil legal action against Internal Revenue Service (IRS) employees or contractors or the employees' or contractors' immediate family members, or forcible interference of any officer, government contractor or employee while discharging the official duties at his/her position."

\* \* \* \* \*

b. Category (4) is amended by adding "or contractor" immediately after the words "employees" and is revised to read: "Individuals who have committed the acts set forth in any of the above criteria, but whose acts have been directed against employees or contractors of other governmental agencies at Federal, State, county, or local levels;"

\* \* \* \* \*

##### CATEGORY OF RECORDS IN THE SYSTEM:

Description of the changes: Category (8) is amended by adding "or contractors" immediately after the words "IRS employee" and is revised to

read: "(8) Correspondence regarding the reporting of the incident, referrals for investigation, investigation of the incident; and result of investigation (i.e. designation as potentially dangerous taxpayer, or other designation to alert IRS employees or contractors to approach the individual with caution)."

\* \* \* \* \*

**PURPOSE:**

Description of the change: Remove the current entry and in its place add the following language: "This system of records documents reports by Internal Revenue Service employees of attempts by taxpayers to obstruct or impede Internal Revenue Service employees, contractors, or other law enforcement personnel in the performance of their official duties, investigations into the matters reported, and conclusions as to whether the taxpayers should be considered potentially dangerous taxpayers or should otherwise be approached with caution by employees or contractors of the Internal Revenue Service or any other law enforcement organization."

**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

\* \* \* \* \*

Description of change: The period at the end of routine use (6) is replaced with a semicolon, ";," and the following routine use is added at the end thereof: "(7) Provide information to a government contractor to alert the contractor that a taxpayer may be potentially dangerous."

\* \* \* \* \*

**RECORDS SOURCE CATEGORIES:**

Description of the change: Remove the current entry and in its place add the following to read: "Department of the Treasury personnel and records, newspapers and periodicals, taxpayers (witnesses and informants), state and local government agency personnel and records, and anonymous individuals. This system of records may also contain investigatory material compiled for criminal law enforcement purposes whose sources need not be reported."

\* \* \* \* \*

Dated: April 25, 2005.

**DEPARTMENT OF VETERANS AFFAIRS**

**Construction Advisory Board; Notice of Establishment**

As required by section 9(a)(2) of the Federal Advisory Committee Act, the Department of Veterans Affairs (VA) hereby gives notice of the establishment of the Construction Advisory Board. The Secretary of Veterans Affairs has determined that establishing the Board is both in the public interest and essential to the conduct of VA business.

The Construction Advisory Board will provide advice and make recommendations to the Secretary on the nature and scope of the Department's construction process. In carrying out its responsibilities, the Board will focus on design approval, procurement and administration of construction contracts, quality assurance, and construction project management.

The Board is expected to submit its final report and recommendations not later than December 31, 2005.

Dated: April 19, 2005.

By Direction of the Secretary.

**AGENCY:** Office of Research and Development, VA.

**ACTION:** Notice of Government Owned Invention Available for Licensing.

**SUMMARY:** The invention listed below is owned by the U.S. Government as represented by the Department of Veterans Affairs, and is available for licensing in accordance with 35 U.S.C. 207 and 37 CFR part 404 and/or CRADA Collaboration under 15 U.S.C. 3710a to achieve expeditious commercialization of results of federally funded research and development. Foreign patents are filed on selected inventions to extend market coverage for U.S. companies and may also be available for licensing.

**FOR FURTHER INFORMATION CONTACT:**

Technical and licensing information on the invention may be obtained by writing to: Robert W. Potts, Department of Veterans Affairs, Director, Technology Transfer Program, Office of Research and Development, 810 Vermont Avenue NW., Washington, DC 20420; fax: (202) 254-0473; e-mail at: [bob.potts@hq.med.va.gov](mailto:bob.potts@hq.med.va.gov). Any request for information should include the Number and Title for the relevant invention as indicated below. Issued patents may be obtained from the Commissioner of Patents, U.S. Patent and Trademark Office, Washington, DC 20231.

**SUPPLEMENTARY INFORMATION:** The  
invention available for licensing is: U.S. "Inhibitor of Cardiac  
Patent Application No. 10/927,616 Tachyarrhythmias."

Dated: April 21, 2005.

**Gordon H. Mansfield,**  
*Deputy Secretary, Department of Veterans  
Affairs.*

## Corrections

Federal Register

Vol. 70, No. 85

Wednesday, May 4, 2005

This section of the FEDERAL REGISTER contains editorial corrections of previously published Presidential, Rule, Proposed Rule, and Notice documents. These corrections are prepared by the Office of the Federal Register. Agency prepared corrections are issued as signed documents and appear in the appropriate document categories elsewhere in the issue.

### NUCLEAR REGULATORY COMMISSION

#### 10 CFR Part 71

#### Regulations for the Safe Transport of Radioactive Material; Solicitation of Comments on Proposed Changes

##### *Correction*

In proposed rule document 05-8371 beginning on page 21684 in the issue of Wednesday, April 27, 2005, make the following correction:

On page 21685, in the first column, under the heading "**Background**," in the third paragraph, in the third line, the Internet address should read "*http://hazmat.dot.gov/regs/files/IAEA Draft Changes.htm*."

[FR Doc. C5-8371 Filed 5-3-05; 8:45 am]

BILLING CODE 1505-01-D

### SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 26835; 812-12941]

#### UBS Supplementary Trust, et al.; Notice of Application

##### *Correction*

In notice document E5-1973 beginning on page 21474 in the issue of Tuesday, April 26, 2005, make the following correction:

On page 21474, in the first column, the docket number is corrected to read as set forth above.

Centers for Medicare & Medicaid Services

---

42 CFR Parts 405, 412, et al.  
Medicare Program; Proposed Changes to  
the Hospital Inpatient Prospective  
Payment Systems and Fiscal Year 2006  
Rates; Proposed Rule

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**
**Centers for Medicare & Medicaid Services**
**42 CFR Parts 405, 412, 413, 415, 419, 422, and 485**
**[CMS-1500-P]**
**RIN 0938-AN57**
**Medicare Program; Proposed Changes to the Hospital Inpatient Prospective Payment Systems and Fiscal Year 2006 Rates**
**AGENCY:** Centers for Medicare and Medicaid Services (CMS), HHS.

**ACTION:** Proposed rule.

**SUMMARY:** We are proposing to revise the Medicare hospital inpatient prospective payment systems (IPPS) for operating and capital-related costs to implement changes arising from our continuing experience with these systems. In addition, in the Addendum to this proposed rule, we describe the proposed changes to the amounts and factors used to determine the rates for Medicare hospital inpatient services for operating costs and capital-related costs. We also are setting forth proposed rate-of-increase limits as well as proposed policy changes for hospitals and hospital units excluded from the IPPS that are paid in full or in part on a reasonable cost basis subject to these limits. These proposed changes would be applicable to discharges occurring on or after October 1, 2005, with one exception: The proposed changes relating to submittal of hospital wage data by a campus or campuses of a multicampus hospital system (that is, the proposed changes to § 412.230(d)(2) of the regulations) would be effective upon publication of the final rule.

Among the policy changes that we are proposing to make are changes relating to: the classification of cases to the diagnosis-related groups (DRGs); the long-term care (LTC)-DRGs and relative weights; the wage data, including the occupational mix data, used to compute the wage index; rebasing and revision of the hospital market basket; applications for new technologies and medical services add-on payments; policies governing postacute care transfers, payments to hospitals for the direct and indirect costs of graduate medical education, submission of hospital quality data, payment adjustment for low-volume hospitals, changes in the requirements for provider-based facilities; and changes in the requirements for critical access hospitals (CAHs).

**DATES:** Comments will be considered if received at the appropriate address, as provided in the **ADDRESSES** section, no later than 5 p.m. on June 24, 2005.

**ADDRESSES:** In commenting, please refer to file code CMS-1500-P. Because of staff and resource limitations, we cannot accept comments by facsimile (FAX) transmission.

You may submit comments in one of three ways (no duplicates, please):

**1. Electronically**

You may submit electronic comments to <http://www.cms.hhs.gov/regulations/ecomments> (attachments should be in Microsoft Word, WordPerfect, or Excel; however, we prefer Microsoft Word).

**2. By Mail**

You may mail written comments (one original and two copies) to the following address only: Centers for Medicare & Medicaid Services, Department of Health and Human Services, Attention: CMS-1500-P, P.O. Box 8011, Baltimore, MD 21244-1850.

Please allow sufficient time for mailed comments to be received before the close of the comment period.

**3. By Hand or Courier**

If you prefer, you may deliver (by hand or courier) your written comments (one original and two copies) before the close of the comment period to one of the following addresses. If you intend to deliver your comments to the Baltimore address, please call telephone number (410) 786-7195 in advance to schedule your arrival with one of our staff members.

Room 445-G, Hubert H. Humphrey Building, 200 Independence Avenue, SW., Washington, DC 20201, or 7500 Security Boulevard, Baltimore, MD 21244-1850.

(Because access to the interior of the Hubert H. Humphrey Building is not readily available to persons without Federal Government identification, commenters are encouraged to leave their comments in the CMS drop slots located in the main lobby of the building. A stamp-in clock is available for persons wishing to retain proof of filing by stamping in and retaining an extra copy of the comments being filed.)

Comments mailed to the addresses indicated as appropriate for hand or courier delivery may be delayed and received after the comment period.

**Inspection of Public Comments:** All comments received before the close of the comment period are available for viewing by the public, including any personally identifiable or confidential business information that is included in a comment. After the close of the

comment period, CMS posts all electronic comments received before the close of the comment period on its public Web site. Written comments received timely will be available for public inspection as they are received, generally beginning approximately 4 weeks after publication of a document, at the headquarters of the Centers for Medicare & Medicaid Services, 7500 Security Boulevard, Baltimore, MD 21244, Monday through Friday of each week from 8:30 a.m. to 4 p.m. To schedule an appointment to view public comments, phone 1-800-743-3951.

For comments that relate to information collection requirements, mail a copy of comments to the following addresses:

Centers for Medicare & Medicaid Services, Office of Strategic Operations and Regulatory Affairs, Security and Standards Group, Office of Regulations Development and Issuances, Room C4-24-02 7500 Security Boulevard, Baltimore, Maryland 21244-1850, Attn: James Wickliffe, CMS-1500-P; and Office of Information and Regulatory Affairs, Office of Management and Budget, Room 3001, New Executive Office Building, Washington, DC 20503, Attn: Christopher Martin, CMS Desk Officer, CMS-1500-P, [Christopher.Martin@omb.eop.gov](mailto:Christopher.Martin@omb.eop.gov). Fax (202) 395-6974.

#### Regulation Text

- Addendum—Proposed Schedule of Standardized Amounts Effective with Discharges Occurring On or After October 1, 2004 and Update Factors and Rate-of-Increase Percentages Effective With Cost Reporting Periods Beginning On or After October 1, 2004
- I. Summary and Background
  - II. Proposed Changes to Prospective Payment Rates for Hospital Inpatient Operating Costs for FY 2006
    - A. Calculation of the Adjusted Standardized Amount
      - 1. Standardization of Base-Year Costs or Target Amounts
      - 2. Computing the Average Standardized Amount
      - 3. Updating the Average Standardized Amount
      - 4. Other Adjustments to the Average Standardized Amount
        - a. Recalibration of DRG Weights and Updated Wage Index—Budget Neutrality Adjustment
        - b. Reclassified Hospitals—Budget Neutrality Adjustment
        - c. Outliers
        - d. Rural Community Hospital Demonstration Program Adjustment (Section 410A of Pub. L. 108–173)
      - 5. Proposed FY 2006 Standardized Amount
    - B. Adjustments for Area Wage Levels and Cost-of-Living
      - 1. Adjustment for Area Wage Levels
      - 2. Adjustment for Cost-of-Living in Alaska and Hawaii
    - C. DRG Relative Weights
    - D. Calculation of Proposed Prospective Payment Rates for FY 2006
      - 1. Federal Rate
      - 2. Hospital-Specific Rate (Applicable Only to SCHs and MDHs)
        - a. Calculation of Hospital-Specific Rate
        - b. Updating the FY 1982, FY 1987, and FY 1996 Hospital-Specific Rates for FY 2006
      - 3. General Formula for Calculation of Proposed Prospective Payment Rates for Hospitals Located in Puerto Rico Beginning On or After October 1, 2005 and Before October 1, 2006
        - a. Puerto Rico Rate
        - b. National Rate
  - III. Proposed Changes to Payment Rates for Acute Care Hospital Inpatient Capital-Related Costs for FY 2006
    - A. Determination of Proposed Federal Hospital Inpatient Capital-Related Prospective Payment Rate Update
      - 1. Proposed Capital Standard Federal Rate Update
        - a. Description of the Update Framework
        - b. Comparison of CMS and MedPAC Update Recommendation
      - 2. Proposed Outlier Payment Adjustment Factor

- 3. Proposed Budget Neutrality Adjustment Factor for Changes in DRG Classifications and Weights and the Geographic Adjustment Factor
- 4. Proposed Exceptions Payment Adjustment Factor
- 5. Proposed Capital Standard Federal Rate for FY 2006
- 6. Proposed Special Capital Rate for Puerto Rico Hospitals
  - B. Calculation of Proposed Inpatient Capital-Related Prospective Payments for FY 2006
  - C. Capital Input Price Index
    - 1. Background
    - 2. Forecast of the CIPI for FY 2006
- IV. Proposed Changes to Payment Rates for Excluded Hospitals and Hospital Units: Rate-of-Increase Percentages
  - A. Payments to Existing Excluded Hospitals and Units
  - B. Updated Caps for New Excluded Hospitals and Units
- V. Payment for Blood Clotting Factor Administered to Hemophilia Inpatients

#### I. Background

##### A. Summary

##### 1. Acute Care Hospital Inpatient Prospective Payment System (IPPS)

Section 1886(d) of the Social Security Act (the Act) sets forth a system of payment for the operating costs of acute care hospital inpatient stays under Medicare Part A (Hospital Insurance) based on prospectively set rates. Section 1886(g) of the Act requires the Secretary to pay for the capital-related costs of hospital inpatient stays under a prospective payment system (PPS). Under these PPSs, Medicare payment for hospital inpatient operating and capital-related costs is made at predetermined, specific rates for each hospital discharge. Discharges are classified according to a list of diagnosis-related groups (DRGs).

The base payment rate is comprised of a standardized amount that is divided into a labor-related share and a nonlabor-related share. The labor-related share is adjusted by the wage index applicable to the area where the

hospital is located; and if the hospital is located in Alaska or Hawaii, the nonlabor-related share is adjusted by a cost-of-living adjustment factor. This base payment rate is multiplied by the DRG relative weight.

If the hospital treats a high percentage of low-income patients, it receives a percentage add-on payment applied to the DRG-adjusted base payment rate. This add-on payment, known as the disproportionate share hospital (DSH) adjustment, provides for a percentage increase in Medicare payments to hospitals that qualify under either of two statutory formulas designed to identify hospitals that serve a disproportionate share of low-income patients. For qualifying hospitals, the amount of this adjustment may vary based on the outcome of the statutory calculations.

If the hospital is an approved teaching hospital, it receives a percentage add-on payment for each case paid under the IPPS (known as the indirect medical education (IME) adjustment). This percentage varies, depending on the ratio of residents to beds.

Additional payments may be made for cases that involve new technologies or medical services that have been approved for special add-on payments. To qualify, a new technology or medical service must demonstrate that it is a substantial clinical improvement over technologies or services otherwise available, and that, absent an add-on payment, it would be inadequately paid under the regular DRG payment.

The costs incurred by the hospital for a case are evaluated to determine whether the hospital is eligible for an additional payment as an outlier case. This additional payment is designed to protect the hospital from large financial losses due to unusually expensive cases. Any outlier payment due is added to the DRG-adjusted base payment rate, plus any DSH, IME, and new technology or medical service add-on adjustments.

Although payments to most hospitals under the IPPS are made on the basis of the standardized amounts, some categories of hospitals are paid the higher of a hospital-specific rate based on their costs in a base year (the higher of FY 1982, FY 1987, or FY 1996) or the IPPS rate based on the standardized amount. For example, sole community hospitals (SCHs) are the sole source of care in their areas, and Medicare-dependent, small rural hospitals (MDHs) are a major source of care for Medicare beneficiaries in their areas. Both of these categories of hospitals are afforded this special payment protection in order to maintain access to services for beneficiaries. (An MDH receives

only 50 percent of the difference between the IPPS rate and its hospital-specific rates if the hospital-specific rate is higher than the IPPS rate. In addition, an MDH does not have the option of using FY 1996 as the base year for its hospital-specific rate.)

Section 1886(g) of the Act requires the Secretary to pay for the capital-related costs of inpatient hospital services "in accordance with a prospective payment system established by the Secretary." The basic methodology for determining capital prospective payments is set forth in our regulations at 42 CFR 412.308 and 412.312. Under the capital PPS, payments are adjusted by the same DRG for the case as they are under the operating IPPS. Similar adjustments are also made for IME and DSH as under the operating IPPS. In addition, hospitals may receive an outlier payment for those cases that have unusually high costs.

The existing regulations governing payments to hospitals under the IPPS are located in 42 CFR part 412, Subparts A through M.

## 2. Hospitals and Hospital Units Excluded From the IPPS

Under section 1886(d)(1)(B) of the Act, as amended, certain specialty hospitals and hospital units are excluded from the IPPS. These hospitals and units are: Psychiatric hospitals and units; rehabilitation hospitals and units; long-term care hospitals (LTCHs); children's hospitals; and cancer hospitals. Various sections of the Balanced Budget Act of 1997 (Pub. L. 105-33), the Medicare, Medicaid and SCHIP [State Children's Health Insurance Program] Balanced Budget Refinement Act of 1999 (Pub. L. 106-113), and the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000 (Pub. L. 106-554) provide for the implementation of PPSs for rehabilitation hospitals and units (referred to as inpatient rehabilitation facilities (IRFs)), psychiatric hospitals and units (referred to as inpatient psychiatric facilities (IPFs)), and LTCHs, as discussed below. Children's hospitals and cancer hospitals continue to be paid under reasonable cost-based reimbursement.

The existing regulations governing payments to excluded hospitals and hospital units are located in 42 CFR Parts 412 and 413.

### a. IRFs

Under section 1886(j) of the Act, as amended, rehabilitation hospitals and units (IRFs) have been transitioned from payment based on a blend of reasonable cost reimbursement subject to a

hospital-specific annual limit under section 1886(b) of the Act and the adjusted facility Federal prospective payment rate for cost reporting periods beginning January 1, 2002 through September 30, 2002, to payment at 100 percent of the Federal rate effective for cost reporting periods beginning on or after October 1, 2002 (66 FR 41316, August 7, 2001; 67 FR 49982, August 1, 2002; and 68 FR 45674, August 1, 2003). The existing regulations governing payments under the IRF PPS are located in 42 CFR Part 412, Subpart P.

### b. LTCHs

Under the authority of sections 123(a) and (c) of Pub. L. 106-113 and section 307(b)(1) of Pub. L. 106-554, LTCHs are being transitioned from being paid for inpatient hospital services based on a blend of reasonable cost-based reimbursement under section 1886(b) of the Act to 100 percent of the Federal rate during a 5-year period, beginning with cost reporting periods that start on or after October 1, 2002. For cost reporting periods beginning on or after October 1, 2006, LTCHs will be paid 100 percent of the Federal rate (May 7, 2004 LTCH PPS final rule (69 FR 25674)). LTCHs may elect to be paid based on 100 percent of the Federal rate instead of a blended payment in any year during the 5-year transition period. The existing regulations governing payment under the LTCH PPS are located in 42 CFR Part 412, Subpart O.

### c. IPFs

Under the authority of sections 124(a) and (c) of Pub. L. 106-113, inpatient psychiatric facilities (IPFs) (formerly psychiatric hospitals and psychiatric units of acute care hospitals) are paid under the new IPF PPS. Under the IPF PPS, some IPFs are transitioning from being paid for inpatient hospital services based on a blend of reasonable cost-based payment and a Federal per diem payment rate, effective for cost reporting periods beginning on or after January 1, 2005 (November 15, 2004 IPF PPS final rule (69 FR 66921)). For cost reporting periods beginning on or after July 1, 2008, IPFs will be paid 100 percent of the Federal per diem payment amount. The existing regulations governing payment under the IPF PPS are located in 42 CFR part 412, subpart N.

### 3. Critical Access Hospitals (CAHs)

Under sections 1814, 1820, and 1834(g) of the Act, payments are made to critical access hospitals (CAHs) (that is, rural hospitals or facilities that meet certain statutory requirements) for inpatient and outpatient services based

on 101 percent of reasonable cost. Reasonable cost is determined under the provisions of section 1861(v)(1)(A) of the Act and existing regulations under 42 CFR Parts 413 and 415.

#### 4. Payments for Graduate Medical Education (GME)

Under section 1886(a)(4) of the Act, costs of approved educational activities are excluded from the operating costs of inpatient hospital services. Hospitals with approved graduate medical education (GME) programs are paid for the direct costs of GME in accordance with section 1886(h) of the Act; the amount of payment for direct GME costs for a cost reporting period is based on the hospital's number of residents in that period and the hospital's costs per resident in a base year. The existing regulations governing payments to the various types of hospitals are located in 42 CFR Part 413.

On August 11, 2004, we published a final rule in the **Federal Register** (69 FR 48916) that implemented changes to the Medicare hospital inpatient prospective payment systems for both operating cost and capital-related costs, as well as changes addressing payments for excluded hospitals and payments for GME costs. Generally these changes were effective for discharges occurring on or after October 1, 2004. On October 7, 2004, we published a document in the **Federal Register** (69 FR 60242) that corrected technical errors made in the August 11, 2004 final rule. On December 30, 2004, we published another document in the **Federal Register** (69 FR 78525) that further corrected the August 11, 2004 final rule and the October 7, 2004 correction to that rule, effective January 1, 2005.

#### B. Major Contents of This Proposed Rule

In this proposed rule, we are setting forth proposed changes to the Medicare IPPS for operating costs and for capital-related costs in FY 2006. We also are setting forth proposed changes relating to payments for GME costs, payments to certain hospitals and units that continue to be excluded from the IPPS and paid on a reasonable cost basis, payments for DSHs, and requirements and payments for CAHs. The changes being proposed would be effective for discharges occurring on or after October 1, 2005, unless otherwise noted.

The following is a summary of the major changes that we are proposing to make:

#### 1. Proposed Changes to the DRG Reclassifications and Recalibrations of Relative Weights

As required by section 1886(d)(4)(C) of the Act, in section II. of this proposed rule, we are proposing annual adjustments to the DRG classifications and relative weights. Based on analyses of Medicare claims data, we are proposing to establish a number of new DRGs and make changes to the designation of diagnosis and procedure codes under other existing DRGs.

The major DRG classification changes we are proposing include:

- Reassigning procedure code 35.52 (Repair of atrial septal defect with prosthesis, closed technique) from DRG 108 to DRG 518 (Percutaneous Cardiovascular Procedure Without Coronary Artery Stent or AMI);
  - Reassigning procedure code 37.26 (Cardiac electrophysiologic stimulation and recording studies) from DRGs 535 and 536 to DRGs 515 (Cardiac Defibrillator Implant Without Cardiac Catheterization);
  - Splitting DRG 209 into two new DRGs based on the presence or absence of the procedure codes for major joint replacement or reattachment of lower extremity and revision of hip or knee replacement, DRG 545 (Revision of Hip or Knee Replacement) and DRG 544 (Major Joint Replacement or Reattachment of Lower Extremity);
  - Reassigning procedure code 26.12 (Open biopsy of salivary gland or duct) from DRG 468 to DRG 477 (Nonextensive O.R. Procedure Unrelated To Principal Diagnosis);
  - Reassigning the principal diagnosis codes for curvature of the spine or malignancy from DRGs 497 and 498 to proposed new DRG 546 (Spinal Fusion Except Cervical with PDX of Curvature of the Spine or Malignancy);
  - Splitting DRGs 516 and 526 into four new DRGs based on the presence or absence of a CC;
  - Reassigning procedure code 39.65 (Extracorporeal membrane oxygenation [ECMO]) from DRGs 104 and 105 to DRG 541 (ECMO or Tracheostomy with Mechanical Ventilation 96+ Hours or Principal Diagnosis Except Face, Mouth and Neck Diagnoses With Major Operating Room Procedure).
- We also are presenting our reevaluation of certain FY 2005 applicants for add-on payments for high-cost new medical services and technologies, and our analysis of FY 2006 applicants (including public input, as directed by Pub. L. 108-173, obtained in a town hall meeting).

We are proposing the annual update of the long-term care diagnosis-related

group (LTC-DRG) classifications and relative weights for use under the LTCH PPS for FY 2006.

#### 2. Proposed Changes to the Hospital Wage Index

In section III. of this preamble, we are proposing revisions to the wage index and the annual update of the wage data. Specific issues addressed include the following:

- The FY 2006 wage index update, using wage data from cost reporting periods that began during FY 2002.
- The proposed occupational mix adjustment to the wage index that we began to apply effective October 1, 2004.
- The proposed revisions to the wage index based on hospital redesignations and reclassifications.
- The proposed adjustment to the wage index for FY 2006 based on commuting patterns of hospital employees who reside in a county and work in a different area with a higher wage index.
- The timetable for reviewing and verifying the wage data that will be in effect for the proposed FY 2006 wage index.

#### 3. Proposed Revision and Rebased of the Hospital Market Baskets

In section IV. of this proposed rule, we are proposing rebasing and revising the hospital operating and capital market baskets to be used in developing the FY 2006 update factor for the operating prospective payment rates and the excluded hospital market basket to be used in developing the FY 2006 update factor for the excluded hospital rate-of-increase limits. We are also setting forth the data sources used to determine the revised market basket relative weights and choice of price proxies.

#### 4. Other Decisions and Proposed Changes to the PPS for Inpatient Operating and GME Costs

In section V. of this proposed rule, we discuss a number of provisions of the regulations in 42 CFR Parts 412 and 413 and set forth proposed changes concerning the following:

- Solicitation of public comments on two options for possible expansion of the current postacute care transfer policy.
- The reporting of hospital quality data as a condition for receiving the full annual payment update increase.
- Proposed changes in the payment adjustment for low-volume hospitals.
- Proposed IME adjustment for TEFRA hospitals that are converting to IPPS hospitals, and IME FTE resident caps for urban hospitals that are granted

rural reclassification and then withdraw that rural classification.

- Proposed changes to implement section 951 of Pub. L. 108-173 relating to the provision of patient stay/SSI days data maintained by CMS to hospitals for the purpose of determining their DSH percentage.

- Proposed changes relating to hospitals' geographic classifications, including multicampus hospitals and urban group hospital reclassifications.

- Proposed changes and clarifications relating to GME, including GME initial residency period limitation, new teaching hospitals' participation in Medicare GME affiliated groups, and the GME FTE cap adjustment for rural hospitals;

- Solicitation of public comments on possible changes in requirements for provider-based entities relating to entities the location requirements for certain neonatal intensive care units as off-campus facilities;

- Discussion of the second year of implementation of the Rural Community Hospital Demonstration Program; and

- Clarification of the definition of a hospital as it relates to "specialty hospitals" participating in the Medicare program.

#### 5. PPS for Capital-Related Costs

In section VI. of this proposed rule, we are not proposing any policy changes to the capital-related prospective payment system. For the readers' benefit, we discuss the payment policy requirements for capital-related costs and capital payments to hospitals.

#### 6. Proposed Changes for Hospitals and Hospital Units Excluded From the IPPS

In section VII. of this proposed rule, we discuss the proposed revisions and clarifications concerning excluded hospitals and hospital units, proposed policy changes relating to continued participation by CAHs located in counties redesignated under section 1886(d)(8)(B) of the Act (Lugar counties), and proposed policy changes relating to designation of CAHs as necessary providers.

#### 7. Proposed Changes in Payment for Blood Clotting Factor

In section VIII of this proposed rule, we discuss the proposed change in payment for blood clotting factor administered to inpatients with hemophilia for FY 2006.

#### 8. Determining Prospective Payment Operating and Capital Rates and Rate-of-Increase Limits

In the Addendum to this proposed rule, we set forth proposed changes to the amounts and factors for determining the FY 2006 prospective payment rates for operating costs and capital-related costs. We also establish the proposed threshold amounts for outlier cases. In addition, we address the proposed update factors for determining the rate-of-increase limits for cost reporting periods beginning in FY 2006 for hospitals and hospital units excluded from the PPS.

#### 9. Impact Analysis

In Appendix A of this proposed rule, we set forth an analysis of the impact that the proposed changes would have on affected hospitals.

#### 10. Recommendation of Update Factor for Hospital Inpatient Operating Costs

In Appendix B of this proposed rule, as required by sections 1886(e)(4) and (e)(5) of the Act, we provided our recommendations of the appropriate percentage changes for FY 2006 for the following:

- A single average standardized amount for all areas for hospital inpatient services paid under the IPPS for operating costs (and hospital-specific rates applicable to SCHs and MDHs).
- Target rate-of-increase limits to the allowable operating costs of hospital inpatient services furnished by hospitals and hospital units excluded from the IPPS.

#### 11. Discussion of Medicare Payment Advisory Commission Recommendations

Under section 1805(b) of the Act, the Medicare Payment Advisory Commission (MedPAC) is required to submit a report to Congress, no later than March 1 of each year, in which MedPAC reviews and makes recommendations on Medicare payment policies. MedPAC's March 2005 recommendation concerning hospital inpatient payment policies addressed only the update factor for inpatient hospital operating costs and capital-related costs under the IPPS and for hospitals and distinct part hospital units excluded from the IPPS. This recommendation is addressed in Appendix B of this proposed rule. MedPAC issued a second Report to Congress: Physician-Owned Specialty Hospitals, March 2005, which addressed other issues relating to Medicare payments to hospitals for inpatient services. The recommendations on these issues from this second report are

addressed in section IX. of this preamble. For further information relating specifically to the MedPAC March 2005 reports or to obtain a copy of the reports, contact MedPAC at (202) 220-3700 or visit MedPAC's Web site at <http://www.medpac.gov>.

## II. Proposed Changes to DRG Classifications and Relative Weights

### A. Background

Section 1886(d) of the Act specifies that the Secretary shall establish a classification system (referred to as DRGs) for inpatient discharges and adjust payments under the IPPS based on appropriate weighting factors assigned to each DRG. Therefore, under the IPPS, we pay for inpatient hospital services on a rate per discharge basis that varies according to the DRG to which a beneficiary's stay is assigned. The formula used to calculate payment for a specific case multiplies an individual hospital's payment rate per case by the weight of the DRG to which the case is assigned. Each DRG weight represents the average resources required to care for cases in that particular DRG, relative to the average resources used to treat cases in all DRGs.

Congress recognized that it would be necessary to recalculate the DRG relative weights periodically to account for changes in resource consumption. Accordingly, section 1886(d)(4)(C) of the Act requires that the Secretary adjust the DRG classifications and relative weights at least annually. These adjustments are made to reflect changes in treatment patterns, technology, and any other factors that may change the relative use of hospital resources. The proposed changes to the DRG classification system and the recalibration of the DRG weights for discharges occurring on or after October 1, 2005, are discussed below.

### B. DRG Reclassifications

(If you choose to comment on issues in this section, please include the caption "DRG Reclassifications" at the beginning of your comment.)

#### 1. General

Cases are classified into DRGs for payment under the IPPS based on the principal diagnosis, up to eight additional diagnoses, and up to six procedures performed during the stay. In a small number of DRGs, classification is also based on the age, sex, and discharge status of the patient. The diagnosis and procedure information is reported by the hospital using codes from the International

Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM).

The process of forming the DRGs was begun by dividing all possible principal diagnoses into mutually exclusive principal diagnosis areas referred to as Major Diagnostic Categories (MDCs). The MDCs were formed by physician panels as the first step toward ensuring that the DRGs would be clinically

coherent. The diagnoses in each MDC correspond to a single organ system or etiology and, in general, are associated with a particular medical specialty. Thus, in order to maintain the requirement of clinical coherence, no final DRG could contain patients in different MDCs. Most MDCs are based on a particular organ system of the body. For example, MDC 6 is Diseases and Disorders of the Digestive System.

This approach is used because clinical care is generally organized in accordance with the organ system affected. However, some MDCs are not constructed on this basis because they involve multiple organ systems (for example, MDC 22 (Burns)). For FY 2005, cases are assigned to one of 519 DRGs in 25 MDCs. The table below lists the 25 MDCs.

| <b>Major Diagnostic Categories (MDCs)</b> |  |
|---|--|
| 1   | Diseases and Disorders of the Nervous System   |
| 2   | Diseases and Disorders of the Eye  |
| 3   | Diseases and Disorders of the Ear, Nose, Mouth, and Throat                               |
| 4   | Diseases and Disorders of the Respiratory System   |
| 5   | Diseases and Disorders of the Circulatory System   |
| 6   | Diseases and Disorders of the Digestive System   |
| 7   | Diseases and Disorders of the Hepatobiliary System and Pancreas                          |
| 8   | Diseases and Disorders of the Musculoskeletal System and Connective Tissue               |
| 9   | Diseases and Disorders of the Skin, Subcutaneous Tissue and Breast                       |
| 10  | Endocrine, Nutritional and Metabolic Diseases and Disorders                              |
| 11  | Diseases and Disorders of the Kidney and Urinary Tract                                   |
| 12  | Diseases and Disorders of the Male Reproductive System                                   |
| 13  | Diseases and Disorders of the Female Reproductive System                                 |
| 14  | Pregnancy, Childbirth, and the Puerperium  |
| 15  | Newborns and Other Neonates with Conditions Originating in the Perinatal Period          |
| 16  | Diseases and Disorders of the Blood and Blood Forming Organs and Immunological Disorders |
| 17  | Myeloproliferative Diseases and Disorders and Poorly Differentiated Neoplasms            |
| 18  | Infectious and Parasitic Diseases (Systemic or Unspecified Sites)                        |
| 19  | Mental Diseases and Disorders  |
| 20  | Alcohol/Drug Use and Alcohol/Drug Induced Organic Mental Disorders                       |
| 21  | Injuries, Poisonings, and Toxic Effects of Drugs   |
| 22  | Burns  |
| 23  | Factors Influencing Health Status and Other Contacts with Health Services                |
| 24  | Multiple Significant Trauma  |
| 25  | Human Immunodeficiency Virus Infections  |

In general, cases are assigned to an MDC based on the patient's principal diagnosis before assignment to a DRG. However, for FY 2005, there are nine DRGs to which cases are directly assigned on the basis of ICD-9-CM

procedure codes. These DRGs are for heart transplant or implant of heart assist systems, liver and/or intestinal transplants, bone marrow, lung, simultaneous pancreas/kidney, and pancreas transplants and for

tracheostomies. Cases are assigned to these DRGs before they are classified to an MDC. The table below lists the current nine pre-MDCs.

| Pre-Major Diagnostic Categories (Pre-MDCs) |  |
|--|--|
| DRG 103                                    | Heart Transplant or Implant of Heart Assist System   |
| DRG 480                                    | Liver Transplant and/or Intestinal Transplant  |
| DRG 481                                    | Bone Marrow Transplant   |
| DRG 482                                    | Tracheostomy for Face, Mouth, and Neck Diagnoses   |
| DRG 495                                    | Lung Transplant  |
| DRG 512                                    | Simultaneous Pancreas/Kidney Transplant  |
| DRG 513                                    | Pancreas Transplant  |
| DRG 541                                    | Tracheostomy with Mechanical Ventilation 96+ Hours or Principal Diagnosis Except for Face, Mouth, and Neck Diagnosis with Major Operating Room Procedures    |
| DRG 542                                    | Tracheostomy with Mechanical Ventilation 96+ Hours or Principal Diagnosis Except for Face, Mouth, and Neck Diagnosis Without Major Operating Room Procedures |

Once the MDCs were defined, each MDC was evaluated to identify those additional patient characteristics that would have a consistent effect on the consumption of hospital resources. Since the presence of a surgical procedure that required the use of the operating room would have a significant effect on the type of hospital resources used by a patient, most MDCs were initially divided into surgical DRGs and medical DRGs. Surgical DRGs are based on a hierarchy that orders operating room (O.R.) procedures or groups of O.R. procedures by resource intensity. Medical DRGs generally are differentiated on the basis of diagnosis and age (less than or greater than 17 years of age). Some surgical and medical DRGs are further differentiated based on the presence or absence of a complication or a comorbidity (CC).

Generally, nonsurgical procedures and minor surgical procedures that are not usually performed in an operating room are not treated as O.R. procedures. However, there are a few non-O.R. procedures that do affect DRG assignment for certain principal diagnoses, for example, extracorporeal shock wave lithotripsy for patients with a principal diagnosis of urinary stones.

Once the medical and surgical classes for an MDC were formed, each class of patients was evaluated to determine if complications, comorbidities, or the patient's age would consistently affect the consumption of hospital resources. Physician panels classified each diagnosis code based on whether the diagnosis, when present as a secondary condition, would be considered a substantial complication or comorbidity.

A substantial complication or comorbidity was defined as a condition, which because of its presence with a specific principal diagnosis, would cause an increase in the length of stay by at least one day in at least 75 percent of the patients. Each medical and surgical class within an MDC was tested to determine if the presence of any substantial comorbidities or complications would consistently affect the consumption of hospital resources.

The actual process of forming the DRGs was, and continues to be, highly iterative, involving a combination of statistical results from test data combined with clinical judgment. In deciding whether to create a separate DRG, we consider whether the resource consumption and clinical characteristics of the patients with a given set of conditions are significantly different than the remaining patients in the DRG. We evaluate patient care costs using average charges and length of stay as proxies for costs and rely on the judgment of our medical officers to decide whether patients are distinct or clinically similar to other patients in the DRG. In evaluating resource costs, we consider both the absolute and percentage differences in average charges between the cases we are selecting for review and the remainder of cases in the DRG. We also consider variation in charges within these groups; that is, whether observed average differences are consistent across patients or attributable to cases that are extreme in terms of charges or length of stay, or both. Further, we also consider the number of patients who will have a given set of characteristics and generally prefer not to create a new DRG unless it will include a substantial number of

cases. As we explain in more detail in section IX. of this preamble, MedPAC has made a number of recommendations regarding the DRG system. As part of our review and analysis of MedPAC's recommendations, we will consider whether to establish guidelines for making DRG reclassification decisions.

A patient's diagnosis, procedure, discharge status, and demographic information is fed into the Medicare claims processing systems and subjected to a series of automated screens called the Medicare Code Editor (MCE). The MCE screens are designed to identify cases that require further review before classification into a DRG.

After patient information is screened through the MCE and any further development of the claim is conducted, the cases are classified into the appropriate DRG by the Medicare GROUPEER software program. The GROUPEER program was developed as a means of classifying each case into a DRG on the basis of the diagnosis and procedure codes and, for a limited number of DRGs, demographic information (that is, sex, age, and discharge status).

After cases are screened through the MCE and assigned to a DRG by the GROUPEER, the PRICER software calculates a base DRG payment. The PRICER calculates the payments for each case covered by the IPPS based on the DRG relative weight and additional factors associated with each hospital, such as IME and DSH adjustments. These additional factors increase the payment amount to hospitals above the base DRG payment.

The records for all Medicare hospital inpatient discharges are maintained in the Medicare Provider Analysis and

Review (MedPAR) file. The data in this file are used to evaluate possible DRG classification changes and to recalibrate the DRG weights. However, in the July 30, 1999 IPPS final rule (64 FR 41500), we discussed a process for considering non-MedPAR data in the recalibration process. In order for us to consider using particular non-MedPAR data, we must have sufficient time to evaluate and test the data. The time necessary to do so depends upon the nature and quality of the non-MedPAR data submitted. Generally, however, a significant sample of the non-MedPAR data should be submitted by mid-October for consideration in conjunction with the next year's proposed rule. This allows us time to test the data and make a preliminary assessment as to the feasibility of using the data. Subsequently, a complete database should be submitted by early December for consideration in conjunction with the next year's proposed rule.

Many of the changes to the DRG classifications are the result of specific issues brought to our attention by interested parties. We encourage individuals with concerns about DRG classifications to bring those concerns to our attention in a timely manner so they can be carefully considered for possible inclusion in the next proposed rule and if included, may be subjected to public review and comment. Therefore, similar to the timetable for interested parties to submit non-MedPAR data for consideration in the DRG recalibration process, concerns about DRG classification issues should be brought to our attention no later than early December in order to be considered and possibly included in the next annual proposed rule updating the IPPS.

The changes we are proposing to the DRG classification system for FY 2006 for the FY 2006 GROUPEL, version 23.0 and to the methodology used to recalibrate the DRG weights are set forth below. Unless otherwise noted in this proposed rule, our DRG analysis is based on data from the December 2004 update of the FY 2004 MedPAR file, which contains hospital bills received through December 31, 2004 for discharges in FY 2004.

## 2. Pre-MDC: Intestinal Transplantation

In the FY 2005 IPPS final rule (69 FR 48976), we moved intestinal transplantation cases that were assigned to ICD-9-CM procedure code 46.97

(Transplant of intestine) out of DRG 148 (Major Small and Large Bowel Procedures with CC) and DRG 149 (Major Small and Large Bowel Procedures Without CC) and into DRG 480 (Liver Transplant). We also changed the title for DRG 480 to "Liver Transplant and/or Intestinal Transplant." We moved these cases out of DRGs 148 and 149 because our analysis demonstrated that the average charges for intestinal transplants are significantly higher than the average charges for other cases in these DRGs. We stated at that time that we would continue to monitor these cases.

Based on our review of the FY 2004 MedPAR data, we found 959 cases assigned to DRG 480 with overall average charges of approximately \$165,622. There were only three cases involving an intestinal transplant alone and one case in which both an intestinal transplant and a liver transplant were performed. The average charges for the intestinal transplant cases (\$138,922) were comparable to the average charges for the liver transplant cases (\$165,314), while the remaining combination of an intestinal transplant and a liver transplant case had much higher charges (\$539,841), and would be paid as an outlier case. Therefore, we are not proposing any DRG modification for intestinal transplantation cases at this time.

We note that an institution that performs intestinal transplantation, in correspondence to us written following the publication of the FY 2005 IPPS final rule, agreed with our decision to move cases assigned to code 46.97 to DRG 480.

## 3. MDC 1 (Diseases and Disorders of the Nervous System)

### a. Strokes

In 1996, the Food and Drug Administration (FDA) approved the use of tissue plasminogen activator (tPA), one type of thrombolytic agent that dissolves blood clots. In 1998, the ICD-9-CM Coordination and Maintenance Committee created code 99.10 (Injection or infusion of thrombolytic agent) in order to be able to uniquely identify the administration of thrombolytic agents. Studies have shown that tPA can be effective in reducing the amount of damage the brain sustains during an ischemic stroke, which is caused by blood clots that block blood flow to the brain. The use of tPA is approved for

patients who have blood clots in the brain, but not for patients who have a bleeding or hemorrhagic stroke. Thrombolytic therapy has been shown to be most effective when used within the first 3 hours after the onset of a stroke, and it is contraindicated in hemorrhagic stroke. The presence or absence of code 99.10 does not currently influence DRG assignment. Since code 99.10 became effective, we have been monitoring the DRGs and cases in which this code can be found, particularly with respect to cardiac and stroke DRGs.

Last year, we met with representatives from several hospital stroke centers who recommended modification of the existing stroke DRGs 14 (Intracranial Hemorrhage or Cerebral Infarction) and 15 (Nonspecific CVA and Precerebral Occlusion Without Infarction) by using the administration of tPA as a proxy to identify patients who have severe strokes. The representatives stated that using tPA as a proxy for the more severely ill stroke patient would recognize the higher charges these cases generate because of their higher hospital resource utilization.

The stroke representatives made two suggestions concerning DRGs 14 and 15. First, they proposed modifying DRG 14 by renaming it "Ischemic Stroke Treatment with a Reperfusion Agent," and including only those cases containing code 99.10. The remainder of stroke cases where the patient was not treated with a reperfusion agent would be included in DRG 15, which would be renamed "Hemorrhagic Stroke or Ischemic Stroke without a Reperfusion Agent." Hemorrhagic stroke cases now found in DRG 14 that are not treated with a reperfusion agent would migrate to DRG 15.

The second suggestion was to leave DRGs 14 and 15 as they currently exist, and create a new DRG, with a recommended title "Ischemic Stroke Treatment with a Reperfusion Agent." This suggested DRG would only include strokes caused by clots, not by hemorrhages, and would include the administration of tPA, identified by procedure code 99.10.

We have examined the MedPAR data for the cases in DRGs 14 and 15, and have divided the cases based on the presence of a principal diagnosis of hemorrhage or occlusive ischemia, and the presence of procedure code 99.10. The following table displays the results:

| DRG   | Count   | Average Length of Stay | Average Charges |
|---|---------|------------------------|-----------------|
| 14 - All Cases  | 221,879 | 5.67                   | \$18,997        |
| 14 - Cases with intracranial hemorrhage                       | 41,506  | 5.40                   | \$19,193        |
| 14 - Cases with intracranial hemorrhage with code 99.10       | 61      | 7.4                    | \$37,045        |
| 14 - Cases with intracranial hemorrhage without code 99.10    | 41,445  | 5.3                    | \$19,167        |
| 14 - Cases without intracranial hemorrhage                    | 180,373 | 5.74                   | \$18,952        |
| 14 - Cases without intracranial hemorrhage with code 99.10    | 2,085   | 7.20                   | \$35,128        |
| 14 - Cases without intracranial hemorrhage without code 99.10 | 178,288 | 5.72                   | \$18,763        |
| 15 - All cases  | 71,335  | 4.53                   | \$14,382        |
| 15 - Cases with intracranial hemorrhage                       | 0       | 0                      | 0               |
| 15 - Cases without intracranial hemorrhage                    | 71,335  | 4.53                   | \$14,382        |
| 15 - Cases without intracranial hemorrhage with code 99.10    | 302     | 5.10                   | \$24,876        |
| 15 - Cases without intracranial hemorrhage without code 99.10 | 71,033  | 4.53                   | \$14,337        |

The above table shows that the average standardized charges for cases treated with a reperfusion agent are more than \$16,000 and \$10,000 higher than all other cases in DRGs 14 and 15, respectively. While these data suggest that patients treated with a reperfusion agent are more expensive than all other stroke patients, this conclusion is based on a small number of cases. At this time, we are not proposing a change to the stroke DRGs because of this concern. However, we believe it is possible that more patients are being treated with a reperfusion agent than indicated by our data because the presence of code 99.10 does not affect DRG assignment and may be underreported.

We invite public comment on the changes to DRGs 14 and 15 suggested by the hospital representatives. In addition, we are interested in public comment on the number of patients currently being treated with a reperfusion agent as well as the potential costs of these patients relative to others with strokes that are also included in DRGs 14 and 15.

#### b. Unruptured Cerebral Aneurysms

In the FY 2004 IPPS final rule (68 FR 45353), we created DRG 528 (Intracranial Vascular Procedures With a Principal Diagnosis of Hemorrhage) in MDC 1. We received a comment at that time that suggested we create another

DRG for intracranial vascular procedures for unruptured cerebral aneurysms. For the FY 2004 IPPS final rule (68 FR 45353) and the FY 2005 IPPS final rule (69 FR 48957), we evaluated the data for cases in the MedPAR file involving unruptured cerebral aneurysms assigned to DRG 1 (Craniotomy Age >17 With CC) and DRG 2 (Craniotomy Age >17 Without CC) and concluded that the average charges were consistent with those for other cases found in DRGs 1 and 2. Therefore, we did not propose a change to the DRG assignment for unruptured cerebral aneurysms.

We have reviewed the latest data for unruptured cerebral aneurysms cases. In our analysis of the FY 2004 MedPAR data, we found 1,136 unruptured cerebral aneurysm cases assigned to DRG 1 and 964 unruptured cerebral aneurysm cases assigned to DRG 2. Although the average charges for the unruptured cerebral aneurysm cases in DRG 1 (\$53,455) and DRG 2 (\$34,028) were slightly higher than the average charges for all cases in DRG 1 (\$51,466) and DRG 2 (\$30,346), we do not believe these differences are significant enough to warrant a change in these two DRGs at this time. Therefore, we are not proposing a change in the structure of these DRGs relating to unruptured cerebral aneurysm cases for FY 2006.

#### 4. MDC 5 (Diseases and Disorders of the Circulatory System)

##### a. Automatic Implantable Cardioverter/Defibrillator

As part of our annual review of DRGs, for FY 2006, we performed a review of cases in the FY 2004 MedPAR file involving the implantation of a defibrillator in the following DRGs:

DRG 515 (Cardiac Defibrillator Implant Without Cardiac Catheterization).

DRG 535 (Cardiac Defibrillator Implant With Cardiac Catheterization With Acute Myocardial Infarction, Heart Failure, or Shock).

DRG 536 (Cardiac Defibrillator Implant With Cardiac Catheterization Without Acute Myocardial Infarction, Heart Failure, or Shock).

While conducting our review, we noted that there had been considerable comments from hospital coders on code 37.26 (Cardiac electrophysiologic stimulation and recording studies (EPS)), which is included in these DRGs. These comments from hospital coders were directed at both CMS and the American Hospital Association. The procedure codes for these three DRGs describe the procedures that are considered to be a cardiac catheterization. Code 37.26 is classified as a cardiac catheterization within these DRGs. Therefore, the submission of code

37.26 affects the DRG assignment for defibrillator cases and leads to the assignment of DRGs 535 or 536. When a cardiac catheterization is performed,

the case is assigned to DRGs 535 or 536, depending on whether or not the patient also had an acute myocardial infarction, heart failure, or shock. The following

chart shows the number of cases in each DRG, along with their average length of stay and average charges, found in the data:

| DRG | Number of Cases | Average Length of Stay | Average Charges |
|-----|-----------------|------------------------|-----------------|
| 515 | 25,236          | 4.32                   | \$83,659.76     |
| 535 | 12,118          | 8.27                   | \$113,175.43    |
| 536 | 18,305          | 5.39                   | \$94,453.62     |

We have received a number of questions from hospital coders regarding the correct use of code 37.26. There is considerable confusion about whether or not code 37.26 should be reported when the procedure is performed as part of the defibrillator implantation. Currently, the ICD-9-CM instructs the coder not to report code 37.26 when a defibrillator is inserted. There is an inclusion term under the

defibrillator code 37.94 (Implantation or replacement of automatic cardioverter/defibrillator, total system [AICD]) which states that EPS is included in code 37.94. We discussed modifying this instruction at the October 7-8, 2004 meeting of the ICD-9-CM Coordination and Maintenance Committee. We received a number of comments opposing a modification to the use of code 37.26 to also allow it to be reported

with an AICD insertion. A report of this meeting can be found on the Web site: <http://www.cms.hhs.gov/paymentsystem/icd9>.

We performed an analysis of cases within DRGs 535 and 536 with cardiac catheterization and with and without code 37.26 and with code 37.26 only reported without cardiac catheterization and found the following:

| DRG  | Number of Cases | Average Length of Stay | Average Charges |
|--|-----------------|------------------------|-----------------|
| 535 - Cardiac Catheterization Without Code 37.26           | 5,060           | 10.63                  | \$127,130.79    |
| 535 - With Code 37.26 Only Without Cardiac Catheterization | 5,264           | 5.61                   | \$98,900.13     |
| 535 - With Cardiac Catheterization and Code 37.26          | 1,794           | 9.44                   | \$115,701.09    |
| 536 - Cardiac Catheterization Without Code 37.26           | 4,799           | 8.11                   | \$110,493.86    |
| 536 - With Code 37.26 Only Without Cardiac Catheterization | 10,829          | 3.85                   | \$85,390.88     |
| 536 - With Cardiac Catheterization and Code 37.26          | 2,677           | 6.76                   | \$102,359.21    |

The data show that when code 37.26 is the only procedure reported from the list of cardiac catheterizations, the average charges and the average length of stay are considerably lower. For example, the average standardized charges for a defibrillator implant with only an EPS are \$85,390.88 in DRG 536, while the average standardized charges for DRG 536 with a cardiac catheterization, but not an EPS, are \$110,493.86. The average standardized charges for all cases in DRG 536 are \$94,453.62. The data show similar findings for DRG 535, with lower lengths of stay and average charges when the only code reported from the cardiac catheterization list is an EPS. When we also consider that there may

be some coding problems in the use of code 37.26, we believe it is appropriate to propose a modification to these DRGs.

Data reflected in the chart above show that the average standardized charges for DRG 515 were \$83,659.76. These average charges are closer to those in DRG 536 with code 37.26 and without any other cardiac catheterization code reported. While the cases in DRG 535 with code 37.26 and without a cardiac catheterization have higher average charges than the average charges for cases in DRG 515, these cases have much lower average charges than the average charges for overall cases in DRG 535. For these reasons, we are proposing to remove code 37.26 from the list of

cardiac catheterizations for DRGs 535 and 536. If a defibrillator is implanted and an EPS is performed with no other type of cardiac catheterization, the case would be assigned to DRG 515.

CMS issued a National Coverage Determination for implantable cardioverter defibrillators, effective January 27, 2005, that expands coverage and requires, in certain cases, that patient data be reported when the defibrillator is implanted for the clinical indication of primary prevention of sudden cardiac death. The submission of data on patients receiving an implantable cardioverter defibrillator for primary prevention to a data collection system is needed for the determination that the implantable cardioverter

defibrillator is reasonable and necessary and for quality improvement. These data will be made available in some form to providers and practitioners to inform their decisions, monitor performance quality, and benchmark and identify best practices. We made a temporary registry available for use when the policy became effective and used the Quality Net Exchange for data submission because Medicare-participating hospitals already use the Exchange to report data.

We intend to transition from the temporary registry using the Quality Net Exchange to a more sophisticated follow-on registry that will have the ability to collect longitudinal data. Some providers have suggested that CMS increase reimbursement for implantable cardioverter defibrillators to compensate the provider for reporting data. ICD data reporting includes elements of patient demographics, clinical characteristics and indications, medications, provider information, and complications. Since these data elements are commonly found in patient medical records, it is CMS' expectation that these data are readily available to the individuals abstracting and reporting data. Therefore, we believe that increased reimbursement is not needed at this time.

#### b. Coronary Artery Stents

In the FY 2005 IPPS final rule (69 FR 48971 through 48974), we addressed two comments from industry representatives about the DRG assignments for coronary artery stents. These commenters had expressed concern about whether the reimbursement for stents is adequate, especially for insertion of multiple stents. They also expressed concern about whether the current DRG structure represents the most clinically coherent classification of stent cases.

The current DRG structure incorporates stent cases into the following two pairs of DRGs, depending on whether bare metal or drug-eluting stents are used and whether acute myocardial infarction (AMI) is present:

- DRG 516 (Percutaneous Cardiovascular Procedures with AMI).
- DRG 517 (Percutaneous Cardiovascular Procedures with Nondrug-Eluting Stent without AMI).
- DRG 526 (Percutaneous Cardiovascular Procedures with Drug-Eluting Stent with AMI).
- DRG 527 (Percutaneous Cardiovascular Procedures with Drug-Eluting Stent without AMI).

The commenters presented two recommendations for refinement and restructuring of the current coronary

stent DRGs. One of the recommendations involved restructuring these DRGs to create two additional stent DRGs that are closely patterned after the existing pairs, and would reflect insertion of multiple stents with and without AMI. The commenters recommended incorporating either stenting code 36.06 (Insertion of nondrug-eluting coronary artery stent(s)) or code 36.07 (Insertion of drug-eluting coronary artery stent(s)) when they are reported along with code 36.05 (Multiple vessel percutaneous transluminal coronary angioplasty [PTCA] or coronary atherectomy performed during the same operation, with or without mention of thrombolytic agent). The commenter's first concern was that hospitals may be steering patients toward coronary artery bypass graft surgery in place of stenting in order to avoid significant financial losses due to what it considered the inadequate reimbursement for inserting multiple stents.

In our response to comments in the FY 2005 IPPS final rule, we indicated that it was premature to act on this recommendation because the current coding structure for coronary artery stents cannot distinguish cases in which multiple stents are inserted from those in which only a single stent is inserted. Current codes are able to identify performance of PTCA in more than one vessel by use of code 36.05. However, while this code indicates that PTCA was performed in more than one vessel, its use does not reflect the exact number of procedures performed or the exact number of vessels treated. Similarly, when codes 36.06 and 36.07 are used, they document the insertion of at least one stent. However, these stenting codes do not identify how many stents were inserted in a procedure, nor distinguish insertion of a single stent from insertion of multiple stents. Even the use of one of the stenting codes in conjunction with multiple-PTCA code 36.05 does not distinguish insertion of a single stent from multiple stents. The use of code 36.05 in conjunction with code 36.06 or code 36.07 indicates only performance of PTCA in more than one vessel, along with insertion of at least one stent. The precise numbers of PTCA-treated vessels, the number of vessels into which stents were inserted, and the total number of stents inserted in all treated vessels cannot be determined. Therefore, the capabilities of the current coding structure do not permit the distinction between single and multiple vessel stenting that would be required under the recommended

restructuring of the coronary stent DRGs.

We agree that the DRG classification of cases involving coronary stents must be clinically coherent and provide for adequate reimbursement, including those cases requiring multiple stents. For this reason, we created four new ICD-9-CM codes identifying multiple stent insertion (codes 00.45, 00.46, 00.47, and 00.48) and four new codes identifying multiple vessel treatment (codes 00.40, 00.41, 00.42, and 00.43) at the October 7, 2004 ICD-9-CM Coordination and Maintenance Committee Meeting. These eight new codes can be found in Table 6B of this proposed rule. We have worked closely with the coronary stent industry and the clinical community to identify the most logical code structure to identify new codes for both multiple vessel and multiple stent use. Effective October 1, 2005, code 36.05 will be deleted and the eight new codes will be used in its place. Coders are encouraged to use as many codes as necessary to describe each case, using one code to describe the angioplasty or atherectomy, and one code each for the number of vessels treated and the number of stents inserted. Coders are encouraged to record codes accurately, as these data will potentially be the basis for future DRG restructuring. While we agree that use of multiple vessel and stent codes will provide useful information in the future on hospital costs associated with percutaneous coronary procedures, we believe it remains premature to proceed with a restructuring of the current coronary stent DRGs on the basis of the number of vessels treated or the number of stents inserted, or both, in the absence of data reflecting use of this new coding structure.

The commenter's second recommendation was that we distinguish "complex" from "noncomplex" cases in the stent DRGs by expanding the higher weighted DRGs (516 and 526) to include conditions other than AMI. The commenter recommended recognizing certain comorbid and complicating conditions, including hypertensive renal failure, congestive heart failure, diabetes, arteriosclerotic cardiovascular disease, cerebrovascular disease, and certain procedures such as multiple vessel angioplasty or atherectomy (as evidenced by the presence of procedure code 36.05), as indicators of complex cases for this purpose. Specifically, the commenters recommended replacing the current structure with the following four DRGs:

- Recommended restructured DRG 516 (Complex percutaneous

cardiovascular procedures with non-drug-eluting stents).

- Recommended restructured DRG 517 (Noncomplex percutaneous cardiovascular procedures with non-drug-eluting stents).

- Recommended restructured DRG 526 (Complex percutaneous cardiovascular procedures with drug-eluting stents).

- Recommended restructured DRG 527 (Noncomplex percutaneous cardiovascular procedures with drug-eluting stents).

The commenter argued that this structure would provide an improvement in both clinical and resource coherence over the current structure that classifies cases according to the type of stent inserted and the presence or absence of AMI alone, without considering other complicating conditions. The commenter also presented an analysis, based on previous MedPAR data, that evaluated charges and lengths of stay for cases with expected high resource use and reclassified cases into its recommended new structure of paired "complex" and "noncomplex" DRGs. The commenter's analysis showed some evidence of clinical and resource coherence in the recommended DRG structure. However, we did not adopt the proposal in the FY 2005 IPPS final rule. First, the data presented by the commenter still represented preliminary experience under a relatively new DRG structure. Second, the analysis did not reveal significant gains in resource coherence compared to existing DRGs for stenting cases. Therefore, we were reluctant to adopt this approach because of comments and concern about whether the overall level of payment in the coronary stent DRGs was adequate. However, we indicated that this issue deserved further study and consideration, and that we would conduct an analysis of this recommendation and other approaches to restructuring these DRGs with updated data in the FY 2006 proposed rule.

This year, we have analyzed the MedPAR data to determine the impact of certain secondary diagnoses or complicating conditions on the four DRGs cited above. Specifically, we examined the data in DRGs 516, 517, 526, and 527, based on the presence of coronary stents (codes 36.06 and 36.07) and the following additional diagnoses:

- Congestive heart failure (represented by codes 398.91 (Rheumatic heart failure (congestive)), 402.01 (Hypertensive heart disease, malignant, with heart failure), 402.11, (Hypertensive heart disease, benign,

with heart failure), 402.91 (Hypertensive heart disease, unspecified, with heart failure), 404.01 (Hypertensive heart and renal disease, malignant, with heart failure), 404.03 (Hypertensive heart and renal disease, malignant, with heart failure and renal failure), 404.11 (Hypertensive heart and renal disease, benign, with heart failure), 404.13 (Hypertensive heart and renal disease, benign, with heart failure and renal failure), 404.91 (Hypertensive heart and renal disease, unspecified, with heart failure), 404.93 (Hypertensive heart and renal disease, unspecified, with heart failure and renal failure), 428.0 (Congestive heart failure, unspecified), and 428.1 (Left heart failure)).

- Arteriosclerotic cardiovascular disease (represented by code 429.2 (Cardiovascular disease, unspecified)).

- Cerebrovascular disease (represented by codes 430.0 (Subarachnoid hemorrhage), 431.0 (Intracerebral hemorrhage), 432.0 (Nontraumatic extradural hemorrhage), 432.1, Subdural hemorrhage, 432.9, (Unspecified intracranial hemorrhage), 433.01 (Occlusion and stenosis of basilar artery, with cerebral infarction), 433.11 (Occlusion and stenosis of carotid artery, with cerebral infarction), 433.21 (Occlusion and stenosis of vertebral artery, with cerebral infarction), 433.31 (Occlusion and stenosis of multiple and bilateral precerebral arteries, with cerebral infarction), 433.81 (Occlusion and stenosis of other specified precerebral artery, with cerebral infarction), 434.01 (Cerebral thrombosis with cerebral infarction), 434.11 (Cerebral embolism with cerebral infarction), 434.91 (Cerebral artery occlusion with cerebral infarction, unspecified), 436.0 (Acute, but ill-defined, cerebrovascular disease)).

- Secondary diagnosis of acute myocardial infarction (represented by codes 410.01 (Acute myocardial infarction of anterolateral wall, initial episode of care), 410.11 (Acute myocardial infarction of other anterior wall, initial episode of care), 410.21 (Acute myocardial infarction of inferolateral wall, initial episode of care), 410.31 (Acute myocardial infarction of inferoposterior wall, initial episode of care), 410.41 (Acute myocardial infarction of other inferior wall, initial episode of care), 410.51 (Acute myocardial infarction of other lateral wall, initial episode of care), 410.61 (True posterior wall infarction, initial episode of care), 410.71 (Subendocardial infarction, initial episode of care), 410.81 (Acute myocardial infarction of other specified sites, initial episode of care), 410.91

(Acute myocardial infarction of unspecified site, initial episode of care)).

- Renal failure (represented by codes 403.01 (Hypertensive renal disease, malignant, with renal failure), 403.11 (Hypertensive renal disease, benign, with renal failure), 403.91 (Hypertensive renal disease, unspecified, with renal failure), 585.0 (Chronic renal failure), V42.0 (Organ or tissue replaced by transplant, kidney), V45.1 (Renal dialysis status), V56.0 (Extracorporeal dialysis), V56.1 (Fitting and adjustment of extracorporeal dialysis catheter), V56.2 (Fitting and adjustment of peritoneal dialysis catheter)). Any renal failure with congestive heart failure will be captured in the 404.xx codes listed above.

We reviewed the cases in the four coronary stent DRGs and found that most of the additional or "complicated" cases did, in fact, have higher average charges in most instances. However, these results could potentially be duplicated for many DRGs, or sets of DRGs, within the PPS structure. That is, cases with selected complicating factors will tend to have higher average lengths of stay and average charges than cases without those complicating factors. Since cases with the selected complicating factors necessarily contain sicker patients, longer lengths of stay and higher average charges are to be expected. For example, cases in which patients with a cardiac condition also have renal failure are quite likely to consume higher resources than patients only with a cardiac condition. In addition, selectively recognizing the recommended secondary diagnoses or complicating conditions raises some issues related to the logic and structural integrity of the DRG system. Generally, we have taken into account the higher costs of cases with complications by maintaining a general list of comorbidities and complications (the CC list), and, where appropriate, distinguishing pairs of DRGs by "with and without CCs." (This system also specifies exclusions from each pair, to account for cases where a condition on the CC list is an expected and normal constituent of the diagnoses reflected in the paired DRGs.) In order to maintain the basic DRG body-system structure, we have not employed special lists of procedures and diagnoses from one MDC to make determinations about the structure of DRGs in another MDC. The recommended restructuring of the coronary stent DRGs is inconsistent with this principle and may create a new precedent of selecting specific comorbidities and complications to restructure DRGs. For example, the

presence of code 403.11 (Hypertensive renal disease, malignant, with renal failure) may distinguish cases with higher average charges, but the same argument could be raised for many other procedures across other MDCs.

Rather than establishing such a precedent, we are proposing to restructure the coronary stent DRGs on the basis of the standard CC list to differentiate cases that require greater resources. We believe this list to be more inclusive of true comorbid or complicating conditions than selection of specific secondary diagnosis codes.

Therefore, restructuring these DRGs on this basis would result in a logical arrangement of cases with regard to both clinical coherence and resource consumption. We have compared the existing CC list with the list of the codes recommended by the commenter as secondary diagnoses. All of the recommended codes already appear on the CC list except for codes 429.2, 432.9, V56.1, and V56.2. Code 429.2 represents a very vague diagnosis (arteriosclerotic cardiovascular disease (ASCVD)). Code 432.9 represents a nonspecific principal diagnosis that is rejected by the MCE

when reported as the principal diagnosis. Codes V56.1 and V56.2 describe conditions relating to dialysis for renal failure. Therefore, we believe that our proposal to utilize the existing CC list would encompass most of the cases on the recommended list, as well as other cases with additional CCs requiring additional resources. We have examined the MedPAR data for the cases in the coronary stent DRGs, distinguishing cases that include CCs and those that do not. The following table displays the results:

| DRG                      | Number of Cases | Average Length of Stay | Average Charges |
|--------------------------|-----------------|------------------------|-----------------|
| DRG 516 - All Cases      | 37,325          | 4.79                   | \$40,278        |
| DRG 516 Cases With CC    | 25,806          | 5.5                    | \$43,691        |
| DRG 516 Cases Without CC | 11,519          | 3.0                    | \$32,631        |
| DRG 517 - All Cases      | 64,022          | 2.58                   | \$32,145        |
| DRG 517 Cases With CC    | 50,960          | 2.8                    | \$33,178        |
| DRG 517 Cases Without CC | 13,062          | 1.5                    | \$28,113        |
| DRG 526 - All Cases      | 51,431          | 4.36                   | \$45,924        |
| DRG 526 Cases With CC    | 32,904          | 5.2                    | \$49,751        |
| DRG 526 Cases Without CC | 18,527          | 2.8                    | \$39,126        |
| DRG 527 - All Cases      | 176,956         | 2.23                   | \$36,087        |
| DRG 527 Cases With CC    | 137,641         | 2.4                    | \$37,142        |
| DRG 527 Cases Without CC | 39,315          | 1.3                    | \$32,392        |

The data show a clear differentiation in average charges between the cases in DRG 516 and 526 "with CC" and those "without CC." Therefore, the data suggest that a "with and without CC" split in DRG 516 and 526 is warranted. At the same time, the data do not show such a clear differentiation, in either average charges or lengths of stay, among the cases in DRGs 517 and 527.

Therefore, we are proposing to delete DRGs 516 and 526, and to substitute four new DRGs in their place. These new DRGs would be patterned after existing DRGs 516 and 526, except that they would be split based on the presence or absence of a secondary diagnosis on the existing CC list. Specifically, we are proposing to create DRG 547 (Percutaneous Cardiovascular Procedure with AMI with CC), DRG 548 (Percutaneous Cardiovascular Procedure with AMI without CC), DRG 549 (Percutaneous Cardiovascular Procedure with Drug-Eluting Stent with AMI with CC), and DRG 550 (Percutaneous Cardiovascular Procedure with Drug-Eluting Stent with AMI without CC). As we noted above, the MedPAR data do not support restructuring DRGs 517 and

527 based on the presence or absence of a CC. Therefore, we are proposing to retain these two DRGs in their current forms. We believe this revised structure will result in a more inclusive and comprehensive array of cases within MDC 5 without selectively recognizing certain secondary diagnoses as "complex."

While we are proposing some restructuring of the coronary stent DRGs for FY 2006, it is important to note that we will continue to monitor and analyze clinical and resource trends in this area. For example, we have found indications in the current data that treatment may be moving toward use of drug-eluting stents, and away from use of bare metal stents. Specifically, cases in DRGs 516 and 517, which utilize bare metal stents, comprise only 44.4 percent, or less than half, of the cases in the four coronary stent DRGs in the MedPAR data we analyzed. As use of drug-eluting stents becomes the standard of treatment, we may consider over time whether to dispense with the distinction between these stents and the older bare metal stent technology in the structure of the coronary stent DRGs. In addition, we

will continue to consider whether the structure of these DRGs ought to reflect differences in the number of vessels treated or the number of stents inserted, or both. As we discussed above, a new coding structure capable of identifying multiple vessel treatment and the insertion of multiple stents will go into effect on October 1, 2005. It remains premature to restructure the coronary stent DRGs on the basis of the number of vessels treated or the number of stents inserted, or both, until data reflecting the use of these new codes become available. However, we will analyze those data when they become available in order to determine whether a restructuring based on multiple vessel treatment or insertion of multiple stents, or both, is warranted. Our proposal to restructure two of the current coronary stent DRGs into paired "with and without CC" DRGs for FY 2006 does not preclude proposals in subsequent years to restructure the coronary stent DRGs in one or both of these ways.

c. Insertion of Left Atrial Appendage Device

Atrial fibrillation is a common heart rhythm disorder that can lead to a cardiovascular blood clot formation leading to increased risk of stroke. According to product literature, nearly all strokes are from embolic clots arising in the left atrial appendage of the heart: an appendage for which there is no useful function. Standard therapy uses anticoagulation drugs. However, these drugs may be contraindicated in certain patients and may cause complications such as bleeding. The underlying concept behind the left atrial appendage device is to block off the left atrial appendage, so that the blood clots formed therein cannot travel to other sites in the vascular system. The device is implanted using a percutaneous

catheter procedure under fluoroscopy through the femoral vein. Implantation is performed in a hospital catheterization laboratory using standard transeptal technique, with the patient generally under local anesthesia. The procedure takes approximately 1 hour, and most patients stay overnight in the hospital.

In the FY 2005 IPPS final rule (69 FR 48978, August 11, 2004), we discussed the DRG assignment of new ICD-9-CM procedure code 37.90 (Insertion of left atrial appendage device) for clinical trials, effective for discharges occurring on or after October 1, 2004, to DRG 518 (Percutaneous Cardiovascular Procedure without Coronary Artery Stent or Acute Myocardial Infarction). In that final rule, we addressed the DRG assignment of procedure code 37.90 in response to

a comment from a manufacturer who suggested that placement of the code in DRG 108 (Other Cardiothoracic Procedures) was more representative of the complexity of the procedure than placement in DRG 518. The manufacturer indicated that the suggested placement of procedure code 37.90 in DRG 108 was justified because another percutaneous procedure, described by ICD-9-CM procedure code 35.52 (Repair of atrial septal defect with prosthesis, closed technique), was assigned to DRG 108. As we indicated in the FY 2005 final rule (69 FR 48978), this comment prompted us to examine data in the FY 2003 MedPAR file for cases of code 35.52 assigned to DRG 108 and DRG 518 in comparison to all cases assigned to DRG 108. We found the following:

| DRG                              | Number of Cases | Average Length of Stay | Average Charges |
|----------------------------------|-----------------|------------------------|-----------------|
| DRG 108 With Code 35.52 Reported | 423             | 2.69                   | \$29,231        |
| DRG 108 - All cases              | 5,293           | 10.1                   | \$76,274        |
| DRG 518 - All cases              | 39,553          | 4.3                    | \$31,955        |

Therefore, we concluded that procedure code 35.52 showed a decided similarity to the cases found in DRG 518, not DRG 108. At that time, we determined that we would analyze the

cases for both clinical coherence and charge data as part of the IPPS FY 2006 process of identifying the most appropriate DRG assignment for procedure code 35.52.

We have now examined data from the FY 2004 MedPAR file and found results for cases assigned to DRG 108 and DRG 518 that are similar to last year's findings as indicated in the chart below:

| DRG                              | Number of Cases | Average Length of Stay | Average Charges |
|----------------------------------|-----------------|------------------------|-----------------|
| DRG 108 With Code 35.52 Reported | 872             | 2.42                   | \$29,579        |
| DRG 108 - All cases              | 8,264           | 9.81                   | \$81,323        |
| DRG 518 - All cases              | 38,624          | 3.49                   | \$27,591        |

From this comparison, we found that when an atrial septal defect is percutaneously repaired, and procedure code 35.52 is the only code reported in DRG 108, there is a significant discrepancy in both the average charges and the average length of stay between the cases with procedure code 35.52 reported in DRG 108 and the total cases in DRG 108. The total cases in DRG 108 have average charges of \$51,744 greater than the 872 cases in DRG 108 reporting procedure code 35.52 as the only procedure. The total cases in DRG 108 also have an average length of stay of 7.39 days greater than the average length

of stay for cases in DRG 108 with procedure code 35.52 reported. In comparison, the total cases in DRG 518 have average charges of only \$1,988 lower than the cases in DRG 108 with only procedure code 35.52 reported. In addition, the length of stay in total cases in DRG 518 is more closely related to cases in DRG 108 with only procedure code 35.52 reported.

Based on our analysis of these data, we are proposing to move procedure code 35.52 out of DRG 108 and place it in DRG 518. We believe that this proposal would result in a more

coherent group of cases in DRG 518 that reflect all percutaneous procedures.

d. External Heart Assist System Implant

In the August 1, 2002, final rule (67 FR 49989), we attempted to clinically and financially align ventricular assist device (VAD) procedures by creating DRG 525 (Heart Assist System Implant). We also noted that cases in which a heart transplant also occurred during the same hospitalization episode would continue to be assigned to DRG 103 (Heart Transplant).

After further data review during the next 2 years, we decided to realign the

DRGs containing VAD codes for FY 2005. In the August 11, 2004 final rule (69 FR 48927), we announced changes to DRG 103, DRG 104 (Cardiac Valve and Other Major Cardiothoracic Procedure with Cardiac Catheterization), DRG 105 (Cardiac Valve and Other Major Cardiothoracic Procedures Without Cardiac Catheterization), and DRG 525.

In summary, these changes included—

- Moving code 37.66 (Insertion of implantable heart assist system) out of DRG 525 and into DRG 103.
- Renaming DRG 525 as "Other Heart Assist System Implant."
- Moving code 37.62 (Insertion of non-implantable heart assist system) out of DRGs 104 and 105 and back into DRG 525.

DRG 525 currently consists of any principal diagnosis in MDC 5, plus the following surgical procedure codes:

- 37.52, Implantation of total replacement heart system\*.
- 37.53, Replacement or repair of thoracic unit of total replacement heart system\*.

- 37.54, Replacement or repair of other implantable component of total replacement heart system\*.
- 37.62, Insertion of non-implantable heart assist system.
- 37.63, Repair of heart assist system.
- 37.65, Implant of external heart assist system.

\* These codes represent noncovered services for Medicare beneficiaries. However, it is our longstanding practice to assign every code in the ICD-9-CM classification to a DRG. Therefore, they have been assigned to DRG 525.

Since that decision, we have been encouraged by a manufacturer to reevaluate DRG 525 for FY 2006. The manufacturer requested that we again review the data surrounding cases reporting code 37.65 and has suggested moving these cases into DRG 103. The manufacturer pointed out the following: Code 37.65 describes the implantation of an external heart assist system and is currently approved by the FDA as a bridge-to-recovery device. From the standpoint of clinical status, the patients in DRG 103 and receiving an external heart assist system are similar because their native hearts cannot support circulation, and absent a heart

transplant, a mechanical pump is needed for patient survival. The surgical procedures for implantation of both an internal VAD and an external VAD are very similar. However, the external heart assist system (code 37.65) is a less expensive device than the implantable heart assist system (code 37.66). The manufacturer suggested that the payment differential between DRGs 103 and 525 is an incentive to choose the higher paying device, and asserted that only a subset of patients receiving an implantable heart assist system are best served by this device. The manufacturer also suggested that the initial use of the least expensive therapeutically appropriate device yields both the best clinical outcomes and the lowest total system costs.

We note that, under the DRG system, our intent is to create payments that are reflective of the average resources required to treat a particular case. Our goal is that physicians and hospitals should make treatment decisions based on the clinical needs of the patient and not financial incentives.

When we reviewed the FY 2004 MedPAR data, we were able to demonstrate the following comparisons:

| DRG                                 | Number of Cases | Average Length of Stay | Average Charges |
|-------------------------------------|-----------------|------------------------|-----------------|
| DRG 103 - All cases                 | 633             | 37.5                   | \$313,583       |
| DRG 103 with code 37.65 reported    | 0               | 0                      | \$0             |
| DRG 103 without code 37.65 reported | 0               | 0                      | \$0             |
| DRG 525 - All cases                 | 291             | 13.66                  | \$173,854       |
| DRG 525 with code 37.65 reported    | 110             | 9.26                   | \$206,497       |
| DRG 525 without code 37.65 reported | 181             | 16.34                  | \$154,015       |

The above table shows that the 37.8 percent of cases in DRG 525 that reported code 37.65 have average charges that are nearly \$33,000 higher than the average charges for all cases in the DRG. However, the average charges for the subset of cases with code 37.65 in DRG 525 (\$206,497) are more than \$107,086 lower than the average charges for all cases in DRG 103 (\$313,583). Furthermore, the average length of stay for the subset of patients in DRG 525 receiving an external heart assist system

was 9.26 days compared to 37.5 days for the 633 cases in DRG 103.

We note that the analysis above presents the difference in average charges, not costs. Because hospitals' charges are higher than costs, the difference in hospital costs will be less than the figures shown here. Moving cases containing code 37.65 from DRG 525 to DRG 103 would have two consequences. The cases in DRG 103 reporting code 37.65 would be appreciably overreimbursed, which

would be inconsistent with our goal of coherent reimbursement structure within the DRGs. In addition, the relative weight of DRG 103 would decrease by moving the less resource-intensive external heart procedures into the same DRG with the more expensive heart transplant cases. The net effect would be an underpayment for heart transplant cases. Alternatively, we also reconsidered our position on moving the insertion of an implantable heart assist system (code 37.66) back into

DRG 525. However, as shown in the FY 2005 IPPS final rule (69 FR 48929), the resource costs associated with caring for a patient receiving an implantable heart assist system are far more similar to those cases receiving a heart transplant in DRG 103 than they are to cases in DRG 525. For these reasons, we are not proposing to make any changes to the structure of either DRG 103 or DRG 525 in this proposed rule.

#### e. Carotid Artery Stent

Stroke is the third leading cause of death in the United States and the leading cause of serious, long-term disability. Approximately 70 percent of all strokes occur in people age 65 and older. The carotid artery, located in the neck, is the principal artery supplying the head and neck with blood. Accumulation of plaque in the carotid artery can lead to stroke either by decreasing the blood flow to the brain or by having plaque break free and lodge in the brain or in other arteries to the head. The percutaneous transluminal angioplasty (PTA) procedure involves inflating a balloon-like device in the narrowed section of the carotid artery to reopen the vessel. A carotid stent is then deployed in the artery to prevent the vessel from closing or restenosing. A distal filter device (embolic protection device) may also be present, which is intended to prevent pieces of plaque from entering the bloodstream.

Effective July 1, 2001, Medicare covers PTA of the carotid artery concurrent with carotid stent placement when furnished in accordance with the FDA-approved protocols governing Category B Investigational Device

Exemption (IDE) clinical trials. PTA of the carotid artery, when provided solely for the purpose of carotid artery dilation concurrent with carotid stent placement, is considered to be a reasonable and necessary service only when provided in the context of such clinical trials and, therefore, is considered a covered service for the purposes of these trials. Performance of PTA in the carotid artery when used to treat obstructive lesions outside of approved protocols governing Category B IDE clinical trials remains a noncovered service.

At the April 1, 2004 ICD-9-CM Coordination and Maintenance Committee meeting, we discussed creation of a new code or codes to identify carotid artery stenting, along with a concomitant percutaneous angioplasty or atherectomy (PTA) code for delivery of the stent(s). This subject was addressed in response to the need to identify carotid artery stenting for use in clinical trials in the upcoming fiscal year. Public comment confirmed the need for specific codes for this procedure. We established codes for carotid artery stenting procedures effective October 1, 2004, for patients who are enrolled in an FDA-approved clinical trial and are using on-label FDA approved stents and embolic protection devices.

New procedure codes 00.61 (Percutaneous angioplasty or atherectomy of precerebral (extracranial vessel(s)) and 00.63 (Percutaneous insertion of carotid artery stent(s)) were published in Table 6B, New Procedure Codes in the FY 2005 IPPS final rule (69 FR 49624).

Procedure code 00.61 was assigned to four MDCs and seven DRGs. The most likely scenario is that in which cases are assigned to MDC 1 (Diseases and Disorders of the Nervous System in DRGs 533 (Extracranial Procedures with CC) and 534 (Extracranial Procedures without CC). Cases may also be assigned to MDC 5 (Diseases and Disorders of the Circulatory System), MDC 21 (Injuries, Poisoning, and Toxic Effects of Drugs), and MDC 24 (Multiple Significant Trauma). Other less likely DRG assignments can be found in Table 6B in the Addendum to the FY 2005 IPPS final rule (69 FR 49624).

In the FY 2005 final rule, we indicated that we would continue to monitor DRGs 533 and 534 and procedure code 00.61 in combination with procedure code 00.63 in upcoming annual DRG reviews. For this proposed rule, we are using proxy codes to evaluate the costs and DRG assignments for carotid artery stenting because codes 00.61 and 00.63 were only approved for use beginning October 1, 2004, and because MedPAR data for this period are not yet available. We used procedure code 39.50 (Angioplasty or atherectomy of other noncoronary vessel(s)) in combination with procedure code 39.90 (Insertion of nondrug-eluting peripheral vessel stent(s)) in DRGs 533 and 534 as the proxy codes for coronary artery stenting. For this evaluation, we used principal diagnosis code 433.10 (Occlusion and stenosis of carotid artery, without mention of cerebral infarction) because this diagnosis most closely reflects the clinical trial criteria.

The following chart shows our findings:

| DRG   | Number of Cases | Average Length of Stay | Average Charges |
|---|-----------------|------------------------|-----------------|
| DRG 533 - All cases                         | 44,677          | 3.73                   | \$24,464        |
| DRG 533 with codes 39.50 and 39.90 reported | 1,586           | 3.13                   | \$29,737        |
| DRG 534 - All cases                         | 42,493          | 1.79                   | \$15,873        |
| DRG 534 with codes 39.50 and 39.90 reported | 1,397           | 1.54                   | \$22,002        |

The patients receiving a carotid stent (codes 39.50 and 39.90) represented 3.5 percent of all cases in DRG 534. On average, patients receiving a carotid stent had slightly shorter average lengths of stay than other patients in DRGs 533 and 534. While the average charges for patients receiving a carotid

artery stent were higher than for other patients in DRG 534, in our view, the small number of cases and the magnitude of the difference in average charges are not sufficient to justify a change in the DRGs.

Because we have a paucity of data for the carotid stent device and its

insertion, and no data utilizing procedure codes 00.61 and 00.63 in a clinical trial setting, we believe it is premature to revise the DRG structure at this time. We expect to revisit this analysis once data become available on the new codes for carotid artery stents.

f. Extracorporeal Membrane Oxygenation (ECMO)

Extracorporeal membrane oxygenation (ECMO) is a procedure to create a closed chest, heart-lung bypass system by insertion of vascular catheters. Patients receiving this procedure require mechanical ventilation. ECMO is performed for a small number of severely ill patients who are at high risk of dying without this procedure. Most often it is done for neonates with persistent pulmonary hypertension and respiratory failure for whom other treatments have failed, certain severely ill neonates receiving major cardiac procedures or diaphragmatic hernia repair, and certain older children and adults, most of whom are receiving major cardiac procedures.

We received several letters from institutions that perform ECMO. The commenters stated that, in the CMS GROUPER logic, this procedure has little or no impact on the DRG

assignment in the newborn, pediatric, and adult population. According to these letters, patients receiving ECMO are highly resource intensive and should have a unique DRG that reflects the costs of these resources. The commenters recommended the creation of a new DRG for ECMO with a DRG weight equal to or greater than the DRG weight for tracheostomy.

ECMO is assigned to procedure code 39.65 (Extracorporeal membrane oxygenation). This code is classified as an O.R. procedure and is assigned to DRG 104 (Cardiac Valve and Other Major Cardiothoracic Procedure With Cardiac Catheterization) and DRG 105 (Cardiac Valve and Other Major Cardiothoracic Procedure Without Cardiac Catheterization). When ECMO is performed with other O.R. procedures, the case is assigned to the higher weighted DRG. For example, when ECMO and a tracheostomy are performed during the same admission, the case would be assigned to DRG 541 (Tracheostomy with Mechanical

Ventilation 96+ Hours or Principal Diagnosis Except Face, Mouth, and Neck Diagnoses With Major O.R.).

We note that the primary focus of updates to the Medicare DRG classification system is changes relating to the Medicare patient population, not the pediatric patient population. Because ECMO is primarily a pediatric procedure and rarely performed in an adult population, we have few cases in our data to use to evaluate resource costs. We are aware that other insurers sometimes use Medicare's rates to make payments. We advise private insurers to make appropriate modifications to our payment system when it is being used for children or other patients who are not generally found in the Medicare population.

To evaluate the appropriateness of payment under the current DRG assignment, we have reviewed the FY 2004 MedPAR data and found 78 ECMO cases in 13 DRGs. The following table illustrates the results of our findings:

| DRG With Code 39.65 Reported | Number of Cases | Average Length of Stay | Average Charges for ECMO Cases | Average Charges for All Cases in DRG |
|------------------------------|-----------------|------------------------|--------------------------------|--------------------------------------|
| 104                          | 23              | 9                      | \$147,766                      | \$120,496                            |
| 105                          | 21              | 8                      | \$131,700                      | \$89,831                             |
| 541                          | 14              | 62.9                   | \$561,210                      | \$273,656                            |
| All Other DRGs               | 20              | 18.1                   | \$308,341                      | NA                                   |

The average charges for all ECMO cases were approximately \$258,821, and the average length of stay was approximately 20.7 days. The average charges for the ECMO cases are closer to the average charges for DRG 541 (\$273,656) than to the average charges of DRG 104 (\$147,766) and DRG 105 (\$131,700). Of the 78 ECMO cases, 14 cases are already assigned to DRG 541. We believe that the data indicate that DRG 541 would be a more appropriate DRG assignment for cases where ECMO is performed. We further note that under the All Payer DRG System used in New York State, cases involving ECMO are assigned to the tracheostomy DRG. Thus, the assignment of ECMO cases to the tracheostomy DRG for Medicare would be similar to how these cases are grouped in another DRG system. For these reasons, we are proposing to reassign ECMO cases reporting code 39.65 to DRG 541. We are also proposing to change the title of DRG 541

to: "ECMO or Tracheostomy With Mechanical Ventilation 96+ Hours or Principal Diagnosis Except Face, Mouth and Neck Diagnoses With Major O.R."

5. MDC 6 (Diseases and Disorders of the Digestive System): Artificial Anal Sphincter

In the FY 2003 IPPS final rule (67 FR 50242), we created two new codes for procedures involving an artificial anal sphincter, effective for discharges occurring on or after October 1, 2002: code 49.75 (Implantation or revision of artificial anal sphincter) is used to identify cases involving implantation or revision of an artificial anal sphincter and code 49.76 (Removal of artificial anal sphincter) is used to identify cases involving the removal of the device. In Table 6B of that final rule, we assigned both codes to one of four MDCs, based on principal diagnosis, and one of six DRGs within those MDCs: MDC 6 (Diseases and Disorders of the Digestive

System), DRGs 157 and 158 (Anal and Stomal Procedures With and Without CC, respectively); MDC 9 (Diseases and Disorders of the Skin, Subcutaneous Tissue and Breast), DRG 267 (Perianal and Pilonidal Procedures); MDC 21 (Injuries, Poisonings, and Toxic Effects of Drugs), DRGs 442 and 443 (Other O.R. Procedures for Injuries With and without CC, respectively); and MDC 24 (Multiple Significant Trauma), DRG 486 (Other O.R. Procedures for Multiple Significant Trauma).

In the FY 2004 IPPS final rule (68 FR 45372), we discussed the assignment of these codes in response to a request we had received to consider reassignment of these two codes to different MDCs and DRGs. The requester believed that the average charges (\$44,000) for these codes warranted reassignment. In the FY 2004 IPPS final rule, we stated that we did not have sufficient MedPAR data available on the reporting of codes 49.75 and 49.76 to make a determination on

DRG reassignment of these codes. We agreed that, if warranted, we would give further consideration to the DRG assignments of these codes because it is our customary practice to review DRG assignment(s) for newly created codes to determine clinical coherence and similar resource consumption after we have had the opportunity to collect MedPAR data on utilization, average lengths of stay, average charges, and distribution throughout the system. In the FY 2005 IPPS final rule, we reviewed the FY 2003 MedPAR data for the presence of codes 49.75 and 49.76 and determined that these procedures were not a clinical match with the other procedures in DRGs 157 and 158. Therefore, for FY 2005, we moved procedure codes 49.75 and 49.76 out of DRGs 157 and 158 and into DRGs 146 and 147 (Rectal Resection With and Without CC, respectively). This change had the effect of doubling the payment for the cases with procedure codes 49.75 and 49.76 assigned to DRGs 146 and 147 based on increases in the relative weights. One commenter had suggested that we create a new DRG for "Complex Anal/Rectal Procedure with Implant." However, we noted that the DRG structure is a system of averages and is based on groups of patients with similar characteristics. At that time, we indicated that we would continue to monitor procedure codes 49.75 and 49.76 and the DRGs to which they are assigned.

For this FY 2006 proposed rule, we reviewed the FY 2004 MedPAR data for the presence of codes 49.75 and 49.76. We found that these two procedures are still of low incidence. Among the six possible DRG assignments, we found a total of 18 cases reported with codes 49.75 and 49.76 for the implant, revision, or removal of the artificial anal sphincter. We found 13 of these cases in DRGs 146 and 147 (compared to 12,558 total cases in these DRGs), and the remaining 5 cases in DRGs 442 and 443 (compared to 19,701 total cases in these DRGs).

We believe the number of cases with codes 49.75 and 49.76 in these DRGs is too low to provide meaningful data of statistical significance. Therefore, we are not proposing any further changes to the DRGs for these procedures at this time. Neither are we proposing to change the structure of DRGs 146 or 147 at this time.

6. MDC 8 (Diseases and Disorders of the Musculoskeletal System and Connective Tissue)

#### a. Hip and Knee Replacements

Orthopedic surgeons representing the American Association of Orthopaedic Surgeons (AAOS) requested that we subdivide DRG 209 (Major Joint and Limb Reattachment Procedures of Lower Extremity) in MDC 8 by creating a new DRG for revision of lower joint procedures. The AAOS made a presentation at the October 7-8, 2004 meeting of the ICD-9-CM Coordination and Maintenance Committee meeting. A summary report of this meeting can be found at the CMS Web site: <http://www.cms.hhs.gov/payment/systems/icd9/>. We also received written comments on this request.

The AAOS surgeons stated that cases involving patients who require a revision of a prior replacement of a knee or hip require significantly more resources than cases in which patients receive an initial joint replacement. They pointed out that total joint replacement is one of the most commonly performed and successful operations in orthopedic surgery. The surgeons mentioned that, in 2002, over 300,000 hip replacement and 350,000 knee replacement procedures were performed in the United States. They also pointed out that these procedures are a frequent reason for Medicare hospitalization. The surgeons stated that total joint replacements have been shown to be highly cost-effective procedures, resulting in dramatic improvements in quality of life for patients suffering from disabling arthritic conditions involving the hip or knee. In addition, they reported that the medical literature indicates success rates of greater than 90 percent for implant survivorship, reduction in pain, and improvement in function at a 10-year to 15-year followup. However, despite these excellent results with primary total joint replacement, factors related to implant longevity and evolving patient demographics have led to an increase in the volume of revision total joint procedures performed in the United States over the past decade.

Total hip replacement is an operation that is intended to reduce pain and restore function in the hip joint by replacing the arthritic hip joint with a prosthetic ball and socket joint. The prosthetic hip joint consists of a metal alloy femoral component with a modular femoral head made of either metal or ceramic (the "ball") that articulates with a metal acetabular component with a modular liner made

of either metal, ceramic, or high-density polyethylene (the "socket").

The AAOS surgeons stated that in a normal knee, four ligaments help hold the bones in place so that the joint works properly. When a knee becomes arthritic, these ligaments can become scarred or damaged. During knee replacement surgery, some of these ligaments, as well as the joint surfaces, are substituted or replaced by the new artificial prostheses. Two types of fixation are used to hold the prostheses in place. Cemented designs use polymethyl methacrylate to hold the prostheses in place. Cementless designs rely on bone growing into the surface of the implant for fixation.

The surgeons stated that all hip and knee replacements have an articular bearing surface that is subject to wear (the acetabular bearing surface in the hip and the tibial bearing surface in the knee). Traditionally, these bearing surfaces have been made of metal-on-metal or metal-on-polyethylene, although newer materials (both metals and ceramics) have been used more recently. Earlier hip and knee implant designs had nonmodular bearing surfaces, but later designs included modular articular bearing surfaces to reduce inventory and potentially simplify revision surgery. Wear of the articular bearing surface occurs over time and has been found to be related to many factors, including the age and activity level of the patient. In some cases, wear of the articular bearing surface can produce significant debris particles that can cause peri-prosthetic bone resorption (also known as osteolysis) and mechanical loosening of the prosthesis. Wear of the bearing surface can also lead to instability or prosthetic dislocation, or both, and is a common cause of revision hip or knee replacement surgery.

Depending on the cause of failure of the hip replacement, the type of implants used in the previous surgery, the amount and quality of the patient's remaining bone stock, and factors related to the patient's overall health and anatomy, revision hip replacement surgery can be relatively straightforward or extremely complex. Revision hip replacement can involve replacing any part or all of the implant, including the femoral or acetabular components, and the bearing surface (the femoral head and acetabular liner), and may involve major reconstruction of the bones and soft tissues around the hip. All of these procedures differ significantly in their clinical indications, outcomes, and resource intensity.

The AAOS surgeons provided the following summary of the types of

revision knee replacement procedures: Among revision knee replacement procedures, patients who underwent complete revision of all components had longer operative times, higher complication rates, longer lengths of stay, and significantly higher resource utilization, according to studies conducted by the AAOS. Revision of the isolated modular tibial insert component was the next most resource-intensive procedure, and primary total knee replacement was the least resource-intensive of all the procedures studied.

- *Isolated Modular Tibial Insert Exchange.* Isolated removal and exchange of the modular tibial bearing surface involves replacing the modular polyethylene bearing surface without removing the femoral, tibial, or patellar components of the prosthetic joint. Common indications for this procedure include wear of the polyethylene bearing surface or instability (for example, looseness) of the prosthetic knee joint. Patient recovery times are much shorter with this procedure than with removal and exchange of either the tibial, femoral, or patellar components.

- *Revision of the Tibial Component.* Revision of the tibial component involves removal and exchange of the entire tibial component, including both the metal base plate and the modular polyethylene bearing surface. Common indications for tibial component revision are wear of the modular bearing surface, aseptic loosening (often associated with osteolysis), or infection. Depending on the amount of associated bone loss and the integrity of the ligaments around the knee, tibial component revision may require the use of specialized implants with stems that extend into the tibial canal and/or the use of metal augments or bone graft to fill bony defects.

- *Revision of the Femoral Component.* Revision of the femoral component involves removal and exchange of the metal implant that covers the end of the thigh-bone (the distal femur). Common indications for femoral component revision are aseptic loosening with or without associated osteolysis/bone loss, or infection. Similar to tibial revision, femoral component revision that is associated with extensive bone loss often involves the use of specialized implants with stems that extend into the femoral canal and/or the use of metal augments or bone graft to fill bony defects.

- *Revision of the Patellar Component.* Complications related to the patella-femoral joint are one of the most common indications for revision knee replacement surgery. Early patellar

implant designs had a metal backing covered by high-density polyethylene; these implants were associated with a high rate of failure due to fracture of the relatively thin polyethylene bearing surface. Other common reasons for isolated patellar component revision include poor tracking of the patella in the femoral groove leading to wear and breakage of the implant, fracture of the patella with or without loosening of the patellar implant, rupture of the quadriceps or patellar tendon, and infection.

- *Revision of All Components (Tibial, Femoral, and Patellar).* The most common type of revision knee replacement procedure is a complete total knee revision. A complete revision of all implants is more common in knee replacements than hip replacements because the components of an artificial knee are not compatible across vendors or types of prostheses. Therefore, even if only one of the implants is loose or broken, a complete revision of all components is often required in order to ensure that the implants are compatible. Complete total knee revision often involves extensive surgical approaches, including osteotomizing (for example, cutting) the tibia bone in order to adequately expose the knee joint and gain access to the implants. These procedures often involve extensive bone loss, requiring reconstruction with specialized implants with long stems and metal augments or bone graft to fill bony defects. Depending on the status of the ligaments in the knee, complete total knee revision at times requires implantation of a highly constrained or "hinged" knee replacement in order to ensure stability of the knee joint.

- *Reimplantation from previous resection or cement spacer.* In cases of deep infection of a prosthetic knee, removal of the implants with implantation of an antibiotic-impregnated cement spacer, followed by 6 weeks of intravenous antibiotics is often required in order to clear the infection. Revision knee replacement from an antibiotic impregnated cement spacer often involves complex bony reconstruction due to extensive bone loss that occurs as a result of the infection and removal of the often well-fixed implants. As noted above, the clinical outcomes following revision from a spacer are often poor due to limited functional capacity while the spacer is in place, prolonged periods of protected weight bearing (following reconstruction of extensive bony defects), and the possibility of chronic infection.

The surgeons stated that the current ICD-9-CM codes did not adequately

capture the complex nature of revisions of hip and knee replacements.

Currently, code 81.53 (Revision of hip replacement) captures all "partial" and "total" revision hip replacement procedures. Code 81.55 (Revision of knee replacement) captures all revision knee replacement procedures. These two codes currently capture a wide variety of procedures that differ in their clinical indications, resource intensity, and clinical outcomes.

An AAOS representative made a presentation at the October 7-8, 2004 ICD-9-CM Coordination and Maintenance Committee. Based on the comments received at the October 7-8, 2004 meeting and subsequent written comments, new ICD-9-CM procedure codes were developed to better capture the variety of ways that revision of hip and knee replacements can be performed: codes 00.70 through 00.73 and code 81.53 for revisions of hip replacements and codes 00.80 through 00.84 and code 81.55 for revisions of knee replacements. These new and revised procedure codes, which will be effective on October 1, 2005, can be found in Table 6B and Table 6F of this proposed rule. The commenters stated that claims data using these new and specific codes should provide improved data on these procedures for future DRG modifications.

However, the commenters requested that CMS consider DRG modifications based on current data using the existing revision codes. The commenters reported on a recently completed study comparing detailed hospital resource utilization and clinical characteristics in over 10,000 primary and revision hip and knee replacement procedures at 3 high volume institutions: The Massachusetts General Hospital, the Mayo Clinic, and the University of California at San Francisco. The purpose of this study was to evaluate differences in clinical outcomes and resource utilization among patients who underwent different types of primary and revision hip or knee replacement procedures. The study found significant differences in operative time, complication rates, hospital length of stay, discharge disposition, and resource utilization among patients who underwent different types of revision hip or knee replacement procedures.

Among revision hip replacement procedures, patients who underwent both femoral and acetabular component revision had longer operative times, higher complication rates, longer lengths of stay, significantly higher resource utilization, and were more likely to be discharged to a subacute care facility. Isolated femoral

component revision was the next most resource-intensive procedure, followed by isolated acetabular revision. Primary hip replacement was the least resource intensive of all the procedures studied. Similarly, among revision knee replacement procedures, patients who underwent complete revision of all components had longer operative times, higher complication rates, longer lengths of stay, and significantly higher resource utilization. Revision of one component was the next most resource-intensive procedure. Primary total knee replacement was the least resource intensive of all the procedures studied.

In addition, the commenters indicated that the data showed that extensive bone loss around the implants and the presence of a peri-prosthetic fracture were the most significant predictors of higher resource utilization among all revision hip and knee replacement procedures, even when controlling for other significant patient and procedural characteristics.

For this proposed rule, we examined data in the FY 2004 MedPAR file on the current hip replacement procedures (codes 81.51, 81.52, 81.53) as well as the replacements and revisions of knee replacement procedures (codes 81.54

and 81.55) in DRG 209. We found that revisions were significantly more resource intensive than the original hip and knee replacements. We found average charges for revisions of hip and knee replacements were approximately \$7,000 higher than average charges for the original joint replacements, as shown in the following charts. The average charges for revisions of hip replacements were 21 percent higher than the average charges for initial hip replacements. The average charges for revisions of knee replacements were 25 percent higher than for initial knee replacements.

| DRG   | Number of Cases | Average Length of Stay | Average Charges |
|---|-----------------|------------------------|-----------------|
| 209 - All cases   | 430,776         | 4.57                   | \$30,695.41     |
| 209 With hip replacement codes 81.51 and 81.52 reported | 181,460         | 5.21                   | \$31,795.84     |
| 209 With hip revision code 81.53 reported               | 20,894          | 5.57                   | \$38,432.04     |
| 209 With knee replacement code 81.54 reported           | 209,338         | 3.92                   | \$28,525.66     |
| 209 With knee revision code 81.55 reported              | 18,590          | 4.64                   | \$35,671.66     |

We note that there were no cases in DRG 209 for reattachment of the foot, lower leg, or thigh (codes 84.29, 84.27, and 84.28).

To address the higher resource costs associated with hip and knee revisions relative to the initial joint replacement procedure, we are proposing to delete DRG 209, create a proposed new DRG 544 (Major Joint Replacement or Reattachment of Lower Extremity), and create a proposed new DRG 545 (Revision of Hip or Knee Replacement).

We are proposing to assign the following codes to the new proposed DRG 544:

- 81.51, Total hip replacement.
- 81.52, Partial hip replacement.
- 81.54, Total knee replacement.
- 81.56, Total ankle replacement.
- 84.26, Foot reattachment.
- 84.27, Lower leg/ankle reattach.
- 84.28, Thigh reattachment.

We are proposing to assign the following codes to the proposed new DRG 545:

- 00.70, Revision of hip replacement, both acetabular and femoral components.
- 00.71, Revision of hip replacement, acetabular component.
- 00.72, Revision of hip replacement, femoral component.

- 00.73, Revision of hip replacement, acetabular liner and/or femoral head only.

- 00.80, Revision of knee replacement, total (all components).

- 00.81, Revision of knee replacement, tibial component.

- 00.82, Revision of knee replacement; femoral component.

- 00.83, Revision of knee replacement, patellar component.

- 00.84, Revision of knee replacement, tibial insert (liner).

- 81.53, Revision of hip replacement, not otherwise specified.

- 81.55, Revision of knee replacement, not otherwise specified.

We agree with the commenters and the AAOS that the creation of a new DRG for revisions of hip and knee replacements should resolve payment issues for hospitals that perform the more difficult revisions of joint replacements. In addition, as stated earlier, we have worked with the orthopedic community to develop new procedure codes that better capture data on the types of revisions of hip and knee replacements. These new codes will be implemented on October 1, 2005. Once we receive claims data using these new codes, we will review data to determine if additional DRG modifications are

needed. This effort may include assigning some of the revision codes, such as 00.83 and 00.84 to a separate DRG. As stated earlier, the AAOS has found that some of the procedures may not be as resource intensive. Therefore, the AAOS has requested that CMS closely examine data from the use of the new codes and consider future revisions.

#### b. Kyphoplasty

In the FY 2005 IPPS final rule (69 FR 48938), we discussed the creation of new codes for vertebroplasty (81.65) and kyphoplasty (81.66), which went into effect on October 1, 2004. Prior to October 1, 2004, both of these surgical procedures were assigned to code 78.49 (Other repair or plastic operation on bone). For FY 2005, we assigned these codes to DRGs 233 and 234 (Other Musculoskeletal System and Connective Tissue O.R. Procedure With and Without CC, respectively) in MDC 8 (Table 6B of the FY 2005 final rule). (In the FY 2005 IPPS final rule (69 FR 48938), we indicated that new codes 81.65 and 81.66 were assigned to DRGs 223 and 234. We made a typographical error when indicating that these codes were assigned to DRG 223. Codes 81.65 and 81.66 have been assigned to DRGs

233 and 234.) Last year, we received comments opposing the assignment of code 81.66 to DRGs 233 and 234. The commenters supported the creation of the codes for kyphoplasty and vertebroplasty but recommended that code 81.66 be assigned to DRGs 497 and 498 (Spinal Fusion Except Cervical With and Without CC, respectively). The commenters stated that kyphoplasty requires special inflatable bone tamps and bone cement and is a significantly more resource intensive procedure than

vertebroplasty. The commenters further stated that, while kyphoplasty involves internal fixation of the spinal fracture and restoration of vertebral heights, vertebroplasty involves only fixation. The commenters indicated that hospital costs for kyphoplasty procedures are more similar to resources used in a spinal fusion.

We stated in the FY 2005 IPPS final rule that we did not have data in the MedPAR file on kyphoplasty and vertebroplasty. Prior to October 1, 2004, both procedures were assigned in code

78.49, which was assigned to DRGs 233 and 234 in MDC 8. We stated that we would continue to review this area as part of our annual review of MedPAR data. While we do not have separate data for kyphoplasty because code 81.66 was not established until October 1, 2004, for this proposed rule, we did examine data on code 78.49, which includes both kyphoplasty and vertebroplasty procedures reported in DRGs 233 and 234. The following chart illustrates our findings:

| DRG                             | Number of Cases | Average Length of Stay | Average Charges |
|---------------------------------|-----------------|------------------------|-----------------|
| 233 - All cases                 | 14,066          | 6.66                   | \$28,967.78     |
| 233 With code 78.49 reported    | 8,702           | 5.91                   | \$25,402.71     |
| 233 Without code 78.49 reported | 5,364           | 7.88                   | \$34,571.39     |
| 234 - All cases                 | 7,106           | 2.79                   | \$18,954.80     |
| 234 With code 78.49 reported    | 4,437           | 2.61                   | \$18,426.11     |
| 234 Without code 78.94 reported | 2,669           | 3.09                   | \$19,833.71     |

We do not believe these data findings support moving cases represented by code 78.49 out of DRGs 233 and 234. While we cannot distinguish cases that are kyphoplasty from cases that are vertebroplasty, cases represented by code 78.49 have lower charges than do other cases within DRGs 233 and 234. Therefore, we are not proposing to change the DRG assignment of code 81.66 to DRGs 233 and 234 at this time. However, once specific charge data are available, we will consider whether further changes are warranted.

#### c. Multiple Level Spinal Fusion

On October 1, 2003, the following ICD-9-CM codes were created to identify the number of levels of vertebra fused during a spinal fusion procedure:

- 81.62, Fusion or refusion of 2-3 vertebrae.
- 81.63, Fusion or refusion of 4-8 vertebrae.
- 81.64, Fusion or refusion of 9 or more vertebrae.

Prior to the creation of these codes, we received a comment recommending the establishment of new DRGs that would be differentiated based on the number of vertebrae fused. In the FY 2005 IPPS final rule (69 FR 48936), we stated that we did not yet have any reported cases utilizing these multiple level spinal fusion codes. We stated that we would wait until sufficient data were available prior to making a final determination on whether to create

separate DRGs based on the number of vertebrae fused. We also stated that spinal fusion surgery was an area undergoing rapid changes.

Effective October 1, 2004, we created a series of codes that describe a new type of spinal surgery, spinal disc replacement. Our medical advisors describe these procedures as a more conservative approach for back pain than the spinal fusion surgical procedure. These codes are as follows:

- 84.60, Insertion of spinal disc prosthesis, not otherwise specified.
- 84.61, Insertion of partial spinal disc prosthesis, cervical.
- 84.62, Insertion of total spinal disc prosthesis, cervical.
- 84.63, Insertion of spinal disc prosthesis, thoracic.
- 84.64, Insertion of partial spinal disc prosthesis, lumbosacral.
- 84.65, Insertion of total spinal disc prosthesis, lumbosacral.
- 84.66, Revision or replacement of artificial spinal disc prosthesis, cervical.
- 84.67, Revision or replacement of artificial spinal disc prosthesis, thoracic.
- 84.68, Revision or replacement of artificial spinal disc prosthesis, lumbosacral.
- 84.69, Revision or replacement of artificial spinal disc prosthesis, not otherwise specified.

We also created the following two codes effective October 1, 2004, for these new types of spinal surgery that are also a more conservative approach to back pain than is spinal fusion:

- 81.65 Vertebroplasty.
- 81.66 Kyphoplasty.

We do not yet have data in the MedPAR file on these new types of procedures. Therefore, we cannot yet determine what effect these new types of procedures will have on the frequency of spinal fusion procedures.

However, we do have data in the MedPAR file on multiple level spinal fusion procedures for analysis for this year's proposed rule. We examined data in the FY 2004 MedPAR file on spinal fusion cases in the following DRGs:

- DRG 496 (Combined Anterior/Posterior Spinal Fusion).
- DRG 497 (Spinal Fusion Except Cervical With CC).
- DRG 498 (Spinal Fusion Except Cervical Without CC).
- DRG 519 (Cervical Spinal Fusion With CC).
- DRG 520 (Cervical Spinal Fusion Without CC).

Multiple level spinal fusion is captured by code 81.63 (Fusion or refusion of 4-8 vertebrae) and code 81.64 (Fusion or refusion of 9 or more vertebrae). Code 81.62 includes the fusion of 2-3 vertebrae and is not considered a multiple level spinal fusion. Orthopedic surgeons stated at the October 7-8, 2004 ICD-9-CM Coordination and Maintenance Committee meeting that the most simple and common type of spinal fusion involves fusing either 2 or 3 vertebrae. These surgeons stated that there was not

a significant difference in resource utilization for cases involving the fusion of 2 versus 3 vertebrae. For this reason, the orthopedic surgeons recommended that fusion of 2 and 3 vertebrae be grouped into one ICD-9-CM code.

We reviewed the Medicare charge data to determine whether the number of vertebrae fused or specific diagnoses have an effect on average length of stay and resource use for a patient. We found that, while fusing 4 or more levels of the spine results in a small increase in the average length of stay and a somewhat larger increase in average charges for spinal fusion patients, an even greater impact was made by the presence of a principal diagnosis of curvature of the spine or malignancy. The following list of diagnoses describes conditions that have a significant impact on resource use for spinal fusion patients:

- 170.2, Malignant neoplasm of vertebral column, excluding sacrum and coccyx.
- 198.5, Secondary malignant neoplasm of bone and bone marrow.

- 732.0, Juvenile osteochondrosis of spine.
- 733.13, Pathologic fracture of vertebrae.
- 737.0, Adolescent postural kyphosis.
- 737.10, Kyphosis (acquired) (postural).
- 737.11, Kyphosis due to radiation.
- 737.12, Kyphosis, postlaminectomy.
- 737.19, Kyphosis (acquired), other.
- 737.20, Lordosis (acquired) (postural).
- 737.21, Lordosis, postlaminectomy.
- 737.22, Other postsurgical lordosis.
- 737.29, Lordosis (acquired), other.
- 737.30, Scoliosis [and kyphoscoliosis], idiopathic.
- 737.31, Resolving infantile idiopathic scoliosis.
- 737.32, Progressive infantile idiopathic scoliosis.
- 737.33, Scoliosis due to radiation.
- 737.34, Thoracogenic scoliosis.
- 737.39, Other kyphoscoliosis and scoliosis.

- 737.40, Curvature of spine, unspecified.
- 737.41, Curvature of spine associated with other conditions, kyphosis.
- 737.42, Curvature of spine associated with other conditions, lordosis.
- 737.43, Curvature of spine associated with other conditions, scoliosis.
- 737.8, Other curvatures of spine.
- 737.9, Unspecified curvature of spine.
- 754.2, Congenital scoliosis.
- 756.51, Osteogenesis imperfecta.

The majority of fusion patients with these diagnoses were in DRGs 497 and 498. The chart below reflects our findings. We also include in the chart statistics for cases in DRGs 497 and 498 with spinal fusion of 4 or more vertebrae and cases with a principal diagnosis of curvature of the spine or bone malignancy.

| DRG   | Number of Cases | Average Length of Stay | Average Charges |
|---|-----------------|------------------------|-----------------|
| 497   | 27,346          | 6.08                   | \$64,471.82     |
| 498   | 17,943          | 3.80                   | \$48,440.80     |
| 497 and 498 With spinal fusions of 4 or more vertebrae reported                   | 7,881           | 6.3                    | \$77,352.00     |
| 497 and 498 With principal diagnosis of curvature of the spine or bone malignancy | 2,006           | 8.91                   | \$95,315.00     |

Thus, these diagnoses result in a significant increase in resource use. While the fusing of 4 or more vertebrae resulted in average charges of \$77,352, the impact of a principal diagnosis of curvature of the spine or bone malignancy was substantially greater with average charges of \$95,315.

Based on this analysis, we are proposing to create a new DRG for noncervical spinal fusions with a principal diagnosis of curvature of the spine and malignancies. The proposed new DRG would be: proposed new DRG 546 (Spinal Fusions Except Cervical With Principal Diagnosis of Curvature of the Spine or Malignancy). Cases included in this proposed new DRG would include all noncervical spinal fusions previously assigned to DRGs 497 and 498 that have a principal diagnosis of curvature of the spine or malignancy and would include the following codes listed above: 170.2, 198.5, 732.0, 733.13,

737.0, 737.10, 737.11, 737.12, 737.19, 737.20, 737.21, 737.22, 737.29, 737.30, 737.31, 737.32, 737.33, 737.34, 737.39, 737.40, 737.41, 737.42, 737.43, 737.8, 737.9, 754.2, and 756.51. The proposed DRG 546 would not include cases currently assigned to DRGs 496, 519, or 520 that have a principal diagnosis of curvature of the spine or malignancy. The structure of DRGs 496, 519, and 520 would remain the same.

As part of our meeting with the AAOS on DRG 209 in February 2005 (discussed under section II.B.6.a. of this preamble), the AAOS offered to work with CMS to analyze clinical issues and make revisions to the spinal fusion DRGs (DRGs 496 through 498 and 519 and 520). At this time, we are limiting our proposed changes to the spinal fusion DRGs for FY 2006 to the creation of the proposed DRG 546 discussed above. However, we look forward to working with the AAOS to obtain its

clinical recommendations concerning our proposed changes and potential additional modifications to the spinal fusion DRGs. We are also soliciting comments from the public on our proposed changes and how to incorporate new types of spinal procedures such as kyphoplasty and spinal disc prostheses into the spinal fusion DRGs.

#### 7. MDC 18 (Infectious and Parasitic Diseases (Systemic or Unspecified Sites)): Severe Sepsis

As we did for FY 2005, we received a request to consider the creation of a separate DRG for the diagnosis of severe sepsis for FY 2006. Severe sepsis is described by ICD-9-CM code 995.92 (Systemic inflammatory response syndrome due to infection with organ dysfunction). Patients admitted with sepsis currently are assigned to DRG 416 (Septicemia Age > 17) and DRG 417

(Septicemia Age 0–17) in MDC 18 (Infectious and Parasitic Diseases, Systemic or Unspecified Sites). The commenter requested that all cases in which severe sepsis is present on admission, as well as those cases in which it develops after admission (which are currently classified elsewhere), be included in this new DRG. We addressed this issue in the FY 2005 IPPS final rule (69 FR 48975). As indicated last year, we do not feel the current clinical definition of severe sepsis is specific enough to identify a meaningful cohort of patients in terms of clinical coherence and resource utilization to warrant a separate DRG. Sepsis is found across hundreds of medical and surgical DRGs, and the term “organ dysfunction” implicates numerous currently existing diagnosis codes. While we recognize that Medicare beneficiaries with severe sepsis are quite ill and require extensive hospital resources, we do not believe that they can be identified adequately to justify removing them from all of the other DRGs in which they appear. We are not proposing a new DRG for severe sepsis at this time.

#### 8. MDC 20 (Alcohol/Drug Use and Alcohol/Drug Induced Organic Mental Disorders): Drug-Induced Dementia

In the FY 2005 IPPS final rule (69 FR 48939, August 11, 2004), we discussed a request that CMS modify DRGs 521 through 523 by removing the principal diagnosis code 292.82 (Drug-induced dementia) from these alcohol and drug abuse DRGs. These DRGs are as follows:

- DRG 521 (Alcohol/Drug Abuse or Dependence With CC).
- DRG 522 (Alcohol/Drug Abuse or Dependence With Rehabilitation Therapy Without CC).
- DRG 523 (Alcohol/Drug Abuse or Dependence Without Rehabilitation Therapy Without CC).

The commenter indicated that a patient who has a drug-induced dementia should not be classified to an alcohol/drug DRG. However, the commenter did not propose a new DRG assignment for code 292.82. Our medical advisors evaluated the request and determined that the most appropriate DRG classification for a patient with drug-induced dementia was within MDC 20. The medical advisors indicated that because the dementia is drug induced, it is appropriately classified to DRGs 521 through 523 in MDC 20. Therefore, we did not propose a new DRG classification for the principal diagnosis code 292.82.

In the FY 2005 IPPS final rule, we addressed a comment from an

organization representing hospital coders that disagreed with our decision to keep code 292.82 in DRGs 521 through 523. The commenter stated that DRGs 521 through 523 are described as alcohol/drug abuse and dependence DRGs, and that drug-induced dementia can be caused by an adverse effect of a prescribed medication or a poisoning. The commenter did not believe that assignment to DRGs 521 through 523 was appropriate if the drug-induced dementia is due to one of these events and the patient is not alcohol or drug dependent. The commenter recommended that admissions for drug-induced dementia be classified to DRGs 521 through 523 only if there is a secondary diagnosis indicating alcohol/drug abuse or dependence.

The commenter recommended that drug-induced dementia that is due to the adverse effect of a drug or poisoning be classified to the same DRGs as other types of dementia, such as DRG 429 (Organic Disturbances and Mental Retardation). The commenter believed that when drug-induced dementia is caused by a poisoning, either accidental or intentional, the appropriate poisoning code would be sequenced as the principal diagnosis and, therefore, these cases would likely already be assigned to DRGs 449 and 450 (Poisoning and Toxic Effects of Drugs, Age Greater than 17, With and Without CC, respectively) and DRG 451 (Poisoning and Toxic Effects of Drugs, Age 0–17). The commenter stated that these would be the appropriate DRG assignments for drug-induced dementia due to a poisoning. We received a similar comment from a hospital organization.

In the FY 2005 IPPS final rule, we acknowledged that the commenters raised additional issues surrounding the DRG assignment for code 292.82 that should be considered. The commenters provided alternatives for DRG assignment based on sequencing of the principal diagnosis and reporting of additional secondary diagnoses. We recognized that patients may develop drug-induced dementia from drugs that are prescribed, as well as from drugs that are not prescribed. However, because dementia develops as a result of use of a drug, we believed the current DRG assignment to DRGs 521 through 523 remained appropriate. Some commenters have agreed with the current DRG assignment of code 292.82 since the dementia was caused by use of a drug. We agree that if either accidental or intentional poisoning caused the drug-induced dementia, the appropriate poisoning code should be sequenced as the principal diagnosis. As

one commenter stated, these cases would be assigned to DRGs 449 through 451. We encouraged hospitals to examine the coding for these types of cases to determine if there were any coding or sequencing errors. As suggested by the commenter, if code 292.82 were reported as a secondary diagnosis and not a principal diagnosis in cases of poisoning or adverse drug reactions, the number of cases on DRGs 521 through 523 would decline.

In the FY 2005 IPPS final rule, we agreed to analyze this area for FY 2006 and to look at the alternative DRG assignments suggested by the commenters. For this proposed rule, we examined data from the FY 2004 MedPAR file on cases in DRGs 521 through 523 with a principal diagnosis of code 292.82. We found that there were only 134 cases reported with the principal diagnosis code 292.82 in DRGs 521 through 523 without a diagnosis of drug and alcohol abuse. The average standardized charges for cases with a principal diagnosis of code 292.82 that did not have a secondary diagnosis of drug/alcohol abuse or dependence were \$12,244.35, compared to the average standardized charges for all cases in DRG 521, which were \$10,543.69. There were no cases in DRG 522 with a principal diagnosis of code 292.82. We found only 24 cases in DRG 523 with a principal diagnosis of code 292.82. Given the small number of cases in DRG 522 and 523, and the similarity in average standardized charges between those cases in DRG 521 with a principal diagnosis of code 292.82 and without a secondary diagnosis of drug/alcohol abuse or dependence to the overall average for all cases in the DRG, we do not believe the data suggest that a modification to DRGs 521 through 523 is warranted. Therefore, we are not proposing changes to the current structure of DRGs 521 through 523 for FY 2006.

#### 9. Medicare Code Editor (MCE) Changes

(If you choose to comment on issues in this section, please include the caption “Medicare Code Editor” at the beginning of your comment.)

As explained under section II.B.1. of this preamble, the Medicare Code Editor (MCE) is a software program that detects and reports errors in the coding of Medicare claims data. Patient diagnoses, procedure(s), discharge status, and demographic information go into the Medicare claims processing systems and are subjected to a series of automated screens. The MCE screens are designed to identify cases that require further review before classification into a DRG.

#### a. Newborn Age Edit

In the past, we have discussed and received comments concerning revision of the pediatric portions of the Medicare IPPS DRG classification system, that is, MDC 15 (Newborns and Other Neonates With Conditions Originating in the Perinatal Period). Most recently, we addressed these comments in both the FY 2005 proposed rule (69 FR 28210) and the FY 2005 IPPS final rule (69 FR 48938). In those rules, we indicated that we would be responsive to specific requests for updating MDC 15 on a limited, case-by-case basis.

We have recently received a request through the Open Door Forum to revise the MCE "newborn age edit" by removing over 100 codes located in Chapter 15 of ICD-9-CM that are identified as "newborn" codes. This request was made because these codes usually cause an edit or denial to be triggered when they are used on children greater than 1 year of age. However, the underlying issue with these particular edits is that other payers have adopted the CMS Medicare Code Editor in a wholesale manner, instead of adapting it for use in their own patient populations.

We acknowledge that Medicare DRGs are sometimes used to classify other patient groups. However, CMS' primary focus of updates to the Medicare DRG classification system is on changes relating to the Medicare patient population, not the pediatric or neonatal patient populations.

There are practical considerations regarding the assumption of a larger role for the Medicare DRG in the pediatric or neonatal areas, given the difference between the Medicare population and that of newborns and children. There are also challenges surrounding the development of DRG classification systems and applications appropriate to children. We do not have the clinical expertise to make decisions about these patients, and must rely on outside clinicians for advice. In addition, because newborns and other children are generally not eligible for Medicare, we must rely on outside data to make decisions. We recognize that there are evolving alternative classification systems for children and encourage payers to use the CMS MCE as a template while making modifications appropriate for pediatric patients.

Therefore, we would encourage those non-Medicare systems needing a more comprehensive pediatric system of edits to update their systems by choosing from other existing systems or programs that are currently in use. Because of our reluctance to assume expertise in the

pediatric arena, we are not proposing to make the commenter's suggested changes to the MCE "newborn age edit" for FY 2006.
