*Subj: UNC Report No 55*

To: JSPOG

From: G2

Date: 22 Oct 52 Comment No. 2  
Lt Col Pizzi  
265-514

The following is to be added to the paragraph ending at top of page 11 in order to cover combat action which occurred prior to the end of the reporting period but subsequent to the submission of the G2 portion of the UN Report:

" . . . . however at last reports UNC elements remained on the position." On 14 October UNC forces, in a coordinated attack to secure more advantageous positions, compelled two enemy battalions to relinquish their hold on two hill positions three (3) miles northeast of Kumhwa. After dark on the same date a Communist counterattack carried the positions and necessitated a friendly withdrawal. On 15 October a renewed offensive by UNC elements succeeded in retaking and securing the hills after initial stubborn resistance. All subsequent Communist assaults against these positions were successfully contained as UNC defenders remained in firm possession at the close of the period.

29 May 52

1 1. CinC has requested information as to why the losses of UNC aircraft resulting from enemy ground fire have not been included in the UNC Report.

2. The proposed explanation is that this figure has been omitted because it is considered as giving aid to the enemy. Also, no other official paper of the UNC or of the several departments provides a public breakdown of the aircraft losses being suffered in Korea.

3. It is requested that you concur in the statements contained in Para 2 above.

Request the following reply be made to DA Note 5, DA TT 5746, 10 Apr 52:

"Reference DA Note 5, DA TT 5746, 10 Apr 52.

1. CINCUNC concurs with omission of two sentences from Para 33 as proposed by Navy.

2. CINCUNC concurs with State Dept in insertion of following statement relative to charges of germ warfare:

"The recent allegations of Communist propaganda agencies concerning the use of bacteriological weapons in Korea by the UNC have been vigorously denied. These charges are evidently designed to conceal the Communists' inability to cope with the spread of the epidemics which occur annually throughout China and North Korea and to care properly for the many victims. These fabrications are being systematically exposed by publicizing the failure of the Communists to provide proper medical facilities in the afflicted areas."

3. Statement should be inserted between paragraphs 42 and 43 rather than between 20 and 21 for the following reasons:

a. Following immediately after the report of the Armistice Negotiations, this matter could be directly associated, by inference of location, with the negotiations.

b. It is not considered advisable to give this matter so prominent a position, thereby over-emphasizing its importance."

"1. Para 1 - Change last two proposed sentences to read:

"The failure of the Communists to properly mark or to furnish accurate locations of their PW camps made it impossible to determine whether, in fact, UNC aircraft attacked the PW camp at KANG-DONG."

"2. Para 2. In proposed addition, change 22.8 million to 21.7 million. The latter figure has been verified in our records and was previously reported to D/A in connection with the assistance program.

FAR EAST COMMAND**  
Military Intelligence Section, General Staff

9 January 1952

MEMORANDUM TO: Chief of Staff

SUBJECT: United Nations Command Report No. 36

Reference attached memo your office of 9 January 1952.

The following items of information contained in UNC Report No. 36 are considered the only items on pages 18 and 19 of said report which could conceivably be of aid to the enemy:

1. The recent commitment by the USAF of an additional group of F-86 fighter aircraft has improved appreciably the UNC air to air and air defense capability in Korea.

2. A total of 9,800 tons of air cargo including 44,000 passengers and air evacuation patients, were transported in support of UNC units.

3. Of the 250 medium bomber sorties flown, 25 percent were directed against close air support targets designated by the UNC ground forces.

## Comments:

1. The increase in F-86 fighter aircraft was released to the press on 15 December and carried in the local press of 15 and 16 December.

2. Tonnage and passenger air lift of the combat cargo command has been specifically reported in previous UNC reports and in addition is often carried on a daily basis, in the Stars and Stripes.

3. This item tends to reveal FEAF's medium bomber sortie capability. Medium bomber sortie figures continue to be classified as secret by FEAF. Inasmuch as no conclusive information such as this has been released to the press or included in recent UNC reports it is recommended that this sentence be deleted from UNC Report No. 36; FEAF Operations concurs.
