

he had heard any thing of Phelps leaving
the cause & the state. No he said we had
not. We asked Dr Farnsworth where he had
his intelligence & he said Stanton told him
last night Garrison said that Phelps was
going to resign in December so Stanton
told him the day before. Johnson said that
probably Phelps was resigning now on account
of the woman question being brought into
the Mass soc & then he was pledged to
leave. This you see he avoids by quitting
now. That is he avoids giving that reason
for leaving to the world. Poor Charles
Ferry I suppose will be just fool enough
to stop & bear the brunt. Edwin Thompson,
the peeler, thanks be to ^{praise} keeps bank money
due to the Essex county & to the Mass soc's
so he will be got rid of. Garrison seems
to think that Stanton will be the best
gen agent we can get. I say no don't
have such a Caroline wants
this Kingman to have her bonnet done
as soon as possible now. She sends the
velvet as near as she could get. As for little
Henry you may do as you please I
should like to have him at Weymouth
while I am there & I pledge myself
to take all the care of him. Jennetta
wants me to tell you that she
should be delighted to see you
the 11th or 13th as best suited you.

I intend if possible to be at Weymouth
thanks giving. I am in such a drive all the
time I hardly have time to breathe
I have been writing in great haste, but
I think you will find it a fair letter
Love to all

the Lord
was much
in the
of the
of the
of the

CPM

Chris Steery
Anna Weston
Weymouth
Mass.

The tide
somehow
seems up, &
we are all on
the qui vive
for what will come next

I wish you would be
here at the meeting
to-morrow. Stanton
you know is to
speak & there
seems to be a chance
for what will come next something.
