Canadian Institute for Historical Microreproductions / Institut canadien de microreproductions historiques

© 1982

The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

ECLIPSES.

1°. On the 15th March, there will be a total Eclipse of the Sun, which will be invisible at Quebec.

The total Eclipse will commence on the Pacific Ocean at 96° 37' West from Greenwich, at the South latitude of 32° 24' and will traverse South America, the Atlantic, and the interior of Africa, and terminate near the boundary of Egypt. It will be only partially visible in a great part of Europe.

2°. On the 7th September there will be an annular Eclipse of the Sun, invisible at Quebec.

The central Eclipse will commence near the Islands of Japan, and will cross the Pacific Ocean and terminate near the Southern Continent of America in 20° 50' of South latitude.

1°. Le 15 Mars, éclipse totale de soleil invisible à Québec.

L'éclipse totale commencera sur l'Océan Pacifique, 96° 37' à l'ouest de Greenwich, à la latitude méridionale de 32° 24', traversera l'Amérique du Sud, l'Atlantique et l'intérieur de l'Afrique, et finira près de l'Égypte. Cette éclipse sera visible, mais seulement partielle, dans une grande partie de l'Europe.

2°. Le 7 Septembre, éclipse annulaire de soleil invisible à Québec.

L'éclipse centrale commencera près des Iles du Japon, traversera l'Océan Pacifique, et finira près de l'Amérique du Sud, à la latitude méridionale de 20° 50'.

Changes of the Moon.

Many persons understanding that the mean time between one new Moon and another is 29 days. 12 hours, 44 minutes and a fraction, imagine that to find the full or quarters of the Moon, they have only to add a half or fourth part of that time; and when they do not find the changes marked in the Calendar to correspond with this method, they impute it to mistake in the calculation of these changes. It is therefore, necessary to put them in mind, that the great inequality of the Moon's motions renders the above rule extremely inaccurate, so that nineteen times in twenty, it must fail in giving the true conjunction or change.

JANUARY ☉ enters ♍ 20th, 11h. 18m. morn.

Last Quarter the 7th, 4h. 13m. evening.
 New Moon the 15th, 9h. 58m. morning.
 First Quarter the 22nd, 6h. 21m. morning.
 Full Moon the 29th, 10h. 42m. morning.

LIGHT HOUSES.

HOUSE ON GREEN ISLAND, in the River St. Lawrence.

Keeper, Mr. ROBERT NOEL LINDSAY.

Lantern of the Light-House on Green Island to be Light every Evening, from Sun-Set to Sun-Rise the next morning, from the Fifteenth day of October to the Tenth day of December, inclusive; and following are the Bearings of it, by Compass, from the respective places, hereunder mentioned viz.:

Red Island	- - -	E. S. E. $\frac{1}{2}$ S.
White Island	- - -	E. N. E. $\frac{1}{2}$ E.
Grandy Pots	- - -	N. E. by E. $\frac{3}{4}$ E.
Apple Island	- - -	W. S. W.
Masque Island	- - -	W. S. W. $\frac{1}{4}$ W.
Shoal at the N. E. end of Gr. Island,		S. W. $\frac{1}{2}$ S.
Shoal at the West end of Green Island,		N. E. $\frac{3}{4}$ E.

LIGHT HOUSES.

FLOATING LIGHT VESSEL in the Traverse.
 Commander, - - -

[As it has not been ascertained whether the vessel will hold in her present position, no bearings have been published.]

LIGHT HOUSE on Pointe DES MONTS.

Keeper, - - - Jas Wallace,

Will show a light every evening from sun-set to sunrise, between the first of April and the thirty-first of December inclusive.

The following Notice was published by the Municipality House, relating to this Light House :

NOTICE TO MARINERS.

That a Light House has been erected on Pointe DES MONTS. (or Cape Monts Peiés) on the north side of the River St. Lawrence, nearly opposite Cap Chat, the Lantern standing one hundred feet above the water.

The Light House lays with the outermost part of CARIBOU POINT N. 52°. East and S. 52°. West of the compass, and it can be seen over that point to the Eastward of it.

Ships approaching the light from the Eastward, if they draw towards Caribou Point must bring it to bear W. by S. ; they will then be in a good fair way, and if necessary, they can near the land by the light.

After passing Caribou Point, and as they draw towards the Light House, they must come no nearer than 12 fathoms water to avoid two ledges of rocks, one of which lays E. S. E. from the Light, with only 12 feet water on it ; the other lays S. W. from the Light, and E. S. E. from the Western extremity of Pointe des Monts, with 16 feet water on it ; but the rocks do not lay farther from the shore than half a mile at low water.

The Light House lays with the western extremity
Pointe des Monts N. 64°. East and South 64°.
West, and distant about one mile; and when ships
to the Westward of the Point, the Light House
is in one with the outermost rocks off the Point; and
at day time it forms a bold distinct Land Mark, and
this line of bearing ships are in the best possible
way for the general purposes of Navigation, whe-
ther bound up or down.

For any particular purposes of Navigation, ships
may safely stand to the Northward, until the Light
House bears E. by N.; they will then be drawing near the
North Land; and when it bears E. $\frac{1}{2}$ N. it is time to
turn; for when it bears East it will shut in with the
North Land, and cannot be seen to the Southward of
it, and then they will be only one mile from the
Point, and if they are off Godbut River, Pointe des
Monts will bear from them E. by S. two leagues
distant.

When ships are off Saint Nicolas Harbour, and the
Light House bears E. by N. they are in a good fair way
to the North Land. The S. E. spit of Manicoua-
great Shoal, the ship and the Light House are
all in one line of bearing.

LIGHT HOUSE ON S. W. POINT OF ANTICOSTI.

Keeper—Mr. William Hall.

A Light House having been erected on the South
West Point of the Island of Anticosti, Notice is
hereby given that a grand Revolving Light, on the
same principle, was shewn thereon for the first
time, on the 25th of August 1831—and that the said
Light will continue to be shewn every night from
Sun-set to Sun-rise, from the 1st April to the 15th
September, in each year. inclusive,

LIGHT HOUSES.

When ships are to the Eastward of the Light House, they may safely stand towards the Island until it bears N. N. W. by Compass—they will then be in a good fair way—and if they wish to, make more free with the land, they can do so by their lead. The land trends from the Light House S. E. by S. or nearly so.

When ships are to the Westward of the Light House, they may safely stand towards the Island until the light bears S.S.E. $\frac{1}{4}$ E. they will then be in a good fair way from the land, and as before mentioned, they can make more free by their lead

Nearly East and West, with the Light House, and about three-fourths of a mile from it, is the outermost part of a *Reef of Rocks* which joins the S. W. Point. These are dry at low water and are the only dangers near the Light House; therefore a berth of a mile from the Point, is a good fair way.

Sixteen leagues to the Eastward of the Light House, at Shallop Creek, and sixteen leagues to the Westward of the Light House, at Grand Bay, and at the Light House itself, are Depôts of provisions for the use of Mariners in distress, or other shipwrecked persons.

A Light House has been built on Heath Point at the East end of the Island of Anticosti, but has not been put in operation for want of sufficient funds invested in the Corporation of the Trinity House.

PILOTAGE REGULATIONS.

The Mails from Quebec to the several Post Offices on the route to Montreal, to Upper Canada and the United States, are made up and forwarded every day, at 6 P M in Summer and 4 P M in Winter

The Mails from Quebec for the undermentioned Sections of Country, are closed as follows:—

For the Ottawa River, Chambly, St John, Isle aux Noix, and places near the Missisquoi Bay, TUESDAYS and SATURDAYS—same hours as the Montreal Mail.

For Eastern Townships, TUESDAYS THURSDAYS and SATURDAYS—same hours as the Montreal Mail

For Nova Scotia, New Brunswick, Baie Chaleur, &c. MONDAYS & WEDNESDAYS, at half-past 11 A M.

Mails for Gaspé & Baie Chaleurs via Metis and the Mistigouche every Wednesday half-past 11 A M.

Letters for Europe can, during the season of Navigation, be sent through the Quebec Office, upon paying the Postage to Quebec only. If they are to be sent *via* Halifax, per the Falmouth Packet, the Postage must be paid to Halifax. If *via* New York both the Provincial and United States Postage must be paid, together with the ship's postage of 12½ cents per single letter and so on in proportion for double letters and packets.

Stanstead and Montreal, in Lower Canada, and Prescott, Kingston and Queenston, are in direct official communication with the Post Offices in the United States; and Letters for the United States can be sent through either of these Offices, upon payment of the Provincial Postage. The United States' Postage upon such Letters will also be received in this country if desired.

La Beauce and Hilton's, State of Maine, by the Kennebec Road, MONDAYS and THURSDAYS at 3 P M
