RAILWAY WRECK.

Six People Were Killed and Twenty-Five Injured.

Charlotte, N.C., Sept. 3.—Six persons were killed and twenty-five injured, one fatally and two seriously, in a wreck on the Southern railway near Yorkville, S.C., to-day.

The wreck was caused by the collapse of a trestle forty feet high over Washington creek.

JEALOUSY THE CAUSE.

Woman Shot Wife of the Man She Loved.

Denver, Sept. 4.—Mrs. Theodore Kruse, wife of a bookbinder, was shot and killed at her home, 940 West Seventh avenue, by Mrs. Kate Kenier. The murderer was arrested. She declined to make a statement. The cause of the shooting is supposed to have been jealousy.

Mrs. Kruse was attending her eight-month-old baby when called to the door by Mrs. Kenier, who immediately fired through the wire netting. From letters written by Mrs. Kenier it appears that she was madly infatuated with the husband of the woman she mur-

dered, and that he spurned her advances. Those who know her say she is crazy.

BANTAMWEIGHT CHAMPION.

Frankie Nell Defeated Deucey at Los Angeles.

(Associated Press.) Los Angeles, Sept. 3.—Frankie Nell, of San Francisco, champion bantamweight pugilist of the world, last night defeated Billy Deucey, of Los Angeles, in 15 rounds. Deucey was not knocked out, but was clearly defeated, and to avoid any accident the police instructed the referee to stop the fight and declare Nell winner. Nell was the aggressor at all times, and while Deucey made one of the gamest fights ever seen here, the little champion held him safe at all stages.

SPREADING RAILS.

Caused Wreck of Fast Passenger Train—Fireman Was Killed.

(Associated Press.) Chicago, Sept. 3.—A dispatch to the Tribune from Oregon, Ill., says: "The St. Paul and Minneapolis Limited, which left Chicago last night at 6:30 on the Burlington road, was wrecked early today half a mile east of Hannu, near this city. The fireman was thrown from his engine and instantly killed. The passengers received a severe shaking up and were badly scared, but none of them were seriously injured. Spreading rails were responsible for the accident, which happened when the train was making about 35 miles an hour."

POWERS MUST PROTECT LEGATIONS

GRAVE SITUATION AT CONSTANTINOPLE

The Lack of Organization Hinders the Efforts of Turks to Suppress Insurrection.

(Associated Press.) Berlin, Sept. 5.—The Turkish government, according to information received from the foreign office here by the Associated Press, has notified the powers that the Porte cannot guarantee the safety of the legations at Constantinople.

This extraordinary statement was communicated without explanation or details. It is inferred here, however, that the conditions at the Turkish capital are not so bad as the Sultan's notification would imply, but that the legations have been warned to look out for their own safety, the Porte disclaiming in advance responsibility for any disorderly act. The foreign office officials add that the German embassy at Constantinople had not reported whether German marines had landed nor whether marines of any other power had been landed. Complete official reserve is maintained on this point.

The Associated Press correspondent learned from sources outside the foreign office that the German government refers to the Turkish-Balkan affairs as having entered an acute phase. The Porte's inability to take energetic hold of the Macedonian insurrection is the worst feature of the situation.

Hope for Intervention.

London, Sept. 5.—The increasingly threatening aspect of affairs in the Balkans seriously occupies all the European capitals. What is to be done in Macedonia is anxiously discussed on all sides. The censorship is active in Constantinople, for the only news thus far of the landing of marines emanated from Washington. The subject is not mentioned in any Constantinople dispatches received here.

According to these dispatches although it is considered certain that the destruction of the Hungarian steamer Vaskop in the Black Sea was the work of the insurgents, the intention to kill Hungarian subjects may provoke Austrian intervention. The Austrian embassy at Constantinople, in the absence of convincing proofs, has not yet taken action. The police in the mountains are arresting Bulgarians in all parts of Constantinople, and wild rumors are of other projected outrages. The Bourne is panic stricken because of the fears of war. Most active military preparations by the Turkish government are proceeding, and Turkish officers are talking of their ability to reach Sofia within three weeks of the outbreak of war.

Dispatches from Sofia, via Vienna, assert that the war party in Bulgaria is gaining ground. The semi-official Drovnik is preaching of war, and has revealed the existence of an alleged Russo-Bulgarian treaty of alliance signed by Dr. Danoff and Gen. Pappikoff, Bulgarian premier and minister of war respectively.

On the other hand, showing the difficulty of arriving at an accurate estimate of the real condition of affairs, the Sofia correspondent of the Daily Telegraph declares that Bulgaria's aversion to war is insuperable on both military and political grounds. He asserts that the Bulgarian government is resolved to sedulously avoid everything calculated to add to the hostilities, firstly, on account of Austro-Russian opposition, and secondly, because the army is totally unprepared for war. Prince Ferdinand is devoting his efforts to staying off a Russian hop, hoping that the powers for the moment will arrange for European control of Macedonia and the restoration of peace.

Russia has less cause for self-reproach than the rest of Europe. The Call to Arms.

Sofia, Sept. 4.—A special dispatch from Rila, near the Turkish frontier, says a courier has arrived there with a copy of the proclamation of general insurrection, which has been daily awaited. The document is addressed to "Our Brethren in Macedonia and Adliana," and begins by congratulating them upon the heroic fight they have already waged. The proclamation continues: "Armed with only your own strength against a mighty empire, with pitiless foes, with the power of your right hand and the might of your spirit, you have shaken the hateful Ottoman dominion. A hundred thousand of the Sultan's soldiers and an innumerable field army were unable to resist your advance. You have sacrificed everything before the altar of liberty. Your villages were burned, your homes pillaged, your children massacred and your sisters, wives and mothers violated."

"A succession of valiant champions have perished in the struggle and died the fatherland with their blood, but with greater zeal you have embodied the fight. Your smoking hearts have strengthened your manliness; the cries of the children and the moans of the women exasperated your souls. From the breasts of the fatherland came new champions, replacing those who have perished. The holy flag of liberty waves more proudly over the dear fatherland. You are avenged; the dear fatherland before your eyes is rendered free from the yoke of tyranny. New days have come. One more heroic stroke and the centuries of tyranny will fall to the ground in convulsions of death."

"The dawn of liberty peeps already above the Macedonian horizon and awaits this stroke to shine with its full brilliancy on the Macedonian land. Prepare yourselves, then, for this stroke. Be at your posts. The hour for the battle strikes. The cry of liberty will break the chains of slavery and bring the triumph of justice."

The proclamation is signed: "From the Supreme Central Government."

CANADIANS FOR RISLEY.

Team Which Will Represent the Dominion at the National Rifle Association Meeting.

(Associated Press.) Ottawa, Sept. 5.—The following will be the Canadian team to take part in the matches at the Bisley rifle meeting:

Capt. Hoblar, 78th; Capt. R. Dalton, 24th; Lieut. R. Robertson, 13th Pte. C. O'Brien, 30th; Major N. J. Dimeen, 1st Hussars; Pte. G. W. Russell, G. G. F. C. Pte. C. S. Scott, 43rd; Capt. J. R. C. R. W. H. L. Farrel, V. B. Pte. C. Corp. R. McGregor, G. G. F. Pte. H. T. Vers, 10th; R. G. Q. Sgt. McVittie, 48th; Pte. W. G. Fowler, 12th; Col. Sergt. A. G. Gardner, 53rd; Lieut. W. L. Ross, 13th; Col. Sergt. W. Youhill, 90th; Capt. T. Mitchell, R. L. Sgt. G. Mortimer, 10th R. G.; Pte. A. Baynton, 48th; W. F. Graham, 77th; Pte. W. E. Bennett.

KILLED BY INDIANS.

Three Men Have Been Murdered in South Nevada.

(Associated Press.) Los Angeles, Cal., Sept. 5.—Three white persons have been murdered and scalped by Pintos in Las Vegas valley, at the extreme southern end of Nevada; and an Indian uprising of grave proportions has thrown the region into a state of terror. William Williams was left in charge of Indian Creek ranch, while his employers, Charles Stewart and George Latimer, went away for a day. On their return they found his body lying on the porch, where he had been shot in the back while asleep. He had been scalped. Plute Coch was suspected and captured after a long chase. It is said that he was summarily executed. Two prospectors, whose names are unknown, were also slain and scalped.

LARGEST MAN DEAD.

J. Grimes Passes Away as Result of a Peculiar Accident.

(Associated Press.) Chicago, Sept. 5.—A dispatch to the Record-Herald from Cincinnati says: "Big Jos' Grimes, said to have been the largest man in the world, is dead at the home of his parents, where as the result of a peculiar accident, while riding in a cab his great weight broke through the bottom and one of his legs was gashed, the wound refusing to heal. Grimes weighed 754 pounds, and was 34 years of age. He was six feet four inches in height, and his body and limbs were of ponderous proportions."

GOVERNOR THREATENED.

Attempt to Intimidate Hon. Mr. Penbody Who Has Ordered Troops to Cripple Creek.

Denver, Colo., Sept. 5.—The Republican says: "Governor Peabody has been threatened with assassination. On arrival at his office he received an anonymous letter threatening to kill him if he dared to call out the troops of the state in order to restore law and order in the Cripple Creek district. The letter was abusive in the extreme, alleging that troops were not needed."

The special train bearing the first contingent of the National Guard, ordered to Cripple Creek by Governor Peabody in connection with the strike of miners in the district, arrived at Gillette early to-day. Since the start from Denver Adj. Gen. Sherman Bell has perfected plans for the mobilization of the entire militia, numbering 1,000, should he wish to do so. An arsenal will be established and within twenty-four hours 200,000 rounds of ammunition will be distributed in the gold camp. When Gen. Bell started he was asked if he anticipated any serious troubles, and replied: "I do not know what we will meet with, but I shall be prepared for anything that may turn up."

BRITISH SUBJECT HELD PRISONER

REFUSED LANDING IN THE UNITED STATES

His Parents Were Chinese, But He Was Born in Demerara—Attitude of Officials.

(Associated Press.) New York, Sept. 5.—The World says: "Samuel Honang, a British subject, and one of the wealthiest residents of Demerara, is held a prisoner aboard the steamship Grenada, of the Trinidad line, and denied a landing in this country by the immigration inspectors, on the grounds that it would be a violation of the Chinese Exclusion Act."

"Mr. Honang decided a few weeks ago that he would take a trip through the United States and Europe. Letters of introduction to prominent and wealthy people all over the world were at once showered on him. Among them was one to A. M. Seixas, of this city, commencing Mr. Honang as a gentleman of culture and with wealth. Mr. Honang has never been in China. He was born in Demerara of Chinese parents. They were both British subjects, and this makes Mr. Honang's allegiance to Great Britain unquestioned. When the planter determined to take his trip, he provided himself with passports in the regulation form.

"Mr. Seixas, who received a copy of Mr. Honang's letter of introduction by the steamer proceeding that in which the planter came to New York, taking of the affair said:

"I went myself to the dock and prepared to accord Mr. Honang every courtesy. I found him in despair. The immigration inspectors had refused to allow him to land, and had insisted that he should return to Demerara on the ship that brought him over here. In vain it was argued that he had never seen China, that he was born in the island of Demerara, and that he was a British subject. His passports were exhibited in support of these statements, but the inspectors did not appear able to see anything in the situation, except that he was a Chinaman, and could not come in. There is absolutely nothing of the Chinaman about him, except his appearance."

"Finally I went to the Legal Aid Society, and filed the case before them. They too labored with the immigration inspectors, with not a bit of encouragement, and Mr. Honang was held a prisoner on the Grenada all Thursday night. On Friday we went at it again, and in this Mr. Honang took part to such an extent that he impressed his personality upon the chief inspector, who, although he declared that he had not the power to admit him, agreed to forward his passports and a statement of the case to Washington with a favorable recommendation. "The papers obtained from Mr. Honang, together with the inspector's report, were forwarded by mail to Washington yesterday, and they should reach there this morning. If the secretary of the treasury is convinced of the urgency of the matter, Mr. Honang will be released by telegraphic order, but if it is treated in its regular order, the chances are that he will remain a prisoner on board the Grenada until next week."

HARPLY WEDDED.

W. A. Hurst, of California, Weds Young Lady of This City.

The residence of Mr. and Mrs. A. McKee, corner of Yates street and Fernwood road, was the scene of a charming event about noon to-day, when Dr. Rowe united in wedlock their only daughter, Miss Edna McKee, and W. A. Hurst, of California. The spacious apartment in which the ceremony took place presented a beautiful picture, being transformed into a veritable Eden of flowers, spulax, clematis and white chrysanthemums predominating. The bridal couple stood under a superb floral bell as the words were pronounced which made them man and wife.

The bridesmaid was Miss Linda Pinder, of San Francisco, while Miss Linda Greer was a captivating little flower girl. The bridegroom was supported by Edward Hill. The bride, who was given away by her father, was charmingly gowned in silk crepe de chine, trimmed with applique embroidered chiffon, and blonde lace. She carried a beautiful bouquet of bride's roses. The bridesmaid wore a dainty costume of cream silk tulle over silk. She carried a bouquet of bride-maid's roses.

The ceremony was performed in the presence of only the relatives and immediate friends of the contracting parties. It was followed by a tempting wedding breakfast, and later by a reception in which a large number of guests took occasion to wish the newly united couple every happiness. The extensive array of handsome presents afforded ample testimony to the popularity of the principals among their legion of friends. Mr. and Mrs. Hurst will leave to-night for Santa Barbara, Cal., which will be their future home.

WASHINGTON EDITORS "DO" VICTORIA.

We'll never give the lion's tail again, We'll never give that noble beast a pain, Things look different since we share his lion-tail-it-y. Oh, he's a jolly good fellow, night or mo-o-r-n-i-n-g!"

PREMIER SEEKING RAILWAY POLICY

COURTS ASSISTANCE OF GREAT NORTHERN

Unfolding of J. J. Hill's Policy in Opening Up British Columbia by His System.

The McBride government will in all probability go to the country on a railway policy. It has been the custom for British Columbia ministers to avail themselves of such for election purposes, and apparently Premier McBride realizes that he must continue in the fashion. The trip to Montreal in search of an election found resulted, it is conceded, in a dismal failure. Now assistance is to be sought from the Great Northern. With nothing else upon which an appeal could be made, the members of the government have adopted this means of seeking endorsement from the people.

For some little time past the Premier and other members of his administration have been noticed in close communion with parties who are believed to have relations with the Jim Hill system of railways. A hurried visit to Seattle a few days ago by Premier McBride and Hon. R. Green, and the parties with whom they were closeted there, at once aroused the suspicion that the Great Northern railway was to play an important part in the coming election.

The ministerial party have returned from the tour and the Premier admits that they had a conference with J. D. Farrell, assistant to James Hill. The result was very satisfactory he also admits, and Mr. Farrell will visit Victoria in a few days. Mr. McBride's explanation of the visit is that the ministers sought to find from the Great Northern management first what was its intention with respect to the Coast-Kootenay railway. It was known that the engineers were in the field for J. J. Hill from Port Keels eastward early in the year. It was also known that the line was being projected from the Kootenays westward. The evident intention of the Great Northern was to build the line, and the government thought it would be a wise thing to seek from headquarters the intentions of the company.

In doing this the Premier said they had the additional advantage of Mr. Farrell and Hon. R. Green being old personal friends, they having been associated together in the construction days of the C. P. R. McLean Bros. have a proposal to build the Coast-Kootenay line also, and the Premier seeks to ascertain the conditions of both of these.

There is not the least doubt that the ministerial party believe they have a strong election cry in preparation. The members of the government are all wearing very happy smiles this morning. An executive meeting is being held, and all the members are present at it, Hon. C. Wilson, K. C., the president of the council, compels over to attend it, and he also wears a confident air.

Hon. Mr. McBride says he is assured that the Great Northern has its eye upon British Columbia, and while he is not at liberty to say much at present, he still admits that the policy which that railway is prepared to carry out in British Columbia is one of the greatest importance. Another gratifying feature is the fact that J. Hill is not seeking bonuses for his railways in this province.

At the present time the Premier is not prepared to say more respecting the intentions of the Hill system.

There is, however, reason to believe that the Great Northern has in view, independent of governments or bonuses, a gigantic scheme for networking British Columbia. J. J. Hill, one of the shrewdest railway men in the world, has set his eye on this province, and sees in it the opportunities of the future. At present, owing, it is said, to an arrangement with the C. P. R. Company, he is not at liberty to lend his name to many of the schemes being carried out. For this reason the Victoria Terminal and the New Westminster & Yacon lines, building from New Westminster to Vancouver, are being built and operated by what are ostensibly subsidiary companies. This is only the beginning of the gigantic undertakings. The Coast-Kootenay line will connect these coast lines with the Kootenay country.

The eye of Hill has been cast in the direction of the Edmonton wheat fields. With this object in view a line is projected from Vancouver to that point. Early in the season a survey party, supposed to represent the Great Northern system, was reported to be seeking a line northeast of Vancouver, in the direction of Quesnell. Survey parties are also said to be in the vicinity of the Skeena and Port Simpson.

With this comes the report that the Hill system will take up the charters granted last year to the Kootenay-Cariboo & Pacific Railroad Company and the Kootenay Central railway.

These charters, which were pushed through by the same people, residents of Port Steele, provide for a line from the southern corner of the province through Fort Steele to Golden. From there it runs northwesterly, following the course of the Columbia and Chinle rivers to a point at or near Tete Jaune Cache, thence northwesterly following the course of the Fraser river to a point at or near Gasquet portage, thence either westerly following the course of the Nahcoco and Skeena rivers, or by the most convenient route to tide-water at or near Port Simpson, or by the most feasible route to Bute Inlet.

This line, which is said to be very easily built, would afford a short route by which J. Hill could connect the Western wheat fields of the United States and Canada with the Orient, by making Port Simpson or some point near there, either on the Canadian or the United States side, the terminus of his Oriental lines.

The line projected from the Coast northwesterly in the direction of Quesnell would cross this about Tete Jaune Cache, whence a feasible route exists through the Yellow Head pass in a direct line with Edmonton.

These lines would connect with both the Canadian transcontinental railways and the Great Northern and Northern Pacific systems in the United States.

Such a system is fraught with much importance for British Columbia.

Of course it is not suggested that the concern of the Premier and his colleagues was entirely disinterested. An election is due in less than two months and elections cannot be run in British Columbia without funds any more than in any other country. On the other hand, the provincial government are in a position to materially assist Mr. Hill in securing the tidal lands which he is seeking in his efforts to get into the city of Vancouver.

In certain districts of France the girls regularly cultivate their tresses for the market, the crop being ready for cutting every three years. The Norman women's hair is the finest; the Bretonne's is the most coarse; while the longest locks come from Limousin. Hair in the North is bleached by the sea air and in the mountainous districts it is dark and curly. The Americans are said to be chief customers for all kinds of colors; Germany takes tons of fair hair, and much of the same hair is sent to England.

The Hygeia Nurser

FATALITIES IN EASTERN CANADA

TWO MEN KILLED BY COLLAPSE OF BRIDGE

Fatal Car Accident in Montreal—Fireman Run Over—New Factories For Winnipeg.

Winnipeg, Man., Sept. 4.—Edmonton is having a phenomenal growth, and all visitors predict that the town will experience the most rapid progress of any place in America. Five hundred houses are being erected and fifteen business blocks being erected, with twenty more in sight. There is splendid brick supplies and abundance of coal in sight.

Buying Land.

Three large parties of land buyers from Illinois and Iowa, comprising a hundred persons, are in the city to purchase large tracts.

New Factories.

Two more factories are announced for Winnipeg. Simpson Computing Scale Company of Elkhart, Indiana, and the National Safe & Lock Company of Cleveland, will establish branch works here.

En Route to Japan.

Lady Minto and party passed through the city this morning en route to Japan.

Fell Through Bridge.

W. Curis, of Alkirk, aged 35, and R. Chambers, aged 90 of Brandon, were instantly killed at Brandon to-day by a traction engine on which they were riding going through a bridge and pinning them in the mud 35 feet below.

Fatally Injured.

Wylie Verge fell into a rapidly revolving, threshing machine cylinder at a farm near Fanoystels and died from the injuries. The remains were sent to his old home in New Germany, N. S.

Killed by Lightning.

Toronto, Sept. 4.—A rain storm, accompanied by hail, swept over Ontario to-night. A horse was killed by lightning at Winchester and several windows were smashed by hail in the Methodist church at Newmarket. The hail damaged the fruit. At Oxford Mills George Pettypiece's barn was burned by lightning, with the crops. The barns of Joseph, Picky at Brougham, and Norman Wilson, in Melvin settlement, were also burned.

Fireman Run Over.

Wm. F. Gerrer, G.T.R. fireman, was killed by his own engine in the freight yards this afternoon by being run over.

No Trace.

No trace has been discovered of the three prisoners who escaped from the custody of Sheriff Thompson.

Crushed to Death.

Montreal, Sept. 4.—Edmond Roch, a laborer, 34 years of age, residing at 658 St. Dominique street, was crushed to death beneath the wheels of an electric car last night at the crossing of Mount Royal avenue and St. Dominique street.

Found in Cistern.

Azzie Donohue, of New Borough, was found dead in a cistern to-day. The coroner is investigating.

Visit of Warships.

There will be a great reception to the British and French warships next week, in view of King Edward's recent visit to France. The council will make the event one of public interest.

Forced to Disband.

The Highland cadet corps, maintained by private subscription, has been forced to disband.

Call Accepted.

Brazzaville, Sept. 4.—At a special meeting of the Brockville Presbytery to-day, the call extended to Rev. Mr. Laird of the First Presbyterian church, from St. John's, Vancouver, B.C., was accepted.

PROVINCIAL CANDIDATES.

The following have been selected as candidates from the respective ridings as representatives in the provincial legislature:

District	No.	Liberals.	Conservatives.	Labor, Etc.
Atlin	1	Archibald Knight	S. A. Rogers	
Cariboo	2	James Murphy	Wm. Adams	
Chilliwack	3	Chas. W. Stuart	J. L. Atkinson	
Columbia	4	Fred. McE. Young	E. M. Skinner	
Cowichan	5	J. M. Evans	Thos. Cavin	
Cranbrook	6	Dr. Jas. H. King		
Dawdney	7	John Jardine	W. E. Ross	J. McPherson (Sec.)
Esquimalt	8	Geo. A. Bruce	John Riordan (Sec.)	
Ferrie	9	Neil McCallum	Dr. J. E. Spangle	
Greenwood	10	J. R. Brown	R. W. Bullock	
Islands	11	T. W. Paterson	F. J. Patton	
Kamloops	12	P. J. Deane	E. Queenell	J. H. Hawthorn- thwaite (Sec.)
Kaslo	13	J. Retalick		
Lillooet	14	Dr. G. Sanson	John Houston	Alex. Bryden
Nanaimo City	15	S. S. Taylor	Price Ellison	Thos. Taylor
Nelson City	16	D. W. Murray	F. Carter-Liston	
Newcastle	17	T. W. Sterling	L. W. Shafters	Wm. Davidson (L.)
New Westminster	18	J. M. Kelle	C. W. D. Clifford	P. Williams (L.)
Okanagan	19	J. C. Brown	W. Hunter	(As G. Ferrer)
Revelstoke	20			E. Burns (Sec.)
Richmond	21			
Rosland City	22			
Saanich	23			
Similkameen	24

Slocan	26			
Vancouver City	27			
Victoria City	28	Stuart Henderson	T. G. McManamon	
Yamir	29	A. Parr	Harry Wright	

LAUNCH POSTPONED.

Accident to Motor of Langley's Aerodrome Delays Trials.

Widewater, Va., Sept. 4.—Efforts to-day to launch Prof. Samuel P. Langley's sixty-foot man-carrying aerodrome had to be abandoned this evening owing to the failure of the gasoline motor to work properly. For four hours Prof. Charles M. Manley, the inventor's right-hand man, labored hard to get the machinery in shape. He was unsuccessful. The trouble was caused by a broken valve in the engine. When Prof. Langley at last reluctantly called the experiment off he made the following statement: "The work of the afternoon has been a great disappointment to us all. The failure to have an experiment was caused by the discovery of a broken valve in the motor. This can be repaired, I think, during the forenoon to-morrow."

SERBIAN PLOT.

Seven Hundred Concerned in Conspiracy Against Rulers.

Belgrade, Sept. 4.—Forty-seven officers at Nish alone have been arrested in connection with the issuance of a secret manifesto of the conspirators, who were concerned in the assassination of King Alexander, Queen Draga and their ministers, and threatening to resign their commissions if the demand was refused. It was a group of officers of the Nish garrison who decided to kill all the conspirators concerned in the palace assassinations, and many officers of other garrisons joined them. It was intended to act at an early date, but the news leaked out and all the conspirators were arrested during the night. Forty-seven officers have been arrested at Nish alone.

Seven Hundred Implicated.

Vienna, Sept. 4.—It is stated here that seven hundred Serbian officers were concerned in the plot against the army conspirators, who were responsible for the coup d'etat at Belgrade on June 10th last. The leaders were Captains Postis and Zolomitz.

EVIDENCE THAT NONE CAN DOUBT.

THAT DODD'S KIDNEY PILLS ARE THE ONE SURE CURE FOR RHEUMATISM.

W. E. Ellis Got So He Could Not Walk Alone or Feed Himself—He Tells of His Cure.

TOLEAR DOTE, Ont., Sept. 4.—(Special.)

Every day seems to furnish fresh proofs that Dodd's Kidney Pills are the one sure and permanent cure for Rheumatism. This village furnishes evidence that no one can doubt in the person of W. E. Ellis. His story is best given in his own words.

"Two years ago," says Mr. Ellis, "I got Muscular Rheumatism. I tried all sorts of medicines, but none of them did me any good.

"At last my wife would send for a doctor. When he arrived I said, 'Doctor, can you cure Muscular Rheumatism?' 'No,' said the doctor. 'Then,' I said, 'if you are of no use to me, I'll not so had I could not feed myself or walk alone. Then I was induced to try Dodd's Kidney Pills. I took six boxes of them, which drove all Rheumatism out of me and left me in good health again.'

"Dodd's Kidney Pills cure Rheumatism by removing the cause by putting the kidneys in shape to take the uric acid out of the blood. They always cure Lumbago and Sciatica in the same way.

"The Austrian Emperor has charged M. Luksas, former minister of finance, with the formation of a cabinet. It is understood that no concessions will be made to the extremists on the language question.

A.B.C. BEERS
Famous the World Over—Fully Matured.
Order from Turner Beeton & Co.

VANCOUVER NEWS.

As a result of an attack by two vicious dogs, Mrs. G. P. Timms, of Mount Pleasant, is confined to her home in the doctor's care. It seems that Mrs. Timms, who is 60 years of age, was on her way home from a visit to her daughter, when two large dogs sprang over the fence and rushed savagely upon her. The old lady tried to protect herself as best she could, and managed to get away from the clutches of the brutes for a moment. She ran screaming into the middle of the road. The animals again pounced upon her, knocking her down, and were savagely worrying her for some moments before help arrived. Mrs. Timms' clothing was torn to remnants. Her arms were badly lacerated, and her body considerably bitten in places. One arm was so terribly torn that six stitches were required to draw the wound together. Complaint has been laid with the police.

The Jockey Club officials have determined to signalize the advent of the large number of race horses to the September meeting by the addition of extra races to each day's programme. In addition to the daily advertised two days, viz., to-day and Monday, it was decided, at a fully-attended meeting of the club's committee, to hold an additional day's racing on Tuesday, at which a free-for-all trot or pace and five running events for liberals, purses, and with absolutely no entrance fees, will be given.

News has been received that the strike at the Van Ande mines has been settled, the men having returned to work. Mr. Vaughan-Rhodes, the manager, agreed to recognize the union, but reserves the right to engage union or non-union men as he sees fit. The union some time ago withdrew its demand for a nine-hour day for carpenters and blacksmiths, and there is no increase in pay. The men employed at the Marble Bay mines on Texada Island resumed work under the old conditions on Tuesday last.

Everything is now in readiness for the big demonstration to be held here on Labor Day. On the conclusion of the parade sports will be held at Brockton Point. The programme includes an inter-mediate lacrosse match, Vancouver vs. Nanaimo, for medals, value \$75; foot races of all kinds; bicycle contests, tug-of-war and a baby show. In the evening at the Brockton Point grounds, a grand masquerade carnival and band concert and dances will be held. Prizes will be given for waiting; two-step; most elegant costume for ladies; clown costume, tramp costume and best "Reuben" costume. During the day a competition, under the auspices of the Vancouver Rifle Association will be held at the Moodeville range. In the Supreme court chambers, before Mr. Justice Irving, on Thursday morning, A. St. G. Hammersley, K. C., city solicitor, renewed his application for an injunction to restrain the Vancouver, Westminister & Yukon Railway Company from proceeding with its pile-driving at the head of False creek. Mr. Hammersley presented to the court, in support of his application, an affidavit of Mayor Neill, one of City Clerk McLaughlin and three of his own, Mr. McCall, K. C., for the company, objected to the affidavits as not being in due order. Mr. Justice Irving said that the affidavits must disclose: (1) What the property of the city was; and (2) that trespass was being committed, and from the material before him he was not satisfied of either. He must, therefore, refuse to receive the affidavits as a give effect to the technical objections. It was not the business of the court to spell out the case, one piece from one affidavit and another piece from another. Mr. McCall, after consultation with Mr. Woods, said that as they had not insisted on the costs of the last attempt to get the injunction, he would have to ask for the costs of this application, but he would insist on the application being dismissed, but would consent to an adjournment till next Tuesday. Order made that plaintiff's application stand adjourned till next Thursday. Defendant to have the costs of this application forthwith after taxation; leave to plaintiff to file and use further material on notice.

Maxwell Smith has completed a very interesting trip through the interior of the province inspecting the fruit on the market and visiting all the orchards for the purpose of instructing the owners regarding the marking and shipping of fruit. "While I did not inspect the fruit in the orchards of the interior of British Columbia officially," he said, "I did inspect them incidentally for my own satisfaction. There may be some falling off in the Chilliwack apple crop, but I am not prepared to affirm or deny, but I do know that the apple crop of the province is a good average crop, and of anything the exports of apples this year will be larger than last. I also wish to say that the impression left on the public mind by the newspaper references to the plum-rot in the province is wrong. There is no more plum rot in the province than there ever was. The plum crop is looking well, and the same may be said of the prune crop. The apple season is now commencing, and the federal department of agriculture is taking steps to enforce the provisions of the Fruit Marks Act, 1902, as amended in 1902."

CHARMED WITH THIS CITY'S HOSPITALITY

The Whatecom Reveille Voices Sentiment of Press Association Towards Victoria—Beautiful Place.

In the course of a column and a half editorial article on "Victoria Hospitality," the Daily Reveille, of Whatecom, says:

"There has never been any question as to the hospitality of our cousins across the boundary line; but the members of the Washington State Press Association, returning from their seventeenth annual convention held at Victoria last week, came home impressed more than ever with the wonderful hospitality of the people of that city, which far exceeded all possible expectations. The city was literally thrown open to the visitors. They were shown every courtesy by the people of Victoria, from the Mayor to the ordinary citizen.

"Victoria has an organization known as the Tourists' Association, which is supported by the public and is devoted entirely to the entertainment of guests of the city. Thus the matter of the reception of visitors is systematized and simplified. But it must not be supposed that this work is carried on in an entirely cold and formal or perfunctory manner. The secretary and other officers of the association are gentlemen perfectly familiar with every point of interest in and about the city. To these the visiting newspapermen and their wives were taken, and every place of beauty or historic interest was directed to their attention.

"Transportation to the various points of interest was free to members wearing the association badge. The various trips to which the members of the association were treated were among the evidences of good feeling given by the hosts. The city hall was tendered to the association for their meetings. The visiting newspapermen were shown through the magnificent new provincial parliament building and the fine British Columbia museum. The building is a massive and stately structure of stone, surrounded by a beautifully kept lawn and grounds, and the interior is very artistically finished in marble, tile and wood, while the walls of the halls are hung with beautiful works of art. The museum has one of the most complete collections of specimens in the West, and this was one of the most interesting places visited by the Washington people, who were not backward in expressing their appreciation of the place, with its wonderful contents.

"The Victoria people are very proud of their city, and the reason, to be sure, for it is undoubtedly one of the prettiest cities on the coast. Its natural beauty has, in many places, been materially aided by the hand of man. On a location of natural beauty and advantage has been built a city of brick and stone, and the buildings in the business section nearly all of a uniform height of three stories, with well-paved streets of fir blocks and macadam, with a residence section admirably located and having a splendid view of the Straits and surrounding islands, with beautiful parks brought within easy reach of the city by good street car service and level, well-paved roads.

"With its many adjacent summer resorts, affording the best of opportunities for camping out, boating, swimming, hunting and fishing, the city is an ideal spot for a tourist or pleasure-seeker, and the hospitality of the people is an important addition to its natural advantages. If there was anything of interest in Victoria which was not shown for the entertainment of the visitors, it was because they did not spend sufficient time in that city, for every possible spare moment when there was no business session of the convention was used by the officers of the Tourist Association in escorting the press gang to these various places, accentuating the favorable impression of the visitors by interesting bits of description at opportune times."

WANTED.

WANTED—2 furnished rooms, with partial board. X, Times.

WANTED—Servant girl to do general house work. Apply in person at once to 98 David street.

WANTED—Position as housekeeper to single or married gentleman, by middle-aged widow; no incumbrances; best reference from former employer for ten years. Address Mrs. R. J. Baker, Rosland, B.C.

BANQUET GIVEN TO MANAGER BUNTZEN

ATTENDED BY LARGE NUMBER OF GUESTS

Announcement of Bonus to Be Received By B. C. Electric Railway Employees.

The banquet at the Badminton hotel, Vancouver, on Thursday night in honor of J. Buntzen, manager of the British Columbia Electric Railway Company...

The banquet was presided over by George Dickie, who occupies the distinction of being the senior employee of the company. Among the invited guests were Mayor Neelds, of Vancouver; Mayor Keary, of New Westminster; Ald. McGuigan, Ald. Wilson, Ald. Wood, H. T. Lockyer, president of the Board of Trade, Vancouver; R. Marpole, general superintendent, C.P.R.; Hon. C. Wilson, K.C.; W. J. Lamrick, president Trades and Labor Council, Vancouver...

In the discussion of the toast list some very good speeches were heard. His Majesty's health was drunk with loyal acclamation.

"The Imperial Forces," proposed by the first vice-chairman, was replied to by Lieut-Col. Wernsop.

The mayors of Vancouver and Westminister spoke to the toast to "The Cities," proposed by the second vice-chairman.

Mr. Dickie proposed the "Commerce of British Columbia," which evoked fitting responses from Mr. Lockyer, president of the Board of Trade, Vancouver, and Mr. Williams, president of the Trades and Labor Council, New Westminster.

Mr. Marpole for the C.P.R. and Mr. Springle and A. T. Goward for the B. C. Electric railway replied to the toast to "Transportation," proposed by A. G. Perry.

Mr. Buntzen, in reply to the toast, which was mostly of a witty nature, Mr. Marpole intimated that it was the intention of his company to run two transcontinental trains daily next year, instead of having the Imperial Limited only three times a week, as at present.

The applause was mostly reserved for the toast of the evening to "Our Guest," which was introduced by the chairman in a neat speech, in which he eulogized the good qualities of the manager, and testified to his kindly interest in the welfare of the employees.

Mr. Buntzen, in reply to the toast, which was mostly of a witty nature, Mr. Marpole intimated that it was the intention of his company to run two transcontinental trains daily next year, instead of having the Imperial Limited only three times a week, as at present.

Mr. Marpole for the C.P.R. and Mr. Springle and A. T. Goward for the B. C. Electric railway replied to the toast to "Transportation," proposed by A. G. Perry.

The following was the committee in charge of the arrangements: Messrs. John McEwan, J. Paxman, R. Whitmore, A. J. Wilson, J. S. Rennie, A. G. Perry, A. G. Oakes, A. McDonald, George Dickie, W. B. Bunbury, F. O'Brien, A.

FIRE ON STEAMER.

Third Engineer was Killed and Six of Crew Are Missing.

London, Sept. 4.—The captain and a portion of the crew of the Danish steamer Klampenborg, from Blyth for Kronstadt, have been landed at South Shields. They report that the Klampenborg was abandoned on fire. The third engineer was killed and six of the crew are missing.

The survivors had a thrilling experience. Fire, which had broken out on board, reached the petroleum tank on Sunday and caused a terrific explosion, killing the engineer. The crew took to the boats during a violent storm. One boat with six occupants drifted away and was not seen afterward. It is supposed that she was swamped in the high seas. The weather continued so bad that the survivors in the other boats took refuge again on the Klampenborg on Monday evening. On Tuesday they had to take to the boats again, and they were at the point of exhaustion when they were secured.

WHAT THOUSANDS SAY

The Great Cry of Those Who Have Been Relieved From the Miseries of Dyspepsia by Dodd's Dyspepsia Tablets.

"I cannot say enough in favor of Dodd's Dyspepsia Tablets."

That's what Miss Gusti V. Campbell, of Little Shippen, Gloucester Co., N. B., says, and it's what thousands of others are saying every day. They can give you their reasons for saying it too.

"I suffered from Dyspepsia for two months and was always getting worse till reading of cures by Dodd's Dyspepsia Tablets led me to try them. One box cured me completely and I can honestly recommend Dodd's Dyspepsia Tablets to all who are suffering from Dyspepsia."

It is cures like this that have made Dodd's Dyspepsia Tablets a household word throughout Canada. They promptly relieve the aches and pains of Dyspepsia; they drive away the drowsiness that is one of the worst features of this too common complaint. But they do more. They cure Dyspepsia once and for all. You can't find a Dyspeptic who has ever used Dodd's Dyspepsia Tablets.

THE MINING EXHIBIT

Will Be a Feature at the Coming Agricultural and Industrial Show.

Synopsis of the intention of the Victoria branch of the Provincial Mining Association to arrange a mining exhibit in connection with the approaching agricultural and industrial exhibition, the secretary, Frank I. Clarke, has sent the following circular letter to the mine managers and mine owners of the province:

Dear Sir:—The annual exhibition of the B. C. Agricultural Association will be held in this city on October 10th to 15th, 1908, and the Victoria branch of the P. M. A. considers the occasion opportune to make an attractive display of minerals and mine products.

With that end in view this branch has undertaken the collection and arrangement of such an exhibit and seeks the co-operation and assistance of the mine and smelter owners and mine and smelter managers of the province to make the exhibit as thoroughly representative of the mining industry as possible. It is the desire to secure samples of ore from every mining district in British Columbia, mill and smelter products, and photographs of mills, smelters, mining operations, etc.

The intention is to make the collection assembled this year the nucleus of a permanent mining exhibit, which will be suitably displayed in some prominent place in this city, where it will best attract the attention of visitors.

You are therefore earnestly requested to forward at your earliest convenience fair samples of ore, mill and smelter products, where available, and certificates of assay showing values, together with photographs of any other objects of interest in connection with your work which may suggest themselves to you.

Arrangements are being made with the transportation companies for free carriage of special rates on exhibits, but in the meantime you will greatly oblige by shipping your samples addressed "Victoria Branch Provincial Mining Association, Victoria, B. C."

Anticipating your valued assistance, yours very truly, FRANK I. CLARKE, Secretary.

HANDICAPPED BY LACK OF HARMONY

THE PROVINCE SHOULD WORK UNANIMOUSLY

Conflicting Efforts Paralyze Hands of Representatives at Ottawa in Mr. Lugin's Opinion.

In the course of a Times reporter's conversation yesterday with C. H. Lugin, who has just returned from the East, the latter remarked:

"I have seen rather severe complaints in some British Columbia papers; and since I reached the Coast I have heard Vancouver people speak very bitterly concerning the action of the government regarding the question of a close season for salmon on the Fraser river. This incident furnishes new proof of the manner in which British Columbia interests are handicapped at Ottawa, because of the lack of harmony among the people here."

"I was with Senator Templeman on the evening he received the dispatch from Secretary Burdick, of the Canners' Association, asking for a close season. Hon. Mr. Prefontaine, minister of marine and fisheries, joined me and Senator Templeman handed him the dispatch he had just received. During the discussion which followed, Senator Templeman expressed himself strongly as to the necessity of immediate action to ascertain just what the fishing industry required. Hon. Mr. Prefontaine said that he had no further information than that contained in the dispatch, and he would make telegraphic inquiries at once and find out what ought to be done."

"Next morning while I was engaged in conversation with several of the members, Hon. Mr. Prefontaine joined us and showed a dispatch from somewhere on the Coast protesting strongly against the request of the canners, and saying that it was simply a scheme on the part of the latter to enable them to break their contracts with the fishermen. 'What can I do in the face of such conflicting requests,' said the minister, 'except wait until I am advised by the department's representative on the ground?'"

"If there has been any failure to meet the necessities in this case," Mr. Lugin continued, "it is not the fault of the minister, Senator Templeman or any of the British Columbia representatives, but simply the lack of harmony in this province. I want to emphatically point out that if we approach the Dominion government with divided efforts we paralyze the hands of our representatives at Ottawa."

Speaking of the progress of the country generally, Mr. Lugin said he had observed great improvement all along the C. P. R. New buildings were in the course of erection everywhere, and there was a dearth of building material so widespread was the demand. On every freight train were to be seen steam harvesters on the way to the wheat fields, and a bountiful harvest was assured.

Asked regarding the course taken by Mr. Blair in connection with the Grand Trunk Pacific project, Mr. Lugin said that it naturally excited much comment. He was glad to say, however, that whatever that gentleman's future attitude may be, nothing but the best personal feeling prevailed between him and his colleagues. Mr. Lugin also said that he had every reason to hope that Mr. Blair, in the future, would see his way clear to act in harmony with them or give the country the benefit of his services in some other capacity.

IS YOUR BACK LAME? YOU ARE DOUBTLESS SUFFERING FROM DISEASED KIDNEYS—SUREST CURE IS Ferrozone.

Unless you want to be stricken with incurable Bright's Disease, don't let your kidneys go without attention. Ferrozone is a special remedy for this trouble, and never fails to give prompt relief and bring about a perfect cure.

Mr. Gordon J. Macfarlane, of Bradford, was cured by Ferrozone, after being treated unsuccessfully by three doctors for kidney complaint. "My kidneys were in a very bad shape," he writes, "and I had dreadful pains in the back and sides, and was never free from a dull, heavy feeling, that made life miserable. I spent a lot of money on local doctors, but was not benefited to any extent. Then I tried Ferrozone. One box helped me so much that I got six more, and before they were used I was quite well. I never used anything giving such prompt and lasting relief as Ferrozone. It beats all other kidney cures."

People suffering from kidney disorders quickly lose strength, and often die young. Therefore it is important to get Ferrozone at once, and be released from every symptom of this baneful disease. Price: 20c a box, or six boxes for \$2.50, at all druggists, or by mail from The Ferrozone Company, Kingston, Ont.

ITCHING PILES.—Dr. Agnew's Ointment is proof against the torments of itching Piles. Thousands of testimonials of cures effected by its use. No case too aggravating or too long standing for it to soothe, comfort and cure. It cures in from 3 to 6 nights. 25 cents. Sold by Jackson & Co. and Hall & Co.—95.

Sunshine Furnace. REGULATED LIKE A WATCH. "Sunshine" dampers are so ingeniously arranged and control the fire so perfectly that the consumption of fuel can be regulated almost as accurately as a watch—the operator knows just what time a certain quantity of coal will retain fire and the degree of heat it will produce. All parts of "Sunshine" furnaces are mechanically correct—the castings are clean and extra heavy, while the steel used in the dome is of the finest quality and is specially made for the "Sunshine" furnace. Every detailed feature in the "Sunshine" has its purpose, and all combine to produce the most heat from the fuel consumed and distribute it without waste. Burns Coal or Wood. Booklet Free. McClary's LONDON, TORONTO, MONTREAL, WINNIPEG, VANCOUVER, ST. JOHN, N. B. CLARKE & PEARSON, AGENTS.

What We Put Forward. In the line of Canned Goods should send all orders to the rear. These things are not "tail end" lots from second rate canneries, but first quality goods from foremost packers. LABOR DAY.

Monday being Labor Day there will be no issue of the Times.

BRITISH RIGHTS.

The gravity of the Eastern trouble is emphasized in today's dispatches which state that the Porte has warned the different European powers that it will not be responsible for the safety of the legations.

But while the situation is so far as the British people are concerned will arouse the gravest apprehensions, there are features attached to the detention of a British subject by the United States immigration authorities which are infinitely more expediting.

Mr. John A. Hawke, an influential Conservative of Assiniboia, states in a published interview that the Grand Trunk Pacific will be a "hoon to Canada at large and to no part of Canada more than to the Territories."

THE NOON HOUR.

To the Editor:—I have a great fault to find in the manner our children are dealt with in reference to the dinner hour.

RALPH SMITH'S SINS.

For some time Ralph Smith, M. P., has been subjected to a sniping fire from the rifle trenches of the Colonist.

In the meantime having reneged at his post longer than his medical advisers thought it expedient to, in order to assure himself that the province's interests would not suffer, Mr. Smith came home to British Columbia.

sensitive to whom it need not appeal in vain. Take for instance Mr. Earle, the sleeping sentinel of this province at Ottawa.

The third count against Mr. Smith is that of his modesty. His failure to acquaint the world with every effort he makes on behalf of British Columbia is charged up in the Colonist's summing up of his manifold weaknesses.

THE FISCAL CAMPAIGN.

The authority engaged by the London Times to give his views on the fiscal question, the matter that is at present dividing Britain asunder, admits that in the manufacture of such commodities as jams and soaps the Briton is extending his business, but in the lines in which he takes the greatest pride, and upon which his (it may be mistakenly) fancies his present reputation and his future well-being rests, the iron trade, there is reason for disquietude.

City News in Brief.

—Going to Vancouver or Westminister? Take the Terminal railway at 7.00 a.m. daily.

—Rec. J. F. Vichet united in marriage last evening, at 61 King's road, William Paddison and Mrs. Isabel Bennett.

—Labor Day Excursion—The Terminal railway will sell tickets to Vancouver, September 6th, good to return on 8th, at one fare for the round trip.

—The master mechanic's pure tar soap cleans and softens the skin, while promptly cleansing it of grease, oil, rust, etc. Invaluable for mechanics, farmers, sportsmen. Free sample on receipt of 2c. for postage. Albert Toilet Soap Co., Mfrs., Montreal.

—The first of a series of social entertainments to be given under the auspices of the Women's Auxiliary of the Y. M. C. A. will be held in the hall, Broad street, on Monday evening, the 14th inst. The programme for this occasion will be in charge of J. G. Brown. Further particulars will be given later.

—On Wednesday evening Mr. James W. Wright, C.P.R. conductor, running from Vancouver to Kamloops, and Miss Edith Louise Baumeister, of Chicago, were united in the bonds of matrimony by Rev. J. Ousterhout. The ceremony took place at the residence of Mr. W. J. Mahle, a cousin of the bride, Victoria West. There was a large array of handsome presents. Mr. and Mrs. Wright will make their home at Vancouver.

—With a fortune in blood money placed on his head, Kwong Kai Chen, one of China's great reformers, is in Seattle," says the Seattle Times. "He will speak to-night in behalf of the Chinese Empire Reform Association at the Victoria old basement theatre, corner Secord avenue south and Washington street. All of Seattle's Chinese colony turned out in regalia late yesterday afternoon to welcome this young scholar and political leader."

—To-morrow morning anniversary services will be held at the Soldiers and Sailors' Home, Esquimalt. Leonard Tait will conduct the services and Rev. Wm. Hicks will tender a solo. Rev. J. P. Westman will address the Sunday school in the afternoon and the children will sing. Rev. J. P. Hicks will occupy the pulpit in the evening and there will be a programme of special music. An anniversary tea meeting, followed by a concert, will be held on Tuesday evening.

—A. G. Langley, B. Sc., and E. P. Colley, P. S. S., have returned from a trip to Graham Island, of the Queen Charlotte group. They examined the coal measures on Skidegate Inlet, where work was carried on up to the year 1872. The coal is reported by them to be of excellent quality, but the workings when it was formerly mined are in such a condition that a great deal would have to be spent upon them in order to carry on work. Boring for new bodies is therefore advised.

Successors to P. C. MacGregor & Co.,
NO. 2 VIEW STREET.

—C. E. Heard, rupture specialist, is at his office, Moody block.

—One fare for round trip, Labor Day, to all points on Victoria Terminal railway.

—At the usual propaganda meeting of the Socialist party in Labor hall to-morrow evening, Hugh Dixon will speak. Subject: "A Criticism of Opponents of Socialism." The meeting starts at 8 o'clock.

—The annual flower and fruit service at the Church of Our Lord, Reformed Episcopal, will be held to-morrow afternoon at 3 o'clock. After the service the flowers and fruit will be distributed to the hospital.

—Two drunks were fined \$5 each in the city police court this morning. A Chinaman who deposited ashes too close to woodwork was fined \$5. He paid his fine. The others were allowed a week in which to pay their fines.

—The latest composition of Geo. J. Burnett, the well-known Victorian composer, is a musical setting to the whole of the 23rd psalm in solo and duet form for bass and alto voices. The paraphrase of this psalm for generations past has been a great favorite among all classes.

—You can save money by patronizing home companies. The rates charged by the Mutual Life of Canada are lower than those of American companies. It is also a fact that the Mutual Life of Canada has paid better results on its matured policies. For rates and information apply to R. L. Drury, Provincial Manager, 24 Broad street.

—The Ministerial Association will hold its first meeting of the season on Monday in St. Andrew's Presbyterian church room at 10:30 a.m. Some important communications will be considered, and the election of officers and arrangement of programme for ensuing season will constitute the other business. A large attendance is requested. Visiting ministers welcome.

—The next regular meeting of the Victoria Teachers' Institute will be held on Friday, 11th inst., when the following business will be discussed: Reading, Miss E. G. Lawson; literature in intermediate grades, A. B. Wallace, B. A.; outline lesson from Lamb's Tales, Miss N. E. Marchant; outline lesson from "Evangeline," J. M. Campbell; outline lesson from Syke's Composition, Miss Speers. The Central school orchestra, under Mr. Wallace, will also be present.

—Hunters particularly will be interested in learning that excursion rates will apply over the E. & N. railway from to-day until Monday, both days inclusive. Reduced tickets, good until Monday night, will be sold, and as the shooting is reported to be excellent along the line, it is expected that there will be a large exodus of hunters from the city. In order to provide a prompt and efficient service, trains will be run twice a day.

—The Farmers' Produce Association, with headquarters at Ladysmith, will be unable, it is reported, to meet its liabilities. The confined strike among die miners at Ladysmith is given as the reason for this. The manager of the organization was A. H. Gardom, of Ganges Harbor, Salt Spring Island, who will be a heavy loser. The association was commenced just about the time the labor trouble broke out, and had for its object the development of a wholesale trade between Ladysmith and Salt Spring Island, with the probability of a farther extension of the trade. Malcolm & Purvis, of Salt Spring Island, will probably take over the business.

—Charles W. Leadbeater, M. R. A. S., of London, Eng., a well-known writer on theological subjects, is now making a lecturing tour in the United States under the auspices of the Theosophical Society, and will very shortly arrive in this city. He was for seven years a clergyman of the Church of England, but resigned his position in it in order to travel to India with the late Madame H. P. Blavatsky, of whom he is a devoted disciple. For 21 years he has devoted himself entirely to work for the Theosophical Society, and to study along occult lines, five years of this time being spent in India, Burma and Ceylon. He is a member of the Royal Asiatic Society, and has always taken the deepest interest in Oriental and mystical studies.

Dispensing Chemists, Clarence Block, Cor. Yates and Douglas Streets.

Owing to the prospective visit of the members of the Chambers of Commerce the regular meeting of the local chamber next Tuesday will not be held.

A meeting of the special hotel committee for the selection of ward committees will be held at the Tourist Association rooms to-night at 8 o'clock.

The position vacated by Chas. E. Dickinson here as manager of the insurance business of R. P. Ribbet & Company, has been taken over by William A. Lawson.

There will be meetings in the Salvation Army hall this week end as follows: Saturday evening, free and easy; Sunday, 11 a.m., holiness meeting; Sunday, 3 p.m., praise meeting; and at 8 p.m. Mr. Ritchie will give an address, subject, "God's Pay Day." All are welcome.

Tenders addressed to F. Gourdeau, deputy minister of marine and fisheries, Ottawa, and endorsed "Tender for Prospect Point Dwelling," are being invited. They are being called for the construction of a wooden house in Stanley park for the use of the lightkeeper at Prospect Point, and will be received up till September 15th. Plans and specifications for the building can be seen at the office of the local agent.

Special arrangements have been made for the service in Y.M.C.A. hall to-morrow at 4 p.m. George Carter, ex-secretary of the association, will give an address. There will be a special musical programme given by the choir of the First Presbyterian church. An anthem with soprano solo by Mrs. Gregson, a duet by Mrs. Gregson and Mrs. Maynard, also solos by Mrs. Gregson and J. G. Brown. The meeting will be thrown open to ladies.

The funeral of the late George Cheelam took place this morning from his late residence, Indian reserve, at 8:30, and a half an hour later at the R. C. Cathedral, where solemn mass was celebrated. Rev. Fathers Hopkins and Leternie officiating, after which the cortege proceeded to the cemetery on the Indian reservation. The following acted as pallbearers: Wm. Roberts, C. Karmic, D. Pallandean, A. Albanic, J. Albanic and Benjamin.

E. Coley had a narrow escape from drowning last night. He was steering a raft of timbers towards Ross Bay beach when, off Clover Point, it was shattered by a heavy swell and Coley was thrown into the water. He managed to grasp a plank, to which he tenaciously clung until James Henley, whose attention was attracted by his cries, put out in a boat and rescued him. He was quite exhausted but was soon resuscitated. In the meantime, the city police were notified and Constable Carson, with admirable promptitude, hurried to the scene in one of Dan McIntosh's launches. Mr. Coley, however, had been rescued before it arrived.

In will doubtless be of interest to the parties, who reported what they regarded as a case of cruelty to animals at Oak Bay to learn that the horse complained of has been destroyed. President Dallin, of the Society for the Prevention of Cruelty to Animals, and Dr. Hamilton, the society's veterinary surgeon, on receiving the report mentioned, at once investigated the case and found the animal, a beautiful specimen of horse flesh, to be suffering from a crippled fetlock joint, which, while not as painful as the wound seems, was sufficient to render the poor brute useless for life. The owner was found and confessed to not having the courage to shoot the brute, though he had taken a gun in hand several times with that object in view. He had become so attached to the horse that he could not follow out the resolve, but he was willing that the animal should be destroyed. In fact he requested Dr. Hamilton to do the shooting.

COST TO CENTS—But worth a dollar a year. This is the testimony of hundreds who use Dr. Agnew's Liver Pills. They are so sure, so pure, so pleasant and easy getting. The demand for this popular Liver Regulator is so great it is taxing the makers to keep up with it. Sold by Jackson & Co. and Hall & Co.—93.

A despatch to the London Daily Mail from Kobe, Japan, says three Japanese have been arrested on suspicion of plotting the assassination of the Premier of Japan, Viscount Katsura.

WAS NOT SEIZED.
Approx of the alleged seizures of the Stanley Dollar by a Japanese gunboat as she was about to enter Yonampoh, Korea, a dispatch from Peking now states that the Japanese did not forcibly oppose the vessel entering the port, but protested strongly against her taking lumber aboard on the ground that the Yonampoh was not an open port. The captain of the Stanley Dollar telegraphed to the Russian company at Tientsin which had chartered the steamer, that the Japanese were preventing him from loading, and he ultimately loaded and the vessel is now supposed to be on her way to Dalgny. The Japanese legation is without information regarding the incident, which has created much comment.

MAY COME NORTH.
The rumor, as yet unauthenticated, is going the rounds of steamship circles that the China Commercial Company is to extend its line to Puget Sound and try to obtain a share of the Oriental freight business of the Sound. With a fleet of four chartered steamers, the China Commercial Company, operating between San Francisco and the Orient, Mexico, has been waging war on the Pacific Mail Steamship Company, of San Francisco. As a result, freight rates all along the coast have been cut to meet the competition of the new company, flour now being carried to the Orient at \$3 and wheat at \$4, rates which are said to permit of little or no profit to the steamships.

For a large share of its receipts the China Commercial Company depended upon the transportation of coals to Mexico. This traffic, it is now stated,

NORTHERN BUDGET BROUGHT BY SHIP

COTTAGE CITY AND PRINCESS MAY ARRIVE
Accident to C.P.R. Lifer Prevented the Vessel Coming on to this Port To-Day.

Alaska's mail steamship, the Cottage City, arrived last night from the North with 60 first-class and 28 second-class passengers.

Northern exchanges received by the ship tell of the return to White Horse of Lockie T. Burwash, mining recorder for the Stewart district, already announced by telegraph service. Mr. Burwash was somewhat reticent in speaking about the newly discovered fields. However, he stated that while there did not at first seem to him to be good grounds for such a stampede, yet the prospects which he himself had obtained from rim rock and which he had seen panned warrant work being done on the claims.

White Horse at present is very busy. Freight is being rushed through the town as fast as the transportation companies can handle it. At Dawson, too, there is considerable bustle over the distribution of the freight which is being shipped on to the different creeks with all possible dispatch.

The Atlin claim, referring to the recent robbery on the Atlin Mining Company's property, says that the mine was visited by thieves about 11 o'clock Sunday night. J. Fetherstonhaugh, who was in charge of the dynamite at that time, was surprised to find the water supply suddenly shut off. He immediately went to the gate, about 1 1/2 miles up the creek and found it shut. He opened it, returning to the power house turned on the lights, not dreaming that anything was wrong. Early next morning a startling discovery was made. The side of the 'boom,' about three boxes from the mouth, had been sawn out about a foot wide and the rifles in the front boxes removed, enabling the robbers to wash the gravel, sand and gold into a sack held at the opening in the side of the flume. The sudden turning on of the lights evidently scared the robbers, as they left over \$2,000 worth of gold on the ground which had washed through the opening. They also left all their tools, crowbars and shovels, a strap (with a name on it), an empty whisky bottle and some ore sacks. It is estimated that the robbers got at least \$8,000.

About the same time as the robbery on McKee creek, the Pine Power Company's London pit was the scene of a hold-up and attempted robbery. The company was busy sweeping down bedrock and getting ready for the clean-up, and at night the manager, Mr. Lovridge, put his son Will (aged 18 years) to watch the boxes. About the time Will went on duty the men in the upper pit (Harzian pit) were leaving for supper; he heard some one whistle on the bank of the London pit and answered, thinking it was one of the company's men. A big husky man then walked into the pit right up to Will and, grabbing both his arms, called to his three partners who then came up. They searched young Lovridge, took his revolver, removed the cartridges and handed it back to him, telling him to get out or they would fill him full of lead. He ran up town and raised an alarm, but it was fully half an hour before a posse of citizens and Constable Hurl got back to the pit. Mr. Lovridge, sr., setting the first. The men had left, evidently having been scared, as only two rifles were disturbed. It is not thought that they got much gold. The men were masked and evidently belong to the same gang as operated on McKee.

The Dawson Recorder reports that the steamer Wilbur Cramm has returned to that city from the Pelly river with a number of disappointed miners who had stampeded to the new discoveries of that river, and had found nothing there to warrant them remaining.

News of a rich strike twenty-seven miles from the Mayo recording office was brought to Dawson late last month by the recorder at that point.

has been shut off by the Mexican government, and the president of the China Commercial Company recently came to the States to look after the company's interests, it being forced, it is said, to now depend upon what freight it can obtain to and from the American ports for its business.

The British steamship Clavefin, one of the four chartered steamers of the company, and which is now at San Francisco, is expected to come North for British Columbia coast, and this is said to be one of the things which gives rise to the rumor that the new company plans to enter the Puget Sound-Oriental trade for what business it can obtain. The China Commercial Company is said to have ample financial backing.

QUEEN CITY BACK.
Steamer Queen City returned from one of her short trips down the West Coast at midnight. A couple of schooners were seen outside, and the Iris was met at Bamfield, but these were the only craft sighted on the voyage. G. R. Dun, of the Occidental hotel, returned on the steamer, having visited his property at Kennedy lake. Miss Koarno, another passenger, has been down to Tuleclet visiting the government agent at that point. Mr. Baker, a member of the Rainy Day Syndicate, brought up from Chuckleau a shipment of ten tons of ore, the initial consignment from that mine, which is being forwarded to the Tye's Company's smelter at Ladysmith. Mr. Etherton came back from Clayoquot, where he has been staying for the last month. Mr. Wade was also a passenger from Bamfield, having been visiting Mr. Watson, of the cable station. Among other arrivals were C. E. Pooley and his son, Tom Pooley, who were down to San Juan; Mrs. Vincent and child; O. D. Schofield, W. G. Diggins, W. W. Nelson and M. Beck.

LABOR DAY EXCURSION.
Another opportunity will be given Victorians on Monday to view the picturesque scenery between Victoria and Vancouver, and to enjoy a ride on the Canadian Pacific railway's magnificent steamer Princess Victoria, which leaves the inner wharf at 7 a.m. A great deal of interest is being taken in the performance of this steamer, she being the fastest in these waters, and it is more than likely she will endeavor to break her own record of the remarkably quick time of three hours and thirty-one minutes between this and the Terminal City.

MACHINERY DISABLED.
Her machinery having become partially disabled on the return voyage from Skagway, the steamer Princess May, which arrived at Vancouver yesterday morning, will not continue her voyage to Victoria as customary. An effort will be made to effect the repairs at the Terminal City and to send the steamer North again on Monday night. The accident in her engine room occurred when the ship was off Port Simpson, and the vessel had to continue her way South using only her starboard engine.

MARINE NOTES.
The overdue ships, which for the past week have been posted at a small per cent., have been raised to a higher mark. The Aristides was put up to 65 per cent., the Arabia to 20 per cent., and the Sirius to 40 per cent.

The E. M. S. Empress of China is scheduled to depart on Monday afternoon for the Orient. She will have a full passenger list and between 1,000 and 1,800 tons of cargo.

Steamer City of Puebla is due from San Francisco this evening, and the Queen is scheduled to leave for the Golden Gate to-morrow evening.

The fishing schooner Kilmeny returned from Cape Flattery during the night with a cargo of halibut.

The Riojun Maru, outward bound for the Orient, called at the outer wharves to-day.

HEALTHY, HAPPY BABIES.
Every mother most earnestly desires to see her little ones hearty, rosy and full of life. The hot weather, however, is a time of danger to all little ones, and at the very first symptom of uneasiness or illness, Baby's Own Tablets should be given. It is easier to prevent illness than to cure it, and an occasional dose of Baby's Own Tablets will keep little one healthy and happy. If sickness does so quickly cure the minor ills of babyhood and childhood, and you have a guarantee that it contains no opiate or poisonous stuff. Mrs. John Nail, Petersburg, Ont., says: "I have used Baby's Own Tablets and find them a superior remedy for troubles of the stomach and bowels. From my own experience I can highly recommend the Tablets to other mothers."

Mothers shouldn't always keep these tablets in the house, ready for any emergency. Sold by medicine dealers or sent postal at 25 cents a box, by writing the Dr. Williams Medicine Co., Brockville, Ont.

Seventeen cotton manufacturing corporations of Fall River, Mass., will shut down entirely to-day until September 14th, throwing out of work nearly 13,000 hands.

Mrs. Rhodes, who lived eight miles north of Wood, in Washita county, O. T., was struck by lightning while milking and instantly killed. The bolt also killed two cows and a calf.

CONVINCING EVIDENCE of Cancer Cures.
No remedy has ever met with such unqualified success as the new constitutional treatment for cancers and tumors. The fact that it acts on the principle of destroying the cancer germs and purifying the blood of cancer poisons, has established it the only rational remedy for cancers, tumors and malignant growths. There are dozens of people in Canada who have been completely cured by this new, painless method of treatment, and if you will send two stamps to Messrs. Stott & Jury, Bowmanville, Ont., full particulars of these cases will be sent to you.

has been shut off by the Mexican government, and the president of the China Commercial Company recently came to the States to look after the company's interests, it being forced, it is said, to now depend upon what freight it can obtain to and from the American ports for its business.

The British steamship Clavefin, one of the four chartered steamers of the company, and which is now at San Francisco, is expected to come North for British Columbia coast, and this is said to be one of the things which gives rise to the rumor that the new company plans to enter the Puget Sound-Oriental trade for what business it can obtain. The China Commercial Company is said to have ample financial backing.

QUEEN CITY BACK.
Steamer Queen City returned from one of her short trips down the West Coast at midnight. A couple of schooners were seen outside, and the Iris was met at Bamfield, but these were the only craft sighted on the voyage. G. R. Dun, of the Occidental hotel, returned on the steamer, having visited his property at Kennedy lake. Miss Koarno, another passenger, has been down to Tuleclet visiting the government agent at that point. Mr. Baker, a member of the Rainy Day Syndicate, brought up from Chuckleau a shipment of ten tons of ore, the initial consignment from that mine, which is being forwarded to the Tye's Company's smelter at Ladysmith. Mr. Etherton came back from Clayoquot, where he has been staying for the last month. Mr. Wade was also a passenger from Bamfield, having been visiting Mr. Watson, of the cable station. Among other arrivals were C. E. Pooley and his son, Tom Pooley, who were down to San Juan; Mrs. Vincent and child; O. D. Schofield, W. G. Diggins, W. W. Nelson and M. Beck.

YACHTING.

UNDECIDED.
New York, Sept. 4.—Sir Thomas Lipton is still undecided whether to challenge again for the America's cup. He said today: "I can find a man who can design a boat to beat the Yankee ship. I shall challenge again. To say that I will not challenge is untrue. If I do challenge again it will be with a 10-footer."

Sir Thomas said that when Shamrock II was sailing on the 12-foot water line, before her extra weight was removed to bring her within the 10-foot limit, she did a great deal better than after the change. Both Shamrocks were towed to Erie Basin today. They will be jugged and started for England in ten to fifteen days. Sir Thomas said today that he would not sell either of them.

THE RIFLE.

CLOSE OF MEET.
Ottawa, Sept. 4.—The matches at the Dominion Rifle Association meeting were concluded today. The best shot made by Sergt. Mortimer, Royal Grenadiers, who won the Governor-General's medal, is the best on record. Private Smith, of the 21st, won \$100; Color-Sergt. Youhill, 90th, \$100; Corporal Metzger, Ottawa Guards, \$50; and Sergt. Cayen, of Victoria, who was fourth, \$40. Sergt. Moeckler and Capt. Duff Stuart and McHarg, of Vancouver, Co. Sergt. Major Richardson, of Victoria, and Col. Sergt. Cunningham, of New Westminster, won \$0 each. Ferris and Corry won \$4 each.

The Lansdowne aggregate was won by the Royal Grenadiers, the British Columbia team being fourth.
The Gibson team match was won by Capt. King, of the 6th; and the Captains of the 6th, won \$8; Grant and Duff Stuart, \$3 each.

The Geowalk military match was won by the 4th, Ottawa; 6th Rifles, fifth, winning \$30.
The 10-middling cup was won by Montreal, Whittier.

The British Columbia team finished a five weeks' record by winning the Gordon Highlanders' trophy, a sum of \$48, in a score of 731. The Toronto Grenadiers were second with 743; third third, with a score of 757.
The British Columbia man appears in the Biely team of next year. Capt. Hart McHarg is 30th man, and Ferris 34th.

LACROSSE.

CAPITALS v. SHAMROCKS.
As announced by the referee, a match was played recently at Ottawa between the Shamrock and the Capital teams, resulting in the defeat of the champions. A Montreal exchange describes the game as follows:
"In the greatest game of lacrosse played in Ottawa in many years, the Capitals, playing six minutes over time, defeated the Shamrocks in a N. A. L. U. match by six goals to five."

"It was a swift scientific lacrosse game. It aroused the greatest enthusiasm among the 5,000 spectators, and the Shamrocks were beaten by the Capitals. The game was a very close one until the very end. The Shamrocks led at the start, but the Capitals never quit, and by the play of the Capitals before time was up. Six minutes after the play started Finlayson essayed a rush down the field, and he travelled like lightning from him to Turkin, to Murphy, to Powers, and into the net. He carried the swarmed on the net, and carried the victors of the field."
"Old timers say that the game has rarely been equalled since. The Capitals won the Minto cup game between Brantford and Champlain. It demonstrated that the Capitals have a chance of winning the championship. Hosiou had his right wrist broken in the ninth game, and his absence demoralized the Shamrocks, who were off next on the program. Harvey Patton refereed, but the Shamrocks say they will not take him in the next game, as he had been agreed upon."

ATHLETICS.

RUGBY THE FAVORITE.
Sport is comparatively quiet at present. There is very little doing, as most of the summer pastime programmes have been completed and the winter games have not yet commenced. However, those who are athleticly inclined will not have long to wait before the numerous sports of the winter months are in progress.

From what can be gathered it is likely that the favorite game this winter will be Rugby football. Association seems to be falling in favor, and for many years many of those who have heretofore played the latter game will turn to the former. This, at least, is the opinion of several of those directly interested, and it is borne out by the feeling at the close of last season which was, as all enthusiasts will remember, overwhelling in its nature. Both Victoria will have good teams in both senior, intermediate and Junior Rugby leagues. Last year the former district and their own will against the Vancouver and Nanaimo, and this season, strengthened as the team will be by Gillespie and Schofield, they should make a good bid for the championship. What will be the calibre of the intermediates cannot yet be judged, but they should be able to get together a strong aggregation. There is no doubt, however, that the Juniors will have a team that will be sufficiently faint to hold its own with any team of the province.
Matters do not look so bright for the Association game. Of course there will be the regular provincial league, in which the Victoria senior team, an eleven from the Barracks, and the championship aggregation of Nanaimo will participate. It is not improbable that a team from Chilliwack will also enter. The local eleven will be as strong this year as ever before. Gow and Schweigert will, no doubt, play their usual strong wall defence. It is stated on good authority that the Capitals will be

COOK'S COTTON ROOT COMPOUND.

Ladies' Favorite,
Is the only safe, reliable
regulator on which woman
can depend "in the hour
and time of need."
Prepared in two degrees of
strength. No. 1 and No. 2,
No. 1 for ordinary cases
is by far the best dollar
medicine known.
No. 2—For cases 10 degrees
stronger—three dollars per box.

Ladies—ask your druggist for Cook's Cotton Root Compound. Take no other pills, mixtures and imitations are dangerous. No. 1 and No. 2 are sold and recommended by all druggists in the Dominion of Canada. Mailed to you on receipt of price and four 2-cent postage stamps. **The Cook Company, Ont.**

No. 1 and No. 2 are sold in all Victoria drug stores.

George Clark, of the public school staff, has been appointed principal of the Grand Forks public school, and leaves immediately for his new position. Stewart Carruthers, a well-known prospector, on Friday brought in some rock assaying \$40 to the ton from the Commodore claim, situated a short distance above the Porto Rico mine. Carruthers states that he has struck a fissure vein averaging from eight to ten feet wide of this rock, with well defined exposures across the whole width of the claim. In his opinion this is one of the most important discoveries yet made along Barrett creek, although some very rich ore has been taken out on the Spotted Horse and other properties there.

assisted by a number of the Victoria West players in their efforts to capture the cup from Cumberland. There is, therefore, every promise of this season's intermediate championship coming to Victoria. The city leagues, however, do not promise well, there being a lack of enthusiasm which is discouraging. Whether there will be a city senior series or a city intermediate series, are matters of conjecture. It is claimed that Victoria West intends organizing a strong intermediate team, composed of their own players and a number selected from members of Work Point barracks. This would make a strong combination, if the proposition is successfully carried out, the Capitals will enter, and with the Y. M. C. A., who may possibly take part, a fairly good league could be formed. The Junior series will, of course, be carried through as usual. There will be a good number of entries, and the league will be well contested.

CRICKET.

MATCH IN VANCOUVER.
The second eleven of the Victoria Cricket Club will play Vancouver's sixth, and a team from the Victoria Cricket Club will play the Victoria Cricket Club. The match will be an all day one, starting at 10 o'clock in the morning at Beacon Hill.

MATCH TO-DAY.

A match is being played this afternoon, between C. W. Scott and eleven, and a team selected from the membership of the Victoria Cricket Club. The game started at 2 o'clock. Following are the players who comprise the Victoria team: H. J. Martin, N. Harrie, T. W. Ashby, R. H. Swinerton, D. Menzies, H. Cobbett, L. Solly, D. B. Bogue and L. V. Garbutt.

LEFT FOR SOUND.

Last night the players selected to represent Victoria in games against Seattle and Tacoma left for the Sound. It is not unlikely that the game scheduled to take place on Monday at Tacoma will have to be played to-morrow. There will be no boat from the Sound on Monday evening and the Victoria team must delay its engagement in time to return by Tuesday.

BASEBALL.

VICTORIA'S SEASON'S RECORD.
Yesterday's Times alluded to the excellent record, established by the Victoria Baseball Club in the season just past. This becomes more apparent when one glances at the tabulated statement of wins and defeats which is appended. By this it will be seen that, exclusive of the match with the intermediates for charity, a win not incorporated in the record, the nine won twenty-four out of thirty-five, or sixty-eight per cent. They scored 263 runs against a total of 156 for their opponents. They have lost out 9 times and were only shut out once, and that by a professional nine they defeated in a previous game. It was their first shut out in three years. The succession of victories over visiting teams gave the Victoria nine no little celebrity throughout the Northwest, especially in Whistler, where the several defeats inflicted on their strong organization struck terror to the souls of the enthusiasts there. The club, financially, is on the rocks, which is to be generally regretted in view of the successful manner in which it has held its own, and the entertainment it has afforded during the past season.

THE RECORD REFERRED TO ABOVE-FOLLOWS:

- May 21—Victoria, 1 run; 3 runs.
- May 11—Whatecom, 5; Victoria, 7.
- May 16—Nanaimo, 1; Victoria, 6.
- May 22—Tacoma, 14; Victoria, 4.
- May 23—Tacoma, 1; Victoria, 6.
- May 25—Tacoma, 1; Victoria, 6.
- May 26—Whatecom, 1; Victoria, 3.

Clean your Homes, Wash your Clothes... You can make every article white and clean with Sunlight Soap.

SUNLIGHT SOAP

ASK FOR THE OCTAGON BRAND... Sunlight Soap Washes the Clothes White and won't Injure the Hands.

and stopping his breath. But it was being held from behind, twisting more and more tightly, until suddenly the hold was let go.

COL SCHIEL DEAD.

Was Organizer of Boer Artillery and Leader of German Contingent at Elandsfontein.

Col. Adolf Schiel, the organizer of the Boer artillery and leader of the German contingent which fought on the side of the Boers in the late war, died at the hospital of Reichenhall, in Bavaria, recently.

Schiel was born at Frankfurt-on-the-Maine in 1858, left the Prussian service as lieutenant of Hussars when barely 20 years of age, and sailed for South Africa.

He gradually improved his position, and later on became adviser to the Zulul King Dinizulu, eldest son of Cetewayo.

The chief-tain sent Schiel to Berlin in 1885 to negotiate the proposed annexation of his country by the Germans.

Schiel afterwards occupied positions of trust under the Transvaal government, was appointed artillery captain, and after the Jameson Raid, planned and directed the construction of the forts at Johannesburg.

During his captivity in St. Helena, he wrote his memoirs, entitled "Twenty-three Years of Storm and Sunshine in South Africa," and on the conclusion of peace lectured all over Germany.

His death was due to a long illness, which was not checked until ultimately result in deafness.

The bi-centenary of the founding of St. Petersburg by Peter the Great in 1703 will be celebrated this year.

At the same moment, while his left hand was clasped by the unseen woman, and his right was engaged with the stick something woolly and stinging...

She had left alone at the mercy of the merciless.

At last she felt help, she would doubtless have died of it before long, but Jim was ready to risk even her anger, her refusal to forgive, when the offer must be committed for her sake.

He hesitated no longer, and thankful that this emergency had not come while he was still actually bedridden, he found the stick which Miss Truro had brought him only that morning as an aid in hobbling about the room, and got himself to the door.

His plan he could still see in his mind's eye; for on the day he had been carried in wounded he had been taken to his room unconscious and had not ventured downstairs since.

Maya must have gone out through a side door which he remembered, else it was probable that she would have been seen in her state of excitement by some member of the household and detained.

Through that side door he would go also, and his stick went groping along a passage only illuminated by a night-light on a high bracket, found their way to the stairs, and began the descent, slowly and painfully.

Below was another passage, and at the end was the door which Jim wished to reach. Through this was the nearest outside approach to the "North Wing," but there was no thought of that in Breakpear's mind.

The lower passage was dark, and Jim had to feel his way to the door at the end. He made as little noise as possible, yet at each instant he expected to see a light appear, and hear a demand as to who was there, and what was wanted.

As he moved on there was a queer, pricking pain in his side, but he scarcely noticed it. It seemed only a part of the anxiety he felt for Maya.

At last the door was found, unlocked as he had fancied. He stepped out upon soft glass, and the pale illumination of the sinking moon gave, after the airless darkness of the long passage.

Now to turn a corner of the house, and he must come upon the girl and her mysterious companion.

Suddenly the sound of a stifled sob came to his ears. He quickened his step, carried onward by a rush of artificial strength born of his vague fears.

In another moment he turned the corner and came out on the grassy space under the windows of his bedroom upstairs.

CHAPTER X.—(Continued.)

The Death-Mask.

He turned back to the window, and, standing where Maya had stood a moment ago, looked out. At first he saw nothing.

Then a figure that had been one with the tree-shadows glided out into open moonlight, and an awful, unearthly face was turned up to him.

There was no life, no humanness in it, yet the figure moved. The moon shone full on the distorted features, bloodless as those of a corpse, and distorted in a grin of agony.

Had Breakpear been a believer in the ghost-stories he had been narrating he would have told himself that here was a lost spirit doomed to haunt the scene of evil deeds; but, after the first shock of surprise, his practical mind demanded an explanation of the mystery.

There was something grimly familiar about the hideous white face. "It's like a mask!" Breakpear thought; and the words flung him the key to the association.

These anguished features, so corpse-like in the moonlight as the black figure separated itself from the shadows hardly more unreal, were the same as those of the death-mask in the leather portmanteau.

Jim scarcely knew what to make of the discovered likeness. What did it mean? Was there a living man who wore not only that face, but the self-same expression of pain and horror unspeakable—a man who incarnated the secret of the Maltese Cross? Or—an alternative explanation no less hateful sent the blood singing in Breakpear's ears.

Hardly had it taken definite form in his mind when a slender white figure approached the dark one, which whirled round abruptly, so that the face was hidden from the watcher at the window.

Breakpear could remain passive and endure no more. Maya was out there in the night with that presence of evil, whatever it might be. It was as if she had been drawn by a hateful hypnotic influence, and it was intolerable that she should be left alone at the mercy of the merciless.

She had refused help, she would doubtless have died of it before long, but Jim was ready to risk even her anger, her refusal to forgive, when the offer must be committed for her sake.

He hesitated no longer, and thankful that this emergency had not come while he was still actually bedridden, he found the stick which Miss Truro had brought him only that morning as an aid in hobbling about the room, and got himself to the door.

His plan he could still see in his mind's eye; for on the day he had been carried in wounded he had been taken to his room unconscious and had not ventured downstairs since.

Maya must have gone out through a side door which he remembered, else it was probable that she would have been seen in her state of excitement by some member of the household and detained.

Through that side door he would go also, and his stick went groping along a passage only illuminated by a night-light on a high bracket, found their way to the stairs, and began the descent, slowly and painfully.

Below was another passage, and at the end was the door which Jim wished to reach. Through this was the nearest outside approach to the "North Wing," but there was no thought of that in Breakpear's mind.

Kidney - Wort Tablets
Fully Guaranteed by All Druggists.
THE BEST PHYSICIANS PRESCRIBE THEM.
When kidney trouble is neglected for weeks and months, it develops into Bright's disease—a consumption of the kidneys. Men and women, when the slightest derangements of the kidneys are experienced, act wisely and well when they use Dr. Pettinelli's Kidney-Wort Tablets. These Tablets are purely vegetable and can be used by the youngest with perfect safety.
If you have been induced to use any liquid medicine for the cure of kidney disease, give up its use at once, the alcohol part of it is fatal to the kidneys. Kidney-Wort Tablets never fail or disappoint. Fully guaranteed by all Druggists. Price 50 cents a bottle or six bottles for \$2.50.

A DECIDED IMPROVEMENT.

Movable Stands to Be Arranged at Exhibition This Year.
The executive of the British Columbia Agricultural Association met last night at the office of Swinerton & Oddy and transacted much routine business. Dr. Tolmie outlined a programme of sports and attractions, which was duly considered. Mr. Norris, chairman of the balls and buildings, submitted a plan of movable stands, pyramidal in shape, with seven steps. The stand at the base is 12 feet 6 inches square. These stands will be placed round the centre, their heads coming under the wells in the floor above. This arrangement will be a decided improvement over last year and will give a much better general effect. Mr. Norris is anxious that those wishing space should make application as soon as possible, as he desires to have, as far as possible, all applications in before finally allotting the spaces. The executive approved of the plan of the stands and the general plan of arrangement.

THE RAILWAY BILL.

Conservatives Agree to Suspend Their Policy of Obstruction.
(Special to the Times.)
Ottawa, Sept. 5.—The national trans-continental railway bill will be put through parliament by two weeks from today. The Conservative leaders, when making arrangements last night for breaking up the deadlock, agreed to let the bill pass after one week's discussion, providing that it was not taken up until Monday week, when it is expected that Mr. Borden will be here. There is, however, no arrangement about the redistribution bill, although it is not likely that the discussion will last long unless another campaign of obstruction is started.

KANLOOPS.

With the exception of some flumming, the irrigation ditch which has been in construction for some months for the Canadian Real Properties, Limited, is practically complete. The thirty or forty men who have been employed are leaving for Alberta, where Mr. Anderson has secured another contract. All the teams will be shipped to the new scene of operations.

operations. The flumming still to be done will soon be completed, and the company will then be able to turn on the water ad libitum and create their fruit farm settlement.

DOMESTIC SCIENCE.

Preparations for Opening the Class Are Now Well Advanced.
As a result of the efforts of the Women's Council, assisted by the Board of School Trustees, young ladies attending the Victoria High school will soon have the opportunity of taking a course in domestic science with their regular studies. Some time ago an agreement was reached between the council and the school board, providing that the former would equip the class room while the latter would attend to maintenance. This arrangement resulted in the engagement of Miss W. MacKend, who has had a wide experience in teaching domestic science in the Eastern provinces, and although the course is new to Victoria she has every confidence of success, and predicts that next year the scope of the work will be considerably extended.
Miss MacKend has lost no time in preparing the room set aside by the school board for the domestic science instruction. Under her supervision an album range of the most modern type and a gas stove have already been installed. Cupboards for the different utensils and desks are being constructed. The latter will contain for each pupil a drawer for keeping the various articles used, while a commodious cupboard will be provided for every two students. Each individual student will also be supplied with a small gas stove for cooking purposes. These, together with the various other necessary utensils and a couple of blackboards for illustrating lessons, will form the full equipment. The school, it is expected, will be opened on Monday, September 14th.
To-day Miss MacKend told a representative of the Times that it would take four years for pupils to complete the course. This year, she said, the number of students would be limited to 200, and would include the High school young ladies and a number from the Girls' Central. The age limit would be from 16 years upwards. Speaking of the number, she pointed out that next year it would be 400, the year after 600, then 800, and so on. Regarding lessons, Miss MacKend explained that each pupil, under the proposed arrangement, would receive one lesson of two and a half hours a week. Endeavors would be made to so arrange matters that when the boys of one class were attending manual training the girls would be away receiving their domestic science instruction.
Referring to the nature of the work, Miss MacKend said that domestic science as now taught was divided into two distinct branches—the scientific and the practical.

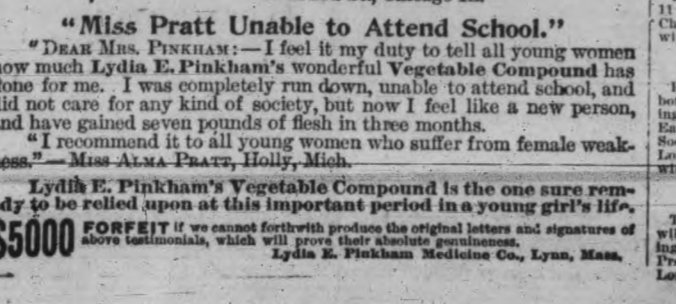

In France consumption is killing people at the rate of 200,000 a year. This means that a city the size of Toulouse is yearly wiped out by this disease.

Young girls at this period of life, or their mothers, are earnestly invited to write Mrs. Pinkham for advice; all such letters are strictly confidential; she has guided in a motherly way hundreds of young women; and her advice is freely and cheerfully given.
School years are danger days for American girls. Often physical collapse follows, and it takes years to recover the lost vitality. Sometimes it is never recovered. Perhaps they are not ever-careful about keeping their feet dry; through carelessness in this respect the monthly sickness is usually rendered very severe.
Then begin ailments which should be removed at once, or they will produce constant suffering.—Headache, faintness, slight vertigo, pains in the back and loins, irregularity, loss of sleep and appetite, a tendency to avoid the society of others, are symptoms all indicating that woman's arch-enemy is at hand.
Lydia E. Pinkham's Vegetable Compound has helped many a young girl over this critical period. With it they have gone through their trials with courage and safety. With its proper use the young girl is safe from the peculiar dangers of school years and prepared for hearty womanhood.

A Young Chicago Girl "Studied Too Hard."
"DEAR MRS. PINKHAM:—I wish to thank you for the help and benefit I have received through the use of Lydia E. Pinkham's Vegetable Compound and Liver Pills. When I was about seventeen years old I suddenly seemed to lose my usual good health and vitality. Father said I studied too hard, but the doctor thought I had different and prescribed tonics, which I took by the quart without relief. Reading one day in the paper of Mrs. Pinkham's great cures, and finding the symptoms described answered mine, I decided I would give Lydia E. Pinkham's Vegetable Compound a trial. I did not say a word to the doctor; I bought it myself, and took it according to directions regularly for two months, and I found that I gradually improved, and that all pains left me, and I was my old self once more.—LILLIE E. SINCLAIR, 17 E. 23d St., Chicago Ill."

"Miss Pratt Unable to Attend School."
"DEAR MRS. PINKHAM:—I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months.
"I recommend it to all young women who suffer from female weakness.—MISS ALMA PRATT, Holly, Mich."
Lydia E. Pinkham's Vegetable Compound is the one sure remedy to be relied upon at this important period in a young girl's life.
\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

THE AUSTRALIAN ABORIGINE.
Mr. Lydekker drew attention in an article published in Knowledge a few years ago, to the evidence in favor of an Asiatic origin for the aborigines of Australia whose nearest relatives then appeared to be the Veddas of Ceylon.

The same journal now says that in a letter from Malacca the Messrs. Sarasin, who are travelling in Ceylon, announce the discovery in the mountains of that island of a primitive people—the Toala—presenting a remarkably physical resemblance to the Veddas.
Although these people have now been considerably influenced in the mode of life by contact with the Europeans of the coast districts, there is decisive evidence that a short time ago they were cave-dwellers (as indeed are some of their number now), while within a century or so ago they were in the habit of using chipped stone arrow-heads and other weapons and implements. There can be little doubt that the Toalas were the primitive inhabitants of Ceylon, and that they were driven to take refuge in the mountains by the Malay invaders, with whom, however, they now hold a certain amount of intercourse.
Assuming that the discovery of the Veddas is true—and it is scarcely likely that such a remarkable resemblance can be merely accidental—we have much stronger evidence than before as to the probable Asiatic origin of the Australian aborigines.

A RESOURCEFUL WAIFE.
Her first venture at cooking dinner in her own home had passed successfully and they sat in silence at opposite ends of the table munching at the novelty of it all and gazing at each other.
"Honestly, honestly, cross your heart—did you like it, Fred?" she asked finally.
"Never enjoyed anything so much in my life," he said, and swallowed a lump.
"Everything, everything—from soup to pudding?"
"Every mouthful, from soup to pudding," he said, bravely.
"Oh, I'm so relieved, then," she said, as a huge sigh escaped her. "You see, I forgot to order the syrup for the sauce for the pudding, and I had to have something, so I took the cough syrup, and I was so afraid you'd taste it."—New York Times.

THE POPULAR GORGE TRIP.
Steam launch Kootenay. If you wish to have the best of the beautiful trip to the Gorge, to enjoy it, to feel you cannot go a better way, take the elegant steam pleasure launch "Kootenay," which leaves Jones's boat house week days at 9, 10 and 11 a. m. and 1, 2, 3, 4, 5 and 7 p. m.
