Filing Code 4110 (P-330)

Date Issued July 1971

# TECHNICAL NOTE

Bureau of Land Management U.S. DEPARTMENT OF THE INTERIOR

## ALLOTMENT MANAGEMENT PLAN RECORD

As a result of an employee suggestion, the following format is offered for optional use by State and District offices to provide a ready reference source of information. The format contents are self explanatory and can easily be summarized by resource area, by district, or by state. Forms similar to this are receiving wide usage throughout Utah, and to some extent in other states and districts. A standard Bureau form is not being provided at this time in order to permit flexibility of use in each office. Your experience with the format will help in the development of a standard form.
