EXECUTIVE ORDER 9736

POSSESSION, CONTROL, AND OPERATION OF THE TRANSPORTATION SYSTEM, PLANTS, AND FACILITIES OF THE MONONGAHELA CONNECTING RAILROAD COMPANY

WHEREAS after investigation I find and proclaim that as a result of a labor dispute there are interruptions of the operations of the transportation system, plants, and facilities of The Monongahela Connecting Railroad Company; that the war effort will be unduly impeded and delayed by such interruptions; that it has become necessary to take possession and assume control of the said transportation system, plants, and facilities for purposes that are needed or desirable in connection with the present wartime emergency; and that the exercise, as hereinafter specified, of the powers vested in me is necessary to insure in the national interest the operation of the said transportation system, plants, and facilities:

NOW, THEREFORE, by virtue of the power and authority vested in me by the Constitution and laws of the United States, including section 9 of the Selective Training and Service Act of 1940, as amended by section 3 of the War Labor Disputes Act (57 Stat. 164), the Act of August 29, 1916 (39 Stat. 619, 645), and the First War Powers Act, 1941 (55 Stat. 838), as President of the United States and Commander in Chief of the Army and Navy, it is hereby ordered as follows:

1. The Director of the Office of Defense Transportation is authorized and directed, through or with the aid of any public officers, Federal agencies, or other government instrumentalities that he may designate, to take possession and assume control of the transportation system, plants, and facilities owned or operated by The Monongahela Connecting Railroad Company, but such possession and control shall be limited to real and personal property and other assets used or useful in connection with the operation of the transportation system of said carrier.

2. The Director is directed to operate, or arrange for the operation of, the transportation system, plants, and facilities taken pursuant to this order in such manner as he deems necessary to assure to the fullest possible extent continuous and uninterrupted transportation service.

3. Subject to applicable provisions of existing law, including the orders of the Office of Defense Transportation issued pursuant to Executive Orders 8989, as amended, and 9729, the said transportation system, plants, and facilities shall be managed and operated under the terms and conditions of employment in effect at the time possession is taken under this order. The Director shall recognize the right of the workers to continue their membership in labor organizations, to bargain collectively through representatives of their own choosing with the representatives of the owners of the carrier, subject to the provisions of applicable statutes and Executive Orders, as to matters pertaining to wages to be paid or conditions to prevail after termination of possession and control under this order; and to engage in concerted activities for the purpose of such collective bargaining or for other mutual aid or protection, provided that in his opinion such concerted activities do not interfere with the operation of the transportation system, plants, and facilities taken pursuant hereto.

4. Except with the prior written consent of the Director, no attachment by mesne process, garnishment, execution, or otherwise shall be levied on or against any of the real or personal property or other assets, tangible or intangible, in the possession of the Director hereunder.

5. Possession, control, and operation of any plant or facility, or of the transportation system, or any part thereof, or any real or personal property, taken pursuant to this order shall be terminated by the Director when he determines that such possession, control, and operation are no longer necessary to carry out the provisions, and to accomplish the purposes, of this order.

6. For the purposes of paragraphs 1 to 5, inclusive, of this order, there are hereby transferred to the Director the functions, powers, and duties vested in

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TEST AND METHODS OF ASSAY FOR ANTIBIOTIC DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040 ff. 21 U.S.C. 301 et seq., as amended by Public Law 139, 79th Cong., 1st Sess., July 6, 1945), the regulations for tests and methods of assay for antibiotic drugs (10 F.R. 11478-11485), as amended, are hereby amended as indicated below:

1. Section 141.1 (e) is amended by striking out the second and third sentences and substituting therefor the following: "Distribute the agar evenly in the plates and allow it to harden. Use the plates the same day they are prepared."

2. Section 141.1 (e) is also amended by adding the following at the end of the first paragraph. "A suspension of the test organism may be used in place of the broth culture described above in preparing the inoculum for the seeding of plates. Prepare such suspension as follows: Wash the organisms from an agar slant which has been incubated for 24 hours at 37°C with 2.0 ml of sterile physiological saline onto a large agar surface such as that provided by a Roux bottle containing 300 ml of agar. Spread the suspension of organisms over the entire agar surface with the aid of sterile glass beads. Incubate 24 hours at 37°C. Wash the resulting growth from the agar surface with about 50 ml of sterile physiological saline. Standardize this suspension by determining the dilution which will permit 20% light transmission through a filter at 6500 Angstrom units in a photoelectric colorimeter. Add 1.5 to 2.0 ml of this resulting dilution to each 100 ml of agar which has been melted and cooled to 48°C to prepare the inoculum for the plates. The suspension may be used for one week."

3. Section 141.1 is amended by adding a new paragraph as follows:

(h) The potency of a sample may also be determined by the standard curve technique using a single dose of standard and unknown.

Dilute the sample to be tested to 1.0 unit per ml. (estimated) in 1% phosphate buffer pH 6.0 using the 50 unit (estimated) dilution prepared as described in § 141.1 (d). Place six cylinders on the inoculated agar surface so that they are at approximately 60° intervals on a 2.8 cm radius. Use three plates for each sample. Fill 3 cylinders on each plate with the 1.0 unit/ml standard and 3 cylinders with the 1.0 unit/ml (estimated) sample, alternating standard and sample. Incubate the plates for 16 to 18 hours at 37°C. and measure the diameter of each circle of inhibition. At the same time prepare a standard curve using concentrations of the standard of 0.6, 0.7, 0.8, 0.9, 1.0, 1.1, 1.2, 1.3, 1.4, and 1.5 units/ml in sterile 1% phosphate buffer pH 6.0. Use three plates for the determination

of each point on the curve a total of 27 plates. On each of three plates fill 3 cylinders with the 1.0 unit/ml standard and the other 3 cylinders with the concentration under test. Thus there will be 81 one unit determinations and 9 determinations for each of the other points on the curve. After the plates have incubated read the diameters of the circles of inhibition. Average the readings of 1.0 unit/ml concentration and the readings of the point tested for each set of 3 plates and average also all 81 readings of the 1.0 unit/ml concentration. The average of the 81 readings of the 1.0 unit/ml concentration is the correction point for the curve. Correct the average value obtained for each point to the figure it would be if the 1.0 unit/ml reading for that set of three plates were the same as the correction point. Thus, if in correcting the 0.8 unit concentration, the average of the 81 readings of the 1 unit concentration is 20.0 mm, and the average of the one unit concentration of this set of 3 plates is 19.8 mm, the correction is 0.2 mm. If the average reading of the 0.8 unit concentration of these same 3 plates is 19.0 mm the corrected value is then 19.2 mm. Plot these corrected values including the average of the 1 unit/ml concentration on 2 cycle semi-log paper using the concentration in units per ml as the ordinate (the logarithmic scale) and the diameter of the zone of inhibition as the abscissa. Draw the standard curve through these points. The 10 points selected to determine the curve are arbitrary and should be so chosen that the limits of the curve will fill the needs of the laboratory. However the potency of the sample under test should fall in the interval of from 60% to 150% of the correction point of the standard curve.

To estimate the potency of the sample average the zone readings of the standard and the zone readings of the sample on the three plates used. If the sample gives a larger average zone size than the average of the standard, add the difference between them to the 1.0 unit zone size on the standard curve. If the average sample value is lower than the standard value, subtract the difference between them from the 1.0 unit value on the curve. From the curve read the potencies corresponding to these corrected values of zone sizes.

Dated: June 13, 1946.

PART 146—CERTIFICATION OF BATCHES OF PENICILLIN CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of Section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040 ff., 21 U.S.C. 301 et seq., as amended by Public Law 139, 79th Cong., July 6, 1945), the regulations for the certification of batches of penicillin-containing drugs (10 F.R. 11227), as

amended, are hereby further amended as indicated below:

1. Section 146.22 (a) is amended by changing the seventh line of sentence one so as to read "of not less than ten million units".

2. Section 146.24 (c) (1) is amended by striking "and" at the end of subdivision (ii), changing the period to a semicolon at the end of subdivision (iii) and adding "and", and adding the following new subdivision:

(iv) The statement "For Manufacturing Use", "For Repacking" or "For Manufacturing Use or Repacking" when packaged for repacking or for use as an ingredient in the manufacture of another drug, as the case may be.

3. Section 146.25 (a) third sentence is amended so as to read "The content of white wax in the menstruum before the addition of the calcium penicillin is not less than 3 percent (w/v) if the potency is to be 100,000 units or 200,000 units per milliliter, and not less than 4.7 or more than 4.9 percent (w/v) if the potency is to be 300,000 units per milliliter."

4. PART 1401—SYNTHETIC TEXTILE PRODUCTS

[MPR 602,¹ Amdt. 3]

WOMEN'S NYLON HOSIERY

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 602 is amended in the following respects:

1. Section 2 (a) is amended to read as follows:

(a) *Sales at retail.* A sale at retail is a sale in compliance with the provisions of this regulation to an ultimate consumer, by a seller who regularly conducts a retail business. "Ultimate consumer" also includes industrial, commercial, and institutional users who do not buy for resale.

Appendix B provides specific prices for sales by "chain stores" and "mail order houses" as defined below.

(1) "Chain stores"—(i) *Who are "chain stores."* Certain sellers at retail are classified as "chain stores" and must sell women's nylon hosiery at no higher than the chain store ceiling prices set forth in Appendix B. As used in this regulation, a chain store means a store which is one of a group of five or more commonly owned or controlled retail stores. However, if half or more of the stores which comprise the group were in the business of selling women's full length hosiery prior to January 1, 1943 and these stores, considered together, had an "average percentage of initial markup" of more than 34% on women's full length hosiery during each of the calendar years 1939, 1940, 1941 and 1942 (or during each of these specified calendar years in which such stores were in business) then, upon filing the computation set forth in (ii) below, such group of stores will be exempt from the chain store classification.

(ii) *Computation of "average initial percentage markup."* To determine the average initial percentage markup for any given year under (i) above the group must:

(a) Compute the total of the initial retail prices at which all purchases of women's full length hosiery were marked during that year;

(b) Compute the total of all invoice charges on purchases of the hosiery during the same year (figured after all discount deductions and including all transportation costs);

(c) Subtract the total secured in (b) from the total secured in (a); and

(d) Divide the remainder by the total obtained in (a). Sellers who are eligible for exemption from the chain stores classification on the basis that they had an average percentage of initial mark-up of more than 34% in accordance with the provisions of (i) above should prepare the above computation for each of the calendar years 1939, 1940, 1941 and 1942 (or for each of these specified calendar years during which they were in business) and send this computation, signed by the seller or a responsible official of the seller, to Apparel Price Branch, Office of Price Administration, Washington 25, D. C., by registered mail. Until this computation is mailed to the Office of Price Administration, sales made by any store which is one of a group of five or more commonly owned or controlled retail stores shall be considered sales by a chain store and priced accordingly.

(iii) *Exception for certain chain store sales.* Any group of stores classified under this section as "chain stores" may file an application for permission to sell and deliver at the ceiling prices specified in column (g) of Table 1, Appendix B, such full-fashioned women's nylon hosiery as it purchases at the ceiling prices specified in column (d) of Table 1, Appendix B, from establishments making sales at wholesale, if it can establish that more than 50 percent (in dozens) of all the women's full-fashioned full length hosiery which was delivered to it during each of the years 1941, 1942, and 1943 (or during each of the years 1941, 1942, and 1943 in which it has been engaged in the business of selling women's full-fashioned full length hosiery) was purchased by it from establishments making sales at wholesale. Such application must be filed in writing with the Apparel Price Branch, Office of Price Administration, Washington 25, D. C., and shall contain the following information:

(a) The name and address of the applicant, and the number of stores in its group;

(b) The date on which applicant first engaged in the business of selling women's full-fashioned full length hosiery;

(c) Facts showing that the applicant is a "chain store" under the provisions of section 2 (a) (1) (i) of this regulation;

(d) The number of dozens of pairs of women's full-fashioned full length hosiery which were delivered to it during each of the years 1941, 1942, and 1943 (or during each of the years 1941, 1942, and 1943 in which it was in the business of selling women's full-fashioned, full-length hosiery);

(e) The number of dozens of pairs of women's full-fashioned hosiery as specified in subdivision (d) which were delivered to it by establishments making sales at wholesale and the number of dozens of pairs which were delivered to it by manufacturers during each of the years 1941, 1942, and 1943 (or during each of the years 1941, 1942, and 1943 in which it was in the business of selling full-fashioned full length hosiery);

(f) The name and address of each establishment making sales at wholesale

which delivered women's full-fashioned full length hosiery to the applicant during each of the years 1941, 1942, and 1943 (or during each of the years 1941, 1942, and 1943 in which it was in the business of selling women's full-fashioned full length hosiery) and the number of dozens of pairs delivered to the applicant by each such establishment during each of those years.

No sales or deliveries may be made by "chain stores" at higher than the ceiling prices specified in column (e) of table 1 of Appendix B until specific authorization is granted in writing by the Office of Price Administration pursuant to this subdivision. An order by the Office of Price Administration granting permission to sell rayon hosiery at prices in column (g), Table 1, of 2d Revised Maximum Price Regulation 339 shall constitute authorization to sell, at prices in column (g), Table 1, of this regulation, nylon hosiery lawfully purchased (in a sale at wholesale) at ceiling prices in column (d), Table 1, of this regulation.

(2) "Mail order houses." A mail order house is an establishment making sales at retail which does a "mail order business" (i. e. makes offerings through retail catalogs or price lists and receives orders and delivers by mail to ultimate consumers). Such establishment must sell at or below "mail order house" prices. However, if the establishment was doing a mail order business prior to January 1, 1943 and had an average percentage of initial markup (computed in accordance with the provisions of subparagraph (1) (ii) above) of more than 34% on women's full length hosiery not produced by it during each of the calendar years 1939, 1940, 1941 or 1942 (or during each of these specified calendar years in which it was in the mail order business) that establishment, upon filing with the Apparel Price Branch, Office of Price Administration, Washington 25, D. C., by registered mail, the computation described in (ii) above (signed by an officer or principal) showing that its average percentage of initial markup was more than 34% in each of those calendar years, will be exempt from the "mail order house" classification.

2. Section 2 (c) (3) is amended to read as follows:

(3) *Limitation of distribution by manufacturers to persons other than sellers at retail and ultimate consumers—(i) As it affects manufacturers generally.* No manufacturer shall deliver to persons other than sellers-at-retail and ultimate consumers, in any calendar quarter year, a larger percentage of his total deliveries of women's nylon hosiery (including finished and greige goods) than his "wholesaler percentage." A manufacturer's "wholesaler percentage" is the percentage that his deliveries in 1941, of women's full length hosiery of all fibers (including finished and greige goods) to persons other than sellers-at-retail and ultimate consumers bore to his total deliveries in 1941 of women's full length hosiery of all fibers (including finished and greige goods). If a manufacturer did not deliver any women's full length hosiery in

¹ 11 F. R. 5783.

1941, his wholesaler percentage will be based on the deliveries of women's full length hosiery made during the first calendar year after 1941 in which he delivered this hosiery. In the case of a manufacturer who first delivered women's full length hosiery in 1945, his wholesaler percentage will be based on deliveries of women's full length hosiery made between January 1, 1945 and November 1, 1945. Deliveries by a manufacturer's agent or selling representative are to be considered as deliveries by the manufacturer. Deliveries to retailers' buying agencies, such as buying syndicates and central buying offices are to be considered as deliveries to sellers-at-retail. Export sales are included in the term "deliveries" as used in this subparagraph.

If a manufacturer did not deliver any women's full length hosiery in 1941, but has, since January 1, 1942, succeeded to the ownership and operation of a manufacturing plant which did deliver such hosiery in 1941 his wholesaler percentage is based upon his predecessor's deliveries in that year.

(ii) *Special "wholesaler percentages" for circular knit hosiery.* Manufacturers of circular knit hosiery may apply to the Office of Price Administration for special wholesaler percentages for circular knit hosiery, separately for such hosiery having a needle count of 370 or higher and such hosiery having a needle count lower than 370. Such special circular knit hosiery wholesaler percentages will be based upon the manufacturer's deliveries during 1941, or if he made no deliveries of circular knit hosiery during that year, upon his deliveries of such hosiery during the first subsequent calendar year (or first quarter year) in which he did deliver such hosiery. Applications for special circular knit wholesaler percentages shall be filed with the Apparel Price Branch, Office of Price Administration, Washington 25, D. C., and shall contain all of the information required by section 2 (c) (4) (i) below, showing separately, deliveries of circular knit hosiery having a needle count of 370 or higher and deliveries of circular knit hosiery having a lower needle count.

In granting special circular knit wholesaler percentages under this section the Office of Price Administration may revise the manufacturer's wholesaler percentage established under (i) above.

3. The period at the end of the second sentence of section 5 (a), after the word "stated", is changed to a colon, and section 5 (a) (1) is amended to read as follows:

(1) The words "O. P. A. Ceiling" or "O. P. A. Ceiling Price", accompanied by the maximum price at retail under this regulation.

(i) Where the retail price established under the tables of Appendix B for the hosiery (unbranded) is a maximum price for sales by retailers "buying from wholesalers", then the letter "W" must precede the maximum price. No manufacturer

may sell hosiery marked with a "W" to anyone other than a "qualified wholesaler" who has furnished the manufacturer with his OPA "Qualified wholesaler's registration number". No other person who first sells the hosiery in a finished state may mark hosiery with a "W" unless he is a qualified wholesaler under this regulation and has been issued a "Qualified wholesaler's registration number". No retailer may sell hosiery marked with a "W" unless he has purchased such hosiery from a "qualified wholesaler" and unless the qualified wholesaler's OPA registration number appears on the invoice delivered to the retailer for such hosiery in accordance with section 5 (c) (2) below.

(ii) If the hosiery meets the definition of "branded" as stated in this regulation and is permitted to be sold at branded ceiling prices, the letter "T" must precede the maximum price.

4. Section 5 (b) (2) is amended to read as follows:

(2) *Temporary marking provisions for hosiery finer than 30 denier.* For hosiery finer than 30 denier, the marking required under paragraph (a) above may be made by tag, insert or other device contained in or attached to the hosiery. *Provided*, That the hosiery so marked is delivered prior to July 1, 1946 by the person who first sells the hosiery in the finished state.

5. Appendix B is amended to read as follows:

Notes to Tables

1 How to use tables. "Chain stores" and "Mail order houses" will find the maximum prices at which they may sell nylon hosiery in column (e) above, except that they may sell "branded" hosiery at branded prices in a sale at retail. Other retailers who buy unbranded hosiery direct from manufacturers will find the maximum prices at which they may sell nylon hosiery in column (f) and they will find in column (g) the maximum prices at which they may sell branded hosiery purchased from a manufacturer or hosiery (branded or unbranded) which they bought from a "qualified wholesaler" in a sale at wholesale. Hosiery sold "house to house" may be sold at the prices shown in column (g). Only first quality hosiery may be sold at branded ceiling prices. Drop shipments under sales at wholesale are sales which qualify as sales at wholesale and in addition involve delivery to the retailer either from a place of business other than that of the seller-at-wholesale, or shipment by such seller to the retailer in substantially the same shipping case, shipping container, or outer covering in which the seller received the hosiery.

Manufacturers who are net retailers have but two possible types of sales. When they sell "branded hosiery" (as that term is defined in section 3 of the regulation) they will find their ceilings in column (e). Their unbranded hosiery ceilings are found in column (b). Hosiery classed as irregulars, seconds, or thirds may not be sold at "branded" ceilings. Manufacturers should likewise note that no hosiery which they sell to wholesale establishments may be sold at prices higher than those shown in column (b). Manufacturers who are also retailers will find an explanation of their retail prices in section 2 (c).

Description of constructions referred to in Table 1. (a) Extra length stockings are those with a minimum length of 33½" finished. (b) Lace and mesh stockings are those with a distinctive lace or mesh pattern throughout the leg portion, knit with full lace or modified lace tackle on a full-fashioned knitting machine. No lace or mesh premium may be applied to gauges higher than 51 if such premium results in a price greater than the corresponding lace or mesh price for 51 gauge. (c) Outsize hosiery 14" and 14½" outsize hosiery is hosiery which: (i) Is knit on 14" and 14½" needle bar using the full needle bar (with tolerance of 4 needles); (ii) Is knit with no fashionings or narrowings in the flare; (iii) Is boarded on outsize forms in accordance with accepted trade practice. 15" and 16" outsize hosiery is hosiery which is knit on a full 15" or 16" needle bar (with a tolerance of 4 needles) and is boarded on outsize forms in accordance with accepted trade practice. No outsize premium may be applied to gauges higher than 51 if such premium results in a price greater than the corresponding price of 51 gauge. (d) Non-run stockings are those which are knit throughout the leg portion by one of the generally accepted methods of knitting non-run fabric. No non-run premium may be applied to gauges higher than 51 if such premium results in a price greater than the corresponding non-run price for 51 gauge. (e) All nylon. If hosiery is made entirely of continuous filament nylon thread, or if the entire stocking is made with continuous filament nylon thread and any part of

the foot is reinforced with another fibre; the hosiery is considered all-nylon. In the case of outsize hosiery, if the stocking is made with a cotton welt and is otherwise all-nylon except for foot reinforcement it is considered all-nylon.

(f) *Nylon leg.* If the leg is knitted entirely of continuous filament nylon thread, but some other portion of the stocking is made of another fibre (except for foot reinforcement described in (e) and cotton welt in outsize hosiery), the stocking is considered "nylon leg."

(g) *Jacquard stockings* are those made with a distinctive ornamental pattern or design on a full-fashioned knitting machine using a full Jacquard premium tackle. No Jacquard premium may be applied to gauges finer than 51 if such premium results in a price greater than the corresponding price for 51 gauge Jacquard stocking.

(h) *When additions for special constructions are allowed.* Permissible additions for special constructions are applicable to "all-nylon" and to "nylon-leg" stockings if the welts are made entirely of cotton or combinations of cotton and nylon and the feet are nylon.

	20 percent or more fiber	15 percent or more but less than 20 percent
Minneapolis, Minn.....	\$17.50	\$28.50
Seattle, Wash.....	29.50	40.50

(b) In Area A. The maximum f. o. b. plant price and the maximum carload delivered price at any point in Area A not listed in paragraph (a) above shall be the basing point price at Minneapolis, Minn., plus the lowest proportional grain products railroad rate from Minneapolis, Minn., to the point where the plant is located or at which delivery is made, as the case may be.

(c) In Area B. The maximum f. o. b. plant price and the maximum carload delivered price at any point in Area B not listed in paragraph (a) above shall be the basing point price at Seattle, Wash., plus the lowest proportional grain products railroad rate from Seattle, Wash., to the point where the plant is located or at which delivery is made, as the case may be.

(d) The above maximum f. o. b. prices at processing plants may be increased by \$1.00 per ton for less than carload lots.

In explanation of the above: The term "f. o. b. plant price" as used above in paragraphs (b) and (c) shall apply only to deliveries made within the switching limits of the railroad point at which the plant is located; for deliveries of carload lots or pool car lots to all other destinations in Areas A, or B, the maximum delivered price shall be used.

Sec. 7. Maximum prices for sales by processors: Section 3.1 of Food Products Regulation No. 3, which provides a pricing method for processors, is applicable to this supplement.

(a) *Base prices.* The base price referred to in section 3.1 is the appropriate base price found in section 6 of this supplement.

If you are the importer as well as the processor of the lot, your base price is the applicable base price for a plant located at the port of entry.

(b) *Maximum markup.* As a processor you are not permitted to add a maximum markup in figuring the maximum price for the sale of any lot unless you have unloaded such lot into a warehouse or store operated by you at a separate place of business not located at the production plant, and you sell from such warehouse or store. If, as to any lot, you comply with this requirement, you may add the appropriate one of the following markups per ton:

If you sell to a feeder from a store..... \$4.50
In all other cases..... 1.50

(c) *Transportation cost.* Sections 3.1 refers to "transportation cost". It is defined in section 1.20 of Food Products Regulation No. 3.

Sec. 8. Maximum prices for sales by trucker-merchants. Section 3.2 of Food Products Regulation No. 3, which provides a pricing method for trucker-merchants, is applicable to this supplement.

(a) *Your supplier's maximum price.* Section 3.2 refers to "your supplier's maximum price on the sale to you". It is defined in Section 1.14 of Food Products Regulation No. 3.

(b) *Hauling allowance.* Section 3.2 of Food Products Regulation No. 3 also refers to "hauling allowance". That term is defined in section 1.21 of Food Products Regulation No. 3.

Sec. 9. Maximum prices for sales by jobbers and car door sellers. Section 3.3 of Food Products Regulation No. 3, which provides a pricing method for jobbers and car door sellers, is applicable to this supplement.

(a) *Your supplier's maximum price.* Section 3.3 refers to "your supplier's maximum price on the sale to you". It is defined in section 1.14 of Food Products Regulation No. 3.

(b) *Maximum markup—(1) Jobbers.* If you are a jobber and no other jobber has already handled the same lot and taken his markup thereon, you may add \$1.00 per ton for car lot or pool car shipments.

(2) *Car door sellers.* If you are a car door seller, you may add a maximum markup of \$3.50 per ton.

Sec. 10. Maximum prices for sales by wholesalers and retailers. Section 3.4 of Food Products Regulation No. 3, which provides a pricing method for wholesalers and retailers, and section 3.5 of Food Products Regulation No. 3, which provides base prices for wholesalers and retailers, are applicable to this supplement.

(a) *Base prices.* Base prices referred to in section 3.4 are the base prices set

out in section 3.5 of Food Products Regulation No. 3.

(b) *Maximum markups.* This regulation aims to prevent the inclusion in any maximum price of more than one markup for any class of seller. As a retailer you can always add a retailer's maximum markup since a seller can qualify as a retailer only when he is selling a particular lot to a person who will use the lot and will not resell it. It is therefore impossible for two retailers to handle the same lot. As a wholesaler, however, you are permitted to add the maximum markup set out below in figuring the maximum price for the sale of any lot, only if and to the extent that any other wholesaler who has already handled the lot has not taken the markup. On this condition, the following maximum markups may be added:

Wholesalers.....	\$2.50
Retailers.....	5.50

SEC. 11. *Charges for sacks and sacking.* Section 3.6 of Food Products Regulation No. 3, dealing with increases for sacks, and section 3.7, dealing with charges for sacking, are applicable to this supplement.

This supplement shall become effective on June 14, 1946.

NOTE: The record-keeping provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 14th day of June 1946.

PART 1340—FUEL

[MPR 120, Corr. to Amdt. 138]

BITUMINOUS COAL DELIVERED FROM MINE OR PREPARATION PLANT

At the time of the issuance of Amendment No. 138 to Maximum Price Regulation No. 120, it appeared that Mine Index No. 209 of Eastern Coal Company, Bokoshe, Oklahoma, operated in the upper and lower Hartshorne Seams in District No. 14; consequently, its coals were classified under Production Group No. 7AA. Under the regulation, Production Group No. 7AA includes only those mines operating either in both the upper and lower Hartshorne Seams, or in the upper Hartshorne Seam only.

It now appears that the said mine operates only in the lower Hartshorne Seam, and that the producer thereof had submitted information to that effect, which was apparently misdirected or misplaced and failed, therefore, to be taken into consideration at the time of the issuance of the amendment. If such consideration had been given to this matter, Mine Index No. 209 would have appeared in a different production group. Therefore, the production group number appearing in § 1340.225 (b) (5) (i) for Mine Index No. 209 should be changed

from 7AA to 7A, the appropriate production group number for mines operating in the lower Hartshorne Seam.

After due consideration of the foregoing, it is ordered:

Amendment No. 138 to Maximum Price Regulation No. 120 is hereby corrected in the following respects:

In § 1340.225 (b) (5) (i), the mine index number "209" appearing under Production Group No. 7AA is deleted from that production group, and is inserted in Production Group No. 7A, immediately above.

This correction shall become effective as of May 4, 1945.

Issued this 17th day of June 1946.

Administrator.

PART 36—REGULATIONS UNDER SERVICE-MEN'S READJUSTMENT ACT OF 1944, AS AMENDED

ARMY SPECIALIZED TRAINING PROGRAM; NAVY COLLEGE TRAINING PROGRAM; CONSIDERATIONS FOR DETERMINING EFFECT OF STATUTORY PROVISIONS

Army Specialized Training Program; Navy College Training Program; considerations for determining effect of statutory provisions, “* * * exclusive of any period he was assigned for a course of education or training under the Army Specialized Training Program or the Navy College Training Program, which course was a continuation of his

civilian course and was pursued to completion, * * *. Title II.

In considering the application of the statute regarding the exclusion of periods of assignment for courses of education or training under the Army Specialized Training Program or the Navy College Training Program, determinations will be made in the individual cases in accordance with the following principles: (Subparagraphs (1), (2), (3) and (4) of paragraph (c), § 36.216, are hereby revoked and superseded as follows:)

§ 36.216 *Deduction in computing active service.* * * *

(c) * * *

(1) "Continuation of his civilian course * * *". (i) Any course in the ASTP or the NCTP (V-12) which was a continuation of the civilian course of education of a trainee prior to his entrance into the active service will meet the statutory definition "continuation of his civilian course". If the course in the ASTP or NCTP (V-12) was not in fact a continuation of the civilian course of the trainee but presented deviations therefrom by reason of the requirements of the Service Department, the rule is not for application and exclusion of the period represented by such course is not in order. However, a deviation from the civilian course shall not be considered to have occurred unless the ultimate educational objective was changed; that is, deviation merely by reason of acceleration of a course, or by inclusion of certain elective subjects, or other minor curricular changes for whatever purpose, will not remove the course from the definition "continuation of his civilian course" so long as the general educational objective is not altered or changed.

(ii) *Continuation by virtue of voluntary application.* The definition "continuation of his civilian course" shall have been met when education or training under the ASTP or NCTP (V-12) was applied for upon volition by the service person. In the absence of a showing to the contrary, there is a prima-facie presumption that education or training under the ASTP and the NCTP (V-12) was upon application of the service person and the burden of proof for overcoming this presumption will be upon the applicant, if he contends that such education or training was not voluntarily applied for. However, even where such presumption is overcome by the applicant, his case will still be subject to consideration under subdivision (1) of this subparagraph, as to whether the course was a continuation of his civilian course. (Attention is invited to the general directive issued personally by General Marshall in the spring of 1943, necessitating army-wide screening of personnel in continental United States for transfer to the ASTP as an assigned military duty. This may be considered for evidential development when indicated in the individual case.)

(2) "And was pursued to completion"—(i) *Pursued to completion*—(a) *Completion of curriculum to which assigned.* A course in either of the service programs was pursued to completion

upon substantial fulfillment of the immediate educational objective, that is, the completion of the terminal (or last) term of the curriculum of the civilian course. For example, a pre-medical course will have been pursued to completion upon completion of the final (5th) semester or term of the course approved during the war for admittance to a course in medicine. A course in medicine will have been completed upon the completion of the academic work required for an MD degree. A course in engineering will have been completed upon the completion of the final term of academic work ordinarily required for the granting of the first baccalaureate degree.

(b) *Election of option to continue course as civilian.* Where any course in the ASTP or NCTP (V-12) was terminated on election of the service person to be separated from the active service as a result of an offered option, to continue his course of education as a civilian, the case is within the definition "and was pursued to completion" (Administrator's Decision 595).

(ii) *Not pursued to completion.* A course in the ASTP or NCTP (V-12) will not be held to have been "pursued to completion" for the purposes of this act when in any case the course was terminated under the following conditions:

(a) *Curtailment of ASTP, March and April, 1944.* Separated from the ASTP as the result of the curtailment of the program during the period March and April, 1944, prior to completion of curriculum assigned.

(b) *Termination of training for reasons other than specified in (a) and (b) under (2) (i) hereof.* All cases of termination of education or training under ATSP or NCTP (V-12) prior to completion of the scheduled curriculum established by the ASTP or the NCTP under any conditions other than those specified in subdivision (i) (a) and (b) of this subparagraph (even where such training was within the definition "continuation of his civilian course" as defined in subparagraph (1) of this paragraph). For example:

(i) This paragraph would apply to a considerable number of ASTP trainees separated from the Program in March and April, 1944, for assignment to regular enlisted service and would also apply to another large group separated from the program at the end of 1945, when the ASTP engineering curriculum was terminated, and trainees were assigned to military duties prior to completion of the scheduled curriculum, to another group separated from the service on termination of the Navy V-12 Program in June, 1946, and to other groups of veterans who, upon exercise of an offered option, elected assignment to regular active duty rather than release from the active service, upon discontinuance of courses in medicine, dentistry, etc.

(ii) Also, cases of termination of education or training in either Program by reason of scholastic failure, lack of officer qualifications, physical disqualification, or "special graduates."

(iii) Cases of certain advanced course ROTC students who were assigned to the

ASTP about August 1943, pending vacancies in Officer Candidate Schools.

(iv) NROTC students who were commissioned prior to the completion of the regular established schedules in March 1944.

(3) *Acquisition of service data.* (i) Determinative actions will not be taken upon incomplete service data. In all cases where additional service data are required they should be secured from the Service Department through a request prepared on the appropriate form of the 3101 series before a final determination is made. These requests will in every case be made in following exact form:

(a) Date of assignment to and release from college training program—including date of interim duty.

(b) Course pursued?

(c) Highest term completed?

(4) *Issuance of temporary certificate.* If the record establishes a period of active service of 90 days or more, exclusive of the time spent in the questioned course, a temporary certificate for one year should be issued. Upon the receipt of the complete evidence a finding of fact will be made as to whether the course was a continuation of the veteran's civilian course and was pursued to completion, after which a supplemental certification of the period of entitlement will be furnished the veteran.

(5) *General Observations (Army)*—

(1) *Medicine, dentistry and veterinary medicine.* ASTP Training in medicine, dentistry and veterinary medicine is given in accredited professional schools in accordance with the regular curricula of those schools, and consists of the number of terms or semesters required to complete such regular curricula. Whether or not the veteran is selected for assignment to a medical, dental or veterinary school, the successful completion of the terminal (or last) term of the course in pre-medicine, pre-dentistry or pre-veterinary medicine, shall constitute the completion of the course within the meaning of the law.

(ii) *ROTC.* Where a degree was granted by an institution, time expended by an ROTC trainee in the ASTP prior to the granting of such degree shall be excluded in the computation of time in the determination of entitlement to educational or training benefits.

(iii) *ASTP curricula of a special military nature* which are not to be considered as the continuation of a civilian course within the meaning of the law are as follows:

(a) *Foreign Area and Language,* offered under the Advanced Phase of ASTP.

(b) *United States Military Academy Preparatory Training Program;* program of preparatory training for officers, warrant officers and enlisted men on active duty holding War Department letters of appointment as candidates for admission to the United States Military Academy.

(c) *Army Specialized Training Reserve Program;* program of training for qualified 17 year old members of the Enlisted Reserve Corps. This is inactive status, and not within the service provisions of the law.

(6) *General observations (Navy)*—(i) *Theological candidates.* Upon the suc-

successful completion of the eight terms the candidate was assigned to a theological seminary of his denomination and remained there the number of terms necessary to obtain a B. D. degree in the shortest possible time.

(ii) *Medical and dental candidates.* Upon the successful completion of the five terms, the candidate may have been selected for medical or dental training, in which case he was assigned to an appropriate medical or dental school, where he remained the number of terms necessary to complete that school's requirements for a degree in the shortest possible time. Whether or not selected for assignment to a medical or dental school, the successful completion of the five terms of pre-medical or pre-dental training shall constitute the completion of the course within the meaning of the law.

(iii) *Basic courses.* All basic courses were the same with the exception of the first two terms basic for pre-medicine and pre-dentistry.

(iv) *Navy training courses not considered within the Navy College Training Program within the meaning of the law.*

(a) Pre-midshipman training.

(b) Reserve midshipman schools.

(c) Hospital corpsmen duty. Assignment to U. S. Naval Hospitals, laboratories, or similar institutions, for the performance of hospital apprentice or corpsmen duties, following the completion of pre-medical or pre-dental curricula and pending further assignment to an approved medical or dental school, does not come within the meaning of a "continuation of his civilian course", and therefore time so expended while assigned to such interim duty may be included for the purpose of computation of active service.

(d) In-service training. In-service training schools such as Yeoman Schools, Diesel Engine Schools, Machinist Mate Schools, etc., which were conducted on college and university campuses for the purpose of the utilization of instructional staffs and physical equipment of the institutions, were not part of the Navy College Training Program within the meaning of the law.

(7) *Review.* (i) Regional Offices will immediately institute a review of the files of all cases for the application of the principles set out herein. First in the order of review will be the cases wherein Certificates of Eligibility and Entitlement have been returned showing commencement of education and training, and they will be reviewed with all possible dispatch. When necessary by reason of the application of these principles, a new Certificate of Eligibility and Entitlement will be issued to show the extent of education or training to which the veteran is entitled and the veteran will be notified of the necessity to present the Certificate of Eligibility and Entitlement for proper endorsement by the institution and return to the Veterans' Administration. The necessary actions will be taken to establish proper entries in the records in accordance with established procedure.

(ii) Following the completion of the review of cases above referred to, and without any interference with the expe-

dition of current necessary actions, each case wherein a Certificate of Eligibility and Entitlement has been issued will be reviewed in the order in which such cases were processed and action will be taken in accordance with the foregoing to issue a new Certificate of Eligibility and Entitlement in each case when in order, recalling the certificate previously issued. BUTTREY BROADCAST, INC. (KFBB)¹

PUBLIC NOTICE CONCERNING PROPOSED TRANSFER OF CONTROL

The Commission hereby gives notice that on March 6, 1946, there was filed with it an application (B5-TC-481) for its consent under section 310 (b) of the Communications Act (47 USCA 310) to the proposed transfer of control of Buttrey Broadcast, Inc. (licensee of standard broadcast station KFBB, Great Falls, Montana) from F. A. Buttrey and seven other stockholders to Fred Birch, 314 Ford Building, Great Falls, Montana. The proposed transfer of control of the above licensee is based upon contracts, as follows: A contract entered into October 5, 1945, between F. A. Buttrey as seller and Fred Birch as purchaser, pursuant to which said seller agreed to sell all his 1469 shares of stock in the licensee of KFBB for \$107 a share, or for \$157,183. Separate contracts were entered into in October 1945 between the remaining seven stockholders and Birch under which they also agreed to sell their respective holdings (1331 shares in the aggregate) for \$107 a share, or for a total of \$142,417. There are in all 2800 shares outstanding all of which are proposed to be sold. The contracts provide that they shall terminate October 5, 1946, if the Commission fails to approve the sale by that time, in which event the down-payments will be returned. Further details as to the arrangements between the par-

ties and pertaining to the application may be determined from an examination of the application and associated papers on file at the offices of the Commission.

In the Commission's decision of September 6, 1945, granting the application for transfer of control of the Crosley Corporation (Docket No. 6767), it was announced that public hearings would be held to consider proposed new rules and regulations for the handling of assignment and transfer applications including provision for public notice by the applicant and the Commission of the filing of such applications and pertinent details in cases where a controlling interest is involved. Thereafter, on October 3, 1945, the Commission also gave public notice (10 F.R. 12926) that pending the issuance of such proposed new rules, hearing thereon, and final adoption, consideration of such applications would be deferred unless applicants desired to follow the procedure proposed in the Crosley decision, and supplement their applications so as to come within the framework of the announced procedure including the provision for public notice. Subsequently, on December 13, 1945, the Commission adopted tentatively a proposed rule of procedure to govern the handling of assignment and transfer applications including the character of notice required of applicants in such cases. Pursuant thereto the Commission was advised on May 29, 1946 that beginning on said date notice would be inserted in a newspaper of general circulation published at Great Falls, Montana, concerning the proposed transfer of the controlling interest in the licensee.

In accordance with the procedure proposed in the Crosley decision and that announced in the Commission's release and the proposed rule, no action will be had on the application for a period of 60 days from May 29, 1946.

At a session of the Federal Communications Commission held in its offices at Washington, D. C., on the 6th day of June 1946;

Whereas, on August 24, 1945, the Commission adopted a report announcing its decision with respect to certain suggested rules and regulations relating to FM broadcasting, and in connection with the issue of reservation of channels, stated therein as follows: "The Commission does not propose to reserve any FM channels from assignment at the present time"; and

Whereas, on December 19, 1945, the Commission issued an allocation plan indicating the tentative number of metropolitan FM channels which might be available for assignment in the various areas throughout the United States; and

Whereas, based upon its experience since such dates, the Commission is of the opinion that the purpose of section 307 (b) of the Communications Act of 1934, as amended, may be better effectuated and the public interest may be better served by a reservation of metropolitan FM channels under certain conditions;

Now, therefore, *It is ordered*, That oral argument be held before the Commission en banc on the 12th day of July 1946, upon the following issue:

1. To determine whether the public interest would be served by the reservation for the period of one year of every fifth channel tentatively indicated as available for the various areas in the Commission's news release of December 19, 1945.

It is further ordered, That any person or party desiring to participate in said oral argument file notice of intention to do so on or before the 9th day of July 1946.

ANNOUNCEMENT OF MECHANICAL RECORDS ORDER PROVIDING OPPORTUNITY FOR ORAL ARGUMENT

In the matter of amendment to § 3.407 of the Commission's rules and regulations governing the announcement of mechanical records; Docket No. 7611.

At a meeting of the Federal Communications Commission held in its offices in Washington, D. C., on the 29th day of May 1946;

Whereas the Commission is of the opinion that public interest, convenience and necessity may be served by amending § 3.407 of the rules and regulations to read as follows:

§ 3.407 *Mechanical records.* (a) No recorded program consisting of a speech, news events, news commentator, forum, panel discussion, special event, or any other recorded program in which the element of time is of special significance and a presentation of which would create, whether intentionally or otherwise, the impression or belief on the part of the radio audience that the event or program being broadcast is in fact occurring simultaneously with the broadcast, shall be broadcast without an appropriate announcement being made at the beginning and conclusion of the broadcast that it is a recorded program: *Provided, however,* Any recorded program of one minute duration or less need only be announced at the beginning. The identifying announcement shall accurately describe the type of mechanical record used.

(b) Any other program consisting of a mechanical record or series of mechanical records need not be announced as provided in subsection (a), but the licensee shall not attempt affirmatively to create the impression that the program being so broadcast consists of live talent.

And, whereas the Commission is of the opinion that it will best conduce to the proper dispatch of business and to the ends of justice that all interested persons be given an opportunity to file statements or briefs and to appear before the Commission and argue orally why the

above proposal should not be adopted, or why it should not be adopted in the form proposed by this order;

Now, therefore, *It is hereby ordered*, That, upon the written request of any interested person, oral argument be held before the Commission en banc on a date to be specified in the future, as to why the proposed rule should not be adopted or why it should not be adopted in the form proposed by this order. [Public Notice 93896]

RESERVATION OF FM CHANNELS¹
NOTICE OF HEARING

JUNE 6, 1946.

The Commission today adopted an order² proposing to withhold for the period of one year the assignment of every fifth channel tentatively indicated as available for allocation to a given area, in the Commission's news release of December 19, 1945. Oral argument will be held on this proposed policy on the 12th day of July, 1946, and persons desiring to participate therein are required to file their appearances on or before the 9th day of July 1946.

Under the proposed policy, no reservation of channels would be made if a maximum of four channels was indicated for a particular area in the December 19, 1945, release. However, if at least five but no more than nine channels were indicated for an area, one channel would be withheld for the period of one year from the date of the adoption of this policy. Two channels would be withheld if 10-14 channels were listed; three, if 15-19 channels were listed; and four, if 20 were listed.

The object of this policy is to permit an equitable distribution of FM frequencies, pursuant to section 307 (b) of the Communications Act. If a policy of reserving every fifth channel were adopted, each area could have a maximum of four stations assigned to it at this time if four channels were indicated for it in the release of December 19, 1945; however, provision is made for the future consideration of an applicant for an FM station in an outlying city which has not applied at this time, if at least five channels are indicated for the area. The policy thus permits the establishment of FM service in every area and yet prevents an unequal distribution of FM channels among the various communities.

U. S. SLICING MACHINE CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* U. S. Slicing Machine Company of La Porte, Indiana may compute its adjusted ceiling prices for all meat and bread slicing machines which it manufactures as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 10.0 percent.

(2) For an article not in its line during October 1941, but which has a prop-

erly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 186; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

The adjustment charge determined in accordance with this order must be separately stated by the manufacturer on each invoice to a purchaser for resale.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he has paid to his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less the adjustment charge stated on that invoice, the same percentage mark-up which he has on the "most comparable article" for which he has properly established ceiling prices. For this purpose the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for

by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

The provisions of Supplementary Order No. 153 shall not apply to resale prices or articles covered by this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Modification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 15th day of June 1946.

Issued this 14th day of June 1946.

(a) *Manufacturer's ceiling prices.* Heywood-Wakefield Company, Gardner, Massachusetts, may compute its adjusted ceiling prices for all tubular steel and wood school furniture which it manufactures as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 18.57 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in

accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

In all other respects, the provisions of Order No. 11 under § 1499.159e of Maximum Price Regulation No. 188, including invoicing and reporting provisions and determination of resellers' prices, apply to maximum prices of tubular steel school furniture adjusted in accordance with this order, and which falls within the definition of "metal commercial furniture" as set forth in that order.

The adjustment charge determined in accordance with this order must be separately stated by the manufacturer on each invoice to a purchaser for resale of articles of school furniture not covered by Order No. 11 under § 1499.159e of Maximum Price Regulation No. 188.

(b) *Resellers' ceiling prices.* Resellers of an article not covered by Order No. 11 which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjusted charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he had paid to his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less the adjustment charge stated on that invoice, the same percentage mark-up which he has on the "most comparable article" for which he has properly established ceiling prices. For this purpose the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

The provisions of Supplementary Order No. 153 shall not apply to resale prices or articles covered by this order.

(c) *Terms of sale.* Maximum prices of articles adjusted by this order and which are not covered by Order No. 11 are subject to each seller's terms, allowances and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of or prior to the first invoice to a purchaser for resale of articles not covered by Order No. 11, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(a) *Manufacturer's maximum prices.* Indian Splint, Inc., 56 Rutter Street, Rochester 6, New York, may increase its maximum prices properly established under Maximum Price Regulation No. 188 (exclusive of any adjustment charges) for articles of wood and upholstered furniture, which it manufactures by 9.5 percent of each such maximum price.

(b) *Resellers' ceiling prices.* Resellers of articles which the manufacturer

has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A retailer who must determine his ceiling price under Maximum Price Regulation No. 580 and a wholesaler who must determine his ceiling prices under Maximum Price Regulation No. 590, shall compute their ceiling prices in the manner provided by those regulations. However, if the supplier's invoice states both an "unadjusted maximum price" and a selling price, the reseller shall compute his ceiling prices under those regulations as they have been modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

(2) A reseller who determines his maximum resale price under the General Maximum Price Regulation, and whose supplier's invoice states both an "unadjusted maximum price" and a selling price, shall compute his ceiling price under that regulation as modified by Order No. 4800 under § 1499.159b of Maximum Price Regulation No. 188.

If his supplier's invoice does not state an "unadjusted maximum price", the reseller shall calculate his ceiling prices by adding to his invoice cost the same percentage mark-up which he had on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(3) The provisions of Supplementary Order No. 153 shall not apply to the determination of ceiling prices for resales of articles covered by this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or, thereafter, properly established under Office of Price Administration regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) The manufacturer shall file the report described in section 5 of Supplementary Order No. 133 with the Office of Price Administration, Washington 25, D. C., and shall comply with the invoicing and reporting provisions of Order No. 4800 under Maximum Price Regulation No. 188.

(f) This order may be revoked or amended by the Price Administrator at any time.

[RPS 40, Order 38]

BRONZE AND COPPER INSECT SCREEN CLOTH
ADJUSTABLE PRICING ORDER FOR CERTAIN
SALES BY MANUFACTURERS

The Office of Price Administration has in progress an industry-wide survey of the prevailing cost-maximum price relationships for manufacturers' sales of bronze and copper insect screen cloth subject to Revised Price Schedule No. 40. At least 90 percent of the affected manufacturers also manufacture ferrous insect screen cloth. For their sales of the ferrous insect screen cloth, they have been authorized by the Office of Price Administration to operate under adjustable pricing. The industry requested that a similar authorization be extended to their sales of bronze and copper insect screen cloth as well.

The granting of such authorization is approached with caution by the Office of Price Administration where the bulk of commodities involved reach the ultimate consumer through varied and often complex channels of distribution, as is the case with most commodities subject

to the control of the Mechanical Building Equipment Price Branch. However, such authorization, in the opinion of the Administrator, may be more safely granted in the case of industrial sales, i. e. on sales to purchasers who incorporate the affected commodity in commodities of their own manufacture.

In the opinion of the Price Administrator, pending final action on the industry-wide price increase proposal, this authorization is necessary at least to the extent stated above, in order to promote production of screen cloth, and under the circumstances so limited, will not interfere with the provisions of the Emergency Price Control Act of 1942, as amended.

After due consideration of the foregoing and pursuant to section 1346.2a of Revised Price Schedule No. 40—Builders' Hardware and Insect Screen Cloth, it is ordered:

(a) Manufacturers of bronze and copper insect screen cloth, on their sales of such cloth to manufacturers who incorporate it in other commodities, are authorized to sell, and such purchasers are authorized to buy, bronze and copper insect screen cloth at prices which may be adjusted upward after delivery in accordance with the action taken by the Office of Price Administration upon a pending review of the maximum prices currently in effect for the sales of bronze and copper insect screen cloth. This authorization shall not extend to sales to purchasers who buy the subject screen cloth for resale.

(b) Manufacturers who make sales in accordance with (2) above may collect and purchasers may pay no higher than the maximum prices currently in effect for bronze and copper screen cloth pending action by the Office of Price Administration. Any balance due may be collected upon establishment by the Office of Price Administration of the new maximum prices.

(c) This order shall be automatically revoked upon the establishment by the Office of Price Administration of new maximum prices for bronze and copper insect screen cloth subject to Revised Price Schedule 40.

(d) This order may be amended or revoked by the Price Administrator at any time.

This order shall become effective June 14, 1946.

Issued this 14th day of June, 1946.

UNIFORM RETAIL CEILING PRICES

after referred to as Revised Order No. 1, *It is ordered:*

(a) This order supersedes in part, the provisions of orders previously issued under section 5 (d) of Revised Order No. 1 fixing uniform retail ceiling prices for sales of certain household aluminum cooking utensils. It provides a new method by which manufacturers of articles for which uniform retail ceiling prices have previously been authorized shall use in determining new uniform retail ceiling prices of these articles. It applies only to those articles which the manufacturer sells on or after the effective date of Amendment No. 1 to Revised Order No. 1.

(b) The uniform retail ceiling price in each zone for an article covered by this order shall be the uniform retail ceiling price heretofore established for that article plus, 1½% thereof in the case of prices fixed for door to door sales of sheetware, or plus, 2.5% thereof in the case of prices for other types of sales of articles of sheetware.

(c) Wholesalers' ceiling prices shall be determined by the manufacturer in accordance with the provisions of Revised Order No. 1, based on the new retail ceiling prices computed in accordance with the provisions of this order.

(d) All terms used herein shall have the same meanings as in Revised Order No. 1, the General Maximum Price Regulation or Maximum Price Regulation No. 188, whichever may be applicable.

This order shall become effective on the 17th day of June 1946.

**HOUSEHOLD ALUMINUM COOKING UTENSILS
ADJUSTMENT OF CEILING PRICES**

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159e of Maximum Price Regulation No. 188, *It is ordered,* That Revised Order No. 1 under § 1499.159e of Maximum Price Regulation No. 188 be amended in the following respects:

1. Section 3 is amended to read as follows:

SEC. 3. Manufacturers' ceiling prices—

(a) *Sales to retailers and wholesalers.* A manufacturer's ceiling price for the sale of a household aluminum cooking utensil to each class of purchaser for resale is the highest price of the following:

(1) His f. o. b. factory price to the particular class of purchaser, in effect on January 1, 1941, plus 14% of each such price in the case of sheetware, or plus 9% of each such price in the case of castware.

(2) His f. o. b. factory ceiling price to the particular class of purchaser established for particular articles in accordance with the provisions of the first,

second, third, or fourth pricing methods of Maximum Price Regulation No. 188, or by an order of the Office of Price Administration issued under § 1499.159c of that regulation, plus 14% of each such price in the case of sheetware, or plus 9% of each such price in the case of castware. In the case of articles priced under the first, second or third pricing methods of Maximum Price Regulation No. 188, the ceiling price may be calculated in this way only if the ceiling prices of the comparable articles were no higher than prices in effect on January 1, 1941, for sales to the same classes of purchasers.

(3) His f. o. b. factory ceiling price to the particular class of purchaser established for particular articles in accordance with the provisions of the first, second and third pricing methods of Maximum Price Regulation No. 188.

(4) His price to the particular class of purchaser as established by Order 3827 under Maximum Price Regulation No. 188.

Regardless of any higher price determined in this way, a manufacturer's ceiling price for sales to a retailer, other than a chain store or mail order house, shall be at least 30% less than the retailer's ceiling price fixed by this order.

(b) *Sales to ultimate consumers.* A manufacturer's ceiling price for the sale of a household aluminum cooking utensil to an ultimate consumer is the highest price of the following:

(1) His ceiling price for sales to an ultimate consumer in effect on January 1, 1941, plus 1½% of such price only in the case of sheetware.

(2) His ceiling price for sales to an ultimate consumer established for particular articles in accordance with the provisions of the first, second, third, or fourth pricing methods of Maximum Price Regulation No. 188 or by an order of the Office of Price Administration issued under § 1499.159c of that regulation, plus 1½% of each such price only in the case of sheetware.

(3) His price to the particular class of purchaser as established by Order 3827 under Maximum Price Regulation No. 188.

(c) *Terms.* A manufacturer's ceiling price fixed by this section is subject to his customary terms, conditions and allowances to each class of purchaser in effect on January 1, 1941, or thereafter properly established under Office of Price Administration regulations.

2. To the end of the first undesignated paragraph in section 5 is added the following sentence: "The retail ceiling price properly calculated at the time that the manufacturer delivers a household aluminum cooking utensil to a purchaser for resale shall be the retail ceiling price for a sale of that article to a consumer regardless of subsequent changes in the provisions of this section."

3. Paragraph (a) of section 5 is amended to read as follows:

(a) *Retail ceiling prices for retailers other than "Class I" sellers.* The retail ceiling price for a household aluminum cooking utensil sold by a retailer other than a Class I seller (as defined below),

shall be determined by adding to the "manufacturer's price" an amount equal to 100% of such price in the case of both sheetware and castware.

For the purposes of this section, the "manufacturer's price" is the highest of the following f. o. b. factory prices for sales of the article to the class of wholesaler or chainstore to whom he sells articles covered by this order in the largest dollar volume.

(1) The price in effect on January 1, 1941, plus only in the case of sheetware 2½% of such price.

(2) The price established in accordance with the first, second, third, or fourth pricing methods of Maximum Price Regulation No. 188 (§§ 1499.155 through 1499.158) or by an order of the Office of Price Administration under § 1499.159c of that regulation, plus only in the case of sheetware 2½% of such price.

(3) The price established by Order No. 3827 under Maximum Price Regulation No. 188.

(4) The price established by an individual adjustment order under Supplementary Order Nos. 118, 133 or 148 or Revised Supplementary Order No. 119 or any other supplementary order which may provide for the individual adjustment of a manufacturer's ceiling prices less 11.5 percent of the highest of the following:

(i) The price in effect on January 1, 1941, or

(ii) The price established in accordance with the first, second, third or fourth pricing methods of Maximum Price Regulation No. 188 (§§ 1499.155 through 1499.158) or by an order of the Office of Price Administration under § 1499.159c of that regulation, without the inclusion in such price of any individual adjustment that might have been obtained by the manufacturer.

(iii) The price established by Order No. 3827 under Maximum Price Regulation No. 188.

4. To the end of the last sentence in the first unnumbered paragraph in paragraph (b) of section 5 is added the phrase, "plus only in the case of sheetware, 2½%."

5. Section 5 (d) (1) (iii) is amended to read as follows:

(iii) The price requested for the article is no higher than the level of retail ceiling prices for that article prevailing during March 1942, plus, only in the case of sheetware, 2½%.

6. Paragraph (a) of section 7 is amended to read as follows:

(a) *Terms, discounts and allowances.* Except as modified by the foregoing requirement that no ceiling price to a retailer may reduce the retailer's margin on the retail ceiling price below 30% of that price, every seller shall maintain all of his terms, discounts, allowances, and other price differentials in effect on January 1, 1941, in the case of a manufacturer, or during March 1942, in the case of a wholesaler or a retailer, or which have been thereafter properly established under OPA regulation.

A wholesaler or retailer who did not sell household aluminum cooking uten-

sils during March 1942, or whose discounts, allowances, terms and other conditions of sale have not been thereafter established under OPA regulations, shall allow the same delivery terms, conditions of sale, terms, discounts and other price differentials which his closest competitor who did sell household aluminum cooking utensils during March 1942 is required to allow under the provisions of this order. A wholesaler or retailer who cannot ascertain the delivery terms, discounts, allowances, etc. which his nearest competitor is required to allow shall apply to the nearest District Office of the Office of Price Administration for an order under this section establishing the conditions to which his ceiling prices are subject. Such application may be by letter and shall state the type of business he is operating (wholesale or retail), when he started to sell the household aluminum cooking utensils which he desires to sell and the classes of purchasers to whom he sells. An order will be issued under this section establishing terms, allowances and other conditions of sale in line with the conditions of sale generally fixed by this order.

If a wholesaler or dealers who did not sell household aluminum cooking utensils during March 1942 does not allow the same discounts, delivery terms and other price differentials allowed by his nearest competitor who did sell household aluminum cooking utensils during March 1942, or does not file an application in accordance with the provisions of this section, or if he fails to provide any of the information required by this section, the Price Administrator may, on his own motion, issue orders under this section fixing discounts, allowances and other price differentials in line with such conditions of sale fixed by this order. Conditions of sale so established will apply to all sales and deliveries made on and after June 17, 1946.

7. A new paragraph (e) is added to section 7 to follow paragraph (d) and to read as follows:

(e) *Compliance with this order*—(1) *No buying or selling at over ceiling prices.* Prices established by this order are ceiling prices. Prices lower than ceiling prices may be charged and collected at any time. However, regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of any household aluminum cooking utensil at a price higher than the ceiling price fixed by this order or before the manufacturer has properly determined his ceiling price under this order.

If, in violation of this provision, a sale, offer to sell, or delivery of any household aluminum cooking utensil is made before its ceiling price has been properly established in accordance with this order, the ceiling price applicable to the sale, offer to sell or delivery shall be the correct ceiling price for the household aluminum cooking utensil properly determined in accordance with this order.

(2) *Certain practices forbidden.* It shall be a violation of this order to charge

a price above the applicable ceiling price in connection with any sale of a household aluminum cooking utensil, either alone or in conjunction with any other consideration even though the price increase appears only indirectly.

The following is illustrative of the things a seller is not permitted to do. A seller is not permitted to require the purchasers, as a condition of the sale or transfer of a household aluminum cooking utensil, to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts or services so as to increase the total compensation above the article's ceiling price; to require him to purchase any other commodity, or service; or to require him to make payment in whole or in part by exchanging, transferring, or trading in any other household aluminum cooking utensil, product or commodity. Where there is an exchange, transfer, or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the household aluminum cooking utensil product or commodity exchanged, transferred or traded-in, which is less than its reasonable value.

8. A new paragraph (f) is added to section 7 to follow paragraph (e) and to read as follows:

(f) *Relationship of this order to Supplementary Orders 118, 148, Revised Supplementary Order 119 and other supplementary orders.* All resellers' ceiling prices for household aluminum cooking utensils approved or established by orders issued at any time under Supplementary Orders 118, 133, 148 or Revised Supplementary Order 119 shall not apply to any such articles which are delivered by the manufacturer on or after June 17, 1946. Resellers' ceiling prices for such articles shall be determined in accordance with the provisions of this order.

9. A new paragraph (g) is added to section 7 to follow paragraph (f) and to read as follows:

(g) *Orders of general applicability.* Orders issued under this paragraph may modify the provisions of this order or of any orders issued under any other paragraphs of this order.

10. A new section 8 is added to follow section 7 and to read as follows:

SEC. 8. *Delegation of authority.* Any Regional Administrator or District Administrator authorized by the appropriate Regional Administrator may issue orders under section 7 (a) of this order.

NOTE: The reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective on the 17th day of June 1946.

Issued this 17th day of June 1946.

Administrator.

[MPR 188, Order 5033]

LOW-END WOOD SCHOOL FURNITURE
ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

SECTION 1. Purpose of this order. The purpose of this order is to remove price impediments to the continued supply of certain specified types of low-end wood school furniture.

SEC. 2. Articles covered by this order. This section contains a list of articles of wood school furniture together with a dollar-and-cents "cut-off point" for each type of article. All such articles for which the manufacturers' properly established maximum prices are below the appropriate cut-off points, are called "low-end" articles in this order. The cut-off prices listed are for sales by the manufacturer to jobbers, distributors or equivalent large volume classes of purchasers. Cut-off prices to other classes of purchasers shall be prices which reflect the manufacturer's customary or established differentials for sales to those other classes of purchasers. If, for any reason, the manufacturer has no such customary or established differentials the Office of Price Administration will, upon application, establish appropriate cut-off prices to any other classes of purchasers which reflect customary trade differentials.

Articles of wood¹ school furniture for which maximum prices may be adjusted in accordance with the provisions of this order

Cut-off prices for sales to jobbers, distributors or equivalent large volume classes of purchasers (each)

Tablet arm chairs.....	\$5.00
Side chairs (teachers' or pupils').....	3.50
Tables:	
48" x 20" plain.....	8.00
48" x 20" two drawers.....	9.00
60" x 20" plain.....	9.00
60" x 20" three drawers.....	10.25
72" x 20" plain.....	10.75
72" x 20" four drawers.....	12.75

¹As used in this order the term "wood" school furniture means the above articles of school furniture when made with wood which accounts for at least 50% of the cost of materials used exclusive of Joining Hardware.

SEC. 3. Manufacturer's maximum prices. A manufacturer may increase his properly established maximum price for an article of low-end wood school furniture listed in section 2 by 20% of that maximum price or the amount necessary to bring that maximum price up to the appropriate cut-off point, whichever is the lesser. No maximum price adjusted under this section may exceed the appropriate cut-off point as found in section 2 of this order.

SEC. 4. Maximum prices of purchasers for resale. All resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum price as follows:

(a) A reseller who sold or offered for sale the same article prior to the effective date of this order, shall calculate his new maximum price by adding to his invoice cost the same percentage markup which he had on that article prior to the effective date of this order.

(b) A reseller who did not sell or offer for sale the same article prior to the effective date of this order, shall calculate his maximum price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established maximum price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of that General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

SEC. 5. Definition. Unless otherwise defined herein, or the context requires otherwise, the definitions contained in § 1499.20 of the General Maximum Price Regulation and § 1499.163 of Maximum Price Regulation, whichever is applicable, shall apply to all terms used herein.

SEC. 6. Relationship of the order to other orders or regulations. The provisions of this order supersede the provisions of the General Maximum Price Regulation, of the Maximum Price Regulation No. 188, and of orders under those regulations only to the extent that they are inconsistent with the provisions of those regulations.

SEC. 7. Modification of the provisions of the order. The provisions of this order, as applicable to articles or persons subject hereto, may be modified by orders of general applicability issued under this section.

SEC. 8. Revocation or amendment. This order may be revoked or amended by the Price Administrator at any time.

SEC. 9. Effective date. This order shall become effective on June 18, 1946.

NOTE: The reporting and record keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942, as amended.

Issued this 17th day of June 1946.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of Region II by the Emergency Price Control Act of 1942, as amended, by General Order 68 as amended, and by Revised Procedural Regulation No. 1, it is hereby ordered:

SECTION 1. What this order covers. This revised adopting order under Basic Order No. 1 as amended, under General Order 68 as amended, covers all retail sales of the sizes and types of plywood listed in the annexed price tables made by sellers located in the counties of Niagara, Erie, Chautauqua, and Cattaraugus in the State of New York, and the counties of Warren, Forest, Clarion, Armstrong, Westmoreland, Washington, Beaver, Butler, Allegheny, Lawrence, Mercer, Crawford, Erie, and Venango, in the State of Pennsylvania, which counties constitute the portion of the States of New York and Pennsylvania in which the carload freight rate of plywood from Seattle, Washington is 93¢ per CWT. All provisions of Basic Order No. 1 as amended, under General Order No. 68 as amended, are adopted in this order and are just as much a part of this order as if specifically set forth herein. If said Basic Order No. 1 is further amended in any respect the provisions of said order as amended shall likewise without fur-

ther action become part of this order. All persons subject to this adopting order are also subject to Basic Order No. 1 as amended under General Order No. 68 as amended, and should be familiar with the provisions of said order. This revised adopting order supersedes Adopting Order No. 21 under Basic Order No. 1 under General Order 68 issued January 17, 1946, and effective February 1, 1946, and said Adopting Order No. 21 under Basic Order No. 1 under General Order No. 68 is revoked as of the effective date of this order.

SEC. 2. Definition of retail sales. A retail sale means any sale to the ultimate consumer, or to a contractor for installation rather than resale, except where the sale is made by a plywood manufacturer, or a plywood distribution plant who in 1941 received more than 20 percent of its dollar income from the sales of plywood or veneer of any kind. These latter types of sales remain subject to the provisions of 3d Rev. MPR 13.

SEC. 3. Definition of construction items. Construction items as the term is used in this order, means plywood items described as follows:

MOISTURE-RESISTANT TYPE

Plyscord (sheathing): 5/16", 3/8", 1/2" and 5/8" rough.

Wallboard: 5/16" S2S to 1/4", 3/16" S2S to 3/8".
Sound 1 Side: 5/16" S2S to 1/4", 3/16" S2S to 3/8".

Sound 2 Sides: 1/4" sanded, 5/16" unsanded.

SEC. 4. Maximum prices. Maximum prices as herein set forth are different for each of two classes of retailers:

Class I retailers are those who since June 20, 1945, purchased or purchase at least one carload of plywood on direct mill shipment. Any shipment which comes directly from the mill without becoming an integral part of the stock of a distribution plant or a retail yard is a direct mill shipment no matter who the seller is.

Class II retailers are all other retail sellers, principally those who buy their plywood from distribution plants.

Maximum prices for class I retailers on construction items in quantities under 1,000 square feet are set forth in Table IA. Maximum prices for Class I retailers on all other items in quantities under 1,000 square feet are set forth in Table I-B. Maximum prices for Class I retailers on construction items in quantities of 1,000 square feet or over are set forth in column I-C. Maximum prices for Class I retailers on all other items in quantities of 1,000 square feet or over are set forth in Table I-D. Maximum prices for Class II retailers for construction items in quantities under 1,000 square feet are set forth in Table II-A. Maximum prices for class II retailers for all other items in quantities under 1,000 square feet are set forth in Table II-B. Maximum prices for Class II retailers for construction items in quantities of

1,000 square feet or over are set forth in Table II-C. Maximum prices for Class II retailers for all other items in quantities of 1,000 square feet or over are set forth in Table II-D. Tables I-A, I-B, I-C, I-D, II-A, II-B, II-C, and II-D, are hereto annexed and made a part of this order.

SEC. 5. Additions for delivery. The above prices include all charges and additions for delivery in the seller's free delivery zone as recognized by him during March 1942. No deduction need be made if the purchaser elects to do his own delivery. If delivery is made outside the free delivery zone, the seller may add for delivery as prescribed in sections 4 and 5 of 3d Rev. MPR 13, namely the amount computed by multiplying the estimated weights in section 22 of 3d Rev. MPR 13 by the applicable rail freight rate. Any addition for delivery must be shown separately on the invoice.

SEC. 6. Discounts and allowances. The maximum prices in this order include all commissions. All customary discounts for cash must be continued. Differentials in price based on quantity sold must be observed as set forth in the price tables.

SEC. 7. Relationship of this order to Basic Order No. 1 as amended, under General Order No. 68 as amended and to 3d Rev. MPR 13. As previously stated all provisions of Basic Order No. 1 as amended, are adopted by this order. The maximum prices fixed by this order supersede any maximum price or pricing method previously established by any other regulation or order and specifically by 3d Rev. MPR 13. Except to the extent that they are inconsistent with the provisions of this order all other provisions of 3d Rev. MPR 13 shall remain applicable to sales covered by this order.

SEC. 8. Posting of maximum prices. Every seller making sales covered by this order shall post a copy of his list of maximum prices as fixed by this order in each of his places of business within the area covered by this order. Class I sellers shall post Tables I-A, I-B, I-C, I-D and Class II sellers shall post Tables II-A, II-B, II-C, II-D. Posting of Tables II-A, II-B, II-C, II-D, by Class I sellers is a violation of this order.

SEC. 9 (a). Records and sales slips. The provisions of section (e) of Basic Order No. 1 covering sales slips and records are adopted in and applicable to this order as though specifically set forth herein; and also on any sale of \$50.00 or more each seller regardless of previous custom, must keep records showing at least the following:

- (1) Name and Address of buyer.
- (2) Date of transaction.
- (3) Place of delivery.
- (4) Complete description of each item sold and price charged.

(b) **Maximum prices for insufficiently described items.** Where the seller's records or sales slip upon a sale of any commodity covered by this order in the area covered by this order, do not contain a sufficiently complete description to identify the exact nature, type, size, or quantity of the commodity, and thus deter-

mine the maximum price fixed by the applicable table of this order, the maximum price applicable to such sale shall be the lowest maximum price which can be computed under the applicable table of this order in accordance with the incomplete description.

SEC. 10. Revocation or amendment. This order may be revised, amended, re-

For sellers who purchase plywood in carload quantities, located in those portions of the States of New York and Pennsylvania where the carload freight rate on plywood from Seattle, Washington, is 93¢ per CWT. (See section 1 of order).

[Region II 2d Rev. Adopting Order 1 Under Basic Order 1 Under Gen. Order 68]

WESTERN SOFTWOOD PLYWOOD IN NEW JERSEY, MARYLAND, DELAWARE, DISTRICT OF COLUMBIA, EASTERN PENNSYLVANIA, AND NEW YORK

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of Region II by the Emergency Price Control Act of 1942, as amended, by General Order 68 as amended, and by Revised Procedural Regulation No. 1, it is hereby ordered:

SECTION 1. What this order covers. This second revised adopting order under Basic Order No. 1 as amended, under General Order 68 as amended, covers all retail sales of the sizes and types of plywood listed in the annexed price tables made by sellers located in the States of Delaware, Maryland, and New Jersey, and the District of Columbia, and in the State of New York, except the counties of Niagara, Erie, Chautauqua and Cattaraugus, and the State of Pennsylvania except the counties of Warren, Forrest, Clarion, Armstrong, Westmoreland, Washington, Beaver, Butler, Allegheny, Lawrence, Mercer, Crawford, Erie and Venango. The territory covered by this Revised Adopting Order is that in which the carload freight rate on plywood from Seattle, Washington, is 94½¢ per cwt. All provisions of Basic Order No. 1 as amended, under General Order No. 68 as amended, are adopted in this order and are just as much a part of this order as if specifically set forth herein. If said Basic Order No. 1 is further amended in any respect the provisions of said order as amended shall likewise without further action become part of this order. All persons subject to this adopting order are also subject to Basic Order No. 1 as amended under General Order No. 68 as amended, and should be familiar with the provisions of said order. This second revised adopting order supersedes Revised Adopting Order No. 1 under Basic Order No. 1 under General Order 68 issued January 17, 1946, and effective February 1, 1946, and said Revised Adopting Order No. 1 under Basic Order No. 1 under General Order 68 is revoked as of the effective date of this order.

SEC. 2. Definition of retail sales. A retail sale means any sale to the ultimate consumer, or to a contractor for installation rather than resale, except where the sale is made by a plywood manufacturer, or a plywood distribution plant who in

1941 received more than 20 percent of its dollar income from the sales of plywood or veneer of any kind. These latter types of sales remain subject to the provisions of 3d Rev. MPR 13.

SEC. 3. Definition of construction items. Construction items as the term is used in this order, means plywood items described as follows:

Moisture-resistant type

Plyscord (sheathing); 5/16", 3/8", 1/2" and 5/8" rough.

Wallboard: 5/16" S2S to 1/4", 3/16" S2S to 3/8".

Sound 1 Side: 5/16" S2S to 1/4", 3/16" S2S to 3/8".

Sound 2 Sides: 5/16" S2S to 1/4".

Exterior type

Sound 1 Side: 1/4" sanded, 5/16" unsanded; 3/8" sanded, 3/16" unsanded.

Sound 2 Sides: 1/4" sanded, 5/16" unsanded.

SEC. 4. Maximum prices. Maximum prices as herein set forth are different for each of two classes of retailers:

Class I retailers are those who since June 20, 1945, purchased or purchase at least one carload of plywood on direct mill shipment. Any shipment which comes directly from the mill without becoming an integral part of the stock of a distribution plant or a retail yard is a direct mill shipment no matter who the seller is.

Class II retailers are all other retail sellers, principally those who buy their plywood from distribution plants.

Maximum prices for class I retailers on construction items in quantities under 1,000 square feet are set forth in Table I-A. Maximum prices for Class I retailers on all other items in quantities under 1,000 square feet are set forth in Table I-B. Maximum prices for Class I retailers on construction items in quantities of 1,000 square feet or over are set forth in column I-C. Maximum prices for Class I retailers on all other items in quantities of 1,000 square feet or over are set forth in Table I-D. Maximum prices for Class II retailers for construction items in quantities under 1,000 square feet are set forth in Table II-A. Maximum prices for Class II retailers for all other items in quantities under 1,000 square feet are set forth in Table II-B. Maximum prices for Class II retailers for construction items in quantities of 1,000 square feet or over are set forth in Table II-C. Maximum prices for Class II retailers for all other items in quantities of 1,000 square feet or over are set forth in Table II-D. Tables I-A, I-B, I-C, I-D, II-A, II-B, II-C, and II-D, are hereto annexed and made a part of this order.

SEC. 5. Additions for delivery. The above prices include all charges and additions for delivery in the seller's free delivery zone as recognized by him during March 1942. No deduction need be made if the purchaser elects to do his own delivery. If delivery is made outside the free delivery zone, the seller may add for delivery as prescribed in sections 4 and 5 of 3d Rev. MPR 13, namely the amount computed by multiplying the estimated weights in section 22 of 3d Rev. MPR 13 by the applicable rail freight rate. Any

addition for delivery must be shown separately on the invoice.

SEC. 6. Discounts and allowances. The maximum prices in this order include all commissions. All customary discounts for cash must be continued. Differentials in price based on quantity sold must be observed as set forth in the price tables.

SEC. 7. Relationship of this order to Basic Order No. 1 as amended, under General Order No. 68 as amended and to 3d Rev MPR 13. As previously stated all provisions of Basic Order No. 1 as amended, are adopted by this order. The maximum prices fixed by this order supersede any maximum price or pricing method previously established by any other regulation or order and specifically by 3d Rev. MPR 13. Except to the extent that they are inconsistent with the provisions of this order all other provisions of 3d Rev. MPR 13 shall remain applicable to sales covered by this order.

SEC. 8. Posting of maximum prices. Every seller making sales covered by this order shall post a copy of his list of maximum prices as fixed by this order in each of his places of business within the area covered by this order. Class I sellers shall post Tables I-A, I-B, I-C, I-D and Class II sellers shall post Tables II-A, II-B, II-C, II-D. Posting of Tables II-A, II-B, II-C, II-D, by Class I sellers is a violation of this order.

SEC. 9 (a). Records and sales slips. The provisions of section (e) of Basic Order No. 1 covering sales slips and records are adopted in and applicable to this order as though specifically set forth herein; and also on any sale of \$50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

- (1) Name and address of buyer.
- (2) Date of transaction.
- (3) Place of delivery.
- (4) Complete description of each item sold and price charged.

(b) **Maximum prices for insufficiently described items.** Where the seller's records or sales slip upon a sale of any commodity covered by this order in the area covered by this order, do not contain a sufficiently complete description to identify the exact nature, type, size, or quantity of the commodity, and thus determine the maximum price fixed by the applicable table of this order, the maximum price applicable to such sale shall be the lowest maximum price which can be computed under the applicable table of this order in accordance with the incomplete description.

SEC. 10. Revocation or amendment. This order may be revised, amended, revoked or modified at any time by the Regional Administrator or the Price Administrator.

This order shall be effective as of March 30, 1946.

Issued this 27th day of May 1946.

LEO F. GENTNER,
Regional Administrator.

Revised Order No. G-9 under Revised Maximum Price Regulation No. 251. Construction services and sales of installed building materials. Docket No. 7-251-9-10 Rev.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Regional Administrator of Region VII of the Office of Price Administration by sections 9 and 20 of Revised Maximum Price Regulation No. 251, It is ordered:

SECTION 1. What this order does. (a) This order fixes maximum prices for plumbing services and sales of installed plumbing materials and equipment and certain other permitted charges by any person, hereinafter called the seller, to any person, hereinafter called the purchaser, in connection with a residential building, at a fixed site in the State of Wyoming.

(b) **Definitions.** As used in this order, the term:

(1) "Plumbing" means water, steam, gas, and oil distribution and waste removal systems in a residential building at a fixed site.

(2) "Plumbing services" means the services required to install, alter, repair, maintain or remove plumbing materials or equipment in or from a residential building at a fixed site but not including the cleaning of cesspools, grease traps, and septic tanks which services are covered by Maximum Price Regulation No. 165.

(3) "Sales of installed plumbing materials and equipment" means a transaction in which the seller furnishes plumbing materials and equipment, together with the services required to incorporate such materials or equipment in a residential building at a fixed site.

(4) "Residential building" means any building or part thereof used entirely or principally for living or dwelling purposes (including houses, apartments, hotels, and all other properties used for living or dwelling purposes), and all other buildings or structures in connection therewith or adjacent thereto at the same site, such as garages, barns, milk houses, sheds, granaries, and other out-buildings.

(5) "Maximum labor charge" means the amount charged for labor of a specified type or class for plumbing services, made either at a flat rate per hour so as to include a margin for administrative and over-head costs and profit, or as a percentage of the seller's labor cost, which resulting maximum labor charge is also deemed to include a margin for administrative and over-head costs and profit.

(6) "Labor cost" means the seller's actual labor cost based on the wage rates in effect on October 3, 1942 for the same class of laborers, or the seller's actual labor cost based on the wage rates which have been subsequently approved by a Federal wage or stabilization agency. Additional payments for Federal old-age benefits, unemployment compensation taxes, workmen's compensation and public liability insurance shall be regarded as being part of such labor cost.

(7) "Master plumber" means any skilled person who, as owner or supervisor, renders plumbing services or who is licensed as such if any applicable municipal ordinance so requires.

(8) "Journeyman plumbers" means any skilled person who renders plumbing services or who is licensed as such if any applicable municipal ordinance so requires.

(1) 150% of actual labor cost.

(2) **Measurement of hours.** The number of hours which may be charged

against any plumbing job consuming one day or less shall be counted from the time the workman leaves the seller's shop or the previous plumbing job (whichever time is later) until he completes the job or proceeds to another job or until he returns to the seller's shop if he proceeds there directly. Whenever any job extends into more than one day, the time in transit to or from the job may be charged only once. The hours for which charges are made shall not exceed those shown in the records which the seller is required to keep under section 9 of this order.

(3) **Overtime.** (a) When work is performed at the purchaser's request after 12:01 p. m. on Saturday and between the hours of 5 p. m. and 8 a. m. of any other day except Sundays, legal holidays, and on emergency night calls, the maximum labor charge per hour for work during such hours may not be in excess of 150% of the straight time rate authorized in this order.

(b) Where work is performed at the purchaser's request on Sundays, legal holidays designated by the laws of the State, and emergency night calls, the maximum labor charge may not be in excess of 200% of the straight time rate authorized by this order.

(4) **Minimum charges.** If a plumbing job requires less than one man hour the maximum labor charge may be for one man hour. If any plumbing job takes only three hours or less of any class of labor for completion of a job, a separate charge of not more than 25¢ may be made for the use of an employer's motor vehicle in going to and from the job.

(5) **Self-employed plumber.** A self-employed plumber who performs plumbing services himself, either alone or with his employees, may charge for his services not more than the hourly rate charged by him as of the effective date of this revised order but not in excess of the maximum labor charge which would be permissible to be charged for the services of a journeyman plumber in the local area where the services are being performed.

(6) **Maximum labor charges for combination work.** The maximum labor charge for any combination of master plumber, journeyman plumber, apprentice plumber, helper, common laborer, or other employee may not exceed the total of the maximum hourly rates of each of the types or classes of labor for which maximum charges are provided in this order.

II. Maximum prices of plumbing materials and equipment and other permitted charges. (1) The maximum prices which may be charged by any seller of plumbing materials and equipment, which for the purposes of this order also include all items known as plumbing fixtures and specialties, shall not be in excess of the seller's cost plus the percentage herein specified. (The seller's cost of materials and equipment shall be deemed to be the wholesale net price lawfully charged the plumbing trade for limited quantities of such materials and equipment by established wholesale plumbing supply firms nearest his place of business, based on their published price lists, together with the actual

transportation charges paid therefor by the seller but not in excess of the common carrier rate from the nearest point of supply. If the materials and equipment being sold are marked by a manufacturer's label containing the approved OPA retail ceiling price for sales of the commodity by a seller, a seller of such materials and equipment under this order may charge the price marked on the label in lieu of the stated percentage markup herein specified but in no event may the seller charge more than the price marked on the label.

PERCENTAGE MARKUPS ON SALES OF INSTALLED PLUMBING MATERIALS AND EQUIPMENT

	Plumbing jobs of \$350 or less ¹	Plumbing jobs of more than \$350 and not over \$750
(a) Plumbing equipment and fixtures including all items such as bath tubs, lavatories, water closets, kitchen and wash sinks, laundry tubs and other such items, excepting water heating equipment.....	Percent 40	Percent 33 $\frac{1}{3}$
(b) Water heating equipment, including hot water tanks, electric, gas, and oil burning automatic, semi-automatic or manually operated water heaters.....	50	40
(c) Plumbing materials and specialties including all items used in repairing or installing plumbing equipment or fixtures or water heating equipment such as pipe, pipe fittings, valves, hangers, lead and similar materials and specialties....	50	45

¹ On plumbing jobs of \$350 or less, whenever the unit cost of any plumbing materials or specialties (including pipe nipples in lengths of 12 inches or less) is not more than \$1.00, a markup of not to exceed 100% may be made but this permitted markup shall not apply to pipe made of copper, steel, brass, lead, wrought iron or cast iron, clay or asbestos cement, or to cast iron soil pipe or soil pipe fittings.

(2) *Sub-contracted work.* Where work such as drain laying, excavating, pipe covering, sheet metal ducts, and similar work is sub-contracted by a seller under this order, the seller may charge the purchaser the cost of such sub-contracted work plus a markup of not more than 10% but the charge to the purchaser may not exceed the price which the seller may lawfully charge if he had done the work himself.

(3) *Power driven and other special plumbing equipment.* If, during March, 1942, the seller made an extra charge for the use of power driven and other special plumbing equipment, but not including the motor vehicle in which the equipment is transported, the maximum prices per hour for such use upon and after the effective date of this order shall not be in excess of the highest price per hour he charged therefor or other maximum charges during March, 1942. If the seller acquired such power driven and other special plumbing equipment after March 1942 but prior to the effective date of this order and thereafter established maximum prices per hour or other maximum charges for such uses under the applicable maximum price regulation, he may continue to charge such established prices. In either case, the seller must have records available to substantiate the charging of such prices and such prices must be filed with the District

Office of Price Administration pursuant to Section 9 of this order. If a seller commences the use of power driven and other special plumbing equipment after the effective date of this order he shall establish his maximum hourly prices therefor or other maximum charges under the applicable maximum price regulation and file such prices with the District Office within 10 days.

(4) *Out of town travel expenses.* A seller who furnishes men on an out of town plumbing job covered by this order shall be reimbursed to the extent of the amount he shall have to pay for travel expense at not to exceed 5¢ per mile for travel beyond the city limits and subsistence where the job necessitates the men being away from their homes. This item shall be explained to the purchaser prior to commencing the job and shall be invoiced separately. Travel expenses and subsistence may not be collected unless the seller actually pays the employee therefor.

(5) *Transportation.* If a seller uses his truck to transport materials, equipment, and men to and from a job beyond the city limits he may charge not more than 8¢ per mile to and from the job for such travel and similarly if other means of transportation are used.

(6) *Charges for permits.* Whenever a seller subject to this order is required to pay a permit fee to a municipal or other authority with respect to services or installations under this order he may make an additional charge to the purchaser in an amount not more than the actual fee paid to the municipal or other authority.

SEC. 5. Maximum prices of plumbing services and sales of installed plumbing materials and equipment in excess of \$750.00. The maximum prices of plumbing services and sales of installed plumbing materials and equipment for plumbing jobs in excess of \$750.00 shall be calculated under section 7 of Revised Maximum Price Regulation No. 251.

SEC. 6. Guaranteed price. A seller may offer to sell a plumbing job covered by this order on the basis of a guaranteed price but such guaranteed price shall not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order: *Provided, however,* That if the guaranteed price is offered with respect to a plumbing job of \$350.00 or less then the guaranteed price shall not be more than 10% higher than the maximum price figured in accordance with the pricing methods and requirements of this order.

SEC. 7. Related and incidental construction work. If on any plumbing job any installed building materials are furnished or any construction services are performed by the seller for which maximum prices are not fixed by this order, such materials and services shall be separately priced and billed on all invoices and sales slips. The maximum prices for such related and incidental work shall be determined under Revised Maximum Price Regulation No. 251 or as fixed by any applicable area pricing order issued by the Regional Administrator of Region VII.

SEC. 8. Notification. (a) *Furnishing of statements.* Each seller making a sale covered by this order shall, upon completion of the work, furnish to the purchaser a statement and keep a copy thereof at his principal place of business showing the following:

- (1) The names and addresses of the seller and purchaser.
- (2) The location of the job.
- (3) The date the job was completed.
- (4) A description of the work performed and the total charged for the job, including plumbing services and sales of installed plumbing materials and equipment and other permitted charges, and a separate statement of the related and incidental construction work performed as provided in section 7 of this order.

(b) *Furnishing of further statements upon request.* If requested by the purchaser, the seller shall furnish the purchaser an itemized statement showing the information contained in subparagraphs (1), (2), and (3) of paragraph (a) of this section, together with an itemized statement showing the maximum labor charges for plumbing services for each type or class of labor performed and the hourly rates charged therefor, together with an itemized statement of the installed plumbing materials and equipment, and other permitted charges, and the quantities and prices of each, and a separate itemized statement of any related and incidental construction work performed, as provided in section 7 of this order. A copy of any such statements so furnished shall be kept by the seller at his principal place of business.

(c) *Order available for inspection.* Each seller making a sale covered by this order, if requested by the purchaser shall make available to the purchaser a copy of this order and a copy of Revised Maximum Price Regulation No. 251. - (7) A separate itemized statement of any related and incidental construction work and the prices charged for such work.

SEC. 10. Filing and reporting of maximum prices. (a) Each seller subject to this order shall within 30 days after the effective date of this order, or within 10 day after any increase in labor cost is put into effect, or in the case of new sellers within 10 days after first entering business, file with the Cheyenne District

Office of the Office of Price Administration the following information.

(2) The "labor cost" as that term is defined in section 1 (b) (6) of this order in terms of the straight time hourly rate applicable to each class of workmen by the seller.

(3) A statement that the prices charged by the seller for the sale of installed plumbing materials and equipment and the other permitted charges covered by this order will not exceed the maximum percentage markups and other charges permitted by section 4 of this order, and a statement that the maximum charge to the purchaser for plumbing services sub-contracted by the seller will not exceed the maximum price which the seller may lawfully charge under this order if he had rendered the services directly.

SEC. 12. *Evasions.* (a) Any practice, scheme or device which results in a higher price to the purchaser of plumbing services or installed plumbing materials and equipment than is permitted by this order shall be deemed a violation of this order and subjects the seller to all the civil liabilities and the criminal penalties provided by the Emergency Price Control Act of 1942 as amended and extended.

(b) No seller shall as a part of the consideration or as a condition of a sale of any of the plumbing services or installed plumbing materials and equipment covered by this order, secretly or otherwise receive, either directly or indirectly any side payment, commission, fee, consideration or other thing of value whatsoever nor shall the seller, either directly or indirectly acquire or receive in addition to the maximum prices established by this order the benefit of any services, transportation agreements or other valuable thing, materials or property.

(c) No seller shall eliminate or reduce in any form or manner any maintenance or repair service customarily offered or performed as a part of plumbing services or installed plumbing materials and equipment nor shall the seller lower the quality of the materials and equipment below that called for by the specifications or agreement.

(d) No seller shall by any of the foregoing plans, schemes or devices, or by any other plan, scheme or device, receive or acquire or attempt to receive or acquire anything of value, service, valuable right, property or property right, money or other consideration whatsoever in addition to the maximum prices established in this order for the sale of any plumbing

II. It appearing to the Commission upon the basis of the statement filed by Public Service on Form U-3 (a) (2) pursuant to Rule U-2 of the Commission's rules and regulations under the act, claiming exemption on behalf of itself as a holding company and on behalf of its subsidiary companies as such, and on the basis of other information in the

files of the Commission regarding Public Service and its subsidiaries, that a substantial question exists as to whether the continued exemption of Public Service and its subsidiary companies as such, from any provision or provisions of said act may be detrimental to the public interest or the interests of investors or consumers;

Notice is hereby given pursuant to Rules U-6 and U-2 under the act, that any exemption presently available to Public Service and its subsidiary companies as such by reason of the provisions of Rule U-2 shall terminate within 30 days of the date of this Notice as provided in Rule U-6 without prejudice, however, to the right of Public Service as a holding company to file any appropriate application for an order granting it any exemption pursuant to the provisions of any applicable section of the act, and without prejudice to any temporary exemption provided in any provision of the act by reason of the filing of any such application in good faith.

III. It appearing to the Commission, on the basis of the allegations hereinbefore set forth, that the operations of Public Service and its subsidiaries may not be confined to a single integrated public utility system or to a single integrated public utility system together with such additional integrated public utility systems as meet the requirements of section 11 (b) (1) and to such other businesses as can be retained under the standards of section 11 (b) (1), and that proceedings should be instituted under section 11 (b) (1) with respect to the holding company system of Public Service; and

It further appearing to the Commission, on the basis of the allegations hereinbefore set forth, that the corporate structure of the holding company system of Public Service may be unduly and unnecessarily complicated, and that voting power may be unfairly and inequitably distributed among the security holders thereof, and that proceedings should be instituted under section 11 (b) (2) with respect to the holding company system of Public Service; and

It further appearing to the Commission that United, the owner of 21.65% of the voting securities of Public Service, should be made a party to such proceedings;

Wherefore, It is ordered, That proceedings be, and the same hereby are, instituted under sections 11 (b) (1) and 11 (b) (2) of the act with respect to Public Service and each of the subsidiaries of Public Service hereinbefore named, and that Public Service and each

of its subsidiaries together with United are hereby made respondents in this proceeding, and said respondents shall file with the Secretary of the Commission, on or before the 5th day of July, 1946, joint or several answers in the form prescribed by Rule U-25, admitting, denying, or otherwise explaining their respective positions as to each of the allegations set forth in Paragraphs 1 through 19 hereof and in section II hereof. Such answer may also include a statement by the respondents of their views as to what constitutes the "single integrated public utility system of Public Service", if any, which may be retainable by Public Service, and as to what additional system and other business, if any, they believe can be retained with such system under the applicable standards of section 11 (b) (1). Such answers may also include a statement as to what steps respondents deem to be necessary or appropriate and are prepared to take for the purpose of limiting the operations of the holding company system of Public Service to a single integrated public utility system, together with such additional systems and other businesses as can be retained by Public Service under the standards of section 11 (b) (1) of the act. Such answers may also include a statement as to what steps respondents deem to be necessary or appropriate and are prepared to take to ensure that the corporate structure or continued existence of any company in the holding company system of Public Service does not unduly or unnecessarily complicate the structure, or unfairly and inequitably distribute voting power among security holders of the holding company system of Public Service or of United.

IV. It is further ordered, That a hearing under the applicable provisions of the act and the rules of the Commission be held on the 16th day of July 1946, at 11 a. m., e. d. s. t., in Room 318 of the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, at which time the Commission will hear respondents and any other interested persons with respect to the matters and questions set forth below in sub-paragraphs (a) through (b), and as to any issues raised in and matters presented by the respondents' answers or regarding any other issues which may be present in this proceeding, and will consider the simplification of the issues, the facts and issues that appear to be without substantial basis of controversy, the order of presentation of evidence most conducive to an orderly and expeditious proceeding, and such other matters as may aid in the disposition of the proceeding:

(a) What steps are necessary to be taken by United, Public Service and the subsidiaries of Public Service to ensure that the corporate structure, or the continued existence of any company in the holding company system of Public Service does not unduly or unnecessarily complicate the structure, or unfairly and inequitably distribute the voting power among the security holders of the holding company system of Public Service or of United;

(b) What action is necessary to be taken by United, Public Service and/or its subsidiaries to limit their operations to a single integrated public utility system and such additional utility systems, or other businesses, as are retainable by Public Service under the standards of section 11 (b) (1) of the act;

It is further ordered, That any person desiring to be heard or otherwise wishing to participate herein shall file with the Secretary of the Commission, on or before the 5th day of July 1946, his request or application therefor, as prescribed by Rule XVII of the rules of practice of the Commission. Any such request may state the position of the applicant with respect to the matters hereinbefore set forth and with respect to what action is believed necessary to be taken by any of the respondents to comply with sections 11 (b) (1) and 11 (b) (2) of the act. Nothing herein contained shall be deemed to require any interested person to intervene as a prerequisite to being heard as to matters affecting his interest.

It is further ordered, That jurisdiction be, and hereby is, reserved to separate, either in whole or in part, or to dispose of, in whole or in part, any of the issues or questions which may arise in these proceedings, or to consolidated with these proceedings, or any portion thereof, any proceedings which may be subsequently instituted under the provisions of such act with respect to United, Public Service and the subsidiaries of Public Service, and to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.

It is further ordered, That the Secretary of the Commission shall serve notice of the hearing aforesaid by mailing a copy of this notice and order for hearing to United, Public Service and the subsidiaries of Public Service named in paragraph (2), to the Board of Public Utility Commissioners of the State of New Jersey, the Public Service Commission of the State of New York, the Public Utility Commission of Pennsylvania, the Federal Power Commission and the Interstate Commerce Commission, not less than twenty days prior to the date hereinbefore fixed as the date of hearing; and that notice of said hearing is hereby given to United, to Public Service and its subsidiaries, to their security holders, and to all consumers of the subsidiaries of Public Service, to all states, municipalities and political subdivisions of states within which are located any of the physical assets of said companies or under the laws of which any of said companies is incorporated, all state commissions, state security commissions, and all agencies, authorities and instrumentalities of one or more state municipalities, or other political subdivisions having jurisdiction over United or over Public Service or its subsidiaries of any of the businesses, affairs, or operations of any of them; that such notice shall be given further by a general release of the Commission, distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER
