ALIENS IN ENGLAND FACE MANY DON'TS.

ENDLESS FORMALITIES REQUIRED OF AMERICANS FORCED TO LIVE IN LONDON.

NO WAR TALK IN PUBLIC.

ALL STRANGERS HEDGED IN BY RESTRICTIONS OF DEFENCE OF THE REVENUE ACT.

Special Correspondence to THE SUN.

LONDON, Dec. 7.—Americans who might be contemplating a trip to England at the present time and who believe that the sole difficulty is to convince the State Department that the voyage is being undertaken for really serious reasons, are advised to give some consideration to the restrictions which are being in forced throughout Great Britain.

Under existing circumstances no traveller who has not been compelled to make his home in England for a period of months can have the faintest idea of the difficulties facing permanent residents here.

Independently of the endless formalities to which all “aliens” are subjected

including registration at the police station, formal notice to the police whenever a journey of even only a few miles is undertaken, challenges in the streets and in places of public gathering by officials of both the military and police departments, a thousand and one other rules and regulations to which Englishmen and foreigners alike must submit are now being enforced throughout the country.

The average American who travels abroad imagines that the imposing appearance of his red seal-bedecked passport will open all doors to him, but hardly has he become in sight of the shores of England when his troubles begin and he soon realizes what it means to visit a country at war.

RULES NOR IDLE TALK.

The writer proposes to submit to the readers of *THE SUN* a list, necessarily incomplete, but nevertheless edifying, of a few of the regulations which are being enforced under the "defence of the realm act." To the American who remains at home and has no opportunity to appreciate the extent of the measures which can be enforced in the name of "defence of the realm" many of the restrictions may seem useless and harmless. Those, however, who for business reasons have been compelled to make their homes in London know that the "Defence of the Realm" regulations are no idle talk.

When you read that it is prohibited to register at a hotel or lodging house in a name not your own is may be pointed out that an American is now serving a long term of imprisonment for having committed this offence. When you are told that you must not shop after 8 P.M. or buy spirits between 2:30 and 6:30 P.M. you will remember that fines of \$200 and more have been inflicted on a number of people for committing these offences. The rule prohibiting any one from leaving the country with any printed matter or photographs is being enforced so rigidly that passengers for America are being stopped regularly for this reason at the decks of transatlantic steamers.

The "defence of the realm act" is almost almighty in its powers. Under it any "alien" may be interned for the duration of the war or ordered to leave the country at twenty-four hours notice. There is no appeal possible, nor does any explanation of the action have to be given.

A few of the things which are strictly prohibited under the "defence of the realm act" are given in the following list, and punishment varying from heavy fines to long terms of imprisonment, followed by deportation in the case of "aliens," is meted out to offenders.

SOME OF THE "DON'TS."

If you want to live in London, or even only visit the city for a few days, you must not:

Talk about naval or military operations in a restaurant, railway carriage or any other public place.

Repeat any unofficial report of battles, incidents and projects you may hear.

The King's Most Excellent Majesty in Council.

WHEREAS by an Order in Council dated the twenty-eighth day of November, nineteen hundred and fourteen, His Majesty was pleased to make regulations (called the "Defence of the Realm (Consolidation) Regulations, 1914") under the Defence of the Realm Consolidation Act, 1914, for securing the public safety and the defence of the realm:

And whereas the said Act has been amended by the Defence of the Realm (Amendment) Act, 1915, the Defence of the Realm (Amendment) (No. 2) Act, 1915, and the Munitions of War Act, 1915:

And whereas the said regulations have been amended by various subsequent Order in Council:

And whereas it is expedient further to amend the said regulations in manner hereinafter appearing:

Now, therefore, His Majesty is pleased, by and with the advice of His Privy Council, to order, and it is hereby ordered, that the following amendment be made in the said Regulations:—

After Regulation 2e the following regulations shall be inserted:—

2e.—(1) Where the Board of Trade are of opinion that it is expedient that

it is expedient that special measures should be taken in the interests of the public for maintaining the supply of any article of commerce the maintenance of which is important as being part of the food supply of the country or as being necessary for the wants of the public or for the wants of any section of the public, the Board by order may, with a view to maintaining the supply of the article, apply to that article any of the provisions appended to this regulation.

(2) Any such order may be made either so as to apply generally or so as to apply to any special locality, or so as to apply to any special supplies of any article, or to any special producer, manufacturer, or dealer.

(3) If any person acts in contravention of, or fails to comply with, any of the provisions appended to this regulation he shall be guilty of a summary offence against these regulations.

Provisions which may be applied.

I. A person shall not waste or unnecessarily destroy any article to which this provision is applied; and if the order applying this provision to that article declares that any specified process, action, or other thing done is waste or unnecessary destruction of the article, that process, action, or other thing done shall be deemed to be waste or unnecessary destruction for the purpose of this provision.

II. Where the order applying this provision to any article specifies the purposes for which the article is to be used, a person shall not (subject to any conditions contained in the order) use the article except for the purposes so specified; and where the order prescribes any special manner in which the article is to be used, a person shall not (subject to any conditions contained in the order) use the article except in that manner.

III. Where the order applying this provision to any article contains any directions or regulations as to the manufacture or production of the article in such a manner as to secure that the public are supplied with the article in the form most suitable in the circumstances, all persons concerned in the manufacture or production of the article shall comply with those directions or regulations.

IV. Where the order applying this provision to any article contains any directions or regulations as to the mode of sale or the distribution of the article with a view to securing that the available supply of the article is put to its best use throughout the country or in any locality, all persons concerned in the sale or distribution of the article shall comply with those directions or regulations.

V. Where the order applying this provision to any article contains any directions or regulations as to the market operations in that article with a view to preventing an unreasonable fluctuation of the price of the article as the result of market operations, all persons concerned in market operations shall comply with those directions or regulations.

VI. A person shall not (subject to any exceptions contained in the order applying this provision) directly or indirectly sell or offer for sale any article to which this provision is applied at a price exceeding by more than the amount named in the order the corresponding price of the article at a date specified in the order (the corresponding price to be settled in case of difference by the Board of Trade); and where the consideration for any sale or offer consists wholly or partly of any conditions made or offered to be made in connection with the transaction or is otherwise not of a pecuniary character, the value of the consideration or such part thereof as is not of a pecuniary character, shall, for the purposes of this provision, be taken into account in determining the price of the article.

VII. All persons owning or having power to sell or dispose of any article to which this provision is applied or any stocks thereof shall, if required by the Board of Trade, place at the disposal of the Board the article, or the whole or any part of the stocks thereof as may be required by the Board on such terms as the Board may direct, and shall deliver to the Board or to any person or persons named by

them the article or stocks in such quantities and as such times as the Board may require.

Such compensation shall be paid for any article or stock so requisitioned as shall, in default of agreement, be determined by the arbitration of a single arbitrator appointed in manner provided by the order applying this provision; but in determining the amount of the compensation the arbitrator shall have regard to the cost of production of the article and to the allowance of a reasonable profit without necessarily taking into consideration the market price of the article at the time.

2c.—(1) If the Board of Trade are of opinion that information is required with respect to any article of commerce with a view to the exercise of any powers of the Board of Trade in relation to that article, the Board may by order apply the provisions of this regulation to that article; and if the provisions of this regulation are so applied to any article, every person owning or having power to sell or dispose of the article, or concerned in the manufacture or production of the article shall, subject to any exceptions or limitations contained in the order, make a return to the Board giving such information in such form and within such time as may be specified in the order applying those provisions |

(a) as to the stocks of the article held by him or consigned to him or

under order to him; and
(b) as to any contracts for the supply to, or by, him of the article or any contracts for, or in connection with, the production or manufacture of the article, or the dealing therein; and

(c) as to the prices paid by him or received by him for or in respect of the article; and
(d) as to the cost of production of the article, and the names and addresses of the persons by whom the article has been supplied to him or to whom the article of commerce has been supplied by him; and

(e) as to any other matters specified in the order applying the provisions of this regulation with respect to which the Board may desire information for the purpose of any of their powers and duties.

(2) For the purpose of testing the accuracy of any return made to the Board under this regulation, or of obtaining information in case of a failure to make a return, any officer of the Board authorised in that behalf by the Board may enter any premises belonging to or in the occupation of the person making or who has failed to make the return, or on which he has reason to believe that any article to which the provisions of this regulation are applied are kept, stored, manufactured,

or produced, and may carry out such inspections and examination (including the inspection and examination of books) on the premises as the officer may consider necessary for testing the accuracy of the return or for obtaining any such information.

(3) If any person—

(a) refuses or without lawful excuse neglects to make a return as required by this regulation to the best of his knowledge and belief, or makes or causes to be made a false return; or

(b) obstructs or impedes an officer of the Board in the exercise of any of his powers under this regulation; or

(c) refuses to answer or gives a false answer to any question, or refuses to produce any books or documents required for obtaining the information to be furnished in pursuance of this regulation;

that person shall be guilty of a summary offence against these regulations.

(4) No individual return or part of a return made under this regulation, and no information as to any person or his business obtained under this regulation, shall, without lawful authority, be published or disclosed or disclosed except for the purposes of a prosecution under this regulation; and if any person acts in contravention of this provision he shall be guilty of a summary offence against these regulations.

2H.—(1) If the Board of Trade, in any special case are of opinion that, before exercising any of their powers under these regulations in relation to any article, it is expedient to hold an inquiry with respect to that article in any locality, the Board may appoint such persons as they think fit to hold an inquiry as respects that article and report to the Board on such points as the Board may direct.

(2) Any persons so appointed shall have power to take evidence on oath and to administer an oath for the purpose.

2I.—(1) The Board of Trade may make arrangements with any other Government Department for the exercise by that Department on behalf of the Board of Trade of the powers of the Board under the regulations numbered 2F, 2G and 2H with respect to any particular article of commerce, and in such case the Department and the officers thereof shall, as respects that article, have and exercise the same powers as are by those regulations conferred on the Board of Trade and the officers of that Board, and the Local Government Board (or as respects Scotland the Secretary for Scotland, and as respects Ireland the Local Government Board for Ireland) may by arrangement with the Board of Trade confer and impose on any local authorities and their officers any powers and duties in connection with the enforcement of the said regulations numbered 2F and 2G.

(2) Nothing in the regulations numbered 2e and 2h shall prevent the exercise by the Board of Trade of any of their powers in relation to any article under these regulations or otherwise, without having obtained or endeavoured to obtain returns under Regulation 2e or having held an inquiry under Regulation 2h.

(3) Any order of the Board of Trade under the said regulations numbered 2f and 2g may be revoked or varied as occasion requires.

 ENGLAND CANCELS SHIPPING REPORTS.

News indicating that Germany's submarine campaign has become so widespread and destructive that it is a more serious menace to the Allies than at any time in the war was received here last night.

The British Government issued Friday night an official order that all shipping reports except announcements of casualties are to be discontinued at once. This order was transmitted last night to the Associated Press by its London office.

It was said last night that New York agents had been notified from London to cease advertising dates of Steamship sailings.

The London "Daily News" says that because of the increased submarine menace the British Government war risk insurance office has raised the insurance rate per voyage for British vessels to 40 shillings (\$10) per cent.

LONDON, Dec. 25.—In the shipping paper "Fair Play" Sir Norman Hill, secretary of the Liverpool Steamship Owners' Association, calculation that the effect of the German campaign on British shipping has been as follows:

In the twenty-seven months of war from August, 1914, to October, 1916, 435 steam vessels of more than 1,600 tons, representing 1,744,000 tons gross register, were lost through war perils. Great Britain started the war with 3,600 steamships of 16,000,000 tons gross, so that the losses represent 12 per cent. in numbers, or 11 per cent. in tonnage, being less than one-half of 1 per cent. a month.

The value of the cargoes lost is calculated at 0.49 per cent. of the total by Sir Norman, who adds: "A ten shillings in 100 pounds blockade will never starve us."

ADMIRALTY NOTICE TO MARINERS.

No. 1290 of the year 1916.

ENGLAND, EAST COAST.

River Humber and Approaches—Pilotage and Traffic Regulations.

Former Notice.—No. 932 of 1916; hereby cancelled.

Mariners are hereby warned that, under the Defence of the Realm (Consolidation) Regulations, 1914, the following Regulations have been made by the Lords Commissioners of the Admiralty, and are now in force:—

1. All pilotage certificates granted to masters and mates for the whole or any part of the Humber Pilotage District are suspended and further all vessels (irrespective of draught, size, or nationality, but with the exception of those provided for in paragraph 2) bound to or from any place on the Humber must be conducted by licensed pilots over the whole or any part of the waters between Hull and the Outer Pilotage station of the Humber Pilotage District, which, until further notice, will be situated in the neighbourhood of the Bull light-vessel.
2. In the case of lighter inter-dock traffic and of small British vessels engaged in local trade above Immingham, pilotage by licensed pilots is not compulsory.
3. During the hours of official night, and during fog with visibility of less than half-a-mile, no traffic is permitted to move on the Humber below Paull point; also when these conditions prevail no vessel should enter or remain within a radius of

five miles from Humber (late Spurn) light-vessel.

4. A vessel should not approach the Humber unless there is sufficient time available to enable such vessel to obtain a pilot and to arrive at her destination, or at a position in which she is permitted to anchor, before the commencement of official night.

5. No vessel should anchor whilst awaiting a pilot.

6. Vessels when leaving the Humber must proceed direct to sea. Should it be necessary to wait for the weather to moderate or clear they must remain inside the river at an authorised anchorage.

The pilot lobbies will be notified when the existence of fog outside the river is known.

7. A pilot should not board a vessel unless there is sufficient time available to enable such vessel to arrive at her destination, or at a position in which she is permitted to anchor, before the commencement of official night. The latest time at which the pilot cutter stationed at the Bull light-vessel should board inward-bound vessels is one hour before the commencement of official night.

Vessels bound outward should not pass Hawkins Point later than 45 minutes before the commencement of official night.

8. All vessels proceeding into or out of the Humber must be navigated by way of Hawke and Sunk roads passing to the northward of the Bull light-vessel, except those outward-bound from Grimsby, which may cross the Middle shoal leaving the Middle light-vessel on the starboard hand, but they must pass at once into the channel north of the Middle after rounding the light-vessel.

NOTE.—The five-fathom channel through the Sunk and Hawke roads is very narrow at the western entrance and also at a point north of the Middle light-vessel; deep-draught vessels steaming against the tide when approaching the buoys marking these portions of the channel should endeavour to avoid passing others between them by easing engines to allow ships with the tide under them to get through first. Smaller vessels outward-bound should pass close to the Southward of the buoys marking the south side, and those inward-bound close to the northward of the buoys marking the north side, of the narrow portions of the channel, provided always that their draught of water and the state of the tide will admit.

9. Sailing vessels of 50 tons register and upwards entering or leaving the Humber must be towed through Hawke road. Should tugs not be available, inward-bound vessels may anchor north-westward of the No. 2 Lower Middle light-boat at a distance of not more than $1\frac{1}{2}$ miles from it, but they must not bring the before-men-

tioned light-float to bear to the southward of 128° (S. 36° E. *Mag.*).

10. Vessels may now only pass into and out of the East end of the channel Southward of the Bureorn by a passage 170 feet wide each side of which is marked by a dolphin surmounted by a black triangle supported on a white pole. The dolphins are situated abreast of the West Pier Grimsby Dock Entrance practically in mid-channel.

Vessels making use of this passage are cautioned to keep well in the middle of the opening and are subject to the following regulations:—

1. Vessels navigating against the tide must in all cases give way to those navigating with the tide.
2. No vessel must approach the defences in this part of the river nearer than a quarter of a mile except to pass through the before-mentioned passage or to enter Grimsby Docks.
3. No vessel may tow more vessels at one time than she can safely navigate through the passage and under no circumstances is the tow to comprise more than three craft.
4. Distant signals will be shown from the flagstaff on the West Pier at the Grimsby Dock entrance as follows:—

(a) Two black balls will denote that the passage is open.

(b) Three black balls will denote that the passage is closed.

(c) No single being hoisted denotes that traffic is suspended.

When signal (b) three black balls is hoisted, no vessel may approach the passage, and when traffic is suspended no vessels, other than H. M. Ships on special duty, may use the passage.

11. PROHIBITED ANCHORAGE AREAS.

I. Anchorage is prohibited for all vessels between two imaginary lines:—

(a) Joining Stone Creek coast guard flagstaff and the eastern extremity of the eastern jetty at Immingham.

(b) Joining the riverward beacon of the two centre measured mile beacons on Sunk island and the northernmost of two clumps shown southward of Stallingham on Admiralty Chart No. 103. The latter line passes through the position of No. 6 Upper Bureorn buoy.

II. No merchant vessel shall anchor (except when granted special permission) between the before-mentioned prohibited anchorage area No. I and the line of transit of the eastern measured mile beacons on Sunk island produced to the Lincolnshire shore or (except as provided for in paragraph 9) to the northward of the line of the

Killingholme leading lights or within $1\frac{1}{2}$ cables of any of the Admiralty mooring buoys.

III. Anchorage is prohibited to merchant vessels of the whole of Grimsby roads to the eastward of the line joining New Clee railway station and Patrington Church.

IV. No vessel may anchor in the area eastward of Grimsby Docks shown as prohibited on Admiralty Chart No. 109 "Entrance to the River Humber."

V. Vessels are prohibited from anchoring in the entrance to the River Humber between the following limits:—

(a) A line drawn from Spurn lighthouse to the Bull light-vessel and produced thence to the Lincolnshire shore.

(b) A line drawn from Cleethorpes sewer outfall beacon in a 60° (No. 76° *E. Mag.*) direction to a point situated at a distance of 7 cables, 300° (No. 44° *W. Mag.*) from Spurn lighthouse.

12. All vessels entering or leaving Grimsby Docks must pass to southward of the No. 4 Lower Burcom gas-float except those bound up and down the river inside the Burcom shoal which are exempted from this condition, but no vessel may cross the Burcom shoal between the No. 5 Middle Burcom and No. 4 Lower Burcom buoys.

13. No vessel approach within a quarter of a mile of the boom defence or within three cables of any of H. M. ships at anchor in the Humber provided the depth of water and circumstances of navigation will admit of keeping this distance.

14. All vessels employed in laying moorings, raising wrecks, etc., must be passed at slow speed, propelling engines being eased at least 300 yards before reaching such vessels, and so continued for 150 yards after passing them. While the said mooring or wreck raising craft are at work they will each fly a red flag.

15. Anchor lights to be reduced in power and screened as prescribed in Admiralty Notice to-Mariners No. 1143 of 1916.

Vessels anchored in the Humber westward of the meridian of Greenwich are to exhibit anchor lights as mentioned above, except that between Immingham and Grimsby they are to be reduced in brilliancy so as to be invisible at any distance greater than half-a-mile. Eastward of the meridian of Greenwich no lights whatever are to be exhibited.

Anchor lights authorised by these orders are never on any account to be extinguished; the order "Out lights" will not apply to them.

Bow and masthead steaming lights as prescribed in Admiralty Notice to Mariners No. 1143 of 1916.

Other lights as prescribed in Admiralty Notice to Mariners No. 1143 of 1916,

and this order also applies to vessels in dock or alongside quays and jetties.

Notwithstanding anything in these orders, dredgers may be permitted to work at Hull at night provided all their lights are extinguished within half-an-hour of issue of the general order "Out Lights."

The above orders apply to vessels of every description, other than H.M. Ships. The latter should, however, comply so far as the visibility of anchor lights eastward of Immingham is concerned.

16. No tug is permitted to tow more than three crafts at one time through a gateway of the boom defence. Owners of tugs may apply to the Humber Conservancy Board for pilot licences for the masters of their vessels which will enable them to pilot their own vessels and river craft comprising their tow (in certain parts of the river). The number of craft towed will be restricted according to the power of the tug.

17. Humber Rule No. 18 is to be strictly enforced. No sound signals other than navigation signals authorised by the Regulations for preventing Collisions at Sea, and by Humber Rules Nos. 14 to 16 (inclusive) at all times of the day or night, and No. 17 during the day only, are on any account to be used by vessels in any part of the Humber: the Old Harbour at Hull, or within any of the docks at Hull.

Immingham or Grimsby.

18. Owners of small vessels plying in the vicinity of the Humber are instructed not to paint their craft *light grey*, and are hereby directed to have any vessels so coloured repainted. They are warned that small vessels painted *grey* run a great risk of being fired upon in mistake for submarines. Vessels painted *black* run the least risk.

REGULATIONS AFFECTING SMALL CRAFT IN THE VICINITY OF CLEETHORPES.

19. Pleasure boats may ply for hire at Cleethorpes only between the eastern and western sewer outfall beacons, and must keep within a distance of one mile from the shore. No vessel is allowed to shrimp, fish with lines, trawl, deposit or take up whelks, or anchor southward of the prohibited area shown on Admiralty Chart No. 109 between Grimsby docks entrance and a line drawn across the river three miles below it. Notwithstanding anything in these Orders, rowing boats may pass along the shore at Cleethorpes, but they must keep within 400 yards of the high water mark of spring tides.

EXCURSIONS BY WATER.

20. Excursions by water are limited to the River Humber above Hull, and the Rivers Ouse and Trent. Excursion steamers will not be allowed to ply without a

permit from the Admiralty Port Officer, Dock Offices, Immingham, and in no case are they to pass to the eastward of an imaginary line joining Victoria Dock entrance, Hull, and the East beacon on Skitterness.

Variation.—16° W.

Note.—This Admiralty Notice to Mariners is a re-publication of No. 932 of 1916 with additional information.

Caution.

This Admiralty Notice to Mariners is issued under the province of the Defence of the Realm (Consolidation) Regulations, 1914, and failure to comply strictly with the directions contained in it will constitute an offence against those Regulations.

Any person found guilty of such an offence is liable to severe penalties both of imprisonment and fine.

Any person aiding or abetting the commission of such an offence is himself guilty of an offence against the Regulations.

Attention is also drawn to the fact that any infringement of the directions contained in this Admiralty Notice to Mariners is liable to result in the detention of the ship or vessel.

Authority.—The Lords Commissioners of the Admiralty.

By Command of their Lordships,

J. F. PARRY,

Hydrographer.

第一 聯合國ノ希臘ニ對スル請求要領

(二月十九日ニューヨーク、タイムズ)

ALLIES' DEMANDS ON GREECE.

TEXT OF RESUME AS DELIVERED TO SECRETARY LANSING BY GREEK LEGATION.

Special to The New York Times.

WASHINGTON, Jan. 18.—Alexander Vouros, the Chargé d'Affaires of the Greek Legation, called at the State Department today and delivered, by instructions from his Government, a résumé of the demands made by the Entente Allies on the Greek King and Government, to which the latter have just acceded, following an ultimatum. The text of the résumé, as delivered in French today and translated into English, follows:

GUARANTEES.

“1. Greek forces in Continental Greece, Eubœa, and all the territories situated outside of the Peloponessus shall be reduced to the number of men strictly neces-

佛蘭西國法令

sary to preserve order and act as police. All armament and munitions in excess of that required for this force shall be transported to the Peloponessus, as well as all machine guns and artillery, with their munitions, in such fashion that when done there will no longer remain outside of the Peloponessus either guns, machine guns, or material of mobilization. The details of execution shall be worked out by common agreement as soon as the Greek Government shall have accepted in principle. The military situation thus established shall be maintained as long as the Allied Governments judge it necessary under the surveillance of special delegates.

“2. Interdiction of all meetings and assembly of reservists north of the Isthmus of Corinth. Interdiction against any civilian to carry arms.

“3. Re-establishment of the various allied methods of control under a form which shall be determined in accord with the Greek Government, in order to render them as little unpleasant as possible.

“REPARATIONS.

“4. All persons actually detained, whether for political reasons or for suspicion of high treason, plotting, or similar deeds, shall be immediate released. Those who shall have suffered unjustly through the events of Dec. 1 and 2 shall be indemnified after investigation carried out jointly by the Greek Government and the Allied

Governments.

“5. The commander of the First Army Corps shall be relieved of his command, unless the Royal Government establishes the fact that this measure ought to be applied to some other general officer, on whom responsibility for the orders of Dec. 1 should fall.

“6. The Hellenic Government shall present formal apologies to the Allied Ministers and the English, French, Italian and Russian flags shall be solemnly saluted at some public square in Athens in the presence of the whole garrison. At the same time the undersigned Ministers are charged by their Governments to bring to the attention of the Hellenic Government that military necessity may lead them shortly to embark troops at Itea for passage by railroad to Salonika. The guaranteeing powers inform the Hellenic Government that they reserve to themselves full liberty of action in case the attitude of the Greek Government shall give them a new subject of complaint; on their part they make toward the Hellenic Government the formal agreement not to permit the armed forces of the Government of National Defense to profit by the retreat of the Royal troops from Thessaly and Epirus to invade the neutral zone. The blockade of the Greek coast shall be maintained until such time as satisfaction has been accorded upon all the points indicated herewith.”
