AMERICAN HIGH TARIFF PLANS

Bill Is to Be Passed This Summer

Washington, June 8.—(Canadian Press)—Enactment of the Agriculture Tariff Bill, known as the Emergency Bill, is a forecast of what is going to happen when the measure for the permanent revision of the tariff is adopted.

The rates carried in the emergency bill are so high as to be almost prohibitive and will absolutely shut out imports. It is true that these rates will be scaled down in the permanent bill. For instance, the wheat rate, in which Canada is much interested, will probably be reduced from 35 cents to 25 or perhaps 20 cents.

Broadly speaking, however, the rates which are going to be fixed in the new permanent tariff schedule are high. They will be much above the rates of the existing Underwood law, and in some cases even higher than those of the Payne law which was enacted in 1909. In a great many cases, efforts will be made to have them on the same high level as the Payne rates.

Stone Wall

A republican member of Congress from the Middle West, when asked what sort of a permanent tariff bill would be enacted this Summer said: "The new bill will be intended to build a stone wall about the United States."

Of course the Democratic members, for the most part are not in sympathy with the plan to fix extremely high tariff rates. It is also true that a large number of Republicans in the House and the Senate are opposed to such high rates. Though there are some men in the administration who are fully conscious of the need of encouraging reciprocal and mutual trade between the United States and other countries, the Harding administration as a whole leans toward higher rates. Some of the members are said to fear the danger of a tariff war with Canada and other countries.

Will Have There Way

But Representative Fordney of Michigan, chairman of the House Ways and Means Committee, which makes up the tariff bill, and most of the members of that committee, as well as Chairman Penrose of the Senate Finance Committee and the majority of the Senators on that committee, are in favor of high tariff rates. The permanent tariff bill will to a large extent reflect the views of these high protectionists. The high protectionists will dominate the bill and while the low or moderate tariff exponents may be able to force concessions here and there, the indications are that the President Harding will sign whatever bill on the tariff is presented to him.

The manner in which trade between the United States and Canada is expanding was described to some extent in the course of the discussion on the emergency tariff measure. More will be heard on this same subject in the debate on the permanent bill. Objections will be made to high rates on goods imported from Europe, especially goods which are not luxuries, and on the ground that such rates will tend to block trade and prevent world rehabilitation and in the long run the United States will suffer by such blocking of trade. But such objections will weigh with the extreme tariff advocates. They are bound to try the effect of high duties whether or not just as they were in 1909. It will surprise if far reaching results, politically, follow from these rates, just as in 1909, but that is something which it is too early to tell about with precision. All that can be said definitely is that millions of United States consumers just now are in an extremely critical frame of mind and if the

cost of living is increased, it will be hard with the party in power. Moreover, unless the United States farmers find their condition is bettered substantially by the new tariff, their cost of living and cost of the things they purchase is reduced, they are going out with a club after the party in power also.

An Ambassador

Thinking men in Washington in times such as these do not hesitate to say it would tend to better mutual understanding if Canada were directly represented here by her own Ambassador, and this without reflection on the present diplomatic arrangement.

The scheme of Representative Longworth for which he has not yet secured legislation, whereby the new rates of duty will practically be made effective when the permanent tariff bill is presented to the House by the Ways and Means Committee, has strong support and likewise intense opposition. Just now it seems doubtful whether it can be forced through the Senate, though the situation has not developed clearly enough to tell accurately. It will at least encounter long and bitter Senate opposition.

OFFICERS MAY WRITE.

Washington, June 8.—A general order removing the alleged "gag rule" from the United States Navy had been approved by Secretary Denby, it is understood, and will be issued soon. In effect the order provides that hereafter officers may publish their articles without submitting them to the censorship of the Navy Department. Certain restrictions only are imposed regarding articles affecting international relations. It is understood, Officers, however, will be held responsible for any statement they make.

CHURCH UNION PLAN APPROVED

Favorable Vote by Presbyterian General Assembly

Toronto, June 8.—The General Assembly of the Presbyterian Church in Canada stands pledged to the principle of organic union with the Methodist Church and the Congregational Church. A vote was taken yesterday afternoon which resulted in 414 declaring in favor and 197 against the plan. This was little different from the vote on union taken at the Winnipeg Assembly in 1916, when the returns were 406 to 90 in favor of union. The first vote on the question of union, taken at Edmonton in 1911, was also in favor of union, but was not so decisive as the later votes.

The issue came before the 47th Assembly here last week in the form of two resolutions which had been sent on by a special committee, one moved by Rev. Dr. Clark of Montreal, "that the General Assembly take such steps as may be deemed best to effect organic union with the Methodist and Congregational churches, and an amendment moved by Rev. Dr. D. J. Fraser of Montreal, "that the Assembly at no time seek the consummation of organic union without clear and unmistakable mandate from the people."

When the time came for voting yesterday afternoon, the clerk called the roll and the commissioners called for the amendment, "amendment," as they desired to vote.

The vote.

The official figures of the vote were announced as follows:

For the Motion	414	For the Amendment	197
Abstentions	25		

For the motion, 229 ministers and 185 elders, making a total of 414. For the amendment, 61 ministers and 46 elders, making a total of 107. The vote by synods—ministers, elders and totals—for the motion and for the amendment were:

	For the Motion	For the Amendment
Ottawa	22 21—43	13 12—25
Montreal	35 24—59	11 11—22
Toronto and Kingston	47 38—85	12 7—19
Hamilton and London	23 28—51	10 8—18
Manitoba	20 20—40	0 2—2
Saskatchewan	37 27—64	2 1—3
Alberta	14 13—27	10 5—15
B. C.	15 8—23	6 7—13
Totals	229 185—414	61 46—107

Surprises

There were some surprises when the vote was taken. Throughout the debate, which lasted three days, the strong pro-union sentiment in the West was repeatedly emphasized, yet Alberta came last of all the synods in support of union, favoring the motion by only 62 per cent of its vote. Ninety-five per cent of the Manitoba vote was cast for union. The Winnipeg Presbytery, however, which 90 per cent were cast, went solid for church union. British Columbia supported union to the extent of 64 per cent of its vote, but had it not been for the vote of the Honan Synod, which is included in the British Columbia Synod, and which gave a solid vote for union, the showing would have been less pro-union. The Presbytery of Eastern Ontario, which take in Eastern Ontario, gave substantial support to the amendment.

Owing to the necessity of having Federal as well as Presbyterian legislation passed to ratify the transfer of church properties, leaders of the union forces predict that the adjustments will not be made and union take place within three years.

From Primates

Soon after the session opened yesterday afternoon the following message from the Moderator to the Moderator from the Most Rev. S. P. Mathieson, Archbishop of Rupertland and Anglican Primate of all Canada, was read:

"Permit me to convey two messages to the Moderator and the General Assembly of the Presbyterian Church. First, as a fellow Winnipegger, I congratulate you on your election to the presidency of a great assembly of a great church. Secondly, as Primate of the Church of England in Canada, I send warm greetings to the representatives of your church in council assembled, and I pray God's richest blessings may rest upon your deliberations. In the event of a standing vote, the moderator was authorized to reply conveying the thanks and greetings of the Assembly."

Next Meeting

The question of a meeting place for next year was referred to the general committee after an invitation had been given by Dr. E. D. McLaren to the Assembly to meet in Vancouver in 1922. Dr. E. Scott said heavy expenses would be entailed by meeting in Vancouver, chiefly in railway fares, and as the church paid the expenses, he urged that next year's meeting be held in Toronto. The matter was not decided.

Hymn Book

Dr. W. J. Dey, convener of the committee on church praise, proposed the publication of a hymn book for the 75,000 Ukrainians in the West, at a cost of \$300, and the Assembly approved.

A PECULIAR ART

London, June 8.—Recent announcements of the death of James Tubbs of Sobho, conveyed little to the average citizen, but it meant much to players of violins. Tubbs was a past master in the art of violin bow-making and numbered among his celebrities as Kreisler, Paganini, Bottaesini, Sironi, Gompertz and Strauss. In fact everyone in the violin world knew "Tubbs" of Sobho, who died in his small house in the heart of that district of London. Some years ago Tubbs retired and was succeeded by his son, but the latter died and Tubbs emerged again to his bow-making, at which he worked to the time of his death.

EX-JUDGE DIED.

Calgary, Ont., June 8.—Judge Austin Chadwick, formerly senior judge of the county of Wellington and judge of the surrogate court, died yesterday. He was in his eightieth year. E. M. Chadwick, K.C., Calgary, is a son.

WITNESSES AT CATTLE INQUIRY

Views on British Embargo Are Heard

London, June 8.—Further Irish evidence was heard yesterday by the cattle embargo commission when Colonel Westropp, of County Clare, stated that before the Act of 1916 Canadian cattle were known in the west of Ireland as "the big beasts, but very hungry," and a large number of Irish cattle could be fed on the same acreage. American cattle taking longer to mature.

The admission of cattle from abroad, said the witness, would much discourage Irish farmers, and the maintenance of home supplies also was an important provision against war risk. The entire Irish cattle trade resisted the removal of the embargo, he said.

Other witnesses held similar views. One who said he had spent twenty years in the United States, and who had accepted Canada's clean bill of health in the same way he would accept criminal statistics from a country with no police.

SIMS DENOUNCES HYPHENATES

London, June 8.—Rear-Admiral William Sims of the United States navy, advised Britishers and Americans to disregard "dangerous propaganda circulated in the United States by your enemies and ours," in addressing a luncheon of the English-speaking Union here yesterday.

In denouncing "American hyphenates," Admiral Sims said: "I do not want to touch on the Irish question, for I know nothing about it, and I haven't found any Englishman who does. But there are many in our country who technically are Americans, some of them naturalized and some born here, but none of them Americans at all. They are Americans when they want money, but Sinn Feiners when on the platform. They are making war on the United States to-day."

"The simple truth of it is that they have the blood of British and American boys on their hands for the obstructions they placed in the way of the most effective operations of the Allied naval forces during the war."

ANOTHER PAYMENT MADE BY GERMANY

New York, June 8.—The German Government made another payment of several million dollars toward the Allied reparations account yesterday. The exact figure was not revealed by officials of the Federal Reserve Bank, by whom the money was turned over to the credit of the Bank of England and the Bank of France. It was reported in Wall Street that the sum was approximately \$14,300,000. With the latest operation bringing the total payments to approximately \$50,000,000, it was said that an additional \$30,000,000 remained to be paid on this side by Germany in accordance with the schedule announced in Berlin.

A GOVERNMENT DEFEAT.

London, June 8.—The Coalition Government sustained a defeat in the St. George's Westminster, by-election which opened resulted in the election of J. M. Erskine, a Conservative standing upon an anti-waste ticket, with a majority of 1,885 over Sir Herbert Jessel, Conservative, championing the Coalition Government.

The figures were: Erskine, 7,244; Jessel, 5,358.

Deadly dullness marked the elec-

DESERTERS MAY OBTAIN DISCHARGE

Ottawa, June 8.—Regulations for the discharge of deserters and absentees without leave from the Canadian army overseas have been provided by Order-in-Council.

The applicant for discharge must procure from the militia headquarters at Ottawa or his military district a form of release, and must also sign a confession of desertion. According to the circumstances of the case, he will be discharged by reason of "misconduct," "demobilization," or "being medically unfit." If the deserter finds it necessary to apply personally to a competent military authority, he will do so at his own expense.

TREATY RATIFIED.

Paris, June 8.—The peace treaty with Hungary, which was signed June 4, 1920, in the Trianon Palace at Versailles, and is known as the "Treaty of Trianon," was ratified yesterday by the Chamber of Deputies, the vote being 478 in favor to 74 against.

MANITOBA GAS.

Brandon, June 8.—While drilling for water on his farm at Alva, Manitoba, Thomas Patterson found gas at 630 feet. Arrangements are being made to use the gas for farm and domestic purposes.

CANTEEN MONEY FOR CANADIANS

London, June 8.—The report of the British Parliamentary commission which investigated the disposition of army canteen funds has been completed and is now being reviewed by the Army Council.

Although no forecast is forthcoming, it is possible that Canada, which has already received more than \$1,000,000 from the fund, will obtain a further sum in the neighborhood of twice that amount.

KEY INDUSTRIES.

London, June 8.—The House of Commons last evening, by a vote of 312 to 92, passed the second reading of the bill for the protection of the key industries and for the prevention of dumping.

The bill has been severely criticized both inside and outside of Parliament, and the two-day debate was characterized by strong opposition from the free traders and rather lukewarm support even by some of the members of the Government party, especially as far as concerns proposals for dealing with dumping, which would aid the depreciated exchange.

"PEARLS OF PEKIN" IS COLORFUL COMEDY
Chinese and Cabaret Scenes in Pantages Feature.

William E. Bence, America's greatest impersonator of the almond-eyed Celestial, is in Victoria this week as the featured member of the cast of "Pearls of Pekin," a gorgeously staged musical comedy.

There is dash and brilliance in every minute of the act, the scenes suddenly transforming from the bubbles of a Chinese laundry to the froth of a modern cabaret. The Tabloid is presented by Henry Fink, who has obtained in addition to Mr. Bence, Miss Adelyn Estee, widely known prima donna, and a metropolitan cast of principals.

As in all shows of this kind, a lot depends on the chorus and in this case the chorus is one of the best features. The Chinese maidens and fashion models are good to look upon. The unusually strong plot, the lavish scenery effects and the costuming enhance the entertainment. "The Stage Carpenter," a comedy dramatic act offered by Edward Gordon and written by Ray Atwell, assisted by Clayton White, is the special added attraction of this week's bill. This is the famous Lamb's Gambol prize playlet which won the Lamb's Club silver cup offered for the best one-act play of the year. It was produced at their club house in New York City. The presentation on the Pantages circuit is by an all-star cast.

The scene is a dressing room in a one-night stand theatre, somewhere in the middle west, and the time is one hour before the evening performance on Christmas Day. Patrons of the Pantages will be able to anticipate the calibre of the performance they are to witness when they take into consideration that they are to see an act that won headline honors when presented before an audience of the most discriminating and artistic performers in the theatrical world.

Eaton and Sparling have been called "vociferous vocalizers," and judging from advance reports, they are all of that. They have a clever line of cross-fire repartee as well as a selection of songs of the comedy variety. Mr. Frank Barton's bell-like voice is a big surprise and between the two some first-class entertainment is offered.

Ethel and Ward Shattocks offer their latest success "The Flower Shop," a song or two interspersed with some witty dialogue and for good measure, they throw in some very clever juggling, making an artistic display. The scenic display is said to be a delight to the eye, while Miss Shattocks' costumes are according to the latest word in style.

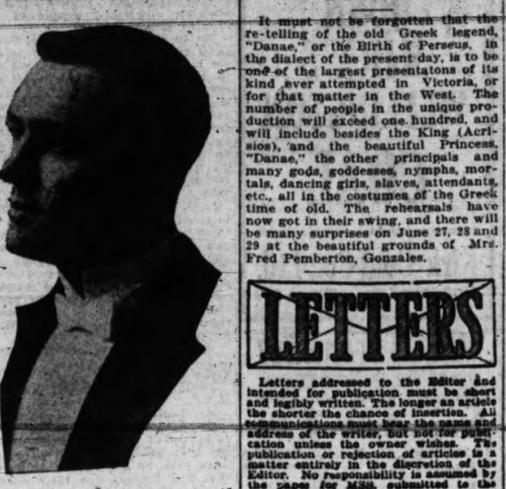

Arthur Green and Doris La Fell, lyric and melody specialists, appear in a programme of music, vocal selections and piano accompaniment. There is a touch of the unusual in the act and it is said to be exceptionally effective.

Pantages Theatre offers some new and striking moving pictures this week, the fifteenth and final chapter of "The Double Adventure" having been shown last week.

play her great ability as an actress, but it was not until she was furnished with a vehicle of still greater possibilities that she reached the peak of screen art.

Born and reared in Maryland where she was schooled in a convent, this brilliant star began her legitimate stage career in a Baltimore stock company. From there she went to New York where she appeared as "Modesty" in Henry W. Savage's production of "Everywoman."

For two seasons she was leading woman of "Mary Jane's Pal" and she might have been upon the stage yet had it not been for the fact that she spent one Summer vacation playing leads for Essanay in Chicago. Her work there encouraged her to leave the stage and take up screen acting as a career.

DOMINION
"The Nerviest Kid in America" That's the title of the sporting editors all over the country have handed Cameron Coffey, the world's greatest cup diver, now appearing in motion pictures.

From the time he was able to walk young Coffey was able to swim. And at the age of two he became an expert diver, so that he soon "head-lined" programmes all over America.

Nothing of the sort. Some months later Cameron surprised them all by beating his own height record by ten feet, besides inventing a couple of brand-new and difficult aquatic stunts.

Then it was that the sporting editors acclaimed him as "the nerviest kid in America."

Local photoplay audiences will have an opportunity to see "the nerviest kid in America" at the Dominion Theatre this week in "The Little Clown," a Mary Miles Minter picture play.

This picture is from a "big top" story by Avery Hopwood, author of "Fair and Warmer." Young Coffey has an appealing juvenile role in support of the blonde favorite. Other popular actors in the cast include Helen Dunbar, Winter Hall, Lura Anson, Lucien Littlefield—with Jack Muhlalt and Nesy Edwards in the leading male roles.

"The Little Clown" is a real honest to goodness circus story using a real circus with lions, elephants, bears, coyotes, monkeys, not to mention the famous followers all over the country, and the famous horse, "King George." Thomas Heffron directed the picture with Faxon Dean at the camera.

LAND SETTLEMENT.
To the Editor:—In your issue of June 2, Whitney Griffiths is reported as saying in reference to the Hon. E. D. Barrow's visit to the East coast settlements, "that price of land charged was not unreasonable." This statement should have been qualified. The companies operating are charging \$900 for 20 acres of raw bush, and they are forced to charge this amount partly through cost of putting in roads. In other words the settlers are paying for these roads and then handing them to the Government through the companies at a free gift.

Twenty acres of raw bush for \$900 bought on credit with no capital, often with no experience, with no possibility of rural credits or Government loans spells disaster. I have an advertisement on my file issued by one real estate firm with a clean record, where they emphasize that the settler can work out. This is pure imagination in a closely settled up part. There are ten men after every job and if the Government road work was distributed evenly, there would not be enough to go round. The saw-mills are closed, and excessive freight rates are slowing down activities. Interest charges and taxes will soon be accumulating on many of these properties.

This is not a matter now of condemning either the Government, the Land Department of the E. & N. Railway or the speculating companies operating, but only a system of land settlement that spells failure, and for which we are all jointly responsible. The problem will ultimately have to be approached, not in a spirit of condemnation for each other, but rather in a spirit of humility, admitting joint failure and seeking remedies, with a determination to find them.

Before we are you going to do with that innocent kind of English settler dumped in the raw bush? The wife of one such with her soft English voice recently said in a rural store that her husband had 18 acres of land covered with trees, such beautiful trees. She did not know they had bought so many beautiful trees." W. H. PRATT, Hilliers Crossing, June 4, 1921.

DR. BUTLER TO ADDRESS PREMIERS
New York, June 8.—(Canadian Press)—The New York Times declares editorially that an invitation extended to Dr. Nicholas Murray Butler, president of Columbia University, to address the forthcoming conference of Prime Ministers of the British Empire in London, is one more friendly gesture of the British Empire to the United States. President Butler last night announced that he had accepted the invitation to go to Australia to go to London. The Times editorially continues, "Premier Borden and Premier Hughes expressed themselves in the most emphatic way about the necessity of keeping in touch with American opinion. It will be noticed that the Premier of Canada, Mr. Meighen, who had not made any public address of that tenor, speaks on the eve of sailing for London in a way to show that the sympathies of his policy would undoubtedly be in the same direction."

It is fitting, therefore, that they have invited to speak to them an American spokesman of the gospel of sound internationalism. Canadian Club of Fergus held a bird house exhibit April 14.

CORNS
Lift Off with Fingers
Doesn't hurt a bit! Drop a little "Freesone" on an aching corn, instantly that corn stops burning, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freesone" for a few cents sufficient to remove every hard, soft corn, or corn between the toes, and the callus without scarring or irritation.

CHURCH UNION.

On three occasions the Presbyterian General Assembly of Canada has recorded its desire for "organic union" with the Methodist and Congregational Churches of this country.

The importance of a development of this kind lies in its proof of a re-awakened acceptance of responsibility among the religious life of the people. It suggests a determination to obliterate many of the denominational differences by the injection of a spirit of toleration more in keeping with the fundamental principles of biblical teaching.

No more striking desire for closer co-operation between the churches could be found than in the sentiments which produced a document embodying the reunion sentiment at the Lambeth Conference last year.

Closer relationship between the Church of England and the various bodies of Protestant Nonconformists would seem to be easier of attainment were the Free Churches themselves to perfect their own union.

It is because of the significance of the more comprehensive movement at this stage of the world's history that the attitude of the Presbyterian General Assembly towards something which should eventually remove some of the barriers that prevent closer and more harmonious co-operation between the Free and Established Churches.

BRITISH-AMERICA LEAGUE.

It must not be supposed that the beginning and end of a British-America League lies in its labors towards that single ideal which the hackneyed phrase of "amicable relations" would appear to convey.

While all the world is suffering in a lesser or greater degree from the backwash of war, while industrial Britain is in the throes of an upheaval which might easily have produced a revolution in any country save that inhabited by the stolid Briton, while Russia and Eastern Europe are creating diversions which would be placed in the cataclysmic variety in normal times—while all these things are

capacity to discharge it. No single nation may attempt to deliver a bankrupt Europe from the hands of the official receiver. Great Britain could not undertake it alone. It is an impossibility for France to think about it. But the British Empire and the United States directing a course with a single purpose would hold the promise of better things.

SOMETHING WRONG?

While the Department of Soldiers' Civil Re-establishment is naturally desirous of conducting its operations as economically as possible by the centralization of its activities and the reduction of its staff it will accomplish very little unless it pays due regard for the nature of the treatment that is necessary in all cases which come under its care.

JOKING WITH JUSTICE.

As the Leipzig Court develops its stride the attitude of the whole tribunal and its interpretation of that provision of the Treaty of Versailles which was responsible for its creation becomes more and more farcical.

THE RAY OF HOPE.

While all the world is suffering in a lesser or greater degree from the backwash of war, while industrial Britain is in the throes of an upheaval which might easily have produced a revolution in any country save that inhabited by the stolid Briton, while Russia and Eastern Europe are creating diversions which would be placed in the cataclysmic variety in normal times—while all these things are

taking place there comes the news that Canada's great wheat crop is going to be quite satisfactory. The people of this country are not unmindful of or unsympathetic towards the trials and tribulations of others; they rejoice in the natural wealth of their own land with more than an ordinary regard for the capacity of its acres to provide for those who are unable to provide for themselves.

NOTE AND COMMENT

Ulster's Parliament appears to have got off to a good start. The eyes of the world will be upon it for some time to come and even if its operation is able to remove only some of the popular misconceptions of British rule in Ireland it will have accomplished a good deal.

In his conversion of the Leipzig tribunal into a general whitewashing establishment the German Minister of Justice is evading a Treaty obligation which is more tragic in its significance than any of the accounting which his country has been compelled to undertake since the clash of arms ceased.

BID FAREWELL TO POPULAR PASTOR

Rev. and Mrs. D. M. Perley Receive Presentations

The congregation of Wilkinson Rd. Church met on Monday evening to bid farewell to their pastor, Rev. D. M. Perley, B. A., B. D., and Mrs. Perley, who leave at the close of a four-year term to enter their new field of work in Penitence.

PRESENTATION TO MR. PERLEY

Mr. Pimlott, Superintendent of the Sunday School on behalf of the congregation presented Mr. Perley with a beautiful gold watch engraved with the words "Presented to Rev. D. M. Perley by the congregation of Wilkinson Road Church, Victoria, B. C., 1921. The gift accompanied the following address read by City Solicitor, H. S. Pringle:

Dear Mr. Perley: It becomes my duty and privilege, representing the congregation of the Wilkinson Road Methodist Church, to make some informal remarks on this, the occasion of your removal from our midst to continue your work in other fields.

"It is a pleasure to say that your labors among us have been of a character so kindly and helpful that you seem to us now as much like a brother as a pastor. We also wish to assure you that we have fully appreciated your pastoral visits to our homes, your broad sympathy and ever-ready willingness to advise and render assistance whenever and wherever needed, thus exemplifying in a most practical way the principles and precepts of the Great Master whom we all wish to serve."

best natural way; and we feel that the same influence will be particularly of lasting value in the future Christian growth of the children and young people of our Sunday School.

"In so far as you and Mrs. Perley have endeavored yourselves to us and we have learned to understand and love you and have been helped and uplifted by your counsel, just so far and to the same degree do we regret to see you sever your connection from our church and community, but we feel that another church and another community will share what we have gained, and we wish you God-speed in your new sphere of labor."

"You also have become attached in some degree to the Wilkinson Rd. Church and its people and we hope you may often recall with pleasure and satisfaction some of your experiences among us, and to this end and as parting counsel, just so far and to the same degree do we regret to see you sever your connection from our church and community, but we feel that another church and another community will share what we have gained, and we wish you God-speed in your new sphere of labor."

During the evening members of the congregation rose in their seats and expressed the hope that it would not be long before Mr. and Mrs. Perley would be able to spend another four-year term with them.

HOUSEHOLDER; THIS FORM IS FOR YOU

Have you a cherry tree, a currant bush, or a potato patch? Have you a cow, or hens? Do you "keep a bee"? If your answer is "Yes" on any of these counts, and several similar ones, the census commissioner's men will have a special form for you, entitled "Animals, Animal Products, Fruits, Not on Farms."

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, June 8, 1896. "The best meeting ever held in Metchobin" was the verdict of many of the residents of that district who assembled at the public hall to hear addresses by Mr. Templeman and Dr. Milne, the opposition candidates and others last night.

About seventy members of the Victoria Woodmen of the World took part in the unveiling of the monument erected to the memory of their late brother, George H. Sampson. N. Shakespeare, Consul Commander, unveiled the monument.

THE NEWSPAPER enters the home and has a more intimate appeal to all members of the family than any other reading matter.

PREPARE FOR DEDICATION

Pacific Highway Postal Points Way to World Peace

September 6 near Blaine, Washington, the Pacific Highway Association will open its Peace Portal, which spans the highway 2,000 miles long reaching from Canada to Mexico.

First of Its Kind This Portal is the first ever erected in the history of the world for peace. The Brandenburg Thor in Berlin was for war; the Arch of Triumph in Paris for victory. This Portal celebrates the peace which has lasted for more than 100 years between the United States and Great Britain. The treaty was signed in Ghent in Belgium December 24th, 1814, between the United States and Great Britain; therefore Belgium participates in this ceremony. Possibly one-third of the people in Canada speak the French language; therefore, the French language was sought and secured. The flags of these four nations, Great Britain, France, Belgium and the United States are depicted on a marble slab struck to commemorate the occasion by the great Medallist of France, Pierre Boche.

The Structure The Portal itself is constructed in a somewhat novel way. Its architect was H. W. Corbett, erecting the largest commercial building ever erected in London, England; the second largest building built in New York was under his supervision. He wholeheartedly contributed his services to the cause of peace. An act of Parliament was secured, an Order-in-Council was made, permission of the local authorities was obtained, and the Portal is erected on the international boundary line between Canada and the United States where the ocean, railway and highway come together, and along this boundary line, over 2,000 miles in length, with no forts, no guns, no swords, the United States and Canada have lived in peace and harmony. The Portal looks out over the islands of the sea and over the lofty and towering peak of Mount Baker. An earthquake has ever occurred here, but the foundation was made of spires, perhaps three feet in diameter and twenty-five feet long, which were driven into the ground. On top of this was placed a great concrete slab; on top of this was placed a great structure of Grecian Doric type; so that an earthquake, as though it came, the Portal would vibrate and not crack. Two doors span the opening which leads from one country to the other; one of these doors has been opened and fastened in the walls, and across it written the words: "July 4, 1915 Open For One Hundred Years." The other door, recessed in the walls, bears the inscription: "May These Doors Never Be Closed."

Local Men Contribute Across the great plinth in front are written the words: "Children of a Common Mother," and on the reverse side the words: "Brothers Dwelling Together in Unity." The whole structure is built entirely of steel and concrete. R. P. Butchart of Victoria, B. C. generously donated the cement, and the iron was furnished by Elbridge H. Gary of New York. The work of construction was under the care of H. W. Bassett, an American by birth who lives in Victoria, and who wanted the work to be his contribution to the cause. The ground on the American side for a park has been secured, and plans have been made of the line covering both sides of the line. Robert Moran, Seattle's first mayor, now living on Orcas Island, has undertaken the selection and furnishing of native shrubs for beautifying the park.

A Great Scheme The Pacific Highway is now traversable throughout its entire length, and it will go well it will be completely hard surfaced by 1923. It is proposed to put the care of the highway, divide it into convenient strips of not less than five miles in length, into the hands of some local patriotic association, preferably the women's clubs, to induce care, maintenance and beautifying of the grounds adjoining the highway.

The simplicity of the Peace Portal will be broken only twice. The first ship to enter the Pacific Ocean propelled by steam was the "Beaver," which entered June 15, 1838. A piece of the wood of the steamship "Beaver" has been obtained from Captain John Irving (the beaver being the emblem of Canada) and will be placed on the Canadian side. A piece of wood of the "Mayflower" has been obtained and will be placed on the American side. A replica of each ship to be made of bronze will be placed over the tablets above mentioned, and once a year a ceremony of the opening of this shrine will occur, and those in attendance will hear the story told of how these two nations have lived in peace and harmony.

Mayflower Day September 6 was an important day in the world's history. Among other events which occurred on that day was the sailing of the "Mayflower." Marshal Joffre fought the Battle of the Marne on this day; it was also the birthday of America's greatest friend, General Lafayette. Marshal Joffre has promised to come and make an address on that day and formally open the Peace Portal, as he, more than anyone else, perhaps, represents the spirit of peace in

France. Marquis de Chambrun, the grandson of Lafayette, will also be present, and his address will give assurances that the friendship which his great ancestor had for the people of the new world remains unchanged. Those who participated in the ceremony which was held on the boundary line July 4, 1915, will be present and take some of the places on the programme. It is believed that the countries bordering on the Pacific Ocean will be officially represented. Whether or not the occasion will be graced by royalty is not at this time disclosed.

A Notable Film

A film, beginning on February 12, Abraham Lincoln's birthday, depicting the ceremony of the taking of the portion of the beam of the "Mayflower" at Jordans, England, which ceremony was participated in by generals and Quakers, Catholics and Protestants has been made. Another scene was depicted at Ghent, where the treaty was signed; in Brussels, where the Premier and the King of Belgium, King Albert, and Henri Carton de Wiart, the wife of the Premier who was imprisoned in Berlin for her loyalty to her country, Belgium, took part. The Acting Mayor also announced that he had decided, at the request of Police Commissioners Hall and North, to call a meeting of the Commission for Friday night for purposes so far unknown to him. The civic authorities have decided to defer the crusade to purify cabarets in order that they may see just how the new liquor law will work out in practice. The new Cabaret By-law, action upon which has been deferred for many weeks, will be pigeon-holed at the City Hall until the Mayor and aldermen can "size up" the new liquor conditions. It is thought that the by-law as originally drafted may have to be altered to meet unforeseen circumstances. On this account it is thought advisable to pass it just now.

Want By-law to Fit Conditions "Want to do pass a Cabaret By-law, we want it to fit prevailing conditions." Alderman Sangster explained this morning. "We don't know what will happen when the new liquor law goes into effect so we are just going to wait and see. When we have seen how the new law works out we can pass a by-law which will cover the situation as it exists." The decision of the City Council to defer action in the cabaret question undoubtedly will raise trouble in the Police Commission for Commissioner Joseph North is determined to get prompt action on the matter. Alderman Sangster this morning received formal written requests from Dr. Hall and Mr. North for a meeting of the Police Commissioner Friday night. Mr. Sangster said he was not sure since the other commissioners wish it, but what the idea is or what the meeting can do, he doesn't know. Alderman Sangster stated "I know of nothing that has to be done."

Mr. North said today that he would take up the cabaret question Friday and would press the matter. He stated that he had under consideration a number of other interesting matters which he would bring before the Commission.

CIVIL SERVANTS TO BROADEN SCOPE

Now Court Publicity and Plan For Cheaper Coal

To bring civil servants and the public in touch with one another, members of the Civil Servant Association at their meeting Monday night decided to broaden the scope of their monthly paper, "The Civil Servant." The paper will now become a semi-public publication. At the same time it was decided to throw open to the newspaper all regular meetings of the association, so that the public may get a proper perspective of Government employees and the problems they have to face. It was also decided to circulate the various branches of the association in the Province along the lines of the recent resolution calling on the Government to reconsider its decision against statutory increases for civil servants this year.

Move for Cheaper Coal To encourage the idea of direct sale of coal to consumers in large quantities at lower prices along the lines of the suggestions in the coal inquiry report of Commission of Henderson, mining companies will be asked for quotations on coal in truck and car loads.

R. A. Hunt, president, A. M. O. Fairbairn, secretary and A. B. McClelland were appointed delegates to the Provincial annual convention in Victoria during the last week of July. W. F. Bridge and W. H. Stokes were chosen alternates. The civil service picnic here will take place on July 9.

High water and swift currents have again attacked property of the Pacific Great Eastern Railway. This time piles and part of the terminal wharf at Squamish, southern end of the line, have been washed away by the Squamish River. A large amount of repair work will be necessary, according to information which reached the Parliament Buildings here today.

This is the second time that the river has washed away part of the wharf. "We will simply have to divert the channel of the river," said Premier Oliver.

Being forced to this step did not please the Premier today, as it will mean an increase of the Government's heavy outlay on this railway.

Boys' Work Board: Belleville has purchased on the north side of Moira Lake, five acres to be used as camping ground.

ABANDON "CLEAN UP" OF CABARETS FOR THE PRESENT

Wait For New Liquor Law; Police Board to Meet

The long-heralded "clean up" of Victoria cabarets will not be started until the new liquor law has been in force for some time. This is the decision which has been reached by the civic authorities, Acting Mayor Sangster, Chairman of the Police Commission, stated today. The Acting Mayor also announced that he had decided, at the request of Police Commissioners Hall and North, to call a meeting of the Commission for Friday night for purposes so far unknown to him. The civic authorities have decided to defer the crusade to purify cabarets in order that they may see just how the new liquor law will work out in practice. The new Cabaret By-law, action upon which has been deferred for many weeks, will be pigeon-holed at the City Hall until the Mayor and aldermen can "size up" the new liquor conditions. It is thought that the by-law as originally drafted may have to be altered to meet unforeseen circumstances. On this account it is thought advisable to pass it just now.

Want By-law to Fit Conditions "Want to do pass a Cabaret By-law, we want it to fit prevailing conditions." Alderman Sangster explained this morning. "We don't know what will happen when the new liquor law goes into effect so we are just going to wait and see. When we have seen how the new law works out we can pass a by-law which will cover the situation as it exists." The decision of the City Council to defer action in the cabaret question undoubtedly will raise trouble in the Police Commission for Commissioner Joseph North is determined to get prompt action on the matter. Alderman Sangster this morning received formal written requests from Dr. Hall and Mr. North for a meeting of the Police Commissioner Friday night. Mr. Sangster said he was not sure since the other commissioners wish it, but what the idea is or what the meeting can do, he doesn't know. Alderman Sangster stated "I know of nothing that has to be done."

Mr. North said today that he would take up the cabaret question Friday and would press the matter. He stated that he had under consideration a number of other interesting matters which he would bring before the Commission.

FARMER THOUGHT HE WOULD SMOTHER

Believes His Case Was Beyond Reach of Medicine, States Dougall; Is Restored

"At the time I began taking Tanlac, I was in such a awful fix, thought no medicine could help me, but now I'm in fine shape and can do as much work as I ever could," was the statement made by Peter Dougall, a well known farmer, residing at Edrara, Man., while at the Liggett Drug Store in Winnipeg recently. "Five years ago my health broke down, and before I could hardly realize it I found that I was suffering from one of the worst cases of indigestion a person can have. My food hurt me so bad that many times I thought I just could not endure it, and the gas on my stomach often pressed up around my heart until it beat like a steam hammer, and I often thought I would smother, for I could hardly get my breath. These spells often came on me at night and I just had to get up out of bed and open a window so I could get my breath. Many nights I hardly closed my eyes at all. Some months before I got Tanlac I got worse in every way, and it seemed that I was just about all in."

"During all this time I was under treatment constantly, and tried nearly everything; but kept going down hill right up until I got Tanlac. My first two bottles helped me so much I hardly felt like the same man, and now, after taking six bottles, there isn't a thing in the world wrong with me, and I can eat everything I want without a bit of trouble. I've picked up nearly ten pounds in weight, and feel as strong and well as I ever did. Just give me Tanlac, and you can have all the other medicines."

Tanlac is sold in Victoria by D. E. Campbell and all druggists.—Adv't.

RIVER WIPES AWAY PART P. G. E. TERMINAL

Section of Wharf at Squamish Again Succumbs to River

High water and swift currents have again attacked property of the Pacific Great Eastern Railway. This time piles and part of the terminal wharf at Squamish, southern end of the line, have been washed away by the Squamish River. A large amount of repair work will be necessary, according to information which reached the Parliament Buildings here today. This is the second time that the river has washed away part of the wharf. "We will simply have to divert the channel of the river," said Premier Oliver. Being forced to this step did not please the Premier today, as it will mean an increase of the Government's heavy outlay on this railway.

Boys' Work Board: Belleville has purchased on the north side of Moira Lake, five acres to be used as camping ground.

DEPRECATES CLASS CHASM IN CANADA

David Loughnan Addresses G.W.V.A. Branch Here

"The whole country is suffering from after-war selfishness. The men who became multi-millionaires during the war are anxious to keep up their pomp and luxury and want to keep the rest of the public down." The above was a remark made by Comrade David Loughnan, president of the Ottawa G. W. V. A., who came west as a representative of The Veteran to attend the Chilliwack convention, and who addressed the local branch at the Port Street headquarters last night.

Comrade Loughnan made a glowing speech in which he paid a high tribute to the Dominion-wide G. W. V. A. organization, its work and its objects. He did not confine his address entirely to the question of amalgamation, though that subject formed the topic of much of his speech. "Relief Will Be Wanted. The speaker prophesied that there would be need of the G. W. V. A. relief organization during next winter. He regretted that the Federal Government had prorogued without making any definite plans to cope with the unemployment situation. "The next six or eight months will witness Canada passing through the most critical stage of her history," he said. It was therefore necessary that the principles of the G. W. V. A., which aimed at unselfish service to humanity, should be strengthened by means of a house-cleaning throughout the entire breadth of the country, the appointment of leaders most suited to the positions, and the faithful allegiance of all members to their officers. The fact that members had taken dislike to association officers and had formed separate organizations with weak and inefficient followings had

been the damnation of the ex-service organizations. The G. W. V. A. was the only organization that during the past four years had been functioning as a Dominion-wide organization, and there was ample evidence that its influence had been felt at Ottawa. Not only the battle of its own members but the battles of those belonging to other organizations had been fought successfully at Ottawa through the machinery of the G. W. V. A. The speaker paid a high tribute to the work of Comrade MacNeill, of the Dominion Command, and his untiring energy and service in the interests of all returned men. "The Canadian Legion." "I have not yet seen the way that amalgamation of ex-service organizations could be effected," said Comrade Loughnan. I do not say that it cannot be done, and I trust something may be evolved whereby all returned men will be brought together before very long under one banner, the Canadian Legion, which would be 250,000 or 300,000 strong, he continued. The question of politics and membership qualifications were points that would have to be considered, he pointed out. Personally, the speaker did not agree that an ex-service organization should have political aspirations or leanings, and if amalgamation took place it would probably be a non-political organization. It was not now so much what had been accomplished in the past as what must be accomplished in the future that should occupy the attention of the organization, and its motto should continue to be Loyalty, Optimism and Unselfishness, said Comrade Loughnan. Progress is being carried on that would tear down the Empire, but it could safely be said that when the time came the G. W. V. A. would prove the mainstay of law and order in the land. Relief Work Needs. During his review of the relief work that had been carried on by the G. W. V. A. in Ottawa, Comrade Loughnan related how one millionaire the war had made, when approached for a contribution in aid of the widows and orphans of the men who had shed their blood for his protection had replied, "To hell with them!" the reference calling forth cries of "Shame" from the members. Ninety per cent. of the relief went

to non-members of the Association, said the speaker. Violent Contrast. "The trouble with the world today," he asserted, "is the extreme of riches and poverty. The millionaires with their limousines, yachts and palaces contrast with the poorly clad and crippled veteran who is subsisting on a pension and will probably go to a pauper's grave. On the one hand there are balls and banquets, diamonds flash and opulence reigns; that is the picture on one hand, wealth that is not being used as God gave it to men to use, but in damnable hypocrisy, which is responsible for the unrest that exists to-day and that will be responsible for a state of affairs which I hesitate and tremble to think of, if we do not soon as a nation come down to a mode of life which carries with it more unselfishness and realize the debt that we owe to each other and which will comfort and cheer and relieve the oppressed."

PAYS FIRST VISIT SINCE PROMOTION

As an official representative of the Dominion authorities at the Western Plant Quarantine Convention, now in progress here, R. C. Treherne is paying his first visit to Victoria since his promotion. Mr. Treherne, who is registered at the Dominion Hotel, has been transferred from the position of Federal entomologist in British Columbia to that of Chief of the Field Crop Division under the Entomological Branch of the Dominion Department of Agriculture. The appointment dated from June 1, but it is understood that except for a visit to the East for the purpose of taking over a division, Mr. Treherne will remain in British Columbia until the fall, when he will take up residence in Ottawa. The position now to be filled by Mr. Treherne was made vacant last fall by the elevation of Arthur Gibson, First Assistant and Chief of the Field Crop Division to the position of Dominion Entomologist, a position in turn, which became vacant following the death of Dr. C. Gordon Hewitt in the Spring of 1920. A few slight changes have been

FRAGRANCE -The aroma of "SALADA" TEA

VANCOUVER ISLAND NEWS

Preparing Date. E. H. Blackmore, of Victoria, one of the leading entomologists of Canada, spent a few days last week in Ladysmith, going over local collections of moths, etc., says The Ladysmith Chronicle. He is completing a check list for the B. C. Government, which will be issued at an early date. Shawigan Lake, June 8.—A special added attraction has been booked for the holiday seekers in Shawigan Lake district, on Saturday, June 11, when the Three K's Vaudeville Party (Krusader, Komedy, Kompany), will present their "Real Night of Fun" at the S. L. A. A. Hall, commencing at 8 o'clock, standard time. This party of local boys from Victoria have given a number of shows in Victoria, Esquimalt, Metchoan and other noted places on the island, and this concert at Shawigan Lake will make their last appearance this season. A few slight changes have been

TO REMOVE BAD COLD MEDICINE NOT NECESSARY

The Balsamic Vapor of "Cattarhozone" When Inhaled Quickly Disperses Colds. Every breath you draw through Cattarhozone Inhaler fills the whole breathing apparatus with pure piney essences that stops colds at their very beginning. You experience a pleasant sensation of relief at once. Soreness, congestion, and irritation leave the nose and throat—the head is cleared, and every trace of cold and Cattarh disappears. Cattarhozone is so sure, so pleasant, such a safe remedy for winter ills that you can't afford to do without it. Get the dollar outfit, it lasts two months; small size, 50c; trial size, 25c; at all dealers or the Cattarhozone Co., Montreal. —Adv't.

The Standard of Tire Values

AFTER you test DOMINION TIRES on your own car, it is easy to understand why you are with the big majority of experienced motorists.

It is not alone because DOMINION TIRES give eminently satisfactory mileage. It is not alone because you have less tire trouble. It is not alone because the car rides easier and you have a feeling of security and comfort. It is not alone because you get greater pleasure in riding the car. It is obtaining all four of these desirable features that makes you such a loyal and enthusiastic friend of DOMINION TIRES.

These good tires serve you so well because they are made so well. Whether you prefer "DOMINION ROYAL CORD"—"NOBBY"—"CHAIN"—"GROOVED"—"DOMINION"—or "PLAIN" tread, you get materials and workmanship in DOMINION TIRES that have no superiors in the world.

With this variety of treads from which to choose, and with the certainty of quality and value which the name DOMINION assures, you can pick the DOMINION TIRES best suited to your car, no matter what the size or make.

Dependable dealers carry DOMINION TIRES. You can take their advice on every tire question, and rely on their judgment in fitting your car with the right tires. They also carry DOMINION INNER TUBES and DOMINION TIRE ACCESSORIES.

Dominion Tires are GOOD Tires

PROPOSE FERRY TO ELIMINATE GRADES

Deep Cove to Mill Bay Service For Freight Automobiles Discussed

To discuss the possibilities of establishing a ferry service between Deep Cove on the northeast extremity of Spanish Peninsula and Mill Bay, just the other side of the Malahat Drive, in order to link up a transportation system for freight and passenger automobile service between Victoria and up-land points that would eliminate the steep grades encountered on the Malahat Scenic Drive, a meeting was held yesterday afternoon in the offices of the Victoria and Island Development Association.

The Chamber of Commerce and other interested bodies have been invited to send representatives to this meeting, and the idea is to possibly establish a barge between these two points that would be operated by a stationary steam engine or possibly gasoline power for driving a propeller, or side wheels. These sort of ferries have been operated successfully in many waters on this coast where such connections are necessary to the efficient and economical handling of passengers and freight.

NEWS AND NOTES OF THE MINES

Geological Survey Dr. S. J. Schofield of the University of B. C. staff, reached Cranbrook recently, and with two assistants is now engaging in the work of completing a geological survey of the East Kootenay district. Some time ago the Prospectors' Association asked the Federal authorities to permit Dr. Schofield to complete this survey work, and received through the Provincial Department of Mines word that this would be done. Dr. Schofield appeared on the scene last week and has already established a camp at Joseph Creek some seven miles or so out of the

city at the foot of Baker Mountain. He intends to work up and down around the Kootenay River using a car where possible, the intention being to complete the topographical map of the district by joining up that of the East Kootenay with that of the Windermere, which have already been done. He may also be called upon to do some inspection work, and may look up some new phases of formations that have come to light during the process of development.

Wild Horse Creek After nearly three years of preliminary preparation, during which time more than the usual amount of grief, endurance and obstruction has been encountered and overcome, thanks to the determination of those at the head of the Gamble Mining Company, who hold large placer claims on this coast where such connections are necessary to the efficient and economical handling of passengers and freight.

In company with Messrs. Beattie, Ward and Hogarth, Cranbrook Courier representative, was accorded a glimpse over the workings. The crew were busy at work on the first clean-up of the year, which showed promising results. He observed two pans of the yellow metal each bearing estimated values of about \$400, which was the cleanings from one sluice box only. In contrast with other mining propositions in the Kootenays, every man on the job at Wild Horse is optimistic over the prospects of encountering a fair share of the metal that has stamped nations and sent thousands of men into the primeval thirsting for life-giving and that end-in-view miners are digging and sifting, raking and sifting. The old spirit of the early seventies is upon them when royalty on \$15,000,000 was collected by the government. It is estimated a like amount never came under the eye of the gold commissioner, for in the palmy days of the gold rush at the gulch the precious metal was too abundant to worry over anything like \$15,000,000.

Water diverted from Boulder and Fisher Creeks and there is plenty of it, the force being sufficient to move great boulders at ease, and send them racing through the sluice at a speed which makes one's head whirl. Lately the company are washing in virgin ground and are encountering immensurable boulders, a healthy indication that gold will be found in paying quantities, so Mr. House informed the tenderfoot from Cranbrook. In a few instances water had to be employed to shatter a few of the giant boulders.

A GAMBLE IN BEAUTY

By NANCIBELLE MALE

ONE LOVE STORY YOU NEVER CAN FORGET.

The Romance of Two Sisters, Both Beautiful, One Demure, the Other Vampish—With Thrills in Every Chapter and an Unexpected Denouement.

CHAPTER XIV.

"Your sister had been waiting here two hours," she said, as she opened the door for Varia. "I didn't like to go."

"You go now, Sally," Varia insisted, "and thank you for waiting." Varia walked slowly along the hall, thinking with something like dread of the scene before her. She distrusted Nina now from the bottom of her heart; it made her unhappy just to think of seeing her.

But it must be gone through with. "Lo!" Nina said casually as Varia came into the living room. Nina was seated in the chair by the desk, and as Varia came in she put her hand hurriedly over some sheets of paper on which she had been writing.

"She had thrown back the wonderful wrap of mink, but her eyes were fixed and lovely, had lost some of its nerve." "I was writing you a silly note, Varia," she said gravely. "Here it is, if you want to read it." She held out the scrawled sheets and then, as Varia hesitated about coming across to her, she changed her mind as quickly. "It's the sort of thing I'd never say," she tore the pages across and flung them carelessly into the waste basket.

"I haven't come to apologize; you don't need to think that." "No," Varia answered in a very low voice. She had sunk down on the day-bed, and neither removed her hat nor her furs. She looked steadily across at Nina.

son and common sense—hoping when she should have faced the truth. SHE loved Nina. Through it all—Nina's wildness, her moods, her temper—she still loved her.

The gray light deepened in the room and Varia put her hands over her face. He offered her his sober friendship, his respect, but she knew in that moment of discovery that she would have given it all for just one tiny atom of the fire she had not struck from him.

Her hands dropped away from her face and she looked at the hard object in the pocket of her skirt. Lifting it up curiously in the half light, she saw that it was the tiny statue of St. Joseph that Molly had given her.

"Why, Adam, you're as serious as a lawyer," she said, hoping to rally him; "ever since I saw you in your office, you've filled me with awe."

Adam had shoved his hands deep into his pockets. He leaned back in his chair, his long legs stretched before him, looking at Varia with a sudden intensity.

TREFOUSSE GLOVES GORDON DUNLOPS LIMITED BURBERRY COATS

Special Clearance of Women's Spring Coats at Great Price Reductions

NOW \$25.00 AND \$35.00 EACH

The excellent opportunity presented here should appeal to those women who seek coats of unusual merit at moderate cost. These are models from our regular stock and have been placed in two groups to effect a quick disposal.

POSTAL CHANGES PROVE BOMBSHELL

Ottawa Kept Plan to Close Victoria Inspectorship Secret for Months

The activities of efficiency experts, who have been combing the Dominion Civil Service organization from headquarters at Ottawa, have resulted in the prospective closing of the Post Office Inspectorship in Victoria and its combination with the Vancouver office. This course is in line with a policy being put in effect throughout Canada, similar consolidation steps having resulted in the closing of the Edmonton and Lethbridge offices and transference of the work to Calgary.

Homely and Aged Faces Now Easily Beautified

The plainest faces made beautiful and the complexion of good-looking women improved, oldish faces made young and pretty, blemished and weather-worn faces made spotless, white and gummy—in less than two weeks, by a very simple and harmless process that acts almost like a miracle. This is all there is to it: Ordinary macerated wax, procured at any drug store (one ounce will do), is applied nightly like cold cream, and washed off mornings. This gradually turns off the lifeless particles of surface skin, permitting the underlying skin to show itself. The newer, fresher skin, when wholly in evidence, forms a complexion which for beauty and youthfulness is incomparable with one produced by other means. A complexion so natural, so free from artificiality, no one guesses the secret of its attainment. You'll not regret trying this really marvellous treatment. To quickly remove wrinkles, signs of care and age, besethe face occasionally in a solution of powdered salolite, one ounce, dissolved in one-half pint witch hazel. The results will surprise you. (Adv.)

MORE STRINGENT DRUG PENALTIES ENDORSED BY CITY

Council Gets Behind Move Against Illicit Traffic

Heavily increased penalties for drug sellers were endorsed by the City Council Monday night, on recommendation of City Health Officer A. G. Price. Dr. Price's recommendations on the drug question were submitted following the receipt of proposed amendments to the Opium and Drug Act from Vancouver.

SPEEDING UP WORK ON LARGEST LINER

Bismarck, to Be Renamed Majestic, Taking Shape for White Star Line

An army of two thousand men are working on the giant liner Bismarck, which is to be renamed the Majestic when she is launched.

The liner is 956 feet over all, ten feet longer than the Vaterland; 100 feet beam, of 73 feet depth and 64,000 gross tonnage.

Passengers who have not had their passports issued by the date of entry into Japan, according to information received by W. R. Dale, local agent for the Nippon Yusen Kaisha.

There will be a restaurant on the upper deck, a gymnasium, winter garden, swimming pool, ballroom and a stage for theatricals on a bottom of the engine room.

The rooms on the deck are larger than those on any previous ship, including the Olympic.

The Majestic gives the observer an idea of great space. The captain's bridge is 190 feet above the water and the masthead 254 feet high.

Blohm & Voess say that she will be better than the Vaterland, as they have learned by experience.

The local office of the Canadian Pacific Railway has been advised that the liner Empress of Scotland, formerly the German liner Kaiserin Augusta Victoria, will sail from Liverpool July 29, on her first voyage in the company's service between England and Canada.

The Empress of Scotland is a vessel of 25,000 tons, 700 feet long, and will be the largest ship plying on the short steamship route between the United Kingdom and Canada.

The following schedule for the Empress of Scotland is announced: From Liverpool: July 29, August 27, September 24, October 21.

On Friday next the C. P. R. steamer Island Princess will make a day excursion to Maple Bay, sailing from the Belleville Street docks at 10 a. m. (city time) June 10.

The Harrison Line freighter Spectator, Capt. W. T. Owen, was at the Outer Docks to-day discharging about 1,000 cases of whisky for the Provincial Liquor Board.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tails Safe, Certain, Speedy Relief For Acid Indigestion

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or sources of acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antacid, such as Bisulphated Magnesia, which is obtained from any drugstore in either powder or tablet form, enables the stomach to do its work properly, taking place in the stomach, causing the formation of gas and acid indigestion.

Increased unemployment among Japanese seamen is the outcome of the continued shipping depression. According to word brought here by the liner Manila Maru, 146 vessels, totaling 250,000 tons gross are tied up at Japanese ports.

JUDGMENT AGAINST WHALEN COMPANY IN INSURANCE ACTION

Vancouver, June 8.—Judgment has been rendered by Mr. Justice Murphy concluding the trial of the Standard Marine Insurance Company of Liverpool against the Whalen Pulp and Paper Mills, Ltd., in favor of the plaintiff, who was awarded \$12,157 and costs.

The action was to recover loss under an insurance policy following damage to a cargo of paper pulp at Mill Creek in February, 1919, when the barge Baramba sank.

Although the question of seaworthiness had been raised by the plaintiff, and His Lordship found the Baramba was unseaworthy, the judgment did not rest on the issue, because the trial judge was also of the opinion the Baramba's condition was not known to her charterers, the Whalen company. The insurance policy was vitiated, according to Mr. Justice Murphy, following non-disclosure by the Whalen company that it was unable to obtain insurance on the barge from other companies.

TAJIMA TO CARRY KAMCHATKA HERRING TO UNITED KINGDOM

The Japanese steamship Tajima Maru, formerly in the North Pacific service of the Nippon Yusen Kaisha, is to be utilized for the shipment of herring from Kamchatka to England. The Tajima Maru is now on the Bombay run, but after completing the present trip she will be taken out of the Indian service and sent to Kamchatka about August 5.

She will carry a cargo of herring to London and Liverpool under contract with the Russo-Japanese Fishing Company. This is the first time that a 10,000-ton vessel has been detailed for the shipment of Kamchatkan products, much smaller vessels having been used in the past. These vessels, however, simply carried the products to Japan and there, transhipped to Europe.

Owing to the recent shut-down of the steel plant, the Sault Ste. Marie Council will make the first installment of taxes payable on June 15 instead of May 15.

TWO CUNARDERS TAKE ROTARIANS TO SCOTLAND

Caronia and Cameronia Carrying 1,100 Conventioneers Across Atlantic

Rotarians to the number of eleven hundred sailed June 1 on the Cunard steamship Caronia and the new Anchor Line steamship Cameronia for the International Convention of Rotary Clubs to be held in the Scottish capital June 12 to 16, the delegates and their wives going by water to Glasgow and Liverpool and thence by train to Edinburgh. They occupy all the cabin accommodations on both steamers, having chartered them outright for the voyage, the Caronia carrying a party of five hundred and the Cameronia six hundred.

Great preparations have been completed to make the trip at sea interesting on both steamers.

Past International President Arch Klumph is General Chairman of the Caronia and International Treasurer Rufe Chapin, of Chicago, is General Vice Chairman. Pete Harvey, of Chicago, will take charge of the athletics on board and will be assisted by Lutch Stark, of Orange. Al Brunner, of San Francisco, will be the social chairman, and John Turner, of Tampa, will be his aide.

On the Cameronia President Pete Smedecor, of Portland, Ore., will officiate as General Chairman for all gatherings, assisted by Sec.-Gen. Chesley R. Perry, of Chicago. Ralph Cummings, of Lancaster, will head the committee on athletics, the vice chairman being Bert Scribner, of Pueblo. The social functions will be chaperoned by Guy Gundaker, of Philadelphia, as Chairman, and Nelson Pike, of Portland, as Vice Chairman.

The committees headed by these gentlemen have something in view for every daylight and evening hour of the voyage. There is to be no dull time. Loads of prizes to be awarded to winners in contests have been placed on board the steamers.

Daily papers are published on the Cunard and Anchor Line steamers. They print the wireless news of the day and newsy gossip picked up on shipboard. For this trip Harry Stanton, of Toronto, will be editor in chief of The Daily Bulletin on the Caronia and will be assisted by "City" Editor Ed Stock, of Washington, and a corps of reporters who will make the columns sparkle with some unusual paragraphs. The Cameronia Daily Bulletin will be edited by Lou Hicks, of Atlanta, and Everett Hill, of Shawnee, and they will have many aid writing assistants.

The convention at Edinburgh will be the first held outside of the United States and a programme of great excellence is said to await the delegates.

Many side trips will be taken by the Rotarians after the closing of the convention, all the big touring companies offering itineraries which include personally conducted tours through Scotland, England, France, Switzerland and Italy. The majority of the Rotarians will visit the battlefields of France and Flanders.

Many of the delegates are accompanied by their wives and will return on dates varying from June 25 to October 29, many intending to spend the entire summer abroad.

There are over nine hundred Rotarian Clubs in the United States, with a total membership of 65,500.

"The Moping Owl Does to the Moon Complain"

Many of those who wallowed in the fleshpots of prosperity are moping during these days of recession.

They are wondering whether the world is still revolving and whether they will buy anything any more.

They are willing that everyone else's house shall tumble, except their own. They remind one of Gray's lines—

"The moping owl does to the moon complain Of such a waning near her secret bow'r, Molest her ancient solitary reign."

Now, one must buy in order to sell. The axis of progression is industry. But industry can only flourish when people buy normally.

Supposing you or any member of your family is engaged in a business or profession.

Suppose people refuse to buy the goods or services that they take part in producing or selling.

It makes no difference whether the goods are foodstuffs, or for raiment shelter or articles of luxury or professional services (as those of a lawyer)—the principle is the same.

If people cease buying these goods or services your prosperity and the prosperity of your family becomes seriously impaired.

The sensible thing for all to do is to continue normal buying. Not only of the things one must have in order to live, but of those things that add to the refinements of living.

But—and this is very important—give preference when you buy to the merchant who advertises in daily newspapers and buy advertised goods.

The local merchant who advertises and the manufacturer who advertises are doing more to bring about a return to normal prosperity than any other trader.

For this reason they have first claim upon your patronage.

SKIMMING BOAT IS DELIVERED HERE

Shallow-draft Speedster Will Establish New Water Records

Great interest is being displayed in the "skimming boat" delivered here to-day by the Harrison Line freighter Spectator.

This novel speed craft, which is consigned to Norman Yarrow, of Yarrows, Ltd., Esquimalt, is propelled by an aeroplane type petrol engine of 500-horsepower, and drives over the surface of the water by means of an air propeller at a speed of anything from 40 to 50 miles an hour.

The craft is constructed of a series of pontoons and can carry eight people. Prior to the dispatch of the craft from the Clyde, the Prince of Wales enjoyed the exhilarating experience of a trip on this flyer with Harold E. Yarrow, C.B.E., managing director of Messrs. Yarrow & Co. Ltd., as her captain.

The development of this type of vessel is largely due to the experiments of the Comite de Lambert, who was the pioneer of swimming-boats. He started his experiments in 1897 with steam-driven water-propelled vessels on the Thames, and has been experimenting ever since.

As one of the pioneers of flying in Europe, the Comite de Lambert, who worked in conjunction with the Wright Brothers, was the first aviator to fly round the Eiffel Tower, in Paris, for which he was awarded the Legion of Honor.

The Comite de Lambert is also well known as a competitor in the early motorboat races at Monaco.

As soon as the "De Lambert" skimming boat delivered here has been assembled and "tuned up," Norman Yarrow will stage some speed thrills.

NEW EMPRESS LINER TO ENTER ATLANTIC SERVICE IN JULY

R.M.S. Empress of Scotland to Leave Liverpool for Quebec on July 29

The local office of the Canadian Pacific Railway has been advised that the liner Empress of Scotland, formerly the German liner Kaiserin Augusta Victoria, will sail from Liverpool July 29, on her first voyage in the company's service between England and Canada.

The Empress of Scotland is a vessel of 25,000 tons, 700 feet long, and will be the largest ship plying on the short steamship route between the United Kingdom and Canada.

The following schedule for the Empress of Scotland is announced: From Liverpool: July 29, August 27, September 24, October 21.

Crippled Ball Teams In Ding-Dong Battle

Capitals Overtook Beavers in Sixth Inning by Scoring Four Runs and Won First Game of Series.—Vancouver Used Three Pitchers in First Inning.—Easter Pitched Fine Ball for Victoria.

Victoria 11—Vancouver 7.
Victoria outstepped Vancouver in a crippled battle at the Stadium last evening. Both teams lacked several of their regular players through injuries and suspensions. The Beavers undoubtedly had the edge in the number of cripples carried through the fact that four of their pitchers were sent to the mound and each one seemed to have a cracked arm. The visiting hurlers had little that puzzled the Capitals. Rachac, the pitcher of many tiring poses, was the most effective of the squad, but he felt the ice blocks in the sixth inning when Victoria scored four runs.

The Capitals' infield was shifted around to plug up the gaps left through Handley's injury and Dempsey's suspension. Messner moved over from second to third and Shoots left the outfield to take care of the keystone sack. Hanson looked after the play around first base.
Victoria Also Shift Infield
Vancouver had to juggle about its infield owing to injuries to the two Purcell boys. Billy, who manages Vancouver, let Boelke play third in his place, and Jim Riley was at short in Brother Mark's place, while Bishop filled in at second in Riley's old stamping grounds. Vancouver came near having another player added to its long string of injured when Moose Solomon slid into second base in the seventh inning. Solomon, however, managed to finish the game after coaxing his ankle along a bit.

Despite the fact that both teams were not at their top strength, the game proceeded the fans with two and a half hours' excitement. It was a see-saw game, with Vancouver holding a comfortable lead until the sixth inning, when Victoria stopped to the front. The Beavers almost caught the Caps in the seventh, but failed by the odd run, and then to make sure that the game was their's the locals knocked in three runs in their half of the seventh.

Two Bad Openings

Vancouver rung the bell twice in the first inning. Thompson, who started to twirl for the Capitals, had trouble keeping the ball on the alley and a base on ball, a double and a single, accounted for two tallies. Then commenced a good round of amusement for the fans. Bruck, the team boy, who was selected to pitch to the Beavers to victory, had a hard job keeping the ball in the lot. Messner walked on the first four balls pitched. Then Bruck heaved three balls to Shoots, and Purcell gave Bruck the high sign to trot to the duck-pond. Hartman, a very ambitious-looking moundman, walked into a bunch of nettles when he started to fling to the Caps. Shoots slapped the first ball he pitched for a single, and Engle followed with a double, which scored two runs. Backhead cracked a single to right, scoring Engle and chasing Hartman off the diamond.

Broke Up Party

With three runs in, no one out, and everybody hitting things, looked good for the Caps, but Rachac, who took up the horrid burden of pitching to slants at the locals, stemmed the tide, and held the Caps in check for four innings.

The Beavers missed up Thompson's underhand shoots for three runs in the second. Greco hit a homerun as a starter and Hermison cracked out a double as a chaser. Cleason nipped a single, scoring Hermison. Gleason scored on a wild pitch.

Ester Relieves Thompson

When the Beavers caught Thompson napping in the third and grabbed two singles, Easter was called from the bull-pen and for the remainder of the game had the Vancouver tribe as humble as a bunch of beggars. Easter was in fine form and should not have been scored on. Errors by Shoots and Shannon allowed the Beavers to tally twice in the seventh. Easter struck out ten men in the six innings that he worked.

Victoria grabbed off a run in the fourth when Rachac walked a man with bases full.
In the sixth the Caps collared four more runs on four singles, a sacrifice, two stolen bases and two errors.
Shoots' homerun in the seventh with two men on the pillows gave the Capitals three more runs and ended the scoring.

Ended Losing Streak

Yesterday's win marked the end of the long losing streak which has been experienced by the Capitals. Vancouver still remain on a tobag and probably will not be able to hit a winning stride until the Purcell boys get back into the game.
The second game of a double-header is being played tonight at 7 o'clock. The teams will open a

Victoria's Leading Marksman Off For Bisley on His Eleventh Trip

The local marksman has won the championship of the province of Manitoba, Alberta, Ontario and British Columbia as well as the Canadian championship. Besides his ten Big Game badges he holds the King's badge and St. George's badge, the grand aggregate bronze crosses, Service Rifle Championship bronzes, Gold Medal All Comers and Gold Cup, Kalopore Gold Elephant, McKinnon and Jubilee Silver Cups, Lord Strathcona Silver Cup. Besides many minor prizes.

MAJOR FRED RICHARDSON, O. B. E.

When the Vancouver boat pulled out this afternoon among its passengers was numbered Major Fred Richardson, the veteran shot, who can hit the eye of a needle at a hundred yards. Fred is away again for Bisley to try and win the King's Prize. He has been trying to annex this honor for the past twenty years. He first crossed the Atlantic in 1901 and since then has made nine visits. From 1901 until the outbreak of war Fred was each year a member of the Canadian Bisley team. Lots of young shots have been developed since Fred started shooting but they can't punch the bull's-eye as effectively as the veteran. When Canadian shots competed for places on this year's team Major Richardson won second place in the Grand Aggregate.

The local marksman has won the championship of the province of Manitoba, Alberta, Ontario and British Columbia as well as the Canadian championship. Besides his ten Big Game badges he holds the King's badge and St. George's badge, the grand aggregate bronze crosses, Service Rifle Championship bronzes, Gold Medal All Comers and Gold Cup, Kalopore Gold Elephant, McKinnon and Jubilee Silver Cups, Lord Strathcona Silver Cup. Besides many minor prizes.

It is interesting to note that Victoria has been represented on the Canadian Bisley team for the last twenty-one years without a break, which is a record that no other city of its size in Canada can bespeak. Sgt. S. Carr, Lt. J. Caven, Sgt.-Maj. E. Macdougall, Pte. Fleming and S. S. Read have been the other local representatives.
Victoria wish Major Richardson every luck in his trip to Bisley this year and hope that he brings home the King's prize.

President of Tacoma Ball Club Quits Job

Dr. Van Valzah Resigns as Result of President Burnett's Ruling in Yakima.—Tacoma Argument.—Fines to be Plastered on Players Chased Out of Games.

Tacoma, June 8.—Dr. Van Valzah, president of the Tacoma Tigers, last evening announced his resignation as leader of the local Pacific International baseball club.
In a letter to The Ledger, Dr. Van Valzah stated that he was tendering his resignation to the club directors, the same to take effect at once. In his statement, Dr. Van Valzah declares that he has been considering this move for some time, and that only the pleadings of many friends caused him to hold the position as long as he did. While it is known that President Van Valzah has encountered the usual woes and grief of a minor league club leader and has more than once been on the verge of quitting, it is thought that the squabble with the Yakima club in regard to the present series, was the culminating and deciding factor.

Thinks Yakima Was Wrong

The retiring president has maintained that President Barnes and officials of the Yakima club broke faith when they refused to come here for the present series. The games were originally scheduled for Yakima but late in March Van Valzah wrote Barnes, asking him to switch the series because of the bankers' convention here late this week, Barnes replying that he was agreeable, providing satisfactory arrangements could be made for the Sunday games. Van Valzah immediately offered 50-50 for the Sunday games or a transfer back to Tacoma and accordingly went ahead with arrangements for the series here. The baseball games were to be a part of the bankers' programme, and the programme was upset when the Yakima officials insisted that the games be played as originally scheduled.

Van Valzah threatened to quit Monday when informed of the Yakima club's refusal to come here, and when it was announced that the Tigers would go to Yakima he was more than wrought up.
Yesterday when the Pacific International League meeting convened at the Tacoma Hotel, Van Valzah was

present. Several weeks ago he had tendered his resignation as a member of the league board of directors, and that action was ratified at the meeting yesterday.
Frank Scooby, former club president and treasurer, was elected to the board of directors in Van Valzah's place.
No action has been taken by the club directors on Van Valzah's resignation, but a meeting will be called at once.
The voluntary resignation of Earle J. Harrison, president of the Yakima club from the league board, was also unanimously accepted by the directors. His successor has not been named. Barnes took issue with President Lewis H. Burnett over his recent decision in the Heid-Blankenship-Dempsey fracas in Yakima, and in haste Barnes wired in his resignation along with a curt telegram. Burnett shot right back at Barnes, declaring that his resignation would be gladly and immediately accepted. Barnes did not quit the Yakima presidency as he intended to do, because the club leaders refused to accept his resignation, but his league resignation was not acted upon, the directors standing behind President Burnett.
Fine for Players.
Owing to the fact that a number of players have been troublesome of late to the extent that they had to be put out of games, a ruling was passed placing an automatic fine of \$5 on every player ejected from a game. An automatic fine of \$25 for every player who appears in the grandstand in uniform will also be imposed. This rule was passed to prevent players going into the stands after they are ejected from games.
Other matters pertaining to league business and of little importance to the fans were also taken up.
Manager Charlie Mullen collected his Tigers yesterday noon and at 3:25 o'clock they left for Yakima to engage the league leaders in the series.

Lacrosse Match Will Be Played To-morrow

Vancouver Will Be Here For Second Match of Season—Rivalry is Very Keen and Fans Will See Exciting Exhibition—Victoria Hopes to Turn in First Win—Players All Fit.

There promises to be no end of excitement at the Stadium to-morrow evening when the Vancouver and Victoria stick-handlers clash in their second game before the local public. The ball will be faced off at 7 o'clock and for the next hour and a half the spectators will be treated to one of the most thrilling lacrosse games seen here in many a long day.
Con Jones, promoter of the league, telephoned the Sporting Editor of The Times from Vancouver this morning to announce that the match would be played for sure.
"It's the same old story," said Con. "Vancouver is trying to ditch Victoria, but it'll all be over tomorrow night's game anyway."

The Old Trick

Vancouver is up to its old trick of trying to sidetrack Victoria. The Mainlanders don't want the Capital in the national game at all, despite the fact that it is the best sporting town in British Columbia. Victoria has better record for patronizing sporting events than has the Mainland. In baseball the Terminal City fans talk about a Coast League team and they cannot find more than a couple of hundred fans to witness a game, whereas Victoria never fails to have 600 fans pass through the gate.

HONOR SCOTTISH TEAM

In honor of the visiting Scottish football team a banquet, concert and dance will be given at the Caledonia Hall on June 21. The banquet and concert will proceed together. For the dance Wallace's orchestra has been engaged.

It is expected that a big crowd will turn out to see the battle, which for excitement will excel any previous tussles. Last week the match nearly ended in a riot and the fans got more thrills than they had gambled on. To-morrow's match will be no exception as the rivalry between the two teams is at fever heat at present.

Wants No Champion Prize-Fights Until War Veterans Are Cared For

Congressman Gallian introducing Resolution at Washington To-day; Aimed at Dempsey-Carpentier Fight Which Gallian Says is Repugnant to All Americans Owing to Amount of Money Involved.

Washington, June 8.—Congressman Gallian, Democrat, Massachusetts, announced to-night he would introduce a resolution to-morrow to prevent any "pugilistic contest in any state for the championship of the world," until congress has taken some action "as to a solution of the question of adjusted compensation of the men and women called into the world war service."

The resolution is aimed at the Dempsey-Carpentier fight, he explained, adding that the plans to "settle on United States soil" the championship as to prize fighters, was repugnant to the feeling of all Americans, "because of the great amount of money involved. He said he could see no reason why the prizefighters should be given several hundred thousand dollars apiece by the people, while funds for war veterans were being denied."

BASES AND FAIRFIELDS ARE RETURNED WINNERS

The Bays look to have the running in the Junior Baseball League pretty well to themselves. Last night they kept up their victorious drive by defeating the Wards at Beacon Hill by 13-6. Roskamp pitched the whole game for the Bays, and although hit hard at times, he was never in great danger. Hubbell, Baumgartner for 17 hits, which with seven errors by the Wards, gave them 13 runs. Campbell hit a home run and Kenny knocked out a tripler.

KINGSTON ST. TENNIS

Yesterday's results in the handicap tournament of the Kingston Street Tennis Club were as follows:
Ladies' Singles.
Miss Hickey (owes 15) beat Miss V. Walker, 6-4, 6-2.
Miss Rhodes (owes 30) beat Mrs. Foster (rec. 15), 7-5, 6-1.
Mrs. O'Halloran (rec. 15) beat Miss Johnson (rec. 15½), 6-2, 6-2.
Miss Booten (owes 15½) beat Miss Cass (owes 15½), 7-4, 1-6, 6-2.

Mens Singles.
Parkes (owes 30½) beat Coulter (scratch), 6-1, 6-3.
Witter (owes 15½) beat Cox (rec. 15½), 6-1, 6-0.
Freeman (owes 15) beat A. G. Read (rec. 15½) by default.
List (owes 15) beat Press (owes 15½), 8-6, 6-2.

Ladies' Doubles.
Mrs. Shaw and Miss Rhodes (owes 30) beat Miss Leighton and Miss Ashdown (owes 30), 7-5, 8-6.
Mens Doubles.
Swayne and Robinson (owes 30) beat Speck and Press (owes 15), 6-1, 6-0.
Parkes and O'Halloran (owes 30) beat Witter and Brae (scratch), 7-5, 6-4.
The matches down for decision this afternoon are as follows:
5 p. m.—Freeman (owes 15) plays O'Halloran (owes 30½).
6:30 p. m.—Miss Hunter and Miss Kidner (owes 30) play Misses E. and N. Edwards (owes 30). Miss Fernan (owes 15½) plays Miss Marquet (owes 15½). Collis (owes 15) plays Hall (owes 15).
7 p. m.—Robinson (owes 30½) plays List (owes 15). Miss Peryer and Collis (rec. 15½) play Miss Stinson and Freeman (owes 15).
7:45 p. m.—Miss Cass and Miss Peryer play Miss Fox and Miss V. Walker.

TAYLOR AND BLACK TO FINISH MATCH

Vancouver Pro Is Three Up in Important Competition; Playing on Sunday

On Sunday next the 72-hole match between Dave Black, professional of the Shaughnessy Club, and Phil Taylor, professional of the Oak Bay Club, will be concluded.
In the first 36 holes at the Shaughnessy links, Black finished three up, but it is to be expected that, playing on a course to which he is accustomed, Taylor will be able to make up the deficit.

Spectators Invited

Golfers and interested spectators are invited by the Victoria Golf Club to witness the game, which it is expected will be one of the most interesting ever played over the links.
It is pointed out, however, that owing to the limited facilities for providing lunch at the club house, on this particular occasion, will be reserved for members and their friends.
Lady members of the Victoria Club, who are by practice, excluded from the use of the club house on Sundays, will be permitted to use its facilities on Sunday for themselves and friends.

DARCUS AND MISS SCOTT WIN SPOON COMPETITIONS

R. J. Darcus won the spoon competition held by the United Service Golf Club at the Esquimalt links on Sunday last. He was defeated by the returned winner in the ladies' competition on the same day.
The Vesey Cup competition for ladies will be held on June 17. Entries for this event close on June 17.

AVIATION NEWS

On Tuesday two aeroplanes with fire-fighting apparatus attended a conflagration at Stillwater on the mainland, the incident being the first of its kind in the Dominion.

Recently Victoria was graced with its first non-resident aerial visitor in the person of Ezra Meeker.

An interesting account of the huge dirigible, R-36, built by the Beardmore Aviation Works at Inchinnan for commercial operation, is given in "The Empire Mail", from which the following description is culled.

With this performance, and allowing an ample margin of spare fuel in case adverse winds were encountered, the R-36 would carry: (1) To Stockholm—30 passengers and 2 tons of mail or extra passenger baggage, in 20-24 hours.

His Nineteen Bags. The gas-containing hull comprises a skeleton streamline framework of polygonal cross-section, built of light metallic girders.

Ladies Keep Your Skin Clear, Sweet, Healthy With Cuticura Soap and Cuticura Talcum

HARBOR MARINE COMPANY CROSS-EXAMINED BY PLAINTIFF'S COUNSEL

C. J. V. Spratt resumed the stand today in the action of Clark vs. the Harbor-Marine Company before Mr. Justice Clement in the Supreme Court.

Questioned by W. J. Taylor, K.C., witness denied that the machinery supplied to the Harbor-Marine from the V. M. D. had been scrapped.

Witness refused to attempt to set a figure for the cost on the actual costs owing, he said, to the fact that the Harbor-Marine would have to keep the ships in repair for six months after acceptance by the Government.

Witness admitted that the Harbor-Marine had been given the right to scrap the machinery, but that it had not done so.

Witness signed the ship contract with the Government some while later and became obligated to build the ships.

At this time witness considered it advisable to have the services of a naval architect and secured Mr. Clark as the best man to get at that time.

Witness signed the ship contract with the Government some while later and became obligated to build the ships.

Witness signed the ship contract with the Government some while later and became obligated to build the ships.

HEAVY FINES FOR DRUG POSSESSION

Convictions Net Offenders Stiff Terms and Fines

Wong, Chinaman, charged on remand with being in possession of opium contrary to the Opium and Narcotics Act, was fined \$200 with the option of three months in jail, in the police court to-day.

Peter Goudje, charged on remand with having possession of cocaine, was convicted and sent to jail for three months.

Nip Sung, charged with being in possession of opium, was fined \$25, but dismissed on a further charge of having opium. W. C. Moresby acted for the accused.

Presenting a very smart and soldierly appearance, the Boys' Central School Cadet Corps underwent its annual inspection by Brigadier-General J. M. Ross, C.M.G., General Officer Commanding on the school grounds this afternoon.

Among those who witnessed the inspection were: Col. Beisod, Inspector of Cadets for British Columbia; Col. J. A. Robinson, Major Baptist and Capt. St. Clair.

A rat gnawing her fingers wakened Mrs. Lyman of Belleville, while she was taking a nap.

Lost Money—W. H. Davies, 641 Fort Street, reported to the police to-day the loss of some money at Curtis Point recently. In all \$32 in cash, an American cheque for \$60, and a local cheque for \$25 were missing. The cheques have been stopped at the bank.

APPEAL AFFECTS ASSESSMENT RATE

Court of Appeal Engaged on Important Case Affecting Point Grey

The appeal of the Municipality of Point Grey against the ruling of Mr. Justice Macdonald in connection with the assessment of lands owned by William and Eliza J. Shannon came before the Court of Appeal this morning and is still proceeding.

The land in question lies on both sides of Granville Street and the owners appealed to the Court of Revision against the assessment, claiming that it was too high, as the land was used for agricultural purposes, and under the Act was entitled to a reduced assessment.

The Court of Revision upheld the assessment and an appeal was taken before Mr. Justice Macdonald in the Supreme Court. His Lordship ruling that the Court of Revision held discretionary powers under the Act that the area west of Granville Street came within the Statute and should not be assessed at more than \$25 per acre agricultural land.

At the same time Mr. Justice Macdonald commented that the land was worth far more than it could be considered for agricultural purposes as it was the centre of a beautiful residential district and if subdivided would claim a ready market at a value far exceeding that for which it is now utilized.

The question is as to whether or not the Municipality is imperatively bound by the clause in the Act or whether it has discretionary powers in fixing the assessments. The matter is one of great importance to Point Grey, which, as a suburb, has a great area of land coming within the agricultural category and thus claims the benefit of the reduced assessment provided in the Act but applying only to areas of three acres or over.

The appeal of Fanning Island, Limited, defendants in an action brought by Ramsay Brothers, Limited, of Vancouver, in connection with a shipment of pilot biscuits to Fanning Island during the war, which defendants claimed had reached their destination in a worthless condition, was dismissed yesterday afternoon.

St. Mary's Sunday School—Parents and others interested in Sunday School work are invited to attend a meeting to be held in St. Mary's Hall at 8 o'clock this evening, when important matters in connection with the work of St. Mary's will be discussed.

WIRELESS FOR AUTOS

Installation of Radio Phones With Five-Mile Radius Possible

Every physician owning an enclosed automobile can now equip his machine with a wireless telephone outfit. This equipped doctor would be able to be in constant communication with his home for emergency calls.

An instrument described in a trade paper will work successfully up to five miles and use only a small part of the automobile battery's current. You can hear as plainly as over the telephone in your home when surrounded by conditions of quiet, as is of course necessary over any telephone. It is not necessary to have antennae high up in the air wherever. Experiments have proved that the wires stretched around the top of the automobile were successful in picking the waves out of the air.

It is figured that the wireless telephone equipment can be installed for \$50 or less, or about the price of a new tire or battery.

Received Bonus Quarter—William Batchler, of 148 Esquimalt Road, reported to the police to-day having received a bonus twenty-five cent piece in the city. A number of these spurious coins are said to be in circulation.

NO JOKE! "Smith says that he believes in the survival of the fittest," said Brown. "Yes," replied Jones. "And he is doing his best to convince the world that he is the fittest."

NOW HE'S AN ALL-TIMER Charles Sometime, of Terre Haute, Ind., last week was sentenced to life imprisonment for burglary in Hammond, Ind.

St. Mary's Sunday School—Parents and others interested in Sunday School work are invited to attend a meeting to be held in St. Mary's Hall at 8 o'clock this evening, when important matters in connection with the work of St. Mary's will be discussed.

TO LESSEN EFFECT OF FRUIT BAN

Quarantine Experts Declare Australian Measure Too Severe

At this morning's session of the committee of the Plant Quarantine Board, J. W. Eastham, Provincial Plant Pathologist of British Columbia, brought to the attention of the Board the fact that the Australian Commonwealth is barring importations of North American apples, pears, plums, cherries or young stock of these and similar orchard fruits, as a measure of protection against the spread of fire blight, which is widely prevalent on this continent.

Mr. Eastham argued that prohibition of importation of fruit was too drastic a measure, declaring that there was no reason for believing that fire blight was transported by the finished product of the orchard.

Mr. Eastham suggested that the Board should consider making representations to the Federal Government of the United States and Canada to secure the importation of fruit from this continent into Australia when accompanied by a certificate from a qualified government official to the effect that it was the product of districts not infected by fire blight.

for swellings

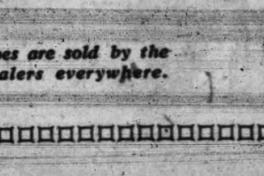

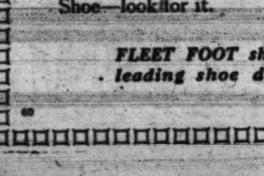

Swellings usually mean inflamed tissue. Absorbine, Jr. gently rubbed on the swollen part will quickly reduce the inflammation, and the swelling with it.

Though powerful, Absorbine, Jr. is absolutely harmless, and can be used with safety and comfort. It is a dependable anti-septic and germicide. Keep it handy.

HARBOR MARINE CASE CONTINUES

(Continued from page 14.)

Mr. Spratt On Stand

Continuing from the luncheon recess yesterday, C. J. V. Spratt took the stand while the examination continued. Mr. Watson, the financial agent of the Foundation Company, stated witness had notified him later that the deal was off, and that the Foundation Company would not buy the V. M. D. Witness notified the other directors, and they wanted to get something started. At this time Mr. Clark and witness had been in close touch while many plans and estimates had passed between them. The naval architect had worked voluntarily prior to December 1 of last year, but then stated he wanted remuneration for his services. Mr. Clark was thereupon engaged as chief engineer of ship construction and not as a naval architect. The terms of remuneration were later arranged at \$225 a month, which were afterwards increased. At this time, stated witness, the Foundation deal was still a possibility, and he felt very nervous and anxious about it, as he felt morally responsible for securing the contracts from the government.

The directors met on January 4, and in the first portion of the meeting discussed their own private business, later Mr. Clark was called in and explained his qualifications and the ship-building scheme. Mr. Clark was introduced to Mrs. Spratt, Mr. Houston and Mr. Dechler, the other directors, at the meeting. He was told that the Victoria Machinery Depot had come to the decision that it would not build the ships, and that witness had decided to carry out the contracts for two steel ships awarded by the government to the V.M.D. One of the purposes of the meeting was to assure the directors that witness had a proper naval architect.

Visits to Adjacent Cities

Then followed a trip to Seattle, when Mr. Clark and witness investigated the ship-building industry there, followed by a trip to Vancouver to examine the same industry, however, Mr. Clark went around alone. On the train between the two cities the witness and Mr. Clark had further talk on the question of salary. Witness told Mr. Clark that he had taken the contracts for the ship on Mr. Clark's 'say-so,' and that witness wanted him to share a portion of the responsibility. Witness made Mr. Clark the offer of \$400 a month, and five per cent. of the profits of the ships.

A Prospective Future

Witness reminded Mr. Clark that he had stated 'there was a fortune in it, and that profits of \$1,200,000 or more might be expected, according to Mr. Clark's estimates, though witness had his doubts about the profits that might be made on the actual work. Witness, stated Mr. Clark, had it in his head that he wanted \$12,000 a year, or \$1,000 a month, and was edging Mr. Clark to a percentage scheme, wanting the cash advances. Witness told Mr. Clark that he did not believe in these high salaries, quoting the case of the American ship-building industry, which was likely to come out of the pockets of the state on the various contracts. Witness told Mr. Clark that he would get \$20,000 each ship at that per cent basis. Witness, too, wanted Mr. Clark to share some of the risk. In the discussion that followed \$500 a month and five per cent. of the profits on the two ships was finally reached as a tentative verbal agreement. This agreement was afterward made in writing, and signed by witness, without noticing the inclusion of the words, 'gross profits.'

Mr. Clark was in close touch, he said, with the organization of the Harbor Marine Company, being one of the directors of which Dr. Lennox, Oscar Bass, and witness had composed the remainder. Witness explained the contracts he held for the ship, and witness in the new company, and became its president. Mr. Clark chose the site at the Inner Harbor, after viewing the ground with the Premier.

Witness had wished to build the ships at Crofton, where there was an excellent site, and the risk of agitators and labor troubles would have been less.

The site on the Inner Harbor Song-Burner industrial area had been leased from the Government on a monthly basis.

Witness Denied the Harbor Marine Company was an alias for the Victoria Machinery Depot, stating these to be two distinctly separate companies.

Banking Arrangements.

Witness told of the banking arrangements whereby in his private business he had made arrangements with the Royal Bank to have a credit of \$50,000 approximately, at that bank. He gave his own paper for this amount in connection with the Harbor Marine, and it would not have

It is the best of all soaps—yet it is more than a cleanser. It disinfects too.

MRS. SELCHERT'S DAUGHTER

Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Horicon, Wis.—"My young daughter had been troubled for several months with backache and a bad feeling in her stomach. She did not want to eat anything, while before she was so hungry she could hardly wait for her meals. The doctors gave her medicine, but it did not help her. One day I was reading a little book of yours and it reminded me that when I was a young girl I took several bottles of Lydia E. Pinkham's Vegetable Compound. So she went to the drug store and got a bottle, and after taking the second one she could eat and has not had backache since. In all she took six bottles of it. She goes to school and on Saturdays helps with the housework. She is a normal, healthy girl now and we recommend your medicine. You have my permission to publish this letter as a testimonial for the Vegetable Compound."—Mrs. Frank Selchert, 150 Larabee St., Horicon, Wisconsin.

Mothers all over the country have found Lydia E. Pinkham's Vegetable Compound to be a most reliable remedy for such conditions.—Adv.

been likely that he would have risked everything if the Harbor Marine and the V. M. D. were the same, and the risk could have been carried by the other monied directors of the V. M. D. equally with witness. He had taken the risk on his own paper and credit. He would not have allowed the endorsement of the V. M. D. to the credit "if it had been the last concern on earth." Mr. Clark was placed in charge of the pay-arrangements to protect his own interest, while Mr. Robertson, witness's secretary, was looking after the interests of witness. Witness had never been in a position to touch a cent of the Harbor Marine money, he stated. He endorsed the notes received by the V. M. D. from the Government over to the Harbor Marine without taking them from the Royal Bank, and other institutions they came. Witness then traced the growth of the estrangement between himself and Mr. Clark. This had occurred mainly on financial questions and following certain delays in the work, and consequently in the Government payments. Due to the fact that the firm could not install English engines, but had to buy in Canada, and to the delay in handling the boilers, which were placed in the work more than once, the contracts had not been nearly as profitable as estimated by Mr. Clark.

Legal Proceedings Threatened.

This, he claimed, would more than offset the agreement whereby witness was to pay Clark 2 1/2 per cent. at the launching of the Canadian Winner—the first ship launched under the Government contracts. It was planned to launch the ships ready to make steam as soon as they were in the water, but that was not possible. The V. M. D. had done what boiler adjustments and installation had been found necessary, and done the work more cheaply than any Vancouver or Seattle tender received. Mr. Clark was engaged as a common employee, and there had at no time been any subterfuge about his employment, stated witness, in reply to further questions. Mr. Clark had later made demands on witness for \$20,000, which were refused, whereupon Mr. Clark threatened legal proceedings through a solicitor, and was discharged from the employment. Witness stated that he tried to do my utmost to get Mr. Clark to be a reasonable man, but he refused to meet me in any shape or form," concluded witness.

PROFESSOR LECTURES ON "SAUL" POEM

McMaster Dean Tendered Reception by University Women

Professor McLay, Dean of Arts and Professor of English at McMaster University, Toronto, gave his lecture on Browning's "Saul" at the reception given him last night by the University Women of Victoria at the Fossil Bay Road home of the Hon. J. W. de B. Farris and Mrs. Farris. J. W. de B. Farris and Mrs. Farris, of the First Book of Samuel in the Old Testament for the inspiration for his poem. To make vivid the incident and its interpretation as it appeared to him, the poet endowed his characters with traits of personality not before detected by the student of Bible history. Dramatic force, which could not be achieved by the brief Biblical lines, has been gained by putting the narrative into the lips of David.

After the lecture there was a general reception. The rooms of the Farris home were decorated with flowers and great bowls of lilies were placed around the room. The Hon. J. D. MacLean, Minister of Education, attended the reception.

MOVE AGAINST GAMBLING SCHEMES

Hamilton, Ont., June 8.—The Hamilton Methodist conference held its closing session here yesterday, when it was resolved that a strong appeal be made to the Dominion Government with a view to putting a stop to race-track gambling. If the Methodist church as a whole adopts the same policy as that taken by the Hamilton gathering, a big campaign will be launched within the next few months to stop all forms of gambling.

SETTLEMENT BOARD TO SELL BIG FARM

To Dispose of Amiens Farm in Fraser Valley

Amiens Farm in the Fraser Valley, where the Soldier Settlement Board has trained 500 returned men as farmers, is to be sold this Fall, according to an announcement made by officials of the Board to-day. Tenders for the property will be received up to noon August 1.

The Amiens Farm, formerly called the Hygienic Dairy, is situated at Matsqui and is one of best known, largest and best equipped dairy farms in the whole of the Fraser Valley. The property consists of approximately 550 acres of rich land, 300 acres of which is now in crop and the balance in pasture. On the farm is a comfortable residence, a large exercise shed, a hay and silo barn and four cottages.

The British Columbia Electric Railway's line runs through a portion of the farm, the Canadian Pacific Railway Company has a station two miles distant, the Canadian National Railway is four miles away and there is a steamboat landing a mile and a half distant.

The farm is well equipped with modern machinery and with it will be sold a herd of the choicest pure-bred stock. Recently the poorest cattle were sold so that the herd remaining is of an unusually high standard. The machinery, horses, cattle, swine and poultry will be offered to the purchaser of the land and building at their appraised value, but will be sold separately.

Manager Carnros, a member of a well-known pioneer family, has been in charge of the farm for some months.

The highest tender on the property will not necessarily be accepted. The terms of sale will be twenty per cent. cash and the balance in nine equal consecutive installments with interest at six per cent. Plans, specifications and further information may be secured at the offices of the district superintendent of the Soldier Settlement Board, Board of Trade Building, Vancouver.

GOSH!

We find this in a Cincinnati newspaper: "Preparations were made Tuesday for the arrival of Sunday next Saturday."
