### COFFEE SUPPLY AND DISTRIBUTION IN PRODUCING COUNTRIES, 1960/61-1983/84

This circular updates Foreign Agricultural Circular Supplement 3-82 published in August 1982.

These data on area, tree population, production by type, trade, consumption, and stocks cover the 24 year period 1960/61-1983/84 on a marketing year basis. Data for 1982/83 are preliminary and subject to revision, data for 1983/84 are forecasts.

Because starting dates for marketing years vary, annual regional and world totals are sums of the data for each producer's marketing year rather than world levels at a particular time. Totals for stocks, for example, are the sum of stocks in individual producing countries at the beginning or end of their specified marketing years (normally when stocks are at or near their lowest annual level).

Some unofficial movements of coffee occur between neighboring producing countries. Because it is virtually impossible to determine the magnitude of these movements, such coffee is listed as production for the country from which it is officially exported.

In a few countries, domestic use data include coffee used for nonbeverage purposes or stocks that have deteriorated or been destroyed. Because data are not complete on area, tree numbers, and average yields, world and regional totals are not shown.

The data series were prepared or estimated on the basis of official statistics of foreign governments, reports of U.S. Agricultural Counselors and Attaches, reports of Foreign Service Officers, results of office research, and related information. These data series will be updated on a regular basis and published in FAS circulars. Area statistics are in hectares (2.471 acres), and supply and distribution data are in 1,000 bags of coffee, green bean equivalent (GBE) of 60 kilograms (132.276 lb.) each.

Information in this circular was prepared by C. Milton Anderson, Horticultural and Tropical Products Division, FAS/USDA, Washington D.C. 20250. Telephone (202) 447-2252.

# Do you need information about

- Overseas markets and buying trends?
- New competitors and products?
- Trade policy developments?
- Overseas promotional activities?

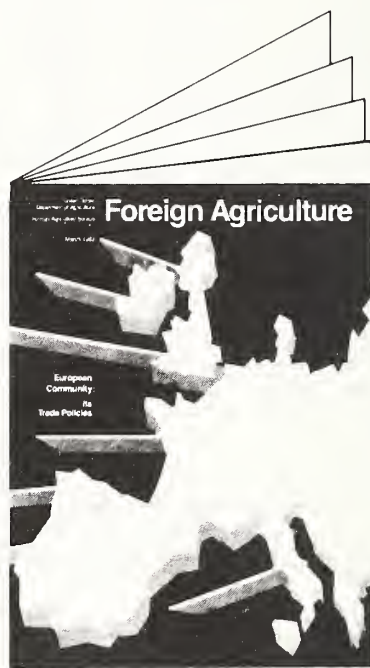

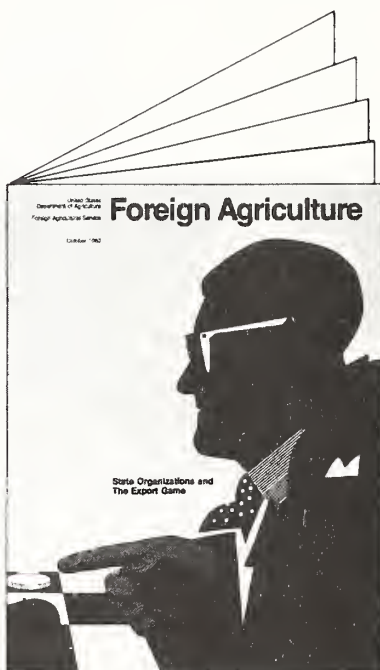

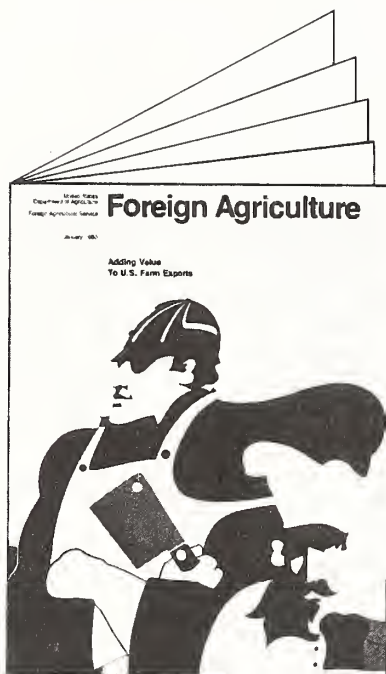

Then **Foreign Agriculture** — USDA's fact-filled monthly agricultural trade magazine — is for you. Based on official USDA data available nowhere else, **Foreign Agriculture** articles are clear and crisp, written to provide the export information you need, in a concise and extremely readable form.

Special information is found in **Foreign Agriculture's** telegraphed, targeted news departments: Fact File, Country Briefs, Trade Updates and Marketing News. And its tables and graphs will give you an immediate grasp of what's going on overseas.

In addition, periodic special issues—such as the one devoted entirely to value-added exports—will give you a wide range of detailed information about overseas markets.

If you use agricultural facts and figures in your business, you need **Foreign Agriculture**.

**Subscribe today! Just \$16.00 (\$20.00 for foreign delivery) brings you Foreign Agriculture for 12 full months.**
